

## The Heavens 1111

### Chapter 1111: Wrapping Things Up

The Azure Intellect World and Azure Roaming World didn't just want to split off from the Spirit Faith World, they also wanted the 9 western continents it contained! They even sucked away a good amount of world origin through the Elysium Gates!

Their intentions were as clear as day at that point. Not only did they want to free themselves from the influence of the Spirit Faith World, they also wanted to bite off a huge chunk of meat. At the end of the day, their goal was to ascend to become a Spirit World of their own!

After the 9 western continents broke off from the Spirit Faith World, the True Immortals of the Azure Worlds used the cover of battle to create a massive void storm to completely separate the continents and world origin it contained from the Spirit Faith World!

Even so... Before the continents were devoured by their worlds, the Azure Intellect World and Azure Roaming World couldn't say that they had completed their mission. Moreover, their worlds were also too damn close to the Spirit Faith World! They could be attacked by Yan Huayi at any time!

"So... In order to fully devour the continents, they would have to use some method to push themselves 300,000 miles away from the Spirit Faith World. During the process, the experts of those worlds would also need to make use of us to restrain Yan Huayi..." Shang Xia laughed as he addressed the experts of the Spirit Luxuriant World who arrived and would start the invasion.

Kou Chongxue also added, "There's no need for any of you to worry that you would attract the attention of any True Immortals after you start the invasion. After all, the Azure Worlds still need us and there wouldn't be a falling out for the time being. At the same time, even though the Spirit Faith World has an advantage when it comes to fighting in their world due to the World's Will blessing they wouldn't dare to go all out for fear that we take advantage of their weakness in their Elysiums to attack them!"

The Martial Dipper Realm experts and Martial Extermination Realm cultivators of the Spirit Luxuriant World on the Star Ships that arrived weren't the only ones who heard their explanation. Huang Jinghan and Lu Wuzi were also listening to them.

Huang Jinghan quickly interjected, "So... In this battle, every side is afraid that the other side would take advantage of them if they mess up... That would mean that how much we can gain from this will depend on how hard we try!"

Lu Wuzi cackled in a strange voice the next moment, "If I'm not mistaken, be it the members of the Ascendant Faction or the Native Faction, they should be feeling really shitty after noticing that there's only 4 of us!"

Shang Xia, Kou Chongxue, and Huang Jinghan roared with laughter the next moment.

It was true that the Spirit Faith World was a lot stronger than the Spirit Luxuriant World. Even after splitting them up into the Ascendant and Native Factions, either one of them possessed far stronger

experts than the entirety of the Spirit Luxuriant World. However, they decided to have a falling out and allow the Spirit Luxuriant World to swoop in at the end to snatch some benefits from both sides.

With the escort of 4 True Immortals of the Spirit Luxuriant World, the Star Ship fleet quickly passed through the void storm created during the battle between the True Immortals earlier and entered the Spirit Faith World.

Lu Wuzi looked at the Star Ship fleet that entered the heavenly screen and asked suddenly, “Is there really no way to completely exterminate the Spirit Faith World? This is the best chance we’re going to get! If we manage to get our hands on the rest of the world, we’ll gain a lot more!”

Kou Chongxue immediately threw a bucket of cold water on him. “Sure. If you stop Yan Huayi, their fourth tier True Immortal, why shouldn’t we try?”

After thinking about it, Lu Wuzi could only shake his head regretfully. “Forget it. I heard that the 2 of you worked together with another second tier True Immortal from the Azure Roaming World to barely hold him back for some time. If we fight in their world, he’s only going to be stronger!”

“How many continents are we aiming for this time? What’s our goal?” Huang Jinghan asked suddenly.

To that, Shang Xia chuckled, “Relax. We already have some people to receive our men inside the Spirit Faith World. They won’t get lost. Our target this time is the 4 continents around the central Mo Continent of the Spirit Faith World. That was where the Guyuan Elysium was and now that the Elysium is broken, they should have lost a lot of experts. The others are busy fighting among themselves. The entire region is in chaos and with our might, we are more than capable of gaining control of the 4 continents.”

Huang Jinghan nodded slightly, but he continued to ask, “No matter what, the other side has the home-ground advantage. Moreover, the Spirit Faith World is a lot stronger than our Spirit Luxuriant World. The number of mid-tier experts they have far surpasses us. The World’s Will is also acting to suppress our men and they’re definitely going to be slightly weaker than the enemy. If experts from other continents come to help, we’re going to suffer heavy losses...”

Shang Xia shook his head slowly and replied, “It’s possible for that to happen, but it’s not very likely...”

Seeing the look of shock on Huang Jinghan and Lu Wuzi’s faces, Shang Xia explained, “The Guyuan Sect only rose to power because of the support from the Heavenly Feather Sect and Fengyuan Sect. They were supposed to be in charge of keeping the Ascendant Faction in check and now that both sides had broken off, the Ascendant Faction’s intention to grab the 9 western continents of the Spirit Faith World is obvious. The experts of the Native Faction there had been killed when they started their plan. There were many experts of the Spirit Faith World also wrestling for control over authority in the 9 western continents that the Ascendant Faction had been trying to take away. After the formation of the void storm, they were trapped there. As such, the Native Faction lost a portion of their experts already. They shouldn’t be able to deploy too many people to assist other continents or factions, and their True Immortals have to remain in their Elysiums in order to prevent any sneak attacks from us or the Ascendant Faction. They can’t even secure their territory right now and they shouldn’t be mad enough to start a war with us.”

After hearing Shang Xia's explanation, Huang Jinghan and Lu Wuzi weren't the only ones who heaved a sigh of relief. Even Kou Chongxue felt a lot more at ease.

Even though the Spirit Luxuriant World's development had been rapid in recent years, and they nurtured a large batch of mid-tier experts, their foundations were still far too shallow. If they lost a large number of cultivators during their conquest, they would still feel heartache.

"No matter what, we cannot be careless!" Kou Chongxue muttered, "Back when we fought with Yan Huayi, Lan Zhengfeng, and Yun Hu had already left. Even though they won't possess much fighting strength, we still have to guard against them."

Shang Xia nodded in response. "Of course. Disciple will enter the world as a precaution..."

Kou Chongxue grunted, "Why don't you go now? However, you need to ensure you don't reveal yourself easily. After all, staying hidden right now poses the greatest threat to them!"

"I understand." Shang Xia glanced at Huang Jinghan and Lu Wuzi after replying, but he didn't say more as he dove into the Spirit Faith World.

Huang Jinghan stared at his leaving figure and couldn't help but sigh, "If we really manage to bring the 4 continents back... True Immortal Little Shang will probably reach the level of External Unity and become a third tier True Immortal, right?"

Chapter 1112: Sweeping Up The Mo Continent

The Guyuan Sect was located in the Mo Continent of the Spirit Faith World, but their influence actually reached over 3 other continents. Namely the Wu, Shen, and You[1] Continents.

It was said that before the Spirit Faith World ascended into its current state, they had 12 continents and they were named according to the 12 Earthly Branches. The continent that the Guyuan Sect established itself on was also the most ancient of the four continents.

However, after the ascension, the Spirit Faith World started to expand and there were more continents after their promotion to a Spirit World.

Back then, the Three Worlds worked together to destroy the Spirit Emptiness W world and the Spirit Faith World drew the greatest amount of world essence back to their world. Most of it also fell into the hands of the Heavenly Feather Sect and Fengyuan Sect...

That was also when Gu Chengwu managed to enter the Martial Void Realm and established the Guyuan Elysium. Without the support of the 2 strongest factions, he wouldn't have been able to control 4 continents!

Along with Yun Hu and Shang Xia's surprise attack on the Guyuan Elysium, they killed Gu Chengwu and completely destroyed the Guyuan Elysium. Close to a hundred years of glory was destroyed in an instant!

Along with their destruction, everything they controlled fell into chaos. Chu Honglin, who received some tips from Shang Xia back then, managed to contact his friend to leave the sect for some time. That elder and himself managed to avoid calamity when Shang Xia took action.

That elder was the person Zhu Honglin had been relying on and his status in the Guyuan Sect wasn't low. His cultivation was also in the third element of the Martial Void Realm and he quickly

managed to gather his forces after everything fell into chaos. With Zhu Honglin's support and guidance, he arranged for a good portion of resources to be kept aside. He could use it to revive the Guyuan Sect or to establish another faction of his own.

At the same time, he used his connections and power to gather resources from the other continents and he basically swept up whatever he could.

He might not have been able to gather all the resources due to the trouble in the other continents, but as he was the fastest and most resolute in his actions, he managed to gather a bunch of precious resources.

Before the Guyuan Sect established their Elysium, they already had hundreds of years of history. In the dozens of years after they became an Elysium, they received massive support from the Heavenly Feather Sect and Fengyuan Sect, and the essence of the continents they controlled gathered in the Mo Continent. They could even ask for any resources they wanted from the other 2 great powers and they would get them without a problem.

Even though the essence of the Elysium should contain all their resources and energy, a good portion remained in other parts of the sect that hadn't collapsed.

With the high-level experts of the Guyuan Sect being slain by Shang Xia when he killed Gu Chengwu, the elder who was saved by Zhu Honglin and had cultivation in the third element of the Martial Dipper Realm could be considered an impressive figure in the sect. With the support of Zhu Honglin and his Chilin Gang, he firmly managed to establish himself in Tonggu City with all his resources.

Just as the elder was feeling ambitious and was planning to use the resources he salvaged for himself, the Star Ship fleet of the Spirit Luxuriant World arrived!

Their entry threw the continents into even more chaos.

The elder of the Guyuan Sect who survived was someone who had been through the extermination of the Spirit Emptiness World back then, and he quickly instructed everyone to not panic as the experts of the foreign world descended. He understood that they would be greatly suppressed by the World's Will, and would be weaker than cultivators of the same level. That was the method the Spirit Faith World used to lure in an elite batch of experts of the Spirit Emptiness World before killing them all! It dealt a heavy blow to the collective strength of the Spirit Emptiness World, leading to their eventual victory.

After reassuring those under him, the elder quickly came up with the next step. It was to contact the remnants of the Guyuan Sect and stop them from infighting. The most important thing they had to do was to deal with the outsiders' invasion!

