

## The Game 161

### Chapter 161: Someone Buys a Meal for 60,000 Yuan? These Rich People Are All Crazy! 4

“What?” Chen Shengfei picked up his phone and saw Ma Liewen’s video. He immediately called Ma Liewen. “Old Ma, what do you mean? I posted the video first.”

Ma Liewen’s laughter drifted over. “Old Chen, it doesn’t matter who posted it first. Don’t worry about it. I’ll take it all. I’ll take you with me when the time comes.”

Chen Shengfei was indignant. “Then why can’t I bring you along?”

The two of them argued and finally made an agreement to split the goods. However, what the two of them never thought of happened. Someone posted another video online asking for purchase:

“I’m Liu Yi from Ming City’s Bofa Group. I’m willing to spend 56,000 yuan to buy the Supreme Set at Qinglin Villa. Those who win can also contact me.”

“Everyone knows that I, Zhao Furong, am in the real estate business in Ming City. I don’t lack money. Whoever wins Qinglin Villa’s Supreme Set Meal, contact me. 60,000 yuan per serving. I won’t bargain.”

“...” Chen Shengfei.

“...” Ma Liewen.

Both of them were stunned.

What a situation.

Why were these two guys here to join in the fun?

In Qinglin Villa.

Qin Lin was also a little stunned when he saw the two latest videos.

Chen Shengfei and Ma Liewen did not surprise him. But who were Liu Yi and Zhao Furong?

However, this matter completely exploded online.

Reading on Mybo xn o v el. com ,Please!

A meal worth 50,000 yuan, no, the rich people in Ming City had rolled it up. Now, a meal was worth 60,000 yuan.

Even if they themselves didn’t eat it, someone would still spend 60,000 yuan to buy it. How tempting was that?

Moreover, wasn’t this group of rich people trying to prove the value of this set meal?

This was really a set meal that ordinary people could not eat at all.

For a moment, the quality of the Supreme Set meal rose infinitely.

Many people who had doubted the Supreme Set previously silently deleted their comments. They even wondered if they would have a chance to win the prize if they went to Qinglin Villa.

If they could win five times in a day, they could earn 300,000 yuan.

There were also people who were equally stunned, and that was Lu Jianxian from Ming City. People at the level of Chen Shengfei, Ma Liewen, Liu Yi, and Zhao Furong had gathered for this Supreme Set meal, so the wealthy circle naturally received some news.

Lu Jianxian had been to Qinglin Villa before, but he had never thought that Qinglin Villa was classy. Chen Shengfei probably supported Boss Qin because of Li Qing.

But what was going on with Ma Liewen, Liu Yi, and Zhao Furong now?

As he was thinking, Lu Jianxian suddenly received a call. It was from a president of a company who had cooperated with him. He pressed the answer button and a surprised voice came from the other end. "Old Lu, have you heard the news? Zhao Furong, Liu Yi, Chen Shengfei, and Ma Liewen are fighting over a mountain villa's supreme meal."

"They must think that the food is delicious!" Lu Jianxian was indifferent.

He had eaten at that villa before, but it was not memorable. The food might not be better than the Hundred Fragrance Pavilion.

The other party said, "It's really not that. Perhaps it's because of the Qinglin Medicine Wine. I received news that the Li family seems to have obtained a medicinal wine. It's very effective on their old man. It's comparable to the medicinal wine produced by the two Chinese medicine families in Shangxi Province. It's said that Li Qing and Chen Shengfei went to some villa to find it. It should be from Qinglin Villa."

"What?" Lu Jianxian's expression changed when he heard this. He hurriedly asked, "How did you get the news?"

He naturally knew about the medicinal wine produced by the two Chinese medical heritage families in Min Province, but he did not have the chance to come into contact with it. He only knew that the effect of the wine was heaven-defying. Even Chen Shengfei might not be able to obtain it.

The other party said, "It's all because Liu Yi's secretary let it slip. It seems that Liu Yi deduced from Chen Shengfei that Chen Shengfei has been to that villa a few times. Today, Chen Shengfei stated that he wants to buy the Supreme Set meal from Qinglin Villa. Isn't it obvious?"

"Are you kidding me?" Lu Jianxian was stunned and subconsciously opened his mouth.

He remembered that Boss Qin had asked him if he wanted to bring back a bottle of medicinal wine.

## **Chapter 162: Missed a Big Opportunity! Super Popular! 1**

Lu Jianxian suddenly looked annoyed.

The medicinal wine in Qinglin Villa actually had that kind of effect?

Everyone in Ming City knew that the old master of the Li family was old and had insufficient vitality. He also had to urinate frequently. It was said that the medicinal wine brewed by the two families of traditional Chinese medicine in Min Province was very effective against that old master.

The Li family begged for some every year.

However, the two families did not produce a lot of medicinal wine.

Whoever could get the medicinal wine produced by those two families as a gift to the Li family would be appreciated.

Did the medicinal wine in Qinglin Villa actually have such an effect?

The last time he went to Qinglin Villa with Chen Shengfei, Boss Qin had asked him if he wanted to bring a bottle back, but he had actually refused.

He suddenly felt stupid.

Based on the current situation, with that bottle of medicinal wine, he could probably ask Liu Yi, Zhao Furong, and the others for a favor. He could even ask for a ball of cooperation.

“I’ll find time to go to Qinglin Villa to buy a bottle from Boss Qin,” Lu Jianxian thought inexplicably. He felt that as long as the Qinglin Medicine Wine was really that effective, buying more would definitely be of great help to his business.

At this moment...

The popularity of the Qinglin Villa’s Supreme Set Lottery Event exploded on the Internet with the internal reports of these tycoons in Ming City. It instantly rose on the trending list.

.....

Any Internet celebrity would be suppressed at this time.

No one even paid attention to Young Master Wang anymore. Previously, he even wanted to spend 50,000 yuan to buy a meal to judge if Qinglin Villa had any fake publicity.

But now, there was no need for him to judge at all. Compared to the tycoons in Ming City, he was really nothing.

Moreover, it was shocking that he could get 60,000 yuan for a free meal.

60,000 yuan for a meal was nothing to the rich.

It was nothing to the rich people in the comments section.

However, to most netizens who earned less than 10,000 yuan, that was definitely an unbelievable price. They would never bear to eat such a meal in their lives.

That was half a year’s or a year’s salary.

The key was that although the price of this meal was only 60,000 yuan, it was impossible to eat it outside.

After all, according to the rarity of Xiangshui Tribute Rice, it seemed that even 90% of the rich could not buy it. Also, the things introduced by Qinglin Villa were also said to be very rare.

This no doubt stirred all curiosity and enthusiasm.

Especially those who wanted to travel or planned to visit Qinglin Villa.

It would be perfect if they could win another prize and sell it for 60,000 yuan while they were traveling.

Then, many people thought of the video that Qinglin Villa had just promoted. The bridal chamber and some tickets of Qinglin Villa had already been ordered online.

