

## The Game 441

Chapter 441: Li Kai's bizarre experience! The villagers came looking for him!\_1

Hearing Li Kai's words, Qin Lin looked at him with a face full of ridicule. It was said that it was hard to learn something good, but it was very easy to learn something bad. This old brother Li and Wang Yan had only known each other for a day, and it seemed like they had already learned something bad.

How could he not help her?

Therefore, he even brought Li Kai to walk around the mountains.

The scenery in the mountain village was actually very good, especially when one looked into the depths of the mountain. It made one feel shocked.

Many people in the village had moved to the county, and almost all the young people had gone out to work.

Only his father's generation and a few elderly people remained in the village.

Without the disturbance of the younger generation, the ecology of the mountain had recovered a lot. Many pheasants could be seen moving in the forest.

The two of them even saw two porcupines.

It was a pity that shotguns could not be kept in the countryside anymore. Otherwise, more than ten years ago, many people in the village would have shotguns and would go up the mountain to hunt pheasants.

"Old Brother Qin, was that a pheasant??" As someone who grew up in a big city, Li Kai was curious about the pheasants running in the forest.

Qin Lin nodded. that's right. There are many wild animals in the mountains. The taste of pheasant stewed with wine is really amazing. It makes people drool.

pheasants should be a joy for children in the countryside. they would hold rice and a basket and hold a dead tree to lead the pheasants to eat. this way, they could cover the pheasants.

Although there were many failures and no success, they would always enjoy it.

Li Kai looked at the two chickens and asked, " "Old Brother Qin, you're making me hungry. Can we catch this pheasant?"

Qin Lin shook his head. it'll be difficult. The mountain is a pheasant's paradise. Unless we set up a lot of traps and wait for the pheasant to crawl in. But we don't have the tools now.

"That's a pity." As Li Kai was speaking, his expression suddenly changed. "I'm done for. I'm going to find a place to relieve myself."

As soon as she said that, she saw him suddenly hold his stomach and hurriedly run behind a big tree. Then, he squatted down impatiently.

Qin Lin was stunned to see this scene.

It was too sudden.

However, when he was young, he and Qin Ren had been running around in the mountains, and it seemed like they had encountered this kind of situation quite a few times.

Li Kai suddenly thought of something and hurriedly shouted, " "Brother Qin, did you bring any paper?" " old brother li, i didn't bring any paper with me for that kasaya. you can use the materials on the spot. " Qin Lin said awkwardly. It was very awkward to suddenly want to take a dump outside without a toilet paper.

Fortunately, they were in the mountains, and the branches and leaves nearby could be used.

He had contributed a lot of nutrients to them, so it was not too much to take some leaves.

Qin Lin suddenly thought of something. While Li Kai was hiding, he went deeper into the mountains. He planned to find a place where no one was around to enter the game and then bring snowy out of it.

Li Kai's voice came from behind the tree, " "Brother Li, can you help me get some leaves and branches? otherwise, you can also get me two bills."

Li Kai was truly vexed.

This was because there were no decent plants around the tree. Not to mention branches and leaves, there were only a pile of rotten leaves with insects crawling on them.

He couldn't bear to take these.

But now that his main account had come out, he had no way of moving it.

"Old Brother Qin, did you hear that?" Seeing that no one responded, Li Kai anxiously called out again. However, he did not get a response from Qin Lin. Instead, he heard rustling in the grass not far away.

Li Kai was shocked.

If a wild beast appeared, he would be in an awkward situation.

Suddenly, he regretted looking at the scenery.

Wouldn't it be fine if he just dug up the special soil?

It seemed that people couldn't have too many evil thoughts, or the heavens would make good things happen.

However, xiuwan was already his girlfriend, so it was normal for him to do something. There was no need for God to play with him like this, right?

After some movement in the grass, Li Kai saw three pheasants emerge from the grass, which made him heave a sigh of relief.

As long as it wasn't some wild beast.

However, were these three pheasants stupid? He actually ran towards the sound of people.

What kind of experience was it to be seen by three pheasants while you were taking a dump?

Li Kai wanted to say that he couldn't look at her directly.

He immediately shouted. Two pheasants heard him and ran away. The other one stood there blankly and stared at him with bright eyes.

Li Kai was vexed.

Was there something wrong with the brain of a pheasant? Staring at him as he made yarn?

He subconsciously grabbed a stone and threw it at the pheasant.

However, something unexpected happened. He had never hit a target with a dart before, but the rock hit the pheasant's head.

The pheasant squeaked and ran two steps, then fell to the ground and stopped moving.

Li Kai was dumbfounded.

This works too?

For some reason, he felt that his encounter could be made into a ridiculous comedy skit.

Qin Lin entered the game again and went to the house on the farm. He saw little snow, the white fox who was trying to get used to the new environment.

As soon as snowy saw him come in, she ran over to him happily and circled around him. Her eyes were full of joy, like a helpless child who had just seen her parents come home.

Qin Lin also picked it up and comforted it.

Pets with high intelligence were indeed very likable. These pets seemed to have souls and could move people, unlike those wild animals that made a scene, which made people want to give them a stick.

?

Chapter 442: Li Kai's bizarre experience! The villagers came looking for him!\_2

Qin Lin also had an idea and took snowy out of the game. Facing the real world, snowy looked around curiously, but its timid nature made it curl up in Qin Lin's arms, not daring to move.

Qin Lin took snowy out of the game and carried it back to Li Kai. He planned to make a big show of himself when he saw Li Kai later. He would tell Li Kai that he had caught a white fox, and he would pretend to be surprised, as if he had never expected it.

This made sense.

When he arrived at his original spot, he saw Li Kai running towards him with a pheasant in his hand, his face full of disbelief."Old Brother Qin, take a look at this."

"Aren't you relieving yourself, old brother Li?" asked Qin Lin in surprise. Why did you catch a pheasant?"

"Old Brother Qin, you might not believe it, but there is something wrong with this pheasant's brain. It is a mayfly that delivered itself to our door." Li Kai immediately recounted his encounter.

"This works too?" when qin lin heard li kai's words, he only felt that li kai's experience was even more absurd than the white fox he had caught.

Li Kai was afraid that Qin Lin would not believe him, so he emphasized, " "Old Brother Qin, you have to believe me. Even I find this encounter unbelievable. Just now, I was still mumbling about it, and the heavens sent me one to satisfy my craving."

"Old brother Li, you're so lucky." qin lin complimented her and lifted snowy up. " "Old brother Li, I also caught a white fox just now."

