

## **The Game 131**

### **Chapter 131: Quality 3 Watermelon! Isn't This Too Big? 2**

The car drove directly to the drift's starting point, where a small reservoir dam had been built to control the drift's momentum. In winter, the valves would be tightened to try to make the water's momentum as gentle as possible.

Next to it was the preparation area where the kayaks, life jackets, and hard hats were placed. It was naturally empty now, and only the employees of Youcheng First Construction Company were doing the finishing touches.

"President Sun." One of Youcheng First Construction Company's men immediately ran forward when he saw Sun Ming.

Sun Ming also introduced, "This is President Qin of the villa."

"Hello, President Qin." The man from Youcheng First Construction Company immediately greeted him respectfully.

Qin Lin nodded at the other party.

Sun Ming instructed, "Bring out the kayaks, life jackets, and hard hats we've prepared. President Qin and I are going to test the drift personally."

The people from Youcheng First Construction Company immediately went to prepare.

A moment later.

Qin Lin and Sun Ming put on life jackets and hard hats, got into the kayak, and began to drift toward the river.

The river had not been polluted. The water was still relatively clear. It was obvious that many of the angular marks had been artificially removed. Many hidden dangers that could cause danger had been removed.

There were also special ornamental plants standing on both sides of the river. It was a good view.

Sun Ming introduced, "The county has built a small ecological park on this mountain with this drift as its support. These ornamental plants are also provided by the county. By the way, a few filming spots were specially built along the way."

.....

Qin Lin nodded. The filming location was arranged for the employees to specially take photos of the tourists or control the drones to take videos. When the time came, they would give the tourists photos and videos in the floating hall. The photos or videos that the tourists liked could be bought with money.

It was also a regular revenue-generating item for the rafting project.

Because of the gentle current, the kayak traveled very slowly. It took them two hours to reach the villa in the evening.

The drift's end point was north of the Triangular Plum Blossom Sea. A special platform had been built there, and there was a path that led directly to the showers.

When Qin Lin reached the finish line, his pants were already wet. Overall, he was doing very well.

However, when he moved while playing, especially when he was rowing the kayak, he did not feel cold. Now that he was down, he felt cold.

"President Qin, go to the shower room and take a look. It's working too." Sun Ming only felt the cold shiver when he got off the raft.

Sometimes people's neural responses worked wonders.

When Qin Lin arrived outside the shower, Zhao Moqing was already waiting and helped him get a set of clothes and a towel.

She asked expectantly, "Qin Lin, how's the rafting? There's no problem, right?"

Qin Lin saw through Zhao Moqing's thoughts and took the clothes. "I'll bring you along when it officially opens."

Zhao Moqing snorted. "Hurry up and wash up and change your clothes. Don't catch a cold."

Qin Lin nodded and carried the clothes into the shower.

Sun Ming also had an employee from Youcheng First Construction Company help him prepare his clothes.

The shower room wasn't small. It was separated by individual rooms, each with a dedicated showerhead. Under the showerhead were grooves for shampoo and shower gel. Soaps were rarely used. Not only were they not worth it, but they were also prone to slipping. Tourists had trouble picking them up.

Besides, he had to bring his own bath towel and towel for the rafting bath. It would provide a hairdryer, so he had to start preparing these things.

After taking a shower, Sun Ming bade farewell.

Qin Lin also returned to the villa's hall with Zhao Moqing. A girl held a document and looked for Zhao Moqing. "Sister Moqing, this is the account structure document from the new factory. Take a look."

This was a new hire for the finance department.

Zhao Moqing nodded and led her into the bar to read the documents.

The game in Qin Lin's mind also received a notification at this moment. A batch of crops in the evening had ripened.

He looked at the game in his mind and was about to pick it when he looked at the watermelon on the 2 plots of Level 3 land in surprise.

The newly upgraded plot of Level 3 land was also used to plant watermelons of Quality 2. This way, a batch could mature 40 to 50 Quality 2 watermelons.

The sales center could consume about 25 per day now, so he had to stock up on the rest first.

However, after picking the Quality 2 watermelons today, Qin Lin realized that something was wrong. This was because after the watermelons were placed in the storage room, there were two separate watermelons beside the pile of Quality 2 watermelons.

It was of a different quality.

It shouldn't be possible for a Quality 2 seed to grow a Quality 1, right?

The game did not have this setting. It would only grow better. In other words, these were two watermelons of Quality 3?

At the thought of this, Qin Lin quickly found an empty place and entered the game.

As soon as he reached the storage room, he saw two especially different-sized watermelons.

As for how big the two watermelons were, he was shocked. He had never seen watermelons that big in his life.

Qin Lin immediately went up to look at the sign in front of the two watermelons.

[Seedless Watermelon: Quality 3 (486 catties)]

[The high-quality watermelons produced by the game have no harmful substances. Be it the texture, taste, or fragrance... They are far superior to ordinary watermelons. They can make you unable to control your taste buds. Delicious +2, sweet +2, taste +2, aftertaste +2, weight +3!]

Sure enough, these were two watermelons of Quality 3.

However, Qin Lin looked at the notes of the two watermelons and was stunned. The notes and the Quality 2 watermelons seemed to be exactly the same. The only difference was that both watermelons had an additional +3 weight attribute.

In other words, these two Quality 3 watermelons only had an additional +3 in volume compared to the Quality 2 watermelons.

Moreover, these two watermelons were indeed very heavy. The two of them weighed a total of 486 catties, and each watermelon weighed more than 240 catties on average.

It had to be known that in the world's Guinness records, the largest watermelon was only about 300 catties.

And the largest watermelon king in China had only broken through 210 catties two years ago. It was obvious how heavy these two watermelons were.

Seeing these two watermelons, Qin Lin had many thoughts.

Apart from the free trial of the medicinal honey water and ketchup, there was no other serious activity at the villa.

These two Quality 3 watermelons could be used for an event.

Just the size of the two watermelons alone was enough to generate a lot of popularity.

With that in mind, Qin Lin exited the game and left the villa. He drove the blue truck straight to the warehouse and entered the game the moment he arrived.

When he reached the storage room, he touched one of the watermelons and brought it out of the game with a thought.

Repeating this, he immediately brought out the second.

Qin Lin fixed the two watermelons before getting into the car and transporting them to the villa.

When he reached the villa parking lot, he called Chen Dabei again and asked him to bring people and a cart over.

When Chen Dabei received the call, he naturally knew that his boss had returned with the goods again and brought them to the parking lot as quickly as possible.

Without Qin Lin's instructions, he got into the car and was about to move the goods. However, when he saw the two big watermelons, he exclaimed, "F\*ck... Boss, where did you get this??"

Qin Lin made up a sentence. "I asked someone to buy it for an event. It just arrived."

"It's so big. It's too awesome." Chen Dabei was in disbelief.

He'd eaten a lot of watermelons and seen a lot more, but he'd never seen a watermelon this big in his life.

The other security guards were puzzled. They went up and were surprised to see the big watermelon.

This watermelon was ginormous.

