

The Game 841

[Chapter 841 ! Major Breakthrough Wouldn't Cause Trouble! Would It?](#)

Ma Hong had also brought some people to look after her for the entire night.

"I've succeeded this time." Academician Zhu said with excitement.

Academician Sun also nodded. "I didn't think we would have a breakthrough on a problem that has been bothering us for so long."

"Let's go and see how the simulation is going." Academician Zhu couldn't care about anything else as he hurriedly returned to the manor with Academician Sun.

This sudden inspiration allowed him to take a huge step forward in the research of deep space exploration.

Although this step wouldn't immediately complete the rocket project, it was definitely a great improvement.

With this project, they could compete with the Star-Spy Kingdom to see who could finish first.

When Academician Zhu arrived at the specially-planned room, he saw Academician Fei smiling and asked, "How is it?"

Academician Fei said excitedly, "The institute's simulation experiment was a perfect success. Old Zhu, now we need you to write an application and let the people in the institute send it to the leader for signature. After that, we can create the parts and equipment and enter the physical experiment."

Academician Zhu clenched his fists tightly when he heard this. He didn't waste any time and hurriedly began to write the experiment application and then fax it back.

At the Chinese Academy of Sciences.

Minister Lu went to the leader's office early in the morning. Today was the weekly report working day.

The heads of several other departments also reported to him.

After the report, Minister Lu was asked to stay by the leader.

"Academician Zhu and the others have been to Linlin Manor for a while. How's the situation there?"

Minister Lu said, "Academician Zhu and the others have been recuperating in the manor. They are in good condition. Although they haven't made much progress in the next step of rocket research, they haven't fallen behind in their daily research work."

The leader nodded and said, "I'm just not sure if Academician Li's guess will come true."

They had some expectations for this.

If Academician Zhu and the others were to recuperate at Linlin Manor and break through like Professor Li Kai, then the meaning of Linlin Manor's existence would be completely different.

As the two of them were chatting, Minister Lu's phone rang urgently.

After picking it up, he couldn't help but get excited. "Really? You've made a big breakthrough?"

When Minister Lu hung up the phone, he immediately reported to his leader, " leader, last night at Linlin Manor, academician Zhu and the others suddenly had an epiphany. The special rocket research team has been doing simulation experiments for an entire night. Now that the simulation experiments have been successful, academician Zhu is going to apply for the manufacturing of parts and equipment and enter the physical experiment.

"Really?" The leader also stood up, his face was also filled with excitement.

it actually worked.

The two of them rushed out of the office and went to the special rocket Research Department to understand the specific situation.

After receiving the report, the two of them were even more shocked.

Academician Zhu's sudden realization was a big step forward. It could be said that this big step solved the biggest problem in rocket research.

Also, this proved that academician Li's conjecture was correct.

Linlin Manor was really becoming more and more useful.

Then, he would have to pay more attention to the maintenance of Linlin Manor. He would have to discuss it with boss Qin in more detail.

if boss qin suddenly changed the linlin manor and affected the current environment, this effect would be gone.

if such a thing really happened, it would be a huge loss.

After that, he would have to send Minister Lu to Linlin Manor.

After the leader confirmed the situation, he immediately signed and allowed the entire special rocket Research Department to enter the physical experiment.

Not long after, the Chinese Academy of Sciences released an official announcement: it was about the special rocket research department's major breakthrough in deep space exploration research and would enter physical manufacturing experiments.

As soon as this news came out, the technology Overlord of the star-law nation was a little dumbfounded. They were just boasting randomly and disrupting the rhythm of other countries. This Eastern country had also learned this trick and started to boast?

Back then, they had used this move to split a Big Bear into several bears.

Who would've thought that this move would be learned by someone else? didn't they know how capable they were? He even learned this move.

...

Ming city.

Zhou Hong had also arrived at the Food and Drug Administration with Linlin villa's high-quality vegetables. After lining up, she received the information and began to fill in the drug Test Application Form at a service counter.

However, her actions attracted the attention of everyone around her. Some even looked at her in surprise.

"Did that person bring vegetables?" A person in line asked in a low voice.

I think so. Is she going to do a drug test on these vegetables? " Another person said in shock.

these people were all from companies of various sizes. perhaps some individuals came to the drug inspection bureau for drug testing because their products or formulas needed to be tested for the effects of the drug before they could operate.

Ming city's drug Inspection Bureau had to receive many of these people every day.

To put it bluntly, there would be one more batch of products for the drug testing today and one would disappear the next day. Many people even took advantage of the situation and the products tested could not pass at all.

However, this was the first time they had seen someone bring vegetables for a drug test. Some of them even saw white radishes among the vegetables.

Was this a joke?

Even if he wanted to fish in troubled waters, he couldn't fish in troubled waters like this.

This made the people around them look at Zhou Hong and they all started discussing.

Zhou Hong also heard it, but she could only sigh silently and ignore it. After all, this was an order from her boss. Even if she was being watched like a monkey, she had to do it first.

the staff at the service window also looked at zhou hong. the expression on their faces was also a little off.

It was also the first time she had seen someone bring vegetables for a drug test. She even thought that this was a troublemaker.

fortunately, she was professional and would not take any action before seeing the other party's application form.

If she really saw the application form later and the other party was really here to cause trouble, she could just let the security guard deal with it.

zhou hong took some time to finish the application form. then, she handed the medical inspection application and the vegetables to the staff at the service window.

When the staff member got the information and saw it, he immediately felt that this person was definitely here to cause trouble.

[spinach: testing for its nourishing, strengthening, blood-replenishing, stopped bleeding, and blood-lowering medicinal effects.]

Just seeing this made her speechless.

Spinach had some related effects, but an effect was an effect, and a medicinal effect was a medicinal effect. They were completely different.

Many vegetables were effective for certain diseases, but why couldn't vegetables be used as medicine? That was because the effect was very low, and it had not reached the level of medicinal effect.

This was the difference.

This person was here to cause trouble, right?

As the staff member was thinking, he suddenly saw the name of the application unit and exclaimed, "Linlin villa!"

This voice attracted the attention of the staff at the other Windows of Linlin villa. Even the people waiting in line outside heard it and looked over in surprise.

By now, there should be no one who didn't know about Linlin Manor.

