

The Heavens 901

Chapter 901: Damage to the Elysium

Shang Xia stared at the seven colored token in his hand and looked in the direction where Lian Ziyi left. Finally, he turned to Huang Yu and muttered in confusion, “What’s this token used for?”

“Probably something related to your cultivation method?” Huang Yu mumbled.

Slightly taken aback, Shang Xia asked, “What do you mean?”

Shaking his head to indicate how clueless he was, Huang Yu continued, “Since she left it behind, you should head over and ask her if you’re interested in it.”

Seeing as Huang Yu wasn’t willing to say anymore, Shang Xia changed the topic. “Won’t she be able to find any gaps in your disguise?”

Pausing slightly, a look of contemplation flashed in his eyes. For a moment, it seemed like he was questioning his abilities, but eventually, he shook his head and mumbled, “Nope.”

The way he spoke, he might be referring to the fact that she might not be able to see through his disguise, but he might also be referring to the fact that even if she did, she wouldn’t expose him. Shang Xia felt that the latter was more likely.

Thinking for a moment, Shang Xia broke out into a smile. “Looks like the water in the Spirit Abundance World is deep indeed...”

“No shit?” Huang Yu raised an eyebrow and stared at him.

This time, as they concluded their conversation, they arrived back inside the city.

The Tongyou Institution might have gone all out to deploy their experts to the Beyond Heavens Pavilion to resist the invasion from the Spirit Abundance World, but they left behind a few Martial Extermination Realm experts in the city. There were also direct disciples of the institution in the Martial Intent Realm in charge of their defenses. They controlled the grand formation together to prevent attacks from the experts of the Spirit Abundance World.

Shang Xia could leave the city easily, but entering would prove to be a lot more troublesome. Even though he felt that with his current abilities, he would still be able to get in undetected, there was no need to waste so much time and effort.

Going through the proper process of screening to enter the city, Shang Xia brought Huang Yu into the institution. He introduced the Martial Extermination Realm experts in charge of the grand formation in the city to Huang Yu and told them to work with him to protect the city.

Even though the Martial Extermination Realm experts were suspicious of Huang Yu’s identity, they didn’t have a shred of doubt for Shang Xia. Moreover, for them to gain another Martial Dipper Realm expert to personally take charge of matters in the city... The grand formation would be greatly strengthened!

Shang Xia could sense that the attacks from the Spirit Abundance World were getting more intense as the Azure Ascension World neared the completion of its transformation. No matter how secluded the You Continent was, it would still be affected by the intense battle.

After settling Huang Yu into the city, Shang Xia immediately returned to the Beyond Heavens Pavilion.

Through the clone he left behind, he could sense that the situation was getting really bad...

“You... You actually left a Fate Dipper Clone in the Beyond Heavens Pavilion while getting rid of them earlier?” After Huang Yu learned that Shang Xia wasn’t even at his peak state, he couldn’t help but gasp in shock.

“The clone doesn’t have too much combat capabilities. I left it there to ease the chaotic energy flow and provide support for those up there.” Shang Xia explained.

Huang Yu waved his hand and knew that Shang Xia was merely acting humble with the revelation. He sighed softly, “If there’s a chance... I mean, if there’s a chance to kill any Sixth Order existence up there, tell Kou Chongxue that he has to target Dugu Yuanshan!”

This time, Shang Xia wasn’t just slightly taken aback. He was dumbstruck. He thought Huang Yu was joking, but when he saw the serious expression hanging on Huang Yu’s face, he quickly restrained his emotions. “Why Dugu Yuanshan?”

From Huang Yu, Shang Xia already learned the names of the Martial Void Realm experts of the Spirit Abundance World who were invading them. Dugu Yuanshan was from the Solitary Peak Heavenly Lake, and his cultivation was a cut above those who came!

Huang Yu muttered in a low voice, “If we manage to kill Dugu Yuanshan, the Solitary Peak Heavenly Lake won’t be able to maintain their power in the Spirit Abundance World and chaos will definitely break out!”

Obviously, a single sentence was far from enough to convince Shang Xia to do anything. He remained silent as he waited for Huang Yu to continue.

Pausing for some time, Huang Yu seemed to be sorting out all the information he had before he spoke again. “The Solitary Peak Heavenly Lake is ranked 8th out of the 9 great powers of the Spirit Abundance World. Dugu Yuanshan’s identity might be able to rock the Spirit Abundance World, but he’s the only Martial Void Realm expert in his faction. If he dies during the invasion of the Azure Ascension World, there will definitely be internal strife in the Solitary Peak Heavenly Lake. A massive storm might even sweep across the Spirit Abundance World! When that happens, they won’t be able to care about anything else and we will get a chance to catch a break.”

Shang Xia suddenly thought back to Dugu Gaolou he killed earlier. Not only was Dugu Gaolou from the Solitary Peak Heavenly Lake, but he was also Dugu Yuanshan’s direct descendant who was nurtured by the Martial Void Realm Ancestor!

With Dugu Gaolou already dying in the Azure Ascension World, Dugu Yuanshan lost his heir. The upcoming battle for authority in the Solitary Peak Heavenly Lake could be imagined.

For Huang Yu to tell Shang Xia to convey the message to Kou Chongxue about targeting Dugu Yuanshan... It was hard to imagine it wasn’t all part of Huang Yu’s plan.

Seeing the changing expressions on Shang Xia’s face, Huang Yu was more than capable of guessing his thoughts. A bitter smile appeared on his face. “The line separating success and failure is thin.

Sometimes, all you have to do is try. Moreover, Dugu Yuanshan has already reached the third tier of the Martial Void Realm. It's not going to be easy to kill him."

Shang Xia nodded slightly. "Alright. I'll hand matters in the city over to you then."

God knew how many Martial Dipper Realm experts of the Spirit Abundance World entered the Azure Ascension World at that point. The various powers had already recalled their strength to the very core region of their territories while giving up on everything else.

The Tongyou Institution was no different. Everyone they had been nurturing in the past few years had already been recalled into the Tongyou City. The islands to the east of the You Continent and a new city that established itself in the north of the continent had been forsaken a long time ago.

There was a single goal among the various factions of the Azure Ascension World with things at its current stage. It was to use their full strength to hasten the transformation of the Azure Ascension World into a Spirit World!

The moment the transformation was complete, the suppression of the world on experts of other worlds would increase greatly. When that happened, the invasion was bound to end in failure. That was the only way to ensure the Azure Ascension World could reduce their loss!

...

By the time Shang Xia returned to the Beyond Heavens Pavilion, he was shocked by the state of things. He might have prepared himself, but seeing it for himself was a different matter altogether.

The heavenly screen of the Azure Ascension World was basically a sieve at that point.

Every single faction was concentrating their strength to the core region of the Beyond Heavens Pavilion above their continent. They were protecting their Holy Lands and Elysiums with everything they had, especially the weakness of the world that was covered up by their respective powers that were connected to the World Origin Source.

There were also experts of the Spirit Abundance World leaving on their own accord from time to time.

As soon as Shang Xia arrived earlier, his Fate Dipper Clone turned into a streak of light that returned.

His recovery speed was quick to begin with, and with the return of his clone, Shang Xia's aura grew to a terrifying level. Whatever it was, he already refined 80 fate dipper essences. His aura might not be comparable to Kou Chongxue at his peak, but it was more than enough to suppress everyone in the area to the point they found it hard to breathe.

The experts of the institution weren't the only ones who felt his presence. Experts from the Spirit Abundance World 1000 miles around Shang Xia felt their expressions sinking. They took the initiative to avoid the Beyond Heavens Pavilion above the You Continent and those who were closer fled immediately.

As world origin poured into his body, Shang Xia's Five Element Dipper Qi recovered rapidly. His aura also seemed to fall under his control.

Meeting the deputy patriarchs, Shang Xia gave them a quick rundown of what he did with Huang Yu. When he was done, he muttered, "From how this is looking, unless our world completes its ascension, everything inside is going to shit! The continents are going to be destroyed!"

The destructive abilities of an expert at the Martial Dipper Realm were insane. Moreover, the experts sent by the Spirit Abundance World had cultivation realms in the third element of the Martial Dipper Realm!

Naturally, that wasn't what the deputy patriarchs cared about at that moment. After hearing that the city was perfectly alright, and how Shang Xia worked with Huang Yu to slay 2 Martial Dipper Realm experts of the Spirit Abundance World while chasing another from the Rainbow Pagoda away, it was clear they felt a lot more relieved.

Finally, Ji Wenlong processed what he said. "Heh, there's no need to wait till the world completes its ascension. Everything has already been turned upside down!"

Seeing the look of shock on Shang Xia's face, Shang Bo sighed, "We have already received news that the entrance of the Zhenyang Gate of the Xu Continent has been broken. Their core disciples, along with a Martial Dipper Realm expert, have retreated into their Holy Land and they even shattered the entrance as a last-ditch effort to stay alive. They are trapped in there now. The Desert Gate in the northwestern direction of our You Continent has been wiped off the map... Basically, everyone was killed..."

The Zhenyang Gate and the Desert Gate were powerful factions who possessed Holy Lands!

Shang Xia couldn't help but gasp at the news. "How... How is that possible? Has the treasure concealing the secret region hiding the Holy Land of the Zhenyang Gate been found? Did the Northern Sea Mystic Sect not help the Desert Gate?"

Yun Jing shook her head and mumbled, "The situation is still unclear at the moment, but the Zhenyang Gate's Holy Land remains intact. It seems as though their treasure hasn't been found. As for the Desert Gate... It's over for them. How can the Northern Sea Mystic Sect send anyone to help others at the moment? They're suppressed by 2 Martial Void Realm experts at the moment and even if they had additional strength, they wouldn't send their experts away to help others..."

A cry of pain seemed to come from the Azure Ascension World as soon as Yun Jing was done speaking. Shang Xia felt as though he lost something important as heartache started to set in.

He was no stranger to the feeling. Back in the Azure Flame World, there were several instances he felt the same thing when the World's Will was crying out in pain.

Back then, the Azure Flame World had nothing to do with him and he was the person causing the grief and loss. Now, he was feeling the cries of his Azure Ascension World for the first time.

That wasn't all. Shang Xia could clearly feel the World Origin Source churning about chaotically when the wail was released. The transformation process of the Azure Ascension World seemed to slow down.

Of course, it wasn't as though it stopped completely. The transformation process was still ongoing.

Yun Jing sighed suddenly, "They most likely destroyed the Zhenyang Gate's Holy Land..."

A look of shock appeared on Shang Xia's face. "Did the same thing happen when the Desert Gate was destroyed?! Why didn't we feel anything?"

Ji Wenlong and the others turned to look at Shang Xia with a trace of shock before turning to look in the direction of the Desert Gate. There had to be something strange about the Desert Gate if that was the case!

Shang Bo eventually sighed, "It's unfortunate, but we can't do anything about it. We can only protect the You Continent to the best of our abilities. I'm afraid we will only be able to get to the bottom of the matter once everything comes to an end..."

Shang Xia nodded slightly. He then turned to Yun Jing and declared, "Now that I'm here, it's time for you to prepare to break through to the Martial Dipper Realm!"

A massive Nine Story Pagoda in the southeast trembled violently as one of the floors collapsed just as Shang Xia was done speaking.

With his expression sinking, Shang Xia realized what had happened. That was where the Divine Capital Sect was situated, at the Nine Story Pagoda was the treasure holding their Elysium up! With a portion of it destroyed, the Divine Capital Elysium was bound to suffer some damage!

Chapter 902: Sudden Change

Under the suppression of 5 Martial Void Realm experts, the heavenly screen of the Azure Ascension World was forced to retract closer and closer to the world.

If anyone in the Azure Ascension World were to stare into the heavens at that very moment, they would feel that the sky was being pushed down into the earth. Even ordinary mortals felt a sense of pressure like never before, as though the world was ending.

There wasn't a need to mention the multiple tears in the heavenly screen at that point. Experts from the Spirit Abundance World were entering the Azure Ascension World as they left streaks of light in their wake like shooting stars. They descended in different locations on the various continents, and some of them might directly start destroying smaller powers. Spiritual lands, Mysterious Worlds, and secret regions of those smaller powers were destroyed one by one. World origin fluctuated violently and leaked out into the world, disrupting the ascension process slightly. They also plundered all the resources they could find while trying to prevent the transformation of the Azure Ascension Word.

Obviously, the mortals in the world weren't the only ones who could feel the change. Above the heavenly screen, the Nine Story Pagoda of the Divine Capital Elysium suffered great damage and one entire floor was blown apart. Despair started to fill the hearts of the experts from the Azure Ascension World.

Was the Martial Void Realm expert from the Divine Capital Sect no longer able to hold on?

One had to know that due to the support from the world, the Martial Void Realm experts of the Azure Ascension World surpassed experts of the same level. That wasn't all. Not only did they have the support from the world, but they could also draw on the power of their Elysium.

Since the Divine Capital Elysium suffered great damage, it might not completely lose its ability to support Li Jidao, but there was no doubt his combat strength would be affected.

What was more, since the other party could damage the Nine Story Pagoda, now that Li Jidao's combat abilities were reduced, they would definitely be able to do it again!

