

The Game 761

[Chapter 761 My Short-Sightedness Is Cured So Quickly! It's Also A Problem That The Effect Is Too Strong! 2](#)

As for the other things, he could just blame it on old brother li.

However, this Mingming white ginseng was much simpler.

After the body-strengthening medicine and the medicine for treating colon cancer, he could say that he had found a way to cultivate white ginseng in ancient Chinese medicine books.

He just didn't expect that this white ginseng could actually treat myopia.

He had even found an excuse. Guang ya " written by Zhang Ye of the Wei Kingdom during the Three Kingdoms era, " Taiping Yu Lan " compiled by Li Yun during the Taiping and prosperous era of the song Dynasty, " Compendium of Materia Medica " by Li Shizhen, and " the battle pivot of spring and autumn fate " all had records of ginseng cultivation.

He had studied it from the records in some books.

If someone were to get to the bottom of things, then he would just ignore the other party. Wasn't that brainless?

Anyone with a brain would know that this was developed by someone else, and this effect would be a trade secret in the future. If you still wanted to get to the bottom of it, weren't you a little retarded?

he had specifically calculated the time to dig out these potted bright white ginseng from the game.

After moving them out continuously, it didn't take long for the place to be filled with many bright-eyed white ginseng potted plants.

not long after, academician hao, academician li, and academician lin walked past and saw qin lin.

boss Qin, " academician li asked curiously, " what are you busy with? "

Qin Lin said the excuse he had thought of earlier, I've read some ancient books about medicine and found some ways to cultivate ginseng. Now, these ginseng have some effects.

This attracted the attention of the three academicians, and they walked over one by one.

Ginseng has a very high status in our country. It has been the same since ancient times, from TV shows, movies to reality. Moreover, hundred-year-old and thousand-year-old ginseng are even more expensive and can't be found in the market.

However, the controversy surrounding ginseng was still huge. Western scientific research institutions had published research on more than one occasion, saying that ginseng had no value. It was a scam promoted by Eastern countries. It was just like jade, which was actually a stone with no value.

Therefore, except for some American ginseng, ginseng is not recognized in many cases overseas, just like how we think that Westerners are stupid to use certain things.

They would also think that only an idiot in the East would use it.

But was the ginseng really not effective?

That was not the case. It could only be said that there were too many fake ginsengs. People who were not familiar with ginseng could easily buy fake ones. Moreover, some of the ginsengs that were used to induce growth were of extremely low medicinal effects.

After all, ginseng relied on its age to accumulate essence.

perhaps those foreign research institutes had bought fake ginseng, so they couldn't detect anything.

However, if you bought a fake product for testing and said that the real one was a scammer, that would be a little too much.

"Boss Qin, what's the effect of the ginseng you're cultivating?" academician Hao asked curiously.

Academician li and academician Lin both looked at Qin Lin.

This was also what they were curious about.

Since boss Qin had been studying it so seriously, this ginseng must have some special effects. Just like the elixir powder from before, didn't it make their hair thicker and look younger by several years?

They still believed in boss Qin's ability in the field of Chinese medicine.

"This ginseng doesn't seem to have any other effects, but it can cure myopia," Qin Lin explained.

"Treat myopia?" Academician li asked.

Academician Hao and academician Lin also didn't know how to react.

They wouldn't be surprised if boss Qin said that the ginseng had any effects, but they didn't expect it to be able to cure myopia.

They had never heard of ginseng having such an effect.

But thinking about it, if it wasn't for the unique effects and the effects that the ginseng didn't have, boss Qin probably wouldn't have cultivated it so carefully.

Just as the four of them were chatting, they suddenly saw Lin Lanzi walking over with three employees.

Qin Lin knew what was going on when he saw the three employees. Li Jie had taken off her glasses completely. She had used a Grade 3 white ginseng for improving eyesight, which was obviously very effective.

When they came closer, Qin Lin also noticed that the other two employees' glasses were obviously thinner. The previous two employees' glasses were so thick that they could be seen with the naked eye.

Lin Lanzi also came forward and reported, "Boss, Li Jie and the other two used the ginseng you gave them, and their short-sightedness has improved. Especially Li Jie, her short-sightedness has completely recovered."

"Boss, I don't need to wear glasses anymore. The effect of the ginseng you gave me is too amazing," Li Jie immediately reported.

The other two video editors also hurriedly reported their situation to Qin Lin.

Qin Lin also knew the specific effects of the grade 3 and Grade 2 bright white ginseng.

One could tell that the vision-improving white ginseng's effect was very strong, but it was too strong.

According to Li Jie and the other two's calculations, even if the attributes of the game seeds were reduced after being planted, they should still be at the level of 1.

But even if it was only a Grade 1, the effect was still very strong. Moreover, it felt like the effect was too strong.

After all, it was to treat myopia. Once it was cured, unless he went to work on his eyes again, he would not be short-sighted again in the short term.

If the treatment period was too short, the profit would be small.

So, if it was effective, it should be fine if the treatment period was a little longer.

Moreover, even if a Grade 1 effect was sold to Chinese people, the profit was small. If it was sold to Western countries, even if it was several times more expensive, the effect would have to be weakened. Moreover, it had to be weakened.

It could be made into Ginseng Pills, which were less effective.

He was probably the only boss who was afraid that the effect of his product would be too strong and wanted to weaken it.

Academician Hao and the other two also looked at Li Jie and the other two. They knew that they were boss Qin's experimental patients.

miss, your short-sightedness has recovered. What was the original degree? " Academician Li asked curiously.

when li jie saw an old senior asking, she did not dare to hide anything and explained, " "I used to be able to move at 800 degrees, but after using the ginseng boss gave me, my short-sightedness has completely recovered."

"800 degrees?" Academician Lin was shocked.

"these few days?" Academician Hao's mouth was also slightly agape.

Academician Li was also shocked. In other words, boss Qin's ginseng could restore the vision of a young girl with 800-degree myopia in just a few days?

Can you believe this?

If he told others about this, those with deep myopia would go crazy.

this kind of thing was just like a hair problem. as long as it was treated without any surgery and risk, anyone would be willing to spend money to buy it.

This also allowed them to have a deeper understanding of the power of Chinese medicine.

after all, whether it was hair growth or the treatment of myopia, western medicine really couldn't solve it in such an easy, healthy, and harmless way.

after knowing the effects of the mingming white ginseng, qin lin asked lin lanzi to leave with her people. he returned to his office and called deng guang.

