

The Game 321

Chapter 321: Walking Into A Trap? Need 100-Year-Old Ginseng?

“When the time comes, Qinglin Villa will definitely want to clear this negative news quickly. Then, we’ll be qualified to talk to the other party. Moreover, the initiative will be mine.”

With that, Zhang Tao took out his phone beside him and used a program to continuously connect the camera in his hand. Then, he started to adjust the data transmission.

At the same time, in the parking lot’s security booth, the security guard suddenly looked at the secondary communication device beside him.

A moment later.

Zhang Tao had completed the debugging. After the mini camera was turned on, the information captured by the mini camera could already be seen on the phone.

Mini cameras were also a common method in the entertainment industry. He had used this thing a lot. Some of those male celebrities’ brainless female fans were quite good-looking.

Sometimes, they would use male celebrities as an excuse. Those brainless female fans were very gullible. When they were messing with them, the other party would not dare to do anything even if they used a miniature camera to take videos of them. After that, they would casually give them the celebrity’s autograph and those brainless fans would be settled.

The man frowned at the scene.

There was no doubt that this method was dirty, but it did not matter. As long as he could get the duck.

Zhang Tao quickly got out of the car and walked into the villa.

A moment later, they entered the booked bridal chamber.

As soon as he entered the bridal chamber, he closed the door and locked it. Then he pulled the chain and took out the miniature camera he had brought with him. He installed it in a hidden position and took out his phone to send a message. “You can start the video transmission now.”

In the parking lot car, after the man received the news, he also turned on the video transmission of the miniature camera. As soon as he did, he saw the video coming over. In the video, Zhang Tao whistled and took off his clothes.

He really looked like he did not know about the miniature camera.

At that moment, the man suddenly heard a knock on the car window.

He lowered the window in confusion and his expression changed.

He saw two scenic police officers and security guards in police uniforms already standing outside the car.

In the bridal chamber, Zhang Tao also entered the bathroom and pretended to take a shower. Then, he walked out with a towel around his waist.

He felt that it was about time. Anyway, he just had to let people know that he had been secretly photographed in Qinglin Villa.

Slap! ~

Suddenly, the door to the bridal chamber was flung open.

Zhang Tao was shocked. Before he could react, Captain Hong rushed in and pressed him onto the bed. He took out a pair of handcuffs and entered.

"What are you doing?" Zhang Tao was completely confused about the situation. He struggled crazily and even threatened, "Let go of me. Is there any law? I want to call the police."

"Hmph, we're the police." Captain Hong snorted. He took out the testing secondary device and found the miniature camera. Then he looked at Zhang Tao. "Take him to the security room."

Zhang Tao was dumbfounded when he saw this scene. He only knew that things were going to be bad.

...

In the office.

Qin Lin was making tea with Chu Feng when he received Chen Dabe's report. He stood up in shock.

"What's wrong?" Chu Feng looked at him curiously.

"Senior Brother Chu, I'm afraid I'll have to trouble you again," Qin Lin said as he brought Chu Feng to the security room. He saw Zhang Tao in a sorry state.

At this moment, Zhang Tao was already flustered. "It's a misunderstanding. That's not mine. It's Sun Hui's. He wanted the villa duck and instructed me to do this."

"Bullsh*t. You were the one who brought the camera." Another angry shout came from the side. It was the man in the car.

When Captain Hong saw Qin Lin arrive, he also informed him of the situation. "Boss Qin, we caught him red-handed. The county will immediately send them back to interrogate them."

"Thank you." Qin Lin nodded and frowned at Zhang Tao and Sun Hui.

This was what he was most afraid of happening in the bridal chamber. He really did not expect to bump into such people.

He had really gone to a lot of trouble for the duck.

This matter could not be resolved simply. He had to make an example of him.

Qin Lin brought Chu Feng out of the security room and asked, "Senior Brother Chu, how many years can he be sentenced to under such circumstances?"

Chu Feng thought for a moment and said, "It depends. If we win the criminal prosecution, we'll be sentenced to two years. If we sue ourselves, we can also find a few points. If we win, we can get one to two more years."

Qin Lin frowned and said, "Then I'll have to trouble Senior Brother Chu to get them the longest sentence."

"Okay!" Chu Feng nodded. This was what he had to do as a legal consultant.

The county police car arrived quickly and naturally attracted the attention of tourists. When Zhang Tao and Sun Hui were brought out, they naturally attracted the attention of many tourists. They all took out their phones and took photos.

Without a doubt, this matter became a trending topic the next day.

Everyone knew that Zhang Tao had secretly installed a miniature camera in Qinglin Villa and was caught red-handed. He had also told everyone how strong the measures in Qinglin Villa were in this aspect. He had just pretended when he was discovered.

A person like Zhang Tao was naturally condemned by countless people and cursed. The fact that he was the executive producer of Haixin Entertainment was also exposed. Even those notorious variety shows of Haixin Entertainment were also exposed. Haixin Entertainment was so frightened that they hurriedly announced that they had cut ties with Zhang Tao.

It took a few days for this matter to calm down.

Qin Lin did not pay attention to this matter after that. After all, there were still many things to do in the villa.

He also believed in Senior Brother Chu's ability. Furthermore, such a case would not be resolved immediately.

...

Early in the morning.

The sun was up early, clearly a bright day.

Qin Lin went to the warehouse early in the morning and moved the things in the game out to the villa. Then, he went to the backyard of the original hall immediately.

It was time for those cultivated watermelons to harvest seeds.

When he arrived, Li Kai was already busy in the greenhouse. He moved out a few watermelons and placed them in a paved basin.

When Qin Lin saw this, he went over to help.

The watermelon cultivated by this game seed had a very short growth period. Actually, it had long ripened and could be eaten.

However, to use it to cultivate seeds, it had to be placed for a long time. The higher the maturity of the fruit, the better the seed yield and the quality of planting.

"You're here?" When Li Kai saw Qin Lin, he smiled and greeted him. "It's finally time to harvest the seeds."

With that, he took a watermelon and cut it open. Then, he dug out some seeds and looked at them. A moment later, he said, "It's completely harvestable. There's the sun today. The seeds can be sunbathed."

Qin Lin nodded and took half of the watermelon to help dig out the seeds.

These watermelons were filled with triploid seeds. During the reduction process, the chromosome link was messed up and could no longer form normal germ cells. If seeds did not grow, what would be planted would be seedless watermelons.

These seeds were seedless watermelon seeds.

Many people were puzzled that there were no seeds for seedless watermelons. That was how the seedless watermelons were cultivated.

As the two of them were picking the seeds, Li Kai's phone suddenly rang urgently.

At first, he did not want to answer it, but the phone seemed to be constantly bombarding him. It was annoying to hear so he had no choice but to answer it. "Li Qing, are you urging me to die early in the morning?"

But as soon as he finished speaking, he was stunned. His expression turned ugly. "What? Why is the old man suddenly like this?"

After a while, Li Kai hung up the phone with a very ugly expression. Why had the old man's old injury relapsed?

"Brother Li, what's wrong?" Qin Lin realized that something was wrong and asked with a frown.

"Brother Qin, you might have to collect these watermelon seeds yourself. My old man's old injuries have relapsed, but he's too old and lacks vitality. The risk of the surgery is very high. Something might happen to him. I have to rush back..." Li Kai frowned. The more he spoke, the more serious his expression became.