### **Chapter 132: Watermelon Can Be on the Hot Search?!**

After Chen Dabei and the security guards were surprised, they started moving the watermelons.

It was really difficult to move watermelons this big. The few of them thought of a few ways and spent a lot of effort to move one down. The key was that the watermelons were too big, and the transport cart could only carry one at a time.

After carrying a large watermelon into the car, the two security guards were responsible for pushing it. They supported the watermelon while Chen Dabei kept reminding them to be careful.

As soon as the cart left the parking lot, it quickly attracted the attention of the tourists. The watermelon was too big to miss.

"They're transporting watermelons?"

"Looks like it!"

Those who saw it looked incredulous.

After transporting a watermelon to the lobby, there were more tourists inside. When they saw the watermelons that the security guards had worked together to move in, they couldn't help but take out their phones and take photos.

They had never seen such a big watermelon in their lives. It was too incredible.

"What a big watermelon!"

"I've never seen a watermelon this big in my life."

...

"I didn't know watermelons could grow so big."

"..."

Chen Dabei carefully supervised the security guards at the side, afraid that they would touch or smash the watermelon.

Zhao Moqing walked out of the bar in surprise.

For the first time, Lin Fen's eyes were drawn.

She was also an old farmer. This was the first time in her life she had seen such a big melon.

Gao Yaoyao had already taken out her phone and started taking photos like the tourists. Such a big watermelon would definitely get a lot of likes.

Zhao Moqing went to Qin Lin's side and asked, "Qin Lin, where did such a big watermelon come from?"

Qin Lin repeated the reason he had made up again and said, "I've contacted them to send us these special night melons."

Zhao Moqing nodded. "It's so big. Is it the black water watermelon from Dian Nan?"

"My wife is really smart." Qin Lin reached out and wrapped his arm around Zhao Moqing's waist. His palm caressed her delicate waist twice without explaining or denying.

Zhao Moqing rolled his eyes at Qin Lin and asked, "How should we deal with this melon?"

Qin Lin explained, "We're planning to use it to gain popularity. The bridal chamber and rafting projects are about to be released. At that time, we don't have to limit the flow of 1,500 people, so we'll first increase the popularity of the villa."

Zhao Moqing nodded. "That's true. The county has given us so much support, and we have to do our best. But how are we going to organize an event for the watermelons? Are we going to draw a lottery?"

Qin Lin smiled. "Moqing, as expected of our telepathy. You and I have thought of the same thing. I'm planning to organize a lucky draw event. They get a single draw for one ticket to the Sea of Flowers. They can draw again when the other expenses hit 50 yuan. Those who win will be given a cup of cubed watermelon for free. When the time comes, with the slogan of the biggest watermelon this year, I believe many tourists want to be one of the winners."

However, Zhao Moqing suggested, "It's too troublesome to cut the melon into cubes. Let's use a fruit spoon. It's more convenient. When the time comes, we can cut the melon on the spot and dig on the spot. The tourists will also feel more involved."

"My wife is so thoughtful." Qin Lin couldn't help but praise her.

"But how will the winner be drawn?" Zhao Moqing asked again.

Qin Lin smiled and said, "Let's do a QR code scan. They can only draw if they follow our official account."

There were many ways to draw the lottery, such as paper, balls, turntables, and so on. The QR code lottery was the most convenient. It was also an emerging way to draw.

Naturally, many people also doubted that the probability of the QR code lucky draw was controlled by the backstage of the business. There was no doubt about this. After all, the business activities naturally had to be controlled. They could not let people take away all the prizes quickly.

Actually, it was not just a QR code sweep. Any lucky draw seller would control it. It was the same for paper scratch prizes and ball-type lucky draws. In fact, these lucky draws would not even include the first prize and some grand prizes at the beginning. It was all because the seller felt that they needed to release one. Otherwise, they would not be able to draw any other time.

Moreover, as long as it was a business that could really release the award, it was already very conscientious. As for whether it could be controlled or not, there was no need to ask for too much. Don't be like a lottery winner who didn't even change out of his work uniform and even forcefully pressed his IQ to the ground.

After confirming it, Qin Lin also had two things to do. The first was the container for the watermelon.

He called Zhang Shi from the packaging company directly.

In Youcheng County's industrial area, Zhang Shi was checking the flower pots that had been produced on a production line. One could see that the bottom of the Triangular Plum Blossom Sea was on the flower pots, and the words "Qinglin Triangular Plum" also looked elegant.

This was the last batch of 10,000 flower pots that Qinglin Villa had ordered previously. After another 500 were delivered, this order was considered completed.

He had personally watched over the previous 9,500, so he naturally could not let anything go wrong with the last 500.

As long as Qinglin Villa could give him an order as long as the milk tea cup, he felt that he would be able to get a good car soon.

When he received Qin Lin's call, Zhang Shi answered and asked immediately, "President Qin, is there a problem with the flower pots from before?"

Qin Lin said directly, "There's no problem with the flower pot. President Zhang, help me get another batch of disposable cups. They can probably hold half a catty of water. Also, get the logo of Qinglin Villa and use it tomorrow."

When Zhang Shi heard that a new business was coming, he naturally promised with a smile, “Don’t worry, President Qin. I’ll arrange it now.”

After Qin Lin called Zhang Shi, he drove to Qin Ren’s studio. It was not difficult to get a QR code lucky draw. There were specialized modules, but if he wanted to modify the program according to his requirements, he would have to find a professional.

### **Chapter 133: Watermelon Can Be on the Hot Search?! 2**

Although Qin Ren’s studio was an advertising planner, the studio business in a small place was also mixed. One of the partners, Hu Fei, graduated from this computer science department.

When Qin Lin arrived, everyone in the studio looked over. Hu Fei greeted him immediately, “President Qin, welcome.”

Qin Ren was modifying a publicity picture in front of his computer. When he saw Qin Lin, he pulled him forward and asked, “Look, are you satisfied with this picture?”

It was the logo of Qinglin Villa.

When Qinglin Villa received the support fund to expand, Qin Lin handed over the necessary signs, road signs, advertising posters, and so on to Qin Ren’s studio.

The one that Qin Ren had made was one of the finished products.

“Yes, sure.” Qin Lin nodded and said, “By the way, the rafting project and the bridal room project are almost completed. You can go and film the scene then.”

“Sure.” Qin Ren nodded. Advertisements had to be realistic. Then, he asked, “You didn’t come over today just to tell me this, right?”

Qin Lin shook his head and said, “I’m not looking for you today. I’m looking for Hu Fei to get a QR code lottery program.”

When Hu Fei heard this, he immediately poked his head over. “President Qin, what are your requirements for the QR code lucky draw program?”

“I want to make a lucky draw. The method of winning is random... I want to use it for all the lucky draws in the future.” Qin Lin also told Hu Fei his requirements. Finally, he added, “I probably have to use it tomorrow. I wonder if you can make it in time?”

Hu Fei immediately promised, “Don’t worry, President Qin. This kind of lucky draw procedure is not difficult to get. I can get it done by working overtime tonight.”

“Thank you.” Qin Lin left after settling this matter.

.....

