

The Game 961

[Chapter 961 Character Level Up, Opening Goddess Mountain? 1](#)

Qin Lin moved all the quality 1 scented Rosewood and quality 1 red sandalwood out of the warehouse. The two types of wood had been piled up into two small hills.

Not counting the game attributes, a Grade 1 yellow Rosewood was worth 4-6000 Yuan per 500 grams on the market.

For the products of the game, without considering the game attributes, the most expensive price of a single product was 6000 Yuan.

A piece of yellow Rosewood was at least 40 catties, and this piece of wood alone cost more than 240000 Yuan.

This pile of rank 1 yellow Rosewood was worth a lot.

Moreover, there was also the purple sandalwood.

The price of red sandalwood was more expensive than that of yellow Rosewood.

After Qin Lin moved all the wood out, he called Zhao Liyuan and asked him to bring a team of people to transport the wood.

With the development of Qin Zhuan company, the other car team companies that signed the contract with Linlin company also started to develop.

zhao liyuan's fleet was the fastest growing one.

In the beginning, his motorcade was the smallest among all of them. However, since Qin Lin often asked him to do things, Deng Guang would naturally take care of him more.

His car team was now the largest among all the other cars, but it also meant that his team could not leave Linlin company.

Once Linlin company wanted to terminate the contract with him, most of his fleet would be paralyzed and he would have to wait for death.

It was not easy for Qin Lin to give him an order. Zhao Liyuan also brought the convoy to Ming city immediately, where Qin Lin's warehouse was.

He had been worried that he hadn't worked for Chairman Qin for a long time.

Zhao Liyuan arrived with his men, and as soon as he got off the car, he greeted Qin Lin, "Chairman Qin, where's the wood we're supposed to transport?"

"It's in the warehouse. Be careful when you move it," Qin Lin said directly.

"Don't worry, Chairman Qin. My people are not careless." Zhao Liyuan quickly promised and then led his men into the warehouse. They saw the two tall piles of wood.

The people in the convoy went forward immediately and began to move the wood. These people also noticed the abnormality as soon as they started.

"Eh, this wood is very heavy! Normal wood wouldn't be this heavy."

the wood here is heavier. This type of heavy wood is definitely not ordinary wood.

of course it's not ordinary. Didn't you guys feel the special Jiangxiang smell? "

Zhao Liyuan naturally knew that Chairman Qin would not be transporting ordinary wood, so he hurriedly urged, " "What are you all talking about? hurry up and get to work. also, i know it's precious wood, so don't knock it. "

The people in the convoy did not dare to slack off when they heard the order. One by one, they began to move the wood onto the vehicles seriously.

After all the wood had been loaded, Qin Lin drove back to you city with Zhao Liyuan's team.

After transporting the wood to the Linlin Manor, Qin Lin called Chen dabe and the Linlin Manor Engineering Department to help transport the wood into the manor.

linlin manor had developed to its current scale and already had its own engineering department, so it could undertake some of the manor's own projects.

For example, the construction of the pavilion and wooden corridor could be done by the engineering department.

As for asking Chen dabe to come, it was naturally for him to monitor the situation. After all, these were all fragrant Rosewood and red sandalwood.

"Boss, isn't it a little too extravagant to build a pavilion and a wooden corridor with this kind of wood?" Chen dabe's face was full of surprise.

He knew what yellow Rosewood and red sandalwood were. The sign hanging at the entrance of the villa, the tea table, and the desk of the boss 'office were all the same.

As the boss's confidant, he naturally had to know that the boss liked these things. He had even read the relevant information and knew the market price of fragrant Rosewood and red sandalwood.

Now that the boss had gotten so many yellow Rosewood and red sandalwood, it was easy to imagine how generous he was.

If the collectors in the country who liked to collect yellow Rosewood and red sandalwood knew about this, they would go crazy.

Because of this, Chen dabe did not dare to slack off. He immediately arranged for security guards to watch over the wood.

The people from the engineering department also got to work immediately. In less than two hours, they had sent a few design drawings to Qin Lin.

There were many architectural styles of pavilions and wooden corridors, and these designs included the most popular styles at the moment.

Qin Lin chose a design with a retro and simple style, which was also the most suitable style for the manor environment and scenery.

The next day.

After the engineering department started work, he arranged for people to keep an eye on them at all times. He also went to the site to supervise from time to time.

linlin villa's engineering department was quite efficient. in just a few days, the pavilion and wooden corridor were half-completed.

Qin Lin had been paying attention to the construction progress these days. Now that it was half-completed, he could see that the style of the pavilion and wooden corridor matched the manor's environment very well.

This also made him feel at ease.

Just as he was about to return to the office, Chen shengfei's number called.

"Old Chen, why did you call me all of a sudden today?" Qin Lin answered the call and smiled.

Chen shengfei's voice was also heard, " old Ma and I have arrived in you city. We haven't had any wine to drink recently, so we're very hungry. We've finished the two bottles of Linlin wine we bought previously.

Qin Lin immediately understood. He smiled and said, " what a coincidence! I still have a lot of Linlin wine. I'll prepare two bottles for you!

There were only 30 bottles of Linlin wine brewed from the quality 2-Echo Water tribute rice in the auction. Li Qing had taken some with him. He still had more than 100 bottles of Linlin wine in his cellar, which weighed nearly 150 pounds.

You city.

In a Maybach, Chen shengfei hung up the phone and said to Marvin, " "I knew Qin Lin would still have some more of that Linlin wine."

Marvin laughed too. Good wine would naturally make people happy.

However, they didn't go to Linlin Manor to drink Linlin wine, but to see their wives.

After all, his wife and child were recuperating in Linlin Manor. He had not seen them for some time and would miss them.

Moreover, he had not paid the public grain for a long time, so he had to pay it.

The Maybach quickly stopped in the parking lot of Linlin Manor.

After Chen Sheng Fei and maliven got off, they told the driver to go back first.

This time, they were going to stay for a few days, and the driver couldn't stay in the manor with them. When the time came, they could just inform the driver in advance to drive over.

Chen shengfei and MA Levin were familiar with the Linlin Manor. After entering the manor, they directly walked towards the manor villa.

The two of them weren't too surprised by the environment of the manor. After all, they were already mentally prepared and knew how good the environment was.

However, when the two of them entered the villa, they were still attracted by the construction of the pavilion and wooden corridor.

"is the manor being renovated again?" Marvin said in surprise.

"Let's go and take a look!" Chen shengfei said as he walked over with Marvin.

The Linlin Manor's scenery was already very beautiful. According to their thoughts, there was no need to renovate it at all.

