

The Girl CB 611

Chapter 611 She should Be the Best Student

He cooked for her every day and gave her expensive gifts.

Moreover, he must have noticed that she took a fancy to his appearance, and deliberately seduced her with his appearance from time to time.

Clearly, he was quite good at it.

And he has developed a thick skin.

If it weren't for his thick skin, they probably wouldn't have been together.

As for their long-term relationship...

Nikita suddenly changed her mind and accepted Sheehan because she felt that this man looked quite handsome, and he had a lot of money. If she wanted to have a boyfriend in her prime time, Sheehan was undoubtedly the best candidate.

She just suddenly wanted to have a relationship with someone.

She happened to have a suitable candidate around her.

So she said yes.

But she was afraid that her enthusiasm couldn't last for a long time, so she set up a three-month "internship" period for Sheehan.

But she didn't tell Tammy about this.

It was not necessary

She felt that the relationship between her and Sheehan might not be able to last for three months.

Xavier often criticized her, saying that she had never seen anyone be so fickle in affection.

When she first met Xavier, she thought he was so beautiful.

Then she got tired of his face after less than a month.

The first class in Class A was math.

Yvonne walked into the classroom with a stack of examination papers.

She was the assistant of math class, and the papers in her hand were the test papers of yesterday afternoon.

Yvonne has checked her scores when she took the examination papers.

This test was difficult, but she did well in it

The score was higher than her expectation.

In all likelihood, she should be the best in this math test.

Yvonne was in a good mood today.

When she came into the classroom, her steps were brisk and relaxed, and she was smiling happily.

The crisis of the Swift Group crisis would soon be lifted.

She would still be the elegant lady of the Swift family.

Moreover, she also learned last night that her grandparents' family was much more powerful than the Swift family.

Margot ran away with Patrick for the so-called love.

The Dan family is a famous local family, and Margot was a girl from that noble family.

At that time, Patrick was just a poor boy from an ordinary family.

Although he was excellent, the Dan family still despised him and did not allow him to be with Margot.

Later, it was the familiar and old-fashioned plots of keeping a couple apart.

In order to pursue her love, Margot broke up with her family, packed up a few clothes and followed Patrick.

Margot's departure has been decades.

During this period, she didn't contact the Dan family again.

This time, because of the affairs of the Swift Group, Margot had to reconnect with her family.

The Dan family has promised to help.

Soon, some money will be invested into the Swift Group to help it to get through the difficulty.

“Yesterday’s test results are here. This time, the test was difficult, and the overall scores were low. However, several

students still got high scores. Yvonne, hand out the test papers.” In front of the teacher’s desk, the math teacher spoke to Yvonne in a very gentle tone.

His eyes at Yvonne’s also showed his satisfaction.

Most girls were better at liberal arts.

Their science was weaker.

Therefore, when they were divided into different classes with different subject focuses, most girls would choose to study liberal arts.

As a girl, Yvonne chose science, but her grades were better than many boys in her class.

In this test, Yvonne won the first place.

Class A was the best class.

If she can get the first place in her class, she must be the best student in her grade.

Chapter 612 You Got the Highest Score this Time

Students in other classes couldn’t beat the students in Class A.

Yvonne nodded and turned to send out the test papers one by one.

Then she went back to her seat.

In front of the desk, the math teacher praised happily. "This time, Yvonne, Lanny and Leon in our class all did well in the

exam. Among them, Yvonne's score surprised me the most. She got 137 points, the best in our class."

The math teacher just announced Yvonne's score, and there were voices of exclamation below.

"Yvonne actually scored 137 points, which is so great."

"Yes, this test was super difficult. It is really amazing to get 137 points."

"I scored 130 points last time, but I only scored 102 points this time. The test was really difficult."

Lanny, who has just got the test paper, also took a look at Yvonne in surprise.

It was quite unexpected.

Mathematics was his strong point.

But he only got 135 points this time. Although it was only two points less than Yvonne, Yvonne was 20 points less than him in the last test.

It was clear that Yvonne has made great progress.

Although Lanny didn't like some of Yvonne's behaviors, he admired Yvonne in terms of this test.

He often saw Yvonne doing simulation papers.

Even during the lunch break, when everyone else was resting, she was still doing the examination paper.

Hard work really paid off.

The math teacher announced the scores of others one by one.

Leon scored 130 points, ranking behind Lanny.