"White fox?" Only then did Li Kai notice the little guy in Qin Lin's arms. He was a little surprised."It's so beautiful. Brother Qin, how did you catch it?"

Qin Lin made up a story. when I saw it, it was wrapped in the tree vines and couldn't move. When I rescued it from the tree vines, it didn't run away, so I carried it.

"Old Brother Qin, will it attack people?" Li Kai didn't doubt Qin Lin's words. After all, saving a Fox was more ridiculous than what he had experienced.

"White foxes are gentle and timid. They don't dare to attack people," Qin Lin explained with a smile.

"Brother Qin, why don't we go back and deal with this pheasant first?" Li Kai asked, bringing up the pheasant again. I want to try the pheasant with wine and stewed meat."

Qin Lin also nodded.

Old Tian wasn't very big, and he still had to help Li Kai buy time so that he could stay with Dr. Tang at night. He could come back in the afternoon to dig.

anyway, no one knew the details of the soil in the old field, so no one would come to steal it.

On the way back to the old house, Qin Lin found Xiaoxue in his arms. Her little paws were on his arm, and her eyes were staring at the pheasant in Li Kai's hands.

"You want to eat it?" Qin Lin looked at snowy in surprise. It was said that foxes liked to eat chicken, but this was a pheasant.

Who would have thought that the little guy seemed to understand his words and actually squeaked, as if in response.

Li Kai looked at him in surprise,"Brother Qin, this white fox understood your words?" If that's the case, isn't it a little too smart?"

Snowy was definitely smart. After all, the system had noted that it had high intelligence.

therefore, qin lin also made up a story. " in the legends of our country, the white fox has a spiritual nature. so, many myths and legends have plots where the white fox transforms into a beautiful woman. it's not surprising that it's smart. "

that's true, " Li Kai nodded. on the contrary, it's more strange for pheasants to be stupid enough to offer themselves up for a meal.

Qin Lin smiled. He felt that brother li would be talking about this magical encounter with great relish in the next three days.

When the two returned to the old mansion, Zhao moyin and Tang xiuwan saw that each of them had brought an animal back, and their faces were full of doubt.

The moment Li Kai saw Tang xiuwan, he happily went over to her and bragged about how he had caught a pheasant.

When Zhao moyin saw Xiao Xue in Qin Lin's arms, he was pleasantly surprised."Qin Lin, is this a white fox? It's so pretty."

Qin Lin repeated what he had said to Li Kai before adding, " it's not like our villa can't afford to keep a Fox, so we're planning to keep it. By the way, she has white fur all over her body, so I named her Xiaoxue.

"Luckily you didn't name it white hair, otherwise I wouldn't know how to ridicule you. Look at Wang Cai and red hair's names." As Zhao mochen spoke, he said expectantly,"Let me hug it."

She loved small animals, and this white fox made her like it even more at first sight.

"Here!" Qin Lin smiled and handed snowy to Zhao moyin.

The little thing was obviously a little flustered after leaving his arms. When it fell into Zhao moyin's arms, its uneasiness and anxiety appeared again. It immediately looked at Qin Lin with a pitiful look, as if asking him to carry it back.

"It seems to be afraid of me!" Zhao Moyu could clearly feel the white fox's emotions and could not help but feel a little disappointed.

"White foxes are very timid. It was the same when I first carried it." Qin Lin hurriedly comforted Zhao mochen, then reached out to stroke snowy's hair. "Don't worry, she's your mistress. She won't hurt you."

As if she understood Qin Lin's words, snowy's nervous mood recovered a little and she was not so uneasy anymore.

"Hubby, it seems to have understood you." Zhao Moyu's face was full of surprise, and he followed Qin Lin's hand to slowly stroke the white fox's fur.

The reason why the white fox and Qin Lin were so intimate was because the system was directly bound to them.

If Zhao moyin wanted to be intimate with it, he had to be patient with it. After all, white foxes were timid by nature and did not trust people easily.

?

Chapter 443: Li Kai's bizarre experience! The villagers came looking for him!\_3

"Brother Qin, let's deal with this pheasant!" At this moment, Li Kai also came over with a pheasant.

"Do any of you know how to kill a chicken?" Qin Lin asked.

I know how to kill them, " Tang xiuwan said. I used to help kill chickens at home during Chinese New Year.

"Old brother Li, you and Dr. Tang can boil some water and kill the pheasant. I'll go get some wine to stew the pheasant." Qin Lin instructed the two of them and walked towards the storage room.

The pheasant was not stewed with white wine, nor did it need to be brewed with raw wine. It was necessary to use peasant rice wine.

You city's rice wine had a similar color to Coke, so people jokingly called it you city Coke.

there was no rice wine in the old mansion. in order to increase the storage of the wine cellar in the future, he had brought some rice wine in.

Judging from the time, the rice wine should be quite old. It would be a classic to use a little to stew pheasant. As for the other ingredients, he could just use the ones he brought in.

After entering the storeroom and closing the door, Qin Lin entered the game. He took out some rice wine and went back to the kitchen.

Li Kai and Tang xiuwan were already boiling water. Soon, the pot of water was boiling, and the two of them began to pluck the feathers and kill the chicken.

Li Kai didn't actually do it. It was Tang xiuwan who did it. He was more of a bystander. However, he felt a sense of participation when it came to the two of them who had just confirmed their relationship.

After the pheasant was processed, Qin Lin also took out the rice wine and prepared some ingredients before starting to stew the pheasant.

This wine-stewed pheasant was also something his father often made when he was young. At that time, his father and uncle shuigen often went into the mountains to catch wild game.

After seeing it for a long time, he would naturally know how to do it.

Just as the lid was put on, someone outside asked, " "is qin lin back?"

Qin Lin was puzzled. He walked to the hall outside and saw several middle-aged men, one of whom was the village chief, Chu xianting.

"Village chief." Qin Lin frowned and greeted the other party.

His attitude wasn't bad, but he wasn't friendly either.

After all, when his father was sick, his mother had also gone to the other party's family to borrow money, but the other party did not lend her any.

although he wasn't obliged to lend him money, it was impossible for him to treat him as warmly as he did with oshu oayama and uncle shuigen.

He didn't have the habit of greeting everyone with a smile.

Chu xianting naturally felt Qin Lin's attitude and couldn't help but feel a little embarrassed. The people around him were the same.

Although they didn't make sarcastic remarks about Qin Lin's family, they didn't lend money to the Fang family when they came to borrow money.