Now that Qin Lin had arranged for someone to modify it, it meant that it would definitely be better after the modification.

Then there might be a way to this Pavilion and wooden corridor.

"Eh, this fragrance is so strong." Chen shengfei was suddenly stunned. He looked at the pavilion and the wood in a hurry. Then, he was a little shocked, " "This ... This ... This ..."

His face was filled with disbelief as he looked back and forth at the pavilion and the wooden corridor. He even squatted down and touched the wood piled at the side.

Marvin was a little confused and quickly asked, " "Old Chen, what's wrong?"

Chen shengfei explained in disbelief, " these woods are all made of yellow Rosewood and red sandalwood. They are all very old and in good condition.

no wonder they built this Pavilion and wooden corridor. Qin Lin is too generous. It can be said that no one outside can find so many yellow Rosewood and red sandalwood to build this kind of Pavilion and wooden corridor.

this Pavilion and wooden corridor will definitely be unique once it's built. If those collectors who like yellow Rosewood and red sandalwood see it, they'll probably lose their appetite if they don't come to take a look.

"So exaggerated?" Marvin asked, confused.

Chen shengfei nodded his head with certainty.

At this moment.

In the office, Qin Lin was also planning to get up and go out to pick up Chen shengfei and MA Levin.

Just as he opened the office door, a notification suddenly rang in his mind.

[character level up!] The map was upgraded! [goddess mountain is open!]

" ? ? ? "Qin Lin was stunned when he heard this.

it was understandable for a character to level up. after all, it had been so long since it had leveled up once.

However, what did it mean for the map to be upgraded and for Mount goddesses to be opened?

wasn't the goddess mountain always open? Cutting down trees, looking for mountain products, going to the goddess spring, going to the spring Mine, didn't they all have to go to Mount goddesses?

[Chapter 962 Entering The Goddess Mountain In Person!+5 Attributes! 1](#)

The game characters could always enter the goddess mountain, so it was not open.

Now that his character had leveled up again, he thought of a possibility.

He could leave the farm and enter the goddess mountain after entering the game?

He had only been able to enter the farm before, and when he wanted to leave the farm, he was blocked by a wall of air.

Qin Yu felt that it was very possible and was eager to enter the game to find out what was going on, but Chen shengfei had already brought Marvin to the office with a shocked face.

Chen shengfei jogged forward and asked, " Qin Lin, how did you find so many yellow Rosewood and red sandalwood? although they're not the best, they're all aged. You're too generous.

I told you, " Marvin laughed. Qin Lin must've used his own private channel to exchange for it with Linlin medicinal wine.

Although Qin Lin had never admitted it, they had always believed that he had the means to trade good things for good things.

"Old Chen, old Ma, I'll get you some Linlin wine," Qin Lin quickly changed the topic.

he didn't explain, so the two of them just guessed.

After all, Linlin villa, the manor, the Linlin food company, the Linlin pet food company, the Linlin health company, and the Linlin laboratory had been developing and growing.

There were some things that he was not afraid of being investigated.

Just like that Big Boss Ma, if there was something in his house that no one had ever seen before, even if it was exposed on the internet, would anyone dare to investigate it?

At most, they could make a guess on the internet, and countless people would feel that it was great to be rich. This was the luxurious life of the rich.

When Marvin saw Qin Lin going to get the wine, he immediately stopped him and said,"qin lin, the wine came in a hurry. you can drink it while eating, but do you want to make tea first?"

He preferred tea over wine.

Qin Lin's Tieguanyin had always been in his mind.

He couldn't bear to drink more of the things that the other party gave him.

It wasn't that he didn't buy other good tea from those tea channels, but he really couldn't buy anything better than this.

"Alright, make some tea!" Qin Lin nodded and brought the two of them back to the office. Then, he took the wild Tieguanyin, which was of quality 2, and started to make tea.

Now, his tea-making skills were also very good. In a short while, a pot of good tea was made, and he poured a cup for Maliven and Chen Shengfei.

"It's really good tea." Marvin took a sip. The +2 fragrance and +2 aftertaste attribute made him, a tea lover, intoxicated.

After Chen Shengfei finished drinking, he put down the cup and said, "Qin Lin, we might have to congratulate you in a few days."

"What?" Qin Lin asked in confusion.

It's because the Forbes list of the richest people in the country is coming out," said Marvin with a smile. I'm afraid that no one in Ming City can compare to your Linlin company's value in the outside world.

"Ran ran." Qin Lin opened his mouth when he heard the news.

It seemed that there was indeed such a thing.

The ranking of the rich and the companies on the internet was taken by Forbes.

But he didn't want to be in the limelight.

At least, he didn't want to be in the limelight now.

However, this thing was not something he could control.

He was thinking about whether he should inform Minister Lu about this.

Qin Lin, Chen Shengfei, and Marvin chatted for a while, thinking about leveling up his character. He said to the two, "Old Chen, old Ma, shouldn't you go and see your two sisters-in-law first when you arrive at the villa? Otherwise, sister-in-law's suite would have more than one room."

"Bi an" Chen Sheng Fei.

* Swish Swish * Marvin.

The two of them seemed to have understood each other.

Wasn't the main purpose of them coming to the manor to miss their wives?

As for why he missed his wife, as a man, he didn't need to explain much.

The two of them immediately greeted Qin Lin and left the office. Then, they took out their mobile phones and contacted their wives.

especially Ma Levin, Chu Qing was younger than him by more than 10 years. He was an old cow that ate young grass, so he pampered his little wife very much.

As soon as the call went through, he said, "Honey, I missed you so much. I've already arrived at the manor. Yes, I couldn't wait to call you as soon as I got out of the car. I wanted to see you as soon as possible, Hanhan.

Obviously, he had automatically forgotten about the time when he was making tea and chatting with Qin Lin.

These mushy words gave Chen Sheng Fei goosebumps. How old were they? No wonder Chu Qing was willing to marry this old man who was ten years older than him.

Chu Qing wasn't a gold-digger, and her family was very rich.

It seemed that men really needed to have a good tongue when dealing with women.

Chen Shengfei immediately found his wife's WeChat and sent a message: Honey, I miss you so much. I'm already at the manor. I sent you a message as soon as I got out of the car. I want to see you as soon as possible, Hanhan.

At this time, Chu Qing and the others were resting in their rooms.

So, Marvin and Chen Shengfei went their separate ways and went to their respective wives' rooms.

As soon as Marvin entered Chu Qing's room, he saw Chu Qing coaxing the child, and then his eyes had a look that all men understood.

