

The Game 1531

[Chapter 1531 Jade Of Truth \(1\)](#)

Gao Yaoyao looked at Minister Lu pleadingly.

Minister Lu could only nod helplessly.

They could only blame the cultural gap between the two sides for not being able to understand the ideas of both sides.

A tip of 100 million, only this Prince could think of it.

gao yaoyao had no choice but to contact qin lin and tell him the whole story.

When Qin Lin heard that Prince Tala was going to give him a hundred million as a tip, his face was also filled with disbelief.

He had just cooked a meal, and that Prince Tara wanted to tip him 100 million?

This would let the outside world know that this was probably the most expensive meal he had ever had, right?

He was even thinking of cooking for Prince Tara.

Three meals a day, 100 million per meal, that would be 9 billion a month.

That would be more than 100 billion a year.

What could be more profitable than this?

Of course, this was also a joke. Most importantly, it was wishful thinking. Prince Tala was not stupid.

However, he had no reason not to accept the 100 million tip, right?

Qin Lin looked away from the game and left the office.

Anyway, he had to go to the medicinal cuisine with Zhao mochen, Lin Fen, and the others.

At the dining table in the hall, Prince Tara saw him and hurriedly got up. academician Qin, you're amazing. You can actually make such delicious food. This is the most delicious food I've ever eaten in my life.

"Prince Tala, you're overpraising me." Qin Lin replied with a smile.

the two of them chatted for a while, and prince tara decisively transferred 100 million as a tip.

Lin Lanzi was really emotional.

This was the first time she had seen anything today. Really, if anyone told her that they had seen a lot, they could come and tell her who had given her a 100 million tip.

"President Lin, let's have some too." after seeing zhao moxi and lin fen come down, qin lin also extended an invitation to jie lanzi.

"thank you, chairman qin." Lin Lanzi immediately thanked him. She also wanted to try how delicious this 100 million Yuan meal was.

after sitting down, qin lin also got a bowl of medicinal cuisine for zhao moyu, lin fen, and lin lanzi, and then for himself.

Deliciousness +4, special medicinal fragrance +3. Now that he ate it again, even if he was mentally prepared and made it himself, he would still be deeply tempted by the delicious taste.

"Hubby, this herbal dish won't be any worse than the beef from before." Zhao moyin couldn't help but exclaim after eating the medicinal cuisine.

Lin Lanzi nodded in agreement after eating the herbal dish with the Magnolia spice.

He had also eaten the glowing beef during the food Festival, and it tasted almost the same.

moreover, in a certain sense, this medicinal cuisine even surpassed the beef. after all, the beef did not have such a mesmerizing fragrance.

after the meal, prince tara still wanted more, but his stomach could not take it anymore.

After some time of walking, the sky was completely dark. Minister Lu also went to fairy tale mountain with Prince Tara.

fairy tale mountain was now one of the most important tourist attractions in linlin scenic area.

Prince Tala had known about fairy tale mountain before. After all, fairy tale mountain would emit a beautiful fluorescent light at night.

it was extremely shocking.

In the beginning, he thought they were fireflies.

After all, there were many fireflies flying out of Linlin Scenic Area at night, but the answer was naturally not fireflies, but the plants that emitted light.

Thus, he was also very curious as to why the plant was glowing.

However, when Prince Tara entered fairy tale mountain, he was shocked again. It was not only the fluorescent light emitted by the space plants, but also the magical feeling of being under the fluorescent light.

Most importantly, he actually felt an unusually comfortable feeling under this fluorescent light.

It was a wonderful feeling.

Mr. Lu, " Prince Tala could not help but exclaim. this Linlin Scenic Area is really magical.

"So, you didn't disappoint the Prince, did you?" Minister Lu nodded.

Of course, Prince Tala would not be disappointed.

this was the first time in his life that he had visited a scenic spot like this. he felt that he would probably not visit other scenic spots in the future.

He even wondered if he should come to this Scenic Area once or twice a year for a holiday.

After walking on fairy tale mountain for a while, Minister Lu took Prince Tara to the greenhouse Tree Community and told him about the sunrise.

Prince Tara was very interested to hear about the sunrise. After all, it was rare to see a sunrise in his country, and the terrain did not allow it.

He had also seen sunrise in other countries before. They were indeed very attractive. Moreover, the sunrise in Linlin Scenic Area should be different from those in other places. It must be more shocking, right?

Now, that was Prince Tara's subconscious thought.

Indeed, Linlin Scenic Area had the attributes of stunning sunrise +2, beautiful scenery +2, special mood +2, and soothing spirit +2. It was not comparable to the sunrise in other places.

Therefore, Prince Tara was completely shocked at sunrise the next day.

That kind of shock made him call for the scenic Area staff again and said excitedly, "I'm happy to have your Ms. Lin come. I'm also giving out tickets to the tourists and activities today.

The staff member from fairy tale mountain was also dumbfounded. However, he was quick-witted and thought of the mysterious VIP who had paid the bill for the past two days. Therefore, he reported to his boss immediately.

You city.

In the newly opened Binjiang District, Lin Lanzi was still asleep when she heard her mobile phone ringing crazily.

[Chapter 1532 Jade Of Truth \(2\)](#)

Binjiang District was the best District in the new district. Naturally, the price of the houses here was the most expensive in you city.

However, this wasn't a big deal to Lin Lanzi.

With his current salary and income, he could easily buy a house here.

She picked up the phone in a daze, but when she heard the voice on the other end, she stood up in shock. "What? That Mr. Tara is going to pay the bill again. Does he have too much money to spend?"

she immediately sobered up and quickly got up.

He was truly shocked.

It wasn't that he was making a fuss, nor was it that she was inexperienced, but this man really didn't treat money as money.

one had to know what mr. wang had said when he was still the richest man in the country. that was to earn a small goal first.

This saying was still a famous internet saying that had been passed down to this day.

When this sentence first came out, it was the most popular joke and even went on the hot search for a period of time. The title was: "A day for the richest man."

One had to know that this was a small goal that only the richest man could talk about.

where is mr. tara now? Paying for the entire event in three days, 35 million and above a day, that had already exceeded a small target.

Spending a small goal in three days and still not getting any benefits, then compared to earning a small goal, who would be more shocked?

Needless to say, Mr. Tara spending a small goal in these three days would be more shocking.

Even the richest man wouldn't be able to pay for a small target without getting any benefits.

Then, Lin Lanzi's eyes lit up. Wasn't this a good publicity idea? Wasn't it just a point to hype up?

Thinking of this, she washed up and rushed to the Linlin Scenic Area. She went straight to fairy tale mountain and saw Prince Tala again.

As soon as they met, she said apologetically, " " mr. tara, i'm really sorry to have kept you waiting. "

Prince Tala said very politely, " Madam Lin, I should be the one to apologize. It's very disrespectful to let a lady wake up so early and not be able to get her beauty sleep. So, as an apology, I'll give you a tip of five million Yuan as compensation.

This was a decision he made after thinking for a moment. He often gave tips. As long as it was in the service industry, he would tip them if they made him happy.

