

## The Game 451

Chapter 451: A romantic scientist! Professor Li has become the ideal type!\_2 1

if only I could meet a man as infatuated as professor Li Kai.

“Infatuation isn’t enough, right? The one from the next class is also very infatuated with you.”

of course, infatuation is only the prerequisite. If he can be as talented as professor Li Kai, or if he has professor Li Kai’s family background, I will agree without a second word.

“.....”

Chen Xue shook her head as she listened to her roommates’ discussion. She was curious about the truth of the story, but she soon realized that the video was released on the official account of Linlin villa.

That meant that the love story was real?

When professor Li Kai’s love story came out, it exploded with popularity under the push of the Internet Water Army.

Also, people quickly found out that the Chinese Academy of Sciences also reposted the video of the story with a title: this is the romance of scientists!

This time, the popularity was out of control.

As time passed, Li Kai’s personal charm was undoubtedly elevated to an infinite height in the eyes of all women.

In a short period of time, Li Kai became one of the ideal types for all women.

With that kind of background, full of talent, and so infatuated, and not caring that you were married and had children, how could you not be the ideal type?

Which woman would not want to meet such a man?

Even some women who were unhappy after marriage and had already given birth to children had begun to fantasize.

There were also quite a few directors of the female lead films who seemed to have seen a highlight. This story could completely change the film.

High status, high talent, and high quality male protagonists were really very popular.

It didn’t matter if the female lead was ugly, short, divorced, or had a few children. The key was that she had to be licked by a high-quality male lead. The sense of immersion would make this type of audience unable to extricate themselves.

Linlin Manor.

When Li Kai returned to nuptial chamber No. 1, he was naturally paying attention to this hype. After all, this concerned his future happiness.

To be honest, when he saw the story that old Brother Qin had made up, he felt a little embarrassed. The story described him too perfectly. When had he ever had a nosebleed? he felt that he had been subdued by the charm of his own story.

He just didn't know how xiuwan would react when she saw this.

Just as Li Kai was thinking about this, he heard a knock on the door. He immediately put away his phone and opened the door. The beautiful woman standing outside made his eyes light up. Wasn't she the person he was thinking about?

Tang xiuwan's eyes were watery as she looked at Li Kai, who had just opened the door. She had seen the news on the internet.

she had previously fantasized that senior brother li had cultivated the adonaxi plant roots for her, but she had refuted her own thoughts at the beginning.

after all, in such a short time, how powerful would senior brother li be?

But now that she saw the news on the internet, she was sure that it was true. Senior brother li was really so powerful because of her.

The women on the internet were attracted by the story. As the female lead, she was naturally touched and rushed over.

xiuwan, hurry up, " Li Kai said when he saw Tang xiuwan. She had already pounced on him, closed the door, and began to remove his defense.

Li Kai was momentarily stunned.

This was because he was still a Virgin. The thing that he had been fantasizing about and looking forward to had happened, and he didn't know how to proceed. 1

The night passed.

Ming city.

Li family's old master had woken up early in the morning.

As he got older, he usually slept less and woke up early.

He had some breakfast early in the morning and drank a small cup of Linlin medicinal wine. 1

in the past, he could not afford to drink this medicinal wine every meal so extravagantly. even if his family went to the two aristocratic families of medical inheritance in min province to ask for medicinal wine, they would not be able to get much.

Although the Linlin medicinal wine was better than the other two, his youngest son and grandson were close to boss Qin, so it was much easier to get the medicinal wine.

After he finished a glass of wine, he sat down on the sofa in the living room and took out a stack of photos from the small drawer of the coffee table.

Naturally, they were the ones who offered to go on blind dates with his youngest son.

He had been worried about his youngest son not finding a girlfriend because his blind dates had failed time and time again, and there were always rumors that his son liked men.

How could this be?

Therefore, he also wanted to take advantage of this opportunity to solve his youngest son's lifelong event.

With so many girls at once, he should be able to let his younger son choose a suitable one, right?

Moreover, these girls came from good families, so they were good marriage partners.

As the old man was picking out the photos, Li Zhen came in hurriedly. He sighed when he saw the photos in his hands. "Dad, you don't have to worry about Li Kai's marriage. There shouldn't be any other family that would dare to marry Li Kai now."

"Did Li Jun, that bastard, cause trouble again?" The old man asked with a frown. This bastard son of his had caused a lot of trouble over this matter in the past and had almost ruined his reputation.

"Dad, see for yourself!" Li Zhen took out his phone and showed the news to the old man.

"I'm sure everyone is familiar with professor Li Kai, right? He's the one who cultivated the Pi Xiu." 1

The news video was about Li Kai's love story.

When the old man saw the news video, he subconsciously asked, "Is this true?"

Li Zhen explained, "It was posted by Linlin Villa. Even the Chinese Academy of Sciences reposted it and liked it. It must be true. Now that the whole internet knows about this story, which family's daughter would still dare to go on a blind date with Li Kai?" "Not only will it ruin your reputation, but you'll also be scolded on the internet." 1

Li Kai wouldn't do something like this. It must be that bastard Li Qing's doing. It was all because of boss Qin's official account that the video was released. Otherwise, Li Qing wouldn't have been able to do it.

Hearing this, the old man sighed helplessly. This story is really interesting. I didn't know that my son had such deep thoughts.

"Dad, you're not angry?" Li Zhen asked, puzzled.

The old man smiled and said, "What's the point of being angry now?" That's good too, this bastard's marriage can be considered settled. Although he can't be married, this bastard's reputation has been raised a lot."

"His reputation will be good for you and the family. Besides, if boss Qin is willing to help your brother, it means that they have a good relationship, right?"

"Dad, it's good that you can get over it!" Li Zhen also let out a sigh of relief. He had naturally seen through this long ago. He didn't force his younger brother to marry, but he was afraid that his father would be angry if he found out.

After all, Li Qing had also made a fuss about the marriage alliance before. Although he eventually married Lin Liu and the two had a good ending, the process really didn't anger the old man to death.

He didn't expect his father to be so open-minded this time.

Thinking of this, Li Zhen also took back his phone and called Li Kai.

At this time, his stupid brother should also be anxiously waiting for news.

...

Linlin Manor.

Early in the morning, Qin Lin had just moved the things he had moved out of the game to the villa. When he reached the office area, he saw Li Kai looking for him.

"Old brother li, what's wrong with your waist?" qin lin asked, puzzled.