Chu Qing was younger than him by more than ten years. Now that she was recuperating in Linlin Manor, she used beauty eggs and cucumbers every day. Now, her skin was fairer and she looked younger. She seemed to be more than ten years younger than him.

It was as if the age gap between the two had widened again.

The key was that Chu Qing had just given birth, and she was so charming.

Marvin only wanted to say that it was great to let his wife recuperate at Qin Lin's place.

...

In the office.

[Chapter 963 Entering Mount Goddesses In Person!+5 Attributes](#)

After Chen Shengfei and Marvin left, Qin Lin also left the office and returned to the inner area, ready to enter the game.

He didn't choose to do it in the office this time.

If he could really enter the goddess mountain after entering the game, he would have to spend a lot of time investigating.

if someone knocked on the door and he didn't respond for a long time, someone might think that something had happened to him.

What if someone knocked on the door anxiously and found out that he was not in the office, the door was locked, and he was missing? it would be a case of a locked secret room missing.

"Wuwuwu!"

"Squeak!"

As soon as Qin Lin returned to the inner area, Wang Cai and snowy, his bad friends, ran to him.

The two little fellows began to circle around him, calling out happily.

qin lin patted the two little ones 'heads, found a room in the inner area, and then entered the game.

In the game, Qin Lin immediately headed to the entrance of the farm, which led to the entrance of ore town.

There was still a Qi wall here, there was no way out.

He immediately went to the back of the ranch. There was also an entrance here. It was a small bridge that led to the goddess mountain.

previously, there was also a qi wall here, and they could not leave the ranch at all.

This time, Qin Lin came here and opened the back door. He found that the Qi wall on the other side of the small bridge had disappeared. He crossed the small bridge easily and was greeted with the scene of a lush forest.

After walking for a while, there was the fragrance of green mud and grass, as well as the chirping of birds and the fragrance of flowers. The chirping of insects was pleasant to the ears. It was a great natural landscape.

Looking from afar, it was a towering mountain peak.

It was the goddess mountain.

In the game, goddess mountain was only a 2D image, and it wouldn't take much time for the game characters to reach it. However, in reality, goddess mountain was so tall that it reached the clouds. If they had to climb to the top on foot, it would take a long time.

moreover, the forest path that led to the top of the mountain gave him a different feeling from the game. it gave him a sense of calmness.

Qin Lin thought of something and exited the game with a thought. He returned to the inner area of the manor and looked at the screen in his mind again. His game character was indeed on the forest path of the Goddess mountain.

He could make his game character go to one place and then enter the game to replace the game character.

He decisively controlled his game character to head towards the depths of Mount goddesses, and soon arrived at the hot spring.

Qin Lin was very curious about the hot spring on the goddess mountain.

In the game, the hot spring had a special function. No matter how tired one was, as long as they took a bath in it, they would immediately recover their exuberant energy.

It was rumored that the hot spring had been blessed by the goddess and was one of the game's features.

Before the game character reached the hot spring, Qin Lin entered the game again with a thought.

He reappeared in front of the hot spring.

However, the hot spring in front of him was not like a small model in the game. It was very large, and when he entered, he could see a hot spring with white steam.

Qin Lin took off his clothes decisively and jumped into the hot spring. In an instant, an indescribable sense of comfort surrounded his whole body.

Being wrapped by the hot spring water, it was as if his entire body was being nourished.

That feeling was no worse than the feeling of being embarrassed at a critical moment with Zhao Mo.

[hot spring of Mount goddesses: mysterious]

[this is a mysterious hot spring on mount goddesses. no one knows its origin, but it's rumored to have been blessed by the goddess. as long as you soak in it in the game, it will have a mysterious effect: Energy recovery +5, injury recovery +5, debuff recovery +5!]

Qin Lin didn't expect to see the hot spring's attributes when he was in it.

However, the attributes really surprised him.

It was actually three +5 attributes.

It had the attribute of energy recovery +5. No wonder the game characters could recover their energy immediately after soaking in it.

This made him think of his Linlin leisure tea, which had a similar effect.

However, the difference between the effects of +1 and +5 was huge.

Moreover, if some LQS were to know about this +5 energy recovery attribute, they would probably drool.

+5 energy recovery.

He thought about it. He had just finished with his wife, and after taking a bath, he would immediately recover his energy. After that, he would be an extremely brave general again.

When it was over, if he went in for another bath, would he die of exhaustion or be disheveled by the field?

However, the recovery from injuries and debuffs were not reflected in the game.

Moreover, this attribute made him very curious, and he wanted to verify it.

However, he had to stab himself and then test the effect of the injury recovery +5, right?

However, there were always more difficulties than solutions. He immediately got out of the hot spring, put on his clothes, and then with another thought, exited the game and returned to reality.

Not long after, he entered the game with another thought. He was already holding a knife and a fish in his hands.

Before he arrived at the hot spring, he directly made a cut on the fish's stomach. Because of the pain, the fish struggled madly in his hand, but unfortunately, it was impossible to break free from his strength.

Then, he put the fish into the hot spring. It didn't take long for something shocking to happen. The fish's stomach, where he had cut, actually began to slowly recover.

This was really a f * cking fantasy, but thinking about the legend of the goddess 'blessing, it didn't seem strange.

This was also the reason why people on the internet had always said that the story of the farm was a fantasy farming game.

moreover, he could come to this hot spring. it seemed that he would not be afraid of getting injured in the future. as long as he controlled his game character to stay in the hot spring, no matter how serious his injuries were, he could enter the game with a thought to replace the game character and his injuries would recover quickly.

[Chapter 964 Entering Mount Goddesses In Person!+5 Attributes](#)

When Qin Lin took out the fish that could heal his injuries, he felt that it was a pity because the attributes of this hot spring could only be effective after soaking in the game. It couldn't be drunk.

It would be great if he could drink it. He would take a big bucket and bring it out. Unfortunately, he couldn't bring this hot spring into the real world.

With that in mind, Qin Lin logged out of the game with another thought and took the fish to the kitchen. He was fated to have it today, so he would eat it tonight.

Then, he looked at the screen in his mind and started controlling his game character to head to the top of the goddess mountain.

at the highest point of mount goddess, there was a platform in the middle of the rocks. this platform could be used to set up a tent and watch the sunrise.

This platform was also a feature of the game. It was rumored to have been created by a meteor, and it provided the best location for the people in ore town to celebrate special festivals.

Therefore, in the game, all the NPCs would watch the sunrise here.

now that the goddess mountain was open, he had to go through all the classic scenes of the game.

When the game character reached the top of the mountain, Qin Lin entered the game with another thought and replaced the game character again.

