

The First Heir 3511

Chapter 3511

Philip was very curious about this too. However, the flames were much stronger than the air currents, and Philip felt that he could barely hang on a couple of times.

Fantasia appeared at this time.

“Philip, take this!”

Following her clear shout, Philip looked up and saw several pills flying toward him.

“Thanks!” Philip reached out, grabbed the pills, and popped them into his mouth.

A surge of energy exploded in Philip’s mouth, and the unfamiliar energy filled his whole body.

With the energy’s nourishment, Philip’s skin and nerves began healing.

Chapter 3512

A bright red umbrella suddenly appeared in Fantasia’s hand.

She threw the umbrella out, and it shattered all the energy chains around her body.

The umbrella continued growing bigger. Drops of light like pollen fell on everyone. The drops of light took root and sprouted on everyone’s bodies, growing branches and leaves.

Everyone was shocked.

Although there were many people with weird skills on this continent, this was the first time they encountered such an odd method.

Those drops of light sprouted with their life energy. As they grew bigger, they absorbed more energy.

Chapter 3513

"If I didn't come out, I wouldn't know that I'm so popular. I'm surprised that I've attracted so many people."

After he said that, everyone stopped attacking and looked at Philip.

"Since all of you want to capture me alive, come on!"

Philip promptly dashed out, but his target this time was not the mysterious force and the heavenly general. He was aiming at the fleet of the ancient Heavenly Court in the distance.

The huge fleet was a good hiding place for Philip.

He had obtained the full inheritance but had not fully digested everything yet. It only temporarily increased all his elements to level 6S. For this reason, he was able to walk in the air with the help of air currents.

Caelum Sword penetrated the hull of the spaceship. Then,

the spaceship fell to the ground with a loud heavenly general felt his anger soaring into the Clarke, how dare you attack my fleet?!" He roared and rushed Philip alive. Their energy chains the fleet of the ancient Heavenly Court aimed at the mysterious technology unfolded instantly. However, it was a three-way battle fought alone, while the heavenly general led the people of the ancient Heavenly Court and its fleet. As for the mysterious force, they also came prepared, so they had elements switched freely on him and caught on the spaceship and connected all the spaceships. Then, the scorching fire element ignited all the vines, and before everyone could react, all the spaceships they were more miserable than the people of the ancient Heavenly Court. That was because when

The First Heir

Chapter 3514

Blasts exploded in the air, and energy lights flashed. That was caused by the clash between Philip and the heavenly general, who became more surprised as the fight went on.

In such a short time, Philip, who was far weaker than the heavenly general, was now able to fight on par with him. This was simply unbelievable.

If Philip was allowed to develop, he would soon surpass the heavenly general. However, the heavenly general had no time to think too much now because Philip was like a slippery eel.

No matter what false or real moves he used, he would retreat immediately.

It seemed that Philip was not keen on fighting. After realizing this, the heavenly general's attack became more aggressive. However, when he was about to use his strongest trump card to kill Philip, the other party ran away.

He suddenly felt as if the punch he threw with all his might had landed on soft cotton.

to kill Philip no matter what. If he allowed such an opponent to grow, it might leave infinite perils for him in the future. Besides,

Chapter 3515

Philip stopped running and turned to face the people of the ancient Heavenly Court and the mysterious force.

"Since you want to chase after me, let me give you a big gift."

After saying this, Philip's body suddenly swelled up and turned into a giant humanoid chimera in front of everyone. Level 6S flames were poles apart from level 5S.

Boom!

A flaming waterfall poured out in an instant.

With his fire element, Philip turned into a huge flaming chimera and crashed into the people who were chasing him. He promptly returned to his normal state and ran into the territory of the fire phoenix royal family.

Blossoms Valley was within the domain of the fire phoenix royal family.

That mysterious force and the people from the ancient Heavenly Court did not belong to the fire phoenix royal family, so such a large-scale intrusion would mean declaring war on the other party. In the end, the people from the ancient Heavenly Court and the mysterious force stopped.

