

## The Heavens 1081

### Chapter 1081: Earth Star

“Oh? We already have 2 rank three Astronomers? Looks like the Heavenly Star Palace no longer dares to hide any secret...” Shang Xia looked at their Astronomers and sighed. The first was naturally Yan Ming, who managed to obtain the incomplete inheritance the Tongyou Institution got their hands on. The second was actually a disciple of the Upper Division who had been picked because of his talent.

It didn't matter if it was just Yan Ming as she no longer had any future as a Stargazer due to her cultivation being at the Martial Dipper Realm. However, the Upper Division disciple was called Yuan Qiuyuan and he was only at the Martial Intent Realm!

“Just the 2 of them are enough to use the Star Observatory?” Shang Xia gasped.

Kou Chongxue chuckled in response, “Of course not! However, the Star Observatory is the Heaven Supporting Jade Pillar of our Elysium and they can draw on the power of the Elysium to do so.”

Shang Xia's eyebrows jumped slightly. “How much energy do they use?”

The smile on Kou Chongxue's face remained and he muttered, “It's alright. After we use the Star Observatory, we can draw over the power of starlight that contains essence qi to make up for the loss...”

Shang Xia immediately snorted as he put on an expression that he was afraid he was getting played by Kou Chongxue. He pointed at the thin ray of starlight falling and he mumbled, “This is a lot weaker than the starlight drawn over by the Heavenly Star Palace!”

Helpless, Kou Chongxue could only try to explain, “Of course we can't compare ourselves to them! However, if they manage to take a step further in the path of a Stargazer, or if we manage to produce even more in the future, the power of starlight we can draw over will increase by several times! In fact, it might increase by tens of times! When that happens, we'll be able to draw more power than the Heavenly Star Palace.”

“Also... The Heavenly Star Palace took control of the Star Observatory in the Jiao Continent. There's basically no obstruction by our heavenly screen when they draw starlight over. However, the heavenly screen above our You Continent is solid and it also needs to pass through a layer to enter our Tongyou Elysium. Of course it's going to be weaker!”

Shang Xia nodded slowly. He understood the difference between their Tongyou Institution and the Heavenly Star Palace. To put it simply, the Tongyou Institution was able to reduce their risk when absorbing starlight while limiting their gains. On the other hand, the Heavenly Star Palace was able to draw on a large amount of power of starlight, but they would also risk a lot in the process.

“Right, you said that they discovered something?” Shang Xia asked after seemingly having thought back to it.

Kou Chongxue could only sigh helplessly in response, “Yeah, I was interrupted by you and nearly forgot what I was going to say!”

Pausing for a second, Kou Chongxue turned serious all of a sudden. “They made 3 attempts to carry out short observations, and during those attempts, they discovered an Earth Star that is flying towards our Spirit Luxuriant World at high speeds.”

“Earth Star?” Shang Xia mumbled softly. However, he didn’t seem to care too much about it.

After all, it was a mere Earth Star...

“There are people on the Earth Star, and there are quite a few of them!” Kou Chongxue continued suddenly.

“So what? At the end of the day, it’s just an Earth Star! Why don’t you guys let them replicate how the Heavenly Star Palace located the Star Beast Nest? Wouldn’t that help them in their path of becoming a better Stargazer?” Shang Xia raised an eyebrow and muttered.

In response, Kou Chongxue merely chuckled, “Stop being impatient. What if I tell you we should be pretty familiar with the Earth Star coming our way and I tell you it’s being drawn over by some special force in our Spirit Luxuriant World?”

“Familiar?” Shang Xia was slightly taken aback. He quickly guessed, “Don’t tell me it’s related to the Manyu Continent back then? Who’s pulling it towards us?”

“I knew you would be able to guess. However, why don’t you try guessing who’s behind it?” Kou Chongxue nodded in response.

Shang Xia stared at the Astronomers who were recovering their energy under the Starry Tree and thought of something. “Don’t tell me the members of the Heavenly Star Palace are messing around?”

“You got it again. The Heavenly Star Palace is really the one drawing the Earth Star over. To be exact, it’s because of their Star Observatory.” Kou Chongxue laughed.

“What would be their goal then?” Shang Xia asked.

Shaking his head, Kou Chongxue mumbled, “That’s what we don’t know. Yan Ming and Yuan Qiuyuan reached their limit when discovering the starlight emitted from the Earth Star. That’s also after they borrowed the power of their Star Observatory. This is also most likely why they have been sent away by the Heavenly Star Palace after they became Astronomers. They were probably afraid our disciples would be able to learn their secrets...”

Shang Xia thought for a second before he continued, “At the end of the day, they’re just trying to grow stronger. An Earth Star that lost its support of world origin for 20 to 30 years might still possess some sort of expert. However, the Heavenly Star Palace wouldn’t be able to gain much benefits even if they assimilated the Earth Star into our world. Could they be aiming for the aboriginal cultivators there?”

“How strong would they be even if they manage to enter our world? The small amount of benefits would barely be comparable to taking in all the mortals living on that Earth Star..” Kou Chongxue snorted.

Both of them continued to play the guessing game for half a day and failed to reach a conclusion. In the end, they could only sigh and change the topic.

“Do Yan Ming and Yuan Qiuyuan have any hopes of reaching a fourth rank Stargazer?” Shang Xia asked, “I heard that the moment they become a Stargazer, not only would they gain the proper title, but they would also no longer need to exhaust the power of an Elysium if they used the Star Observatory.”

Kou Chongxue gave a huge sigh in response, “Not at the moment. The Heavenly Star Palace’s requirement to be a Stargazer is extremely stringent. Even though Yuan Qiuyuan was promoted to a rank three Astronomer in the Jiao Continent, he came back and compared what he knew with Yan Ming and discovered something different. His foundations were far from Yan Ming who was promoted in the institution!”

Shang Xia nodded and he wasn’t surprised at all. “The Heavenly Star Palace would definitely hold back and not teach us everything they know. Actually, if I was in control of the inheritance, I would definitely go even further to protect it.”

Kou Chongxue snickered under his breath. “Say... If you and I enter the void and intercept the Earth Star before it arrives, what do you think will happen? Do you think the members of the Heavenly Star Palace will be so pressed that they reveal their intentions?”

Shang Xia nodded in approval. “Heh, actually, I think we’re close to 80 percent sure to succeed! The problem is... Are you really planning to do it?”

...

The next time Shang Xia ran to the Star Origin City, he concealed his presence and identity as per his agreement with the Starry Pavilion.

Only after he entered the Starry Pavilion did he reveal himself to Zhou Mingdao.

With the Deputy Pavilion Master leading the way, Shang Xia once again returned to the quiet chamber on the seventh floor. However, he was quickly shocked by his discovery.

“Huh? Deputy Pavilion Master Zhou, why are there 7 sheets of rank six talisman paper now?” Shang Xia asked.

A look of surprise that superseded that of Shang Xia could be seen on Zhou Mingdao’s face. “True Immortal Little Shang, is there something wrong?”

“This... I had 2 sheets remaining and you just had to bring 3 more...” Shang Xia mumbled with slight surprise.

In response, Zhou Mingdao burst out laughing. “The order I received was to fully support your efforts to craft the talisman. Every time you complete one, I’ll bring over 5 sheets of rank six talisman paper.”

After getting over his shock, Shang Xia cupped his fists. “Many thanks!”

With a soft laugh, Zhou Mingdao prepared to leave. However, he didn’t forget to remind, “True Immortal Little Shang, if you have any other requests, feel free to let me know! I’m at your beck and call!”

After Zhou Mingdao left...

Sealing his chamber, Shang Xia once again returned to the platform where he had been crafting talismans. He discovered that the talisman paper wasn’t the only thing that had been replenished. Even the rank six ink stick that wasn’t fully depleted was gone. In its place was a new rank six ink stick.

Chapter 1082: Inspiration Strikes Again

“From the looks of it, Tong Yutang really attaches heavy importance to the Formation Talisman...!” Shang Xia thought to himself.

Ordinarily speaking, when one invites a Talisman Grandmaster to craft a new talisman, they would need to provide 5 talisman papers at the very start due to their difficulty level. However, after they succeeded, they would return to the usual rate of 3 sheets of talisman paper for a completed talisman.

The secret inheritance was something Shang Xia was attempting for the first time, and he wasn’t surprised that he was provided 5 sheets of rank six talisman paper at the start.

Since he succeeded, Shang Xia felt that Zhou Mingdao should have returned to the original rate. However, he was still provided with 5 sheets of rank six talisman paper and unless Tong Yutang placed great importance on those talismans, it would mean that Zhou Mingdao was intentionally trying to please him.

Shang Xia naturally leaned towards the former possibility. After all, even though they were merely talisman paper, rank six talisman paper was of extremely high value. Even if Zhou Mingdao was the Deputy Pavilion Master, he wouldn’t be able to easily give Shang Xia extra just because he wanted to.

Naturally, he wouldn’t reject treasures that had been delivered to his doorstep. Not to mention the fact that the secret inheritance Tong Yutang provided already had its flaws. The talisman could only be completed after Shang Xia’s restoration.

Just that point alone would make Tong Yutang owe Shang Xia a huge favor.

What Shang Xia didn’t know was that because of his achievement in restoring the secret inheritance, Tong Yutang owed him a lot more than he thought.

Shang Xia did the same as before as he took 3 days to adjust his mental state before starting a new attempt.

Because he already completed 2 talismans and had 7 sheets of rank six talisman papers in hand, Shang Xia felt his hand itch. Feeling himself, he used an entire month to complete 2 rank six Formation Talismans from the secret inheritance. He made 6 attempts in order to do so and he had another rank six talisman paper left over.

Generally speaking, completing 2 talismans in 6 attempts was a general hallmark of a rank six Talisman grandmaster.

Shang Xia understood that the Formation Talisman wasn't as complicated as his Six Harmony Teleportation Talisman, but what he didn't know was that either of those talismans were of higher than average difficulty among rank six talismans.