A cool breeze blew in their faces. It was cool and comfortable.

Looking down, he saw the spectacular forest of Mount goddesses.

From afar, he could even see the farm. However, the farm was very small in his eyes. On the other hand, the mine town was shrouded in fog, and he could not see through it at all.

It was a very strange feeling.

Looking into the distance, one could even see layers of clouds floating in the sky. It was very beautiful, which also showed that the goddess mountain was really high.

However, it was still daytime, so he couldn't see the sunrise. Qin Lin had to exit the game again and wait.

After a while, the sky turned dark in the game. After a while, it was midnight in the game again.

At this time, Qin Lin also had the thought of entering the game to replace the game character. The timing was just right. Outside the mountains in the distance, the red clouds had appeared and then reflected in the continuous clouds.

As the sun slowly revealed its sharp corner, the continuous clouds seemed to turn into rolling golden waves. It was an indescribably spectacular sight.

qin lin had seen the sunrise before. he could see the sunrise on the top of you city's jiuhuai mountain. however, the sunrise he saw on the top of the goddess mountain was thousands of miles away from the one he saw on the top of the goddess mountain.

It was the first time Qin Lin had seen such a spectacular sunrise. He was a little intoxicated. Suddenly, the torrential rain came and instantly poured on him, making him look like a drenched chicken.

However, the sunrise in the distance was still spectacular and beautiful. Only Mount goddesses had a storm.

f * ck! Qin Lin cursed and exited the game with a thought, but his whole body was still wet.

He hurried back to his room, planning to take a shower and change his clothes, when he saw Lin Fen and Zhao Moyu coming back from their walk.

seeing him in such a sorry state, zhao moyin asked in confusion, " "Qin Lin, what did you do when you were like this?"

" motian, " qin lin explained awkwardly, " if i told you that i went to see the sunrise and was greeted by a storm, would you believe me? "

"Pfft, are you trying to make me happy?" Zhao moyin snorted and ignored Qin Lin's nonsense. He urged with concern, hurry up and wash up and change your clothes. You're going to be a father soon, but you're still so frivolous.

Qin Lin laughed in embarrassment.

Sometimes, no one would believe the truth.

[Chapter 965 Special Earth Attribute! Special Elephant-Happy Elephant! 1](#)

Qin Lin could only smile.

No one would believe his words unless they were crazy.

After all, who would believe that he had gone to another world, watched the sunrise on the highest mountain, got caught in the rain, and then immediately went back to his room to hide from the rain?

In the face of Zhao Moyu's teasing, he had no choice but to go back to his room, take a shower, and change his clothes.

However, now that he could go to the goddess mountain after entering the game, he shouldn't be limited to watching the sunrise at the hot spring or the top of the mountain, right?

After all, the goddess mountain was huge. In the real world, he could not only take the game's path.

In the game, the game characters could only take small paths and couldn't go to other places on the goddess mountain. However, when he entered the game, the world was real, so there shouldn't be such a restriction.

After taking a shower, Qin Lin changed his clothes and then looked at the game in his mind.

While he was taking a bath, the sky in the game had already brightened. It was still noon, but his game character was still standing alone on the top of the mountain of Saint missus, being blown by the cold wind.

Qin Lin immediately controlled his game character to come down from the top of the mountain and stopped halfway through the forest path.

He entered the game from the mountainside, and he could try to explore his surroundings to see if his guess was right.

With a thought, Qin Lin entered the game and appeared at the small path in the forest.

Because it had rained, the path in the forest was still a little muddy. However, the air in the forest after the rain was very fresh.

He tried to enter the forest on both sides of the path.

in the game, the game character could not enter the forest.

But now, he had entered the forest without any hindrance.

The real world he had entered was obviously different from the game, and it seemed to have brought new possibilities.

after all, the forest was a place of treasure.

This was especially true for a forest like Mount goddesses, which was filled with mysterious colors and legends.

Moreover, they didn't walk far before Qin Lin made a discovery.

In a pine forest, he saw black mushroom-like things all over the ground.

When he walked closer, he saw that it was filled with truffles.

Qin Lin hurried forward.

Truffles were good stuff, and they were very expensive.

Truffles were very picky about their living environment, difficult to pick, and had a very short preservation period. It was one of the expensive high-end ingredients.

Moreover, with the change in climate and environment, the production of wild truffles had been greatly reduced, while the cycle of artificial truffles could be as long as several years, and the production could not be guaranteed.

Therefore, it was already very difficult to buy it on the market. Artificially cultivated truffles were of good quality, and the high-end price could reach 600 to 800 Yuan per 500 grams. The expensive ones even cost 2 to 3000 Yuan.

As for the pure wild ones, they were even more expensive and fewer in number.

Some pure wild truffles could even be sold for tens of thousands of Yuan per catty.

Of course, some people would say that they could buy a catty of truffle for a few dozen Yuan. As for what truffle it was, they could taste it for themselves.

The pine forest in front of him was filled with truffles. These must be pure wild truffles because they were too big. Some of them could even weigh a few catties.

It was impossible for a plant of this size to be planted by humans, and it had been growing for a long time.

Qin Lin squatted down and tried to pick a truffle, which was about one pound.

Holding it in his hand, he saw the information on the truffle:

[previous year's pure wild truffle: normal!]

[this is a wild truffle that has been growing for quite a long time. It is a high-end ingredient that often has the effect of enhancing the body's immunity, enhancing men's ability, anti-fatigue, nourishing blood, promoting sleep, anti-aging, preventing cancer, and preventing cardiovascular diseases!]

Qin Lin saw the note and understood why pure wild truffle was so expensive. It could even be sold for tens of thousands of Yuan per 500 grams.

Not to mention the effect of increasing a man's ability, no matter how much money one had, they would be able to eat it, not to mention those rich people.

In addition, rich people would definitely eat the two effects of anti-aging and cancer prevention. There were many people who didn't lack money.

what they were most afraid of wasn't that they didn't have the food, but that they couldn't buy it. Just like the wild yellow croaker, because of its anti-cancer effect, it was caught and almost extinct. It was the same for the pure wild truffle.

Especially this pure wild truffle from the previous year, which should be very rare.

after all, once a pure wild truffle was found, it would definitely not be left behind and would be taken away directly. moreover, if they knew that wild truffles grew here, they would definitely come here again in the future.

However, such expensive ingredients were densely packed in front of Qin Lin's eyes. They were almost all over the ground.

Qin Lin wanted to quit the game and went to the manor to find a big bag, but he received a prompt:

[you are in an abnormal area, unable to exit the game!]

Qin Lin frowned and thought for a while. He roughly understood the reason and immediately left the pine forest and returned to the small path from before.