Hu Fei picked up the phone and called his girlfriend. “Baby, I have to work overtime tonight. I can’t pick you up.”

Qinglin Villa was now a big client of their studio.

Although they had a relationship with Qin Ren, they could not slack off. They should do their best. Otherwise, if Qin Ren lost face, their studio would lose face as well.

There was obviously a grumble on the other end of the line. "Working overtime again? Then I'll go over to your place after work. I'll bring you food. What do you want to eat?"

"Baby, I like everything you bring." Hu Fei smiled at the phone. It was good to have an understanding girlfriend.

...

When Qin Lin returned to the villa, he realized that the big watermelons had already become popular online and was even trending.

Previously, Chen Dabei and the security guards had used a cart to transport the two watermelons into the villa and were photographed by many tourists.

Many people found it unbelievable when they saw the trending topic of watermelons. No matter how impetuous the Internet was now, there was no reason for watermelons to be trending, right? Was it because the video of a beauty was not good?

However, if one added the popularity of Qinglin Villa and the two 240-catty watermelons, it would be "F\*ck, there's such a big watermelon?"

Some of the video comments were also very popular.

"I swear to Mom and Dad, I've never seen a watermelon this big in my life."

"It's obviously a decorative watermelon. I can get you a hundred of these."

"Making a fuss over nothing. I saw 500 catties of big watermelon last year."

"I'm afraid you don't know the record for the largest watermelon in the Guinness World."

"..."

At night, with a video of an official event in Qinglin Villa, the popularity of the two watermelons increased.

The video still showed Gao Yaoyao.

"I have good news for everyone. Our Qinglin Villa is giving out benefits again. Everyone is curious about what the benefits are, right? That's right, it's two big watermelons."

As Gao Yaoyao spoke, a video of two big watermelons appeared.

Gao Yaoyao continued, "One of these two big watermelons weighs 242 catties and the other 244 catties. Our Qinglin Villa spent a lot of money to buy them."

"Tomorrow, everyone will have a chance to taste the watermelon kings for free. As long as you buy tickets to the Triangular Plum Blossom Sea that day, or for every full 50 yuan spent on other consumer items in the villa, you can draw once. Lucky tourists who win will get to enjoy the big watermelon for free."

“However, there are limited slots. In total, only 600 lucky spectators can taste this watermelon king, and you are the only group of people who can taste it this year.”

Not long after the video was released, the likes and comments notifications kept ringing in the background of the villa’s official account.

“Sister Yaoyao is on screen again. Sister Yaoyao is beautiful.”

“It’s actually a real melon, and it’s so big. It’s incredible.”

“F\*ck, there are only 600 lucky audience members? That’s the king of melons. Wouldn’t it be a pure emperor’s pleasure if they ate it? Top-notch tycoons can’t eat it even if they wanted to.”

“When I eat this melon, I can proudly say that I’ve eaten a melon that only 0.0000424% of the country can eat.”

“I don’t plan to leave. I’ve prayed to the melon god. Tomorrow, I’ll definitely be one of the 600 onlookers.”

“...”

There were 600 spots, but they couldn’t even eat them even if they wanted to. It was more like an explosive point.

The moment the event video was released, it instantly ignited some people’s enthusiasm. These people had wanted to go to Qinglin Villa to begin with, but now it seemed that there was another reason. Some of the tourists who had wanted to leave today suddenly chose to stay in Youcheng County and planned to come back tomorrow.

Zhao Moqing had been paying attention to the situation online. Seeing that the popularity was increasing, she was also happy. “Qin Lin, our event has become popular. Everyone’s reaction is very big.”

“It’s not surprising. After all, the only two melon kings and the gimmick that only 600 people can eat are big enough.” Qin Lin smiled and said. In the university publicity course, catching the gimmick was also a compulsory course. Therefore, he had already specially added gimmicks like the melon king and 600 people.

Besides, this would only be the hottest after the tourists had eaten the melon tomorrow.

The melon taste of these two Quality 3 melons were the same as Quality 2. It was undoubtedly delicious, but those who really won the lottery would definitely brag about the taste of the melon.

This was the special psychology of people. Only by bragging would the winners feel that they were earning more.

These are points of knowledge in the university’s propaganda psychology course.

The drifting project and bridal chamber project of Qinglin Villa were about to be completed. The county had also been paying attention to the situation of Qinglin Villa. After all, the county had approved the 25 million yuan support fund of Qinglin Villa.

Chen Li was also watching the activity video of the villa. "Sun Xian, I told you that Boss Qin is a reliable person. He's already starting to make the villa popular."

Sun Xian nodded. "To think he could buy two watermelons this big. That's very eye-catching."

Beside him, Zhong Lei immediately reported, "Sun Xian, Chief Chen, President Qin, these two melons should be the black water watermelon from Dian Nan."

Chen Li asked curiously, "How did you know?"

Zhong Lei explained, "Someone from Dian Nan posted a video saying so."

At this moment...

In Qinglin Villa.

Zhao Moqing also handed a video to Qin Lin and said, "Qin Lin, see if this is taking advantage of our popularity?"

Qin Lin took the video and saw that it was also a video about watermelons.

Anyone who knew anything about watermelons knew that Dian Nan produced large watermelons. It was not difficult to see watermelons weighing more than 100 catties. That was the place that broke the record for the largest watermelon in the country.

"Speaking of watermelons, watermelons weighing more than 200 catties are indeed very rare. This year, the two special watermelon kings in Dian Nan are also more than 200 catties. They're the largest in the world this year. Those two were ordered by customers in the south. They might be the two in Qinglin Villa."

After watching the video, Qin Lin teased, "Interesting."

This was clearly a video of a scammer trying to gain popularity. Someone from Dian Nan must have wanted to use this to promote his large watermelon.

However, the key was that the other party seemed to be rubbing against them. The content of the video would obviously make people think that these two watermelons from Qinglin Villa were produced by Dian Nan. However, there was some leeway in his words, not giving him a chance to make things difficult for them.

If they really wanted to argue, the other party insisted that two watermelons had been transported to the south. They did not say for sure that the two watermelons from Qinglin Villa were theirs.

### **Chapter 134: Just to Eat a Watermelon!**

Actually, the most important thing about this video was not that Dian Nan was trying to gain popularity, but that the other party had said 'the biggest watermelon in the world this year'. This had even forcefully raised the two watermelons in their villa to become the biggest watermelon in the world.

It was as if he wanted to say: Brother, let me steal some of the limelight. I'll make you popular too. It's a win-win situation for everyone.

Qin Lin had also learned such publicity methods in university, which saved him some effort. That was, no one would ask him where he bought the watermelon, and there was no need for him to make it up. He would just let the netizens misunderstand.

Qin Lin thought about it and ignored the video of Dian Nan trying to gain popularity.

In this situation, if the other party wanted to freeloader, so be it.

Naturally, after Yinan posted the video, the netizens paid even more attention to the two watermelons in Qinglin Villa.

This was because it was already world-class. There were more than seven billion people in the world this year, but only 600 people could eat it.