If it was the person in charge of another Scenic Area, he couldn't give more than a million Yuan, because the other party's status was not worth it. But this Ms. Lin was the person in charge of Linlin Scenic Area, so it was different. After all, he had to give face to academician Qin.

ah Yingluo???? " Lin Lanzi was shocked by Prince Tara's actions.

What the hell? Wasn't it her job as the person-in-charge to run over here? It was 35 million. She would not feel at ease no matter who she handed it to, so she had to make a trip personally.

Who knew that he could still get a tip? the key was 5 million.

Many people would bet on the Big Lottery and never win it in their entire lives. They would only look forward to the 5 million Yuan.

She got 5 million so easily?

More importantly, she didn't have to pay taxes on her five million Yuan.

This was because tips in the service industry were not included in the tax list.

However, when he thought of the 100 million tip his boss received, he knew that this tip was nothing to Mr. Tara.

Therefore, she accepted it with a peace of mind.

If Mr. Tara wasn't a foreigner, she would have been tempted. Really, she could be said to be vulgar and tempted by his wealth.

But if you really met such a rich man, which woman would not be tempted?

Time passed.

The next day, the Linlin Scenic Area opened again early in the morning.

Linlin Scenic Area was currently the most famous Scenic Area in the country, so as soon as it opened, there were countless tourists waiting.

These tourists also revealed their identities at the first moment, intending to buy tickets at the ticket office.

however, when these people took out their id cards, the salesperson said, " everyone, congratulations. The tickets for today are as free as the tickets for the event you're playing.

These words surprised the tourists around them. Soon, there was a commotion again because the sound system in the scenic Area sounded again, " the mysterious guest has paid the bill again and is giving a Kasaya to today's tourists.

As soon as the sound came out, all the tourists knew what was going on.

Many of the visitors today were sighing before they came.

This was because some of them had planned to come two days ago, but had been delayed because of some matters.

however, the key point was that two days ago, a mysterious vip had paid the bill.

If they had arrived two days ago, they would have been able to finish visiting the Linlin Scenic Area in two days.

In that case, they would only have to take care of their own food and accommodation, which meant that they could easily save a few thousand dollars each.

How good was this?

It was a pity that they missed these two days.

However, he did not expect that this mysterious guest would pay the bill on the third day.

Moreover, it was said on the internet that this mysterious guest would need to pay more than 35 million a day to buy all the tickets. If he continued to buy on the third day, wouldn't he have exceeded a small target?

this was too shocking.

very quickly, some of the tourists could not help but take out their phones to record the video and upload it to the internet. they knew that this would definitely be a hot topic.

In a short time, the whole internet knew what had happened in the Linlin Scenic Area.

How shocking was it to have everyone pay for a small goal in three days? Since the age of the internet, this was the first time such a godly tycoon had appeared.

In fact, another joke quickly appeared on the internet:

wang qian qian qian qian qian richest man: i want to earn a small goal!

[mysterious guest: spend three days on a small goal!]

This paragraph was almost the most popular search of the day.

Moreover, countless people began to discuss it. In a short period of time, some people had already begun to use this joke.

there was even a reporter who had interviewed wang qianqian, the richest man in the world, who had mentioned this joke.

At that time, this former-former richest man only felt awkward and didn't want to answer at all.

it was just that no one knew who the mysterious vip of linlin scenic area was. after all, only lin lanzi and some waiters who had direct contact with prince tala had seen him.

however, there was no such thing as an impervious wall in this world. some people had also found out some information about prince tala and knew that the mysterious vip was a foreign tourist with a headscarf.

This aroused the curiosity of many people.

There weren't many foreign tourists with headscarves.

moreover, netizens were great, or tourists were great, because many tourists in linlin scenic area would take photos and videos, and some of them accidentally took photos of prince tala.

At this moment, Prince Tala, who was wearing a scarf, was too obvious in the tourists 'videos and photos. Even if he only existed in the corners, he was now completely pulled out.

Therefore, after the efforts of so many tourists, Prince Tala's identity was exposed.

Everyone now knew that the mysterious VIP of Linlin Scenic Area was the Prince of the oil country, the person who slept on the oil field.

This also made many tourists exclaim and regret.

"This is when I'm the closest to being a Big Shot."

"No wonder I could smell the scent of money."

"Upstairs, is that the smell of money? it's the smell of oil."

if I had known the Prince's identity, I would have laid down beside his feet. He would have given me at least tens of thousands, right? "

I missed it. I have a great project and I'm just short of an investment. I think this Prince should be very interested in the project of pasting ceramic tiles on the Great Wall.

Not long after the news came out, the rich and powerful Wang Qianqian, who was initially very cowardly, actually took the initiative to talk to the reporters about the small target on the internet. He even expressed his sincerity to invite the Prince to his company as a guest.

This made the reporter very scared.

Therefore, under such circumstances, Prince Tala unwillingly ended his trip to the Linlin Scenic Area.

There was no other way. The tourists were too enthusiastic. There were already many people in the scenic Area looking for the figure with the headscarf. Minister Lu could not let the Prince stay any longer.

Qin Lin only paid attention to this news because he was attracted by the game. He even found it a little unbelievable.

"Jade of truth?" qin lin didn't expect to trigger this task so suddenly.

the truth jade was one of the special mysterious items in the old version of " the story of the farm ".

[Chapter 1533 The Effect Of The Jade Of Truth \(1\)](#)

Qin Lin looked at Carl, the police officer of the small town, and immediately controlled his game character to click on it. He immediately saw the mission issued by the police officer.

[because of your contribution, the town's economy has become more prosperous, but we have also become busier. A thief has stolen the mayor's figurine and hidden it all over the town. Now we are short of manpower, can you help us?]

The reality Jade was a very special item in the old version of the game.

In the old version of the game, stamina, fatigue, and other data could not be seen.

After obtaining the truth Jade, he could see these numbers.

However, in the old version of the game, the players didn't seem to care about stamina or fatigue. They just controlled the game characters to go back to their houses to rest when they were tired.

However, the Jade of truth had been treated as one of the special mysterious items that required special missions, so it was obviously of little value.

It could only be said that the game's prop designer was really bad.

In the later versions, the game kept up with the times and also displayed stamina and fatigue points. This thing was no longer useful.

Many versions even abandoned the Jade of truth and didn't even set up this item.

However, this new version still retained this item. He just didn't know what effect the Jade of truth would have in this version.

Thinking of this, Qin Lin controlled his game character and clicked "confirm" to accept the mission.

The conversation of the police officer was also played again.

[that's great. please take action now! [after you find the figurine, you can come to me. Also, this tracking device was installed by the mayor in the figurine. It can help you find something.]

After the conversation ended, Qin Lin saw the game screen change. A map of the town appeared on the screen, and there were red dots on it.

Those red dots were where the thief had hidden the figurine.

Qin Lin was a little speechless when he saw the mission. It was too easy.

After all, he just had to search according to the red dot. It was just a little more running.

Many missions in the past were harder than this, okay?

He even suspected that the new and old lousy game producers were the same. In order to be lazy, they had to come up with such a ridiculous task.

