

The First Heir 100

Chapter 100

Lynn and the others watched Nino lead his people into the bar.

This was one of the underground bosses of Riverdale!

The power and capital behind Nino were even more powerful and terrifying!

Kyle was so terrified that he had goosebumps all over his skin. His mouth was trembling as he said, "We have to leave quickly. If Master Nino catches us, we will definitely be dead!"

Kyle was scared out of his wits. He was only fortunate to have seen Master Nino show off his power before!

Harry, who once caused a disturbance in Riverdale, had knelt and spoke in front of Master Nino.

After witnessing this scene, Kyle told himself in his heart that if he were to provoke someone, it better not be Master Nino.

He was too strong!

Moreover, his methods were extremely vicious!

Harry, who had been previously undefeated in the hundred rounds of underground black boxing, did not listen to Master Nino's words and refused to fight with fake punches. In the end, he had his hands and feet broken before getting thrown onto the street.

Jacob also turned blue with fright and stammered to the two sisters, "Lynn, let's go. There is nothing nice to see here. Your cousin-in-law himself is courting death by having provoked Dick Jayson. Now that Master Nino is here, he's done for!"

"Yeah, Lynn. Let's quickly go or else you will be inviting trouble on yourself. Do you really want to go back? If Dick Jayson gets caught, we will all have to work in service to pay back the money."

"Lynn, if you still won't leave, we will!"