He could also start planning for a subsidiary company.

Moreover, with the two products of the hot spring powder and the bright white ginseng, this subsidiary company would have endless potential.

[Chapter 762 Endless Potential! It's Actually Him ~! 1](#)

A few days later.

Deng Guang brought the two of them into Linlin Manor.

One of them was Kong Lin.

The other person was wearing a formal suit. He was older, in his 40s, and his name was Chu Yue.

The other party was a manager of Linlin laboratory. He was recommended by Shen Li and was a very steady person.

on the other hand, kong lin was a young man that deng guang had always thought highly of.

He was a graduate from 211 University. He was able to endure hardships and was willing to fight. Therefore, he had always wanted to train him.

Kong Lin didn't let him down. He was transferred to a small Linlin leisure tea factory as the director, then to a Deputy factory in ning city, and now he was the director of a factory that sold Linlin medicinal liquid.

This time, Chairman Qin wanted to prepare a subsidiary company for a food company. He needed to recommend two people for the early stage planning, so he recommended Kong Lin.

This was because Kong Lin was the most hardworking person in Linlin food company. A newly established subsidiary needed such a talent.

Chu Yue was recommended by President Shen of Linlin laboratory. He was indeed an outstanding talent. He would be in charge of the planning of the subsidiary company with Kong Lin's assistance.

This time, the planning of the subsidiary company was also an opportunity for the two of them. If they did a good job, the person-in-charge of the subsidiary company would be Chu Yue. Otherwise, they would have to hire a headhunter to find a suitable person-in-charge outside.

With Kong Lin's help this time, the next time they set up a new subsidiary company, or if the company had any important positions, they would also give him priority, which was equivalent to plating him with gold.

when deng guang was about to reach the office, he did not forget to remind her. Chairman Qin will interview you later. You were recommended by President Shen and me, so don't drop the ball.

Chu Yue and Kong Lin hurriedly nodded and promised.

Although they didn't know what kind of product the subsidiary company was going to produce, they knew that this was their only chance.

If they seized this opportunity, they would have a bright future in Linlin company.

Qin Lin soon saw Chu Yue and Kong Lin.

he had an impression of kong lin, a top student, but he didn't know much about chu yue. however, shen li said that he was the most capable person in linlin's laboratory management, so he must be good.

"sit down!" he said. Qin Lin walked to the tea table to make tea and said to Deng Guang and the other two.

Deng Guang sat directly opposite Qin Lin.

Kong Lin and Chu Yue sat on the two seats beside him.

Qin Lin made a pot of Grade 2 wild Tieguanyin tea and poured a cup for the three of them. "Have some tea!"

Deng Guang was very concerned about his boss's tea. He picked it up and started to enjoy it.

Kong Lin and Chu Yue were a little reserved. After all, this was tea brewed by their Big Boss.

To be honest, their understanding of this Big Boss was still limited. They had not seen him many times.

However, they knew very well that the boss was definitely a very capable person since he could make the company so big. In addition to the gap in their positions, it was inevitable that they would feel great pressure when facing this young boss.

They were also worried that they would lose points in their impression if they were not careful.

After all, this was a very important interview for them.

Qin Lin also handed two documents to Chu Yue and Kong Lin, " "Now you know why I called you here, right? These two documents are about the subsidiary company's products. Take a look first."

He didn't treat it as an interview. After all, those who could be recommended by Deng Guang and Shen Li were more capable than the others in the company.

chu yue and kong lin received the information respectfully.

They were very curious about the products that this subsidiary company was going to sell. After all, their future depended on these products.

However, when the two of them finished reading the information of the two products, their faces were full of disbelief.

Both of them were shocked by the effect of the hot spring powder on hair growth and the effect of the Mingming white ginseng on myopia.

"Boss, are these the products that the subsidiary company is going to sell?" chu yue could not help but ask in shock.

Kong Lin also looked at his boss in disbelief.

The two of them didn't question the effect of this product, because it was brought out by the boss to start a subsidiary company, so it must have such an effect.

However, the effect was truly shocking.

Even a fool could see the market value.

Chu Yue even thought of his receding hairline and thinning hair.

"Yes, these are the two products!" Qin Lin nodded and instructed, "after you two go back, immediately go and make the preparations. Especially the channels for the raw materials of the hot spring powder and the land where the ginseng is planted, you have to carefully inspect them.

"Yes, boss. We will do it." Chu Yue hurriedly promised.

Kong Lin also hurriedly nodded.

After knowing what the subsidiary company was going to sell, the two of them were instantly filled with enthusiasm. This subsidiary company definitely had boundless potential.

if they did it well, they believed that they would be able to fulfill the option reward terms issued by the company and get the option reward.

Even if it was just the option reward, it was definitely worth a lot.

After Deng Guang left with Kong Lin and Chu Yue, Qin Lin returned to his office chair and looked at the virtual screen in his mind, continuing to control his game character to mine.

In the past few days, he had already controlled his character to dig up the 24th floor of the spring Mine.

During this period, they also dug up a lot of special soil, Earth Spring water, and a quality 2 Jade ore.

[congratulations, you have excavated a piece of imperial concubine Jade!]

[Chapter 763 Endless Potential! It's Actually Him ~! 2](#)

This was another piece of Jade ore of quality 2.

After the 24th floor was dug, Qin Lin controlled his character to enter the 25th floor and started digging.

[congratulations on obtaining a piece of silver-copper ore!]

.....

[congratulations on obtaining a piece of gold and copper ore!]

[congratulations on obtaining an Emperor's Green!]

Qin Lin looked at the prompt that suddenly appeared, and his face suddenly showed surprise.

Emperor green!

this was one of the kings of jadeite.

[Emperor's Green jade ore: 2]

[this is the king of jadeite. It's very valuable. You can find saibari in ore town to make very precious jewelry.]

A gram of brilliant sun Green was more than ten thousand Yuan, and a pair of expensive Emperor green bracelets cost seven hundred million Yuan. Even a cheap jade pendant could be sold for tens of millions.

The most important thing was that you could still buy bright sun Green with money, but you might not be able to buy Emperor green even if you had money.

Those Jade lovers would definitely hide the emperor's Green away once they got it. They would never sell it again. the 25th floor of the spring mine had already produced this kind of jade, but he did not know the quality of the seed water.