As for what came next... He would naturally have to contact the Heavenly Feather Sect and Fengyuan Sect for support!

One had to say that the elder who survived managed to keep a clear mind and think his actions through. It was no wonder he had been able to gather such a sizable force to begin with.

It was a shame his foundation in Tonggu City was basically built on a pile of sand. If they had to say who held absolute authority in the city, local powers like the Chilin Gang who had been

operating for more than tens of years would be one. What was more, Shang Xia was the behemoth standing behind the Chilin Gang at the moment!

Everything the elder of the Guyuan Sect did merely helped Shang Xia to bolster his gains. He practically gathered the remaining essence of the Guyuan Sect for Shang Xia as that was Shang Xia's task for Zhu Honglin the entire time.

Everything would benefit the Tongyou Institution in the end!

When the fleet entered the Spirit Faith World, a good portion of them contained mainly experts of the Tongyou Institution, and a portion of high-level experts from the Bing, Jiao, and Liao Continents went straight for the Mo Continent.

There was no doubt about it. The Spirit Luxuriant World's goal was the 4 continents under the Guyuan Sect's influence, and the richest continent of them all was the Mo Continent! Most of the essence it contained would definitely belong to Shang Xia and Kou Chongxue!

That wasn't actually how they planned to split the gains of the expedition, but with Shang Xia and Kou Chongxue's overwhelming strength and ability to take part in the battle as Free True Immortals, they turned everything in their favor!

As for the high-level experts from the other continents... Those of the Bing Continent basically had the support of the Five Mountains Alliance. As for the Jiao Continent, they were basically an auxiliary branch of the Tongyou Institution. As for those in the Liao Continent, they came from the Changbai Sect. They could be considered the Tongyou Institution's long-time ally.

As the strongest powerhouse in their alliance, the Tongyou Institution naturally understood the principles of sharing some benefits with their allies.

Of the 20 or so Star Ships that flew towards the Mo Continent, 3 of them quickly split off and headed for Tonggu City.

The elder of the Guyuan Sect who survived and gathered a good portion of subordinates suffered heavy injuries from a sneak attack from Zhu Honglin of the Chilin Gang the moment the experts of the Spirit Luxuriant World arrived.

"You..." The elder stared at Zhu Honglin with a look of disbelief. He was shocked by the gang leader's betrayal, but he was even more surprised by Zhu Honglin's strength!

In their eyes, Zhu Honglin was someone who shouldn't be able to advance past the first element of the Martial Dipper Realm! Moreover, due to the strangeness of his fate dipper, he should possess extremely low combat abilities even among experts of the same level.

If that was the full extent of his abilities, he shouldn't have been able to threaten the elder even if he succeeded in his sneak attack.

Who would have thought that that wasn't the case at all? Zhu Honglin not only regained the full strength of someone at the first element of the Martial Dipper Realm, he even refined his second fate dipper!

Zhu Honglin saw the look of disbelief in the elder's eyes and he chuckled happily, "I bet you didn't expect it. True Immortal Shang not only purified my dipper qi, allowing me to get back on track

with my cultivation, but he even found me a suitable Origin Dipper so that I can reach the second element of the Martial Dipper Realm!”

“So... That’s... Why...” The elder seemed to age by tens of years as his ambitions turned to smoke along with the arrival of the experts from the Spirit Luxuriant World.

Even though he still had the ability to do combat, facing many Martial Dipper Realm experts and Zhu Honglin, he knew he had no chance of winning.

Sun Haiwei led Tian Mengzi and the others to take over Tonggu City while obtaining the resources that had been gathered.

After dealing with the elder from the Guyuan Sect, the remaining cultivators he gathered from the Guyuan Sect were thrown into battle without a leader. With the assistance of the Chilin Gang, the experts of the Tongyou Institution and Jiao Continent quickly swept away all resistance in the city.

“This is the list of everything the Guyuan Sect owns in the city, along with the resources they gathered recently. Fellow cultivators of the Superior World, please take a look!” Zhu Honglin handed a stack of documents over to Sun Haiwei respectfully.

Zhu Honglin could see that even though the female cultivator in front of him wasn’t too old, her cultivation had already reached the third element of the Martial Dipper Realm.

Even though she was suppressed by the World’s Will to a certain extent and wouldn’t be able to unleash her full power, Zhu Honglin didn’t doubt that she could kill him easily!

Also...

Zhu Honglin glanced at the 2 Martial Dipper Realm experts behind her and the tens of Martial Extermination Realm cultivators they brought along with them and lowered his head even further.

“Leader Zhu, you’ve done well! You, along with your Chilin Gang, are the reason we managed to gain control of Tonggu City without much loss! We also obtained the resources the elder of the Guyuan Sect gathered. I will remember your contributions!” Sun Haiwei glanced at the stack of documents before handing them over to Dou Zhong.

Zhu Honglin chuckled in response, “Instructor Sun, your praise is appreciated, but it’s not entirely my credit. Everything we achieved is because of True Immortal Shang’s brilliant strategy, and your arrival. What I’ve done is nothing in comparison.”

Behind Sun Haiwei, Tian Mengzi revealed a wide smile while Dou Zhong merely sneered.

Sun Haiwei laughed, “Leader Zhu, there’s no need to downplay your contributions. Patriarch Kou and True True Immortal Little Shang already informed us of your contributions. You and your gang will be rewarded with a quarter of what we gained.”

Zhu Honglin felt his head swelling after hearing the massive reward that fell from the skies. He started stuttering the next second, “This... This... This... I can’t... No, I’m thankful, I’m too grateful for this... No... It’s too much, I...”

“Leader Zhu, there’s no need to reject it. It’s something you and your gang deserve. Moreover, True Immortal Little Shang still has arrangements for all of you.” Sun Haiwei giggled softly.

At the end of the day, Zhu Honglin was still the leader of a powerful faction. He was able to quickly regain his composure and he quickly asked, “I wonder what True Immortal Shang needs me to do...”

1. Other pronunciation in Chinese but you get the idea... 🤔

Chapter 1113: We Can Do it Anytime

Zhu Honglin quickly snapped back to reality and asked, “What is True Immortal Shang’s next command?”

Sun Haiwei nodded slightly after seeing his reaction and continued, “Our world’s goal is to devour the Mo Continent and the 3 continents surrounding it. We managed to take down Tonggu City with your help, and it won’t be suitable for you to continue living on the Spirit Faith World after this...”

After she spoke, Sun Haiwei paused for a second before glancing at Zhu Honglin without him noticing. She could see that he had heaved a sigh of relief after hearing her consideration.

She eventually continued, “True Immortal Shang’s intention is for you to bring your Chilin Gang over to our Spirit Luxuriant World in our Star Ships. Even though the cultivators under you won’t be able to enter our world due to the World’s Will suppression, we have a lot of establishments outside the heavenly screen. Your gang can set yourselves up there and we might need your assistance in the future... Leader Zhu, what do you say?”

Zhu Honglin agreed immediately. “Of course I am! I will listen to your arrangement when the time comes!”

Sun Haiwei grunted once and nodded her head as though she already expected his answer. “Next, we need to control the Mo Continent. There are a lot of areas where we need your help. Please assist us in chasing the various factions to the edge of the continent if they are unwilling to submit to us and if there are some really stubborn ones, we will have no choice but to make a move to deal with them. If ordinary mortals are unwilling to leave with us, they can also take their leave. Whatever it is, we should avoid killing unless absolutely necessary!”

Zhu Honglin cupped his fists and expressed his understanding.

She didn’t seem to notice his actions as she continued to mutter to herself, “It’s a shame we can’t easily replicate the method the Spirit Faith World used to assimilate the Azure Intellect World and Azure Roaming World. Otherwise, we would be able to bring more experts over to our side...”

Zhu Honglin frowned in response. “Instructor Sun, the assimilation of the worlds is the highest secret of the Spirit Faith World. Only True Immortals of the great Elysiums would know a thing or two. However, Gu Chengwu was slain when the Guyuan Elysium was destroyed back then...”

“Leader Zhu, there’s no need to worry. I was only talking to myself...” Sun Haiwei laughed softly in response.

...

“True Immortal Shang, your method of easily avoiding the suppression of the World’s Will truly amazes me...” True Immortal Zhu looked at Shang Xia who had found him and discovered the aura of a Martial Dipper Realm expert on him and gasped. His emotions were complicated as he discovered that Shang Xia looked and felt exactly like a cultivator of the Spirit Faith World! However, he quickly regained his composure and asked, “Why didn’t you go to where the Guyuan Sect is in order to prevent anyone from going crazy from desperation? Why are you here?”

After Shang Xia wriggled his way through the heavenly screen, the first place he went was obviously the Mo Continent and the continents surrounding it. After not feeling the trace of any True Immortals, he decided to pass through the void storm to arrive at the 9 western continents the Ascendant Faction planned to take away and devour before looking for True Immortal Zhu.

Other than the 3 Elysium True Immortals of the Ascendant Faction, Yun Hu, Hong Miao, True Immortal Zhu, and True Immortal Luo, were in charge of the 9 continents!

The reason was simple. They became True Immortals after entering the Spirit Faith World, and those 9 continents were where they drew on the essence world to advance.

They were also unable to return to the Azure Worlds for the time being as they had to prevent the True Immortals of the Native Faction from trying anything funny. Also, if they forced their way back, they would have to pay a certain price. After all, they ascended with the assistance of those continents and they would face a certain level of restraint after returning to their worlds.

In order to prevent that from happening, they would have to fully assimilate those continents into their worlds!

That was also why they chose to split the 9 western continents away the moment they started their rebellion!

Moreover, those were the rewards they deserved... Those 9 continents came from the Spirit Emptiness World in the first place, and the Azure Worlds were supposed to get them back then!

... Of course, that was what they said anyway.

Shang Xia chuckled in response and he didn’t seem to mind the way True Immortal Zhu was grumbling. He mumbled, “Actually, I have something I wish to ask you.”

“Oh? What is it?” True Immortal Zhu replied calmly.

