

The Game 1491

[Chapter 1491 Special Mission! Three Types Of Special Fish?](#)

A few days passed.

Linlin Manor.

Qin Lin woke up early in the morning and looked at the desert transformation in his mind. It was empty, which meant that the seeds he planted last night had failed again.

It was strange. When Minister Lu came, there were seeds that had successfully mutated one after another. Even ordinary watermelon seeds had mutated.

now that minister lu had left, there was no more movement in the desert mutation site. it was a series of failures.

It was as if Minister Lu was the chosen one. He needed plants that grew in the desert, and the game had successfully mutated the seeds one after another.

Qin Lin controlled his character to plant another seed in the desert.

After that, he washed up, had some breakfast, and left the inner area of the manor.

In the office, he controlled his game character to complete his daily tasks.

Seeing that he did not gain anything, he controlled his game character to head to ore town to start the plot quest.

Unfortunately, he still didn't get anything.

In the afternoon, Qin Lin unexpectedly received a call from Minister Lu. He had come to you city again and was about to reach Linlin Manor.

as expected, minister lu arrived not long after. he was followed by a middle-aged man with dark skin.

The middle-aged man looked like a farmer, but he was standing next to Minister Lu, so he was obviously not an ordinary person.

"Boss Qin, sorry to disturb you again." Minister Lu said as soon as they met.

don't say that, Minister Lu, " Qin Lin said politely. what's the matter with you coming to my Linlin Manor? "

Minister Lu also introduced the middle-aged man beside him with a smile, " Mr. Qin, this is Guo Jun, an expert from the environmental management Department. The Department wants to observe the growth of the three plants in the sand farm in more detail, so they sent him here to be a recorder. Please arrange a room for him in the scenic Area.

Qin Lin finally knew Guo Jun's identity.

looking at his dark skin, he must be someone who really worked in his post.

Managing the environment was a very tiring thing, and it required one to run around often. It was exposed to the wind and the sun, and one could tell that the other party was a hardworking person by looking at his dark skin.

however, minister lu also meant that guo jun was not qualified to live in the manor, which meant that his position would not be very high.

Guo Jun was very polite to Qin Lin. He even said with a hint of respect, " boss Qin, I've heard about your achievements along the way with Minister Lu. I have great respect for you.

it can be said that the world's countries have not made much progress in controlling desert plants, but boss Qin, you've managed to create three types in a row.

if these wasabi, Dogtooth grass, and watermelons were grown in the desert, it would definitely shock the world. You alone would be more powerful than the researchers in this field all over the world.

" guo jun, " minister lu laughed, " there are more than these three plants. boss qin might be able to cultivate new plants that can survive in the desert soon. "

Guo Jun was stunned when he heard this. He looked at Qin Lin with even more admiration.

He knew that with Minister Lu's status, he wouldn't say such things casually. Since he had said it, there must be some basis.

in other words, boss qin could cultivate more plants that could survive in the desert.

For someone like him who had dedicated his entire life to environmental management, people like boss Qin were worthy of respect.

qin lin heard their conversation and subconsciously looked at the screen in his mind again. then he looked at minister lu in shock. he really wanted to say, " F * ck.

This was because none of the seeds in the desert had mutated in the past few days, and they had been failing.

but what was going on now? The seeds that Minister Lu planted this morning had sprouted again?

Was Minister Lu really the chosen one?

He and you Xi had become Minister Lu's grandpas?

what the f * ck!

Qin Lin could only sigh at Minister Lu's luck and the coincidence. Then, he called Gao Yaoyao and asked her to take Guo Jun to the scenic Area to arrange accommodation.

Although he respected Guo Jun for being honest, the manor's reputation and class were already very high. He didn't want to lower the manor's style.

If Minister Lu hinted that the other party was not qualified, then he was not qualified.

They arranged accommodation for Guo Jun at the scenic Area. Whether it was the nuptial chamber, the ranch tent, or the fairy tale mountain, it was something that other people could only dream of.

To be precise, he was already treating Guo Jun with a very high standard.

If outsiders could get the scenic Area to arrange for them to stay in the reserved internal rooms, they would probably be so excited that they would post it on their WeChat moments, right?

The purpose of Minister Lu's visit this time was to send Guo Jun over, and he left you city soon after.

As for why he gave his level to Guo Jun? There must be a reason for that, but Qin Lin didn't ask. Maybe he was just on the way to you city and had something more important to do.

Qin Lin personally sent Minister Lu to his car and left. He returned to his office and was about to check on the situation of the various companies in Linlin's Department when he saw some movement in the game in his mind.

thomas, the mayor of ore town, appeared at the entrance of the ranch.

This made his eyes light up.

There was a plot quest at his door.

This meant that there was another reward.

Therefore, there were times in life when one wanted something but couldn't get it. Perhaps this thing would come to his door by itself.

for example, this plot mission, no matter how much he controlled the game character, he could not trigger it. it had come to his doorstep by accident.

Qin Lin immediately controlled his game character to go to the entrance of the ranch. He clicked on Thomas, and the conversation appeared:

[it's great that you're at the farm. i have a favor to ask of you. i heard that you often fish, so you must have seen all kinds of fish. i want to ask you to take some pictures of them.

[there's going to be a fish photo exhibition in town. As long as you give us the photos, we'll pay you accordingly. The more photos you have, the more you'll be paid. The highest gift you can get is three wonderful fish with special abilities!]

qin lin was a little surprised to see the conversation. he didn't expect it to be this task.

This was a mission in one of the older versions.

however, the old version of the mission was very simple. all he had to do was to fish, drop the fish, take a picture with the system, and then submit the picture to get a gift.

In that version, the mission could be submitted at any time, but each time, it would remind you that you were still unable to get the highest gift.

It meant that he had to continue submitting photos, and only by submitting enough photos could he get the highest gift.

When you submitted enough photos, the system would remind you that you could get the highest gift. At that time, you could submit the mission.

He didn't expect that this new version would have such a mission.

Moreover, Thomas directly mentioned the fish with the highest reward of three special abilities, which made him think of the kissing fish.

Kiss fish was a special type of fish that could massage people to relieve fatigue.

He had personally experienced the effects of this kiss fish. It was now the most popular project in Linlin Manor, and those academicians couldn't wait to experience this kiss fish.

Could it be that the fish with these three special abilities were similar to kiss fish?

Qin Lin accepted the mission and Thomas gave him a camera.

This was used to film the fish.

After accepting the quest, he immediately controlled his game character to pick up the fishing hook and started fishing by the river and the sea.

He fished up the fish one by one and took pictures. He took pictures of more than 20 types of fish, including ordinary fish like black carp and grass carp, and precious fish like the White-fin Dolphin.

He controlled his character to enter ore town and found Thomas.

There was also a yellow exclamation mark above Thomas's head.

He submitted all these photos to Thomas. According to the rules of the old version, these photos were enough to get the highest gift.

however, after the photos were submitted, thomas's conversation did not mention that he could get the highest gift.

[you actually brought so many photos at once. Do you want to submit them? You don't have the means to get the highest gift for the time being!]

seeing this, qin lin knew that the new version must be different from the old one. it seemed that more fish were needed.

He continued to control the game character to fish by the river and the beach. He took more than a dozen pictures and had almost caught all the fish that the Mithril fishing rod could catch.

But when he handed over the fish sign, he was dumbfounded.

[you actually brought so many photos again. Do you want to submit them? [you won't be able to get the highest gift for the time being!]

Qin Lin went numb.

This still didn't work?

In the old version, he just had to submit a dozen types.