Qin Lin suddenly realized that his expectations for the Jade of truth had dropped rapidly.

however, since he had this mission, he had to complete it first.

Qin Lin immediately controlled his game character to search the town. The first location he found was in the sink of the stables in the ranch NPC shop.

The second place was the dog house in the library.

After that, there was the first street light directly below the church, the second floor of the library, the backyard of the village chief's house, and other places.

Qin Lin realized that it took him more than 10 minutes to finish running to each place.

After Qin Lin found all these things, the red dots on the map disappeared. Then, he found that the location of an exclamation mark had appeared on the map.

The exclamation mark was the location of the police officer.

Qin Lin immediately controlled his game character to go over and find the location of the police officer. He clicked on it and the conversation immediately reappeared.

[I didn't expect you to find these figurines so quickly. This is great. To thank you, I've prepared a special gift for you. I hope this thing will be useful to you!]

[congratulations on obtaining the jade of truth!]

Qin Lin lowered his head and saw a special piece of Jade in his game backpack. It was crystal clear and exuded a special light.

Qin Lin immediately locked the office door and entered the game with a thought. He saw the message of the real Jade:

[Jade of truth: special!]

[this is a special item that allows people to obtain the ability of the eye of truth after using it. This is a special ability that allows people to see the information of the item. It seems to be of little value and not of much use!

[restrictions: the trigger condition is to have 100 people tell the truth in front of the Jade of truth.]

" ? ? ? "Qin Lin's eyes lit up when he saw the note.

This skill is called useless?

Perhaps this skill would be useless in the game, since players could see the information of the items in the game. However, what if there was a hack that could bring this skill out of the game?

That was completely different.

Previously, when he wanted to know the attribute information of an item, he had to bring the item into the game and then find out through the characteristics of the game.

If there was such an item, then would he be able to see the item's information directly in reality?

According to the note, that should be the case.

However, he didn't know if that was the case. He had to trigger the Jade of truth first.

After all, the Jade of truth needed 100 people to tell the truth in front of it.

With that thought, Qin Lin took the reality Jade out of the game, opened the door, and walked out.

As soon as he walked out of the door, he ran into Gao Yaoyao.

"Boss!" gao yaoyao immediately greeted him respectfully.

Now, everyone who knew his identity in the scenic Area called him Chairman Qin, even Lin Lanzi. Only a Super Veteran like Gao Yaoyao would call him boss.

Indeed, Gao Yaoyao was the first employee he had hired at the villa. She was also the one who called Master Lin and the other employees back.

"Yaoyao, do you think I'm handsome?" Qin Lin asked as soon as he saw Gao Yaoyao.

"He's so handsome!" Gao Yaoyao said without thinking.

[Chapter 1534 The Effect Of The Jade Of Truth \(2\)](#)

who on the internet didn't find their boss handsome? Even the most popular young hunks couldn't be compared to the famous academician Qin.

[truth collection +1!]

Qin Lin immediately received a message and a notification. As expected, the 100 truths requirement had increased to 99.

His eyes brightened, and he immediately turned to Gao Yaoyao and asked, " "yaoyao, do you want to be promoted?"

of course, " Gao Yaoyao replied without hesitation. I really want to see sister LAN Zi and sister Momo. They're in charge of the entire Scenic Area. It's a pity that I don't have the ability to do so now.

[truth collection +1!]

Qin Lin was even more excited. He asked Gao Yaoyao, " "Sister Yaoyao, do you want to be in love?"

Gao Yaoyao blushed and immediately shook her head. "Boss, I'm not thinking about this right now. I want to learn from sister LAN Zi and the others."

Qin Lin looked at the screen in his mind, but there was no movement.

In other words, this girl had lied.

"Yaoyao sis, do you have a boyfriend now?" Qin Lin asked with a frown.

there was a hint of ridicule in his words. because he didn't let the jade of truth move just now, he had a rough guess.

Gao Yaoyao was shocked when she heard that. She immediately said, " "Boss, where? I still have some matters to attend to, so I'll be going first."

[truth collection +1!]

Qin Lin was surprised to receive a notification, which meant that Gao Yaoyao was not lying.

But that question didn't trigger the effect, which meant that someone was probably chasing after sister Yaoyao.

the girl was a little moved, but she didn't agree to it.

Qin Lin watched as Gao Yaoyao left and shook his head. He could only look for someone else to ask questions.

soon, he met a waiter cleaning the place.

"Chairman Qin!" The waiter immediately said.

"Have you ever thought about a promotion?" Qin Lin nodded and asked.

"ah?" The waiter was stunned when he heard this question. He immediately replied, " Chairman Qin, I really like the job here. I've made this place my home, so I've never thought about getting a promotion. I'm very satisfied to be a waiter here.

This was obviously a beautiful statement.

Many clever employees would also say such beautiful words when they met their bosses.

Usually, such words couldn't be the truth, and they all had a little bit of scheming in them.

Qin Lin felt that it was a little fake, but he immediately received a notification.

[you've collected the truth +1!]

Qin Lin was stunned when he saw the notification.

Such beautiful words were actually the truth?

It really surprised him.

However, he immediately realized the reason.

it was simple. this was linlin manor.

this was a place where countless wealthy people could not enter. the staff meals here were not something that could be found in big hotels.

the manor's shops often placed high-quality materials in. if they hadn't used them up, master lin would have to use them for the staff meal.

These employees could eat things that countless rich people couldn't.

Coupled with the scenery of the manor and the environment here, it was understandable even if he wanted to be a waiter.

Compared to the foremen and supervisor of other places in the scenic Area, some people really preferred to be waiters.

Qin Lin thought it through and smiled. He nodded at the waiter and thought of something, so he called Lin Lanzi.

He remembered that there was an audition in the scenic Area.

Wasn't the High-Tech Park about to be developed? When the time came, there would be many more positions that would be expanded, and naturally, there would be a lot of management needed.

It was impossible for the scenic Area to poach people from outside. Up until now, the scenic Area had been training frequently, and with the addition of new talents, the talent reserve was still sufficient.

Therefore, when there was a new position, it was natural to promote internally.

This interview was to interview those who had submitted their resume.

now that everything in the scenic area had entered the standard, those waitresses wanted to interview for the foreman position, the foreman wanted to interview for the supervisor position, and the supervisor wanted to interview for the manager position. all of these required some resumes.

Qin Lin naturally wouldn't participate in this kind of interview. Lin Lanzi would be the leader.

Now, he really wanted to participate.

Lin Lanzi didn't expect her boss to be interested in this interview. Since that was the case, he could only arrange it.

It didn't take long for Lin Lanzi to arrange the interview. All the employees who wanted to be interviewed were called over regardless of their positions.

Knowing that their boss was going to interview them personally, these employees were very nervous.

Qin Lin looked at the interview materials with a smile on his face. There were dozens of people who filled in their resumes and participated in the interview.

To outsiders, this number might seem like a lot, but one had to know that Linlin Scenic Area now had more than 1000 employees.

Now, there were only a few employees, or even a dozen people, competing for a position.

