

## The Game 611

### [Chapter 611 There's Also A Difference In Beef! I've Been Tricked Again 2](#)

Seeing that it was Qin Lin's number, he also apologized to the big client and went out to answer the call.

If it was someone else's call, he wouldn't have picked it up. But since it was Qin Lin, he picked it up immediately.

Chen shengfei answered in surprise, " "Qin Lin, it's so rare to receive your call."

Qin Lin's voice also came from the phone."Old Chen, do you have any way to get beef in Ming city? I'm planning to make some beef here."

When Chen Sheng Fei heard this, he thought for a moment. He remembered that Jin Yu luxury brand only ordered some beef, and immediately said,"That's not a problem, I can get it."

After hanging up, Chen shengfei immediately called maliven.

After Marvin picked it up, his voice came through, " "Old Chen, why did you suddenly call me?"

Chen shengfei immediately said, " previously, Li Fei's luxury goods said that they had bought some beef. Give him a call and ask him to keep some. Then, go and get the things. I will call you after I sign the contract.

"Old Chen, why do you suddenly want to eat beef?" Marvin asked, surprised. the thing is, li fei always brags about the quality of the goods, but the quality of the goods is always of poor quality. it's not even close to the quality of the goods qin lin got."

"It's Qin Lin who wants to make beef," Chen shengfei explained.

when marvin heard this, he didn't waste any time and said, " "Alright, I'll get it done immediately!"

Chen shengfei shook his head and hung up.

After all, they had been working with this big customer for a long time. It was fine to come out and make a phone call, but it would not be good to leave him inside for too long.

he put away his phone and returned to the meeting room. he planned to sign the contract as soon as possible, then meet up with old ma and go to linlin villa together.

Since Qin Lin had called him personally, he must have wanted to make beef. He knew how good Qin Lin's cooking was.

Of course, he had to go and get a free meal.

So, after an hour or so, Chen shengfei signed the contract and sent away the big client who was rushing to catch the plane. The first thing he did was to call Marvin.

Not long after.

Chen shengfei saw MA Levin driving to his company. Li Qing was also in MA Levin's car. Apparently, he had also received the news and was going to Linlin villa for a free meal.

"Where's the beef?" chen sheng fei said directly to marvin.

Marvin got out of the car and opened the trunk. There was about 10 pounds of peach-colored beef inside. He explained, " "Li Fei said that this is the best type of beef, whole snow and beef. It costs 20 yuan per gram, and this piece costs more than 100000 Yuan. This time, he only had 20 pounds of whole snow and beef, and now he's giving us half."

Chen shengfei frowned. didn't li Fei brag that his things were the best? why didn't they all end up being inferior? "

Li Fei said that if this isn't the best, I'll go and smash his shop, " Marvin said directly. he won't think I can't do it, right? "

"Alright, let's go to Linlin villa." Chen shengfei didn't say anything more after hearing this and directly opened the door to Marvin's car.

Maliven closed the trunk, got back into the car, and took Chen shengfei and Li Qing to Linlin villa. Not long after, Marvin arrived at Linlin Manor.

The three of them were very familiar with Linlin villa. After Marvin gave Qin Lin a call, he directly took the whole piece of snow and cow to the staff's internal restaurant.

Qin Lin went to the restaurant as soon as he received Marvin's call. He saw the three of them and the beef that they brought.

When Marvin saw Qin Lin, he said, " Qin Lin, come and have a look. This is the beef I got from gold and Jade luxury products. Mr. Fang told me that it's the best quality all-snow beef. There are only 20 catties in the entire Ming city this month, but we got 10 catties.

Qin Lin didn't hesitate when he heard this. He immediately called Master Lin over. The best quality was fine. It would be easier to compare.

"What can I do for you, boss?" Master Lin asked as soon as he came out. I'm processing the snow and beef you brought back. There are more than 100 pounds of them. Do you want to add them to the kitchen menu? I'm afraid most of the tourists can't afford it. "

Marvin was stunned when he heard Master Lin's words.

He opened his mouth in disbelief,"Master Lin, what did you just say?" All snow and Bulls? More than 100 pounds?"

He had just said that the entire Ming city only weighed 20 catties, and in the blink of an eye, 100 catties had appeared. What was he trying to do?

chen shengfei and li qing also looked at master lin.

On the way here, they had been discussing the whole snow and beef with Marvin. Not only was the beef famous for its delicious taste, but it also cost more than 100000 Yuan for 10 pounds.

Then wouldn't 100 pounds be more than a million?

More importantly, where did Qin Lin get these 100 pounds?

This was shocking.

Master Lin nodded and said, " " yes, all-snow and beef. The boss said that there are two kinds of beef, and each kind is more than 50 pounds. "

"Qin Lin, is this true?" Marvin suddenly felt a blow, and a bad feeling rose in his heart. Did Li Fei think he was an idiot and use defective products to trick him again?

Didn't they say that Ming city only weighed 20 catties this month?

"Yeah, I did get more than 100 pounds," Qin Lin nodded.

"Then why did I bring 10 pounds?" Marvin asked.

"Make a comparison and see if the one I bought is real." Qin Lin made up a lie and then said to Master Lin, " Master Lin, this is the 10 pounds of Wawa beef that old Ma brought. Take it in and make some steak. Also, make some steak with the two types of Wawa beef that I brought back. Let's compare the three types of beef and see if there's any difference.

Chapter 612

"Okay, boss!" Master Lin didn't hesitate. He looked at the snow and beef brought by Marvin and asked a chef to carry the beef into the kitchen.

Maliven, Chen Shengfei, and Li Qing couldn't help but follow him into the kitchen.

Although he didn't want to admit it, full snow and beef were indeed very difficult to buy. More than 100 pounds of full snow and beef were too shocking.

Most importantly, it was their first time hearing that there was a difference in quality between the whole snow and the cattle.

He had never heard of it before.

Marvin was even staring at the Steak Master Lin and the others were making, staring at the portion he brought.

It wasn't hard for Master Lin to cook steak. It didn't take long for him to cook some steak from all three different qualities of beef.

However, it was just for the boss and the others to taste and compare. He also cut the steak into small pieces first, and then asked the people to bring the steaks out.

Marvin even personally picked up the steak he had brought.

He returned to the dining room and placed the cut steak on the table.