It wasn't that they didn't have the money, but they were afraid that Qin ran's family couldn't afford it. After all, everyone knew what kind of situation she was in at the time.

However, no one had expected the other party to make a fortune so quickly. Now, he was so powerful that everyone in Linlin villa and Linlin company knew him.

This made them very envious of Qin Dashan and the others.

Everyone knew that Qin Dashan and his father had a huge plantation with Qin Lin's help. It would be hard for them not to get rich in the future.

However, even though they knew that Qin Lin's attitude towards them was a little cold, they still had to welcome Qin Lin with enthusiasm.

Chu xianting asked with a smile, " Qin Lin, there's a notice from the county to plant those Linlin watermelons. I heard from the villages that signed the contract that they can make a lot of money by planting those watermelons. When will it be our turn? "

They were naturally here for this matter.

After all, Qin Lin was the boss of Linlin's laboratory.

When Qin Lin heard this, he thought to himself that it was as expected.

When people who were not close to each other suddenly came to the door, there was no need to think about the other party's purpose. They either wanted to borrow money or had something to ask of you. In any case, they would definitely not think of you for good things.

The Linlin watermelon had cooperated with the county to promote it to the whole county, which naturally included their village.

These people were probably afraid that he would hate them for what happened in the past.

To be honest, he really didn't have such thoughts.

Although he didn't like many people in the village, he wouldn't specially arrange anything to target them. It was unnecessary and he didn't have the time.

This was because they were not on the same level.

I'm not sure about this. It's the laboratory and the county that are working on it. You just have to wait for the notice. Qin Lin also directly opened his mouth to stop all the words.

Although he wouldn't make any special arrangements to target the people in the village, he wouldn't do anything else either. He would just treat them like any other village.

Everything will be done according to the rules.

If the other party worked hard, he wouldn't stop him from growing Linlin watermelons to make money. But if he wanted to get any more convenience from him, he was too much.

Chu xianting and the others also sighed when they heard Qin Lin's words. They understood what Qin Lin meant.

They didn't dare to pester him any further and could only bid Qin Lin farewell with a smile. Then, they left in embarrassment.

They couldn't afford to offend Qin Lin now.

But when they thought of Linlin's current achievements, they really felt a little regretful. If they had just helped her a little back then, they might have been able to bask in her glory now.

?

Chapter 444: Plans can't keep up with changes! An unknown fruit that can grow Cola!\_1

By the time Qin Lin returned to the kitchen, an intoxicating aroma was already wafting out. The aroma of wine and meat made him drool.

Qin Lin, look at snowy. She's staring at the pot. She wants to eat too. Zhao Mo looked at the white fox in his arms in surprise.

Qin Lin looked over. His eyes were fixed on her.

The little guy had been eyeing this pheasant since he was in the mountains.

After a while, Qin Lin opened the lid of the pot, and the fragrance that drifted out became stronger.

He picked up a pair of chopsticks and picked up a piece of pheasant meat from the pot to try it. Just then, the squeaking of a white fox sounded.

Xiaoxue stared at the meat in his hand and squeaked. There was a kind of cuteness in her eyes, as if she was acting coquettishly and asking for meat.

"I'll feed it a piece of meat." Seeing this, Zhao mochen also picked up a pair of chopsticks and put meat into the pot.

Qin Lin didn't stop him. Foxes weren't as precious as some pet dogs and cats. They wouldn't eat any raw meat, but cooked meat was definitely not a problem.

Zhao mochen picked up a piece of meat and put it in front of snowy's mouth. It did something that surprised everyone. It stared at the meat and licked the corner of its mouth.

"Old Brother Qin, isn't this white fox a little too human-like?" Li Kai's face was full of surprise. As he spoke, he couldn't wait to pick up a piece of meat with his chopsticks and try it.

This was his spoils of war, and he was particularly enjoying it.

qin lin tasted it and found that the pheasant was fully cooked, so he put it out of the pot. because of the unexpected addition of the pheasant, this meal was more fun.

Although the pheasant meat was not as delicious as the grade 2 wild fish, it had a different meaning.

at the very least, li kai's pheasant meat was more fragrant than wild fish of grade 2.

On the other hand, after the white fox little snow was fed a piece of quality 2 wild fish meat by Zhao moyin, she decisively abandoned the pheasant meat and had been staring at the fish meat the whole time.

After the meal, Qin Lin brought Li Kai to old Tian's location and started digging.

on a piece of old field soil, the two of them began to waste time again to create an ending where li kai would stay to guard the soil at night with dr. tang accompanying him, so that some wonderful things would happen. 1

The two of them dug a deep pit in the old field before moving all the soil back to the old house. Naturally, Qin Lin was the one who did most of the work. Li Kai was already panting after just one trip. He couldn't take it.

Qin Lin had eaten a fruit of the tree of strength before, so there was no problem with it.

by the time all the soil had been moved to the old house, it was already evening, and their plan to delay the time had been a perfect success.

After Qin Lin and Li Kai had taken a shower, they called Zhao mochen and Tang xiuwan over, " "the mud truck didn't come today, so someone has to guard the mud here tonight."

Li Kai naturally volunteered, " " brother qin, you and mo cheng have a lot of things to do in the villa. i'll keep watch! "

The plan had reached its final step.

He blinked at Qin Lin with some anticipation.

At this time, all Brother Qin had to do was say to xiuwan,"Dr. Tang, old brother li will definitely be lonely if he stays here alone tonight. Why don't you stay and accompany him?" and everything would be perfect.

qin lin understood what she meant and was about to speak to tang xiuwan.

Suddenly, Tang xiuwan's phone rang. She answered the call and said anxiously, "Boss, MO Qian, when are we going back to your city? one of my aunts has something to do at home, so she needs to go over tonight.

This sudden turn of events left Li Kai dumbfounded.

So, he's going to stay here alone tonight?

The plan had been dawdling for an entire day, and now there was such a sudden change?

Qin Lin could only look at Li Kai helplessly. He packed up and left Li Kai behind. He then left with Zhao mochen and Tang xiuwan and returned to your city.

After dropping Tang xiuwan off at her aunt's house, Qin Lin took Zhao Moyi to the Pet Shop.

snowy was treated as a wild animal, and Zhao mochen had to give it a vaccine, take a bath, and then apply for the relevant documents for raising and adoption.

This naturally caused the little fellow to make a fuss. The timid little fellow was very insecure when it was bathing and getting an injection.

