

The Game 1621

[Chapter 1621 The Legendary Animal 2](#)

When Minister Lu heard this, he could only sigh with emotion. Their country was still the best.

These upper-class figures of the Western countries were really not good for nothing.

After showing Princess Lydia around the streetlight tree, the little princess naturally wanted to enjoy the scenery of the capital, which was also arranged by Minister Lu.

First, he took little princess Lydia to the most famous street in the capital.

On the street, Lydia had walked for a while. She opened her arms and greedily breathed in the air because the air here was too incredible and the quality was too good.

She couldn't help but say to Minister Lu and his entourage, ""Lu, why is the air so good here? He said that the air quality in your country's capital is very bad, and you don't even dare to go out without a mask. Moreover, you might get serious illnesses if you go out in some weather."

Minister Lu immediately said, " Princess Lydia, that was a long time ago. Perhaps your Secretary was too incompetent. We have been announcing the news for a long time, but we still haven't found it. Perhaps you should fire him.

This made the strong and handsome blond young man beside Lydia smile awkwardly but politely.

He was the little princess's Secretary.

Lydia also immediately helped him out, " Lu, you might have misunderstood my Secretary. He's usually very busy and tired, so he might not do some things perfectly. I can't fire him just because he didn't do one thing well. It's very unfair to him.

Then, Princess Lydia also asked curiously, ""Lu, can you tell me why the air here is so good? I've been to the cities with the best air in the world and found that the air in those places is not as good as here."

If Lydia's words were heard by the people in the capital, they would definitely be proud and at the same time, silently thank Linlin laboratory.

After all, the air in Beijing was really terrible. Most of the time, they didn't dare to go out because of a monster called haze.

That monster could really make people sick. In a year, many people thought that the monster had been seriously ill and ruined their lives.

However, with the purification grass, the air was purified better and better.

The monsters in the fog were also quickly eliminated.

Minister Lu also smiled and pointed to the side, where there were a lot of purification grass. it's all thanks to this grass. They're called purification grass. It's a plant that can purify the air. The air in our city is so good because of this purification grass. In the future, the air in the cities of our country will be so good.

"Heavens!" Lydia exclaimed, ""Is there really such a grass in this world? This is too miraculous."

She could not believe it.

If the air in all the cities in this country was so good, how envious would they be? how much they would yearn for it? it must be a very happy thing to be able to live in such a country, right?

At this moment, the handsome young man with golden hair reminded, " Your Excellency, have you forgotten that there is a kind of floating duckweed that can purify water and even absorb gasoline? it was very sensational at the time. The purification grass was also invented by this country.

"Oh, I remember now. There is such a plant." I think our country has applied for support from this floating duckweed, " Lydia said in surprise. unfortunately, we didn't get permission.

"Lu, when will your country be able to control the water quality of your country? Are you saying that you only opened the water to other countries after the water quality in your own country has been improved?"

"I'm not sure about that. After all, it's not under our control." Minister Lu said tactfully.

Lydia could only sigh.

After Minister Lu took the little princess to visit many places, he sent her to a guest house for distinguished guests.

Although it was called a guest house, it was a national-level one, which was more luxurious than many five-star hotels.

As soon as he entered the guest house, he saw two snow-white, adorable robots standing behind the door. Weren't they da Bai?

welcome! Da Bai welcomes you!

The two Blackies called out in unison after the person entered.

Lydia saw the two guys and exclaimed, ""Is this da Bai? Is this your country's new robot technology?"

Minister Lu smiled and said, " Princess Lydia, it seems that you have paid a lot of attention to the news in our country. This da Bai has been developed for a long time. Moreover, this da Bai is very popular with women. Many women want to have it. I can make the decision that Princess Lydia can bring da Bai back when she goes back.

I've already found it, but why haven't I seen any news about big white? " Lydia asked the handsome blond Secretary in confusion.

After all, the international news that she watched was all organized by this Secretary.

The handsome blond Secretary could not help but smile awkwardly.

Soon, Lydia was arranged to stay in a guest house, and a female attendant followed her into the room.

As soon as she entered, Lydia observed her surroundings habitually and asked in confusion, ""Isn't there an air conditioner here? But why do I feel that the temperature here is so good, and it's very comfortable?"

The waiter immediately pointed to the constant temperature grass at the side and said, " dear distinguished guests, it's all thanks to the constant temperature grass. It can maintain the most comfortable temperature in the surrounding environment. Our country has been slowly eliminating air conditioning, and the constant temperature grass is slowly becoming popular.

"Another mystical plant?" Lydia was shocked again.

She was already surprised by the purification grass, but she didn't expect that there was another magical plant in this country.

When did this country become so powerful that they could actually use this kind of plant to replace air conditioners?

Moreover, he had to admit that the temperature created by the constant temperature grass was extremely comfortable.

However, this was not the only thing that surprised Lydia.

Soon, he learned a lot more things. For example, there was a kind of ginseng that could treat myopia.

There was also a kind of dog food that could be given to people to eat.

She tried eating a little, and then she couldn't stop herself, almost finishing the whole bag.

The dogs in this country actually ate better than the people in their country.

Why did such a thing happen?

They were worse than dogs.

There was also an energy drink called Linlin leisure tea.

This thing could restore physical strength, and it was said to be very effective.

So, at night, she asked her handsome blond Secretary to try it. She was surprised that the effect of the Linlin leisure tea was surprisingly good.

She actually only knew about such a good thing now.

She felt that she had to bring more of this back when she went back.

This Linlin leisure tea was simply too good.

Lydia could not understand why this country had so many good things.

However, many of these good things were not available overseas. It was obvious that they had been blocked by the news.

Some of them obviously didn't want the people to know that the eastern country had changed so much. What a damn pride.

Wasn't it because he had been invaded by a country that was decades behind him in technology?

Although it was embarrassing, if he didn't have the courage to face it, he would only be left further and further behind.

On the second day.

Minister Lu once again received Lydia to discuss the matter of the street lamp tree. However, he realized that there was something wrong with the little princess's Secretary today.

The handsome blond Secretary walked with a light gait, as if his legs were weak.

This young man looked strong, but his body was so weak?

.

Qin Lin naturally didn't know what happened in Beijing, and he wasn't interested in it.

For the past few days, he had been looking at the game world every day as usual, trying to trigger the plot quest every day, and then going to the library to see if there was a chance to get the mysterious stone book.

As long as he could get his hands on this, he would be able to learn about Animal Genetics.

"Yi!" Qin Lin was wandering around with his game character as usual when he suddenly received a notification that the mutated bird had matured.

He immediately controlled his game character to return to the farm and head to the mutant bird's nest.

However, when he saw the mutated bird that had matured, he was in disbelief.

Now he finally knew why the purchase of mutant birds was restricted and why it was said that the viewing pleasure was great.

The shape of the mutated bird was actually a legendary animal.

[Chapter 1622 749-Phoenix! Diversity!](#)

The Phoenix's cry resounded high above. The wutong was born in the morning sun!

This was the ancient description of the Phoenix.

Qin Lin was surprised to see two mature mutant birds in the nest.

He had been wondering why the appearance of the mutant bird could be such an eye-catching animal, and why was there a limit to the number?

However, he had never expected that the mutant bird would look like the legendary Phoenix in his country when it matured. The two mutant birds were also different in appearance. It seemed that they were a male and a female, and the Phoenix and the Rosefinch had been distributed.

The colorful feathers and the fiery red swallow's tail that looked like a flame. If others were to say that it was a mutated bird, instead of a Phoenix, he would think that person had a hole in his head.

After all, the mutant bird liked to land on the parasol tree, just like the Phoenix.

No, this was a Phoenix.