Master Lin brought some more knives and forks and handed them to Qin Lin and the others.

Old Chen, old Ma, old Li, try it and see if there's any difference. Qin Lin also said to the three.

Marvin immediately picked up a piece of beef he had brought and put it in his mouth.

Chen Shengfei and Li Qing were the same.

After eating a piece of beef, the three of them nodded in unison.

The taste of the whole snow and beef was really good. It was indeed not something that ordinary beef could compare with.

they could easily taste the difference between them.

A look of joy appeared on Marvin's face. It seemed that Li Fei had not lied to him this time. He then picked up another plate of beef.

master lin had made a mark on the plate, which was the number '1'.

In order to make it easier to distinguish between the two grades of whole snow and cattle, Qin Lin wrote the numbers 1 and 2 on them, which were the grades 1 and 2 respectively.

In other words, this plate of beef was of Grade 1.

Marvin put a piece of quality 1 beef into his mouth, but after chewing for a bit, his expression changed. The beef was very delicious, and the texture was very good. It was definitely a lot better than the beef he brought.

However, his face also darkened.

What did this mean?

He had really been fooled again.

Chen shengfei and Li Qing also tasted the grade 1 beef and looked at each other.

The difference was too great.

Then, the two of them tried the last serving, which was a quality 2 whole snow and beef.

The two of them were even more surprised after taking a bite.

This meat was even more delicious than the previous one.

After Marvin finished the two pieces of snow and beef, he immediately cursed, " "I'll f \* ck!"

This was the best quality that Li Fei had mentioned? there were two better ones, and the other party had the face to say that they were the best?

There was no other profiteer more cunning than Li Fei in Ming city.

Marvin was very angry. Although he couldn't really do something like smashing Li Fei's shop, he would be a fool if he spent another cent.

similarly, chen shengfei and li qing sighed helplessly in their hearts.

He knew it.

When had Li Fei ever been reliable when he said that the best things were the best?

Qin Lin naturally didn't know what the three were thinking. After he ate the three portions of beef, he also felt the difference in quality.

In terms of taste and texture alone, the quality 1 whole snow and beef could easily crush the whole snow and beef produced in the small day Kingdom, let alone the quality 2.

This also gave him more confidence.

There was a huge difference in quality. As long as he cultivated it in batches, he didn't believe that he wouldn't be able to beat the price of the whole snow and beef. This was Xiao Tian's national treasure beef.

When that time came, their beef would be no different from ordinary beef. He wondered if the price of all-snowy beef in the small heaven country would drop. Would they still have the face to treat this as a national treasure?

Now, they just had to wait for the 20 Cubs to come over and then secretly replace them.

### [Chapter 613 This Wine Cellar Is Too Tempting! Wine In An Antique Gold Bottle!](#)

Linlin Manor.

Qin Lin received a phone call in his office and ran out in a hurry.

The phone call was from the person who sold the fake and young cow ranches. The other party's delivery person had arrived, but the key was that he couldn't find the way, so he called to ask.

Naturally, the delivery address he filled in was not Linlin Manor, but a warehouse in the wild.

Qin Lin drove directly to the warehouse and showed the other party the way for a long time. A team of 20 cows and Cubs arrived at the warehouse.

The person in charge of the transportation was a round-faced fatty.

After they found the place, the other party complimented him as soon as he got out of the car, " "Boss, this place is really good. The green grass is suitable for raising cows."

ran ran. Qin Lin didn't know how to answer her. It was so remote, but he said it so elegantly.

While fatty had the young cows unloaded from the cart, he looked at a building halfway up the mountain and said, " "Boss, that should be the cowshed? It's not a small scale."

"That's a hoggerly," Qin Lin said as he looked at the buildings.

The scale was not small, but the hoggerly had already closed down, and the weeds were as tall as a person's waist ...

this storage unit was originally used for the hoggerly. if he had not rented it for another year, the storage unit would have been abandoned.

it's not a bad idea to change a hoggerly into a cowshed. Many breeding owners do that. The fatty was obviously very talkative as he started to argue again.

Soon, the 20 young cows were unloaded, locked in the warehouse, and tied up.

Fatty handed over the items, and after Qin Lin received and signed them, he did not stay any longer and immediately left with his men.

The other party was the boss when they didn't sign the contract. Who would be feeding mosquitoes in the wilderness after the handover?

Qin Lin was not in a hurry to do anything. After fatty and the others had left for a while, he locked the door of the warehouse, then walked to the two calves and grabbed their horns.

With a thought, the two calves were brought into the game.

He repeated this process and 14 Cubs were brought into the game after a short while.

He didn't plan to replace all 20 calves with the ones in the game.

since he had guessed that the cubs sold by the other party were at most crossbreeds, there was a problem of probability if he were to use the excuse that they had improved their genes by eating linlin ranch's pasture.

Therefore, it was normal for a few of them to not have improved genes.

After he was done, Qin Lin looked at the screen in his mind and controlled the game character to sell the cows that he had brought into the game from real life. Then, he controlled the game character to go to the mine town to buy and bring out the cows.

Therefore, while there were still 20 calves in the warehouse, 14 of them had already been stolen and replaced.

Only then did Qin Lin call Zhao Liyuan, who was in charge of the transportation team, and asked him to come over with a fleet of cars to help transport the cattle.

When Zhao Liyuan received Qin Lin's call, he naturally brought his team over immediately. He did not dare to waste any time.

although his fleet had expanded twice with the help of linlin food company, as linlin food company developed, the company's business was also divided to two other transport teams.

Because their transport team could no longer meet the requirements of Linlin food company, there were now three transport teams competing. He was even more eager to listen to Chairman Qin's orders.

After transporting the cows and Cubs to Linlin Ranch's special parking lot, Qin Lin called for Yang Dong.

He had not been able to find a suitable candidate for the ranch, and he could not leave someone in charge of it all the time. Therefore, Zhao moyin decided to let Yang Dong temporarily take charge of most of the breeding matters.

Naturally, whether or not this temporary replacement could be removed would still depend on Yang Dong's performance later on.

after yang dong and his men arrived, qin lin handed yang dong the receipt of 20 cows and cubs.