Maybe it was because the 9 western continents splitting off from the Spirit Faith World were already set in stone, or perhaps they only sent 4 True Immortals... The Native Faction and the Ascendant Faction felt that the Spirit Luxuriant World was nothing more than a bunch of weaklings. As such, True Immortal Zhu was no longer as polite to Shang Xia as the time they were fighting Lan Zhengfeng.

Shang Xia wasn’t surprised by their change in attitude. He didn’t say anything about it either. Instead, he chuckled, “It’s related to the connection between the worlds using Elysium Gates that allows all of you to not be suppressed by the World’s Will in each other’s worlds.”

True Immortal Zhu muttered, “True Immortal Shang, don’t you already know? The Azure Roaming World and Azure Intellect World sacrificed 3 Elysiums in order to form the connection. That’s how we achieved it. However, only experts from Azure Worlds would head over to the Spirit Faith World during ascension. As members of a superior world, the cultivators of the Spirit Faith World wouldn’t head to the Azure Worlds.”

The smile on Shang Xia’s face faded and he slowly continued, “Is there really a need to brush me off like that? If the system established by the Spirit Faith World was really so simple, is there really a need for me to come all the way here to ask you about it?”

True Immortal Zhu noticed the change in Shang Xia’s tone and he revealed a reluctant expression. He couldn’t help but mutter, “This... It’s not that I’m trying to hide it from you. However, the True Immortals who established the system of the Elysium Gates would never be willing to reveal the secrets behind it. Even though our Ascendant Faction has already split off from the Spirit Faith World, the agreement we had back then isn’t completely useless...”

He couldn’t help but add, “True Immortal Shang, there’s no need to go around asking the others either. No one will say anything about it. I hope you won’t make things difficult for me either. Unless you have the approval from every single True Immortal from both factions to reveal this matter...”

“Farewell.” Shang Xia didn’t wait for True Immortal Zhu to finish speaking before he cupped his fists and turned to leave.

Before Shang Xia disappeared into a spatial gate he created, he turned to True Immortal Zhu and snorted softly. “Of the 9 western continents that have been split up by your Azure Worlds... Are you really so sure you will be able to devour them and ascend into a Spirit World?”

True Immortal Zhu stared at Shang Xia’s leaving figure, and his expression was overcast.

It was then that True Immortal Luo appeared behind him. “True Immortal Chi sent news that the Void Overlooking Elysium and Flourishing Dao Elysium are speeding up the process. It’s said that Yun Hu and Hong Miao have already entered their Elysiums to provide assistance.”

True Immortal Zhu had already calmed down and he simply grunted once before mumbling casually, “We should also start then. After all, our world only has a single Carefree Elysium and it won’t be too good if we fall too far behind.”

True Immortal Zhu from the Spirit Roaming World quickly flew back into the Elysium of their world and True Immortal Luo behind him hesitated slightly. He eventually stuttered, “Brother Zhu, What if... What if we fail to ascend into a Spirit World?”

True Immortal Zhu didn’t turn his head as he replied, “Even though the Ascension System was built on the basis of our Three Worlds, do you really think that these worlds are the only ones who are capable of sustaining a system like that?”

True Immortal Luo quickly followed behind True Immortal Zhu and he continued in a low voice, “Brother Zhu, do you mean... To target those Barbaric Worlds?”

“From the time we discovered the first Barbaric World in the sea of stars and drew the peak-grade Martial Extermination Realm experts of their world over to ours with

our Star Ships, the Ascension System no longer consisted of the Spirit Faith World, Azure Intellect World, and our Azure Roaming World. The Three Worlds we refer to ourselves as actually consist of Spirit Worlds, Azure Worlds, and Barbaric Worlds!" True Immortal Zhu snorted coldly.

Their figures in the sea of stars became even more blurry, but True Immortal Zhu's voice rang clearly through space. "Even though the Spirit Faith World still has 4 Elysiums, of the 4 True Immortals they have left, 3 of them are Elysium True Immortals. Lan Zhengfeng might be strong, but can he really fight with the injuries he suffered?"

"There's also Yun Hu of the Azure Intellect World. His injuries are pretty much comparable to Lan Zhengfeng. Ignoring Ling Ku of the Void Overlooking Sect and Qiu Qi of the Flourishing Dao Sect, Hong Miao is the only person who possesses considerable fighting capabilities!"

"Our Spirit Roamin World is unlike any of them! We still have 3 True Immortals, and 2 of us are Free True Immortals. We should be able to recover soon and we are the ones with the greatest amount of combat prowess. This is our best chance!"

"Because of how I brushed True Immortal Shang off earlier, I'm afraid they might have formed some grudges. From the strength they displayed, they will most likely retreat after grabbing the 4 continents the Guyuan Sect once controlled. Once they leave, our chance will come. It's our best chance to devour the Barbaric Worlds and ensure our world ascension!"

"If we miss this chance and allow Lan Zhengfeng and Yun Hu to recover... No. even if they restore just a good portion of their strength, we'll only be able to pick up scraps behind them. We won't be able to gain the most out of this!"

...

After being stonewalled by True Immortal Zhu, Shang Xia didn't run to the other True Immortals of the Ascendant Faction to try to get an answer. Instead, he passed through the void storm again to return to the 4 continents once controlled by the Guyuan Sect.

However, he didn't stay for long. After looking around a little, he discovered that the Spirit Faith World had already gathered their forces to attack the 3 outer continents.

More than 70 percent of the Spirit Luxuriant World's fleet had already gathered at the borders to stop the experts of the Spirit Faith World from succeeding.

Shang Xia also discovered that there were many mid to high-level experts of the Spirit Faith World continuously making their way over...

From how fast the Spirit Faith World reacted, Shang Xia could see the fruits of their development after they exterminated the Spirit Emptiness World back then. Even though they suffered a massive rebellion, there were still many mid to high-level experts in the various sects! The number far

surpassed anything the Spirit Luxuriant World could bring out. At the very least, they far surpassed the experts the Spirit Luxuriant World sent.

If things were to continue and drag out a little more, the losses the Spirit Luxuriant World would suffer would increase. It would also become difficult to reap the spoils of the battle!

Shang Xia patrolled the 4 continents and even though he didn't make a move, he could feel the hostile intentions coming from True Immortals from the other parts of the Spirit Faith World.

... Eventually, he reappeared above the heavenly screen and met up with Kou Chongxue and the rest. He didn't wait for them and said, "We need to hasten our progress. If we mess up, the experts of the 3 worlds might come together and form an alliance. When the time comes, they might join forces to deal with us!"

#### Chapter 1114: Yin Jingxu's Advancement and Deduction

Just as the fleet launched their attack on the Spirit Faith World under the lead of the 4 True Immortals, the situation in the Spirit Luxuriant World wasn't exactly stagnant. The Elysium True Immortals who had no choice but to stay behind appeared above the heavenly screen with slightly ugly expressions.

Somewhere in the vicinity of 100,000 miles away from the Spirit Luxuriant World, an Earth Star could be seen and the various Elysium True Immortals could already see it clearly.

The Earth Star had already entered the 300,000 mile range of the Spirit Luxuriant World 5 or so days ago. It was getting closer and closer, and it was also starting to approach with greater speed.

Even though any True Immortal present would be able to strike at the Earth Star that was 100,000 miles away. However, all of them knew that the Earth Star wasn't threatening to their world.

In fact, there were huge signs of life on the Earth Star, and there seemed to be a lot of people on it.

"Manyu Earth Star? Hehe... I didn't think that the remnants of the Manyu Continent would become an Earth Star. Yin Jingxu... You really planned it out well! You even managed to trick all of us!"

Liu Jingsheng stared at the Earth Star and sneered coldly. Even a fool could hear the displeasure he was feeling.

Li Jidao looked at the Earth Star and revealed a complex gaze. He snorted coldly the next moment, "What if... What if we shatter the Earth Star right now?"

"Are you asking what would happen to the Earth Star? Or what would happen to Yin Jingxu?" Zhang Xuansheng grunted.

Before Li Jidao could say anything, Zhang Jianzi who was standing beside Zhang Xuansheng took the words right out of his mouth. "What would happen to Yin Jingxu if that happened? Will he lose his chance to enter the Marital Void Realm?"

Yang Taihe chuckled at the side, "I'm afraid not. The Earth Star is too close to our world and even if we shatter it, its world essence will definitely be devoured by our world. If I'm not mistaken, Yin Jingxu should have been nurturing his origin soul in it for a long time. It should have already transformed after so many years and he will definitely be able to absorb it now that it's so close."

Zhang Jianzi nodded slowly. “That means that Yin Jingxu will definitely step into the Martial Void Realm! However, the Heavenly Star Palace doesn’t possess their own Elysium and he will definitely become a Free True Immortal...”

Liu Jingsheng growled, “He really picked a good time to attempt his breakthrough. With our Free True Immortals on an expedition, he hastened the arrival of the Earth Star. By the time we detected it, it’s already too close. If they were back here, they might be able to discover it while traveling outside and destroy it before it came too close! If that happened, Yin Jingxu’s schemes would go down the drain.”

Clearly, Liu Jingsheng was accusing Yin Jingxu of being a sneaky little bastard. However, everyone present knew that if they were in Yin Jingxu’s position, they would definitely do the same, or even worse if they had the ability to. After all, his future rested on it!

Of course, none of them were fools. No one would speak up for Yin Jingxu in their current situation.

Li Jidao continued, “Such a strange promotion method... He definitely obtained the inheritance from the Heaven Observation Sect, right?”

None of the others continued, but they made it clear they agreed with his deduction.

Eventually, Yang Taihe sighed, “Forget it. No matter what, we gained another True Immortal. Our Spirit Luxuriant World also obtained another inheritance to the Martial Void Realm. It’s beneficial for our world...”

“Heh, the inheritance of the Heaven Observation Sect might not be a good thing to hold on to!” Zhang Xuansheng quickly poured a bucket of cold water over everyone present.

When everyone turned to look at him, he explained, “Don’t forget the existence of Essence Worlds. The fourth tier True Immortal from the Essence Hong World infiltrated the Tongyou Elysium back then because of the Heaven Observation Sect’s inheritance, right?”

“True Immortal Zhang, please pardon me, but I disagree!” A soft voice came from below the heavenly screen, but when everyone turned to look, the person who spoke had already arrived before them. Moreover, he stood directly opposite them.