The key was that the game's remarks did not mention this.

Qin Lin continued to control the game characters.

[congratulations, you have obtained a bucket of Earth Spring water!]

...

[congratulations, you have excavated a bag of special soil!]

As the levels of the spring Mine increased, the probability of the special soil and the spring water of the earth appearing seemed to have increased significantly.

after these days of digging, the amount of special soil and earth spring water had increased significantly.

[congratulations on obtaining a piece of blood beauty Jade!]

When the 25th floor was excavated, Qin Lin once again received a message that surprised him.

Blood beauty was not an ordinary Jade. It was a top-grade Jade that was as beautiful as the king's Green.

It seemed that the standard of the jewelry for Zhao mochen would have to be raised again and again.

At that time, he would definitely be able to give Zhao Mo a huge surprise.

As he was thinking, Qin Lin heard a knock on the office door.

The door opened and his mother, Lin Fen, walked in. She was holding wangcai's hand.

as soon as the dog came in, it ran to his feet and rubbed its head against his leg affectionately, looking cute.

"Mom," she said. Qin Lin also hurriedly got up and greeted his mother.

"Lin Lin, I have something to tell you," Lin Fen said directly.

"Mom, tell me what you need!" Qin Lin immediately said.

"Lin Lin, you've been living with Moyu for so long, and now she's pregnant." as lin fen spoke, she began to persuade him. Mo's a good person. He's not in a hurry and doesn't say anything, but you can't take some things for granted. The most important thing in a woman's life is marriage.

Lin Lin, you're so capable now. You have to give Motian what you need for the engagement, the welcoming of the bride, and the wedding. You can't treat her badly.

Qin Lin finally understood.

His mother was standing up for Zhao Moyi, but he had no intention of owing Zhao Moyi anything. He had always had a plan in mind.

But since his mother had said it today, he also went along with it and said, mom, I was just about to tell you about this. Mo Jing and I have to go through the process.

Hearing this, Lin Fen immediately smiled happily. that's good. I'll ask your uncle dagen to pick a good day for you. Then, I'll ask him to take you to the Zhao family to get engaged.

"okay, i'll have to trouble uncle shuigen then." Qin Lin nodded.

According to the customs of their hometown, the man's elder must be the leader of the men when they went to the woman's side for an engagement.

The so-called Mr. Treasure also paid tributes in the past, which was a person who jumped up and down with betrothal gifts. They were usually relatives of the man.

In addition, the escort must control the number of people (even numbers), vehicles (six or twelve), betrothal money (even numbers and wrapped in red paper), six big gifts, and so on.

In their hometown, under normal circumstances, their uncle would be the leader of this Mr. Treasure.

On his side, only uncle water root was suitable.

Lin Fen smiled and said, " okay, then I'll go to shuigen's house and tell him about this later. By the way, the engagement requires six gifts. You also need to prepare the gold and jewelry.

"Mom, gold is too common. I've prepared other things," Qin Lin said with a smile.

"It's good that you're prepared." Lin Fen's face was full of joy. Her son's preparation showed that he still had a conscience.

She hoped that the relationship between her son and her daughter-in-law would be harmonious. Where else could she find such a good daughter-in-law?

When Lin Fen got Qin Lin's reply, she left with Wang Cai happily and went to find Qin shuigen in a hurry.

She didn't want to drag this matter on.

After his mother left, Qin Lin controlled his character to return to the farm. Then, he turned his attention back to the farm and turned on the computer.

Since his mother had said so, he had to get the Jade jewelry ready first.

He did not continue digging.

If he continued to dig, he would definitely be able to find more Jade ores like blood beauty and King's Green.

However, it was enough to have two pieces of jade of this level. If he took out too many at once, it would be too shocking. After all, it was just an engagement.

It would be the same if he dug it up in the future and gave it to Zhao moyin.

Qin Lin logged into the internet and opened the back end of the game. He pulled out a few blueprints and downloaded them.

these were the jewelry designs that he had spent a lot of money to hire.

High-end jades like bright sun Green, Emperor green, and blood beauty couldn't be made into jewelry with drawings commonly seen on the internet, right?

This high-end Jade must be unique.

[Chapter 764 Endless Potential! It's Actually Him ~! 3](#)

Therefore, he had specially posted a request on this website, paid a huge price, and signed a contract. These blueprints could only belong to him.

If he sold it to someone else, the author and the website would have to bear legal responsibility.

He had also carefully selected these blueprints, and every one of them was very exquisite and Grand.

After downloading all the blueprints, Qin Lin printed them out and locked the office door. Then, he brought them into the game.

After that, he logged out of the game and controlled his game character to put the bright sun Green, Hibiscus Green, Imperial Green, and blood beauty Jade ores into his bag. Then, he went to seibala's jewelry smithing shop.

He placed the blueprints one by one into the blueprint frame that seibala had requested. He then put in the jadeite ores and forged the high-end jadeite into jewelry.

In the end, he controlled his game character to return to the farm. Then, he entered the game and saw the Jade jewelry.

It had to be said that these jade jewelry did look more bright and beautiful than the previous quality 1 jade jewelry.

among them, the bangle made of king's green and the pendant made of blood beauty were the most eye-catching.

the king's green bangle was crystal clear and green, its color refreshing.

The blood beauty pendant was as red as blood, as if there was astonishing blood flowing inside.

Both items were very attractive and gave off a very strong sense of art.

He also saw the remarks of the two accessories:

[King's Green bangle: Grade 2]

[this is a pendant made of King's Green jade. It looks beautiful and is very popular with women. Beauty +2, art +2, color +2, seed water +2.]

"Blood beauty pendant: Grade 2"

[this is a pendant made with blood beauty as the main body. It has an exquisite appearance and is very popular with women. Beauty +2, art +2, color +2, seed +2.]

Beauty +2, art +2, and color +2. No wonder these two pieces of jewelry were so beautiful and attractive.

Moreover, these two items also had the +2 attribute of seed water, so the quality should be very high.

It was just that he didn't know its specific value.

Therefore, Qin Lin thought of the old man at the Jade ware shop. The old man had retired and returned to you city to open a jade ware shop to relieve his boredom. He was quite experienced in appraising jade ware.

However, there were a lot of jade jewelry this time, so it was not suitable to take them to the Jade jewelry shop for appraisal.