The situation was just getting from bad to worse!

If the destruction of the Desert Gate and Zhenyang Gate affected the ascension of the Azure Ascension World, the moment the Divine Capital Sect fell, it wouldn't be slightly affected any longer. The entire ascension process would fail!

The Divine Capital Sect might have stabilized the situation as soon as one of the stories collapsed, but as the battle progressed, Li Jidao's battle against Zhao Wuhen of the Azure Island was tilting towards one side. No one knew how long he would be able to hold out for.

In a short amount of time after the destruction of one of the floors on the Divine Capital Pagoda, the morale of the experts from the Azure Ascension World took a huge hit. It was as though they were waiting for their fates to be sealed.

Finally, Zhang Xuansheng's hoarse voice which was laced with exhaustion rang through the air. It accurately entered the ears of everyone present. "Kou Chongxue, with the Zhenyang Holy Land destroyed, why the hell aren't you starting the sacrifice?! What the hell are you waiting for?! Are you planning to wait for our world to be invaded?!"

The voice shocked everyone who was fighting, and the despair that filled their hearts was thrown to the back of their minds.

"Sacrifice?! What does that mean? Are they going to do something with the Zhenyang Holy Land?"

"Is he talking about a Blood Sacrifice?! Is there really such a thing?!"

"Doesn't that mean that the Zhenyang Gate is finished?"

"If it means we can complete the ascension process..."

None of them were fools. The high-level experts above the heavenly screen deduced many things from a single statement made by Zhang Xuansheng.

Shang Xia turned to the deputy patriarchs and they saw each other's reactions. It was as though they understood why the destruction of a Holy Land didn't affect the growth of the world earlier. Could it have already been sacrificed before they were destroyed?

From what Shang Xia and the rest understood, the sacrifice probably meant that the entire Holy Land would be fused back into the World Origin Source to hasten the transformation process. After all, returning the power of a Holy Land back to the world was bound to greatly increase the energy that was stored. Moreover, the act of doing something like that would allow one to gain the favor of the World's Will and receive a huge blessing.

That might also explain how Zhang Xuansheng entered the second tier of the Martial Void Realm at such a crucial moment. He was even able to fight 2 enemies at once! Facing Ancestor Chong Xu of the Floating Emptiness Mountain and Jiang Guannan of the Heaven Embroidery Palace, he was still able to hold on.

Back when the battle first started, no one was actually worried for Li Jidao and Yang Taihe as they were facing enemies close to the same level. Instead, everyone was worried about Zhang Xuansheng and Liu Jingsheng as they were facing extremely overpowered matchups.

Liu Jingsheng hadn't entered the Martial Void Realm for long, but he had to fight Dugu Yuanshan who was a third tier Martial Void Realm expert. As for Zhang Xuansheng, there was no need to explain further as he was facing 2 enemies at once.

No one would have thought that the person who would drop the ball at the most important moment would be Li Jidao of the Divine Capital Sect!

"Kou Chognxue, can you see what's important here?! Is maintaining the hope of the Zhenyang Gate and Desert Gate more important, or world ascension?! You can't be soft-hearted now!" Zhang Xuansheng yelled.

The entrance of the Zhenyang Gate might have been invaded, but that didn't mean that they completely gave up on their defense.

Actually, the experts of the Zhenyang Gate who weren't hiding in their Holy Land were still fighting valiantly above the heavenly screen.

Despite their efforts, Zhang Xuansheng still seemed adamant about sacrificing the Zhenyang Gate. It was clear that everyone had given up on the Zhenyang Gate as Zhang Xuansheng didn't bother hiding their plan from the lucky survivors.

Nothing much happened above the Jiao Continent as Kou Chongxue was still assisting Liu Jingsheng in his fight against Dugu Yuanshan.

It wasn't that Kou Chongxue was intentionally ignoring Zhang Xuansheng or being soft-hearted. It was because not too long ago, Dugu Yuanshan, who still seemed afraid he wouldn't be able to get his hands on the Starry Tree, seemed to transform into a whole new person. Everything around him changed and he turned strangely serious about the battle.

He might still seem uninterested in the battle, but he was still a third tier Martial Void Realm expert. Be it Liu Jingsheng or Kou Chongxue, both of them understood that Dugu Yuanshan seemed to be trying to confirm something when the situation changed. As time passed, Dugu Yuanshan got rid of his laid-back attitude as the aura around him started to climb. It was as though he was a volcano ready to erupt at any moment.

Under such circumstances, it didn't matter if it was Liu Jingsheng or Kou Chongxue. They understood that something definitely affected the Martial Void Realm expert in front of them. Moreover, it was probably something that really pissed him off. Both of them started to feel a sense of dread in their hearts.

Finally unleashing his full power because of what happened, Dugu Yuanshan no longer seemed to care about the Starry Tree in the Star Observatory. With the increase in intensity, Liu Jingsheng and Kou Chongxue were forced to their limits to take on the terrifying existence at the third tier of the Martial Void Realm.

If Kou Chongxue left, Liu Jingsheng wouldn't be the only one who would suffer. Dugu Yuanshan would most likely kill the new Martial Void Realm expert while crushing the entire Jiao Continent. Half the heavenly screen above the Azure Ascension World would be torn apart and the World

Origin Source might also be shattered. The transformation process would instantly fail if that happened. Kou Chongxue didn't dare to try anything, and Liu Jingsheng didn't dare to let him leave!

“He's dead! Sigh... My successor, whom I spent so much effort on, is dead! Since he's dead, fuck this Starry Tree! It serves no purpose to me any longer! All of you can join my grandson in the afterlife!” Dugu Yuanshan's anger reached its peak. The gloomy light around him started to expand as a dark mountain peak made its appearance. The moment it appeared, it covered the space above the Jiao Continent!

Divine weapon! The mountain peak that was covered in dark light was most definitely a divine weapon!

Liu Jingsheng and Kou Chongxue were sure of one thing. If they didn't stop the giant mountain, the moment it broke through the heavenly screen, the Jiao Continent was finished!

The strength of an expert at the third tier Martial Void Realm was on full display at the moment. Liu Jingsheng and Kou Chongxue couldn't do anything as they were forced back by the semi-crazed Dugu Yuanshan.

...

After calling out twice, Zhang Xuansheng didn't receive a reply from Kou Chongxue and he growled to himself, “He's far too lacking...”

The next moment, he felt the change above the Jiao Continent and he realized that Kou Chongxue wasn't ignoring him on purpose. He knew he couldn't blame Kou Chongxue as he continued to resist the joint attacks of Chong Xu and Jiang Guannan.

When everyone was waiting for the outcome in suspense, a powerful energy fluctuation came from the Beyond Heavens Pavilion above the Xu Continent. Boundless world origin started to pour out in all directions before disappearing suddenly.

The Zhenyang Gate was finished!

That was the thought that appeared in everyone's mind.

However, they couldn't help but wonder where the astronomical amount of world origin went!

The sudden disappearance was as though it was swallowed whole. Could it be...

The thought flashed in their minds when every expert from the Azure Ascension World felt a powerful sensation feeling their body.

In that instant, the transformation process that had been slowing down not only returned to normal, but also increased greatly.

That wasn't all. The level of the Divine Capital Pagoda that collapsed earlier started to recover with the sudden infusion of a large amount of world origin. Even though it didn't physically recover and it was only replaced by a phantom image, Li Jidao's strength was slowly returning to its peak.

“What just happened?!”

Shang Bo and Ji Wenlong might have their guesses, but they understood that their understanding of the situation wouldn't be better than Shang Xia. As such, they were waiting for his explanation.

In a low voice, Shang Xia started talking. "The members of the Divine Capital Sect sacrificed the Zhenyang Holy Land to the World Origin Source."

"Who... Who did it?!" Ji Wenlong followed up.

Despite the ugly expression on his face, Shang Xia still replied, "Jiu Du... He made the sacrifice."

Complicated emotions appeared on both Shang Bo and Ji Wenlong's faces. However, they eventually heaved a sigh of relief. As long as Kou Chongxue wasn't the one who did it...

Jiu Du could be said to be the strongest expert in the Divine Capital Sect second only to Li Jidao. He brought several Martial Dipper Realm experts over to the Zhenyang Holy Land and launched a surprise attack and trapped the experts of the Spirit Abundance World who managed to find their way into the Zhenyang Holy Land. After that, he used some secret method to sacrifice the entire Holy Land, along with the experts of the Zhenyang Gate who were putting up their last fight and many Martial Dipper Realm experts of the Spirit Abundance World who were also trapped there.

Chapter 903: Changes to the World, Spirit World!

The Martial Void Realm experts of the Divine Capital Sect and the Eternal Palace drew on the power of their Elysium in order to fight back against Zhao Wuhen, the Second Island Master of the Azure Island, and Deputy Villa Master Lu Pingyuan of the Heaven and Earth Villa.

Above the heavenly screen of the Yong Continent, there were no other experts other than the 4 of them.

With their foundations as Elysiums, they had many Martial Dipper Realm experts and many more Martial Extermination Realm cultivators. Naturally, they couldn't just hide in their Elysiums to watch the battle. All of them were sent to the Beyond Heavens Pavilion of the surrounding continents to help other factions resist the invaders.

If the 2 Elysiums hadn't gone all out and sent their experts, the Shu, Liang, Bing, and even the Qing Continents would probably have been flattened by the enemies!

With the Divine Capital Pagoda damaged and Kou Chongxue not responding, Jiu Du, who was fighting above the Qing Continent gathered 2 Martial Dipper Realm experts from the Divine Capital Sect and another expert who wanted to get on their good books to rush towards the Xu Continent. Along the way, they ran into the patriarch of the Beihai Institution and brought him over as well. The 5 of them quickly arrived at the Beyond Heavens Pavilion above the Xu Continent.

With an excuse that they were there to provide assistance, they got the experts of the Zhenyang Gate to back away from the entrance of the Holy Land. Once that happened, Jiu Du initiated the sacrifice and sealed everyone into the Holy Land. Even the experts of the Spirit Abundance World who were currently attacking them weren't spared.

Jiu Du might not be as strong as Kou Chongxue, but he was still a peak-tier expert of the Azure Ascension World. Ever since his return from the Azure Flame World, he strengthened his foundations after tempering himself through the experience. He grew much stronger than before.

Jiu Du might not be able to do what Kou Chongxue was able to and take part in the battle between Martial Void Realm experts, but he had 4 other experts by his side!

In order to close the distance between himself and Kou Chongxue and gain the qualifications to help Li Jidao, he had no choice!

With the Divine Capital Pagoda damaged and Li Jidao in danger, they couldn't sit by idly and watch as their ancestor fell!

In order to protect the Divine Capital Sect, there was no need to mention sacrificing the Zhenyang Gate. Even if he had to sacrifice several more Holy Lands, Jiu Du wouldn't show a shred of hesitation.

The Zhenyang Gate might have been swallowed by the World Origin Source, but the resulting destruction destroyed nearly half the continent. Despite the chaos, Jiu Du and the others felt that it was good enough to prevent the experts of the Spirit Abundance World from entering the Xu Continent.

Whatever it was, the actions of Jiu Du and the others didn't just benefit the Divine Capital Sect! Li Jidao regained a portion of his battle abilities and would be able to fight for more time for the successful transformation of the Azure Ascension World!

Before the experts of the Azure Ascension World could heave a sigh of relief, a massive mountain that was emitting gloomy light appeared above the heavenly screen. It tore apart the heavenly screen above the Jiao Continent as Liu Jingsheng and Kou Chongxue were trapped under it. They couldn't do anything even if they tried.

The Star Observatory that Liu Jingsheng had been protecting since the battle started was completely ruined as it slammed into the Jiao Continent and turned into a bunch of scraps.

The Jiao Continent was crumbling as the land split apart. Massive craters were formed and some drifted away into the sea. Islands of varying sizes were formed. Massive valleys were filled with lava that spewed out from the earth or water that rushed in from all directions.

Despite the bad shape the Jiao Continent was in, everyone knew that the worst had yet to come.

The moment the massive mountain actually slammed into the ground below, it would be over for the Jiao Continent. Not only would Liu Jingsheng and Kou Chongxue receive heavy injuries, but the Jiao Continent would cease to exist!

"What do we do now?!" Ji Wenlong and Shang Bo turned to Shang Xia in unison.

With Kou Chongxue absent to take charge of the situation, Shang Xia, who was a junior in the institution, seemed to turn into their backbone for courage and support.

"The only way to turn the situation around is for our world to complete its ascension." Shang Xia muttered. Shang Xia understood Kou Chongxue's true intention. He spoke with unprecedented seriousness. "Other than the Tongyou Paradise... We can give up every single spiritual land or Mysterious World that exists in the You Continent!"

"Are you saying... To sacrifice them all to the World Origin Source?!" Shang Bo gasped.

Shang Xia nodded. “That’s not all. If it’s possible, I suggest that we give it everything we have. All we need to do is to maintain the survival of our Holy Land while sacrificing everything!”

Even though Kou Chongxue informed everyone to provide world origin to hasten the ascension of the world, there might be some who were still holding back despite knowing the implications.