Damn, were these two mutant birds pretending to be pigs to eat Tigers before they matured? Even ugly duckling didn't go as far as they did.

However, when Qin Lin saw the two mutant birds, his face immediately lit up with joy.

These were phoenixes, even if they were mutant birds ... No, from today onwards, they were phoenixes.

One must know that in their country, phoenixes were legendary creatures that could almost be compared to Dragons.

It was said that in ancient times, phoenixes were the Kings of birds, Dragons were the Kings of water, and qilins were the Kings of land.

Now, this mutant bird ... No, he had raised the Phoenix, and it was a very honorable thing.

He just didn't know if there were any other creatures like dragons and qilins in the story of ranches.

If there was, it would be really fun.

Qin Lin immediately locked the office door and entered the game with a thought. He went directly to the nest of the mutant birds on the farm.

The moment he entered, he saw the two mutant birds.

In reality, at such a close distance, he could see the two mutant birds better. Their feathers were so beautiful, so soft, and so cool.

He couldn't find too many words of praise.

However, the mutant bird was too beautiful.

The two mutant birds were not small. When they walked, they could reach his waist. However, their wings and feathers were surprisingly large and beautiful.

Moreover, the two mutant birds seemed to have their own intelligence. When they saw Qin Lin, they were like domesticated animals. They came forward and rubbed their small heads against him affectionately.

Fortunately, this was not ancient times.

In ancient times, there were rumors of a Sage King being born and divine birds worshiping Him. Then, he had no choice but to rebel and become the Emperor himself. Otherwise, the Emperor would immediately send someone to kill him when he heard about it, and his head would fall to the ground.

Qin Lin curiously touched the feathers of one of the mutant birds and read its information.

[mutant bird: special!]

[this is a mutated bird that was irradiated by a special energy on Mount goddesses. It doesn't seem to have much technical attributes and is more suitable for viewing. Perhaps it has some symbolic significance: Aesthetic +3, popularity +3, entry +3, vitality +3, survival +3

[this is a top-notch bird species for viewing. Unfortunately, the fertility rate of laying eggs is too low, so it can't be cultivated on a large scale!]

Qin Lin was surprised to see the attributes of the mutant bird.

This was the first time he had seen an animal raised in a Ranch with +3 attributes as soon as it appeared. The key was that the attributes were quite high.

It was A +3 in viewership. After all, the Cub was already noted as a mutant bird for viewership.

Not to mention the +3 popularity, who wouldn't like them when they were so pretty? Moreover, it looked exactly like a phoenix.

With this attribute, no one would be willing to hurt them.

Entry +3 was an old attribute, and many things would pop up to grab the camera.

The +3 vitality and survival ability meant that the mutant bird could survive for a long time and would not be in any danger due to the change in environment.

This was very suitable to be brought out of the game.

However, the last note was a bit of a pain in the ass. The fertility rate of laying eggs was low, which meant that the probability of hatching offspring was very low.

So, this was the reason why the game limited the purchase of four?

It wasn't that he didn't want to buy, but that there really wasn't any more for him to buy?

Thinking of this, Qin Lin decisively exited the game and controlled his game character to go to the ranch store in ore town and find the option to buy mutant birds.

Naturally, he wanted to buy the remaining two mutant birds as well. Since he was limited to four, he had to buy all four.

[the Cubs you bought have been sent to the farm!]

Qin Lin controlled his game character to return to the farm immediately. As expected, the two baby mutant birds had already arrived at the nest.

The two baby mutant birds seemed to be very clingy, following the two adult mutant birds wherever they went.

But what was going on with the two adult mutant birds? They walked away as if they were too ugly.

What the f * ck.

If they disliked this Cub, didn't they dislike themselves? After all, they used to be like this.

Qin Lin felt that this scene was quite ridiculous.

When the two mutant birds matured, he would be able to find a way to bring them out of the game.

Right, this mutant bird ... No, this Phoenix likes wutong. There are no wutong trees in the Linlin Scenic Area.

As he thought about it, he immediately controlled his game character to go to the seed shop in ore town to see if there were any Sycamore saplings.

When he arrived at the seed store in ore town, he quickly pulled up the list of seeds. He started searching from level one land and really found several types of sycamore tree seedlings to sell. They could be planted on different levels of land.

[Chapter 1623 749-Phoenix! Diversity!](#)

Obviously, there were many types of parasol trees in the real world, and there were also many types in the game.

Qin Lin did find a type of parasol tree that could only be planted on Level 4 plots.

[viewing sycamore tree sapling: Grade 2]

[this is a natural Sycamore sapling for viewing. Its specific attributes will only be known after planting it!]

Qin Lin had never paid attention to this kind of plant. First of all, the scenic Area didn't need this kind of plant to add color. Second, it was troublesome to transplant, unlike the previous plants that were easy and relaxing.

This time, it would be troublesome.

After all, there was a Phoenix, but there was no parasol tree. This was not reasonable, right?

However, it was also in a hurry.

When the four mutated beasts ... It was too urgent to think about this when Phoenix brought it out.

On the other side.

Beijing.

Minister Lu also sent off the forty-year-old Princess Delia. Entertaining guests like this was truly an extremely tiring task.

Naturally, the leader had already discussed the matter of the street lamp tree with the other party. He did not want to ask about the details as it was not under his control.

However, the little princess had a special fondness for Linlin's leisure tea, so she took a lot with her when she left.

It seemed that boss Qin's products were really popular.

After the meeting, Minister Lu was busy again. The mutant man-eating flower couldn't be delayed, as it was more important than the street lamp tree.

However, it was a little different this time. There were too many man-eating flower seeds. Minister Lu had to find someone to find a very large piece of land to plant all the man-eating flower seeds.

..

Linlin Manor.

Qin Lin exited the game and looked at the game screen in his mind in surprise.

Only then did he exit the game. Who knew that a figure would appear at the entrance of the farm? wasn't it Elba the Goblin?

This guy must have come for one thing, and that was to complete the design of another national style robot.

The National style robots that he brought into the game included Erlang Sage master Yang Jian, the ventilation Saint, and Zhu Bajie.

However, the ventilation Grand Sage looked like a Gorilla, while Zhu Bajie was a pig. They no longer looked like a car.

He had no idea what kind of blueprint Elba had brought this time.

Qin Lin had no choice but to enter the game again and meet Elba at the entrance of the farm.

"Friend, I've come to find you." Elba looked at Qin Lin with a smile.

"A Erba, I'm sure you have some good news to tell me since you've suddenly come to my door." Qin Lin asked with a smile.

Elba directly handed a stack of design drawings to Qin Lin and said, ""This is the design from the video you brought over. Oh, can you help me make more videos? The toys that dad made for me have been seen by many of our Goblin children. Now, everyone wants them, and many Goblin craftsmen are competing to imitate them. However, they don't have a good design idea and need more related videos. Can you help me?"

Qin Lin was overjoyed when he heard this. When the National style sci-fi team had brought out more exterior designs, he had been trying to trick Elba's father into making them for him.

Who knew that Elba would actually ask him to come to his door? there was actually such a good thing? then, what about Lu Bu's Transformers, Wu Zetian's Transformers, Athena's Transformers ... After he went online, he didn't need to waste his time thinking and talking.

And this was the gnomes who had asked for it.

He was happy that the plot developed well.

However, even though he was laughing in his heart, Qin Lin still pretended to be deep in thought and said embarrassedly, ""Elba, you know it's not easy to get this video, but who asked you to be my good friend? I will do my best to help you, so you can rest assured!"

Elba didn't know what Qin Lin was thinking, so he immediately said with a grateful expression, " friend, thank you very much. You're really my best friend.

Elba, " Qin Lin said politely, " since we're friends, there's no need to thank me. Just share your design with me.