There were only 600 people out of more than 7 billion. Moreover, any ordinary person had a chance to become one of these 600 people. In the past, this thing had always been on the tables of big shots, right?

The significance of being the only 600-member crowd in the world seemed to be even greater. It felt like they could totally brag about it.

This made many people who were playful and eager to join in the fun even more eager.

Into the night.

Qin Lin received a call from Qin Ren, telling him that Hu Fei's QR code lucky draw program had been completed. He just had to send it to him and follow the instructions.

After accepting the program, Qin Lin installed it on the computer at the bar and connected the program to the villa's collection system.

.....

This way, when the tourists paid the bill, a lucky draw would be generated when the payment was full. This was because the entrance fee for the Sea of Flowers was also set at 50 yuan.

And the lottery method was that when tourists paid the bill, a lottery program would pop up.

This popped up after it was connected to the villa's QR code. After the event ended, the program would be shut down. This small program would not appear again after scanning the villa's QR code.

After the tourists drew the lottery, they just had to close the delete program. There was no effect. The number of times they could draw the lottery based on the consumption data would also be displayed on the lottery program.

Tourists could choose their own lottery through this small program. Once they won, the cashier would use a scanner gun to scan the information of the small program, and the tourists could collect the watermelons.

Naturally, after the scan, the number of times he won the prize was eliminated. He could not receive it a second time.

Moreover, the small program would also hint at the remaining number of winners.

This program could not only be used in this lucky draw, but it could also be used in future lucky draws.

“Set the number of awards?”

Qin Lin started operating the program.

There was no distinction between first and second prize. He chose one directly.

“Set the winning prompt name!”

Qin Lin thought for a moment and started typing on the keyboard. “Congratulations on obtaining supreme world enjoyment!”

After setting up, Qin Lin pulled Zhao Moqing to experiment more than ten times. He only felt relieved when everything was fine.

When Zhao Moqing saw the winning notification, he teased, “Supreme world enjoyment? Qin Lin, this is too...”

She obviously wanted to complain, but she couldn’t find the right words.

However, Qin Lin didn’t care. Now, everyone knows that these watermelons were the two largest in the world this year. Out of the seven billion people who could eat them, only 600 people could eat them. If they weren’t world supreme, what were they?

Then, Qin Lin also called the Sea of Flowers conductor, the cashier, and the waiter of the villa together and explained the lucky draw procedure to them.

During the event, they had to take the initiative to guide the tourists. Even if the tourists did not understand, they had to give them answers.

...

The night passed.

As expected, the villa was in full swing. Many tourists arrived earlier than usual. There were even tourists from yesterday who had not left and wanted to stay and see if they had a chance to win a prize today.

It had to be said that eating the melon king that only 600 people in the world could eat this year while traveling was also an achievement of special significance, right?

When many tourists arrived at the villa, the first thing they did was head to the hall to understand the details of the lucky draw.

A huge watermelon was already on display in the middle of the hall.

Chen Dabei was surrounded by a few security guards, not allowing anyone to approach.

Seeing this scene, some tourists asked Gao Yaoyao and the other waiters.

“Sister, how do I draw today?”

“When do we start the lottery?”

“...”

Gao Yaoyao didn't expect these tourists to be so enthusiastic about two watermelons, but she also wanted to try this big watermelon.

Faced with the question, she replied with a smile, “Today's lucky draw will be divided into two rounds. One at noon and one in the evening. Every time a watermelon is opened, a lucky draw program will pop up when everyone scans the QR code to pay the bill. As long as you spend 50 yuan, a lucky draw will be generated on the lucky draw program. As long as you win, you can receive it based on the winning information...”

Tourists who understood the situation left the hall one after another and headed to the Sea of Flowers to buy tickets. One Sea of Flowers ticket was enough for one lucky draw.

A long-legged beauty in a short skirt hugged her boyfriend's arm and ran Sea of Flowers.”

The waiter handed out tickets with a smile. “A total of 100 yuan. You can scan the code and pay. When the time comes, a small program will pop up and automatically generate two lucky draws.”

The man immediately took out his phone and paid for the QR code scan. As expected, after paying, a small program message popped up on the phone. There was a message on it: You have two lucky draws.

## **Chapter 135: Just to Eat a Watermelon! 2**

Below the message was a lottery button.

“Let's try the lottery,” the woman urged her boyfriend, leaning closer.

The man nodded, looking forward to it. After all, he had rushed over from the city with his girlfriend after watching the video last night.

The man pressed the lucky draw button. There was one less lucky draw, and then a result appeared: Thank you for participating!

“You're so unlucky. I'll do the last one.” The beauty immediately took her boyfriend's phone and pressed the lucky draw button.

Thank you for participating!

Seeing the same result again, the beauty was clearly vexed. She said to her boyfriend, “It's all your fault. Your bad luck has affected me.”

The man was instantly bitter.

Who could blame him?

But he had no choice but to smile at the beauty and say, “Baby, it's all my fault. Let's look at the Sea of Flowers first. When we come out later, we can spend the rest and draw a lottery. I'll definitely let you eat that watermelon today.”

When the beauty heard this, she snorted and happily hugged his arm again as she walked towards the Triangular Plum Blossom Sea.

...

She cherished her boyfriend, too. She knew she was short-tempered and sometimes unreasonable. No one indulged her like her boyfriend.

As time passed, there were obviously more tourists arriving at the villa today than before.

The most direct proof was at the Sea of Flowers ticket counter. The 650 tickets that were limited in the morning had already been sold out. There were still people asking about the tickets.

However, the number of people in the Triangular Plum Blossom Sea was fixed. There were only 650 people in the morning, and they had to enter in batches. They could not affect the tourists' experience in the Sea of Flowers just because they were anxious for quick success.

Today's situation naturally made many tourists complain.

"What do we do? We can't buy tickets for the Sea of Flowers this morning. What else is there to spend at the villa?"

"I've drawn the lottery eight times and I still haven't won. How many times have I played the slippery grass and jungle adventure?"

"The tickets to the Sea of Flowers were sold out so quickly?"

"Aren't there any other consumer items in Qinglin Villa? I've already failed more than ten times. I really can't eat fruits and food anymore."

"..."

Naturally, there were many lucky ones.

At the sales center, a beautiful woman bought a large glass of medicinal honey water. On the first draw, she exclaimed in surprise, "Hahaha, Xiao Di, I've won a prize. Congratulations on obtaining supreme enjoyment!"

Beside her, her best friend called Xiao Di complained, "Why didn't I win both times??"

As soon as she finished speaking, the beautiful woman exclaimed again, "Haha, I got it again. I killed two birds with one stone. I get to enjoy it twice."

"How could it be?" Xiao Di was furious at her best friend.

The beautiful woman comforted her. "I've won twice, Xiao Di. I'll take care of you today."

This scene made many of the tourists around them envious.

What kind of bloody luck was that?

"Why did she win it twice in a row?"

"I didn't even get it after five draws. This..."

“ ... ”

A slightly burly bespectacled man walked up to a waiter and asked, “Beauty, what’s the most expensive thing in the sales center?”