Who else could it be but Yin Jingxu?

Yang Taihe frowned and stared at Yin Jingxu whose aura was fluctuating wildly. “Palace Master Yin, your aura seems to be unsteady. Your foundation in the Martial Void Realm isn’t solid. Why did you come out now?”

Yin Jingxu cupped his fists at Yang Taihe and he quickly looked at the others present. He eventually chuckled, “Many thanks for True Immortal Yang’s reminder. I would also like to thank everyone for forgiving my rude actions. However, the Manyu Earth Star has already come over to our world and my origin soul is also about ready. I will definitely enter the Martial Void Realm and I definitely wouldn’t offend everyone and go against the interests of our world.”

“What do you mean earlier? Could the fourth tier True Immortal from the Essence Hong World not be there for the Heaven Observation Sect’s inheritance?” Zhang Xuansheng quickly pulled them back on topic.

“True Immortal Zhang, have you thought about it? If the expert from the Essence Hong World is truly interested in the inheritance, wouldn’t the Star Observatory in the Jiao Continent be a lot easier to infiltrate? Why didn’t he head over to my Heavenly Star Palace to look for it? Why did he choose the Tongyou Elysium?” Yin Jingxu asked. Also, he seemed to have admitted that the inheritance he possessed came from the Heaven Observation Sect.

Li Jidao muttered, “How do you know they didn’t infiltrate your Heavenly Star Palace? If he was able to avoid being detected by Shang Xia and enter the Tongyou Elysium, do you really think he can’t avoid you?”

Yin Jingxu’s smile froze instantly and his expression turned into one of unease.

Yang Taihe quickly waved his arm to stop Li Jidao and he asked Yin Jingxu with a soft smile, “Yin... True Immortal Yin, don’t worry yourself with True Immortal Li’s wild guess. Feel free to speak your mind. Perhaps, we might discover something new!”

Yin Jingxu sucked in a long breath and spoke after arranging his thoughts, “My Heavenly Star Palace didn’t seem to lose anything. Even if the True Immortal from the Essence Hong World really came, from how he also entered the Tongyou Elysium, it’s clear he didn’t find what he wanted.”

Yang Taihe turned serious and nodded slowly. “Please continue.”

The other True Immortals also fell deep into thought.

Yin Jingxu continued, “Fellow True Immortals, actually, when the Heaven Observation Sect was destroyed back then, the number of factions that received their inheritance were scattered all about the sea of stars. What does the portion my Heavenly Star Palace obtain count for? It’s nothing impressive! If we really got something good, why would we only remain as a Holy Land after so many years?”

Zhang Xuansheng interjected, “So... Are you saying that the expert of the Essence Hong World is looking for a precious treasure of the Heaven Observation Sect and that he chose to infiltrate the Tongyou Elysium because it’s one of the remnant Heaven Observation Elysiums for it?”

“That’s the only thing I can think of.” Yin Jingxu sighed softly in response.

No one knew why, but after Yin Jingxu spoke of his conjecture, Yang Taihe and Li Jidao exchanged a quick glance before turning away from each other.

Chapter 1115: Everyone Has Their Own Schemes

Shang Xia, who was far away in the Spirit Faith World, didn’t know that the Spirit Luxuriant World gained another Martial Void Realm expert when they were out on a conquest. He also didn’t know that the newly ascended expert was a Free True Immortal!

However... Even if he knew, the 4 Free True Immortals of the Spirit Luxuriant World didn't have the bandwidth to think about the changes it would bring to the current situation back in the Spirit Luxuriant World.

That was because after Shang Xia left the Spirit Faith World to meet up with the others, they reached an extremely absurd conclusion that the Spirit Faith World might actually join hands with the Azure Worlds to deal with them!

“Both sides lost 6 True Immortals after their conflict and the 9 western continents had already pulled away from the Spirit Faith World. Actually, it's almost impossible for them to join forces again if they were fighting among each other... However, with an external enemy like us, they might be able to put their differences aside...” Lu Wuzi spoke after thinking for some time.

Huang Jinghan added, “True Immortal Lu is right. Don't forget, we're going to take away 4 continents! We might just fall into their crosshairs! After all, the Spirit Faith World losing 13 continents at once caused them to be greatly weakened. Even though the Azure Intellect World and Azure Roaming World devoured 9 continents, they might not be able to ascend to a Spirit World immediately. When that happens, the continents we're aiming for might become their targets instead.”

Kou Chongxue thought for a second before he muttered, “How is our progress in the 4 continents? What is the situation like now? Are we able to stop the counterattack from the experts of the Spirit Faith World?”

“We basically already have control of the Mo Continent. Because of the preparations I made, we managed to easily take over the Mo Continent. Our progress in the other continents isn't as fast. As of right now, our fleet can still hold their own. Before I came over, the experts from the other continents were starting to pour over to the continents. They have the home-ground advantage and they have much stronger foundations than us. Even though they only have the strength of 9 continents left, their number of high-level experts far surpasses us. Also, the continents they have left contain the true essence of the Spirit Faith World...” Shang Xia explained.

Looking at Huang Jinghan and Lu Wuzi, Kou Chongxue said with a straight face, “Looks like we need to get out before the Azure Intellect World and Azure Roaming World truly leave the influence of the Spirit Faith World. Also, we need to quickly escape and leave Yan Huayi's area of activity... From the looks of it, we will have to give up a portion of the 4 continents...”

Huang Jinghan hesitated slightly, but he eventually nodded in agreement.

Kou Chongxue also sent out several transmissions after he had spoken and informed the members of the Tongyou Institution and their allies to quickly reinforce the other continents.

When he was done, he turned to Shang Xia to ask, “Is there anything else you would like to add?”

“Right... The moment they split off from the Spirit Faith World, the Azure Intellect World, and Azure Roaming World might not be as tight as before...” Shang Xia said after a moment of contemplation.

Kou Chongxue’s interest was piqued immediately. He asked curiously, “Oh? Why would you say so?”

“The strength of both worlds is just too imbalanced. The Azure Intellect World used to have 5 True Immortals, and there’s Yun Hu, a third tier True Immortal! They are leagues ahead of the Azure Roaming World. The Azure Intellect World lost a first tier True Immortal, Yu Long, while the Azure Roaming World lost a second tier True Immortal, Meng Han! The gap between their strength is just too wide!” Shang Xia explained. He also continued, “Originally, the Azure Intellect World had 5 True Immortals, and other than Yun Hu, the other 4 were first tier True Immortals. 2 of them were even Elysium True Immortals! The Azure Roaming World had 4 True Immortals, and other than a single first tier Elysium True Immortal, the others were in the second tier. They had the ability to contend against Yun Hu. However, the situation changed after the rebellion. The only second tier True Immortal left is True Immortal Zhu, and even if the Azure Intellect World chooses not to do anything, the members of the Azure Roaming World would choose to take precautions.”

Lu Wuzi mumbled, “But Yun Hu has already been heavily injured...”

“But he isn’t dead.” Shang Xia spoke seriously. “A third tier True Immortal like him can most likely recover if he isn’t dead. Moreover, Yun Hu isn’t shackled to an Elysium.”

Huang Jinghan seemed to understand what Shang Xia meant and he quickly added, “That’s right. There’s still Lan Zhengfeng of the Spirit Faith World and he’s also a third tier True Immortal. He is also seriously injured, but given time, he will recover.”

Lu Wuzi finally understood what they had been implying and he gasped, “Do you mean... If shit hits the fan, the experts of the Azure Roaming World might allow us to get away?”

“Maybe... Maybe we even have a chance to work together in the future.” Kou Chongxue revealed a smile that didn’t seem like one as he chuckled.

...

In the Void Overlooking Elysium of the Azure Intellect World, Ling Ku, a first tier True Immortal, stared at Yun Hu.

Yun Hu was also reading a transmission he received from god knew where. A moment later, he looked away and Ling Ku quickly asked, “Brother Yun Hu, who sent it?”

Yun Hu laughed in response before handling the transmission over. “Brother Ling, I bet you won’t expect it.”

Ling Ku quickly skimmed over the transmission before raising his head in shock. “Yan Huayi?!”

“I told you you wouldn’t expect it. He’s trying to rally us to attack the Spirit Luxuriant World!” Yun Hu chuckled.

Shaking his head, Ling Ku seemed to not be interested in the idea initially. However, he read the transmission seriously again before falling deep into contemplation.

Yun Hu noticed his reaction and couldn’t help but ask, “What’s the matter? Are you moved?”

“He’s asking us to join forces with him after we leave the Spirit Faith World’s sphere of influence completely.” Ling Ku muttered curiously.

“Yeah.” Yun Hu laughed softly, “Once we leave the Spirit Faith World’s sphere of influence, we would have broken all contact with their World Origin Source. As long as we put enough distance between ourselves and the Spirit Faith World, even Yan Huayi wouldn’t be able to threaten us. He’s always able to negotiate in a way that invokes your consideration. It’s like how he convinced us to assist them to ascend to a Spirit World to resist the invasion.”

Ling Ku thought for some time and his expression didn’t change as he asked, “So... Should we reject?”

“Why should we? However, we need to wait for him to make the first move even if we choose to join them.” Yun Hu looked at the junior standing before him and sniggered in a strange voice.

Ling Ku couldn’t help but sigh, “Who would have expected that the Spirit Luxuriant World showed off so much back then, but only sent 4 True Immortals? From the looks of it, they aren’t as strong as we thought. It’s just that your injuries...”

Yun Hu mused, “I won’t be able to go all in and fight them directly, but if push comes to shove, I can still put my life on the line to fight.”

...

In the Azure Roaming World, True Immortal Zhu also received a transmission. He lowered it after he was done reading its contents with an expressionless face.

True Immortal Luo at the side asked, “Are we going to accept?”

True Immortal Zhu glanced at him before flicking his wrist to turn the transmission to ash.

“Are we not?!” True Immortal Luo was slightly taken aback by his actions.

Finally, a smile appeared on True Immortal Zhu’s face and he chuckled, “That’s not it, but we’re just not going to reply!”

Not understanding his meaning, True Immortal Luo couldn’t help but wonder out loud, “This...”

“Heh, are you tempted by the offer?” True Immortal Zhu joked.

