

The Lord 1041

Chapter 1041: Nine Dragons

“Who are you?” Cang Xuenu looked at Zhao Fu coldly as she stretched out her hand, and the halberd flew into her grasp.

“Me? I’m the imperial son-in-law of the Lelai Kingdom,” Zhao Fu replied as he lightly laughed.

An immense look of hatred immediately appeared in Cang Xuenu’s eyes. It could be said that everything that had happened to the Blue Wolf Kingdom was because of Zhao Fu. If it weren’t for him, the Blue Wolf Kingdom would not have suffered such a great loss, and it would not have been attacked by the other kingdoms.

Boom!

Cang Xuenu exploded out with a terrifying aura and shot forwards like a bolt of lightning, reaching Zhao Fu’s side in an instant. She gripped her halberd with both hands, sending in an immense amount of power, causing it to give off a cold light as she slashed it towards Zhao Fu.

Bang!

Zhao Fu did not even bother looking at her and casually slashed out, causing a massive sword qi to fly out. Cang Xuenu was blasted back and crashed into the ground, coughing up a large mouthful of blood, her face quite pale.

Because of the hatred she felt, she had disregarded the terrifying aura from Zhao Fu’s body, which was many times more powerful than hers.

Zhao Fu condescendingly laughed and did not bother with her anymore. Now that the energy barrier had been destroyed, all Zhao Fu had to do was conquer the City Heart to destroy the Blue Wolf Kingdom.

Swish!

Zhao Fu turned into a ray of light and shot into the depths of the City Hall. Cang Xuenu's expression fell, and she also charged into the City Hall and saw Zhao Fu's hand already on the City Heart. She hurriedly cried out, "Wait, as long as you don't conquer it, I'll agree to anything."

Surprisingly, Zhao Fu paused and thought about it. He then turned and smiled, saying, "There's nothing you have that can attract me, and whether or not you can even survive is a different matter. Your royal clan has been captured by the Lelai Kingdom; what can you give me to convince me not to conquer the Blue Wolf Kingdom?"

Cang Xuenu's expression was quite unsightly because she really did have nothing. Facing Zhao Fu's terrifying strength, she had no way to escape either, and even if she used her Nation Armament, it would not be enough. Zhao Fu gave off an aura that caused her to feel immense despair.

"Then what do you want?" Seeing that Zhao Fu had stopped and was smiling, Cang Xuenu was sure that Zhao Fu had some goal in mind.

Zhao Fu lightly laughed and said, "You're quite smart. The Blue Wolf Kingdom has no hope at all, and there are seven Kingdoms attacking it. You've already lost half of your territory, and the Blue Wolf Kingdom will definitely be destroyed, so there's no need to struggle. Now, submit to us! As long as you submit to us, the Blue Wolf Kingdom will still belong to you and I will make you the most prestigious person among the Half-Beast people."

Hearing this, Cang Xuenu immediately understood what Zhao Fu was thinking, and she felt quite curious about Zhao Fu's mysterious identity and his ambition.

"Just who are you?" Cang Xuenu looked at Zhao Fu as she asked. She now felt that Zhao Fu definitely was not some ordinary person; he actually had the ambition to conquer the Half-Beast world. This meant that Zhao Fu had an incredibly terrifying and dangerous identity.

"Haha, it doesn't matter who I am. You have no other choice but to submit to me. Otherwise, I'll conquer the City Heart and capture you, making you beg for death," Zhao Fu laughed as he said with a hint of menace.

Cang Xuenu sank into her thoughts. Did she have to submit to him and become a chess piece to destroy the Half-Beast world?

She felt quite unwilling for her ancestors' hard work to be ruined by her hands; she would be the greatest sinner of the Blue Wolf Kingdom.

Suddenly, Cang Xuenu thought about the three other Kings hurrying over. If the four of them attacked this person, perhaps they would have a chance at saving the Blue Wolf Kingdom. Moreover, she was a Half-Beast person, so she definitely would not help an outsider conquer her own world.

After making this decision, she did not show it and continued to look indecisive. Now, her task was to stall for time and wait for the others.

Zhao Fu waited for a while, and because he had unlocked Perception, one of the Five Celestial Senses, the range of his senses was quite large. At that moment, he sensed three powerful auras heading over. His expression became heavy, and his body suddenly disappeared.

Cang Xuenu was startled and hurriedly unleashed a defensive barrier. However, Zhao Fu stretched out his hand and grabbed at her. The barrier was unable to stop him at all. It instantly shattered, and Zhao Fu's hand grabbed towards Cang Xuenu's throat.

At that crucial moment, Cang Xuenu unleashed her Nation Armament's power, causing a terrifying white flame to burn around her, and an immense power exploded out.

A dragon's roar sounded out from within Zhao Fu's body as he released all of the Great Qin Seal's power. The images of nine black dragons appeared around Zhao Fu.

Bang!

A muffled bang sounded out as Cang Xuenu's throat was grabbed by Zhao Fu, and her body was lifted up by Zhao Fu with a single hand.

Cang Xuenu looked quite terrified; she had never thought that Zhao Fu would be so powerful; a Nation Armament of a true Kingdom could compare to five or six Nation Armaments that belonged to factions that had not yet established Kingdoms. However, Zhao Fu was the King of a Marquisate Kingdom, which had over 10,000 regions, and he had all sorts of other powers. As such, Cang Xuenu was unable to defend against Zhao Fu at all.

Now that Cang Xuenu's throat was grabbed by Zhao Fu, killing her required just a single thought. Cang Xuenu felt the aura of death, and her body trembled in fear.

It was difficult for her to even breathe, and seeing that she could not change the situation, she gasped, "I agree... to submit... to you."

Zhao Fu coldly harrumphed but did not let her go. He stretched out his other hand, causing six balls of demonic qi to flow out, and they continuously twisted around in front of Zhao Fu's palm as if they were alive. Zhao Fu then pressed his hand against Cang Xuenu's abdomen, causing the six balls of demonic qi to fuse into her body.

Only after setting restrictions in her body did Zhao Fu relax. He threw her onto the ground and said coldly, "Hurry up and relocate the City Heart."