The waiter made an enthusiastic introduction. “Sir, we have special watermelons. They cost 200 yuan a catty.”

“Can I take it with me?” the man asked again. He had eaten too much at the sales center to eat any more.

“Sure.” The waitress nodded.

.

Although everything in the special breed area was forbidden to be taken away and had to be consumed at the villa, the 200 yuan per catty of special watermelon was an exception.

The man did not hesitate when he heard this. He went straight to carry a special variety of watermelon for the waiter to weigh.

“12.3 catties, sir. That’ll be \$2,460,” the waiter said to the man after weighing the watermelons.

The man scanned the code and paid. The small program indicated that he had obtained 49 lucky draws.

The man decisively clicked the lucky draw button and clicked crazily.

Thank you for participating!

Thank you for participating!

...

Thank you for participating!

All thanks for participating.

When the man used the last lucky draw, it was still thank you for participating. He was immediately annoyed. “F\*ck, I didn’t win either. I knew I would be unlucky if I drove into a crow today...”

The man cursed and walked over to pick up a special watermelon for the waiter to weigh.

He didn’t lack money.

Go big or go home.

He couldn’t think straight without drawing it once.

The waiter, on the other hand, stared in amazement at the somewhat unlucky tourist.

Actually, she felt that they were all watermelons. This watermelon that cost more than 2,400 yuan was fine too. There was no need to eat a portion of that watermelon, right?

However, to the waiter’s surprise, another tourist went to move special watermelons.

The man seemed to have enlightened some people. Instead of racking their brains to think of how to spend it, it was better to directly use this special watermelon.

It was hard to understand the fanaticism of these people without experiencing it firsthand.

In the lobby of the villa.

Qin Lin had long known that the limited tickets for the Triangular Plum Blossom Sea in the morning had been sold out. Now, all the tourists who couldn't buy tickets had gathered at the sales center.

To Qin Lin's surprise, more than 30 Quality 2 watermelons were sold out very quickly.

Each of them cost more than 2,000 yuan. Usually, there were only 1,500 tourists, but they could only sell about 25 a day.

How long has it been now?

It seemed that many people did not care about money today. These people should be after the watermelon kings and wanted to eat one of the 600 portions.

After all, they could buy a Quality 2 watermelon many times.

He wondered what these people would think when they went back and found that the watermelon tasted the same as Quality 2.

He wondered if they would regret it?

With this thought in mind, Qin Lin planned to ship out a batch of watermelons of Quality 2 from the game at noon.

Today's sales would probably break new highs.

However, before noon, Gao Yaoyao ran over to report. "Boss, the tourists bought a lot of things at the sales center today. There aren't enough things in the sales center. They might run out by noon."

Qin Lin nodded and instructed, "Got it. Go and calculate the number for me and see what needs to be added. I'll get the supplier to send it over urgently at noon."

A lot of things in the sales center were fruits and fresh food. The goods prepared for such things were just in a day. The villa would not store them.

This was the first time such an event had been held, and it was far more popular than expected. The villa was inexperienced. The next time there was such an event, they had to prepare in advance. They could not rush to find someone to deliver the goods.

After Gao Yaoyao came over with the statistics, Qin Lin also called Lin Feng and the other suppliers.

Otherwise, it would be awkward if the sales center didn't have enough to sell in the afternoon.

Lin Feng's suppliers naturally made arrangements for Qinglin Villa as quickly as possible.

To them, Qinglin Villa was a stable channel. No one dared to neglect it.

**Chapter 136: Watermelon Skin Is So Delicious Too! I Can't Calm Down!**

As time passed, there were more and more tourists at the mountain villa. The number of visitors in one morning had probably far exceeded the usual 1,500.

In the past, tourists came to the Triangular Plum Blossom Sea. No one wanted to come empty-handed if the Sea of Flowers was limited.

This time, most of them were here for the two melon kings.

After last night's hype and popularity, the value and anticipation of these two world kings had reached an extreme. Many people would probably post it on their WeChat Moments immediately after winning the prize, right?

Finally.

Chen Dabei and the security guards carried the watermelon to a table specially prepared outside the hall.

Master Lin also took out a special machete and prepared to cut the melon.

The two ticket collectors at the side were also ready.

Captain Hong was also maintaining order with two patrolmen.

Gao Yaoyao had already come out with a few waiters. She was holding a microphone in her hand and announced to the tourists with a smile, "Attention, tourists. The melon king in the morning is about to be cut. Tourists who have drawn the lottery can queue up for the reward based on the winning information."

Immediately, countless tourists rushed over. However, with Captain Hong and the others around, none of them dared to crowd around recklessly. They were still very intimidating in their police uniforms.

...

While Master Lin was sharpening his knife, the tourists were already taking photos with their phones.

The video of the melon king being cut open was enough to be posted on WeChat.

At least they were involved!

Crack!

Continue reading -on MYBO NOVEL. COM

With a crisp sound, Master Lin cut open the melon king under everyone's anticipation. In an instant, the delicious melon meat was revealed. Just looking at it made one want to take a bite.

Gao Yaoyao also held the microphone and said, "Now, tourists who have won can come up to receive their rewards based on the winning information."

The waiters behind her had also reached the large halves of the split watermelon. They were all holding a ball spoon and a special disposable cup.

Gao Yaoyao was in charge of checking the information, while they were in charge of giving the watermelons.

Two beautiful women were the first to run forward. "We can trade for two."

One of the beauties had obviously attracted the attention of many men.

This beautiful woman looked too much like Teacher Ohashi and seemed to have a similar figure. They knew Teacher Ohashi very well.

Gao Yaoyao picked up the scanner gun and scanned the information of the two beauties.

The two beauties also received their first and second portions of watermelon.

Those who had won looked over, curious about how the melon king tasted.

The two beauties picked up small forks and put a piece of watermelon into their mouths to chew.

Their mouths were instantly filled with sweetness. Coupled with the delicious juice, it was perfect.

The beauty who looked like Teacher Ohashi couldn't help but exclaim, "Xiao Di, this watermelon is too delicious. I've never eaten such a delicious watermelon in my life."

Xiao Di nodded crazily. "Yes, it's still sweet in my mouth after eating it. There shouldn't be any watermelon better than this, right?"

The praises of the two beauties seemed to be a little exaggerated, but the way they enjoyed it made the tourists who had won the prize unable to help themselves. They went up to Gao Yaoyao to check the information of the prize and then received the watermelons.

More and more winning tourists were receiving watermelons.

Without exception, even a Quality 2 watermelon was something that countless people had never eaten before. Even Chen Shengfei and Ma Liewen were shocked by the delicacy.

Therefore, even though the other attributes of this Quality 3 watermelon were only +2, those lucky tourists had never tasted it before. After eating it, they praised it in unison.

"It's really too good. You wouldn't believe how delicious watermelon can be until you've tried it."

"Haha, it's delicious. I almost destroyed my butt on the slippery grass for the lucky draw. It's really worth it now."

"As expected of supreme enjoyment. I swear this is the first time I've eaten such delicious watermelons since I was young. I'm afraid I won't be able to eat them again."