I will. That's my way of repaying you. Elba said immediately.

After watching Elba leave, Qin Lin couldn't help but sigh at the Goblin's honesty. He had been sold by him and still helped him count the money. However, if he had more friends like this, he would definitely not refuse them.

Qin Lin immediately logged out of the game and took a look at the stack of design drawings. To his surprise, the stack of design drawings actually included Erlang, the great sage of ventilation, and Zhu Bajie.

This time, Elba's father was clearly very fast.

After he created these three Transformers, there would be a lot more variety of national style Transformers.

At the thought of this, Qin Lin immediately called professor Lin.

Linlin's laboratory.

Professor Lin was also busy with his team members.

He created some new production lines, which were used to produce miniature bull demon Kings and miniature great sage equalling heaven.

Because the science fiction Park at Linlin Scenic Area had the fiery mountain and the water curtain cave projects, which represented the two forces of Journey to the West, many little sun Wukong and little bull Demon King were needed to appear.

Fortunately, these were all made with spare materials, so they didn't cost much.

His phone rang and he picked it up immediately. When he saw that it was Qin Lin's number, he immediately answered, ""Hello, Chairman Qin, what are your orders?"

"Come to Linlin Manor!" Qin Yang said.

"Alright, I'll be there soon." Professor Lin hung up the phone and rushed out of the laboratory. He went straight to Linlin Manor.

He knew that Chairman Qin must have something to tell him.

It was probably a transformer.

After all, there was still Erlang xiansheng who had not come out.

At that time, the bull Demon King and the great sage, heaven's equal appeared among the three National-style sci-fi Transformers. The netizens were also looking forward to the last one, Erlang xiansheng.

Professor Lin soon arrived at the Linlin Manor and saw Qin Lin. "Chairman Qin, I'm here. What can I do for you?"

Qin Lin immediately handed the stack of design drawings to professor Lin and said, " professor Lin, this is the new design for the transformer toy. Please get it done as soon as possible.

When professor Lin heard the words " Transformers ", he immediately understood. He took the design and looked at it. Then, he was stunned.

This design was indeed Erlang xiansheng, but other than that, there were also the great sage of ventilation and Zhu Bajie.

Naturally, he had seen the two new Transformers made in the National style sci-fi film, and they were in the form of stars and pigs.

He didn't expect that Chairman Qin would also get the two Transformers out so quickly.

Moreover, the image was exactly that of an orangutan and a pig's head.

Old Qin was really amazing.

It must be known that the shape of the animal and the shape of the car were definitely two different mechanical bone armors. The design ideas and methods would definitely be different.

It would be easy for Chairman Qin to design a transformer car.

Now, director Qin was so fast in designing the new animal shape. That was too much. Even the special effects in the National style sci-fi couldn't be done as fast as director Qin's design.

This was simply inhuman.

After professor Lin finished looking at the design, he said to Qin ran with great admiration, ""Don't worry, Chairman Qin. I'll definitely get these Transformers out as soon as possible."

Professor Lin then left with the designs. As soon as he returned to Linlin's laboratory, he immediately gathered the researchers and began to study them. A production plan was drawn up.

It was as easy as drinking water for Chairman Qin to design these things. They had the design plan and designed according to it. It couldn't be more difficult than pulling sh * t, right?

Otherwise, they would have to eat sh * t.

Time passed.

In the blink of an eye, a few days passed.

Qin Lin locked the office door and entered the game with a single thought. He went straight to the mutated bird's nest on the farm.

The two mutant birds behind them had also matured and were very beautiful.

Therefore, he had to think about how to bring these four guys out of the game.

Moreover, it would be a problem if they didn't run around. After all, reality was different from the game, and they couldn't be locked up forever.

[this animal is a restricted animal. It needs to be bound when it is brought out of the game. Do you want to bind it?]

[Chapter 1624 What Kind Of Bird Is That?](#)

After receiving the system prompt, Qin Lin quickly chose "yes."

The mutant bird could also be bound, which was a pleasant surprise.

As long as it was bound, the mutant bird would not be able to fly.

[congratulations, you have successfully bound the mutant bird.

[owner: Qin Lin!]

Qin Lin received the notification and bound the other three one by one.

As he was bound to them, he could see that the four mutant birds were becoming more and more intimate with him. They made a clear and melodious sound at him, as if they were singing.

This could be called the song of the Phoenix, right?

The mutant bird looked like a phoenix, so they could promote it however they wanted.

Qin Lin was no longer in a hurry after binding the three mutant birds. It was noon outside and it would not be good to let them out. He decided to wait until tomorrow morning when there were fewer people.

As he thought about it, he exited the game and returned to the inner area.

As soon as he arrived in the hall, he heard academician Hao, academician Fei, and academician Zhu shouting in disbelief and even excitement.

"Little Qin Feng, you're really amazing!"

haha, this shows that this little guy is interested in scientific research!

"Yeah, if you're interested, you should be properly trained!"

On the side, Zhao mo 'e and Lin Fen were smiling like flowers. They were very happy to see little Qin Feng being praised by the three old seniors.

"What's wrong?" Qin Lin asked, puzzled. You're so happy?"

Zhao Moyu immediately handed a piece of paper to Qin Lin and said, hubby, look at this gear that our precious son drew. Also, academician Hao said that they took this gear out and looked at it before. It might have been remembered by little Qin Feng, so he drew it.

the three academicians said that this is really incredible for a child of Qin Feng's age. His talent in scientific research may be as good as yours, but his drawing skills are poor.

so, I've decided to hire a drawing teacher for little Qin Feng to teach him how to draw!

Qin Lin was stunned when he heard this. Before he could say anything, little Qin Feng's voice rang out, ""No... If you don't draw ..."

As he spoke, he ran to Qin Lin's side and hugged his legs.

Previously, he had used this method to escape from Zhao moyin's private tutor, and he was obviously using the same trick.

daddy, I won't learn, I won't draw, I won't draw ... Little Qin Feng pleaded, and he even showed a pitiful look.

Qin Lin looked at Zhao moyin helplessly.

He didn't know if he meant what he said. Would his wife listen to him? he didn't know how to help his son.

It would be fine if his wife listened to him, but if she didn't, the room would be ruined that night. Zhao moyin would throw a tantrum and wouldn't allow him to touch her. If he was in the mood, it would be awkward.

However, academician Hao immediately said, " director Zhao, little Qin Feng is still young. It's good that he's interested. What we need to do is to guide his interest, not hire a tutor. This will make his interest disappear.

Zhao Moyu was quite supportive of this old senior's words. He nodded and said, "Then I won't learn it. It's a good thing for this little guy."

"I'm not learning, I'm not learning anymore ..." Little Qin Feng seemed to have understood what he meant. He shouted excitedly and ran away in a hurry.

The little Yangzi, Xiao Yang, hurriedly followed behind and ran to little Qin Feng's side.

Little Qin Feng seemed to want to get away from his mother's sight as soon as possible. He climbed onto the back of little yang, the crocodile. Little yang quickly moved his limbs and brought little Qin Feng to the sports field on the other side.

As soon as they arrived at the field, little Qin Feng looked up as if he had seen something. He waved his hands wildly as if he was trying to get rid of something above his head. He kept saying, " I won't draw, I won't draw. If I draw, mommy wants a teacher. I won't draw, I won't ... Don't!"

This scene was somewhat like that of a madman.

However, even if others saw it, they would not think much of it since they were just children.

At night.

Qin Lin was cooking a meal in the inner area. He hadn't cooked for a long time.

Sometimes, it was good to cook personally. After all, the dishes he made were the best in the world.

Naturally, he said that it was for Zhao moyi, so after eating, he pulled Zhao moyi to the bedroom.

He had made delicious food, so should she reward him? should she play more tricks tonight?