This time, he immediately logged out of the game and appeared in the manor.

On the virtual screen, his character was standing on the path to the goddess mountain.

This was clearly a restriction.

The location of truffles was a bug in the game. They couldn't go there, so they could only return to the place where the game character could go before they could exit.

Qin Lin immediately found a big bag in the manor before entering the game again. He went to the pine forest and began to pick the truffles.

[previous year's pure wild truffle: normal]

[Chapter 966 Special Earth Attribute! Special Elephant-Happy Elephant! 2](#)

...

[previous year's pure wild truffle: normal]

[previous year's pure wild truffle: normal]

...

previous year's pure wild truffle: quality 1 "

[this is a wild truffle that has been growing for quite a long time. It is a high-end ingredient and has a special effect: Enhance the body's immunity +1, enhance men's ability +1, anti-fatigue +1, nourish the blood +1, promote sleep +1, anti-aging +1, prevent cancer and cancer +1, prevent cardiovascular disease +1!]

Qin Lin's eyes lit up as he looked at the truffle in his hand, which was obviously larger.

He had thought that they were all ordinary. He didn't expect there to be a Grade 1 one.

This also made him guess. When the game refreshed, the things planted or picked by the game characters were usually of a quality of 1, and the better ones were of a quality of 2.

This was determined by the game's characteristics.

Now that he had entered the real world, the ordinary truffles should be ordinary, and some higher quality truffles, such as higher-aged truffles, would also have a quality of 1.

This made Qin Lin even more excited. He specifically picked the truffles that were bigger and older. As expected, it was more likely to produce quality 1 truffles.

In the end, he simply threw away all the ones that weren't at grade 1 and only kept the ones that were at grade 1.

If this scene was seen by any of the old Taotie's lovers, they would definitely be heartbroken.

after all, even if they wanted to buy this kind of pure wild truffle, they couldn't buy much all year round.

Soon, the bag in Qin Lin's hand was filled with quality 1 wild truffles. He returned to the small path in the game and then logged out of the game with a thought.

Back in the manor, Qin Lin looked at the bag of truffles in his hand again.

He, Zhao Moyu, and his mother would not be able to finish this big bag, so after leaving some, he took the rest of the truffles and left the inner area.

Let's just give these to academician Li and old Chen.

When Qin Lin came out with truffles, Marvin was out for a walk with Chu Qing and the child.

The family of three was having a good time.

It was just that Chu Qing had eaten too many beauty eggs and cucumbers, and old Ma was a little like her father.

"Qin Lin, what are you carrying?" Marvin saw Qin Lin and asked curiously. Based on his experience, there must be something good in the bag.

"Take a look, do you recognize it?" Qin Lin asked as he handed the bag to Marvin.

"Truffle!" Marvin recognized it at a glance and said with surprise, "It's so big, is it pure wild? Qin Lin, where did you get so many? Li Fei's luxury goods always get a little of this pure wild truffle and treat it as a treasure!"

"I'll have Master Lin add these to your dinner tonight," Qin Lin said with a smile.

"That would be great!" Marvin's face immediately showed a look of anticipation.

This was his type. He even subconsciously looked at Chu Qing.

He knew the effects of truffles, which were good for men in that area.

Therefore, when Li Fei had truffles, he would buy some immediately. Otherwise, how could he have served Chu Qing, who was more than ten years younger than him, well?

a man should have enough capital.

Qin Lin's food was usually better, so the truffle would probably be good.

Right, he should ask Master Lin to make okra.

He would buy the Linlin medicinal wine from the shop in the manor later.

Also, he should prepare two bottles of Linlin leisure tea at night.

Chu Qing looked at him in confusion and asked, "hubby, why are you in a daze?" Why do you look like you're smiling like an idiot?"

Marvin came back to his senses and immediately said with a serious face, " "I'm thinking about how to treat the mother of my child well."

"You only know how to coax people." Chu Qing was obviously very pleased with these words.

Qin Lin looked at the couple and felt like he was a third wheel. He didn't want to disturb them. He took the bag of truffles to the kitchen and handed it to Master Lin. Then, he went back to the inner area to deal with the remaining truffles.

Qin Lin had never made truffles before, but he had the skills to cook fish. So, he took out the fish that he was fated to find and cooked it with truffles. That way, he could bring out the effect of his fish cooking skills.

So, he made Zhao Moye and Lin Fen a dish of fish soup with truffle, a dish of steamed fish with truffle, and a dish of fried fish with truffle.

The fish and truffle didn't have any deliciousness or texture enhancement. They only relied on their fish cooking skills, so the taste and texture were much worse.

However, it was also Zhao Moyu and Lin Fen's first time eating truffles. They knew how expensive truffles were, so they ate them with relish.

at night.

Qin Lin looked at the game screen. After the game character leveled up, in addition to the goddess mountain, there would be a special function every time the character leveled up.

Moreover, the spring Mine and Lake mine should also be opening new levels, which he had yet to see.

Qin Lin first controlled the game character to go to the land and then saw the information after the upgrade.

First of all, with this upgrade, all the level 1 lands could be opened up, and there would be a few slots for Level 2, Level 3, and Level 4 lands.

Previously, he had not leveled up any new land, and there was no movement from the paddy field and herb garden.

This time, there was finally a new land upgrade notification, and there was a 'special' word on it.

Qin Lin immediately clicked to upgrade the land, but a notification popped up.

[able to upgrade a piece of land with special attributes. Currently lacking special attribute materials, unable to upgrade!]

This made him dumbfounded.

The previous lands could be directly upgraded with a click.

[Chapter 967 Special Earth Attribute! Special Elephant-Happy Elephant! 3](#)

This time, it actually required some special attribute material to upgrade?

Qin Lin didn't know what this special attribute material was at all. He immediately began to take out the items owned by the game characters and tried them one by one, but none of them met the requirements of the special attribute material.

What was the most painful thing about playing games? He had clearly leveled up and met the requirements to unlock some functions, but he realized that he needed a special item to unlock them.

the point is, you don't even know what this prop is. isn't this torture?

Qin Lin studied it for a while, but he still couldn't find anything. In the end, he could only put it down. Since this special land was open to the public, there would be a time when he found special materials to develop.

Perhaps he wouldn't even need to worry about it when the time came, and something that met the conditions would appear inadvertently.

Then, Qin Lin controlled the game character to go to the farm, because the farm also had a prompt that it could be upgraded.

Moreover, Qin Lin could not help but feel emotional when he saw the ranches that could be built this time. This was a big guy.

