

The Game 1461

[Chapter 1461 You City Is A Forbidden Zone! Reality Is More Shocking Than The Movie](#)

Mike and Yamamoto Kazuo saw this scene and roughly understood.

It definitely was.

The two of them were in a better mood than before.

After all, he wouldn't be lonely with these guys accompanying him.

...

a few days passed quickly.

However, a piece of news from you city shocked everyone.

you city will hold a public trial for Mike, Yamamoto Kazuo, Dominica, Chris, queda, and other trespassers of the black Vatican City!

The news attracted a lot of attention as soon as it came out.

After all, they were all foreigners.

It was the first time he had seen so many foreigners being tried at the same time in China. Moreover, they were charged with illegal intrusion. This was not simple at all.

However, very quickly, someone revealed that Mike was the number one international thief, Yamamoto Kazuo was the number one assassin in the plaster country, Dominica was the number one international bounty hunter, and Chris and queda were also involved.

The key was the most important information. These bandits could play the FBI and Interpol in circles internationally.

When this news came out, everyone couldn't stay calm. It simply blew up the entire internet.

Those who knew about this were obviously not ordinary people. It was unknown if it was really exposed by netizens or someone deliberately released it.

However, countless people found it unbelievable.

How could a small county like this put so many international bandits on trial? And each of them had such a big name?

"f * ck, i was shocked when i saw the news. even movies don't dare to shoot like this, right? "

"really? They've caught all the International bandits?"

"The you City Police are so powerful? Even the Interpol and FBI couldn't do anything about it, and they've all been caught?"

"....."

This news was quickly confirmed by you city's court. These people were indeed international bandits, and there would be a live broadcast of the public trial.

This time, the entire internet was abuzz.

everyone was looking forward to the judgment of these bandits.

Many directors even ran to you Cheng when they saw the news, trying to find out the whole story.

Now that this matter was so popular, if it was adapted into a movie, it might be a hit. It would be another Wolf Warrior!

linlin's laboratory had produced the results of an experiment. these international bandits had come to steal, and the protagonist was a retired soldier. he became an ordinary police officer in you city and dealt with these international bandits alone.

Wasn't this the best script?

Under normal circumstances, this script should be very melodramatic.

What retired soldier King, the world's number one bounty hunter, the number one criminal, the number one thief, wasn't that all nonsense?

" but now that there are really such people, and this is a real event, it's different. it's not melodramatic, but an adaptation of a real event.

sometimes, reality was even more melodramatic than novels, movies, and tv shows.

of course, this news was not only shocking in china, but it also spread abroad. then, those who saw the news were also shocked.

Especially those who knew Mike and Dominica. They could not believe that these people were being tried in such a small county.

This should be impossible.

You city prison.

The time for the trial was soon up.

Ma Hong had personally led his men to escort Dominica and the others.

They were well aware of the strength of these people. If they were escorted by ordinary police officers, they might give them a chance to escape.

As soon as the prison guards entered, a few of them pointed their weapons at Mike and the others. Then, other prison guards stepped forward and handcuffed Mike, Dominica, Chris, and the others to metal balls.

In this case, these people would not be able to escape, let alone have the chance to escape.

" all of you, cooperate with us! " one of the prison guards shouted. " today, you city's court will be holding a public trial against you bastards. "

The giant rat was somewhat looking forward to it.

Although he was famous in Xiangjiang, he was nothing compared to these robbers. If he could be put on a public trial with these international robbers, it would be a good opportunity for him to become famous.

although he might not be able to get out of prison for the rest of his life, if someone mentioned international pirates like Mike in the future, he would be included. at least in the international dark side, he, rat, was also a person who would leave his name in history.

The giant rat was even very cooperative and wanted the prison guards to handcuff him and put an iron ball on him.

"You don't have to bring this along!" Ma Hong glanced at him and said.

CAW CAW! the giant rat was dumbfounded.

He even stretched out his hands and feet cooperatively.

What was the meaning of this?

Looking down on him?

However, Ma Hong's actions proved that he looked down on him. He had already taken Mike and his men out.

Without waiting for the giant rat to react, the iron door of the cell was closed with a bang.

The large rat looked at the empty prison cell and suddenly became dazed. An indescribable sense of loss spread throughout its body.

Then, he started to worry. Would Mike and the others not be able to come back after being taken away?

Please don't.

...

Mike, Dominica, and the others were escorted into the car, but their eyes were fixed on Ma Hong and his men, who were wearing security uniforms.

they might have guessed that Ma Hong and the others weren't security guards. the security guards definitely wouldn't let these prison guards listen to their orders, much less subdue them.

but who were these people?

Dominica, Chris, and Quidar took a second look at Zhuang Long and Li Xiang, especially since they still remembered their strength.

How could there be such a terrifying person in this Eastern country?

in front of these two people, they were simply like children.

Zhuang Long and Li Xiang noticed their gazes and looked at them.

[Chapter 1462 You City Is A Forbidden Zone! Reality Is More Shocking Than The Movie! 3!](#)

Dominica and the others subconsciously lowered their heads when they thought about how terrifying the two of them were. This seemed to be a natural fear of the strong.

you city court was actually very small, even a little remote.

Under normal circumstances, no one would pay attention to any case that the court tried. Most of the time, only the defendant and the plaintiff appeared. Sometimes, both parties did not even have a lawyer.

However, it was different today.

The entrance of the small court was already completely surrounded. Most of them were reporters, and some were here to gain attention.

When Mike, Dominica, and the others were taken out of the car, everyone started to film like crazy.

After all, these people were all international Pirates, and they usually only appeared in movies, TV shows, and novels.

now, these people had all been arrested in this small county town and were all being tried in this small county town. this was probably a once-in-a-century event.

Normally, they wouldn't be able to meet such a person even if they wanted to.

Mike, Dominica, and the others kept their heads down. They had imagined being arrested and tried, but in their minds, they would be tried in the FBI or Interpol headquarters, or in the largest International Court, not in this small county.

This video and news naturally spread very quickly. This time, everyone knew what these international Pirates looked like.

Especially overseas, the news and videos were the first to spread.

These robbers had caused a lot of trouble abroad and were more famous. Naturally, there were countless foreign netizens who complained about the FBI and Interpol.

this was especially true in america. many netizens knew that these giant bandits could fool the FBI and were even wanted for a long time. after the FBI couldn't do anything about them, they began to complain about the FBI.

some people even started to protest, thinking that the FBI was not doing anything and that they were not even as good as the police in a small county in an eastern country.

Otherwise, why would the police in a small county be able to catch these bandits, while you FBI agents can only do nothing and be played around with?

The FBI agents went around.

They only felt that it was an undeserved disaster.

Many of them had faced Dominica and the others before and knew how powerful they were. How could they have been caught by the police in a small county in an Eastern country?

Were these guys acting them?

Similarly, the rich people like Caventon, Fury, and Hobers were also dumbfounded when they saw the news.

Especially Carlton, who immediately retorted when he saw the news. "Didn't they say Dominica was the number one bounty hunter? just like this?"

His men didn't even dare to respond. They didn't expect Dominick and his men to be arrested so easily, especially since they had attacked an FBI branch.

"Boss, what do we do now?" One of his subordinates asked Carlton.

"Find more people. This time, find me more reliable ones." Carlton said in frustration.

There's a guy called Shaw, " the subordinate said immediately. I heard he's very powerful. Even Dominica suffered a few losses at his hands.

Let's go find him, " Carlton said. same conditions.

His men immediately contacted the middleman, then Xiao.