The door closed after a moment.

.. (The review asked me to delete 2000 words).

The next day.

Qin Lin got up early in the morning and washed up. He didn't want to disturb Zhao moyin, who was still asleep.

She had played too many tricks, and with those tear-resistant pajamas and stockings, Zhao moyin had tired her out too much, and his body could not keep up.

He put on his clothes and went to the roof early. He locked the entrance and entered the utility room. He entered the game with a thought and went directly to the mutant bird's nest.

Because of the binding, the four mutant birds seemed to sense his arrival and called out one after another. As soon as he entered the door, they called him affectionately again.

Her voice was still so melodious and sweet.

Qin Lin didn't hesitate. He took the four mutant birds out of the game one by one and brought them to the utility room.

He peeked out of the storage room.

The four mutant birds were right behind him, and they also stuck their heads out, which was incredible.

When Qin Lin walked out of the storage room, the four mutated birds followed him out and looked around curiously.

He finally gave an order to the four mutant birds, ""Let's go. Fly up and take a look around. This area will be your home in the future. You don't have to stay in that little nest anymore."

[Chapter 1625 What Kind Of Bird Is That?](#)

Qin Lin didn't know if the mutant birds could understand his words. After all, they didn't have intelligence.

However, to his surprise, the four mutated birds really spread their wings and flew up after he finished speaking. They started to fly towards the scenic Area and roamed around the new environment. They were very pleased with their flight.

Seeing this, Qin Lin immediately returned to the inner area and went back to his bedroom.

He had already entered, but he saw Zhao Moyu glaring at him like a tiger. "Where did you go so early in the morning? When did you leave?"

"I just went out for a while," Qin Lin said with a smile.

"You only know how to torment people. You don't know how to care about people at all." However, Zhao Moyu complained, "don't you know that I'm tired from all the work? I feel safe hugging you in the

morning." Also, like I said last night, if you want a second child, you should try the chance you had in the morning!"

".. "Qin Lin was helpless.

As for Zhao Moyu's sudden request for a second child, he could only offer his body. There was no other way.

He didn't know why Zhao moyin suddenly had this idea.

However, Zhao Moyu said, " I feel that little Qin Feng will be useless if he continues like this. He doesn't like to learn anything. I think it's better to prepare a Smurf account first.

".. "When Qin Lin heard this reason, he was completely speechless.

How old was little Qin Feng?

How could he be crippled?

It was a little disrespectful to little Qin Feng to think of using a Smurf account so early. If he didn't live a good life and wait to die in the future, he would be letting down his mother, Zhao moyin.

However, since Zhao moyin wanted to level up his alternate account so badly, Qin Lin could only cooperate with him ...

.. (Omitted according to regulations).

It was unknown how long this battle had been going on for, but tourists slowly came to the Linlin Scenic Area. These tourists entered the entrance of the scenic Area and took pictures with Optimus Prime and Wei zhentian before entering the scenic Area.

Recently, people online felt that the Transformers in Linlin Scenic Area was too quiet and had not been active for a long time.

Chen Xue brought her best friend from University into the scenic Area.

A few beautiful girls immediately went over to take photos with Optimus Prime.

When Optimus Prime saw that it was a few beautiful women, he became very enthusiastic. "Ladies, do you need me to pose to cooperate with you?"

Or rather, it was the operator behind Optimus Prime who had become more enthusiastic and wanted to hit on these women.

Beautiful women were popular everywhere.

Chen Xue, on the other hand, was full of emotion. She was about to do her internship, and it would be in Linlin Scenic Area. This should be her greatest pride.

She had been visiting the Linlin Scenic Area time and time again ever since it opened, and she always brought her best friend from University with her.

Moreover, she had been working part-time at the Linlin Scenic Area during the winter and summer breaks, so she was very familiar with many people who worked there.

Some of the waitresses had become managers, and some of them were even in charge of a company, such as Gao yaoyao.

Many of the other waitresses were also in charge.

It could be said that she had joined three years ago, so she was now a supervisor. However, these people were also her connections. She also believed that if she worked in Linlin Scenic Area after graduation, her college life would also bring her many benefits.

Therefore, it wasn't a loss.

After Chen Xue and a few of her close friends took some passionate pictures, they entered the scenic Area. Their goal was very simple, and that was to see the great sage, heaven's equal and the bull Demon King Transformers.

Although the sci-fi Park was not open yet, and the cloud contact cave and water curtain cave projects were still under development, they were already open for tourists to see.

At least, when Chen Xue brought her best friend here, she could clearly see the great sage, heaven's equal, Transformers teaching little monkey Transformers, and the bull Demon King Transformers training little demon King Transformers.

This scene was very attractive.

It was as if this was really the scene in Journey to the West, just that the mechanical wind was a little strange.

"Chen Xue, academician Qin junior is so amazing." "He can actually design this kind of transformer," one of the girls couldn't help but praise.

Chen Xue nodded. Academician Qin junior was indeed amazing.

However, he knew a secret. Academician Qin junior was the boss of the Linlin Department company, and he was very handsome.

She couldn't understand how a person could be so devilish. The key was that he was from you city, her hometown.

For some reason, she felt proud that she was from you city.

"Oh right, the World Cup is about to start. Little Xue, do you want to go and watch the security team training?" A beautiful lady asked Chen Xue.

The Linlin Football Club had been established a long time ago, but it had not officially participated in any games because they had not joined the National Super League.

At that time, after the Linlin Scenic Area security team had won the World Cup, the National Super League had wanted to ride on the popularity. They even thought that they could take advantage of the Linlin security team and even wanted to send a few players to cut a wave.

Who knew that the Linlin Scenic Area soccer team would go straight to the second place and not play with the National Super League at all. After the World Cup, they would be playing the second place. If they could advance to the first place, it would be another history.

It could be said that the Linlin soccer team's actions had dumbfounded the National Super League and the Association.

They weren't stupid. If the Linlin football team really got into the first place, or achieved good results in the world Cup, they would be finished.

Linlin's Scenic Area had already proven that Chinese people could do well in football. Even a Scenic Area could do football so well.

This also made it easy for people to associate it with the football team that President Wang had once created, which had won 51 games in a row, and finally retired from the football world due to the black whistle.

By then, they would not have any more excuses. It meant that everyone in the country could play football well except them. Public opinion would definitely be tragic.

As a result, the National Super League supported many teams who wanted to poach Linlin's football team, and they even spent a lot of money.

Unfortunately, the Linlin soccer team wasn't stupid. The point was that they didn't pay as much as their boss. Those teams would be naive to compete with their boss.

For various reasons, the National Super League was in a panic. An Association was also in a panic. It seemed that they were urgently introducing some rules and regulations to hold a selection of talents to make up for their mistakes.

This was naturally something that anyone could see. After all, it had been so many years. The netizens and citizens had been calling for talent shows for so long, but there was still a reaction? It was their own people who recommended their own people. They would pay first, and then everyone would happily split the money.

Now he knew to panic.

It was under such circumstances that many tourists in you city also went to watch the Linlin soccer team's training with enthusiasm.

"Sure, I'd like to see Linlin's team too," Chen Xue nodded and immediately walked towards the Linlin soccer team's training ground.

This was no secret. Someone had already posted the Linlin soccer team's training ground on the internet, and many people could find it.

Chen Xue and a few of her close friends soon arrived at the Linlin soccer team's training ground.

The players were still training hard, and coach Lu Tong was shouting on the sidelines.

Naturally, the training of these players was to put in all their effort, not the kind of playful training method of a certain football team. Once the confrontation was exciting, it would cause even more cheers from tourists.

"That's how football should be."

"I have a feeling that if a certain football team were to encounter the security team, they would be kicked to 0:10!"