"With the young cows?" When Yang Dong saw the receipt, he was stunned for a moment. Then, he said anxiously, "Boss, did you get scammed? This Wagyu cow is the National treasure of the little day Kingdom. Its status is higher than our dark circles. You can't buy young Wagyu cows in our country."

Qin Lin also explained, "of course, I know that these babies aren't real Wagyu. However, they should be crossbred. They have the genes of Wagyu. You also know that the pasture of our Ranch was developed by professor Li Kai. It has special nutrients.

I just wanted to see if these crossbred young cows can grow up by eating these pastures and see if there will be any genetic optimization. If that's the case, the meat quality of these crossbred cows may not be worse than the Wagyu of the small Japan.

"by then, what's the difference between our cow and the national treasure of the little jiu Tian kingdom? So, I'll leave this matter to you. You have to keep a close eye on it. "

obviously, the quality 2 dogtooth grass's +2 nutrition attribute effect on grazing animals was the best cover.

Yang Dong naturally knew that the pasture of the ranch had special nutrients. Back then, someone had wanted to steal the pasture, but now the other party had gone in and stepped on the sewing machine.

Moreover, after hearing the boss's words, he was inexplicably eager to try. If he could get the National treasure of the small day Kingdom, it would definitely be very interesting, just like the Duke's Rose, which would make people inexplicably happy.

"Don't worry, boss, I'll definitely keep an eye on him," Yang Dong promised hurriedly.

After handing over the 20 cows and Cubs to Yang Dong, Qin Lin returned to his office. He looked at the game in his mind and began to control his character to go to the spring Mine.

After this level up, the spring Mine and Lake mine had opened up new levels for players to mine.

#### [Chapter 614 This Wine Cellar Is Too Tempting! Wine In An Antique Gold Bottle!](#)

Previously, they had already dug to the 12th floor of the fountain mine. This time, Qin Lin directly controlled his character to enter the 13th floor and began to dig.

His luck seemed to be pretty good. He had only started digging a few squares when a prompt appeared.

[ you have excavated and obtained a piece of blue jade ore! ]

Although it was only a piece of Jade, it was still a harvest.

Qin Lin's interest was immediately piqued, but the next harvest made him a little dumbfounded. After digging two layers in a row, there was only Jade ore, gold, silver, and copper ore. There was not even a bag of special soil or a bucket of earthly spring water.

This was probably because his luck was extremely low.

This made him lose the mood to continue digging. He came back to his senses and logged into the villa management APP to see if there was anything he needed to deal with.

Sometimes, one had to believe in metaphysics. If one were to force something when one's luck was bad, one's luck would only get worse.

At noon, Qin Lin asked Zhao Moyu to go to the kitchen with him.

They still had steak for lunch.

This time, Qin Lin took out more than 100 pounds of snow and beef.

In reality, this kind of beef was worth more than 10000 Yuan per 500 grams. It was not something that ordinary tourists could afford to eat. Therefore, he decided not to sell it and kept it for himself.

The main point was that the taste and texture of the beef would deteriorate if it was left in the open for too long. Therefore, it went to Gao Yaoyao, Lin Lanzi, and Chen Dabe's management. They were all rewarded with steak for the first grade of whole snow and beef.

However, even if they were only Grade 1 full snow and cattle, these managers were still full of anticipation, okay?

No one had ever eaten this kind of beef in their entire lives, so they would definitely eat it on their social media before eating it.

If he ate a steak that cost 10000 Yuan per 500 grams, there would definitely be a wave of comments and likes ...

Li Qing also came over as soon as it was time for dinner.

Chen Sheng Fei and Ma Li Wen had a lot of things to do at the corporation, so they went back early in the morning. At the same time, they also brought back a few catties of 2 grade beef.

When Marvin left, he even shouted that he wanted to settle scores with someone.

Master Lin brought the chef to prepare the steak very quickly and brought it out.

Li Qing couldn't wait to take out a knife and fork and start eating. Qin Lin, I have to say that this quality of the beef is really unforgettable. The cattle raised in the small country are really good.

At this moment, Master Lin took out a phone and handed it to Qin Lin, saying, "Boss, do you still remember the three star Michelin master, Lasda, who came to our villa to provoke us last time? Take a look at the videos in this group. The other party has been a little arrogant recently."

Qin Lin took Master Lin's phone with a puzzled look. Of course, he remembered Lasda. After all, there were only ten three star Michelin Masters in the world.

The video was from a group for chefs.

Master Lin was a chef, so it was normal for him to have his own group.

People from every industry would more or less join groups for their own industry. The people in the group came from all over the world and would all post some things related to their industry. It was also considered a form of information sharing.

However, after watching a few videos in the group, Qin Lin was a little surprised.

This was a video of a cooking competition. The main character was actually the three star Michelin chef, lasda, who had come to Linlin villa last time and then left dejectedly.

didn't this guy say that he was going to go back and study cooking in seclusion? why was he fighting with others again?

After watching the videos, he found out that lasda had disappeared for a while. When he came back, he started to challenge other 3-star Michelin chefs.

Moreover, he had already defeated all the other three star Michelin Masters in such a short time. He was the most powerful three star Michelin master in the world.

In addition, he was quite good-looking, so he was very popular in the West now. It was the people of the star-law nation who had promoted him as the world's number one God of Cooking.

after defeating the master of western cuisine, this god of cooking began to challenge chinese chefs. so far, several well-known top chinese chefs in the country had been defeated.

"This guy is quite powerful!" Qin Lin was a little surprised. This meant that the other party might have really gone into seclusion and had a breakthrough in cooking.

Moreover, if one's culinary skills could reach the first place, whether it was Western or Chinese, it would be extremely impressive.

However, it was none of his business no matter how awesome the other party was. After all, he was not his chef.

At the thought of this, he had to think about finding another chef for The Villa Restaurant after the opening of the manor villa.

Master Lin planned to be transferred to the manor villa. After all, Master Lin was old and his physical strength couldn't keep up. It would be more relaxing in the kitchen of the manor villa. After he was done with work, he would just take it as resting in the manor.

Therefore, the villa's kitchen needed a head chef.

Qin Lin and Zhao moyin were also eating the two-piece snowy beef steak with great relish.

After Li Qing finished eating, he asked curiously, "Qin Lin, the wine cellar in your Manor villa should be ready, right?"