Qin Lin logged out of the game and called Chen dabe, asking him to invite the old man to the Linlin Manor.

After that, he went to the manor and took out all the Jade jewelry he had prepared.

The wooden jewelry box made of yellow Rosewood was full of them.

This was a little messy.

Seeing this, he controlled his game character to go to the wood warehouse to collect the Rosewood and red sandalwood that he had cut before and put them in his backpack. Then, he went to the ore town's processing machine experience Hall to process them into wooden jewelry boxes.

After that, he took the wooden jewelry boxes out of the game and separated the pile of jewelry boxes. Everything became clear in an instant.

.....

After Chen dabe received Qin Lin's call, he immediately went to the Jade ware shop to look for the old man.

When elder Zhu Wei saw the name card that Chen dabe handed over, he was surprised.

Why did the Linlin villa's security Manager look for him? he had no dealings with the people from Linlin South villa.

"Mr. Chen, is there anything I can help you with?" zhu wei asked in confusion.

"old sir," Chen Dabei said, "our boss would like you to help her appraise some jade jewelry. It's too expensive. It's not suitable for us to bring it here."

Zhu Wei was a little curious when he heard this. He was not curious about the expensive jewelry, but about the boss behind Linlin Villa.

There were many legends about this person, but very few people had seen his true face.

Now that the air in your city had become so good because of the purification grass, everyone couldn't help but think of the boss behind Linlin Villa when they took a breath.

"Alright, I'll go with Sir." Zhu Wei agreed in the end. After all, he was also very curious about this person, and it would satisfy his curiosity to meet her.

"Grandpa, I'll be your helper." A pretty girl ran out. She had obviously heard the conversation just now.

Hearing her words, Zhu Wei knew that she must be curious about the owner of Linlin Villa, so he nodded.

Chen Dabei did not say anything. He brought the old man and his granddaughter to Linlin Manor.

As soon as he entered Linlin Manor, old master Zhu Wei was amazed by everything in the manor.

His granddaughter was also amazed. Grandpa, this place is even more beautiful than in the video. It's so much better than your city.

"Yes." Zhu Wei nodded in agreement.

Soon, the two of them were brought to Qin Lin's office by Chen Dabei.

When they saw Qin Lin, the grandfather and grandson were stunned. They obviously recognized Qin Lin.

[Chapter 765 Most People Don't Believe In The Truth! Society Is Somewhat Deformed! 1](#)

Old master Zhu Wei had seen Qin Lin more than once.

The other party had gone to his jade ware shop more than once to appraise jade jewelry.

His biggest impression of the other party was that he was a good man. Otherwise, why would he custom make jewelry for his wife, his mother-in-law, and his mother on a holiday?

For example, his granddaughter's boyfriend would not even use his heart for his granddaughter's birthday present.

Moreover, the other party was able to order jade jewelry that cost tens of thousands each time. He thought that the other party must be a very successful young man in your city.

However, he had never expected that the other party was actually the owner of Linlin Villa.

It was really surprising.

"Grandpa, it's actually little Qin." Zhu Qin could not help but exclaim at her grandfather.

She was a little dazed.

She had discussed the boss of Linlin company with her friends before.

After all, a Big Shot like you Cheng was the most talked about by young people, just like how everyone used to talk about father MA.

However, she had never expected that she had already met the owner of Linlin villa, the internet celebrity little Qin, who had been to her grandfather's shop.

"Old Sir, we meet again." Qin Lin also stood up and greeted Zhu Wei, shaking his hand.

"mr. qin, what kind of jewelry do you want to appraise this time?" what's the matter? " Zhu Wei immediately asked in a friendly manner, even with a trace of respect.

Although the other party was young, old enough to be his grandson, the other party's status and contribution could ignore the age gap.

"This time, if I really need your help to appraise some jewelry, please follow me." Qin Lin also led Zhu Wei out of the office and into the inner area of the manor.

In fact, it was not necessary to appraise the jewelry given to Zhao moyin, but it was a little confusing to not know the price of his own things. It would always be better to know the price.

It was important to have a clear mind sometimes.

Qin Lin led the old man and his granddaughter into the main hall of the manor. Then, he asked Chen dabei to take out the pear jewelry boxes that contained the jewelry.

Zhu Wei was an old man. Although he used to be a Jade appraiser in a big city, he had a lot of experience and was in contact with all kinds of things. He could tell the material of the jewelry boxes at a glance. "Mr. Qin, are these boxes made of fragrant Rosewood?"

"yes." Qin Lin nodded.

Zhu Wei naturally didn't think it was a waste to use the yellow Rosewood to make a jewelry box, because the box was made of this material, which meant that the jewelry inside must be very precious.

But when Qin Lin opened the boxes, Zhu Wei was still a little surprised.

The first box contained a lot of different types of jade jewelry. At a glance, the quality of these jewelry was probably no worse than the jewelry that boss Qin had brought for him to identify.

in other words, each piece of jade jewelry cost about tens of thousands of yuan. although these tens of thousands of yuan seemed to be a little unworthy of the jewelry box made of fragrant rosewood, the number of jewelry was really a lot.

however, as the box behind him was opened, old master zhu wei became a little uneasy. "Bright green, green hibiscus, purple blood Gu"

These were all high-end Jade, and there were not many of them. At a glance, one could tell the difference between jewelry of this level and ordinary Jade. On the market, a piece of Jade would cost hundreds of thousands, and the expensive ones could even cost millions.

As for its specific value, it would only be known after a careful appraisal.

The quality of the items in front of him could be seen to be very good and attractive.

There were only two pieces of jewelry in the last box. One was a bracelet and the other a pendant.

The old man's eyes were immediately drawn to her, and he felt that he couldn't look away. this ... This color ... That green color ... And the phenomenon of blood surging ...

He wasn't sure.

After all, jadeite of that level was extremely rare.

It might be the best of the best, like the king's Green or blood beauty.

Even many big Jade collectors would find it difficult to find Jade jewelry of this level in their collection. However, Mr. Qin had collected two pieces at once, plus high-end jade jewelry such as bright green, which would make the big Jade collectors envious.

"Grandpa, those two pieces of jewelry are so beautiful." zhu qin was obviously attracted to the king's green bangle and blood beauty pendant.

there shouldn't be any woman who wouldn't be attracted to jewelry of this level.

If she really wasn't attracted, she was either pretending or she really had no desires.