Although Linlin villa was still a 4A scenic spot, its reputation was no less than those 5A scenic spots. It had even entered the ranks of the top ten scenic spots in the country on the internet.

The key was that Linlin villa was really magical. There were many legends about it on the internet, and many things were even more peculiar.

There was also the Linlin food company, which had the same boss. Who knew about Linlin tomato sauce, Linlin leisure tea, and Linlin liquid medicine? Especially the recently popular Linlin hot spring powder. It was so popular that there was no end to it.

The person who brought the vegetables for a drug test was an employee of Linlin villa?

After knowing Zhou Hong's identity, everyone subconsciously had the same thought: Could these vegetables be a new variety of vegetables developed by professor Li Kai?

This was fame.

If it was an ordinary person who came to take the vegetables for a drug test, they would be causing trouble. If it was Linlin villa, it would be a new variety of vegetables.

The staff member knew that Zhou Hong was from Youli villa, so he immediately took out his phone and made a call.

[Chapter 842 This Vegetable Is More Useful Than Medicine!](#)

Similarly, the staff at the drug Inspection Bureau knew that Zhou Hong was from Linlin villa, so they didn't think that she was here to cause trouble.

It was not the first time that Linlin food company had sent their Linlin liquid medicine, Linlin leisure tea, and Linlin hot spring powder to the drug Inspection Bureau for testing.

The higher-ups had already informed them that once someone from Linlin company came for the test, they would call and report to them at once, and then make arrangements.

linlin company was growing day by day. although it was in you city, everyone knew that you city would not be able to accommodate linlin company sooner or later.

It was just like how Linlin's laboratory had already started to contract land in other counties in Ming city.

For a company that would become a giant, the other party's business naturally had to be given the highest priority.

of course, the most important person was professor li kai.

There shouldn't be anyone who didn't know professor Li Kai's family background, right?

There wasn't any Department in Ming city that didn't know what the Li family represented. Especially after the Li family's eldest son had advanced further.

The person in charge of the drug Inspection Bureau received the call and immediately came out to welcome Zhou Hong. He personally received her and said, " miss zhou, you've traveled a long way. please take a rest in the guest room. we'll arrange for someone to test the linlin villa's drug test immediately. "

"Then this is really troublesome." Zhou Hong was obviously a little awkward. This was the first time she had been treated so grandly.

When the people in line saw this scene, their eyes were filled with envy. However, it was not strange. It was normal for people from Linlin company to be treated courteously by these departments.

After all, there were only a few idiots who paid attention to absolute fairness. Although the words were unpleasant, if you asked Big Boss Ma to queue up like you with a salary of a few thousand a month, wouldn't that be brainless?

While the person-in-charge was entertaining Zhou Hong, he immediately arranged for the test personnel from the drug Inspection Bureau to conduct a drug inspection on the vegetables that Zhou Hong had brought.

zhou hong also left the drug inspection bureau very quickly. even if the person in charge personally arranged for someone to immediately carry out the test, the results of the vegetables would have to wait until the next day.

When the test personnel saw the test items of the vegetables, they were a little stunned. This was the first time. However, since the leader had arranged it, they could only carry out the test seriously.

A male examiner subconsciously brought over the okra for testing.

[qiu kui: testing effects: regulating the flow of the breast, clearing the drenching, and filling the kidney with essence!]

The last effect was obviously very eye-catching.

It was said that okra could boost one's strength. He really came to test this effect, but he didn't know if it was true or not.

The male inspector immediately took the tools and performed a special extraction on the okra, extracting a special component.

their test was actually very simple, because their comparison library had the relevant data elements, and the data of all kinds of drugs in the country were all in it.

as long as he took out these elements and compared them, he would be able to get the corresponding effect level.

the only problem was that the extraction process was locked from the inside, and it took a lot of time.

As time passed, the expression on the male test officer's face became more and more strange.

Because the elements he extracted from the okra actually had the effect of entering the kidney and filling the essence.

There were many medicinal herbs that could enter the kidney and replenish essence, such as foxglove, desertgrass, halberd heavenly centipede, and so on. There were also finished medicines such as the Wuzi Zong evolving pill, kidney and essence replenishing pill, ginseng and deer antler pill, and so on.

These medicinal materials and completed medicines all had this effect. Moreover, because of the different formulas of the medicinal materials and completed medicines, the grades of the effects were also different.

The effects of those finished medicines were naturally better than those of pure medicinal ingredients.

These comparisons were detailed in the information at the Food and Drug Administration.

But now, when he compared the ingredients extracted from the okra with the information, he got a shocking result.

Linlin villa's okra's effect of entering the kidney and filling the essence was actually stronger than the medicinal herbs and finished products on the market.

Are you kidding me?

It was just a vegetable.

But then, he had another thought.

Professor Li Kai is amazing.

Only professor Li Kai could cultivate such a vegetable, right?

Then, he tested the other two effects of the okra. What shocked him was that the effects of the lower breast regulating and drenching clearing were also stronger than the medicinal herbs and finished products on the market.

What did this mean?

The okra in Linlin Manor was equivalent to a medicine with medicinal effects. Furthermore, the medicinal effects were very strong.

This would make many pharmaceutical companies feel ashamed.

While the male investigator was still in shock, a female investigator beside him exclaimed, " it's really too shocking. You guys can't imagine how magical this white radish is.

as she spoke, she picked up a white radish and showed it to the others.

this white radish actually had several effects that were stronger than the finished medicines on the market.

However, this was only a white radish.

With this thing, would he still need to take medicine if he had such problems in the future? Wasn't it good to eat white radishes?

Wasn't stewed pork ribs with white radish fragrant?

It's very fragrant, alright?

After testing, not only the okra and radish, but also the vegetables sent from Linlin Manor were tested and found that they had a stronger effect than several drugs on the market.

They even felt that in the future, for this related illness, Youli villa would be more popular than the hospital.

In the end, they could only sigh again. Professor Li Kai was really amazing.

the next day.

Zhou Hong received a notice from the drug Inspection Bureau that the results of the drug inspection were out.

When she rushed to the drug Inspection Bureau and received the results, the expression on her face was quite interesting.