If they could book a bridal room, a flower bed ticket, and a drifting ticket, it would be 500 yuan. They would have five lucky draws before they even went.

Wang Yang had this thought. He had basically achieved freedom of wealth. Other than reading some novels and going to the nightclub to play, he liked to travel.

He silently deleted the comment about using the 'Knife Beating People' account.

Previously, he had confirmed that Xiangshui Tribute Rice was paying an IQ tax and had even argued with someone on Douyin. Now, it seemed that this Xiangshui Tribute Rice might not be an IQ tax, but it was really something he was not qualified to touch. After all, the rich and powerful people in Ming City could not all be fools.

This, in fact, made him look forward to it.

If he could win the prize, he would definitely not sell it and would definitely eat it himself. This Supreme Set Meal might not be something he could eat for the rest of his life.

Thinking of this, he took out his phone and found a girl he knew from the nightclub. "Baby, I want to go to Qinglin Villa to play. Are you free?"

Qinglin Villa's bridal chamber cost 300 yuan a night. It would be a pity not to bring a female companion. Moreover, if he brought a female companion, he would be able to buy an additional Sea of Flowers ticket and a drifting ticket. That would be 700 yuan. He would get seven lucky draws.

The girl replied on WeChat, "Sorry, Brother Chan, my boyfriend asked me to go."

"Alright, let's contact each other again in the future." Wang Yang replied and found another girl he met at the nightclub. "Baby, do you want to go to Qinglin Villa to play?"

The girl immediately replied, "Brother Chan, are you taking me? I'll go!"

"OK, I'll contact you tomorrow." Wang Yang settled the issue of the female companion and immediately clicked on the official account of Qinglin Villa. As expected, there was already an online booking link.

Wang Yang clicked on it, but when the page opened, he was dumbfounded. The bridal chamber and open tickets had all been sold out.

"Damn it." Wang Yang was annoyed.

Did these people need it so soon?

The more infuriating thing was that these people were showing off in the comments section.

"I've already bought it online. Seven draws guaranteed. Haha, the Supreme Set is mine!"

"I invited two female companions to play together. Three bridal rooms, three drifting tickets, and three Sea of Flowers tickets. Isn't it too much for me to win a prize?"

“Are you all fast men?”

“There’s no doubt about it. That hand speed.”

“...”

Wang Yang could only put down his phone helplessly.

...

In Qinglin Villa.

In Qin Lin’s chairman’s office, Zhao Moqing was already smiling. “Qin Lin, these people are too fast. The 120 rooms, 500 Sea of Flowers tickets, and 700 drifting tickets were all sold out in less than two minutes.”

As the villa expanded, online bookings were also necessary. After all, some tourists who were far away needed to book tickets before they could make travel arrangements.

### **Chapter 163: Missed a Big Opportunity! Super Popular! 2**

However, only a portion of the orders would be placed online. At this stage, they had to buy tickets on the spot first.

Moreover, it was impossible to book all the bridal rooms. They would keep some for emergencies.

In addition, he could also start to consider the problem of the tickets. For example, a combination of tickets for Sea of Flowers + slippery grass + jungle adventure. A combination of tickets allowed the tourist to play everything.

However, he needed to study how to get the tickets and how much they cost.

A moment later.

Gao Yaoyao, Chen Dabei, Sister Hong, and Master Lin all knocked on Qin Lin’s office door.

After letting these people in, Qin Lin said, “The popularity of the online publicity has exceeded our expectations. I think the tourists who will arrive tomorrow will exceed our expectations again. Therefore, it might be very busy tomorrow. Go back and hold a meeting with your subordinates to make arrangements.”

“Yaoyao, you can’t screw up your service here. Also, Chen Dabei, remember to bring people to cooperate with Captain Hong and the others tomorrow. Sister Hong, you have to work harder too. Some customers instructed you to change things, so you have to be diligent. Also, Master Lin, there can’t be any problems in the kitchen. Even if you’re busy, you can’t ruin your reputation.”

Gao Yaoyao and the others nodded.

Qin Lin gave simple instructions and let Gao Yaoyao and the others prepare.

Then, remembering something, he picked up his phone and called Lin Feng.

During the previous melon king event, the items taken out of the game were not enough. They were all temporarily supplied by Lin Feng's suppliers.

As soon as the call went through, Qin Lin said to Lin Feng, "President Lin, help me prepare five times the usual stock tomorrow morning. Moreover, our villa will have more daily deliveries after this."

"Don't worry, President Qin. I've already prepared it for you. I guarantee that it won't screw up." Lin Feng guaranteed immediately. Which of the suppliers that Yucheng County supplied to Qinglin Villa now didn't have their eyes on this channel?

Therefore, he had long been paying attention to the movements of Qinglin Villa and knew about the lucky draw tomorrow. Naturally, he had already made preparations.

Reading on Mybo xn o v el. com ,Please!

There was a lot of competition in this industry now. It was very difficult to survive without being one step ahead of others.

After Qin Lin hung up, he called Wang Wei and the other suppliers one by one. He only felt relieved after making arrangements.

While Qinglin Villa was busy, the county was also making preparations.

Captain Hong rushed to the county government after receiving the call.

It was the chief of the Tourism Bureau, Chen Li, and his direct director who had summoned him. He belonged to the Tourism Police and had to cooperate with the Tourism Bureau to a certain extent.

He probably knew what it was about, too.

However, when he entered the Tourism Bureau's office, he realized that Sun Xian was also there.

"Captain Hong," Chen Li said with a smile.

"Chief Chen, Sun Xian!" Captain Hong greeted the people inside respectfully.

Sun Xian and Chen Li nodded at Captain Hong.

Chen Li smiled and said, "Captain Hong, you know about the activity at Qinglin Villa. It will definitely be very popular tomorrow. There will definitely be a lot of tourists coming. You must make sure that the security is good."

"Sun Xian has already held a meeting to discuss it. They'll send you a few more people. Also, prepare yourself. After that, write a relevant plan about the tourist security office."

Captain Hong's eyes lit up when he heard this, and he quickly promised, "Yes, nothing will go wrong."

If the security office was established, it would also mean that he could advance to a higher position as the captain. Naturally, the premise was that nothing could go wrong tomorrow. If anything went wrong, there was no need to say anything.

At this moment, Sun Xian said, "We have to pay special attention to the county's security when the time comes. If nothing happens to Qinglin Villa, our county will ruin our own reputation."

The three of them were naturally gathered here because of the activities at Qinglin Villa.

The popularity of the Qinglin Villa event was definitely beyond their expectations.

Neither he nor Chen Li had expected Boss Qin to be able to find those good things and make those tycoons in the Ming City roll up their sleeves.

However, they would not investigate where they had found those things. What they cared about was the popularity of this matter. Tomorrow, after the opening of the Qinglin Villa project, how many tourists could Qinglin Villa welcome?