Qin Lin entered the interview room and put the Jade of truth into his pocket.

Lin Lanzi looked at the interview questions, but her face was full of shock because the boss had actually added two special questions.

1. Do you want to be President Lin (Lin Lanzi)?
2. do you like president lin?
3. Would you lay your hands on the pretty waitress beside you?
4. If there is a conflict between your family and the scenic Area, will you put the scenic Area first?

" ? ? ? "Lin Lanzi was a little confused.

What did the boss mean by the first two questions? Another bad taste?

However, since the boss had raised this question, she could only do as she was told. Then, she asked someone to call the interviewees in one by one.

The first one was a young man in his 20S. He was competing for the position of director.

[Chapter 1535 The Effect Of The Jade Of Truth \(3\)](#)

Lin Lanzi's first question was, "Wang Yu, right? do you want to be in my position and lead the development of the scenic Area?"

This kind of question was even more tactful.

More importantly, the applicants could also consider how to lead the development of the scenic Area. If there were really talents, they might be able to say something.

However, when Wang Yu heard this question, he immediately shook his head and said, " you must be joking, President Lin. I'm only at the bottom right now, and I still have a lot to learn. What I need to think about now is how to do my job well, and then use my learning to move up to the next level.

This answer made Lin Lanzi nod. Indeed, one should not aim too high. Being down-to-earth was indeed a necessary quality for an employee.

Qin Lin shook his head slightly because he did not receive any notification. This meant that Wang Yu had lied about this issue.

Perhaps he was thinking of taking Lin Lanzi's position and applying for someone else's job.

Lin Lanzi had already asked her second question, "Wang Yu, right? do you like women like me?"

"Ah?" Wang Yu was stunned when he heard the question. He answered almost subconsciously, " you're joking, President Lin. I only have respect for you, and I want to learn from you.

Qin Lin quickly shook his head again. There was no hint. This guy was lying again.

Lin Lanzi had already skipped this question and continued to ask, "wang yu, will you have thoughts and even pursue the beautiful woman beside you?"

Wang Yu immediately shook his head. chief Lin, I'm still young. I'll focus on my career and study hard. I won't have such thoughts for the time being.

" woof, woof. " qin lin remained silent. he still did not receive any hints. this person was lying again, and it was likely that he was already fiercely pursuing that drifting waiter.

lin lanzi had already asked her fourth question, " Wang Yu, you've answered the first three questions well. The fourth question is, if your family's matters clash with the scenic area's matters, will you take the other side as your priority? "

Wang Yu seemed to have rehearsed this question before and immediately answered, " "President Lin, if there's really such a conflict, I'll put the scenic Area first. After all, the scenic Area pays me, and I can only support my family with a job there!"

It was a beautiful answer, and many leaders would probably like it.

However X Qin Lin still sighed. He didn't get any notification and the whole team was wiped out. He silently crossed out Wang Yu's name, and then ...

After all, he personally preferred employees who were more honest than employees who were full of lies, at least in this low-ranking position.

These four questions were all lies, which meant that the quality of the other party was questionable to a certain extent.

Qin Lin was a little disappointed that he didn't manage to collect any truth.

Qin Lin sighed. Fortunately, the second employee who came in told him the truth and didn't completely disappoint him.

Most of the employees who followed were lying, but there were also many truths. Although Lin Lanzi didn't answer some of the questions she had prepared, Qin Lin had given her good suggestions.

After a round of interviews, Qin Lin quickly gathered enough truth.

[you've collected the truth +1]

[congratulations, you have triggered the effect of the Jade of truth. The Jade of truth is in the process of fusion. The fusion of the Jade of truth has been completed!]

At that moment, he looked down at the pen wash in his hand, and his eyes lit up.

[Chapter 1536 Some Places In The Scenic Area Are Rotten](#)

[pen: normal!]

[this is just an ordinary pen. It doesn't have any special function. If the person using it is outstanding, it can write beautiful words.

[it's produced in Qingxi Town. The previous owner liked to use it to bucket his ***, so it has a special smell!]

Oh my God! Qin Lin was shocked when he saw the remark. He was so scared that he threw the pen in his hand on the table.

What the hell was this?

"What's wrong, Chairman Qin?" Lin Lanzi looked at Qin Lin and asked in confusion.

"It's nothing." Qin Lin immediately shook his head, then flicked the pen to the ground in disgust.

Qin Lin looked at the paper in his hand.

[paper: normal!]

[this is just a normal piece of paper. It doesn't have any special use. If you like, you can use it to wipe your ***. This is a product from the Hengyang factory!]

This piece of paper was normal.

Qin Lin tried to pick up other items, but he could see the special information of those items.

Clearly, the effect of the Jade of truth was just as he had expected.

On the other hand, Lin Lanzi and another Senior Manager who was accompanying them looked at their boss with some doubts. After all, it was a little strange for the boss to suddenly pick up the items and check them out out out of curiosity.

Qin Lin, however, took the interview materials and handed them to Lin Lanzi. On them were his suggestions and notes.

Lin Lanzi took the information and looked at it. Then, a puzzled expression appeared on her face.

This was not right.

It was because the boss had not recommended the people she thought were good. On the other hand, the boss had given suggestions to the people she thought were too fake.

For example, she felt that Wang Yu's answer was very good. She even felt that this person was quite outstanding and could be a supervisor.

Who knew that the boss would actually write the word 'no', which meant that the boss didn't think highly of Wang Yu.

Lin Lanzi frowned slightly. Although the boss didn't care about the scenic area's Affairs, no one would think that he didn't know anything since he had such a position.

Otherwise, the boss wouldn't be in his current position.

perhaps the boss had also studied psychology and had seen through the background of wang yu and the others.

When she thought of this, Lin Lanzi felt that it was possible. After all, she knew about her boss's talent. He was good at whatever he wanted to learn.

she was very clear about her boss's beast taming ability. she was also very clear about her boss's cooking skills.

He felt that it was possible when he thought about his boss suddenly wanting to participate in the interview today.

Otherwise, why would the boss, who was not interested in the scenic Area, suddenly want to participate in the interview?

Lin Lanzi immediately pieced together those who Qin Lin had suggested and those who didn't. In other words, some people's destinies had been changed just like that.

Qin Lin left the interview room. When he came out, he saw the purification grass next to him. He walked over and picked up a pot of purification grass.

purification grass potted plant: Grade 2 "

[this is a special potted plant. Through photosynthesis, it can release a special substance that has a special effect of purifying the air in the surrounding area by +2. In addition, the purification grass is also very pleasing to the eye: [beauty +2, aesthetic +2, attraction +2, entry +2!]

Qin Lin looked at the attributes of the purification grass through the eyes of truth given by the Jade of reality. The information was exactly the same as what he had seen in the game.

In other words, he didn't need to enter the game to check the attributes of the items.

Qin Lin's interest was immediately piqued. He began to look at things around the scenic Area and read the messages curiously.

As he walked and looked, he suddenly arrived above the drifting area. In order to not be recognized, he even wore a hat and a mask.