Li Kai's face revealed a trace of wretchedness, but he was too embarrassed to answer. He then cleverly changed the topic and said, "My brother called me early in the morning. He said that my family has found out about the online incident. The old master isn't angry and doesn't plan to make me go on blind dates anymore. Brother Qin, I'm really grateful that you've protected my happiness,"

Qin Lin smiled and said, "brother li, this is a good thing. If you want to thank me, some of the crops in the artificial fields in the backyard should have matured. Help me check if there are any genetic mutations.

"This is a small matter." As Li Kai spoke, he suddenly turned to Qin Yang and said, "Brother Qin, I have a favor to ask of you."

"Speak!" Qin Lin looked at Li Kai's strange expression in confusion.

"Can you give me some medicinal wine?" Li Kai asked anxiously.

"Your hemorrhoids are acting up again?" Qin Lin asked teasingly.

no! Li Kai quickly shook his head. it's not for treating hemorrhoids, but for strengthening the Yang and kidney!

qin lin thought of the other party's action of holding his waist before and understood.

Li Kai said even more sneakily, "can you make more for me?"

Some okra?"

old brother li, " Qin Lin chuckled, " you have medicinal wine and okra. Are you weak or is Dr. Tang just too good? "

"How could I be weak?" Li Kai became anxious when he heard this.

It was just that the first time was a little too fast.

Wouldn't it be better if he nourished himself more?

“so, you’re saying that dr. tang is too amazing?” qin lin teased.

“I’m going to test those crops for you,” Li Kai’s face turned red and he refused to answer the question. He turned around and left in a hurry.

However, he had to admit that xiuwan was really amazing. He had no idea how to take the initiative and had to ask xiuwan to teach him.

The more he thought about it, the more embarrassed Li Kai felt.

After leaving the office area, he went straight to the artificial field in the backyard of the original Hall.

He knew that brother li had planted cucumbers, eggplants, and okra there.

Now that the okra and eggplant had been confirmed to have mutated, it was up to the other crops.

?

Chapter 452: Brother Qin, this cucumber actually underwent! genetic mutation

After Li Kai left, Qin Lin went to his office, locked the door, and entered the game. He took a silver bottle of Linlin medicinal wine from the storage room, which contained aphrodisiac and kidney-nourishing medicine, and then brought out some quality 2 okra.

He went to the kitchen and gave Master Lin the quality two okra. After he told Master Lin to make it for Li Kai, he took the bottle of Linlin medicinal wine to the backyard of the original Hall.

When Qin Lin arrived at the man-made field, Li Kai was fiddling with a special device in his arms.

There was a special liquid chip display on the instrument, as well as a microscope.

he was fiddling with a piece of radish on a device.

Li Kai, this brother, would always fulfill his promise.

“Old brother li, what’s the result?” Qin Lin asked curiously.

Li Kai put the radish in his hand aside and shook his head. Brother Qin, it seems that my luck this time is not as good as the last time. I have briefly examined four mature crops, and none of them have undergone genetic mutation. So, there is no need to continue the in-depth examination.

Qin Lin looked at the four crops placed beside Li Kai. They were carrots, cabbages, peas, and spinach, but none of them were cucumbers for beauty.

However, none of the four had a genetic mutation, which meant that the mutation of okra and eggplant last time might have been a matter of luck, not a matter of probability.

“That’s such a pity.” as qin lin spoke, he handed the linlin medicinal wine in his hand to li kai and said, “I’ll get Master Lin to make okra for you tonight.”

When Li Kai saw the Linlin medicinal wine, he took it like a treasure.

With this thing under xiuwan, he wouldn't have to lose too much face.

"Old brother li, this cucumber is also cooked. Let's check it," Qin Lin said without changing his expression.

Li Kai nodded and put down the medicinal wine. He walked to the area where the beautiful cucumbers were. There were many cucumbers on it, densely packed.

Looking at the cucumbers on the dish, he teased, " Brother Qin, the color and shape of your cucumber are a little improper. Let me try the taste first.

Cucumbers were also raw food, and things like mixed cucumbers could be eaten directly raw.

Li Kai stepped forward and picked a cucumber, wiped it on his clothes, and then stuffed the whole head into his mouth and bit down.

Seeing Li Kai's actions, Qin Lin did not even have the time to stop him. 1

This beauty cucumber had the attributes of taste and deliciousness.

previously, when wang cai took a bite, it was so agitated that it walked upright. it laid there and vomited for a long time, almost throwing up its guts.

If a cucumber was placed in front of it now, it would definitely turn around and leave without even looking at it.

In that instant, Qin Lin could see that Li Kai's expression had changed rapidly. His entire face was scrunched up, as if he had turned green.

In the next moment, he retched in pain and spat out the cucumber he had bitten in his mouth. Then, he stuck out his tongue and retched.

Blargh!

Blargh!

...

Qin Lin immediately pretended not to know the situation and asked, " "Old brother li, what's wrong?"

Li Kai's eyes were filled with tears. Brother Qin, there's something wrong with this cucumber. It smells like it's rotten.

Qin Lin naturally knew that there was nothing wrong with the cucumber, but he still had to put on a good act. He took the cucumber from Li Kai's hands and said, " "Old brother li, this cucumber doesn't look rotten. Look!"

Li Kai took a long time to recover before looking at the cucumber he had bitten off. The flesh at the chipped area was very fresh, and it did not look rotten at all.

li kai frowned and said,"but why is the taste of this melon so bad?" It's even more disgusting than sh \* t." 1

maybe the cucumber's xenogeneic genes have mutated," Qin Lin said. but the mutation is off-track, so it's very unpalatable.

maybe it's true. Let me test it. Li Kai's interest was immediately piqued. He picked up the cucumber and picked up the instrument again to examine it.

A moment later, he suddenly looked surprised. Brother Qin, this cucumber has indeed undergone a genetic mutation. Although the taste has become very bad, it seems that the cucumber contains elements related to beauty. I'm going to go in and test the specific elemental data in detail.

With that, Li Kai carried the instrument and the cucumber to the office where the experimental equipment was kept, not forgetting to take the Linlin medicinal wine with him.

Qin Lin also walked to the area where the cucumbers were growing and picked one. Then, he went back to his office and locked the door again, entering the game.

Although he knew that there was a high chance that the cucumber had degraded to only a Grade 1, he still wanted to see its attributes with his own eyes.

" beautiful cucumber: grade 1 "

[ this is a special kind of cucumber for beauty. It is the product of careful research by an expert among the dwarves and is a blessing for women: Skin whitening effect +1, skin moisturizing effect +1! Taste-1, deliciousness-1, special unknown effect +1 ]

Qin Lin saw the remarks of the beautiful cucumber planted in real life.

As expected, when the seeds were planted in the land outside, they directly degraded to a quality of 1.