He thought about the three special fish rewards. If they were too easy to get, then they wouldn't be good either.

this fish should be even better.

However, now that the fishing rod had been upgraded to a Mithril fishing rod, there was no way to catch low-level fish. How was he going to take more photos and submit them?

Wasn't this a dead end?

Qin Lin suddenly patted his head.

the game's original mechanism was rigid, but he could enter the game, which was different.

He took out his phone and dialed Chen dabe's number. He asked Chen dabe to find a fishing rod and brought it into the game.

[this is just an ordinary fishing rod!]

Qin Lin controlled the game character to retrieve the Mithril fishing rod. He was satisfied with the attributes of the fishing rod. He could now catch other fish.

Therefore, with the addition of external factors, the originally rigid game mechanism seemed to have more possibilities.

after all, he could still enter the other areas of the goddess mountain, see the dwarf valley, and see the gnomes.

Qin Lin thought about it and went fishing with the ordinary fishing rod again. This time, he caught all the ordinary fish that could be caught in the river and by the sea. After taking pictures, he controlled his character to go to ore town again and submit the pictures to Thomas.

[you've brought so many signboards again. Do you want to submit photos? [you won't be able to get the highest gift for the time being!]

seeing the same prompt, qin lin was really numb.

What the hell?

Still no?

He had already caught all the fish that could be caught in the game, and there were dozens of fish.

and now thomas was telling him that it wasn't enough?

There are only so many fish in the game, who are you making things difficult for?

[Chapter 1492 681-Troubled By The Game? Solve It With External Hacks!](#)

As a player with cheats, what if he was troubled by the game?

Naturally, he had to use a hack to solve it.

If there weren't enough fish photos in the game, what about bringing in fish photos in real life?

Qin Lin turned on his computer and searched for fish photos online.

He downloaded the fish photos in bulk and printed them out. In a short time, he printed dozens of fish photos, all of which were fish that were not in the game.

After he finished printing the photos, he controlled his character to return to the farm. He entered the game with a thought and brought the photos into the game.

then, he logged out of the game again and looked at the game screen. there were many pictures of fish in the backpack of his game character.

He once again controlled his game character to go to ore town to find Thomas and submit the printed fish photos to him.

[did you bring photos again? Yingluo, I'm really sorry. There's a problem with these photos. We need original photos taken with a camera, so we can't submit these photos!]

"F * cking Yingluo!" Qin Lin exploded in anger.

What a joke.

This didn't work either?

Weren't they all photos?

Qin Lin was a little helpless, but he understood.

Nowadays, many people with bad intentions liked to plagiarize other people. Other people's novels and videos that other people worked hard to create would be downloaded by him with his finger, edited a little, and then posted. This was not right.

the fish photo exhibition in ore town was the same as a painting exhibition. they had to bring out original art, not printed fake paintings.

However, he didn't expect the NPCs in this game to be so original.

Qin Lin picked up his phone and dialed Chen dabei's number.

At the same time.

Chen dabei brought the head of security and a patrol officer to a special surveillance camera and watched the video carefully.

This special surveillance video wasn't from the scenic Area. It was installed by Ma Hong's team. The angle was hidden, and the equipment was special, making it difficult to find.

Chen dabei had no other choice. He could not find any useful footage from the security department's surveillance cameras, so he could only ask Ma Hong for help.

the security guard captain immediately pointed at the screen and said, " manager Chen, officer Zhang, look, it's here. The tourist did hit the old man.

yes! Chen dabei nodded and ordered, " record the surveillance video and give it to officer Zhang. After saying that, he turned to the patrol officer and said, " "Officer Zhang, I'll leave the rest to you."

there were many people in the scenic area, so they had to pay attention to safety.

This was especially true for Linlin Scenic Area, where there were many people. Some accidents were inevitable.

today, an old man fell down. older people were always more fragile. his leg bone was found to be broken in the scenic area's sanitation room.

The old man said that it was a young man who hit him. The young man immediately claimed that he was innocent and even accused the old man of faking it.

in this situation, many people would think that the bad guys were definitely trying to scam them again when they got old.

After all, this kind of thing was too common nowadays.

However, there was one thing that had to be said. This kind of thing was common. It could only be said that the social contradictions of these kinds of things were too great, and the media loved to report such things.

Therefore, once this kind of thing was reported too much, it became a fixed impression, and everyone had prejudice.

Chen dabeai knew very well that they could not have such prejudice in their Scenic Area. Besides, he did not think that any of the elders around him would be like this.

His grandfather wouldn't, his grandmother wouldn't, his father-in-law wouldn't, his mother-in-law wouldn't, and his elders from all over the country wouldn't be like this. On the contrary, many of them were friendly and hospitable.

Therefore, to a certain extent, the saying that bad people were getting old was correct, but it was biased towards the entire elderly group.

it could only be said that what was reported on the internet was nothing more than rat sh * t. instead, this rat sh * t was infinitely magnified by the media, causing the generation to oppose each other and creating a greater contradiction.

Therefore, many people actually bumped into the old man and then shirked responsibility by deliberately bringing up the topic of scamming.

In the same situation where there were no surveillance cameras, a young man and an old man, because of the direction of the internet, almost everyone would subconsciously think that the old man was faking it.

If he posted a video on his WeChat moments or online, the keyboard warriors would be the first to serve the old man's family.

in this case, the old man's face was thin, and his family did not want trouble, so they would also swallow this anger.

The media wouldn't report these things, but they did exist.

"With the video and evidence, things will be easy to deal with." Officer Zhang nodded. After taking the video, he brought Chen dabei and the security Captain to the health room.

once they arrived at the health room, there were many tourists around.

This was because these tourists were all attracted by a young man. The young man kept shouting, "

" everyone, look! it's already this era, yet there's still someone trying to scam us! "

the bad guys are really old now. They're not even afraid of embarrassing their families by doing this kind of thing.

The young man shouted loudly and didn't forget to take a photo with his mobile phone, as if he had made a vow.

The tourists around him were also attracted by his words, and many of them were filled with righteous indignation.

How many people in society were bitterly disappointed now? how many people didn't even dare to do good things because of these Pengci old people?

"Sigh, I didn't expect to encounter such a disgusting thing in Linlin Scenic Area."

yeah, it seems that there are no surveillance cameras in that area. That's why the old man dared to touch her.

you came to Linlin Scenic Area to extort money. What a good plan. There are so many people here. Moreover, you pretended to find a place without surveillance cameras. What a scheme.

[Chapter 1493 681-Troubled By The Game? Solve It With External Hacks! 2](#)

"She wouldn't dare to touch it even if there were surveillance cameras!"

When the young man heard these words, a smile appeared at the corner of his mouth. He was sure that there were no surveillance cameras there, so he dared to make a false accusation.

Besides, he really didn't do it on purpose at that time. He was just playing with his phone with his head lowered. He broke the other party's leg with just a bump. Wasn't it too big of a price to pay for the other party's treatment?

Anyway, these tourists were easy to make use of. If they took a video and uploaded it online, they would be the victim, and the tourists would even cheer for them.

When the time came, he would cry that he was poor. Perhaps someone would donate to him, and he would not have to spend a single cent.

While the young man was thinking about this proudly, the old man in the treatment room had a wronged expression on his face.

She didn't understand why she would encounter such a situation when she was just on a trip.

the key was that these people were partially right and wrong.

She didn't want to scam him at all. If the other party knew to apologize, he wouldn't even need the other party to pay for the medical expenses.

there were already many tourists around who had taken out their mobile phones to take pictures of the inside.