From the looks of the current situation, they had made the right choice in giving Qinglin Villa a support fund.

It should be known that there were only 150 bridal rooms in Qinglin Villa. When the time came, many other tourists would have to stay in this county. This was what they were most concerned about now.

The more tourists came, the more people would spend in the county.

Sun Xian thought for a moment and said, "In addition, send some people to investigate in secret. We can't have incidents of murder or harm to guests in Youcheng County. Whoever dares to do so will be severely punished."

Chen Li nodded. "I will see to it."

...

Time passed.

Almost at night, tourists arrived in Youcheng County and checked into several hotels in the county.

Those hotels immediately felt that there were more people staying tonight than usual.

These were all from places closer to Youcheng County. Most of them planned to finish playing with the Sea of Flowers and rafting tomorrow.

Naturally, the most important thing was to see if they could win the prize.

Therefore, the next day, these people woke up early in the morning. They either drove or took a taxi to Qinglin Villa.

Wang Yang woke up in the Zhongliang Hotel early in the morning.

His home was in the provincial capital of Min Province, not far from here, so he'd arrived last night.

He did not manage to book a ticket online last night, so he planned to go over earlier today to seize the initiative. Perhaps he would win the prize first?

After all, the probability of winning five prizes at the beginning was higher than the probability of winning five prizes later on.

"Get up," Wang Yang said, whipping the girl in his arms.

The girl murmured, "Hubby... ah... Brother Xiang, what time is it?"

“Get up. We’re going to Qinglin Villa.” Wang Yang didn’t mind the girl’s slip of the tongue. They were both regulars at the nightclub and knew each other’s character. They were just scumbags.

Maybe he wouldn’t really care about these questions until he’d had enough fun and wanted to get married.

At that time, he would find a quiet girl who would not stay in the nightclub.

Wang Yang quickly dressed up his female companion and left the hotel. He took a taxi to Qinglin Villa.

Not long after the taxi left the county city, there were two different directions to Qinglin Villa.

One was a sign that said “Drifting”.

Another sign marked “Sea of Flowers”.

The Sea of Flowers was naturally the original road that led to the old parking lot, which was close to it.

The new parking lot was closer to the drift.

The driver would also ask the tourists when they arrived where they wanted to go to play first.

Wang Yang chose the road that led to the rafting project. He and the girl reached the parking lot of the villa. It didn’t take them long to see the new lobby. When they walked in, the lobby was already crowded.

There were also quite a few sounds of annoyance:

“Damn, I actually missed.”

“So did I.”

“Let’s play for now. We can draw a lottery after lunch.”

“...”

These tourists naturally drew the lottery on the spot after buying the drifting tickets.

But clearly, winning the prize was not easy.

Wang Yang also went in to buy tickets immediately. He and his female companion each bought one ticket and spent 300 yuan. They could draw three times.

He scanned the QR code to pay and saw a small program pop up.

He had already checked the relevant information before coming and knew that this was the lottery program of Qinglin Villa.

Looking at the three lucky draw chances, Wang Yang clicked on it without hesitation.

“Thank you for participating!”

“Thank you for participating!”

“Thank you for participating!”

Three consecutive draws and three thanks.

“F\*ck!” Wang Yang was a little helpless. He could only give up for now and wait until the rafting was over.

...

Early in the morning, Qin Lin also took out all the things in the game and sent them to the villa. Today, he made an extra trip and sent 100 watermelons over.

Last time, more than 50 watermelons were sold for Quality 2. This time, it should sell even more. After all, this time, it should attract many people who are not short of money. Quality 2 watermelons was the fastest way to farm the lottery.

If these 100 Quality 2 Watermelons could be sold, this alone would be more than 200,000 yuan in revenue.

After delivering the goods, he went to the office to look for Zhao Moqing.

Previously, he had promised to bring her to play with the rafting project once. He naturally could not go back on his word to his wife.

“Did you bring all your clothes?” Qin Lin asked Zhao Moqing the moment he saw her.

Zhao Moqing took out a bag and said, “Yes, I brought both of ours.”

“Let’s go!” Qin Lin smiled and led Zhao Moqing out of the hall. Once they were outside, they blended into the tourists like a real tourist couple.

Actually, it was also beneficial for him to play as a tourist on the day of the rafting opening. He might be able to find some problems.

#### **Chapter 164: The Boss of the Villa Is Very Powerful! Someone Won! 1**

Qin Lin held Zhao Moqing’s hand and walked out of the hall, heading straight to the left. There was a sign indicating that they were heading to the beginning of the drift.

They followed the tourists to the waiting area, where the tourists faced two choices.

One took a scenic bus up the mountain to start drifting.

One was to choose to buy a ticket for a small train and take it to sightsee the ecological park scenery built in the county.

Qin Lin and Zhao Moqing naturally chose to take the bus. They had seen too many people living in Min Province. The so-called ecological park was actually just so-so.

The two of them followed some tourists onto a bus.

“Welcome. This is the bus to the drifting point. We’ll set off in a while,” the bus driver said dutifully when he saw Qin Lin and Zhao Moqing walking up.

The driver naturally recognized his boss and was about to greet him when he saw his boss raise his hand and nod without saying anything.

Qin Lin pulled Zhao Moqing to the last two seats and sat down. After a while, the bus seats were full, and the driver started the car and drove to the starting point.

There were tourists in the car who were already chatting.

“Did any of you win a prize?”

“No, we didn’t. We missed three times.”

“I booked tickets to the bridal chamber, the Sea of Flowers, and the rafting. I drew a total of seven times and didn’t win. It seems that the winning rate is very low.”

“It’s definitely low. After all, there are only five slots a day. Each is worth 60,000 yuan.”

“...”

Immediately, there were many sighs.

Some people did not pay much attention to it. They had originally wanted to come to Qinglin Villa to play. The lucky draw was just a bonus, so they did not force it.

However, some people began to think about how they could spend to make up the number of lucky draws. These types of tourists were here for the lucky draw. They were obviously indignant and gambled heavily, thinking that they could win.

Someone suddenly asked, “Who do you think the boss of Qinglin Villa is? They all say that this Xiangshui Tribute Rice is very difficult to buy. Even 90% of the rich can’t buy it. Now, not only has Qinglin Villa bought it, but they are also using it for activities.”

Another person said, “That means that there are many bosses in Qinglin Villa, or they have extremely strong connections that surpass 90% of the rich.”

For a moment, there was lively discussion in the car.

Qin Lin and Zhao Moqing sat there and didn’t participate. They just listened seriously as if it was none of their business.

On the other hand, the driver looked back a few times through the rearview mirror with an inexplicable expression on his face. Wasn’t the boss sitting in the car?

Someone else said, “Indeed, if Qinglin Villa doesn’t have powerful connections, it’s impossible for them to organize this lucky draw. I wonder what the boss of Qinglin Villa looks like.”