[level increased. Opening of new Ranch building, elephant shelter!] [do you wish to build an elephant shelter?]

Qin Lin did not expect that after the last upgrade, he could raise cows. This time, he could raise elephants.

Elephants were definitely one of the larger animals. Their shoulder height could reach two to four meters, and their weight could reach three to five tons.

Some species of elephants even had a shoulder height of three to four meters, and their weight could reach 5.5 to 8 tons.

In fact, many farms and ranches overseas raised elephants.

This was because elephants had long become friends with humans and could provide help to them.

The elephant was also very smart. It could open up a field and bury its dead companions in the fallen leaves and branches. Its wisdom was no less than that of the dog.

Moreover, once one became friends with an elephant, the elephant's loyalty would not be worse than a dog's.

The key point was that elephants had a long lifespan, and they could usually live to about 70 years old. In other words, if you raised an elephant when you were young, it had the ability to live and die with you.

In fact, it even had the ability to send you to your death.

It was a pity that humans often persecuted elephants for money and benefits, and some cruel methods made people even angrier.

Qin Lin decisively chose to upgrade the elephant shelter. It would be good to have a few more elephants in his Linlin Ranch.

[upgrading the elephant shelter, please wait patiently.]

Qin Lin looked at the time and was too lazy to wait any longer. He hugged Zhao moqing and went to sleep. The Elephant House would be finished by the time he woke up the next day anyway.

Sure enough, when Qin Lin woke up the next day and looked at the pasture, the Elephant House had been built.

Seeing that Zhao moqing had already gotten up and put on his clothes, he also looked at the game in his mind and controlled the game suburbs go to the ranch store in the suburbs to buy elephant Cubs.

Once the Elephant House was built, he had to raise the elephant.

When Qin Lin arrived at the ranch Shop, he saw a conversation from the NPC.

[may I know what kind of animal Cubs you want to buy? we have a new special elephant species!]

He had just built the Elephant House, and the other party had already started selling baby elephants. That was quite impressive.

However, after opening the shop list, Qin Lin realized that he seemed to have misunderstood the meaning of the NPC's words.

Because there really was a special elephant species.

[Happy Elephant: Grade 1]

[this is a special kind of elephant. It's the offspring of a special elephant that ore town found on Mount goddesses. It has special abilities!]

[Chapter 968 438-Happiness Is Contagious!](#)

[the 6 baby happy elephants you bought have been sent to your farm. You'll be able to see them when you return to the farm!]

Qin Lin saw the conversation between the NPC in the ranch Shop and controlled his character to return to the ranch.

'Elephant is elephant, and it's even named Happy Elephant. The key is that it has a star in it, so it can't be ordinary, right?'

after controlling the game character to return to the farm, qin lin entered the game with a thought and then went to the elephant room on the farm.

As elephants grew up to be very large, the Elephant House was also very large, but it could only raise six elephants.

after qin lin entered the elephant room, there were already six cute little guys inside.

The happy elephant that he bought was still a baby elephant. It was not big now, but it was not a newborn elephant and could move freely.

This Happy Elephant Cub didn't seem to be any different from an Ordinary Elephant. The only difference was that its two ears were extremely large, far larger than ordinary elephants.

however, when qin lin came in and saw the six happy elephants, he was stunned because the six happy elephant cubs were also looking at him.

The key point was that her glistening eyes looked very lively and gave people a kind of cute feeling, which made people like her at first glance.

Then, the three happy elephants in front of him barked at him at the same time and stretched out their elephant trunks, as if they wanted to shake his hand.

Qin Lin didn't know why he suddenly had this idea, but he felt that it was true and subconsciously reached out his hand.

The three happy elephants actually put their long noses in his hands, as if they were shaking hands.

following that, the three happy elephants actually flapped their large ears and cried out happily. they even raised their front hooves and cried out happily.

It was a simple action, but Qin Lin couldn't help but smile when he saw it. He was amused, as if his happiness had resonated with it.

It was a very strange feeling.

He was even more curious now. This Happy Elephant definitely had a special attribute.

At this moment.

Another Happy Elephant Cub pointed at the fence of the Elephant House with its nose. It seemed to be telling him to open the fence as it wanted to go out for a walk.

Surprisingly, Qin Lin understood the intention of this Happy Elephant.

He tried to open the fence, and the happy elephant meowed happily. Then, it crossed its limbs and walked out of the fence in a very magical pace.

qin lin couldn't describe the steps. if he had to use an adjective, it would probably be: He didn't recognize his family.

However, the key point was this kind of pace. Qin Lin was amused, very strangely amused. He felt that his laughing point was not that low.

The second Happy Elephant also flapped its ears and strode out with a nonchalant pace.

The other Happy Elephant Cubs also followed.

However, the last Happy Elephant looked at him and knelt down in front of him. It even patted its own back with its elephant trunk.

That meant she wanted to ask him for help.

"Can you do it with your little body?" Qin Ren couldn't help but say.

"Swish!"

The happy elephant seemed to understand him and even barked at him as if in response.

This surprised Qin Lin. Isn't she too smart?

He tried to sit on the back of the happy elephant, and it really stood up and took him out of the Elephant Room.

Qin Lin also saw the attribute information of the happy elephant at this time:

[Happy Elephant: Grade 1]

[this is the offspring of a special elephant that ore town found on Mount goddesses: Gentle personality +1, intimate human +1, humorous +1, intelligent +1, social +1, triggered happiness +1]

qin lin was a little surprised when he saw the attributes.

Not to mention the sense of humor, just the intelligence +1 had already been displayed in this short period of time.

This was the first time an animal had the attribute of intelligence.

there was also the +1 attribute to communication, which was probably why he could surprisingly understand their intentions.

In addition, Qin Lin also understood why this happiness was like a simple action, even if it was just staring at you stupidly, it would make you feel very interesting. It would trigger the effect of the +1 happiness attribute.

Having such an attribute was simply saving the unhappy.

Moreover, it was the first time that the farm animals had such a magical attribute. No wonder they were called happy elephants.

The ranches outside had already been planted with quality 2 dog tooth grass. The happy elephants clearly liked it very much. They had already picked up the grass with their long noses and started eating it.

There were also some who were rolling around happily on the grass.

The happy elephant that Qin Lin was riding on also used its long nose to roll a pinch of Dogtooth grass and put it into its mouth to chew. It seemed to be eating by itself, but it did not forget Qin Lin. It actually rolled another pinch of grass and handed it to Qin Lin.

"Ran ran." Qin Lin was stunned when he saw that.

He didn't eat grass, but those happy eyes were looking at him, obviously looking forward to sharing with him. It even made him feel that if he didn't take the grass, it would be very disappointed.

