

The Game 891

[Chapter 891 The Kappa Is A Little Anxious \(3\)](#)

[that's great! Since you're willing to help for free, then please work hard to plant the cucumbers. Remember to throw them once a day after they're ripe. After 10 times, the Kappa will respond!]

" ? ? ? "qin lin was stunned when he saw the conversation.

Free help? What did that mean?

He didn't say it was free! He didn't say he wanted a prize!

Was this the reason Thomas had specially asked if they were fine?

But before Qin Lin could think further, Thomas had already run away in the game.

qin lin's face twitched.

Did Thomas know that he was so easily seen through?

I thought he was generous with his story missions and the rewards were great. It turns out he was a deadbeat.

it seemed that he could only count on sister kappa for the reward of this mission.

Moreover, since he had accepted the mission, he had to do it. He could start planting cucumbers then.

He didn't know why sister Kappa had a special liking for cucumbers.

Could it be that

Qin Lin suddenly smiled evilly.

Then, he thought of something else. Why did he plant the cucumber?

He had a lot of cucumbers for beauty in his villa, so why not just bring some over?

qin lin immediately went out of the office and went to the shop in the manor. under the surprised gaze of the waiter, he took a dozen cucumbers back to the office and brought them into the game.

After the dozen or so beautiful cucumbers appeared in his game character's backpack, he also logged out of the game. Then, he controlled his game character to head to the area where the river child goddess had appeared and began to throw the first beautiful cucumber down.

After a while, the cucumber sank into the river and disappeared without a trace.

Qin Lin wasn't in a hurry. In the game, sister Kappa would only respond if he sent cucumbers for ten days in a row.

Therefore, on the second day, Qin Lin once again controlled his game character to go to the goddess mountain to deliver the beautiful cucumbers to the Kappa. It had been ten days, and this was only the second day. It would take another eight days in a row to get it.

He threw the cucumber salad into the river, but something unexpected happened. A Whirlpool suddenly appeared on the river. Something had obviously happened.

He immediately thought of something.

Sure enough, in just a moment, a figure came out of the vortex. It was the strange-looking sister Kappa.

But something was wrong.

He had said that he would throw the cucumber 10 times. Why did it appear the second time?

Sister Kappa's conversation also appeared at this time, "

[are you also here to bring me cucumbers today?]

[yes? [no?]

Qin Lin chose "yes" again, and then sister Kappa urged him,

[hurry up and give me the cucumber. I'll give you a gift as thanks!]

Seeing this, Qin Lin decisively threw the cucumber salad down.

When Kappa received the cucumber salad, it started the conversation again, "

[thank you so much for your cucumbers. You've won my favor. I hope you can give me more cucumbers in the future. This is a gift for you!]

[you have received a mystery gift bag from the Kappa!]

as the system notification appeared, qin lin saw kappa disappear into the vortex, and then a gift bag appeared in his game character's bag.

However, the grand prize was pink and had a heart shape. Something was wrong.

Qin Lin didn't care so much. After he got the prize, he directly opened the gift bag.

In the next moment, the pink gift bag disappeared into a ball of light, and two items appeared in the game character's bag.

That's right, sister Kappa actually gave two gifts, which seemed to be too much.

[Chapter 892 Two Exotic Prizes! Finally Become A Fisherman! 1](#)

[congratulations, you have received a Kappa gift, Kappa fragment!]

[congratulations, you have received a Kappa gift, Kappa happy stone!]

Qin Lin immediately looked at the game character's backpack and saw the two items.

They were two crystal-like objects that were shimmering with a faint light.

Especially the Shard of the Kappa, which directly attracted his attention.

Qin Lin wanted to say again that sister Kappa was very generous.

The Shard of a Kappa was similar to the fruit of the tree of power in the game, which could increase some attributes or abilities of the protagonist.

However, the attributes and abilities recorded on the Shard were random, so he didn't know what the attributes of this shard were.

As for the Kappa's happiness stone, he had no idea what effect it would have.

He had never seen such a thing in the old version.

Qin Lin didn't hesitate. He locked the office door and entered the game to check the remarks of the two items.

[shard of the Kappa: mysterious!]

[this is a special treasure collected by the Kappa. It records some random mysterious abilities. After using this Kappa fragment, it will have a special effect: [swimming +3]

Looking at the information of the Kappa's fragment, Qin Lin was somewhat disappointed. Swimming ability +3, as the name suggested, should be an increase in swimming ability.

He knew how to swim, and he had been struggling in the small river in his hometown since he was young. Then, he went to the big River, and finally to the reservoir, so he was very good at swimming.

With this +3 in the water attribute, he could easily crush the world Swimming champion.

He just didn't know if he would be drowned by anyone else.

Qin Lin looked at the other Kappa's happiness stone.

The name of this item was a little weird, but he was a little surprised when he saw the remarks.

[Kappa happiness stone: mysterious!]

[this is a special stone collected by Kappas. It is generally not obtained by humans. It is mainly used at the source of a stream to let the people playing in the stream experience: Fun in water +3, childlike fun in water +3!]

The name of this thing was weird, but its function was not weird at all. On the contrary, it was a pleasant surprise.

The only place in the Qin Lin villa where one could play in the water was the water-drifting event.

However, this drifting project did not have any additional game attributes. It only attracted customers by the fun of the project itself. Therefore, there was basically no introduction to Linlin villa's drifting on the internet.

After all, there were drifting events everywhere, and many places even had their own unique drifting.

Some of the guests had only found out about the drifting program at Linlin Manor after they had arrived.

Furthermore, the price of the driftsnow was the same as the usual price of the driftsnow in other scenic spots.

Now that he had the attributes of the Kappa's happiness stone, drifting would be awesome.

Fun in water +3, child's fun in water +3, it could basically make the visitors go crazy and forget to leave.

There was a saying, "the happiness of summer is given by soaking in water, and the happiness of soaking in water is the meaning of summer."