All this while, he had been curious about the amount of wine Qin Lin had stored. Every time he saw Qin Lin take out the Linlin medicinal wine, he didn't see where his wine cellar was.

Even after he helped Qin Lin renovate a wine cellar in the villa office, the wine in the cellar kept increasing, which made him more convinced that Qin Lin had another cellar.

Now that the manor villa was ready, Qin Lin should have moved all the wine from the wine cellar under the 40-acre Manor over, right?

He was extremely curious now.

it's done. I'll take you to have a look after we're done eating. Also, help me see if there's anything to improve on in the wine cellar. I'm not familiar with this area. Qin Lin said with a smile. The wine cellar was ready, but he was not sure if there were any hidden dangers. It was just right to let an expert like Li Qing take a look.

#### [Chapter 615 This Wine Cellar Is Too Tempting! Wine In An Antique Gold Bottle!](#)

this was to prevent him from moving and preparing the wine in the game if there was a problem with the wine in the wine cellar.

That would be a troublesome matter.

"Alright," he said. Li Qing's face lit up with excitement when he heard Qin Lin's words.

For someone who loved wine, nothing was more attractive to him than Qin Lin's wine cellar.

After the meal, Qin Lin brought Li Qing to the manor.

as soon as they arrived at the manor, they saw two employees pouring some food into the pool for the fish.

He could see that the number of kiss fish in the pond had increased.

After that, Qin Lin made another batch of fish from the game and temporarily raised them in this swimming pool. There was already a special facility for raising these fish.

"Qin Lin, is this a water therapy fish?" Li Qing said in surprise when he saw the kiss fish in the pond.

"Hmm, good eyes!" Qin Lin nodded.

Li Qing smiled and explained, "I've done fish therapy before. I guessed it. However, your fish seems to be a little different from the ordinary aquatic fish.

"It's a little different. We'll try it out when the resort opens for business." Qin Lin nodded.

"That's for sure!" Li Qing said.

The two of them entered the villa, entered the underground space, and then went outside the wine cellar.

Qin Lin took out the key, entered the password, opened the wine cellar door, and walked in.

Li Qing followed him in and saw a very large wine cellar in front of him.

In the middle of the wine cellar were wine racks, and in a corner, there were barrels and jars of wine.

The amount of wine in the wine cellar alone could not be compared to the wine cellars of the few wineries he knew.

However, he knew that the quantity of wine in the wine cellar was important, but the quality was more important.

Looking at the numerous Antique bronze and silver wine bottles on the wine rack, his eyes were shining.

As he walked closer, he saw the logo of these wines. Not only were they ordinary wine in antique silver bottles, but there were also special wines that were at least 40 years old. The year would be marked.

Other than the 40-year-old wine, he found that there were also 50-year-old, 60-year-old, and 70-year-old wines.

He was about to exclaim in his heart. It should be known that there were very few wines that were over 30 years old on the market.

It was unbelievable that Qin Lin still had 50,60, and 70-year-old ones.

A bottle of 70-year-old Linlin medicinal wine was placed in front of him. How did it feel to a person who was good at wine?

If Qin Lin wasn't by his side and he didn't want to look like he had never seen the world, he would have exclaimed.

The key point was that he even saw wine in ancient gold bottles among the wine.

When he first heard Qin Lin say that there were bronze and silver bottles for the Linlin medicinal wine, he, Chen shengfei, and MA Levin had guessed that there might be gold bottles for the medicinal wine.

That must be a truly Supreme wine.

However, they had never seen it before.

Now, he finally saw it. There really was Jinlin medicinal wine in golden bottles. Almost every wine rack had some.

But at first, he had guessed that the Linlin golden bottle wine was at most 50 years old. But now, the 70-year Linlin medicinal wine was still stored in silver bottles, so how old was the Golden bottle wine?

Just thinking about it made Li Qing subconsciously swallow his saliva.

"Old Li, help me take a look at this wine cellar. See if there's anything that needs to be changed," Qin Lin also invited.

"En!" Li Qing nodded and began to look around the wine cellar, but his eyes were obviously glancing at the Golden bottles of Linlin wine from time to time.

He was really almost drooling.

She suddenly realized that coming to Qin Lin's wine cellar was torture. How could he fall asleep after going back?

Although she knew that Qin Lin's wine cellar was not simple, she did not expect it to be so tempting.

Just the vintage wine in ancient silver bottles alone could make all the wine cellars in the country pale in comparison, not to mention the wine in the unknown ancient gold bottles.

[Chapter 616 The Dumbfounded Li Qing! The Body-Increasing Medicinal Liquid Takes Effect! 1](#)

Qin Lin noticed that Li Qing's eyes were fixed on the medicinal wine in the golden bottle from time to time. He smiled and said, "Don't look anymore. There's a golden bottle of wine in the corner. I'll let you taste it for free later. If you can distinguish it, fill a bottle yourself and go."

"Good brother." Li Qing's eyes lit up when he heard this.

He naturally knew that Qin Lin was just looking for an excuse to give him wine. Otherwise, he wouldn't have given him such a free point question.

This also made him carefully inspect the facilities in the wine cellar.

Qin Lin was a good brother, so he had to help him check the wine cellar.

There's so much good wine here, don't let anything go wrong with the wine cellar.

Li Qing carefully observed the wine cellar, not missing a single space, especially the facilities and locations that could easily go wrong. He even seriously checked several times.

After making sure that there were no problems, he said to Qin Yang, "Qin Lin, the construction team you hired is pretty good. I can see that they're very serious about it. The wine cellar is very meticulous and there's no mistake at all."

"Yes, I'm going to see some wine." Qin Lin nodded and invited her.

To be able to make Li Qing say that there was no mistake, it could be seen that Sun Ming had put a lot of effort into building this wine cellar.

"Let's go!" Naturally, Li Qing couldn't wait to go to the corner where the wine was stored in barrels or jars. He asked in surprise, "Qin Lin, there's so much wine here. Don't tell me they're all Linlin medicinal wine?"

Qin Lin shook his head and said, "Of course not. There are also some other brands of white wine in my collection. There are almost all the brands of white wine that can be bought on the market. Let's see how many you can taste. If you are right, I will let you take a bottle of other brands of white wine in addition to the Golden bottle."