Even if he did not take the path of the family, he knew how important the old man was to the family. If something happened to the old man, his connections with the old man would disappear and he would no longer be able to help his brother.

The key was that the old man was really old and lacked vitality. He had to be mentally prepared for surgery.

At this time, unless he found something like old ginseng to replenish his vitality.

But how could such things be so easy to find?

Whoever had it would hide it like a treasure and not give it to them at all.

Chapter 322: Vitality Wine! Isn't This Effect Too Strong?

"Brother Qin, I'll have to trouble you to find someone to drive me back to Ming City." Li Kai was clearly very worried about his father. He didn't even bother to wash his hands and hurriedly wiped the watermelon juice on his clothes.

When Qin Lin saw this, he thought of something. "Brother Li, wait a moment. I have something here that might be helpful to your old man."

With that, he left the courtyard immediately and walked towards his office.

Li Kai was stunned when he heard Qin Lin's words.

Brother Qin even had such a nourishing thing?

Before he could ask, Qin Lin had already left.

He knew Brother Qin's character. He wouldn't joke at a time like this.

This made him inexplicably look forward to it.

Qin Lin quickly returned to his office and locked the door.

He naturally thought of the 10 catties of wine brewed with Quality 3 (rare) wild ginseng in the game.

This (rare) wild ginseng was also the most precious thing he had obtained so far. Since then, he had not seen anything of Quality 3.

And the best attribute of (rare) wild ginseng was that it had great vitality +3 after being soaked in wine.

Wasn't this thing more effective than anything that replenished vitality?

There were only 10 catties of wild ginseng medicinal wine. It was rare and he usually wouldn't take it out. However, he had a good relationship with Li Kai and Li Qing. If the old man needed it to save his life, he didn't mind taking out a little.

After all, humans were emotional animals. When they were capable and it was easy, no one could be indifferent.

Even if Qin Ren and Qin Long's families encountered such a situation, he would take out some.

Before entering the game, he looked at the game first and controlled the game character to head to Mount Notre Dame, planning to cut a tree.

The 10 catties of wild ginseng were packed together. Even if he wanted to give it to Li Kai's old man, according to the estimation, he shouldn't need too much. 100 ML should be enough.

This kind of medicinal wine could only be used about 30ml at a time.

But he didn't have a 100 ML bottle at the last minute. He couldn't just take a bottle or glass, could he?

Even if this wine was to be given, it had to have style. It could not be too casual.

He could use copper and silver ores to make a 100ml wine bottle. After all, the wine bottle made by the bottle processor could have a choice of size.

However, this wild ginseng medicinal wine used copper and silver.

According to the copper, silver, and gold grades he had set, this kind of tonic +3 alcohol was poured in the highest-level gold bottles.

However, the Li family was very special. It could not be bottled in gold.

Furthermore, he felt that this medicinal wine was a little tacky.

Therefore, he simply used wood to make an ancient wine bottle and returned to nature. Wood represented vitality, and it was just right for this attribute of replenishing vitality.

A moment later, Qin Lin cut an ordinary tree and obtained a Quality 1 ordinary wood and a Quality 2 ordinary wood.

He directly brought the Quality 2 wood to the processing machine experience hall and used the Quality 1 bottle processing machine to choose the Quality 2 wood as the material. He chose the 100 ML specification and filled in the white spot: "Qinglin Medicinal Wine — Vitality Wine."

Final processing.

It was still a transparent bottle provided by a game covered in wood materials, but it was tightly sewn. It was impossible to tell from the outside.

Furthermore, because the antique wine bottle was old, it looked ancient. The wooden beauty was also very strong.

[Ancient Wooden Wine Bottle: Quality 2]

[This is a wine container made with a special craftsmanship. The process of making it can be used directly without bacteria: Sealedness +1, appearance +1, simplicity +1, artistry +1, wood material +2]

The quality of the wine bottle was clearly different from before.

Previously, because this bottle processor was of Quality 1, the wine bottles produced were also of Quality 1. Now that it was made with this Quality 2 wood, there was an additional quality of wood material +2, making this wine bottle of Quality 2.

Qin Lin did not care about this now. After the wine bottle was done, he went to the storage room and came to the jar containing the wild ginseng medicinal wine. He focused and saw the information on it.

[Qinglin Medicine Wine: Quality 3]

[This is a medicinal wine brewed with special (rare) wild ginseng: Rich wine fragrance +3, nourishing vitality +3, taste +2, nourishing spleen and stomach +2...]

Clearly, this Qinglin Medicine Wine was the best of the best.

Not only did it have the effect of replenishing vitality +3, but it also inherited the original rich wine fragrance of old wine +3.

Qin Lin took the 100 ML wooden antique wine bottle and filled it. Then, he immediately exited the game and went to the original hall to see Li Kai again.

“Brother Qin.” Li Kai went forward, his eyes filled with anticipation.

“Brother Li, bring this medicinal wine back for Old Master to try.” Qin Lin handed the 100 ML wooden bottle to Li Kai.

Li Kai looked at the small bottle of wine in surprise.

He did not expect Qin Lin to be talking about medicinal wine. Furthermore, this medicinal wine was different from the copper and silver ones he had seen before. It was wooden.

Qinglin Medicine Wine — Vitality Wine.

From the name, this medicinal wine should be used to replenish vitality.

Brother Qin really had such a thing. It was even a medicinal wine.

Li Kai did not doubt the effect of Qin Lin’s wine. Instead, he was looking forward to it.

After all, the effects of the previous two medicinal wines were already there.

Qin Lin did not hesitate and called Chen Dabei over. He asked Chen Dabei to drive Li Kai back to the Ming City in his BMW 5 Series.

Chapter 323: Vitality Wine! Isn’t This Effect Too Strong?

When Li Kai came, he came with Li Qing and did not drive himself.

Not long after sending Li Kai off, Qin Lin returned to the office. Chu Feng came in with a document.

Qin Lin asked, “Senior Brother Chu, has there been a result from the case in the past few days?”

Chu Feng explained, “I can just spend the effort to deal with Sun Hui now. This person is indeed the mastermind. He’s the one who has his eyes on your duck.”

“As for Zhang Tao, we don’t have to sue him anymore. Youcheng County found his private Internet disc and realized that not only has he installed WeChat cameras on your side, but he has also installed miniature cameras in the residences of female celebrities at several variety festivals in Haixin Entertainment.”

“He has a lot of secretly taken videos on his private Internet disc. He’ll be in jail for a long time. The county police should be reporting this soon.”

When Qin Lin heard this, he asked in surprise, “Was he secretly taking photos of female celebrities?”

Wasn’t this a f*cking replica of Guan Xige?

That was not right. Guan Xige had participated in it personally and taken photos openly.

Zhang Tao was taking photos secretly. His cultivation was worlds apart.

Chu Feng nodded and explained, "I took a rough look. There are many videos. Some of the women in the videos look quite familiar. They should be quite famous."

"How's their figures?" Qin Lin asked teasingly.

Chu Feng immediately said righteously, "Qin Lin, I'm a lawyer. In my eyes, that's just evidence. Do you think I'll specially look at how good their figures are?"

"So how were their figures?" Qin Lin asked again.