This also indirectly explained the fun of playing in the water. Sometimes, no matter how old one was, they would play in the water like children.

Now, these two +3 attributes could increase the fun to the extreme.

Moreover, after thinking about it carefully, it seemed that the only way for him to find the source of the river was to look up the mountain.

As for the other rivers and even the reservoir that the villa passed by, if they wanted to find the source of the water, the river would bend to the East. They really didn't know where to look.

A Kappa fragment and a Kappa happiness stone appeared in Qin Lin's hand, and he immediately received a notification:

[do you want to use the Shard of the Kappa? Who was it? [no?]

[do you want to use the kappa happy stone? [no usable water source found. If the source of the water flow is found, throw it in and it can be used and recycled!]

Obviously, these two items could be used immediately, while the other Kappa happiness stone could only be used after finding the source of the water.

Qin Lin put away the Kappa happy stone and chose to use the Kappa fragment.

A moment later, the Kappa's fragment glowed with a faint light, turning into Starlight and quickly drilling into his body.

However, this time was different from before. He didn't have the same experience as before, and he didn't have muscle memory.

When the light spots completely disappeared, he didn't even feel anything special, as if nothing had happened.

This made him very puzzled!

It shouldn't be.

However, since this item had a remark of water +3, it was impossible for it to be completely ineffective. He should try it in the water to find out.

Qin Lin logged out of the game and went back to his office. He called Chen dabei.

The Kappa's happiness stone needed to go up the mountain to find the source of the river. Chen dabeï had to lead his men to find it first.

otherwise, it would be a waste of time to go alone.

"Boss, what's your order?" Chen dabeï asked respectfully as soon as he entered.

Qin Lin also told her his purpose directly.

"Don't worry, boss. I'll get some people to do it!" Chen dabeï did not ask for the reason and went to get it done.

Qin Lin, on the other hand, left the villa and drove directly to a water jump platform at the reservoir.

There were many diving platforms in the East of the reservoir. At different times of each year, even in the winter, there would be people swimming in those diving platforms.

Qin Lin drove directly to an empty diving platform. After he parked the car, he changed into his swimming trunks and went straight to the diving platform.

[Chapter 893 Two Exotic Prizes! He Finally Became A Fisherman \(2\)](#)

These diving platforms were very high. It was said that they were built by the Army for training in the past. They were about 10 meters high. Ordinary people standing on these platforms might not dare to jump down.

However, Qin Lin didn't feel anything about it. After all, he and Qin Ren had dared to jump down from here when they were in junior high school.

When they reached the edge of the diving platform, all they had to do was take a deep breath, jump out, and jump straight down.

With a plop, Qin Lin's entire body sank into the water.

However, the moment he entered the water, he felt something different. In the past, he would feel a sense of weightlessness when he jumped into the water from 10 meters. He would feel a sense of drowning in the water for a moment, and he would need to swing his arms and legs to maintain balance.

But this time, when he sank into the water, he didn't feel much sense of weightlessness, nor did he feel that he had lost his balance. With a slight push of his legs, he easily jumped to the surface of the water, like an agile fish.

This feeling was extraordinary.

He knew it must be because of the +3 attribute in the water.

Moreover, it seemed that because of the +3 attribute, he had a special feeling of being wrapped in water. It seemed that the water's assistance to him had become very different.

Qin Lin immediately started swimming freestyle, which was his favorite way of swimming.

In the beginning, he paddled like a dog. However, after he was despised for his dog paddling, he learned how to swim.

However, freestyle was a waste of energy.

However, this time, he could clearly feel that the water resistance seemed to be much weaker than before, and the physical strength he used up was also very little.

With a slight wave of his arms and legs, he could almost leap a very long distance.

Qin Lin was suddenly full of energy. He swam forward with all his might. Because he had eaten two fruits of the tree of strength, plus his water attribute +3, he was like a cannonball.

His speed was so fast that even the best freestyle champion in the world would not be able to keep up with his speed.

Or rather, even a world freestyle champion wouldn't have the courage to swim at this speed.

On the reservoir.

A small boat was wandering in an area, and there were several people on it. One of them was pouring fish feed into a grid box next to it.

There was a large continuous stretch of lattice boxes with all kinds of fish and many shrimp cages in it.

On the other side of the boat, a man with an unkempt beard was fishing with a fishing rod.

Suddenly, one of them said to the bearded man who was fishing, "Boss, what's that thing? It's so fast."

Liu Hua raised his head in confusion and looked over. He was surprised, "That's a human?"

Not far away from the reservoir, a person with only half of his head exposed was swimming towards them. However, the speed of his swimming was too inhuman.

At this moment, the others all turned their attention to that side.

All of them were dumbfounded.

Was that really a human swimming?

But how could a human swim so fast?

In the blink of an eye, the swimmer seemed to be approaching them. It was the first time they had seen someone swim so fast, so they were inexplicably nervous.

The other party's aura was terrifying.

Qin Lin didn't know how long he had been swimming for. Because he had eaten two fruits of the tree of strength, his endurance was full, and his swimming attribute +3, he really felt like a fish at a moment, as if he could swim lightly on both sides of the reservoir after more than ten rounds.

Qin Lin also found something while swimming. He stopped and came out of the water to see the boat and the lattice boxes not far away. He was also stunned.

Since when did people rear fish in this place?

The key thing was that when he looked over, he found a man with an unkempt beard who looked familiar, but he could not remember where he had seen him before.

The people on the boat were also a little surprised to see Qin Lin.

"I think he's the internet celebrity, little Qin!"

"It's a little similar!"

"That's him. He's very good at riding."

"It seems like he's better at swimming!"

"....."

They couldn't help but take out their mobile phones to take a picture. They would be letting themselves down if they didn't post this scene on their moments.

This was a f * cking great swimmer.

Naturally, Liu Hua recognized Qin Lin at first glance.