A well-dressed woman said matter-of-factly, “He must be old and must have a big beard. Xiangshui Tribute Rice is really as amazing as the Internet says. Young people don’t have that kind of power. They can’t get it.”

When Zhao Moqing heard this, she smiled and reached out to touch Qin Lin's chin. He didn't have a big beard.

The bus soon arrived at the drift-off point. Several small buildings had been built at the top of the hill, and there were many vendors inside. They sold swimming rings, towels, sunglasses, waterproof bags... these things.

Visitors were those who came here to play with the drifting tourists.

This was organized by the county. They were all supporting some special poor families to earn some money. Even the money for wholesale was supported by the county.

The county had also shown Qin Lin the information on these people. One of them had impressed him. It was a mother whose husband had died more than ten years ago. With her meager income, not only had she painstakingly raised her eldest son, but she had also been taking care of her dead husband's sick mother.

Qin Lin could actually sell these things in the villa, but the profits of these things were also thin. With these arrangements in the county, there was no need for him to be involved.

This bit of profit was insignificant to him, but it was a guarantee for these special poor families to support their families.

Qin Lin brought Zhao Moqing to the drifting point. There was already a waiter in charge of explaining the drifting with a microphone.

Next to them were the staff who checked tickets and the staff who handed out life jackets and hard hats.

Below, too, two employees in water shoes and gloves grabbed the kayak to help the tourists up.

Qin Lin and Zhao Moqing were naturally recognized again when they went forward to check their tickets. However, with a gesture, those employees were not stupid and would not call out his identity in public.

The two of them boarded a kayak. After entering the water, Zhao Moqing said, "Qin Lin, it's a little cold in the river. Let's row quickly."

She had gone on a winter rafting trip with Qin Lin, so she naturally knew that as long as she moved at this time, not only would she not feel cold, but her body would also be hot and sweaty.

Qin Lin nodded and rowed the raft with Zhao Moqing.

Along the way, every kayak was filled with pairs of tourists.

Even if only one person came to this drifting project, the scenic area would specially match them up. After all, playing alone was actually more dangerous than playing as two.

If a young man and woman were to drift alone, the scenic area would match you with the opposite sex. Moreover, if you have affinity with them, remember to seize the opportunity.

Maybe it was really a case of a long-term relationship.

It took more than two hours for Qin Lin and Zhao Moqing to reach the end of the drift. Along the way, they didn't find any problems. Moreover, the project had just started and the employees' salaries were much higher than the average salary in Youcheng County. Everyone was very enthusiastic about their work.

## **Chapter 165: The Boss of the Villa Is Very Powerful! Someone Won! 2**

When he returned to the villa after his shower, it was abuzz with tourists.

As far as the eye could see, the number of tourists in the villa today was definitely several times higher than before. The ticketing area was already somewhat crowded.

It seemed that this Supreme Set was extremely attractive to ordinary people. It also made him believe that the things used by ancient emperors would be snatched by the people.

In the eyes of these people, the Supreme Set was probably something similar to what ancient emperors used, right?

Qin Lin and Zhao Moqing had just returned to the chairman's office when Gao Yaoyao ran in. "Boss, Sister Moqing, you're finally back. The tickets for the Sea of Flowers and the drifting tickets that were restricted in the morning were sold out an hour ago. Now, the tourists are urging us to release more tickets."

Qin Lin knew that this would happen today, but he didn't expect the flowers and drifting tickets to be sold out so quickly.

This also meant that the number of tourists today was really large, far exceeding the load of the villa. If they did not think of a way to resolve it, many tourists would probably have objections.

After all, a crowded trip was the least experienced and most frustrating.

Indeed, at this moment, in the sales hall at the entrance of the villa, many tourists were complaining.

"Hey, are you kidding me? There are so many people who didn't buy a ticket, and they're limiting our purchases."

"I can't even get a lucky draw even if I want to. Who can understand the feeling of having money but not being able to spend it? I want a lucky draw!"

"..."

"The Qinglin Villa event is indeed attractive, but there are really too few projects in Qinglin Villa."

"Last time I came, I waited. This time, I have to wait again. It's exhausting."

In the office, Qin Lin thought for a moment and said, "We've already ordered a batch online yesterday. The Triangular Plum Blossom Sea is determined to limit the tickets. How about this? Let them send the raft back faster so that we can sell more tickets."

Gao Yaoyao nodded at first, then said, "Boss, but this is still a drop in the bucket. Our original plan was to receive 2,000 to 3,500 people. From the looks of it, the number of people in the villa has already reached 2,500 before the morning is over. There might be more in the afternoon. We can't let the

tourists stay in the villa and not know what to do. After all, not all tourists will think about shopping in the sales center to win the lottery.”

When Qin Lin heard this, he smiled and praised, “Yaoyao, not bad. You know how to think in many aspects.”

“It’s all thanks to Boss and Sister Moqing’s teachings.” Gao Yaoyao suddenly revealed a hint of embarrassment at being praised.

Qin Lin thought for a moment and said, “We can only ask for external help now. I’ll look for Chief Chen and get him to organize a concert to purchase tickets. During the event, we’ll help two scenic spots in the county city sell tickets and divert the tourists to the other two scenic spots.”

Zhao Moqing frowned and said, “Will the tourists buy it?”

Qin Lin smiled and said, “The tourists who buy tickets to those two scenic spots can also get a lot of lucky draws. There should be quite a number of people who will buy it. We’ll split as much as we can. If it really doesn’t work out, we’ll increase the number of lucky draws from five per day to seven.”

As Qin Lin spoke, he took out his phone and called Chen Li.

On the other side, Chen Li was in a conference room. Sun Xian was giving instructions to the people from the Tourism Bureau. They had already decided to rely on Qinglin Villa’s plan to promote the county’s economy when they gave them the support fund.

The momentum at Qinglin Villa was very strong now. Sun Xian had placed all their focus on this for the past two days.

At this rate, at least the GDP of some industries in the county could increase a lot in this new year.

Chen Li had already muted his phone. He did not intend to answer Sun Xian’s call, but when he saw that it was Qin Lin, he immediately took out his phone and handed it to Sun Xian.

“Answer it!” When Sun Xian saw that it was Qin Lin, he immediately stopped talking and said a simple word.

Chen Li nodded, pressed the speaker button, and picked up the call. “Hello, Boss Qin, why are you free to call now?”

Qin Lin picked up the call and went straight to the point. “Chief Chen, I have something to ask of you. The villa is overloaded. This event has attracted even more people than the previous melon king event. I would like to ask you to help distribute them. Isn’t there a Nine Clouds Mountain and Zhuzi Cultural Garden in the county? I plan to sell their tickets and divert them to these two scenic spots.”

Chen Li was stunned and said, “The tourists are coming for Qinglin Villa. Will they buy it?”

Qin Lin explained, “The tickets for the two places will be counted into the consumer lucky draw. The number of winners on my side will also increase by two every day. There will definitely be tourists who will buy it. In addition, I’ll secretly let a tourist who bought two tickets to the scenic area win the lottery first to stimulate them.”