In the first class, the teacher was analyzing the test paper.

Yvonne almost solved all the problems in the paper, and she only lost a few points on the last problem.

The last one was particularly difficult.

It took her half an hour, but she couldn't come up with the correct answer.

She has read the papers of Lanny and Leon. They didn't work out the last problem either.

They were the top students who have taken the top three position. If they couldn't get the points, students in other classes couldn't get it either.

A class passed quickly.

When the bell rang, the math teacher announced the class was over and walked out of the classroom with textbooks and test papers. He didn't have the habit of overrunning the class.

"Yvonne, you did really well in the exam this time."

Leon walked to Yvonne's table with his own test paper. He looked at Yvonne with admiration, and asked her how to solve the last problem.

In one class, the test paper couldn't be finished.

The math teacher hasn't talked about the last problem yet.

Leon thought that Yvonne has got high scores and believed that she must have solved the last problem. Yvonne pressed her lips and shook her head, "I lost a few points on the last problem. I couldn't figure it out." She has been thinking about it after she finished other problems during the exam yesterday.

She tried her best but still failed.

"Did you lose points on the last one?"

Yvonne's paper was spread flat on the desk.

Leon looked down and saw that she didn't solve the last problem.

It seemed that this one was really difficult.

"I thought you knew and wanted to ask you" Leon sighed. "It seems that we will have to wait until tomorrow to know the correct answer."

"Sorry." Yvonne gently bit her lips, and she seemed to be very sorry. "Why don't you ask Lanny? He may know."

"Lanny?" Leon looked at Lanny and laughed. "Forget it, you get the highest score this time, if you didn't make it, why should I count on him?"

Chapter 613 Get on Your Knees and Call Me Daddy

“It is not certain whether my score is the highest.” Yvonne firmly believed that she was the first place, but she pretended to be modest, “There are more students in other classes whose scores have not been summarized. Other classes might have higher scores”

“Well Leon looked arrogant on his face and disagreed, “Which student in other classes can beat Class A? Who is the person with the highest score you mentioned, Nikita?”

After he finished, he smiled disdainfully

His eyes were full of mockery

Yvonne pressed her lips and said indifferently. “It is possible. Before yesterday, no one would have believed that her English test scores could be so high. She might also get full marks in the math test.”

“I heard that she handed in her papers very quickly. She finished the test paper so early. Maybe, the problems that we found difficult may be very simple for her.”

“She got full marks?” Yvonne’s deskmate seemed to hear a joke and laughed directly, “Yvonne, you thought too highly of her. I don’t believe that she can beat you this time. Haha, everyone found it difficult to finish this test, but she handed in her test paper so early. It is conceivable that it was either an empty paper or that she finished it casually.”

“I bet she didn’t even pass the exam.”

Leon also teased with disdain, “If she can get full marks this time, I can kneel down and call her daddy”

Yesterday’s English test was a surprise,

He didn’t believe that Nikita could create another surprise.

What if a student who once scored zero in every course could get full marks in every examination?

How would people comment on the students in Class A?

Are they inferior to a poor student who once scored zero in every course?

“Leon, I heard everything you just said. Tammy raised his mobile phone and said with a sneer, “In order to avoid your cheating, I recorded all your words just now. You just said that if Niky’s math test is also full marks, you would kneel down and call her daddy”

“It’s you again, Tammy. All the people in the school knew that Leon had lost the bet before, and knew that he would apologize to Nikita in front of all the teachers and students at the flag-raising ceremony on Monday.

This incident made Leon lose his face.

He hated Nikita, and naturally even hated Tammy at the same time.

He said in an unfriendly tone, “Why do you want to bet again?”

Tammy looked at his fierce appearance and couldn’t help laughing, “Ouch, You are so funny. Leon, you lost so badly in yesterday’s bet. I thought you had learned a little lesson and would be scared for a few days.”

“I didn’t believe that you still dare to mention the bet to me.”

“Oh, who gave you the courage? Or do you really want to call Niky Daddy? You can just call her daddy directly.”

Tammy’s words were really sarcastic.

Several sentences made Leon’s face very ugly.

“Fine, if Nikita really got full marks in the math test, it is not a big deal to call her daddy. But can she get full marks? Who

believes it?”

Leon turned his head and asked a student beside him, “Do you believe it?”

The student shook his head without hesitation.