Internet celebrity, my ass. This was the boss of Linlin company, but he didn't explain.

This was because he had tried to expose him on the internet, saying that he was the boss of Linlin company. However, those people on the internet all called him a fool.

No one would believe him if he told the truth. Who was the fool?

Following that, his face was filled with regret, or rather, unwillingness.

When he first found out that the man was the boss of Linlin villa and that he had caught an albino yellow tiger in the reservoir to make a fortune, he had been soaking in the reservoir and even raised fish in the reservoir now.

But until now, he had caught a lot of fish in the reservoir, and many of them were beyond the reach of ordinary people. The most amazing one was a fish that weighed more than 30 catties.

For this reason, he even opened a certain voice account and registered an account of 'fisherman Liu', which also gained a lot of fans.

However, he had never caught an albino yellow tiger before.

he was a little upset when he thought about how she had built the linlin villa and even opened an aquarium there, cultivated the ornamental fish, and even bought the ones that cost hundreds of thousands or even millions because of an albino yellow tiger.

Indeed, his focus was not on Linlin's company, but the Linlin aquarium. This was what a veteran fisherman should be paying attention to.

it was precisely because he was focused on the fish that hua liu was most annoyed at catching an albino yellow tiger.

In fact, he had made a lot of money by raising fish, but he just wanted to catch an albino yellow tiger. He would rather stay in the reservoir than be interested in women.

The White Yellow tiger had almost become his obsession.

Qin Lin didn't want to stay any longer. He quickly dove back into the water and swam back.

boss, we've found the source of the river: There's a small lake at the top of the mountain. Chen dabeí had returned to the manor in the evening.

"en!" Qin Lin immediately nodded and said, "Take me there tomorrow."

"Okay, boss!" Chen dabeí nodded. Although he did not know why his boss suddenly wanted to go to the source of the water, he had always believed in his boss's orders.

The next day, Qin Lin drove up the mountain with Chen.

However, the road had only been built to the starting point of the drift, so the rest of the road had to be walked on foot.

For this reason, he had also deliberately brought a fishing rod and planned to pretend to be fishing.

Soon, he and Chen dabeí arrived at the small lake that the man had mentioned.

The small lake was not big, but there was a steady flow of water, which made Qin Lin very magical.

He didn't understand why this small lake didn't dry up when so much water flowed down every day. He remembered that he had learned this kind of knowledge in junior high and high school, but he had forgotten it after so long.

Of course, that was not important. The most important thing was that they had found the source of the water. He also diverted Chen dabeí away and said, "Go and see if there are any wild fruits or mushrooms nearby. I'll stay here and fish."

"Okay, boss!" Chen dabeí nodded and went to check out the nearby area. There were many wild fruits and mushrooms on the mountain. If the boss liked them, he would bring more people to the mountain in the future and bring some back to the boss.

qin lin also pretended to be fiddling with his fishing gear. after chen dabeí had left, he took out the kappa happiness stone. the system notification appeared in his mind again.

[the source of the water flow has been discovered. You can use the Kappa happy stone. It will have a miraculous effect when you throw it into the source of the water flow. It can be recycled!]

When Qin Lin received the notification, he immediately took out the Kappa's happy stone and threw it into the small lake. To his surprise, the Kappa's happy stone turned into light spots and disappeared without a trace as soon as it entered the water.

However, he received another system notification in his mind.

[the Kappa happy stone has been activated. It can be recycled. Do you want to recycle it?]

Of course, he couldn't do it now.

Then, he started to move his fishing gear, put in the bait, cast the line, and finally put the fishing rod in place.

Chen dabei returned quickly with a few oval-shaped peaches in his hand. boss, there are quite a lot of wild fruits nearby. There are two wild Peach trees just next to us. I picked a few. I'll wash them for you to try.

Qin Lin nodded. The wild Peach was a very good wild fruit. It could also be used to make wine.

It was a pity that the wild Peach was in the real world and not a product of the game, so it didn't mean much to him.

chen dabei was already at the water outlet. he squatted down and began to wash the peaches.

However, as soon as he touched the water, he was stunned. A strange feeling came over him.

[Chapter 894 Drifting Is The Most Fun Thing In Linlin Manor](#)

Chen dabei washed the peaches and squatted by the water. As he stepped on the water and moved his hands in the water, an inexplicable feeling welled up in his heart.

He was from the countryside and had no fun when he was young. He could only catch loaches in the fields, fish in the rivers in the village, and play in the water with his friends.

That was also the happiest time of his life. It was his childhood, and summer was the happiest time of his life.

However, as they grew older and the pressure increased, not only did the abandoned fields disappear, but also the children's fun that had already become a blur in their memories.

Now, just by washing the peaches, the fun of playing in the water from his childhood actually appeared.

This was quite inexplicable.

Chen dabei did not know that this was the effect of the +3 child's fun attribute.

He could only lament that he had grown older and it was time for him to be sentimental.

Chen dabei could not help but reach his hand into the water, trying to cut off the flow of water.

Many people were this childish when they were young, right? He thought that he could cut the water with his small palm. Now that he had grown up, he knew that the water would flow even more if he drew his knife to cut it. Without this childishness, he had also lost something.

Chen dabei smiled again when he saw that he was trying to block the water. He felt that it was fun to experience the childishness of the past. If his boss was not here, he would have jumped into the lake.

This was obviously the effect of the +3 fun in water attribute.

Chen dabei suppressed the urge. After washing the peach, he ran to Qin Lin and handed it to him. "Boss, try it!"

Qin Lin nodded. He took a peach and took a bite.

a sweet and sour taste spread to the tip of his tongue.

Unlike ordinary nectarines, mountain peaches were the most attractive because of the sweet and sour taste.

Moreover, the sweetness and sourness of the wild Peach were especially good.

these wild peaches are not bad. I can pick some to soak in wine when I go back later. Qin Lin complimented.

although the wild peach wasn't a product of the system, it was still worth a try if it was mixed with some wine.

