

The Game 34

Chapter 34: How Could It Be Qin Lin?! The New Sales Method Begins! 1

Many people looked at the outdoor video in the square. The sudden sea of flowers video on it seemed to be naturally attractive.

The enhancement on the screen made the video seem to have a natural artistic halo.

When the video camera zoomed in, the seven-colored symbiotic triangular plums looked even more charming.

More and more people in the square were attracted by the sea of flowers in the open-air video and could not help but stop to watch.

Soon, Gao Yaoyao, the model, appeared. She was wearing beautiful clothes and walked to the middle of the sea of flowers from a tourist's point of view. She stood under the Quality 3 seven-colored flowers.

Around her, under the ecological harmony +3 attribute, butterflies danced around her. The sound of birds was pleasant. Gao Yaoyao was still feeding a few squirrels with pine nuts. The harmonious scene was eye-catching.

Surprise sounded again.

"There are also many butterflies flying around the triangular plum."

"Butterflies in October are rare. There are actually so many of them gathered here. It's really beautiful."

"That squirrel is actually not afraid of people. It's so cute."

"Where is this sea of flowers?"

"I want to go so much!"

Clearly, the people who saw the video were attracted and wanted to see the sea of flowers.

Zhao Moqing and Li Jiawen were also attracted by the video.

It was not that they had not seen a sea of flowers before. They had also been to the triangular plum blossom sea, but no sea of flowers could give them such a feeling with just a video.

"Moqing, when did Youcheng County have such a sea of flowers? I really want to go!" Li Jiawen sighed.

"I've decided. I must let your brother see this sea of flowers when I have the time."

Zhao Moqing nodded and said, "Yes, I want to go too, but I don't want to be a third wheel."

Li Jiawen smiled and said, "Let Qin Lin bring you there. You're already going to give him your money to start a business. If he doesn't bring you there, he won't know what's good for him."

Zhao Moqing shook her head and said, "Qin Lin has been very busy with his entrepreneurship recently. I don't want him to be distracted by this kind of thing. Let's talk about it in the future."

“You!” Li Jiawen really had no choice.

...

“This sea of flowers actually belongs to Youcheng County? It’s not far!”

“It’s at the original Fuhai Villa. I’ve been there before.”

“I’ve been to that villa before. I didn’t expect to see such a sea of flowers.”

“It’s only 30 minutes away. I got my boyfriend to bring me there this weekend.”

“...”

At the end of the sea of flowers video, an address appeared. It was the Qinglin Villa. This address instantly made many people remember it.

Zhao Moqing was surprised.

She knew about Fuhai Villa. A tycoon had bought this villa previously. At that time, she still felt that it was a pity that the 500 acres of land in the villa were so deserted. She even told Qin Lin that it would definitely be popular if he could build a triangular plum blossom sea.

She did not expect the tycoon who filmed this villa to really create a sea of flowers. It seemed like this sea of flowers had cost a lot.

Li Jiawen looked at the address and said thoughtfully, “Moqing, why does the name Qinglin Villa sound like a combination of your and Qin Lin’s names?”

Zhao Moqing had seen this name earlier and teased, “Sister-in-law, do you think Qin Lin and I own this villa?”

Li Jiawen smiled and flicked Zhao Moqing’s forehead. “It’s nighttime. It’s not time to daydream.”

The two women did not continue to pay attention to the name of this villa. After all, they knew Qin Lin’s family’s situation. How could he open such a villa?

The sea of flowers video began to play from the beginning again for an hour.

On this night, many people who had been to the Eastern Business Square were attracted by the sea of flowers.

This one-hour broadcast also made the other shop owners in the Eastern Business Square very depressed.

This was because they had once wanted to look for the advertising time for this open-air video. However, this person did not bother about them at all and simply said, “Is RT-Mart a company that rents advertising time?”

Now, this RT-Mart had actually begun to rent advertising time to a villa.

This also made many people want to ask how the villa’s boss succeeded. They all wanted to imitate him.

At this moment, Qin Lin was already looking at the game on the screen in his mind. He controlled his game character to water the crops, remove insects, and remove weeds.

Other than the 24 plots of Level 1 land that continued to plant okra, the Level 2 plot of land continued to plant strawberries, and the Level 3 plot of land planted watermelons.

This watermelon was not an ordinary new watermelon, but the quality of the game, Quality 2 watermelon seeds.

Other than the large number of okra, he did not plan to give these strawberries and watermelons to RT-Mart. Now that the villa was open, he could try a new plan.

The next day, Qin Lin woke up early. The okra, strawberries, and watermelons in the game had already ripened.

He looked at the watermelon fields in Level 3. Number: 25.

The amount of production was similar to before!

After picking all the mature crops, Qin Lin entered the game. He picked one up and saw the notification.

[Seedless Watermelon: Quality 2]

[Remarks: A high-quality watermelon produced by the game. Be it the taste, taste, or fragrance... It's far better than a watermelon of quality 1. It can make you unable to control your taste buds. Delicious +2, Sweet +2, Taste +2, Aftertaste +2!]

He put it down and picked up another.

[Seedless Watermelon: Quality 2]

...

After looking at all the watermelons, Qin Lin could confirm that the watermelons planted with watermelon seeds were indeed of Quality 2. Furthermore, every watermelon was big and weighed more than 10 catties.

Previously, he had thought about the price of specially imported watermelons if he could mass produce watermelons of Quality 2.

However, looking at this Quality 2 watermelon seed, it seemed like there was hope for mass production of 2 watermelons.

Furthermore, he had also understood the price of imported special watermelons. For example, a square watermelon from Japan was sold for 70 yuan per catty. There was also a black watermelon that could be sold for 120 yuan per catty. There was also an Italian crispy watermelon that could be sold for 100 yuan per catty...

There were many special imported fruits like this. Putting aside the taste, if it could be sold at this price and someone accepted it, the taste and texture would definitely not be bad.

However, no matter how good the taste and texture were, they definitely could not compare to his watermelon with a quality of 2. Why couldn't his watermelon be sold for 100 yuan a catty?

After Qin Lin went to the warehouse, he sent the okra to RT-Mart. However, this time, he reserved 200 catties for himself.

After sending the goods to RT-Mart, he went to the warehouse again. Then, he moved 200 catties of okra and 310 catties of ripe strawberries from the game and placed them in the car.

Other than that, there were five watermelons of Quality 2, five catties of strawberries of Quality 2, and 10 catties of okra of Quality 2.

Then, he drove to the villa.

He planned to sell these in the villa.

Not only were the Quality 2 watermelons sold for 100 yuan a catty, but the Quality 2 strawberries were also sold for 200 yuan a catty according to the price of specially imported strawberries.

His Quality 2 strawberries were much more delicious than the 200 yuan per 500 grams of imported strawberries.

The Quality 2 okra would be sold according to the price given to Manager Chen. One catty was 400 yuan.

If he could sell them well, these Quality 2 items alone could earn him 28,000 yuan.