After handing the 2 completed talismans to Zhou Mingdao, Shang Xia didn't keep the rank six talisman paper in the chamber and he simply ran off to Star Origin City.

In one of the lectures held by a famous expert, Shang Xia sat close to Feng Ziyong after concealing his identity. Both of them sat in an inconspicuous corner.

"Feng Ziyuan already entered the Martial Void Realm. According to some rumors I heard, she's still in seclusion to consolidate her foundations but she will probably emerge soon to take control of the Fourth Camp." Feng Ziyong revealed extremely important insider news from the Star Origin Guards the second they started to communicate.

Shang Xia pretended to be listening to the lecture while transmitting his voice over, "Feng Ziyuan, Feng Ziyong... Heh, you didn't skimp out on borrowing other people's identities when entering the Star Origin Guards! I'm afraid she's going to set her sights on your annoying ass after she emerges from seclusion."

Feng Ziyong didn't seem bothered as he replied, "There are no problems with my identity. If she wants to look into it, that would be great! After all, that would mean that I have successfully attracted her attention."

Shang Xia couldn't help but shoot him a glare despite both of them trying to hide the fact that they knew each other. "That doesn't sound like a bad thing, but when you put it that way, you make it sound really vulgar, you asshole."

"Really? You must be mistaken." Feng Ziyong sneered.

"..."

Only after a moment did Feng Ziyong cough softly and continue, "Anyway, let's talk seriously now. After you reminded me to keep an eye on Seventh Camp Commander Xing Xingtian, I actually managed to discover something."

"What?" Shang Xia asked with his gaze fixed on the person speaking about cultivation.

"Hehe... You told me to look into the last time the Star Ship went out on patrol, right?" Feng Ziyong decided to play around a bit and build the suspense.

Nodding, Shang Xia continued, "I also remember that you said that it was really possible for the True Immortal on board to be Tong Yutang!"

Slapping his thigh all of a sudden as though in reaction to the lecture, Feng Ziyong yelled back in his voice transmission, "Exactly! Moreover, the experts in charge of the Star Ships were from the Seventh Camp!"

Shang Xia gasped and turned in shock, only to see Feng Ziyong nodding slightly in his direction.

Soon after, Feng Ziyong continued, "That's not all. Around 2 months ago, the Star Ship that belonged to the Seventh Camp went out for patrol once again. Moreover, it was the same ship we had been looking for and the people on board looked to be the same..."

"Hmm..." Shang Xia thought for a moment and mumbled, "Do you suspect..."

"Have you seen Tong Yutang recently?" Feng Ziyong asked.

Slightly taken aback, Shang Xia eventually shook his head. "Zhou Mingdao said that he was in seclusion and I didn't see him even after completing the talismans this time and last."

"Hehe..." Feng Ziyong chuckled softly, "Looks like the possibility of Tong Yutang being the person Kou Chongxue saw back then is getting larger... I'm getting more interested in the Pavilion Master of the Starry Pavilion!"

Before Shang Xia could say anything, he continued again, "Say... If I was a third tier True Immortal like Tong Yutang and news of my collusion with the Seventh Camp to break through to the fourth tier started to spread through the Star Origin Guards... What do you think will happen?"

Shang Xia couldn't be bothered to entertain the shit stirrer and snapped, "This is something related to the Star Origin City and I wouldn't know what will happen for sure. However, I do know that they will definitely hunt down the origin of the rumors. When that happens, you won't be able to escape."

"How can I make such basic mistakes and get caught for something like this?" Feng Ziyong snorted in response.

Eventually, Shang Xia's sigh came. "At the end of the day, we don't have concrete evidence. Not to mention that even if it's real, what good can it do for us?"

...

Eventually, Shang Xia returned to the Starry Pavilion after he was done. When he entered the chamber on the seventh floor, he saw 10 new sheets of rank six talisman paper waiting for him. He couldn't help but lament at how rich the Starry Pavilion was. With the last remaining sheet back then, he had a total of 11 sheets of rank six talisman papers waiting for him.

Laughing softly to himself, Shang Xia quickly adjusted his condition and prepared to craft Formation Talismans.

Failing on his first attempt, Shang Xia managed to craft the fifth rank six Formation Talisman on his second try.

Perhaps it had something to do with how he had been crafting the same talismans over and over, or it might have something to do with his concentration... In fact, there might be other factors at play and after he completed the fifth talisman, he felt a surge of inspiration.

Without hesitation, Shang Xia didn't even stop to restore his energy as he continued crafting talismans.

Very quickly, his seventeenth attempt was also a success and he completed 6 of the requested 7 talismans.

However, Shang Xia didn't stop to rest either. On his eighteenth attempt, he nearly completed the last talisman but because of a small mistake, it went to waste.

Fortunately, Shang Xia still managed to keep himself in his special state and the failure didn't affect him much. He quickly succeeded on his last attempt.

With 19 attempts in total, Shang Xia crafted 7 rank six Formation Talismans as requested of him! Of the 11 sheets of rank six talisman paper, he had 6 left!

Shang Xia didn't hesitate and grabbed another sheet to begin crafting again. With the divine brush in hand, he decided to make the other rank six talisman he knew, the Six Harmony Teleportation Talisman!

He failed on his first try but succeeded on the next.

His third attempt also ended in failure, but he succeeded twice in a row after that!

It was a shame he failed on his last try, but he no longer had any rank six talisman paper on him.

Regretfully placing the brush down, he could tell that his state of enlightenment had long since disappeared.

With 6 sheets of rank six talisman paper, Shang Xia completed 3 Six Harmony Teleportation Talismans! It was a terrifying achievement of a 50 percent success rate!

Chapter 1083: The Deal Regarding the Divine Brush

When Shang Xia handed the last 3 Formation Talismans to Zhou Mingdao, the Deputy Pavilion Master was shocked before he sighed softly in response while cupping his fists towards Shang Xia, "True Immortal Little Shang, your achievements in the dao of talismans are truly amazing."

Shang Xia chuckled in response, "Deputy Pavilion Master Zhou is exaggerating... I just got lucky!"

Zhou Mingdao glanced at the platform in the chamber and discovered that not a single sheet of talisman paper was left. He spoke quickly, "True Immortal Little Shang, please hold on for a moment. I will immediately get someone to bring 15 sheets of rank six talisman paper over..."

Actually, Zhou Mingdao didn't know that Shang Xia completed the talismans required long before he used up the talisman paper. If he learned that Shang Xia also managed to make 3 Six Harmony Teleportation Talismans, who knew what he would think?

Shang Xia chuckled in response, "Deputy Pavilion Master, there's no need to be in such a rush. Now that I've completed the talismans as required, I wonder where Pavilion Master Tong is. I wish to thank him for the trust he placed in me."

The smile on Zhou Mingdao's face remained and no one could tell what he was thinking. He muttered, "This... I am very sorry. I'm afraid even the Pavilion Master didn't expect that you would be able to craft the required talismans in such a short amount of time. He entered seclusion back then and instructed me not to disturb him under any circumstances..."

Shang Xia revealed an awkward smile and he mumbled, "I see... Actually... I was thinking about asking about the deal with the divine brush Pavilion Master Tong mentioned back then..."

A look of realization appeared on his face and Zhou Mingdao broke out into a huge grin, "Oh! That's why you wanted to look for the Pavilion Master! True Immortal Little Shang, you can rest assured. The Pavilion Master has already given me his instructions. He also wishes to ask if you feel comfortable using it?"

Shang Xia seemed to understand the hidden meaning behind the question Tong Yutang wanted to ask and he chuckled happily, "Of course! I feel very comfortable using it!"

Zhou Mingdao seemed to have expected the answer and he laughed, "Actually, this is the divine brush Pavilion Master Tong would trade with you after the deal was done."

Regaining his calm, Shang Xia asked in a low voice, "How did Pavilion Master Tong wish to carry out the trade?"

"Pavilion Master Tong proposed 2 methods. The first was to invite True Immortal Little Shang to our Starry Pavilion to serve as a resident Talisman Grandmaster. The service period will be for 20 years and we will request for you to craft any talismans during your time here as long as it's within your abilities. When the time is up, this brush will belong to you."

Actually, the first condition proposed wasn't exactly harsh. After all, that was a divine grade talisman brush they were talking about. They weren't going overboard by asking for 20 years of service.

Shang Xia didn't even bother considering it as he continued to ask, "What is the other method?"

Zhou Mingdao seemed to know that there wasn't much possibility of Shang Xia accepting the first condition and he quickly brought out a list from his sleeves to explain, "The second method is to use the treasures listed here to trade for the brush."

Shang Xia casually looked through the list and noticed that there might be a ton of rank four and five spiritual herbs, but he knew that they weren't too precious. However, he could tell that most of them were specialty products that could only be found in the Spirit Luxuriant World.

After falling silent for some time, Shang Xia made some amendments to the list before handing it back to Zhou Mingdao. "Deputy Patriarch Zhou, what do you think of this new proposed list?"

Glancing at the changes Shang Xia made, Zhou Mingdao kept the list quickly and laughed, "Of course it's possible! However, if our Starry Pavilion runs into any problem when crafting talismans in the future, we hope that True Immortal Little Shang will lend a hand when the time comes. Of course, we will give you sufficient compensation."

Seeing as the other party wasn't making things difficult for him, Shang Xia also chuckled in response, "Deputy Pavilion Master Zhou, you're too kind. Even though I can't say that I'll be at your beck and call, I won't reject the request as long as I have the time and can fulfill it."

He paused for a second before he continued, "As for the resources on the list, I will try to gather them as quickly as possible. When the time comes, they will naturally head over to complete the deal!"

After Shang Xia left the Starry Pavilion, he not only had an additional Silver Branch Star Splendor Brush on him, but he also had 3 extra Six Harmony Teleportation Talisman and 15 sheets of rank six talisman paper. He also brought along several rank six talisman ink sticks.