[Chapter 843 This Vegetable Is More Useful Than Medicine! The Number One Thief In The World?](#)

The vegetables she brought all passed the test, which meant that those vegetables really had that kind of effect, even better than many medicinal herbs and drugs.

...

Linlin Manor.

when qin lin came out of the office, he saw academician zhu and academician li.

Academician Zhu and the other two were picking out things from the manor's shop. After that, they arranged for the kitchen to cook. They even took the Linlin medicinal wine that he had just put in.

These things weren't cheap, but for the academicians, it wasn't a big deal.

After academician Zhu and the other two triggered the moonstone's attributes, they had been focusing on their research. Now, it seemed that there were results, so they were in a relaxed mood and came down to shop.

"Boss Qin!" When academician Zhu saw Qin Lin, he greeted him with a smile and praised, " your Manor is really amazing. I feel so relaxed living here. I'm so relaxed and my mind is so empty. I'm afraid there's no other Holiday Manor in the world that can compare to yours.

academician sun also agreed. " yeah, staying at boss qin's place will get you twice the result with half the effort. this time, we were also staying at boss qin's place. that's why we suddenly had an inspiration for the experiment. "

Now, the three of them agreed with academician Li's conjecture.

or rather, once they agreed, academician li's conjecture was already a fact.

Qin Lin was full of smiles. Then, he asked curiously, " "Academician Zhu, how's your research going?"

This was actually a secret.

Academician Zhu didn't hide anything from Qin Lin and said, " this time, we've made a huge breakthrough in the next stage of rocket research. We should be able to lead the Starstreak Kingdom in rocket research.

academician zhu's face was filled with confidence and pride.

For researchers like them, other than helping the country rise, their greatest wish was to help the country stand at the peak of technology.

Qin Lin was also very happy about this.

He had obtained the system, the story of the farm, and the moonstone. He was happy to be able to contribute in secret.

Qin Lin chatted with the academicians for a while, then went to Linlin villa to accompany Zhao Moyi.

Zhao moyin was pregnant. Although it was beneficial to the fetus and she would not have any physical problems, women were very sensitive at this time and could easily have mental problems. He naturally had to spend more time with her.

After spending some time with Zhao Moyu, he returned to the manor and saw Ma Hong leading two security guards to the training room.

This training room was originally reserved for patients who were recuperating, and it was very large.

It was just that the guests who lived in the manor, whether it was the three girls or the academicians, seemed to rarely enter the training room. They would rather take a walk outside, look at the scenery, or exercise at the sports field. Of course, sometimes they would also go to Linlin villa and Linlin Ranch.

The customers of the Linlin Manor could also go to the Linlin villa and the Linlin Ranch for free.

Therefore, the training room had become the activity room for the security guards. Chen Dabeai would occasionally come to exercise, but he was always tortured by the security guards.

The manor's security guards were all retired special forces soldiers, and they were still in good condition. Wasn't he looking for a beating?

But now, when these retired Special Forces soldiers saw Ma Hong bring two people in, they all looked at him with admiration.

The training of Ma Hong and the others had also tortured the retired Special Forces.

They weren't stupid. They knew that there were a few important academicians here. The new captain MA and the others must be of high status.

When Qin Lin entered the room, Ma Hong and the security guards were already training.

"Boss!"

"Boss!"

"....."

The security guards of the manor, who were retired Special Forces, greeted Qin Lin when he entered.

"Boss Qin!" Ma Hong immediately greeted him.

Qin Lin looked at the huge barbell that Ma Hong was holding and asked curiously, "Captain MA, do you have any special training methods? Can you teach me?"

He wasn't asking this on a whim.

After all, he had eaten two fruits of the tree of strength, and his body was very strong. It was just that he could only use brute force and didn't exercise normally.

If this went on, the physical strength gained by the fruit of the tree of strength would slowly decline.

There were many examples of world champions becoming big-bellied uncles.

Even the vitality gained from the fruit of the tree of strength would gradually weaken due to inertia.

Therefore, it wouldn't hurt to exercise regularly, especially for people like Ma Hong. They should be able to display their physical strength perfectly.

It would be even better if he could get Ma Hong to teach him some combat skills.

Men always had a special love for this kind of thing.

In case his identity was exposed to the public in the future, he might be able to use it.

When Ma Hong heard Qin Lin's words, he said tactfully, "Boss Qin, our training method is very bitter. With your status, there's no need for you to go through this kind of hardship. Besides, you can't handle our training method. You can't even lift the barbell in my hand. I can teach you some ordinary training methods."

Qin Lin knew that he was being looked down on. He squatted down with a smile and picked up a barbell that was as heavy as Ma Hong's. He raised it to Ma Hong and said, " "Captain MA, shall we compete? Let's see who gets tired first?"

Ma Hong was taken aback. He looked at the barbell in Qin Lin's hand in shock.

[Chapter 844 This Vegetable Is More Useful Than Medicine!](#)

An average person would not be able to lift a barbell of this level, let alone lift it so easily.

He didn't expect this young boss Qin to be so powerful.

Ma Hong's two subordinates and the retired Special Forces security guards also looked over. They were also surprised to see the barbell in Qin Lin's hand.

"Boss Qin, how about a match?" Ma Hong's interest was piqued. He agreed to Qin Lin's request and started to make a standard barbell-up and down gesture in front of Qin Lin.

He didn't mind that he had already trained a little, and he didn't mind doing it first. He would just take it as giving way to boss Qin.

he was very confident in this. even if he gave boss qin a few minutes, boss qin would not be able to beat him.

Seeing this, Qin Lin followed Ma Hong and did the same standard barbell up and down gesture. His speed was no slower than Ma Hong's.

"boss qin, you've really surprised me!" Ma Hong couldn't help but admire him. But as time passed, his face slowly turned into one of panic.

This standard barbell up and down gesture was too fast and consumed a lot of energy. When he felt that his arms were starting to ache, he found that boss Qin still looked relaxed.

This was not right.

Soon, Ma Hong's speed slowed down, while Qin Lin's speed was still fast and precise.

The endurance of two fruits of the tree of strength was not a joke.

When Ma Hong was obviously exhausted, Qin Lin was still as steady as a mountain, and his arm was slightly sore.

Ma Hong's jaw dropped in shock.

It should be impossible.

ma hong's men and the retired special forces looked at qin lin as if they were looking at a monster.

