

The Eternal 951

Chapter 951-rolling in

Zi Ling also understood the key point. She knew that the only person who could save ink feather trade union was this mysterious man in front of her.

She knelt down, but the moment her knees touched the ground, she was blocked by a force and bounced up, unable to kneel.

At some point, Yunxiao had come in front of her from a hundred miles away and said indifferently, "Get up. Since you've spoken, I'll kill the entire Xin family to prevent any future trouble."

"?!"

Everyone present sucked in a breath of cold air. They were shocked and thought they had heard wrong.

His wife was also horrified. She had hoped that Yunxiao would stay because she hoped that he could find a way to solve the matter, so that the Xin family would not vent their anger on her. As for annihilating the Xin family, she did not even dare to think about it.

However, the man in front of them did not seem to be exaggerating. It was a pity that his head was covered with a wooden frame, so no one could see his true appearance and expression.

Uncle Nan was also shocked. this young Master's words are too shocking," he said awkwardly. the Xin family is one of the two major forces in Long Valley City. They have been in power for generations.

Yunxiao interrupted him and said, "Where is the Xin family? point me in the right direction."

Everyone looked at each other and felt that it was a little unreal. He really went to the Xin family. Was there something wrong with this person's brain? No wonder he had a wooden frame to cover his head.

young man, it's rare to have some skills, but it's easy to be arrogant and put yourself in danger. I advise you to run away.

A middle-aged man in the crowd suddenly said slowly. He seemed to value the talent.

When uncle Nan saw the man, he immediately exclaimed, "So it's Lord Shuai Xing Chao!"

The Shuai family was another super force in Long Valley City, and they ruled the city together with the Xin family.

The matter here had long alarmed the entire city, and the Shuai family also had many spies observing the surroundings.

it's great that Lord Xing is here," uncle Nan said hurriedly. I hope that you can bear witness to this. You have no intention of becoming enemies with the Xin family!

"Hehe, Xin Tongtong died because of you. Does it matter if you have any enmity?"

Shuai xingchao's words immediately made uncle Nan and all the people of ink feather merchant Association feel like they had fallen into an abyss.

That's right, the second young master was already dead. Even if there was nothing to do with it, with the Xin family's ruthless style of doing things, there was no way they would let him off.

Despair appeared in her eyes. She couldn't stand still and her body was on the verge of collapse. The Chamber of Commerce that she had worked so hard to build for so many years was going to be destroyed.

Shuai xingchao threw out an invitation and said to Yunxiao, "young man, I can see that your cultivation should be at the level of a two-star Martial Emperor, and what's more, you're very young. Today's matter can be said to have pierced through the sky. However, if you're willing to join my Shuai family as a guest elder, I can take on the responsibility for you and ensure the safety of ink feather merchant Association.

Shuai xingchao's words immediately ignited the hope of the entire ink feather merchant Association. At this moment, only the Shuai family could save them.

Although Xin Tongtong's death would bring him great trouble, Shuai xingchao felt that Yunxiao's potential was worth the price.

"M-my Lord, please save us."

Zi Ling also pleaded. She also found that Yunxiao did not care about anyone, but he listened to her a little. It should be to repay her for saving him.

Sure enough, Yunxiao seemed to only talk to her. He said indifferently, " don't worry, I will settle this matter cleanly. Tell me how to get to the Xin family.

Everyone was stunned. This brat was really stubborn. He really wanted to go to the Xin family to kill people. Wasn't this simply sending himself to his death?

Shuai xingchao also felt an inexplicable anger. He had the heart to cherish talents, but the other party ignored him. Such contempt immediately made him feel ashamed. After all, he was an important figure in Long Valley City. He immediately sneered,"Good, good, you really don't know the immensity of heaven and earth. I'd like to see how you die today!"

He flicked his sleeve and stood aside coldly, watching the end of Yunxiao and ink feather trade union with a sneer.

The people of ink feather merchant Association were deeply worried when they saw that Shuai xingchao was angry. They didn't know how to solve the mess of the Xin family, and now they had angered the Shuai family.

Zi Ling stood there in a daze, not knowing what to do. She couldn't point the way, and she couldn't not point the way. She could only turn to her wife for help.

A dark cloud suddenly appeared in the sky, rolling over and immediately covering the bright sky.

A cold voice pierced through the clouds and said, "There's no need for Your Excellency to come. My Xin family's people have delivered themselves to your door for you to kill!"

Although Long Valley City was large, the Xin and Shuai families had ears all over the city. The news of Xin Tongtong's death was immediately sent back to the two families. Xin zuoren, the patriarch of the Xin family, was stunned for a moment before he flew into a rage. He counted the experts and swept over.

For a moment, the sky was sealed by an invisible Qi. The people of ink feather trade union looked desperate. The murderous aura in the sky made it hard for them to breathe.

Yunxiao raised his head slightly, and the crowd only saw the wooden frame tilt up. Now you regret it, but it's too late to leave.

Many martial artists were trembling under this pressure, almost kneeling down.

is everyone here?" Yunxiao asked.

Everyone was sweating profusely, and the atmosphere of fear had faded a lot.

"Hmph! As expected, you're a damned piece of trash!"

Dozens of figures gradually appeared in the sky. The leader's eyes were like a tiger's, and two extremely sharp rays of light stared down. When he saw his son's body on the ground, he immediately wailed, "My son, you've died so miserably!"

No matter who it was, the death of their son would not be good, even if it was a hero.

Xin zuoren's grief-stricken appearance turned into a monstrous anger, and the clouds in the sky seemed to be on fire.

Shuai xingchao's face slightly changed, and he retreated a hundred meters away, afraid that he would be affected by the Xin family's anger. Since Yunxiao did not appreciate his kindness, there was no need for him to get involved.

I heard that your son is unpardonable," Yunxiao said. he has tortured and killed at least eight thousand innocent girls. Doesn't he deserve to die?"

Behind Xin zuoren, a man who also looked like a Toad walked up and coldly shouted, "It's their fortune to die in my second brother's favor. My second brother was kind and blessed everyone, but he ended up in such a tragic death. It's not too much even if I cut you into a thousand pieces!"

Yunxiao,'hehe'.

He had always felt that he was a scoundrel and a ruffian, but today he realized that he was actually a gentleman. Young master Xin's words were very funny, but no one dared to laugh. They all had serious expressions.

A smug smile appeared on young master Xin's face. There was no trace of sorrow on his face at all. The relationship between the children of great families was extremely cold. let me avenge my poor brother!

A long sword appeared in his hand. After unsealing it, it immediately transformed into a giant and came down from the sky with a shout. With a tap of his foot, he stepped directly on the sword and followed it down. His hands formed a seal and he pressed it out at the same time.

Xin Tongtong's death was definitely a great thing for him, especially when it was rumored that Xin Tongtong had advanced to the rank of martial Supreme, which made his bedroom even more uneasy. At this moment, he was very grateful to Yunxiao, but he also needed Yunxiao's head to win his father's favor.

A hammer gradually materialized in Yunxiao's hand, growing larger and larger. Bolts of lightning crackled on it as he threw it out!

All the Martial Emperor powerhouses 'pupils constricted and their hearts jolted. The immense pressure from the hammer made them extremely shocked.

...

A line of Maha ancient text appeared on the hammer, and it immediately smashed down on the huge sword.

Young master Xin suddenly realized that he had brought disaster upon himself. In an instant, he felt as if there was nothing else left in the world other than this hammer. And he would be a Grasshopper under this shocking hammer.

“No! Please spare me!”

Young master Xin didn't use all his strength to defend, but instead, he used all his strength to beg for mercy.

“Bang!”

The huge hammer smashed down from the sky, and young master Xin's screams were drowned out by the sound of thunder. After a flash of lightning, a completely black human charcoal fell to the ground.

His sword had also been smashed out of shape, and it fell beside him like a piece of scrap metal.

This sudden turn of events stunned everyone, and they all stood there with their mouths wide open.

Ji Ziqi's body trembled. He had participated in the joust for a spouse event in the red moon City, so he immediately recognized the hammer. He was so shocked that his face turned pale. He immediately understood who the person in front of him was.

He was so excited that his face turned red, and he even started to dance.

His wife was shocked. She thought her son had gone crazy, so she quickly pulled him aside.

...

"I'm furious! Damn it, my son!"

Xin zuoren was suddenly shocked and roared in rage. The killing intent on his body was about to burst as he repeatedly shouted, "Kill, kill, kill! Kill them all!"

Yunxiao caught the hammer that fell back into his hand and said indifferently, "Good, I don't have the time to kill them one by one."

The faces of all the martial artists in the street changed as they fled in all directions in horror. The lowest cultivation level among the martial artists who had come to kill them was a martial Supreme.

Yunxiao performed an incantation gesture with one hand, and streams of sword intent shot out of his body and took the shape of swords around him.

The million sword illustration appeared in the sky above him. Nine Northern heaven cold star swords were formed, exuding a terrifying sword intent that enveloped all the martial artists in the sky!

"?! This is Yingluo."

In the distance, Shuai xingchao sucked in a breath of cold air and was extremely shocked. Many martial artists who had been to the red moon City were stunned for a moment, but they immediately recognized the sword force and were shocked.

"It's him, it's really him!"

Ji Zigu was so excited that he couldn't control himself. He kept muttering to himself, and his eyes were shining with admiration.

After recovering from her shock, she frowned and said, "Who is it? My son, do you know who he is?"

li Yunxiao! his son said excitedly. he's the number one rising star, the one who made a name for himself in the battle in Red Moon City and defeated the king of the sea tribe!

Everyone was shocked by his words!

Chapter 952

952 Only a martial Supreme

The nine Swords sword picture formed in the air, and the sea of sword Qi spread out, filling the sky with a rain of swords.

sword cloud rain! Yunxiao murmured. sword cloud rain!

Under everyone's shocked gazes, the entire sky was covered by his sword Qi. There was nothing else in the world except for a huge sword talisman and a sky full of sharp swords.

The martial Supremes in the sword diagram could not even withstand a single blow and exploded on the spot. The low-level martial sovereigns also looked horrified and struggled to hold on. Many of them were seriously injured.

"Bang! Bang!"

The two sword shadows pierced through the two low-level Martial Emperor powerhouses and they died on the spot.

Yunxiao just stood quietly in the street, one hand in a sword incantation gesture, allowing the sword Qi to dance in the sky. If not for the wooden frame over his head, he would have been able to enjoy the scene.

After the shock, the people of ink feather merchant Association finally revealed a look of joy, as if they had seen a ray of hope.

Zi Ling was even more stunned. Although she had never seen the battle in the sky above Red Moon City, she was there at the time. As a martial Lord, she had also felt the earth-shaking essence energy fluctuation spreading throughout the city. After the incident, Yunxiao's deeds were spread all over the streets, and he had become a peerless figure in her mind. But never in her dreams did she expect that the person she had saved so casually would be the world's most famous and the most powerful man of the younger generation.

Her current mood was indescribable, or rather, she was not in any mood at all. She was just standing there in a daze.

Mrs. Yi found it hard to think. She was calculating quickly in her heart how she could make the best friend with Yunxiao. Of course, she was sure to give Zi Ling away, and she had also made plans to transfer the resources she had planned to contribute to Xin Tongtong.

Shuai xingchao was also shocked. He finally understood why the other party was so arrogant. He had always thought that this kid was young and naive, but he really had the capital!

Such a peerless figure, even the seven super forces would fight to win him over. It was laughable that he wanted to recruit him as a guest elder. How embarrassing.

He couldn't help but smile wryly. At the same time, his eyes were filled with joy. The Xin family had provoked this person, and it was likely that they would not have a good ending. This might be a great opportunity to change the power structure of Long Valley City.

Xin zuoren was finally shocked. He immediately understood that he had encountered a tough bone. Under the rain of swords, the entire Xin clan's mainstays had been killed.

"Bastard, stop!"

He roared and rushed down from the sky. A small umbrella appeared in his hand and he opened it.

A large number of beautiful patterns appeared on the umbrella and spread in the air. A defensive barrier was opened, protecting the Xin family Warriors who were still alive.

With a sneer, Yunxiao changed his hand seal, and the sword talisman in the sky changed as well. The rain of swords that filled the sky instantly condensed into the shape of a huge sword, which slashed at the small umbrella!