However, there was one attribute that remained the same, and that was the special unknown effect +1.

He just didn't know what this special unknown effect was, and he didn't know if his brother Li Kai could detect it.

After learning the remarks of the beautiful cucumber, Qin Lin also logged out of the game. Li Kai wouldn't be able to detect it in a short time, so he went out to Linlin's laboratory and spent some time in the experimental field covered with special tempered glass.

?

Chapter 453: Brother Qin, this cucumber actually underwent! genetic mutation

"Chairman Qin!" Yun Fei, the head of security, came to greet him immediately.

He had been training the security guards at the side.

The security guards from the villa didn't meet his requirements.

manager Yun, go do your thing. I'm just looking. Qin Lin said as he started to check the seeds that were planted yesterday.

Of course, what he really needed to pay attention to was the Cola fruit seed. The other seeds were just a cover for the Cola fruit.

the land where the cola fruit was planted was moist, which meant that it had been watered.

He was relieved to see that there were no problems, so he went to look for Shen Li to check the situation and information of Linlin's laboratory.

although the entire linlin laboratory had been handed over to shen lin, as the chairman, he could not be ignorant of the laboratory's situation.

It was already afternoon by the time Qin Lin finished his briefing on the laboratory. He then returned to Linlin Manor.

As soon as he reached the office, he saw Li Kai rushing to his door. Brother Qin, quickly take a look at the data of this cucumber. The genetic mutation of this cucumber has produced an amazing effect.

"It's been detected so quickly?" Qin Lin was a little surprised. He hadn't detected okra and eggplant so quickly before.

it's because this cucumber contains the same beauty and whitening ingredients as the previous nourishing egg, " Li Kai explained. and the amount is not low. It's far from what ordinary cucumbers can compare with.

" also, in addition to the whitening effect, the cucumber also contains collagen, keratin, and other substances, which can make the skin more moist. "

in other words, this thing can be applied on the face mask. I don't know if ordinary cucumbers will work, but this cucumber will definitely have a very strong effect.

although this thing's taste has become so disgusting, it's definitely a very magical gene mutation species with such an effect.

Qin Lin nodded.

Old brother li was still working hard, and he had already detected all the main attributes of the beauty cucumber.

there's a special element in the cucumber that I can't detect, " Li Kai added. I only know that the temperature will rise when the element comes into contact with external friction and pressure. When it reaches a certain critical point, it will produce a stimulating substance that makes people's nerves very sensitive.

When Qin Lin heard Li Kai's words, he immediately realized that this was probably the special unknown effect mentioned in the attributes.

what was the use of a substance that would only increase the temperature and produce a very sensitive and stimulating substance?

Why did he feel that something was wrong? 1

"Brother li, is this special element affecting the nervous system?" Qin Lin asked, puzzled.

"I don't think so." Li Kai shook his head. this substance doesn't have any nerve-related medicinal value. It only stimulates the nerves, but it doesn't have any harmful effects. We can ignore it for the time being.

in addition, I've detected that the cucumber contains more whitening and moisturizing ingredients than those marked on the high-quality facial masks on the market.

now, I can find someone to try this beauty cucumber first. I'll see the effects of this beauty cucumber.

Qin Lin knew the attributes of this beauty cucumber and had also tried the effect of a Grade 2 cucumber. Now that it was a Grade 1 cucumber, he was curious to see how much effect it had left.

Therefore, he asked Li Kai to go to the artificial field to pick up cucumbers and a knife while he took out his phone and made a few calls.

After a while, Zhao mochen arrived at his office, along with Lin Lanzi, Zhang Guizhu, Gao Yaoyao, and even Tang xiuwan.

The beautiful girls were naturally a little confused. They didn't know why the boss had suddenly called them over.

"Qin Lin, why did you call us over?" Zhao moyin asked directly.

Qin Lin nodded and said, " yes, there is something I need you to come over for. Brother li has developed a genetically mutated cucumber that has the effect of whitening and moistening the skin. He wants you to try it.

As they were talking, Li Kai returned to the office with a few cucumbers. As soon as he came in and saw the girls, he knew what Qin Lin's goal was. He immediately distributed the cucumbers to the girls.

when it was tang xiuwan's turn, li kai and she looked at the strange-looking cucumber and seemed to have thought of something. they both looked at each other with strange expressions.

Beauty care was always inexplicably attractive to women.

Lin Lanzi and the others had naturally applied the cucumber before. Now that they heard that this was the newly developed gene-mutated cucumber that had a beautifying effect, they were all eager to try it.

After taking the slices of cucumber from Li Kai, they helped each other apply it.

Soon, the women's faces were completely covered with cucumbers, leaving only their eyes, noses, and mouths exposed.

The grade 2 cucumber salad planted in the game had a very strong effect.

Even if the plant's quality dropped from 2 to 1 in real life, the effect should still be clear.

After a while, the women felt the abnormality on their faces. It was as if all the hair follicles on their faces had relaxed, and it was very comfortable.

"Sister Moxi, do you feel it?" Gao Yaoyao was a feisty girl, so she immediately exclaimed, " my face feels so comfortable. It's like it's greedily absorbing something.

“En!” Although Zhao moyin ate the beauty egg whenever he wanted to, and it was common for her to have fair skin, she could also feel that her skin, which had been covered with cucumber, was starting to absorb the moisture.

?

Chapter 454: This cucumber actually underwent! genetic mutation?

Lin Lanzi and Zhang Guizhu naturally felt it too.

They usually used facial masks, but they had never felt such a strong feeling when they applied facial masks.

About ten minutes later, the women took the cucumbers off their faces one after another.

The water in the cucumbers seemed to have been absorbed, and they became a little dry.

The few women looked at each other’s faces in surprise.

Zhao moyin often ate quality 2 beauty eggs, and his skin was very good. The effect of applying quality 1 beauty cucumber might not be very obvious, but the other women could clearly see the effect after using the beauty cucumber. Their faces were white and moist.

“this cucumber is so much more effective than the face mask i used,” lin lanzi said in surprise.

“yeah, i think so too.” Zhang Guizhu also felt the same way.

before the baby got sick, I used one of the most expensive masks, the CPR Mask, ” Tang xiuwan said. one mask cost 210 Yuan, but it didn’t seem as effective as this cucumber.

Qin Lin’s eyes lit up when he heard this.

A Grade 1 beauty cucumber was even more effective than a face mask at this price.

“Old brother li, it seems that we have to cultivate more seeds of this new cucumber species,” he said to Li Kai immediately.