Qin Lin chimed in at this time. old master, I want to give these jewelry to my wife as a betrothal gift. I was very poor before, so we registered our marriage in secret. So, I have to compensate her now.

Zhu Wei sighed with emotion when he heard this. Good men all belong to other people's daughters. Look at her, and then look at his granddaughter's boyfriend.

A birthday gift shouldn't be expensive, but it should at least be sincere, right? If she didn't even leave her heart, then it was hard to explain in a few words!

Naturally, what surprised the old man even more was the sentence, " "i was very poor before, so i registered for marriage in secret!"

These words shocked everyone.

Who in you city didn't know how big Linlin company was?

How could the boss of Linlin company be poor?

But now, he had personally heard the other party say that he used to be very poor and that he had to register his marriage in secret.

Someone had dug up Linlin company's background on the internet and found out that there was no capital behind Linlin company, and the boss behind it was not the second generation of any capital or a disciple. The owner of Linlin villa might have started from scratch.

It was just that this argument had never been acknowledged by others.

[Chapter 766 Most People Don't Believe In The Truth! Society Is Somewhat Deformed! 2](#)

Because in this era, it was impossible or not allowed for a self-made person to achieve this in a short time.

now, it seemed that one thing could be confirmed. the owner of linlin manor had really started from scratch.

Zhu Wei was already an old man, so he was inevitably shocked when he heard this news.

At such a young age, starting from scratch, and building the Linlin laboratory, Linlin villa, and Linlin food company in such a short time, how monstrous must he be?

This could even be made into a legend in a TV series or movie. Naturally, if boss Qin's deeds were not announced, the TV series or movie would probably be criticized.

Because no one dared to believe this.

Even the director would be flamed for being brainless. He wouldn't even be able to come up with a logical story.

Zhu Wei also walked to the jewelry box. Although he was shocked, he didn't forget that he was an appraiser. This time, he mainly appraised the jewelry.

"Boss Qin, is this the king's Green and blood beauty?" Zhu Wei observed the king's Green bangle and blood beauty pendant for a while. Even though he already had the answer, he still asked.

After all, this was the first time he had seen two pieces of jade jewelry of this level at the same time.

"En!" Qin Lin also nodded in confirmation.

Zhu Wei exclaimed, " the king's Green bangle and the blood beauty pendant are both of the ice grade. It's hard to determine the market price of jewelry of this grade. I can only say that with the Jade of this grade and the excellent craftsmanship, both pieces of jewelry will be worth more than 30 million Yuan.

Even Qin Lin was surprised by the price.

If the story of ranches wasn't a farming game but a mining game instead, he could have made a fortune just by doing that.

However, compared to the farming industry, mining was also extremely risky and had no guarantees.

Zhu Qin covered her mouth when she heard her grandfather's words.

What would it feel like to wear a bracelet worth 30 million and a pendant worth 30 million?

This was probably something that 99.99% of women could only dream of.

It took Zhu Wei a long time to identify all the other jade jewelry. The price of high-end jade jewelry such as bright green was not low, and they were all worth more than a few million Yuan.

As for the ordinary jewelry, none of them was worth less than 50000 Yuan. No matter how many pieces of jewelry there were, they were nothing compared to the high-end Jade, the king's Green, and the blood beauty.

after the jewelry had been appraised, zhu wei was obviously a little dispirited. after all, he was old. so, after paying the appraisal fee, qin lin also invited him, " "Old man, if you don't mind, stay for a meal!"

No one would refuse the hospitality of the boss of Linlin company.

Zhu Wei felt the same, and he even felt honored.

qin lin had also instructed master lin to prepare an emperor's supreme meal for the old man.

The emperor's supreme set meal made the grandfather and grandson eat with great relish. They finally understood why the emperor's supreme set meal was so expensive.

This was something that one would never forget after eating once.

He was now considering whether he should come to Linlin Manor to recuperate for a month.

Zhu Qin ate so quickly that she almost bit her tongue.

Because it was really too delicious.

After returning to the Jade ware house, the old man was quite calm. After all, he was quite old.

Zhu Qin, on the other hand, was very agitated. After all, she had seen the real face of the boss of Linlin company and two pieces of jewelry that were worth more than 30 million Yuan. If she did not talk to someone about it, it would be inexcusable if she saw the shocked expression on the other party's face.

She happened to see someone in the group discussing the boss of Linlin company.

She immediately sent a message: " I met the boss of Linlin company today. He's very young and handsome. You'll never guess his real identity, Qianqian.

She also deliberately left some suspense. If these people knew that the internet celebrity little Qin was the boss of Linlin company, they would be shocked.

However, no one in the group matched her suspense. Instead, a bunch of replies appeared:

another one trying to please the crowd. Everyone knows that the owner of Linlin villa is in his forties, but no one has ever had the chance to meet him. A person with the ID carp bridge retorted immediately and even posted a picture of a man in his forties.

This was also the publicly acknowledged owner of Linlin villa on the internet.

Another man called Saint Xie retorted, " he's a young girl, very young and very handsome. He's very much in line with her image of boss at her age.

this made zhu qin a little annoyed. was she a woman who fantasized about being an overbearing president?

She was about to say that the boss of Linlin company had treated her and her grandfather to the emperor's supreme set meal, but someone in the group called " playing down thoughts " spoke first. haha, the boss of Linlin's company even invited me to lunch this afternoon. I'm sure he's not young or handsome.

This caused people to start jeering.

I can prove it, " said the purple mist. because I was there too. The boss of Linlin company arranged it personally.

Last night: " I was there too. The boss of Linlin company even gave me a toast. It's Linlin medicinal wine!

"Yes, I can prove it, because I'm the waiter who serves the boss!"

When Zhu Qin saw the comments in the group, she was so angry that she wanted to throw her phone away.

What were these bastards?

Everything she said was true.

Now, she finally understood what it meant to have the truth in the hands of the minority. Furthermore, most people would not believe in the minority.

Also, which bastard posted the photo of the 40-year-old man on the internet?

He was so young and handsome, but he was called an old man.

...

[Chapter 767 Most People Don't Believe In The Truth! Society Is Somewhat Deformed! 3](#)

Linlin Manor.

However, Lin Fen brought Qin shuigen to Qin Lin's office to find him. He naturally had to help Qin Lin and Zhao moyin to complete the ceremony.