If it weren't for the security guards, these people would probably squeeze into the washroom to take a close-up shot.

It was obvious that this was about to ferment.

After all, in today's society, Pengci was indeed the most popular social conflict.

The young man was even more proud of himself.

This was in line with his expectations, and he was also glad that there were no surveillance cameras around.

At that moment, Chen dabei arrived with the head of security and the patrol officer. This attracted everyone's attention. In the end, it was up to the police to solve this problem.

Officer Zhang didn't say anything. He walked directly to the young man and said, " "Lin Jun, I'll give you a chance to explain the whole story and reach a compromise with the other party!"

As the patrol police of the scenic Area, their way of doing things was different from the police beside them. They were more focused on resolving conflicts and persuading for peace unless necessary.

This was especially true for a Scenic Area like Linlin.

Naturally, this also required the person who made the mistake to be tactful and correct his mistakes. The victim also had to forgive the other party and be willing to reconcile. Otherwise, it would be really embarrassing.

Hearing officer Zhang's words, Lin Jun immediately added, officer, I've already said what I need to say. I was taking pictures of a greenhouse tree with my phone when the old man suddenly fell to the ground.

I wanted to help him up out of good intentions, but who knew that he would actually hug my leg and say that I bumped into her and wanted to escape? isn't this a scam? "

As he spoke, Lin Jun sighed deeply, " sigh, society is really developing in this day and age. morality has fallen. everyone, remember that you must never be a good person or do good deeds. "

Lin Jun was obviously deeply immersed in his character and had completely put himself in the position of the victim.

Seeing this, officer Zhang had no choice but to handcuff Lin Jun's hands in the dark. At the same time, he said, " "Lin Jun, I'm arresting you on the charge of intentional assault. I hope you can cooperate with my investigation!"

" ? ? ? "Lin Jun was suddenly stunned. He didn't expect the other party to catch him.

Moreover, he was very guilty. Seeing this, he immediately shouted, " everyone, look! The Linlin Scenic area's patrol police are arresting the victim. They're arresting people randomly.

Obviously, he wanted to use the situation to suppress people again.

Chen dabei could not stand it anymore and said, " "Lin Jun, stop acting. We have a video of you hitting the old man. You can't deny it in front of the evidence."

"Impossible!" Lin Jun shouted almost subconsciously, " I've looked around. There are no surveillance cameras!

"Whoosh!"

The tourists around them immediately made a commotion when they heard this.

"did he really hit someone? It's not an old man trying to scam you?"

"It sounds like it. I was almost tricked by him."

I really didn't expect this. You may know a person's face but not his heart.

"....."

All the tourists seemed to be swayed by the wind.

Chen dabei also asked the security Captain to play the video on the display screen outside the bathroom.

The video had already appeared, and all the visitors had seen it. In the video, Lin Jun was looking down at his phone, and then he accidentally bumped into the old man, causing the old man to fall heavily to the ground.

this made the tourists even more indignant.

"you're actually playing with your phone while walking!"

" you're so young, yet you're slandering others after making a mistake. what a shame. "

"The young people these days are really outrageous! It's the generation that has really fallen apart."

Chen dabei was speechless when he heard this. He turned to the tourists and said, " alright, everyone knows the truth now. You can go now. If you encounter such things in the future, make a judgment after understanding it clearly. Otherwise, it will easily hurt the victim's heart.

after he became the security manager of the scenic area, he had dealt with many such things and encountered many of them. he could be considered to have seen through it more than many people.

the world was probably just like these tourists. young people pretended to be the victims and said that the old people were trying to scam them. these people scolded the bad people for getting old. now that they knew that the young people had really hit people and the old people were the victims, they said that the generation that had collapsed.

this was all because he didn't understand things and liked to gossip. he liked to judge things based on his subjective will.

this was the case for most people in china, or rather, 90% of people on the internet. this was the reason why it was easy for people to lose their morals, because these people were too easy to be led by those who had lost their morals.

lin jun's face turned extremely ugly when he saw the surveillance video.

After officer Zhang cuffed him, he pulled him into the health room and went to the old man.

Police officer Zhang said, " old man, the matter is clear. He did hit you. Now, I brought him in to hear your opinion. Do you want to settle this and compensate, or do you want to use other ways to deal with it? "

Lin Jun was already panicking at this moment. He hurriedly said to the old man, " grandma, i know i'm wrong. please forgive me. "

The old man obviously didn't want to bother with Lin Jun and directly said to officer Zhang, officer Zhang, you can deal with it however you want. I won't accept his compensation. Also, I've contacted a lawyer. I'm going to Sue him for not only physical harm but also psychological harm.

by the way, this is my business card. If there's anything else, please contact me, officer. My lawyer will get him to deal with it when he arrives.

officer zhang took the business card and looked at it-wu hui, chairman of shiyang group!

"Tsk, tsk." Police officer Zhang immediately looked at Lin Jun with sympathy.

lin jun's eyes also saw the name card. he felt his legs go soft and his face turned extremely pale.

If it was an ordinary person, even if the other party didn't forgive them, they would at most compensate them and lock them up for a period of time.

However, this kind of person would hire many lawyers. They could use legal weapons against him, and he might not just be locked up for a short time.

chen dabei also saw the name card and could only shake his head. therefore, it was rare to do bad things and have bad intentions. if you walked too long by the river, you might get your shoes wet.

chen dabei's phone suddenly rang. when he saw that it was his boss's number, he quickly went to a quiet corner to answer the call.

As soon as the call went through, he heard the boss's voice, " help me take some pictures of the fish. Not the ones in the aquarium, but the ones that the water manager doesn't have.

Chen dabei was a little confused when he received the order.

every time he received a call from his boss, he would try to guess his boss's thoughts. this way, he could better complete his boss's orders.

But why did the boss suddenly want a picture of the fish? And the water Tribe had to take care of the fish that weren't there.

Chen dabei couldn't figure it out. Most of the time, he couldn't guess what his boss was thinking. He just had to get things done first. After hanging up the phone, he rushed to find the camera.

...

The main reason why Qin Lin did not allow Chen dabei to take photos at the aquarium was that the fish in the aquarium were all taken out from the game.

He had also submitted the pictures of the fish to Thomas. It was useless to have repeated pictures of the fish.

Not long after, Chen dabei returned to his office with a stack of photos. boss, these are some photos of the fish in you city. They're different from the fish in the aquarium.

" yes, you've worked hard. go back first. i'll call you if there's anything. " Qin Lin nodded and took the pictures of the fish.

Chen dabei left immediately after hearing Qin Lin's words.

Qin Lin locked the office door and brought the photos into the game.

After that, he logged out of the game again, and the photos were now in his game backpack.

he immediately controlled his game character to go to ore town and submitted the photos to thomas.

[you've brought so many photos again. Are you sure you want to submit them? [you won't get the highest gift if you submit the photo now!]

when qin lin saw this, his face immediately revealed a look of surprise. it really worked.

So, so what if the game made things difficult for you? he could just use external hacks to solve it.

[Chapter 1494 Boss Qin's Goal And The Reward In Hand](#)

After Qin Lin submitted the photos to Thomas, he immediately logged out of the game.

If it wasn't enough, he would continue submitting.

In any case, fish photos taken in real life would work too.

So, he immediately took out his phone and called Chen dabei.

bring some people to you city and help me take more pictures of the fish, " he ordered. take as many as you can.

"Alright, Chairman Qin." When Chen dabei heard his boss's order, he immediately called for his security guards and ordered them to go out and do some work.