It wasn't necessary to use the ingredients provided by the system to make all the wine. Ordinary wine could also be made.

"Boss, I'll get someone to send a bag up. Besides the peaches, I'll also get someone to pick some mountain mushrooms and the like." Chen dabeí really thought that his boss liked these things. As he spoke, he took out his phone and dialed his subordinate's number.

Qin Lin didn't stop him. He had achieved his goal anyway, so the other interludes didn't matter.

However, no one knew that as the water flowed downstream, the river changed silently.

Especially for the Linlin villa's drifting project, the starting point was not far from the small water lake on the top of the mountain.

Drifting was one of the activities in the water, and there were many people who wanted to experience it.

Wang Le and Li Li were the same.

They were a couple in love, so whenever there was a holiday, they liked to hang out together and go out to play.

It had always been a plan to come to Linlin villa to play.

this time, both of them had applied for annual leave to play together.

Hubby, I didn't expect drifting to be in Linlin Manor. Li Li said in surprise.

yes, there's no promotion on the internet. There's very little news about Linlin villa's drifting. Wang Le was also very surprised by this.

He and Li Li loved drifting a lot.

While the two of them were lining up, a staff member had already shouted, " welcome to Linlin villa, and thank you for your support. Please line up properly and don't squeeze. After you've checked your tickets, come here and put on your safety helmets and life jackets.

With the development of the Internet, tourists nowadays were still quite cultured. After all, if you did something uncultured, there might be mobile phones pointing at you to take pictures.

The next day, the internet was filled with news of a certain tourist doing something indecent in Linlin villa.

That would be embarrassing for the entire country.

In this case, even the uncultured visitors would bear with their uncultured behavior and pick up the items they had thrown away.

Of course, there were also people who didn't care about this. After all, there would always be one or two people who made it to the hot search every month because of their quality.

Fortunately, there were no young people. They were all old people. This meant that the current generation of young people was still a very capable generation. It was just that the bad guys had really become old.

wang le and li li quickly finished checking their tickets and received their safety helmets and life jackets. they lined up on a kayaks and were pushed into the first slide.

This slide was the starting point of the entire floating point. Moreover, the slide was not short. When the weather gradually became hot, the water storage door would control the speed of the water flow, allowing the water to reach its fastest speed.

This way, the kayaks would rush down the water at a very fast speed, and there was a pool below, which could cause a high splash. This was also the first exciting point.

Doing this at the beginning could make the tourists enjoy themselves the most.

The kayaks that Wang Le and Li Li were in were pushed up the slide by the staff. The next moment, the kayaks were rushing down at an incredible speed.

The speed made Li Li cry out in surprise.

Wang Le also felt extremely excited, but he would not shout like his girlfriend.

The next moment, the kayaks hit the pool hard, causing a huge splash. The water fell down and covered the kayaks, Li Li, and Wang Le.

It was a great pleasure.

[Chapter 895 The Most Fun Thing In Linlin Manor Is Drifting \(2\)](#)

In an instant, Li Li and Wang Le had an inexplicable urge to play with water. Li Li actually took a water ladle and poured it directly at Wang Le. Then, Wang Le also started to fight back, playing and exclaiming repeatedly.

This was an inexplicable joy, and the two of them actually didn't stop talking about it. Moreover, while playing, the two of them seemed to have forgotten everything else. They actually had the carefree feeling of playing in the water as children.

it had been a long time since he had felt this way.

The two of them had never had so much fun in any Scenic Area.

It was not only Li Li and Wang Le, but the other tourists were the same. They inexplicably wanted to play, and they were inexplicably happy.

They didn't know why it was like this, but it was like this.

They had only experienced this feeling at the Linlin villa's drifting attraction. Even the other attractions in Linlin villa didn't give them this kind of fun.

For a time, the entire River was filled with the sound of laughter and the atmosphere was extremely intense.

The staff of the drifting project felt that it was a little unbelievable today. The tourists today seemed to be a little different from the previous ones.

After all, the previous visitors had never experienced such an atmosphere.

There was also the joy and laughter on the visitors' faces. They were all from the bottom of their hearts, as if they had been released by nature.

This kind of happiness could infect people.

Of course, these staff members did not know that this was because they would never know about the +3 fun and childlike nature of playing in the water.

Moreover, with +3 attributes, even the +2 attributes of the other projects in the villa would be suppressed.

The staff in charge of taking photos couldn't help but take pictures of this scene. These pictures could completely replace the original visitors' elegance wall.

Moreover, this video could definitely be used for publicity. Their drifting project in Linlin villa had never been colored before.

The visitors also brought their own mobile phones, which were kept in water-proof bags.

These water-proof bags were one of the small vendors' profits at the starting point. A water-proof bag was very cheap, but it would sell for 10, 20, or 30 yuan at the drifting starting point.

When the tourists bought it, no one would buy it at 10 yuan. Most people would buy it at 30 yuan, even if they knew that they would be ripped off.

Who wouldn't want to have fun while drifting in the water? Who would care about 30 yuan for a cell phone that was worth thousands or even tens of thousands?

Many of the visitors had already taken out their phones to record everything.

towards the end, regardless of whether they knew each other or not, the tourists started to fight in the water. the fun was growing.

After nearly three hours of drifting, Wang Le and Li Li had already reached the end point of their drifting. Because they had too much fun, both of them were somewhat exhausted, but they also had a feeling that they had not had enough.

Moreover, it was very strange. As soon as they came ashore, they felt a sense of loss. It was as if all the fun had disappeared. They actually felt a little empty.

"Hubby, how about we go drifting again tomorrow? Just give up on the plan to rest for a day!" Li Li couldn't help but say.

the two of them had made a detailed plan for their annual leave. the plan was to take a day off to rest at home and then go to work after a day off.