It was much easier to get the certificate ...

It took him a day to get the certificate for wangcai.

This time, he only had to give Zhong Lei a call, and a supervisor of the registration Department personally sent the certificate to him at the fastest speed.

After returning to the villa, Zhao Moyu took snowy to his office.

The little guy finally felt a little safe with Zhao moyin.

It would shiver in fear if it was placed in another place.

As soon as Zhao Mo returned to the office with snowy, the dog's barking suddenly sounded.

When Zhao mochen entered the office with snowy, the young paparazzo seemed to have noticed the new Fox and followed him directly.

The white fox was startled by the dog's barking and immediately scurried towards Zhao mochen.

Because it had a basic sense of trust in Zhao moyin, it had become the support it was looking for now.

Zhao Moxi held the shivering white fox and scolded wangcai as soon as he got up. The dog was so scared that it immediately sat on the ground.

Qin Lin returned to his office and locked the door. He entered the game with another thought.

When the dwarf ah ni left snowy behind, there were still some unknown seeds. He wanted to experiment on them.

The best way was to see if he could plant it in the game.

?

## Chapter 445: Plans can't keep up with changes! An unknown fruit that can grow Cola

However, the special feature of the game system was that once you clicked plant, all the seeds would be scattered at once until the required seeds were planted on the land.

However, if these seeds could produce good things, he still wanted to plant them in the real world. Naturally, he couldn't plant them all in the game.

After entering the game, he took out the bag that contained the unknown seeds and took out most of the seeds. He only left a few and put them back into the storage box.

After he was done, Qin Lin exited the game with the seeds and returned to the real world. Then, he looked at the game screen again and controlled the game character to take out the seeds from the storage box and tried to plant them.

Level 1 land could not be planted.

It could not be planted in level two land either.

On the other hand, the level 3 plot of land showed that it could be planted.

This meant that this seed was at least a Grade 2 seed.

On this point, the dwarf ah ni was indeed a scammer, but he also had a lot of good things.

It just so happened that the level 3 plot's quality 2 watermelons had ripened, so he chose to pick them directly. Then, on one of the level 3 plots, he planted the unknown seeds he had taken out of the storage box.

At night.

Qin Lin went to Zhao moyin's office to look for her to get off work together. As soon as he entered the door, he saw a dog and a white fox confronting each other. Snowy stayed on Zhao moyin's desk and stuck her head out from time to time to check. When she saw the dog squatting at the table and looking at her, she quickly retracted her head.

Seeing Qin Lin come in, the white fox squeaked and rushed out, pouncing on Qin Lin. Because it was bound to him, it was still the closest to Qin Lin in its heart, and it felt the most secure in Qin Lin's arms.

Qin Lin held the white fox in his arms and rubbed its fur out of habit. The white fox's fur was very soft and it was very comfortable to stroke.

When the dog saw this scene, it also ran to Qin Lin's side and squatted down. It also whimpered at him and even stretched out its two paws, as if to show that the dog also wanted to hug him.

Qin Lin seemed to understand the dog's meaning, but he couldn't hold it now, so he could only reach out and rub its head to comfort it.

wuwuwu!

The dog seemed to be easily satisfied. It happily put down its paws and started to follow him.

...

The next morning.

When Qin Lin woke up, he found that the unknown seed had already matured and borne fruit.

Through the game screen, one could see the icons of the purple 2d fruits, which seemed to be plums.

even when it was fully grown, it was still in the shape of a tree, but it was very short. looking at the number on it, the output was quite high.

qin lin immediately controlled his game character to pick the fruits and the ripe crops. then, he went out and headed to the warehouse.

He still had to go back to the old residence to pick up Li Kai and transport the special soil back today, so he had to hurry.

Qin Lin entered the game as soon as he arrived at the warehouse.

When he arrived at the game storage room, he first went to the table where The unknown Purple fruit was stored.

The purple fruit's real appearance was even darker. It was the size of a plum and looked exactly the same as the blue plum.

Qin Lin picked one up and felt that the fruit was soft like jelly.

He focused his attention and saw the remark:

(can be named) unknown fruit: Grade 2 "

[ this seems to be a mutated blue plum. After using it, a Cola-flavored juice will flow out. It's very delicious: Texture +2, deliciousness +2, refreshing +2, thirst-quenching +2! ]

The remarks on the fruit were still unknown, but the remarks surprised him. After all, there was a Cola-flavored juice in the fruit, which was too surprising.

Qin Lin immediately picked up a fruit and put it in his mouth. As soon as he bit it, he felt the juice flowing out of his mouth.

That's right, it was the feeling of Coke in the mouth. The bubbles were very pure.

The fruit juice naturally couldn't be Coke, but the taste was similar, actually resembling Coke.

But that wasn't important. What was important was that the taste and the refreshing feeling were definitely far better than Coke.

" this taste is amazing. i might as well just call it cola fruit. " Qin Lin ate one, then picked up another and put it in his mouth.

The system responded at this time, "

[ successfully named the Cola fruit! ]

After eating a few Cola fruits in a row, Qin Lin found that he couldn't stop eating. The taste was much better than drinking Coke.

Why do people like to drink Coke? It was because the refreshing feeling after taking a big gulp was really great. It was something that no other drink could replace.

It didn't matter if the juice was Cola or not. The key was that it was amazing to have such a taste.

Moreover, with the refreshing taste of the coke, the skin and flesh of the fruit were also as chewy as jelly. The taste and deliciousness were simply indescribable.

what did it mean to have texture, taste, freshness, and thirst-quenching attributes?

If they could plant it on a large scale, the fruit would probably be able to crush the Cola products on the market.

After all, Coke was a carbonated drink, and fruit juice was not, but it could achieve the same effect as Coke.

This made him think of something.

In our country's carbonated beverage market, Coca-Cola and Pepsi's shares are more than 80%.

Coca-Cola occupied 45% of the market share, leading the pack, while Pepsi occupied second place with 38%.

More importantly, these two colas were both products of the star-spy-state, and they were the typical representatives of the star-spy-state companies making a lot of money in the country. 1

According to the financial report, Pepsi's revenue reached 34 billion US dollars last year, most of which was generated by China. Moreover, this part of revenue exceeded the revenue of Nongfu spring's pure beverage department.

?

Chapter 446: Plans can't keep up with changes! The unknown fruit that can grow Cola

"Everyone knows what Nongfu Spring water represents. After all, we created the richest man in the country. However, even the beverage products of the richest man are far inferior to the products of a company that the singjue made money in the country. This means that even if the cake is eaten by the singjue, they will still be unhappy with us.