The spiritual lands, Mysterious Worlds, Holy Lands, and Elysiums were the product of hundreds of years of accumulations of the various powers. They would be extremely careful in how they handled it.

Ji Wenlong quickly added, “It’s not impossible for us to do so, but the foundations of our Tongyou Institution has been shallow to begin with. Even if we gave it everything we had, it might not be good enough to cause a ripple! Moreover, won’t the others benefit from this if we give up everything we had and they won’t have to do a thing?”

That was what many people thought... No. It was most likely what everyone was thinking. After all, it was human nature to try to reduce their losses at others’ expense.

Shang Xia didn’t seem too concerned about it at all. He muttered, “The transformation of our Azure Ascension World is directly related to Patriarch Kou’s chance to step into the Martial Void Realm. The faster it completes its transformation, the sooner Patriarch Kou will be able to break through!”

He quickly explained Kou Chongxue’s plan of attacking the Azure Flame World and told them about how the patriarch had already comprehended his martial intent to reach the grand completion stage of the Martial Dipper Realm.

At the moment, only Ji Wenlong and Shang Bo were with him. After Shang Xia returned to the Beyond Heavens Pavilion earlier, Yun Jing listened to him and made preparations to enter the Martial Dipper Realm.

She chose to advance the same way Ji Wenlong did. Relying on the Tongyou Paradise, she would step into the Martial Dipper Realm. She knew that her talents were limited and even though she had been in the Martial Extermination Realm for a long time, she received help from the others in order to reach her current level. She never had the courage or confidence to step into the Martial Dipper Realm.

Shang Bo and Ji Wenlong naturally had their guesses about Kou Chongxue’s intentions when they found out he had gone to another world. Now that they were hearing it from Shang Xia, they were able to confirm their guesses. Naturally, hearing it for themselves still shocked them despite already preparing for it.

After some time, Ji Wenlong seemed to have thought of something. “Wait! He’s already trying to break through?! How long has it been since our Tongyou Institution created our Holy Land? I’m afraid we don’t have enough to complete the transformation into an Elysium...”

“Patriarch Kou is unwilling to borrow the power of an Elysium to enter the Martial Void Realm. He’s planning to rely on himself... Oh yeah, the Sixth Order of the Primary Realm is called the ‘Martial Void Realm’ by the experts of the Spirit Abundance World...” Shang Xia interrupted him before he could finish.

Shang Bo stared at Ji Wenlong and Ji Wenlong did the same. They looked at each other and seemed to see the dilemma in each other’s eyes. It was hard for them to imagine Kou Chognxue breaking

through to the Martial Void Realm without the support of an Elysium! They could only believe that he had his own plans.

Actually, Kou Chongxue didn't tell Shang Xia too much about how he was going to advance. Shang Xia didn't ask too much about it either.

Shang Bo eventually sighed. "Since that's the case, let's just give it all up. Those experts will go about destroying everything if they fail to attack our Tongyou Paradise anyway. Let's just sacrifice them all and not leave anything to the outsiders."

The You Continent might have expanded greatly in recent years, but Mysterious Worlds were still a little difficult to create. Fortunately, they already established many spiritual lands and most of them were in the northern part of the continent where the Battlefield Between the Two Worlds once stood and the eastern region where the landmasses of the Manyu Continent were located. They also had several spiritual lands that had been established close to the Thousand Leaf Mountain Range some time ago.

With a single order,, the Formation Masters who were stationed in those regions started to detonate them without restraint. Heaven and earth qi, along with world origin, returned to the World Origin Source. Even though the quantity was far from sacrificing the Zhenyang Holy Land, it managed to bring about a large commotion.

At the very least, the experts who were fighting above the heavenly screen could feel the joy from the World's Will.

"With the invasion of the bastards of the Spirit Abundance World, we can't protect the spiritual lands and Mysterious Worlds! Might as well sacrifice them!" Shang Xia took a deep breath before yelling at the top of his lungs. His voice reverberated through the Beyond Heavens Pavilion above the various continents.

The first to respond wasn't actually the great powers of the Azure Ascension World. Instead, the spiritual lands and Mysterious Worlds of the Xu and Qing Continents self-destructed. World origin poured back into the World Origin Source.

With the Zhenyang Gate sacrificed, Jiu Du and the others left to save the other continents. The spiritual lands and Mysterious Worlds of the 2 continents that hadn't been targeted by the experts of the Spirit Abundance World quickly returned the world origin to the Azure Ascension World.

The World's Will seemed to be celebrating as it was getting more and more agitated with the infusion of world origin.

Seemingly responding to Shang Xia's cry, and perhaps being pushed by the success of the actions of those from the 2 continents, the Mo Continent that used to house the Desert Gate also answered the call to arms. The various spiritual lands and Mysterious World crumbled as they returned all the world origin they contained to the Azure Ascension World. Following which, the Bai Continent which used to be from the Azure Spiritual World, the Bing, Suo, and Jiao Continents followed.

During the process, there were also smaller powers that sacrificed their spiritual lands and Mysterious Worlds. However, they were clearly less impactful than the powers in the larger continents.

“From the original Azure Origin World, other than the You, Shu, and Xu Continents... From the Azure Spiritual World, the Bai, Suo, and Mo Continents... Of us are remote continents... Looks like this isn’t a coincidence!” Shang Xia thought to himself. He didn’t know who brought it up back then, but he recalled that the Yuanchen Sect was only able to succeed in the transformation of the Xiangyang Holy Land because they stole the spirituality of the Jiao Continent!

Would that mean that the remote continents, including the You Continent, were related to the rise of the other 3 Elysiums?

A cry of joy that could only be heard by cultivators of the Azure Ascension World rang in their minds all of a sudden, and Shang Xia felt a refreshing feeling washing over him.

Even cultivators who just stepped into the martial path would have noticed the change. It was something only cultivators from the Azure Ascension World could feel. The very instant the cry of joy rang in their minds, the transformation was complete!

Chapter 904: Blessing from the World, Ascension!

The Azure Ascension World had completed its transformation!

With the various powers sacrificing their land for the ascension, the process was greatly hastened.

In the next moment, Shang Xia felt the world around him growing a lot more spacious and the feeling of oppression in his heart was greatly reduced.

The connection between the World’s Will and every existence born in the Azure Ascension World was strengthened, and everyone could feel the joy the World’s Will was feeling after the transformation process was complete.

As someone who had reached the limits of cultivation in the Azure Ascension World, Shang Xia might not feel the restraint and suppression of the world too obviously when cultivating, but whenever he tried, he would feel a sense of constraint as though he was trapped in a tiny room. If he wasn’t careful, he was afraid he would damage the fabric of space around him.

There were many times when he would rather head out to the Beyond Heavens Pavilion or hide in the Tongyou Paradise in order to avoid the feeling of constraint.

He wasn’t the only one who felt that way. Many experts in the Martial Dipper Realm had the same feeling.

After all, the Martial Dipper Realm was the limit of whatever the Azure Ascension World could take!

If they had to talk about experts in the Martial Void Realm like Liu Jingsheng and the rest, they would be unable to leave their Elysiums the moment they broke through! The only way they could appear in the outside world was if they appeared in the Beyond Heavens Pavilion or space around the Azure Ascension World.

Their situation was comparable to the Martial Dipper Realm experts who broke through with the help of their Holy Lands. Even if they left their Elysiums for the sea of stars, they wouldn’t be able to go too far as they were still shackled to their Elysiums.

...

The moment the Azure Ascension World completed its transformation process, Shang Xia felt the tiny cramped room he was in growing in size. Not only did it become a lot wider, the feeling of oppression was no longer there! He could do whatever he wanted, no longer bound by the limits of his cultivation!

After the transformations, experts like Shang Xia who were in the Martial Dipper Realm felt a lot smaller than before. The world gained the qualifications to house even stronger experts!

In other words, from that moment on, the Martial Void Realm experts who were only able to venture out from the Beyond Heavens Pavilion would finally be able to experience stepping into their own world for a change!

Of course, that wasn't everything the transformation brought about.

The ascension of the world naturally affected the lives and fate of every living creature bred from it. The moment the transformation was complete, a new Spirit World was starting to form! The most direct impact was the World Will's blessing given to the experts who helped the ascension process.

The greater their contributions, the greater the blessing they received!

In the Tongyou Paradise, Yun Jing, who had been adjusting her condition quietly to prepare for her ascension, suddenly felt as though she could see through the world around her as a moment of unprecedented clarity filled her mind. Gathering her inner qi, she reached a state like never before. Her instincts told her that if she failed to make use of the chance to break through, she would never be able to get a better opportunity!

She had always been a decisive person. She immediately swallowed the advancement medicine that had been developed and improved by Kou Chongxue, Ji Wenlong, and Shang Bo.

Among the great powers of the Azure Ascension World, anyone who had the qualifications to break through to the Martial Dipper Realm had already started making preparations a long time ago. Using the opportunity of world ascension, they took the chance and made their attempt.

Without a doubt, most of those experts came from the large factions of the Azure Ascension World. After all, only those great powers still had the ability to resist the invasion of those from the Spirit Abundance World to buy enough time for their Martial Extermination Realm experts to break through.

If they managed to resist the invasion and continue to live on as a Spirit World, god knew how many more experts would be able to advance.

...

Over at the Tongyou Institution, many experts were also waiting for the chance to advance. However, most of them were trying to enter the Martial Intent or Martial Extermination Realm. Other than Yun Jing, there were no other attempts to enter the Martial Dipper Realm. Sun Haiwei, who comprehended her martial intent and reached the grand completion stage of the Martial Extermination Realm back at the Azure Flame World, had to consolidate her foundations due to her rapid increase in strength.

Yun Jing's advancement had been planned for some time, and it wasn't anything surprising at all. However, what shocked Shang Bo and Ji Wenlong was what was happening to Shang Xia who was beside them!

With their divine wills, they could tell that the aura around Shang Xia was transforming at a rapid pace. A strange phenomenon would appear along with his fluctuating aura and the power it contained started to rise.

Is he.... Is he growing even stronger/!

Shang Bo and Ji Wenlong knew that Shang Xia was refining his fate dippers simultaneously.

In the Tongyou Institution, everyone was influenced by Shang Xia's theory of the five elements and Kou Chongxue was no exception. They also knew that it was Shang Xia's primary cultivation method and greatly reduced the largest risk every Martial Dipper Realm expert would experience. The risk of fate dipper disequilibrium would be lowered to a minimum!

It's just... didn't this kid already reach a new level of cultivation since his return from the Azure Flame World?! How is he doing it again?!

From the powerful and rapid strengthening of the aura around him, they could tell that his speed of refining fate dipper essences was extremely quick. It was so fast that it was bordering on a level that shouldn't be possible!

As for how Shang Xia managed to gather the necessary fate dipper essences... Shang Bo and Ji Wenlong didn't doubt that he had been able to obtain them in the first place.

After all, god knows how many experts died to Shang Xia and Kou Chongxue in the Azure Flame World. Back in the Sword Valley, there were also 2 experts of extraordinary background from the Spirit Abundance World who were killed by Shang Xia. Obtaining fate dipper essences should be a piece of cake for him.

What they didn't know was that during the transformation process, Shang Xia managed to pop the final bottleneck of his Five Elements Art with the blessing of the World's Will. After all, he was a great contributor to the world ascension and the blessing he received was extremely substantial. With the assistance of the World's Will, he was able to push his Five Element Arts into a near-perfect state.

With its improvement, Shang Xia no longer had to care about the elemental properties of the fate dipper essences he was refining. He could transform them at will after refining any type of fate dipper essence, and it greatly lowered his difficulty of cultivation!

In other words, Shang Xia no longer needed to care about the type of fate dipper essence he was refining! As long as he had enough of them, there would be no stopping his rise!

Using the assistance of the World's Will blessing, Shang Xia completed the refinement of his ninth set of fate dipper essences at a speed that left everyone dumbstruck.

With that, he would only need to refine the last set of fate dipper essences before reaching the large completion stage of the Martial Dipper Realm!

Before Shang Xia could familiarize himself with his increased strength and restrain his aura, the Azure Ascension World was truly turning into a Spirit World.

If Shang Xia could take a look at the world that very instant, he would see that everything would be growing bigger and taller!

The ocean expanded greatly, and the water level started to fall. Large swathes of land were revealed and new continents were revealed.

However, the transformation of the world seemed far from complete. In fact, the process was too damn slow!

...

The area 100,000 miles around the Azure Ascension World was split into several special regions. Of them, one contained a massive meteorite belt, and another was filled with cosmic dust. The last was filled with historical remains that remained unidentified. There was also the region of sealed space 30,000 miles from the Beyond Heavens Pavilion where the first battle against the Spirit Abundance World took place.

Along with the transformation of the Azure Ascension World, the first of those regions to move was the sealed space. It started to shift as it fused back into the Azure Ascension World.

Cosmic dust in the surroundings of the Azure Ascension World was also affected by the rapidly expanding world and they eventually transformed into a giant nebula [1] that rushed at the Beyond Heavens Pavilion where it was quickly swallowed.