But a moment later, when he received a call from the middleman, the subordinate's face turned ugly. " boss, I heard that Xiao is going to that Eastern country, but he rejected it directly. Also, the middleman also said not to look for them for the mission to go to that Eastern country. No one will take it now.

When Carlton heard this news, he immediately cursed out loud, " "Damn it!"

On the other side, a bald man was watching the news of the approval process on the tv. he also threw his phone on the sofa.

He was Shaw, and he muttered to himself as he watched the news, " I heard that the eastern country is very terrifying. Even Dominica and the others ended up like this. It seems that it's really terrifying.

It could be said that because of Dominica and Mike's approval, the whole world was in an uproar, and your city was even more famous.

Many bandits even treated your city as a forbidden area.

After all, those who knew Mike, Dominica, and the others 'identities and abilities knew how terrifying it would be to catch all of them at the same time.

[Chapter 1463 663-Another Piece Of Dragon Bone, A Special Design](#)

The news of your city's judgment on the bandits became the hottest news.

Mike, Dominica, and the others were all sentenced to life in prison and would have to stay in your city prison for the rest of their lives.

Of course, with the sins of these people, according to domestic law, the death penalty was inevitable.

As for why the death penalty was not given, there was a reason.

After all, these people were rare talents to a certain extent.

What if he could use it?

When he dared to use them, he naturally had a way to control them.

Qin Lin had learned all this from Ma Hong.

Moreover, this kind of thing was done in all countries. For example, Chris made a deal with the American government to help them complete a mission in exchange for the FBI not wanting him, so that he could live in the United States.

There were so many international bandits locked up in your city, making your city prison a sight to behold. There were even bored people who drove for a long time to your city prison to take a picture and then were driven away.

Qin Lin didn't pay any more attention to this.

To outsiders, Mike and the others were international Pirates, but to him, they were just small fries.

After all, they couldn't even beat Zhuang Long and Li Xiang.

However, Zhuang Long and Li Xiang couldn't beat him even if they joined forces.

The effect of the two fruits of the tree of strength was not a joke.

Qin Lin entered the office and sat down. He looked at the game in his mind and began to control his game character to go to the lake mine to mine.

It had been a while since the lake mine had been dug, and he didn't know how many layers were left to be dug.

He planned to dig out all the remaining levels today.

With the Mithril hoe, he could excavate four pieces of land in front of him at once. This excavation speed was much faster, and he quickly excavated two floors.

Unfortunately, he still only managed to obtain the ordinary spring water and special soil. He did not find anything else.

On the other hand, when he was digging for the third layer, he had an unexpected harvest halfway through.

[congratulations, you have found a special ancient saicha Dragon Bone!]

Similarly, following this prompt, an animation of a bone being dug out appeared in the game. The image of a saicha dragon also appeared, a very stupid and silly dinosaur.

Following that, the scene of saichalong drowning, sinking, and being washed into the mine was shown.

It seemed that they had died in the water, just like the Brachyponera from before, or because of some flood or something. They were brothers in the same boat.

similarly, the saichan was also a very docile dinosaur, one of the most docile ones.

he remembered that there was an animated film about the blue cat. it talked about the blue cat and the others traveling to the jurassic era, and the first dinosaur friend they made was the saichalong.

Qin Lin realized that the attributes of the saichalong might be the same as the Brachiosaurus, so it should be able to extract genes.

as he thought about it, he controlled his character to dig through this floor and try to enter the next one.

But this time, he received a prompt:

[level restriction, unable to enter the next level!]

Seeing this, Qin Lin could only give up and control the game character to go back to the farm. At this level, the lake mine was only open to the 65th floor.

After returning to the farm, Qin Lin locked the office door and disappeared from the office with a thought. He appeared in the game farm and saw the remark of the saicha Dragon Bone.

[special ancient saicha dragon bone: [special!]

[this is a special dinosaur bone. It seems to have been left behind from ancient times. For some unknown reason, the bone actually contains the gene of a saichalong. Special effect: [it seems that this gene can be extracted for research, and there is a chance to breed an ancient and very docile saicha Dragon.]

after qin lin read the remark of the bone, he thought to himself that it was exactly the same as the brachiosaurus bone.

Now, he had two dinosaur bones that could be used to extract genes.

If he could extract the genes, he could study and try to cultivate these two dinosaurs.

Unfortunately, he didn't have any knowledge in this area. He only lacked a Stone Book.

Qin Lin exited the game and immediately controlled his game character to go to the library of ore town. He wanted to try his luck and see if he could trigger the plot and get a Stone Book.

As long as he had The Stone Book, he could extract the genes from the two bones.

Unfortunately, when the game character arrived at the library, everything was the same, and no riddles were triggered.

Qin Lin sighed.

He had been waiting for The Stone Book for a long time, but it didn't come out.

he could only helplessly control his game character to run around aimlessly.

Since he had nothing to do, he could only control his character aimlessly, hoping that he would be lucky enough to trigger some plot mission.

It was a pity that he did not trigger any plot quests after exploring the entire ore town. He could only helplessly control his game character to return to the farm.

however, when he returned to the farm and clicked on the tv, he received an unexpected surprise.

it wasn't the weather forecast on the tv, but another tv auction.

[hello, everyone. we meet again. this time, it's a very special auction. the world's number one construction and design master will design a design for the technology park for everyone for free!]

Qin Lin subconsciously thought of the Technology Park that was about to be developed in Linlin Scenic Area.

In the future, Optimus Prime and Megatron would be placed here. He could make a few more of them. In the future, if he could obtain more technology from the gnomes, he could also put them in there.

[Chapter 1464 663-Another Piece Of Dragon Bone, A Special Design](#)

if the dinosaurs were successfully bred, they could also be placed inside.

linlin scenic area had already been contracted to 10000 mu of land.

These 10,000 mu of land naturally needed some basic facilities, and it had to be in a technological style. Only then could it be distinguished from the old Scenic Area.

Now you city construction's people had entered the field and started to explore the terrain. As long as the terrain was explored, they could ask the designer to design the construction drawings.

However, the design in the real world definitely couldn't be compared to the world's best designer in the game, right?

Perhaps the design of this game would have special game attributes.

Thinking of this, Qin Lin controlled his game character to operate the TV and participate in the auction.

He had plenty of in-game gold coins. Those NPCs couldn't win against him at all, so he would naturally be the final winner.

[congratulations on winning the auction. The designer will contact you!]

A moment later, another image appeared on the TV. A fashionably dressed designer appeared on the TV.

The conversation reappeared!

[congratulations, you've received a chance for me to design for you. Before that, you have to give me the corresponding terrain and range!]

When Qin Lin saw this, he took out his phone and dialed Lin Lanzi's number.

He didn't have the terrain or the range.

You city Yijian should have finished exploring the terrain and area, so he just had to ask the other side to send him the map.

The designers of you city construction would also need to rely on this blueprint to design.

As soon as the call went through, Lin Lanzi asked immediately, "Chairman Qin, do you have any orders?"

Qin Lin went straight to the point. Mr. Lin, "he said, "ask you Chengyi construction to send us the map of the construction terrain and area of our new technology Park.

lin lanzi asked in confusion, "chairman qin, what do you want this for?" You city Yi Jian hasn't finished their design yet, but once they're done, they'll send it to you!"

"I'd like to try designing my own designs too. I've been interested in this field recently!" qin lin explained.

"Ran ran." Lin Lanzi didn't know how to answer for a moment.