After being treated so roughly, Cang Xuenu felt quite wronged and felt some tears coming. When she heard Zhao Fu order her to relocate the City Heart, she felt relieved; at least the Blue Wolf Kingdom would survive in her hands.

They were just relocating the Royal City, so there were not any abnormal signs. Zhao Fu ordered the soldiers to take anything of value before quickly leaving.

Now that Cang Xuenu had surrendered, Zhao Fu naturally took in her City Lords and soldiers as well, but he had to do this secretly.

One of the reasons why Zhao Fu did not decide to conquer the Blue Wolf Kingdom himself was because the abnormal signs from conquering a Kingdom were simply too great and would attract others over.

Moreover, if the Lelai Kingdom conquered the Royal City and obtained massive benefits, the other Grassi Kingdoms would be dissatisfied, and the Half-Beast Kingdoms would make the Lelai Kingdom their main target too.

Chapter 1042: Seven Kingdoms

There were many factions more powerful than Great Qin outside the Legacy Lands, so Zhao Fu wanted to act more low-profile in order to avoid showing too much of his power. If he was attacked by many other factions, things would be quite bad.

In actuality, allying with other factions to attack others was quite good. With how weak the Lelai Kingdom was right now, it was the best choice.

Later, Zhao Fu would spread news that the Lelai Kingdom had obtained nothing, as the Blue Wolf Kingdom's Queen had relocated the Royal City and left already.

After doing all of this, Zhao Fu grinned and continued to give the order to quickly retreat and leave this place.

Following this, the three Kings arrived and saw that it was just an empty City, making them feel quite furious. One of them was angry to the point that he started launching attacks everywhere, destroying the City.

Before, they had agreed with Cang Xuenu to chase out the Grassi people for now before dealing with the Blue Wolf Kingdom.

However, Cang Xuenu had suddenly said that the Royal City was being attacked, so she had quickly returned.

They immediately felt that something was off and tried to stop her. After all, none of them trusted her and didn't want her to pull any tricks, like relocating the Royal City.

However, they had been unable to stop her. Some of her Generals and Corps had covered her, allowing her to run off. After arriving, they found that she had indeed played them and relocated the Royal City.

However, if they were in her shoes, they would have done the same thing. After all, there were seven Kingdoms invading, and the demise of the Blue Wolf Kingdom was guaranteed.

The three other Grassi armies also wanted to come and attack the Royal City, but it would have been quite difficult, so they gave up for now. Now that they heard that the Lelai Kingdom had gone there for nothing and that the Blue Wolf Kingdom's people had already relocated the Royal City and left, they did not care too much.

The seven Kingdoms devoured the Blue Wolf Kingdom's territory like wild beasts, not holding back at all. They quickly conquered Cities and regions, and facing these bandit-like people, the ones who suffered the most were the residents of the Blue Wolf Kingdom.

They could only run about in terror, trying to avoid this disaster. This was the consequence of their Kingdom falling.

In the end, all of the Blue Wolf Kingdom's territory was split by the seven Kingdoms, and the Blue Wolf Kingdom disappeared from the map, fading into history.

Originally, the Blue Wolf Kingdom had 340 regions, and because the Grassi people had attacked quite early on and did not face much resistance, they had obtained greater benefits.

In total, the Grassi people had conquered 230 regions, and each Kingdom had taken 40 or 50 regions, with the Lelai Kingdom taking the fewest. Zhao Fu had done this on purpose in order to reduce the amount of attention placed on them, paving the way for the future.

On the Half-Beast side, they only conquered 110 regions and had suffered quite a bit of losses from fighting. This made them quite angry – they had put in so much effort, yet most of the benefits had been taken by others.

The armies of both sides faced off against each other, their terrifying auras clashing and making everyone tremble as if they had fallen into icy water. All of the birds and beasts had already escaped, and no one dared to leave. The scene was incredibly silent and austere.

“You shameless Grassi people, you can keep the things you stole, but get the hell out of our world.”

One of the Half-Beast Kings, a tall man, looked quite furious as he shouted loudly to the Grassi people.

The Grassi side had an advantage in terms of soldiers, City Lords, and Corps, so they naturally did not fear the other side. After attacking the Blue Wolf Kingdom, they had plundered many resources, and all of them had smiles on their faces, feeling quite happy.

Of course, they did not need to return the things they had taken, but they wanted the territory as well. After all, they each only had 200 to 300 regions, and taking even a single region required much effort.

Now, they had taken 40 or 50 regions in one go, which was equivalent to one-sixth or one-fifth of their overall territory; how could they give away such a large piece of meat. Moreover, they had superior numbers, so they did not have to feel afraid.

On the Grassi side, a long-faced King said mockingly in a loud voice, “We took those things for ourselves through our own effort; why should we give them to you? Do you think we’re stupid? Plus, this territory doesn’t belong to you three!

“All of us are here to steal from others, so stop acting all righteous. If you want it, take it for yourselves. You think we Grassi people are afraid of you?”

The Half-Beast Kings were infuriated, but they did not lose their reason. After all, if both sides fought, they would be at a disadvantage. It was possible that they would lose what they already had and could even lose most of their forces.

“This is the Half-Beast world’s territory; as Half-Beast people, we have the right to say this. You shameless people dared to take our territory; aren’t you afraid of a war between worlds?” a slightly chubby man yelled.

The Grassi people disdainfully laughed. How could it be so easy to start a war between worlds? Neither side would benefit from such a war, and it would be other worlds that benefitted. As such, they did not worry too much about this.

Zhao Fu stood in the air but did not say much, trying to seem as inconspicuous as possible. He let the three others take the lead and watched the war of words unfold.

After facing off for a few days, fighting still didn’t break out between the two sides, as neither side wanted to escalate this matter. If an even more powerful faction became involved, it was possible that they would lose what they already had.

Following this, all of the Kingdoms started to build Great Walls, planning to close off their territories and slowly digest those regions.

After this operation, the Lelai Kingdom's relationship with the other Grassi Kingdoms became better. They were all quite welcoming of Zhao Fu and even invited Zhao Fu to a banquet to celebrate.

Zhao Fu politely refused and went back to the Lelai Kingdom to go through their gains from this operation.

The gained one Royal City, two Capital Cities, 300 or so Great Cities, 300 million people, and ten million Stage 1 soldiers.