Li Kai now knew the value of the cucumber, so he immediately nodded and said, ” those cucumbers are already ripe. They can be used to breed seeds soon. The number of seeds harvested in that area will not be small.

Qin Lin nodded, then turned to Zhao moyin and ordered, Motian, we’ll have to develop another 100 acres of land out of the 5000 acres we’ve contracted. We can start planting the cucumber after we harvest the seeds.

When the seeds of the beautiful cucumbers in that area were harvested, it would not be a problem to plant 100 mu of land first.

If he didn’t have enough seeds, he could just buy them in the game.

now, he was considering whether to promote the beauty cucumber on a large scale after planting the 100 mu of land, or to plant so much and keep it as a unique feature of the villa, so that the beauty cucumber could only be enjoyed in linlin villa.

“Okay, I’ll give Yu Shui the mission when I get back.” Zhao moyin also nodded in response. Cucumbers could be grown all year round, but they might need a greenhouse in winter.

However, as long as there were seeds, they could be planted at any time.

After confirming the effects of the beauty cucumber, Zhao moqing returned to his office to make arrangements for the development of the new land.

Li Kai left with Tang xiuwan, and the two of them got together intimately, as if the beauty cucumber had brought up some private topic. 1

Lin Lanzi, Zhang Guizhu, and Gao Yaoyao could only follow behind the two of them and eat their dog food. 1

After everyone had left, Qin Lin also looked at the virtual screen in his mind and began to control his game character to complete today’s task.

He didn’t catch any fish, cut any trees, or look at the mountain goods.

When he was done, he was about to control his character to leave the farm. Suddenly, an NPC wearing a Chinese tunic suit and glasses appeared at the entrance of the farm.

Seeing this NPC, Qin Lin couldn’t help but look surprised.

This was a mysterious Eastern businessman who was traveling around the world.

This was a mysterious NPC that appeared randomly. In the old version, he had appeared many times. However, in this new version, the forum said that not all players could meet this mysterious Eastern merchant.

As he was traveling around the world, he would only pass by ore town once every few years. When he passed by ore town, the players might be collecting mountain goods, picking fruits, mining, and picking up ores, and then he would miss it.

Moreover, this mysterious Eastern merchant’s actions in every player’s game might be different. It could be that the ship had docked and waited directly by the ship, it could be that he had entered ore town to buy things, or it could be that he was sick and had to go to the hospital to make some noise.

Naturally, it could also appear at the entrance of the farm like this.

It was a sign of luck for players to encounter the mysterious Eastern merchant.

The mysterious Eastern merchant would randomly sell special seeds that the seed store did not have.

Qin Lin looked at the mysterious Eastern merchant and knew that he was lucky today.

This was how he came across a roaming NPC that many players couldn’t even touch.

[ Hello, my friend. I'm a merchant from the East. I have some special seeds here. Would you like to buy them? ]

Qin Lin didn't hesitate and chose to buy it. In an instant, a shopping list appeared with only one item on it:

The White Palace's Duke-king rose seed X10!

holy shit, a White Palace! Qin Lin was shocked when he saw the seed.

roses had a very high status in the world, and most of the time, they represented love.

Moreover, there were many noble roses in the world that were even more expensive.

The most expensive one, the Juliet Rose, was worth 4.5 million dollars.

do you think that the duke's roses are nothing special just because they are not the most expensive?

That was because there was no place to buy the Duke King's roses. It could only be seen in one place, the White Palace of the starstrip Kingdom.

The Rose was the national flower of the shij butaka, but the true national flower of the shij butaka was the Rose of the Duke in the White Palace.

Are you wondering if the Starstreak Kingdom doesn't have the title of Duke? However, the country that the Starstreak Kingdom had once colonized had the title of Duke, and roses were also the national flower of that country.

In any case, it didn't matter why the national flower of the Hoshino was called the Duke's Rose. That was a problem left behind by history.

The important thing was that the Duke rose in the White Palace was the pride of the star rule Kingdom.

this kind of rose could only be seen in the white palace. it had gone extinct in other places.

This also meant that the star-law nation was as unique as the Rose in the White Palace, representing the faith and honor of the star-law nation!

In the entire world, only the top-class people in the Hoshino could see this flower. Even their citizens could only hear about it from rumors or occasionally catch a glimpse of it on the news.

The seeds that this mysterious Eastern merchant was randomly selling were actually the White Palace Duke king rose.

When Qin Lin saw the seeds, he immediately chose to buy them.

He wasn't thinking about how much the Duke's roses could be sold for, but he wanted to plant them in a place where everyone could see them.

Not one of a kind?

Wasn't it only the group of people with the highest status in the Starstreak Kingdom who could see it?

Then he would let all the people in the country have the chance to see this flower. 1

Not faith and honor?

Then I'll make your faith and honor not unique, so that anyone can comment on it.

To sum it up, it wasn't very harmful, but it was very insulting.

I'm happy.

#### **Chapter 455 Someone is asking for vitality wine!\_1**

Qin Lin bought all 10 rose seeds from the mysterious Eastern merchant's list in one go.

He really didn't expect that the mysterious Eastern merchant would randomly sell this kind of seed.

Qin Lin controlled the game character to purchase the seed, then locked the office door and entered the game farm. He saw the remarks of the Duke rose seed:

[ Duke's Rose seed: special! ]

[ this is a type of rose that is almost extinct. Rumor has it that you can only see it in the White Palace of the self-proclaimed Overlord country. The soil environment in other places is not suitable for the growth of this flower at all. ]

[ a mysterious Eastern merchant who doesn't believe in heresy has obtained some Duke king rose seeds and cultivated them with a special spring water he obtained from a deep mountain during his travels. Ten of the seeds have the ability to be planted anywhere (only game seeds). ]

[ the symbolic value of this seed is greater than the value of all other attribute effects! ]

This was a flower that was on the verge of extinction, and could only grow in the area of the White Palace in the starstrip Kingdom.

However, just as the last sentence of the note said, this flower was the national flower of the shith Kyaka Empire, which represented faith and honor. Therefore, this was the greatest value of this flower.

However, from now on, this flower no longer seemed to be unique.

Moreover, if there was another unique item, then no matter what meaning it was, its value would drop greatly.

Even if this was the national flower that could only be seen in the White Palace of the Starstreak nation.

This seemed to be a good thing.

He thought.

Qin Lin took out nine of the ten seeds and put them into the storage box. He kept one on himself and planned to plant one first.

When the time came, he would directly place this one next to the toilet.

The unique national flower of the Starstreak Kingdom? Would it be okay to put it next to the toilet?

In any case, he just couldn't stand the other party and was happy to do so.