Before leaving the city, Shang Xia decided to meet Feng Ziyong once more.

“Do you have news about the Star Ship or those of the Seventh Camp?” Shang Xia smiled and asked the moment they met.

Feng Ziyong shook his head in response. “Recently, the main focus of our Star Origin Guards have been placed on Feng Ziyuan and her breakthrough. No one really cared about the Seventh Camp’s actions. Rather... Seventh Camp Commander Xing Xingtian has been holed up in the Star Observatory the entire time and rarely meets anyone.”

Shang Xia nodded slightly and continued to ask, “Where is the Star Observatory of the Star Origin Guards?”

Instead of replying immediately, Feng Ziyong shot him a deep glance and carefully examined Shang Xia before asking in a serious tone, “What are you up to? The Star Observatory is located in a heavily fortified region in the city and even though there aren’t any Martial Void Realm True Immortals stationed there, it’s not a place you can easily infiltrate and scope out as you wish...”

Shang Xia burst into laughter, “You’re thinking too much into it. I won’t poke the whiskers of the Star Origin Guards for fun.”

Feng Ziyong nodded slowly and muttered, “That would be for the best! The location of the Star Observatory is no secret in Star Origin City. Actually, there’s a solitary peak a hundred miles north of the city and it has been modified into a foundation for the Star Observatory. The Seventh Camp stationed 2 squads there all year round and Seventh Camp Commander Xing Xingtian would spend most of his time there.”

After he was done, Feng Ziyong turned to look at Shang Xia to continue, “What’s the matter? Have you really set your sights on the secret art Tong Yutang is using to enter the fourth tier?”

Shang Xia shook his head slowly and changed the topic suddenly, “You might not know this yet, but our institution already has our own Star Observatory!”

After he was done, he gave a simple explanation on how the Tongyou Elysium had a Star Observatory as their Heaven Supporting Jade Pillar. He also explained how they had 2 rank three Astronomers and they could even use the Star Observatory with help from the Elysium.

“Hoh! You’re not plotting against Tong Yutang! You’re setting your sights on Xing Xingtian!” Feng Ziyong chuckled.

“I know it’s going to be difficult, but I can only ask you to help keep an eye on things here. It’s especially so for the various shops in the city. If anything regarding records or inheritances regarding Stargazers were to leak, please inform me as soon as you can...” Shang Xia asked.

Feng Ziyong shook his head immediately. "How can shops in the city ever possess things like that? Even if it appears, they will definitely be snatched up the moment they appear. Even the Star Origin Guards wouldn't be enough to stop them from doing anything."

After a short pause, Feng Ziyong continued, "The really good stuff which is a little difficult to take out will never be seen in those shops... You should start looking at the black market if you wish to find stuff like that."

"Black market?" Shang Xia gasped. "Is there a black market in Star Origin City? Wouldn't the Star Origin Guards do something about it?"

Feng Ziyong raised an eyebrow and asked in a strange voice, "Is it really strange for there to be a black market in Star Origin City? If the Star Origin Guards can gain control over the black market, it would be far better than eradicating it completely!"

Nodding, Shang Xia sighed, "Since that's the case, please introduce me to the rules of the black market. In the future, members of the institution will head over to try their luck."

Chapter 1084: Breaking Out! Finding the Spirit Faith World!

After bidding Feng Ziyong farewell, Shang Xia returned to the Spirit Luxuriant World.

In the Tongyou Institution, Shang Xia told Kou Chongxue about the highly suspicious Tong Yutang! Their conversation about the many strange points lasted an entire night!

On the second day... Shang Xia stealthily left the Tongyou Institution and went to the Formation Platform that had been erected in the Star Beast Nest.

Passing through the spatial tunnel, Shang Xia concealed the aura the second he stepped into the Star Beast Nest. He even hid his appearance entirely and didn't allow the experts of the Spirit Luxuriant World to detect his presence.

Of course, he could hide from the lower-leveled experts, but there was no fooling Huang Jinghan!

Naturally, Huang Jinghan knew that Shang Xia was intentionally keeping his arrival a secret after seeing how he was hiding himself. He wouldn't waste Shang Xia's efforts and went to meet him in a hidden fashion.

"Senior Huang... Sorry to bother you!" Shang Xia chuckled.

Even though Huang Jinghan was a man of few words and he was usually very serious, he didn't care too much about formalities. He waved his hands casually and mumbled, "You're not bothering me at all. Is something the matter for you to come all the way here?"

Shang Xia didn't beat about the bush or lie either. He went straight to the point. "I'm thinking of looking for traces of the Spirit Faith World."

Slightly taken aback, Huang Jinghan eventually composed himself. He sighed, "Makes sense... The only people who have a hope of breaking through the seal around the Star Beast Nest are you and Kou Chongxue..."

Of the 9 True Immortals of the Spirit Luxuriant World, there were only 4 proper True Immortals who could leave the world as they wished. Of them, Kou Chongxue and Shang Xia had the highest cultivation level at the second tier of Martial Void Realm.

Shang Xia thought for a second before he continued, “Senior Huang, did you try to break their seal?”

Huang Jinghan nodded without any suspense. “Of course! However, I was forced back twice by their men... It’s a shame...”

He didn’t wait for Shang Xia to continue asking as he continued, “The first time, I was discovered by Yan Wujiu and forced to return. The next time I was blocked by another foreign second tier True Immortal I had never seen before. I tried asking about their identities, but none of them bothered responding. They only left after I returned to the Star Beast Nest.”

Shang Xia gasped in shock, “The first time we came, we ran into Lan Zhengfeng who was a third tier True Immortal. There was also Yan Wujiu, a second tier True Immortal. There were 2 other first tier True Immortals with them... That’s already 4! Now that another second tier True Immortal appeared... It looks like we underestimated the Spirit Faith World back then! They should be stronger than we thought!”

Huang Jinghan turned serious and he continued, “That’s also why I’m feeling a little curious. From the strength the Spirit Faith World is displaying, they should be more than capable of forcing us to leave and they can even destroy the Star Beast Nest. However, they simply chose to lock down the entire area and not allow us to leave...”

Shang Xia nodded in response, “Their method is clearly very contradictory. If they use True Immortals to keep an eye on us, they will need at least 2 of them to restrain us since we stationed a True Immortal in the Star Beast Nest. Moreover, their cultivation has to be higher than ours! Let’s not talk about the fact that they’re wasting manpower here... Actually, their way of surveillance isn’t good enough either! As long as we send a third tier True Immortal over and catch them off guard, do you think they’ll be able to stop us? They won’t know whether to try stopping us!”

Huang Jinghan agreed. “If it were me, I would rather send more experts and lay down a formation in the region and completely seal off the region without any chance for anyone to leave the Star Beast Nest!”

Shang Xia chuckled, “That’s why I’m getting even more curious and I’m feeling an urge to rush out there and have a look at what the Spirit Faith World is really intending to do!”

“How confident are you of success? I will do my best to cover you when you return...”

Huang Jinghan said in a low voice.

Cupping his hands, Shang Xia thanked, “I am grateful for your efforts! However, I think you should give the order for our cultivators to prepare to retreat!”

The moment Shang Xia burst through their encirclement, there was no doubt about it. Their embarrassment at failing to keep him would turn to rage and they would likely vent their anger on the experts of the Spirit Luxuriant World in the Star Beast Nest.

The Star Beast Nest was located in a region of weakened space to begin with. The spatial flow around it was comparable to a river, and they would be shifting around constantly in the sea of stars...

As soon as Shang Xia took a step out of the Star Beast Nest, he released his divine soul to its fullest state and it covered the void more than a thousand miles around him. As he looked for hidden experts of the Spirit Faith World, he also revealed himself.

In an instant, 2 auras that were no weaker than his emerged from different directions and made their way towards him.

Before they could lock on to his position, he activated a rank five Five Element Teleportation Talisman.

Pushing himself in an approximate direction, a spatial gate was ripped open in the space behind him. As if he was swallowed by the void, he disappeared the next moment!

As soon as they lost his presence, the True Immortals of the Spirit Faith World who were in charge of locking down the Star Beast Nest and keeping an eye on the experts of the Spirit Luxuriant World, summoned their Void Origins and stirred up the space directions. They wanted to prevent the person who appeared from breaking through their encirclement.

They never would have thought that the strange talisman Shang Xia used could ignore almost all spatial disturbances. No matter how hard they tried, they couldn't stop Shang Xia from leaving!

In the space tens of thousands of miles somewhere around the Star Beast Nest, Shang Xia stumbled out from a pitch-black spatial crack.

After using the starlight around him to determine his position, he chose a certain direction and started flying.

Before the time taken for a stick of incense to burn, 2 figures appeared where Shang Xia left.

“He has already left in that direction for some time now. However, he's extremely proficient at concealing his aura... I'm afraid it's a waste of energy to continue giving chase.” The second tier True Immortal who had an extremely large forehead due to his receding hairline muttered.

Yan Wujiu, who stood beside him, felt his expression sinking. He looked extremely annoyed without a way of venting his frustrations.

“What do you plan to do next?” The balding expert stared at Yan Wujiu. Seeing as his companion wasn't answering, he couldn't help but ask.

Feeling his temples throbbing, Yan Wujiu growled, “Brother Zhu, are you willing to destroy the Star Beast Nest with me?”

True Immortal Zhu stared at him with an expressionless face and he mumbled, “It's useless. If I was that guy who escaped, I would have made preparations for everyone to retreat as soon as I decided to break out of the encirclement. Not to mention that even if we destroy the Star Beast Nest, the True Immortal who escaped would be able to assist their Stargazers to determine our location...”

The annoyed Yan Wujiu who was about to leap in rage earlier felt as though a bucket of cold water had been thrown over him.

“Stargazer... Sigh... It would be great if we also had a Stargazer inheritance! If we could reverse track them, would we really be stuck in such a passive state?” Yan Wujiu revealed a pained expression and sighed.