Amidst the falling nebula, the region that contained the historical remains started to crumble. Debris fell towards the Azure Ascension World and passed through the Beyond Heavens Pavilion to crash into the ground and oceans below.

That wasn't all. The meteorite belt that Shang Xia and the rest patrolled back then also became attracted to the Azure Ascension World. Meteors of different sizes fell through the Beyond Heavens Pavilion and produced an endless meteor shower. A good portion of it landed on the desolate regions of the world, but there were also some that smashed into the continents and brought about great calamities.

When the special regions 100,000 miles around the Azure Ascension World were cleared out and swallowed, the landmass of the Azure Ascension World had reached a terrifying level.

Many islands appeared in the great ocean and new continents were produced.

Amidst the chaos, the Azure Ascension World was finally turning into a Spirit World!

Other than the core regions of the various factions that were protected by their experts and their grand formations, a scene of destruction could be seen everywhere. The experts from the Spirit Abundance World who had infiltrated the Azure Ascension World couldn't help but stop whatever they were doing. Even those who were above the heavenly screen had to retreat when faced with the falling meteors, debris, and nebula. If they were struck, they would suffer some injuries even at their level.

Of course, they weren't the only ones affected by the change. The experts of the Azure Ascension World were also facing huge pressure from what was happening, but it was still much better than fighting the experts of the Spirit Abundance World! At least they managed to catch a breather.

The only ones who weren't affected were the Martial Void Realm existences who were still fighting.

No... Something isn't right!

Along with the successful transformation of the world, the Martial Void Realm experts and Kou Chongxue received another boost in strength.

All of them had been able to fight on the same level as their opponents with the assistance of the World's Will when the invasion just started. Now that they received yet another boost, the situation was finally taking a turn for the better!

The most obvious sign of that would be the giant gloomy mountain that was pressing down on the Jiao Continent. No one knew when, but it was starting to be pushed back up. It seemed as though the divine weapon could no longer suppress Liu Jingsheng and Kou Chongxue!

Chapter 905: Counterattack! Kou Chongxue Breaks Through!

Without a doubt, once the Worlds Will completed its transformation, the heavenly screen started to grow stronger.

The heavenly screen that was above the Jiao Continent started to repair itself, and despite Dugu Yuanshan's divine weapon crashing down on them, Liu Jingsheng and Kou Chongxue managed to push it back with the assistance of the Worlds Will blessing.

Above the heavenly screen, Dugu Yuanshan was roaring with anger as he personally appeared on the giant mountain peak that was his divine weapon. He wanted to push it down into the world below, but Liu Jingsheng and Kou Chongxue managed to stop his attempts this time.

Due to the cover of the divine weapon, Dugu Yuanshan had yet to discover the abnormal energy fluctuations around Kou Chongxue. The aura he emitted could cause heart palpitations and it seemed to be going through a mystical transformation!

Liu Jingsheng, who was taking on most of the pressure from the divine weapon and preventing it from destroying the Jiao Continent, was watching sword qi emerge from Kou Chongxue's body as they formed some sort of cocoon around him. A complex look hung from his face.

Kou Chongxue wasn't using the support of an Elysium, and he wasn't using any sort of rank six advancement formula from the looks of it! Perhaps, he had seen some records of people entering the Martial Void Realm in the past or he had his guesses, but he would only be able to use them as reference! There was no way to fully copy what they did. In order to enter the Martial Void Realm, Kou Chongxue had to carve out a path of his own!

The road he had chosen was similar to the time he entered the Martial Dipper Realm and established the inheritance for the Tongyou Institution. Naturally, the way to advance would be a lot more difficult than entering the Martial Dipper Realm.

If entering the Martial Dipper Realm was doable with the assistance of the Worlds Will and might bring about benefits to the world itself, what Kou Chongxue was doing would be several times more important. His breakthrough will directly push the foundations of the world to the next stage where it would be able to hold experts in the Martial Void Realm without the constraints of an Elysium!

As the person who came up with and executed the plan for world ascension in the first place, Kou Chongxue was undoubtedly the greatest beneficiary of the blessing of the Worlds Will.

As the blessing of the world descended on him, the doors of the Martial Void Realm creaked open. Grabbing hold of the opportunity, Kou Chongxue stepped through the gates and world origin from all directions poured directly into his body. It was a shame the world had just undergone a transformation and didn't possess enough world origin for him to advance. Fortunately, he made his preparations a long time ago. With the Stellar Cauldron appearing beneath his feet, the world origin Shang Xia absorbed from the Azure Flame World poured out in an endless tide as it was swallowed by Kou Chongxue who resembled a black hole at the moment.

Dugu Yuanshan didn't give up on his attack as his divine weapon was pressed deeper into the world. As the giant mountain pressed down against Kou Chongxue, he was like a piece of metal being refined in a smithy. The pressure the divine weapon brought tempered him even further as turbid qi emerged from his body. All the energy that could remain in him experienced some sort of transformation and the pressure from Dugu Yuanshan's divine weapon also served to hasten the process.

Liu Jingsheng was watching the entire process clearly and he knew what was happening to Kou Chongxue.

Despite already having stepped into his current cultivation realm, he only managed to do it with the help of the Xiangyang Elysium. Looking at Kou Chongxue, he was starting to feel the constraints a lot more than before.

Envy filled his heart when he looked at Kou Chongxue. He understood that he was far inferior to Kou Chongxue when it came to the way they advanced. Even though he was superior to other experts in the same cultivation realm in a certain sense when he borrowed the power of the Xiangyang Elysium, he was shackled in place!

No matter how envious or even jealous Liu Jingsheng was feeling at the moment, all of those feelings were suppressed by his anticipation of Kou Chongxue's successful breakthrough.

He understood that in their current circumstance, only by stepping into the Martial Void Realm would Kou Chongxue be able to find a way to turn the tables.

Without holding back, Liu Jingsheng burst forth with all his might as he resisted Dugu Yuanshan's divine weapon. He was even shouldering a portion of the pressure placed on Kou Chongxue at the moment.

As time ticked by, the might and prestige of a Spirit World started to form. Along with the strengthened heavenly screen, the World's Will was also able to increase the suppression of foreign experts.

Those experts who passed through the heavenly screen back then felt their cultivation realms falling by another level. Before the transformation, experts who were in the third element of the Martial Dipper Realm would barely be able to display combat power comparable to those in the second element of the Martial Dipper Realm with the suppression and those in the fourth element would only be comparable to those in the third element.

Now that the suppression increased yet again, their strength fell even further.

At the same time, the defending experts experienced an increase in strength!

The most obvious impact of the world ascension wasn't just the suppression of the foreign experts. The heavenly screen, which was growing stronger, started to expand. With the sudden movement of the heavenly screen, it was possible for experts of the Azure Ascension World to kill the experts of the Spirit Abundance World who were caught off guard and had their strength suddenly suppressed.

The situation might have taken a turn for the better, but overall, the experts of the Azure Ascension World were still at a disadvantage.

The experts of the Spirit Abundance World might have their strength suppressed even further, but there were just too many of them! By the time the world ascension was complete, there were at least twice as many Martial Dipper Realm experts of the Spirit Abundance World than the Azure Ascension World. Also, the suppression they felt at the heavenly screen was far from what they would feel if they entered the world.

That wasn't all. The spatial tunnels were still churning out Martial Dipper Realm experts one after another.

Rumble

A sudden deep blast came from the north.

Which one is it?!

Even though many people couldn't guess what was going on, they understood that not many powers would choose to sacrifice themselves, even if they were already in an extremely desperate situation!

Even if the experts of the Spirit Abundance World managed to completely plunder a Holy Land, they wouldn't go crazy and destroy it. After all, that would only cause the world origin to return to the world.

That could only mean that someone else was behind it!

Everyone immediately thought of the same thing.

The Northern Sea Mystic Sect!

They were the only ones who had additional energy to interfere with matters related to other factions!

Moreover, Zhang Xuansheng was the person who was yelling for Kou Chongxue to sacrifice a Holy Land in the first place! As such, he became the main suspect now that a Holy Land had been sacrificed.

With the Desert Gate and Zhenyang Gate already sacrificed, how many Holy Lands were there in the Azure Ascension World?

In the Beyond Heavens Pavilion of the You Continent, the institutions counterattack started swiftly, and they were much more decisive than the other factions.

With Shang Xia completing the refinement of his ninth set of fate dipper essences, his combat strength leaped to the forefront of the Martial Dipper Realm experts of the Azure Ascension World.

Even Kou Chongxue, who comprehended his martial intent to reach the grand completion stage of the Martial Dipper Realm, might not be his match!

Well that was just the conclusion Shang Xia reached after evaluating whatever he had seen. After all, there was no way Kou Chongxue and Shang Xia would ever come to blows.

He didnt actually have to compare himself to Kou Chongxue. If he were to fight existences at the level of Lu Wuzi, Jiu Du, Yifeng, or Huang Jinghan, he was confident that he could defeat anyone in a one-on-one battle.

Possessing overwhelming strength, Shang Xia left the territory of the Tongyou Institution. He flew about the heavenly screen above the You Continent to slay any expert of the Spirit Abundance World he came across.

At that moment, he was the hunter and they were his prey!

Also, Shang Xia was confident in his abilities now that he had broken through and also had the assistance of the Worlds Will. He felt that no matter how many Martial Dipper Realm experts showed up to fight him, he would be able to escape unscathed. No matter how many of them came, they wouldnt be able to do a thing to him!

What made others even more speechless was the fact that they couldnt accurately discern Shang Xias strength! Since he hadnt refined his tenth set of fate dipper essences to enter the large completion stage of the Five Element Realm, as long as he didnt intentionally release his presences, those who could sense him would think that he was a first element Martial Dipper Realm expert!

Those who detected his presence above the heavenly screen as he was flying around would think that they had found an easy prey, but the moment they confronted him, they would realize how wrong they were! [1]

At least 4 experts of the Spirit Abundance World fell into his trap as they tried to sneak up on Shang Xia.

It went without saying that they were detected the moment they tried to approach.

The first expert who was slain was a third element Martial Dipper Realm expert. As he entered his attack range and was about to make his move, he discovered a five color light ring closing in rapidly on him. Before he could even sacrifice a Fate Dipper Clone, his soul was destroyed.

Shang Xia managed to retain 80 percent of the fate dipper essences he refined and retrieved 3 Fate Dipper Fragments as his reward for winning.

Only then did Shang Xia realize the extent of his power. He was more than capable of fully suppressing an existence at the third element of the Martial Dipper Realm!

The second expert from the Spirit Abundance World was in the fourth element of the Martial Dipper Realm. With his abilities, he was able to split off a Fate Dipper Clone to take his place in death as he tried to escape. Unfortunately, after losing a Fate Dipper Clone, Shang Xia managed to trap him in the Five Element Space and destroyed his soul with a Five Element Palm.

The last person put up the greatest fight. Realizing that his fate was sealed, he chose to destroy the fate dippers he refined. Shang Xia only salvaged a limited number of fate dipper essences from him and after searching through his belongings, he didnt find too much. Not many items caught his eye.

However, how could treasures belonging to a Martial Dipper Realm expert be useless?

At the end of the day, Shang Xia's standard was just too damn high. Even treasures that come from the Spirit Abundance World couldn't catch his eye. To him, more than 95 percent of treasures were useless.

Finally, he was ambushed again. This time there were 2 of them and he nearly fucked up.

One of them who attacked was in the third element of the Martial Dipper Realm while the other was in the fourth element. Shang Xia didn't screw up because of how strong they were. Instead, the fourth element Martial Dipper Realm expert had some special method to hide their aura and Shang Xia failed to detect their presence.

They managed to catch him off guard, but despite the sneak attack, Shang Xia heavily injured the third element Martial Dipper Realm expert in their first exchange. The hidden expert had to save his fellow companion and revealed himself.

Shocked by their sudden appearance, Shang Xia prepared to defend himself. He might not have suffered at their hands, but it was a rude awakening.

Whatever it was, the battle was still ongoing.

Fortunately, he had the Five Element Ring to protect himself. With his Five Element Dipper Qi as the foundation, the protective barrier around him was extremely powerful. It stopped the sneak attack for a moment and allowed him to react earlier.

Facing the fourth element Martial Dipper Realm expert, Shang Xia sent out another Five Element Palm. A five-colored light filled the void around him and there was no hiding for any of them. Void seemed to be frozen and escaping was proving to be difficult as Five Element Dipper Qi poured out from his body and transformed into bolts of lightning that formed a prison around the 2.

Shang Xia came up with the lightning prison after gaining inspiration from the Lightning Birds breakthrough and when he unleashed the skill at his current cultivation realm, the power it contained was simply tyrannical!

The third element Martial Dipper Realm expert who appeared first to sneak attack him and was injured in the process stared at everything that was happening with his jaws agape.

By the time he snapped back to reality, attacking Shang Xia was the least of his concerns. In fact, he threw the entire notion of fighting Shang Xia away. Helping his companion who appeared to save him wasn't on his list of things to do either as he turned around to flee!

The other expert from the Spirit Abundance World who was trapped in the lightning prison at the moment was no ordinary expert. Shang Xia had to pay a great deal of attention to suppress him and couldn't care about the one trying to escape.