"..."

The tourists who didn't win were a little anxious. There were fewer and fewer winners left.

The more people who won the prize said that it was delicious, the more they wanted to eat it.

As noon approached, the 300 winning tickets for the morning were all released. Tourists who did not win could only take their purchases to the buffet barbecue or let the kitchen cook.

Even the kitchen would be busier today.

After all, many people had bought a lot of things for the lucky draw, and most of them were unwilling to come out and bring these things back.

Chen Dabei brought the two halves of the watermelon skin in with the security guard. "Boss, what should we do with the rest?"

The watermelons had all been dug out with a ball spoon. The watermelon rinds as a whole had not been destroyed. They looked like two large, complete green hands.

There were more than 240 catties of watermelon, but only half a catty of each prize spot. Even after deducting the weight of the watermelon skin and distributing another 300 portions, there was still a lot of melon meat left.

Qin Lin instructed, "Dig out the rest for everyone to eat as snacks. Oh right, hand the watermelon skin to Master Lin and let him soak it. Let's braise it for a taste tonight."

"Okay, Boss!" Chen Dabei nodded and brought the watermelon rind into the kitchen.

Qin Lin was looking forward to the watermelon rind.

People born in big cities would definitely not eat watermelon rinds. Some people might not even know that watermelon rinds were edible.

However, many villagers should have eaten watermelon rinds before, and they tasted pretty good.

He missed the braised watermelon rind that his father used to make.

As Qin Lin was recalling, he saw Chen Xiaoru running in, sweating profusely. It was obvious that school had just ended at noon.

### **Chapter 137: Watermelon Skin Is So Delicious Too! I Can't Calm Down! 2**

As soon as she saw Qin Lin, the girl asked, "Uncle Qin, where's the melon king? Is the money deducted from my lunch today enough to draw a prize?"

"What prize? I'll treat you to it!" Qin Lin understood why this young lady was sweating profusely. She must have rushed over as soon as school ended to eat the Quality 3 watermelon, right?

However, Chen Xiaoru shook her head firmly. "No, I want to draw the lottery myself. Only by winning it will it be meaningful. Even if I don't win, it's important to participate."

Qin Lin smiled and said, "Alright, a program will pop up when you scan my QR code. The supplements you ate for lunch are barely enough to draw a prize."

As he spoke, he took out his phone and created a QR code for Chen Xiaoru to scan.

Actually, the money that Chen Li had given him was deducted at the cheapest ordinary price. On the surface, the little girl's daily supplements were really not enough for a lucky draw.

However, he did not dwell on this. Even the small program that popped up when he scanned the little girl's QR code would definitely win.

This was an internal use. After all, if acquaintances like Chen Shengfei and Ma Liewen came to try the melon king, he couldn't possibly ask them to cut the queue without drawing the lottery, right? His impression of tourists was very unfriendly.

However, they might not necessarily win if he lets them go to the lucky draw. Therefore, he directly let them sweep his phone, a small program that popped up in the QR code that guaranteed a win.

Nothing could ever be absolutely fair.

After all, people would be affected by their emotions and desires.

Chen Xiaoru had no idea that she would definitely win. She looked at her phone and saw the only draw lot. She very seriously placed her phone on the table, then clasped her hands together and muttered, "Jade Emperor, Buddha bless me..."

Qin Lin smiled when he saw this. He recalled the scene of many students burning incense and worshiping the Goddess of Studying before exams. Although the Goddess of Studying seemed to fail every time, it made him smile when he recalled it.

Chen Xiaoru picked up her phone again and solemnly pressed the lucky draw button. Then, she saw the lucky draw notification appear on her phone.

"I won, I won. I obtained supreme enjoyment. Uncle Qin, where's my watermelon?" Chen Xiaoru was so happy that she almost jumped up when she saw that she had won. "The Jade Emperor and Buddha have finally come to life."

Qin Lin smiled and called Gao Yaoyao over. He asked her to go in and find Chen Dabei to bring out a cup of Quality 3 watermelon for the little girl.

After Chen Xiaoru received the watermelon, she didn't eat it immediately. Instead, she happily sat down at a table, picked up her phone, and started taking photos of the watermelon.

The online watermelon king was so popular. If she went to class in the afternoon with these photos, she would be the center of attention.

In the afternoon.

Qin Lin went to the warehouse to enter the game and moved another 50 watermelons out. When he arrived at the villa, a new round of popularity in the villa started.

Surprisingly, there were even more tourists in the afternoon than in the morning. It was so crowded that even the intersection with the state highway outside the entrance was blocked.

Many of the people who won the prize took videos and praised it online. The more they praised it, the more restless the people who followed this matter became, and the more tourists came to join in the fun.

Captain Hong was already maintaining traffic order with a couple of traffic cops.

Qin Lin brought the watermelons into the villa and quickly called Chen Dabei to bring the Quality 2 watermelons into the sales center.

.

In today's situation, the sales of this Quality 2 watermelon were especially fierce.

...

Time passed.

The second Quality 3 watermelon was also cut open in anticipation of visitors.

The person who won the prize in the afternoon immediately looked for Gao Yaoyao to verify the information and receive the watermelon.

Without exception, praise rose and fell again.

This time, the event at Qinglin Villa was a success, and it was well-received.

As for the tourists who won the prize this time, presumably for a long time they would habitually talk to those around them about the subject of the king of melons. Then, with pride, they would say: I am one of the 600.

In the staff canteen of the villa.

Qin Lin also picked up a bowl of braised watermelon rind in disbelief and stuffed it into his mouth.

Because it was too delicious. The fragrance and aftertaste were amazing.

He had not expected that the attribute of Quality 2 watermelon would not only be effective on the melon meat, but also on the melon skin.

Beside him, Zhao Moqing said in disbelief, "This watermelon rind is actually so delicious. This is my first time eating the watermelon rind."

Lin Fen smiled and said, "Watermelon rinds are edible to begin with, and there's even Chinese medicine using it. In the past, there were people in the countryside who had a fever and a cough. They would recover after eating some watermelon rind."

At the tables beside them, Gao Yaoyao and the waitresses kept picking up the watermelon rind with their chopsticks. The girls chatted non-stop.

"Boohoo. It's the first time I've found watermelon rind so delicious. I feel like I've missed out on more than twenty years."

"Yeah, what a waste. It feels like this watermelon rind is better than any watermelon I've ever eaten."

"You feel right. I feel the same way."

"Two big watermelons have lots of watermelon rinds. They should still be edible tomorrow, right?"

"Sister Yaoyao, ask the boss. I want to eat the watermelon rind."

"..."

Apparently the meal turned into a discussion of watermelon rinds.

At night, as the tourists gradually left, the employees of the villa heaved a sigh of relief.

There were too many people at the villa today because of the melon king event.

There was a limited number of tickets in the Sea of Flowers, and the sales center was not allowed to rest for even a moment. Even the slippery grass had become the target of the tourists.

The slippery grass site was overwhelmed. The project was stopped urgently at 2 p.m.