When Li Qing heard this, he was no longer polite. He immediately took the wine spoon beside him and said, "Qin Lin, aren't you giving me wine? In the future, call me for such good things."

As he spoke, he squatted down and randomly picked a wine jar to open. Immediately, a strong aroma of wine wafted out.

This jar of wine was clearly not of an ordinary age.

Just the aroma of the wine was enough to intoxicate a wine-lover like Li Qing.

Qin Lin took a look and knew that it was a 60-year-old Fenjiu.

Because he had made a mark.

Li Qing hurriedly took the wine ladle and reached into the wine jar. He scooped up a spoonful and put it into his mouth.

However, as soon as he tasted the wine, he was shocked. "This is Fen wine, aged over 60 years!"

Li Qing judged the year and raised his voice.

Naturally, he had drunk a lot of Fen wine. He had two bottles of Fen wine hidden in his house, but this 60-year-old Fen wine was a little shocking.

30 year old Fenjiu was extremely rare on the market, and 40 year old ones were hard to come by. In recent years, the biggest rumor was that a jar of 55 year Fen wine was auctioned for more than 2 million Yuan.

The big jar in front of him was actually a 60 year old Fen wine.

Li Qing calmed himself down and recovered from his shock. He opened another jar of wine beside him and also reached into the wine spoon to taste it.

A moment later, his eyes widened even more, and his tongue trembled as he said, "70 - 70 year old Maotai. I'm Yingying."

The last bit of calmness in Li Qing's heart was completely gone.

He had just had a jar of 60-year-old Fen wine, and now he had a jar of 70-year-old Maotai.

This was

It was understandable that Linlin medicinal wine was 60 or 70 years old. After all, it was Qin Lin's own brand wine, which could be obtained through inheritance.

However, it was truly shocking that there were also Fenjiu and Maotai of this year.

It turned out that Qin Lin's wine cellar had such a treasure. No wonder he had hidden it from anyone.

If it was him, he would also hide it and not let anyone in.

This made him very grateful. Qin Lin allowed him to enter this wine cellar and let him taste these wines. He really treated him as a friend.

Of course, Li Qing didn't know that he was thinking in the wrong direction, nor did he know that Qin Lin didn't care about the wine at all.

After all, other than the Linlin medicinal wine, these so-called Fen wine and Maotai wine were an endless supply to him, no matter what year they were. He could even get a bathtub full of them to soak in.

Li Qing was a person without any external factors, so it was naturally difficult for him to bring in the indifferent attitude of a person with external factors. However, as he tasted the jars and barrels of wine, his face was so shocked that it was almost numb.

40 year old wine.

50-year wine.

60 year old wine.

...

each of these wine brands was very old.

Of all the wines he had tasted so far, a 20-year-old wine was actually the lowest. One had to know that this kind of wine could be considered a premium product in many people's wine cellars.

But in Qin Lin's case, he could only be a beginner.

Finally ...

Li Qing walked to a wine vessel, which was obviously medicinal wine. He opened the water outlet and took a spoonful. After tasting it, his mouth was completely open, and he was stunned. He couldn't make a sound for a long time.

He actually couldn't tell the exact age of this wine. Just the taste and aroma alone were enough to shock his mind and soul.

If he couldn't tell the age of the wine, it must be more than a hundred years old. It wasn't easy to tell the exact age.

The medicinal wine in the wine container was Qin Lin's earliest batch of medicinal wine that was used to nourish the kidney and strengthen yang. There was not much left in the wine container.

After a long while, Li Qing asked in disbelief, "Qin Yang, Qin Lin, this wine is over a hundred years old? Is this a golden bottle of medicinal wine?"

"Yes, it's medicinal wine in a golden bottle!" Qin Lin didn't hide anything. The medicinal wine in the Golden bottle was of a hundred years old.

At present, only Li Qing, the lucky one, could taste this kind of wine. Outsiders would not even believe that such a medicinal wine existed, right?

#### [Chapter 617 The Dumbfounded Li Qing! The Body-Increasing Medicinal Liquid Takes Effect! 2](#)

In fact, it wasn't just the outsiders who couldn't believe it. Even Li Qing couldn't believe it.

60 and 70-year-old wines were understandable. Although they were extremely rare, some could still be found on the market every few years.

However, this century-old wine was only passed down by word of mouth in the industry. He had never seen the real century-old wine before. Now, the wine container in front of him was actually filled with century-old medicinal wine.

It turned out that among Qin Lin's three grades of gold, silver, and bronze, the grade of the medicinal wine in the gold bottle was actually this high.

When he didn't know, he thought that it was too extravagant to use a gold bottle. Now that he knew the age of this wine, he was afraid that only a gold bottle could match the grade of this wine.

Not long after.

Li Qing carried the two bottles of wine and walked out of the wine cellar with Qin Lin, a silly smile on his face. He was shocked by the wine in the wine cellar, but he was also happy.

because of the two bottles of wine in his hands, one was a 60-year-old linlin medicinal wine, and the other was a 60-year-old maotai.

Although Qin Lin promised him a golden bottle of medicinal wine and a random bottle of wine from another brand, in the end, he only took a bottle of 60-year-old silver bottle.

Naturally, he wanted to get a higher-grade wine.

But she really didn't have the face to do so.

He knew the value of the wine, and he would not take it if he did not deserve it.

Moreover, the two bottles of old 60 wine in his hands were enough to make him reluctant to drink.

Qin Lin didn't say anything about this. Perhaps he could guess Li Qing's thoughts.

However, he wouldn't say that he didn't care about the medicine in the Golden bottle, nor would he force Li Qing to use the Golden bottle to store the medicinal wine.

when li qing left the wine cellar, his eyes fell on the safe-like facility in the middle of the wine cellar.

He had already noticed that there were two types of wine inside.

However, even the medicinal wine in gold bottles was only qualified to be placed on the shelves, so one could only imagine how precious the wine inside was.

He had even guessed that one of the wines was essence Qi wine.

However, he didn't force her to ask, as it would be unsightly.

He had entered Qin Lin's wine cellar and had seen what real good wine was. Now that he had brought out two bottles of wine, it was already very good.