Most importantly, Coca-Cola was on top of Pepsi.

It was obvious how crazy these two products were making money in China.

Most importantly, everyone should have realized that when they bought Coke, there were only two types of drinks on the market to choose from-either Pepsi Cola or Coca-Cola.

In fact, there had been many local brands of Coke on the market before, and they didn't taste any worse than these two colas. However, in the end, these products were all punished by the two colas above, and they couldn't make any money and left the market.

The two big brands, Pepsi and delicious, were best at using the economy of scale as a sharp weapon and dealing with domestic brands with an oligarchy. In the face of these two giants, domestic drinks were at an absolute disadvantage in terms of capital and had no power to fight back at all.

It wasn't that the higher-ups didn't think of supporting domestic brands and not letting the two foreign brands run wild.

However, who would benefit from these two products? Naturally, it was the Starstreak nation. 1

With the support from the higher-ups, the other party would shout out various economic terms. Under the pressure of the world Trade trade Association's regulations and various restrictions, the higher-ups could only give in and let these two drinks continue to make money unscrupulously.

however, it was precisely because of this that these two drinks not only made money unscrupulously, but they were also unscrupulous in many things, and many things were exposed.

The most typical example was differential treatment.

The materials of domestic drinks were treated differently from those of the Starstreak Kingdom. The materials of domestic drinks were cheaper, so they could be understood as inferior products.

After being exposed, he did apologize, but it was unknown if he made any changes.

It was fine if it was only the materials that were cheaper, but he was afraid that there would be other disgusting things.

In 2013, Pepsi was found to contain a cancer-causing element, 4-methiamine. At that time, it caused a huge commotion, and Pepsi apologized and said they would rectify it.

"However, in 2018, the research Agency continued to investigate and found that other than the fact that the 4-memenglisio substance was no longer found in ishinjogu's Baishi Cola, 4-memenglisio still exists in Cola in our country, and the content has even doubled.

what was the meaning of this?

When it was exposed before, you said to rectify it, but after the rectification, the carcinogen content will double?

When the news came out, it made the people of the country afraid for some time. They even resisted time for some time.

However, after Pepsi Cola announced the change again, they launched another star attack. Heavenly King Guo, Heavenly King Wang, Heavenly King Zhou, leader Huang, Heavenly Queen Cai, Yang Hua, and other big names took turns to endorse their products. After the fan effect was triggered, it didn't seem to be affected much in the end.

as for whether he changed it or not, you can guess. After that, he never drank Coke again. He would rather drink Wanglaoji.

Now, however, the unknown fruit's special effect could completely suppress the two Cola Giants.

Even if he planted it in the real world, the fruit would only have a quality of 1 left, and it would still taste better than the two Cola Giants.

Moreover, natural fruit juice was more attractive than carbonated drinks, and the trust level was higher. With a substitute, he believed that more people would choose green fruit juice products.

Therefore, if this was promoted, it could fully exploit the oligarchy of the two Cola companies, suppress, and even replace the position of the two companies. 1

Naturally, the two magnates would use the same economic war against him.

But would he be afraid?

As long as he was willing to give up the benefits and authorize other domestic companies to fully promote this unknown fruit at a low price or by holding shares, he could use the fastest speed to grow this unknown fruit on a large scale across the country.

That way, he could directly dig out the roots of the two brands of Cola in the shortest amount of time, destroy them in the domestic market, and leave the profits in the country.

When the time came for it to be promoted internationally, it would be able to directly eliminate these two Cola companies. Who would suffer losses in the end? It was not even the capital countries behind these two companies.

The unknown fruit was like a sharp sword that could punish the two Cola magnates.

All day long, they were shouting about sanctions.

First, he would slaughter these two gold-digging hens who had been crazily making money internationally.

As the saying goes, one's life was not about how much money one earned, but how meaningful one's life was.

Although he couldn't be so open-minded, he didn't mind doing something more meaningful when he had enough money and he couldn't earn it all in the future.

?

Chapter 447: Linlin laboratory's encampment dumbfounded Li Kai

After understanding the attributes of the unknown fruit, Qin Lin began to get down to business. He moved today's crops out of the game one by one and then to the villa.

He called Chen dabei to bring some people to move the things and went to the office to see if there was anything to deal with. He had to go back to the old house to transport the special soil and bring his brother Li Kai back.

Qin Lin had just sat down in his office when he saw Zhao mochen walking in with Lin Lanzi and Gao Yaoyao.

Qin Lin knew that something was up and asked, "What's wrong?"

"I have something for you to decide." Zhao Moxi said as he handed the phone to Qin Lin.

The interface of the phone was filled with messages from the background of Linlin villa. At this time, the screen was densely packed with messages, and the undefeatable number had reached the maximum limit.

However, when he saw the comments and scolding content, he was stunned.

"I hope Linlin villa will boycott a certain D!"

"I'm determined not to take a D. I'll walk from the station to linlin villa, but I won't take a D either."

please firmly boycott a certain D.

"....."

"What's wrong with a certain D?" Qin Lin asked, stunned. What happened to this platform recently?"

Zhao Moyu explained, "you haven't seen today's news?" You'll know when you see it."

Qin Lin was puzzled. He searched for related news on the internet and found out that D had done something big yesterday.

It was still a matter of the two bears.

it's fine if those capitalist villains in the west want to be punished, but why is a certain D also joining in the fun?

What the f \* ck is this?

The higher-ups haven't even said anything yet. Who are you to make such a big statement on an online car-hailing platform?

The matter of him sneakily going to the Star-Spangled nation to acknowledge his father and go public had not been resolved yet, and now he had come out to follow his father around, disgusting people? 2

As expected, a father is kind and a son is filial!

It was no wonder that the tourists boycotted it.

Lin Lanzi also explained at this time, "not only the tourists of our Mountain Villa, but many industries on the internet have already begun to call for a boycott." &Nbsp; 1

we've also received many messages from the visitors at the front desk," Gao Yaoyao added. they're requesting that the cars on this platform be banned from entering the mountain villa.

"how can this be banned? We don't have the right to do so." qin lin was a little distressed.

Why the hell did this platform have so many disgusting netizens?

But to be honest, he and the villa really couldn't stop it.

Firstly, he had no power.

Secondly, those drivers also had to support their families. There might be patients at home, and their children were still in school. Even if they wanted to quit and join other platforms, they would be restricted by the contract. They would definitely have no choice for the time being.