"Haha, I think you're overestimating me."

".."

Most of these tourists were actually fans.

They loved soccer, but they were completely disappointed in a certain soccer team. Now that the Linlin soccer team had given them hope, many people came to watch the team, not for vacation.

Who would be stupid enough to support a certain football team and not the security team?

Naturally, no one knew that sea cucumbers were another reason for the players' 'crazy training.

This was the only way to bring out the effects of the sea cucumbers his boss had cultivated and strengthen his body.

Chen Xue and a few of her close friends would also clap along from time to time.

But suddenly, a few clear and melodious bird chirps suddenly rang out. Because the chirps were so pleasant to the ears, many people were attracted to them. They looked up at the sky, and then someone exclaimed, "

"F * ck!"

"What is this?"

"Oh my God, I was dreaming?"

".."

Chen Xue and her best friend also looked up into the sky. When they saw the four beautiful birds flying in the sky, they were completely dumbfounded.

[Chapter 1626 751-This Works Too?](#)

Chen Xue and a few of her close friends could not believe what they were seeing.

The four birds in the sky were too gorgeous and beautiful. Their wings and feathers were simply unbelievable.

They instantly thought of the Phoenix.

That's right, these birds are phoenixes, right?

"Little Xue, is that a Phoenix?" One of the girls asked Chen Xue.

Chen Xue subconsciously nodded.

That bird seemed to be a Phoenix, but wasn't it a legendary bird? Why did he appear here?

It wasn't just Chen Xue and the others who couldn't believe it. The people around them, including the soccer team's security guards, all looked at the birds in disbelief.

"Is that the Phoenix?"

"It seems so. Otherwise, what kind of bird could it be?"

"It's definitely a Phoenix, although I've never seen it before."

".."

All of a sudden, everyone's attention was attracted by the four birds. One by one, they took out their mobile phones and started taking pictures of the birds.

The four birds quickly flew past and entered the Linlin Ranch.

At the same time, countless tourists in the ranch were attracted and exclaimed in surprise.

Those four birds were incredible.

No one understood what was going on with this bird.

Naturally, those were four mutated birds. It was impossible for them to not attract attention when they flew over the scenic Area.

Soon, their videos were uploaded to the internet. With the title of Linlin Scenic Area, it quickly went viral and became a hot topic.

When many people saw the video, they thought it was fake and that it was a special effect.

Wang Shen was one of them.

He was an expert in birds and liked to study all kinds of birds. He would also post some videos about birds on Short Video platforms.

Therefore, he would usually watch some bird videos. As he liked to recommend, Short Video platforms would also recommend a lot of bird-related videos to him.

He saw the video of Linlin Scenic Area.

However, when he saw the four birds, he knew that the video was fake. He was a bird expert and knew it was impossible at a glance.

There was no such bird in the world. The Phoenix was only a legend.

The key was that the bird in the video was not similar to any other bird that he knew of. In order to not be so decisive, he had even searched for information in a special database.

In other words, the four birds in the video were photoshopped. However, the special effects were really good.

He should be complimented.

As Wang Shen thought about this, he scrolled through a few more videos. He felt that something was wrong, because he scrolled through the videos of the four birds.

Furthermore, this was taken by another person from a different angle.

Then, he went to the third one. There were so many popular videos about these four birds?

The key was that they were all taken from different angles, and the birds were also moving from different angles.

This should not have happened.

Even if it was a special effects team, they couldn't possibly make so many short special Short Video, right? That would cost a lot of money. Was there really a special effects team that had so much free time?

At that moment, Wang Shen received a call from a good friend who was also a bird expert.

Wang Shen immediately picked up the call and heard a voice from the other end of the phone. old Wang, did you see those videos? are they the four phoenixes? "

"Old Sun, you've noticed it too?" Wang Shen asked, stunned.

Old Sun replied, " how can I not pay attention to it? it's so popular, so I plan to go and take a look. Old Wang, do you want to go and watch it together? "

"Eh!" "Old Sun, you don't think that's true, do you?" Wang Shen was stunned.

"Old Wang, you think that's fake?" Old Sun also asked in surprise.

"Could it be true?" Wang Shen was even more dumbfounded. Old Sun was a person with strong professional knowledge. Could it be that he couldn't even distinguish this?

Old Sun immediately said, " old Wang, actually, I also thought that it was fake at the beginning. However, the video was real. My friend's daughter was in Linlin Scenic Area. He captured the four birds. It's not fake.

"What?" Wang Shen was stunned and stood up in shock.

Are you kidding me?

The Phoenix was real. Did phoenixes really exist in this world?

Then why had no books mentioned it before, and why had no experts encountered it before? why did it have to appear now?

"Old Sun, come and find me. Let's go to Linlin Scenic Area together." Wang Shen said hurriedly, his face full of disbelief.

However, this bird was real. As a bird expert, he had to go and take a look.

The internet was also in an uproar.

Who would believe that there was a Phoenix in this world?

In the beginning, many people, like Wang Shen, thought that it was fake and that it was a special effect.

However, as more and more tourists confirmed it, everyone knew that a Phoenix had really appeared in the Linlin Scenic Area and that this kind of bird really existed in the world.

This is too much?

The Phoenix was a legendary bird in their country, and now it had really appeared.

An expert even published a long article about this:

"As we all know, the Phoenix is an auspicious sign in our country. In ancient times, the birth of a Phoenix was accompanied by the birth of a famous general, a great figure, or even a Saint. It represented the end of a decadent dynasty.

Now, a Phoenix has appeared in Linlin's Scenic Area. The first video I saw seemed to be on the Linlin security team's training ground. This seems to have some hidden meaning.

Previously, when the Linlin security team got the ticket to the World Cup, a certain Association was given special attention, and a certain iron was even arrested. Then, can we assume that Phoenix actually appeared because of the Linlin security team?

[Chapter 1627 751-This Works Too? 2](#)

Is it a sign that our country's football is going to take on a new look, and that the originally rotten associations and teams are going to be finished? Moreover, to be able to give our country's football hope again, this is no less than a change of dynasty, right?"

It was common knowledge that experts were all good at bullsh * tting and that their words didn't make sense. But this time, everyone felt that the expert's words made sense.

Is this comparable?

What kind of auspicious sign could make a Phoenix appear? our country's team entered the World Cup and was even a security team. Wasn't this a miracle?

To give their country's football hope was as difficult as changing dynasties.

This explanation quickly spread on the internet and was acknowledged by everyone.

Naturally, a certain Association issued a protest against such irresponsible remarks and slander.

After watching the video of the mutant bird, many people made the decision to go to Linlin Scenic Area to see the mutant bird.

The only thing they were worried about now was whether they could see the Phoenix when they went to the Linlin Scenic Area. Perhaps they had already flown away.

However, he had to admit that the country was in an uproar on this day.

The legend of the Phoenix was spread everywhere. Many stories and poems about the Phoenix were quickly dug up and became a topic of discussion.

.

Linlin Manor.

Qin Lin and Zhao Moyu came out of the bathroom and ate something. When they arrived at the manor's Hall, they heard several waiters talking.

"It's true. A Phoenix has appeared in our Scenic Area."

"Unbelievable, there's actually such a thing."

there's even a Phoenix, but I don't know where they are now!

".."

Zhao Moyu was puzzled when he heard these words. He stepped forward and asked, ""What Phoenix are you talking about?"

Seeing that it was the boss's wife, the waiters hurriedly greeted her. A head waiter explained, ""Director Zhao, a Phoenix appeared in our Scenic Area. Many tourists took videos of it and it's trending on the internet. We just don't know where the Phoenix came from."

" ? ? ? "When Zhao moyin heard this news, he simply thought it was a fantasy.