Qin Lin really didn't know what to say. He could only helplessly take the grass.

Seeing this, the happy elephant also raised its trunk and cried out happily.

Qin Lin, on the other hand, took advantage of the time when it lowered its head to eat the grass, and secretly threw the grass in his hand from behind.

However, the next moment, he was shocked to find that the other Happy Elephant also rolled up a handful of dog tooth grass and handed it to him.

"Ran ran." Qin Lin swallowed his saliva inexplicably.

...

Half an hour later, Qin Lin logged out of the game with a single thought.

[Chapter 969 Happiness Is Contagious! Magical Attribute \(2\)](#)

During this time, he had gained a general understanding of the happy elephants. They were simply born to eat in the scenic Area. If they were placed in Linlin Ranch, they would definitely be more popular than white peacocks and fitness pigs.

Elephants in scenic spots were actually dangerous, because many circus shows that toured elephants had elephants injuring people. Those were all due to the inhumane training of humans that made the elephants hate humans. After triggering their anger, things went out of control.

This happiness elephant didn't need to be trained at all, not to mention that it also had the +1 attribute of being docile and +1 to being close to humans, so there was no risk in this aspect.

Qin Lin went straight to the office, logged on to the internet, and began to search for places that sold elephants.

However, it was a pity that there did not seem to be any famous elephant market in the country. It was mainly due to the restrictions of the elephant breeding environment in the country. There was not much environment for breeding elephants.

There was a market for elephants in mingkun city, but the quality of the baby elephants was not very good, and there were no big-eared elephants.

The big-eared elephant was a type of elephant, a mutant. Its ears were very big, more like the happy elephant in the game.

However, Myanmar and Thailand did have such big-eared elephant Cubs.

this made it difficult to exchange the happy elephant.

He did not have any connections abroad. If he could buy a few big-eared elephant Cubs from Myanmar and Thailand, it should not be a problem to replace the happy elephant.

Qin Lin decided to ask Chen shengfei and Marvin.

The two of them had been doing business for so long and had a wide network. They should have connections in this area.

Speak of the Devil.

Chen Sheng Fei and Ma Li Wen came together, knocked on the door and entered the office.

After Chen shengfei sat down, he sighed, " " qin lin, your manor is still the most comfortable. i ate well, drank well, and slept well. after the fish therapy last night, i'm so comfortable after waking up today. "

"Indeed," Marvin agreed sincerely.

He couldn't be happier. Last night, with the help of truffles, okra, Linlin medicinal wine, and Linlin leisure tea, he and Chu Qing had a great time.

Only at Qin Lin's place could he have so much fun and be so brave.

In other places, he did not have these things to help him.

Qin Lin also took out a Grade 2 Tieguanyin tea and poured it for the two of them. He would never be stingy with his friends when it came to such things.

"I'll add on, Qin Lin, you have some good tea." Marvin said after taking a sip of tea.

Qin Lin didn't forget what he had to do and asked, " old Chen, old Ma, do you have any connections in Myanmar or Thailand? I want to buy a few elephant Cubs to raise at Linlin Ranch. There are too few animals in the ranch.

Chen shengfei directly said, " "Qin Lin, my business doesn't have any connections with them. I don't think I can help you."

"My business is the same." Marvin suddenly thought of something and said, " Qin Lin, Li Fei should have some connections in Nanyun province. Many of his luxury goods, such as vegetables, crops, and meat, are from there.

the people from Nanyun province have connections at the border of Myanmar. Li Fei seems to have some connections with a Zoo in Ming city, and he helped to bring in two elephants.

"Doesn't Li Fei's luxury goods get some new vegetables from you every month? You can ask him for help."

"En!" Qin Lin smiled when he thought of Li Fei.

This guy had been shot many times before.

Previously, when the other party had come to Dawn Manor to ask for food, he had given him a batch of quality 2 beef out of sympathy because the other party had been inexplicably attacked many times. After that, he had promised to give him some quality 1 vegetables every month.

Now that old Ma had said so, he took out his mobile phone and looked up the number. He had left the other party's number before.

Since Li Fei had such connections, he could make use of them.

.....

The most high-end food luxury stores in Ming City should be gold and Jade luxury goods.

Among the ordinary people of Ming City, luxury goods were also a legend. Everyone knew that one would lose at least a month's salary by buying vegetables and cooking a meal at luxury goods.

As the owner of luxury goods, Li Fei naturally had a lot of connections. Otherwise, he would not have been able to get so many high-end ingredients.

Moreover, even if he got those high-end ingredients, without connections, he might offend people when it came to distribution.

When those rich and powerful people used their status to suppress you, what could you do when some people wanted more and some people wanted more?

Besides, if you sell more to this person, that person will say you don't give it to him. If you sell more to that person, that person will say you don't give face.

Li Fei, on the other hand, was able to operate this luxury goods business without a hitch, which showed how capable he was. Otherwise, the more high-end the business was, the more difficult it would be to do it.

Li Fei was reading some documents in his office when his wife, Lin Haiyan, walked in. "Hubby, the new vegetables from Linlin Villa are all sold out. Can you talk to Linlin Villa and see if they can give us more stock every month?"

Li Fei sighed when he heard this. Linlin Manor's new vegetables had become a specialty of his luxury goods.

This vegetable was not only famous, but it also had healing effects. Although Linlin Manor's sales center sold it every day, those rich people obviously wouldn't go to Linlin Manor to squeeze in the spear vegetables.

Therefore, the moment he received the goods from Linlin Villa, the rich and powerful reserved them.

He also wanted to have more predictions, but how could he say it?

To be honest, he wasn't very familiar with President Qin. They had only met once, and it was a surprise to be able to get the goods from Linlin villa.

Lin Haiyan continued, "and the whole snow, beef, and Linlin rice. Can you try to get another batch from Linlin Manor? after we got the last batch, those big shots kept asking.

"I'll try my best to ask." Li Fei could only say helplessly. This was what his wife would say every day.

after all, he was in charge of the stock, and his wife was in charge of the sales.

The whole snow, beef, and Linlin rice he got from boss Qin were indeed very delicious. He had been longing for them, but he had always been too embarrassed to ask for them.

That level of full snow and bull, even if it's Fusang (404, let's see if this works!) You definitely wouldn't be able to find beef of that quality over there.

The Linlin rice was even better. He knew that the rice was actually Xiangshui tribute rice, but it was far more delicious than that.

Therefore, people on the internet had always doubted the use of Xiangshui tribute rice to brew Linlin wine. No one could be so extravagant as to use Xiangshui tribute rice to brew wine. However, he believed that boss Qin had the ability to do so.