Although he was still confused as to why his boss wanted the pictures of the fish, his boss had instructed him to do his best.

hence, linlin scenic area security guards quickly appeared all over you city.

these security guards went around asking if there were any fish and then took photos. the owners of the fish didn't want to offend the people of linlin scenic area.

After all, it was just a photo.

However, this action had attracted the attention of many people, and it had even spread in some WeChat moments.

" the linlin scenic area's security guards came to my place to take photos of the fish just now. "

" me too. security guards are here to take pictures of the fish. "

"Is there anything going on at Linlin Scenic Area? Why are there security guards taking pictures of fish everywhere?"

All of a sudden, the news spread even more widely in you city.

The Linlin Scenic Area was already very popular, and it was hard not to notice the strange actions of the security guards.

Not long after.

Qin Lin also saw Chen dabeï in the office.

This time, Chen dabeï brought a stack of pictures of fish.

Chen dabeï also wanted to take credit for it. " boss, i asked my men to go around you city and take pictures of almost all the fish in you city. there are more than 100 types. "

"you've worked hard." Qin Lin nodded.

he was not worried about chen dabeï's plan. it was just you city, so 100 species of fish was more than enough.

This should be enough, right?

after chen dabeï left, qin lin re-inserted the photos into the game and then logged out.

He immediately controlled his character to go to ore town to find Thomas and submitted the photo again:

[you actually brought so many photos of fish this time. I've registered these photos. Do you want to submit these photos to complete the mission? [there's no way to get the highest gift for the time being!]

"Still not enough!" Qin Lin saw this notification and frowned even more.

He had submitted more than 100 types, but he still couldn't get the highest gift.

He didn't know how many fish photos he had to submit to get the three special fish.

However, she had to give him something good, or it would be too much.

Thinking of this, his brain began to work. He had to find a way to get more photos of the fish.

Now that he had submitted the photos of the fish in you city, he had to think of other ways.

It was easy to get a picture of a fish. After all, most things could be bought with money in today's society. It was the same with feelings, not to mention a picture of a fish.

It was just that using money was too cliché. He had a better way.

As he was thinking, he took out his phone and dialed Lin Lanzi's number.

In Linlin Scenic Area, Lin Lanzi's embroidered eyebrows also furrowed.

naturally, she was distressed by the popularity of the scenic area.

It wasn't that Linlin Scenic Area wasn't popular. In fact, it was very popular. However, as the chief of the scenic Area, she couldn't just lie on the credit book and keep to her previous popularity.

Although the popularity of Linlin Scenic Area was difficult to reduce, she always wanted to come up with something new to surprise the tourists and achieve a purpose of interaction between the scenic Area and tourists.

at this moment.

His phone rang.

Seeing that it was the boss, Lin Lanzi immediately picked up and asked, "Chairman Qin, do you have any orders?"

Qin Lin smiled and said, "President Lin, I want you to organize an event. Tourists can take photos of the fish and get a free entrance ticket. They can also participate in one of the attractions for free. Of course, if you repeat the event, it will be invalid. Let's set the time to three days!

Lin Lanzi was stunned when she heard the boss's words. "Chairman Qin, are you talking about the pictures of the fish?"

Qin Lin said with certainty, "that's right. you have to take the photos yourself. you can't print or download the photos online. get someone to plan for it and send me the photos of the fish. "

Lin Lanzi was even more stunned when she received Qin Lin's confirmation.

she didn't understand why her boss would organize such an event. after all, she couldn't guess what the fish photos could be used for.

no matter how much she thought about it, she couldn't figure out the reason.

"Alright, Chairman Qin." In the end, Lin Lanzi could only agree. Then, she found the people from the multimedia department and got them to plan this event.

The people in the multimedia department heard that they could enter the scenic Area for free with a picture of fish and could choose any attraction at will, but they didn't understand the purpose of the boss's activity.

could it be that the shop owner wanted to collect photos of fish for exhibition? There were many pictures of fish on the internet, so there was no need to go through the trouble.

Even though he didn't understand, he still had to follow his boss's orders.

Perhaps the boss was giving him some benefits?

this was a good gimmick. yes, it was a benefit.

the boss randomly chose to take pictures of fish.

he could organize more of such events in the future.

In the future, they could randomly film bananas and cucumbers with scenic spots for free.

[Chapter 1495 Boss Qin's Goal And The Reward In Hand \(2\)](#)

Even the official account of the scenic Area for the performance program approved activities such as free tour of the scenic Area.

Obviously, Qin Lin's sudden request had given the multimedia department staff an idea.

Not long after.

Linlin's official account released the latest video.

Once the video was released, many fans noticed it.

In a commercial house.

Da Wei was taking care of his ornamental fish. They weren't expensive, but they were still rare in China. His uncle from abroad brought them back.

No matter how ordinary a fish was overseas, it was rare in China. Therefore, when he boasted to his friends that a fish cost more than a hundred thousand Yuan, some of them still believed him.

after all, those friends did not have the ability to investigate overseas.

Search on the internet? When he told his friends, even the name of the fish was made up, so they couldn't find out.

Even his girlfriend was dumbfounded by his words. She thought that since he could raise a fish worth more than 100000 Yuan, his family must be very well-off. She got into the car easily, and then the car drove to the sofa, then to the bathroom. After that, everything was still up to him. Anyway, he had already gotten what he wanted.

For this reason, his girlfriend complained a lot about him when she found out the truth. However, he had many tricks up his sleeve and managed to keep her in his place.

The door opened, and Da Wei saw his girlfriend, who was dressed up, walk in.

"Baby, you're back?" da wei asked with a smile.

His girlfriend pushed him away. "Move aside, let me take a picture!"

"Why are you so interested in my fish today?" Da Wei asked doubtfully.

"Didn't you watch the latest videos of Linlin Scenic Area?" his girlfriend snorted.

da wei was puzzled. what's wrong with linlin scenic area? he had been to the linlin scenic area before, so he had a deep impression of it.

So, he took out his phone and opened the official account of a certain music channel in Linlin Scenic Area. Then he knew why.

" in order to give fans a surprise, in the next three days, as long as you take a picture of a fish, you can go to the scenic area for free. you can also visit any event in the scenic area for free. if there are repeated fish photos, the first one to arrive will be the winner. "

What kind of event was this at the Linlin Scenic Area?

Taking pictures of fish was quite sudden and confusing.

Dawei opened the comments section and it was already very lively. Obviously, the people who saw the video were a little confused.

no one could understand why linlin scenic area would organize such an event for no reason.

After all, it wasn't difficult to take pictures of fish, since there were fish everywhere.

While Da Wei was still confused, his girlfriend had already taken the photo and said, "I hope these fish photos will be of some use. I'm going to the Linlin Scenic Area."

with that, the girlfriend walked out.

"baby, you're not bringing me along?" da wei immediately asked.

"I'm going with my best friend, I'll bring you next time!" His girlfriend said immediately.

"With a male best friend?" Da Wei was stunned and frowned.

"what's wrong?" his girlfriend asked. No? you don't believe me?"

Da Wei immediately smiled and said, "no, why wouldn't I believe in you, baby?" i'll definitely believe you."

"Now this is more like it." The girlfriend was satisfied and left.

When Da Wei saw this, he immediately made another call. Once the other side picked up, he said, "Baby, your boyfriend and my girlfriend went to the Linlin Scenic Area. I'm a little cold when I sleep alone at night!"

I'm cold when I sleep too, " he said. what kind of pajamas do you like me to wear? "

"What do you think? It's the same as last time!" Da Wei said evilly.

...