He couldn't cut off the medical expenses of those with patients at home and the food for children to go to school, right?

however, the villa could not ignore the opinions of the tourists and fans. they could only ask lin lanzi to post a video later to smooth things over.

At the same time, he also asked Chen dabeai to bring some people to persuade those drivers who had signed their contracts to change to another platform.

this company was always doing disgusting things, and they might be implicated at any time. they relied on the tourists to make a living, so they shouldn't make things difficult for the villa, right?

By the time Qin Lin was done, Chen dabeai and his men had finished moving the things. He went back to the parking lot, got into the truck, and drove to his hometown.

By the time he returned to the old residence, Li Kai had already woken up. He was squatting in front of the soil that had been dug out and counting the ants on the ground in boredom.

when he saw qin lin, he got excited and said, " "old brother qin, you've finally come."

"Old brother Li, I've been waiting for you for a long time," qin lin replied with a smile and began to move the bags of soil that old tian had dug up to the car.

after he was done moving the soil, he went to the storage room of the old house and moved the special soil he had taken out from the game into the car.

"Old Brother Qin, this soil seems to be a little different." li kai had accurately discovered the difference in the special soil.

Qin Lin hurriedly explained, " part of the soil was dug from the mud wall. Moreover, the old field has not been planted for a long time. The surface layer is more solid, so it's naturally different from the soil we dug later.

Although Li Kai was a crop gene research Professor, he had never personally planted crops before. He really didn't know much about these things, so he nodded and didn't probe further.

Qin Lin saw that he had been fooled, and the corners of his mouth also showed a trace of a smile.

This was one of the reasons why he liked old brother li. He wouldn't get to the bottom of something, so he was very comfortable with him.

After the 10 bags of special soil were moved into the car, Qin Lin and Li Kai got into the car as well. They started the car again and drove to you city.

back in you city, qin lin didn't drive to the mountain villa. instead, he turned into a newly built road that led to another direction when he entered linlin mountain villa.

after the establishment of the qin lin laboratory company, chen shengfei and maliwen raised 400 million yuan for the laboratory. with the money, the construction of the laboratory naturally progressed rapidly.

In addition to the area specially planned for the construction of the laboratory, the experimental field for genetic research was also essential.

The first phase of the plan included the experimental field and the main laboratory, which was nearly 2000 mu.

After that, there would be a second and third phase depending on the development.

The planned area was not far from Linlin Manor. In fact, one of the experimental plots was not far from the comprehensive sea of flowers in Linlin Manor.

This special location was not specially requested by Linlin's laboratory. It was a plan that the county had taken the initiative to discuss with the laboratory.

Naturally, the county had its own purpose for such a plan.

If a County wanted to be promoted to a city, it had to meet the requirements in all aspects, such as economy, industry, culture, and the size of the city.

?

Chapter 448: Linlin laboratory's encampment dumbfounded Li Kai

Therefore, you city's several demolition projects were all towards the periphery. The land expanded and became bigger and bigger. On the contrary, the original County area, which was envied by people, seemed a little backward and old.

Now that the county had put Linlin's laboratory and Linlin company together, they naturally saw the potential of Human Flow and the effect of fame. They planned to develop a collective effect, which would be the foundation for the next step of suburbs construction and expansion.

this plan was naturally very convenient for qin lin. he had no reason to disagree, so he decided on it.

Not long after.

Qin Lin saw an area that had been surrounded by a high wall.

The wall had just been built and had not been painted yet. It was still made of rough red bricks.

At the entrance was the sign 'Linlin laboratory'.

When Qin Lin drove to the front, Shen Li was already waiting at the entrance with a team of security guards.

Qin Lin and Li Kai wanted to bring back the special soil. Naturally, they had to inform Shen Li, the person-in-charge of the company, to make arrangements. They also had to tell him some things.

Naturally, she only told him the information that Qin Lin and Li Kai had made up. She didn't know everything.

Qin Lin's knowledge of the special soil was at the top level. Li Kai's knowledge was below his, and Shen Li's knowledge was below Li Kai's.

The car stopped.

Shen Li brought a square-faced man to Qin Lin.

The square-faced man was also wearing a security uniform, but he had a strong military aura on him, which was different from the ordinary security guards.

after the truck stopped, shen li looked up at qin ran, who was driving, and said, Chairman Qin, let me introduce you. This is the security Supervisor of the laboratory, Yun Feiyun. He just joined today.

Qin Lin nodded and looked at Yun Fei, "Manager Yun, welcome to Linlin laboratory."

In addition to scientific research technology, the security system was the top priority of the laboratory. Moreover, the security system of the laboratory could not be satisfied by an ordinary security system.

A smart person like Chen dabei could easily be the head of security in the mountain villa. Most bosses liked to use such a person, but if a laboratory research company used such a head of security, then the boss's head must be rusty.

The security of a laboratory had to be top-notch, and even had the most basic anti-reconnaissance ability. The bigger the laboratory, the more famous the laboratory was, the more so it was.

Linlin's laboratory wasn't very big now, but after donating the adonaxi plant root, it would definitely attract some attention. The laboratory's security system had to keep up.

In that case, he would have to find a professional to be in charge.

Shen Li had also reported this matter to him.

And this manager Yun was poached from the ant lab where Shen Li was originally from.

It could be said that Shen Li was addicted to excavating the original ant lab. However, after Big Boss Ma stepped down, all parties were fighting for the laboratory's authority, so they had no time to care about this.

Perhaps, once Yun Fei left, those forces would happily rush to arrange for their own people.

As for Yun Fei's ability, he could tell just by looking at the strong military aura on him.

if he didn't have the ability in this area, he wouldn't have been poached by shen li.

“Manager Yun, these two are director Qin and professor li from the laboratory,” Shen Li introduced them to Yun Fei.

“Chairman Qin, professor li.” Yun Fei immediately greeted the two of them with a hint of admiration in his voice.

After all, when Shen Li first contacted him, he didn’t intend to come to Linlin’s laboratory.

Although the original ant queen laboratory was in chaos due to the power struggle, he had already set up his own family there.

It was only after the news of Linlin’s laboratory donating adonassis plant roots came out that he finally decided to come.

At least, he admired Linlin’s laboratory.

If it were any other company, they would definitely not donate the adonaxi plant roots they cultivated. Linlin’s laboratory had done it.

Of the two people in the car, one was the adonasi plant root cultivator, and the other was the boss of Linlin’s laboratory.