The ex-special forces security guards knew how crazy Ma Hong and his men were. Even if they were still in the military, their strength and endurance were far from Ma Hong's.

And now, this Captain Ma Hong was actually no match for his boss in terms of strength and endurance?

Finally, Ma Hong put down the barbell and exclaimed, " "Boss Qin, you're a monster."

"I also exercise regularly." "But, I still hope to learn from Captain Ma Hong," said Qin Lin.

Ma Hong couldn't deny Qin Lin's words. How could such strength and endurance be achieved through training?

Then wouldn't the extreme training that they had gone through be in vain?

However, it was an undeniable fact that boss Qin's strength and endurance were so terrifying.

Ma Hong had always admired the strong. His attitude towards boss Qin had changed. He didn't just see him as a rich man or an entrepreneur that the higher-ups valued. He saw him as a strong man.

Therefore, he didn't mind teaching him some training and fighting methods.

What Qin Lin didn't know was that while he was competing with Ma Hong, in the Amsterdam Museum in Helan, arsdad had also turned on his computer and was reading the news.

The news was about the eastern country. It was about the three paintings that cost a billion.

one of the paintings was one of their country's national treasures, van gogh's 'sunflower in the sea'.

They had to get this national treasure back. Van Gogh's painting was one of the symbols of their country. It was just that the threats from before were useless, so they could only let it go. However, they would not give up.

Originally, they had wanted to buy it back with money, but since the other party was so determined, they could only use special methods. Not only did he want to draw it, but he also wanted to teach the other party a lesson.

Arsdad said to his Secretary, " "You've found the person?"

the secretary nodded and said, " it's the number one international thief, mike. he has already accepted the mission. he must be there by now. he won't miss. "

"We won't be exposed, right?"

The Secretary smiled. don't worry. We can trust the person who handled it. However, Mike and the others need us to pay a deposit of 50 million US dollars before they can take action.

"Give him the money!" arsdad trusted mike's ability as the number one international thief. he had successfully stolen from famous international museums more than once. top agents from all over the world, including interpol, could do nothing to him.

Moreover, Mike had a good reputation. The deposit was the price of the other party. At least after the other party accepted the deposit, they would not be greedy because of the value of the painting. Both parties would take it.

If the painting was placed in a Museum in an Eastern country, he would have to worry about whether Mike would make a mistake and whether the 50 million dollars would go to waste. After all, it was public funds. If it went to waste and he didn't get anything, his position as the curator would be over.

However, the painting was only placed in a resort Manor in a Scenic Area. With the security of the scenic Area, if Mike still failed, then he would lose his face to be called the number one thief in the world.

As long as Mike stole the painting, they could make a trip to the International auction that they had designed. Then, they could put the painting in the National Museum openly. By then, the young man from the eastern country would be dumbfounded.

...

Linlin Manor was surrounded by mountains.

In a mountain far away from the manor, two figures quietly appeared. They were holding binoculars and looking in the direction of the Linlin Manor, observing the situation there.

One of them even drew the structure of the manor with a pen and notebook as he observed. After some time, he had drawn the structure of the manor.

Moreover, they also recorded the patrol routes and shifts of the security guards in the manor.

As the number one international thief, Mike would always make sure that he was 100% confident before he took action.

However, he really didn't care about this Holiday Manor.

"Mike, the deposit of 5000 dollars has arrived," someone next to him said.

Mike nodded in satisfaction. Since the other party was so law-abiding, he would naturally do it well.

Now, he just needed a good opportunity to ransack this villa.

[Chapter 845 386-Sufficient Preparation, Fail At The Beginning](#)

Linlin Manor.

In the training room.

Ma Hong and the other retired Special Forces guards were completely convinced by Qin Lin.

Ma Hong was panting heavily and covered in sweat. He couldn't continue his training, but Qin Lin was still performing a set of movements with ease and strength.

Ma Hong had taught him this set of movements, and it was indeed able to bring out all the strength in his body. After a dozen sets of exercises, he felt his body heat up, and the more he trained, the more comfortable he felt.

Ma Hong had already left quietly, feeling a little embarrassed.

He was a professional, but now he was being abused.

Walking to the side, he picked up a bottle of Linlin leisure tea and drank it, simply watching Boss Qin exercise.

The retired Special Forces security guards stopped their training and just looked at their boss.

They looked at their boss with respect in their eyes. This respect had nothing to do with their boss's status. It had nothing to do with the salary they received.

In the military, the strong were respected, and they revered the strong.

It must be known that Captain Ma Hong and the others had crushed their confidence in strength and stamina. Now, Captain Ma Hong had obviously lost his confidence after being crushed by the boss.

Qin Lin stopped after he had exercised to his heart's content. He also went to get a bottle of Linlin leisure tea and drank it.

It had to be said that the training method taught by Ma Hong was very effective. After this training, he felt that his body was very coordinated.

"Captain MA, let's continue sparring when you have time!" Qin Lin and Ma Hong greeted each other and walked out of the training room.

tsk, tsk. Ma Hong remained silent. Boss Qin's physical fitness was too abnormal. He felt like an idiot if he were to spar with him again.

Qin Lin went out of the training room to take a shower. He also asked the waiter to arrange a hot spring for him and enjoyed the kiss.

...

lin lanzi entered the manor with some medical reports, her face full of surprise.

This was the medical test report that Zhou Hong had brought back from Ming city. When she saw the medical test report, she was really surprised. The new variety of vegetables that professor Li Kai had developed was really amazing.

The results of the tests on these vegetables were even better than those of the medicinal herbs and the finished products on the market.

After entering the manor's main hall and seeing Qin Lin coming out of the hot spring area, Lin Lanzi hurriedly went forward and handed the test report of the vegetables to Qin Lin, saying, " boss, this is the test report of the high-quality vegetables that the field team brought back from Ming city.

Qin Lin took the test report of the vegetables. On it were the relevant grades of the various medicinal effects of the vegetables, and on the test report, the grade of the medicinal effect was the highest.

In other words, the attribute effects of a Grade 1 vegetable were better than similar medicines on the market.

This was really unexpected.

Was a quality 1 attribute really that strong?

He was more willing to believe that the medicine on the market was too shoddy.

however, this was also good. when they publicized it, the test report would be even more shocking.