"It's alright!" Chu Feng replied calmly.

Just as Chu Feng had said, the Youcheng County police quickly reported the case. After all, this was a big case. It was rare for a small county to hold such a case, so they wanted to show their ability.

Previously, the news that Zhang Tao had been caught installing a camera in Qinglin Villa had been trending, causing Haixin Entertainment to urgently cut ties. This time, the Youcheng County police's announcement attracted even more attention, and it quickly became trending again.

After all, the content of the Youcheng County announcement included installing cameras in the female celebrity rooms arranged by a few variety shows.

Female celebrities + miniature cameras. It was impossible for such a topic not to attract attention.

When this matter became trending, some female celebrities who had participated in a few lousy variety shows hurriedly posted on Weibo that they had booked a hotel. They even proved that they had not stayed in a room arranged by Haixin Entertainment.

Moreover, the Youcheng County Police's official account was also very lively. Countless netizens who were joining in the fun left messages:

"Police brother, if nothing else, I beg for one video!"

"We have to release all the evidence to the public for the netizens to see. I want to see the evidence."

"Please, I want to see the evidence!"

"Please, I want to see the evidence! +1"

"..."

Clearly, this trending topic was really a little lively.

...

The best hospital in Ming City was the First Hospital.

However, the best doctor in Ming City might not be here. Instead, he was in an official sanatorium in Ming City.

This sanatorium belonged to the military hospital. Ordinary people could not come here to see a doctor.

Outside a ward in the sanatorium, Li Qing, his father, Li Zhen, and the rest of the Li family looked into the ward worriedly.

Li Zhen's expression was also a little solemn. He knew very well what had happened to the old man's injuries. He had been pierced by shrapnel during the war.

At that time, he had survived, but the hidden dangers were also great. As he grew older, old injuries were prone to recur. Therefore, the Li family had always paid attention to the old man's condition and he had undergone a few operations in the past.

However, manpower was sometimes limited. The old man was too old and lacked vitality. The risk of surgery was too high, and how could it be so easy to find something to replenish his vitality?

The Li family had sent out a message to seek this thing. They would owe whoever could give them information a big favor. However, they had yet to gain anything.

The Li family's favor was definitely very important. No one came to their door, which meant that such things that could replenish vitality were extremely rare.

The old man might really have to leave it to fate this time.

"When is your uncle coming back?" Li Zhen asked Li Qing.

Li Qing explained, "If they rush back from Qinglin Villa, they should be here soon."

"Okay." Li Zhen nodded.

The old man's condition was recurrent now. Wasn't there a problem just now? He could enter a critical surgery at any time. He had to have a son to accompany him for a long time.

His position was too heavy to guard for a long time. He could only rely on his younger brother, Li Kai.

The door to the ward opened.

A couple of doctors came out.

Li Zhen hurriedly went forward and asked the doctor in the lead, "Dr. Duanmu, how is it?"

Dr. Duanmu frowned and said, "It's stable for the time being, but Old Master's various stats are very poor. It's not a solution to drag it out like this. The longer it takes, the more dangerous the surgery will be. Mr. Li, have you found something to replenish your vitality? If not, we can only forcefully operate."

"Not yet." Li Zhen shook his head helplessly.

As his son, he was very ashamed that he could not help the old man at this time and the old man had to risk it himself.

Once the surgery was done, it was unpredictable.

"Mr. Li, let the doctor on duty inform me if anything happens," Dr. Duanmu added before leaving with his men.

Li Zhen and Li Qing entered the ward. There was a nurse and a doctor watching by the old man's bed.

Old Master Li's status was not ordinary, so the sanatorium did not dare to neglect him. They would send a doctor on duty to watch over him at all times.

“Mr. Li, the resuscitation just now made Old Li very tired. He’s already resting.” When the doctor on duty saw Li Zhen enter, he hurriedly greeted him.

Chapter 324: Vitality Wine! Isn’t This Effect Too Strong?

The greatest symptom of insufficient vitality was drowsiness and exhaustion.

The old man’s face was completely pale.

The data on the instrument testing his body data was not very good either.

From the perspective of Western medicine, vitality could refer to the ability to move the human body’s tissue and organs. Vitality was abundant and could prevent illness. If vitality was insufficient, the various bodily functions would naturally decrease. This was also the reason why there was insufficient vitality and the risk of surgery was high.

The good test data of these instruments meant that they were full of vitality. The bad data meant that they were insufficient. The old man’s current condition was undoubtedly very bad.

“Dad, if there’s no news today, let Grandpa undergo the surgery!” Li Qing frowned and said. Things like vitality replenishment were basically wild herbs that were old enough.

In modern society, such things can hardly be seen anymore.

The longer he delayed, the more dangerous his grandfather’s situation would be.

Li Zhen nodded. “Yes! When your uncle comes back, we’ll discuss it together.”

At this moment.

Li Qing’s phone rang. He took out his phone and looked at the number. He immediately picked up.

“Uncle, you’re already here? I’ll come out and pick you up.”

Li Qing left the ward immediately and saw Li Kai in the hospital lobby.

As soon as Li Kai saw Li Qing, he said anxiously, “Take me to the old man’s ward quickly. I have something to replenish my vitality.”

“What?” Li Qing’s face instantly lit up when he heard this. What Old Master Xi was most anxious about now was that there was nothing to replenish his vitality.

“Brother Qin gave it to me.” Li Kai handed the 100 ML of Vitality Wine to Li Qing.

Li Qing took the wine and saw the familiar antique wine bottle and the words ‘Vitality Wine’. Qin Lin had specially named the wine with this name. Its use was self-evident.

He brought Li Kai back to the ward in a hurry. “I knew that Qin Lin must have hidden better medicinal wine. I just didn’t expect it to be so good that it exceeded my imagination.”

When the uncle and nephew returned to the ward, Li Qing went to Li Zhen’s side and muttered in his ear.

Li Zhen's eyes lit up. He looked at the doctor and nurse. "Leave the ward first."

The doctor and nurse on duty were puzzled, but they still walked out of the ward respectfully. They did not dare to offend the Li family.

"Where is it?" Li Zhen immediately looked at his son.

Li Qing immediately took out the Vitality Wine and handed it to his father.

"Vitality Wine," Li Zhen said expectantly. "I didn't expect Boss Qin of Qinglin Villa to have such a thing."

He did not doubt the effect of the medicinal wine either. After all, he had taken away all the wine Li Qing had obtained from Qinglin Villa. He knew the effect of the medicinal wine better than anyone.

That was why he had asked the nurse and doctor to leave.

There were very few things that could replenish vitality. Not only did his old man need them, but many old men in this sanatorium might also want them at any time. Some people were also quite capable.

If they knew that Qinglin Villa had such medicinal wine, they might beg them.

Boss Qin must have given this to the old man because of his son and brother. He did not want to bring trouble to him.

"How do you use this medicinal wine?" Li Zhen asked Li Qing.

Li Qing explained, "The alcohol content of the medicinal wine is too high, so it's not appropriate to use it too much. Qin Lin's things are usually very effective. Grandpa is also weak and unable to take nourishment now. Let Grandpa drink 30 ML first."

Li Zhen nodded and opened the bottle. He took the small glass beside him that was feeding the old man water and poured 30 ML into it.