“Chairman Qin, you guys follow us to the specially prepared experimental site!” Shen Li said to Qin Lin at this time. Then, he brought Yun Fei and the security guard to the car that was parked at the entrance. After that, he started the car and led the way.

Qin Lin drove after her.

Entering the area of Linlin’s laboratory, one could see that in the center, a large area had already been laid with a Foundation, and the construction team was working on it.

This was the main body of the laboratory. On the other side, an engineering team was building an office building.

In the future, when all these were built, the temporary laboratory and office building rented outside could be abandoned.

Qin Lin drove the truck and followed Shen Li to a building area with a special glass structure.

These glass structures were special laboratory tempered glass. They would not block the sun and affect the normal photosynthesis of the experimental crops inside, but they could prevent the invasion of many things.

Qin Lin drove the car in and saw that the inside was a piece of man-made land that had been excavated.

After stopping the car, Shen Li brought the security guards to the car to remove the special soil from the car. Then, he asked Li Kai, “ “Professor li, what should we do with the special soil next?”

just get someone to follow me, ” Li Kai said directly. I’m going to scatter the special soil into these artificial fields. The amount of soil scattered in different areas will be different. I’ll have to record the data later.

?

#### Chapter 449: Linlin laboratory's encampment, leaving Li Kai dumbfounded

Chen Li nodded, and after arranging the security, he finally instructed Yun Fei, "In the future, we have to increase the number of patrols and put more emphasis on guarding this place."

He had already learned about the soil from director Qin and professor Li, so he knew that it was the most important thing in the laboratory.

"President Shen, don't worry. Nothing will happen." Yun Fei immediately nodded and promised.

Li Kai had already begun to move with the security guards. He ordered the security guards to scatter the special soil and the soil from the old field into the artificial fields according to his instructions. Then, he ordered the security guards to turn the soil evenly.

As for Qin Lin, he left Linlin's laboratory after informing Li Kai. He drove to the county's seed store to buy seeds.

Moreover, this time, he had to buy dozens of crop seeds at once.

Since the ordinary eggplant and okra seeds could undergo genetic mutation, he naturally planned to try planting more seeds in special soil.

If he could get more mutated crops, he wouldn't have to move things from the game to the villa every day.

Moreover, the mutation of common crops like eggplants didn't necessarily have to be promoted. Linlin laboratory could directly sell them to the Qin Lin villa for planting.

When the time came, they would only be able to eat these things at Linlin villa, which was also a kind of attraction and style.

Of course, the most important thing was that these plants could be used as a cover for the 'Cola fruit'.

The Cola fruit was a powerful weapon that could remove the two blood-sucking weapons of the capitalist countries. 2

When these seeds bore fruit, professor Li Kai would be surprised to find that there was a magical fruit in these seeds. There was even fruit juice that tasted like Coke.

After Qin Lin bought the seeds, he also mixed the Cola fruit seeds with the other seeds.

By the time he returned to Linlin's laboratory, Li Kai and his men had already mixed the special soil into the artificial fields.

"Old brother Li, plant these seeds first and test their genetic mutation rate." Qin Lin passed the seeds to Li Kai and planted some of his own seeds in a field, among which were Cola fruit seeds.

Li Kai didn't suspect anything and started to plant the seeds in the artificial field.

After planting all the seeds, the rest of the work was left to Shen Li. Qin Lin drove Li Kai back to Linlin villa.

For the time being, Li Kai just had to come to the laboratory every day to check on the situation. Shen Li had already given him a car, so it would be easy for him to travel between the laboratory and the villa.

In the car.

Li Kai rolled up his pants and complained, "sigh, I've been so busy today that my back is aching. I'm really going to die. I wonder if there's a big meal for me tonight.

:: don't think so!: Qin Lin understood the obvious hint:

Li Kai became anxious. Brother Qin, don't. It's been a long day. Let's reward him. 2

"Then I'll make a meal." Qin Lin said teasingly.

If you wanted to eat his cooking, just say so. Why did you have to resort to this?

More importantly, he was so easily teased.

Back at the villa.

Qin Lin took Li Kai to the bathroom in the drifting area for a shower. After that, Li Kai went to the nuptial area to catch up on sleep. He obviously didn't sleep well last night.

Qin Lin also went back to his office to read the news.

The news about the two bears had been quite lively on the internet these days.

However, after browsing through a few videos, he saw an interesting piece of news. It was about a certain platform D.

This company had released a piece of news yesterday to sanction \*\*\*, and they were boycotted today. It was probably because a lot of people had uninstalled their company's app.

Therefore, this company was also anxious. Today, they quickly released an announcement that they would not punish the \*\*\*.

Although he had acknowledged the capitalist country as his father, he still wanted to earn money from the country.

The speed at which wangcai surrendered was really comparable to his dog. At least before it surrendered, wangcai would still stubbornly bark twice and then lower its head. 1

However, the person who uninstalled it would probably not download their company's APP again. This was the saying, "if you don't do it, you won't die.

Time passed, and night fell.

Qin Lin also kept his promise and personally cooked egg-fried rice and an all-fish banquet for Li Kai in the evening.

When Li Qing heard the news, he was even faster than Li Kai. After Zhao moqing and Lin Fen were served, he couldn't wait to start eating, even snatching the big fish bubble that Li Kai wanted.

"Are you the reincarnation of a Hungry Ghost?" Li Kai ridiculed.

Li Qing didn't seem to mind. so be it. Qin Lin's food is so delicious.

li kai was still brooding over the fish bubble and said, " "Then you should know who is the reason why you can eat this meal tonight. This is what Brother Qin made to reward me. You should know how to be grateful."

When Li Qing heard this, he teased, " you should know how to be grateful. Then, let me tell you a piece of news. My father and grandfather should have many photos of unmarried women. One of these women might become your wife.

As Li Qing spoke, he looked at Li Kai with a playful look, as if he was watching a good show.

"What? what do they want?" Li Kai was instantly dumbfounded.

"What do you think?" Li Qing said jokingly. they're all rich young ladies with good conditions. many of them are much younger than you. one of them is even a dozen years younger than you and hasn't even graduated from college. if you marry one of them, you'll earn a lot in terms of age."

"Are you kidding me? my family has already stopped caring about this matter. why did this suddenly happen?" Li Kai became anxious.

He had just confirmed his relationship with xiuwan. Wouldn't it make him feel bad if his family suddenly played this trick on him?