" manager lin, ask the human resources department to make some advertising signs. we'll use the results of the medical inspection to promote these high-quality vegetables! " After Qin Lin looked at the results of the medical examination, he also gave Lin Lanzi instructions.

Originally, this kind of work was handed over to Qin Ren's Millennium production. However, as Linlin villa developed and expanded, the Human Resources Department could also do such simple things themselves.

Moreover, Qin Ren's Millennium Prize wisdom was now growing, and there were already a lot of small orders like this. There was no need to hand over this kind of business to the other party.

"Okay, boss!" After Lin Lanzi received Qin Lin's instructions, she also left the manor and returned to the villa to look for the HR department and explain the matter.

Time passed.

The sky gradually darkened.

Far away from Linlin Manor, the number one international thief, Mike, was already lying on a tree, resting, waiting for the time to hunt.

His companion was still using binoculars to observe the patrol trajectory and time of the villa's security guards, as well as the rotation time.

This process continued for a day and a night.

He was able to become the number one international pirate, and even the elite agents of various countries, Interpol, and even the FBI of the star rule country couldn't do anything about it, because he was cautious.

Before taking action, he had to grasp his target more carefully.

Even if the target in front of him was just an ordinary resort Manor in a Scenic Area.

Finally ...

on the second day, mike was ready to take further action.

They drove a car of unknown origin into Linlin Manor and disguised themselves as ordinary foreign tourists.

"Mike, the air in this villa is even better than that in the small city. This is amazing."

"Hogg, don't worry about this. Our mission is to get those three paintings."

the two of them entered the manor's hall as they talked and registered at the special reception window for foreign guests.

The waiter at the reception window also said very enthusiastically, " you two, your nuptial room number is 67. You can ask the service staff there when you reach the nuptial area. Also, you are the 100th international friend of our villa today, so we have a big prize for you.

This could be considered a small surprise that the villa would occasionally prepare.

Qin Lin would also prepare some things from time to time and hand them over to the villa's planner. They were usually some quality 2 things.

"Many thanks!" Mike also thanked him like a very polite foreign tourist, and then he took his companion Hogg to the nuptial area according to the signs.

when they arrived at the nuptial chamber, mike brought hogg to the waiter and went to his nuptial chamber.

The two men staying in the same nuptial room made the nuptial area attendant look at them strangely. After all, there was a saying on the internet about the nuptial rooms in Linlin villa, and that was 'sex room.'

[Chapter 846 386-Sufficient Preparation, Failure At The Beginning](#)

Usually, those who booked the nuptial chambers for two people to live together were couples, married couples, or men and women with some special relationship.

The two men were very strange.

However, seeing that they were two foreign men, he seemed to understand.

gentlemen, this is your nuptial chamber. You are our lucky foreign guests. Tonight, we will give you fine incense, and tomorrow, we will give you fine fruits. The waiter led the two to the bridal room and left.

After Hogg and Mike entered the nuptial chamber, they were somewhat puzzled."Mike, I feel that something is wrong."

"What's wrong? I didn't notice anything unusual around me. " Mike said doubtfully.

I felt that there was something wrong with the way the waiter looked at us, " Hogg explained. there's obviously a special meaning to that look, but I can guess it.

Mike said speechlessly,"Hogg, please don't pay attention to these things." We're here for the three paintings. Besides, won't you take a look at the foreigners you meet in your own country?"

"That seems to be the case." Hogg nodded, and then started to pack up with Mike.

at night, there was a computer in front of the two.

This computer was specially made, and Hogg had already simulated the rough terrain and structure of Linlin Manor and Linlin villa from this distance.

Next, Mike had to act according to the simulation.

However, there was still one last step left, which was to figure out the security duty points and the monitoring situation around the manor, and then arrange a specific retreat route.

Stealing the painting was only the first step. They still had to think about how to deal with it after stealing the painting. They also had to make sure that they were not suspected and could retreat calmly.

After all, if the three paintings were worth one billion Yuan, it would definitely cause a commotion if they were stolen. Although he didn't care about the police in this small place, if they were caught by the surveillance cameras or seen by the security guards, it would be less troublesome.

"This is the incense they gave us." Hogg held a bag of high-quality incense, and said in a rather boastful manner, this thing can be ignited. After it's ignited, it will emit a nice fragrance that will raise one's spirit and focus one's attention.

As he spoke, Hogg lit up the incense, and in a moment, a fragrant smell slowly spread throughout the nuptial area.

And this Premium Incense was a quality 2.

"Hogg, can you not focus on these things? our goal is the three flowers. I'm going out to investigate now. I'll send the information through the positioning device!" Mike said as he walked outside.

Hogg also sat in front of the computer, and a red dot also appeared on the simulated map.

It was the locator on Mike's body. It could clearly tell Mike's location, and Mike could also send back the detection information through this locator.

However, just a moment later.

Hawk looked at the Mike's movement, but he suddenly felt a little tired. His upper and lower eyelids kept fighting, and in the end, he couldn't help but fall asleep on the computer.

In the villa.

Mike pretended to be a tourist and walked around the mountain villa.

nowadays, the nights in Linlin villa were very lively. it was normal for Mike to come out, but foreigners would always attract some attention.

Mike didn't care about this at all. When they arrived at the manor, he started to explore the surroundings of the manor. After he had explored everything in the manor, he continued to explore the situation from the manor to the parking lot. This way, he could better determine the retreat route.

Soon, Mike found a hidden camera outside the manor. He immediately reached for the watch in his hand and pressed it.

The watch had a GPS setting and a reminder. When he pressed it, it meant that there was surveillance in the location.

After spending a long time, Mike finally got a clear understanding of what was going on. Then, he returned to the nuptial chamber area. But when he entered the nuptial chamber, he saw that Hogg was actually sleeping on his stomach.

"? ? ?" Mike suddenly had a bad feeling and immediately looked at the computer. As expected, he saw that nothing was marked on the simulation except for the starting point.

This bastard!

All his hard work was in vain?

"Hogg, get up." Mike ruthlessly smacked Hogg.

Hogg fell directly to the ground, only waking up from the pain. He asked in confusion, "Mike, why did you come back?"

bastard, " Mike said unhappily. you asked me. I've already spent so much time investigating, and you actually fell asleep. I only recorded a point outside the nuptial chamber.