The test was very difficult.

None of them in Class A can get full marks let alone the students in other classes.

Yvonne’s deskmate also disagreed, “Yvonne scored 137 points, which is the highest score in our class. Even the math

teacher praised her for doing well in the exam. I don’t believe that anyone can score higher than Yvonne.”

“Besides, she is still a student in Class F. Are you kidding me?”

Chapter 614 Not Suitable for our Family

“That’s right. If the students in Class F become excellent students and can get better grades than students in Class A, isn’t that a shame for Class A?”

A group of people started to give sadistic comments.

Even though Nikita got full marks in the English test yesterday, no one believed that she could still get good marks in the math test

Nikita could get full marks in English, perhaps because she was really talented in language.

But math and English was completely different.

Generally speaking, mathematics was more difficult and brain-consuming, and it required great logical thinking.

This time, even Yvonne and Lanny didn't get 140 points. Who would believe that a student in Class F could get full marks?

"If Nikita in class F can get full marks, I will call her Daddy!"

"And me!"

"And me, if she gets full marks, I will be willing to call her Dad!"

"Well, Tammy, look at how many people support your Niky." Leon sneered defiantly, "The scores of Class F have already come out. Hurry up and ask your Niky how many scores she got. We are all waiting for her to get full marks to surprise us, don't let us down."

Many people around her laughed.

"Ok, Leon, stop it." Yvonne has watched enough, took out the physics textbook for the next class from the drawer, opened the book, and whispered, "Other people's performances have nothing to do with us, there is no need to waste time on irrelevant people."

"There is a physics test in the afternoon, spend more time on it."

When she said this, more than a dozen eyes turned to her.

Her deskmate also looked at her in amazement.

Yvonne felt it, looked up at her deskmate and smiled softly, "What's the matter? Why are you looking at me? Did I say something wrong?"

"No, Yvonne." Her deskmate hesitated and curiously said, "Nikita is only an adopted daughter in your family, but you just said..."

Before, Yvonne called Nikita sister.

Every time she would help Nikita and say a few words for her.

This time, not only did she not help her, but she also said she was irrelevant.

"Oh, you are considering that." Yvonne smiled faintly again, "She is no longer the adopted daughter of our family, and she has nothing to do with our family now."

"Why?" her deskmate gazed at Yvonne and looked surprised.

Others also listened carefully.

Everyone knew that Nikita was the adopted daughter of the Swift family.

She was not?

What happened?

Tammy also turned her head and looked at Yvonne.

“Maybe she is incompatible with our family.” Yvonne sighed gently. “Moreover, she is not the same kind of person as us. Although we all worked hard to get along with her, but we just couldn’t. So, we have to let her go.”

“Plus, she has a new chaperone and doesn’t need our family’s support.”

Yvonne said that Nikita was not compatible with her family, and many people remembered what happened to the Swift

Group recently.

The Swift Group has never got into any trouble.

It seemed that after Nikita was adopted, the stock price of the Swift Group suddenly plummeted inexplicably

And it almost went bankrupt.

However, according to the news this morning, the Swift Group’s share price seemed to started rising.

After the Swift family ended the relationship with her, the stock price rose again.

Therefore, Nikita was really a jinx of the Swift family.

Chapter 615 Deliberate Misleading

“She has a new chaperone?” Her deskmate became more curious, “Who is that?”

Yvonne hesitated and said vaguely, “I’m not sure. It seems to be an elder man who is rich and generous to Nikita. Perhaps, Nikita feels that following him is better.”

Male, elder, rich, and generous to Nikita...

Is this a chaperone?

This was clearly a financial supporter.

Many people had this idea in their minds at first, and their faces showed disdain.

Leon also smiled with disdain, "She looks very pure, but I didn't expect her to be such a person."

There were a few boys who have a good impression on Nikita. They also frowned, and their eyes showed disgust.

They were regretting that they actually liked such a casual and money-worshipping woman.

She looked pure, like a fairy who would not touch dust. But for money, she could get together with an old man.

A poor girl who grew up in the countryside really couldn't stand the temptation.

Looked at the contemptuous expression on the faces of the people around her, Yvonne pressed her lower lip and smiled. The curve on her lips was difficult to be noticed.