She didn't find it strange for any animal to appear in the scenic Area, but to say that there was a Phoenix, wasn't this a joke?

However, she immediately took out her phone and began to check the videos on the internet.

It didn't take long for him to see the video that the waiters were talking about.

Then, she found it unbelievable.

Are you kidding me?

There was really a Phoenix?

Zhao moyi looked at the video and recognized that it was his family's Scenic Area. The four phoenixes were indeed flying above the scenic Area.

She scrolled through a few more videos, all of which were about the four phoenixes in the scenic Area.

This made it difficult for her to calm down. She said to Qin ran, ""Hubby, look, a Phoenix has appeared in our Scenic Area."

Qin Lin took the phone and looked at it, then his face revealed a hard-to-calm expression. Of course, he was pretending.

After all, he knew what was going on. He was the one who had caused the four mutant birds.

"There's actually such an animal?" Qin Lin's face was full of surprise, but he was also pretending.

Her good acting skills had deceived Zhao moyin.

Her acting skills would probably make countless young and handsome men blush with shame.

Zhao moyin was full of anticipation. hubby, do you think we can try to trick this Phoenix Down for training? don't you know how to tame beasts too? "

She seemed to have remembered something. Her husband had the ability to tame beasts, which was publicly acknowledged on the internet. Red hair and the small animals at home were all very obedient under his training.

That was why she had such an innocent thought.

Although she knew that it was impossible, it was a Phoenix after all, and it was flying in the sky.

However, something unexpected happened very quickly. She heard a security guard outside saying, "

"That Phoenix is flying here."

"They're falling."

".."

Zhao Moyu ran out as soon as he heard this, and as expected, he saw the four phoenixes landing in his direction.

Moreover, they were still calling out. The sound was very crisp and very pleasant to the ears.

Soon, the four phoenixes landed in the manor's courtyard.

This time, even the three old seniors, academician Hao, academician Zhu, and academician PEI, were attracted.

They also looked at the four phoenixes in disbelief, unable to believe that such creatures really existed.

"Hubby, look! It's really a Phoenix!" Zhao mo Yin said in shock.

Of course, Qin Lin saw it. When he saw the four mutant birds running towards him, he immediately took out the mysterious broken horn, put it to his mouth, and started blowing.

This mysterious broken horn could control animals. Many people knew about it, especially when he had controlled those youthful ducks to charge like an Army. It had even been on the hot search. People on the internet thought that this was a special memory.

However, no one knew that this mysterious broken horn could allow him to control animals with his mind.

If the four mutant birds were so intimate with him, anyone would be able to tell that something was wrong. They would think that he was the one who made the birds.

This was really hard to explain.

Then everyone would think that he was the one who created the Phoenix.

Now, through the mysterious broken horn, he ordered the four mutant birds to pretend that they did not know him and let nature take its course.

As he activated the mysterious broken horn, the four mutant birds received the order and stopped walking towards him. Instead, they started to walk around.

Seeing this, Zhao Moxi thought that his husband's horn had worked, so he immediately walked carefully towards one of the mutant birds.

What made her happy was that when she got close, the Phoenix did not avoid her and continued to walk leisurely.

Even academician Hao walked out in surprise and tried to walk towards one of them. Sure enough, it wasn't afraid of people. Boss Qin was incredible.

This abnormal phenomenon could only be explained by boss Qin's broken horn.

Zhao mochen quickly asked people to bring all kinds of food and tried to feed the mutant birds, but they didn't eat at all.

Finally, she asked someone to bring Linlin pet food. This time, to her surprise, the four phoenixes happily ate Linlin pet food.

This was unbelievable.

Then, she was very proud that this was her family's company's own product.

Now that he had seen it, even a wild Phoenix liked to eat it.

This could even be used as an advertisement, although Linlin pet food didn't need to be advertised. After all, even people liked to eat it.

However, this scene was still captured by the waiters.

They were also surprised. After Zhao moyin had finished feeding the four phoenixes, the head waiter came forward and asked, ""President Zhao, they took a video. Should we send it to the multimedia Department of the scenic Area?"

The underlying meaning was to ask if they could post it on their moments. This was because they had rules that videos in the manor could not be spread casually, and some even had rules that they could not shoot.

For example, the three academicians and their research.

Zhao moyin asked the supervisor to take a look at the video. It was probably a video of her feeding the Phoenix and her husband blowing the horn.

One of the staff's videos focused on the Linlin pet food in her hands.

This was very good.

She added, " give this video to President Lin. Let her arrange for the media department to edit and distribute the video. We'll talk about the others 'videos after the media department has posted them. Also, they can only post videos about this bird and not anything else.

The head waiter nodded and immediately walked over to give the waiters some instructions. Then, he took the video that Zhao moyin had asked him to take, found Lin Lanzi's WeChat, and sent the video over.

Lin Lanzi had naturally received news of the Phoenix long ago.

As the person-in-charge of the scenic Area, she would not be doing her job well if she had not received the news by now.

She had already ordered people to find out more about the phoenixes. Naturally, she wanted to make a big deal out of them. She was even thinking of a way to lecture these four phoenixes. She remembered that the boss was a Beast Tamer. He should be able to do it, right?

The only concern now was whether the scenic Area would dare to capture a Phoenix. After all, it was too popular, and there were too many people paying attention to it. When the time came, there might be people who would force it.

Lin Lanzi received a message from a supervisor. Seeing that it was from the supervisor of Linlin Manor, she immediately checked it.

However, when she saw the lady boss feeding the four phoenixes with Linlin pet food in the video, she was surprised.

This works too?

[Chapter 1628 752-How Dare You?](#)

When Lin Lanzi received the video, she didn't hesitate at all and went to Linlin Manor immediately.

While she was still thinking about whether she could tame this Phoenix, who knew that her boss and her lady boss were already doing it.

What was even more amazing? The lady boss actually fed him with Linlin's pet food, which was very impressive.

Soon, Lin Lanzi arrived at Linlin Manor and saw a group of people surrounding the four phoenixes.

The amazing thing was that these four phoenixes were not afraid of strangers at all. They even accepted when others fed them pet food.

Was this to confirm that they weren't domesticated but had appeared in the wild?

But it was true that the Phoenix had not appeared in Linlin Scenic Area before. Otherwise, it would have been discovered long ago.

Lin Lanzi came in and tried to touch the four phoenixes. She was even more surprised when she realized that they did not hide or were afraid.

Was he not leaving?

If they could stay, their Scenic Area would have another special feature.

Moreover, it was a Phoenix. It was an auspicious sign and could also become a symbol.

Lin Lanzi didn't hesitate. She started to take photos of the four crazy animals again and took some videos. Then, she hurried back to her office in Linlin Scenic Area.

The first thing she did was to take the video she shot and the video sent by the supervisor to the multimedia Department. Then, she handed the video to the people in the multimedia Department and asked them to start editing the video.

The people from the multimedia Department were also shocked when they saw the video. They had naturally seen the video about the Phoenix and were still guessing what would happen after the scenery and where it would go.

Who knew that the Phoenix had already settled down in this Manor? the lady boss and the others had already started feeding the Phoenix.

This was very magical.

The people from the multimedia Department did not hesitate. They immediately started editing the video. They edited the video very beautifully and then posted it on the official Short Video account of the scenic Area.

The official account of the scenic spot already had over 200 million fans. Once the video was released, it naturally attracted the attention of countless fans and was seen.

One must know that Phoenix was the hottest topic on the internet.

This video immediately exploded in traffic and became the most popular video.

Then, the internet was in an uproar.

The Phoenix was a legendary divine beast, and its status was very high. However, he did not expect that the Phoenix would not only appear in the Linlin Scenic Area, but it also seemed like it was going to settle there.