" ? ? ?" Hogg was now somewhat dumbfounded.

he seemed to be a little sleepy and hurriedly looked at the time. after seeing the time, he immediately apologized, " Mike, listen to me. This is my fault. So, I'll go out and investigate. You'll mark it!

He didn't want to make Mike angry.

although they were business partners, he relied more on mike, the number one thief in the world.

"Get out and do your work!" Mike shouted in a bad mood.

this was a huge mistake to him. this kind of mistake could be fatal at a critical moment.

if hogg made the same mistake again, he would have to consider whether he should change partners.

Hogg didn't dare to hesitate. He had already taken the watch with the positioning device and transmission function from Mike's hands. Then, he left the nuptial room with a trace of sleepiness.

This time, Mike sat in front of the computer and looked at the simulation. However, as he looked at it, he also felt a wave of sleepiness slowly attacking him.

[Chapter 847 386-Sufficient Preparation, Falling At The Beginning](#)

This sleepiness made him feel that something was wrong, and he hurriedly resisted the sleepiness.

The attribute effect of a Grade 2 incense was stronger the more one endured it. As the number one thief in the world, Mike was able to endure it for a short period of time under the grade 2 incense.

But 10 minutes later, 20 minutes, and half an hour later, Hogg returned to see Mike lying on the computer, snoring evenly.

Hogg.

After a while, Hogg woke Mike up.

This time, Mike looked at the time and also felt that something was wrong. Then, the two of them suddenly looked at each other.

"Something's wrong!"

"En!"

The two of them reached a consensus!

As international thieves, the two of them quickly locked their eyes on the lit incense and hurriedly put it out.

After a while, Mike also found that his sleepiness had disappeared a lot.

Hogg, " Mike said to Hogg, annoyed. didn't you say that this thing is to boost one's spirit? why did it turn out like this? "

"Perhaps, this thing is a little different from what I know," Hogg said, embarrassed.

"FUCK!"mike directly cursed.

Going back and forth like this was simply a waste of time.

Moreover, in order not to be suspected, the two could only sleep in the nuptial chamber for one night. It was not until the next day that Mike went out again, pretending to be a tourist to stroll around and investigate the situation again.

This time, there was no accident.

When Mike returned to the nuptial chamber, Hogg had already come up with the best course of action.

"Now we just have to wait for the night to come." Mike said as he memorized the route.

The two of them began to recuperate. When it was late at night, when most of the tourists had fallen asleep, the two of them began to move. They easily found a hidden place around the manor.

This place was a blind spot of the surveillance cameras, and they could enter the manor from here without a sound.

As international thieves, the two of them were very agile. They entered the manor easily.

Inside was the area for ornamental bamboo. In the bamboo forest, under the cover of darkness, no one noticed them.

" wait a moment. there will be two security guards passing by in 10 seconds. " Mike looked at the time and whispered to Hogg.

.....

"En!" Hogg nodded.

Sure enough, a moment later, two security guards walked past the front of the hall.

It was exactly as they had calculated.

At this moment, Mike also took out his binoculars and looked in the direction of the hall. He said, " there are only two waitresses on duty in the hall. After you go in, each of you will take care of one. Then, within 30 seconds, you will destroy the display stand and leave with the painting.

"En!" Hogg nodded.

almost at the next moment, the two of them scurried out and went straight to the manor's hall at an extremely fast speed.

As international thieves, speed was their specialty.

Mike entered the hall and directly rushed to a waiter on duty. When he was behind the waiter, he chopped the back of the waiter's neck before the waiter could react.

Then, the waiter passed out and fell to the ground.

Mike showed a confident smile. This matter was too easy for him.

Seeing this, Hogg didn't want to be left behind. He appeared behind another waiter. His methods of dealing with an ordinary waiter were no worse than Mike's.

However, just as he was about to chop off the waiter's neck, the waiter suddenly turned around and grabbed his hand.

This waiter was naturally one of Ma Hong's group.

She had already discovered it after Mike had knocked out a waiter. How could she let Hogg succeed again?

Hogg's expression instantly changed. He immediately wanted to fight back, but the waiter's strength was very strong, and he directly threw him over his shoulder and smashed him to the ground.

Hogg immediately agreed.

Mike was also shocked.

He knew Hogg's strength, and agents from all over the world and Interpol were no match for him.

What was going on now? A female attendant of this Manor had actually knocked Hogg out.

What kind of joke was this?

At that moment, more than one set of footsteps could be heard. It was the waitress in disguise, giving Ma Hong and the others a warning.

Then, the alarm went off.

Mike also knew that things were going to be bad. He didn't dare to hesitate and hurriedly attacked the waitress.

As the number one thief in the world, he was more skilled than the waitress. After a few attacks, he forced the waitress to retreat. He then pulled Hogg up and shouted, "Retreat, mission failed!"

Hogg's expression was extremely ugly. After working with Mike, he had stolen from many museums, but this was the first time he had encountered a mission that failed so quickly.

This villa was too strange. A waiter actually had such skills.

Mike and Hogg immediately rushed out of the manor's Hall, and there were already people in security uniforms surrounding them.

Mike and Hogg didn't care about these people. They could easily take down some ordinary security guards. Even if the mission failed, they could still leave calmly.

But as soon as he began to teach the security guards, Mike realized that something was wrong. These people were not ordinary security guards at all. They were even stronger than the elites of the Interpol.

Mike's face turned even uglier.

These were naturally the manor's retired Special Forces guards. Under their siege, Mike and Hogg were forced back into the hall.

At this moment, a huge fist was thrown at Mike.

it was ma hong.

Mike felt the danger and subconsciously tried to block it. However, under this fist, his resistance was powerless. His shoulder was caught in an instant. Before he could react, he felt his entire body float and he was smashed to the ground.

Before he could react, two people stepped forward and held him down, making him unable to move.

Mike was subdued, and Hogg immediately followed in his footsteps. He was also kicked by Ma Hong and flipped over. He fell to the ground and spat out a mouthful of blood.

Hogg was also held down by the two, his face filled with disbelief. How could this Manor have such a terrifying expert?

This was very illogical.