"You can eat what you want, but you can't say what you want." Lanny calmly looked at Yvonne. "If you are not sure, don't say it. You shouldn't spread ambiguous information and deliberately cause misunderstanding"

Yvonne's secret smile solidified for a few seconds, and her face suddenly turned green and then turned white. She bit her lips, and her face showed that she felt wronged.

“Monitor, you misunderstood me.” She looked innocent and wronged. “I didn’t mean to cause misunderstanding.”

Lanny looked at her coldly and said without mercy, “What do you think about those words just now? I don’t believe you don’t understand. The most important thing for girls is fame, don’t you know?”

Yvonne’s face turned whiter and became ugly. She was a little embarrassed by Lanny’s words.

She was so angry in her heart, but she acted to be wronged on the surface. She bit her lips tightly, and her eyes turned red. “I’m sorry, I really didn’t think so much. I thought that everyone was curious about it, so...”

She thought Damn Lanny, Why did he protect Nikita like that?

Was he really conquered by Nikita?

Why did he support Nikita all the time?

“Lanny, you have gone too far. Leon liked Yvonne. When he saw her red eyes, he looked up and glares at Lanny, “You support Nikita because you like her. That’s fine. Why do you bully Yvonne like this?”

‘Yvonne just told the truth, why did you say that she deliberately caused misunderstanding?’

Lanny looked at them coldly. “You all know what I mean. As for Yvonne... whether I have wronged her, she also knows in her heart.”

Lean was even more angry, “Lanny, you have to give us a hard time for a poor student in Class F, right?”

“All right. Stop it.” Yvonne stretched out her hand and pulled Leon with tearful eyes, “We are classmates for so many years.

We can solve any misunderstanding through explanation. Don't quarrel with each other, please."

Leon looked down and noticed that she was about to cry, and his heart suddenly softened. He felt pity for her.

He also felt more disgusted with Nikita.

If it weren't for Nikita, how could Yvonne suffer these grievances?

Tammy frowned, and she was still thinking about what Yvonne said before.

An elder man, very rich, and also very generous to Niky....

She felt that the man Yvonne mentioned was Sheehan

But when did Sheehan become the chaperone of Niky?

She had to ask Niky about this.

Chapter 616 You've Found a Treasure

At this moment.

In the teacher's office.

The math teacher in Class F gazed at the test paper on the top in surprise.

There were three clean and clear red numbers on the paper: 150.

This time, the test papers were not reviewed by students' own teachers.

The reviewers were random.

For example, the papers of Class A were reviewed by the teachers of the Class C.

Therefore, Mr. Chou, who just got the test papers of the students in his class and saw the test scores, was stunned.

He stopped there silently for a few seconds, looked up, and his face was full of disbelief, "Hey, are you sure this is the test paper of our class? Could it be a paper from class A, and you took it mistakenly..."

Next to Mr. Chou, there was a slightly fat man. He reviewed the math test papers of Class F this time.

The man pushed the black frame glasses on his nose and said with a smile, "How can I get it wrong? I didn't review the test papers of Class A."

"But..." Mr. Chou once again looked at the clear and beautiful three red numbers on the test paper. He was confused, "What's the matter with this score on this test paper? Is there a mistake?"

"Oh, you said that." The man smiled again, and looked at him with envy on his face, "Mr. Chou, I didn't expect this transfer student in your class to be so excellent. You have got a treasure"

"When I saw the score, I was quite surprised. So I reviewed this test paper three times, and I'm sure the final score is correct, that's all. Moreover, you know, the problem-solving method of this transfer student in your class is very special. This is the first time I have seen high school students solve problems in this way."

"It is completely beyond the knowledge of high school."

The man was very excited when he talked about this, "Mr. Chou, the next class is your class, right? Please help me ask the transfer student in your class if she is interested in participating in the Olympic mathematics competition. By the way, I heard that her family conditions are not very good. Please tell

her that as long as she is willing to participate in the competition, I will cover all the expenses for the competition for her.”

Mr. Chou fell in silence.

Was he poaching his excellent student in front of him?

“Your class’s grades have come out. This time, you lost to me.” A hearty voice sounded outside the door, and then a man with a thermos cup in his hand came in with a big smile.

He was the math teacher of class A.

The slightly fat man was from Class B, and the overall performance of Class B was not as good as that of Class A, but there were also several outstanding students in some subjects.

Before the math test, the slightly fat man made a bet with the math teacher in Class A that the teacher with the student that got the first place in the test would win.