She felt that her boss was a whimsical person. He could cook, tame beasts, ride horses ... He could do anything he wanted. It was as if he wanted to do it whenever he was interested.

Now, he was thinking about the design.

She was certain that her boss had no experience in this area. He must have come up with this idea on a whim.

However, since her boss had spoken, she could only agree. Then, she called Zhong Ming, who was working for you Chengyi.

As the person in charge of you city construction, Zhong Ming was naturally very busy.

however, when he saw that it was lin lanzi calling, he immediately answered the call.

Although the construction of the new technology Park in Linlin Scenic Area was not as good as the construction project in you city new district, it was of great significance.

If they succeeded, there would be countless tourists coming in to play, and that would be the best publicity for you city.

"President lin, what are your orders?" Zhong Ming asked after picking up the call.

Lin Lanzi smiled and said, "Mr. Zhong, can you send us a copy of the terrain and area map of you city construction? Chairman Qin has been fascinated by design recently. He wants to try to design it himself.

"Boss Qin, you're going to design?" Zhong Ming was stunned.

He knew that boss Qin liked to do things without proper work. He liked to do this and that, and most importantly, he did it very well. He didn't expect that he would like design now.

Lin Lanzi said, "President Zhong, Chairman Qin might even let you guys see the design. You have to give him some face.

"Don't worry, I understand," Zhong Ming said with a smile.

The two of them seemed to have reached a tacit understanding.

Zhong Ming naturally wouldn't refuse such a request. He immediately sent the blueprint to Lin Lanzi.

After Lin Lanzi got the blueprint, she also forwarded it to Qin Lin.

Qin Lin entered the game as soon as he got the recipe. He brought the recipe in and then logged out of the game.

Once again controlling the game character to operate the computer, he put the map and area map into the box and clicked "confirm."

[I've already seen the map of the terrain and area. I'll start designing it immediately. I'll mail you the finished product after I'm done!]

after that, the television turned into a snowflake shape, indicating that the triggered auction service had ended.

the next step was to wait for the design.

Due to the difference in the game time ratio, Qin Lin received a game notification the next day:

[your email has arrived!]

Qin Lin immediately controlled his character to receive the design. It must be the design.

After signing, an item with the word "mail" appeared in the game character's hand.

With a thought, he entered the game.

After replacing his game character and entering the real world, he also saw the package in his hand. He immediately opened it and saw the contents.

It was indeed a design.

Moreover, the design plan was very detailed. It clearly drew the various facilities within the entire Science and Technology Park.

Even just looking at the design plan, he had a feeling that the construction of this Science and Technology Park would be very shocking and amazing.

Moreover, from the outline of the design plan, it could be seen that it was the area of the land contracted by the scenic Area.

When he looked at the remarks of the design, he was surprised because it really had a special attribute:

special technology Park design plan: special!

[this is the construction design designed by the game world's number one construction design Master. After designing according to the design, as long as the structure and design reach 80%, this design can be used to transform the entire Science and Technology Park and give it special attributes: Technological sense +2, technological shock +2, technological sense +2, scientific research worker's technological enlightenment +1, technological state +1, technological atmosphere +2]

Qin Lin was a little shocked when he saw the note.

it can even be like this?

He fully understood what it meant. As long as the Technology Park was built according to the design plan, as long as the similarity reached 80%, then the design plan could be used to transform the Technology Park, and the Technology Park would have special attributes.

Technological sense +2, technological shock +2, science fiction +2, these were all understandable. After all, the Technology Park did not have these attributes.

if it couldn't give people a shock, a sense of science and technology, or a sense of science fiction, then the science and technology park was a failure.

He could even understand the +2 attribute of the technological atmosphere.

The tech Park was full of technology. In a place like this, it was understandable to give people a technological atmosphere.

However, it was a little difficult to understand why scientific researchers had A +1 in their technological enlightenment and state of mind.

What was the meaning of this?

Could it be that this had the same effect as the moonstone?

Of course, he couldn't be sure if the attributes were the same before the transformation was completed.

If that was really the case, wouldn't he be extremely awesome?

Qin Lin took the blueprint out of the game after he finished reading the attributes. He wanted to give it to Lin Lanzi immediately and ask her to hand it over to you Chengyi.

However, when he thought about how it would take time to draw the design, it seemed a little too fast to take it out directly.

Therefore, he did some research on the internet and found out how long it would take to draw up a design for the land that was contracted to the scenic Area.

According to the investigation, the fastest and most effective record was seven days a week.

Seeing this, he also waited for seven days before calling Lin Lanzi.

"Chairman Qin." Lin Lanzi.

Mr. Lin, " Qin Lin ordered, " come over here and give me a blueprint to you city Yijian.

When Lin Lanzi heard this, she knew what was going on. Her boss must have finished the design. So, she hung up the phone and went directly to Qin Lin's office.

qin lin took out a design drawing and handed it to lin lanzi, ordering, have you city's construction team follow this design. Try not to make any changes.

This was naturally a copy that he had printed out. The original map had a transformation function, which could allow the Technology Park to have the game attributes of transformation. He naturally couldn't let you Chengyi build it.

If it was damaged or lost, it would be too late to cry.

after all, as long as he built it according to the design, there was no difference in making a copy.

Lin Lanzi was stunned when she heard Qin Lin's words.

She knew that her boss was a man of his word. If he said that he wanted to draw up a design, then so be it. However, her boss was not a professional after all.

this design was related to the construction of the technology park. the boss actually directly asked you cheng yijian to build according to this design. wasn't he a little willful?

[Chapter 1465 664-Is He Really That Powerful!](#)

Seeing Qin Lin's firm attitude, Lin Lanzi couldn't do anything about it. After all, he was the boss.

She could only open the design in her hand and check the specific situation.

Although she didn't know much about these things, she had seen many design drawings when she was in charge of fairy tale mountain. At least, she could see some of the rules.

Lin Lanzi was surprised when she opened the design.

She found that her boss's design plan was well organized, and even the lines were perfect. It was better than what professional designers like Lin Han drew.

This really surprised her.

"Chairman Qin, did you really draw this? The design is such a big project, and you've finished it in a week?" Although Lin Lanzi wasn't sure what the design was like, she still asked.

Qin Lin thought for a moment. I provided the creativity, direction, and ideas. I asked my friend and his team to help me with the details of the drawing.

Thinking about it, there were indeed a lot of details in this design. It was his first time working on a design, so the workload was a little heavy. He had to make up an excuse at the last minute.

Lin Lanzi could understand this even more. After all, the amount of work required for the design plan was too large in a week's time.

Moreover, it wasn't strange that Chairman Qin could find a team of powerful designer friends to help with the details.

After all, if his boss wanted to find someone to do something for him, what kind of person couldn't he find?

after lin lanzi and qin lin bade farewell, she left the manor and quickly sent the design to you cheng yijian.

The design for you city Yijian was almost done and they were about to start work, so they had to discuss it.

Zhong Ming was also very surprised to see Lin Lanzi send over the design.

he was also discussing the design plan of the scenic area with a few designers, and he was even more surprised when he heard lin lanzi's purpose for coming.

It was understandable that boss Qin wanted to draw a design by himself.

However, wasn't it a little difficult for them to use the design to build the building?

The design wasn't something that could be done so easily. It was related to the overall construction, and if it wasn't done well, there might even be an engineering accident.

the designer next to him didn't look too good either.