Seeing Qin Lin close the wine cellar, Li Qing suddenly remembered something and quickly reminded him, "Qin Lin, there's something I almost forgot to tell you. Don't tell my little uncle that I have two bottles of aged 60 wine now. This bastard is not human. He actually told me a secret and made my Grandpa take all the wine I brought back last time. If he wasn't in the lab this time, I would've beaten him up."

"Hehe." Qin Feng rolled his eyes at Li Qing.

Didn't this guy know why old brother li had told on him?

However, after getting to know this uncle and nephew pair, he had gotten used to it. These two guys had always been blaming each other and scamming each other. The relationship between them was somewhat enviable.

As the two of them walked out of the manor, Qin Lin received a phone call from Li Kai.

He pressed the answer button and heard old brother Li's voice, " brother qin, i have good news for you. there are preliminary results for the body-increasing medicinal liquid. hurry over to the county sports stadium to take a look. professor ren and the others are going to do their first test. "

Qin Lin was surprised to hear this. He rushed to the county Sports stadium immediately.

The first substance of the body-increasing medicinal liquid had already been proven to be effective.

Over this period of time, the young athletes continued to train after five hours of extreme training. The effect was obviously stronger.

although maintaining this time for about two hours, which was equivalent to seven hours of extreme training, meant that the athletes had completely reached their limits, with the linlin leisure tea, it could ensure that the athletes could recover their physical strength normally the next day, and they would not be unable to train because of muscle soreness and other problems.

If it was in another industry, this would definitely be exploitation. He would be condemned and taken to court.

However, they were athletes, and this was their daily routine. This was the only way they had the chance to win glory for their country.

This kind of suffering was really not something that everyone could endure.

therefore, the athletes who had brought glory to the country should not be treated too harshly when they were old. they should not be scolded because they had lost a game or because they were injured and could not compete.

Now, after this period of extreme training, the second substance had clearly shown its effects.

The county Sports stadium was the best sports venue in you city. Usually, college or county-level competitions would be held here.

Qin Lin quickly drove to the county Sports stadium. When he arrived, the place had already been put on alert. There were also police officers and security guards of the laboratory patrolling the area to prevent outsiders from approaching.

It was no wonder that it was so strict. The significance of this body-increasing medicinal liquid experiment was too great.

If it wasn't for the fact that this was a small county and the outside world didn't know about this body-increasing medicinal liquid, Minister Lu would have wanted to set up tighter security.

When Qin Lin entered the stadium, some equipment had already been set up on the running track. An athlete was already doing his warm-up exercises.

"Old Brother Qin, you've finally come." When Li Kai saw Qin Lin, he quickly went up to him.

"Boss Qin!" Professor Ren!

"Boss Qin!" Minister Lu!

"Chairman Qin." Shen Li!

The three of them also greeted Qin Lin when they saw him.

Li Kai then looked at the athlete and explained, " it's because su ye, who has been training in the 100m sprint, has made a breakthrough in his physical condition. He suddenly felt that his body was different during today's training. It seemed that it was easier for him to accelerate. However, his physical condition is also better, so he was the first to have an effect.

### [Chapter 618 The Dumbfounded Li Qing! The Body-Increasing Medicinal Liquid Takes Effect! 3](#)

Qin Lin nodded. This was not difficult to understand. After all, the 100-meter race was purely a competition of physical strength and explosive power, so physical strength was definitely better.

Therefore, this body-increasing medicinal liquid should be more effective for people with better natural talent and physique, and it would be easier for them to break through.

At the same time, the test was about to begin. It was a simple test, which was to see su ye's speed.

This was the most direct result.

Through Li Kai's explanation, Qin Lin also knew that su ye's original speed was 10.2 seconds, which was the basic requirement for the National 100m sprint.

Su ye had made a breakthrough in his Physical Fitness Test this time. His speed would definitely exceed 10 seconds. If he could exceed 10 seconds, he would be able to win a medal in the Asian competition.

If he could reach Su Bingtian's level, he would be invincible in Asia.

The key was that this was only the initial breakthrough and not the limit. When he reached the limit in the future, it would not be a problem to compete with those Western black people.

Now, it was time to test the results.

Su ye was already in his starting position, and it was obvious that he was a little nervous.

He could feel the effects of his recent training and the medicinal liquid, and he knew that participating in this experiment would completely change his life.

Now, he was going to test out this effect.

"Ready!" The judge on the side raised his gun and shouted.

At that moment, su ye's entire body was tensed up and he was ready. The muscles on his legs were bulging and straight.

Bang!

The moment the gunshot was heard, su ye dashed out. His legs moved quickly, and he ran straight to the finish line of 100 meters.

It could be seen that his speed was extremely fast. As his legs moved, his shadow almost appeared.

When he crossed the finish line, everyone's eyes were on the timer.

it was 9.80 seconds!

When he saw the number, director Hao of the national team could not help but clench his fist and shout, "YES!"

It was no wonder he was so excited, because 9.80 seconds had already surpassed Su Bingtian's previous Asian record of 9.83 seconds.

This was the fastest speed in Asia, and it was fully qualified to win an Olympic medal.

The key was that he knew su ye's condition the best. Su ye's physical fitness and talent were good, and he had a chance to participate in the Olympic Games if he trained according to his original condition.

However, he was still not sure if he could reach Su Bingtian's level. After all, Su Bingtian was the only one who had achieved such a speed in the 100-meter race.

Su ye had already broken Su Bingtian's Asian record by taking the drug. However, this was not su ye's limit. This was only the first step.

Su ye continued to take the potion and continue his extreme training. He believed that he would be able to make another breakthrough. He believed that in the next Olympic Games, he would shock everyone in the 100m sprint.

At the finish line, su ye ran back and jumped in excitement when he saw his score. He could feel that he could still break through with the help of the medicinal liquid.

If he continued to work hard and break through, he would definitely win a gold medal in the Olympics.

Minister Lu and professor Ren were even more excited.

They were even more aware that su ye had broken the Asian record in such a short period of time. It was a huge improvement, and it was not something that su ye's original physique and talent could achieve, let alone such a sudden increase in his results.

This was enough to show that su Shiye had made a breakthrough in his Constitution by using the medicinal liquid.

Then, Minister Lu hurried to Qin Lin and said seriously, "Boss Qin, can I talk to you in private? it's about the body-strengthening medicinal liquid!"