Wang Le also nodded. yes, I didn't expect the drifting in Linlin Manor to be so fun. It has such an atmosphere. I don't think there's any place in the country that has such a fun drifting.

This was the first time he had so much fun. He also wanted to drift around Linlin villa with Li Li again.

It was not just Li Li and Wang Le, but the other tourists who had drifted down were the same.

I didn't expect the drifting in Linlin villa to be so fun. It's much more fun than the drifting events I've played in other places.

indeed. I haven't had such a good time in a long time. Even the other projects in Linlin Manor are better than mine.

that's strange. Linlin villa's drifting project is so fun, but they didn't promote it much.

"I also think that it won't be worse than the other projects in Linlin Manor."

"Let's play again tomorrow, Yingluo."

"Yeah, I haven't been this happy in a long time."

As the visitors spoke, they all headed in the direction of the bathroom.

...

Qin Lin did not manage to catch any fish at the source of the water. Chen dabeai had already brought two security guards to pick a bag of peaches and mushrooms.

Mountain peaches and mountain mushrooms could be used to make wine, and mountain mushrooms were a good ingredient for cooking or stewing field snails.

Down the mountain, he brought his men to the drifting event. At this time, there were still quite a number of tourists who came to participate in the drifting event, but they were also the last batch.

It was almost dark when this group of tourists drifted down the mountain.

When Qin Lin arrived, the person-in-charge of the drifting project was happily editing a video with his team.

Seeing that Qin Lin had brought people over, the person-in-charge immediately stood up and greeted, "Boss, manager Chen."

How's drifting today? " Qin Lin asked despite already knowing the answer.

When the person in charge heard this, he said with a face full of joy, "Boss, all the tourists are having a great time today. The atmosphere is much more lively than before."

As he spoke, the person-in-charge showed him the video that the photographer had taken today.

Qin Lin looked at the video. It was a video of the tourists playing. Even through the video, he could see that the tourists were having fun.

That kind of smile that came from the bottom of his heart could not be faked. That kind of joy could infect people.

[Chapter 896 The Most Fun Thing In Linlin Manor Is Drifting](#)

Seeing this, he also knew that the Kappa's happiness stone had taken effect.

At this time, the last group of tourists also went into the water. After a while, the fun and joy sounded again.

Qin Lin and Chen Dabai went over to take a look. They could see that the tourists seemed to be immersed in the fun of playing in the water.

Chen Dabai was surprised. Boss, these tourists seem to be a little different. They seem to be having a lot of fun. I've never seen a tourist this happy in any of the activities in the resort. Is drifting really that fun?"

Qin Lin smiled but didn't answer.

Drifting was not that fun.

However, with the +3 water fun and +3 child's fun attributes, drifting was just that fun.

Back at the villa, Qin Lin asked Chen Dabai to pick out some mountain peaches and mushrooms to soak in wine, and then send the rest of the mushrooms to the kitchen.

In Qin Lin's wine cellar, there were still a lot of aged ordinary white wine. These white wine were not used to soak in the medicinal wine. They were all piled up in a corner of the wine cellar.

If these wines were taken out, it would probably drive those wine lovers crazy.

It was a pity that he only had one of these wines, and no one in the outside world had the Fortune to enjoy it.

Qin Lin took out two containers, then took out some aged white wine and soaked it in the mountain peach wine and mountain mushroom wine.

If those wine lovers knew that this kind of wine was used to soak these two materials, they would definitely call it a waste of God's gift.

Unfortunately, to him, none of these were?

Is this wine? He could just throw it away like water with a raise of his hand.

After making the wine and leaving the wine cellar, Qin Lin went back to his office. He sat down and took out his phone, intending to browse the news.

He did not expect to see Linlin villa's trending news after a few videos, and it was about the drifting project.

you'll never know what the most fun project in Linlin villa is, and that's drifting. Drifting in Linlin villa is definitely more fun than any other project. This project will let you immerse yourself in it, enjoy the fun of playing in the water, and experience the fun of children that you've forgotten!

The video had been uploaded by a tourist. At first, the video had been questioned, and many of the comments felt that it was sensationalism!

it's just drifting. No matter how fun it is, there's a limit. How can it be compared to the other events in Linlin Manor? "

I've done a lot of drifting in the past, and although there are differences in the design and the terrain, it's never this exaggerated!

you're posting this video as if I've never been to Linlin villa!

"He said it was childish, he's just treating us like children and lying!"

"....."

However, after watching the news video, it gave people a different feeling.

Because the visitors in the video were all laughing very happily, the atmosphere was very intense. The kind of happiness that came from everyone's heart didn't seem to be an act.

if every one of them could act so seamlessly, what was the point of having actors?

This attracted everyone's attention, and with the popularity of Linlin villa, it became a hot search.

This was especially so for the tourists at Linlin villa and Linlin Ranch. They were always curious about this place and couldn't help but want to go to the drifting project.

The drifting project that wasn't very famous in Linlin villa before had suddenly caught the attention of tourists.

In fact, many of the tourists had not planned to drift before this.

The next day, Wang Le and Li Li were dumbfounded when they got up and returned to drifting's place.

There was already a long queue in front of the drifting project area, and with so many people, they would probably not get a chance to see them even by the afternoon!

[Chapter 897 Who Is The Number One Drifting!](#)

Wang Le and Li Li looked at the long queue for the drifting event and the dense stream of people. In the end, they could only give up the idea of playing again.

After all, the two of them had a limited holiday. They couldn't really line up and wait until the afternoon to play.

The Linlin villa drifting project suddenly became popular.

Sometimes, playing would create an atmosphere, and the current drifting event was the time when the atmosphere was the strongest. Naturally, when these tourists entered the river, the +3 fun in water and the +3 fun in children would be activated.

With these two +3 attributes, almost everyone was going crazy.

It was only after they had truly played drifting that they realized that the rumors online had been too conservative.

This joy that came from the bottom of his heart couldn't be expressed in a few simple words.