True Immortal Zhu maintained an empty expression, but there seemed to be a mocking light flashing through his eyes when he looked at Yan Wujiu. However, it disappeared in an instant.

“Send news to the 3 worlds... Get them to send experts out to hunt that foreign True Immortal down. He’s still close to a million miles away from the 3 worlds and he might not be able to locate them anyway. Whatever it is, we have to return to the vicinity of the Star Beast Nest to prevent even more of them from breaking out and threatening us.” Yan Wujiu quickly regained his calm and instructed.

“Alright!”

“Hmph... They’re overestimating themselves! We thought that we could retrace their steps and locate their Spirit Luxuriant World, but I’m afraid our location is going to be exposed first!”

Chapter 1085: Breaking Out! Finding the Spirit Faith World! Pt.2

In the Star Beast Nest, the cultivators of the Spirit Luxuriant World were retreating orderly.

Yi Jingzi of the Heavenly Star Palace, who reached the fourth element of the Martial Dipper Realm, raced to meet Huang Jinghan the moment she heard the news.

“True Immortal Huang...” Yi Jingzi had a face full of panic, but she still maintained her mannerisms and respect when addressing him, “... Dare I ask what happened? Why are we retreating so suddenly?”

Huang Jinghan understood that she was a talented expert who had been specially nurtured by the Heavenly Star Palace and she was considered a well-known figure among members of the same generation of the Spirit Luxuriant World. Even he heard of her before. Whatever it was, he chuckled softly, “It’s nothing much. An expert of our world is trying to break out of the encirclement as we speak. In order to avoid suffering serious damage when they go crazy and try destroying the Star Beast Nest, we need everyone to leave.”

Yi Jingzi might have known that they were only taking precautions, but she had been sent by the Heavenly Star Pavilion to carry out a secret mission that couldn’t be disrupted at the moment. If they really had to give everything up, they would have wasted all their efforts! In the end, she hesitated slightly and mumbled, “True Immortal Huang, can I stay here temporarily and leave only at the very end?”

Huang Jinghan shot her an expressionless gaze and eventually nodded when she was worried that he wouldn’t agree.

“If you’re willing to stay till the end, I won’t stop you. However, you shall be responsible for your safety. I might not be able to protect you in case anything happens.” Huang Jinghan mumbled.

Gritting her teeth, Yi Jingzi muttered in a low voice, “Many thanks for True Immortal Huang’s understanding. I will definitely act according to our circumstances.”

After she spoke, she bowed once before rushing away in haste.

Seeing as she had left, a light flashed through his eyes and he knew that she definitely had some motive for wanting to stay till the end.

After thinking back to everything the Heavenly Star Palace had been up to since they restored the Star Observatory, they basically plastered the words ‘I have ulterior motives’ on their faces. Huang Jinghan decided to secretly keep track of whatever plan they were brewing.

Who would have thought that just as he made up his mind to keep an eye on her, he would discover something with his divine soul? He disappeared from within the Star Beast Nest the next second

When he reappeared, he had already arrived in the space outside the Star Beast Nest. 2 second tier True Immortals were rushing towards him aggressively.

“Fellow cultivators, why are you in such a rush to get here?” Huang Jinghan asked even though he already knew the answer.

“Hehe... True Immortal Huang, what’s the point of pretending? True Immortal Shang of your world truly is amazing. He ran out tens of thousands of miles before we could react!” Yan Wujiu sneered.

Not only was he aggressive in his manner of speech, he was also releasing his aura as he spoke. There was also True Immortal Zhu who was placing great pressure on Huang Jinghan at the side.

Huang Jinghan was a mere first tier True Immortal. If they compared auras alone, he would feel strained even if he had to face Yan Wujiu alone. Now that there was another second tier True Immortal, he couldn’t help but be forced back no matter how sturdy his willpower was.

If someone stared from afar, they would see that behind Huang Jinghan, there were faint spatial ripples moving in the opposite direction to resist the pressure from the 2 True Immortals.

Huang Jinghan might have been fully suppressed by the other party, but he held down the Yuanchen Heavy Sword on his back and he growled, “Fellow experts, are you here to destroy the Star Beast Nest?”

Yan Wujiu chuckled in response, “What’s the matter? Do you think I won’t dare to do it?”

After he spoke, the True Immortals of the Spirit Faith World circulated even more energy and released an even more forceful aura. The Star Beast Nest behind Huang Jinghan started to tremble.

One had to know that the Star Beast Nest might not be comparable to a massive continent on its own, but its size was much larger than one. There were even formations surrounding it to provide protection. However... In front of the 2 second tier True Immortals, the protection was as good as useless.

When Huang Jinghan had already pushed himself to his limit to maintain his domain around him, he spat with great difficulty, “I don’t doubt that you would be able to destroy this place, but what’s the point? Moreover, our worlds have already reached an agreement...”

Only then did Yan Wujiu and True Immortal Zhu lift the pressure on Huang Jinghan, allowing him to catch a breath.

The next second, Yan Wujiu sneered, “We’re just here to teach you a lesson. Do you really think that you guys would be able to reach your goal just because someone managed to break out of this place? How naive... All you need to do is to get ready to clean up the corpse of your True Immortal Shang. This is the price you will pay for not respecting our warning!”

After he spoke, both he and True Immortal Zhu concealed their aura. The space that had been twisting unnaturally also regained its calm.

Before Huang Jinghan could heave a sigh of relief, True Immortal Zhu, who looked as though he was retreating, reached out for the Star Beast Nest and pushed into the space before him.

“What are you doing!” Huang Jinghan roared and his Yuanchen Heavy Sword came slashing down instinctively.

By the time his sword landed, all that was left was a massive burst of light. His sword sliced into space with no one there.

Soon after, he heard some buzzing and rumbling sound coming from behind. Turning around in panic, he saw that half the Star Beast Nest had collapsed. At the same time, there were a lot of remnant formations around the Star Beast Nest. It was even pushed hundreds of miles away from its original position.

“This is just a small lesson you have to learn. Remember... This is our Spirit Faith World! If you try something so audacious again, there won’t be a need for the Star Beast Nest to exist anymore!” Yan Wujiu’s frosty voice came from the void.

Huang Jinghan growled, “Fine. I experienced the might of you experts from your Spirit Faith World today. We will definitely repay the favor in the future!”

“Hahah! We’ll wait!” Yan Wujiu’s sneer came from the void again and he continued, “True Immortal Huang, if you still remain here, I’m afraid the Star Beast Nest is going to collapse!”

Huang Jinghan snorted helplessly and he could only turn around to rush back to the secret region that contained the Star Beast Nest.

At the moment, the Star Beast Nest was comparable to a Holy Land. It had been shattered by True Immortal Zhu and even though only a portion of it looked affected on the surface, the space within was greatly affected. It was starting to tear apart the interior of the secret region.

The second Huang Jinghan stepped into the Star Beast Nest, he released his domain to prevent further collapse.

Soon, a curious look appeared on his face. He took several steps and arrived at one of the corners of the secret region that had been destroyed.

“Why haven’t you left?” Huang Jinghan asked Yi Jingzi in confusion.

The pale Yi Jingzi forced a smile and stepped to the side to reveal a massive cave behind her. “True Immortal Huang, I’m afraid these cubs are the only Star Beasts left!”

Huang Jinghan looked at the destroyed space all around her and the cave that was the only intact structure left behind her. He nodded slowly and mumbled, “It might be shockwaves caused by the attack of a second tier True Immortal, but to be able to last for so long... You’ve done well! However... Is it really worth it just to save a few Star Beast cubs?”

Yi Jingzi managed to restore a bit of her energy with Huang Jinghan’s help and even though she was still weak, she felt a lot better. She laughed, “If a Star Beast Nest no longer has Star Beasts... It will no longer deserve its name!”

A moment later, her laughter turned to one of helplessness and she seemed to be forcing it slightly. “Actually... I was too late and was trapped here. I manage to stay alive, but barely. I saved these cubs in passing...”

...

In the void hundreds of thousands of miles from the Star Beast Nest, Shang Xia suddenly felt as though someone noticed his tracks...

Chapter 1086: Pursuit, Tracking Compass!

After breaking out of the encirclement around the Star Beast Nest, Shang Xia thought that he would be able to run around freely. He planned to use his chance to look for the position of the Spirit Faith World in the vast sea of stars!

If the Spirit Luxuriant World managed to gain the initiative because they took control of the Star Beast Nest before the Spirit Faith World, Shang Xia’s act of breaking out of their encirclement meant that they held the absolute upper hand in whatever would go down between both worlds!

However... Shang Xia quickly realized that he was celebrating a little too early.

Just as he found a spot on a random asteroid to rest and restore his list energy, a familiar aura entered his range of detection.

“Is this a coincidence?!” Shang Xia was stunned. However, he maintained his caution and he remained on his asteroid without any intention of leaving. Instead, he observed the other party’s actions with his divine soul.

As the other party drew closer, Shang Xia quickly realized why he found the other party so familiar. It was one of the True Immortals who appeared with Yan Wujiu back when they first ran into each other.

All of a sudden, the True Immortal stopped moving.

Shang Xia was confident in his ability to conceal his aura, and he heaved a sigh of relief when he saw that the other party wasn’t close to him when he stopped. He became a lot more relaxed than before.

Shang Xia didn’t know why the other party wasn’t moving, but he didn’t dare to observe too closely for fear of being detected. He could only quietly observe while trying his best to remain hidden.

It was then that an idea appeared in Shang Xia's mind. Since there was only 1 of them... If he caught the other party off guard, he wondered if he would be able to kill the enemy before backup arrived.

However, he managed to suppress his thoughts at the very last moment. It would be for the best if he didn't cause any trouble at the moment.

One had to know that Shang Xia wouldn't have any reinforcements and he didn't have the qualifications to gamble his life with the other party at the moment.