Linlin Scenic area's activities were always followed by people, not only on the internet, but also people in you city.

They also remembered the time when Linlin Scenic Area took photos of fish in you city, which made them even more curious.

Once the Linlin Scenic Area held an event, it would definitely be a big move.

As people of you city, they were very clear about this.

Of course, even Minister Lu had noticed the activity of the fish photos.

When he saw the video, the first thing he did was ask his Secretary, " "Do you think boss Qin has some kind of motive?"

maybe it's really just an event to surprise the fans, " the Secretary said. after all, it's just a photo of the fish. What can it do? "

Minister Lu, on the other hand, was in deep thought. based on my understanding of boss Qin, there's more to it. If he's the one who organized this event, there must be a deeper meaning. Maybe he's doing some experiment related to fish, and these fish photos are just a warm-up for the experiment. He might publish the experiment later.

"Boss Qin, didn't you just start researching and cultivating desert plants?" The Secretary asked again in a low voice.

the underlying meaning of these words was, leader, you're thinking too much, right? How could boss Qin have the time to research anything related to Fish in such a short time?

Minister Lu knew what the Secretary meant. He smiled and said, " "If it's boss Qin, it's hard to say."

Besides, who made the rule that boss Qin's fish-related experiments had to be done at the same time or later as he studied desert plants?

Perhaps boss Qin had already started his research and had some results, but he was only ready to take them out now that he had perfected them.

Minister Lu thought that he knew boss Qin very well.

The fish photo event at Linlin Scenic Area soon began. Countless tourists searched around for all kinds of fish to take photos before heading to Linlin Scenic Area.

The Linlin Scenic Area also received photos of different fish.

At the end of the event, Lin Lanzi brought some people to send the fish photos to Linlin Manor. The additional photos were transported over by car.

Qin Lin asked someone to send the photos directly to the workshop in the inner area, which was half-filled with them.

After Lin Lanzi and the others left, Qin Lin began to bring those photos into the game.

because the photos were all bundled up, they were completely brought into the game with just a few thoughts.

when qin lin exited the game and looked at his backpack again, he could clearly see that there were rows of pictures of 999 fish on it.

Qin Lin decisively controlled his character to go to ore town and submitted the photos to Thomas again.

he didn't believe that he couldn't get the highest gift with so many fish photos.

[wow!] This time you actually brought so many fish photos, this is really beyond my expectations. Do you want to submit the mission now? You can already get the highest gift!]

Qin Lin immediately chose "yes."

A moment later, the pictures submitted by the game characters all turned into light and disappeared. What appeared were three crystals, each with the shadow of a fish.

congratulations, you've obtained three special fish fry crystals. If you hand them over to the ranch store, you can open a catalog of three special fish fry and purchase them!

Seeing this, Qin Lin also breathed a sigh of relief. He finally got it.

If it didn't work, he wouldn't f * cking serve her anymore.

he controlled his character to head directly to the ranch shop.

Through the remarks, he could tell that the three special fish fry crystals had the same effect as the seed stone.

The strange seed stone could open up new seeds, and the fish fry crystal could open up new fish fry sales.

In other words, if he had enough gold coins, he could buy these three special fish without limit.

when he reached the ranch shop, he clicked on the NPC, and the NPC's surprised conversation appeared:

[ah, it's actually this kind of thing. I thought this thing was just a legend, but I didn't expect it to be true. Can you give me these three crystals? [i can use them to breed three special fish!]

This was obviously a free gift, but Qin Lin still chose yes.

Otherwise, he would have no use for these three crystals. He would only have the chance to buy them if the NPC store opened up three new types of fish.

Three crystals were given to the NPC in the ranches, and the conversation started again.

[new fish are being bred.]

After an unknown period of time, the conversation reappeared.

[the new fish has been successfully cultivated. The store has opened up three types of special fish!]

Qin Lin clicked on the NPC without hesitation and opened the selling list. He didn't look at the chicken, duck, fish, beef, and sheep that were released before. He scrolled to the bottom and saw three types of fish that were not available before.

moreover, when he saw the remarks of the three types of fish, he couldn't help but show a surprised expression.

No wonder it was a special fish. No wonder he had to go through so much trouble to get this reward.

To a certain extent, the attributes of these three special fish simply crushed the previous kiss fish.

[Chapter 1496 Fish With The Immune System! Filthy Fish! Whitefish! 1](#)

[special fish with immune system: special]

[this is a special type of hydrotherapy fish that seems to have mutated. After the fish experts in ore town caught them, they found that they have very good hydrotherapy effects, so they cultivated them and needed to be raised separately.]

[special filth fish: special]

[this is a special kind of filth fish that seems to have mutated. After the fish experts in ore town caught them, they found that they have very good hydrotherapy effects, so they cultivated them and needed to be raised separately.]

[special whitening fish: special]

[this is a special kind of whitening fish that seems to have mutated. After the fish experts in ore town caught them, they found that they have very good hydrotherapy effects, so they cultivated them and needed to be raised separately.]

Qin Lin saw the three types of fish. Although he couldn't see the specific remarks, he knew that these three fish must be very important just by their names.

the kiss fish only had a fish therapy massage function. although these three special fish were also marked with fish therapy effects, the effect was definitely not as simple as a massage.

just look at the immune system, dirt, and whitening.

With that thought in mind, Qin Lin immediately controlled his game character to buy the young of these three special fish, and then let his game character go back to the farm.

The fish needed to be cultivated in the paddy field. A few plots of land in the ranch had already been upgraded to paddy fields. Moreover, after a few upgrades, the paddy fields had all reached level 3 and above, and any fish could be cultivated.

he controlled the game character to raise the three special fish in the paddy field. then, he controlled the game character to go to the goddess mountain to cut down trees.

Today's trees had not been cut down, but two yellow pear trees had been refreshed.

However, he didn't have much need for the scented pear tree now. After all, there was a lot of stock in the warehouse.

If he wanted to, he could really build a big house with the fragrant Rosewood.

However, that would be too much of a rumor. There was probably no rich man in the world who could do such a thing.

after cutting down the trees and fishing, qin lin went online to check the news.

there wasn't any special news today. the free ticket event for the fish in linlin scenic area had passed, but it was still very popular.

Most of the comments were either speculations or puzzlement from the netizens.

The previous events at the Linlin Scenic Area had always been followed up, and every time, it was shocking. This event didn't seem to have any follow up, and it was really just a free ticket for the fish photos.

the photos of the fish in Linlin Scenic Area have ended just like that. I'm not used to it!

" it seems that there is no follow-up movement at linlin scenic area this time! "

I don't think it's normal. There must be a follow-up to the Linlin Scenic Area!

The netizens posted all kinds of videos to guess.

Even Minister Lu, who was in the Chinese Academy, was also puzzled. The event had really ended.

Minister Lu, " the Secretary said, " I've always said that perhaps the Linlin Scenic Area is really just an event for fish photos this time.

Although the result seemed to be so, Minister Lu still shook his head in confusion. that shouldn't be the case. If boss Qin wants to organize an event, there's more to it than that. This isn't the boss Qin I know.

...

A day passed.

The next day, when Qin Lin woke up, he found that the three special fish had been bred and matured. They had been harvested by the dwarf and stored in the fish pond in the storage room.

"hubby, our son's intellectual development seems to have exceeded that of an average child." zhao moyin said after he and qin lin finished their morning exercise.

Qin Lin naturally knew this.

After all, when Zhao Moyi was pregnant, he had been taking the fetus-beneficial gene. When little Qin Feng reincarnated, he was destined to be extraordinary.