Chen Li looked at Sun Xian.

Sun Xian immediately nodded with a look of joy on his face. Last time, Qinglin Villa did not open any new projects. Even after receiving 5,086 people a day, they did not call the county for help.

Now that Boss Qin had actually asked for help from the county, it meant that there were more people than last time. The number of tourists today might have exceeded 6,000.

This was a joyous occasion.

Think about it, 6,000 visitors a day. If only Qinglin Villa could maintain this number every day. That would be nearly 2.2 million visitors a year.

However, Sun Xian knew that this was impossible. They could not be greedy. It was fine as long as Qinglin Villa could break through the daily average of 3,000 people. With nearly 1.1 million visitors a year, it was enough for the county to be happy.

Seeing Sun Xian nod, Chen Li immediately said to Qin Lin, "Boss Qin, don't worry. I'll help you deal with it immediately. I'll let the two scenic areas convert 40% of the profits from these tickets to Qinglin Villa."

### **Chapter 166: The Boss of the Villa Is Very Powerful! Someone Won! 3**

Qin Lin immediately said, "Chief Chen, this 40% will be a benefit for the tourists. Some tourists will buy tickets to these two scenic spots. They will be responsible for picking up the tourists and giving them gifts, such as Youcheng County's bamboo products or gold ingots."

"Alright, we'll do as Boss Qin says." Chen Li did not refuse and immediately agreed.

After hanging up, Sun Xian couldn't help but say, "This Boss Qin is really magnanimous. He has a sense of the big picture and is a person who does big things. He said that he would try his best to do it well and wasn't afraid of giving more gifts. This time, the publicity for these two scenic spots is more than making money."

"I know." Chen Li nodded. As he walked out of the conference room, he took out his phone and dialed.

...

After Qin Lin called Chen Li, he turned on his computer and logged into the lucky draw program. There were two more chances to win, so he had to make some changes to the lucky draw settings.

Moreover, everyone was worried that the tourists who were selling tickets to the other two scenic spots would not buy it. They were right to be worried. Therefore, it was necessary to operate secretly.

He had a lecture at the university on psychological suggestion propaganda. It was the theory involved in this underhand operation of his.

As long as the first Supreme Set meal was given to the tourists who bought tickets to the two scenic spots in the county, it would give the others a psychological effect. It seemed that the ticket winning rate for these two scenic spots was higher.

With such a mentality, there would definitely be people who would buy it. As long as they bought tickets to two scenic spots, they would definitely go. This way, they could divert a lot of people.

At that time, before these people could play in Qinglin Villa, they would have to stay in the county for a night and come to Qinlin Villa tomorrow. The county would probably be overjoyed.

This secret operation was not difficult. After all, the ticket prices for the two scenic spots were different. It was very easy to set up. The only thing was that he did not know who the lucky person in the end was.

After operating the lucky draw program, Qin Lin sighed.

.....

In this situation, he really hoped that the comprehensive Sea of Flowers and pasture had already been built. Coupled with the planned aquarium, if all of them were ready, the number of tourists today could be easily received.

It didn't take long.

Chen Li brought the two middle-aged men to Qin Lin's office. As soon as he saw Qin Lin, he introduced, "Boss Qin, these two are President Li and President Huang, the people in charge of Nine Clouds Mountain and Zhuzi Cultural Garden. They personally brought their employees over to cooperate with you. They also brought their tickets."

When President Li and President Huang saw Qin Lin, they immediately went forward to shake his hand enthusiastically.

"President Qin, I've heard a lot about you. I've finally met you today."

"President Qin, thank you so much for your support. I'll follow your instructions today."

Their attitude was respectful.

Their Nine Clouds Mountain and Zhuzi Cultural Garden were semi-official contractors. Their operations were also under great pressure. The main reason was that there were not many tourists and there was no way to develop new customers.

Seeing that Hero Valley's publicity on Douyin had worked, they now had more than a million fans. They also wanted to learn, but on the same platform, the opportunities and serendipity of becoming popular were obviously too great. They were not as lucky as Hero Valley. The number of tourists could only maintain the balance and did not increase much.

What the two of them did not expect was that Qinglin Villa would suddenly force a mouthful of rice into their mouths. They were already being ungrateful by not treating President Qin as the God of Wealth.

Qin Lin also said to the two of them, "Now, I really have to ask the two of you to cooperate. In addition, I hope that the two of you can give the tourists who have been sent out a good experience. Be it our Qinglin Villa, the county, or your scenic spots, we can't ruin our reputation."

President Li immediately said, "Don't worry, President Qin. We're not ungrateful people."

President Huang nodded in agreement.

Chen Li watched from the side with admiration on his face.

He really admired this Boss Qin. The other party's view of the big picture seemed to have convinced President Li and President Huang. He was like a leader.

Qin Lin also called Gao Yaoyao over and instructed her to cooperate with the employees of the two scenic areas.

Triangular Plum Blossom Sea's sales hall.

Wang Yang had already come over from the drifting project after taking a shower with his female companion. He had even brought his female companion to the sales center to buy two cups of medicinal honey water and two catties of strawberries worth 200 yuan. He had spent a total of 600 yuan and won six prizes. Unfortunately, he still didn't win any.

The girl frowned and asked, "Brother Yang, they're not selling the Sea of Flowers tickets this morning. What should we do now?"

Wang Yang was also very distressed. It wasn't that he didn't have money, but that he had nowhere to spend it now. He couldn't eat anymore after drinking a cup of medicinal honey water and eating some strawberries.

It wasn't that he couldn't afford it. In the past, after going to a nightclub, booking a table would cost at least 1,200 yuan. If he was lonely, spending 2,300 yuan a night wouldn't be a problem.

But what was wrong with Qinglin Villa? He had only spent 800 yuan, but he could not spend the money. He wanted to draw a lottery.

There were plenty of complaints around, too.

For so many tourists to come to Qinglin Villa, it meant that this scenic area was really popular.

Why didn't the owner of this villa develop more projects? Did he have to be so petty for a big shot who could get his hands on Xiangshui Tribute Rice?

At this moment.

A saleswoman came over with a small loudspeaker. "First of all, I apologize on behalf of the villa and everyone. Because the villa's function is not perfect, it has brought everyone unhappiness. Now, we will sell tickets to the two scenic spots in the county, Nine Clouds Mountain and Zhuzi Cultural Garden."

#### **Chapter 167: The Boss of the Villa Is Very Powerful! Someone Won! 4**

"These two scenic spots are also our Youcheng County's special scenic spots. They have many special landscapes to admire. Zhuzi Cultural Park even has South Stream Academy, which Zhuzi has read. 'Half an acre of square pond is opened, the sky is bright, and the clouds are lingering. How clear is the canal? For the source to come alive.' The poem was created there in the first place..."