Actually, he didn't think that the other expert would be so decisive when making his escape.

After killing the fourth element Martial Dipper Realm expert, he found a rank five talisman that hadn't been used. As a rank five Talisman Grandmaster, he could tell that the talisman was the reason why they managed to hide their presence from him in the first place.

When Shang Xia was still studying the talisman in his hand to learn the crafting method, a familiar aura burst forth from the Beyond Heavens Pavilion above the Jiao Continent.

Sword qi filled the space above the heavenly screen!

Outside the Azure Ascension World, anyone who was holding a sword felt it trembling in their hands. It didn't matter if it was a divine weapon, a graded weapon, or an ordinary weapon. It trembled like a leaf in wind.

Shang Xia turned to look in the direction of the Beyond Heavens Pavilion above the Jiao Continent and was surprised by the sight. The black mountain that emitted gloomy light had been flipped upside down!

Chapter 906: Scheming Against the Bing Continent!

When they were on their way back from the Azure Flame World, Kou Chongxue actually asked Shang Xia about his understanding of the Martial Void Realm.

Obviously, Shang Xia knew fuck all about the Martial Void Realm.

If it was something related to the Martial Dipper Realm, Shang Xia would be able to pull something out of his ass. After all, everyone in his previous world would know something about the Five Elements one way or another. However, if they were to talk about the Six Directions He was afraid not many people knew much about it.

Naturally, he was a part of them. He didn't even know where to start and there was no chance he could give Kou Chongxue any proper advice.

Sixth Order? Maybe it has something to do with the Six Directions North, South, East, West, the upper boundary, and the lower boundary Maybe it's something related to an entire world? Shang Xia mumbled in an uncertain tone.

An entire world? Do we have to create our own world when entering the Sixth Order of the Primary Realm? Hmm That seems to be the case when considering how the Sixth Order existences of the Elysiums broke through. After all, an Elysium is close to one Right. Your theory really came in a timely manner. It provided me with great inspiration and I have a lot more confidence when breaking through to the Sixth Order now! Kou Chongxue muttered to himself before falling into deep contemplation. The next second, his eyes lit up and he seemed to have received some sort of enlightenment. Seeing the confident look on his face, Shang Xia was utterly confused.

What did I say?!

How the hell did you miraculously become a lot more confident when breaking through?! Shouldn't you just be a little more confident even if you gained inspiration or something?!

Why the hell can't I feel as inspired and enlightened after saying what I said?!

With his eyes spinning about in confusion, Shang Xia snapped back to reality with Kou Chongxue slapping him on the shoulder before walking out of the Stellar Cauldron.

Thinking back to what happened when they just returned to the Azure Ascension World, Shang Xia couldn't help but gasp in amazement at how amazing Kou Chongxue was. With the main character glow around him, he was able to understand whatever Shang Xia said even if the person speaking had no idea what he was talking about! Shang Xia was mucking about and guessing around, but his words were like a massive sledgehammer that destroyed the obstacle standing in Kou Chongxue's path to provide him enlightenment!

Of course, it wasn't time to think about all those matters. With Kou Chongxue's successful breakthrough, the Azure Ascension World would possess their fifth Martial Void Realm expert! If they considered the sheer quantity of Martial Void Realm experts alone, the Azure Ascension World evened out the playing field!

With the support from the World's Will, Kou Chongxue's advancement gave the Azure Ascension World a huge boost as they gained another powerful expert instantly. With the successful transformation, the Spirit Abundance World's attempt at invasion basically failed.

Shang Xia was even thinking about how he should deal with the subsequent developments and how he should use the chance to kill as many Martial Dipper Realm experts from the Spirit Abundance World now that they had successfully turned the tables.

As he thought about a plan that would allow the Tongyou Institution to reap the greatest benefits, he suddenly detected powerful auras appearing in the skies not too far away. It rapidly approached the Beyond Heavens Pavilion above the You Continent.

Whos there?!

For there to be multiple auras appearing at the same time, it wasn't quite possible for them to be experts of the Spirit Abundance World. As they got closer, Shang Xia could tell that those who were approaching had varied strengths. There were a whole bunch of cultivators in the Martial Extermination Realm and realized that it was probably cultivators of another faction seeking shelter in the You Continent.

For them to come now, from that direction, could it be

A thought flashed through Shang Xia's mind and he heard a long whistle coming from the distance. A silver streak of light tore through the void and stopped accurately on his shoulder. Who else could it be other than the Lightning Bird?

Without a doubt, those who came were from the Taihang Mountains! For them to seek refuge with the Tongyou Institution they had to be from the Five Mountains Alliance! After all, the relationship between both powers was pretty good.

Shang Xia had his guesses on why they came. He turned to stare at them before locating Yin Wanxiang.

Yin Wanxiang wasn't some nameless fool. He had opportunities of his own, and he had the courage to take them. He was an amazing talent who climbed to the Martial Dipper Realm with his own abilities and he managed to unify a portion of the powers along the Taihang Mountains! He even managed to successfully refine his second fate dipper when the blessing of the world descended. Despite just breaking through, his aura was stable and he seemed to have already consolidated his cultivation. From that alone, one could see how strong his foundation was.

Beside Yin Wanxiang was actually another expert in the Martial Dipper Realm. She wasn't some random fellow either. She was Gong Xinlan, and after Shang Xia and Kou Chongxue saved her during their Spatial Transfer to the Azure Flame World, it could be said that she had chosen to stand on their side. Her cultivation recovered to the second element of the Martial Dipper Realm, and she would prove to be a valuable asset to the Tongyou Institution.

Because of the strange relationship Gong Xinlan had with the Yuanchen Sect, the Tongyou Institution didn't want to take over the grudge and create a bad relationship with an Elysium back then. After speaking to Gong Xinlan, she agreed to temporarily join the Five Mountains Alliance after returning to the Azure Ascension World and strengthen the faction to prepare for any changes that might happen.

Shang Xia's gaze didn't linger on them for long as he quickly locked onto a figure in the group. His expression changed slightly.

Yin Wanxiang, who was extremely sharp, quickly noticed that Shang Xia's expression wasn't right. He instantly connected the dots and explained, Leader Shang might be injured, but her foundations aren't damaged. She should recover after resting for some time.

Gong Xinlan also nodded at Shang Xia after hearing what he said.

When she agreed to enter the Five Mountains Alliance for the time being, Shang Xia requested for her to take care of Shang Pei.

It was just that the battle above the heavenly screen was too intense and with Gong Xinlan's abilities, she couldn't ensure that no accidents would happen. She was also helpless when Shang Pei was injured.

Hearing that Shang Pei's foundations weren't damaged, Shang Xia heaved a sigh of relief and cupped his fists towards Yin Wanxiang and the others before asking them for the reason they came.

The members of the Five Mountains Alliance looked to be in really bad shape. There were many of them who suffered heavy injuries, and Shang Pei even fainted after suffering heavy injuries.

Despite their sorry figures, Shang Xia could tell that Yin Wanxiang and the others maintained some sort of combat capability. At the very least, they had Yin Wanxiang, Gong Xinlan, and the Lightning Bird to hold the line in case anything happened.

Unless they ran into an unbeatable existence, they wouldn't have given up on the heavenly screen above the Taihang Mountains.

Then again, if they did run into an unbeatable expert, they shouldn't have been able to run away in the first place.

Facing Shang Xia's questioning, Yin Wanxiang didn't bother beating about the bush. He immediately spoke of his intentions. He went over because of matters related to the Bing Continent!

Alliance Leader, are you planning to enter the Bing Continent? Shang Xia frowned. After the fusion of our worlds, there isn't much of a need to keep many things secret. I believe Alliance Leader Yin understands that the Divine Capital Sects' influence has already taken root in the Bing Continent. Have you made preparations to go against them?

When the Azure Origin World collided with the Azure Spiritual World, the border continents suffered no small amount of damage. The You Continent suffered the most, and the Liang and Bing Continents weren't as heavily damaged. However, the situation in both continents seemed a lot worse.

After the fusion of the worlds, the Bing Continent looked as though they had everything under control with Yuwen Changqing taking charge of matters with the faction there. He also had Feng

Yezis help. With 2 Martial Dipper Realm experts, they should be doing pretty well for themselves. However, Feng Yezi and Yuwen Changqing were clowns who messed everything up. In the end, Feng Yezi was even killed by Shang Xia!

Even with Feng Yezis death and Yuwen Changqing keeping a low profile, the continents surrounding the Bing Continent remained pretty quiet. The Tongyou Institution to the east of the Bing Continent, the White Deer Paradise to the southeast, and the Desert Gate to the north didnt attempt to swallow the Bing Continent! All of them knew that the true power backing the Bing Continent up was the Divine Capital Sect and Yuwen Changqing was merely a dog of theirs.

Right after Ji Wenlong stepped into the Martial Dipper Realm, he took up a post at the border of the various continents. Was he really afraid of Yuwen Changqing?

Obviously not! The real reason he was there was to prevent the experts of the Divine Capital Sect from causing trouble!

Shang Xia heard Yin Wanxiang sucking in a long breath before speaking again. Well do it! Well take on the position as the vanguard and pioneer a path in the Bing Continent!

Even after knowing that the Bing Continent was backed by the Divine Capital Sect, Yin Wanxiang was still willing to lead the experts of the Five Mountains Alliance over to vie for power!

At the end of the day, the reason was overly obvious. It was because of the situation over at the Jiao Continent! Not only did Kou Chongxue step into the Martial Void Realm, but he also didnt use the support of an Elysium!

Even so, Shang Xia was still a little hesitant. He wondered out loud, Why though?

Kou Chongxue might have stepped into the Martial Void Realm and the Tongyou Institution basically gained the qualifications to stand on the same level as the Elysiums, but that didnt explain why the Five Mountains Alliance was willing to be used as a tool by the Tongyou Institution to open up their influence in the Bing Continent!

Forcing a smile, Yin Wanxiang explained, Theres no other reason. We need a way to move forward!

Shang Xia understood the reason behind his action. The Taihang Mountains might be massive, but the Five Mountains Alliance reached the limit of what they could do there. Yin Wanxiang was unwilling to let the Five Mountains Alliance remain stagnant in the Taihang Mountains and was thinking of a way to expand further.

There was no way he could expand their influence around the Taihang Mountains as they were surrounded by the Tongyou Institution, the White Deer Paradise, and the Divine Capital Sect. The only place he saw an opportunity to grow was the Bing Continent, which housed a mere subordinate power of the Divine Capital Sect. Yuwen Changqing wasnt the Divine Capital Sect! Even if they received backup, they wouldnt possess tyrannical strength.

Shang Xia nodded in understanding. He knew the reason behind Yin Wanxiangs actions, but that didnt mean that he would provide assistance without reservation.

Is your Five Mountains Alliance planning to swallow up the entire Bing Continent? Shang Xia asked suddenly.

That was extremely important and Shang Xia needed to be clear of his intentions.

Yin Wanxiang chuckled bitterly in response. I wouldn't dare to dream of taking over the continent. As long as we manage to lay our foundations and pave our way for progress, we will be satisfied if we can continue to thrive for the next hundreds of years

Impressive

Shang Xia couldn't help but praise Yin Wanxiang's intentions.

If the Five Mountains Alliance was able to establish themselves in the Bing Continent with the Tongyou Institution's support, they would obviously have to clash with the Yanmen Institution led by Yuwen Changqing. They would be the ones going against the Divine Capital Sect's lackey, and there would be no need for the Martial Void Realm existences of the Divine Capital Sect and the Tongyou Institution to get involved.

At the same time, if the Five Mountains Alliance managed to find their footing in the Bing Continent, they would form another buffer for the Tongyou Institution against the Divine Capital Sect.

As for whether or not they would grow stronger and start having their own ambitions. That would be a problem for the future. At the very least, after the Five Mountains Alliance established itself, there wouldn't be problems for a very long time. They would need a long time to digest their gains anyway.

As for the Tongyou Institution, their increase in strength in recent years was tyrannical, but they just had far too few people. It would be a tall task just to station enough experts throughout the You Continent, much less care about the Bing Continent.

The moment the Five Mountains Alliance established itself in the Bing Continent, they would have to lie low and consolidate their strength for the foreseeable future. The same would apply to the Tongyou Institution and it would be the best time for both parties to cooperate with each other closely.

Shang Xia finally nodded his head and muttered, Alright, please follow me. We need the approval of the Deputy Patriarchs in order to cooperate with you guys.

It didn't matter how well both sides got along or spoke to each other. At the end of the day, Shang Xia understood that he wasn't able to make such a huge decision on his own.

When Shang Xia brought Yin Wanxiang and the rest to meet the Deputy Patriarchs of the Tongyou Institution, the void thousands of miles away started to shake. One of the remaining spatial tunnels shattered and the sixth Martial Void Realm expert from the Spirit Abundance World arrived!

Chapter 907: Xiong Chunyang

In the skies above the Jiao Continent

When Kou Chongxue was breaking through to the Martial Void Realm, he was storing energy to release a single sword strike with all the power he could muster.

It wasn't as though he was completely clueless about the Martial Void Realm. Back when he obtained the Stellar Cauldron, it was a massive opportunity he could use to break through.