Xin zuoren's face was filled with shock. His hands quickly formed seals and directly hit the umbrella. The umbrella immediately changed. It took on a myriad of colors and became extremely sturdy.

“BOOM!”

The sword-shaped object slammed into the umbrella and actually shattered, turning into a sky full of light and shadows.

Yunxiao frowned slightly, then looked at the small umbrella in surprise. It seemed to be much more powerful than he had expected.

Shuai xingchao's voice was transmitted over, “Lord Yunxiao, this umbrella is called the origin parasol. It's an extremely famous ninth-tier defensive profound artifact and is very famous in the entire Eastern Region.

Yunxiao turned his head slightly, and the wooden frame also turned toward Shuai xingchao. The latter showed a friendly smile, obviously wanting to make friends.

Yunxiao changed the incantation gesture in his hand, and the divine realm tablet flew out of his right hand, emitting a brilliant light. The earth and territory spread out, and the infinite gravity gathered on one point and smashed toward the umbrella.

No profound level weapon could withstand the pressure of infinite weight. After the small umbrella had held on for a moment, the gravity was still being endlessly derived. The intersection of the two profound level weapons became a singularity. The surrounding space revolved around this singularity and was twisted out of shape, beginning to break apart layer by layer.

“Stop!”

Xin zuoren was shocked. His eyes almost popped out of their sockets as he watched in disbelief as the light on the small umbrella was broken layer by layer. He was on the verge of collapsing.

Such a situation had never happened before. Even a high-level Martial Emperor could not break his Yuan yang umbrella without a powerful profound level weapon, but Yunxiao had done it.

Xin zuoren's heart was overwhelmed with shock. This Supreme yang umbrella was the flesh and blood of his heart, even more important than his son. If it was broken, only God knew if it could be repaired.

young master Yunxiao! he called out hurriedly, " hurry up and help me! Let's talk this out!

Yunxiao turned a deaf ear to it. A few incantation seals flew into the divine realm tablet, and its weight increased even more rapidly. Finally, the defense of the Supreme sun umbrella was completely crushed, and a deafening noise was heard.

"BOOM!"

The umbrella crumbled into a skeleton in the air, and a large number of Xuan artifact fragments flew and scattered in all directions.

This time, everyone was shocked. Everyone was stunned, including Xin zuoren himself. He had never thought that his Supreme yang umbrella would actually break.

Shuai xingchao was even more surprised and happy. He was surprised because he was naturally clear about the power of the Supreme yang umbrella as a member of the Shuai family. It was impossible to break it. He was happy because without the Supreme yang umbrella, Xin zuoren's strength would decline by a large margin.

After breaking the umbrella, Yunxiao did not stop at all. He changed his hand gesture again, and the wind territory spread out. Streams of primordial astral wind appeared in the sky and blew directly at the surviving Xin family members.

Wherever the strong wind passed, the Martial Emperor powerhouses who were already seriously injured immediately turned into fossils and lost their lives in an instant. They fell from the sky and shattered into pieces.

“Ah?”

Everyone’s hair stood on end as they watched the scene. The lives that had fallen were the lives of martial sovereigns of the ninth heaven. Were the scenes in front of them real?

After the Supreme yang umbrella was broken, Xin zuoren immediately tried his best to resist the power of the astral wind. The entire high-end martial force of the Xin family was almost destroyed. Now, only he and another uncle were left. He was a peak five-star Martial Emperor, and his uncle, Xin qusheng, was a six-star existence. Such a powerful force was actually unable to save his own subordinates. He could only watch helplessly as they were killed one by one. His eyes were already about to pop out of their sockets.

“Damn it!”

The two of them shouted almost at the same time. Xin Qisheng’s essence force burst out, and a burst of extreme Qi directly split the power of the immemorial astral wind and hit the divine realm tablet.

Yunxiao pointed a finger at the divine realm tablet, and it returned to his hand as he said indifferently, “There are two left. It’s a little troublesome.”

“No matter who you are, you will die today!”

Xin zuoren clenched his fist and threw a punch from the air. He shouted, “Strength can overcome ten techniques. Even martial sovereigns aren’t trash. It’s useless no matter how you transform!

“I’m a piece of trash,” Yunxiao sneered. “What are these dead people of your Xin family?” “Shit?”

The thousand Autumns tyrannical saber appeared in his hand, and he immediately cut a path through the fist radiance as he soared into the sky.

Xin Qiusheng had been waiting in the sky for a long time. He closed his five fingers together and chopped down like a hand knife. His power was even greater than Xin zuoren's.

Yunxiao's saber trembled, and the shadow of a corpse puppet emerged as he slashed at it with his saber.

"Bang!"

He was immediately at a disadvantage after the attack and was sent flying backward. Golden light appeared on his body-it was the imperishable golden body that automatically appeared. It absorbed all of the yuan power that had entered his body, and only a part of it was turned into an attack to destroy his body. A line of blood flowed from the corner of his mouth.

...

Everyone around was shocked. No matter how freakish Yunxiao was, it was impossible for him to be fine after taking a palm strike from a six-stars Martial Emperor!

Xin Qiusheng was also shocked and said angrily,"How is that possible?"

Hmph! Yunxiao snorted with a cold smile. just a martial Supreme.

"Only? Haha, you're really shameless!"

Xin zuoren said sarcastically, " I admit that you're very talented, and you have many heaven-defying profound level weapons. However, it doesn't mean that you can become a martial Supreme just because you're talented. There are no lack of amazing geniuses in history, but there are also many geniuses who are stuck outside the threshold of a martial Supreme.

since you think so highly of the realm of a Nine Heavens martial sovereign, I'll make it for you," Yunxiao said coldly. be careful, and don't let your eyes fall out.

Xin zuoren was stunned, not understanding what he meant.

No one understood. What did he mean by 'I'll show you'?

Just as everyone was in a daze, a strange phenomenon suddenly appeared in the sky. A red glow filled the sky, dyeing the entire Long Valley City Red.

A strange phenomenon suddenly occurred, and the people in the city were shocked. They ran to the street and stopped to look.

Amidst the red glow, a streak of extremely bright color suddenly came from the sky and struck directly on Yunxiao's head, then poured into his forehead.

...

The wooden frame suddenly shattered at this moment, and a handsome face was revealed. His eyes were like the stars in the sky, his eyebrows were like willow leaves, and his angular face was calm. It was as if he did not care about the unusual phenomenon in front of him and the fact that he had advanced to the martial Supreme realm.

"?!"

Everyone was shocked. They finally understood what he meant when he said, "I'll step in and let you see!"

Who did not prepare all kinds of medicinal pills, essence cores, and auxiliary Mystic artifacts when they broke through to the martial Supreme realm? If they had a sect, it would be their top priority, with all the experts guarding them. But, Yunxiao was so calm, as if he had just ordered a few dishes and was eating them.

This completely changed everyone's view on advancing to the martial Supreme realm. It was rumored that it was the most difficult hurdle in the martial Dao. Many geniuses were stuck at the peak of the

nine-stars martial Supreme realm for their entire lives, unable to make any further progress. In the end, they would regret it for the rest of their lives.

All martial honors would slow down their cultivation after entering the eight desolates realm to lay a solid foundation. Then, they would look for all kinds of natural treasures and elixirs in preparation for breaking through to the martial Supreme realm.

Even so, there were still very few powerhouses who could comprehend the rules of heaven and earth and advance to the nine Heavens martial sovereign realm.

But now, Yunxiao's breakthrough seemed to be easier than advancing to a one-star Martial Emperor.

A question mark appeared in everyone's mind as they asked themselves, "Is this fake?"

But, the powerful aura that kept surging out of Yunxiao's body woke them up. The scene in front of them was by no means an illusion. This guy was really advancing to a martial sovereign!

Chapter 953

953 Breaking through to the Martial Emperor realm

The laws of heaven and earth emerged, and the Emperor aura of the nine Heavens gathered. Yunxiao's body began to flash with golden light.

At this moment, not only was the elemental energy in his body undergoing a qualitative change, but even his physical body was undergoing a subtle change. The imperishable golden body seemed to have begun to leap towards a higher level.

At this moment, Yunxiao had nothing to hide. Once he became a Martial Emperor, the martial intent and Dao heart of a peerless expert would immediately return, and he could fight anyone in the world!

not good! We can't let him become a martial Supreme!

Xin zuoren broke out in a cold sweat. Such a terrifying talent had already brought great fear to Xin zuoren. For thousands of years, when had he ever heard of such a terrifying talent?

Given time, or even just a few years, the remaining two people in the Xin family might not be able to suppress him anymore. Today's battle was the life and Death of the Family!

Xin Qiusheng also instantly came to a realization. A green lizard-like soldier's claw hurriedly appeared in his hand, and he stepped on the strange phenomenon and rushed up. He shouted, "Brahma sea claw!"

Breaking through to the martial Supreme realm was an extremely dangerous hurdle, especially after triggering the heaven and earth phenomenon. If there was even the slightest disturbance, it was very likely that all efforts would be in vain.

However, the most difficult part of the whole process was to trigger the natural phenomenon. As long as he could condense the nomological Emperor Qi, with someone protecting him, and he had prepared various medicinal pills, there would generally be no problem.

Yunxiao had passed the most difficult stage very smoothly-triggering the natural phenomenon. But now, he was going to face Xin qusheng and Xin zuoren, which was obviously a situation of certain death!

Everyone was dumbfounded. They did not understand why Yunxiao wanted to break through to the martial Supreme realm at this time. Even if he was talented and a genius from ancient and modern times, there was no need to take his life as a joke.

Xin Qiusheng's claw came down from the sky, ignoring the power of rules emanating from Yunxiao's body and stabbing directly at his vital parts.

At this moment, apart from the shock that filled the entire place, there were also a few people who were at a loss. They were the people from the Shuai family who were hiding in the dark and peeking.

Yunxiao's heaven-defying talent had also deeply shocked them. If he were to grow up in the future, he would become an extremely terrifying existence. If they could save him now, they would benefit endlessly in the future.

However, the premise was that he could survive under the joint efforts of Xin zuoren and his nephew. Judging from the current situation, the possibility was extremely low.

After all, too many people from the Xin family had died, and Xin zuoren and his nephew were in a desperate state at the moment. If Yunxiao failed to save them, they would surely suffer heavy casualties if they rushed out to block the Xin family's attack.

Should he make a move? The people in control of the Shuai family who were hiding in the dark were almost at a loss.

Xin Qiusheng's attack arrived, and the red mist was broken apart, as if it was about to disperse.

If the heaven and earth phenomenon disappeared and failed to condense, it would be a failure.

Yunxiao's face was calm, as if he did not know the seriousness of the matter at all. He stepped lightly on the ground and dodged the attack with extremely strange steps. Then, he raised the thousand-year saber in his hand and slashed it across the air.

"Hmph!"

Xin Qiusheng coldly snorted and changed the direction of his claw, directly blocking the attack.

"Bang!"

As the two weapons clashed, Yunxiao was knocked back repeatedly. His arm glowed with a golden light, dissolving all the force that had rushed into his body.

At this moment, Xin zuoren also rose into the air and descended like a big Bird. In his hand was still the shattered Supreme yang umbrella. Although only its skeleton was left, it still shot out rays of fierce Qi, turning into a sky-covering slash.

Yunxiao pointed at the air with his left hand, and the northern heaven cold star swords flew out and collided with the flying blades in front of him, producing a series of crisp sounds.

“Sword cloud rain!”

Yunxiao performed an incantation gesture with both hands, and the nine Swords condensed into a sword diagram. In an instant, a sea of sword Qi was formed, crushing toward the uncle and nephew of the Xin family.

The people around him were shocked. He was comprehending the rules of heaven and earth while condensing the Emperor Qi of the nine Heavens, but he could still fight calmly.

Not only that, in a situation where he was obviously at a disadvantage, he still wanted to restrain both of them with one move at the same time. He was really arrogant without limits.

Xin zuoren was also mad with anger as he roared, “ arrogance is the reason you’re going to die today!

The umbrella frame in his hand opened and flew out, shooting out countless beams of sword Qi that destroyed all the swords in the sky and then fell directly on Yunxiao.

The yuan yang umbrella was not only strong in defense, but also a powerful killing profound level weapon. It rushed directly into the nine Swords formation, trying to break the sword picture!