The next moment.

Qin Lin exited the game and looked at the screen in his mind again. He tried to plant the seed he had chosen on a level 1 ground.

[ planting successful! ]

as expected, the 10 seeds were cultivated by the mysterious merchant using special spring water. they could be planted anywhere.

However, there was also a remark that was only limited to game seeds.

In other words, these 10 seeds could be planted anywhere. If he wanted to rely on these seeds to grow more, he would have to do it in the area around the White Palace, just like the Duke's Rose.

He just didn't know if the seeds could be grown from special soil.

If they could rely on special soil to mutate their genes and grow them normally, it would be great if the flowers could be planted all over the mountains and fields.

He might be able to force the Star-Spangled Kingdom to change their national flower.

Wouldn't this be recorded in the textbooks and recorded in history?

However, if that really happened, given the morality of the startsyore Kingdom, his Linlin company would probably face economic sanctions, and their products would not be able to enter the Western International market.

However, who would care about the Western market if such a thing could be achieved?

After planting the Duke's King rose seed, not long after, Li Qing came to find him again. He had the smell of wine on him. It was obvious that he had just come from the winery.

"Qin Lin, is there any news about the Xiangshui tribute rice?" Li Qing asked as soon as he entered the office. My newly developed recipe is made from ordinary glutinous rice, and the test results are pretty good. I'm just waiting for your Xiangshui tribute rice."

For a person who loved wine like him, it was really hard for him to have a new recipe and idea but not be able to put it into practice immediately.

"Just wait for one more day. It will arrive tomorrow. Moreover, it will be the high-quality Xiangshui tribute rice this time." Qin Lin said with a smile. It had been cold for a few days, and the time difference was almost up. He would get a batch of them tomorrow.

Moreover, he was going to give a batch of quality two Echo Water tribute rice to Li Qing to brew wine. It would definitely be better than the wine brewed with quality one Echo Water tribute rice.

"Sure, I'll look for you tomorrow morning." Li Qing's face was full of joy.

The wine brewed from the ordinary Xiangshui tribute rice was already very good, and the new ones could completely crush Maotai and Fenjiu.

Then, what would the wine brewed with high-quality Xiangshui tribute rice look like? He felt that he could use this opportunity to apply for the review of the National masterpiece cellar.

When the results of the test were out, even if they didn't mention the Linlin medicinal wine, just the Linlin wine from the distillery would be better than Maotai and Fen wine.

To a wine lover like him, this was definitely something he was looking forward to.

After a while, he left the office and went back to the winery to prepare. He was so busy that he almost thought of himself as an employee of Linlin winery.

...

The next day.

Qin Lin looked at the game screen as soon as he got up.

The daily crops had all ripened, but the Duke's Rose had not ripened yet. It was obvious that this flower needed more time to grow.

Qin Lin went to the warehouse to deliver the in-game items to the villa. Then, he went back to the warehouse and entered the game.

This time, in addition to the quality 2 Xiangshui tribute rice, he also wanted to bring a batch of wine.

He had moved so much wine into the game before, and according to the time ratio in the game, those wines were already very old.

He naturally had to take out wine of different years.

When the manor villa was ready, the wine cellar inside would have shelves with different kinds of wine. On top of them were 20 years old wine, 30 years old wine, 40 years old wine, and 50 years old wine. It was a proper style.

Li Qing, who loved wine, would probably drool at that time.

This time, in addition to the quality 2 Xiangshui tribute rice, he also wanted to bring a batch of wine.

?

Chapter 456: Someone is begging for vitality wine at the door (2!)

Of course, he would also keep some yellow Rosewood. When the time came, the wine rack would also be built with yellow Rosewood. In terms of style, what other rich man's wine cellar could do this?

However, before the manor villa was completed, he could only ask Li Qing to help him find an office in the mountain villa's office area to decorate it to the standard of storing wine.

Qin Lin entered the game storage room and took a jar of Fen wine, a jar of old white wine, and a jar of Gu Xiang Du Kang out of the game.

They were all sealed in old pottery jars, and according to the game time, they were more than 30 years old.

There were a lot of these three types of wine in the game storage room. He would have to replenish some other types of wine when he had time.

After all, he had asked Sun Ming to design the manor villa, and the wine cellar was not small.

Then ...

Qin Lin entered the game storage room again and took two 50-pound bags of two-ring water tribute rice out of the game.

This time, he also took 100 pounds for Li Qing to make wine.

Qin Lin packed all these things and started the car to head to the villa.

In the villa.

Li Qing also called Qin Lin, and then waited in the parking lot with Master Ma.

He knew that Qin Lin parked his car here when he transported things.

He was definitely more anxious than Qin Feng about the high-quality Xiangshui tribute rice wine.

When Qin Lin delivered the high-quality Xiangshui tribute rice, he asked Master Ma to take the things to the villa for preliminary processing.

At this time, Master Ma was also on a winery's truck. He now naturally admired Li Qing very much. Recently, under the guidance of this Mr. Li, the winery's technology and craftsmanship had been upgraded to a whole new level.

While Li Qing was waiting, he saw a car stop and two figures that surprised him get out.

One of them was Liu Yi, a rich man in Ming city. He had seen him in the villa before.

The other figure surprised him.

Liu Yi came to Linlin villa once again. This time, he didn't come for the remaining Emperor supreme set meal, but accompanied his cousin Feng Ren to beg boss Qin.

His business was so successful in Ming city partly because of his cousin's care.

His cousin, Feng Ren, did not come from a powerful family, but his wife's family was.

As Liu Yi walked, he did not forget to remind her, "cousin, based on my previous observations, boss Qin is the kind of person who will return the favor. As long as we correct our attitude, it shouldn't be difficult to talk about the next step.

Feng Ren nodded and was surprised to see Li Qing standing and waiting in the parking lot.

"Young master Li, I didn't expect to see you here," he quickly walked over and greeted him.

"You're here for the medicinal wine?" Li Qing looked at Feng Ren and could roughly guess his purpose. His attitude was kind, and naturally, it was all for the sake of his wife's family.

The other party's wife was from the Wei family. The Wei family was not much worse than the Li family in Ming city. His wife, Wei Qian, was his classmate. They had played together in the courtyard when they were young.

The old master of the Wei family was as old as his own family's old master. It was said that he was also seriously ill and needed surgery. He was also in a dangerous situation due to his old age and lack of vitality.

The fact that his old man used Qin Lin's essence energy wine before his surgery could be hidden from others, but it couldn't be kept a secret from the Wei family. After all, the nurse Doctor had heard some of it.

my wife's family members are all working, " Feng Ren said politely. it's not convenient for me to show up, so I came here.