A divine weapon possessed spirituality, while a Holy Artifact possessed sentience!

After refining the Stellar Cauldron, he obtained some memories it had regarding the Martial Void Realm!

Even though its memories were extremely fragmented and there were many pieces of information that seemed to contradict one another, it was a heaven-sent opportunity for Kou Chongxue to learn about the Martial Void Realm!

However, what benefited him the most was actually Shang Xias concept of the Six Directions.

If Shang Xia could hear Kou Chongxues thoughts, he would immediately make the connection. What Kou Chongxue was thinking of was the same concept he had heard of in his previous world, Heaven and Earth as One!

Crossing the final barrier with the help of the world origin left in the Stellar Cauldron, Kou Chongxue also borrowed the blessing of the Worlds Will along with his sudden hit of inspiration to step across the barrier to create a completely new path!

That very instant, the Spirit World that was taking shape seemed to reveal its intricacies to Kou Chongxue, including the process of transformation!

Kou Chongxue felt as though he had become one with the world Or to be a little more accurate, he felt that he had become one of the rulers of the world!

As long as he willed it, he would be able to communicate with the Worlds Will and deploy a portion of its strength to suppress his opponent!

The sword qi he had been storing drew on the power of the world and strengthened by a ridiculous amount. Facing Dugu Yuanshan, who was in the third tier of the Martial Void Realm, he was still able to flip his weapon around!

Dugu Yuanshan wasnt the only one who didnt expect such a thing to happen. Even Liu Jingsheng, Kou Chongxues teammate, was utterly dumbfounded.

It was true that the divine weapon Dugu Yuanshan was using was flipped by their combined effort, but Liu Jingsheng knew how much he actually contributed.

That was exactly the reason behind Liu Jingshengs shock. Kou Chongxue, who just stepped into the Martial Void Realm, actually reached such a terrifying level! As he tried to conceal his emotions, he didnt forget what he was actually doing.

After flipping the divine weapon, Kou Chongxue and Liu Jingsheng immediately counterattacked. They had to make the most of the opportunity!

However, both of them swapped roles now that Kou Chongxue had broken through successfully. Kou Chongxue became the main attacker while Liu Jingsheng provided support from the side.

It wasn't just because Kou Chongxue far surpassed Liu Jingsheng in terms of combat ability now that he had broken through. Well, it was that, but Kou Chongxue wasn't restricted by an Elysium. He could leave the heavenly screen at will to fight while Liu Jingsheng's true body was forced to stay within a certain range of the world.

They might be working together, but Dugu Yuanshan was just far too powerful. With his tyrannical strength, the 2 of them were barely able to fight him on even ground.

However, Dugu Yuanshan clearly didn't expect the situation to change so suddenly. He didn't think that the swordsman who was barely able to interfere in their battle with the support of his Holy Artifact and the help of the World's Will would possess such horrifying strength and powerful techniques when he just stepped into the Martial Void Realm.

With them pressing closer and closer, Dugu Yuanshan released a crazed roar but he was unable to suppress them as easily as before.

A trace of regret was starting to fill his heart. If he hadn't been afraid of damaging the Starry Tree at the start of the battle and allowed them to buy so much time, he might have already torn the heavenly screen apart and disrupted the ascension process!

If that truly happened, he would have made the most contribution to the invasion of the Azure Ascension World and he might be able to plunder the World Origin Source as he wished. If that were to happen, he might have broken through his current bottleneck and comprehended the true meaning of the fourth tier of the Martial Void Realm. The disciples of his Solitary Peak Heavenly Lake would be able to rely on him and break through to the Martial Void Realm somehow and become his successor!

It was a shame. Everything was too late.

Dugu Yuanshan was also extremely clear that the longer the battle dragged on, the more developed the Spirit World would become. His opponents would also grow stronger with the assistance of the World's Will while he would continue to be suppressed. If the situation didn't change again, he would eventually fall to a disadvantage in the battle.

That wasn't just something he thought would happen. It was actually the case. The swordsman who just broke through to the Martial Void Realm possessed mighty combat talent and in their exchange, he seemed to be sucking up knowledge on how to fight as a Martial Void Realm expert. It wouldn't take long for him to incorporate it into his own battle style before unleashing it on Dugu Yuanshan.

One could say that the swordsman was growing stronger with every second! The more he fought, the stronger he became!

Because of Kou Chongxue's existence, Dugu Yuanshan was slowly losing his confidence.

Dugu Yuanshan wasn't the only one who was feeling the same way. The other Martial Void Realm experts of the Spirit Abundance World were also suffering from the change in situation.

Li Jidao barely managed to regain his strength after Jiu Du and the others sacrificed the Zhenyang Holy Land. However, with the successful ascension of the world, world origin poured into the Divine Capital Elysium and brought him back to his peak state.

The same situation was happening to Zhang Xuansheng. Since the start of the battle, he had been enduring the greatest pressure and fought against 2 Martial Void Realm experts of the same level.

Even after sacrificing 2 Holy Lands, he barely managed to resist their combined attacks. Now that the ascension was complete and the Worlds Will strengthened its blessing, he was finally no longer taking a one-sided beating.

Yang Taihe seemed to be having a much better time than the others as he was able to fight Lu Pingyuan of the Heaven and Earth Villa to a stalemate. In fact, he was even starting to gain the advantage. Lu Pingyuan was actually the only Martial Void Realm expert of the Spirit Abundance World who didnt have any spare strength to care about the others.

If the situation remained as it was, the Spirit Abundance World would suffer massive losses!

Everyone from the Azure Ascension World grew stronger with the strengthened Worlds Will and the Spirit Abundance World would find it extremely difficult to take over a world of the same level!

The kicker was the fact that even after the invasion failed, the Spirit Abundance World had already formed a huge grudge against them! With the successful world ascension, they would definitely experience a boom in cultivation strength with high-level experts being born in the near future.

It was true that as a behemoth who was already a Spirit World, the Spirit Abundance World might not be afraid of a newly ascended world, but one couldnt forget that they also had to face other veteran Spirit Worlds who had experts of the same level. With the Spirit Abundance World failing their invasion and suffering a huge setback, those worlds out there might not give up such a great chance!

It could be said that the Spirit Abundance World went for wool but came home shorn!

Dugu Yuanshan wasnt the only person who understood what had happened. The other Martial Void Realm experts also made the connection.

With his emotions fluctuating, Dugu Yuanshan seemed to make up his mind. He resisted Kou Chongxues unending sword qi and turned to the remaining spatial tunnels that were still spewing out experts in the third element of the Martial Dipper Realm or higher.

Xiong Chunyang, get over here! Dugu Yuanshan actually turned to cry for help.

Kou Chongxues sword qi came again and its tyrannical might caused the space around to fracture.

He didnt aim for Dugu Yuanshan as the sword qi flew straight for the void thousands of miles away.

His true motive was to shatter one of the remaining spatial tunnels!

As the sword qi soared at the spatial tunnel, Liu Jingsheng gritted his teeth and rushed at Dugu Yuanshan. Even if he had to suffer heavy injuries, he had to stop Dugu Yuanshan from intercepting the sword qi.

The Martial Void Realm experts seemed to have reached a stalemate as they fought above the heavenly screen and as the battle dragged on, those from the Azure Ascension World seemed to be gaining the upper hand. Of course, the situation would only persist if there wasnt a new Martial Void Realm expert joining the fray.

If the Spirit Abundance World could send another Martial Void Realm expert, the experts of the Azure Ascension World were fucked! Even with the support of the Worlds Will, they wouldnt be able to hold on.

The experts of the Spirit Abundance World didn't say anything when they saw how Dugu Yuanshan turned to cry for help, and it was clear that they agreed with his decision.

Seeing as Kou Chongxue's sword qi was about to shatter one of the spatial tunnels, a sigh emerged from one of them before entering the ears of every person fighting above the heavenly screen.

A ball of light that burned extremely intensely emerged from a spatial tunnel, causing space to rumble violently. As soon as it appeared, blinding light was emitted and Kou Chongxue's sword qi melted into nothingness as soon as they collided.

Chapter 908: The Strength of a Sixth Order

Kou Chongxue might have missed Dugu Yuanshan with the sword qi earlier, but he was actually aiming for the spatial tunnel.

Dugu Yuanshan didn't notice Kou Chongxue's intention when he first released the sword qi, but the moment Liu Jingsheng launched his maniacal attacks to keep him from intercepting the sword qi, he quickly discovered Kou Chongxue's plan.

Even though the sword qi had traveled extremely far away, it wasn't impossible for Dugu Yuanshan if he really went all out to try to intercept it. However, after a moment of hesitation, he chose not to do so. Instead, he turned to face Liu Jingsheng and used his divine weapon that he shrunk down to send him flying.

In the void 10,000 miles away, another Martial Void Realm expert emerged from the spatial tunnel right before Kou Chongxue's sword qi could sunder the tunnel. As soon as he arrived, he emitted blinding rays of light to destroy Kou Chongxue's sword qi.

At the same time, Liu Jingsheng suffered greatly at the hands of Dugu Yuanshan who turned his attention to him. He was sent crashing back into the Jiao Continent below as Dugu Yuanshan's divine weapon slammed into him and suffered a great loss.

Fortunately, Kou Chongxue noticed his predicament and he no longer bothered about the appearance of the new Martial Void Realm expert. With a flip of his wrist, his sword slashed towards Dugu Yuanshan again and prevented him from following up to continue the assault on Liu Jingsheng.

As he turned to face Dugu Yuanshan, the Stellar Cauldron that had been under his feet to supply him with world origin, disappeared. After stepping into the Martial Void Realm, the Stellar Cauldron was still supplementing his combat abilities. However, it was no longer as crucial as when he was in the Martial Dipper Realm. Since he was able to draw on world origin with his own abilities, he didn't wish to rely too much on the Stellar Cauldron.

Facing Kou Chongxue's sword qi, Dugu Yuanshan didn't dare to be careless in the slightest. He understood that the native Martial Void Realm expert he was fighting was somewhat of a freakish monster. Not only did he step into the Martial Void Realm under his eyes with a method he had never seen before, but he could also shift more than half the world origin concentrated under the continent to supplement his strength. He was even stronger than the Martial Void Realm expert he was helping back then!

From what Dugu Yuanshan could see, he already had knowledge about the Martial Void Realm and made a lot of preparations before stepping into it!

That was an Azure World that just completed its transformation they were talking about. From what they understood about the Azure Ascension World, the experts of the Spirit Abundance World could tell that the Azure Ascension World was barely completing their understanding of the Martial Dipper Realm. They hadn't even produced a proper inheritance on it!

For a world that had such an incomplete cultivation path and weak foundations, how could anyone possibly know anything about the Martial Void Realm before stepping into it?!

One had to know that even with the Spirit Abundance Worlds strong foundations and strength ranking among the top Spirit Worlds, they hadn't fully explored and perfected the inheritance to the Martial void Realm

We really met a freak this time

We can't allow him to grow! We have to get rid of him right now, otherwise, our Spirit Abundance World will be in grave danger

Dugu Yuanshan further affirmed his decision to call for backup.

Xiong Chunyang was the Distant Exertion King from the Dajun Dynasty. He was of royal bloodline and his cultivation was also at the third tier of the Martial Void Realm.

He was an existence who had the power to change the tides of battle alone.

As the strongest power in the Spirit Abundance World, the Dajun Dynasty was naturally restricted by the various powers before the start of their operation to invade a foreign world.

As such, even though the experts of the Dajun Dynasty wanted to join in the battle, they were pressured by the other factions to stay back. Even though Xiong Chunyang's cultivation was similar to Dugu Yuanshan which made him one of the strongest Martial Void Realm experts present, he was sent to the backlines to maintain the spatial tunnels. All he had to do was to send Martial Dipper Realm experts over without taking part in the battle.

Now that they no longer had the upper hand, it was extremely likely the experts of the Spirit Abundance World would have to return empty handed and even suffer huge losses for it.

When that happened, the higher-ups of the Spirit Abundance World would definitely look into the matter. Dugu Yuanshan, who refused to take down a newly ascended Liu Jingsheng just because of the Starry Tree would definitely become public enemy number 1.

In order to turn the tables and not be the scapegoat for everything, Dugu Yuanshan could only break the agreement they had to not let the Dajun Dynasty take part in the battle.

Actually, Dugu Yuanshan was also taking a gamble. If they succeeded, he wouldn't have to worry about becoming a scapegoat for the failed invasion, and he would also have sold the Dajun Dynasty a huge favor. Of course, with Xiong Chunyang's tyrannical strength, the Dajun Dynasty would definitely take the largest portion of the pie.

Compared to the entire operation failing, giving the lions share of the benefits to the Dajun Dynasty was nothing. At least in the eyes of Dugu Yuanshan, he wouldn't have to bear the consequences and his Solitary Peak Heavenly Lake wouldn't be too affected.

Looking at the situation, Dugu Yuanshan was confident that the moment Xiong Chunyang entered the battle, he would be the key to shattering the Azure Ascension Worlds defenses.