They stood outside the territory of the fire phoenix royal family, not daring to take a chance.

The people of the fire phoenix royal family were notorious for being hot-tempered, especially their phoenix general, who could be regarded as a relatively famous existence among many royal families.

That was because they could risk their lives without any qualms, and the members of the fire phoenix royal family could be reborn from the ashes due to the fire phoenix totem.

Chapter 3516

Philip glanced back. He had nothing to lose.

Seeing that the pursuers had stopped, Philip said, "Everyone, I'm sorry for this inconvenience. Once the people chasing after me outside have dispersed, I shall leave immediately. What do you think?"

However, these members of the fire phoenix royal family did not want Philip to stay.

After all, they were bound by identity and duty here. If Philip was allowed to enter and anything happened, they could not shirk the responsibility.

"Although we really want to help you, we have our duty to perform here. We can only give you one hour. If you don't leave after an hour, please don't blame us for taking action."

One hour was enough. Philip smiled and sat down cross-legged.

His actions seemed as if he had expected this.

He had already taken these people's reactions into account. Although an hour was not a long time, it was enough for Philip to recover a little.

"I'm just staying in your fire phoenix royal family's territory for an hour, yet you want to kill me?"
Philip's questions did not make Kirk feel any guilt. His mind was filled with thoughts of killing Philip and getting the credit.
"One hour? Who permitted you? Let me tell you, even if you stay in the territory of the fire phoenix royal family for a minute, it's a capital offense!"
With that said, a longsword appeared in his hand.
As the captain of the fire phoenix royal family guards, he had a few moves too.
Kirk's body exploded with energy, and eight rays of light glowed.
Philip narrowed his eyes seeing this. 'An eight-star powerhouse!'

Chapter 3518

Seeing this scene, Kirk's expression changed.

He did not expect Philip to explode with such powerful energy at the last moment. However, he was undaunted. After all, in his opinion, Philip was already at the end of his rope.

So what if Philip had received the heritage from the mighty being?

Kirk shook the sword in his hand and charged at Philip.

The sword transformed into a big green snake and wrapped around Philip.

"Even if you've received the heritage from the mighty being, in your current state, you'll only die by my sword!"

However, as soon as he finished speaking, the big green snake transformed by his sword was already severed by Philip's sword. Immediately after, a shadow of a winged snake appeared behind Philip.

Chapter 3519

The shadow of the flying snake had disappeared, but it absorbed Kirk's elemental energy and transmitted it to Philip.

However, the energy was very chaotic, so Philip needed a quiet place to organize and absorb this chaotic energy.

This place looked the same no matter where he went, so Philip found a nearby cave under a small sand dune.

The cave was not big, but it was just right to hide him. Although the energy he absorbed could replenish his strength, Philip was not in a good state right now. Moreover, after such a long battle, coupled with the heritage of the mighty being, there was an overload to Philip's mental limit.

Not long after Philip sat cross-legged in meditation, he suddenly heard the rustling sound of someone walking on the sand dune.

He promptly opened his eyes.

Had the reinforcements of the fire phoenix royal family guards arrived so quickly?

Chapter 3520

Conlay walked quickly. Although Philip felt very tired, he followed Conlay in one direction.

Not long after they left, Philip saw smoke billowing not far away when he looked back. Countless aircraft had arrived at the place where they were hiding just now.

If Conlay had not appeared in time, Philip would be dead by now.

“I have to remind you that those aircraft are very fast. If we don’t arrive at the desert oasis within ten minutes, both of us will be dead” Conlay’s voice was very calm with a hint of disdain toward the fire phoenix royal family.

Philip quickened his pace, but he could also tell that Conlay seemed to have some connection with the fire phoenix royal family.

Judging by Conlay’s expression, the feud was quite deep.

Soon, an oasis appeared in front of Philip with a lake in the middle. In such a barren land, Philip’s spirit lifted at the sight of the oasis and lake.

long, Philip felt a little excited at the sight of greenery and lake