Yunxiao’s face flickered slightly, and a faint sword light burst out of his body. With a point of his finger, two more swords flew out and rushed directly into the sword formation. In an instant, the momentum of the swords changed greatly.

The eleven northern sky cold swords formed a strange pattern in the sky and swallowed the skeleton of the yuan yang umbrella.

Xin zuoren was instantly shocked. The profound level weapon that was linked to his life had suddenly disappeared without a trace, and he could not even sense it at all. Moreover, the sky was completely enveloped by an extremely powerful sword intent, and its aura was still rising.

It was a great burden for Yunxiao to control eleven swords at once. Fortunately, the natural phenomena kept pouring into his body to support the endless consumption.

The Sea of Swords derived from the 11 swords was far from reaching its limit, but it was already the limit of his control. A strange sword rune slowly fell in the center of the sword picture.

The uncle and nephew of the Xin family were shocked. The essence emitted by the sword talisman made them feel a wave of shock.

Yunxiao sighed. This was all he could do with his ability. He clenched his fist and said, "Explode!"

That strange sword talisman instantly bloomed with a golden light, and the eleven swords lit up one by one. A terrifying Sea of Swords revolved around the sword talisman, and a violent force gushed out like a volcano that had just erupted!

"Boom boom boom!"

With the sword talisman and the 11 long swords as the center, a Sea of Swords exploded instantly. Thousands of sword Qi swept across the sky, cutting the entire sky into countless pieces.

"Damn it!"

Xin zuoren gritted his teeth. Even with his strength, he felt abnormally terrifying in the sword cloud that filled the sky. He didn't dare to be careless.

Xin Qiusheng let out an angry roar as he rushed up against the exploding sword cloud, trying to tear Yunxiao into pieces!

After that, Yunxiao frowned slightly and ignored them. Instead, he focused on comprehending the laws and condensing his Emperor Qi.

His long hair fluttered in the air, and his entire body was surrounded by a red glow. In contrast, the uncle and nephew of the Xin family were in a sorry state, and it was difficult to tell who was the stronger one.

Just as Xin Qiusheng's face turned ashen and he was circulating his Qi to resist the sword cloud, an extremely violent attack suddenly came from a distance and came from an unknown angle. It directly bombarded his body, breaking through his protective Zhen Yuan and entering his body, starting to wantonly destroy his body's functions.

At the same time, a huge ball appeared in the sky and fell with a rumble, crushing everything!

"?! Damn it, it was actually the Marshal's prestige! You despicable man!"

Xin Qiusheng shouted at the top of his lungs. His eyes were filled with fear and shock. Upon closer inspection, he realized that the falling object was not a ball, but a huge iron hammer. It had directly suppressed the space, leaving him no way to escape.

At this moment of life and death, all the potential in his life was unleashed. A six-stars Martial Emperor was already an existence that could run amuck in the world. The lizard-like claws were unsealed in an instant and turned into a terrifying beast head that bit at the iron hammer.

...

However, Xin Qiusheng, who had used up a lot of his energy and was injured, was no match for Marshal Wei's full-powered strike. Moreover, the soldier claw was a light Xuan artifact. When it collided with the mountain-like iron hammer, it instantly disintegrated.

"Bang Bang Bang!"

The entire weapon claw was turned into fragments. The huge iron hammer suddenly smashed onto Xin Qiusheng's body, causing him to fall.

"BOOM!"

A huge crater was formed on the ground. It was so deep that the bottom could not be seen.

“?!”

Everyone felt a chill in their hearts. That Xin Qiusheng was definitely going to be turned into a pile of meat.

Xin zuoren’s hand went cold from head to toe. The Shuai family had secretly attacked, and the Xin family was already doomed. He didn’t even care about being angry. He directly turned into a ray of light, flickering with Scarlet blood, and fled at an extremely fast speed.

“Not good, it’s the blood escape technique!”

Xin zuoren! the Shuai family’s people exclaimed in the air. They couldn’t allow Xin zuoren to escape. Otherwise, if a five-star Martial Emperor took revenge, he would be a great disaster.

However, Xin zuoren used an escape technique that burned his blood. Although it wasn’t as freakish as the blood God, it still passed in the blink of an eye. Just as the faces of the Shuai family members turned ashen and thought that they couldn’t catch up, a mirror light suddenly shone over.

...

Yunxiao raised the mirror of evening clouds in his hand, which emitted a warm bronze Light that instantly froze Xin zuoren’s fleeing light, making him pause for a moment.

Even though it was only for a moment, it was enough.

Several people from the Shuai family directly emerged from the void. They stacked all kinds of space-sealing techniques on top of each other and instantly trapped Xin zuoren.

“Pfft!”

Xin zuoren's blood escape had already injured his roots, and when he saw that he couldn't escape, he was instantly filled with shock and anger. He spat out a mouthful of blood, and his eyes were filled with hatred. He stared at the Shuai family members around him and said with hatred, "Our two families have been friends for so many years. You guys are really ruthless!"

The leader of the Shuai family was the family head, Shuai Junwei. He sneered, "So ruthless? If it was your Xin family, would you give up such a great opportunity? I believe that Long Valley City will become even more prosperous under our Shuai family's control, so you can go without worry."

you bastards! Xin zuoren roared in despair, "you're just adding insult to injury! I won't let you off even if I die!"

A terrifying aura suddenly came from his dantian. His body seemed to expand in an instant, and he quickly pounced towards Shuai Junwei!

"Not good, he's going to self-destruct!"

Marshal Junwei was scared out of his wits. Even if the self-destruction of a five-star Martial Emperor did not kill him, he would be half-dead at the very least. In a hurry, the hammer in his hand instantly turned into a small mountain in front of him.

"BOOM!"

Xin zuoren directly collided with the iron hammer and exploded. A shocking might wreaked havoc in the sky, and the martial artists of the Shuai family who had surrounded him were all sucked into it on the spot, not even leaving behind a corpse.

Chapter 954-success

Even Marshal Wei's chest was hit by the force of the hammer. He spat out a mouthful of blood and was sent flying a few hundred meters. His face was pale.

However, there was more surprise and excitement in his eyes at this moment. Although a few martial Supremes had died, their long-time enemies had finally been eliminated at this moment. Long Valley City was finally under the control of the Shuai family.

After calming down a little, Marshal Wei looked at Yunxiao, who was still condensing rules and absorbing Emperor Qi not far away. His mind, which had just calmed down, was once again stirred by a huge wave, and the shock he felt was beyond words.

The process of ordinary people condensing Emperor Qi did not take long, but it was extremely dangerous and critical. Not only was Yunxiao fighting while condensing Emperor Qi, but the process seemed to be going on.

All the martial Supreme powerhouses present looked at each other. They did not know what was going on. They had all been martial Supremes before and had never known that a martial Supreme could advance so easily.

After being stunned for a moment, Marshal Junwei immediately gave the order to search the entire city for the Xin family's remnants. All the direct and branch family descendants of the Xin family were to be killed without mercy. As for the guest elders, if they were willing to switch to the Marshal family, they could live. Otherwise, they would be killed without mercy.

The entire Long Valley City was quickly silenced under the terror of high pressure. The Xin family had been in the city for thousands of years, and had produced countless descendants. If they were all eliminated at once, it would be no different from a small-scale massacre.

However, in the realm of heavenly martial arts, such exterminated events happened every day, so it was not rare.

With the death of Xin zuoren and his nephew, there was no more external interference. Yunxiao stood quietly in the sky, feeling the familiar laws of heaven and earth.

This was the third time he had advanced to the martial sovereign realm in his second Life. The last time, due to his physical injury and insufficient origin power in the ultimate, he had failed to force his way through. If it were not for the great one celestial Qi that had completely healed his injuries, it was likely that anyone else would not have the possibility of advancing in this life.

At this moment, he was already very familiar with this. He slowly gathered the Emperor Qi and felt the changes in the yuan power in his body.

His domain of strength had long been above the Emperor Qi of the nine Heavens. At this moment, the changes in his body did not bring him the slightest surprise. Instead, he frowned more and more, as if he was thinking about something.

Yunxiao performed an incantation gesture with one hand and suddenly transformed into a three-headed and six-armed Dharma idol. The original Dharma idol's eyes were closed and his face was calm, while the other two Dharma idols had different expressions. One of them had a ferocious face, while the other had a kind face.

Furthermore, the incantation seals on his six arms were different, but they were all extremely strange.

Under the ferocious face of the Dharma power, the seals on his hands became faster and faster. Under the cover of the red mist, black Qi appeared and condensed into a ball in his hands. Demonic patterns began to appear on the Dharma power.

Under the other Dharma power, the hand seal did not change. Instead, a ball of soft Emperor Qi was held in the palm of the Dharma power. It was like a beautiful jade, and it mixed with the surrounding red clouds. The Dharma power kept flashing with the color of gold.

Suddenly, Yunxiao's true form opened his eyes and murmured a few strange characters. Demonic runes began to appear on his three heads and six arms, and the Emperor aura that had been lingering around him suddenly changed into a monstrous demonic flame, burning under the red glow.

The eyes of his original form flickered as he slowly formed seals with his hands. Every move was extremely slow but stable. At this moment, the shadow of a black hole seemed to appear behind his three-headed and six-armed Dharma form. It was madly devouring the multicolored light in the sky and continuously growing stronger.

The shadow of the black hole gradually grew larger, turning into a giant that slowly stood up. Its head reached the sky, and its feet stood on the ground. Its entire body was pitch black, but its face could not be seen clearly.

Marshal Junwei's feelings were indescribable at this moment. He looked at the black giant's face with his divine consciousness of a six-stars martial sovereign, but all he saw was an endless darkness that seemed to devour everything. It gave him a sense of horror.

He was not the only one. All the Martial Emperor powerhouses broke out in cold sweat. They were all martial emperors, so why was there such a huge difference between them? He was on the line between life and death, but looking at others was like playing.

It was a pity that The Fiend Lord's clone in Yunxiao's body had turned into the purest energy and was absorbed when the great one celestial Qi washed through his meridians, and The Fiend's consciousness had completely dissipated. Otherwise, if he had seen it, he would have recognized the divine ability as the true fiend Dharma recorded on the piece of metal.

After the black shadow appeared behind him, Yunxiao gradually stopped the incantation gesture. He maintained his posture and let the clouds in the sky gather, while the black demonic aura around him grew stronger and stronger.

A moment later, Yunxiao changed the incantation gesture in his hand, and the huge demonic shadow behind him gradually faded and finally disappeared in the air. The demonic patterns on his body had also receded, and the Emperor Qi of the nine Heavens surrounded his body. The power of rules was evident in his every movement.

All the Martial Emperor powerhouses swallowed with difficulty. Yunxiao's calm and composed movements did not look like he had just broken through to the Martial Emperor realm. Instead, he seemed to be more skilled than them.

At this moment, everyone remembered Yunxiao's words, 'just a martial Supreme'. Now, it seemed that he was indeed a 'martial Supreme' in his eyes!

The entire process of advancement lasted for more than two hours, and the entire Valley was shrouded in a red mist. For a time, it became a hot topic on the streets, along with the extermination of the Xin family.

After a long time, the strange phenomenon disappeared and the sky returned to normal.

Marshal Junwei swallowed, then hurriedly flew up into the air, cupped his hands at Yunxiao, and said with a smile, " congratulations to Lord Yunxiao for stepping into the nine Heavens Martial Emperor realm. Now, there's another great figure who can rule the world in the world!

As a six-stars Martial Emperor and a hero, it was unprecedented for him to flatter a young man who had just stepped into the Martial Emperor realm. However, the military commander did not feel that it was out of place at all.

"Hmph, rule the heavens and earth? It's far from enough!"

Yunxiao snorted coldly, as if he did not appreciate her kindness at all. His eyes narrowed slightly as he looked into the distant sky, as if he could see a familiar figure walking further and further away in the lonely sky.

His eyes flickered with a little light, and that surging mood slowly calmed down.

To him, the path of martial arts had only just begun. In the battle between the ages of earth and the heavens, Tian si had comprehended the power of the world and obtained the ancestral Spirit's return to dust. He was already unrivaled in this world. Even if he could recover to his peak strength from his previous life, he would not be able to win.

The only way was to become stronger!

He would only have the ability to take revenge if he made further progress in his previous life and charged into the legendary ten directions divine realm!