Then, Li Zhen's men called the doctor on duty in. "Help me keep an eye on the old man."

The doctor on duty was a little puzzled. Wasn't that his duty? Then why did he ask him to go out just now?

The Li family was mysterious and did not know anything, but he only dared to think about it in his heart. He carefully looked at the instrument that tested the old man's physical data.

At first, nothing happened, but soon, the doctor on duty was surprised. "What's with the test data?"

"How's the doctor?" Li Qing asked expectantly.

The doctor on duty could not believe it. "Old Master's test data is increasing, and it's happening very quickly. His organs have also become very active."

These words made Li Qing, Li Kai, and Li Zhen's eyes light up. In other words, this wine could really replenish vitality.

But wasn't the effect too strong?

This was only 30 ML.

Chapter 325: The Doctor Can't Believe It! This Thing Is Too Valuable!

The doctor on duty looked at the data on the instrument in surprise.

It was impossible for an old man who was in critical condition to recover so quickly.

He thought of how the Li family had let him out just now.

The current situation must have something to do with this.

This made him extremely curious, but he did not dare to pry.

The Li family had asked him to go out because they did not want anyone to know. If he asked, he might lose his job tomorrow.

Li Zhen was naturally happy.

In the past, he had a lot of objections to his son not taking the path arranged by his family and insisting on fiddling with some wine.

But now, he was a little glad that his son had achieved something in wine.

From what his son had said previously, he and Boss Qin appreciated each other because of wine. It was also his son's first time admitting defeat to someone in wine.

If not for his son's achievements in wine, he probably wouldn't have been able to befriend Boss Qin or have those Qinglin Medicine Wine. This time, it was even more impossible for him to take out this Vitality Wine.

This time, the Li family really owed Boss Qin a big favor.

"Who... who fed me wine? I'm craving it." A murmur suddenly sounded from the bed. Old Master Li actually opened his eyes and looked at Li Zhen and the others.

The doctor on duty beside him was stunned.

Fed him wine?

Did the Li family give him wine?

That was impossible, right?

It was common knowledge that patients should avoid alcohol, not to mention a patient like Old Master Li who could be critically ill at any time.

However, the truth was in front of him. The old man's blood essence was clearly much better, and his face was no longer so dispirited.

The most important external manifestation of abundant vitality was that he was in a good mental state.

"Grandpa, how are you?!" Li Qing immediately went forward and asked with concern when he saw that the old man was awake.

The old man looked around the ward and realized where he was. He sighed and said, "I feel a little better. It doesn't hurt as much as before."

"Grandpa, you'll recover soon," Li Qing said hurriedly.

Qin Lin's medicinal wine was so strong. He believed that his grandfather would definitely be able to survive.

The old man suddenly licked the corner of his mouth and asked curiously, "It really smells like wine. I thought I was dreaming."

When Li Zhen heard this, he immediately looked at the doctor on duty. "Please help me inform Dr. Duanmu to check on the old man again."

The doctor on duty naturally heard this and subconsciously asked him to leave again.

He went out tactfully and was even more surprised. Old Master Li's condition was actually related to some wine.

But what wine could have such an effect?

After there were no outsiders in the office, Li Zhen said to the old man, "Dad, it's all thanks to Boss Qin of Qinglin Villa this time. You're too old now. Your old injuries have relapsed and you don't have enough vitality. It's very dangerous to undergo surgery. It's Boss Qin who sent you a medicinal wine to replenish your vitality that improved your condition."

"No wonder there's a smell of alcohol at the corner of my mouth. This wine is so fragrant." Old Master Li licked the corner of his mouth again. Naturally, he knew how rare this thing to replenish vitality was. "This kind of thing is a life-saving thing. If they're willing to take it out for an old man like me, they owe me a huge favor."

With that, the old man asked, "By the way, where's the wine?"

Li Zhen hurriedly handed the wooden bottle of Vitality Wine to the old man.

The old man held the bottle of wine and could not help but smell it. "This wine is so fragrant. I've never drunk such fragrant wine before. I was woken up by my craving just now. Can I drink some more now?"

Clearly, this old man was also a wine lover.

Li Qing smiled and said, "Grandpa, this is high-quality wine. No matter how good it is, it's not appropriate to drink too much. However, in your current state, you should be able to drink another 10 ML."

"Then it's just a small sip." The old man took a small sip decisively and could not help but sigh. "Not only is it fragrant, but it's also delicious. The key is the effect of this wine. The medicinal wine of the two Chinese medicine inheritance families in Min Province can't compare at all."

Li Qing smiled and said, "Even if it's not this wine, those two families might be able to compare to Qin Lin. Qin Lin still has some 20-year-old and 30-year-old medicinal wine in his wine cellar. Even the original two types of medicinal wine are better than those two families. Furthermore, I even helped Qin Lin brew

a batch of wine with Xiangshui Tribute Rice and used those wine to brew medicinal wine. How can those two families compare in the future?”

At this moment, Li Kai added, “In the future, Brother Qin’s wine might all be brewed with Xiangshui Tribute. Don’t forget, his villa has also cultivated Xiangshui Tribute Rice.”

“Xiangshui Tribute Rice?” Li Zhen could not help but look at Li Kai in surprise. “What’s going on? Can Qinglin Villa cultivate this?”

No wonder he was surprised.

Xiangshui Tribute Rice did indeed have richer nutrition and the effect of relieving aging. Otherwise, it would not have been transported to the capital after producing it for a lifetime.

Back then, this kind of rice was also a problem that Elder Yuan wanted to solve. If he could popularize this kind of rice to every family and not just make the legendary tribute rice, what would it mean?

If everyone in the country could eat Xiangshui Tribute Rice every day, it could even improve the physical fitness of the citizens greatly. Then the Asian’s physical fitness would not be worst than the Blacks’.

The team that Elder Yuan had formed had also experimented all over the country and come to Ming City. At that time, he was not in his current position. He had accompanied him the entire time to find land suitable for experiments.

However, the final outcome was a natural failure.

Chapter 326: The Doctor Can’t Believe It! This Thing Is Too Valuable!

The growing conditions for Xiangshui Tribute Rice were too harsh.

That kind of team had failed, but Qinglin Villa actually succeeded? This was too unbelievable.

Li Kai naturally understood his brother’s surprise and explained, “Boss Qin is lucky. An old field in his hometown has a special rare soil. This soil has the elements that can mutate the genes of crops.”

“That Xiangshui Tribute Rice should have been attracted by the elements in the soil. Other than that Xiangshui Tribute Rice, Boss Qin also used that gene to mutate a kind of watermelon. The taste is definitely stronger than those special watermelons. After a large-scale promotion, it should be able to occupy most of the watermelon market. Unfortunately, this kind of element is gradual. If you plant more plants, they will become ordinary soil.”

When Li Zhen heard this, he frowned. “Although I don’t understand what’s going on with this soil, when the Xiangshui Tribute Rice comes out, I’m afraid many people will have designs on it. For the sake of benefits, there are too many schemes. It’s hard to guard against them.”

“I’ve reminded Boss Qin,” Li Kai said first. Then, he frowned and said, “However, I’m also afraid that Boss Qin won’t be able to handle it.”

He was clearly a little worried because he really treated Brother Qin as a friend.