Furthermore, how could the eastern countries be so terrifying? If an ordinary Scenic Area had such security measures, could this be the reason why the eastern country was said to be a forbidden zone for mercenaries?

After Mike was captured, he said angrily, " "You guys knew I was going to steal the painting, and you even ambushed me with so many experts! Damn it, this is a trap!"

[Chapter 848 The Unlucky Number One International Pirate](#)

Mike could only think that he had been tricked.

He believed that from the moment the other party approached him for the 50 million USD Commission, it had been a scheme.

otherwise, how could there be so many experts lying in ambush here?

these people were all more skilled than the elite agents of various countries and interpol.

Moreover, with his skills, he was not the man's opponent at all.

if it wasn't to set up a trap to catch him, how could there be so many experts in the scenic area?

When Ma Hong heard Mike's words, he coldly walked in front of Mike and asked, " "Set up a trap to catch you? What are you saying? Now tell me honestly who you are and I can let you suffer less. "

how could he believe the other party's nonsense?

The academicians were here, and the rocket research breakthroughs of the three academicians were stored in the experimental computer.

The two guys in front of him were not weak. They might be some special agents. If the information was stolen, it would be a big deal.

how could he believe that the other party was using such a low-level method to confuse him?

Mike was stunned when he heard Ma Hong's words. "You don't know me? You didn't ambush me?"

He was even a little dazed now.

He firmly believed that there were so many experts lying in ambush here to deal with someone. Now, he had barged in and stepped on a mine for someone else.

"i'm not the person you want to deal with. do you believe me?" Mike wanted to cry but had no tears.

If he said that he was not good at stealing, he would admit it.

However, it was obvious that it was not because he was not skilled enough, but because he was simply unlucky.

Who was he going to reason with?

Ma Hong's face darkened when he heard Mike's words. they really won't give up until they see the coffin. Ask manager Chen to arrange a place for them to stay and entertain them.

It was not the first time he had encountered such a stubborn enemy.

He had plenty of ways to make the other party speak.

Some of the retired Special Forces soldiers and security guards also began to contact Chen dabei.

When Chen dabei received the call, he immediately rushed to the manor.

It was no small matter that the manor had been broken into by illegal people.

That was where the boss lived, and there were a few academicians there.

Chen dabei heaved a sigh of relief when he saw that Mike and the other man had been subdued.

"Captain MA, do you know who these two guys are? what's their purpose?" he asked Ma Hong.

manager Chen, " Ma Hong said, " I want you to arrange a place for them. It's not good to do it in this Manor. I'm afraid it'll disturb boss Qin and the academicians 'rest.

"I know, follow me." Chen dabei then walked out of the manor and called Captain Hong.

The only way to interrogate these two guys was in the security room where Captain Hong and the other tourist police officers were.

Moreover, in his mind, only Captain Hong and the others had the right to interrogate him. The security guards had no right to do so, so it was only natural that they informed Captain Hong.

Ma Hong also led his men to drag Mike and Hogg out of the manor. In their current state, Mike and Hogg didn't even have the ability to resist.

Although Mike wasn't very familiar with the language of this country, he could tell that these people seemed to be using some means to deal with them.

"Everyone, I'm really not the person you want to deal with. You've got the wrong person." Mike's face was full of bitterness. Looking at this group of people, he seemed to know that he was about to be in trouble. He could only explain that he still thought that he had stepped on a mine for someone else.

"you talk too much nonsense!" Ma Hong snorted coldly.

Immediately, someone elbowed Mike hard, making Mike's nose bleed and he almost fainted.

Seeing this, Hogg immediately shut his mouth.

The situation was already so bad. He didn't want to suffer anymore. He even thought about how to expose Mike and make himself feel better.

Since he had already lost, he knew that Mike, the number one thief in the world, must have committed a more serious crime. He was only a support.

Mike and Hogg were brought to the tourist police security room in the mountain villa. Captain Hong was already waiting there with his men.

He was also nervous. After all, he knew how important the Linlin Manor was. Not only was boss Qin in the manor, but there was also the academician and the three paintings worth one billion Yuan.

If anything happened to Linlin Manor, it would definitely be on the hot search. At that time, they would all be investigated.

The key was that the people he arranged to patrol didn't notice it. This was a huge oversight.

When Captain Hong saw Chen dabei with two men, he immediately stepped forward and said, "manager Chen, hand these two guys over to me. We'll interrogate them and find out their purpose.

Chen dabei nodded and turned to Ma Hong. Captain MA, leave that person to Captain Hong. They are professionals.

Ma Hong stepped forward and made a call. Then, he said, "I'm going to take over Linlin villa's security Office."

he hung up the phone and said to captain hong, " you'll get a call later. I'll take over.

Captain Hong and Chen dabei looked at Ma Hong in shock, not understanding what was going on.

However, not long after, Captain Hong's phone rang. The number on the display was actually a call from the city Bureau.

He hurriedly pressed the answer button.

This number could not be faked, and no one could fake it.

After Captain Hong hung up the phone, he looked at Ma Hong in disbelief. "Sir, if you have any orders, please speak."

[Chapter 849 The Unlucky Number One International Thief \(2\)](#)

He had never thought that there would be such a person in Linlin villa, and most importantly, he was wearing the Linlin villa's security uniform.

Oh my God.

if it wasn't for what had happened today, he wouldn't have known the other party's identity.

Linlin Manor must have some unknown secret.

However, after knowing Ma Hong's identity, he didn't dare to pry into the secret. He didn't want to get himself into trouble.

"Where's the interrogation room?" Ma Hong asked.

"Follow me," Captain Hong hurriedly led the way.

Ma Hong and his men followed Captain Hong in, leaving Chen dabei behind.

Chen dabei suddenly felt a buzzing in his head. This Captain MA, who was just hanging out with him, did not seem to be a simple person.

The interrogation room in Linlin Manor's security Office wasn't big. After Ma Hong brought Mike and his men into the interrogation room, he began to interrogate them.

Captain Hong was very tactful and left, because he knew that he could not get involved in the affairs of this Department.

After Ma Hong sat down, he glared at Mike and the other man coldly. "Tell me, Who are you? Which country did you send the spy?"

mike had also woken up from his daze. hearing the word "spy," he was even more certain of his previous guess. he hurriedly said, " I'm really not the person you're ambushing. I'm only here to steal the painting. You've got the wrong person.