Lin Lin, your mother has already given me your birth characters. I'll get someone to pick a date. as soon as qin shuigen saw him, he said, " your mother and i will prepare the list of gifts. you just have to give me the five gold pieces of the proposal first. then, your mother and i will discuss a big betrothal gift list. when the time comes, we will send it to the zhao family. "

A marriage proposal required the bride's family to go to the bride's house to discuss the betrothal gifts. At this time, the South had to come up with a big list of betrothal gifts, which included the value of the five gold pieces, the number of betrothal gifts, and so on.

If the female party was satisfied, she would accept the gift and choose a date to get engaged.

Naturally, under normal circumstances, the female party would rarely accept the gift list so readily. There was always a situation now: The woman wanted more money, but the man wanted to give less.

Therefore, more and more couples in the modern era broke up because of the betrothal gifts.

Wasn't there a boring program that did a statistical interview before? among the ten leftover women and men, except for those who really couldn't find a partner, most of them were left because of the betrothal gifts.

The girl felt that her daughter could be sold for a better price. When she found out that her friend's daughter was sold for 300000 Yuan while she was only sold for 88800 Yuan, she would definitely be dissatisfied and would lose face if she went out.

The man felt that he could get a wife without spending so much money.

Especially when some parents found out that their friend's son only spent 88800 Yuan on a wife, and their own family had to spend 300000 Yuan, they would definitely be unhappy.

Therefore, most of the betrothal gifts were broken, and when their daughter and son were old and left, they were anxious.

Betrothal gifts had also become a huge mountain for couples nowadays, and it also extended to the words that money was fate.

Therefore, the young people of this generation were also very confused. They probably didn't know that marriage was supposed to be a very happy thing. How did it become something that would cost the family half their lives?

It could only be said that this society was somewhat deformed.

"Okay, uncle water root." Qin Lin also nodded. Then, he printed out the list of gifts he had prepared, which was the Jade jewelry, and handed it to Qin Shuigen.

Qin Shuigen took the list and then copied it on the red paper again. It was best to copy it with a writing brush.

However, he was stunned when he saw the list. There was a row of jade jewelry: King's Green jade bracelet (30 million), blood beauty jade pendant (30 million), and bright green jade pendant.

When Qin Shuigen saw these things, he only felt that he should be glad that his son married early and his daughter-in-law had given birth to a granddaughter.

If news of an engagement were to spread, it would greatly increase the betrothal gifts and hardware of ordinary people.

Qin Lin's current wealth was normal, but the ordinary people in your city wouldn't think so. Instead, they would find an excuse to think that their own daughter couldn't be too shabby.

Qin Shuigen could only sigh with emotion. Then, he went out with Lin Fen to discuss other things. In fact, he felt that there was nothing to discuss. Just the things that Qin Lin had prepared were enough.

who could take out these during the engagement?

after Qin Lin sent Qin Shuigen and Lin Fen away, he also sent a message to Zhao Moyin on WeChat: "We're going to your house to get engaged soon, are you happy?"

However, Zhao Moyu replied with a lie, "I'm not even sure if I'll get married or not!"

"But I'm definitely going to marry you!" Qin Lin sent another proud emoji. They had already gotten their marriage certificate and were pregnant. What was the point of getting married?

But sometimes, a married couple needed such sweet feelings, didn't they?

Qin Lin and Zhao Moyu were chatting happily when suddenly, a person who gave him a headache came to them.

[Chapter 768 A Glass Of Wine Scared Away The Sweet Spring Of The Earth](#)

Qin Lin had a headache when he saw Liu Sanfeng again.

last time, he had already clearly expressed that he was not interested in their chinese medicine world's medicinal wine tasting conference. who knew that the other party would come to his door again?

Did the other party not understand what he meant last time?

boss Qin, I know that you're a busy man with a big business, so I've discussed with the other Traditional Chinese Medicine families in the South. We've proposed to hold the conference in you city. The Wen family and the Traditional Chinese Medicine families in the North have agreed to hold it the day after tomorrow, " Liu Sanfeng said with a smile.

"Ran ran." Qin Lin was really speechless."Old Mister Liu, I really have no interest in this medicinal wine tasting conference."

These Traditional Chinese Medicine aristocratic families liked to fight among themselves. Why did they have to include him?

besides, the higher-ups didn't say anything, so what was he jumping around for? Sit down obediently and listen to the arrangements of the higher-ups, alright?

they had already made it clear last time, but who knew that the other party would really bring the evaluation committee to you city?

Wasn't this a form of coercion?

Liu Sanfeng was helpless when he heard Qin Lin's words. boss Qin, I know you're busy, but I've tried the Wen family's medicinal wine through some channels. Their medicinal wine is indeed better than ours in the South. Only your Linlin medicinal wine can be compared to them. Your medicinal wine is also passed down from southern Chinese medicine. You can't just sit by and do nothing.

This was obviously a moral kidnapping. Liu Sanfeng knew that this might anger the young man.

However, the other party's Linlin Manor was also famous for its medicinal wine.

If he brought up this excuse, even if the other party was angry, he would still reluctantly agree, right?

As long as it was beneficial to southern Chinese medicine, it was worth it to offend him.

Qin Lin's face darkened when he heard this."Mr. Liu, I should have made it clear that I'm not interested. I still have work to do, so I won't be able to receive you."

this was a direct order for him to leave.

Obviously, Liu Sanfeng had made the wrong decision. Qin Lin's Jinlin medicinal wine did not come from the Traditional Chinese Medicine inheritance, but from the system game.

Qin Lin was indeed upset. He had indeed benefited from Chinese medicine and was willing to make some contributions to it, such as helping Minister Lu.

But this didn't mean that he liked to be tied down by morality, especially when he was tied down by morality to participate in this kind of battle.

Liu Sanfeng was obviously regretful now. He didn't expect boss Qin to not fall for his trick and even ask him to leave so decisively. He didn't know what to say for a while, so he could only leave.

Liu Sanfeng returned to the Zhong min hotel and quickly met with the other members of the southern Chinese medicine families.

as soon as these people saw him return, they asked, "

"How is it? That boss Qin agreed?"

that's right. Only his Linlin medicinal wine can suppress the Wen family's medicinal wine.

"....."

They had all tasted the Wen family's medicinal wine and the Linlin medicinal wine from the Liu family. The Wen family's medicinal wine was indeed better than their own, but it was far inferior to the Linlin medicinal wine.