Li Qing smiled and said,"you didn't know what was going on with you before?" He's so old, yet he's still lying in that laboratory in Ming city without any achievements."

" now, you're professor li kai, who the entire internet admires. you're known as the real 'son of an aristocratic family' and a role model for all the second generation. even the official news has praised you. "

this kind of reputation can not only bring benefits to the family, but also to your future daughter-in-law's family. So, knowing that you are unmarried, naturally, there will be people who will take the initiative to come to you. By the way, the old man has already asked Lin Liu to find out the lifestyle and character of a few girls, so that he can arrange blind dates for you.

Li Kai's mouth twitched, and he pulled his hair out of anxiety.

It meant that he was not popular before, but now he was popular. But this was not what he wanted.

qin lin was a little stunned when he heard this.

He knew how much effort brother li put in to pursue Dr. Tang. He was very infatuated with him. Now that he had successfully won her heart, his family wanted to arrange a blind date for him.

Why did this seem a little like the melodramatic plots of those TV dramas nowadays?

“Li Qing, you have a lot of ideas. Give me some ideas and help your uncle.” Li Kai looked at his nephew, Li Qing, and played the emotional card.

However, Li Qing said calmly, “what’s the use of begging me?” I can’t do anything about it. You should ask Qin Lin for help. He might have a way to help you.”

“What?” Qin Lin was stunned when he heard this.

How come he didn’t know how he could help old brother li?

?

Chapter 450: The romance of scientists! Professor li has become the ideal type!\_1

“How come I didn’t know I had a way?” Qin Lin was stunned by Li Qing’s words.

he knew what kind of background this uncle and nephew had. if their family wanted to form an alliance through marriage, it would definitely be a heavyweight.

He didn’t think that he had the ability to help old brother li stop it.

Li Qing smiled and explained to Qin Lin, “ this time, it wasn’t my family who took the initiative to look for him. He came to me on his own initiative. My family will at least have some ideas. If you want to dispel my family’s thoughts, you can just stir up some public opinion. This is what you’re best at.

“What should I do?” Li Kai asked anxiously.

Li Qing sighed and said, “I say, little uncle, isn’t your IQ point a little crooked?” I’ve already explained it so clearly, and you still can’t think of someone who can become a professor?”

“Wasn’t your research on the adonassis root of grass and wood sensational? You can just ask Qin Lin to help you spread the news about why you want to study adonaxi’s roots on the internet.”

then, you and Dr. Tang will be a beautiful scientific love story. As long as this becomes a fact, our family can’t help but give up.

Hearing Li Qing’s words, Qin Lin finally understood.

Once this kind of publicity and public opinion started, with the personality of the netizens, they would definitely turn into a melon-eating crowd. There might even be calls for the two to get married on the spot.

In this case, it could increase Li Kai’s reputation. Originally, he was just a noble ‘son’ of a noble family, but later on, he might be added to the infatuation persona.

Perhaps countless female netizens would comment something like ‘it’s not a waste of time to meet such a man in my life’.

At that time, if the Li family dared to go on blind dates with old brother li, they would not be affected positively, but negatively. Even the girls who went on blind dates with old brother li would be labeled as mistresses.

Under such circumstances, who would dare to make this marriage alliance?

Li Kai still frowned and asked, "is that really possible?" what if the family doesn't give up?"

When Li Qing heard this, he was a little angry. "Why do I have such a stupid uncle like you? but it doesn't matter if you understand or not. You just need to ask Qin Lin for help."

when li kai heard this, he decisively pleaded with qin lin, " "Old Brother Qin, you have to help me this time."

"Old Li," Qin Lin said helplessly, "aren't you asking me to offend your family? Won't your family hate me?"

Li Qing shook his head and said with a smile, " don't worry. Other people will definitely be hated. You won't. Our family still owes you a favor. 1

Qin Lin trusted Li Qing.

Looking at Li Kai's pitiful begging, he could only reluctantly agree.

However, he needed to plan this.

The popularity of adonashi's roots of vegetation had dropped. Moreover, the recent popularity was about the two bears 'hostility. It was necessary to create a water Army to stir up public opinion.

Qin Lin gave Qin Ren a call and told him that Li Kai was studying the adonaxi root plant for Tang xiuwan's sake. He asked the latter to spread the story to the Internet Water Army.

Qin Ren was more familiar with the Internet Water Army.

So, late at night, professor Li Kai's love story was online, and with the spread of the internet Army, more and more people saw it.

At a certain University, Chen Xue had already started school. At night, she and her roommates went to a few fellowship parties in the male and female dormitories. Then, they returned to the dormitory, completely annihilated.

Half of their university life had already passed, and they didn't know when they could end their single lives.

As soon as Chen Xue returned to the dormitory, she lay on her bed and started watching Short Video for her bedtime entertainment.

After scrolling through a few videos, a piece of news about 'professor Li Kai' caught her attention.

Wasn't professor Li Kai the one who developed adonaxi plant roots?

A few days ago, everyone in the class was still talking about the Sima disease, saying how amazing it was for the professor to cultivate the adonashi root plant.

"I'm sure everyone is familiar with professor Li Kai, right? He was the one who cultivated the adonassis plant root that could cure the disease of Sima. A 700000-Yuan injection of the drug could reduce the cost by thousands of Yuan.

However, no one knew why professor Li Kai wanted to cultivate the adonashi root plant. It was related to a very beautiful love story.

In the past, professor Li Kai was only focused on studying and scientific research, so he was always less active in relationships, so he missed out on a girl he loved.

By the time he reacted, it was already too late for regrets. He often thought that if time could go back, he would take the initiative. As a result, he remained single in the days that followed and never had any feelings for any woman.

That was until the girl appeared again. At that time, she was already the mother of a little girl. However, the little girl was sick. She had contracted the "Sima" disease. The treatment fee of 700000 Yuan per injection made her husband abandon his wife and daughter.

Professor Li Kai felt that God was giving him a chance to get back the one he loved, so he decided to enter the research of the cultivation of the ingredients for the Sima medicine, no matter how hard and tiring it was, no matter how many setbacks he faced, no matter how late he stayed up until he had a nosebleed or even if his liver hurt."

The video was very long, but it perfectly presented a love story in front of Chen Xue.

When the video finished playing, she found that her roommates were all attracted by the story.

To a woman, a beautiful love story was always the most touching.

"I didn't expect professor Li Kai's exploration of the adonasi roots to have such a story."

that's right, professor Li Kai is so infatuated. No other man would be able to do this.
