

The First Heir 106

Chapter 106

The power and authority he wielded were beyond the imagination!

Even Nino, to this day, had no idea just how far Master Zach's influence spread.

Once, Master Zach showed Nino just a tiny hint of what he could do, and that was enough to make Nino respect and follow him with all his heart.

There was an A-list celebrity named Elsa Jordan. She was practically a goddess to legions of fans, and she had a lot of say in the world of showbiz as well. Plenty of famous directors and entrepreneurs gave her the best seat at their tables.

Even someone like her had to keep a careful smile on her face when she spoke to Master Zach back then.

Apparently, Master Zach had relationships with many female celebrities in showbiz. There were all sorts of rumors and unwritten rules around him.

The internet was rife with them.

So what happened in the end? Old Master Zach just had one thing to say. "If anyone has anything more to say, I'll deal with you myself!"

Every bad rumor about Master Zach vanished without a trace, as though nothing had ever happened.

All because Old Master Zach was angry.

No one ever dared to make Old Master Zach angry.

The old man had a finger in countless pies all across the country. Even the bigwigs in some very special fields were closely related to the Zachs.

As for Master Zach, he was the youngest in the three generations of the family, Old Master Zach's favorite youngest grandson.

In other words, he was basically royalty!