The drifting area was also very lively.

After all, this place was connected to the Botanic Garden in the county and had the most lively stall area.

In the beginning, the county had only built this Botanical Garden to ride on Linlin Manor's popularity.

Qin Lin naturally had no objections to this, so he connected the entrance of the drifting project to the Botanic Garden.

The county also wanted to support some poor households by letting them set up stalls above. They had issued special license plates to set up stalls and earn some money.

At that time, some of the poor families in the county had been arranged to live here. Those were indeed poor families with many difficulties.

Helping these people was also a political achievement for the county.

These poor people also cherished this opportunity. They were all very diligent and serious, and they could earn some money every month.

Of course, that was in the past. With the development of Linlin Scenic Area, it received more than 70000 tourists every day. Even the other scenic areas in your city could share a lot of profits with the tourists. The Botanic Garden was next to Linlin Scenic Area, so it naturally could also share a lot of profits with the tourists.

Tourists who liked to stroll and could not buy tickets to fairy tale mountain could only go to the Botanic Garden.

In addition, with the help of the Kappa's happy stone, more tourists would go to the Botanic Garden. The poor people who set up stalls there would naturally earn more and more.

When Qin Lin arrived, he saw a very lively scene. Every stall was surrounded by a dense crowd of tourists. Some were obviously here to drift, while some were obviously not. They were obviously tourists who had come to the Botanical Garden.

Qin Lin went straight to a stall selling swimming equipment.

"Sir, what do you want to buy? I have goggles, waterproof bags, swimming trunks, slippers, and so on for drifting!" The stall owner saw Qin Lin and immediately began to ask.

Qin Lin also picked up his swimming trunks and asked, "Boss, how much are these swimming trunks?"

"Sir, these swimming trunks cost 40 yuan each. They're made of high-quality fabric," the stall owner explained immediately.

Qin Lin nodded and looked at the swimming trunks in his hand.

[swimming trunks: normal!]

[this is an ordinary swimming trunks. The fabric is quite good. The cost price is 28 Yuan and the selling price is 40 yuan!]

"yi!" Qin Lin was a little surprised to see this message.

This seemed to be a little different from the information he had read before.

It even showed the cost and selling price.

In other words, the stall owner didn't lie. The cost was 28 Yuan and the selling price was 40 yuan. It wasn't expensive.

After all, the cost was 28 Yuan, and the profit of 11 Yuan was very normal in a Scenic Area.

qin lin immediately went to another stall. this stall sold a special product of your city called old cripple light cake.

He walked over and picked up a light biscuit. He also saw the information on the light biscuit:

[light cake: you city specialty!]

[this is you city's special light cake. Because the maker's handiwork is very good, it's very delicious. The cost is 2 yuan, and the selling price is 5 yuan!]

Qin Lin nodded. The price wasn't expensive. The difference between the cost and profit showed that the boss was also an honest business.

Qin Lin went to several stalls. After checking the information, he stopped in front of a stall and frowned.

The stall had "Dongguang candied dates" written on it, and the price was 120 yuan per 500 grams.

"Boss, are these jujubes real?" Qin Lin looked at the stall owner in confusion.

He had heard of the honeydews from Guang Dong before. They were a high-quality type of date and were very expensive. They were also a brand.

Many scenic spots sold these candied dates.

Moreover, there were many types of candied dates and they were very expensive. They were the best-sellers in the scenic Area.

He didn't expect that the Linlin Scenic Area also sold these jujubes, and the price was as high as 120 yuan per 500 grams. The key was that the boss was a young man who was wearing famous brands. He didn't seem to be from a poor family.

This made him suspicious, which was why he came over to take a look.

When the boss heard Qin Lin's words, he immediately smiled and said, of course, it's a secret product from Guang Dong. It's specially transported here, and the transportation cost is quite high.

Qin Lin looked at the date in his hand and saw the message.

[ordinary date: ordinary!]

[this is an ordinary date that can be grown in you city. It's only 5 yuan per 500 grams. It seems that the boss is a little black-hearted and used a special catalytic material. Now, it's sold for 120 yuan. Eating too much of it seems to be harmful to the human body!]

Qin Lin frowned when he saw the message.

He had always believed that it was okay to make money, but he had to make money with a conscience. Therefore, he had rejected many of the scenic Area management's proposals to cut leeks.

Moreover, when he saw this message, he was no longer just earning money without a conscience, but harming people.

He knew what the dates were after thinking about it.

The stall owner used ordinary you city jujubes and then used a special catalytic material to make the jujubes of Dongguang.

After all, there was a huge difference between you city dates and Dongguan secret dates.

The key was that the catalyst material was harmful to the human body, which was a cancer.

Qin Lin frowned and said to the owner, "boss, I've eaten Dongguang candied dates before. Yours doesn't look like Dongguang dates. It's more like you used a special technique to turn jujubes from other places into Dongguang candied dates."

The boss's expression changed when he heard that he was exposed. He frowned and looked at Qin Lin. "Sir, you must be joking. This is authentic candied dates from Dongguang."

Qin Lin's frown deepened, "boss, you really have to pay attention to your reputation when doing business."

Before he could finish his sentence, he realized that several people had walked over to the boss. Moreover, each of them was glaring at him with hostility.

The boss even said with a special meaning, "Sir, I don't think you're here to buy jujubes. You're here to cause trouble. I advise you to think carefully. I can sell jujubes here because I have a license from you, Cheng."

"If you don't want to buy jujubes, then go!" The other man said with a frown.

Their faces were filled with impatience, as if they would make their next move if Qin Lin didn't know what was good for them.

Qin Lin saw this and immediately nodded. "Alright, alright, I'll leave immediately!"

It was just the boss and a few people. If necessary, he could easily take them down, but he didn't plan to do that now.

Now that such a stall had appeared in the scenic area, it meant that some parts of the scenic area had started to rot. This was not something that could be completely solved by beating these people down.

Qin Lin turned around and left.

The stall owner and those few people, however, revealed smug looks.

They knew very well that most of the tourists who came here did not know what was good. When they met such people who knew what was good, they would rarely cause trouble in other places.

The boss even said to one of them, "Follow them and see if there's any police report. If there is, we'll make preparations immediately."

[Chapter 1537 706! Suddenly Speechless](#)

Liu Tang naturally knew what he was doing, so he had to be careful.

If there was really a tourist looking for trouble, they naturally had to be prepared immediately.

They were just tourists, so they could just call the police.

They naturally had their own ways to deal with it.

Qin Lin turned around and left the stall area. He took out his phone and called Chen Li.

these people who set up the stalls were all from poor households found by the county. naturally, they had to ask the county first to find out what was going on.

In the distance, the man who followed Qin Lin out saw Qin Lin pick up his phone.

He did not hesitate and returned to the stall immediately. He said to Liu Tang, " that guy took out his phone and made a call. I don't know if he's calling the police.

liu tang's face turned gloomy. " damn it, there's really someone looking for trouble. regardless of whether they called the police or not, we should be prepared. we've been delayed for one day. "

if the police are here and they can't find anything, we'll Sue him for false accusations. We can also talk to Linlin Scenic Area and ask them to put pressure on the police.

after all, Linlin Scenic Area definitely doesn't want any negative news. If the other party slanders them, they definitely won't let it go.