Li Qing nodded and reminded him, " "Boss Qin's attitude is determined by the attitude of others."

The relationship between the Li family and the Wei family was not bad, and they could be considered allies in some matters.

Recently, the other party had also voted in favor of his father's proposal.

Therefore, he didn't want the other party to offend boss Qin.

"Thank you for your advice, young master Li." thank you, " Feng Ren said hurriedly. Although Li Qing had said the same thing as Liu Yi, the weight of Li Qing's words was very different.

As the two of them were chatting, Qin Lin's car entered the parking lot. Li Qing saw Qin Lin get out of the car and immediately went up to him. "Qin Lin, is the rice in the car?"

"En!" Qin Lin nodded.

Li Qing didn't say anything and climbed into the car at an incredible speed. It was obvious how eager he was for the Xiangshui tribute rice.

Feng Ren looked at the two of them and could tell that the Li family and boss Qin had a deep relationship.

Liu Yi stepped forward immediately and said, " boss Qin, we meet again. Let me introduce you. This is my cousin, Feng Ren.

Li Qing stuck his head out of the car and said, " his cousin is the son-in-law of the Wei family. The Wei family has the same background as my family. The old man in the family is also at risk of surgery, but he's not as anxious as my old man last time. They must have found out something from the hospital doctors.

Qin Lin understood Li Qing's hint. The other party was here for the essence Qi wine.

Moreover, from Li Qing's tone, he could tell that the Li family and the Wei family had a good relationship.

"Boss Qin, I'm really sorry to disturb you." With Li Qing's reminder, Feng Ren's attitude was also very humble. After greeting him, he said with a hint of pleading, "Boss Qin, please lend us a helping hand. The Wei family and I will remember your kindness."

"There's very little vitality wine, and it's very troublesome to open it. Come back in three days!" Qin Lin said to Feng Ren after some thought.

He didn't reject it. After all, the Wei family and the Li family were of the same background. He had only given 100ML of the 10 pounds of vitality wine. It was good to give 100ML to the Wei family as a favor.

?

Chapter 457: Someone is asking for vitality wine at the door!\_3

The more such favors he owed, the less people would come to find trouble with him, and the safer he would be.

However, he didn't give it to her immediately, as that would seem too casual, as if he didn't care at all. Therefore, he asked her to wait for three days to make a trip, which also showed how rare this wine was.

When Feng Ren heard Qin Lin's words, he immediately said gratefully, "boss Qin, thank you so much. I'll be staying in your city for the next three days, waiting for your news. If you have any instructions, you can tell me directly.

When Li Qing heard this, the corners of his mouth revealed a hint of a smile.

Three days?

It definitely didn't need three days.

He remembered his uncle saying that he only talked about the old master, but Qin Lin brought out the wine in a few minutes.

However, he naturally wouldn't be stupid enough to talk about this matter. Such a situation meant that he and his uncle had been recognized by boss Qin and were treated as friends, while the Wei family and Feng Ren had not.

Qin Lin's friendship was priceless to him and his uncle.

As he thought about it, Li Qing called Master Ma over to carry two bags of high-quality Xiangshui tribute rice from the carriage.

Feng Ren and Liu Yi naturally saw the words "Xiangshui tribute rice" that came with the system on the two bags of rice, and they were all attracted.

"Young master Li, is this all Xiangshui tribute rice?" Feng Ren asked subconsciously.

he had naturally eaten the xiangshui tribute rice before. it was precisely because he had eaten it that he knew how rare the xiangshui tribute rice was. it could not be bought even with money.

it was unbelievable that linlin manor could bring out so much xiangshui tribute rice at once.

“Or do you think we need Qin Lin and me to go with us for two bags of rice?” Li Qing asked.

liu yi was sure that it was xiangshui tribute rice, and he couldn’t help but ask, ” “boss qin, are you selling this xiangshui tribute rice?”

Without waiting for Qin Lin’s reply, Li Qing said, ” “Sell what? Qin Lin gave it to me to make wine, no one can snatch it from me. ”

after he finished speaking, he immediately said to master ma, ” ” bring it back to the winery quickly. you do the preliminary treatment first. i’ll go over later. ”

“Alright, Mr. Li.” Master Ma nodded and immediately moved the two bags of quality two Echo Water tribute rice away.

Feng Ren and Liu Yi were stunned.

Xiangshui tribute rice wine brewing?

This was something that others couldn’t even eat. Wasn’t this a little too extravagant?

Moreover, to be able to do such a luxurious thing, boss Qin seemed to have a deep background.

“Yi!” Li Qing noticed that there were three sealed jars of wine in the truck. “Qin Lin, is this wine?”

Qin Lin nodded and explained. Fen wine, old white wine, Gu Xiang Du Kang. Old Li, before the wine cellar of the manor is built, I need your help to decorate a room for wine storage.

Li Qing didn’t think much of it. Qin Lin, these three wines are famous, but they’re nothing special. They’re not as good as the ones I made before. What are you buying them for? ”

qin lin didn’t explain, but simply said, ” “A 30-year-old wine.”

“What!” Li Qing’s originally unconcerned expression froze for a moment, and then he asked anxiously, ” “Qin Lin, Are you sure?”

“old li, do you think i’d buy wine from an ordinary year?” qin lin asked.

“f \* ck, then why did you directly transport it over like this? What if you break your mouth and let the wind out?” Li Qing decisively ran to the three jars of wine and carefully checked the seals. He heaved a long sigh of relief when he found that the seals were safe and sound.

A 30-year-old wine was directly transported over with this broken truck. He had never seen such a big-hearted person.

?

Chapter 458: Duke’s Rose set up a toilet! Someone with knowledge wants to pick up the leftovers!

Linlin Manor.

Qin Lin went out of the office after dealing with some things. When he was outside, two little guys, one white and one black, ran towards him.

They were the dog Wangcai and the white fox Xiaoxue.

wuwuwu!

Squeak!

A dog and a fox barked at him, circled him twice, and then played behind him, as if they were very familiar with each other.

At first, Snowy did not dare to leave Zhao Moyin's office. Now that she was more familiar with the new environment, she dared to leave Zhao Moyin's office, but it was only limited to the office area.

Most importantly, why was it that the white fox and the dog were so fascinating when they were playing together?

As the saying goes, wolves are in cahoots, but there's no such thing as foxes and dogs.

If the two little guys were a male and a female, it would be understandable for them to have an interracial love. The key was that Snowy was a Princess, and Wangcai was also a Princess.