### **Chapter 138: Watermelon Skin Is So Delicious Too! I Can't Calm Down! 3**

In the end, Zhao Moqing gave the statistics to Qin Lin. "The total number of lucky draws today has reached 18,324. The number of visitors is 5,086. Most of them were here for the melon king. The average lucky draw for each person is 3.6."

When Qin Lin obtained the data, he could not help but marvel at the effect of the two Quality 3 watermelons.

This was far more than expected.

The limit on customers was 1,500. In the end, they received more than 5,000 people. This was almost too much.

Fortunately, he had decisively restricted the tickets to the Sea of Flowers.

With 16,324 lucky draws and 50 yuan produced once, the turnover would be at least 916,200 yuan. The main force would naturally be the goods like the Quality 2 watermelons and those supplied by suppliers like Lin Feng.

The number of items taken out in the game could not last a day at all. After that, the situation was only held up by the ordinary products provided by these suppliers.

However, even if the turnover reached 916,000 yuan, the per capita consumption was still only 180 yuan.

In the eyes of those popular tourist attractions that received 5,000 people per day, such per capita consumption would probably be despised. Even if the number of people was given to you, you actually couldn't squeeze out any money.

But this couldn't be helped. There weren't enough spending projects. Some tourists didn't even know how to gather 50 yuan for the lucky draw. Otherwise, they wouldn't have kept going to the slippery grass activity.

Moreover, the employees of the villa were all exhausted from the overload. Gao Yaoyao kept shouting into the microphone, her voice hoarse.

However, it was always joyous to have a successful event. Qin Lin also instructed Zhao Moqing, "Everyone has worked hard today. Give each employee a 100 yuan red packet."

"Alright, I'll arrange it." Zhao Moqing nodded. The employees had worked hard, so the rewards had to be given. Everyone was indeed too tired today.

.....

If he wanted a horse to run, a horse had to eat grass. He believed that a 100-yuan red packet would definitely make the employees who had worked hard all night happy.

Just as he was about to leave, Qin Lin received a call from Chen Li.

“Chief Chen, why are you calling at this time?”

“Isn’t it to congratulate Boss Qin on your successful event? By the way, let me ask about the reception at the villa today. The tourists who came to your villa today almost blocked the intersection.”

“Thanks to the county’s traffic police, the villa received 5,086 people today.”

Qin Lin did not hide the number of customers he received.

On the other hand, Chen Li hung up the phone and said to Sun Xian in surprise, “Sun Xian, Qinglin Villa actually accepted 5,086 people today.”

Since the melon king event at Qinglin Villa was so popular, the county naturally paid attention to it.

“Over 5,000 because of an event?” Sun Xian felt like he couldn’t sit still anymore.

One had to know that a famous scenic area with 5,000 visitors a day was a watershed. The famous Wu Mountain scenic area had only received 5,000 visitors last year.

And there was no scenic spot in Youcheng County that had this number of visitors.

Although Qinglin Villa had only broken through 5,000 people through this event, it also meant that they had the potential.

Sun Xian hurriedly instructed, “Old Chen, hurry up and prepare the relevant materials. You’ll be qualified when the other projects in Qinglin Villa are officially opened. Send the information to Boss Qin immediately and get him to apply for a 4A scenic spot. When the time comes, our county will help to recommend the information.”

“Yes!” Chen Li immediately nodded.

The number of guests received by Qinglin Villa today made the usually calm Sun Xian a little uneasy.

### **Chapter 139: The Design of the Jewelry in Reality! 1**

After the uproar at the villa yesterday, the heavens seemed to have the intention to cool the villa down. It actually rained the next day.

It rained all year round. The spring rain was continuous and intense. The autumn rain was sorrowful, but the winter rain was delicate and inconspicuous.

Qin Lin looked at the drizzle. If it wasn’t for the cold winter, it would have looked romantic.

“I didn’t expect it to suddenly rain.” Zhao Moqing looked at the rain outside and frowned slightly. “A few tourists came and left in disappointment just now.”

The ones who do scenic spots least want to see rainy days.

But it was going to rain. Men could not control the weather.

“Send an announcement to the official account of the villa. Don’t let the tourists run away,” Qin Lin said to Zhao Moqing.

Many tourists who came to his villa were foreigners now. When they ran over and realized that it was raining, one could imagine their terrible mood.

Not everyone could ignore the winter cold and feel the romance of this drizzle.

Although some tourists were already on their way here, they still had to show their attitude. At the very least, they could avoid many people who saw them coming.

Gao Yaoyao walked towards the two of them. “Boss, Sister Moqing, someone is here to apply for the pet breeder position.”

This piqued Qin Lin’s interest.

Now there were the squirrels left behind in addition to Red Hair.

.....

The squirrels from the game were easy to teach, but the other wild ones were troublesome. For example, taking care of their fur was very troublesome, and they couldn’t be expected to undress, dress, and clean themselves.

Most importantly, domestic squirrels generally did not need to bathe, but squirrels that ran in the wild had to bathe regularly.

After all, this was a scenic spot, and there were many tourists interacting with the squirrels.

And how to bathe squirrels was a difficult matter for him. It was said that bathing little squirrels could easily cause them to get sick and catch a cold and eventually die.

“Let the other party come over!” Qin Lin instructed Gao Yaoyao.

A moment later, Gao Yaoyao walked in with a beautiful girl in jeans and a blue jacket.

“These two are the boss and the lady boss.” Gao Yaoyao introduced them to Qin Lin.

“My surname is Qin. Please sit.” Qin Lin nodded at the girl.

“Hello, President Qin. This is my resume.” After the pretty girl sat down, she immediately took out a resume and handed it to Qin Lin. There were two certificates below.

Qin Lin took it and looked at it.

.

The girl’s name was Zhang Guizhu. She was 25 years old, single, and a native of Youcheng County.

Pretty 25-year-old girls who were still single were rare. Naturally, that wasn’t important.

What caught Qin Lin's attention was that the girl had actually graduated from Funong University with a veterinary degree. She also had two years of experience at the First Zoo in Xia City and her treatment experience.

The certificates were a diploma and an outstanding employee certificate issued last year at the First Zoo in Xia City.

This was definitely a talent. Not only could she take care of the squirrels, but she would also be useful when the ranch was open in the future.

The other party also wrote the expected salary: 7,000 yuan.

For a small place like Youcheng County, 7,000 yuan was definitely a lot, but for such a talent, 7,000 yuan was definitely too little.

In those big cities, people who had graduated from veterinary school and had two years of experience at the First Zoo in Xia City and treatment for animals would definitely have no problem applying for a salary of 15,000 yuan at the big city zoo. It might even be higher.

However, the salary could not be measured that way. After all, many people would rather be paid 5,000 yuan in their hometown than 10,000 yuan overseas.

Moreover, people who were paid 5,000 yuan in their hometown might not necessarily live a more miserable life than those who were paid 10,000 yuan overseas. They could also accompany their families often.

If they worked overseas, they might not even be able to come home when their parents were sick.

"Zhang Guizhu, right?" Qin Lin looked at the girl and asked, "Your resume is very good, but I'm very curious. You're an outstanding employee of the First Zoo in Xia City. Why did you leave? The treatment there should be very good for talents like you."