Li Zhen thought for a moment and said to Li Kai, "Haven't you been doing experiments at Boss Qin's place? Go and suggest that Boss Qin build a laboratory. When the time comes, you can enter that laboratory."

These words stunned Li Kai. "It won't affect my family if I go to a private laboratory?"

Li Zhen said, "Dad has been retired for a long time. You're only getting a dead salary as a researcher. It won't affect you even if you're vetted. It'll be best if you can experiment in that laboratory again."

"Also, get Li Qing's two friends to go to the laboratory to invest. We don't need to take many shares. We just need to make them more high-profile."

Li Qing was more agile and immediately understood that his old man was repaying a favor and making arrangements for Qin Lin.

Letting his uncle go to a private laboratory would more or less have some impact. At the very least, it would arouse suspicion. However, it was also this suspicion that would make many people wary of the Li family and not dare to be unscrupulous.

Letting people like Ma Liewen and Chen Shengfei invest was equivalent to finding two door gods as shields for Qin Lin in the business world.

Although the two of them usually looked gentle with their friends, it was impossible for them to have no means to develop their group to this point.

If they really wanted to play any tricks, everyone had to care about these two.

The key was that if there was really such a chance, Old Chen and Old Ma would definitely be very happy. They could not wait to get closer to Qin Lin and get more Qinglin Medicine Wine.

Naturally, they could only give Qin Lin a suggestion. As for what to do in the end, it would still depend on Qin Lin himself.

After all, they were just returning a favor, hoping to help him reduce the trouble that might appear in the future. If they forced the other party to do as their old man said, they might not be able to return the favor and might even have a bad impression.

Clearly, the Li family understood this. They did not continue chatting and looked at the old man.

After taking another sip of the medicinal wine, the old man clearly looked much better.

He had only drunk a total of 40 ML of medicinal wine. This effect was probably not much different from the legendary 100-year-old wild ginseng that could extend one's life, right?

Clearly, they did not know that this Vitality Wine was a medicinal wine brewed by the system's 100-year-old wild ginseng. Not only did this medicinal wine nourish the vitality +3 attribute, but it also had nearly 20 other attributes of Quality 2 and 1.

This kind of thing was unique. Even the real 100-year-old wild ginseng could not compare.

However, the Li family had never seen a 100-year-old wild ginseng, so they naturally had no reference.

...

An office in the sanatorium.

Dr. Duanmu was also looking at Old Master Li's information and photos.

The Li family's status in Ming City was not ordinary. With Li Zhen's age, he was very likely to take another step into the province in a few years. The survival of his connections might play a key role.

Therefore, he did not dare to delay at all and was doing the old man's surgery plan.

The old man did not have enough vitality. The risk of the surgery was very high. He had no choice but to rack his brains to reduce the risk.

There was a knock on the door.

Dr. Duanmu came back to his senses and shouted, "Come in."

The doctor on duty immediately walked in. "Dr. Duanmu, the physical test data of Old Master Li has suddenly improved. Mr. Li wants you to go over and check on him again."

"Really?" Dr. Duanmu immediately stood up and walked towards Old Master Li's ward. Old Master Li's health had improved, which was good for the surgery. He was more confident.

However, when he saw the data on the detector, he was completely stunned.

The doctor on duty was also surprised because the old man's physical test data was better.

What kind of wine had such a magical effect?

Dr. Duanmu looked at the test data on the instrument carefully. Compared to when he was rescued previously, it was simply unbelievable.

He almost thought that the instrument was broken, but when he saw the old man's complexion, it was obvious that he had improved. He was not as dispirited as before.

Could it be that the Li family had found something to nourish the old man?

That shouldn't be.

Even if he had found something that could nourish his vitality, it should not have worked so quickly.

Unless it was the legendary pure 100-year-old wild ginseng, it could not have such an effect.

Chapter 327: The Doctor Can't Believe It! This Thing Is Too Valuable!

However, other than the one that was sold for nine million yuan more than a decade ago, it seemed that there had never been a sale on the market.

No matter what, it could only be said that the Li family was impressive to be able to find such a thing.

Dr. Duanmu recovered from his shock and said to Li Zhen, "Mr. Li, the old man's condition is good enough for surgery. I'll arrange for a new full-body examination for the old man first and operate on him as quickly as possible."

"Thank you, Dr. Duanmu." Li Zhen nodded. He was very confident in Dr. Duanmu. Although the other party was young, his medical skills were definitely second to none in the city.

If it weren't for this sanatorium, he would have already become the director of a department in another tertiary hospital.

In the afternoon.

Dr. Duanmu saw the detailed data that Old Master Li had checked again.

He was even more surprised to see the data.

Old Master Li's various checks were much better than the first one. Could this be related to the thing the Li family had given Old Master Li?

What had so many effects? And they could be effective so quickly?

Although there was no risk in such a surgery, he was increasingly curious. He found the doctor on duty and asked, "You were on duty in the old man's ward. Did you see what the Li family gave the old man?"

The doctor on duty naturally knew what wine the Li family had given the old man, but he could only say, "Dr. Duanmu, a gentleman from the Li family seems to have brought something back. However, Mr. Li asked me to leave the ward. I don't know the details. They probably don't want anyone to know anything."

The doctor on duty naturally knew what wine the Li family had given the old man, but he could only say, "Dr. Duanmu, a gentleman from the Li family seems to have brought something back. However, Mr. Li asked me to leave the ward. I don't know the details. They probably don't want anyone to know anything."

When Dr. Duanmu heard this, he did not ask further. The Li family did not want anyone to know about this, so he could not probe too much. Then, he arranged for the surgery for the Li family's old master.

At night, Dr. Duanmu began to help Old Master Li with the surgery. Because Old Master Li's condition had improved, the surgery went very smoothly.

This also made the Li family heave a sigh of relief. After the old man was anesthetized, they let him drink the remaining Vitality Wine.

Surgery was also very harmful to one's vitality, especially for old people. What they were most afraid of was surgery. Every time they underwent surgery, their physical condition would deteriorate greatly.

Because of the lack of vitality, the old man's recovery speed was very slow. On the other hand, the young man had enough vitality and recovered even faster.

Now, the remaining Vitality Wine could be used.

This shocked Dr. Duanmu again when he came to check on the old man's wound the next day.

This was because the old man's recovery speed was even faster than those young people after the surgery.

Was that reasonable?

Normal circumstances naturally did not make sense.

However, after the old man's situation yesterday, he felt that this was related to the Li family finding that thing to replenish their vitality.

What on earth was it?

He wanted to ask, but he knew the Li family would never tell.

There was more than one family like the Li family. Thinking about the families in the capital, how many old men could face such a problem?

The value of such a thing was definitely not something he could pry into. He could only bury this curiosity in his heart.

Chapter 328: Animal Plan! Two Kinds of Watermelon Seeds!

The peak tourist season came after the New Year. Before March, the various scenic spots would also enter the first tourist boom of the Year of the Tiger.

The various scenic spots naturally began to attract more tourists with all kinds of advertisements.

To Qinglin Villa, advertisements seemed to be unnecessary.

Qinglin Villa has always been popular online. A certain company's official account had already exceeded three million fans.

Actually, the villa did not have many projects now. There was only the Triangular Plum Blossom Sea, the floating bridge viewing area, rafting, self-service meals, and the bridal chamber. However, Qinglin Villa was popular.