The others agreed with him, and then immediately began to clean up the problematic candied dates and put new ones on the table.

They had naturally prepared some real candied dates just in case something like this happened.

...

Since Qin Lin had called him personally, Chen Li naturally took it seriously. When he saw that it was Qin Lin, he immediately picked up the call."Hello, boss Qin, what can I do for you?"

Qin Lin smiled. you must be joking, Chen Xian. I don't have any orders. I do have something I need from you.

"Boss Qin, what's the matter?" Chen Li immediately said.

"Xian Chen, can you show me the information on the stalls in the drifting project area?" Qin Feng asked.

These words caused Chen Li to be stunned.

He had almost forgotten about these people. After Qin Lin mentioned it, he remembered that there were many poor people in you city, so he took the lead and let these poor people set up stalls there to earn a little money.

After boss Qin agreed, he made the arrangements. In other words, the merit was fulfilled, and these poor people also had a stable job.

He still remembered the Grateful faces of those poor households.

after that, he didn't care about this matter anymore. if boss qin hadn't called to mention it, he would have forgotten about it.

Now that boss Qin suddenly brought this up, there must be a reason ...

He immediately called his Secretary over and gave instructions.

Not long after, the Secretary came back with a document and handed it to Chen Li.

Chen Li took the information and read it. However, his face quickly revealed a shocked expression.

[poor household: Zhu Sanhui, Botanical Garden-Linlin Scenic Area drifting project starting stall, bank balance of 400000 last year, down payment for a house.]

[poor household: Liu Tang, Botanical Garden-Linlin Scenic Area drifting project starting stall, bank balance of 2.4 million last year, bought two houses.]

[poor household: Chen Sanmei, Botanical Garden-Linlin Scenic Area drifting project starter stall, bank balance of 250000 last year, purchased a house:

Poor household:

...

" ? ? ? ? "Chen Li's eyes widened when he saw the information on these poor households.

Was this really from those poor families?

You're saying these are poor households?

Even the person with the least savings had a net profit of 250000 Yuan a year and had even bought a house.

damn it, if this was called a poor household, then many people would die of shame.

This kind of income and conditions, how many people could not meet them?

there were even people who earned more than a million a year, which was a little embarrassing.

a person with such an income was registered as a poor person in the county.

However, he quickly understood what was going on. It was true that these people were from poor families. When the Linlin Scenic Area had just been developed, there were not many tourists, so these people did not earn much.

With the development of the qinlin Scenic Area, there were more and more tourists, so these people earned more and more money. Now, there were actually people who could earn millions of Yuan a year.

When Chen Li thought of this, he felt that boss Qin had a reason for suddenly bringing this up. Without hesitation, he took the information and left the office, heading directly to Linlin Scenic Area.

When he arrived at the Linlin Scenic Area, he gave Qin Lin a call. After knowing that Qin Lin was in the plant garden, he immediately went there.

As soon as he saw Qin Lin, Chen Li immediately went up to him and handed him the information. " boss qin, this is the information on the poor families. what happened? "

Qin Lin took the information and read it. He was shocked by the information of these poor families.

however, he understood it better than chen li.

After all, Linlin Scenic Area belonged to him. He had occasionally seen the economic flow of Linlin Scenic Area. These people set up stalls in the scenic Area, and the prices were higher than those outside. With so many tourists, it would definitely generate a lot of economic revenue.

As a result, these poor families had now become nouveau riche.

"Xian Chen, can you send me a copy of Liu Tang's information?" Qin Lin asked.

Chen Li nodded and immediately took out his phone to contact his Secretary and give him some instructions.

He had guessed that boss Qin had mentioned this because of Liu Tang.

Not long after, Chen Li's Secretary sent a piece of information over. It was about Liu Tang.

Qin Lin also saw Liu Tang's information.

Liu Tang, from you city, 22 years old, graduated from junior high school. At the age of 17, his father was seriously ill because he accidentally ate food made of organic materials. Because of his father's serious illness, his family owed a huge debt. In order to take care of his mother, he had to drop out of school to work, and his family was poor.

Qin Lin frowned when he saw the information.

from the information, it was true that liu tang was from a poor family.

However, Liu Tang's family tragedy was caused by his father's serious illness because he accidentally ate organic materials. He should hate this kind of thing very much.

Now, he was doing the same thing himself. The other party used organic materials to dye you city's jujubes into Dongguang candied dates, which may be harmful to human health.

What was the difference between this and the people who had harmed his father in the past?

Qin Lin couldn't figure out why he would hurt someone else when he had been hurt before.

Wasn't it because she was more willing to hold an umbrella for someone else when she was hurt?

chen li saw qin lin staring at liu tang's information for a long time, so he also guessed and asked, " "Boss Qin, is there a problem with the Liu Tang? What did he do?"

Qin Lin explained, " there's something wrong with the candied dates that Liu Tang is selling at his stall. 120 yuan per 500 grams is actually just a normal date in you city. It's only a few Yuan per 500 grams. Moreover, the dates are made with special ingredients that are harmful to people's health.

When Chen Li heard this, he thought of Liu Tang's information. He had a balance of 2.4 million a year to buy two suites. Even if he set up a stall in a Scenic Area, it was impossible to have such a terrifying income.

Now that he had heard Qin Lin's words, he roughly knew what was going on.

With a cost of a few Yuan, selling it at 120 yuan was simply a super profit.

It would be strange if such a huge profit wasn't big.

the key was that this was not a problem. if it was just a huge profit, then so be it. after all, apple phones only cost a little, but how much would they sell in the end?

However, it would harm one's health.

Especially in places like the Linlin Scenic Area, once something happened to a tourist, it would be exposed and become a hot topic, which would have a great negative impact.

Chen Li did not waste any time. He immediately took out his mobile phone and dialed the number of the industrial and commercial inspection Bureau.

As soon as the call went through, a respectful voice came from the other side, " "chen xian, what are your orders?"

"Bring a few people to the Linlin Scenic Area, there's something I need you to do," Chen Li said directly.

After hanging up the phone, he was a little annoyed. After all, he was the one who suggested setting up the stall. Now that something like this had happened, it was like a slap to his face.

However, there was one thing he had to consider, and that was the problem of setting up a stall in the Botanic Garden. He definitely had to take off the license plate of a poor household.

The other question was whether the stall area was going to be rebuilt or expanded. Also, the people who set up the stall were going to bid.

after all, since there were so many benefits in this stall area, he had to be careful and not be too casual.

Not long after, the people from the industrial and commercial inspection department arrived.

"Boss Qin, I'll have to trouble you to lead the way," Chen Li said directly to Qin ran.

qin lin nodded and led the group to the top of the botanical garden.

He actually had his own way to solve this problem, but he chose to let Chen Li do it. The main reason was that the Botanic Garden belonged to the county, and Chen Li was also in charge of the stall area.