Clearly, this saleswoman's introduction was very good, but there didn't seem to be many tourists who bought it. After all, everyone was here for the Qinglin Villa event and the lucky draw. Who would be willing to go to the Nine Clouds Mountain and Zhuzi Cultural Garden?

After the saleswoman finished her introduction, she continued with the loudspeaker, "In addition, there's good news. The purchase of tickets to these two scenic spots will also result in the number of lucky draws. In addition, the number of lucky draws will increase by two every day to seven."

This attracted a lot of attention.

"What a bunch of nonsense. Just say that you can buy tickets to these two scenic spots and draw a lottery." Wang Yang muttered and asked his female companion, "Since you can't buy tickets to Qinglin Villa, why don't you go to those two scenic spots?"

"Anything you say." The girl nodded.

There were clearly some people who had similar thoughts as Wang Yang. They all went forward to queue up to buy tickets.

Wang Yang bought tickets to both scenic spots. There were two tickets for each scenic spot, but when he saw that the price was only 50 yuan, he frowned. "Four tickets are only 200 yuan, it'll only draw twice."

With that, he clicked on the lottery. Unfortunately, both times, it was thanks for participating.

"F\*ck..." He was annoyed.

Couldn't he win once?

Other tourists who had bought tickets to the two scenic spots also clicked on the lottery.

After a couple took the tickets, the man casually clicked on the lucky draw. He and his wife were purely here to travel. The lucky draw was just in passing. He didn't care much about it. It was up to fate whether he could win or not.

"Congratulations on drawing the Supreme Set!"

"???" The man dropped his hand and withdrew it in a rush. There was a moment of disbelief.

He had no intentions of winning, but who knew he would actually win the lottery?

"What is it?" his wife asked suspiciously.

"I... I won!" the man said in disbelief.

"Really?" His wife was shocked. She looked at her husband's phone and saw that there was indeed a notification that he had won a prize. She couldn't help but exclaim, "You really did, honey. You're amazing. You won your first lucky draw."

This instantly attracted the attention of everyone around them. Everyone looked over.

Wang Yang also looked over with envy in his eyes.

He won it on the first try?

Was there no justice in the world?

There was a commotion all around.

“What kind of luck is that?”

“I drew more than a dozen times and I didn’t get it. He bought tickets to these two scenic spots and he won?”

“Could it be that too many people spend at Qinglin Villa, so the winning rate is low? Few people buy tickets to these two scenic spots, so the chances of winning are high?”

“Maybe it’s because the ticket sales for these two scenic spots have just been added and there are two additional winning spots. There’s a bug in the system’s winning probability, so the person who bought the tickets for these two scenic spots actually won.”

“...”

Once something happened, many people would naturally have all kinds of strange associations in their minds.

Therefore, many people rushed to buy tickets to Nine Clouds Mountain and Zhuzi Cultural Garden.

In Qin Lin’s office, President Li, President Huang, and Chen Li were all very surprised to see the rapid increase in ticket sales in the two scenic spots backstage. Qin Lin’s idea had clearly succeeded.

President Li and President Huang were full of smiles. They had to build a good relationship with President Qin in the future. It would be good if such things happened a few more times.

Outside.

The couple who had won the prize were watched by more and more people. After all, this was the first person to win.

A waitress hurriedly stepped forward and said to the couple, “Congratulations on winning the prize. Now, you can follow me to register your ID information. We’ll tell you the process of receiving the prize.”

Still a little confused, the couple could only nod and follow the waiter.

At this moment, someone shouted, “Wait.”

A young man in a suit ran up and asked the couple, “Are you selling this award? Our chairman wants to buy it, he can pay 61,000 yuan and transfer the money on the spot.”

The young man was obviously in a hurry. The chairman didn’t have time, so he had sent him here. He had been waiting early in the morning. The chairman had given orders that he had to buy at least two winning places.

The next moment, another female secretary in a business suit ran up. “You two, you can also consider our chairman. He’s willing to pay 62,000 yuan to buy your spot.”

The price was raised again?

The people around them finally couldn’t help but clamor.

“People are really in a hurry to buy it!”

“The price actually went up. It became 62,000 yuan.”

“Why didn’t I win the prize? I was right in front of him. If I’d known, I’d have let him draw first and drawn it later.”

“...”

Annoyance, envy, and surprise mingled.

In a short period of time, the news that someone had won a prize and that someone had rushed to buy it spread throughout the entire Qinglin Villa. More and more tourists knew about it.

For a moment, the entire Qinglin Villa seemed to be in a restless atmosphere.

### **Chapter 168: Win If You Pay Money! New Game: Processor! 1**

The couple who had won the prize looked at the two people who were fighting to bid. The husband asked the attendant eagerly, “Can we sell this winning chance?”

Although the couple could leave some money to travel every year, they were not rich and were also under mortgage pressure.

Would the couple choose to sell the Supreme Set Meal for more than 60,000 yuan, or would they experience a meal that they could only eat once in their lives?

“Hold on, let me report it,” the attendant said. She picked up the radio and said, “Yaoyao, the tourist who won the prize wants to sell the winning spot. What do we do with it?”

When Gao Yaoyao received the news, she immediately went to Qin Lin’s office to report. “Boss, the tourist who won the prize wants to sell his spot.”

“Then let him sell it,” Qin Lin said with a smile.

This was all to be expected.

Mr. Chen and Mr. Ma would definitely send someone to buy it. Liu Yi and Zhao Furong, who had never seen it before, would probably do the same. It was even possible that other people would join in the fun.

Gao Yaoyao nodded and said, “Then should we let them make the deal themselves, or should we be the middleman?”

Qin Lin said, “Let the tourists do as they please. We just need to register the information of the last owner. Remember to get both parties to sign when the transaction is over. Don’t let anyone take advantage of the situation.”

“I understand.” Gao Yaoyao left.

At this moment, Chen Li said, “Boss Qin, I’m afraid that in the future, there will be rich people coming to spend 60,000 yuan on a meal.”

Qin Lin shook his head and said, "The materials are rare. Not every tycoon can buy it for 60,000 yuan."

These words made President Li and President Huang look envious.

They were promoters of scenic areas, but look at how confident the other party was.

Visit ([Mybo xnovel. com](http://Myboxnovel.com)) to read, pls!

Seeing that the data was as expected, Qin Lin also invited Chen Li, President Li, and President Huang to a tea table at the side.

This activity did not end immediately. It was also a Southerners' pleasure to chat and make tea.

Chen Li sat down and took a filtered teacup to wash. President Li also took a kettle to boil water. Southerners were very good at making tea.

Gao Yaoyao left Qin Lin's office and went to the Sea of Flowers ticketing hall immediately. She saw the couple who had won the prize. "Sir, madam, congratulations on winning the prize. As for whether you can sell the prize, that's your freedom. The prize already belongs to you."

"However, when you make the transaction, please cooperate with our villa to register your identity and sign to prove that the ownership of the prize has been completed."