Zhao Fu was quite satisfied with these gains. Of course, most of these things had been taken by Zhao Fu secretly; the others did not know about this.

Zhao Fu did not plan to bring most of these things back to Great Qin, and he instead decided to develop the Lelai Kingdom's strength. After all, the Lelai Kingdom was an important piece to Great Qin, so he had to properly develop it.

At the same time, Zhao Fu secretly re-established the Blue Wolf Kingdom within the Lelai Kingdom's territory in order to make preparations for conquering the Half-Beast world in the future.

Zhao Fu was unable to fully conceal this, as Zhao Fu was not the true ruler here. After hearing about this, Le Yuyu was somewhat against it – after all, it was another Kingdom within the Lelai Kingdom's territory, and it had not submitted to the Lelai Kingdom.

Chapter 1043: Ancient Tomb

Zhao Fu gave a detailed explanation to Le Yuyu and told her that he already had Cang Xuenu under his control. It was impossible for her to betray him, and he told Le Yuyu not to worry about the Lelai Kingdom's safety.

After hearing about Zhao Fu controlling Cang Xuenu, Le Yuyu did not seem too pleased and instead seemed quite jealous. She lightly hit Zhao Fu a few times, saying, "You're too fickle and unfaithful. You're not happy with just Us and Our daughter and want even more women."

Zhao Fu felt quite startled and did not understand what Le Yuyu meant. Only after asking did he realize that she thought that he had taken control over Cang Xuenu in the same way he had with her, using desire to control her. Not only could she not betray Zhao Fu, she always begged Zhao Fu to have his way with her.

This caused Zhao Fu to laugh, and he explained that he was not such a licentious person; he was actually quite pure. In response, Le Yuyu looked quite doubtful.

Afterwards, Zhao Fu told Le Yuyu to properly develop the Lelai Kingdom, increase her strength, and help the Blue Wolf Kingdom recover.

This was all for Great Qin to directly conquer the Grassi world and Half-Beast world after the Heavenly Domain Boundary disappeared.

However, he seemed to be missing something – Zhao Fu had seemed to have forgotten about the Elf world next to the Grassi world. He had a piece in the Half-Beast and Grassi worlds, but he also needed one in the Elf world for the future.

If Great Qin attacked the Grassi world, the two worlds on either side would not just sit there and watch. They would definitely try to attack Great Qin. As such, he had to set up a piece in the Elf world as well to prepare for the future.

After leaving the Lelai Kingdom, Zhao Fu went directly to the Elf world and collected as much information as he could. Wanting to set up a piece here would not be easy, and he could not just do it casually.

There were various requirements, such as potential. It had to have a high ceiling and be a Kingdom. Zhao Fu did not want to bother with factions that weren't even Kingdoms.

Another thing was that the faction had to be low-profile, making it difficult for others to discover. This would make it easier for Great Qin to secretly control it and fulfill Great Qin's goals.

It also had to be easily controlled; if the faction was too stubborn, it would be difficult to control and could expose Great Qin's plans.

There were also some other prerequisites, such as location, relations with other Kingdoms, and internal affairs.

As such, finding a suitable piece was quite complicated. It had to be done with a lot of preparation, so Zhao Fu had to collect a large amount of information.

A few days later, after much thought, Zhao Fu picked a target. Just as he prepared to go, he passed by a City that seemed quite chaotic. After asking around, he heard that there was an ancient tomb that had many good things a few hundred kilometers away.

Someone had obtained an Epic grade equipment from there, which was worth millions of gold coins. This was quite attractive to City Lords, so there were many people hurrying there from the City.

After hearing about this, Zhao Fu felt quite interested, but because he had things to do, he did not plan on going. However, the Clear Sable Sword within the Sword Mark slightly trembled as if it was telling Zhao Fu to go.

This was the first time it had reacted in such a way. Before, the Clear Sable Sword had been the second-ranked sword out of China's Ten Great Swords, and it had actually existed in history. It was not as fantastical as the Regulus Sword, but it was still a treasured sword only found in legends and had powerful spirituality.

It seemed that there was something that attracted it, so Zhao Fu thought about it and asked for the location of the ancient tomb before turning into a ray of light and flying over.

Within a valley, there were tens of thousands of people chaotically fighting. There was a cave mouth on a cliff face. Occasionally, ten or so rays of light would shoot out, and everyone would fight over them. Those rays of light were all treasures, and they were at least Gold grade and some were even Legendary grade.

Some people had entered the cave, and those outside were not very strong and did not have many allies. Four or five City Lords gave off powerful auras and stood guard around the cave mouth, stopping people from looking into the cave mouth.

Boom!

A powerful aura descended from the sky as an Elf wearing gold clothes appeared. Looking at the chaotic scene, his expression was cold as he said with a trace of arrogance, "I'm the Third Young

Master of the Muse family. All of you scam; this area will be governed by the Muse family in the future.”

After hearing the name of the Muse family, everyone’s faces fell. The Muse family was the most prestigious family in this Kingdom, and their authority was not inferior to the royal clan.

However, the Muse family was simply too domineering!

This was evidently a treasure trove with no owner, and they had not even entered, only waiting outside for some things that had been missed. And yet, they did not even allow this and claimed this place to be theirs.

Everyone felt quite angry, but thinking about how terrifying the Muse family was, they could only endure it. Opposing the Muse family was almost equivalent to the Kingdom. They would only do such a thing if they wanted to die.

Seeing that these people were slow to react, killing intent flashed in the eyes of the young man as he said, “You peasants deserve to die!”

Swish, swish, swish...

The young man in gold clothes waved his hand, causing ten massive leaves to shoot out. Countless people were sliced in half at the waist, causing pained cries to sound out and blood to fly everywhere. In just an instant, thousands of people had died.

The remaining people did not dare to remain and hurriedly ran away.

The City Lords standing guard at the entrance had grim looks on their faces. They looked at each other, and one of them stepped up and bowed before saying, “Third Young Master, Lord Keli is inside searching for treasures. This place is the territory of Lord Keli...”

Pa!

A slap sounded out as the City Lord who spoke was sent flying backwards, half of his face completely swollen.

The gold-clothed young man coldly laughed as he said, “Who does Keli think he is? Can he contend with the Muse family? You dare to use him to try to scare this young master? If you try that again, this young master will have your life.”