Yunxiao slowly sorted out the things that happened in Red Moon City in his mind. It was very likely that the master of Red Moon City, who had left the divine skill of ten directions on the throne, was no longer his main body, but a puppet controlled by Yue Tong.

However, the moon pupil had never expected that there would be a human who could control the moon pupil and use it. It was because the moon pupil was very difficult to be controlled by humans. Even Gu Feiyang, who was a peak nine-stars Martial Emperor, had become extremely violent and his mind was

devoured by the moon pupil bit by bit. It was only when he obtained the heaven peeking eye technique in the Langya celestial realm that he suppressed the power of the moon pupil and used it for his own use.

Furthermore, Tian si had once said that his life could only continue if he obtained the moon pupil. Although the crux of the matter was still unknown, Tian si would definitely come looking for him again. However, it would be extremely difficult to find him in the vast heavenly martial continent.

Moreover, he didn't know what kind of existence and situation the ancestral spirits returning to the void was. Since it was an existence that created Tian si, it couldn't be simple. However, after so many years, did the sinkhole still retain its will and live? Or was there only his subconsciousness and body left?

Yunxiao had sorted out all kinds of things and all kinds of questions, but he kept them at the bottom of his heart and waited for them to be solved slowly in the future.

The only thing he needed to do now was to become stronger as soon as possible and recover to the peak of his power in his previous life.

hehe, Lord Yunxiao's talent is unrivaled in both ancient and modern times. In the future, he'll definitely be a great figure who can rule the world like a titled martial sovereign. A Nine Heavens martial sovereign is just the beginning.

The Marshal did not blame Yunxiao for his rude behavior, but continued to flatter him with a smile.

He was really shocked by Yunxiao's talent.

Unless you can completely kill him now, he will definitely be an existence you can't afford to offend in time.

If he didn't properly receive the flattery now and left a shadow of displeasure on the other party, the Shuai family would be in trouble when he recalled it after he became a peerless martial sovereign.

As the saying went, one should not hit a smiling person. Yunxiao was not completely unreasonable, so he said, "thank you for helping me just now. If not for the uncle and nephew from the Xin family, I wouldn't have been able to advance to the martial Supreme realm so easily.

Marshal Junwei relaxed and immediately smiled. He said in a clear voice, "Lord Cloudsky is too polite! Even if I don't make a move, how can those two jumping clowns be Lord Yunxiao's enemy? I've long found them unpleasant to the eye, so this time, my Shuai family should be thanking Lord Yunxiao!"

What Marshal Junwei said was true. He had taken this opportunity to unify Long Valley City, and he was indeed very grateful to Yunxiao.

However, the first half of his flattery was a little over the top. Xin Qiusheng was a six-stars Martial Emperor, and Yunxiao had no chance of winning at all, but it would be difficult for him to kill him.

the clown has been killed. If you don't mind, Lord Yunxiao, please come to my humble home for a small gathering. I'll do my best to be a good host," said Marshal Junwei.

what day is it now?" Yunxiao asked with a frown. what day is it?"

...

He remembered that he had an appointment with Beiming Laifeng and the East Sea. He also had the intention to explore the ruins of the Imperial Palace, so he couldn't miss the time.

After Marshal Junwei informed him, he found out that there was more than a month left. This place was also in the Eastern Region, not far from Haitian town. It only took a few short-distance teleportations to get there.

However, he was not in the mood for a tea gathering. He immediately said, "I still have matters to attend to, so I can't stay for long. I'll remember your hospitality, and we'll meet again when we have time."

He no longer paid attention to Shuai Junwei's invitation and turned around to leave. Suddenly, he saw Zi Ling looking up at him from the corner of his eye.

Zi Ling's face was blank, and she stood in the crowd of people from ink feather merchant Association like a wooden man.

Yunxiao stopped, turned around, and said, "Lord Jun Wei, I have a request."

Chapter 955-invitation

I have a friend," Yunxiao said. I hope Lord Junwei can take good care of him.

Marshal Junwei was stunned for a moment before he patted his chest and said, "May I know who Sir Yunxiao's friend is? Please rest assured, Lord cloudsky. As long as your friend is in Long Valley City, no one will dare to touch him unless my Marshal dies!"

thank you for your trouble," Yunxiao said. my friend is down there.

He flew down first and came to Zi Ling. He said to Shuai Junwei, "This is my friend, I'll have to trouble Lord Jun Wei to take care of him."

In this world where the strong preyed on the weak, there were countless girls like Zi Ling. They were even more dangerous than ordinary male martial artists. Once they were unlucky, they would fall into the hands of perverts like Xin Tongtong.

Zi Ling was stunned on the spot. The conversation between the two was not deliberately hidden, and all the Warriors heard it clearly. She did not expect that the so-called friend would actually be her.

Friends

Zi Ling only felt a little dizzy and could not stand steadily.

The number one rising star of the heavenly martial continent, the revered Martial Emperor, and even the Shuai family's master had to fawn over him. How could he say that he was his friend?

Not only did Zi Ling faint, but the entire ink feather merchant Association was also drunk.

Marshal Junwei looked suspicious. Obviously, he didn't know Zi Ling, nor anyone from ink feather merchant Association.

At this moment, Shuai xingchao hurried forward and explained in a low voice to the patriarch.

Only then did Marshal Junwei come to a realization. He patted his chest and said, "In the future, this Long Valley City will be lady Ziling's home."

He then took out a golden token and stuffed it into Zi Ling's hand. "This is the gold token of my Shuai family. Seeing this token is like seeing me in person. There will be no obstacles in Long Valley City, and I can mobilize all the experts in the city at any time. I can kill anyone I don't like!"

Zi Ling was shocked. She shivered and almost dropped the token to the ground. She felt a burst of heat in her hand and it was extremely heavy. She almost exhausted all her strength and could not catch it.

His wife had also completely lost her composure. Even she, who had always been calm and steady, found it difficult to breathe.

Zi Ling might not know the importance of this, but she understood that this was the highest token of the Shuai family. The person holding this token was like the family master himself, it was a real order of power!

It could be said that with this token, Zi Ling would instantly become one of the most powerful people in Long Valley City!

Zi Ling's face was red with anxiety, and she only spoke after a while, "This, this token is too precious. I can't take it."

Shuai Junwei pretended to be angry and said, "If lady Zi Ling doesn't accept it, then you're not giving me face and looking down on my Shuai family!"

Zi Ling put the token away in fear and trepidation. She did not dare to look down on the Shuai family, and she knew in her heart that this great fortune had nothing to do with the Shuai family, but was brought to her by Yunxiao.

She stole a glance at Yunxiao, and her cheeks immediately blushed, her eyes filled with gratitude.

Yunxiao smiled and said, "take this token. It's a little token from Lord Junwei. If you encounter any difficulties in the future, you can come to Long Valley City and ask Lord Junwei for help.

haha, Lord cloudsky is extremely right!

When Marshal Junwei saw Zi Ling accept the token, he was very happy. He laughed and said, "My Shuai family still has a bit of power in Long Valley City, so everyone will more or less give us some face."

thank you, Lord Yunxiao, " Zi Ling said gratefully. thank you, Lord Junwei.

The people of ink feather merchant Association all looked at Zi Ling with envy. They knew that from now on, there was an insurmountable gap between them. Even his wife was surprised and happy. The way she looked at Zi Ling had completely changed.

The other three maidservants were even more envious of Zi Ling's good luck. Originally, they also had such an opportunity, but they had missed it. The opportunity to change their fate had been missed. They were so regretful that their intestines turned green.

Hong Mu gritted his teeth, mustered up great courage, and suddenly said, "Thank you Lord Yunxiao for your concern for my sister Ziling. Have Lord Yunxiao's injuries recovered? However, Sequoia was worried for a few days and couldn't sleep all night. It seems that during this period of time, the medicine that sister Ziling and I gave to Lord Yunxiao every day is still effective. This time, Sequoia's heart is completely at ease."

With a coquettish look on her face, she looked at Yunxiao with a burning gaze and bit her red lip.

Bai Yun and Qing cui both felt a little dizzy. This Sequoia was too eloquent and too good at taking credit for it.

His wife didn't know whether to laugh or cry, and her face immediately darkened.

Yunxiao turned a deaf ear to her, as if she did not exist. He turned to Zi Ling and said, "Many thanks to lady Zi Ling for taking care of me these past few days. If I have time in the future, I will return to Long Valley City to see you."

Hong Shan's face turned white. She knew that she would not have any chance at all. The biggest opportunity in her life was lost. She looked at Zi Ling's eyes, and there was a strong fire of jealousy.

When Zi Ling knew that Yunxiao was leaving, for some reason, she suddenly felt an infinite sense of loss and emptiness in her heart.

She wanted him to stay, but she knew that he would not.

Because he was the world's number one rising star, and she was only a maidservant of ink feather merchant Association. Even if the Shuai family was supporting her at this moment, it was only because of his face. The gap between the two was like a natural chasm that simply could not be crossed.

Thinking of this, Zi Ling's empty heart seemed to feel a little better. She hurriedly smiled and said, "then, I'll wait for Lord Yunxiao to visit me in Long Valley City."

Yunxiao smiled and gently patted Zi Ling's head.

This action was like an elder looking at his child, but when Yunxiao did it, it seemed a little funny. After all, he was only about the same age as Zi Ling.

you're not in a hurry to leave, Lord Yunxiao," Marshal Junwei said with a smile. I have something to discuss with you.

Yunxiao's eyes flickered with a trace of displeasure. He was not in the mood to negotiate with Marshal Junwei, but since he had given Ziling to the Shuai family, he could not turn them down."What's the matter?"

Marshal Junwei chuckled, and as if he was afraid of being heard by others, he sent a voice transmission over," I saw that when Lord Yunxiao broke through to the martial Supreme realm, his body was shining with a golden light. It seems like he has cultivated some kind of body-tempering technique.

Yunxiao's pupils constricted, and the look in his eyes immediately turned fierce.

Although the tyrant body tempering technique had changed a lot in his hands, its appearance was still the same as before. Although not everyone had seen ao changkong's body tempering technique, they had more or less heard of it.

Marshal Junwei was shocked by his gaze and he quickly said," Lord Yunxiao, please don't misunderstand. I have no intention of peeking at that body refining technique. I just have a matter that I want to discuss with you.

Yunxiao knew that he was wrong, so he said indifferently," "What's the matter?"

"Recently, someone discovered a mysterious place more than 300000 miles away from Long Valley City," Marshal Junwei said through voice transmission."According to the investigation, it's the place where a world-famous Almighty transformed. As that place was on the border between Long Valley City and earth Dragon City, the relationship between the two cities was highly tense. I've also negotiated with the major powers of the Earth Dragon City with the Xin family, and we plan to explore that place together."

Yunxiao immediately understood the key point when he heard that. "Are you afraid that the Xin family has been destroyed and you can't fight against the power of the Earth Dragon City by yourself, so you want me to help you?"

Marshal Junwei's thoughts were seen through, and he laughed embarrassedly. "Lord Yunxiao is indeed intelligent. That's what I meant, but I definitely won't let Lord do it for nothing. I saw Lord Yunxiao display a body-refining technique just now, so you're obviously an expert in this area. That Almighty also cultivated an extremely powerful body-refining technique when he was alive. If we can obtain it, it might be of great help to Lord Yunxiao's cultivation."

"Oh? Who was the so-called Almighty? I don't know if I've heard of it. "

Yunxiao had no interest in this matter at first, but when he heard that it was about body tempering, his interest was immediately piqued. After all, he was now completely relying on himself to explore the body tempering art, and he could not see the way forward at all.

that Almighty was an all-powerful existence thousands of years ago, " Marshal Junwei said. his name is Yu Yixian. I wonder if Lord Yunxiao has heard of him? "

...

"What? It's actually him!"

Yunxiao was taken aback, and the look on his face changed several times. But, it seemed that the Marshal's eyes were filled with joy, and he knew that the matter was most likely settled.

Marshal Junwei took the opportunity to strike Chen Yin while he was hot. Yu Yixian was a peerless expert in those days. He was an all-around talent. Not only was his cultivation extremely high, but he was also proficient in sorcery and body techniques. There are even rumors that he has entered the ten directions divine realm. This time, his ascendance land has been discovered. We can find out if the ancient sages have really become gods. But in any case, there was definitely a great treasure inside. When the time comes, I'll let Lord cloudsky choose one of the treasures to be distributed to my Long Valley City!"