Even if he didn't have a family background in the future, he would be able to shake everyone off by himself.

The fetus-beneficial factor could be said to be something that truly transcended the era. It was something that could allow one to leap forward, and even the body-increasing medicinal liquid could not compare to it.

after all, there were too many limitations to the body-increasing medicinal liquid. the chinese academy of medicine had no way to solve the complex structure of the chinese medicine.

previously, he had also thought of bringing the fetus-enhancing factor into the real world. when the time came, it could help his own people make a leap in population.

If every pregnant woman were to use a beneficial factor, then there would definitely be no more black people who were stronger than them.

Their new generation's physique could easily crush the black people's physique.

However, the number of fetus-beneficial genes could only be purchased through television auctions. He did not know when he would be able to encounter another auction related to the fetus-beneficial genes.

"Hubby, I think we should hire a kindergarten teacher to teach our son some simple knowledge," Zhao Moyu said.

Although she was just an ordinary person, she could see the abnormality in her son. She felt that her son must have inherited her husband's talent, so he was different from his peers.

After all, everyone knew that her husband was a genius.

based on this situation, she had enough expectations for little qin feng.

Minister Lu often came to Linlin Manor. She had also heard him lament that his husband had wasted his talent and only showed it now.

As a mother, she naturally hoped for the best for little Qin Feng. So, she began to plan for little Qin Feng. Even if he was still young, who asked him to be smarter than his peers and develop better?

his greatest responsibility in the future was to unearth all of his son's talents.

When Qin Lin heard Zhao Moyu's words, he said, "Momo, isn't this too early, Yingluo?"

[Chapter 1497 Fish Of The Immune System! Filthy Fish! Whitefish! 2](#)

He felt that the child was still young, and there was no need to force him to learn anything. He should enjoy his childhood, but after seeing Zhao moyin's warning look, he did not say anything.

For the sake of her own sexual happiness, she would let her son suffer a little.

Only then was Zhao Moyu satisfied, and he pulled Qin Lin into the bathroom to wash up.

When the two of them came out of the restaurant, they were clearly in high spirits.

Qin Lin went straight to the office after breakfast. He locked the door and entered the game farm directly. He went to the storage room and saw three special fish, as well as their remarks:

[special fish with the immune system: Grade 2]

[this is a special fish with an immune system. it has very good hydrotherapy effects. when using hydrotherapy, it has special effects: detoxify the immune system +2, heat resistance +2, exuberant vitality +2!]

[special filth fish: quality 2]

[this is a special kind of filth fish. It has a very strong hydrotherapy effect. When using hydrotherapy, it has a special effect: Cleaning dirt and germs on the surface of the body +2, heat resistance +2, exuberant vitality +2!]

[special whitening fish: quality 2]

[this is a special kind of whitening fish. It has a very strong hydrotherapy effect. When you are an aquamancer, you have a special effect: [meteoric absorption of skin cells +2, heat resistance +2, exuberant vitality +2!]

Qin Lin looked at the special attributes of the three fish. Unlike what he had expected, the attributes of these three fish were not better than the kiss fish, but the attributes of these three fish were not for the kiss fish at all.

Kissing fish could relieve fatigue and help sleep.

The fish with the immune system could absorb toxins from the immune system. The human immune system was very important. People with a strong immune system were immune to all diseases, while people with a weak immune system could easily be infected by external factors.

The strength of the immune system was naturally related to the toxins.

If one's immune system was weakened by poison, it was easy to get infected by external diseases. In theory, as long as the immune system was strong enough, it was difficult for people to be affected by external factors and get infected.

therefore, the fish with the immune system could clear the toxins in the immune system, which was a disguised way to strengthen the human immune system.

there were also dirty fish.

No matter how many times a person bathed, there would always be dirt on their body. Dirt often carried viruses, just like human hands. No matter how many times you washed, there would be countless bacteria and viruses under the microscope.

These bacteria and viruses could easily enter one's mouth with food, and it was also easy to get sick if there were too many of them.

Now that the filthy fish could clean the filth on a person's body, it was equivalent to getting rid of the bacteria and viruses in the filth.

the whitefish was easier to understand.

There was meaty matter in the human body.

People with a lot of meteoric iron would have dark yellow skin and even spots.

Many women actually had no problems with their facial features, but their skin was not good. It was dark yellow, which made them look unrefined and ugly.

As the saying went, "one white covers three ugly faces. as long as a person's skin turned white, they would become very beautiful. If the person's facial features were good, then she would definitely be a great beauty.

This was the concept behind the camera's aesthetics. Of course, photoshopped pictures didn't count. It was just like magic.

Now that the Whitefish could absorb the meaty matter on the skin, many people would go crazy.

Moreover, once the skin became fairer, it was not only effective on the face.

Think about it, why would there be the word 'white' sometimes?

Thinking about it again, if a Beauty's skin was all white, then ...

qin lin quickly retracted the improper thoughts in his mind. the scene was too dangerous, but it undoubtedly showed how powerful the whitefish was.

If these fish were brought to reality, it would definitely be very shocking.

However, he was thinking about whether he should release these fish.

In just a moment, he denied this thought.

what a joke. if this kind of fish was promoted, it could be said that it would spread all over the country in a short time. then, even foreign countries would take it, and foreigners would benefit for no reason.

However, it would be a waste to keep such a special fish for his own use.

If this was the only thing he could get, it was normal for him to treasure it.

However, the key was that he had the game, and there were many good things he could get, so he didn't really care.

As he thought about it, he had a plan. He could use this thing in Linlin Scenic Area to set up a special fish therapy program.

there were three types of fish in this category: kiss fish, immune system fish, dirt fish, and whitening fish. after all, the effects of each category were different.

naturally, this project was not targeted at all tourists.

Even if he wanted to build a project, he had to build a good reputation.

he planned to only open this project to two types of people. the first type was the VIP guests. since the development of the scenic area, there were already many VIP guests. moreover, the consumption restrictions for becoming VIP guests had been raised again and again, but this still could not stop the trend.

there were even many rich people who now liked to bring their customers to scenic spots to play and discuss business.

They realized that when they brought their customers to the scenic Area to play, the customers would always be very happy, addicted, and in a good mood. Then, they would sincerely think that they were very attentive, and the discussion would be much more pleasant.

This seemed to be better than bringing a client to a hotel to drink desperately, getting drunk, and feeling uncomfortable all over.

of course, the VIP guests would not be able to use it for free. they would definitely have to pay 10000 to 20000 yuan each time, and they would also need to make a reservation.

The second type was naturally the lucky tourists.

With the first method he booked, it could be said that most ordinary people would not be able to experience this project. After all, the expenses that reached the VIP qualification were not something ordinary tourists could do.

[Chapter 1498 Fish Of The Immune System! Filthy Fish! Whitefish! 3](#)

In addition, it would cost 10000 to 20000 Yuan per session for fish therapy, which was not something that ordinary people would be willing to do. Therefore, the method of being lucky visitors should at least allow ordinary visitors to have a chance to experience it.

Moreover, he remembered Lin Lanzi's report that there was a special hot spring area in the scenic Area, which should have been built. The key was that these fish had the attributes of heat resistance +2 and vitality +2, so there was no problem for them to survive in the hot spring like the kiss fish.

With the development of the scenic Area, the various functions would have to be slowly completed or more functions would be built for tourists to choose from.

After all, the scenic Area received so many tourists every day, and the tourists had to provide all kinds of services.

Because of the external decoration, the scenic Area was sent to a very high position. It was a very rough process, so the details were not very detailed.