This had always puzzled all the scenic spots. It was not that no one had imitated the model of Qinglin Villa. The same Triangular Plum Blossom Sea and the same drifting could not compare to the popularity of Qinglin Villa.

A lot of people felt that this was very evil.

On what basis?

Recently, after the floating bridge viewing area, Qinglin Villa had pushed the animal plan again and had attracted everyone's attention again.

The villa was as hot as ever.

A couple walked out of the hall holding hands. The couple bought tickets to the rafting area.

They had just walked to the corner when they heard a squeak.

The couple looked over and were immediately surprised.

The woman shouted, "It's Red Hair."

The man hurriedly said, "Hurry up and scan the QR code with your phone."

Now, everyone knew that there was a celebrity squirrel, Red Hair, in Qinglin Villa. Every day, he would bring a QR code to a lucky tourist to give him a gift. After the tourist scanned it, he could go to the front desk to receive the gift.

The villa had even given Red Hair a Douyin account. During this period of time, there were already more than 300,000 fans.

Many tourists would subconsciously look for this celebrity squirrel when they visited Qinglin Villa.

This was naturally done by Lin Lanzi. She realized that Red Hair was surprisingly smart and even knew how to cooperate with the filming.

Previously, although the squirrels in the villa were popular, there was no specific direction. Now, with the help of Red Hair's gift, she suggested that the chief push Red Hair to build a Douyin account for it.

This was the same reason why those teams pushed Internet celebrities.

It was just that others pushed people, and the villa pushed animals.

Zhao Moqing naturally agreed to this suggestion. This was also the reason why she had to find someone to share the burden.

Zhao Moqing had not thought of this before. With a person in charge of this, she could indeed have a better idea.

Furthermore, the value of an animal Internet celebrity was not inferior to some Internet celebrities.

It could be said that between an animal Internet celebrity with 300,000 fans and a female Internet celebrity with 300,000 fans, it could be sure that the first to cool down must be the female Internet celebrity with 300,000 fans.

In today's society, there are more and more men running overnight trains. The attractiveness of female Internet celebrities was also decreasing.

After all, who knew if this female Internet celebrity was really good looking, or using filters?

Red Hair now has 300,000 fans online.

It looked at the young couple and grabbed the QR code to squeak at them.

The young couple naturally knew that there would be a reward after scanning the QR code. Just as they were about to step forward, they suddenly realized that many people were running over.

"It's Red Hair!"

"Let me scan the QR code!"

"I want a gift."

“ ... ”

It was the woman's shout that had attracted the tourists around them.

A group of people surrounded him aggressively. All of them were holding their phones and surrounding Red Hair. They also wanted to scan the QR code.

Red Hair put down the QR code in shock and scurried to the beam.

However, a moment later, more people knew that squirrel Red Hair had been discovered here. They all surrounded it and took videos of Red Hair on the beam.

If they couldn't scan the QR code, they could take a video. That could also be shared on WeChat Moments.

Red Hair looked at the dense crowd and scratched its head impatiently. It clearly felt that it was not easy to give gifts now. As soon as it appeared, a group of fools surrounded it. It could not give so many gifts.

Red Hair simply ignored these people and fled from the beam.

...

A building had already been built beside the triangular plum pot plantation in the villa.

This building was the employee dormitory for Sun Ming's Youcheng First Construction.

The interior of the building was a compact dormitory.

Originally, the construction of the two-story building was according to the support fund given by the county. Later on, because the villa was developing quickly and they planned to expand in the future, the dormitory building became a six-story building. The excess funds would be filled by the villa itself.

Although there were only six floors, the structure was a university dormitory. It was not a problem to accommodate a few hundred people. The beds were also divided into upper and lower bunks. There were single rooms, rooms for two people, four people, and six people. There were separate bathrooms and air-conditioning.

Two people and single rooms were naturally left for management.

A two-person room was on the foreman level, a single room was on the supervisor level and above.

After a few days, they could move in and tear down the original small dormitory.

When the time came, all the employees could apply to stay in this employee dormitory. Naturally, there would be some who did not want to stay in the dormitory. After all, the villa was too close to the county city and there were several special bus routes every day. It was too convenient to travel for half an hour.

Most of the employees lived in the county now, so they were naturally more willing to go home.

These employees naturally had to give additional housing subsidies.

As the villa developed, these things had to be perfected bit by bit.

On the rooftop of the staff dormitory, one could see dense watermelon seeds.

After the watermelons were harvested, they needed to be placed in the sun for some time to kill the bacteria before the quality of the watermelon seeds could be higher. The villa was filled with tourists, and this was the best place to dry the seeds.

Qin Lin was squatting in front of the dense watermelon seeds with Chen Dabei and two security guards and choosing carefully.

These seeds were more plump than ordinary watermelon seeds, but Qin Lin realized that he could find one or two larger seeds among the dense seeds.

Qin Lin grabbed a handful of seeds and picked one out a moment later. He smiled and said, "I found another one."

He immediately placed the seed in a small basket beside him.

This larger seed made him have some guesses, because the Quality 2 watermelon seed taken out in the game was this big.

Therefore, this big seed might be of Quality 2.

Quality 2 seeds were taken out and planted in reality. Although the watermelons had degenerated to Quality 1, the level of this batch of seeds was there. Even if it lacked a Level 3 land, there might always be one or two seeds in the watermelons that had adapted.

If these were really Quality 2 seeds, they had adapted to the real land. Then, the watermelons planted would all be Quality 2.

There were not many of these large seeds, so it was impossible to plant them on a large scale.

However, if these were really seeds of Quality 2, he did not plan to promote them on a large scale. Quality 1 would do. Quality 2 would belong to the villa.

"Qin Lin, is there anything different about this seed?" Chu Feng asked curiously.

Qin Lin smiled and explained, "If nothing goes wrong, this bigger seed can grow more delicious watermelons."

"Is it that kind of special watermelon that costs 200 yuan a catty?" Chu Feng grabbed the seeds and looked at them before putting them down. "By the way, when I submitted the information and sued Sun Hui, I realized that his background doesn't seem to be simple. Someone might come to you to settle privately recently."

Qin Lin frowned slightly. "It's impossible to reconcile. I'll have to trouble Senior Brother Chu."

If Senior Brother Chu did not mention this person, he would not care about this person who had designs on ducks.

However, reconciliation was definitely not an option. He wanted to make an example of Senior Brother Chu and let him think of a way to give him more time.

When the verdict was out, it would also secretly spread the news and let others see if the risk of entering a free technical school was worth it.

Chu Feng nodded and said, "Okay, then I'll leave for Shenzhen in the afternoon. I'll come back when the case here starts. As for the option reward document, I'll complete it and send it to you as soon as possible."

"Yes!" Qin Lin nodded.

When Senior Brother Chu became a legal consultant, he would not stay on his side forever. This was because Senior Brother Chu was not just a company's legal consultant. He would only come over when he needed to solve legal problems.

Now that there was a lawyer problem with a Shenzhen company where Senior Brother Chu was a legal consultant, he was going to deal with it.

"Boss, I've chosen everything, but there aren't many." Chen Dabei came over with a small basket and poured some big seeds together.