The environment in the video seemed to be Linlin Manor, right?

Everyone knew that the Linlin Manor was the most beautiful rehabilitation Manor in the country. There was no place more beautiful than that in the whole world, right?

However, ordinary people could not enter that place at all. Even the super-rich did not have the opportunity to enter for treatment. Many rich people's applications were rejected.

Therefore, they could only admire the manor's beautiful scenery from the videos on the internet.

Unexpectedly, even the phoenixes were attracted to the beautiful scenery of the manor.

But soon, everyone's attention was also attracted by Zhao moyin and Qin Lin.

The video didn't reveal their identities, so everyone naturally only knew that they were academician Qin and Zhao.

After all, the wedding photo of the two in ancient costume had gone viral on the internet, showing off their love.

In the video, the scene of Zhao Moxi feeding the Phoenix with Linlin pet food in his hand surprised countless people.

This also made Linlin's pet food popular again, although it had always been very popular. After all, after the owner version of Linlin's pet food was released, many owners and pets each had a copy.

It wasn't like there hadn't been cases of owners and pets snatching food at specific times.

However, it was surprising to see that the Phoenix also loved Linlin's pet food.

Some people even thought that the Phoenix was infatuated with Linlin's pet food and didn't leave.

Someone directly posted a video saying that Linlin's pet food had attracted the legendary Phoenix. Soon, the legendary Dragon and Qilin would also be attracted by Linlin's pet food. By then, I would be eating the same food as the Phoenix, Dragon, and Qilin.

Suddenly, he felt that the Linlin pet food in his hand was even more fragrant.

This was a bit of a joke, but many people expressed their support.

After all, the Phoenix had really appeared.

Time passed.

The next day.

Chen Li got up early in the morning and rushed to the county. Once he arrived, he was handed over to the meeting room by sun Xian for a meeting.

When he entered the meeting room, he found that the person in charge of the transportation Bureau was also there, and his expression was a little serious.

"What's wrong? It's blocked again?" Chen Li asked.

"It's congested again. It's been congested since early in the morning," sun Xian said with a nod.

"Ah?" Chen Li was shocked and asked, "that shouldn't be. Is the Linlin Scenic Area holding another event?" I haven't been looking at the news online for the past two days, so I don't know what's going on.
"

"There's no event." Sun Xian shook his head.

"How can it be blocked?" Chen Li didn't dare to believe it.

There's no event and there's traffic. What's the point of our you city's 5 outer rings?

Sun Xian forced a smile. let's take a look at the latest news on Linlin Scenic Area. Four phoenixes appeared there yesterday. They're all here for the phoenixes.

"A Phoenix?" "There's such a thing?" Chen Li was stunned.

He immediately took out his phone to check. He would not have known if he did not check, but he was shocked when he saw it.

There really was.

Moreover, he saw a very popular video. The images of four phoenixes appeared in front of him, and he could tell at a glance that the environment was Linlin Manor.

[Chapter 1629 752-How Dare You?](#)

The point was that a Phoenix had really appeared, and now it was still in Linlin Manor.

There was no need to think about the significance of the Phoenix in their country. Therefore, all the tourists had come for the Phoenix, so it was completely understandable that the road was blocked.

In the end, Chen Li could only sigh in silence.

"Is there any way?" Sun Xian asked.

"There's nothing we can do about this situation." "We can only continue with the road construction!" Chen Li said.

Sun Xian nodded and looked at the person in charge of traffic. The person in charge was immediately covered in sweat.

Road construction didn't seem to be under his jurisdiction.

The topic of Phoenix was getting more and more popular on the internet.

The four mutant birds stayed in Linlin Manor.

At night.

Qin Lin and Zhao moyi were in the living room, and the family had dinner with academician Hao and the others.

To everyone's surprise, the Phoenix really didn't leave. Instead, it walked into the hall. They were eating, and they even knew how to rest. They didn't have any wariness at all, as if they were the owner of the place.

Only Qin Lin knew what was going on. It was bound to him.

The next day.

As soon as Zhao moyin woke up, he pulled Qin Lin along and appeared outside the manor. Seeing that the four phoenixes were still there, she was relieved and took out Linlin's pet food to feed the four phoenixes.

The four mutant birds did not resist and ate happily. Then, they spread their wings and flew out of the manor.

"Where are they going?" Zhao moyin asked hurriedly, as if he was afraid that they would fly away.

"I think he's going to fly around to digest his food," Qin Lin replied with a smile.

"How did you know?" Zhao Moyu asked curiously.

Qin Lin naturally knew, but he replied, ""I guessed."

This answer made Zhao mo pout.

However, the four phoenixes were naturally digested. After all, they were bound to Qin Lin and would not leave.

As they flew into the Linlin Scenic Area, they naturally attracted the attention of countless tourists, especially those who had come specifically for the phoenixes. They did not hesitate to take out their prepared cameras and take pictures of the four phoenixes.

Countless videos about Phoenix had been uploaded to the internet. Moreover, after the traffic pool was blown up, almost all of these videos could become popular.

As a result, out of 10 videos that many users viewed, eight of them were about the Linlin Scenic Area and Phoenix. They deeply felt the feeling of being dominated.

Even the music company felt like they were being dominated.

Really, they didn't give any traffic to Linlin Scenic Area, but they had so many fans and had their own traffic. It was no big deal to break their traffic pool.

They couldn't possibly limit the number of people in Linlin Manor, right?

They were afraid that if they forced the other party to go to other platforms, the number of users that would be taken away would be very serious.

Naturally, they were more afraid that Linlin's laboratory would develop a Short Video software for them to play. If they couldn't beat the other party, it would be embarrassing.

After all, Linlin's laboratory had done this a lot.

Perhaps the only thing that made them happy was that academician Qin and academician Li Kai weren't in the network and computer science field.

.

At a scenic spot in Linlin, two figures were very excited when they saw the four phoenixes and started shouting.

"Old Sun, did you see that? it's really him." Wang Shen's face was full of excitement. He pulled Old Sun, who was beside him, and started to film the four phoenixes.

Sun kui's face was also full of joy. He and Wang Chen were both famous bird experts and were the top in bird research in the country. For them, the most exciting thing was to discover a new kind of bird.

Especially when it was the legendary Phoenix.

They were in a hurry to study the Phoenix, so they rushed here as soon as possible. They had already submitted their research application. As long as they were allowed to study it, they could do it.

Seeing the four phoenixes fly away, the four of them hurriedly chased after them. They had been chasing them all the way and were exhausted, but they still did not forget to hit the four phoenixes.

In the end, the two of them chased the four phoenixes to the outside of Linlin Manor.

The two of them were immediately stopped by the manor's security guards. "You two, you are not allowed to enter!"

"The four phoenixes have gone in." Wang Shen said immediately.

The security guard frowned at the four of them. I've already said that you're not allowed to enter. Please leave.

"But the four phoenixes have gone in." Wang Shen immediately said.

The security guard looked at the other party in shock. This person's brain didn't understand human language. He immediately said, ""Birds can enter, but humans can't. Please leave."

"Why can't you understand the human language?" Wang Shen was annoyed and immediately said, "I mean, I'm studying these four phoenixes. They've gone in, and I want to follow them in. Why are you stopping me?"

The security guard was also angered by his words. then let me say something human. No one is allowed in here. I don't care if you're doing research or not. Leave now or I won't be polite.

"You ... How can you be like this? I'm a scientist ..." Wang Shen really felt like a scholar who couldn't explain himself when he met a soldier.

However, the security guard wasn't going to be polite. He called two people over and led Wang Shen out.

What a joke, they were all from the special Department above.

Now that the three academicians 'research was so important, they had to guard the door themselves. They didn't have to be polite to people who didn't understand human language.