Nodding seriously, True Immortal Luo mumbled, “Even if it’s just an additional continent of land, it’s a landmass that comes from a Spirit World. With the Guyuan Sect’s care over the continent for

so many years, the world essence it contains should be comparable to half a Barbaric World. Perhaps, it's our ticket to taking the final step to become a Spirit World of our own!"

He couldn't help but sigh as he continued, "Our origin souls have been branded in the Spirit Faith World and even though we relied on one of these continents to break through, it can't be denied that our origin soul has been branded in another world. If we are not able to successfully ascend, I'm afraid we won't be able to return to our worlds! After all, an Azure World has its limits. Without an Elysium, the highest level of cultivation one can reach is the Martial Dipper Realm!"

"We'll play it by ear. However, we definitely won't be making the first move!" True Immortal Zhu finally concluded.

Chapter 1116: Splitting the Spirit Faith World!

"They won't fall for it!"

In the Heavenly Feather Elysium, Lan Zhengfeng who hadn't fully recovered, didn't return to the Fengyuan Sect. Instead, he appeared beside Yan Huayi.

Yan Huayi glanced at him, and there was a look of barely concealed anger in them. He growled in a rather sharp voice, "No. As long as they don't respond, that doesn't mean that they're rejecting the cooperation."

"Is there any difference?" Lan Zhengfeng sighed.

"None of them wishes to be used by others. They need me to make the first move, and they also need to see an opportunity within before they are willing to join us." Yan Huayi explained.

Looking at his old friend, Lan Zhengfeng couldn't help but mumble softly while maintaining an expressionless face, "The Spirit Luxuriant World might have only sent 4 True Immortals, with only 2 second tier True Immortals among them, shocking all of us, but those 2 aren't going to be easy to deal with. If Zhu Yingluo Doesn't make a move, you might not be able to take them down easily!"

Staring at Lan Zhengfeng, Yan Huayi couldn't help but ask, "Do you have any strength left?"

In a cold voice, Lan Zhengfeng growled, "Are you sure you're planning to sacrifice the only Free True Immortal of the Spirit Faith World?"

Yan Huayi's gaze froze for a second, and he seemed to understand the extent of Lan Zhengfeng's injuries. He could only shake his head regretfully. "Looks like we have no other way. We can only gather the experts of our world to the borders of the Wu, Shen, and You Continents to weaken the cultivators of the Spirit Luxuriant World the best we can and delay their progress in gaining control of the continents."

Lan Zhengfeng couldn't help but remind him, "Before the 9 continents separated back then, a batch of our experts were plotted against by the members of the Ascendant Faction and were killed. Those we sent over were also trapped there and the Guyuan Sect's internal conflict along with the foreign invasion greatly exhausted our strength. We lost a lot of cultivators, and if this keeps up, those smaller factions might form a grudge against us."

“Brother Lan, do you think that after the 9 continents are taken away along with the 4 continents controlled by the Guyuan Sect, we still have the ability to nurture so many cultivators?” Yan Huayi growled. He no longer hid his killing intent.

“You...” Lan Zhengfeng rose to his feet suddenly only to be met with Yan Huayi’s passive stare.

After a short second, Lan Zhengfeng sighed and avoided Yan Huayi’s gaze. He continued, “True Immortal Zeng and True Immortal Gu also seem to have many misgivings.”

Yan Huayi added in a low voice, “Relax. The 4 great sects are the only power our world has left now. I won’t touch them easily. Moreover, even if I wish to, would all of you really allow me to do so?”

“I didn’t think that things would go this far!” Lan Zhengfeng sighed even louder this time.

In response, Yan Huayi’s frosty voice rang through the air again. “From the looks of it, Brother Lan, you still haven’t fully understood the position we’re in!”

A deep frown formed on Lan Zhengfeng’s face. “What do you mean?”

“Our Spirit Faith World had 22 continents in the past. Now, more than 13 of them would be taken away. Even though a bunch of them have almost no value and are crippled continents, do you think the 9 remaining continents are able to sustain us as a Spirit World? If a Spirit World falls back down to an Azure World, do you think it can support the existence of 4 Elysiums?”

Lan Zhengfeng’s frown grew deeper and he started to mutter to himself. “The 9 continents in the eastern region contain the greatest amount of world origin and essence of our world. They are massive, and those continents span more than 10,000 miles. Even if we have to break them in half, we will still possess 18 continents and maintain our status as a Spirit World.”

“Lan Zhengfeng!” Yan Huayi interrupted his calculations and sighed with disappointment, “You’re betting the future of our world on the possibility that we will be able to break up those continents and maintain our status! If luck is really as useful as you think, would the Spirit Emptiness World be conquered by us?”

All of a sudden, a powerful rumble came from beneath the earth as though it was trying to agree with Yan Huayi.

Lan Zhengfeng couldn’t help but to raise his head to stare at Yan Huayi.

Yan Huayi’s expression also changed. “No... It’s not possible! How can it happen so quickly?”

...

After the formation of the void storm, the Azure Worlds had been hastening their speed of separation. They were also going all out when devouring their gains.

The moment the 9 continents broke off back then, the void storm transformed into a void wall while the Azure Worlds split the continents among themselves. The continents slowly entered their heavenly screen.

As for the Elysium Gates that connected those worlds, they were assimilated into their worlds and the energy it contained returned.

Due to being used as Elysium Gates for a long time, the Elysiums failed to maintain much energy. They were forcefully held up by their Elysium True Immortals now that they had split off.

Under such circumstances, those Elysium True Immortals were unable to care about anything else.

As the Azure Worlds spurred on the growth of their world with their newfound gains, they would definitely experience a massive blessing from the World's Will. It didn't matter if they would ascend, but they would gain a whole bunch of benefits and the blessing that came when it happened would greatly alleviate the burden of the Elysium True Immortals.

Along with the assimilation of the continents, the Azure Worlds also devoured the world essence they contained. The portion of the Spirit Faith World's Will that was contained in them was slowly sucked dry by the Azure Worlds' Will.

When the Ascendant Faction split off, many people might have discovered their goal. However, not many were willing to believe they would succeed as they remained delusional. Only after the battle between the True Immortals reached a stalemate back then did they understand that the continents were really lost.

Of course, absorbing so many continents wasn't something that could be done quickly. They were still hovering around the sea of stars outside the Spirit Faith World's heavenly screen.

The presence of the void wall separated the continents from the Spirit Faith World, but they would only be considered to have fully separated only after the World's Will contained in them had been fully devoured.

The Spirit Faith World's Will was greatly damaged due to the continents breaking off. In the end, the heaven and earth qi contained in the Spirit Faith World took a huge dip. Because of the damage it suffered, the World's Will fluctuated wildly and it affected everyone's cultivation. The higher one's realm was, the greater the backlash they felt!

When the damage to the World's Will reached a certain extent, the True Immortals started spitting out mouthfuls of blood and they could feel their Void Origin weakening considerably.

Members of the Native Faction weren't the only ones who felt the backlash. Even those from the Ascendant Faction were affected as their origin souls were branded in the Spirit Faith World.

To put it into perspective, an Elysium allowed a world to better regulate its flow of energy while also providing massive protection. However, if they wanted to be truly critical, an Elysium was merely a patch job used to seal up weaknesses of a world. They couldn't break off even if they wanted to.

Also... The Azure Worlds not only had to devour the continents. They had to pull themselves at least 300,000 miles away from the Spirit Faith World in order to avoid being threatened by Yan Huayi, the fourth tier True Immortal.

The speed at which they were pulling away was shockingly fast. At the very least, it was faster than what Shang Xia expected.

“From the looks of it, the True Immortals are going all out in order to distance themselves...” Shang Xia couldn’t help but sigh as he watched everything from above the heavenly screen.

“Is there anything strange about that?” Kou Chongxue snorted. “Didn’t I remind you to hasten our progress? They’re obviously doing the same thing. Right, did you forget what I told you to do?”

Shang Xia chuckled in response, “How could I? However, there are some things I need to see for myself in order to believe they are really happening.”

Kou Chongxue broke out with soft laughter. “Is this like how you went to ask True Immortal Zhu about the secrets of how the cultivators of the other worlds wouldn’t be suppressed by the Spirit Faith World’s Will? Did you forget about the fusion of our Azure Origin World with the Azure Spiritual World? We were also no longer affected by each other’s World’s Will when it happened.”

Shang Xia shook his head slowly in response. “That’s different. Our worlds took dozens of years to fuse, but during that time, cultivators from both sides were unable to freely enter the other world.”

“Are you forgetting about the battlefield between the two worlds?” Kou Chongxue reminded.

Slightly taken aback, Shang Xia sighed after thinking about the continents they were targeting. “I just... I just wanted there to be fewer deaths here.”

Kou Chongxue glanced at the Wu, Mo, Shen, and You Continents below and continued, “I don’t know if you will be able to come up with something that causes fewer people to die, but I know for a fact that if we don’t take action now, we’re might be the ones dying soon.”

Shang Xia observed the situation around the Spirit Faith World and could see that they were about to launch a massive offensive and made some calculations silently. He eventually mumbled, “Seems like we need to give up on a continent in the end. We have no choice. Let’s go!”

Kou Chongxue shot Huang Jinghan a glance as the 2 of them drew their divine weapons in unison.

“We’re taking the entire landmass this time! Remember, we’re not splitting it up here!” Shang Xia couldn’t help but remind.

At the borders of the Niu, Shen, and You Continents of the Spirit Faith World, the cultivators of the Spirit Luxuriant World who had arrived en masse with their Star Ships, fled from battle without warning.

There were even some who were afraid they would run too slow as they boarded their Star Ships immediately to drive it back to their retreat point.

The Spirit Luxuriant World moved too quickly and caught everyone off guard. For fear of it being a trap, the experts of the Spirit Faith World didn’t dare to enter too deep.

The next second the cultivators of the Spirit Faith World who were hesitating felt the skies above them turning dark.

When they raised their heads to look, they saw a narrow but long tear ripping through their heavenly screen, revealing the vast sea of stars.

The scene where the 9 western continents broke off from the Spirit Faith World seemed to be on replay!