Now, he had added all kinds of functions and added all kinds of functions to improve the scenic Area.

After this period of time, the hot spring that Lin Lanzi mentioned should be almost completed. It could be used for the fish therapy program.

Qin Lin logged out of the game and controlled his character to go to the store in the farm to buy fish. He needed to have enough mature fish to build this project.

The baby fishes he bought also included the baby kiss fish.

After doing all this, Qin Lin entered the inner area and went up to the rooftop.

The rooftop was very big, but the iron door was locked. Under normal circumstances, Zhao mochen and Lin Fen would rarely come up.

After all, he would often enter the game and do some shameful things in the storage room above, so they would not disturb him.

For example, the Firefly that he brought out from the game.

This time, he entered the warehouse and controlled the game character to go to the warehouse where the wood was stored. He casually took some yellow Rosewood and went to the ore town processing machine experience Hall to process several wooden barrels.

The wooden buckets were meant for storing the fish. He then entered the game and took out all the wooden buckets, placing them in the storage room.

Anyway, with the precedent of the kiss fish, he could use the excuse that the three kinds of fish were raised by himself and ask people to come here and take the fish away.

After all, this fish couldn't be without a source.

With his current fame, no one would doubt him.

this was the best excuse for him to take out something from the game.

After doing all this, he took out his phone and called Lin Lanzi. Since they were going to use the hot springs that had been built in the scenic Area to build a project, they would have to transform the original hot springs.

In the general manager's office of the Linlin Scenic Area, Lin Lanzi was also looking at the situation of the various projects in the scenic Area.

With the improvement of the management and the operation of the entire Scenic Area, more and more suggestions and projects were proposed.

Of course, the good ones and the ones that were beneficial to the scenic Area had to be adopted. Then, they had to be implemented to improve the scenic Area.

In fact, some projects might not necessarily make money, but they had to. Just like in a store, many things could not be as profitable as cigarettes and wine, and even had only a few cents of profit. However, these things were still available, and they needed to supplement the variety of goods in the store.

It was the same logic now.

Recently, the hot spring area in the scenic Area had been completed. What she was worried about now was how to promote and build the hot spring area.

After all, if they were to open it directly, there would be nothing special about it.

This was nothing in other scenic spots, but this was Linlin scenic spot. No matter how ordinary the project was, it had to be made to have its own unique characteristics.

[Chapter 1499 684! I Knew It](#)

It would be great if the boss was willing to use the kissing fish to build this hot spring project.

Lin Lanzi knew about the kissing fish.

A special project in the manor.

She had also experienced it with the lady boss, Zhao mochen.

however, this kiss fish had always been a unique project of the manor. if the boss didn't say anything, she wouldn't be insensible and ask.

If the boss wanted to take out the kiss fish, he would have mentioned it a long time ago.

Lin Lanzi received a call from Qin Lin just as she was feeling vexed.

Seeing that it was her boss, she immediately picked up the call.

"Mr. Lin, how's the construction of the hot spring in the scenic Area going?" Qin Lin asked immediately.

Chairman Qin, the hot spring project is completed. Do you have any instructions? " Lin Lanzi asked in surprise, even with some anticipation.

Chairman Qin usually didn't ask about the scenic Area, but once he did, he would definitely cause trouble.

Moreover, once Chairman Qin started something, it would cause a huge commotion.

Qin Lin also cut him off. Mr. Lin, the hot spring in the scenic Area is not in a hurry to open. I'm planning to use it to create a special fish project. You should know about the kissing fish in the manor.

"Ah, Mr. Qin, you've finally decided to open up to the public?" Lin Lanzi's eyes were filled with surprise.

She had thought of the kiss fish just now, but she did not expect the boss to call and give her instructions.

if there was a kiss fish, what was the point of wasting time?

With the love fish, the hot spring project would definitely be popular.

She had personally experienced the effects of the kiss fish, and it would not be an exaggeration to call the hot spring in the scenic Area the world's first fish therapy program.

not only the kiss fish, " Qin Lin said. there will be three other special fish.

"Ah, really?" Lin Lanzi was completely shocked.

In her opinion, it was already very rare to have one special type of fish like kiss fish. Now the boss said there were three more?

But thinking about his boss's identity as an academician, and the magical things that his boss had created in the past, it didn't seem impossible.

"Yes, the project is going to be more upscale. We'll transform the hot spring area," Qin ran said.

After receiving Qin Lin's confirmation, Lin Lanzi hung up the phone and immediately called the engineering department.

she understood her boss's intention to transform the scenic area.

presumably, there would be limited spending after this event. only the VIP guests could experience it, and they might even have to make a reservation. as for the ordinary tourists, they could only experience it through lottery draws and other methods.

After being the person-in-charge of the scenic Area for so long, she was very familiar with this kind of project.

After hanging up, she immediately called the multimedia department. She immediately realized the purpose of her boss's fish photo campaign.

The boss was definitely trying to promote this special fish project.

The online fish photo event was still very popular, and it had already been heated up. If he posted about the hot spring fish therapy project now, everyone would know about it in an instant.

At that time, everyone would pay attention to this special fish. The key was to create the reputation of the kissing fish. At least, their status would be higher than before.

Since her boss had such a plan, she naturally had to assist her boss and do this well.

At the moment, she only knew one type of fish, so she would promote the fish first.

Moreover, the media would release a video to hype up the event. Knowing the effects of the kiss fish would definitely cause a huge sensation for the fish therapy project.

The people from the engineering department and the media department arrived very quickly. Lin Lanzi also gave them instructions and made arrangements one by one.

Not long after.

a new video was posted at linlin scenic area: the hot spring project of Linlin Scenic Area will be open soon. There will be four kinds of special fish specially developed by academician Qin, one of which is a kiss fish. During the fish treatment process, it can relieve fatigue, adjust the nervous system, and relieve insomnia and Dreamland.

Once the video was released, it immediately attracted everyone's attention.

Especially the effects of the kiss fish.

Many people knew about the hot spring fish therapy, and many of them had personally experienced it.

The publicity for the fish therapy was very effective. Many fish therapy clubs almost blew the top of their heads.

However, those who had experienced fish therapy knew how effective it was. Most of them were just making the customers pay for their own curiosity, or it could be said that some fish therapy was indeed effective, but the effect was not very strong.

But now, the official account of the Linlin Scenic Area had made a shocking announcement.

Did this kiss fish have such an amazing effect?

Relieving fatigue, adjusting the nervous system, relieving insomnia and dreaminess, wasn't it just like what those fish therapy clubs boasted?

But thinking about it, this was the Linlin Scenic Area.

after taking a closer look, he saw that this was specially trained by academician qin.

Alright, that's fine then.

When everyone saw the words " academician Qin, " they knew that the fish therapy in Linlin Scenic Area was definitely not an exaggeration. It must really have such an effect.

This was the effect of reputation.

Then, many people recalled the photos of the fish.

I knew it! The previous event at Linlin Scenic Area would not end so rashly!

haha, it's obvious that the photos of the fish were just a warm-up. They were just laying the groundwork for the hot spring fish treatment!

now that the foreshadowing is over and people's curiosity has been piqued, they've started to plant bombs.

[I'm a little curious about the fish therapy effect of this kiss fish, because I can't sleep!] Moreover, there are four types of special fish. I'm more curious about the other three.

Just as Lin Lanzi had thought, the internet suddenly became lively because of the kiss fish.