After all, they had been working through the night for this design.

everyone knew that the linlin scenic area was very popular. if their own design could be used, when the technology park opened, it would be the time for designers like them to show their faces.

the few designers at fairy tale mountain were the best examples.

who knew that the boss of this scenic area would draw up his own design and even let their company use this design to build.

"President Lin, let's take a look at President Qin's design." zhong ming sighed. in the end, he could only take the design plan from lin lanzi's hands and look at it.

Who asked boss Qin to be the boss of the client?

As the person in charge of you city construction, Zhong Ming was naturally familiar with the design drawings. He was responsible for reviewing many designs.

therefore, he could tell the quality of a design at a glance.

Zhong Ming opened the design and was shocked at first glance.

With just a glance, the lines, structure, and layout of the design plan had attracted him.

"Yi!" zhong ming even let out a sound of bewilderment.

Upon a closer look, the lines, structure, and layout were actually perfect. Or perhaps it could be said that it was unbelievably perfect at first glance.

This was not something a beginner or someone who had never come into contact with design could draw.

Zhong Ming immediately turned to the designers beside him and said, " quick, inform the design department to have a meeting. Let's discuss this design together.

The designers were stunned. The entire design department would only discuss when the design was finalized.

Once they agreed, they would use this map during the construction.

Mr. Zhong wasn't really going to use this map, was he?

Even if the client's father gave the order, the safety of the construction had to be taken into consideration.

However, the designers didn't dare to say anything and immediately sent a notification in a WeChat group.

not long after, the people from the design department of you city's first construction gathered.

Mr. Zhong, is this the finalized design for the Linlin Scenic Area technology Park? "

he suddenly called us over. It must be him!

"We have to do a good job on the Linlin Scenic Area project!"

"....."

Zhong Ming nodded when he heard the staff's words. He took out the drawings Lin Lanzi brought and let the design department start discussing.

The people in the design department were all designers, so they could naturally tell the good and bad of the design drawings.

At first glance, these people all said, "

"the lines in this design are really well used."

"Yeah, the layout is really good."

"....."

Zhong Ming heard these words and said, " the lines, structure, and layout of this design are indeed perfect. What I want to know now is whether this design is reasonable. Can we build according to this design? "

To the design department, this was a simple task. After all, this was what they did.

the designers also began to review the design plan. the most important thing was the calculation of the terrain and data.

After all, different terrains had different load bearing requirements. The same structure would require different size and areas.

following the review, the designers all exclaimed, "

"The data is perfect!"

yeah, I can't even think of such a way to design it myself!

"This terrain can be handled like this? I've learned, I've learned, Yingluo."

f * ck, why does this picture feel even more awesome than my mentor's? "

"....."

The praises made Zhong Ming feel incredulous.

Was boss Qin really that amazing in everything he did? Just because of a design, these designs praised him like this?

[Chapter 1466 Is He Really That Powerful? Special Application](#)

After the development of you city, the development of you city construction was also very fast, especially after the construction of the outer ring Road, Linlin Scenic Area, and the new district.

It could be said that in the construction company industry, they were not worse than the construction groups in big cities.

The designers in the design department were also elites that had been poached from various places.

Now that boss Qin's design could get the praise of these designers, it meant that the design must be very good and could be used to build directly.

This made him happy. This was just right.

After all, this was a gimmick. When the Technology Park's Scenic Area was completed, they could publicize that it was a cooperation between you Chengyi construction and boss Qin, and boss Qin had personally designed the blueprint.

Academician Qin Xiao was very famous. He would definitely attract everyone's attention. It was just that he couldn't say that little Qin was the boss of the scenic Area.

Now, everyone thought that the middle-aged man on the internet was the boss of the scenic Area.

Not long after, the person in charge of the design department looked at Zhong Ming in amazement. Mr. Zhong, this design is amazing. We can be sure that even the best experts in the country might not be able to draw such a perfect design. This can't be Xiao Zhu's work, right? "

the few designers who had some opinions before were now a little ashamed.

At that time, they had thought that the boss of the scenic Area was joking.

Only now did he realize that he was ill-informed.

How could he be joking? The other party's design was clearly far superior to theirs, crushing them.

For the same project, they were too embarrassed to take out their own designs.

How embarrassing.

Zhong Ming also said, "this design was designed by academician little Qin for the scenic Area. It's really surprising."

His words surprised the rest of the design department.

"Academician Qin?"

"It's actually him?"

"you completed it alone? Is he really that powerful?"

Academician Qin was a famous person.

It was rumored that he was a rare genius that only appeared once in a hundred years and was very powerful in everything he did.

He didn't even do research, and the higher-ups even gave him the position of academician.

He could even become a master chef when he cooked and a Master Pet trainer when he trained his pets.

Now, they were ashamed of themselves for making a design for the Linlin Scenic Area.

zhong ming added, " it wasn't completely completed by academician qin alone. he came up with the idea and intention. he asked a team of his friends who were designers to help. "

The people in the design department nodded in agreement. This was still impressive.

if a person who had just come into contact with design could do this, what would happen if the other party had done in-depth research in the industry?

In the end, Zhong Ming confirmed that this design could be used, and the meeting directly decided to use this design to build the building.

After that, he called Lin Lanzi to reply.

"really? It can be used? And it's perfect?" Lin Lanzi was also very surprised after receiving the call.

She admired her boss more and more. He really seemed to be omnipotent.

After that, you Chengjian entered the site and started the Technology Park project. Because of construction reasons, the edge of the old Scenic Area was also blocked.

First, it was to prevent construction dust, and second, it was to prevent tourists from running into the construction site out of curiosity.

but this scene also surprised the visitors.

However, the Linlin Scenic Area had been open for a long time, and the tourists could guess that there must be a new project being built in the Linlin Scenic Area.

this also attracted the attention of many people.

Time passed.

A week later, Minister Lu came to you city with his men again. He went to Linlin Scenic Area immediately and saw Qin Lin. "Boss Qin, let's go to Linlin's laboratory."

qin lin looked at the anxious minister lu and said with a smile, " "Minister Lu, don't worry. They haven't started yet."

"Can we not be in a hurry?" Minister Lu asked. This is an epoch-making event. These tea trees can directly cause a terrible disease like cancer to develop into an insignificant disease like a cold."

Qin Lin had no choice but to follow Minister Lu to Linlin's laboratory.

In Minister Lu's car, there were two people holding cameras. They were probably the people who followed the record.

Cancer had always been the scariest disease in human history. It had also been one of the most expensive terminal diseases. Countless people had lost their entire family's fortune because of this disease, and in the end, they had not been saved.

It could be said that the appearance of the cancer tea had completely drawn a dividing line between the illness and the disease. In the past, the disease was terrible, but in the future, it would not be a big deal at all. As long as there was this cancer tea, the tea could be brewed and one could drink it at home and cure cancer.

Qin Lin and Minister Lu soon arrived at the area where Linlin's laboratory was located.

Today, Shen Li had brought the Linlin laboratory's researchers to work in the experimental site.

One by one, the researchers were seriously filling up the transplanted flower pots.

Today was the first time the laboratory was trying to cut and transplant the cancer tea tree.

Everyone thought that the tea trees needed to grow into old trees before they could be transplanted. In fact, this was not necessarily the case. When transplanting many tea trees, the best time was before the tea leaves had first grown.

research had shown that transplanting the tea trees at this time could perfectly inherit the effects of the tea trees.

It was the same for the cancer tea tree after the research.

therefore, this was the best time for the transplant.

After the researchers cut the transplanted tea leaves, they carefully wrapped the cut with plastic and carefully transplanted them into the flower pots.