Therefore, after a day, many tourists who had experienced drifting began to post videos to express that the drifting in Linlin villa was very fun, and that it would definitely let people experience the real fun of playing in the water.

This undoubtedly increased the popularity of Linlin villa's drifting.

Moreover, for the next ten days, almost every day, the tourists who had tried the drifting project were all full of praise.

Although the drifting event could only accept about 3000 tourists a day, there would be new videos being popular on TikTok almost every day. More and more tourists said that Linlin villa's drifting was the most fun drifting in the country.

This also attracted more and more drifting enthusiasts to Linlin Manor.

Since it was so fun online, these drifting enthusiasts had to find out the truth.

After all, the title of the country's most fun drifting had been announced.

With the popularity of Linlin Manor's drifting, it was natural that other places' drifting would be affected.

Hu province.

The copper River had always been known as the best River drifting in the world. This was because both sides of the river were mostly covered in primeval forests, which were lush and verdant. Moreover, the entire River flowed rapidly, and the dark green was clear and bright. Not only was it exciting to play with, but the water quality was also very good.

Being known as the number one drifting in the world, this place had always been the first choice for all drifting enthusiasts. In many of the drifting-related forums, Copper River drifting was also the most popular.

But now, there seemed to be more and more people discussing Linlin villa's drifting in these forums. Some people even said that Linlin villa was more fun than drifting on the copper River.

As the person in charge of Copper River drifting, Zhao Hui was a little vexed when he saw people on the internet mentioning that Linlin River drifting was more fun than their Copper River drifting.

"Say, even if this Linlin Manor is famous, they still have to follow the rules, right?" Zhao Hui frowned as he spoke to the person beside him.

He could clearly feel that the number of online reservations he had made these days had decreased a lot.

He knew that more and more people were talking about Linlin's drifting on the internet and on the drifting forum, and many people were attracted by it.

more importantly, wasn't this lin lin drifting going overboard?

If you want to publicize, then do it. Even if you did it with exaggerated publicity like the ones on the internet, saying that you would be immersed in the joy of playing in the water, or that you would be able to recall the fun of children when you were young, you could do it. Could you not bring them along for Copper River drifting?

people online were saying that linlin river drifting was more fun than their copper river drifting.

No one would have believed it if Linlin drifting had not secretly found a water Army to guide them.

As such, this Linlin drifting was trying to use his Copper River drifting as a stepping stone to rise to the top, which was a little disgusting.

After all, Copper River drifting had been publicly acknowledged as the number one drifting player for more than a decade, and any drifting-related forum that had players who had played their drifting would definitely criticize them.

Many River-drifting enthusiasts would even invite each other to River-drifting together.

The person next to him frowned. director Zhao, this Linlin drifting is a little too much. Although Linlin villa is behind this Linlin drifting, we're the most professional when it comes to drifting. Besides, if Linlin drifting is really that fun, why hasn't it been exposed on the internet for so long? " this time, it's clearly a publicity stunt."

Zhao Hui nodded his head. it must be because the people from Linlin villa suddenly noticed the drifting project. Hence, they came up with this wave of publicity. They used this topic to influence the atmosphere of the tourists. Once the atmosphere is there, they would naturally be able to play happily.

but it's impossible for Linlin drifting to trample on our Copper River drifting. We still need them to lift a rock and smash their own feet.

"Director Zhao, what should we do then?" the person beside him quickly asked.

Zhao Hui laughed. I heard that the leader of extreme drifting and a few of his friends will be returning from overseas tomorrow. Let them know through other channels. They will help us expose Linlin Manor's trick.

"Director Zhao, I understand," the assistant beside him immediately nodded.

This extreme drifting forum was the largest forum for drifting events. Every day, there would be discussions about various drifting events.

Whether it was brutal road drifting, Water Road drifting, or ice road drifting, they were all involved.

One of the most famous and talked about topics was about water drifting. The owner of the forum was called Chu Ye, a rich second generation. He and a few friends were the most experienced drifting players.

Some people would say, " why would a rich second generation be addicted to drifting? " there was no way to explain this. After all, this was a question of " I'm happy ".

Chu Ye was also different from the other rich second generation. Drifting was the thing he did the most throughout the year. Every time he went to drift, he would give advice to the drifting projects and even help to rectify them.

After that, there was a saying in the extreme drifting forum that he had created. "Whenever young master Chu wants to go somewhere, what attracts him will not be beautiful women, but drifting."

[Chapter 898 Who Is The Number One Drifting!](#)

The reason why their Copper River drifting was the number one drifting was because Chu Ye and a few of his friends had verified that it had been placed at the top of extreme drifting's forum for a long time.

As such, as long as Chu Ye found out about Linlin drifting, he would definitely bring his friends to Linlin drifting.

If that happened, the other party would definitely expose Linlin drifting's tricks. When that happened, the other party would post a thread on the extreme forum, and all the forums in the drifting circle would know about it.

At that time, Linlin drifting's hype would not be able to continue, and he would even lose face.

Furthermore, Chu Ye was not lacking in money. He was even more overbearing and was not someone Linlin Manor could bribe.

However, this was not enough.

Zhao Hui hurriedly turned to his assistant and instructed, " find someone to create more hype on the internet. From an objective point of view, say that Linlin Manor is creating hype. In fact, they might even try to compete against our Copper River drifting in an unfair manner. Once Chu Ye and the others expose Linlin drifting, we'll be able to benefit from the hype.

"Director Zhao, I understand!" The assistant nodded and sat down in front of the computer to make contact.

...

Not long after.

In a luxurious villa, a young man also woke up in his room. His name was Chu Ye. He had grown up in a family with endless money.

His greatest hobby was to create the most perfect drifting and become the best in the country and abroad. If he could not achieve this goal in the next two years, he would go back and complete his family business.

In fact, many people questioned his actions, thinking that he was not doing his job properly and that he was brainless.