At that moment, he became extremely generous. Whether it was for the purpose of asking Yunxiao for help or to get on his good side, this was an indispensable performance. Furthermore, once the Xin family in Long Valley City was exterminated, all of their properties would belong to him. The benefits from this would probably be greater than all the treasures left behind by Yu Yixian.

alright, " Yunxiao said without hesitation. I'll go with you. The sooner the better.

it'll be soon! the Marshal was overjoyed. it's an urgent matter. If it weren't for the sudden change in Long Valley City, I would have been preparing for it. It'll take another four hours at most!

that's good, " Yunxiao said. it's a good idea.

Marshal Junwei immediately began to make arrangements. First, they would annihilate the remnants of the Xin family as soon as possible, and at the same time, they would entertain Yunxiao with high hospitality. At Zi Ling's request, the entire ink feather trade union would be settled.

Yunxiao also took the opportunity to enter the divine realm tablet to cultivate and stabilize his realm. After all, he had just broken through to the Martial Emperor realm, and his current cultivation base and body were far stronger than those of the same level in his previous life.

Two days later, everything in Long Valley City settled down.

In the teleportation zone controlled by the Shuai family, more than ten people were divided into two groups and entered the formation, teleporting three hundred thousand miles away from the city.

...

Chapter 956

956 The mountain wall

As there was no specific teleportation array between the two cities, Yunxiao and the others were only teleported out from an approximate area of more than three hundred thousand miles, and they were still some distance away from their real destination.

Led by Shuai Junwei and Yunxiao, the seven of them soon landed in a deserted place, which was a continuous stretch of barren Valley.

Marshal Junwei took out an astrolabe and started to set the location.

In the vast heavenly martial arts realm, except for the cities where humans lived, most of the places were sparsely populated and vast. If one could not determine the direction, no matter how strong one was, it would be difficult to fly out of this wilderness.

Marshal Junwei pointed at the canyon in front of them and said, "It's in this direction. The distance to the target is less than twenty thousand li."

20,000 miles was an extremely long distance, but it was within a reasonable range for such a general teleportation.

Yunxiao frowned and said, "not only is this Canyon barren, but all the spirit Qi is also barren. It can be regarded as a rare place with scarce spirit Qi in the Eastern Region. Why did Yu Yixian choose to die Here? is the news false?"

Marshal Junwei was stunned for a moment. He started to think and said, it's impossible to say for sure before it's explored, but this place is definitely the place where an Almighty warrior transformed. This has been confirmed many times, but no one has been able to go deep into the hinterlands.

I hope I didn't come in vain," Yunxiao said with a nod.

All seven of them were martial emperors. As they flew along the canyon, the terrain of the entire Canyon appeared below them. Yunxiao kept observing the changes in the terrain, and he could not help but frown slightly.

Finally, on a protruding mountain wall, Yunxiao turned and flew down, landing in front of it.

Looking down from the sky, this mountain wall was like a city wall that stretched across the ground for thousands of miles, with varying heights.

The people of the Shuai family all frowned, expressing extreme dissatisfaction at his sudden departure from the group.

Although Yunxiao had amazing talent and a bright future, he was only a one-star Martial Emperor at the moment. It was already very nice of them to be polite to him, but they did not expect him to keep a straight face all day long and ignore them. Feeling angry, they stopped in the air and snorted coldly.

On the other hand, Marshal Junwei was more open-minded, and his vision was far better than those people. From the timing he grasped when he killed Xin qusheng and his extreme attempt to win over Yunxiao, it could be seen that this man had the mind and bearing of a hero.

“Young master Yun, what’s wrong?”

While the other five men were still standing coldly in the air with disdainful looks on their faces, Marshal Junwei flew down and landed next to Yunxiao, asking in surprise.

Yunxiao remained silent as he gently stroked the mountain wall with his hand. Suddenly, he threw a punch and punched through the wall with a bang, revealing a hole.

haha, Lord cloudsky is indeed formidable, punching a hole in the stone wall with one punch. Impressive, impressive!

A member of the Shuai family in the sky immediately began to sneer. The other people also looked at each other and smiled, not hiding their disdain at all.

Marshal Junwei’s face darkened, and he shouted angrily, ” “All of you shut up! Whoever dares to speak in such a strange tone will have five years of their resources deducted!”

The expressions of the five people in the air immediately changed drastically. They revealed looks of disbelief. They simply couldn’t believe that the clan leader would deduct five years of their supplies because of this.

In any sect, Martial Emperor powerhouses would be provided with unlimited cultivation resources. In other words, they would be given as much as they could use because the importance of a Martial Emperor was self-evident.

If the supply was cut off for five years, it would mean that the Martial Emperor would have to rest for five years and would not need to cultivate for five years. If the Martial Emperor did not fight and Rob or find ways to obtain resources on his own, he would basically be crippled and would be stuck at his current realm for the rest of his life.

Therefore, the five people in the sky couldn't believe that Marshal Junwei would make such a decision. However, with the dignity of a clan leader, the five of them really didn't dare to say anything. However, the resentment and disdain on their faces grew even stronger.

Marshal Junwei also had some complaints in his heart. He did not know what Yunxiao was up to, and he never cared about his face. So, he had to ask again, " Lord cloudsky, did you discover anything? "

Yunxiao wiped his hand on the wall and said, " this mountain wall that stretches across thousands of miles is not formed by the terrain, but man-made.

"What?"

Marshal Junwei's body trembled. He was obviously shocked by this conclusion. He also touched the mountain wall with his hand and asked suspiciously, " how is this possible? it's just as Lord cloudsky said. The spiritual energy here is so thin that it's comparable to the southern mountain range. How can there be man-made buildings here? "

Moreover, the mountain walls that he had touched were all pieces of congealed soil, no different from the entire earth. A small piece of soil would fall off with a light pull.

Yunxiao said, " that's because the surface of this wall has been eroded too much, so it looks no different from the earth and mountains. If you touch the middle of the wall with your hand, you will find that this wall is made of extremely hard rock. This kind of stone is not rare, and it is a sixth-tier material called the luminous flying stone. It can be found in many places in the entire Eastern Region.

During the Big Dipper sect's competition, the largest arena was made of these flying jadeite stones, which already showed the great wealth of the northern scorpion sect.

Marshal Junwei was also from the Eastern Region, so he naturally knew about it. His expression changed drastically, and he cried out in horror, "Lord Cloudsky's meaning is that this mountain wall that stretches across a thousand miles is all cast from Tier 6 Jadelight flying stones?"

Yunxiao also found it a little unbelievable, but the fact was right in front of him. He smiled wryly and said, "That's what I meant."

"?! How, how is this possible!"

no! Marshal Junwei shook his head. if we use sixth-grade stone to build a thousand miles, even the Holy region and the sea of soul formation might not have the financial resources.

Yunxiao flew a few more miles forward and blasted the stone wall open. In the thick stone layer, the heart of the luminous flying stone was revealed.

Marshal Junwei followed them all the way. Although he still didn't believe it, the truth in front of him made him waver.

The other five people also revealed strange expressions when they heard this. They didn't believe it no matter what.

One of them snorted. perhaps the mountain walls here have always been like this. The outside is made of congealed earth, and the inside is made of jadeite flying stones.

Yunxiao turned to look at the man and said, "Do you think that the sh * t in your brain is already inside? you were born like this, with a pig's head on the outside and a bag of sh * t on the inside?"

"You coward!"

The martial artist flew into a rage and was about to flare up, but he was glared at by Marshal Junwei. Marshal Junwei's sharp eyes immediately suppressed his anger.

Lord Yunxiao, " Marshal Junwei said, " could it be that this is a sparkling stone mine vein that was directly exposed from the ground, thus forming such a stone wall that spans a thousand miles? "

although the possibility of what you said is extremely low, " Yunxiao said, " I can't rule it out. However, unless it's a super-large mine, it wouldn't be connected in such a straight line without any chasms in the middle. But if it's a super-large mine, then only an extremely small part of it is revealed. The place we're standing on should be an endless stream of jadeite flying rocks."

Marshal Junwei was shocked, and he couldn't suppress his joy. "It must be, it must be a super big mine! Haha, I'm really rich this time!"

Marshal Junwei felt that he had been taken care of by the heavens during this period. First, he had taken over all the properties of the Xin family, and then he had found such a huge mine, all of which were closely related to Yunxiao. 'It seems that Yunxiao is My Lucky Star. I must build a good relationship with him!'

No matter what, he refused to believe that the mountain wall was man-made. Instead, he thought that there was a super-large mine under his feet.

I'm afraid you'll be disappointed, Lord Junwei, " Yunxiao said with a smile. if you don't believe me, you can try to split the earth all the way.

"Alright!" Marshal Junwei laughed. Let's see if Lord cloudsky's words are correct or if this one's guess is correct."

His heroic spirit reached the clouds as he laughed out loud. A treasured sword that emitted a cold light appeared in his hand. He aimed at the mountain wall and slashed down at it from a distance of several dozen meters.

The sword light directly sank into the ground, and a crack formed, which began to extend into the distance.

"Boom boom boom!"

...

A slight tremor came from the ground. Due to the long passage of time, the parallel mountain walls had also collapsed.

With his sword, Marshal Junwei's sword cut open a few miles and a few hundred meters deep. It was like a gash on the ground, revealing the flesh inside.

The seven of them flew down and continued to fly forward through the crack.

The seven of them were all martial Supremes with extremely powerful divine senses. They had already memorized the material of the Jadelight flying stone and were able to distinguish the stones in the earth vein one by one. However, all of them had extremely grave expressions on their faces.

Flying all the way to the end of the mountain wall, he only occasionally discovered some scattered bits of sparkling flying stone material. This, on the other hand, proved that the mountain wall was man-made, so there were some crushed stones left behind.

This time, the Shuai family's people were all silent. This truly unbelievable thing had happened in front of their eyes.

If this mountain wall was really man-made, then this Canyon area must have been a prosperous place many years ago.

Yunxiao's lips curled into a smile as he narrowed his eyes and said, "Things are getting more and more interesting. The distribution of spiritual Qi in the realm of heavenly martial arts is like the landscape of mountains and rivers, very difficult to change. If there was a prosperous city here a long time ago, it would have been a place with extremely rich spiritual Qi, but now things have reversed and it has become a scarce place."

"I now believe that this might really be the land of Yu Yixian's feathering. He must have discovered something!" He smiled indifferently.

Chapter 957-Wei family

The Commander-in-Chief's face also turned solemn. If Yunxiao's speculation was true, the secret of this place was very likely to be earth-shaking.

The rest of the people also shut their mouths, and their attitude toward Yunxiao improved a little.

The Group of Seven continued to fly forward, and after a few hours, the color of the landscape changed. The original yellow soil gradually turned red, and the entire earth seemed to be burning red, bright and beautiful.

Lord Junwei, " Yunxiao suddenly said. how far are we from our destination? "

Shuai Junwei took out the time-fixing plate and looked at it. "We should be able to reach the outer region after roughly nine thousand li."

outer area? " Yunxiao frowned. what do you mean by that? " Your Scouts didn't even enter the interior?"

Marshal Junwei forced a smile and said, " at that time, the influential families of the two cities were only curious about this place. They sent people to investigate three times. The first time, the Wei family of the Earth Dragon City did it alone. The second time, the Xin family, the Wei family, and the du family of the Earth Dragon City did it together. Those people who were sent to investigate were all dead.

Yunxiao's eyelids twitched as he said in surprise, " "What? They're all dead?"

Marshal Junwei's expression was solemn as he nodded."He's dead. that's why the two cities and five clans joined forces for the third time. Our Shuai clan sent elder Shuai Shanli, a peak four-star Martial Emperor expert, with four other people to investigate. There were more than 30 people from the five clans, and there were as many as nine Martial Emperor powerhouses. However, only four of them managed to survive and leave."

Shuai Shanli wasn't in their group at the moment. He was in another group from the Shuai family, and no one knew where he had been teleported to.

Yunxiao's eyes narrowed slightly. there are so many people here, but none of them have entered the inner area. How did they die? " He died from a restriction?"

The warrior whom Yunxiao did not like earlier snorted coldly and said sarcastically, " "Why must it be a restriction? can't it be killed by demonic beasts? As you can see, the spiritual Qi here is very thin, and even the most powerful restrictions have been reduced to dust after thousands of years."