"That boss Qin refused," Liu Sanfeng sighed.

His words made the other people's faces turn ugly. After all, if they lost the medicinal wine, it would bring shame to the entire southern Chinese medicine industry.

The Linlin medicinal wine was clearly able to win against the Wen family.

A few people from Traditional Chinese Medicine families were obviously unwilling to give up. The next day, they followed Liu Sanfeng to visit Linlin Manor.

Unfortunately, they were stopped by a group of security guards before they could enter the Linlin Manor.

Chen dabeí glared at Liu Sanfeng and the others and said, " everyone, I'm sorry. You're not on the guest list of the manor. Please leave.

"I know your boss. We just met yesterday," Liu Sanfeng said in a hurry.

I'm sorry, but you're not on the visiting list. Please leave, or we don't mind taking forceful measures. Chen dabeí looked at the man coldly. No wonder the boss had personally ordered him to get rid of them.

This unyielding attitude made Liu Sanfeng and the others 'faces turn ugly.

When had they ever received such treatment?

They were actually chased away by the security guards.

even if the rich and powerful wanted their medicinal wine, they had to be polite to them.

however, when they thought of the Linlin villa's owner, who had better medicinal wine and more wealth than them, they couldn't get angry at all. They could only leave dejectedly.

A day had passed.

You city also had a few people from Traditional Chinese Medicine families. These people were naturally from the northern Chinese medicine world, led by the Wen family's fourth weirdo Wen.

The name fourth weirdo was indeed very strange, but it was an imitation of the name of his ancestor, third weirdo.

The reason why the Wen family was so famous was also because of the TV series "Strange Doctor Wen Three Freaks". The director had a good relationship with the Wen family.

Furthermore, the Wen family was also a family of Traditional Chinese Medicine with the most complete inheritance, at least in terms of medicinal wine.

That was why he had suggested the medicinal wine tasting.

The Chinese medical doctors in the North still stayed in the Zhong Min hotel, because the evaluation committee had rented a Hall in the hotel.

The Liu family chose you city as the location. It must be because of the Linlin medicinal wine. A person from a family of Traditional Chinese Medicine Practitioners in the North said.

I have news here," another person said. I heard that the owner of Linlin Manor is not interested at all. The Liu family's people have been stopped outside the Linlin Manor.

[Chapter 769 A Glass Of Wine Scared Away The Sweet Spring Of The Earth](#)

Upon hearing this, fourth weirdo Wen frowned slightly. It'll be boring if Linlin medicinal wine doesn't participate. If the Liu family loses, they'll find excuses like Linlin medicinal wine didn't participate. It seems that I have to go to Linlin Manor.

...

Linlin Manor.

Qin Lin didn't take Liu Sanfeng and the other Chinese medicine doctors seriously. After dealing with the villa's matters in the afternoon, he sat on his office chair and continued to control his game character to mine.

During this level-up, the spring Mine had opened up a relatively large number of floors. However, after digging a few more floors and reaching the 28th floor, aside from the spring water and special soil, they had only found two pieces of bright green. They had not found any more Imperial Green jade.

It seemed that his luck today was not good. However, when he controlled his character to dig the 28th floor before his stamina was exhausted, a system notification appeared in his mind.

[congratulations, you have excavated 5 catties of Earth's sweet spring!]

When Qin Lin first received the notification, he thought that they had dug up Earth Spring water again. However, after taking a closer look, he realized that this was not the case. This time, they had dug up earth sweet spring.

It was only one word different from the spring water of the earth.

Moreover, the earth Spring water was calculated by the barrel, but the earth sweet spring was calculated by the weight. There was only five pounds, which meant that the earth sweet spring was more precious.

Qin Lin was very curious about this new thing.

Seeing that his game character's stamina was almost there, he also controlled his game character to return to the farm, and then entered the game with a thought.

At the same time, he also saw the remark of the sweet Earth Spring:

[(extremely rare) Earth's sweet spring: Mysterious]

[this is a special spring water that is buried deep underground and contains the essence of the earth. It is very rare. It is rumored that the sweet spring water of the earth is used to mix with alcohol products at a 30% rate. After fermenting for three months, it can greatly increase the aroma and taste of alcohol (up to +3). Special effect: It could randomly increase the attributes of the wine by one grade! (Maximum +3)]

Qin Lin was a little surprised when he saw the attributes of the earthen spring. The extremely rare attributes were just as he had expected.

As expected, it was even rarer than the earth Spring water.

The quality was still mysterious. Usually, items like this that were not directly labeled with quality would have very strange attributes and effects.

Moreover, the Earth's sweet spring's attributes were indeed unique. It mainly had two attributes:

One was that it could greatly increase the wine's fragrance and taste, while the other was that it could randomly increase the wine's attribute by one grade.

This meant that the original +2 could become +3.

&Nbsp; moreover, the attribute effect didn't say that medicinal wine couldn't do it. After all, medicinal wine was an alcohol product.

Therefore, if he added it to the Linlin wine's attributes, it would turn +2 to +3.

Naturally, this attribute had a limit, and that was the highest it could reach was +3.

In other words, as long as the attribute reached +3, the sweet Earth Spring would no longer have any effect.

Qin Lin sighed when he saw the attributes. He still had another type of vitality wine.

There was no need to mention the properties of this vital Qi wine. It replenished vital Qi and could save one's life during critical moments. Previously, the Li family's old patriarch had been saved by this vital Qi wine.

However, the essence Qi wine's attribute of greatly replenishing essence Qi was +3. This meant that the Earth's sweet spring attribute could not be added to this attribute. Otherwise, how awesome would an attribute of greatly replenishing essence Qi +4 be?

It was truly a pity.

However, the effects of the Earth's sweet spring were still very great. After all, the Linlin medicinal wine only gave +2 attributes. If it was added to the attributes of yang, kidney, blood, and Qi circulation, it would still be very powerful.

Moreover, according to the 30% exchange rate, he could exchange 16 catties.

Qin Lin logged out of the game and went to the wine cellar. He found a barrel of wine in the corner of the cellar.

This barrel of wine was a hundred-year-old Linlin medicinal wine. Usually, after the medicinal wine reached a hundred years, he would take it out of the game. After a hundred years, the time was too long. It would definitely surprise people in reality, but there was no need to. Just a little bit of it was enough in the game.

Qin Lin brought this barrel of hundred-year-old Linlin medicinal wine into the game.