#### [Chapter 619 A Special Way Of Protection! This Is A King Bomb! 1](#)

Qin Lin looked at Minister Lu's serious expression and nodded.

He knew that the matter that Minister Lu wanted to talk to him about in private was definitely not a small matter. He immediately called Shen Li to go back to Linlin laboratory with him and asked him to arrange an office for them.

Qin Lin and Minister Lu entered the office and asked, "Minister Lu, what do you want to talk about?"

Minister Lu hurriedly said, "boss Qin, the body-strengthening elixir has been proven to be effective. Now we'll see how strong the final effect is. Even if it's only the current effect, it's definitely of great

significance. So, I have something to discuss with you about the future production of your Linlin company.

"Minister Lu, please speak." Qin Lin nodded.

In fact, he could roughly guess what Minister Lu was going to say. After all, he knew who the body-increasing medicinal liquid could be used on.

Minister Lu explained, " we'll do some control when the medicine is produced. We'll also limit the sales. Boss Qin, you should know who this medicine can be used on and how significant it is.

if the outside world finds out about this, other countries might have some ideas. This is also a form of precaution. But don't worry, boss Qin, we will compensate Linlin company.

Qin Lin understood Minister Lu's meaning, which was similar to his guess.

He naturally knew the effects of the liquid. Once it was used on a large scale on athletes or even soldiers, many people would have their eyes on it.

With just Linlin company, no matter how good the security system was, it would still be difficult to deal with it.

Minister Lu was indeed talking about a protective measure.

So, Qin Lin nodded and said, " Minister Lu, I will cooperate with you. As for the details, I will ask President Deng to cooperate with you.

"Boss Qin, thank you for your cooperation. Your medicinal liquid is really important." Minister Lu explained.

Seeing Qin Lin agree so readily, he felt a little emotional. This boss Qin was indeed like what professor Ren said, he had a very big picture.

Boss Qin understood some things better than anyone else. It was no wonder that when he was reporting, even the leader had evaluated the other party as a responsible entrepreneur who had a strong sense of the big picture.

Minister Lu thought of another thing and said, " "Boss Qin, there's one more thing I need your help with."

"Please go ahead, Minister Lu." Qin Yang said.

I just want to ask boss Qin to help me research some Chinese medicine formulas, " Minister Lu explained. because of the body-strengthening potion, I feel that we should pay more attention to Chinese medicine, so I made a suggestion to the leader.

some leaders agreed with this suggestion. A body strengthening drug already shows its value. However, some leaders who advocate science think that this is an exception. They think that there are rules and reasons for Chinese medicine to be replaced.

so, if my proposal wants to pass, it has to be proven that the body-increasing liquid isn't the only one. So, I've been talking to the people at the Chinese Medical Association and asked them to provide some recipes for research.

" they knew my motive and were very proactive in donating a secret recipe. however, they haven't found anything recently. in the past, people always liked to write simple secret recipes in a mysterious way. some of the secret recipes were even written like poems in a tibetan poem in order to not leak out. "

I'd like to ask boss Qin to help me research these recipes. I know that boss Qin has done a lot of research on Traditional Chinese Medicine, whether it's making medicinal wine, medicinal cuisine, or body-strengthening liquid.

As he spoke, Minister Lu actually took out some secret recipes of various medicinal herbs.

qin lin was dumbfounded when he saw this.

Why didn't he know that he had done a lot of research on Chinese medicine?

He had only obtained some knowledge and a herbal recipe through the system.

Was there a misunderstanding?

Minister Lu didn't think it was a misunderstanding, because he even investigated boss Qin's ability to know the Medicine's properties by just tasting it with his mouth. He even reported the pharmacy that sold fake medicine.

How could you say that a person who could do such a thing didn't have deep Chinese Medicine Research?

Although he didn't know where boss Qin had learned such profound Chinese medicine skills, it didn't matter.

He only knew that boss Qin was definitely a talent in this area. He was probably better than those people from the Chinese Medical Association. To be honest, those people from the Chinese Medical Association had received funding over the years, but they had not made any achievements in their research.

However, he really felt that Chinese medicine had great potential. It had a treasure that they had always neglected. However, he really had to prove that the body-increasing medicinal liquid was not an exception and dispel the concerns of the leaders.

In the end, Qin Lin still took the secret recipes handed over by Minister Lu.

After all, Minister Lu's goal was nothing more than to increase the importance of Chinese medicine.

For the sake of Chinese medicine, he was willing to help.

after all, he had also benefited from chinese medicine. a secret recipe for a herbal dish and a laxative liquid were worth a lot.

He had a BUG in the game, doctor Dott, so it would be good to help Minister Lu.

If the other party misunderstood that he had a deep understanding of Chinese medicine, then so be it. He wouldn't lose anything.

This misunderstanding might be of use to him in the future.

"Minister Lu, I can only say that I'll take a look, I can't guarantee anything." Qin Lin said after taking the recipe.

After all, Dr. Dott's BUG wasn't omnipotent. This secret recipe had to be really useful.

### [Chapter 620 A Special Way Of Protection! This Is A King Bomb! 2](#)

If this secret recipe didn't have any effect, then he had no other way.

Minister Lu nodded in understanding. boss Qin, please try your best. I can't force you. After all, even the people from the Chinese Medical Association can't provide anything for the time being.

Qin Lin said jokingly, " Minister Lu, maybe you shouldn't look for these people. I think they are greedy for fame and power.

the truly powerful families of Traditional Chinese Medicine are now treated as distinguished guests by the rich. A bottle of wine costs tens of thousands, and a medicinal meal costs hundreds of thousands. They don't even care about this Association.

He wasn't spouting nonsense, because didn't he copy some of the secret recipes of some Chinese medicine experts before?

These Chinese medicine experts were quite well-known. Some of them were from the Chinese Medical Association. However, the prescriptions they promoted were at most for nourishing the body and one would not have any problems eating them. There were no other effects and they were not as powerful as they claimed.

From this, one could see some problems.

When Minister Lu heard this, he became thoughtful.

qin lin and minister lu didn't stay long after their discussion and went back to linlin manor.

As soon as he got to his office, he took out the secret recipes given by Minister Lu.

To be honest, he was also curious about these recipes.

I've searched for hundreds of them on the internet and they were all useless.

If that was the case, then the people from the Chinese Medical Association headquarters were really despicable.