As Li Fei was lost in his thoughts, his phone rang. He looked at the number and quickly showed it to his wife. It was 'boss Qin'!

Lin Haiyan naturally knew who boss Qin was, and couldn't help but be excited.

Li Fei was the same. He did not expect boss Qin to call him.

He looked as if it was an honor for Qin Lin to call him. But come to think of it, who wouldn't be honored to receive a call from Big Boss Ma?

Unless Big Boss Ma said that he needed to make a comeback and asked you to transfer 5000 Yuan to him and return 500 million Yuan to you.

Li Fei was indeed very excited to receive Qin Lin's call.

He didn't know what to say to boss Qin.

now that the other party had called him, could he find a chance to talk to boss qin about the new vegetable? It would be great if he could get another batch of snow, beef, and Linlin rice from boss Qin.

Li Fei took a deep breath as he thought of a way to start the conversation. He then picked up the phone and said respectfully, "Boss Qin, it's an honor to receive your call. What can I do for you?"

Qin Lin's voice immediately came from the phone. boss Li, I have a batch of snow, beef, and Linlin rice. Are you interested in coming to Linlin Manor? "

"What?" Li Fei almost couldn't react to Qin Lin's words.

he was just thinking about how to bring this up to boss qin, but who knew that boss qin would bring it up himself.

Was this a free lunch?

[Chapter 970 Linlin Winery Is Scamming Us?](#)

neither li fei nor lin haiyan could react in time.

This was like a person who had encountered a problem and had to rack his brain for a few days. He had lost weight and had to think of a way to solve the problem.

However, someone suddenly informed them that the problem had been solved a few days ago.

The surprise came so suddenly, who could react in time?

At the same time, the same thought appeared in their minds. 'A pie in the sky'.

This kind of good thing suddenly fell on his head. It definitely wouldn't be for no reason. When encountering such a thing, he definitely had to be more cautious.

Li Fei did not even think and said decisively, " I'm interested. I'll go to you city immediately.

Cautious my ass.

What did boss Qin want from him?

After all, the gap between him and boss Qin was too big.

Or perhaps he didn't have anything that boss Qin could covet. If he did, then the value of the item would be very high.

If that was the case, he would like to know where he got such great value from.

After hanging up, Li Fei said to Lin Haiyan, " "Honey, I'm going to Linlin Manor."

with that, he prepared himself and left the luxury goods. just as he got into the car, his phone rang again.

He was confused when he saw the number. It was actually related to Xiangshui tribute rice.

Luxury goods could get some Xiangshui tribute rice from time to time because of their special relationship. The owner of the number was also his online partner for getting Xiangshui tribute rice.

Li Fei answered the call and asked with a smile, "Mr. Lin, you're calling so suddenly. Is there another delivery of Xiangshui tribute rice? are you going to take care of me?"

"Boss Li, I have a question for you. Have you sold the Xiangshui tribute rice to Linlin Manor?" a voice came from the other side.

Li Fei frowned.

Linlin Manor had better Xiangshui tribute rice and had to change its name to Linlin rice. Most importantly, it was even more delicious. Why would they need to buy Xiangshui tribute rice from him?

However, Linlin villa had not released any news about this, so he could not tell anyone about it. Otherwise, if boss Qin's plans were affected, he would offend someone.

"Mr. Lin, I didn't sell any Xiangshui tribute rice to Linlin villa. What's wrong?" he asked.

"It's good that you didn't sell it to Linlin Manor," President Lin said again. "Send me a copy of last year's sales record of Xiangshui tribute rice. Also, do you know any channels that sold Xiangshui tribute rice to Linlin Manor? Moreover, there are quite a few of them."

Li Fei was even more confused.

Why are you asking questions related to Linlin Manor?

Moreover, Linlin villa really didn't need to buy Xiangshui tribute rice from outside.

He could only continue. Mr. Lin, I don't think there are any channels to sell Xiangshui tribute rice to Linlin Manor. Otherwise, there would be a lot of Xiangshui tribute rice. It's impossible that I didn't know about it.

"That's good!" President Lin heaved a sigh of relief and hung up.

Li Fei felt even more suspicious.

However, he was too lazy to investigate.

He would just go to Linlin Manor and tell boss Qin about this.

after that, he asked his wife to send him the sales record of last year's xiangshui tribute rice, and then he forwarded it to president lin.

Then, he hurriedly drove to you city.

...

in the dense forest, the chirping of insects could be clearly heard.

The leaves reflected the light of the sun.

Qin Lin cut open the bushes in front of him with a sickle. This place was already considered a primitive forest, and it took him half a day to reach it.

the goddess mountain was very strange. it was very tall, but there were no dangers or ferocious beasts that were unique to the primitive forest.

In the story of ranches, there were many legends about the goddess mountain. Many magical and colorful items were related to the goddess mountain.

That was why he had come in when he had the time, knowing that he would be able to explore the entire goddess mountain after entering the game.

"Yi!" Qin Lin suddenly looked at a stone in surprise.

There was something wrong with the rock. It looked like a statue.

however, more than half of the sculpture had been shattered, and the remaining parts were covered in vines and moss.

Furthermore, the top of the sculpture was covered with black umbrella-like things.

Isn't that Lingzhi?

Moreover, it was not small.

But looking at the statue, Qin Lin's face turned strange. The broken statue looked like a cat's head, and it was not an ordinary cat's head.

it was a little like doraemon.

This was surprising.

Although he knew that there was a version in the story of the farm series where Doraemon and Nozomi had transmigrated to the mine town of the story of the farm to help the main character with farm work, he still felt that the main character had to do it.

Moreover, this version really made the players complain. Just the opening animation was extremely long, as if they had watched more than one episode of an a-Meng.

Moreover, this version of the story of the farm was the most sci-fi version.

But why was there a statue that looked like Doraemon on the goddess mountain?

could it be that the many mysterious and fantasy legends of mount goddesses were related to doraemon?

This shouldn't be the case. The timeline of the game version didn't match, and it was probably just a coincidence.

Qin Lin didn't pay any more attention to this and went to pick the Lingzhi.

Lingzhi was a good thing. It had strong medicinal effects and was also an excellent Chinese medicine herb.

A catty of expensive wild Lingzhi would cost tens of thousands of Yuan. If it was a pure wild Lingzhi that was decades old, it would not even cost 100000 Yuan per catty.

However, real wild lingzhi mushrooms were rare, and most of them on the market were artificially planted.

If someone told you that they were selling wild Lingzhi, they were most likely lying.