But he didn't care at all, because he was happy to. It was rare to have his own hobbies in life.

There were pictures related to drifting on the wall of the room. These pictures were the most exciting river segments of drifting in all parts of the country.

He wanted to combine all these exciting parts of the river to create the most perfect River. This was also the reason why he went abroad this time.

chu ye came out of his room. his friends were already up and playing with their phones in the living room.

Seeing him come down, one of them said, " Chu Ye, come and take a look. Someone sent you a message. They said that the drifting in Linlin Manor is very fun.

Chu Ye asked doubtfully, "Linlin villa? is that the famous Scenic Area?" i heard that their boss is very mysterious and powerful, and the linlin leisure tea is also his product."

that's right, " another person said. it's that scenic spot. The sender said that this Linlin River drifting is the most fun drifting. It's even more fun than Copper River drifting.

Chu Ye laughed when he heard this. Other than Copper River drifting, I haven't found any other drifting that is more fun."

The first person to speak up: " Linlin drifting has indeed been very popular these days. He's even been labeled as the number one drifting on the internet. However, some people have pointed out that Linlin drifting is deliberately trying to hype himself up and use Copper River drifting as a stepping stone.

"Indeed, there are people who say that this Linlin River is an unfair competition for the copper River," another added.

Chu Ye sat down and took out his phone to look at the news on the internet. Indeed, there were many topics about Lin Lin's drifting. Now, everyone seemed to be comparing the Tong river's drifting and saying that the Tong river's drifting could not compare to Lin Lin's drifting.

When Chu Ye saw the news, he laughed and said, " this is probably an unfair competition between Lin Lin drifting. After all, this isn't the first time we've played Copper River drifting. We can go and take a look at Lin Lin drifting. If it's really fun, then forget it. Otherwise, Lin Lin drifting would be on our Forum's scandalous list.

His other friends agreed with him.

They knew Chu Ye's personality. If there was a beautiful woman there, he might not fly over. Now that there was a better River than Copper River, he definitely had to go.

So, that afternoon, Chu Ye and his men boarded the plane and arrived at you city late at night.

The next day.

zhao hui, who was drifting on the copper river, received a report from his assistant, " director Zhao, that Chu Ye has already gone to you city. Furthermore, he has posted on the discussion forum and is livestreaming his schedule. He is already heading towards Linlin Manor.

Zhao Hui laughed proudly when he heard this. that's good. Lin Lin's drifting can't make Chu Ye happy with his hype.

trust me, tomorrow, a thread about Linlin drifting being criticized will appear on the extreme drifting forum. By then, all the attention will be on our Copper River drifting.

there aren't enough posts and voices on the internet saying that Linlin River is more fun than our Copper River drifting. Find an Internet Water Army to manipulate it and make it louder.

then, when Chu Ye and the others criticize Lin Lin drifting, we will be sympathized with as stepping stones. Then, the popularity will be ours.

The assistant nodded and immediately started working again.

Under the deliberate guidance of Copper River drifting, more and more topics regarding Linlin drifting were quickly posted on the internet.

In fact, more and more people were talking about Lin Lin drifting as the number one drifting.

Zhao Hui's goal was naturally to achieve the effect of contrasting publicity. This was also a common way of creating hype on the internet.

For example, if a girl's looks were average, but she was praised to be prettier than the school Belle, it would be fine if they had never seen her before. Once someone had seen her, the contrast would be obvious. The girl would definitely be said to be too narcissistic, and it would instead set off the school Belle.

This was exactly what Zhao Hui wanted. Linlin drifting was just an ordinary girl, and their Copper River drifting was the school Belle.

[Chapter 899 Who Is The Number One Drifting!](#)

Linlin Manor.

Qin Lin was sitting in his office. After completing his daily tasks for the day, he had also seen the news on the internet. Naturally, he also found that Linlin's drifting was more interesting than the first time he had drifted on the copper River.

He didn't suspect that there was anything wrong with the news. He could only say that the public's eyes were clear.

With the support of two +3 attributes, if this Copper River was still more fun than his own, then it could only mean that this Copper River was definitely a cheat.

On the other side, Chu Ye had also brought his friends to the drifting project.

He had no interest in the other projects in Linlin Manor and had instead headed straight for drifting. However, when he arrived, he realized that there was a dense crowd of people in front of him, and the queue was very long.

this was the first time he had seen such a lively scene in a drifting project.

Drifting was fun, but there wasn't a need for everyone to come all the way here at once, right?

this Linlin drifting is really fun. I can't help but come here again after last night.

yeah, after playing yesterday, I felt so empty. It's been a long time since I've been so unrestrained and immersed in that kind of happiness.

"It's just that I have to wait for a long time in line. Sigh!"

"....."

These conversations attracted the light beams of the surrounding tourists, who all looked over. The few people who were talking seemed to have come here yesterday.

Chu Ye and the others also heard these words and started discussing in low voices, "

it looks like this Linlin drifting is really just trying to hype himself up. His methods are a little crude. With these people's praises, it's obvious that he's a fake.

indeed, but the key is that such a crude method seems to have a good effect. Otherwise, it wouldn't be so lively.

his methods are crude, but the atmosphere is getting better. I guess he's lucky!

"....."

Chu Ye agreed with his friend's words. He also felt that this arrangement was too rough. He could not help but feel a little disappointed in this drifting rain.

On the other hand, the other party's online promotion of using Copper River drifting to trample on it was also a little unscrupulous.

he could tell that the news on the internet was being influenced by someone. this was not good.

If that was the case, he would note down the flaws of this drifting rain after he played the game and talk about it in the forums.

Chu Ye waited in line for a long time before it was finally their turn to check their tickets. Then, they collected their safety helmets and life jackets and lined up on the kayaks.

However, as the kayaks entered the first slide and the water splashed, Chu Ye could feel the atmosphere around him. The tourists on the kayaks were having a great time.