The face of the City Lord who had been slapped was incredibly red, and he suppressed his anger and lowered his head, not daring to say anything.

The other City Lords also lowered their heads and retreated to the side.

The gold-clothed young man coldly laughed, and just as he was about to fly into the cave mouth, something unexpected happened.

Boom!!

A river-like aura descended from the sky, making everyone feel as if they had fallen into a demon abyss. Their bodies and souls felt terror, and the gold-clothed young man’s expression changed. He turned to see that a black-cloaked figure had appeared in the sky.

The cloaked-figure waved his hand, causing the gold-clothed young man and the City Lords to be blasted back. They crashed onto the ground and coughed up large mouthfuls of blood.

The ordinary Elves running away saw this and began running away even faster. Someone even more powerful had come, and he did not put even the gold-clothed young man in his eyes.

Chapter 1044: Berserk Killing Intent

The gold-clothed young man crashed onto the ground and shouted at Zhao Fu, “Do you know who I am? You dared to harm me; the Muse family won’t let you off. You’re screwed!”

Zhao Fu stood in the air and disdainfully laughed. Why would Zhao Fu fear a large family from a Barony Kingdom? If it was a Dukedom Kingdom, Zhao Fu perhaps would have felt apprehensive, but this young man was nothing to him.

Since he wanted to die, Zhao Fu would satisfy him.

Boom!!

Zhao Fu stretched out a hand and grabbed at the air, causing space to seem to explode. A massive formless hand gripped the young man, who became terrified. He was absolutely unrestrained within this Kingdom, and he had never thought that someone would dare to kill him.

Bang!

(Boxno vel. co m) Just as the gold-clothed young man was about to say something, the formless hand tightened, causing him to explode and turn into a bloody mist. Only an Official Seal remained.

This Official Seal was useless to Zhao Fu, and it did not have the effects of an abandoned City Lord Seal. Otherwise, Zhao Fu could have at least used it to fuse into beasts to make them stronger.

The nearby City Lords were terrified and obediently knelt on the ground, not daring to move at all. That person hadn't hesitated dared to kill the gold-clothed young man, so he definitely looked down on the Muse family's power. How could they dare to offend such a person?

Moreover, even if they wanted to attack, they did not have the strength. They were not as strong as the gold-clothed young man, who had been instantly killed by that person.

Zhao Fu glanced at them, and seeing that they were tactful, he did not make a move against them. He did not need to worry about his identity because he was only passing by here. He most likely would not return, and those who had run away already knew to stay away.

Facing Zhao Fu's gaze, which seemed to be like that of a terrifying evil beast's, the City Lords' bodies trembled, and they felt incredibly fearful. How could such a terrifying person suddenly appear? This was simply too shocking.

Zhao Fu turned into a ray of light and directly passed them, flying into the mouth of the cave.

Inside, there was a road paved with bricks, and there were some carvings on the walls. A cold aura rushed out from within; this indeed seemed to be an ancient tomb.

Zhao Fu ignored these and continued to fly into the depths of the ancient tomb. Finally, he arrived at a large hall. This hall was hundreds of meters tall and over 1,000 meters wide. The walls were blood-red as if they had been painted using fresh blood, and they gave off a gory stench.

This made Zhao Fu feel quite surprised; before, Zhao Fu had thought that he would run into a few people, such as Lord Keli.

However, after going in, he only saw a heap of corpses and no living people. At the center of the hall, there was a vertical rift from which bloody qi continuously flowed out.

Swish, swish, swish...

Ten or so rays of light flew out from within the rift. Zhao Fu stretched out his hand, sending a wave of energy out that created a formless wall that blocked those lights. The lights were soon revealed to be treasures, all of them being Gold grade equipment. They were all quite ancient as well.

Facing this scene, Zhao Fu felt quite surprised. Moreover the corpses around him were proof that the things in front of him were not as safe as they seemed.

Just as Zhao Fu went up to take a look at the rift, the rift suddenly exploded out with a powerful attractive force, sucking him in.

Zhao Fu's surroundings blurred as he came to another world. This world was completely blood-red, and the sky was covered with cracks, making it seem like it was going to fall at any moment. The ground was also split, and there was thick blood flowing everywhere. It was a scene of utter desolation and deathly silence.

Suddenly, the boundless bloody qi flowed towards Zhao Fu as if it had a consciousness. Zhao Fu's gaze became serious as he unleashed his Emperor's Domain to keep that bloody qi outside.

“Kill, kill, kill, kill, kill, kill, kill, kill...”

At that moment, an intense killing intent filled Zhao Fu's brain, making him feel as if his head was going to split apart. A berserk killing intent exploded out of him like a wild gale. Zhao Fu's eyes became blood-red, and a blood-red flame appeared around him.

The Clear Sable Sword within the Sword Mark excitedly trembled, giving off clear sword hums, and a powerful blood-red light filled the Sword Mark region.

The other sword spirits' expressions fell because they could sense the Clear Sable Sword absorbing that berserk killing intent, and it was slowly corroding them too.

“Roar...” Dragons' roars sounded out from within Zhao Fu's body as the Great Qin Seal started to protect its master. It gave off Nation Power as Zhao Fu's Sovereign Bloodline also quickly devoured that berserk killing intent, and the phoenix crystal within his body also gave off a large amount of golden light.

Within the Sword Mark, the other sword spirits gave off their own powers, causing powerful sword lights to pierce through the Sword Mark, and Zhao Fu's right hand seemed to have countless traces of sword light shooting out of it.

Luckily, Zhao Fu was able to suppress the killing intent, and his eyes soon returned to normal. His back was covered with sweat, and he felt slightly scared.

That killing intent had been way too terrifying; he had blocked off the bloody qi, but the killing intent had still made its way in and had almost caused him to become a monster that only knew killing.

Moreover, that killing intent was not something that ordinary people would be able to endure. Those who were weaker would have their bodies immediately collapse, and even their spirits would be destroyed.

This was the reason for the heap of corpses outside – those people had most likely accidentally breathed in some of the bloody qi, and their bodies had collapsed because they had been unable to withstand that terrifying killing intent.