The loser should give the winner a big red envelope of 1,000 dollars.

In the past few years, they have been making bets.

Sometimes, the slightly fat man won, and sometimes, the math teacher in Class A won.

When the math teacher of Class A can said this, he must have seen the test results of Class B.

Cecilia of Class B has a good performance in mathematics. In recent years, Lanny and Cecilia have been competing with each other.

In this test, Cecilia got 136 points.

It was only one point less than Yvonne In Class A.

But even if it was only a one-point gap, winner was the math teacher of Class A.

The math teacher in Class A was very happy. Fortunately, Yvonne performed exceptionally this time and narrowly won by one point, otherwise he would be the loser.

Chapter 617 is not quite simple

“Come on, give me the red envelope quickly.” The math teacher of Class A walked into the office, put the water cup on his desk and took out his mobile phone.

The slightly fat man smiled and sipped the newly brewed tea. He said in no hurry. “Haha, Mr. Chan, don’t be happy too early. I didn’t lose this time.”

“Didn’t?” the teacher of Class A also smiled, “Well, if you are willing to gamble, you should admit your failure. Do you want to get away from it? I already know the highest score in your class. It is that Cecilia, one point less than Yvonne in our class.” The slightly fat man still smiled, “Yvonne in your class is one point higher than Cecilia in our class. That’s true. However, we bet that we could win only if we got the first place in grade. In this math test, the highest score is neither in our class nor in your class.”

“So in the bet between us, no one lost, no one won.”

The math teacher of Class A was stunned and extremely surprised, “What did you say? The highest score this time is not in our class? Which class is it in?”

Could other student score higher than Yvonne in their class?

It was impossible.

The slightly fat man turned his eyes and looked at Mr. Chou sitting aside.

The math teacher of class A followed his eyes and was stunned again. Then he said in disbelief, "Is that student in Mr. Chou's class?"

The fat man nodded.

"How can this..." The math teacher of class A wanted to say that it was impossible. When the words came to his mouth, he felt that this seemed to be offensive. He quickly swallowed it back and changed his words, "Which student? That is so excellent.*"

"Nikita" The slightly fat man said with emotion, "The hidden treasure in Mr. Chou's class. This test is so difficult, and she got full marks. And I heard that she handed in her papers in less than ten minutes. Mr. Chou, is that true?"

"Full marks?!" The math teacher in Class A was shocked.

Mr. Chou closed his lips, and his mood was very complicated. At that time, he didn't know what to say.

Yesterday, Nikita did hand in the paper in advance in less than ten minutes.

He thought she had handed in a blank paper and had no interest in reading her paper.

Who would have thought that the first student to hand in the paper, the student he looked down upon, actually got full marks.

Full marks!

The students in Class F got full marks!

He has taught Class F for so many years, and he was very pleased if there were several passers in the class.

This time, he suddenly got a student with full marks in the exam, and he felt like he was dreaming, which was too

unrealistic.

“Look at this test paper.” The slightly fat man took out the test paper of Nikita and handed it to the math teacher of Class A. “The way to solve each problem is very beautiful, and many formulas used are beyond the knowledge of high school, which is taught in universities.”

“I can say that even you and I can’t think of some of her problem-solving methods.”

“Nikita is not simple, quite unique and smart. Mr. Chou really found the treasure this time.”

The math teacher of Class A didn’t speak, but took the test paper and looked at several problems.

His face once again showed great surprise.

He held the test paper and looked up. His eyes were full of surprise, “How could she...”

A high school student used the problem-solving methods in college textbooks, and some of them even exceed the level of ordinary universities

It was also beyond their level as teachers.

The slightly fat man squinted, and his sight once again fell on the clean surface full of red hooks. His eyes flashed, and he wondered, “Yes, I am also very curious, how did she get it...”

Chapter 618 Teach Him to Do It Well

A poor student transferred from a township school.

A poor student who scored zero in several general examinations.

And it was impossible to cheat

Nikita was the first to hand in the paper.

And the way she solved the problems couldn't be achieved by cheating.

No one knew who put those words in Class A that if Nikita could get full marks in the math test, some students in Class A would call Nikita daddy together on the campus forum.

There were many replies.

In view of the fact that Class A has been defeated once before, some students didn't stand on Class A's side this time.

But most students still supported Class A.

About one third of the students supported Nikita.

The rest of the students remained neutral and waited to see the result.