"You really won't shed a tear until you're in your coffin ..." Hearing Mike's stubborn words, Ma Hong's face turned cold. He said to one of his men, " "Greet him!"

"Understood," the subordinate nodded.

A moment later, shrill wails were heard from the interrogation room.

The villa's remodeled interrogation room wasn't very soundproof. Captain Hong and the tourist police on duty could hear the sounds coming from inside.

First, it was Mike's voice, then Hogg's.

Then, they intertwined.

Captain Hong broke out in a cold sweat. This method was too strong.

"Captain, will there be any problems?" A patrol officer on duty asked worriedly.

Captain Hong shook his head. we'll cause problems if we do this. They won't!

What a joke, what kind of people did the people in that Department want to deal with? There weren't many restrictions at all, alright?

Finally ...

The screams in the interrogation room stopped, and Mike and Hogg were already slumped in their chairs like a pool of soft mud. They had obviously been treated inhumanely.

Mike and Hogg could also see the fear in Ma Hong's eyes. In the eyes of these two international thieves, Ma Hong and his men were obviously demons.

However, what was suspicious was that there were no wounds on the two of them.

It could only be said that Ma Hong's methods were very high.

ma hong was still looking at mike coldly. " if you don't want to be tortured anymore, tell me which country you were sent from. how do you know about the situation at linlin manor? "

Mike felt like crying. They were really not sent by any country. Thinking of the torture just now, he could only say weakly, " we're really not what you think we are. We're really here to steal the painting. Please believe me.

Hogg also hurriedly said, " he's telling the truth. Someone gave him 50 million dollars to hire him. I'm only his assistant. He's the mastermind. He still has a lot of money and treasures.

when mike heard this, he looked at hogg in shock.

Hogg didn't look at Mike. He quickly looked to the side.

This was not the answer Ma Hong wanted to hear."very good. i also admire tough guys like you."

As he spoke, he gestured to his subordinates.

"Understood." The cruel underlings.

Mike and Hogg panicked when they saw this.

A moment later, two more shrill wails rang out in the interrogation room. The sound gave people goosebumps.

When the sound stopped again.

In the interrogation room, Mike and Hogg were already drenched in sweat, and the fear on their faces grew.

These people were definitely demons.

"Speak!" Ma Hong asked again.

Mike's face was full of fear as he anxiously said, " "I'm really here to steal the painting, Yingluo."

"Very good!" Ma Hong interrupted Mike's words. He didn't want to waste any more time and gestured to his subordinates.

"Understood!" The subordinate nodded.

In the next moment, a shrill scream was heard again. This time, the voice seemed to be begging for death.

When the shrieking stopped.

Mike and Hogg were already panting heavily with fear on their faces. The series of tortures they had just experienced had really made them collapse.

This time, before Ma Hong could ask, Mike said anxiously, "I really did steal the paintings. Someone really gave me 50 million dollars as a deposit to steal the three paintings at Linlin Manor.

I'm telling the truth. I'm still wanted internationally. They call me Mike, the world's number one thief. I'm the one who committed all the theft in the famous museums in New York, Belgium, and Avia forest. I can tell you the whole story. You locked me up. I'm really not someone you want to deal with.

"I've been preparing for a long time in New York, Yingying."

Mike couldn't take it anymore, so he confessed everything he had done.

He just wanted to prove that he was not a spy. Once he was treated as a spy, he might lose his life. As the number one thief in the country, even if he went to jail, he still had a chance to live and escape.

[Chapter 850 The Unlucky Number One International Pirate](#)

Hogg also hurriedly said, "What he said is true. He was the one who committed all those theft cases. I'm just a support. I know that he has a Black Gold account with 1 billion US dollars. He has hidden antiques from several countries in a place on the Love Coast. You can interrogate him and find out where these things are. What I said is true.

Mike's eyes widened as he stared at Hogg.

This time, it was Ma Hong and the others 'turn to look at each other.

.....

Even at this point, these two guys still had this attitude. If they weren't really tough men, then they might be telling the truth.

"Captain, maybe they're telling the truth." One of the men asked Ma Hong in surprise.

It was true. The fear in their eyes was not faked. If they were really tough people, even if they were pretending to be afraid, the fluctuations in their eyes would be different.

Especially that Hogg, he was completely frightened.

"Check according to the information they have." Ma Hong said to the man. The man didn't hesitate. He took out a computer and started working.

A moment later, he turned to Ma Hong with a strange expression. "Captain MA, look!"

Ma Hong went over to take a look, and he was also stunned. There was indeed a lot of information about Mike on the paper.

Moreover, if this information was not fake, then Mike was really amazing. He was the number one international thief and had committed so many cases. Elite agents from various countries and Interpol elites were helpless against this guy.

The Interpol had tried to ambush him many times, but he had always managed to escape.

However, looking at the two's frightened faces, it seemed that the Interpol was too useless.

"Confirm if the information is true." Ma Hong cautiously ordered.

This news and Mike's information were several years apart.

Although he was sure that it wasn't fake, since there was no Linlin Manor at that time, and no one knew that the three academicians would make a breakthrough in the Linlin Manor, it was better to be careful.

After a while, a few people finally confirmed that the news and information about Mike were true.

In other words, this guy was really the number one international thief who had come to Linlin villa to steal the painting.

This was a huge mistake.

Captain, Mike is the number one international thief, " someone beside him reminded. he has one billion dollars in his hands and many national treasures from various countries. Since we've caught him, we have to get those things back from him. And that guy beside him, since he's with Mike, he must have a lot of dirty things.

When Ma Hong heard this, he suddenly revealed a strange smile. He naturally knew what these words meant.

Mike seemed to understand their words and hurriedly said, " "His name is Hogg. I know that he has a Switzerland bank account with 300 million US dollars. He also has a priceless treasure in his hands. It seems to be the head of some animal. I asked him to partner up for this thing in his hands."

"Mike, what are you talking about?" Hogg became anxious when he heard this, and he glared at Mike angrily.

I'm telling the truth, " said Mike. the treasure in your hand seems to be the National treasure of this country.

Ma Hong and the others all looked at Hogg.

In that instant, Hogg felt as if he had entered a freezer, and his entire body was cold.