The two mothers had a good relationship. Could it be that they were playing with each other like human women?

Bad friends?

Qin Lin walked to the innermost office.

Knocking sounds could be heard from inside.

When he entered, he saw Li Qing holding the materials and setting them up.

Chen Dabai was helping him out.

After taking out three jars of 30-year-old wine from the game yesterday and asking Li Qing to set up a place to store the wine, the other party had begun to take action early in the morning.

The reward was naturally to let the other party taste the 30-year-old Fen wine, old white wine, and Gu Xiang Du Kang.

Therefore, Li Qing really worked hard when it came to wine.

"Old Li, how's the arrangement going?" asked Qin Lin as he entered.

"It'll be done soon," Li Qing replied. "Don't forget to give me the wine."

"When you're done, you can open it yourself." Qin Lin said with a smile. After knowing Li Qing for so long, he knew Li Qing's character very well.

he would just leave the wine there. no matter how good the other party's wine was, he would not waste it.

Seeing Qin Lin's trust, Li Qing smiled and said, " "Then, I won't be polite when the time comes."

qin lin didn't disturb li qing and left after watching for a while.

The young paparazzo and the little fox were still following behind him.

The system bound them together, allowing the two little fellows to be naturally intimate with him.

Just as he was outside the office, he saw Chen Li walk in.

When the white fox saw this stranger appear, it was a little nervous and immediately hid behind him.

On the other hand, wangcai stood in front of snowy like a close friend and even whimpered at it, as if saying, " don't be afraid, I'll protect you.

Chen Li didn't pay attention to the two animals 'situation. When he saw Qin Lin, he immediately went up to him."Boss Qin, I have good news for you. Here's the document."

As he spoke, he handed Qin Lin a document.

The document was about the approval of the 4A scenic spot application. When he and sun Xian received the document today, they were very surprised.

This was much faster than the usual review process. As expected of the Li family's power. 1

Previously, the county had thought that Ming city was also trying to poach boss Qin. That was why director li had handled the application for Linlin villa's 4A scenic spot at the first moment. This had made them nervous for a while.

Later, when he found out about professor Li Kai's background, he and sun Xian realized that they had misunderstood.

However, they didn't expect boss Qin to have such connections. It really gave them a big scare.

" the application for a 4A scenic spot is so fast? " Qin Lin opened the file and was a little surprised.

He had checked the relevant information. It was impossible to apply for a 4A scenic spot so quickly. According to the situation, it should still be in the normal investigation and secret investigation stage.

when chen li heard this, he looked at qin lin in shock.'why did you do it so quickly? shouldn't you ask boss qin yourself?'

how could the li family not act quickly?

Qin Lin didn't know about this, but he didn't care. He invited Chen Li,"County Chen, shall we make tea together?"

there are some urgent matters in the county that I have to deal with immediately. Chen Li explained, then turned to Qin Yang, Mr. Qin, the application for 4A for Linlin villa is successful. There's also a special

4A scenic spot card. I've asked the tourism Bureau to do it. The county hopes to hold a card award ceremony to promote it.

alright, I'll arrange for some people to cooperate with the county. Qin Lin agreed.

There was no need for him and Zhao Moyu to step in for this matter. Lin Lanzi would be in charge, and this was also within the scope of her responsibilities.

Chen Li had achieved his goal and returned to the county as soon as possible. He left in a hurry, so it must be something urgent. However, he still came to deliver the documents in such a hurry. It was enough to show how important Qin Lin was to the county.

Qin Lin also returned to his office and put the documents into the safe. Then, he called Lin Lanzi to inform her about the award ceremony for scenic spot 4A and asked her to contact the County.

Putting down his phone, he suddenly looked at the screen in his mind. It was the system notification that the Duke King's Rose had matured.

Looking at the game screen, the cartoon icon of a Duke King's Rose full of roses had already matured. You could see that the outside of the blooming roses was blue, but the core was pink.

Just from this point alone, the Duke's Rose was very unique.

Moreover, the intertwining colors of blue and pink were also somewhat beautiful.

Qin Lin controlled his game character to pick the Duke's King rose. He found that the Duke's King rose was not a mature plant as he had imagined. It was a potted plant, a large one.

He directly controlled the game character to move the Duke's Rose into the yard that was specially used to store these kinds of potted plants. Then, he immediately locked the office door from the inside and entered the game with a thought.

?

Chapter 459: Duke Rose's toilet! Someone who knows what's good wants to pick up the leftovers!\_2

At the side.

The white fox and the dog, who were licking each other's jaw fur, stopped when they saw their master suddenly disappear.

Then, the two little fellows began to lick each other again, their gazes calm and composed.

They seemed to know where their master had gone.

Qin Lin entered the game and immediately went to the yard where the potted plants were stored. What he saw was not the dense feeling of moving the triangular plum tree. Instead, there was only a single potted plant standing in the middle of the yard.

The Duke's Rose was not small. It was a large potted plant that was more than one meter tall. It had a large spread and had a gray pot given by the system.

Moreover, in reality, the Duke rose was more beautiful than the cartoon.

However, at first glance, it was far inferior to the beauty of the triangular plum flowers.

Qin Lin stepped forward and touched the Duke's Rose. He saw the remark:

[ Duke's Rose: Grade 1 ]

[ this is a type of rose unique to an area of the White Palace. It is already extinct in other places, but it has a special belief and meaning of honor to the Hoshino Kingdom. [ observation +1! ] 1

This was the Duke king Rose's remark. It was very simple, but it had an attribute of +1 in viewing, which also gave it a grade of 1.

In terms of attributes alone, the Duke rose was definitely far inferior to the triangular plum produced in the game, but it had a special meaning.

Even the grade 3 triangle plum couldn't compare to this kind of significance, because it was doted on by the country that claimed to be the world's Overlord, and regarded as a unique belief and honor.

After knowing the information about the Duke's Rose, Qin Lin logged out of the game again and left the office. He was ready to go to the warehouse to get the Duke's Rose.

The dog and the Fox followed him out of the office again. They followed him all the way out of the office area. The bustling sounds outside made the white fox, little snow, stop. She did not dare to go out, and the dog also stopped.

At this time, Zhao moqing shouted, "Xiaoxue, come and eat."

When the white fox heard this, it quickly ran to Zhao moqing's office.

&Nbsp; Gou 'Zi saw this and followed.

In the office.

Zhao moqing had already placed a bag of chicken snacks that Master Lin had specially made for white fox Xiaoxue in a bowl and handed it to her.

Snowy looked at the chicken snacks in the bowl, licked the corners of her mouth, and started eating.

Wuwuwu!