At this stage, tea trees were not suitable to be transplanted into the soil. Researchers needed to use special cultivation methods to grow roots from the transplanted tea trees.

At that time, he could break these flower pots and then transplant the entire plant into the soil.

The recorder brought by Minister Lu had already started to film.

By then, these would be the most precious materials, recording the history of cancer being swept into the dust.

When Shen Li saw the two of them, he informed the researchers and jogged over. "chairman qin, minister lu, you're here."

Qin Lin nodded.

"President Shen, have you confirmed the people who will be working with us on the tea plant?" asked Minister Lu immediately.

Shen Li nodded and explained, " the county has already taken care of this matter. The tea plantation that we selected will be handled by the county. They will sign compensation and confidentiality agreements with them.

Minister Lu nodded.

the cancer tea tree was of great importance, so you cheng, linlin's laboratory, and the planting process had to be taken care of. even if it would be spread in the future, the initial stage had to be absolutely safe.

This was because it could bring great benefits to their country.

In the early stages, the cancer tea trees would only be planted in you city.

Cancer wasn't any other disease, and there were only a few cases of cancer. You city was a place where tea trees were popular, so the cancer tea trees planted in you city could be used by cancer patients all over the country.

Naturally, they had to keep this a secret. The outside world did not know that the cancer tea tree had already been promoted.

minister lu's thoughts were very simple now. to fully control this weapon, he had to control the cancer in his country first.

Even if this thing was to be circulated in the future, he would have to be careful when it was circulated.

After Minister Lu and Qin Lin tried to understand the situation, they asked the driver to take them out of you city.

However, at the toll station at the entrance of you city, the car stopped. There was actually someone standing guard at the toll station.

Naturally, they were not ordinary guards.

When they saw Minister Lu's car, one of them immediately ran over and reported, " " minister lu, everything has been arranged. as long as there's a problem, it can't escape our investigation! "

"Especially foreign tourists," Minister Lu nodded.

in silence, all the channels to enter you city had such guards, and there were even other people in the dark.

This was because the higher-ups paid more attention to international thieves like Mike and Dominica. Minister Lu took advantage of the promotion of the cancer tea tree and made a special application to the higher-ups, which was approved.

Of course, the publicity was to ensure the safety of you city's tourism. You city would be selected as a new tourist city.

this was a lie, but it also made countless tourists believe it. when the tourists in you city saw this scene, they also took out their mobile phones to film it. they were surprised.

This kind of sentries seemed to make you city even more different, and it was even more attractive to tourists.

In this case, Linlin Scenic Area quietly launched another product.

This tea product stunned everyone who saw it. Was this to save the national football team?

[Chapter 1467 Is This Effect Real? 1](#)

sea cucumbers were originally something that could be eaten easily.

however, because of a certain foot, the sea cucumber seemed to have been given a different attribute.

it all started with an interview with a certain football team member who said that he had to eat sea cucumber for every meal.

From then on, sea cucumbers had a different legend.

Early in the morning, Yu Shui brought li yueqiong, the manager of the sea cucumber farm, to Qin Lin's office. He was carrying a bag of sea cucumbers from Linlin's Scenic Area.

qin lin knew what was in the bag when he saw the two of them.

After all, Yu Shui had mentioned that the sea cucumber cultivation was about to be successful.

The first thing Yu Shui did when she came in was to hand the sea cucumber to Qin Feng. "President Qin, take a look at these sea cucumbers. They're completely mature. They're almost ready to be sold."

Qin Lin took the bag and looked inside. These sea cucumbers were the same as the ones he had grown in the game, and they were bigger than the average ones.

Qin Lin grabbed one and pretended to look at it for a while. Then he said to Yu Shui and Li yueqiong, " take these sea cucumbers to the kitchen and let Master Lin make them. We'll try them and see if they're any different from the other sea cucumbers.

Hearing Qin Lin's words, the two of them nodded and immediately went out of the office to the kitchen to find Master Lin.

The sea cucumber in Qin Lin's hand was left behind.

He immediately closed the office door and locked it from the inside. Then, he entered the game with a thought.

The sea cucumber tasted the same. He had eaten it in the game and in real life. Other than the sauce, he couldn't tell the difference in taste.

The sea cucumber was not eaten by taste.

The real use of the sea cucumber was its specific effects.

Therefore, he still had to rely on the game's remarks to know the effects of the sea cucumber.

special sea cucumber: Grade 1 "

[this seems to be a special type of sea cucumber with special effects: Protein +1, sugar +1, supplement *+1, cure yang dream *+1

[special attribute: long-term cooperation with high-intensity sports training can increase physical fitness!]

Qin Wan saw the note.

Compared to the in-game breeding, the attributes of breeding in reality were one level lower.

This was a normal phenomenon. Many of the items produced in the game would be of a lower grade in real life. Their attributes would also be reduced, and some of them would even disappear.

The sea cucumber's attributes had only been reduced by one level, but they had not disappeared.

Even the attributes that could increase physical fitness through long-term high-intensity sports training did not disappear.

This attribute was naturally far from the effect of the body-increasing medicinal liquid. The body-increasing medicinal liquid could increase all attributes, but this attribute was effective for everyone, even ordinary people.

In theory, it would be effective even if they used it, as long as they were willing to train hard.

Of course, it was difficult for ordinary people to understand the unique training method of a certain football team. In fact, if the same sea cucumber was used, the king-like version might be more effective than the men's football team.

Qin Lin knew about Wang Yan's condition. Sometimes, he was even more tired than high-intensity exercise. The sea cucumber would definitely be very effective.

The key was that the attributes of the sea cucumber could be compensated for.

Wang Yan was able to increase his physical strength just by lying down.

This was simply my dream.

After Qin Lin saw the attributes of the sea cucumber, he also exited the game with a thought and opened the office door again.

Master Lin finished the sea cucumbers not long after. Yu Shui sent the sea cucumbers to his office.

"President Qin, try it." Yu Shui said immediately.

Qin Li knew the effect of the sea cucumber. He also picked one up and put it in his mouth to try it. After biting it, it still had the same chewy feeling.

This feeling was different from eating QQ bullets. The key was the taste and texture. He really didn't like it.

He really couldn't empathize with those who liked to eat sea cucumbers.

However, he also knew the effects of these sea cucumbers. He tried a bite and said, "Yushui, take some sea cucumbers to Linlin's laboratory and ask them to test them to see their condition.

"Alright, chairman Qin." Yu Shui nodded.

He knew that the sea cucumber was specially cultivated by Chairman Qin, so it must have special effects.

It would be strange if something that Chairman Qin specially trained didn't have any special effects.

Therefore, he took Li Yueqiong back to the sea cucumber farm after leaving the manor. After fishing the sea cucumbers, he went to Linlin's laboratory immediately.

Yu Shui also gave Shen Li a call and asked him to help arrange it.

Shen Li's position was naturally much higher than Yu Shui's. Although he wouldn't meet her personally, as they were from the same company, it was Qin Lin's order. He could arrange it with a phone call.

So, when Yu Shui arrived at Linlin's laboratory, there was already a professor who specialized in Marine Research waiting for her. "Manager Yu, President Shen has already told me that my surname is Chu, so I'll be in charge of the sea cucumber testing. Come with me."

"Sorry to trouble you, Professor Chu." Yu Shui nodded and followed Professor Chu into the laboratory building. They entered a laboratory.

Inside, Professor Chu immediately said to his team members, "Everyone, stop your work for a while. Let's help Linlin Scenic Area test a type of sea cucumber. It's a new product that Chairman Qin cultivated.