Chapter 1117: RUN RUN RUN

The familiar scene caused the cultivators of the Spirit Faith World who reached the Martial Dipper Realm to gasp in fright. They roared and quickly retreated.

As they were running for their lives, a chilly light extended across the skies behind them.

Even though it appeared so quickly not many people noticed it, the true experts among them understood that all of them barely avoided the gates of death.

The frosty light was a ray of sword qi, and it had the ability to tear through the void and shatter the world! If anyone was struck by it, their souls would also be exterminated.

When several cultivators took the risk and turned back to stare at the space behind them, they discovered that the world was trembling once again. The earth was starting to separate from the world!

Kou Chongxue sent out 2 sword qis in succession, and Huang Jinghan released a single strike. Their abilities separated the 4 continents from the main body of the Spirit Faith World!"

"We need the continents to separate from the world as quickly as possible, and we can only trouble you with the spatial wall to protect them all." Shang Xia chuckled softly.

Lu Wuzi revealed a reluctant expression and mumbled, "That's 4 continents we're talking about! Even though they have been separated from the world, the world essence they contain will definitely be a lot stronger than the Spirit Azure World! It would be difficult for me to control them all, but it can still be done... However, if anyone disrupts me, I will definitely lose control of them!"

Shang Xia thought for a second before tossing the Stone Rod in his hand to where the Guyuan Sect was. It transformed into its original form, a Heaven Supporting Jade Pillar.

The Guyuan Sect was located in the center of the 4 continents, and with the Heaven Supporting Jade Pillar propping up the remnant heavenly screen, Lu Wuzi would have a much easier time. Once he took charge of the continents, he could focus more on sending it back to the Star Beast Nest.

Even if someone came to cause trouble, Lu Wuzi would be able to spare some energy to deal with them with the assistance of the Heavenly Supporting Jade Pillar.

However, Lu Wuzi hesitated slightly when he saw that Shang Xia had handed over his weapon.

"Without your weapon, how will you stop their fourth tier True Immortal when they take action?"

"True Immortal Lu, do you think Yan Huayi will be able to move against us if I head over to the continent the Heavenly Feather Elysium is on and conceal my presence?"

Shang Xia chuckled. He even intentionally sent his voice through the rest of the Spirit Faith World. In fact, even the experts of the Azure Intellect World and Azure Roaming Worlds heard what he said.

Shang Xia didn't bother hiding his hostility and he brought everyone's attention back to the freak that could conceal himself and avoid the rejection and suppression of the World's Will. He was also able to enter and leave the Spirit Faith World whenever he wished, and he was undoubtedly a monstrous existence.

Of course, Shang Xia was a man of his word. After leaving his weapon on the continents, he nodded once at Kou Chongxue and Huang Jinghan before disappearing from above the heavenly screen.

The second he left, Yan Huayi reappeared above the heavenly screen and ignored the threat he posed. He waved the brush in the air and tried to lock the 4 continents back in place.

Kou Chongxue's expression sank and a powerful sword qi tore through the void. Like how he tore through Yan Huayi's canvas back then, he carved out a good chunk of energy. However, it was clearly not enough to stop him from suppressing the 4 continents.

Huang Jinghan followed up the next instant and his Yuanchen Heavy Sword swung heavily across the air. It contained a profound aura, but it didn't try cleaving away the energy contained in the brush stroke like what Kou Chongxue did. Instead, it went straight for Yan Huayi.

"Fellow True Immortal, are you really not afraid that your Elysium will be destroyed?" Huang Jinghan's roar rolled like thunder across the skies. A good half of whatever was left of the Spirit Faith World heard him, and his intentions couldn't be more clear. He was giving Shang Xia a heads-up that Yan Huayi wasn't home!

Yan Huayi might not have taken Huang Jinghan seriously when he appeared because the other party was a first tier True Immortal, but it didn't mean that he would take the sword strike head-on.

He drew on the power of the world and even though Huang Jinghan's sword qi looked like it was about to land, it failed to cross the tiny distance between itself and Yan Huayi at the last moment. It couldn't even touch the corner of his clothes!

A low rumble came from the heavenly screen in the distance, and Yan Huayi's expression finally changed. However, he chose not to retreat. Instead, the brush in his hand tapped in space several times and the suppression on the continents became even stronger.

"Break the seal first!" Kou Chongxue yelled as several rays of sword light shot through the void. It cleaved apart the space in front of him and tried to sever the suppression Yan Huayi had on the continents.

Huang Jinghan also understood why Kou Chongxue placed so much focus on breaking the seal. If they were unable to quickly separate the continents, Yan Huayi might not be the only person they would be facing soon. The True Immortals of the Azure Worlds might arrive to take advantage of the situation.

Huang Jinghan's sword style might not be as sharp as Kou Chongxue's, but he didn't hold back in the slightest. His sword qi plunged into the void that had been sealed off by Yan Huayi.

Because of the exertion, he spat out a mouthful of blood.

However, the void that had been sealed off started to shake. Powerful fluctuations caused the void to ripple as the continents were freed from Yan Huayi's suppression.

Naturally, Huang Jinghan's efforts weren't enough to cause that to happen. Instead, it was Lu Wuzi who had been grinding away at the suppression while controlling the 4 continents from within.

With the Heaven Supporting Jade Pillar, the continents didn't suffer too much from the spatial fluctuations.

Huang Jinghan coughed hoarsely the next moment. "His combat abilities have already been affected. He's injured!"

Without Huang Jinghan's reminder, Kou Chongxue also understood that Yan Huayi's seal wasn't as strong as he had thought. Otherwise, even if Huang Jinghan drew himself dry, he wouldn't be able to shake the foundations of the seal.

Traveling quickly through the void, Kou Chongxue closed the distance between himself and Yan Huayi. His Hidden Frost Sword tapped the void as a ray of sword qi cleaved space apart before disappearing before their eyes.

"What a great sword art..." Yan Huayi couldn't help but gasp. However, his expression also turned serious.

The brush he was holding also tapped the space in front of him. And the sword qi was quickly shattered. As the sword qi scattered, it created countless tears in the void along with the heavenly screen below.

Kou Chongxue's sword qi was easily stopped by Yan Huayi in the end.

The next instant, several dozen Star Ships appeared from different directions from beneath the heavenly screen and dragged a long and strong rope behind that was attached to the continents.

How big were the continents?

Even though it looked tiny when compared to the rest of the Spirit Faith World that was covered in the Spirit Faith World, those Star Ships that were barely hundreds of feet long were like ants trying to drag a mighty boulder!

Surprisingly, as those Star Ships rose into the air, the landmass they were dragging started to speed up.

If the speed at which the 4 continents were separating from the Spirit Faith World was comparable to when the 9 western continents were brought away by the Ascendant Faction, the appearance of those Star Ships greatly hastened the process.

"Old friends from the Azure Intellect World and Azure Roaming World, what are you waiting for?!" Yan Huayi roared as he tried to stop them from pulling away.

Kou Chongxue and Huang Jinghan worked in unison as they rushed towards Yan Huayi. 2 divine swords danced as they displayed 2 different styles. 1 was nimble and difficult to block, the other was heavy and contained powerful might. Even though they might not be able to threaten Yan Huayi, they were more than capable of messing up his tempo.

Seemingly having noticed that the experts of the Spirit Luxuriant World were drawn thin trying to move the continent and stop Yan Huayi, a ray of light emerged from the Azure Roaming World and Azure Intellect World respectively.

Naturally, they belonged to a True Immortal.

However, before they could close in on the continents, the aura of more True Immortals appeared on 2 Star Ships that rushed towards Hong Miao and True Immortal Luo who was approaching.

The True Immortals of the Azure Worlds froze in their tracks the moment they felt the sudden appearance.

*The Spirit Luxuriant World actually hid 2 True Immortals on their Star Ships!*

Be it the Azure Intellect World, Azure Roaming World, or Yan Huayi, all of them were shocked by the sudden revelation! However, they quickly realized that it wasn't anything to be surprised about.

After all, when the Spirit Luxuriant World first made their appearance, the experts of the Ascendant Faction and the Native Faction were truly disappointed by their lack of strength.

Now that 2 other hidden True Immortals had revealed themselves, the experts of the Ascendant Faction and Native Faction felt a massive weight lifted off their hearts.

They might be surprised, but Yan Huayi, Hong Miao, and True Immortal Luo felt fortunate they didn't go all in immediately and probed the situation out. If any of them fell into the Spirit Luxuriant World's trap, they might lose everything!

Due to the backlash from the Spirit Faith World after the continents split off, the True Immortals suffered heavy backlash. Their combat strength was impacted to a certain extent, and even if Yan Huayi were to be surrounded by 4 True Immortals of the Spirit Luxuriant World, he might not be able to deal with them all!

*Also, there was also that asshole who had infiltrated the Spirit Faith World and was causing trouble.*

When Yan Huayi finally thought about Shang Xia, a sense of unease filled his heart.

That was because he had already left the Heavenly Feather Elysium for some time, but nothing seemed to be happening in their world. It was too quiet, and the situation seemed a little too strange.

He didn't know how Shang Xia could feel at ease letting Kou Chongxue and the others take the heat above the heavenly screen.

As though confirming Yan Huayi's thoughts, the heavenly screen in the southeast of the Spirit Faith World started to swell before rapidly retracting. Along with a heaven-shaking explosion, the heavenly screen started to quake.

Yan Huayi also disappeared from above the heavenly screen. The Heavenly Feather Elysium's grand formation had actually shattered.

Chapter 1118: Returning

Yan Huayi, who had already been taught a lesson before, wouldn't allow the other party to wreak havoc on his Elysium freely!

Other than the rank six protection formation, Yan Huayi allowed Lan Zhengfeng to protect his Elysium.

Even though Lan Zhengfeng had been seriously injured before, with him staying in the Heavenly Feather Elysium, no one would be able to take over it easily!

In actual fact, after Shang Xia attacked the Heavenly Feather Elysium, Lan Zhengfeng managed to properly deploy the power of the Elysium that Yan Huayi allowed him to control. He managed to hold Shang Xia off the first time with the help of the grand formation. Shang Xia failed to cause too much damage the first time, much less affect its foundations.