[Linlin medicinal wine: quality 3]

[this is a special medicinal wine that has been around for a hundred years. It has a special effect. The taste and texture are very good. Rich wine fragrance +3, taste +3, blood and Qi circulation +2, kidney and yang enhancement +2! [treatment of frequent urination and urgent urination +2]

The taste and aroma of the hundred-year-old Linlin medicinal wine had reached A +3 level.

This was also the reason why he had chosen the hundred-year medicinal wine. This way, he would be able to remove the fragrance and taste attributes, and the remaining special attribute could be added to the other three attributes.

As long as it didn't add to the healing of frequent urination and urgent urination, it would be fine.

Then, Qin Lin took out 16 catties of Qin Lin's medicinal wine and added in the 5 catties of Earth's sweet spring water.

Now, he just had to wait for the fermentation to continue for three months.

moreover, three hours in the game would only be enough tomorrow morning in reality.

After he was done, Qin Lin logged out of the game.

the next morning, after he delivered the goods to the villa, he went back to his office and entered the game as soon as possible. he saw the linlin medicinal wine he had mixed with the earth spring water yesterday.

[Linlin medicinal wine: quality 3]

[this is a special medicinal wine that has been around for a hundred years. It has a special effect. The taste and texture are very good. Rich wine fragrance +3, taste +3, blood and Qi circulation +2, kidney and yang enhancement +3! [treatment of frequent urination and urgent urination +2]

[Chapter 770 356-The Earth's Sweet Spring! Scared Away By A Glass Of Wine \(3\)](#)

Qin Lin's eyes brightened when he saw the properties of the 16 pounds of century Linlin wine. It had indeed been added to the effect of strengthening yang and nourishing the kidney.

Then this wine is awesome, right? If they were not eunuchs, they should be able to use it and it would be very effective.

This wine was now the best Linlin medicinal wine in his wine cellar, other than the vitality wine and the child-giving wine.

Qin Lin decisively took the Linlin medicinal wine out of the game. Just as he was about to put it in the wine cellar, he saw Chen dabeì enter the office and report, " " boss, a man who claims to be from the Wen family wants to see you. he also said that you know his purpose. he also brought bodyguards. should we drive him away by force? "

"The Wen family?" Qin Lin frowned when he heard the words 'Wen family'.

Wasn't the Chinese medicine industry's medicinal wine tasting conference mentioned by the Wen family? It seemed that the Wen family wanted to use the northern Chinese medicine to suppress the southern.

He had rejected the invitation of the Liu family, and now the Wen family from the North had come looking for him. Were these people crazy? No matter what, she wanted to get him involved.

He didn't need to think to know that the Wen family was definitely up to no good. They might be up to something again.

"Chase the other party away!" Qin Lin ordered. After some thought, he took out a small cup and poured a cup of the Linlin medicinal wine he had just brought out for Chen dabeì. He then said, " "Give this glass of wine to the other party and tell him not to bother me again."

Chen dabeì nodded, took the cup of Linlin medicinal wine, and walked out.

At the entrance of Linlin Manor.

Fourth weirdo Wen had really come looking for him.

Since he wanted the northern Chinese medicine to suppress the southern Chinese medicine, he would not allow anyone to escape. Even if the owner of Linlin Manor was rich and had a strong momentum, he was not worried about offending him as long as he achieved his goal.

After all, his medicinal wine was better than the other party's. When he returned to his own territory, those high officials and Noble people would need his wine. With the connections of the Wen family, the other party could not do anything to him in his own territory.

However, the owner of Linlin villa was really a Big Shot. He had actually made him wait for so long.

Finally, weirdo Wen saw the security Manager come out and asked, " "How is it? I can go in now."

Chen dabei snorted and handed the cup of Linlin medicinal wine to Wen Shikai, " "Our boss said that after drinking this glass of wine, you can leave on your own and don't bother him again."

This made fourth weirdo's face turn gloomy, not understanding what the other party was playing at.

However, he still took the wine. He guessed that it was Linlin medicinal wine. Was the other party trying to scare him away with a cup of medicinal wine? In that case, the other party's medicinal wine had to be able to crush their Wen family's wine to make him retreat.

But was that possible?

Weirdo Wen brought the wine to his mouth with confidence, but when he smelled the aroma, he was stunned.

He had never smelled this kind of wine fragrance before.

He couldn't even believe what kind of wine could have such an aroma. What year did this wine have to be to have such a rich aroma?

Fourth weirdo Wen subconsciously put the cup of medicinal wine in his mouth and drank it.

At that moment, he was completely stunned. He couldn't tell the age, which meant it was more than a hundred years old.

Moreover, after the mouthful entered his stomach, he instantly felt a strong warmth around his waist. It was very comfortable. He was a medicinal wine maker himself, so he naturally understood the effects of this.

But how could it have such a strong effect?

Moreover, after the warm current at his waist, he felt the blood and Qi in his entire body flowing smoothly.

Fourth weirdo Wen's face suddenly turned very ugly. This medicinal wine was really better than his Wen family's medicinal wine.

If their medicinal wine also lost in the evaluation meeting, what did the other party mean? She could have tortured him, but she didn't allow the Liu family to attend the evaluation meeting?

Could it be that the other party didn't want them to hold this evaluation meeting and didn't want internal strife in Chinese medicine, so he used such a method?

this was the only possibility that wen smonster could think of. otherwise, the most powerful person would not give him any face at all.

At this time, he was doused with a basin of cold water. He thought about it carefully. Chinese medicine had not been officially confirmed to be supported, and there was also the threat of Western medicine. It was indeed insensible to have an internal fight at this time.

Suddenly, fourth weirdo Wen returned the cup to Chen and said, "Please tell your boss that I understand his efforts."

With that, Wen Shikai left with his men, not forgetting to cup his hands in the direction of the manor with respect.

After that, he returned to Zhong min hotel and asked the people from the aristocratic families of Traditional Chinese Medicine in the North to leave.

The people from the Traditional Chinese Medicine families in the North were completely dumbfounded. After they left, the people from the Liu family were also dumbfounded.

Why did the Wen family leave?

In the Linlin Manor, Chen dabeai reported to Qin Lin, "boss, that person from the Wen family has left. He explained your painstaking efforts and even respectfully cupped his hands towards the manor.

"? ? ?"Qin Lin was also a little confused!

What was going on?