Moreover, each and every one of them laughed heartily. The joy of being immersed in it was very infectious.

In addition to the +3 fun in the water and +3 childlike innocence, he was also affected and forgot about other things.

When one of the visitors accidentally splashed water on him, he became playful and started fighting back with the water ladle, not caring if he knew it or not.

This was one of the joys of drifting.

At this time, his friend was the same.

Under the influence of the two +3 attributes, they continued to play the whole time. They were all so happy that they almost went crazy.

Chu Ye had even forgotten that he had to record the various shortcomings of Linlin drifting.

after three hours, chu ye and the rest finally reached the finish line and went ashore.

As soon as he reached the shore, the two +3 attributes disappeared. Chu Ye immediately felt empty.

It was like the first night of a sudden breakup with a woman he loved deeply. He felt terrible and inexplicably wanted to play with her again.

Chu Ye suddenly froze.

He had been completely immersed in the game and had forgotten to record the shortcomings of the river!

[Chapter 900 It's Impossible To Go Home And Inherit The Family Business](#)

Chu Ye was a little confused.

This was the first time he had played drifting to the point where he had lost track of time and everything else.

The joy of being immersed in the water was indescribable. It was as if he had returned to his childhood, playing in the swimming pool at home for an afternoon, and forgetting his homework.

He couldn't help but take out his phone and take a selfie of himself and his friends.

When his friends came ashore, they were just like him. It was as if they had suddenly lost something. They were all a little disappointed.

He took a video of himself and posted it on the extreme drifting forum with the title: I just finished playing Linlin drifting, my feelings are complicated. I'll talk about it when I get back!

The extreme drifting forum was the gathering place for the most drifting enthusiasts in the country. Chu Ye was also a famous person, and this post attracted the attention of many people in the forum.

zhao hui asked his assistant to keep an eye on this matter. when the assistant saw chu ye's post, he immediately informed zhao hui, " director Zhao, Chu Ye has made a post on the Jiji forum. They have finished playing Lin Lin drifting, and it seems like they are not in a good mood.

Zhao Hui also saw Chu Ye's post and could not help but laugh, "as expected, he's feeling down. I don't even need to think about it to know that Lin Lin drifting didn't live up to his expectations. We've already done everything we can on the internet to raise Lin Lin drifting's status so high. All we're waiting for is for Chu Ye to post a video so that Lin Lin drifting will fall from the sky.

the assistant nodded immediately. he believed in what president zhao said. he even felt that president zhao was planning something.

Not long after, Chu Ye made another post on the extreme drifting forum.

Zhao Hui was the first to enter the post. However, he was dumbfounded when he saw the content.

The content of the post was very simple: I have to say that this is the most fun drifting I've ever had after playing Linlin drifting. The joy of being completely immersed in it is indescribable. In any case, after it's over, the joy suddenly stops, and I feel very disappointed. So, I've decided to go play it again tomorrow!

These simple words caused Zhao Hui's expression to change.

Was she joking with him?

you clearly posted a very unhappy picture, and now you're saying that it's because drifting was too fun and you're too disappointed after it ended?

Wasn't this playing with people?

"Why is it like this?" Zhao Hui cursed in frustration.

The result was completely different from what he had expected.

Now that Chu Ye had posted such a post, didn't it mean that the information that he had gotten the Internet Water Army to guide was true?

this was equivalent to him shooting himself in the foot instead of teaching linlin drifting a lesson. was he trying to promote linlin drifting for free?

The more he thought about it, the angrier he got.

When he saw that extreme drifting's recommendation on the top of the Forum's main page had changed from Copper River drifting to rain drifting, he felt as if his chest was about to explode.

However, Chu Ye's post was not something he could control. He could not buy Chu Ye over either.

As such, he could only watch helplessly as Chu Ye's post quickly spread to all the drifting forums. The number one position for drifting in all the forums had also changed to Linlin drifting.

The real-time update was so fast.

The next day.

News of these forums also appeared on the internet, and it was almost as if this was once again confirming to the outside world that Lin Lin was the number one drifting.

Therefore, the news that was created by the Internet Water Army led by Tong River drifting had become clear to the public's eyes. It was not without reason that so many people agreed that Linlin River drifting was more fun than Tong River.

At this moment, Zhao Hui could only suffer in silence and sigh.

Linlin Manor.

Chu Ye also brought his friends to the drifting event area. After waiting in line for a long time, it was finally his turn to check his tickets.

Yesterday's experience had left him brooding over it. When it came to drifting, he felt that he was an authoritative figure. Even the once number one expert, Copper River drifting, had some problems that he could find.

This was also the reason why he was so confident in building the world's number one drifting.

However, he hadn't been able to find any problems with this drifting rain yesterday. Even if this drifting rain was fun, it was still a blow to him.

more importantly, this drifting rain was truly miraculous. it actually had that kind of atmosphere that could make people sink into it. this was definitely a very brilliant technique.

However, he didn't know what these methods were either. Hence, he wanted to find out what these methods were.

He had to figure it out this time.

Chu Ye boarded the kayaks again with this feeling. Then, he was pushed into the first slide by the staff and fell into the first pool.

The moment the water covered him, the +3 fun in the water and +3 childlike innocence came into effect.

And then,

Three hours later, Chu Ye arrived at the starting point again. He got off the kayaks and went ashore.

At this moment, the disappointment on his face became even more apparent.

this time, he had forgotten to record the flaws of the drifting rain.

Two times in a row, he was so immersed in it that he even forgot the important thing that he had been reminding him of.

The drifting atmosphere was really too thick. When they entered the river, they unknowingly sank in.

The only place that could make him drift like this twice was Linlin villa.

Furthermore, he believed that as long as he used these methods on the drifting he wanted to create, his goal of becoming the number one drifting in the world would definitely be achieved.

"Chu Ye, this Linlin drifting is really something."

yeah, I had so much fun both times. I didn't have any troubles.