At first, the researchers didn't think much of it when they heard that they were going to test a type of sea cucumber. They subconsciously thought of a certain plant. However, when they heard that it was a new product of Chairman Qin's cultivation, their eyes were completely different.

They knew very well who Chairman Qin was. None of the products he cultivated were simple. Some of them were even magical and left people speechless.

Now that the sea cucumber was cultivated by Chairman Qin, it immediately aroused their curiosity.

It was as if the sea cucumber was given a different attribute, just like the sea cucumber that was eaten by a certain someone.

"Manager Yu, please give us the sea cucumber." Professor Chu said.

Yu Shui nodded and gave the sea cucumber to Professor Chu.

Professor Chu took the sea cucumber and immediately handed it to the team members. He said, "Let's split up and test the sea cucumber as soon as possible," Wang Yao said.

The researchers knew that the sea cucumbers were cultivated by Qin Lin, so they were very active. They quickly separated the sea cucumbers and began to test them in front of the instrument.

It was not that fast to test the sea cucumber, so Yu Shui chose to leave first.

However, Professor Chu and the others were working hard.

After a long time, a researcher said in surprise, " professor Chu, you must find it hard to believe that these sea cucumbers are so rich in protein. They're much higher than ordinary sea cucumbers.

another researcher immediately chimed in, " that's true. I've compared the data of various sea cucumbers. Even the sea cucumber with the highest protein content in the world can't be compared with the one cultivated by Chairman Qin.

Professor Chu nodded. This alone showed that director Qin's training was a success.

" not only that, " another researcher said, " you should know that the greatest effect of sea cucumbers is to nourish one's body. the data of the sea cucumbers cultivated by chairman qin in this regard is far beyond that of ordinary sea cucumbers. "

that's right, " another researcher agreed. the effect in this area will be very strong. Even I want to eat some to try it.

As time went by, other than the attribute that could increase physical fitness by cooperating with high-intensity exercise, which was not detected, the other attributes were also detected by professor Chu and the others.

After all, they were all elites in this area of research.

However, the test results shocked them.

Sea cucumbers were rich in protein, so it made sense that they could nourish one's body. After all, sea cucumbers did have this effect. It was just that the variety of sea cucumbers differed from cultivation land to land, so the effects in this aspect were different.

However, the sea cucumber cultivated by director Qin not only had these two effects, but also had substances that were effective for sexual intercourse.

This was amazing.

What were men most afraid of?

it was just a lack of motivation, or a complete lack of motivation.

If you don't have enough power, this sea cucumber can increase it. If you have no power at all, this sea cucumber can help you fix it.

this was a complete guarantee.

"Is this the direction that Chairman Qin has specially cultivated, or is it a random effect?" one of the researchers exclaimed.

The other researchers were stunned.

Someone said,"I don't think it's a random effect." Think about it, many of the things in Linlin Scenic Area seem to have this effect, don't they?"

Another researcher said,"that's true, do you guys think it'll be awkward?"

"Cough! Cough! Cough!" Professor Chu immediately coughed, feeling that these team members were getting more and more out of hand.

This kind of thing can't be casually said.

The researchers also knew that they had been talking too much. One of them immediately said in surprise, " I think the most surprising thing is the amount of sugar in the sea cucumber.

Even professor Chu agreed with this. indeed. It's really surprising that a sea cucumber contains so much cidoguard.

These researchers naturally knew that the sea cucumber contained cidullum, which was really unbelievable.

Sugar was something that medical professors fought over to research.

However, this was not the case. It was also something that could be used in medicine. When someone was injured or during surgery and the wound was infected, it could increase the immune system and prevent the infection.

This was especially true on the battlefield, where this sticky candy could save lives.

Perhaps, in the future, soldiers on the battlefield should bring two dried sea cucumbers. When they were injured, they could take out the dried sea cucumbers and bite them when they were being treated.

Just as Qin Lin had guessed, professor Chu and the others didn't detect that the sea cucumber could increase one's physical strength with high-intensity training.

After all, this hidden substance couldn't be detected without prior warning. No matter how powerful the researcher was, he couldn't detect it immediately.

Even so, when Yu Shui received the notice and the test results of the sea cucumber, her face was full of surprise and disbelief.

he knew about sea cucumbers. after the scenic area had a sea cucumber cultivation project, he had read a lot of information, data, and reports about sea cucumbers.

Therefore, he knew that sea cucumbers were nutritious and rich in protein.

However, the sea cucumber developed by Chairman Qin was much better than ordinary sea cucumbers in this aspect. Even the most nutritious niujin sea cucumber was far inferior to the one cultivated by Chairman Qin in these two aspects.

In other words, Chairman Qin's sea cucumber had been successfully cultivated.

Looking at the test report, he couldn't help but take out his phone and call Qin Lin. After the call went through, he pretended to be mysterious and said, " Chairman Qin, you can't imagine how incredible the sea cucumbers you cultivate are!

[Chapter 1468 666-Little Qin Feng Takes The Blame! I'm Doing It For My Friend! 1](#)

Linlin Manor.

Qin Lin laughed when he heard Yu Shui's mysterious words.

He knew the effects of the sea cucumber better than Yu Shui.

However, he still said to Yu Shui, "Hurry up and bring the results over. Although I have a general idea of the effect, I don't know the specific data."

Yu Shui didn't dare to hesitate when she heard her boss's words. She sent the report to Qin Lin's office as fast as she could.

after qin lin took the report, he pretended to read it and said to yu shui, "The effects of this sea cucumber are better than I thought."

"Chairman Qin, none of the things you're training are simple," Yu Shui immediately complimented.

qin lin smiled and said, "you can continue to train them in the cultivation department. the mature ones will be provided to the scenic area. the effect of this thing is also a unique feature."

"Alright, Chairman Qin." Yu Shui nodded and left Linlin Manor. She immediately contacted Lin Lanzi to report this to her direct superior.

Lin Lanzi knew that the cultivation Department was cultivating a new type of sea cucumber. She had read it carefully when she first signed the document.

The new sea cucumber was a new product cultivated by Chairman Qin.

After that, she didn't pay any more attention to the sea cucumber.

After all, sea cucumbers were only a type of food, and there were too many special types of food in the scenic Area.

There were all sorts of vegetables and giant crops.

from time to time, linlin's laboratory would produce one or two types of vegetables, all of which were better than the ones on the market.

However, when Yu Shui sent the test report over, Lin Lanzi was still a little surprised when she saw it. After all, the effects of sea cucumber seemed to be very popular with men.

Especially the effect of the treatment of ****, there must be some men who would buy it even if they had to sell their cars or houses, right?

This seemed to be a unique feature.

After all, this kind of sea cucumber could not be found in other places. Only the Linlin Scenic Area had it.

with that in mind, lin lanzi called for the people from the multimedia department and began to give them tasks.

even if the special effects of the sea cucumber could not be publicized on a large scale due to the regulations on the internet and publicity, it was still possible to announce it on the official account of the scenic area.

Linlin Manor.

Qin Lin walked out of the office, but he was thinking about a question in his mind.

It was about how to discover the effect of the special sea cucumber and high-intensity exercise on physical fitness.

Linlin's laboratory didn't have any results, and he didn't want them to go for a specific test.

It would be better to let people know in another way.

At this moment, Qin Lin saw Lin Fen come over with little Qin Feng.

Little Qin Feng did not ride little yang today.

Yang, the crocodile, followed behind Lin Fen like a loyal guard.