Minister Lu was doing this for Chinese medicine, but these people still used some useless recipes to disgust him.

Even Jin Daming, a wastrel from a family of Traditional Chinese Medicine Practitioners, could come up with a very useful herbal recipe.

Qin Lin re-entered the recipes into the computer and printed a copy. Then, he brought the recipes into the game.

When he exited the game, his character backpack was already filled with the printed formulas.

He didn't hesitate and controlled his character to go to doctor Dott. He clicked on doctor Dott and placed the first recipe on it. He clicked confirm and asked doctor Dott to analyze and fix it.

[ I'm really sorry, but your recipe doesn't have much value! ]

Qin Lin saw the result of the first recipe and shook his head. He put in the second recipe and clicked confirm.

A moment later, the results were out again.

[ are you sure there's a need to analyze this recipe? [ this thing is useless! ]

...

[ I'm sorry, do you really think it's necessary to waste gold coins on this recipe? ]

...

[ sorry, referee ]

...

Qin Lin put the recipes into the box where Dr. Dott analyzed and restored them. He clicked " confirm ", but all of them were the same result. None of the recipes were useful.

It seemed that the Chinese doctors that Minister Lu found were either not really capable, had no family knowledge, or were really old-fashioned and used secret recipes to fool Minister Lu.

Right now, there was only one recipe left in his character's bag.

If this one didn't work, then he couldn't help it.

He could help Minister Lu look at these recipes, but he wouldn't go online to find a useful one for Minister Lu after these recipes were useless.

Not to mention whether they could find it or not, after all, the previous hundreds of them were a lesson.

Qin Lin also controlled his game character and placed the last secret recipe in the box where Dr. Dott analyzed and repaired it. He then clicked "confirm."

[ Dr. Dott is analyzing and repairing it. [ please wait a moment ] ]

A moment later, the notification appeared again.

[ congratulations, you've obtained a very useful secret recipe. This secret recipe is a prescription with a lot of useless herbs written on it. These herbs can neutralize the medicinal effects and make the secret recipe ineffective on the surface. Fortunately, I've removed some of the neutralizing effects and obtained a useful secret recipe. I've written a new one for you! ]

Qin Lin's eyes brightened when he got the hint. fortunately, there was a useful one. this could be considered as saving minister lu's face.

He knew what the recipe meant. It was like a Tibetan poem, saying that many of the ingredients written in the recipe were useless. Only by finding the useful ingredients to form the recipe would it be effective.

Usually, only the person who wrote the recipe would know how to read it. It would be difficult for others to analyze it. After all, the medicinal properties of Chinese medicine were too mixed.

The advantage of this recipe was that it could prevent the secret recipe from being leaked. The disadvantage was that if the person who knew the method of reading it were to die in an accident, the recipe would be lost to a large extent.

Qin Lin was very curious about the only useful secret recipe that Minister Lu had given him. He immediately locked the door of his office and entered the game to see the contents of the recipe:

[ intestinal energy restoration powder: Grade 1 ]

[ this special secret recipe has a special effect on some intestinal diseases: Treatment of gastrointestinal stromal tumors +1, treatment of intestinal obstruction +1, treatment of colon cancer +1, treatment of colon Blackies +1! ]

"Oh my God!" Qin Lin was shocked when he saw the remark of the Guiyuan medicine.

From the remarks, this was much more awesome than the laxative drink.

How is this saving Minister Lu's face? This was a super saving grace, alright?

He did not know much about colon cancer, intestinal obstruction, and Voodoo, but he did know about colon cancer. It was a malignant tumor. Even if it was removed for treatment, it would cost hundreds of thousands of Yuan in addition to chemotherapy and radiotherapy.

This was also an illness that could bring down a family.

No matter how effective this Grade 1 intestinal energy restoration powder was, the secret recipe that Minister Lu brought out was a King Bomb.

If it was someone else, they would have directly passed down this secret recipe. This thing could make a lot of money, but Qin Lin didn't have such an idea.

firstly, he really didn't need to rely on this medicine to make money. secondly, he was very clear about what he could and couldn't do.

"i'll leave this secret recipe to minister lu. let the higher-ups get it out and add it to medical insurance for the benefit of the public.

His grandfather's and father's illness made him understand how desperate a family could be when faced with this kind of illness. He hoped that this prescription could save this kind of illness from despair.

He wasn't a Saint, but he simply had the ability to hold an umbrella for others when he was in the rain.

[ do you want to use the recipe? ]

Qin Lin chose "yes" decisively.

In an instant, a dense amount of information rushed into his mind. He obtained information related to the intestinal energy returning powder and the related medicinal herbs.

Similarly, when he went to buy these medicines, he could also know the medicinal properties by putting them in his mouth and tasting them.

Qin Lin sat back in his office chair, took out the original recipe, and then wrote down the recipe that Dr. Dott had analyzed and restored.

In comparison, the person who wrote the recipe was a bit crazy. He had directly doubled the number of medicinal ingredients.

If it wasn't for the BUG known as Dr. Dott, who would have been able to come up with this real secret recipe? After all, the effect of Chinese medicine would be different if one herb was missing.

Qin Lin didn't give the secret recipe to Minister Lu immediately after he got it. He needed some time, so he went to Linlin's laboratory again a few days later to find Minister Lu.

As soon as he arrived at Linlin's laboratory, he saw Minister Lu and professor Ren coming in with some people. Professor Ren was still reading the materials in his hand.

Both of them were very happy to see Qin Lin. Professor Ren smiled and said, " "Mr. Qin, you're here just in time. I have good news for you. One of our athletes has made an initial breakthrough, and his performance has also improved greatly."

"The limit of the body strengthening drug might be greater than we expected," Minister Lu added.

"Congratulations!" Qin Lin said with a smile.

boss Qin, " professor Ren asked again, " although Linlin laboratory is your company, you almost never come here. What's the important thing for you to come here today? "

Qin Lin nodded and looked at Minister Lu. there is something. Minister Lu gave me some Chinese medicine recipes for me to study. I'm here to talk to him about it today.

when minister lu heard this, he sighed and said, " boss Qin, the people from the Chinese Medical Association have been studying these recipes for the past few days. They all think that these recipes are useless and are blaming each other now. I wonder if you have any results? "