Therefore, he was giving Chen Li face.

Qin Lin went to the stall area again and saw Liu Tang and his people.

obviously, liu tang and the others saw qin lin. his hat and mask were too eye-catching.

Seeing Chen Li and the others behind Qin Lin, Liu Tang and the others 'faces turned gloomy and they started to discuss in low voices.

"Damn it, this guy is really a busybody. He really brought people here."

"It's Chen Xian. I can't believe he's here."

"Calm down, we've already treated it."

"....."

Liu Tang knew Chen Li. After all, Chen Li was the one who organized the stall area here and gave him the license to set up a stall.

When he saw that the tourist had led Chen Li here, he was shocked. He was also glad that he had prepared himself.

The stall owners around them also recognized Chen Li. After all, Chen Li was the one who had saved them from their misery. The license plates for the stalls here had made them rich.

"It's Chen Xian."

"It is indeed Chen Xian."

"....."

When Chen Li saw that the stall owners were about to surround them, he immediately appeased them and then went to Liu Tang's stall.

A few people from the Industry and Commerce inspection team immediately went forward to check the jujubes. After all, this was their main purpose.

When Liu Tang saw this, he immediately said to Chen Li, "chief Chen, you're here just in time. You have to help us. This man purposely caused trouble for our stall owners and even extorted us. He's probably the kind of person who makes money by cracking down on counterfeit goods.

" ? ? ? "Qin Lin.

" ? ? ? "Chen Li.

[Chapter 1538 Who The Hell Is He? People Can Change! 1](#)

Qin Lin was simply speechless. He had become blackmailing people by cracking down on counterfeit goods.

Damn, this was very cowardly.

Chen Li was also speechless. Did Liu Tang know boss Qin's identity? Did he need to resort to blackmailing?

Just this point alone showed that there was definitely something wrong with the Liu Tang.

At this time, the industrial and commercial inspection team had already started to inspect the dates.

As the people in charge of industrial and commercial inspection, they were naturally professional. Not only did they taste it personally, but they also took out special tools to judge.

liu tang smiled when he saw this scene. he knew that this would happen and was prepared for it. even if they investigated again, they were not afraid.

sure enough, after the industrial and commercial inspectors tested the japanese candied dates, they frowned and looked at liu tang.

Because there was no problem with the Dongguang candied date.

However, they knew that they shouldn't do that, because they already knew the identity of the person who reported them.

The other party was the boss of Linlin company, and there was no need to make things difficult for a small vendor.

In other words, there was something wrong with this. Perhaps boss Qin had made a mistake and misunderstood?

When Chen Li saw that the few business administration staff had finished their inspection, he asked, "How is it?"

A few Business Administration staff waved their hands helplessly.

"County Chen, there's nothing wrong with these candied dates," one of them said.

"Yes, there's no problem. Also, there's no harmful substance," another person added.

"Is there a misunderstanding?" the third person asked.

Liu Tang laughed when he heard this. He had made full preparations and naturally knew that there was no problem with the candied dates. It would be strange if there was a problem with the examination. The person who examined it must have had a problem.

When Chen Li heard the result, he looked at Qin Lin in confusion, as if he was asking what to do now.

In fact, he was inclined to misunderstand.

There was nothing wrong with these industrial and commercial inspectors. Otherwise, he would have been called over. Since they couldn't find any problems with the dates, it meant that there was nothing wrong with them.

Boss Qin wasn't a professional in this area, so he might have made a mistake.

Qin Lin frowned and walked to the stall. He grabbed two jujubes and saw the message:

[mid-range dongguang candied date: normal!]

[this is a good type of Dongguang candied date. Because of the special process, the cost is relatively high. One catty can be sold for more than 100 yuan on the market.]

Qin Lin's frown deepened when he saw the note.

He was certain that there was definitely something wrong with the candied date. The skills given by the cheat could not be wrong.

In other words, the other party had already made preparations in such a short time. This kind of speed was really fast.

However, since he already knew, he wouldn't let the other party get away with it.

Qin Lin took out his phone and called Ma Hong.

Once the call went through, Ma Hong's voice could be heard, "Chairman Qin, do you have any orders?"

Qin Lin immediately ordered, " help me check on a batch of jujubes. I don't know where they are now. They're in the Botanic Garden. There's something wrong with this batch of jujubes.

Ma Hong was a special soldier sent by the higher-ups, so he was very good at this kind of thing. What Liu Tang and the others did was just child's play to Ma Hong and the others.

"Alright, Chairman Qin." Ma Hong answered and hung up.

Qin Lin took out his phone and sent Chen dabei a WeChat message.

This scene gave Liu Tang a very bad feeling.

Then, he quickly shook his head. He was just a tourist. What could a phone call do? His brothers had already gone to process the dates, so it was impossible for the other party to find them.

"boss qin, is there a misunderstanding?" chen li asked qin lin.

Qin Lin shook his head. Xian Chen, the scenic Area will handle the rest. I'll let you handle it when the results are out.

When Chen Li heard this, he naturally did not object and nodded his head.

This was done in front of Liu Tang, which made Liu Tang's face turn ugly.

Even a fool could see that there was something wrong with this. How could someone like Chen Xian be so respectful to this guy?

who was the other party?

From their conversation, the other party was from Linlin Scenic Area.

but who in the linlin scenic area needed chen xian to be so careful?

Liu Tang suddenly realized that he was going to be in trouble. He immediately prayed in his heart that nothing would happen.

After all, he knew what he was doing. If anything happened, it would be very troublesome.

But a moment later, Liu Tang saw a group of security guards rushing to the stall area.

This group of security guards naturally attracted the attention of all the vendors.

The leader of the security guards was none other than Chen dabei, the head of security in Linlin Scenic Area.

in you city, you might not know who the vice president or director of the scenic area was, but you definitely knew who president chen was.

Even in you city, even those in the underworld had to give face to President Chen. After all, he could pull a group of veterans over with a phone call.

When the crowd saw Chen dabei and his men, they burst into a commotion.

"It seems like something has happened."

that goes without saying. If something big didn't happen, why would President Chen personally bring people here? "

that's true. Chief Chen doesn't care about the small things in the scenic Area.

"....."

Chen dabei ignored the vendors and walked straight to Liu Tang's stall. He recognized Qin Lin, but he only nodded to his boss.

His boss had told him not to expose his identity when there were too many people around, so he shouted to the people he had brought, " "Control this stall first."

[Chapter 1539 707-What The F * Ck? Who The Hell Is He? People Can Change! 2](#)

The security guards immediately stepped forward and surrounded the stall.

liu tang was shocked. he immediately took out a pack of cigarettes and handed it to chen. chief Chen, have a cigarette. Is there some misunderstanding? "

"Don't give me that." "We'll know later if it's a misunderstanding," Chen dabei said coldly.

Liu Tang's face turned even uglier.

In this situation, it was obvious that they were targeting him.

not long after, a few more people wearing the linlin scenic area's security uniform arrived, attracting the attention of all the vendors.

The security guards were holding three people, and they were carrying sacks as they walked straight to Chen dabei.