Only the Linlin Manor could see such a huge crocodile being pounced on. Anyone who saw such a huge crocodile in other places would have been scared away.

little qin feng was holding a small ball in his hand.

Because of the baby-beneficial factor, little Qin Feng's development was faster than the average child, and he had already begun to like the toys that boys liked.

For example, a ball.

He kept pinching and rubbing the small ball in his hand.

"My good son, do you like football?" Qin Lin suddenly laughed. "I'll build a soccer team for you first, and when you grow up, they'll play with you, okay?"

He even said it out loud.

Her voice was heard by the waiter and security guard.

He was afraid that the news of him building a football team for little Qin Feng would spread very quickly.

Lin Fen, on the other hand, was a little dumbfounded. Her grandson was just playing rubber balls. How did it have anything to do with football? and he even said he wanted to form a football team?

Little Qin Feng looked at Qin Lin in confusion and threw the ball on the ground as if he was disgusted.

qin lin, on the other hand, had already walked to the side. he took out his phone and called lin lanzi.

Once the call went through, he said to Lin Lanzi, " "president lin, i need you to pick out some of the security guards in linlin's company who love football. it's best if they're young. help me form a football team. the team will be treated with special sea cucumbers for every meal to nourish their body."

qin lin hung up the phone without explaining.

Most of the security guards in Linlin's company were veterans, and some of them were Special Forces veterans. Those who joined the Army early were still young after they left.

The key was that their body's flexibility, endurance, and other training in the Army would definitely be very good. If they could be trained with the special sea cucumber, their physical fitness would definitely be very terrifying in the future.

In that case, he could hire a good football coach to train him. If he had the chance to compete with someone from a certain football team, it was not certain who would win.

However, if the people from a certain football team couldn't even beat a football team made up of security guards, then they really didn't know what to say.

on the other side.

Lin Lanzi was also speechless when she heard her boss's request.

was his boss doing whatever he wanted? Why did he suddenly want to find security guards to form a football team?

More importantly, the soccer team had to eat sea cucumbers for every meal. Who was this implying?

She always felt that her boss was just trying to disgust her.

However, if her boss wanted to disgust her, she had to do as he said.

It wasn't until that night that a piece of news spread among the staff that she found out the reason. It turned out that the boss wanted to form a football team for the young master, little Qin Feng.

It was because little Qin Feng liked football.

He was really the best father in the world.

Sometimes, it was really enviable to have good reincarnation skills.

In that case, this matter could also be a gimmick that could be used to promote the sea cucumber.

[Chapter 1469 666-Little Qin Feng Takes The Blame! I'm Doing It For A Friend \(2\)](#)

The next day.

the official account of the linlin scenic area had a new video, which attracted the attention of many fans.

wang kai was a loyal fan of the linlin scenic area.

This was because the Linlin Scenic Area had things like Linlin-okra and Linlin medicinal wine.

Because he was young and insensible, especially in high school, he was particularly infatuated with music teachers. He had even secretly followed the music teacher and peeked at some images on the opposite rooftop.

as a result, this caused him to have too many unspeakable stories with the fifth young lady at that time.

At that time, he was still growing, which also caused his body to have problems. Therefore, several girlfriends he had had died because of this problem.

The okra in Linlin's Scenic Area could make him feel a little better on the night he ate it, but he had never had the opportunity to buy the Linlin medicinal wine, and it was not open to the public.

He could only look forward to the next event related to the Linlin medicinal wine. He would be the first to participate and hope to get a bottle of Linlin medicinal wine.

This was also the reason why he was always paying attention to the official account of Linlin Scenic Area. Seeing that the official account of Linlin Scenic Area had been updated, he immediately clicked on it to check:

"I have good news for everyone. Our Linlin Scenic Area's boss has decided to form a football team because our young master also likes football. We will make a strict selection from the security guards to form a football team, and we are sincere in hiring an outstanding football coach. Not only will the salary be high, but every meal will also be given special sea cucumbers,"

The content of the video stunned Wang Kai for a few seconds.

What the hell?

Why was there a soccer team in a Scenic Area? Or pick from the security guards?

Boss made this decision just because the young master liked it? wasn't this a joke?

However, he had to say that he was really reincarnated well.

The key was to give the football players sea cucumbers for every meal.

Was he planning to go against a certain someone? or was there something else?

This is really awkward.

Indeed.

The people who saw the video were stunned. They felt that this was the rare sense of humor in Linlin Scenic Area. After all, it was rare to see Linlin Scenic Area do such silly things.

However, the video continued to play, and when they saw the effects of the sea cucumber, they couldn't remain calm.

Protein, ginseng, and the like were directly ignored, and the benefit attribute made the men's eyes light up.

Clearly, this thing was a great supplement in this aspect.

No one would doubt the effects of the sea cucumber.

After all, this was a product of Linlin Scenic Area, which meant that it had a good reputation.

If the Linlin Scenic Area still sold fake goods to deceive people, then there shouldn't be any place that sold real goods, right?

However, when they saw that the sea cucumber was effective in treating one's ***, everyone was no longer calm.

He was really not calm anymore.

This problem can be cured by sea cucumbers?

When Wang Kai saw the content at the end of the video, he subconsciously stood up. "really?"

He couldn't believe it and played the video again.

he had seen countless doctors for this problem and had been cheated of a lot of money, but he had never been cured.

wang kai had never thought that the sea cucumber announced by linlin scenic area would have such an effect.

our special sea cucumber will be on sale tomorrow morning!

When Wang Kai saw this, he immediately opened the ticket booking app. He had to go to the Linlin Scenic Area immediately. Who knew how many sea cucumbers like this there were?

Everyone knew that things in the Linlin Scenic Area would run out of stock easily.

What if he couldn't buy it?

After Wang Kai booked the earliest ticket, he watched the video of the Linlin Scenic Area and found that it was completely lively.

The number of comments and likes would increase with every refresh.

However, this also made him even more anxious.

This also meant that many people would go to Linlin Scenic Area for this thing.

Wang Kai became a little anxious as he waited.

it wasn't easy for him to have this hope of treating him, and he didn't want the things to be sold out by the time he arrived.

He finally got his train ticket, so he took the bus to you city as soon as possible.

when he arrived at you city, it was already night.

He didn't book a room in the scenic Area. He only booked a hotel room in the new you city district.

After checking in, the first thing he did was to take a good bath.

He had rushed from home to you city, sweating all over.

after taking a shower, wang kai turned on his phone again to look at the news about the sea cucumber. he realized that the sea cucumber had already made it to the hot search news. it was very popular and everyone knew about it.

More importantly, the Linlin Scenic Area announced that the special sea cucumber was cultivated by academician Qin.

This made Wang Kai even more anxious.

He knew academician Qin little, and he also knew how amazing academician Qin little was. The things that he developed were all very magical.

Now that this sea cucumber was a product provided by academician Qin, the effect of the treatment of *** was really without a doubt.

"no, i have to be fully prepared!" Wang Kai put down his phone. He was obviously in a hurry, and he knew very well that everything was left to those who were prepared.

That night, Wang Kai did not sleep. He played games on his phone the entire night.

He knew that he would be like a dead pig after he fell asleep. He couldn't get up at all, even with the alarm clock.

therefore, he could only kill time by playing games. one game took 25 minutes, so two games took almost an hour.

Wang Kai played the game until 4 o'clock. Then, he left the hotel immediately and found a taxi to Linlin Scenic Area.

although you city was just a county city, because of the development of linlin's scenic area and tourism, there were shops open 24 hours a day on the streets, and there were also cars waiting for them.