Zhang Guizhu nodded and said, "Yes, I was actually already undergoing the Breeding Team Leader assessment before I resigned. However, I'm a single child. My parents were already old when they gave birth to me. My father even found out that he has high blood pressure. Naturally, I hope to find a stable career locally. Moreover, my parents have never wanted me to marry far away."

Qin Lin nodded and didn't ask any more questions about this. Instead, he went straight to the point.

"Then do you know anything about squirrels? Do you have any experience in how to take care of them?"

"Don't worry, President Qin. There are squirrels in the First Zoo in Xia City." Zhang Guizhu nodded and took out her phone. She opened some videos and handed them to Qin Lin and Zhao Moqing.

The video was of the other party interacting and rearing squirrels.

Qin Lin did not have any doubts and immediately expressed his intention to hire her. Then, he got Zhao Moqing to prepare the contract and signed it with Zhang Guizhu.

After signing the contract, Qin Lin said, "Zhang Guizhu, you can go back and prepare today. You can come back tomorrow."

Zhang Guizhu shook her head and said, "President Qin, I have nothing to do when I go back on a rainy day. Why don't you bring me to see those squirrels first?"

While they were talking, a few little guys had coincidentally scurried into the hall. It was Red Hair and the little squirrels in clothes.

The little ones were still wet from the rain.

Red Hair had brought its lackeys to the hall to hide from the rain.

When Red Hair saw Qin Lin, it jumped onto his shoulder.

The other squirrels were brave enough to run to the bar, and the timid ones scurried up the rafters.

"President Qin, are all the squirrels in the villa like this?" Zhang Guizhu asked in surprise.

## **Chapter 140: The Design of the Jewelry in Reality! 2**

Before she came to apply for the job, she had naturally seen the information on the villa's squirrels. She also knew that these squirrels were a specialty of the villa's Triangular Plum Blossom Sea.

Actually, many of the breeders she knew found this unbelievable.

Because squirrels were timid, it was difficult for them to be free-range and interact with tourists.

Perhaps only those professional squirrel ecological parks that were specially cultivated from a young age could do what Qinglin Villa did.

"Usually, they're over at the Sea of Flowers." Qin Lin smiled and grabbed Red Hair from his shoulder. He handed it to Zhang Guizhu and said, "This little guy is called Red Hair. Take good care of him. Your job will be much easier in the future."

After being placed in someone else's hand by Qin Lin, Red Hair suddenly became unhappy. It squeaked at him and then scurried back into his hand. It even bared its claws at Zhang Guizhu.

Qin Lin was stunned. He wasn't going to give it to Zhang Guizhu. What was this little fellow doing?

He immediately knocked Red Hair on the head and said without caring if the little guy understood him, "Put away your claws. She's here to serve you. She'll change your clothes, comb your hair, and bathe you. You can treat her like a little maid."

To Qin Lin's surprise, the little fellow seemed to understand him. It instantly retracted its claws and even squeaked at him, as if asking him if it was real.

"..." Zhang Guizhu was stunned.

Her? A little maid?

But before she could react, she realized that the little squirrel called Red Hair had taken the initiative to scurry into her hand. It squeaked at her and kept raising its wet tail and wagging it.

“Wow!” Zhang Guizhu looked at Red Hair in disbelief. Then, she looked up at Qin Lin and said, “President Qin, can you prepare a basin for me and warm water at about 35 degrees? Pet cleaning liquid and a hairdryer? It should want to comb its fur. I’ll give it a bath too.”

Qin Lin was surprised. “How did you know?”

Zhang Guizhu explained, “It keeps wagging its tail, which is covered in water droplets. Its fur is also sticky. The squirrels at the First Zoo in Xia City are also like this sometimes.”

.....

Qin Lin understood. She was experienced. Some bosses preferred employees with experience because they could get into the mood easily.

“Alright.” Qin Lin also instructed Gao Yaoyao to prepare.

The pet cleaning liquid was naturally bought for the dog. It was a pet general-purpose liquid.

Zhang Guizhu also studied Red Hair’s clothes in her hand and tried to take off the little guy’s clothes.

Soon.

Gao Yaoyao came out with warm water. The pet liquid and hairdryer were also ready.

Zhang Guizhu had just joined the company and seemed to want to show her professionalism. When she took the basin of water, she said, “It’s very easy for squirrels to catch a cold and fall sick when bathing, so it’s best to control the temperature around 35 degrees. Also, you have to scratch them lightly when bathing. Squirrels are prone to struggling when bathing and will get scratched...”

As Zhang Guizhu spoke, Red Hair, who was beside her, seemed to be impatient. With a splash, it jumped into the basin.

.

“???” Zhang Guizhu was embarrassed.

Except for pets like the dog, many pets didn’t like bathing. They even resisted bathing. Squirrels were the same.

Something was wrong with this squirrel. It had jumped in on its own.

“Squeak.” Red Hair jumped into the basin and actually squealed at Zhang Guizhu.

At that moment, Zhang Guizhu had an illusion that this squirrel seemed to be urging her to hurry up, as if it really treated her as a little maid?

But how was that possible? It was only a squirrel.

Zhang Guizhu complained in her heart, but her hands did not stop moving. She began to gently scoop up the water droplets with her palm and pour them on Red Hair.

She couldn’t wash the squirrel with strong water, or it would struggle. At the same time, she poured the cleaning liquid and began to rub it gently on the red fur. White foam appeared instantly.

Bathing squirrels often got scratched at this time, so Zhang Guizhu was also very careful. However, something shocking happened again. After she finished rubbing the little squirrel's stomach, the little guy turned around in enjoyment and turned its back to her again.

"???" Zhang Guizhu opened her mouth in surprise.

Was this for real?

A squirrel knew how to enjoy bathing that much?

It was too smart!

Squeak! ~

Squeak! ~

Beside the basin, squirrels cried out one after another.

He saw a few small squirrels dressed in clothes gather around the basin and look curiously at Red Hair inside, as if they had discovered a new continent.

Another squirrel stuck its claws into the water tentatively, then immediately stuck them out and tried to reach in again.

In an instant, it became Red Hair bathing and the lackeys watching.

Red Hair didn't care. Instead, it raised its big tail and enjoyed Zhang Guizhu's touch. This made the other squirrels even more curious, and they subconsciously raised their tails.

Zhang Guizhu couldn't help but praise, "Boss, how did you do it? This squirrel is too smart. Even the most powerful trainers in the Squirrel Ecological Garden can't train squirrels to this extent."

"Hehe!" Qin Lin laughed awkwardly and thought to himself, it was all thanks to the game!

Moreover, he realized that no matter how people taught squirrels, they could not learn from each other. With Red Hair leading the demonstration, it seemed to be more effective than many trainer training.

For example, the foreigners' foreign language explanations were not as good as his parents' demonstration.

Zhang Guizhu washed away the foam on Red Hair's body, then took the hairdryer and carefully blew on Red Hair. To her surprise, the squirrel was not afraid of the hairdryer at all.