Qin Lin also knew that there wouldn't be too many seeds. He placed the selected seeds together and instructed Chen Dabei, "Put these seeds away after ten minutes."

After that, he picked up the large seeds and some small seeds and left the rooftop to go downstairs.

Chu Feng also left and went to the bridal chamber to pack his things.

Qin Lin returned to his office.

When he arrived at the multimedia room, he heard his mother's laughter and Wang Cai's cries coming from inside.

Looking inside, it was Lin Lanzi who had started to have designs on Wang Cai after pushing Red Hair to success.

The dog had entered the game to learn the frisbee skill, and its intelligence had also become higher. It was also very spiritual. One had to know that dogs occupied a large portion of the Internet celebrity section of a certain pet.

At that time, not only would Red Hair have its own unique number, but Wang Cai would also have it.

Qin Lin did not worry too much about such things. Currently, Lin Lanzi had done well and was worthy of his position as the director of the multimedia department.

When he returned to the office, he locked the door and immediately entered the game with the two seeds.

He wanted to see if those seeds were as he had guessed.

Qin Lin immediately looked at the watermelon seeds and saw the note:

[Seed of seedless watermelon (Quality 1)]

[A seed that has been cultivated and degenerated. The original mother should have been a higher-quality seed. The watermelons planted are more delicious than ordinary watermelons. There is no planting season restriction, and the growth cycle is very short.]

[Seed of seedless watermelon (Quality 2)]

[A special cultivated seed. The taste planted is extremely delicious. There is no planting season restriction, and the growth cycle is very short.]

Chapter 329: Qin Lin's Plan! How to Explain This?

Qin Lin's eyes lit up when he saw the note of the two seeds.

As expected, the big one was a Quality 2 seed. With these Quality 2 seeds, it was worth it to nurture it for so long.

In the future, this kind of watermelon will be planted in Qinglin Villa. It could be openly called 'Qinglin Watermelon' and not be called a special breed anymore.

Seeing the attributes of the watermelon seeds, Qin Lin exited the game first. Then, he looked at the game on the screen in his mind again, planning to finish today's matter.

First, he caught 35 fish, then cut trees on Mount Notre Dame. Today, Mount Notre Dame was relatively poor. There were no special trees or mountain goods.

Then, Qin Lin went to the house on the ranch and turned on the television to see if there were any television shopping programs today.

These were all ways to obtain things.

Today, the television was no longer on the usual news program. A sexy cartoon beauty appeared.

This beauty had a very good figure. The key was that she was wearing a very cool nightdress, and it was very short and sexy. There were also silk stockings on her legs that looked familiar to him.

[Today is a special shop for Sexy Pajamas. Now, it's selling a beautiful style that Teacher Long likes very much. Moreover, it will be accompanied by a pair of very tear-resistant stockings. Many colors are available, and it's very tempting. It's helpful for nighttime activities. It can be hooked...]

Qin Lin was attracted when he saw this.

That pair of stockings last time did make him very happy.

This time, it was an upgraded version + pajamas?

Wasn't this shopping program too indecent?

Why were they all selling such items?

Although it was indeed easy to earn money in this aspect, couldn't he sell something positive?

But he liked it.

He decisively chose to buy and pay.

Thinking of the lesson he had learned from the last stocking, he bought 10 sets in a row. He chose all kinds of colors: red, blue, black, purple...

He had to have a different experience every day, right?

However, after some thought, he continued to buy 10 more sets.

He had to be prepared.

Who knew when the next time such a shopping program would be refreshed?

Only then did Qin Lin control his game character to leave the house. He planned to go to the fifth floor of the mine to continue mining. There was still a lot of ground to dig on the fifth floor.

Zhao Moqing called at this moment and asked him to go over.

Qin Lin could only leave and go to Zhao Moqing's office.

Zhao Moqing was looking at some information on the computer. When she saw him come in, she said, "Hubby, what do you think of this piece of land? Deng Guang just sent it."

Qin Lin walked over. On the computer was information on industrial land.

He was choosing a new factory for the Qinglin Food Company.

In a small place like Youcheng County, the factories were too small. After the county's corporate guidance fund came down, the expanded factories were all small factories that had not been connected.

This situation was very unreasonable and not conducive to the transfer of production arrangements. Therefore, if he wanted to develop in the future, it was necessary to find a new place to build a concentrated factory.

The food company owed the county's corporate guidance fund. With the food company working double shifts, the production of hundreds of thousands of bottles a day could be repaid next month. When the time came, it would be necessary to build a new factory.

Therefore, this matter of finding a place had already been put on the agenda and Deng Guang paid attention.

Qin Lin looked at the industrial land.

The size and location were suitable for the food company's current requirements.

He said, "Tell Deng Guang that the location is good."

"Yes!" Zhao Moqing nodded. "After that, I'll get Xiao Xin to follow up on the specific situation."

Qin Lin continued, "By the way, hire some people to develop 100 acres of the newly contracted 5,000 acres of land in the villa first. I plan to plant watermelons."

Zhao Moqing nodded. She knew that the watermelon seeds must have been cultivated.

Qin Lin thought of the sexy pajamas he had bought and picked Zhao Moqing up with a smile, letting her sit on his lap.

Zhao Moqing grabbed his hand first. "Don't do anything bad. A few finance officers are coming over to report later."

Qin Lin leaned into her ear teasingly. "I bought you a gift again. Stockings + pajamas. You'll definitely look good in them. Wear them for me tonight."

From Qin Lin's gradually wretched gaze, Zhao Moqing thought of the stockings from last time and rolled her eyes at him. "You actually bought a whole set this time. Why are you playing more and more tricks?"

"I bought 20 sets." Qin Lin smiled proudly.

"Ah..." When Zhao Moqing heard this, she pinched Qin Lin's waist fiercely.

Was there a man who bullied his wife like this?

There was a knock on the door.

Qin Lin could only let go of Zhao Moqing.

Zhao Moqing adjusted her expression and sat back in her office chair before shouting, "Come in."

A few finance girls walked in and greeted Qin Lin when they saw him. "Boss."

Qin Lin also nodded at the finance girls and left.

Back in his office, he looked at the game screen in his mind again and controlled the game character to continue mining.

For some reason, he was looking forward to it turning dark soon.

[Congratulations on digging up special soil!]

Another bag icon filled with gray-black soil appeared in the backpack.

It was the same soil with a +2 survival rate and an improvement in genes.

This was good stuff. He would not complain that it was too much. In the future, if he wanted to take out any good seeds, he would have to throw the blame on this soil.

Chapter 330: Qin Lin's Plan! How to Explain This?

However, when he pushed the blame to the old field previously, he felt that the reason was still a little thin.

He wondered if he should get a laboratory in the future to cover it?

Then, he would get the soil to the laboratory and do something about it. He could turn the seeds into soil that the laboratory had used to make them.

If there was a laboratory, there had to be a researcher. This was the most difficult thing to find.

For some reason, Qin Lin thought of Li Kai.

Brother Li was convinced about Old Tian and the soil.

However, he did not know if he could invite the other party's family.

He would find an opportunity to tempt the other party with a few more bottles of Qinglin Medicine Wine.

With that in mind, Qin Lin controlled his game character to continue mining.

[Congratulations on obtaining a Quality 2 melon skin jadeite ore.]