Class F.

Samuel has just finished reading the posts on the forum.

Turning his head, he said to Felton, who was rarely awake and was killing in the game, "Felton, the people in Class A said that if Niky can get full marks in the math test, they will call Niky daddy. In your

opinion, can she beat them again?" Felton didn't look up.

His slender and white fingers clicked quickly on the mobile phone screen, "Although I hope that Nikita can beat them, but there is little hope"

"Why? Don't you support Niky? Before, no one believed that Niky could get full marks in the English test, but Niky got full marks finally Samuel twisted his eyebrows and snorted coldly, "These people talk in a strange way. I really hope Niky can beat them this time again."

"Especially that Leon, I really want to kick his ass."

Felton's game was finally finished. He pinched his fingers, threw away his mobile phone, and turned his head to look at the girl sleeping on the table.

Outside the window, fine sunlight came in and fell on her delicate white face, like a layer of light on her face, which made her skin whiter and crystal clear.

Felton gazed at that girl.

He said faintly, "You can beat him up at any time."

Samuel's eyes suddenly lit up, he rubbed his hands, and he couldn't wait to say, "It's better to create a chance than wait for a chance. Everyone knows that Niky is protected by us, and he still dares to make trouble like this. It is clear that he didn't pay attention to us."

"Well, let's give him a lecture today."

Leon's family was also quite rich.

He was also a rich boy.

In terms of family background, he was equal to Samuel and his friends.

But compared with the Lambert family, there was still a huge gap.

If Felton wanted to beat him up, he could just go ahead.

Tobin has just finished playing a game. He twisted his neck and relaxed his bones and muscles. Then he turned his head and smiled, "This guy is Yvonne's pursuer. He did this to Niky because he wanted to please Yvonne,"

"I don't care about his purpose. If he dares to bully Niky, we will kick his ass!" Samuel pinched his fist and said, "In First

Senior High School, whoever dares to bully Niky is our enemy!"

The bell rang for class.

The second class, math class.

Mr. Chou walked into the classroom with a stack of test papers.

This time, the test was difficult, and even the average score of Class A was only 110, with the highest score of 137.

It was conceivable that the results of Class F were miserable.

In the past, every time the scores came out, Mr. Chou's mood in class was as heavy as going to the grave.

If he was in a bad mood, he naturally vented it on the students.

Therefore, when Mr. Chou appeared at the door of the classroom, all the noisy students fell quiet in a second.

All the students took out their math textbooks obediently.

No one wanted to make trouble at this time.

Chapter 619 You Did very well in the Exam

Mr. Chou put the papers on the teacher's desk, pinched his lips and looked up at the last row.

Other students followed his sight and looked up to the last row

Then they saw Nikita lying on the table and sleeping soundly

They thought that Nikita handed in the paper so early yesterday, and her score was imaginable. It might be zero. Mr. Chou must want to give her a lecture.

Although the students in class F were a group of scum.

But no one got a zero.

If Nikita got a zero, she would let Mr. Chou lose his face in front of other teachers.

If a teacher had a student who got a zero, people would definitely doubt his teaching ability.

Samuel also thought Mr. Chou was going to scold Nikita

He turned his head, lowered his voice and called Nikita twice.

He found it useless, and then pushed her gently.

The girl seemed to be sleeping soundly, but her sleep was actually very shallow. As soon as he put his hand on, he saw her eyelids move and open in a second.

She woke up.

Probably because her sleep was interrupted, her eyes were covered with a sense of disfavor. She frowned, and the atmosphere was quite cold.

“What is it?” the girl took off her earplugs and opened her mouth. Her voice was hoarse in repressed anger.

The aura was very strong, and the pressure of her mood was oppressive. Samuel swallowed his spittle nervously and almost lost his words, “Niky, you didn’t do well in the math test this time. Mr. Chou seems to be angry and wants to scold you.”

“Don’t sleep anymore.”

Samuel felt that Nikita might have got a zero.

But if she hadn’t handed in her papers so early in advance, Mr. Chou wouldn’t have been so angry.

If you couldn’t solve the problem, that’s fine. But you should have a correct attitude.

Just like them, although they get ten or twenty points every time, they always handed in the papers at the last second of tests.

Their attitudes were great.

So Mr. Chou never scolded them.

Didn't do well in the exam?