Zhao Fu had calmed down, but the Clear Sable Sword within the Sword Mark was still abnormally excited and continued to rampantly devour the berserk killing intent.

The Clear Sable Sword had been a sword of kindness, and it was not used to kill people. Because of this, Zhao Fu had been unable to kill people, and whenever he did, his heart would ache. As such, Zhao Fu had converted it into a sword of killing.

There was a saying that only trees that had its roots in hell could reach heaven and grow the purest flowers; in the same way, only a tree from heaven would be able to create the vilest fruits.

Zhao Fu understood this and understood why the Clear Sable Sword was so excited.

Shing!

Suddenly, a ferocious blood-red sword light containing immense power slashed at Zhao Fu from the left, and the air seemed to be cleaved in half.

Zhao Fu's gaze slightly changed, and he stretched out his left hand, causing nine black dragons to float out of his body, and the Emperor's Domain became ten or so times more powerful.

Boom!

The blood-red sword light slammed against the black energy barrier, resulting in a massive sound as shockwaves rippled out.

Crack!

A clear cracking sound could be heard as a few small cracks appeared on Zhao Fu's Emperor's Domain, and the blood-red sword light dissipated.

Zhao Fu turned and saw a figure to his left. It was a middle-aged Elf who looked quite strange. His eyes were blood-red, and there were fangs coming out of his mouth. His gaze was cold as he looked at Zhao Fu with his head cocked to the side.

His body gave off a powerful bloody qi, and he held a blood-red sword. That blood-red sword had a few tentacles that had tunneled into the Elf's arm, causing him to fuse with the sword.

Zhao Fu understood that this person was 'Lord Keli,' but now that he looked like this, he had been fully controlled by the killing intent.

At that moment, the golden dragon suddenly thought of something and said, “I understand what’s going on – this is the Killing Sword World.”

Zhao Fu was quite confused, as he had never heard of this before. Just as he was about to ask, the Elf once again attacked – his body blurred and suddenly appeared in front of Zhao Fu. He raised the blood-red sword and hacked down at Zhao Fu.

Zhao Fu immediately retreated, and as the sword hit the ground, a massive force spread out, causing the ground to crack. Rocks flew everywhere as an enormous crater appeared.

After missing, the Elf kicked off the ground and turned into a black blur as he continued to attack Zhao Fu.

Zhao Fu coldly harrumphed and took out the Death Disaster Sword. He sent a massive amount of Emperor’s Power into it, causing it to give off an intense light, and it gave off shocking deathly qi as it slashed out.

The Elf completely disregarded this and rushed over, slashing out a red sword light towards Zhao Fu.

Bang!

A muffled explosion sounded out as the Elf was blasted backwards. Even though the bloody qi had increased his battle strength, Zhao Fu was much more powerful, so the Elf was not a match for him at all.

The Elf crashed onto the ground and coughed up a large mouthful of blood before standing back up.

Boom!

An even more powerful aura exploded out as a blood-red flame appeared around the Elf, and the bloody qi in the surroundings started to flow towards him.

The golden dragon hurriedly said, "Hurry up and kill him, or things will become problematic."

Zhao Fu nodded and stretched out a hand towards the Elf. His golden pupil in his left eye dilated and started to quickly spin.

Clang, clang, clang...

Chains containing immense power flew towards the Elf as the Elf continuously dodged and slashed out, sending out blood-red arcs of sword light that destroyed the incoming chains.

However, even more chains flew towards him, and the Elf roared as the blood-red flames around him became even stronger. He ferociously slashed out, causing over 1,000 sword lights to fly out and cut apart the countless chains.

Chi!

At that moment, Zhao Fu suddenly appeared behind him and pierced his heart with his sword. However, the Elf immediately slashed at Zhao Fu backhanded.

This made Zhao Fu feel quite shocked – he had clearly pierced the Elf's heart, so how could he still move as if he was still fine? What was going on?

Facing this backhanded strike, Zhao Fu leapt backwards ten or so meters.

The golden dragon explained, "He's in the First Transformation of the Sword Obsession state. Only by destroying his body will you be able to kill him; otherwise, you won't be able to stop him."

Bang!

Just as the golden dragon finished speaking, the Elf once again attacked. Zhao Fu coldly harrumphed and raised the Death Disaster Sword, exploding out with all of his power. A gray light shot into the sky as Zhao Fu slashed down.

Boom!!

As the terrifying sword light flashed out, everything in his surroundings seemed to be slashed apart as the Elf's body was devoured by the attack. After everything settled, there was a 1,000 meter long sword gash on the ground, and the Elf had been reduced to bits and pieces.

“What were you saying about the Killing Sword World?” Now that he had killed the Elf, Zhao Fu had the time to talk to the golden dragon.

The golden dragon replied, “This is a matter from a long time ago before even the Heaven Murder Empire was established.

“I said before, the Heaven Awaken World is the main world, with the godly spirit world above and the underworld below. There are also many smaller subsidiary worlds.

“Some of those subsidiary worlds are quite big, and some are quite small. However, they did not come from the outside and were instead worlds that split off from the Heaven Awaken World because of various sorts of powers, forming their own worlds.

“The Killing Sword World was originally called the Sword World, and legends say that it was formed by a celestial sword. It contains supreme sword intent and is a holy lands for the cultivation of the way of the sword.

“The ruler of the Sword World was called the Sword Master, and the Sword World chose its own ruler. After a Sword Master died, it would choose the next Sword Master.

“To become the Sword Master, one naturally had to have extreme talent in the way of the sword and had to be a peerless genius, someone ordinary people cannot surpass.

“The Sword World was one of the most powerful factions back then and had countless experts. All of them cultivated the way of the sword, but after the 137th Sword Master appeared, everything changed.

“The 137th Sword Master was called a renowned prodigy. Not only did he have a Supreme Sword Constitution, but his comprehension towards the way of the sword was also beyond anything ordinary people could imagine. However, for some reason, the 137th Sword Master fell into the demon path and descended into madness.

“The Sword World changed because of him and also fell into the demon path, creating an Origin of Killing. This killing intent then fused with his sword intent, resulting in a killing sword intent. This sort of sword intent was primarily focused on killing, and the killing intent surpassed the sword intent. This resulted in the Sword World becoming the Killing Sword World.