Yunxiao frowned and gave him a cold look as he said, " "Even a pig like you knows that the spiritual energy here is thin. Would there be a demonic beast stupider than you who would stay here to cultivate?"

"This bi an ..."

The martial artist's face was covered with a layer of ice. He wanted to refute, but he didn't know how to do so. He could only snort and say, " "No matter what you say, the ones that attacked elder Li Shan and the others were demonic beasts, and quite a few at that!"

Yunxiao frowned and looked puzzled.

young master Yun, you're wrong this time, " said Shuai Junwei. this is also a suspicious point that I didn't think of before. The spirit Qi here is so thin, so how can there be so many high-level demon beasts? there are mid-level ninth-level demon beasts just in the outer area. It doesn't make sense now.

Yunxiao frowned and said, " if that's the case, it's really interesting. We're almost there. I'm also looking forward to it. What interesting things did Yu Yixian leave behind? "

Marshal Junwei shook his head with a wry smile. He had learned Yunxiao's character after spending a few days with him. It was this kind of unruliness, as if nothing could make him face it seriously. Under those calm eyes, there was always a sense of vicissitudes that made even him feel palpitations.

They soon arrived at the location recorded on the time-fixing plate. The seven of them stopped in the air and looked ahead. It was a boundless plain with pale red gravel spread out on the ground, without any signs of life.

Yunxiao's divine sense was extremely powerful, and he soon found that there seemed to be something wrong with the space in front of him, and there was a hidden danger.

He pointed his finger in the air, and a ray of light shot out, quickly disappearing in front of him.

the space here is very chaotic," said Marshal Junwei. once we enter, anything can happen. Let's wait for the others here.

Yunxiao nodded and looked up at a certain spot in the sky. "Someone has already arrived. Come out."

Marshal Junwei and the others were shocked and immediately looked in that direction.

A moment later, the space there began to fluctuate and several figures appeared in the sky. They were all wearing the same green robe and all of them had expressions of disbelief.

Marshal Junwei looked at everyone and snorted coldly, "so it's the Wei family of the Earth Dragon City. Is it fun to hide in the void?"

The patriarch of the Wei family, Wei Dongyang, smiled faintly and said, "Lord Junwei must be joking."

Then, his eyes fell on Yunxiao and sized him up. He could not help but be secretly surprised. The young man was so young, but he was already a Martial Emperor. He was so young that it was hard to believe.

He couldn't help but size it up a few more times before saying, "This little brother looks unfamiliar. How did you see that we were hidden in the void?"

can't you just scan it with your divine sense?" Yunxiao said indifferently. are you hiding very well?"

A man of the Wei family snorted angrily. you must be joking. We used a high-grade hiding talisman. No one can detect us without the divine sense of a ninth-tier Alchemist. Are you a ninth-tier Alchemist? ”

let’s not talk about whether I’m a ninth-tier Alchemist or not, ” Yunxiao said. in order to hide from others, you’re willing to use a high-grade hiding talisman that can cover a large area. Your intention is a little strange, isn’t it? ”

Marshal Junwei’s expression also changed. He looked at the Wei family in confusion and said coldly, ” “That’s right. Brother Dongyang, can you explain?”

Wei Dongyang gave Yunxiao a meaningful look, then smiled and said, ” “Everyone is being overly suspicious. After all, this place is a dangerous place. For the sake of safety, we hid in the void. When we saw you coming, we were planning to come out and meet you.”

This explanation was too farfetched, but since the other party was unwilling to say, the Shuai family had no choice.

Oh, ” Marshal Junwei replied indifferently. He obviously did not believe her.

Although they had joined forces to search for the treasure, they still had their own thoughts. Moreover, the Wei family was the first family to know about the existence of this area, so they had the most information about it.

Wei Dongyang saw that Shuai Junwei didn’t believe him and smiled faintly. He didn’t continue to explain and said, ” “There has been news in the past two days that a shocking change has occurred in Long Valley City. Lord Jun Wei and the second young master of the Xin family both took a fancy to a maidservant and fought with each other. In the end, the Shuai family destroyed the Xin family. Is this news true?”

Shuai Junwei’s face darkened, and he said while sweating, ” it’s just a rumor. I didn’t expect brother Dongyang to believe it. Do you want me to look down on you? ”

hehe, I don’t believe these rumors. However, the news that the Xin family was exterminated is true, right? ”

Wei Dongyang's eyes were shining as he stared at Shuai Junwei, not letting go of any expression on his face.

Marshal Junwei was also a sly old fox. He laughed and said lazily, "Long Valley city's matters will be handled by us. Brother Dongyang knows too much and meddles too much. This is not a good sign."

Wei Dongyang cursed under his breath, but he was still smiling. "Hehe, Sir Jun Wei is right. From the looks of it, the Xin family won't be participating in this joint operation."

Seeing that Shuai Junwei didn't reply, which seemed to confirm his thoughts, Wei Dongyang squinted his eyes slightly. No one knew what he was thinking, but then he pointed ahead and said, "This place seems to have become more unstable after our multiple explorations. When we passed by here before, it was hard to notice anything unusual. Now, as long as we pay a little attention, we can find that the space is distorted. This time, we must go deep inside and figure out everything."

this time, almost all the experts from our two cities have come out. We will definitely be able to get inside. Your Wei family knows the most. You have to share more useful information with us.

Sir Junwei, you're being too polite," Wei Dongyang said in surprise. we've already announced everything we know.

Marshal Junwei snorted. He wouldn't believe this, so he said indifferently, "It has been so long, why are there only people from our two families? where are the people from the du family and the Qin family?"

they're eager for quick success," Wei Dongyang said with a smile. they didn't listen to my advice and have already entered.

"What?"

Marshal Junwei's body trembled, and he said in shock, " we agreed to explore together. Why did they go in first? "

Wei Dongyang laughed. I don't know about this little brother. Maybe they think their strength is enough and don't want to work with us.

"Hmph!"

...

Hmph! Shuai Junwei snorted coldly, his expression complicated.

from what Sir Jun Wei said just now, " Wei Dongyang said, " I don't think anyone from the Xin family will come. How about we go in too? "

The Marshal looked into the distance. There were two groups of people, and he did not know why the other group had not arrived.

Wei Dongyang saw his hesitation and asked in confusion, " "Does Sir Jun Wei still have any concerns?"

Just as Marshal Junwei was about to explain the reason, he suddenly heard Yunxiao's voice in his ear. His face changed slightly, and he said, " "No worries. Since that's the case, let's go. We're all newbies here for the first time, so we'll have to trouble you to lead the way."

that's easy, " Wei Dongyang said. we should all work together and advance and retreat together.

After he finished speaking, he stepped into the distorted space with the Wei family. They had only taken one step when their bodies became distorted in front of the Shuai family, and they could only see a few black dots in the distance.

Yunxiao's eyes narrowed slightly as he looked at the scene in front of him and began to think.

Shuai Junwei turned around and asked about the telepathic message.

these people from the Wei family seem to have a guilty conscience, ” Yunxiao said. Lord Junwei, you can leave a message here, and we’ll understand immediately when the other team comes. If there really is a problem, we can coordinate from the inside and outside, so we won’t be forced into a passive position.”

Marshal Junwei’s heart sank slightly. He seemed to realize that this trip would not be simple, and he agreed with Yunxiao’s opinion.

...

He took a step forward and immediately cast a few incantation seals to form a golden circular array that slowly disappeared into the void. He then said, ” as long as the other group of people arrive here, they will be able to find the message I left behind. Lord cloudsky, let’s go.

Chapter 958

958 Red gravel

The Group of Seven immediately stepped into the area in front of them and felt the slight movement in the space in front of them. They realized that they were already thousands of meters away from their original place. The Wei family was waiting for them not far ahead. The seven of them hurriedly followed.

Marshal Junwei said, ” brother Dongyang, after entering this area, I feel like I’m isolated from the outside world. It gives me a very dangerous feeling. I wonder where the du and Qin families have gone.

that’s right, ” Wei Dongyang laughed. it feels dangerous. They should be deep inside by now. From here, the area a few thousand li ahead is considered the outer region. You have to be careful of danger at all times.”

“I said it’s dangerous, and it’s here!” A member of the Wei family suddenly said.

Everyone’s heart trembled as they looked forward. They saw a wild wolf that was half the height of a human standing a hundred meters away. The black and white fur on its body formed a strange pattern. Its eyes were emitting a green light as if it was watching the direction of everyone.

Yunxiao was very curious. He spread out his divine sense and found that the wild wolf exuded an extremely fierce aura in its quiet state. It was an eighth-tier demon beast!

It was no wonder that the Masters of the two cities and four families had all died here. It seemed that it was very likely that there were ninth-order monster beasts in the outer area. However, the spiritual Qi here was thin, so why would these monster beasts exist here?

Yunxiao's eyes narrowed slightly, and his pupils gradually turned into blood moons. The power of the moon pupils spread out as he looked over.

The wild Wolf's body suddenly trembled, and it let out a low " howl ". It jumped back a few meters, lowered its tall front body, and was ready to attack at any time. It looked over in this direction with extreme vigilance.

Yunxiao grew suspicious. With the power of his lunar pupil, he could see through all illusions, so the wild wolf did exist and was by no means an illusion.

The green light in the wild Wolf's eyes became even more intense, and a fierce light flashed. As if it had sensed something, it growled a few times in a low voice, then suddenly turned around and ran away. After a few flashes, it disappeared in front of everyone.

"Eh, why did he escape?"

A man from the Wei family revealed a suspicious expression and said, " "According to our previous investigations, no matter what kind of demonic beasts we encounter, they are not afraid of us at all. Even if they don't take the initiative to attack us, they will just watch from afar. There has never been a situation where they escape."

This man was the one who had come in to investigate earlier. His name was Wei qiren, and he had a puzzled expression on his face.

"Oh? There's such a thing? why doesn't my Shuai family know?"

Marshal Junwei's face immediately darkened as he said, "Brother Dongyang, you call this information sharing? Such important information has never been revealed."

The Wei family was the first to enter this area to investigate. Before the other families entered, all the information was passed on by the Wei family. As for the previous few times they had investigated, whether someone had died or not, it was completely up to them to say with their eyes closed.

From the looks of it, the Wei family must have hidden a lot of information. Marshal Junwei's expression turned uglier and uglier.

Wei Dongyang laughed. Lord Junwei, you're overthinking. What kind of information is this? this place is deserted, and the demon beasts here rarely see humans, so of course they won't be afraid. Isn't this normal? As for the wild wolf from before, it should have been intimidated by the pressure from Lord Junwei's body, haha."

Hmph! Marshal Junwei snorted coldly. He naturally didn't believe it, and his vigilance was raised to the highest level.

Yunxiao was the only one who knew that the wolf must have sensed the power of his lunar pupil, which was why it was frightened away. These demon beasts with low intelligence, although their spiritual awareness was extremely low, their sensitivity and nature were far above human beings, especially the spirit dog type demon beasts, their sense of perception was even more difficult for human beings to reach.

After that, along the way, they continued to discover many individual demonic beasts. From time to time, they would appear on the ground. Sure enough, none of them escaped. They all watched from a distance. Sometimes, there would be demonic beasts swaggering past in front of everyone, as if they didn't care at all.

After traveling for thousands of miles, Marshal Junwei said coldly, " brother Dongyang, I've seen a few demonic beasts along the way, but none of them were aggressive. They don't seem to be as dangerous as I thought. I wonder where did the ninth-rank demonic beasts that attacked us go? "

Wei Dongyang's face also revealed a suspicious look as he muttered, "It's indeed strange. Could it be that the du and Qin families have eliminated it? It doesn't look like it. There were no signs of a fight along the way."

Suddenly, Wei qiren cried out in alarm. He pointed ahead and said in fear, "Wind, that black wind!"

A Black Whirlwind suddenly appeared on the red gravel, blowing forward at an extremely fast speed. In front of them, a huge Scorpion-like demonic beast was entrenched on the ground, and it suddenly started to run away madly.

However, as soon as the giant scorpion moved, black wind caught up with it. After it swept across the sky, the giant scorpion disappeared without a trace. It was as if it had never existed.

After the black wind swept away the Scorpion, it blew in a parallel direction for a few hundred meters before gradually dissipating.