Maintaining a half meditative state to conceal himself, Shang Xia knew that before he truly completed his rank six secret art, he would only be able to restore his inner qi using essence crystals. He brought quite a few high-level essence crystals with him and he was using them to recover as he observed.

That was right... Even though he reached the second tier of the Six Direction Realm and reached the level of Inner Fusion, he hadn't completed his rank six secret art!

Even though it sounded unbelievable, he could already control the power of the world as he wished. He could even perfectly utilize his inner qi. He even managed to come up with 2 moves of his martial arts in the Six Direction Realm... Even so, he hadn't fully developed his secret art!

The reason Shang Xia was able to reach his current level was because he received the blessing of the world...

However, Shang Xia also understood that increasing his cultivation through a method like that wasn't really sustainable forever.

The Six Direction Realm was somewhat different from the Four Constellation Realm and the Five Element Realm. He required a lot of external treasures to grow in the past, but in the Six Direction Realm, the focus was placed on the transformation to his own body. Completing his secret art seemed ever more important.

That was something Shang Xia understood when he just entered the Six Direction Realm...

He had been thinking of how to deal with it ever since. Even though he had been working on it the entire time, his rank six secret art was a lot more complicated to develop than any other before it! He didn't even have a complete idea of where to go with it and he would only gain inspiration occasionally and work on it when he got the chance.

In his current state, even though he was able to restore his inner qi by absorbing the energy contained in the Essence Crystals, he was still trying to temper every single part of his body to attempt to form a perfect system with his Six Direction Origin as its core. Even if he only managed to form a primary outline, it would be good enough.

Before he could fully absorb the energy contained in the essence crystal, changes in the space around him caused him to snap awake.

Another first tier True Immortal appeared in the region covered by his divine soul. This time, it was on the other side!

That meant that he had already been pincerred by the enemy!

If he still believed that it was a mere coincidence that the other party appeared and his location wasn't revealed, he might as well snap his neck off and give it to the other party to kick around!

The asteroid he was hiding on exploded instantly and he turned into a streak of light that traveled thousands of miles with ease. He quickly arrived in the space tens of miles away from the first True Immortal he detected.

It wasn't as though he didn't want to get closer. They were all True Immortals regardless, and even though he was slightly stronger than them, he couldn't just ignore their domain!

Actually... The other party was already shocked by the fact that he appeared several tens of miles away without any warning.

That was also even after he released his domain to stop the enemy and had the assistance of his world!

A thunderous roar tore through the void and Shang Xia's rod came crashing down.

The strike he used was the first he developed, and he had already gained near-perfect control over it.

Using it allowed him to completely suppress his enemy!

I can't block it... I can't... There's no way!

That was the only thought that filled the mind of the first tier True Immortal.

Unfortunately, he couldn't retreat, and even if he could, he wouldn't dare! Not to mention the fact that it was so powerful that he was completely suppressed... Even if he managed to, the seal in space he placed would be completely destroyed and the opponent would be able to escape!

"True Immortal Lan, save me!" Helpless, the first tier True Immortal chose to risk it all. As he attempted to stop Shang Xia, he didn't forget to call for help.

However, the person he called for wasn't the other first tier True Immortal. Instead, it was the third tier True Immortal, Lan Zhengfeng!

"Stay your hand!" A dull roar came from the depths of the void. A rapidly enlarging light sphere also emerged from the void.

Indeed... It was the third tier True Immortal, Lan Zhengfeng!

Shang Xia's heart sank. The other party really reacted too quickly!

What caused Shang Xia endless discomfort was the way the other party discovered his tracks!

Whatever it was, it wasn't the time to think of that. He needed to break out of their encirclement in order to escape from their pursuit.

Only then would he gain enough time to think about what was going on.

Naturally... it was impossible for him to show mercy! As the rod came crashing down, Shang Xia pushed himself even further and started circulating his inner qi at a faster pace. The power the rod contained increased by 30 percent!

Hummm....

A dull buzz tore through the void, and the Void Origin of the first tier True Immortal had his domain crushed as he was blown into one of the spatial cracks that formed! A formless shockwave started to spread and any asteroid in a thousand mile radius turned to dust from the impact.

The next second, Shang Xia could feel the other first tier True Immortal rapidly closing in. However, the powerful shockwave forced him to freeze in place and he couldn't even take a single step forward.

Only after pushing his domain to the limit and nullifying the power of the shockwave could he move again.

Of course... By the time he regained his motion, Shang Xia was no longer within the range of his divine soul.

Not daring to dally about, the True Immortal hastily rushed towards the spot where Shang Xia attacked his companion. All that could be seen was a massive region of chaotic streams and spatial fractures.

When he was still hesitating on his next move, the void was torn open and a figure emerged from within. He dragged the body of the other expert out with him. The violently fluctuating void around him returned to normal and the spatial fractures started to restore itself.

"True Immortal Lan, I..." The first tier True Immortal who arrived later quickly blamed himself. However, he was stopped before he could finish.

"You were not at fault earlier. I came late, causing True Immortal Luo to suffer serious injuries!" Lan Zhengfeng's words caused the other party to feel a lot less guilty. Seeing his companion's limp body in Lan Zhengfeng's hands, he muttered, "Is Brother Luo..."

"The other party didn't show mercy at all. True Immortal Luo's Void Origin is seriously damaged. Even if he's fortunate and manages to restore it, he will need 30 years or so to return to his peak state..."

The other True Immortal went pale in fright and gasped, "That person is actually so powerful..."

Lan Zhengfeng stared at him before he continued, "To be able to take one of my strikes head-on and retreat unscathed... Of course he's strong!"

Realizing that he was speaking a little inappropriately, the other True Immortal mumbled, "True Immortal Lan, what should we do next?"

Lan Zhengfeng thought for a moment before he mumbled, "I'll track that guy down. True Immortal Luo's injuries are too serious and we can't delay his treatment. You, send him to his sect in the Azure Roaming World!"

Heaving a sigh of relief silently, the other True Immortal acted as though he was regretful. "It's a shame I cannot follow True Immortal Lan and watch you kill the foreign expert!"

Shooting him a strange glance, Lan Zhengfeng muttered, "True Immortal Luo's Tracking Compass has been destroyed during the exchange earlier. Give me yours and send True Immortal Luo back as soon as possible! We can't delay his treatment any further!"

Feeling a chill running down his spine when Lan Zhengfeng stared at him earlier, the other True Immortal quickly took out a strange compass and handed it over before tossing out a small boat that seemed to be carved out of wood from his sleeves. As he poured his void qi into the wooden boat, it started to grow larger and only stopped after reaching a size of 30 feet. Grabbing the injured True Immortal Luo, he started to fly through space.

Looking at their leaving figure, a strange light flashed in Lan Zhengfeng's eyes. When they got far enough, he turned into a stream of light and flew in the direction Shang Xia left earlier.

Chapter 1087: Trailing Behind, Locating the Spirit Faith World

After shaking off 3 True Immortals from the Spirit Faith World who nearly fully surrounded him, he no longer had any reservations.

There was also the matter of him heavily injuring one of their first tier True Immortals earlier.

One had to know that when Shang Xia first ran into the experts of the Spirit Faith World, he exchanged a single blow with Lan Zhengfeng and neither gained the upper hand.

Under such circumstances, as long as he wasn't fully surrounded, even if the other side had a third tier True Immortal and 2 first tier True Immortals on their side, he was more than confident to retreat unscathed.

The reason he was able to escape successfully was because he managed to detect the first tier True Immortals before they knew what was happening.

Clearly, the other side didn't know that the range of his divine soul was much greater than experts of the same level. That was why they made the mistake of underestimating him.

After the failure, they would definitely reflect and learn from their mistakes. It wouldn't be so easy for Shang Xia to detect them the next time.

However, there was an even more important problem at the moment. Shang Xia needed to know how the first tier True Immortals of the Spirit Faith World found him!

Actually, it wasn't just once. When Shang Xia used the rank five Five Element Teleportation Talisman to run away from the Star Beast Nest, he could tell that Yan Wujiu and the other second tier True Immortal managed to locate where he appeared right before he left.

Back then, he didn't have the luxury of time to think about what happened. Looking back, he realized that there was something fishy. His talisman allowed him to travel tens of thousands of miles... How could the other party find him so easily?

The only reason Yan Wujiu and the other second tier True Immortal didn't give chase was because they were afraid other experts of the Spirit Luxuriant World would rush out from the Star Beast Nest after sending more True Immortals.

If Shang Xia wasn't able to solve the problem of being located by the experts of the Spirit Faith World, his attempt to look for their location in the sea of stars would be a massive joke! If he was even a little careless, he would be surrounded by his enemies and killed!

That was also the reason why Shang Xia didn't run as far away as he could after heavily injuring the first tier True Immortal. After pretending to escape earlier, he made a huge detour and went back to where they fought.

He wanted to get to the bottom of the matter of how they were finding him by stalking the heavily injured expert!

Even though it was possible for them to also locate his presence... Especially so for the third tier True Immortal, but Shang Xia knew that he wouldn't get a better chance to get to the bottom of the matter! Even though the expert who was heavily injured wasn't in any mortal danger, he no longer had any combat strength left! That would mean that if the experts of the Spirit Faith World didn't want to let him die, they had to choose one of the other True Immortals to take care of him!

Logically, the weaker True Immortal would have to take care of the heavily injured one... That would mean that realistically, Shang Xia would only face a threat from Lan Zhengfeng!

Lan Zhengfeng might be difficult to deal with, and Shang Xia knew that he wouldn't be able to gain victory if they fought, he had no choice. The longer he dragged it out, the more reinforcements would arrive.

After all, he was most likely already in the territory controlled by the Spirit Faith World and no matter how confident he was in his strength, he knew that he would be powerless once he was outnumbered. Not to mention the fact that he didn't even know how strong the Spirit Faith World was!

The strongest expert they sent at the moment was Lan Zhengfeng, who was a third tier Martial Void Realm True Immortal, what's to say that they didn't have experts of the fourth, fifth, or even higher tiers among them?!