The couple's faces lit up when they heard this.

The young assistant and the young secretary approached the couple again.

"Gentleman..."

"Sir..."

Clearly, both of them wanted to complete the mission their boss had given them.

In the end, the couple chose to sell it to the young man who spoke first.

They had obtained 60,000 yuan from this. They didn't care about the additional 1,000 or 2,000 yuan.

The young assistant's face lit up.

In this way, the task assigned by the chairman was half done.

Gao Yaoyao brought both parties to the new hall to register their information. Then, in front of everyone, the two parties completed the transaction. The couple also received 61,000 yuan.

This stimulated the other tourists. For a moment, the tourists who were only thinking about traveling and lucky draws became a little restless. Many of them could not help but go to the sales center to start spending, wanting to make up for the number of lucky draws.

After all, someone had really sold it for 60,000 yuan. Furthermore, someone came to buy it immediately after winning the prize.

It was the most intuitive thrill.

Time passed.

Because of the news that the couple had won the lottery for buying the other two tickets, more and more tourists were buying tickets to Nine Clouds Mountain and Zhuzi Cultural Garden.

This also allowed Qin Lin's diversion plan to succeed. Many tourists were diverted towards the two scenic spots.

As noon approached, someone else won another prize.

In the sales center, a girl who looked like a student bounced excitedly. "I won. I won."

The surrounding tourists, including the salesperson, looked at the girl in disbelief.

Because she had only spent 100 yuan in total. She had bought a small glass of medicinal honey water and some snacks, and then won it after one draw.

This girl was definitely one of the luckiest people in the world.

Those who carried large bags of shopping and swiped the lucky draw times were extremely envious.

Similarly, after the girl won the prize, a secretary-like person came forward and asked if she wanted to sell the spot.

All this left the girl momentarily at a loss.

60,000 yuan.

She had never seen so much money in her life.

In the end, the girl sold the winning spot. She felt afraid to eat something that cost 60,000 yuan.

After the second winner appeared, it seemed to make Qinglin Villa even more restless, or some tourists became a little impatient.

They all wanted to hit the jackpot. Another spot was gone.

A third winner appeared around noon, also in the sales center.

A fat man was holding a phone and dancing with excitement. "Haha, I won, I won. I made a killing. Where's the person who wants to buy the winning spot?"

Five watermelons lay at the fat man's feet.

These watermelons were special watermelons that cost 200 yuan per catty.

He was here to get more lucky draws. Five watermelons for a total of more than 12,000 yuan. He had drawn a total of 120 times and finally won once.

This was equivalent to him earning 48,000 yuan directly, not to mention that there were five melons.

"Sir, I'll buy this winning slot on behalf of my chairman." A girl in an OL suit came running over when she heard the fat man.

**Chapter 169: Win If You Pay Money! New Game: Processor! 2**

The fat man did not hesitate. He decisively sold the winning spot.

He had come for the lottery anyway.

The fat man also seemed to offer tourists who had come specifically for the lottery a way to learn, and that was to win on credit.

The sales center seemed to get even livelier.

Half a day passed quickly.

The news that three people from Qinglin Villa had won the prize in the morning and were bought for more than 60,000 yuan had also spread online.

This made many people eager to try again.

Time passed quickly into the afternoon.

As the first visitor of the afternoon began to win the prize, the enthusiasm of the tourists was aroused again. Moreover, the incident of the fat man in the morning buying watermelon brushes to win the prize had caused the number of people buying Quality 2 watermelons to clearly increase in the afternoon.

Qin Lin looked at the backstage sales figures and realized that 100 Quality 2 watermelons were not enough. Fortunately, Lin Feng had prepared a lot of other wholesale items yesterday.

Qin Lin had no choice but to go to the warehouse and move 50 Quality 2 watermelons out of the game.

In the old parking lot, Qin Lin parked the car and called Chen Dabei to bring people to move the watermelons.

In a moment, Chen Dabei arrived at the parking lot with a few people. He instructed a young man behind him, "Captain Guo, take the melons to the sales center and hand them to the head waiter."

Chen Dabei was now the head of security. Although he still had to run errands for his boss, he could just assign this kind of work to the captains below. He did not have to personally supervise them.

"Alright, Supervisor Chen." Captain Guo nodded and immediately led his men to the car to move the watermelons onto the cart and send them to the sales center.

Only then did Chen Dabei go to Qin Lin's side and say, "Boss, there are so many people today. The villa is almost bursting."

Qin Lin asked, "Is there any problem with the security of the villa?"

Chen Dabei explained, "There's no big problem. It's just that two tourists had some friction and accidentally bumped into each other. In the end, both sides lost their temper and started fighting."

"Captain Hong took them back to educate them, but left them alone, considering they're both tourists."

Qin Lin nodded.

This kind of headache was inevitable. After all, some people might fight just because the other party looked at them.

After that, Qin Lin returned to his office. The entire villa was busy, and with Zhao Moqing keeping an eye on things, he seemed to be free. He simply looked at the screen in his mind and controlled his game character to play the game.

He had yet to fish today, so he could find an opportunity to catch all the fish.

After spending some time, Qin Lin caught all 35 fish that had been refreshed today. He obtained a total of 14 fish of Quality 1, 18 fish of Quality 2, and three ornamental fish.

During this period of time, he would catch ornamental fish every day. The aquariums at the old hall had already been filled with many ornamental fish.

He couldn't release them now either. Due to the aggressive nature of the flowerhorn fish, there were too many fish and other fish could easily fight with the flowerhorn fish. Therefore, most of the ornamental fish caught were stored in the game.

Qin Lin finished fishing for the day and was about to leave the ranch when he saw an NPC appear. It was Zach again.

[Because of your contribution to the economy of Ore Town, a processing machine factory has noticed Ore Town and has already opened an experience hall in Ore Town. If you go to the experience hall and spend some gold coins, you can experience using some processing machines. If you have enough gold coins, you can also buy one!]

Zach dutifully performed his NPC duties and then left.

Qin Lin was surprised to trigger this plot information.

There was no such thing as a processing machine in the old version of Ranches Story at first. It was only later that a version of Olive Town and Hope Land appeared.

He did not expect this new version to include this gameplay.

As the name suggested, a processing machine was a special machine. As long as there were enough materials, they could process items with special attributes.

Qin Lin immediately controlled his game character to leave the ranch and head to Ore Town. Soon, he found the machine experience center.

First he looked at the gold coins needed to pay for the experience of using the processing machine, and the money needed to buy a machine. Then he decisively gave up on the idea of buying it. It was too expensive to pay for in-game gold these days.

There were only three processing machines in the experience hall. The rest of the area was blank. Perhaps new machines would be refreshed in the future.

He controlled the game character to step forward to the first processing machine:

Wood processor!

Having the game character click on the wood processor, a list appeared.

[Please select the graphics you need to process now.]

[You can also use blueprints for related processing!]

This choice seemed somewhat similar to Sebara's forging of jewelry.