"This Tao Wu, what about the giant scorpion?"

Cold sweat broke out on Marshal Junwei's forehead. This was too strange. It was completely Gone with the Wind? He had noticed that giant scorpion long ago. It had peak tier 8 strength!

Wei Dongyang's face was also a little pale as he said, "This black wind is the most common and dangerous thing in this area. It seems to contain the power of space, and anything it touches will disappear."

Wei qiren licked his lips. actually, the most dangerous thing isn't the black wind. It's a red demonic beast that's mixed in with the sand on the ground. It also has the effect of shielding divine sense, so it's impossible to tell it apart. You'll fall for it if you're not careful.

Suddenly, Yunxiao reached out his hand and beckoned. A fist-sized red sandstone on the ground immediately flew into his palm.

He clenched his five fingers but didn't touch the stone. Instead, he controlled it with Emperor Qi and said indifferently, "Is this the type of demonic beast you were talking about?"

Wei qiren's expression immediately changed, and he said in horror, "Yes, yes, this is the thing! You ... You can actually tell?"

Everyone was shocked. When Yunxiao grabbed it from the air, they thought it was just a stone, and when they used their divine sense to scan it, they found that it was no different from an ordinary stone. But now, when they looked carefully with their naked eyes, they found that the stone was constantly moving and emitting a red light, as if it was trying to break free from Yunxiao's control.

Fear appeared on Wei qiren's face as he said, "This type of demonic beast is one of the few that we've discovered so far that will take the initiative to attack people. It's also very difficult to deal with, and it seems to have an immortal body. If you crush it, you can still return it to its original state!"

Yunxiao frowned slightly. He had also discovered that this sandstone-like thing should be the same species as the stone beast, but they were distant relatives. However, its self-healing power was the same.

"You said that this thing is aggressive?" he asked.

yes," Wei qiren nodded. every time such a thing appears, someone from our side will die. Because it's hard to guard against it, it's impossible to discover it with divine sense, and it's difficult to find it in this vast land with just the body."

Yunxiao's face flickered when he heard that. He hurriedly shot out a beam of light from his hand, and a profound level weapon was unsealed in the air.

It was Xin zuoren's Supreme yang umbrella!

Back then, the power of the sword diagram had directly devoured the remaining skeleton of the yuan yang umbrella. After the battle, Yunxiao had put it away and given it to Yuan gaohan to refine it again, restoring it to its original state.

As soon as the item appeared, the first person to turn pale with fright was Marshal Wei. He had seen the umbrella being shattered into an umbrella frame by the divine realm tablet with his own eyes, but how could it be intact now? it had only been two days, and even a ninth-tier Alchemist might not be able to repair it. Besides, Yunxiao had been under his watch for the past two days, and no one had helped him repair the umbrella!

Just as he was petrified, the Supreme yang umbrella opened up in the air. All kinds of patterns appeared on the umbrella, and a defensive barrier opened up, enveloping everyone.

The Wei family members were confused and became alert, thinking that he was about to suddenly attack.

Suddenly, a large number of sand and stones suddenly surged outside the barrier of the Supreme yang umbrella, like thousands of raindrops, " bang, bang, bang ", and fell down. Every one of them shook the barrier, and a red light was emitted.

"?!"

Everyone sucked in a breath of cold air as they looked at the overwhelming light outside the umbrella. Cold sweat broke out on their foreheads.

Those red light attacks were not strong, but suddenly appearing in tens of thousands, no one could resist it!

After a brief moment of shock, Wei Dongyang looked at Yunxiao with a serious look. The latter must have some kind of rare treasure that could detect such existences, just like how he could easily find them hiding before entering this area.

The barrier on the Supreme yang umbrella gradually shrank under the attack of the thousands of red lights, and seemed to be unable to withstand it.

With a calm expression, Yunxiao clenched his fist, and the sandstone in his hand immediately turned into powder and scattered on the ground.

...

careful! Wei qiren exclaimed. it won't die. It'll attack again!

Everyone looked at the pile of powder vigilantly. It scattered on the ground and blew directly into the gravel, but there was no reaction.

"What, what's going on?"

"Y-you killed it?" Wei qiren was puzzled. This, how did you kill him?"

He was completely stunned. They had thought of all kinds of ways to deal with these things before, but they had all returned without success. They were almost immortal existences.

it's nothing, " Yunxiao said indifferently. as long as this thing's heart is broken, it will be completely dead. However, their hearts were extremely thin, like the powder after their bodies were shattered. It was impossible to find them, which created the illusion that they were not dead. I can easily find their hearts and kill them like ants."

"Tao Wu, could it be that your consciousness is this powerful?"

Wei qiren could not help but be shocked. Only those abnormal alchemists with powerful divine sense, who could control any tiny changes among the thousands of materials, could distinguish the heart of this thing.

you're overthinking it, " Yunxiao said with a smile. I've only cultivated my spirit eyes, and I can see some things you can't.

Chapter 959-collecting everything

Everyone suddenly realized and dispelled their doubts. One by one, they vigilantly looked at the red gravel outside the yuan yang umbrella.

The attacks of these stones were not strong, but their suddenness and complexity. As long as they were on guard, they would not be a problem with their strength.

“This little brother doesn’t seem to be from the Shuai family?” Wei Dongyang asked.

Marshal Junwei’s expression turned serious. He didn’t know what Wei Dongyang meant, but he was sure that it wasn’t good.

a guest of the Shuai family, ” Yunxiao said indifferently. I’m here.

Wei Dongyang asked further, “guest?” As far as I know, the Shuai family doesn’t have a guest elder like you?”

Yunxiao sneered and said to the Marshal, ” “Lord Junwei, do we need to report to Lord Dongyang of the Wei family in the Earth Dragon City if the Shuai family has any guest warrior?”

Marshal Junwei snorted heavily. The enmity on his face increased as he said, “Of course not!”

so, you think it’s necessary? ” Yunxiao asked. Sir Dong Yang, do you think it’s necessary? ”

Wei Dongyang’s heart broke out in sweat as he said awkwardly, ” “This little brother must be joking.” He quickly changed the topic. eh? why does this umbrella look a little like Xin zuoren’s Supreme yang umbrella? it looks almost exactly the same.

Yunxiao’s face darkened as he cried out angrily, ” “Wei Dongyang, we are facing a great enemy and danger. As the head of the Wei family, you don’t think about how to defeat the enemy but keep asking this and that. I want to ask, Lord Dongyang, what are your thoughts? If we don’t intend to defeat the enemy, I’ll put away this little red umbrella right now and our two families will part ways!”

He looked fierce but was actually cowardly, and his face was full of anger. He immediately rebuked all of Wei Dongyang’s various probes.

The people of the Shuai family all had cold and stern expressions as they looked at Wei Dongyang. The Marshal's prestige was filled with anger, but his heart was filled with joy and he cheered loudly.

Wei Dongyang's face darkened. Only then did he realize that this kid's tongue was more powerful than his cultivation. He thought he would be the easiest to deal with since he was young, but he didn't expect to get a bite out of him. What are you saying? We naturally have to work together. How long can this little red umbrella last? "

I was angry just now, " Yunxiao said. I've hurt my primordial Qi. I'm afraid I can't hold on for more than ten minutes.

Wei Dongyang wiped his sweat and said, " alright, little brother. You can put away the little red umbrella. I'll use a unique skill to cut out a path to the sky. As long as we cross this red gravel, we'll be in front of a field of barren hills.

"Alright!" Yunxiao said.

He made a hand seal and the small red umbrella closed up, flying back into his hand.

In an instant, an overwhelming wave of sand and gravel attacked, catching everyone off guard.

"Your sister! I asked you to close the umbrella, and you didn't even say hello?"

Everyone went mad in an instant, and cold sweat broke out on their foreheads. They hurriedly circulated their primordial Qi to form an enchantment around them to block the incoming gravel. Their faces were livid, and they wished they could kill Yunxiao with one slap.

Wei Dongyang was also sweating hard. Knowing that Yunxiao was doing this on purpose, he could not care less. With a loud cry, a stream of primordial Qi burst out of his body, pushing away a large amount of gravel. Then, with a wave of his hand, a blue jade ruler emerged and flew into the air.

The Jade ruler turned into a bridge in the air and continued to extend, leading to the other side.

“Let’s go!”

Wei Dongyang shouted, stepped on the Jade ruler, and left.

The green light on the Jade ruler kept shrinking as he left, and a large amount of sand caught up with him at an extremely fast speed.

The rest of the People’s hearts trembled. They also killed their way out and followed the great path bridge opened up by the Jade ruler, flying toward the other shore.

At this moment, the sand that covered the sky and the earth gathered together and turned into two giants that were more than 100 feet tall. One of them stepped forward and chased after the Jade ruler, while the other roared and raised his fists, punching towards the remaining people.

“Bang!”

A few people had just stood on the Jade ruler when the gravel giant’s fist blasted down. The green light on the Jade ruler was reduced sharply, and those people could not stand steadily, teetering on the verge of collapse.

Wei Dongyang was shocked. The people who stepped on the Jade ruler were all members of his Wei family. He hurriedly drew a seal in the air and pointed it directly at the body of the ruler. With his fingertip as the center, a golden symbol was derived from the Jade ruler.

At once, a burst of golden light emerged and shook the gravel giant away. Its huge fist shattered in the air, but it condensed back together in the blink of an eye.

In an instant, the Wei family member who had boarded the Jade ruler had already advanced a few thousand meters and escaped from the dangerous area.

Seeing that it was hopeless to pursue them, the gravel giant turned around and attacked the remaining people.

In addition to Yunxiao and the other seven, there were two other men who had failed to board the Jade ruler. Their faces were pale, and they could not pass through the two gravel Giants.

What made them frown even more was that the gravel giant was getting smaller and smaller as they fought it. The stones on its body kept breaking out, turning back into individual bodies that stopped and flew around in the air. It was even more difficult to deal with.

“Wei Dongyang only cares about running for his life. Everyone, follow me.” Marshal Junwei snorted coldly.

Tens of thousands of rays of light gathered in his hand, and a huge iron ball was suspended by a chain. He held it in his hand, and with a loud roar, he grabbed the iron ball and slapped it forward. Instantly, it swept across the sky like a meteor.

“Bang!”

One of the gravel Giants was struck by the hammer and its chest was pierced through on the spot. The golden light Emperor Qi around the meteor hammer instantly shattered the entire giant into countless stone fragments that shot in all directions.

Marshal Junwei took a step forward and pushed the meteoric hammer in front of him, pushing forward at an extremely fast speed.

The people of the Shuai family were all overjoyed and hurriedly followed behind.

Marshal Junwei turned to the other two Wei family members and said, “The two of you are not allowed to follow me. Otherwise, Hmph Hmph!”

His unkind gaze immediately stunned the two men. The ecstasy on their faces instantly turned ashen. One of them was unconvinced and said, “Lord Junwei, the two families should work together to overcome this difficult time!”

A member of the Shuai family couldn't help but angrily shout, "Hmph, spend your sister's time, did Wei Dongyang care about what happens after we die? Call him to save you!"

Marshal Junwei looked at Yunxiao, signaling him to come over quickly.

"I'll go first, Lord Junwei," Yunxiao said after a slight hesitation. "I'll be right behind you."

what?" Marshal Junwei was stunned. At this critical moment, everyone wanted to leave as soon as possible. Why would someone stay?

When he saw Yunxiao's calm face, he had no time to ask more questions. With a loud cry, he punched the meteor hammer, sending out tens of thousands of golden beams that shattered all the red gravel that came from all directions. Then, he pushed the meteor hammer and flew away at high speed.

The two Wei family members' faces turned pale, but they also followed from a distance. They didn't dare to follow too close or too far away. They were basically helping the Shuai family to cover their retreat.

Yunxiao was indeed the calmest one. The red gravel seemed to not dare to get too close to him, because all the companions who had attacked him were basically dead.

Although the red gravel was not very intelligent, it knew how to seek advantages and avoid disadvantages. When it saw that everyone had fled, it quieted down all of a sudden. Many of them circled around Yunxiao, but they did not dare to attack him.

Yunxiao snorted coldly. His sharp eyes turned into blood moons, and the power of the moon pupils spread out, absorbing all the sand in an instant.

...