Just as Yan Huayi thought that Shang Xia had no way of breaking into his Elysium and could focus on dealing with the other True Immortals of the Spirit Luxuriant World, Shang Xia shattered the grand formation with 1 massive strike!

Even though he only broke the grand formation and failed to injure Lan Zhengfeng or affect the foundation of the Heavenly Feather Elysium, how could Yan Huayi allow him to continue doing whatever he liked?

Also, it only took a mere thought for an Elysium True Immortal to return to his Elysium when they were close to the world.

Yan Huayi couldn't be bothered with the 4 continents with his home getting backdoored. He reappeared in his Elysium the next second.

Lan Zhengfeng wasn't surprised to see him again. He sighed softly, "Apologies. He possesses really strange skills. He has some way to grind away at restrictions and he can even cause them to be unable to recover. It's actually similar to the Twin Fusion Palm the Guyuan Sect is known for, but it's a lot stronger!"

Yan Huayi grunted coldly once before appearing outside his Elysium.

Lan Zhengfeng couldn't help but shake his head slowly while still remaining in the Elysium. However, now that Yan Huayi was back, he wouldn't choose to stay for long. Soon, he took his leave.

The Heavenly Feather Sect was thrown into chaos after their grand formation was broken, but there weren't too many of them who suffered serious injuries. Other than the grand formation that had been shattered, nothing had been lost.

As for Shang Xia, who caused everything, had long since disappeared. Yan Huayi and Lan Zhengfeng could also tell that by the time they reacted, Shang Xia had already gone out to regroup with the True Immortals of the Spirit Luxuriant World.

There was no doubt about it. This time, Yan Huayi's attempt to join hands with the experts of the Azure Worlds ended in failure.

It didn't matter if they were from the Ascendant Faction or the Native Faction at that point. Not many people had the ability to stop them from bringing the continents away.

In the void above the heavenly screen, when Shang Xia caught up to Kou Chongxue and Huang Jinghan who were escorting the continent away, they had already moved close to 10,000 miles from the Spirit Faith World.

“How much did we lose?” Shang Xia asked after noticing that Kou Chongxue and Huang Jinghan were fine.

At the same time, he felt the familiar aura from the Star Ships.

Huang Jinghan replied, “We brought a total of 83 Star Ships over during the expedition. There were 147 Martial Dipper Realm experts and 927 Martial Extermination Realm cultivators. There were also Martial Intent Realm disciples who were stationed on the Star Ships, and there were 1623 of them. After the operation, we have 71 Star Ships left. However, most of them fell in the 4 continents and we will be able to salvage and repair them in the future. 14 Martial Dipper Realm experts were killed and there were many who suffered heavy injuries but can still recover. However, there are 13 more whose foundations were affected and can never advance in the future. As for those in the Martial Extermination Realm, 117 of them were killed and there were 50 or so of them who suffered heavy injuries. 300 or so disciples in the Martial Intent Realm died, and none of the others suffered much injuries.”

Shang Xia couldn't help but grit his teeth after hearing their battle statistics. “Looks like we might have lost quite a bit this time!”

In response, Kou Chongxue chuckled, “The Spirit Faith World isn't the Azure Flame World. Even though we suffered more losses because of how much rush we were in, the world essence in the continents far surpasses that of the Azure Flame World. It's definitely beneficial to us in the long term.”

Shang Xia's mood finally turned for the better after Kou Chongxue's reassurance.

Turning back to look in the direction of the Three Worlds, Shang Xia muttered in a low voice, “They should have already discovered the strange aura of our True Immortals on those Star Ships by now... Do you think they will give chase?”

“Haha! Of those who were scared away by our Illusion Talismans, one was Hong Miao of the Azure Intellect World and True Immortal Luo of the Spirit Roaming World.” Kou Chongxue didn't answer the question and he threw out a random comment of his own.

Shang Xia was slightly taken aback and he asked, “Did True Immortal Zhu not make a move?”

Kou Chongxue smiled while shaking his head.

“Looks like they really gave up. I didn't think that Yan Huayi would be so daring. He actually allowed Lan Zhengfeng to take his place and protect his Heavenly Feather Elysium back then and schemed against the third tier True Immortal. Lan Zhengfeng nearly fell for the trap, but I destroyed the grand formation at the very last moment. Haha! Perhaps Yan Huayi and Lan Zhengfeng's relationship will sour after this!”

Shang Xia burst out laughing.

The True Immortals of the Spirit Luxuriant World joked about as the continents traveled more than 10,000 miles from the Spirit Faith World.

The Azure Worlds also managed to distance themselves by tens of thousands of miles by that time, but due to the fact that the 9 western continents were where the True Immortals of the Ascendant Faction used to advance, their progress of pulling away was slow. Also, due to the greater number of continents the Ascendant Faction was pulling away, the speed of which they were leaving was comparable to the Spirit Luxuriant World.

After the distance between them grew above the 100,000 miles mark, they might still be in Yan Huayi's attack range, but the further they got, the weaker Yan Huayi would get if he attacked them.

However, with everyone so far away, the Azure Worlds didn't seem too interested in the Spirit Luxuriant World anymore.

Also, they had to mention the split of the 9 western continents. Shang Xia and the others didn't know how they reached an agreement, but the Azure Intellect world took 5 while the rest went to the Azure Roaming World.

As the True Immortals of the Azure Intellect World went to grab their 5 continents, they started to send them through the heavenly screen. The spiritual light the heavenly screen emitted started to grow in intensity and after it reached a certain level, the world seemed to tremble. The Azure Intellect World completed some sort of transformation and it started its ascension progress.

Even though many experts of the Spirit Luxuriant World had been through the world ascension process back on their worlds, it was the first time they observed another world going through a transformation. Many of them were intrigued by it.

Unlike them, the True Immortals of the Spirit Luxuriant World actually turned to the Azure Roaming World.

The Azure Roaming World was a little smaller than the Azure Intellect World to begin with, and that also resulted in the heavenly screen being a little smaller. The spiritual light it emitted was also a bit weaker.

Looking at the Azure Roaming World, it was likely they wouldn't grow as much as the Azure Intellect World!

As the Azure Roaming World gained less than the Azure Intellect World, the experts of the Spirit Luxuriant World didn't notice any transformation to their world even after they traveled 300,000 miles.

Chapter 1119: Returning For Real

"No one knows if the Spirit Faith World has the ability to stay a Spirit World, but with Yan Huayi and Lan Zhengfeng's presence, no one can disrespect the Spirit Faith World. After all, it's almost impossible for such a massive fallout to happen to them." Shang Xia glanced at the worlds from far away and continued to analyze, "As for the Azure Intellect World, it has already started to transform. It's almost certain that they will be able to ascend to a Spirit World. I'm afraid that Yun Hu would be able to recover quickly with the blessing of the World's Will, and he would be able to rebrand his origin soul into the Azure Intellect... Oh, Spirit Intellect World. Wouldn't that mean

that the Spirit Intellect World would become a lot more active than the Spirit Faith World in the foreseeable future?"

Kou Chongxue chuckled, "That might not be the case... I believe the Azure Roaming World will be the ones to kick up the biggest fuss soon..."

Huang Jinghan grunted softly in approval. "That's what I think too. The Spirit Roaming World has 2 Free True Immortals at the moment with a second tier True Immortal among them. That's an advantage they have over the other worlds at the moment."

Shang Xia also gasped in shock as he realized what they meant. "That's true! The Azure Roaming World didn't manage to ascend, and they wouldn't be satisfied with the current state of things... However, the Azure Roaming World isn't far from reaching the level of a Spirit World either. They will definitely do everything in their power to advance!"

Huang Jinghan asked suddenly, "Where do you think the Azure Roaming World will be looking?"

"They can only be targeting Barbaric Worlds at this point..." Shang Xia replied after a short moment of contemplation.

As though a veil had been lifted, Shang Xia realized that the Three Worlds were actually referring to the system of ascension consisting of Spirit Worlds, Azure Worlds, and Barbaric Worlds.

Huang Jingdao followed up, "Would that mean that they have more than 1 Barbaric World around them?"

Shang Xia chuckled in response. "Yeah. The Spirit Faith World and the Azure Worlds actually also have Star Ships. They used it as transport tools and most likely used them to bring the lower-level experts from Barbaric Worlds over to them, allowing them to ascend in a sense."

Kou Chongxue also broke out in laughter, "Now that they had split, there is no way of ascending any longer. The Azure Roaming World will definitely take this chance to deal with the Barbaric Worlds under them when the others are unable to do much. They will plunder the world essence there and attempt to become a Spirit World of their own."

"Wouldn't that mean that it would be time for us to mess with them?" Huang Jinghan also laughed.

"If we can think of this, they will definitely be able to... After all, they're no fools. With their precious experience, they will definitely come up with a bunch of plans to guard against us. It's especially so for the Azure Roaming World and the Spirit Intellect World. They are planning to distance themselves from the Spirit Faith World now, and they should be attempting to hide deep in the sea of stars. It won't be easy to find them after either as they definitely wouldn't give us a chance to discover their locations." Kou Chongxue mumbled.

Shang Xia didn't seem to care too much and he snorted, "Since they're already exposed, how can we give them a chance to hide? I think that this is actually an opportunity. As long as we continue to maintain the Star Beast Nest and make it a stronghold, we can maintain our position to maintain the

balance between their worlds. If we are able to cause them to continue fighting among each other, it's not impossible for us to devour all of them in the future."

Huang Jinghan clearly didn't expect Shang Xia's ambitions to be so huge. Instead, he was actually planning to make a move on those Barbaric Worlds. "Do you think those Barbaric Worlds will be of use to us?"

"They're not really valuable, and their worth will only diminish as time goes by." Kou Chongxue replied after thinking about it for a moment.

Huang Jinghan and Shang Xia pretty much understood what he meant. With the growth of the Spirit Luxuriant World, even an Azure World wouldn't be worth much to them soon, much less a Barbaric World.

No accidents happened on their way back and the 4 Free True Immortals of the Spirit Luxuriant World took turns maintaining the integrity of the continents. Along the way, Kou Chongxue and the others also went to visit the remains of the Spirit Emptiness World.