Of course, from the way they treated the Spirit Luxuriant World's ownership of the Star Beast Nest, the possibility of them having supreme experts was low, but Shang Xia didn't dare to take a gamble!

As such, he had to risk it all to find out how they tracked him.

When Shang Xia made his way back to the battlefield, the True Immortals of the Spirit Faith World were already nowhere to be seen. However, Shang Xia recalled the direction the first tier True Immortal took when he first found him.

After landing his blow and 'escaping' earlier, Shang Xia also noticed that all 3 of them were moving in the same direction.

Concealing his aura to the limit once more, Shang Xia released his divine soul to the greatest extent before rushing deep into the sea of stars in pursuit.

Not too long after he left, a ray of light resembling a stray meteor rushed to where he once stood. True Immortal Lan Zhengfeng held the Tracking Compass in his hand as he revealed a look of mockery.

He mumbled in a low voice, "Heh... It's just as I thought. Since he doesn't know how his tracks were revealed, he only had two choices. One is to retreat back to the Star Beast Nest, and the other is to risk it all and try to find out the reason. Looks like he's a crazy fellow indeed... I'm afraid he's also trying to take the chance to locate the Spirit Faith World. Hehehe... You're playing perfectly into our hands. Do you really think you can escape from me? When you find out that our Spirit Faith World isn't just the Spirit Faith World, I'm afraid it will be too late!"

Retrieving the Tracking Compass, he kept it in his sleeves. The next second, True Immortal Lan Zhengfeng also rushed in the direction they left. He was indeed headed to the Spirit Faith World, but he maintained a speed that was neither too fast nor too slow. In fact, there was a trace of amusement in his eyes when he casually followed behind Shang Xia.

The only reason he was able to heavily injure the expert from the Spirit Faith World earlier was because he managed to catch his opponent off guard.

After thinking for some time, Lan Zhengfeng knew that either the other party had a way of detecting them closing in, or else the range of his divine soul was far larger than he expected.

One had to know that the first tier True Immortals were able to maintain a distance of more than a thousand miles from their target after locking on with their Tracking Compass. Moreover, they weren't foolish juniors! They would definitely conceal their aura after closing in to their target.

For Shang Xia to discover them even after they did so much... That could only mean that the range of his divine soul was more than a thousand miles! Moreover, they surrounded him from both sides, and that would mean that his divine soul covered an area of 2000 miles at the very least!

Lan Zhengfeng felt incredulous after thinking about it. After all, that would mean that the range of Shang Xia's divine soul had already surpassed him, a third tier True Immortal!

He might have only interacted with Shang Xia twice, but he already made up his mind that he couldn't allow an expert like that to live!

...

As he was afraid he was going in the wrong direction, Shang Xia didn't bother traveling through space in order to prevent any awkward situations where he appeared too far in front of his target.

Even though his ability to pass through space was commendable, traveling through regions of foreign space still posed a risk.

Moreover, Shang Xia knew that with one of them seriously injured, they wouldn't try rushing through space either. Unless they had treasures that could allow them to resist the pressure of the void when traveling through it, there was no way they would do that.

Shang Xia moved extremely quickly even though he was only flying. Before an hour was up, he had already traveled close to 100,000 miles.

He was traveling much faster through space than on the surface of a world, but that was also because it was the first time he was rushing through space at his top speed after breaking through to the Six Direction Realm.

However, he quickly started to slow down when he discovered a small wooden Star Ship around 30 feet long in the distance.

Fortunately, the ship wasn't too slow. Due to its small size, it was unable to house a powerful grand formation and Shang Xia quickly noticed the auras of 2 first tier True Immortals on it. One of them had a violently fluctuating aura and seemed extremely weak. However, his life wasn't in any danger.

After finding their tracks, Shang Xia didn't rush over at top speed. Instead, he intentionally stayed in place as he reached out through his divine soul.

What disappointed him was that no matter how hard he tried, he failed to find anyone behind, or anywhere around him!

Shang Xia wasn't stupid enough to think that he managed to shake off Lan Zhengfeng. He knew that the other side definitely reached the conclusion that his divine soul was a lot more powerful than experts of the same level, and he was confident of Shang Xia's position in the sea of stars which was why he wasn't following too closely.

Sighing softly, Shang Xia knew that there was no avoiding the massive battle that would break out next.

Surprisingly, Shang Xia saw it as a great opportunity to learn about the true strength and foundation of the Spirit Faith World. Since the other side was planning to slowly hunt him down, he would make full use of the opportunity!

As such, Shang Xia and Lan Zhengfeng seemed to have reached some sort of silent agreement as they maintained a distance where neither could notice each other's presence. Just like that, 2 True Immortals followed each other while maintaining a set distance from the wooden ship flying through space.

In the darkness, countless hours passed as Shang Xia continued to track the wooden ship.

Even though he slowed down after discovering their presence, they were still traveling relatively quickly. In those hours that passed, they flew nearly a million miles.

Throughout the process, Shang Xia passed through 2 asteroid belts and a massive nebula. He even saw 2 Earth Stars before noticing a strange abandoned land that resembled a surface world. Eventually, a warm glow appeared in his sights...

It wasn't because his eyesight was amazing that he managed to catch sight of the glow. It was because it was just too powerful! He might be hundreds of thousands of miles away, but his attention was still drawn to it!

He was no stranger to the light. That was the spiritual light that came from a heavenly screen!

Despite not being able to confirm the presence of the world by seeing it for himself, Shang Xia knew that there was no need to go further under such circumstances!

Chapter 1088: Trap, Certain Death?

Shang Xia went over with a slight hope that he would be able to find something, but he didn't think that Lan Zhengfeng would be so patient! He didn't make a move even though the position of his world was revealed!

Under such circumstances, Shang Xia knew that there was no reason to continue. Half the reason he chose to stop was because he didn't dare to. That was because if he continued to approach the world and fly for an hour or two, he would enter the range of the Elysium True Immortals of the Spirit Faith World!

Even though Elysium True Immortals couldn't send their true bodies too far away from their worlds, that didn't mean that they could only hover around the heavenly screen! At the very least, after reaching the third tier of the Martial Void Realm, True Immortal Yang Taihe was able to fight 200,000 miles away from the Spirit Luxuriant World.

... Since Lan Zhengfeng wasn't going to show himself, Shang Xia wasn't going to be polite any longer.

With no time to lose, Shang Xia took a single step and tore a tunnel through the void and launched his attack on the wooden ship that was slightly more than a thousand miles away!

The second he made his move, he was no longer able to conceal his aura and he was completely revealed!

However, Shang Xia didn't seem to care at all. He was certain that the experts of the Spirit Faith World would definitely start to surround him under Lan Zhengfeng's guidance anyway and he could only make the first move! As long as he could heavily injure or even capture one of their True Immortals alive, he would be able to prevent them from making any rash moves for fear of killing their own!

The second Shang Xia attacked, he used everything he had. Drawing on the power of the world contained in the You Continent with his Six Direction Origin, Shang Xia's Stone Rod came crashing down on the wooden ship. A loud whistle could be heard as a massive rift was torn in space. The scene where he struck down True Immortal Luo earlier replayed itself.

However, with Lan Zhengfeng's secret reminder, knowing that he was bait, how could the first tier True Immortal not have made any preparations?

As soon as Shang Xia moved, the wooden ship that used to carry them both turned around and flew straight over to block the strike.

At the same time, a majestic domain emerged from beneath it. A powerful ray of light stretched hundreds of miles in a certain direction and one could faintly see a figure carrying True Immortal Luo within.

Even though the flying ship could withstand the pressure of space, it was nothing before Shang Xia's rod. It was blasted into nothingness in an instant.

A massive phantom created by the rod continued to descend, but having already prepared for it, the other first tier True Immortal dodged with ease. Horrifying spatial fluctuations started to spread the next moment and quickly caught up with him. The powerful ray of light started to tremble and the True Immortal quickly lost his balance and started floundering about.

When he finally stabilized himself, Shang Xia had already started to give chase.

The first tier True Immortal carrying True Immortal Luo panicked. He knew that with his combat strength comparable to the heavily injured True Immortal Luo in his hands, he was no match for the opponent! Much less when he was carrying the massive burden that was True Immortal Luo!

"Save me!" Screaming loudly, the True Immortal retreated as quickly as possible. He released his domain and drew on as much energy as he could.

Since the enemy had already caught up, he knew that there was no running. Running would only cause him to die a more horrible death!

He could only face the enemy for a chance to live!

At the same time, Shang Xia's sudden outburst caught the attention of Lan Zhengfeng who was around 3000 miles away.

A vicious look flashed in his eyes as he ignored the risks of the unsteady space around him and tore a spatial tunnel that allowed him to cross a thousand miles in the blink of an eye.

At different distances in the void, the True Immortals who had been called over by Lan Zhengfeng also felt the fluctuations and they started to release their divine souls while rushing over.

Even though they didn't enter Shang Xia's range of detection, Shang Xia knew that he didn't have much time left since he revealed himself.

Suppressing his target with his domain, the rod phantom slammed directly into his opponent's domain.

Golden-red bolts of lightning surrounded his target's domain and sword qi that underwent all sorts of strange transformations wreaked havoc. A divine spear made from powerful intent pierced his enemy's soul and an even weirder blade light appeared. It sundered his domain and ate away at it in a strange fashion. At the same time, a dual-layered five colored light appeared at the very tip of the rod and exterminated a good portion of his enemy's domain!

This time wasn't like the last. Shang Xia wasn't planning to let his opponent live! He wanted to completely erase his soul!

When Shang Xia was suppressing his enemy, he heard a loud yell from the first tier True Immortal he was targeting. Tossing True Immortal Luo to the side, he ignored the destruction of his domain and turned to flee to the Spirit Faith World.

Shang Xia's eyebrows jumped slightly. He needed a hostage! There was no way he could watch the heavily injured True Immortal Luo die when he was such an easy target to capture at the moment. Weakening his attack intentionally, Shang Xia went to grab the man.