“The Killing Sword World affected the rest of the Heaven Awaken World as well. The color of blood filled the surrounding hundreds of Domains, and a terrifying sword aura spread out in the sky, shocking the surrounding tens of thousands of worlds.

“Everyone in the Sword World were controlled by that killing sword intent and also fell into the demon path, just like that Elf you just saw.

“That state is called Sword Obsession, where the person and sword become one, and their body becomes controlled by the sword. They become a monster that only knows how to kill, and they are even more terrifying than ordinary sword demons.

“The more killing sword intent that they absorb, the more terrifying they become. This is split into a few levels, from the First Transformation to the Ninth Transformation.

“The First Transformation is just when the body is controlled by the killing sword intent, and this is the weakest state. However, just as you saw, that Elf was already quite difficult to kill. He did not die even when you attacked his vitals, and only by destroying his body were you able to truly kill him.

“In every Transformation, one’s power will become many times more powerful, and one’s body will go through changes as well. Both the person and sword will evolve. Those in the Second Transformation have to be killed in both body and spirit, and they can still heal over a long period of time.

“For those in the Third Transformation, even if their bodies are annihilated, they can still quickly recover. Their spirits also become extremely powerful and difficult to destroy.

“Those in the Fourth Transformation are almost unkillable and can only be sealed. Their bodies recover too quickly, and their souls have already become sword souls.

“Legends say that the 137th Sword Master has already entered the Ninth Transformation, and he has the terrifying power of a Celestial.”

Hearing this, Zhao Fu could not help but gulp; the 137th Sword Master had the power of a Celestial. Celestials were the peak existences in this world, and they were above countless godly spirits. They could casually take the lives of billions of creatures.

That sort of power was simply unimaginable, and just trying to think about it, Zhao Fu felt quite excited. However, looking at the ruined world in front of him, the ending of the 137th Sword Master definitely wasn't a happy one.

Chapter 1046: Sword Obsession

“What happened after? How did the Killing Sword World turn out like this?” Zhao Fu asked.

The golden dragon slightly sighed before saying, “Just as you've seen, this is how the Killing Sword World has turned out. This is because everyone who has gone into Sword Obsession turns into a monster who only knows how to kill.

“Back then, countless people in Sword Obsession charged out from the Killing Sword World and caused a disaster in the Heaven Awaken World. Tens of thousands of worlds were caught up in this, and in the end, a few true Celestials appeared and put an end to the disaster.

“The people in Sword Obsession were all killed, and even the 137th Sword Master was killed by a few Celestials, resulting in the Killing Sword World being obliterated.

“This place is most likely a small piece of the Killing Sword World, perhaps the only one remaining. After all, with the power that Celestials wield, if they wanted to destroy a world, they could destroy even the source of the world, leaving behind not even a trace. This small piece surviving is already a tragedy.”

(Boxno vel. co m) After hearing the golden dragon's words, Zhao Fu sank into his thoughts and considered what to do.

His first thought was to leave this place, seal the rift, and destroy the ancient tomb. That way, no one would be able to discover it. After all, this killing sword intent could cause even Zhao Fu to lose control, and that was with how powerful he was. If it was ordinary people, they would not be able to resist at all.

However, his second thought was to gain some benefits from here. The more dangerous a place was, the more opportunities were awaiting, and it could greatly benefit Great Qin.

There were still some treasures, which were the things that flew out of the rift. Zhao Fu did not care too much about them though, as there were not many things that interested him.

Currently, Zhao Fu felt quite indecisive, so he decided to ask the golden dragon for advice. After all, it knew more than Zhao Fu.

The golden dragon thought to itself for a while and was not in a hurry to respond. Only after a while did it reply, "Zhao Fu, this is just a small piece of the world, so it shouldn't be too dangerous. However, you need to still be careful. If there's any danger, you need to quickly leave."

After hearing this, Zhao Fu nodded and thought about it before taking out the extremely excited Clear Sable Sword.

Right after he took it out, the Clear Sable Sword continuously trembled and gave off sword hums, absorbing the surrounding bloody qi. The bloody qi in the surroundings quickly gathered towards the Clear Sable Sword.

A powerful killing intent flowed out of the Clear Sable Sword. Even though it was quite berserk, it could still be controlled, and Zhao Fu let out a sigh of relief.

Perhaps the Clear Sable Sword would be useful later, so Zhao Fu took it out now and unleashed his Emperor's Domain with his full strength. The nine black dragons surrounded Zhao Fu and protected him, and he started to carefully investigate this place.

He first investigated the boundaries. Even though the bloody qi contained killing intent, Zhao Fu could now withstand it. There were not any things at the boundaries, so it most likely would not be too dangerous.

A few hours later, Zhao Fu had finished quickly investigating the boundaries and found that this place was not very big, only a bit bigger than a region. The outer region was essentially the same, with a blood-red sky, cracked ground, and blood everywhere. There were no living creatures, only deathly silence.

Seeing that there was not any danger, Zhao Fu let out a sigh of relief. The Clear Sable Sword had gone around the boundaries with Zhao Fu, and it now excitedly pointed him to the inner region.

However, Zhao Fu returned to where he had entered. It had been some time since he had killed the gold-clothed young man, and he expected that the people from that Kingdom would be coming soon.

Zhao Fu thought about it and decided to hide this matter about the Killing Sword World for now and continue thinking about what he would do next.

Boom! Boom! Boom...

Massive sounds rang out as the original cave mouth and the entire mountain collapsed. The expressions of the City Lords outside fell – Lord Keli was still inside, and it seemed that he could be in trouble.

That terrifying existence had not come out, and they did not know what was going on inside. Some people had sent messages back, and there were many people hurrying over.

They were worried about the safety of Lord Keli, and the Muse family's Third Young Master had died here, which was a big matter, so they had to report it to the higher-ups.

Now that the mountain had collapsed, they started to panic. A large group of soldiers and over 100 City Lords soon arrived. This had originally been a small matter, but because of the gold-clothed young man's death, it had instantly shaken the Kingdom.

Over 100 City Lords had come; this displayed the Muse family's strength within the Kingdom.

Following this, they found the City Lords who had been standing guard outside and asked what had happened. After hearing about it, they felt chills in their hearts – that person had the ability to instantly kill the gold-clothed young man, who had an Official Seal equivalent to a Capital City.