When they just arrived, Kou Chongxue received a shocking transmission. He learned that Yin Jingxu of the Heavenly Star Palace had broken through, becoming the tenth True Immortal of the Spirit Luxuriant World, and their fifth Free True Immortal.

Li Jidao's clone seemed to detect something from Kou Chongxue and Shang Xia's expression, and he couldn't help but ask, "From the looks of it, you don't seem surprised by his breakthrough..."

Exchanging a glance, Shang Xia and Kou Chongxue looked at each other before Shang Xia finally spoke, "If I am not mistaken, his ascension should have something to do with an Earth Star, right?"

"How..." Liu Jingsheng's clone frowned.

Before he could say anything else, Shang Xia already knew what he wanted to say.

If you knew... Why didn't you guys stop it?!

Kou Chongxue laughed out loud in response. "At the very least, having another fellow True Immortal isn't a bad thing for our Spirit Luxuriant World."

"True Immortal Kou, are you really willing to share the continent with him?" Yang Taihe's clone also asked after realizing something from Kou Chongxue and Shang Xia's sneaky glances.

Kou Chongxue didn't sound too affected and he chuckled casually, "I haven't thought things through, and it's still too early to bother about things like that."

Shang Xia also continued, "Let's finish up things here with the 4 continents we obtained before thinking about anything else. The moment we fuse them into our worlds, we will at least be able to birth 2 to 3 continents that span greater than 10,000 miles."

Lu Wuzi snickered softly in response. "Looks like we have to congratulate True Immortal Little Shang in advance."

Shang Xia didn't act humble at all as he simply cupped his fists in thanks.

For them to actually bring away 4 continents, Shang Xia played an undeniably large role. The Mo Continent, which contained the most concentrated world essence of the Spirit Faith World, would definitely be allocated by Shang Xia and the Tongyou Institution.

The You Continent was 8000 miles wide at the moment and if they absorbed a good portion of the world essence contained in the Mo Continent, it wouldn't be difficult to grow past 10,000 miles. More importantly, Shang Xia would most likely gain a huge blessing from the World's Will and he might reach the peak of the second tier immediately. He even had a shot at reaching the level of External Fusion to become a third tier True Immortal!

That was something the other True Immortals were envious of. That was because even Kou Chongxue didn't have Shang Xia's impressive achievements as he wasn't able to avoid the suppression of the World's Will and infiltrate the Spirit Faith World to do what Shang Xia did back then.

Of course, when it came to plundering continents from other worlds, the Spirit Luxuriant World had a lot of experience. They made their preparations and it didn't take them long to open a massive spatial tunnel.

...

Above the heavenly screen of the Spirit Luxuriant World, the commotion caused on the other side of the spatial tunnel alerted the various True Immortals the moment they started the transfer process. The Formation Grandmasters had long since been alerted and they were preparing to open the massive spatial gate.

However, powerful spatial fluctuations came from the void far away and right as they were about to receive the 4 continents of the Spirit Faith World, Yin Jingxu's yell came from beneath the heavenly screen, "Be careful! Someone is about to attack us!"

#### Chapter 1120: The Strike Across Space

Above the heavenly screen of the Spirit Luxuriant World, the True Immortals who had already gathered could hear the trace of fear in Yin Jingxu's voice.

Yin Jingxu was already a True Immortal for real, and the Spirit Luxuriant World also had a third tier Elysium True Immortal! If Yang Taihe drew on the power of the world, he would be able to rival a fourth tier True Immortal. Why would Yin Jingxu be afraid?

The other True Immortals were useless clowns either, but even though they were doubtful, they started to turn serious.

Yin Jingxu also arrived above the heavenly screen from the Star Observatory in the Jiao Continent, but the terrifying strike hadn't arrived.

When the other True Immortals were starting to get suspicious, the fluctuations from the spatial gate started to grow even more intense as the continents got ready to return to the Spirit Luxuriant World.

As Yin Jingxu stared into the void, the frown on his face grew deeper and he started to panic. "No way... Their target is actually the continents we stole from the Spirit Faith World!"

The True Immortals who gathered looked at each other and even though they weren't feeling what Yin Jingxu discovered, Yang Taihe growled eventually, "It's better to believe him!"

"Alright, let's get ready to take it on then!" Zhang Xuansheng grunted.

With the 2 of them making the decision, a powerful swell came from the direction of the Northern Sea Continent. The illusory phantom of the Northern Sea Elysium appeared above the heavenly screen as Zhang Xuansheng and Zhang Jianzi seemed suspended on it. The mighty swell seemed to be able to allow them to draw on its power at any moment.

At the same time, a majestic palace appeared in the east. Yang Taihe stepped into the palace and merged with it.

That was the difference between a second tier True Immortal and a third tier True Immortal. Yang Taihe could fully merge his Void Origin with his Elysium. It became an extension of himself! Zhang Xuansheng had to draw on the power of the Elysium with his Void Origin, and there was ultimately a tiny barrier from using it like the Northern Sea Elysium was an extension of himself.

With the strongest Elysium True Immortals of the Spirit Luxuriant World joining hands, both Elysiums seemed to undergo some sort of transformation. The transformation affected Yang Taihe, Zhang Xuansheng, and Zhang Jianzi. Their auras rose sharply.

It seemed to have something to do with a formation-like effect, but it also seemed related to the power of a combined art.

However, they weren't done. The Xiangyang Elysium and Divine Capital Elysium also appeared above the heavenly screen as Liu Jingsheng and Li Jidao gathered their strength the same way and merged it with the rest.

It was then that Liu Jingsheng's sigh rang in their ears, "It's a shame the Tongyou Elysium remains empty... Otherwise, we will only grow stronger!"

Yin Jingxu thought of something after seeing the combined efforts of those around him and a powerful ray of starlight descended from the sea of stars. He also managed to fuse his power with the rest.

"I didn't think that you could do this..."

"Let's see who's targeting us..."

...

The 4 continents of the Spirit Faith World were transported as one single landmass and in order to play it safe, Shang Xia took charge and personally controlled the landmass before they entered the spatial tunnel. At the same time, the Heavenly Supporting Jade Pillar that he had fully refined also further prevented any mishaps.

Behind the landmass, Kou Chongxue, Lu Wuzi, and the clones of the various True Immortals trailed closely behind. Huang Jinghan remained in the Star Beast Nest and continued to keep an eye on the worlds.

The Star Beast Nest was quite a distance away from the Spirit Luxuriant World, and even through spatial transfer, it would take some time for them to arrive.

As they got closer and closer to the other end of the spatial tunnel, Shang Xia felt a sense of unease growing in his heart.

The higher one's cultivation, the stronger their soul would become. It would also grow a lot more sensitive to danger around them.

Shang Xia immediately sent a transmission to the Star Ships pulling the landmass before informing Kou Chongxue and the others. Both True Immortals and the clones immediately rushed into the landmass to meet with Shang Xia.

If not for the Heaven Supporting Jade Pillar, the landmass would probably shatter with the pressure of so many experts.

Fortunately, they weren't too far from the end of the spatial tunnel. Shang Xia wasn't the only one who felt uneasy. Even Kou Chongxue and Lu Wuzi felt a sense of danger arriving.

The next moment, the heavenly screen surrounding the landmass started to grow as they emerged from the spatial tunnel. In an instant, it became nearly a quarter the size of the heavenly screen covering the Spirit Luxuriant World.

At the same time, the void in the distance started to light up as a massive crack in space formed. A massive sun seemed to appear from the crack, blinding everyone present.

Even though Shang Xia and the rest were on the landmass protected by the remnant heavenly screen, they were nearly unable to open their eyes.

"Who is it? Who's attacking us now?"

"It came from deep within the sea of stars, and it's extremely far away!"

"Is it from a fourth tier True Immortal?"

"How can a fourth tier True Immortal possess such power?"

"Could it be a fifth tier, or maybe, it's a sixth tier.. Could it even be..."

When Shang Xia, Kou Chongxue, and the rest didn't know how to react, Yang Taihe and the others who were already prepared, made their move!

6 True Immortals drew on the power of 4 Elysiums and a Star Observatory.

Powerful starlight essence started to rise as it was the first to clash against the giant sun that formed.

The powerful swell that came from the Northern Sea Elysium seemed to dry up from the heat of the sun as the majestic Eternal Palace turned to rubble. The Divine Capital Pagoda collapsed as the Xiangyang Elysium was razed to the ground. The twinkling stars that Yin Jingxu drew the power of starlight from started to dim.

The powerful sun was similarly weakened, but it wasn't completely extinguished. Powerful streams of white flames tore through the void and destroyed everything in its path before crashing against the heavenly screen around the landmass of the Spirit Faith World.

The clones of the 4 Elysium True Immortals rushed up into the skies as they tried different methods to stop the strong flames.

However, even after exhausting everything they had, they failed to stop it. In the end, they turned into specks of light that flew back to their true bodies.

The heavenly screen was turned to dust instantly, but a powerful sword qi emerged. It tried to tear the flame apart, and Lu Wuzi didn't care about the consumption of his energy as he used the opening made by Kou Chongxue's sword to push his energy into the stream of flame.

It slowed a little, but that was all. It continued to fall into the land mass.

From the time the landmass emerged from the spatial tunnel to the time the sun-like attack appeared, to the time it arrived, barely two breaths of time had passed. However, to the True Immortals of the Spirit Luxuriant World, it felt like an eternity.

Even though they used everything they had to weaken it, Shang Xia still had a sneaking suspicion that the moment it crashed into the landmass, everything would be burned to nothingness!

At the critical moment, Shang Xia stomped his feet and leaped into the air while holding his Stone Rod. It smashed directly into the flame.

Cracks appeared where he stomped earlier and the landmass started to shatter before the chunks flew into the Spirit Luxuriant World.

Rumble... Thump...

When Shang Xia smashed the Stone Rod into the flame, he could feel his inner qi draining rapidly. Even though the Stone Rod was a medium between Shang Xia and the flame, his inner qi was burned away.

With Shang Xia clashing against the unknown attack, he drew on the power of the world contained in the You Continent. Even though it was the twelfth month in the Spirit Luxuriant World and the You Continent was experiencing deep winter, everything seemed to burn away at that very moment! Not a trace of ice was left and the powerful heat that arrived seemed to want to incinerate everything in its path!