In particular, after the Firefly landscape and the sunrise landscape mutation in Linlin Scenic Area, tourists flocked to it, and the car rental business at night was very good.

Therefore, you city's taxi drivers were very grateful for the sudden appearance of fireflies and the sunrise, because the distribution of the night would really let them earn more.

wang kai took a taxi to the linlin scenic area and went to the linlin scenic area sales center immediately.

The Linlin Scenic Area had been developed, and there were sales centers in several places, such as villas, ranches, and fairy tale mountain.

It was just that these sales centers were built in different ways and styles.

Wang Kai went to the Linlin Manor's sales center, but when he reached the outside, he was shocked. Two guys were actually holding blankets and laying them on the floor.

Was this necessary?

The two tourists who were sleeping on the floor seemed to have been woken up by Wang Kai. They looked at Wang Kai awkwardly, feeling a little awkward themselves ...

Wang Kai was equally embarrassed.

Clearly, they both knew each other's goal.

However, it was always difficult for men to talk about this kind of problem.

Wang Kai was quick-witted and immediately said, "There's a problem with my friend. He's embarrassed to come, so I came on his behalf. His name is Huang Bin."

His words stunned the two men on the floor, and then they reacted, " well, I'm here to help a friend. That guy doesn't know how to control himself and has caused a problem.

"Isn't that a coincidence? I'm also here to buy it for a friend. It seems that we're both very loyal people."

Wang Kai immediately added, " that's right. If it wasn't for loyalty, would I lose face for my friend? " However, since we dare to buy it for our friend, it means that we are just and honorable, right?"

Their eyes lit up when they heard Wang Kai's words and they nodded in unison.

that's right, friend. You're right. If we dare to come for you, it means that we have no problems!

" that's right. we can say to anyone that we're doing this out of loyalty. it's not that we have a problem. we just made an unreliable friend. "

The sound of footsteps rang out, and two more men appeared. They looked at Wang Kai and the other two in a daze.

This made Wang Kai and the other two a little embarrassed.

Who knew that one of the men would also say, " "Well, I'm also buying it for a friend. He's embarrassed to come!"

The other man firmly declared, " "I'm really doing this for a friend. He's still at the hotel."

"my friend is also at the hotel," wang kai said with a smile.

The man with the "Kasaya."

[Chapter 1470 Thank You, Little Qin, And Freeze A City?](#)

Linlin Manor Office.

Qin Lin didn't know whether to laugh or cry as he read the latest hot news.

The news was about the special sea cucumber. You could see that the sales center of the scenic Area was surrounded by a sea of people, and all of them were men.

Anyone who wasn't a fool would know the reason for this.

However, the content of the news was very interesting.

"I'm really buying this for a friend."

" i'm definitely here to help a friend. he's still outside! "

"My friend is too embarrassed to buy it, so I'm here to help him!"

"My friend's name is Lu Feng Zhizhi."

"I have a friend called Qiulin Qianqian."

"....."

qin lin didn't know whether to laugh or cry as he watched the men's words in the video.

This really had the taste of deceiving one's ears while stealing a Bell.

perhaps this was the last piece of cloth that these people used to cover up their embarrassment.

Of course, there was the possibility that some of them had really come to buy it for their friends.

Then this kind of person was really a big wronged seed. If someone had taken a video of this, no one would believe him even if he said he was dead.

time flew by, and in the blink of an eye, a month had passed.

During this month, a group of people had stayed in you city for a long time. This group of people was naturally for the special sea cucumbers provided by the scenic Area every day.

At the entrance of the scenic Area, Optimus Prime and Megatron were still working dutifully under the control of the operator.

Optimus Prime: " what a lively day. There are still so many tourists today. Welcome, everyone.

Wei zhentian: " they're all annoying humans. They keep taking pictures of me. If they keep taking pictures, I really want to chop them up with an axe.

As he spoke, Wei zhentian raised his hand and made a YES sign in cooperation, making all the tourists around him laugh.

Now, everyone knew that Wei zhentian of the Linlin Scenic Area was the best at saying harsh words, but he was much warmer than Optimus Prime. After saying those harsh words, he would give the tourists a big surprise by posing in all kinds of positions to cooperate with the photos.

Wei zhentian, " Optimus Prime said, " you're a man who doesn't mean what you say. How dare you try to buy people's hearts with this method? "

As he spoke, Optimus Prime mimicked his action and made a gesture of 'yay', signaling for everyone to take pictures.

The tourists now knew that the daily bickering between Optimus Prime and weizhentian in Linlin Scenic Area was already a routine, so they did not find it strange. Instead, when the two big guys were bickering, the tourists would take the opportunity to film the scene.

Suddenly, Optimus Prime and Megatron stopped in their tracks. This was mainly because the operator behind them had seen a few people coming in with long poles.

Most importantly, these people were wearing masks and sunglasses, making them look very wretched and not like good people.

Wei zhentian directly took two steps towards those people and even deliberately said loudly, " "look, look, look, these people seem to be a little off."

Optimus Prime also stepped forward and looked at those people. "Guys, what are you all dressed up for?"

The tourists around them were also attracted by the commotion. They looked over at the group of people and subconsciously took out their phones to take pictures.

Those people did not look like good people.

It was obvious that those people were also shocked when they saw Optimus Prime and Wei zhentian staring at them. They subconsciously shrank back.

They clearly knew how powerful Optimus Prime and Wei zhentian were.

They had seen the video of Optimus Prime and Megatron killing the Pirates.

Therefore, these people immediately raised their hands to show that they had no ill intentions.

Then, these people started to operate and raised the poles in their hands. In the middle of the poles, there were banners that said, "

" thank you, little qin, for cultivating the special sea cucumber and bringing back spring with her magical hands, saving my family's bloodline. "

Linlin Scenic Area, the cradle of pregnancy, men's hope: Xuanji "

thanks to the sea cucumber, little Qin's hope of achieving life is a mayfly.

thank you, little Qin, for giving birth to a new life and re-blooming the miracle Kasaya.

This scene made the surrounding tourists burst into laughter.

He was suddenly caught off guard.

A tourist who was drinking water almost choked on it, and the water flowed out from his nose.

They immediately understood what was going on.

After all, in the past month, the sea cucumbers in Linlin Scenic Area had become very famous.

It could be said that everyone now knew that there was this kind of sea cucumber in Linlin Scenic Area, which was cultivated by academician Qin.

Now, it seemed that the sea cucumber was very effective. These people were cured in such a short time. Otherwise, they wouldn't have come to cause this.

the operators of optimus prime and megatron were dumbfounded when they saw the banners.

Wei zhentian asked,'Optimus Prime, do you understand what they're doing? it seems to be very powerful!'"

Optimus Prime: " they must have eaten sea cucumbers and cured some manhood disease. They're here to thank you.

The conversation between the two robots made those people really embarrassed. They immediately put the banner on the ground and then fled.

This caused the tourists to take photos again.

After all, if such a thing were to spread online, it would definitely attract a lot of attention.

...

Linlin Manor.

Qin Lin was sitting in his office, completing his daily tasks for the day. He was about to control his game character to go to ore town to try and trigger the plot mission when Lin Lanzi came.

Mr. Qin, watch this video first. Lin Lanzi sat down and handed the video to Qin Lin. At the same time, she was trying to hold back a smile.

Puzzled, Qin Lin took the video and watched it. He saw a few people wearing masks and sunglasses holding up a banner.