The dog's bark was heard. It was grinning and looking at Zhao moqing fawningly, making her look at the dog who came to ask for food again, as if the rice and fish at home hadn't let it eat enough.

Wuwuwu!

The young paparazzo did not know what his mistress was thinking and he urged Zhao moqing.

Zhao moqing could only take the chicken and feed it to the dog. Seeing the dog eat happily, she couldn't help but complain, "As expected, no matter if it's a human or a dog, snatching other people's food is more delicious."

Qin Lin drove the truck to the warehouse and entered the game as soon as possible. He took the Duke king rose out of the game and transported it to the villa.

When he arrived at the parking lot, he got into the car and tried to hug the Duke king rose.

Although it was a bit heavy, he could still move it after eating a fruit of the tree of strength.

If it was someone else, it would be a little difficult to carry them.

After some time, Qin Lin moved the Duke king rose to the new hall. He then went straight to the public toilet at the side and placed the Duke king rose at the door.

After he was done, Qin Lin clapped his hands with a smile.

No matter how noble you were in the Hoshino, no matter how much you were the darling of the White Palace, no matter how much you were the national flower, you had to suck in the air of the five grains in front of his toilet now. 1

Just as Qin Lin was about to leave, he saw a couple coming over. They were holding hands.

“Eh, is this a rose pot? It’s quite pretty.” The woman said in surprise when she reached the door.

The man smiled. it’s not bad. However, compared to those triangle plums, this flower is indeed only qualified to be placed at the entrance of the toilet.

The woman also agreed.

then, the two of them walked through the door and went into the men’s and women’s toilets on the left and right.

In this urgent situation, the attention was not on the flower at all. It seemed that the +1 attribute of viewing had a limited attraction to the two.

“Ran ran.” Qin Lin fell into deep thought.

This was different from what he had expected. It didn’t give him the joy of insulting the national flower.

At this moment.

Another male visitor walked out of the toilet, and he was attracted by the pot of roses that suddenly appeared at the door.

After all, it had an attribute of +1 to the view.

He glanced at it, then waved his wet hands at the Duke rose. No one knew what he was doing, but he left.

then ...

There were many tourists who came to the toilet. They were all attracted by the Duke’s Rose’s +1 aesthetic attribute, but that was it. They did not pay much attention to it.

Qin Lin suddenly lost interest. He felt a sense of accomplishment.

only then did he remember a fact.

The Duke's Rose was only found in that area of the White Palace, and there was no other place.

even the people of the star-chased nation could only see it with their own eyes.

Some ordinary people didn't even know about this flower. Those who knew about it could only see it in movies or books. They didn't have the right to see it with their own eyes.

Therefore, how could people on the other side of the ocean know the status of the Duke's Rose? they only regarded it as an ordinary rose. 1

?

Chapter 460: Duke Rose's toilet! Someone who knows what's good wants to pick up the leftovers!\_3 1

There was even a tourist who threw a cigarette butt in without any manners. Anyone who dared to treat Duke rose like this in the Starline would probably be sent to jail for life.

A day had passed.

Duke rose was placed in front of the toilet, but it didn't cause any commotion at all. It was as if the number one expert in the pugilist world was a waiter in a restaurant. Everyone had eyes but couldn't recognize Mount Tai. They didn't know how powerful he was.

However, there would always be people who could recognize the Duke king rose. A middle-aged man was holding a young beauty who was a dozen years younger than him and was wearing a slightly skimpily to the toilet. Just as they were about to turn to the men's toilet on the right, the middle-aged man suddenly stopped.

"President hou, what's wrong?" The young beauty was stunned by the middle-aged man's words. She was just so eager to go to the toilet with him, but why did he stop now?

However, hou ping didn't return. He had even forgotten why he came to the toilet. He directly retreated to the toilet's entrance and looked at the Duke's Rose with a face full of disbelief."That's impossible, right? Why would this flower appear here?"

One could only imagine how shocked he was.

He was in the flower business, and it was an international one at that. He probably exported the unique flower species in the country to foreign countries, and then imported the foreign flower species into the country. Moreover, his business was not small. Otherwise, he would not have been able to bring his seductive secretary to Linlin Manor for a trip under the pretense of going on a business trip.

His Secretary had only been married for less than half a month. It was a good time to train her.

It was also because he was in the flower business that he had some knowledge of famous flowers from various countries. At least, he had seen information on various famous flowers.

The Rose in front of him was something he had seen in a Flower Magazine in the shijy aka country some time ago.

He had wanted to enter the flower market of the Star-Spangled nation, but he had not been able to find a way. He could only study the information about flowers in the Star-Spangled nation.

the flower magazine described a national flower that only existed in the white palace, representing faith and honor, called the duke's rose.

And the Rose in front of her was exactly the same as the one in the flower Magazine.

He subconsciously took out his phone. He had taken a picture of her earlier.

After he pulled up the photo, he could see it even more clearly. There was really no difference.

this was too unbelievable.

The national flower that only existed in the White Palace had now appeared in the toilet of Linlin villa.

However, there were always unexpected things in this world. Although the Duke King's Rose in the White Palace had gone extinct in other places, it was still possible for an accident to happen.

The young beauty next to him saw that hou Ping's expression was becoming more and more shocked, so she also asked curiously, " "president hou, what's wrong with the flowers?"

Hou ping didn't hide anything from his close Secretary."This flower is amazing, very amazing!"

"is it very valuable?" The Secretary asked curiously.

Hou ping nodded and said, " it's very valuable. However, compared to its value, this flower has a more special value. It's the true national flower of the Star-Spangled Kingdom. It only exists in the White Palace. It's called the Duke's Rose, and it represents faith and honor. 1

this flower doesn't exist anywhere else. In fact, only a small group of people in the star-stick nation are lucky enough to see this flower. If I bring this flower to the star-stick nation, I can use it to open up a new path and earn more money.

"if the flower is so amazing, why would the owner of linlin villa place it here?" The Secretary's face was filled with disbelief. He had already taken out his phone and started taking pictures of the Duke rose.

She had never thought that a rose would have such a status.

When hou ping heard his Secretary's confusion, he said with disdain, " that's because the owner of the villa doesn't know what's good. If I didn't read the flower Magazine some time ago, I wouldn't have recognized it. No one in China might know about this flower.

"The other party must have thought that these are ordinary roses, so they put them in the toilet. Isn't this the same as putting a noble Princess in a prostitute's place? They are simply blind."

however, it's precisely because they're blind that this is an opportunity for me. I can make up an excuse and say that I must buy this rose potted plant, then spend some money to buy it from Linlin Manor.
