

## **The First Heir 3541**

### **Chapter 3541**

When Blossoms Fairy heard this noise, she immediately stood on guard and even pushed Philip under the bed.

Of course, Philip refused to hide under the bed and said, "Blossom Fairy, do you plan to let me live under your bed the whole time?"

Blossoms Fairy quickly made a shushing gesture.

Philip opened the door, and Blossoms Fairy realized that there was a civet at her door.

"It's just a cat. You don't have to be so nervous. Now, can you tell me why you reacted that way when you heard that I want the Multidew Herb?"

Hearing Philip's question, Blossoms Fairy explained the reason.

Philip got to know that Blossoms Valley was initially full of life and vitality. This unique condition was the basis for the survival of Blossoms Valley, and they used this condition to thrive in the territory of the fire phoenix royal family.

### **Chapter 3542**

All the women of Blossoms Valley appeared in Blossoms Fairy's room again.

“I’ve told you time and again that no one is allowed to bring a man back to Blossoms Valley. Have you forgotten that?”

The middle-aged woman’s words were fierce with no trace of kindness in her tone. Blossoms Fairy was dumbfounded.

After all, she was wrong in the first place. Her teacher had already said that no one was allowed to bring any strangers, especially men, back to Blossoms Valley.

Now that this had happened, it did not matter that her teacher was questioning her in person as it was a fact that this was her mistake.

“Teacher, I...” Blossoms Fairy could hardly speak.

“Kill him now and maybe I can forgive you!” The middle-aged woman commanded with an air of superiority and looked at Philip with contempt in her eyes.

### **Chapter 3543**

Philip said that calmly, but the middle-aged woman covered her face and began to cry.

Seeing her anguish, although she was not loud, her tone was clearly heartbroken.

She suddenly looked up at Philip and said, “Tell me where that place is!”

Philip chuckled. “You haven’t shown me due respect since the very beginning, so why should I tell you?”

Hearing that, the woman's eyes became erratic.

Like an angry lion, she suddenly rushed toward Philip, and she surged with great energy. It was a strong elemental power.

Everything in the room was destroyed by the energy she exuded, and Philip crashed into the wall due to this impact. He spat out a mouthful of blood that stained the floor red.

However, Philip chuckled and said, "Kill me and you'll never find that place."

## **Chapter 3544**

When Philip opened his eyes again, he found himself on Blossoms Fairy's bed.

Blossoms Fairy sat next to the bed primly. Judging from her appearance, her injury should not be serious.

She looked at Philip while propping her chin up. She looked like a wife waiting for her husband to wake up.

When Philip really opened his eyes, Blossoms Fairy's face suddenly turned red. She did not expect Philip to wake up at this time.

"You're awake..." Blossoms Fairy lowered her head shyly and said.

Philip sat up from the bed and asked, "Yeah... Where's Marigold?"

Hearing Philip addressing her teacher by name, Blossoms Fairy was taken aback.

### **Chapter 3545**

"There should be a piece of land full of Multidew Herb in front of you, but for some reason, all the special herbs not only stopped growing a few years ago but were also completely damaged. What you see now are all the special herbs we currently have in Blossoms Valley..."

Philip was dumbfounded. He never expected this result after going through so much effort.

Only one Multidew Herb stood alone in the medicine garden. Moreover, judging by the yellow branches and leaves, it was almost dying.

"What's going on here?" Philip asked Marigold.

"If I knew, Blossoms Valley wouldn't be in this state now," Marigold said softly with a sigh.

At this moment, something in the medicine garden seemed to nudge Philip's mighty Astrum heritage.

"Can I go in and have a look?" Philip asked.

Marigold nodded without a word.

can help you solve the problem of the medicine garden, but I need to that, Marigold

### **Chapter 3546**

Marigold left the medicine garden. She had nothing much to do here.

Besides, Blossoms Valley was like a labyrinth. Without a guide, one would be lost in Blossoms Valley forever. The only person in Blossoms Valley who could help Philip escape was Blossoms Fairy.