[Chapter 1500 I Knew It \(2\)](#)

some of them were happy that they had guessed correctly that the photos of the fish in linlin's scenic area were just a warm-up. some were curious about the effects of the kiss fish and wanted to experience it. some were also curious about what the other three fish were.

naturally, someone else noticed this, and that was minister lu from the hua * yuan.

Minister Lu was handling some documents in his office when his Secretary came in hurriedly. "leader, take a look at this video."

Minister Lu took a look at the video. It was a video about the kissing fish posted by Linlin Scenic Area.

when he saw the video, he stood up with a smile. " "I told you, I know boss Qin very well!"

The video made him feel relieved.

He had always thought that he knew Mr. Qin very well, so he believed that Mr. Qin had a purpose for this fish photo event.

He had already felt that something was wrong with the hasty ending earlier. He felt that it was very inappropriate for boss Qin.

So, after receiving the report from his Secretary about the video, he said to his Secretary excitedly, " I knew it. Boss Qin must have a purpose for organizing this event. It must be related to fish. Now, the fish therapy in the hot spring is out, right? "

I didn't think of kissing fish before. There were kissing fish in the manor for a long time, and boss Qin was finally willing to take them out. Now that I think about it, boss Qin had already started animal genetics research at that time.

after all, the kissing fish is completely different from the ordinary fish therapy fish. I just didn't expect boss Qin to have developed three other special fish besides the kissing fish.

if you can take them out together with the kissing fish, those three fish must be extraordinary. In that case, boss Qin may be more knowledgeable in animal genes than in plants.

The Secretary nodded. leader, it seems like you know boss Qin the best. You even guessed his thoughts! of course. Do you think I went to your city for nothing? " Minister Lu said with a smile. Seeing that his previous guess was right, he even felt a little proud.

However, he was now a little curious about the effects of the other three special fish. After all, he had experienced the effects of the kiss fish and knew how magical they were.

Time passed.

Three days passed in the blink of an eye.

in the past three days, Qin Lin had raised enough fish in the game, such as kiss fish, whitefish, filth fish, and fish with the immune system.

He took all the fish out of the game and put them into the bucket made of fragrant Rosewood that he had taken out long ago.

After doing all this, he called Lin Lanzi's number.

as soon as the call went through, Lin Lanzi's voice was heard, Chairman Qin, what's the matter? is it about the hot spring fish therapy project? "

For the past three days, she had been waiting for news about her boss online.

After all, not only were the people on the internet curious about the details of the other three types of fish, but she was also very curious.

"Has the renovation started at the hot spring?" Qin Lin asked.

Lin Lanzi replied, " the renovation has already begun. the hot spring can be used for now. moreover, i've already promoted the hot spring fish treatment program on the internet in the past three days. i even introduced the kiss fish. the response was very big. "

Only then did Qin Lin arrive. yes, send someone to the Linlin Manor. We'll transport the special fish to the hot spring first.

"Alright, Chairman Qin." Lin Lanzi.

qin lin hung up the phone and turned on mouyin to check the hot search news. sure enough, he saw news about the fish therapy in the linlin scenic area.

The popularity on the internet was indeed high enough.

Lin Lanzi's management of the scenic Area was indeed reassuring. He had not even thought about the publicity in advance, but Lin Lanzi had already done it.

This was a good thing.

qin lin sighed with emotion, but he was completely unaware that lin lanzi was thinking that this was his idea. it was a trap he had set up since the fish photo was a living buddha.

Humans were such wonderful animals. Sometimes, some imagination could create wonderful misunderstandings.

Qin Lin glanced at it briefly, then put away his phone and went downstairs. He left the inner area, as he still had to bring people to carry the four special fish.

However, as soon as he left the hall, he saw three familiar figures entering the manor. They were Li Qing, Chen shengfei, and Marvin.

As soon as the three of them saw Qin Lin, they greeted him with a smile.

"Qin Lin, we've missed you so much!" Chen Sheng Fei.

"That's right. I missed you, so I came to see you." Marvin.

Li Qing shook his head and said honestly, " "I'm just curious about the hot spring fish therapy, so I came here for it."

"Li Qing just doesn't have any EQ!" Marvin said.

"That's true. He seems to think that Qin Lin doesn't know that we're here for the hot spring fish therapy," Chen shengfei agreed.

"Bi an" Li Qing.

The three of them had indeed come for the hot spring fish therapy. They had all experienced the kissing fish before, and every time they came to Linlin Manor, the kissing fish Program was indispensable.

Therefore, compared to others, he knew very well how incredible the effect of the kiss fish was.

Three days ago, when they saw the video posted at Linlin Scenic Area, they were attracted. As a result, they had the time today and had made an appointment to come together.

Qin Lin heard the conversation between the three of them and welcomed them into his office with a smile. He took out the game tie Guanyin and served them.

he knew the three of them very well.

As soon as Marvin saw the Tieguaanyin, he got excited and said, " "for someone like me who loves tea, qin lin's tie guanyin is the one i miss the most."

"I'll give you another two catties when we get back!" Qin Lin said with a smile.

the goods area of iron guanyin mountain could be harvested often. to others, they could not drink it, but he could drink it at any time. he did not know how many goods were stored in the storage room in the game.

after the three of them had made tea for a while, lin lanzi brought some people to the office. when they saw qin lin and the other three, they greeted them first and then asked qin lin, "Chairman Qin, where are the fish?"

"follow me!" qin lin got up and left the office.

Lin Lanzi and her men followed.

Chen shengfei, Li Qing, and maliwen also followed out curiously.

After entering the inner area, Qin Lin led the group straight to the utility room on the rooftop and saw four large water buckets.

The bucket was filled with kiss fish, Whitefish, filth fish, and fish of the immune system.

Lin Lanzi immediately led her men to check. MA Levin and Li Qing also went forward.

the two of them recognized kingyu at first sight. after all, they had intimate contact with kingyu every time they came to linlin manor, so it would be strange if they couldn't recognize it.

However, Chen shengfei's attention was still attracted by the four buckets.

He was a person who was extremely fond of solid wood, especially fragrant Rosewood.

He had even asked Qin Lin to help him get a desk made of yellow Rosewood.

therefore, he could recognize the fragrant rosewood at a glance.

These four wooden barrels were made of fragrant Rosewood. It was really luxurious.

If those rich people who loved fragrant Rosewood knew about this, they would probably scold him for wasting such a precious gift. But thinking about it, it seemed normal.

These things were nothing to Qin Lin.

Lin Lanzi also recognized the kissing fish at a glance.

It could be said that she had a deep impression.

When she and Zhao Moyu were having the kiss-fish therapy, they were not prepared for their first bath. The underwear they were wearing was also naked, and one of them almost got into the underwear.

It was really awkward.

then, he looked at the other three kinds of fish, which were about the same size as the kiss fish.

The only difference was that the white fish were white, the filthy fish were gray, and the fish with the immune system were purple.

Then, the three types of fish had long and sharp mouths, just like the kiss fish.

Lin Lanzi immediately turned to Qin Lin and asked, Mr. Qin, what are the effects of these three kinds of fish? they shouldn't be worse than kiss fish, right? "

qin lin didn't explain, but took out a document and handed it to lin lanzi.

The information was about the fish with the immune system, Whitefish, and filth fish. The various functions were also very detailed.

He had already prepared the information on the three types of fish, so he didn't have to waste his breath.

Lin Lanzi took the information and read it. She immediately saw the information of three kinds of fish. Then, she couldn't help but exclaim, the effects of these three types of fish are too magical, right? "

this attracted chen shengfei, marvin, and li qing to go up and check.

Then, the three of them were also shocked by the effects of the three fish. The three effects were really incredible.