That person was extremely powerful and did not seem to care about the Muse family at all. After all, the gold-clothed young man had said who he was, yet that person had dared to kill him. That person's identity definitely was not simple at all.

Most people from the Muse family were quite intelligent. Even though they could do whatever they wanted within this Barony Kingdom, they knew they were nothing in front of true experts.

The higher-ups from the Muse family were quite troubled about this – on the one hand, they were quite furious as someone had dared to kill a person from their family, but on the other hand, they were worried about offending someone they could not offend. If that was the case, the entire Muse family could be doomed.

They first did some careful investigations and found that that person may have left using special methods. However, they burned this enmity into their memories and hoped to take revenge in the future.

They had only felt curious about this ancient tomb and thought that there was nothing of great value inside. Even if there were, they most likely had been taken by that person.

Within the mountain, Zhao Fu had already used a magic formation to conceal the region, and he had used all sorts of items to stabilize the rift, making it so that he could control it.

He was not sure what was going on. Why had a piece of the Killing Sword World appeared here? Why the rift was in this ancient tomb?

After entering the rift again, Zhao Fu started to head to the inner regions of the Killing Sword World.

One day later, Zhao Fu finished his investigations. He did not find anything dangerous, nor did he find any living creatures. It was deathly silent all around, and he had obtained over 10,000 pieces of Gold grade equipment and dozens of Legendary grade equipment.

These things had all been quite powerful, but due to the corrosion of time, their grades had fallen. This was like the underground region, but he had collected these for free and did not have to fight for them.

After thinking for a moment, Zhao Fu decided to head to the innermost region.

At the same time, Zhao Fu started to be extremely careful. Massive amounts of ghostly qi flowed out of him, forming a gray defensive barrier with the Six Paths diagram on it.

He had the Emperor's Domain on the outside, the Six Paths defensive barrier as a second line of defense, and finally the nine dragons around his body as the final barrier. The bloody qi in the depths was incredibly dense, and the killing intent was many times more intense than at the boundaries of the Killing Sword World. As such, Zhao Fu had to be incredibly wary and could not be careless at all.

Chapter 1047: Sword Soul

After preparing everything, Zhao Fu carefully entered the depths of the Killing Sword World. There was dense bloody qi all around him, and he could only see three or four meters around him. It was completely silent and even more terrifying than in the outside world, giving off a pure killing intent.

Shing, shing, shing...

Sword hums sounded out as ten or so figures appeared in the bloody mist around him. These figures were half-transparent, and their various features were quite blurry; only their blood-red eyes were extremely eye-catching, and they held swords that were black and blood-red colored.

The golden dragon said, "These are sword souls from people going into Sword Obsession; Zhao Fu, be careful."

Zhao Fu nodded, and the ten or so sword souls looked at Zhao Fu and attacked him in that instant. They were extremely fast and seemed to appear before him in the next second. They simultaneously slashed out, sending out crescent-shaped blood-red sword lights.

At that moment, Zhao Fu gripped the excitedly trembling Clear Sable Sword and slashed out. A massive blood-red crescent giving off an incredibly sharp aura flew out.

Boom!

The blood-red crescent flashed past and sank into the bloody mist, seeming to tear space apart. The sword souls' sword lights and their bodies were all split apart.

The sword souls' bodies started to blur before disappearing, leaving behind faint images of swords that hung in the air. They looked like normal swords, but they were all slightly different, just like how there were slight differences between people.

Zhao Fu felt quite shocked; the Clear Sable Sword had actually become so powerful. After absorbing so much berserk killing intent, it was now many times more powerful.

He wanted to take a look at the information of those illusory swords, and the golden dragon explained, saying, "These are the sword soul essences left behind by sword souls. If you fuse it into a sword, you can forge an ordinary sword into a sword of killing."

The Clear Sable Sword continuously trembled and gave off a desire to devour those sword soul essences. Zhao Fu thought for a moment before raising it and pointing it at those illusory swords.

An enormous attractive force burst out, and all of those illusory swords were sucked into the Clear Sable Sword. In that moment, the Clear Sable Sword gave off an even more powerful killing intent and a brilliant blood-red light.

As Zhao Fu gripped the Clear Sable Sword, a massive amount of killing intent flowed into Zhao Fu's head, causing his eyes to once again become red.

The golden dragon could not help but say, "Zhao Fu, if the Clear Sable Sword keeps evolving like this, it will be very difficult for you to control it. Even though the Clear Sable Sword's heart sword is within your heart, the killing intent it contains is too powerful, and you won't be able to endure it in your current condition."

Zhao Fu felt quite startled and asked, "Is there any way to increase my control over it?"

The Clear Sable Sword was now quite powerful and seemed to be incredibly destructive to the sword souls here. It was the best thing for exploring the Killing Sword World, and if he had to give up on it, it would make exploring this place much more difficult.

Zhao Fu did not want to give up on the Clear Sable Sword, but he did not have enough power either to defend against the killing intent. He was not sure what to do, so he could only ask the golden dragon.

The golden dragon thought about it before saying, "There are a few methods, but you'll have to pay a price."

Zhao Fu let out a sigh of relief and smiled; it was fine as long as there was a way to resolve this. He then started to head into the depths of the Killing Sword World.

Zhao Fu did not directly rush in, because the deeper he went, the denser the bloody mist became. It was almost becoming liquid, and Zhao Fu felt an increasingly greater sense of danger. He somewhat did not dare to enter the innermost regions and decided to have the Clear Sable Sword become stronger first.

Shing!

A blood-red crescent gave off terrifying power as it slashed out, killing ten or so sword souls. The sword souls dissipated, leaving behind ten or so illusory swords in the air.

Zhao Fu raised the Clear Sable Sword and pointed it, causing those illusory swords to be sucked into the Clear Sable Sword. In that moment, countless sword hums sounded out from within the Clear Sable Sword, piercing through the surrounding hundreds of kilometers, and boundless blood-red light burst out from it.

The Clear Sable Sword gave off an even greater killing intent, and Zhao Fu's eyes once again became blood-red, filled with a pure killing intent.

The golden dragon said in his mind, "You can begin the first refining!"