Marigold immediately issued the order to imprison Blossoms Fairy and told the latter that she would not be released until Philip solved the problem of the medicine garden.

On top of that, Marigold also issued a restriction order that no one was allowed to approach the medicine garden.

Not long after Philip stayed in the garden, he found someone staring at him stealthily. However, he remained silent.

Philip knew that the person who would appear at this time was most likely the one who buried that thing in the medicine garden. No matter who it was, once they realized that their hidden secret was about to be exposed, they would definitely not rest easy.

Although Philip was not at his peak condition yet, his physical strength had been restored. With this condition, he would be strong enough to take on the other party if needed.

### **Chapter 3547**

"Bring it here, then. Since you can appear here without making a sound, I'm sure you can find a way to bring the Multidew Herb." Philip's feet seemed rooted to the spot.

Seeing Philip motionless, the senior finally lost her composure, and the charming look on her face changed.

She said, "You really don't know what's good for you. Come with me right now or I can't guarantee..."

Philip smiled and said, "Can't guarantee what? Can't guarantee that the thing you buried here won't attack me?"

When the senior heard what Philip said, the expression on her face changed suddenly.

"Since you already know, I'll just kill you without wasting my energy!"

The senior suddenly moved, and pollen filled the surroundings. On top of that, a black lotus flower grew on her hand.

When the black lotus appeared, all the energy around seemed absorbed by it.

This deranged method of absorbing energy was similar to killing the goose for the golden egg.

### **Chapter 3548**

“How dare you harm your fellow sisters?” Marigold’s expression turned serious, and she clenched her fists tightly, ready to attack her disciple.

However, the senior paid no heed to Marigold.

”So what if they’re my fellow sisters? I don’t even care about Blossoms Valley!”

At this moment, there was a sudden tremor in the ground.

Just below the medicine garden, something seemed to be breaking out of the ground.

Seeing this scene, the senior laughed creepily and said, “Everyone is going to die! All of you will be my offerings to the Diablo Tower!”

Hearing that, Marigold’s expression changed immediately. She knew very well what this so-called Diablo Tower was.

## **The First Heir**

### **Chapter 3549**

Before Philip could make a move, the senior added, "Do you want to run? No one can leave here alive today."

This was not a threat because the Diablo Tower's door had opened.

The people of Blossoms Valley who were killed by those black lotuses before were sucked through the door into the tower. Through the memory of the mighty being's heritage, Philip knew that anyone who was sucked into the Diablo Tower would be turned into a sacrificial offering.

The moment the dead bodies entered the Diablo Tower, their flesh and blood disappeared, leaving piles of bones at the door.

Almost instantly, the black lotuses at the bottom of the tower started to spread to this side, and all the plants nearby were drained of their life essence.

Seeing this scene, Philip finally realized the peculiarity of the black lotus. However, he had not fully regained his strength yet, so he could not fight to his full extent.

this moment, someone ran into

## **The First Heir**

### **Chapter 3550**

Hearing Philip's question, the senior's voice was neither male nor female as she said, "Wretched man, if not for you, I'd have killed them without any commotion. But you ruined my plan, so you can go to hell!"

The senior's body suddenly elongated and turned into a black poisonous snake, biting Philip.

Seeing this scene, Philip smiled and slashed with the Caelum Sword. Sharp sword energy flashed from the tip of the sword.

Marigold looked at Philip in surprise and said, "Your injuries shouldn't have recovered yet. How can you deal with her?"

Philip did not speak but glanced at Blossoms Fairy thoughtfully. Although the pill looked inconspicuous, when Philip swallowed it, he found a rich source of energy exploding in his body as well as an abundance of life essence.

Indeed, a pill was not enough to heal all of Philip's injuries, but it was almost there. Moreover, Philip had regained most of his energy. Although he was not at his peak yet, it should be enough to deal with the senior.