...

[Congratulations on digging up special soil!]

Qin Lin finished excavating the fifth level of the Spring Mine and obtained another piece of jade ore and special soil.

The entrance to the sixth floor had also been dug out.

Unfortunately, if he controlled the game character to go forward, he would not be able to enter the sixth level at all. It was another level restriction.

At this moment, Qin Lin also received a game notification that the delivery of television shopping in the game had arrived.

He hurriedly controlled his game character to go back to the ranch to receive the delivery. Then, he immediately got up and locked the office door. With a thought, he entered the game and saw the delivery all over the ground.

From: Olive Town.

Product: Special Sexy Pajamas + Stockings set in Olive Town.

It was indeed from Olive Town again.

Although developing the economy required characteristics, there seemed to be something wrong with the development of Olive Town. It was really special.

However, it was a good thing.

Qin Lin took a knife and opened a package. Inside was a pink nightdress and stockings set.

He saw the note:

[Sexy pajamas set: Quality 2]

[This is a very sexy ensemble. It's a product carefully made in Olive Town: texture +2, comfort +2, sexiness +2, temptation +2, seduction +2, tearing excitement +2!]

Qin Lin subconsciously swallowed when he saw the note.

This set was actually Quality 2?

Previously, Quality 1 had already made people so excited. How fun was Quality 2?

For some reason, he was looking forward to it.

After that...

Qin Lin began to scrape off the information on these parcels one by one.

After all, there was no such place as Olive Town in reality, and the harvest address was not Qinglin Villa. He could not let anyone see it.

After that, Qin Lin brought all these parcels out of the game.

When it was finally time to get off work at night, he called Zhao Moqing and asked her to come over.

He could not carry more than 20 express packages alone.

Fortunately, the package of pajamas and stockings was not big. The two of them could still carry it back.

"Hubby, why did you ask me to come over?" Zhao Moqing walked into the office in confusion and saw the pile of parcels.

She suddenly thought of what Qin Lin had said today and could not help but roll her eyes at him.

This guy had bought these clothes and tortured her, but she actually had to come and get them herself. It was really too much.

Qin Lin greeted with a smile, "Hurry up and help. I bought them for you. I'm good to you, right?"

"You want to bully me and even say that you're good to me. Hubby, I realize that you know how to distort the truth now." Although Zhao Moqing complained, she did not reject Qin Lin's hobby.

Qin Lin and Zhao Moqing carried a pile of parcels out of the office and did not forget to ask, "There are many colors. What color do you like to wear? Pink, black, light purple..."

"Qin Lin, do you want to die? Aren't you afraid of being heard?" Zhao Moqing glared at him angrily and quickened her pace, planning to ignore this ridiculous fellow before returning home.

She saw that the information on the package had been scratched off. At least he knew how to hide it, but couldn't he deliver them to their house?

When they arrived at the parking lot, under Lin Fen's surprised gaze, she hurriedly placed the packages in the trunk of the car.

When they returned home, as soon as the two of them entered the room, Zhao Moqing put down the bag in her hand and suddenly went forward sweetly. She hooked her arms around Qin Lin's neck.

"Hubby, you bought so many sets. Pick carefully. Which one do you want to wear?"

"What?" Qin Lin was stunned.

He was going to wear it?

Was there a mistake?

...

The next day.

When Qin Lin woke up, Zhao Moqing was still asleep.

The memory of last night's madness brought a smile to his lips.

The entertainment effect of the clothes bought by the television network in this game was really strong.

Seeing that Zhao Moqing was still sleeping soundly, he knew how crazy he had played last night.

Zhao Moqing had not eaten the fruit of the Tree of Strength like him. It seemed like she would have to stay in bed today.

However, Zhao Moqing's lazy and charming look of satisfaction was still very charming.

A woman was a flower that needed to be watered with the heart. That was really true.

After getting up to wash up and eat some breakfast, Qin Lin went to the warehouse to move today's things out of the game and shipped them to the villa. There was nothing important this morning, so as soon as he returned to the office, he looked at the screen in his mind and played the game.

However, there were no special trees or mountain goods on Mount Notre Dame today, and entering Ore Town did not trigger any plot missions.

The television shopping that had refreshed yesterday seemed to have consumed his luck today.

There were many construction sites in Qinlin Villa. Not far from the original hall, there was already a large retro courtyard that was slowly built. From the looks of it, the progress was very fast, and the courtyard could be completed very quickly.

He could see a large rock standing in front of the courtyard. The stone tablet had the words "Ancient Ginkgo Garden" written on it.

This was where the two 500-year-old ginkgo were. Compared to before, this place had changed greatly.

In the courtyard, the construction workers were propping up a very large stone tablet.

There were words engraved on the stone tablet.

That was the story of the two 500-year-old ginkgo trees.

Master Lin stood at the side and watched these workers work. He saw the story on the big stone tablet and smiled.

That was the story of him and the two ginkgoes.

From the time he fled with his grandfather to the time he saved the two ginkgo trees.

He looked up at the two ginkgo trees again. It was just that the leaves were growing too quickly.

Before the new year, it was still withered and bald without any leaves. Now, it was already a little lush.

This speed was abnormal.

The boss would definitely ask him how this tree grew so quickly. He wondered if the explanation of cow dung, fertilizer, and artificial soil could fool the boss.

In order to fool the boss, he even secretly dug some soil from the paddy field and buried it in the soil around the two ginkgo trees.

Soon.

The workers erected the big stone tablet. The person in charge of the construction looked up at the two ginkgo trees and sighed. "Master Lin, these two trees in your villa grow really quickly."

He had brought people here to work almost every day. This was simply different every day.

When Master Lin heard this, he panicked and immediately coaxed, "Actually, these two trees didn't grow. They only have branches and leaves. The trees are still so big. Moreover, these are 500-year-old trees. Their branches and leaves grow so quickly. Have you seen a 500-year-old tree?"

The person in charge shook his head in surprise. He had really never seen a 500-year-old tree.

Master Lin immediately said, "It's only right that you haven't seen it before. That's why you're making a fuss now. Do you know what a tree more than 500 years old means? As the old saying goes, a hundred-year-old tree becomes a spirit. It's been 500 years. It's spiritual. Its branches and leaves grow so quickly."

"When I was still eight years old, I escaped to these two ginkgo trees with my grandfather. At that time, I knew that these two trees definitely had a spirit."

"Come to think of it, you won't believe it. At that time, bad people were looking for us. They chased us at night with torches. At that time, it was this tree that saved us. A strange sound came from the tree. It was as if the tree was playing some kind of music, scaring away the bad people who were chasing us."

This was clearly getting more and more fantastical and ridiculous. It was all thanks to Master Lin's nonsense that it was almost a legend.

The person-in-charge looked at Master Lin in confusion. Did this old man think they were stupid? Who would believe such a lie?

However, at this moment, a gust of wind suddenly sounded from the two ginkgo trees.

At that moment, the person in charge looked stunned and subconsciously looked at the two ginkgo trees.

"???" Master Lin was even more stunned. He opened his mouth in a daze.

A sound really came from the tree.

But he was just making it up.

How could he explain this to his boss?

Clearly.

These two ginkgo had already grown to a certain extent. The Tree of Sound that Qin Lin had used previously had been triggered.