Even though Xiong Chunyang arrived and destroyed Kou Chongxue's sword qi, he didn't immediately join the battle at the heavenly screen. Instead, he continued to stroll about the void before the spatial tunnels as though he hadn't seen the situation.

Xiong Chunyang, what the fuck are you up to?! Dugu Yuanshan was truly starting to panic. With the advancement process complete and the Spirit World taking shape, the entire process was about to end. The World's Will would reach its peak state. It was already strengthening as time passed and he was starting to have a hard time dealing with the swordsman who just broke through.

Brother Dugu and fellow cultivators, all of you have to understand that the moment I leave this spot, the only spatial tunnel we have left will be exposed. The blazing light in the distance sent a gentle voice transmission over to the Martial Void Realm experts of the Spirit Abundance World.

What the fuck! None of us needs the spatial tunnel to return. Dugu Yuanshan felt the words getting stuck in his throat when he realized the true implications of having only 1 spatial tunnel left. Experts in the Martial Void Realm might be able to traverse the sea of stars to return to their worlds as long as they knew its exact location, but that didn't mean that Martial Dipper Realm experts could do the same!

The moment they sounded the retreat, the spatial tunnel would only be able to send 2 Martial Dipper Realm experts back at once! How long would they need to send all their experts back?!

When that happened, anyone who was left behind would basically be free loot for the members of the new Spirit World.

The thought flashed through Dugu Yuanshan's mind before he understood what was going on. That wouldn't happen unless the Spirit Abundance World suffered a complete defeat. With Xiong Chunyang's presence, was a complete defeat even possible?

However, he also thought of another possibility. For Xiong Chunyang to remain around the spatial tunnel would mean that he was probably informing the experts of the Dajun Dynasty to fall back just in case.

After all, there was no need for their Martial Dipper Realm experts to fight for resources or merit now that he was present. Him alone would be enough to obtain the greatest amount of benefits for the Dajun Dynasty!

Since Brother Xiong is here, the situation will be decided the moment you make your move. What's the point of hurrying your juniors back? Dugu Yuanshan hadn't noticed his abnormal behavior. He was acting like a deranged gambler at the moment who just went all in. He had blind confidence that his bet that was introducing Xiong Chunyang into the battle would be enough to win! He never bothered thinking about the consequences if they lost!

Neither of them bothered hiding their conversation from the Martial Void Realm experts of the Spirit Abundance World, but none of them had been saying anything ever since Dugu Yuanshan called for support.

If they weren't at the heavenly screen ready to invade another world and could feel the intense spatial fluctuations from the battle over at their side, both Xiong Chunyang and Dugu Yuanshan would have thought that they had left!

Finally, Xiong Chunyangs gentle voice rang in their ears once again. Since Brother Dugu requested for me to take action again, it wont be right if I continue to reject. Ill enter the battle!

As soon as the words left his lips, the blazing ball of light appeared above the heavenly screen. With a long sigh escaping its lips, it turned into a massive meteor that shot at the heavenly screen.

With the whole ascension process complete and the Spirit World about to form, the experts of the Azure Ascension World thought that the outcome of the battle was set. They didnt think that a sixth Martial Void Realm expert from the Spirit Abundance World would appear and their hearts that burned with the hopes of victory fell into the abyss of despair.

Every single one of them understood what an existence at the Martial Void Realm represented. None of them were easy to deal with.

However, the expert who arrived wasnt in a rush to enter the battle when he first arrived. Instead, everyone saw how he was hovering about the spatial tunnels.

All of a sudden, a region of space around the Beyond Heavens Pavilion above the You Continent trembled and a three-legged cauldron that was no longer rusty and worn made its appearance. It revealed itself right before Shang Xia.

Stellar Cauldron? Why is it here? Shang Xia stared at it with a look of confusion. He understood that it wasnt exactly the best idea for anyone to learn of its appearance, especially since it was no longer with Kou Chongxue. He covered it with his Five Element Dipper Qi to hide its presence.

Shang Xia knew that the Stellar Cauldron was providing Kou Chongxue with a massive boost in strength when he fought Dugu Yuanshan with Liu Jingsheng earlier. It allowed him to release his peerless sword art.

Now that the Stellar Cauldron had been sent over, Shang Xia understood that it was no longer something Kou Chongxue desperately needed to fight his opponent.

After all, the sword qi that was flashing from time to time with unparalleled brilliance clearly belonged to Kou Chongxue. It seemed as though he wasnt having problems at all!

For him to send the Stellar Cauldron over He definitely had his reasons for doing so!

As Shang Xia thought deeper into the patriarchs intentions, he sent a portion of his Five Element Dipper Qi into the cauldron. As long as he didnt try to refine the artifact, he shouldnt have any problems using its functions. After all, he had the experience of doing it before.

Also, Kou Chongxue had released nearly all of his control over the Stellar Cauldron for the time being and Shang Xia was able to use it as he wished.

As soon as his inner qi flowed into the cauldron, Kou Chongxues voice rang in his ears. Go to the Eternal Palace and

Chapter 909: The Strength of a Sixth Order Pt.2

Kou Chongxues message in the cauldron was simple. However, what he wanted Shang Xia to achieve wouldnt be easy to do!

Patriarch Kou seems to want me to use the Stellar Cauldron to gain the combat strength of an existence at the Martial Void Realm Whats the point Shang Xia didnt dally even though he was a

little confused at the entire matter. After shooting Shang Bo and Ji Wenlong a greeting, he opened a spatial gate and stepped into it.

One had to know that the space above the heavenly screen was a massive battlefield. Spatial fluctuations were intense and all over the place. With the exception of those existences at the Martial Void Realm, no one had the guts to travel through space!

The space above the You Continent might be a lot more peaceful with Shang Xias presence, but that didnt mean that it was free of spatial fluctuations!

Well, no one other than had the guts to travel through space

As he moved through the void, Shang Xia didnt even use the power of the Stellar Cauldron to protect or assist himself!

Maybe after I refined my seventh set of fate dipper essences back in the Azure Flame World and gained the ability to create Fate Dipper Clones, Patriarch Kou has already been making plans for the worst. On our way back from the Azure Flame World, I even managed to refine my eighth set of fate dipper essences. Shang Xia thought to himself as he reappeared above the heavenly screen above the Bing Continent.

A fourth element Martial Dipper Realm expert barely emerged from the heavenly screen as he prepared to take his leave when he entered Shang Xias detection range.

That was right. The expert was planning to leave the heavenly screen and escape to the depths of space!

From how hasty he was acting, it was as though he was being hurried along.

Thats strange. Could he have looted everything from the Bing Continent and found no reason to stay? Where is he planning to go in such a hurry anyway?

Something wasnt adding up. After all, the Spirit Abundance World sent another powerful expert in the Martial Void Realm and the Azure Ascension World might just fall the very next moment. No one would be crazy enough to escape in such a situation.

Shang Xia might not understand what was going on, but that didnt stop him from killing the other person.

That was also one of the missions he had been given by Kou Chongxue when the Stellar Cauldron was delivered to him!

As he made his way over to the Eternal Palace, he was to kill any Martial Dipper Realm expert of the Spirit Abundance World he came across!

After refining his ninth set of fate dipper essences, Shang Xias combat prowess took a huge leap forward. He even had the Stellar Cauldron at the moment and he was basically an invincible expert in the Martial Dipper Realm.

In fact, he was already a god-like existence in the Martial Dipper Realm even without the assistance of the Stellar Cauldron! He was still restraining himself by not using the cauldron!

From the fact that Kou Chongxue entrusted him with the Stellar Cauldron, the patriarch was confident that Shang Xia would be able to reach the level of a Martial Void Realm expert when

drawing upon its strength. Even though Shang Xia didnt quite believe it himself, he hadnt actually tested out if it was possible.

The reason he hadnt tried anything was simple. If he was really capable of doing something like that, he didnt wish to reveal their trump card before he had to!

With his current combat strength, there was basically no expert in the Martial Dipper Realm he couldnt take on!

The Worlds Will suppression wasnt there for show either. The expert might have emerged from the heavenly screen, but the suppression on him was still of a certain level!

Shang Xia created another spatial gate and by the time the other party discovered his presence, he was a mere 3 miles away!

The Five Element Ring fell from the void and five colored light filled the space around him. The entire region was locked down by his Five Element Dipper Qi and all hopes of escaping with strange movement or escape arts were dashed.

The expert from the Spirit Abundance World wasnt an amateur. He was extremely careful and the moment he felt Shang Xias presence, he already made the decision to retreat. He didnt charge in blindly.

He didnt expect his surroundings to be locked down in an instant. He tried to unleash his escape art twice, but he was unable to leave the region covered in five colored light.

The Five Element Ring started to shrink, and so did the space covered in five colored light. Space seemed to freeze around the expert of the Spirit Abundance World and he found it difficult to take a single step.

It wasnt as though he wasnt trying to struggle free. However, Shang Xias Five Element Dipper Qi not only restricted his movements. It also invaded the other partys body and disrupted his inner qi circulation! His cultivation seemed to be restrained by something and he lost his ability to fight back.

Throughout the process, he unleashed many different methods to struggle free. It didnt matter if he was trying to use his inner qi to break free of the restriction, or any sort of protective treasure. Nothing worked! He even split off several Fate Dipper Clones in an attempt to sacrifice them to escape, but the strong suppression thwarted all his plans.

He only gave up when the Five Element Ring closed in around him. He was thrown into the Stellar Cauldron and suppressed by Shang Xia before being refined by the cauldron.

Even though many things happened, in a battle between experts of their level, merely several breaths had passed since the battle was over. The fourth element Martial Dipper Realm expert was completely helpless when facing Shang Xia!

Only a true expert would be able to discover the intricacies during the battle. They would be able to see the struggles the expert from the Spirit Abundance World had. The escape attempts, the ability to seal off space. Fate Dipper Clones sacrificed as they were ruthlessly suppressed Everything happened so quickly one barely had time to blink! Eventually, the expert from the Spirit Abundance World was thrown into the Stellar Cauldron and refined into streams of pure energy.

After all, the higher ones cultivation was, the more difficult it was to kill them.

Taking the expert Shang Xia just subdued as an example Even though Shang Xia rendered him completely helpless and tore open his protective barriers, exterminating the other partys soul was going to take some time!

Like how he killed Cao Zixiu back in the Sword Valley, he needed Huang Yu to buy him some time before he was able to rejoin the battle.

Now that he had the Stellar Cauldron, there was no need for him to wipe out the other partys soul manually. He could use the cauldron to wear them down and refine their bodies. His journey wouldnt be delayed and he didnt need to waste his energy on them.

The most important reason was the fact that Shang Xia would be able to obtain the greatest number of fate dipper essence from them after the cauldron refined them.

After killing an expert from the Spirit Abundance World, Shang Xia continued to make his way towards the Yong Continent where the Eternal Palace was located. Along the way, Martial Dipper Realm experts from the Spirit Abundance World fell in his hands. 2 of them were in the third element of the Martial Dipper Realm, and he even ran into an expert in the fifth element of the Martial Dipper Realm when he passed the heavenly screen above the Liang Continent.

According to the distance between the continents, Shang Xia should leave the You Continent before entering the Bing Continent to rush north straight towards the Yong Continent. Because of Kou Chongxues instructions to kill the Martial Dipper Realm experts of the Spirit Abundance World, he decided to pass the Bing Continent and turn towards the Liang Continent before heading towards the Yong Continent.

The Eternal Palace and Divine Capital Sect were both located in the Yong Continent, but the Divine Capital City was located in the east while the Eternal Palace was located in the west. Shang Xia might have taken a longer route, but he managed to avoid the location where Li Jidao was facing his Martial Void Realm opponent.

Above the heavenly screen of the Liang Continent, Shang Xias opponent didnt choose to escape the moment he met Shang Xia.

Both sides were confident in their strength and felt that they would be able to easily handle the other party.

Shang Xia was in no rush to make his move when he noticed the enemys attitude. He simply threw out a question. Along the way, I discovered many experts leaving the world. You seem like youre retreating Whats the reason all of you are escaping?

The expert didnt avoid Shang Xias question. He chuckled softly, Oh? I guess it doesnt matter if you know. With the Distant Exertion Kings arrival, the spatial tunnel he took definitely collapsed. Theres only a single spatial tunnel left, but there are more than a hundred Martial Dipper Realm experts who came

Distant Exertion King? Are you talking about Xiong Chunyang? Shang Xia heard of Xiong Chunyang from Huang Yu and understood that he hailed from the strongest power in the Spirit Abundance World, the Dajun Dynasty.

The expert from the Spirit Abundance World nodded slightly and chuckled, Since the Distant Exertion King is going to make his move, your world is done for. Its a shame

Shang Xia couldnt help but laugh in response, Since all of you are so certain of victory, why does he seem to be buying you guys time to return to the Spirit Abundance World?

Its not as though were calling everyone back The experts of the Dajun Dynasty are just the first batch to return. Our Dajun Dynasty might be strong, but the pressure were facing is proportional to our strength. We have strong experts, but theres not enough of us to go around. After conquering your world, we will have to suck away and split up your world origin. The continents will also have to be allocated accordingly and everything will take a lot of time. The Distant Exertion King is enough to deal with everything here and there is no need for the rest of us to waste our time.