Moreover, he was a scientist. It was as if they had never seen a scientist before. Which scientist in the manor was not better than them? how could this guy compare?

He didn't know the immensity of the heavens and earth.

Or was it that so-called researcher who had studied so much that his brain had turned stupid?

Soon, Wang Chen was driven away. He and sun kui were both depressed and even a little angry.

As well-known bird research experts in the country, they were often treated with respect when they went to research birds. As long as they reported their identities, there would be no obstacles in the research, and they would even be cooperated.

This was the first time he had encountered such a situation.

"I don't believe it." Wang Shen said in frustration.

Sun kui frowned. old Wang, this Linlin Manor isn't ordinary. Shouldn't we change our strategy? "

I know this Linlin Manor isn't an ordinary place, " Wang Shen said stubbornly. many rich people can't even get in. But how can those rich people be compared to us scientists? "

we've applied for the research. By then, the research permit will be issued by the capital's General Administration. Do you think these people from Linlin Manor will dare to stop us? " Wang Shen still didn't believe it. If he had a token from the capital, no matter how powerful Linlin Manor was, they would have to give him some face, right? It wasn't to the extent that he wouldn't be allowed to study the Phoenix in the scenic Area.

With this thought in mind, Wang Chen brought sun kui back to the hotel you Cheng was staying in.

Moreover, on the second day, Wang Shen was woken up by a phone call. When he saw the number, his face immediately showed joy.

It was the number of the Beijing bird research Institute.

He immediately picked it up and a voice came from the other end."Professor Wang, congratulations. Your application to study the phoenixes has been approved. However, the phoenixes are in jinglin Scenic Area. You have to coordinate with the scenic Area to avoid any conflicts. I've already sent you the document."

Wang Shen didn't listen to any of this. When he heard that the application had been approved, he immediately turned on his computer to check the email.

The documents for approval were indeed inside. Without hesitation, he clicked on the document and printed it!

After a moment, the document was printed out. He said to sun kui with a face full of joy, ""Old Sun, let's go. With this document, they won't dare to stop us. This is a document from the capital."

For bird research experts like them, the bird management and research Bureau was the biggest management and had a lot of power.

Wang and Shen were in a hurry and arrived outside jinglin Manor early in the morning.

Coincidentally, the security guard at the entrance was the same as yesterday. When he saw the two of them, his character became gloomy.

This kind of person who did not listen to their advice, other than being a fool, was a problem in their eyes. Otherwise, why did he have to break into the manor?

Wang Shen immediately took out the document and handed it to the security guard. "Did you see that? I have the documents from above that allow us to study Phoenix. Let us in."

The security guard looked at the document and couldn't help but smile. "The General Administration of animal research?"

What department is this?

He looked at the other two and pulled Wang Shen away again, not giving him any face.

This was obviously out of Wang Shen's expectations. He didn't understand how these security guards dared to do this!

[Chapter 1630 753-How Can You Do This?](#)

As Wang Shen called out, he was being carried out, and so was sun kui.

However, this time, the security guard did not just drive them away. Instead, he pulled the two of them to the security room of the attraction.

Not long after, MA Hong was called over by his subordinates.

"What's going on?" he asked the moment he reached the security room. Who is peeking at Linlin Manor?"

The security guard immediately pointed at Wang Shen and his partner and said, it's the two of them. It's not the first time. I chased them away yesterday, and today they brought a document from the bird research Department. It's a document issued in Beijing.

MA Hong sat down and looked at Wang Shen and sun kui, asking, ""Who are you two? Why do you want to spy on Linlin Manor?"

Wang Shen and sun kui were stunned by his words.

The two of them seemed to have felt that something was wrong.

"You ... What's the meaning of this?" Wang Shen frowned. we're scientists. We specialize in birds. We only want to study the four phoenixes.

When MA Hong heard this, he said coldly, " the appearance of these four phoenixes has given them an opportunity to exploit. They're really all-pervasive.

"Unfortunately, you seem to have underestimated us. This kind of trick is useless against us."

When sun kui heard this, he felt even more that something was wrong. He hurriedly said, ""What do you mean? are you misunderstanding something? We really are bird experts."

MA Hong laughed. your acting is very good. You're so confused and at a loss. Even those celebrities feel ashamed of themselves. I'm very curious. With such acting skills, wouldn't it be better for you to be actors? Then we might be able to make more money. Why do you need to do this kind of destruction?"

"What kind of destruction?" Wang Shen was on the verge of a mental breakdown. He had no idea what the other party was talking about.

"Very good, then don't blame us." "Then treat them well and make them tell us the truth," MA Hong said immediately.

Hearing this, MA Hong's men started to move. They walked towards Wang and Shen with evil smiles.

A moment later, Wang Chen saw these people tie his hands and feet together.

"What are you guys doing?" Wang Shen immediately became anxious.

Sun kui also immediately said, "No..." What do you want to do? What you're doing is illegal."

The two of them became even more anxious.

A moment later, a series of screams rang out in the security room. The sounds were very tragic and painful. It was obvious that they were experiencing inhuman torture.

Not long after, the voice stopped, and MA Hong turned to Wang Shen and asked, "How is it? Are you going to be honest?"

Wang Shen's face was already covered in sweat from the pain. He immediately said anxiously, "I'm really a scientist. I have the documents from Beijing to study the four phoenixes!"

Sun kui also immediately said, " what he said is true. You must have misunderstood something. You are now illegally imprisoning. It's illegal.

"Illegal?" MA Hong couldn't help but laugh.

This guy even said that they had broken the law and were threatening him with this?

At the thought of this, he looked at the two of them in disdain and said to his subordinates, ""Teach them a lesson and let them know what's good for them,"

Why would MA Hong's men hesitate?

They liked this kind of enemy the most. The more stubborn they were, the more fun it was for them to interrogate them.

However, they had to admit that these people were very tough and could resist. They actually didn't tell the truth.

It seemed that the two sides had entered a strange stalemate.

Wang Shen and sun kui knew that these people must have misunderstood, so they tried their best to explain.

However, MA Hong and the others admired Wang Shen and sun kui's stubbornness. They thought of ways to deal with the two of them and make them explain.

This was a pain in the ass.

Soon, Wang Shen's screams were heard again.

Sun kui's cries were even more tragic.

The screams of the two people made people's backs turn cold.

Soon, the screams stopped.

Wang Shen and sun kui were completely drenched in sweat, and their bodies were weak.

Their eyes were hollow.

They didn't understand why they had encountered this and why the security guards dared to touch them.

"You guys are too lawless." Wang Shen was scared, but he also said angrily, ""Why are you doing this? When we return, I will definitely Sue you and make you pay the price."

Sun kui also hurriedly said, " everyone, this is really illegal detention. This is prohibited by our country's law.

"Hehe, I'm impressed, I'm impressed!" MA Hong couldn't help but nod.

He really admired the two of them. Even those international thieves couldn't fight against these two.

This kind of ability was worthy of him taking action personally.

A moment later, the coffee mug rang again.

This time, Wang Chen and sun kui's screams were heart-wrenching.

Soon, the two of them fainted.

When the two of them woke up again, their eyes were completely empty. They seemed to have been scared silly and their nerves were a little abnormal.

"We Are Scientists!"

"It's true. They're really scientists!"

"You can't do this!"

".."

Looking at the two of them, MA Hong couldn't help but frown.

What was this?

Was there really someone who could resist so much?

"Boss MA, could they really be scientists?" someone asked. It's not what we think?"

The other person also said, " indeed. You've personally taken action. If you can really withstand this, how powerful is that person? "

MA Hong frowned and suddenly felt that it made sense. He immediately said to his subordinates, ""Hurry up and check the details of these two people."