The remaining gravel giant was also stunned for a moment. Then, it saw the divine realm tablet transform, and a burst of world power was derived. Like a huge vortex, it sucked in all the red gravel.

The gravel giant let out a low growl and raised its fist to punch down, but a soft sound entered its ears.

“Pupil technique-Helios Luna.”

After that, the gravel giant’s eyes gradually became hollow, and its entire huge body continued to disintegrate and be absorbed into the divine realm tablet.

A moment later, Yunxiao had collected all the red sand that had filled the sky.

The red eyes looked around and made sure that there was no red gravel left. Then, it made an incantation gesture and put the divine realm tablet back into its body, turning into a ray of light and flying away.

After the gourd Little King Kong was half-dead by the ice flame on the rainbow stone, Yunxiao had been thinking about how to save it from that state. Last time, he had obtained a large amount of memory origin gold from the MU family, which could speed up the recovery time of a ninth-tier Mystic artifact body. These red gravel were obviously the same species as the stone beasts, and they had great research value.

As he flew, he did not encounter anything aggressive. In the distance, he saw a yellow wasteland, and everyone was waiting for him there.

As soon as Marshal Junwei saw him, his worry was immediately swept away, and he was overjoyed.

Wei Dongyang, on the other hand, frowned slightly, and a hint of gloominess flashed in his eyes, but he concealed it very well. He went forward very enthusiastically and said with a smile, “Little brother’s ability is indeed extraordinary. You’re able to stay safe by yourself.”

Lord Dongyang is the one with extraordinary skills,” Yunxiao said with a faint smile. you left first, and you’re fine.

...

The smile on Wei Dongyang's face immediately froze. Yunxiao's sarcasm in his face made him extremely embarrassed. As the head of a family and the leader of a region, he had been rudely retorted by a junior time and time again. He was so angry that he had the intention to kill Yunxiao.

Marshal Junwei took a step forward and walked between the two of them, disrupting the cold atmosphere. He squinted his eyes and smiled. "Brother Dongyang, after passing that red area just now, this should be the inner area, right?"

Wei Dongyang put away his killing intent, but the look he gave Yunxiao was getting more and more unkind.

Naturally, Yunxiao did not take him seriously. He was still as calm as ever, with his arms crossed over his chest, as if he would not be nervous even if the sky collapsed.

Wei qiren shook his head. It's not like what Sir Junwei said. The barren land in front of us is the intersection between the outer and inner areas. Only by going over will we truly enter the inner areas. We don't know what happens after this area.

Everyone looked into the distance and felt that the sky was dark. Their divine sense could only circle around this barren land, unable to extend any further.

Chapter 960-scenery with every step

There's something strange about this area, but it looks unusually calm. Sir qiren, please tell me what dangers there are. Marshal Junwei frowned.

A hint of fear appeared in Wei qiren's eyes. Everything we see may not be real. Every step we take changes the scenery in front of us. This is definitely not an illusion.

One step, one scene," Yunxiao said. It's not an illusion? "What's that?"

Wei qiren swallowed his saliva and said, "I can't explain it clearly, but everything is real. Perhaps there is a huge formation here."

Yunxiao's heart skipped a beat as he carefully observed the man. Indeed, he had a strange feeling.

He couldn't help but think of the Four Seasons unique formation set up by the light of the throne on the demon land. Within a radius of a thousand miles, the four poles changed. There was a formation within the formation, and it also achieved one scene with each step, constantly rotating in the four space-time. In the end, if Noah's boat hadn't appeared and its power had overshadowed the eye of the formation, the unaging mountain, he might have fallen in it.

"The other two are missing, but I think there's a high chance they're trapped," Wei qiren said with a bitter smile.

in that case," Yunxiao said, " let's hurry and save them.

Everyone looked at him with disdain, as if they were saying, " if you have the guts, then go save him, you idiot.

Yunxiao smiled indifferently. Under the horrified gazes of the crowd, he took the lead and walked straight over.

Everyone held their breath, shocked by Yunxiao's courage. He had walked more than a hundred meters alone, almost deep into the wilderness, but nothing seemed to have happened.

"Lord qiren, it doesn't look as scary as you said," Marshal Junwei said suspiciously.

Wei qiren's mouth was wide open, and he did not understand. Judging from Yunxiao's appearance, he was indeed fine.

At that moment, Yunxiao was standing alone hundreds of meters away. He suddenly stopped, turned around, and said, " "There's nothing. I can already see the end ahead. Are you all going to wait for me to pass through before you leave?"

The people from the two families exchanged a look. Since someone had confirmed that there was no problem, they naturally became bolder and began to step into the gate one after another, walking toward Yunxiao.

Suddenly, Wei qiren cried out, "Look, why is there a Lake?"

Everyone was greatly shocked and suddenly looked to the right. Sure enough, there was a Lake quietly lying on the wilderness not far away. The sunlight shone on the lake, but it gave people a strange feeling.

The group of more than ten people were all Martial Emperor powerhouses. They had no idea when this Lake had appeared beside them. It was simply unbelievable.

Marshal Junwei's expression turned ugly. "Is this Lake really not an illusion?"

God knows," Wei qiren said bitterly. we've been here several times, but we've never seen this Lake.

Everyone's heart trembled, and they became more and more vigilant. The danger of this treasure hunt might be above everyone's expectations.

"This Lake is real!"

Suddenly, a voice came from behind them. Startled, everyone hurriedly turned their heads and saw Yunxiao standing quietly behind them, looking at the lake with a gleam in his eyes. No one knew what he was thinking.

"Yingluo, how did you get behind us?"

A member of the Shuai family was taken aback, and everyone had a strange look on their faces as they had the same question. They turned their heads and found that Yunxiao, who had been far away from them, had indeed disappeared.

this place is already mysterious enough, " Wei Dongyang shouted angrily. stop playing tricks!

Yunxiao turned around and looked suspicious as he said, " "What do you mean by acting mysterious?"

The man from the Shuai family was stunned for a moment before he said,"You were just a few hundred meters in front of us. How did you suddenly appear behind us?"

Yunxiao's eyes were filled with confusion, and then his face changed slightly as he said, " "You guys saw me in front of you?"

"Of course, if it wasn't for you,"

As the man from the Shuai family spoke, his voice suddenly stopped, and his eyes were filled with horror.

Yunxiao's question had already explained a great problem. No one was a fool, and they immediately understood the situation.

"What do you mean?" Shuai Junwei was shocked. Could it be that the person in front of us this whole time wasn't you? You weren't the one who called us in?"

as soon as I entered this area, I saw the so-called 'one step, one scenery', and I saw the lake in front of you," Yunxiao said in a deep voice. I observed it for a while, and it is indeed real, not an illusion. After that, I saw you guys walking over as well. Furthermore, you guys ignored me and just walked past me, directly walking in front of me. "

"?!"

Everyone sucked in a breath of cold air, immediately feeling cold all over.

what a joke! Wei Dongyang's face was livid as he said angrily, " this joke isn't funny at all!

Yunxiao rolled his eyes at him, and his face grew solemn as he said, " because this is not a joke. Tell me everything you've experienced.

Marshal Junwei immediately explained the situation briefly, and everyone felt their blood run cold.

Yunxiao did not say a word after hearing that, and he fell into deep thought.

Marshal Junwei couldn't help but say, " Lord cloudsky, have you thought of something? "

For some reason, Marshal Junwei felt that Yunxiao was the most reliable one among them. The longer he spent time with him, the stronger this feeling became. It was a natural aura of a King that subtly influenced the people around him.

Suddenly, Wei zihuo, a Wei family warrior, trembled and said in surprise, " "Lord Yunxiao? Li Yunxiao, you are Li Yunxiao! The number one rising star!"

Everyone in the world knew about the battle in Red Moon City. Although no one from the Wei family had participated at that time, Yunxiao's portrait had spread all over the world. As Wei zihuo was in charge of intelligence work, he had felt that Yunxiao looked familiar at first, but he could not remember who he was until now.

All the people of the Wei family were shocked. They naturally knew Yunxiao's name, and even Wei Dongyang was taken aback.

Besides, everyone knew that Yunxiao was a six-stars martial Supreme, and his martial Dao Foundation had been destroyed, making it difficult for him to make any further progress in his life. But now, the strength displayed in front of them was that of a Martial Emperor, which shocked the people of the Wei family.

The battle of the red moon City had only happened a short while ago. Even if he had been a peak six-stars martial Supreme at that time, it was impossible for him to break through to the martial Supreme realm in such a short time.

What made Wei Dongyang even more uneasy was that everyone knew that Yunxiao had a very good relationship with Red Moon City. Although something had happened in Red Moon City and there were undercurrents in it, it was by no means something the Wei family could afford to provoke.

No wonder this brat looked like he didn't care about anyone, and even Shuai Junwei was polite to him.

After knowing Yunxiao's identity, the little bit of killing intent in Wei Dongyang's heart was immediately gone, and instead, he felt a resentment toward the commander's prestige. He knew that this man was a tricky iron plate, but he still watched him walk into it step by step.

Wei Dongyang's tactful face was revealed again as he forced a smile and said, "so, it's the number one of the rising stars. No wonder his strength is heaven-defying. Dongyang's eyes were dim, I hope Lord Yunxiao doesn't blame him!

Wei zihuo also laughed in embarrassment. after the battle in Red Moon City, Lord Yunxiao's name spread throughout the world. I originally wanted to go and see Lord's glory, but after the immortal land closed, the entire Red Moon City was in turmoil, and it has become a place of trouble.

Wei Dongyang gave him an appreciative look. Wei zihuo's words were just right. When he mentioned the affairs of Red Moon City, he could also indirectly speculate the relationship between Yunxiao and the current Red Moon City. If the relationship was not strong, he would not need to be careful.

...

Yunxiao frowned and said, 'a place of trouble? Are you referring to the matter of city Lord Jiang?'

"City Lord Jiang?"

Wei zihuo's body trembled and he said in surprise, "What's wrong with city Lord Jiang? Could it be that Lord cloudsky knows of city Lord Jiang's news?"

After the immortal land was closed, Jiang Churan never appeared again. It was mostly because of the rumors that he had already died. Otherwise, he would not have allowed the four extremes sect to

forcefully enter. However, rumors were just rumors. No one could be 100% sure of the life and death of such a peerless figure without any definite news.

A cold look gradually appeared on Yunxiao's face as he said in a cold voice, "If it's not about Jiang Churan, what do you mean by a place of trouble?"

After he fell unconscious, he stayed in Long Valley City for two days before coming to this strange place. He knew nothing about the changes in Red Moon City.

Wei zihuo was taken aback for a moment, then immediately explained the current situation in Redmoon city.

Yunxiao's body trembled, and his aura spread out uncontrollably. His face was terrifyingly dark as he said, "What did you just say? Tang Qing of the four extremes sect has become the leader of the Redmoon city?"

At this moment, his heart was already in turmoil, and he immediately realized the seriousness of the matter.

With such a change in the red moon City, ning keyue was most likely in trouble. Otherwise, he would never allow such a thing to happen.

A green light flashed in his hand, and a Jade card appeared. It was the life-saving talisman that ning keyue had given him. She had asked him to crush it in times of danger so that the other party could locate him at any time.

...

Looking at the jade pendant, his expression was extremely uncertain. He wanted to press it down and break it several times, but he resisted the urge. Holding it in his hand, he felt that it was getting heavier and heavier.

Wei zihuo was taken aback. He immediately had many speculations in his mind. He asked carefully, "Lord Cloudsky, are you alright?"

The killing intent in Yunxiao's eyes was almost frozen. Even though all the people present were martial sovereigns, they still felt a bone-chilling coldness. Under the monstrous killing intent, they could not help but take a few steps back before they could breathe a sigh of relief.

Yunxiao put away the jade pendant and slowly calmed his mind. After experiencing the matter of the end of time, he had returned to the body of a Martial Emperor, and his mind was calmer than before. "I'm fine."

Everyone gave each other a strange look. Yunxiao's behavior clearly showed that he had something to do, and it was a big deal. He was a typical insincere man.

But, no one was stupid enough to ask. Not to mention that the killing intent Yunxiao had just revealed had suffocated everyone, it was enough to show that his true combat strength was absolutely terrifying. Moreover, this matter concerned Red Moon City, which was not something they could afford to provoke. The smartest choice was to play dumb and not know anything.