The second he grabbed True Immortal Luo, a meteor shower arrived behind him as the burning streaks of light caused the void to tremble. It seemed to carry a world destroying might!

The third tier True Immortal, Lan Zhengfeng, finally attacked!

At almost the exact same time, 2 auras of True Immortals entered Shang Xia's range of detection from the space to his left!

The True Immortal that fled quickly rushed to them.

"Since we're in this situation... Heh... The second move of my Six Harmony Rod Technique shall be named Starry Disorder!" Shang Xia mumbled to himself. He turned to meet the meteor shower coming his way and the Stone Rod in his hand stirred up the space before him.

Actually, the first move already had a name. Since Shang Xia had to store a lot of energy before unleashing the mighty strike, he named it Harmonizing Continent!

The second he unleashed Starry Disorder, lightning, sword qi, spear lights, blade intent, and powerful five colored light rings appeared. It crashed into the meteor shower to form a beautiful scene.

Meteors blew up before turning into dust. The next second, they were destroyed even further till not a trace was left. Space started to tremble and crack. Eventually, chaotic streams appeared and ate everything up...

Lan Zhengfeng's attack was once again stopped by Shang Xia. Even he was stopped by the region of chaotic streams...

"Are you guys really going to let him die?" Shang Xia snorted while holding the unconscious True Immortal Luo. His voice rang loud and clear through the void and into the minds of the True Immortals in pursuit.

It was also then that another foreign aura entered his range of detection. The newcomer was 800 miles closer than the first group he detected, and it was clear he was a second tier True Immortal!

As soon as Shang Xia's voice rang in their minds, the 4 True Immortals who came stopped in their tracks.

It was also then that Shang Xia had the opportunity to carefully inspect their auras.

Other than the second tier True Immortal who just appeared, there were a total of 2 other True Immortals he had never seen before. The first was a third tier True Immortal and the other was a first tier True Immortal.

Adding Lan Zhengfeng who had been chasing after him and the first Tier True Immortal who escaped, Shang Xia was actually surrounded by 5 True Immortals at the moment!

What caused his heart to sink was the fact that of those who came, none of them were the ones he ran into at the Star Beast Nest!

That would mean that with True Immortal Luo who was on death's door, there were at least 8 True Immortals from the Spirit Faith World who revealed themselves!

8 True Immortals who could leave the world at will! Their strength was far above the Spirit Luxuriant World!

One had to know that even if they counted the Elysium True Immortals, the Spirit Luxuriant World only had 9 True Immortals!

How could the Spirit Faith World not have their own Elysium True Immortals? If he counted them, how strong would the Spirit Faith World actually be?

Actually, it wasn't a difficult problem. When Shang Xia noticed the problem he realized that their Spirit Luxuriant World's actions of trying to scout out the other world was a bad decision.

When random thoughts were still running through his mind, the other third tier True Immortal who appeared in his range of detection replied, "What do you want?"

Narrowing his eyes, frosty light flashed through them. Shang Xia eventually growled, "How can I address you, senior?"

"You can call me Yun Hu." The other third tier True Immortal answered.

"Oh... It's True Immortal Yun Hu. Shang Xia from the Spirit Luxuriant World pays his respects!"

Shang Xia knew that the other side was in no rush to attack him because they thought that victory was assured. As such, they didn't mind wasting time talking to him.

At that moment, the space around him had already been sealed off by the various True Immortals. Even though the space behind him was still in a region of chaos, he knew that it would be sealed off the moment Lan Zhengfeng dealt with it. When that happened, the encirclement would be complete.

True Immortal Yun Hu started speaking again, "True Immortal Shang, take a look at the situation you're in, you already..."

*Rumble...*

Before he could finish, the barely restored region of chaos behind Shang Xia was forcefully broken through. Lan Zhengfeng tore through it and he didn't care about the weakened space as he rushed at Shang Xia.

"Brother Lan..." True Immortal Yun Hu gasped.

"Are you really going to doom your companion?" Shang Xia was also surprised by Lan Zhengfeng's decision. Or perhaps, he had broken through the region of chaos to prevent Shang Xia from further communicating with Yun Hu...

With the new threat, Shang Xia had to make his move.

Feeling a sense of reservation, Shang Xia didn't kill True Immortal Luo immediately. As such, he was also unable to utilize his full strength.

In his state of haste, Shang Xia still managed to block off the meteor shower that was flung his way. However, he was also forced into a state of disadvantage. He was thrown hundreds of miles out and he landed in Yun Hu and another first tier True Immortal's attack range.

"Our Spirit Faith World has already been exposed. Brother Yun Hu, what are you waiting for?" Lan Zhengfeng roared. He clearly didn't care about True Immortal Luo's life as he continued racing towards Shang Xia.

Chapter 1089: 3 Worlds! Six Harmony Teleportation Talisman!

If Shang Xia held a little hope that there would be a strange turn of events, Lan Zhengfeng tearing through the region of chaos to attack him made him realize that they had given up on True Immortal Luo.

The next second, a sigh rang through the void, "Sigh... Fellow cultivators, please assist me in taking this foreign cultivator down!"

Yun Hu was the person who spoke.

As soon as the words left his lips, Shang Xia could feel traces of clouds forming at the edge of his domain as it tried to force its way in.

It was clear Yun Hu was the person who made the move. He seemed supremely sad to give up on True Immortal Luo, but he was no less decisive than Lan Zhengfeng!

Under such circumstances, Shang Xia could no longer allow himself to be distracted. Tightening his grip, True Immortal Luo burst into pieces. Shang Xia's inner qi wreaked havoc in whatever body part that contained any trace of life force, destroying it completely!

At the same time, the Stone Rod in his hand started to shake. The space around him trembled and it turned into a layer of protection from their attacks.

The next moment, his Six Direction Origin trembled and released a wave of energy, eliminating any trace of foreign energy that entered his domain.

Unfortunately, his opponents were no pushovers. Shang Xia had to push himself to his limit and as they drew on the power of their worlds, their inner qi clashed against each other.

As their domains vied for supremacy and started to distort from the massive pressure, Shang Xia was sent flying hundreds of miles away again.

Of course, Lan Zhengfeng wasn't able to take advantage of the situation too well. That was because he couldn't directly attack Shang Xia as he was also forced to stop mid space due to the collision of their domains.

Luckily for him, he had companions! There was also more than a single expert on his side!

The second tier True Immortal from the Spirit Faith World appeared on Lan Zhengfeng's left, and he released countless icy-blue shards. It flew quickly at Shang Xia and forced its way into his domain.

The power of frost started to eat away at his domain and even though it seemed to be a little bit, it started to affect the way he could deploy and use his energy.

Shang Xia knew how dangerous it was to allow his enemy to continue, and that was also with Lan Zhengfeng prepared to attack the moment he recovered. With no other choice, he could only split off a little more attention to face the second tier True Immortal.

He pointed in the direction of his new opponent and a reddish-gold bolt tore through the space without bringing along its usual deep rumble. It tore through the void and rushed at the wall of ice that formed at the edge of his domain. Eventually, a rain of lightning pelted down on it and the power of frost was greatly reduced.

Even though he didn't get rid of his opponent's move completely, the power of frost was no longer able to disrupt his flow of energy.

It wasn't that he didn't wish to annihilate the power of frost completely. It was that he didn't have the ability to do so.

That was because a large cloud had silently entered the range of his domain.

True Immortal Yun Hu started his assault, and even though he didn't seem as flashy as Lan Zhengfeng, they were no less powerful. Moreover, they could catch one off guard and it was nearly hard to defend against!

Sucking in a long breath, Shang Xia couldn't help but restrain his domain even more. The area it covered shrunk and he swung his Stone Rod outwards, creating a powerful five colored light streak that crashed against the incoming clouds.

In an instant, they turned into vapor before disappearing.

“Huh? What amazing skill!” True Immortal Yun Hu couldn’t help but praise, and he sounded pretty sincere at that.

Shang Xia didn’t bother responding. It was because the first tier True Immortal’s attack had already arrived by then.

Unlike the other True Immortals, he didn’t send any attack through space. Instead, he wielded a sickle-like divine weapon.

With his inner qi imbued in the weapon, it traveled hundreds of miles in the blink of an eye! It pierced into Shang Xia’s domain before yanking hard. It dragged Shang Xia hundreds of miles in the direction of the Spirit Faith World.

Even though he managed to quickly stabilize his domain and even managed to shatter the weapon intent, he was quickly surrounded by the various True Immortals.

Right... There was also the first tier True Immortal who carried True Immortal Luo back then. Even though his domain was crushed by Shang Xia and his combat strength dipped greatly, he didn’t hesitate to join the battle after regrouping with True Immortal Yun Hu.

Even though the entire exchange sounded complicated, everything happened extremely quickly. It only took a short moment for everything to happen and because of it, Shang Xia was flung nearly a thousand miles closer to the Spirit Faith World.

On the surface, he managed to nullify their attacks. However, he knew that he was sinking deeper into a worse situation.

He could tell that the True Immortals of the Spirit Faith World seemed to feel that victory was assured as they weren’t going all out to kill him. Of course, that was with the exception of Lan Zhengfeng who seemed to have a grudge against him or something...

They might be trying to fish for more information by fighting with him...

Despite being stuck at a disadvantage, Shang Xia continued to face their attacks calmly. He relied on his extraordinary foundations that allowed him to be stronger than experts at the same level to fight them all. He barely held his ground with the Stone Rod in hand.

However, he was continuously forced closer to the Spirit Faith World because of Lan Zhengfeng’s assault from behind.

As the battle raged on, he was quickly forced close to 100,000 miles closer to the Spirit Faith World.

They might be forcing him closer to the Spirit Faith World, but deep down, Shang Xia also had a desire to take a better look.