"Captain MA," Chen dabei was very polite to Ma Hong. Although he was Ma Hong's superior in name, he did not dare to treat himself as Ma Hong's superior.

chief Chen, " Ma Hong said directly, " I'll leave this person and the things to you. I'll go back first.

Ma Hong's men also came forward and pushed the three men forward. They threw the bags of dates on the ground and left with Ma Hong without looking back.

To be honest, asking them to help with such a small matter was like hitting a mosquito with a cannon. However, they had to complete the task that Chairman Qin had given them.

seeing this, chen li also understood what was going on. he immediately said to the few industrial and commercial inspectors, "Go and check those dates."

A few industrial and commercial inspectors immediately nodded and went up to check the jujubes in the bags.

almost a moment later, one of them frowned and said, " "There's a problem with these dates."

yes, the color of the test paper is wrong. It seems to contain harmful substances. Another person said.

This time, Liu Tang's face was completely pale. He knew he was finished.

Moreover, he didn't understand at all. Were his own brothers all trash? He had already made the arrangements, so why was he still found by the Linlin Scenic area's security guards? now, the evidence was conclusive.

At this moment, one of Liu Tang's brothers said in a hurry, " "It's not my fault. It's Liu Tang. It's all Liu Tang's fault."

"Yes, it was Liu Tang who ordered us to do it. I was only following his orders." The other man immediately shifted the blame.

Liu Tang opened his mouth, but he didn't know what to say.

When these guys split the money, each and every one of them was full of loyalty, but now they actually directly sold him out.

At this time, Chen Li didn't need to say anything more. Several people from Business Administration had already called for backup and then directly closed Liu Tang's stall.

at this moment, the surrounding vendors were all in an uproar. this was the first time such a thing had happened in this stall area.

everyone, pay attention! Chen Li shouted at the right time. this stall area was set up so that everyone could have a job and escape poverty.

I also know that everyone has made money now, so I hope that everyone will not go against their conscience to make money. Otherwise, what awaits you will be prison time.

This was obviously to intimidate them. Seeing Liu Tang being arrested, it was indeed a warning to others. Many stalls 'faces changed, indicating that there was a big problem.

However, Chen Li did not pay attention to this. Instead, he continued, " since such a thing has already happened, the county has to pay attention to the problem of the stall area. In the future, we will also carry out a reform here to allow more poor people to move in and help them. We also need to re-apply for the photo shoot. I hope everyone will actively cooperate.

these words shocked all the stall owners. then, their faces changed, and they began to cry and complain as if they were begging.

County Chen, this is Liu Tang's fault. It has nothing to do with us. We are also poor!

"Yes, our family is still very poor!"

County Chen, there are only so many tourists here. It's just enough to solve our poverty!

"....."

Chen Xian's face darkened when he heard these people's complaints. It was as if he had never seen the information of these vendors.

These people actually had the nerve to say that they were poor.

He really didn't expect these people to be so sincere when they were poor.

Who knew that all of them would become like this?

People really changed.

Chen Li didn't want to pay attention to these people. He directly gave instructions to the few people in charge of industrial and commercial inspection.

After all, this was just an excuse he made up.

When he found out about the income of these people, he had the intention to reorganize the stall area and let more people settle in. He felt that this place might be able to be built into a special market that could attract more tourists.

Therefore, how could he allow the resources here to be completely wasted on these vendors? after all, this project was to help the poor, and these vendors were already nouveau riche.

Seeing this, the vendors knew that it was useless to cry and complain, so they all started to scold Liu Tang, "

"it's all that damn liu tang's fault! He has harmed all of us."

"Yes, this kind of person will not die a good death."

"Why don't you strike him down with a bolt of lightning?"

"....."

Countless vicious prophecies were given to Liu Tang. After all, cutting off someone's money was like killing their parents.

In these people's eyes, Liu Tang had ruined his path to wealth.

Qin Lin saw this scene and knew that he could leave now. He left the Botanical Garden, but when he returned to Linlin Manor, he looked at the game in his mind in surprise.

[Chapter 1540 707-What The F * Ck? Who The Hell Is He? People Can Change! 3](#)

In the desert's transformation, new sprouts grew out.

This was the seed of the chrysobery that Prince Tala had asked him to give.

After all this time, there had been no sprouting of the Ivory bean seeds. He did not expect to suddenly have an unexpected harvest.

Seeing this, he hurried back to his workshop in the inner area and entered the game with a thought. He went back to the ranch house and took out the flower pot he had prepared. He transplanted the chickpea seed from the desert metamorphosis into the flower pot.

Since this thing had been created, he had to give Prince Tara good news. After all, he had accepted 10 billion from him, right?

Qin Lin quickly finished transplanting the chicktooth bean sprouts, then took out his mobile phone and called Minister Lu.

Minister Lu was surprised to receive Qin Lin's call. After all, how long had it been since Prince Tara returned to the oil country?

Moreover, he knew when Prince Tara had given the seed to boss Qin. Who would have thought that boss Qin would cultivate the seed so quickly and allow it to survive in the desert?

"I'm afraid boss Qin can really do whatever he wants with plants." Minister Lu muttered to himself after he hung up the phone.

this kind of plant cultivation ability was unheard of. naturally, he also suspected that boss qin had mastered some kind of particularly powerful plant genetic technology.

but so what? many powerful scientists had such abilities, but they had not made the technology public.

This kind of thing couldn't be forced. In any case, boss Qin would grant them all their requests regarding the desert plants, and that was enough.

Minister Lu also made an international long-distance phone call. The phone was from Prince Tara, so he naturally had to tell Prince Tara the news.

After all, the higher-ups had also received a lot of benefits through Prince Tara, so he still had to appease this person.

In the palace of a certain oil country.

Prince Tala was with a group of people in headscarves as they inspected the desert.

He could see that there were two sprouts of pepper and cumin planted on the desert ground, and the two sprouts were growing very strong.

These were the seedlings of desert plants sent by the Chinese Academy of the eastern countries.

One had to know that they had spent 30 billion on this.

Fortunately, it was all worth it. It was the first time they had seen plants that could survive so well in the desert.

Prince Tala brought back this technology and was naturally praised as a hero.

At this time, Prince Tara received a call from Minister Lu. When he saw the number, he immediately answered, " "Mr Lu, I didn't expect to receive your call so suddenly!"

Prince Tara, I have good news for you, " Minister Lu said directly. academician Qin has successfully cultivated the chicktooth seeds. They can be planted in the desert now.

"Really?" Prince Tala's face was filled with surprise.

One had to know that the Ivory was his favorite crop. Naturally, it was also the favorite of many members of the royal family. It could be said that when the harvest was low, it was a tribute to the royal family to a certain extent.

After hanging up the phone, Prince Tara looked at the people in his family and said, " I have good news for everyone. Academician Qin from the eastern country has cultivated chickpeas that can be grown in the desert, but he needs 20 billion to exchange for this technology.

Upon hearing this, several voices immediately rang out at the same time.

"Really?"

"Hurry up and buy the technology!"

"Give him 20 billion."