The young girl twisted her eyebrows again, sat up straight slowly, lifted her eyes and looked at the teacher lazily with her eyes narrowed

A group of students looked at Mr. Chou standing in front of the desk, and then at the girl sitting in the last row with delicate eyebrows and eyes. They were waiting for a storm.

Both Mr. Chou and Nikita had a bad temper.

If they had a fight, it would be very interesting.

In front of the teacher's desk.

Mr. Chou looked at the girl who had just woken up. Because she didn't sleep well, there was some anger between her eyebrows. But the teacher's eyes were so gentle.

When he opened his mouth, his voice was also light, "Nikita, did we wake you? Is it too noisy in class? If you don't sleep well, you can go to my office to sleep. It is quiet and there are few people."

Mr. Chou's words surprised all the students in the classroom, and they made a sound of amazement.

"What...what happened to Mr. Chou?" Samuel was also surprised, "I didn't hear him wrong. Did he ask Niky to go to his office to sleep?"

Felton narrowed his eyes, turned his head and looked at his deskmate. He was in deep thought.

Was it true that Nikita did a good job in this math test?

They have been in First Senior High School for so many years.

They have never heard Mr. Chou speak to any student so gently.

Nikita supported her chin with one hand, glanced at the examination paper on the teacher's desk and asked directly, "Mr. Chou, I heard that I didn't do well in the math test. Can you show me my test paper?"

Mr. Chou was stunned, and then frowned, "Who said you didn't do well in the exam? Nonsense. You did very well in the exam this time, with a perfect score of 150 points, which far surpassed several students with good math scores in class A."

Chapter 620 Math Talent with Full Score

In an instant, there were indrawn breaths of surprise in the classroom.

What?

Nikita got full marks in this math test?!

Everyone looked at Teacher Chou in shock.

Mr. Chou looked at the faces in the class. He understood the mood of this group of students.

After all, he was in the same mood when he just knew the score of Nikita

"Shit, I didn't recognize it. Niky, Mr. Chou said you got full marks? Samuel couldn't believe his ears. "Niky, did you get full marks in the math test?"

The girl raised her head with a calm face, as if it was a normal thing, then she replied in a faint tone: "It seems to be."

It seems to be ?

Samuel was stunned...

She is so calm when she gets full marks.

As if she always got full marks

But didn't she often get zero before?

Is it true that they misunderstood her?

Tobin was also surprised "You handed in your papers so early yesterday and finished your papers?"

Moreover, you got full marks.

What happened?

Felton pursed his lips tightly and speechless

He thought t kita handed in her paper so fast yesterday that she was answering it blindly

But unexpectedly

A whole class

All the students in Class F, except Ni are in a trance state

She woke up halfway and didn't sleep again.

She took out her mobile phone, put on her headset and logged into the game.

Then she played games for a whole class

Mr. Chou looked at her with friendly eyes from time to time. Seeing her playing games seriously, his face was very gratified.

No wonder she is so clever.

She can come up with so many whimsical ways to solve problems.

Playing games can really improve thinking ability and logical ability

He used to think that students who love to play games are doing nothing, and their academic achievements are influenced by games.

It seems that he is biased.

After class

The news that Nikita got full marks in mathematics test suddenly caused a sensation in the campus group

Moreover, it not only caused a sensation in the campus group of First Senior High School, but also caused a sensation in the campus alliance group of N City All of a sudden

All schools know about this math test, and the girl who got full marks is from First Senior High School.

The papers of other schools are the same as them.

But only one got full marks

That is to say, Nikita's score in this test is not only the first grade in No. 1 Middle School, but also the first grade in the whole city

It's amazing!

"Nikita Swift? Is it the new beauty queen just selected by First Senior High School? Didn't you say that her academic performance was very poor?"

"Ah, I know this new beauty queen. Did she also take the first place in the English test? Two first in a row? Amazing!"

Other schools have caused a sensation

Not to mention First Senior High School.

In the morning, the post was instantly replied to more than 1000 times.

"Nikita got full marks in the math test What about the group of people who said they would call her father?"

"Yes, when will you call Nikita Tather? L

know in advance We want to see it"

"Leon, Nikita asked you to come out and call Dad

I'm the only one who doubts that Nikita's grades may be cheating. Everyone knows how difficult this test is. All the middle schools in N City didn't get full marks, but she actually got full marks. I don't believe this is her real strength."