As he closed in on the Spirit Faith World, a strange feeling overwhelmed him. He raised his head to take a look, and he discovered that there were 2 other soft glows on either side of the strong rays coming from the middle.

There were actually 2 more smaller worlds!

The reason Shang Xia noticed them was because of how close he had gotten. In the past, the powerful glow from the heavenly screen from the world in the middle overshadowed the others!

The spiritual light from the heavenly screens of the smaller worlds wasn't obvious enough and Shang Xia mistook them for 1 giant world that was supposed to be the Spirit Faith World!

What truly shocked him was that there were 3 completely intact worlds so close to each other!

Even when he estimated them through sight alone, he could tell that the world in the middle was of the highest quality, and the other 2 were a grade lower, but of similar quality!

Because he was still far away, Shang Xia couldn't tell the actual grades of their worlds!

When he discovered the shocking fact, he was distracted for a moment and Lan Zhengfeng managed to capitalize on the moment! He was like a shark who smelled blood and he pounced instantly!

At that moment, the encirclement around Shang Xia had already shrunk to 400 miles and Lan Zhengfeng made no superfluous movement as he smashed his domain directly into Shang Xia, causing him to be thrown thousands of miles closer to their worlds.

By the time Shang Xia steadied himself and was prepared to welcome another round of attacks, a sudden sense of danger filled his heart.

He didn't detect anything with his divine soul, but he could tell that True Immortal Yun Hu seemed to hesitate slightly as his coordination with Lan Zhengfeng wasn't as perfect as before.

*Did they make a mistake?*

Shang Xia shook off the thought the moment it appeared in his mind. The sense of crisis was still there, and he didn't know where it was coming from!

Turning to glance at the space around him, he discovered that the region 300,000 miles around had already been frozen solid!

Before he knew it, he already got so close to their worlds! That would mean...

*Shit! It's the Elysium True Immortals!*

He immediately reacted. The reason they didn't go in for the kill earlier was so that they could force him closer to their worlds!

Naturally, they wanted their Elysium True Immortals to take part in a battle of that scale.

That was because Shang Xia's combat strength was just too tyrannical. Even if Lan Zhengfeng joined hands with Yun Hu and made killing him look easy, they weren't completely sure they would be able to escape without suffering any injuries. As such, it would be better to play it safe!

If they drew the Elysium True Immortals into the battle, the World's Will would also descend. Even if they were 300,000 miles away from the worlds, 3 different Worlds' Will was no joke! They would be able to provide massive suppression!

Shang Xia could clearly feel that his Six Direction Origin was starting to feel pressured, and drawing the power of the world was no longer as easy as before.

There might be a lot of factors, but that wasn't where Shang Xia was feeling the threat! The real threat was the several True Immortals who came! All of them were as strong, if not stronger than himself!

Not having the luxury of time to care about those who just arrived, a scroll appeared in Shang Xia's hand before anyone could react. Under the shocked gazes of Lan Zhengfeng and the many Elysium True Immortals who descended, Shang Xia activated his Six Harmony Teleportation Talisman!

A dark spatial crack appeared from behind Shang Xia and swallowed him whole. It ignored the spatial seal and disturbance and made Shang Xia disappear!

Chapter 1090: The Elysium True Immortals of the Spirit Faith World

"What's going on?" A deep voice rang through the void. The next second, a white-robed elder with a youthful appearance and a head full of white hair emerged. He swept his gaze across everyone present and growled, "How did he disappear?"

The moment the elder arrived, the space a thousand miles around him started to twist violently. It was as though they were reacting to his rage.

The many True Immortals in the distance started to gather around and they cupped their fists while flying. They maintained a respectful attitude and there were even some who acted like juniors and disciples when meeting him.

"Senior Yan, it seems like that person used a rank six talisman to escape from all of us!" True Immortal Yun Hu who took part in the initial attack explained respectfully.

Glancing at him casually, True Immortal Yan spoke in a low voice, "Of course I know he used a rank six talisman! But what type of rank six talisman has the ability to tear open space even after we sealed it off?"

Clearly, he was blaming Yun Hu, Lan Zhengfeng, and the others for making a mistake so the other party could run.

"This..." Yun Hu turned to look at the others before turning to the Elysium True Immortals behind True Immortal Yan. Mustering his courage, he mumbled, "Senior, we definitely made no mistakes. We did everything possible and we shouldn't be at fault! The rank six talisman he used seems a little strange..."

Yun Hu barely spoke when one of the second tier True Immortals behind True Immortal Yan sneered, "Brother Yun Hu, you seem to have already thought of an excuse! Now that he escaped, of course you can say whatever you want..."

Yun Hu's expression sank instantly. He was a third tier True Immortal regardless and it was fine for him to lower himself in front of True Immortal Yan. After all, True Immortal Yan's status and cultivation could justify it. However... He didn't know where a mere second tier Elysium True Immortal had the courage to blame him and talk to him like that!

"Enough!" A cold snort forced the second tier Elysium True Immortal to fall silent and stopped Yun Hu from responding. Lan Zhengfeng glanced at them all and growled, "What we need to do right now is to determine where he went! I believe you don't wish for that True Immortal to wreak havoc in our worlds... I also believe that you won't be stupid enough to think that he died after falling into the cracks of space, right?"

“Hmph!” True Immortal Yan snorted once and revealed an expression of discontent. However, he didn’t say anything else.

The second tier Elysium True Immortal who blamed Yun Hu earlier turned to look at the first tier True Immortal who had been hiding behind Yun Hu since the battle with Shang Xia asked, “Yu Long, where’s the Tracking Compass?”

Ordinarily, True Immortals rarely called each other so informally by name. They would usually add the title of True Immortal before to seem more polite, especially if they weren’t close to each other. However, the second tier True Immortal didn’t seem to respect Yu Long at all and he even seemed to be blaming the man.

Before Yu Long could say anything, Lan Zhengfeng brought out the Tracking Compass. “I took it. The other was destroyed by the foreign expert when he attacked True Immortal Luo!”

“Fuck!” The second tier Elysium True Immortal cursed once. It was clear the Tracking Compass wasn’t just a common treasure. It even pained a True Immortal with its destruction.

Lan Zhengfeng didn’t say anything and he simply activated the compass.

The area was filled with Shang Xia’s aura and the Tracking Compass quickly pointed out the general direction he ran to. At the same time, Lan Zhengfeng’s inner qi was quickly sucked dry as he activated the compass.

Not too long later, Lan Zhengfeng sucked in a cold breath. He released a huge sigh before absorbing the essence qi all around to replenish a portion of his energy. Only then did he regain a bit of strength.

The experts from the Spirit Faith World looked at Lan Zhengfeng who stared at the compass with a look of disbelief and anger.

“Brother Lan, where did he go? Did the Tracking Compass lock on to him?” Yun Hu was the first to ask after looking at the rest.

Lan Zhengfeng raised an eyebrow before slowly raising to point in a certain direction. “He’s there!”

Following his gesture, everyone turned to look at the heavenly screen above one of the worlds.

A frown appeared on the face of the second tier True Immortal who had been speaking nastily earlier. He growled, “Brother Lan, what are you playing at? Even if we know he’s there, you should be able to tell us how far he is! The compass should be able to deduce his current location, right?”

Lan Zhengfeng stared at the second tier True Immortal and growled, “I told you. He’s there! He’s inside the Spirit Faith World!”

Feeling annoyed that he was played earlier, the second tier True Immortal quickly regained his senses and gasped. He seemed to have heard the biggest joke of his life and he roared, “Impossible! How can a foreign expert enter our Spirit Faith World so easily? Is he tired of living? Not to mention the fact that it’s impossible for him to enter our world without being detected by us Elysium True Immortals! Even if we don’t have the qualifications to discover him, how can he hide from True Immortal Yan? True Immortal Yan has already reached the level of Dao Harmony!”

The other Elysium True Immortals also started to discuss with each other and concluded that Shang Xia could not have entered the Spirit Faith World normally, much less without them noticing. Even True Immortal Yan was waiting for Lan Zhengfeng to explain.

Maintaining his stance, Lan Zhengfeng growled, "But the Tracking Compass is pointing to the Spirit Faith World!"

Handing the Tracking Compass to True Immortal Yan who was the strongest among them, he sighed, "It's either the compass is mistaken, or that person is really in the Spirit Faith World. His strange rank six talisman had the ability to tear through space even after all of us sealed up the space around... Why can't he enter the world?"

True Immortal Yan took the compass and his expression sank. It couldn't be uglier if he tried. "The Tracking Compass is never wrong! However, I don't believe he can pass through the heavenly screen without being discovered by me! Also, even if he did, how is he able to prevent himself from being suppressed by the World's Will?"

Back then when Dugu Yuanshan, a third tier True Immortal, was forced into the Spirit Luxuriant World, the worldly phenomenon he caused was as though the world was ending."

Shang Xia might only be at the second tier, and was weaker than Dugu Yuanshan of the past in terms of combat strength, but after entering the Spirit Faith World, he should still cause a massive disturbance!

What they were curious about was why there were no signs at all!

*How did he do it?!*

In an instant, a shadow was cast over the True Immortals present.

"Ahem... Could he have already died? Or he might be seriously injured..." A first tier True Immortal mumbled carefully.

After he spoke, he saw everyone looking at him like he was a dumbass.

"Sigh... It doesn't matter if he is dead or alive. His Void Origin exists. Even if he died and fell into our world, there would definitely be a sign due to the misalignment of his Void Origin and our world." True Immortal Yun Hu seemed to be the only one present with a good temper and he carefully explained to the first tier True Immortal. "Also, the Tracking Compass won't point to a corpse!"

The first tier True Immortal could only take several steps back shamefully.

"We're going back!" True Immortal Yan said while Yun Hu was giving the explanation. He didn't even give the compass back.

Everyone else, including Lan Zhengfeng, rushed back to the Spirit Faith World at top speed. It was precisely the larger world sitting in the middle that was emitting powerful rays of spiritual light 200,000 miles away.