So thats whats going on Shang Xia nodded before speaking in a serious tone, However, theres one big problem about all of this. You seem to be counting your chickens before they hatch. My world hasnt lost yet. Perhaps, we will be a tough bone to crack and you might lose your teeth when biting into us! Anyway, I was planning to slay you where you stand. On second thoughts, Im feeling a little grateful for all the information you have given me. Why dont you leave your name behind and allow me to put a name to the person Im going to kill?

The expert from the Spirit Abundance World roared with laughter. What a coincidence! I was planning to say the same thing to you! However, there is no need for you to leave your name behind!

As soon as he spoke, he rushed at Shang Xia.

The battle between experts at their level was bound to be intense, but everything would happen in an extremely short amount of time. Shang Xia, who still had the support of the Worlds Will and the Stellar Cauldron, was invincible under the Martial Void Realm!

The expert from the Spirit Abundance World failed to discover Shang Xias actual combat strength in the first place. With his abilities suppressed by the Worlds Will, he suffered greatly the moment they clashed.

Shang Xias Five Element Palm shattered his opponents first strike before landing on his Dipper Qi Protection Barrier. Before the expert from the Spirit Abundance World could turn to run, he was trapped.

Only then did the expert from the Spirit Abundance World understand the difference in strength. He didnt hesitate to split off 2 Fate Dipper Clones to hold back the rapidly shrinking Five Element Ring that appeared out of nowhere. Splitting off yet another Fate Dipper Clone, he detonated it in an attempt to stop Shang Xia for a moment. With the threat of mutual destruction, he managed to tear an opening to escape.

The Fate Dipper Clones that were used to hold his Five Element Ring were destroyed the next moment and turned into fate dipper essences that were collected by Shang Xia.

This time, Shang Xia might not have been able to kill his opponent, but in that short exchange, the fifth element Martial Dipper Realm expert from the Spirit Abundance World dropped all the way back down to a second element Martial Dipper Realm expert. Even Kou Chongxue might not have been able to do better than that when he was in the grand completion stage of the Martial Dipper Realm!

Just as Shang Xia was about to continue looking for experts from the Spirit Abundance World to kill, a loud crack came from the depths of space as a powerful spatial fluctuation started to spread towards the heavenly screen.

Xiong Chunyang of the Dajun Dynasty finally made his move!

With his heart sinking, Shang Xia couldn't care about the Martial Dipper Realm experts from the Spirit Abundance World any longer. Creating a spatial gate with his Five Element Ring, he quickly stepped into it.

He didn't directly enter the space above the Yong Continent as there were 4 Martial Void Realm experts fighting above the heavenly screen there. With the entire space in chaos, no one would be able to take a single step into the region.

The experts of the Divine Capital Sect and the Eternal Palace were avoiding the heavenly screen above the Yong Continent like the plague, much less Shang Xia! All they could do was to head to the other continents to provide assistance.

Rather than appearing above the heavenly screen above the Yong Continent where the battle was taking place, Shang Xia entered the Yong Continent itself. As soon as he stepped foot onto the continent, the Martial Dipper Realm experts of the Eternal Palace discovered his presence and came looking for him.

Shang Xia of the You Continent What are you doing here? The person who spoke clearly didn't seem friendly. In fact, he seemed extremely wary about Shang Xia's sudden appearance.

Shang Xia wasn't surprised at the other party's attitude. Pointing at the space above, he laughed, I'm here to help Ancestor Yang!

Chapter 910: The Strength of a Sixth Order Pt.3

No one was crazy enough to step into the chaotic region above the heavenly screen above the Yong Continent, but that didn't mean that the experts of the Spirit Abundance World didn't dare to infiltrate the Yong Continent.

In stark contrast, because of the intense battle among Martial Void Realm experts up there, many Martial Dipper Realm experts of the Spirit Abundance World tried to attack the home camp of the Eternal Palace and Divine Capital Sect so as to weaken their Martial Void Realm Ancestors.

Too bad for them, the 2 Elysiums might have sent out a bunch of their experts to assist the other continents, but they naturally stationed enough of them to protect their base camp. They might not be invincible, but they weren't weak enough such that several Martial Dipper Realm experts from the Spirit Abundance World could actually shatter their defenses.

It didn't take long for the experts of the Eternal Palace to discover and locate Shang Xia the moment he stepped onto the Yong Continent. It was clear the Elysiums had complete control over their territories.

After learning of Shang Xia's intentions, they weren't actually grateful or anything. Instead, they seemed confused and couldn't help but mock him.

You're here to help our Ancestor? Young Master Shang, do you really think you can provide any assistance to our Ancestor? Elder Yiming of the Eternal Palace raised an eyebrow and muttered. He

clearly didn't believe that Shang Xia had the ability to interfere in a battle of that level, but no matter what, the other party came to help and didn't seem to have any ill intentions.

One couldn't blame him for being so doubtful. After all, that was a battle between Martial Void Realm experts they were talking about.

Shang Xia wasn't surprised by Elder Yimings reaction. Instead, he no longer concealed his aura and the Stellar Cauldron also appeared beneath his feet, seemingly having appeared from nowhere.

As he grew stronger, his control over space grew with him. He had a faint feeling that once he stepped into the Sixth Order of the Primary Realm, he would be able to fully solidify his Five Element Space and deploy it wherever he wished. It would be as though he was bringing a secret region around with him. When that happened, there would no longer be a need for him to use spatial storage treasures any longer. He could just throw his treasures into his self-created space.

The connection caused him to think about the true meaning of the Martial Void Realm. Their Azure Ascension World had 5 Martial Void Realm Ancestors, but 4 of them used the support of their Elysiums in order to do so. Kou Chongxue was the only one who stepped into the Martial Void Realm after gaining inspiration from Shang Xias theory of the Six Directions. Because of that, he managed to comprehend something about being one with the heavens. As Shang Xia closed in on the large completion stage of the Martial Dipper Realm, he was starting to gain a better understanding of space and therefore, the solidification of his Five Element Space.

That was how he concluded that the Sixth Order of the Primary Realm was actually closely related to the ability to create a region of space that only they could control.

An Elysium could be considered a stable space and so was a world of its own. Shang Xias Five Element Space was also considered a stable space of his own once he could fully control it!

Not believing that everything was a mere coincidence, Shang Xia concluded that it definitely had something to do with the Martial Void Realm.

Origin Holy Artifact? Elder Yiming was no fool. He could tell the quality of the Stellar Cauldron the moment Shang Xia brought it out and he couldn't help but gasp softly.

Nodding slightly, Shang Xia explained seriously, I came over on Patriarch Kous orders!

Kou Chongxue had already stepped into the Martial Void Realm in the space above the Jiao Continent. Every single expert in the Martial Dipper Realm felt the change and Elder Yiming definitely knew about his breakthrough.

Staring at Shang Xia with a deep gaze, he eventually muttered in a low voice, What do you plan to do?

Ideally, I would want to enter your Elysium and provide support for Ancestor Yang by hiding in the shadows to take any opportunity to make my move! Shang Xia spoke casually.

Impossible. Elder Yiming rejected it the moment the words left Shang Xias lips.

If Shang Xia harbored bad intentions and stabbed Ancestor Yang Taihe in the back, they were all fucked!

Elder Yiming didn't dare to take a risk like that, and he didn't have the qualification to authorize Shang Xias proposal either.

Having anticipated as much, Shang Xia sighed inwardly, but he didn't insist. Since that's not possible, I can only head for the heavenly screen. However, I will lose the best chance to deal the greatest blow to the other party. No matter how fast I move, Ancestor Yang's opponent will definitely be prepared once he senses my presence.

Elder Yiming frowned. As the protector of the Eternal Palace, Elder Yiming might not have the qualifications to join the battle up there, but he could understand what was happening. He also knew what Shang Xia meant.

Mumbling and sighing to himself, Elder Yiming eventually stared at Shang Xia once again. Shang Xia could tell that even though Elder Yiming was staring directly at him, his divine will was scanning Shang Xia countless times. After he was satisfied that the Shang Xia and the Stellar Cauldron before him were real, he growled, Fine. Follow me.

With Elder Yiming guiding him, Shang Xia quickly arrived at a massive city.

It might be his first time seeing the city, but he had long since heard of the famous Western Capital City.

The Yong Continent housed the Western Capital City and Divine Capital City, and they were known as the 2 most flourishing cities in the Azure Origin World. They were also the oldest powers that existed.

Elder Yiming clearly wasn't interested in introducing the city with the situation they were in and Shang Xia's attention wasn't on the city either.

He quickly passed through a strange illusory barrier while being led by Elder Yifeng. The Eternal Palace gradually appeared in his view.

When they arrived, Shang Xia had a faint feeling that Elder Yiming received instructions from someone as he turned his head abruptly.

A moment later, a powerful streak of light tore through the skies above the city and passed through the barrier to appear before them.

When the light finally disappeared, Elder Yifeng leaped off his sword light and stared at Shang Xia for a second. His pupils constricted in shock. With his years of experience fighting and killing, Shang Xia was giving him a sense of danger he had never felt in his life.

He wasn't able to see through Shang Xia's cultivation, but he didn't doubt the fact that the youngster before him had the ability to threaten him!

Kid Looks like you weren't lying. You definitely have the qualifications to interfere in their battle Yifeng pointed out immediately. It seemed as though he returned to the Eternal Palace after receiving news from Yiming. Looks like I didn't waste my time rushing all the way back from the Liang Continent!

Clearly, Elder Yifeng was part of the group that had been sent out to help the other continents.

The Bing Continent was backed by the Divine Capital Sect and was within their region of influence. Jiu Du and the others went to help protect the Qing Continent.

When the Yuanchen Sect managed to push their Holy Land into an Elysium, they most probably avoided the continent that had relations with the Eternal Palace and the Divine Capital Sect

After getting rid of the continents that seemed to directly possess the influence of the Yuanchen Sect or the Divine Capital Sect, they were only left with the Qing, You, Bing, Liang, Shu, and Jiao Continents. With the exception of the You Continent that was a rapidly rising star and the Shu Continent that Shang Xia didnt know the situation at the moment, the Eternal Palace chose to support the Liang Continent.

Looking at Elder Yiming before turning to stare at Yifeng, Shang Xia muttered, Elder Yifeng, is there a reason you rushed all the way back?

Shooting Shang Xia a glare, Yifengs eyes flashed unsteadily with a trace of threat and excitement. I heard from Junior Brother Yiming that you wish to enter our Elysium?

Shang Xia wasnt surprised Yiming was able to do something like that and he replied with a quick nod. That would be ideal. With Ancestor Yang covering my tracks, I will be able to catch the other expert off guard. After all, we only have a single chance to launch a sneak attack. Its just that

Shang Xia was barely done speaking when a loud cough was heard. Above the heavenly screen not too far away, the ninth level of the Divine Capital Pagoda that just recovered shattered once again.

With the strengthening Worlds Will, the experts of the Azure Ascension World were growing stronger. Li Jidao should have regained the initiative in the battle against Zhao Wuhen. However, the Divine Capital Pagoda was damaged once again, putting him in great danger.

There was no doubt about it. Zhao Wuhen wasnt the one who did it. The person who damaged the pagoda was most likely Xiong Chunyang from the Dajun Dynasty!

Shang Xia raised his head to look at the skies above when he heard Yifengs decision. Theres no need to say anymore. Hurry and follow me into the Eternal Elysium!

Yiming wanted to say something else, but Yifeng had already connected the spatial tunnel to bring Shang Xia into the Elysium,

The entire region was controlled by the Eternal Palace, but Yifeng didnt give a shit as he carved a spatial tunnel through the region with a single slash of his sword. It seemed as though his methods were pretty crude.

Elder Yiming might be unhappy at his actions, but there was no way for him to cry out with the situation at hand.

Shang Xia appeared in a massive hall the next moment. He realized that the structure he was in was most likely the Eternal Palace itself!

Of course, for the members of the Eternal Palace, they merely called it the main palace of their faction.

Shang Xia couldnt be bothered with the differences between the Eternal Elysium and the Tongyou Paradise at the moment and he simply followed Yifeng deeper into the hall until they found an exit. There was an imposing figure standing right in front of it and chaotic space lay within.

A heaven-shattering blast came from the chaotic space the next moment and powerful spatial fluctuations could be seen inside the streams of chaotic space. A giant storm seemed to appear right after, but as it approached the exit, it was quickly quelled and all that was left behind were sounds of rushing winds.

This Shang Xia had a guess in mind and he didnt hesitate to bring it up.

Yifeng nodded. Thats right. This is the exit leading to the Beyond Heavens Pavilion. The figure in there is the true body of our ancestor. He should have already discovered our presence!

Yifeng turned to look at Shang Xia with an expression of shock the next moment. The usual shit-eating grin on his playful appearance was nowhere to be seen as he became exceptionally solemn. His voice rang in Shang Xias mind the next moment. Young Friend Shang, Im afraid we will need to trouble you to make your move. Please, assist us!

Shang Xia felt a powerful pressure descending on him when he heard the serious cry for help.