Several different shapes of planks could be worked on the wood processor, with some carved words added.

The option of using blueprints to process was interesting.

If he took an Ultraman blueprint and processed it, could he process an Ultraman out of wood?

Qin Lin looked at the second processor.

Thread processor!

Seeing the choice of this processing machine, Qin Lin wanted to skip it directly. He was not interested at all.

How could a grown man be interested in silk threads?

However, when he saw that there were silk stockings on it, he controlled the game character to open the list of silk processing machines.

Therefore, after wasting some time, Qin Lin controlled his game character to head to the third processing machine.

Besides, the third processor intrigued him.

Bottle processor (Quality 1)

There was actually a Quality 1 note on this machine. Did this mean that this machine could produce Quality 1 bottles?

He controlled the game character to open the list. There were also several bottle styles that could be processed. Moreover, there were blank spots on the bottle styles.

[Please choose the style and size of the bottle you want to process!]

...

[Please fill in the characters you want to process!]

It meant that when he processed a bottle, he could process the words he wanted in the white space. It could be a name or a poem. It was a little like a personal order.

"Oh!" Qin Lin suddenly remembered something.

His Qinglin Medicine Wine had not been packaged yet. Previously, he had given it in transparent empty bottles to Li Qing and Chen Shengfei.

That was not cool at all.

Now that he had won several prizes, it was time for the medicinal wine to be packaged properly.

Now that he saw this bottle processing machine, he seemed to have some ideas. In any case, there was no way to mass-produce the Qinglin Medicine Wine. It was destined to be in small batches.

So how did this bottle processor work?

Then wouldn't it be better to directly process the words 'Qinglin Medicine Wine' when the time came?

Moreover, according to his guess, the quality of this processing machine was 1. This was definitely classy, right?

At the thought of this, Qin Lin was eager to try. He immediately controlled his game character to click and try to use this processing machine to produce bottles.

### **Chapter 170: Quality 1 Ancient Wine Bottle! Vows Cannot Be Spoken! 1**

[Please select the style of bottle you want to process]

[You can also use blueprints for related processing.]

There were the same two options.

One could use the style in the game or use blueprints to process it.

Qin Lin naturally did not choose the blueprint.

He couldn't just look up a bottle design on the Internet, could he?

Those were all used by others. It would be a little embarrassing if he was discovered after stealing their pictures.

Unless he hired someone to design a wine bottle blueprint especially for him. However, that would take time.

He would see what the style of this game was like first.

If the game design was too lousy, it would be urgent to find someone to design a wine bottle blueprint.

He clicked on a few game-style wine bottles and used the game's 2D cartoon. It wasn't very intuitive, but the last design caught his attention.

The style was a vintage bottle.

The mouth of the bottle slowly expanded downwards. The key was that the entire bottle was engraved with landscape paintings. It looked very stylish.

And the bottle was exactly what he needed.

Qin Lin immediately chose this bottle.

[Please select bottle size]

There were three options: big, medium, and small.

Qin Lin directly chose the medium bottle.

This time, the reward for the Supreme Set was a catty of Qinglin Medicine Wine.

The year naturally couldn't be the highest. At most, he took the second batch of wine that was put into the game. It was about 10 years old now.

After all, it was a set meal worth 60,000 yuan. He could not take the new wine that he had just put in.

After selecting the size, a medium-sized transparent bottle appeared in the game. It should be processed in this bottle. When the time came, the materials would be wrapped outside.

[Please select the materials for processing!]

This request for materials was not surprising. That version of Olive Town's processor required the corresponding materials to process anything.

On the other hand, his new version did not have any specific requirements for the materials used. It was more open and casual.

Qin Lin opened his game backpack. There were water bottles, fishing rods, and other items inside. There were also two pieces of gold, silver, and copper ore each. They were all left behind for emergencies.

He tried clicking on the watering can. Nothing happened. Random clicking was clearly not an option.

Then he clicked on another gold ore.

The gold ore immediately jumped into the lattice of materials used to forge the bottle.

Processing bottles with gold ore apparently worked.

Was he going to learn from Denmark's most expensive vodka bottle? Was it going to be made of gold and inlaid with diamonds?

Gold ores could be made, but there were not enough of them.

Qin Lin tapped the silver ore again.

The silver ore jumped back into the lattice of forging materials. Apparently it was also usable.

Finally, he continued to click on the copper.

The copper ore also jumped into the forging material grid. It was also usable.

Gold, silver and copper?

This gave him a strange idea. This seemed to be able to be divided into three grades of wine bottles. In the future, he could contain medicinal wine of different years.

Copper was the lowest grade. Silver was higher. Gold was the highest.

Copper grades were normally taken out. For example, the prizes won this time were in copper bottles.

Silver bottles could only be obtained by people like Chen Shengfei and Li Qing.

As for gold, he would make it a legend. In the future, when the medicinal wine was 100 years old, he would occasionally put it out and show it off.

If an outsider really wanted to get this level of wine, in addition to having a lot of money to buy it, they had to have a relationship with him. More importantly, it depended on his mood.

Qin Lin felt that this idea was definitely not bad.

Wasn't there a company that specialized in making and selling antique silver and copper wine bottles?

That kind of mastered flat silver hand bottle was still popular.

However, it was impossible to imitate ancient copper wine bottles with brass and the like. Only a small number of copper types could be molded steadily. The only question was what kind of bottle this game's processor produced.

It was not enough to forge a one-catty bottle with two copper ores.

Qin Lin immediately controlled his game character to go to the third floor of the Spring Mine to mine.

Although special ores and special items could only be obtained from digging the first time and would not be repeated the second time, gold, silver, and copper ores were considered ordinary ores.

Qin Lin controlled the game character to take out his tools and start mining. He sold all the gold and silver ores, leaving only the copper ore. After some time, he dug a bag of copper ore and headed to the machine experience center.

He went to the bottle processor again and chose the vintage one-catty bottle. Then he used the copper ore to process it.

The copper ores looked like a grid of materials. When the buttons lit up, it meant that there were enough materials. He directly clicked confirm.

[Please select the characters you want to leave blank!]

Typing notes appeared in the game in his mind. Qin Lin typed out the 'Qinglin Medicine Wine' and then clicked to forge it.

A moment later, the game prompt appeared:

[Congratulations on processing an imitation of an ancient bronze wine bottle (Quality 1)!]

Qin Lin was delighted when he saw the notification.

This Quality 1 processor could really create a Quality 1 bottle. The key was the bronze bottle.

As long as it wasn't brass or anything like that. Bronze was one of the copper materials suitable for making wine bottles.

Qin Lin put the bronze bottle into his backpack and chose the retro style again.

After some time, the copper ores he dug up in his backpack became three imitation ancient bronze wine bottles, and they were all Quality 1.

Qin Lin controlled his game character to return to the ranch. With a thought, he entered the game and saw three bronze wine bottles.