Zhao Fu suppressed the killing intent in his mind, and his eyes returned to normal. After hearing the golden dragon's words, he nodded and began the first refining, which was blood refining.

He first used his power to cause the Clear Sable Sword to float in the air, after which he slashed his hand and let out some of his blood. He controlled it and caused it to flow into the Clear Sable Sword.

After absorbing Zhao Fu's blood, the Clear Sable Sword continuously trembled and seemed quite delighted. The sword gradually went through changes, and a black dragon inscription appeared on the blade. Apart from the cold and murderous aura it gave off, it now also had the dignity of an Emperor.

Zhao Fu let out quite a lot of blood, causing his face to become pale. However, he felt a closer connection between himself and the Clear Sable Sword, causing him to smile.

Because this place was filled with danger, Zhao Fu did not dare to advance. He remained where he was and consumed a few spirit medicines to recover first.

A few days later, a storm of sword qi giving off an incredibly sharp aura covered over 100 sword souls. Under the effects of the powerful sword qi, they gradually dissipated, leaving behind illusory swords.

Zhao Fu once again pointed with his sword, but this time, the Clear Sable Sword did not give off an attractive force. Instead, it was like a king among swords and gave off a King's aura, and the illusory swords slightly trembled and seemed to submit as they flew into the Clear Sable Sword by themselves.

By now, the Clear Sable Sword had fused over 1,000 sword souls, and in that moment, over 1,000 sword hums sounded out. That sound seemed to be able to pierce through metal and stone, and it reverberated throughout the surrounding 10,000 kilometers, causing leaves to fall from trees.

Boom!

The Clear Sable Sword once again gave off a powerful aura, and a blood-red flame erupted around the blade. Terrifying auras blew out like wild gales, and the ground below could not withstand this and started to crack.

At that moment, the golden dragon cried out, "Zhao Fu, start the second refining!"

Zhao Fu felt a bit hesitant towards the second refining, but he quickly made his decision. He continued to keep the Clear Sable Sword in the air and took out the Royal Wood Sword. He endured the pain and cut off his left hand.

He then used the Royal Wood Sword to quickly heal the wound and consumed a large number of medicinal pills, causing his hand to regrow

At that moment, Zhao Fu used his power to cause his chopped-off hand to fly towards the Clear Sable Sword.

The second refining was the body refining, which required a certain part of the body. This was the price that the golden dragon had mentioned.

The Clear Sable Sword gave off bloody flames, which covered the hand, and it gradually fused into the sword. An even more intense aura exploded out as if an Emperor was descending. At the same time, it gave off boundless killing intent that almost seemed corporeal, covering the surrounding 10,000 meters.

Chapter 1048: Emperor's Path

Now, Zhao Fu felt as if the Clear Sable Sword had become part of his body, and there was an intimate connection between them. His control over the Clear Sable Sword had also become much stronger.

The terrifying and berserk killing intent was now controllable. It was not Zhao Fu directly controlling it but him controlling it through the Clear Sable Sword. Otherwise, with Zhao Fu's current strength, he would have been taken over by the killing intent.

Zhao Fu rested here for half a month, recovering from all of his wounds before heading into the depths of the Killing Sword World.

Shing, shing, shing...

Zhao Fu raised the Clear Sable Sword, causing an enormous killing intent to explode out. A blood-red flame appeared around the blade as sword souls holding swords appeared around him. There were over 1,000 of them, and they surrounded him like stars around the moon.

In front of him, there was also over 1,000 sword souls, and they gave off cold killing intents as they rushed over with massive sounds. Together, they looked like a massive sword filled with killing intent.

Boom!

Zhao Fu's sword descended, causing the sword souls around him to flood forwards towards the incoming sword souls.

Shing, shing, shing...

A few sword hums sounded out, leaving behind only illusory swords in the air. Zhao Fu's sword souls were incredibly ferocious, swarming forwards and killing ordinary sword souls in a single strike.

Zhao Fu casually waved the Clear Sable Sword, causing it to give off a might that was the combination of its King's aura and killing intent. Under that terrifying might, the thousand sword souls mournfully cried before flying towards the Clear Sable Sword.

Bang!

The thousand sword souls fused into the Clear Sable Sword, and it had now fused over 10,000 sword souls. It gave off an even more horrifying aura, and the air seemed to explode as Zhao Fu's hand, which was gripping the Clear Sable Sword, was also shaken off.

The Clear Sable Sword hung in the air, giving off a powerful aura and sending out wild gales. Space seemed to twist around it, and a large crater caved in beneath it.

Shing, shing, shing...

The sounds of ten thousand swords could be heard, and the sounds rippled out like a corporeal shockwave, destroying everything in the surrounding 10,000 meters. This affected the entire region, and even Zhao Fu was forced backwards.

The countless traces of bloody qi madly gathered and condensed into blood-red crystals around the Clear Sable Sword. They gave off faint red lights and looked devilishly beautiful.

“Zhao Fu, hurry and start the third refining and accept the Clear Sable Sword’s heart sword. Otherwise, it will completely leave your control, and its heart sword will give you backlash,” the golden dragon quickly said.

Zhao Fu did not hesitate as he stretched out his hand towards the Clear Sable Sword and started to take control of it again. Luckily with his heart sword and the two refinings, Zhao Fu was able to quickly take control of it again.

Following this, Zhao Fu looked quite pained as he started to split off a bit of his own soul. The third refining was a soul refining, using Zhao Fu’s soul to refine the Clear Sable Sword.

A black and gold mote of light as big as a mung bean flew out from between Zhao Fu’s eyebrows and floated into the Clear Sable Sword. Zhao Fu closed his eyes and calmed down his mind, accepting the heart sword, which was that eye in Zhao Fu’s heart, and fused it into his soul.

Boom! Boom!

Two explosions sounded out as two terrifying auras burst forth. The Clear Sable Sword gave off an incredibly domineering Emperor’s aura, and Zhao Fu gave off a terrifying sword intent. The Clear Sable Sword had truly transformed from a sword of kindness into a sword of killing.

Because Zhao Fu did not cultivate the way of the sword and merely liked using swords, he did not have much talent in the way of the sword. Compared to Great Qin’s number one swordsman Ge Nia, Zhao Fu was incredibly lacking. However, he had now obtained killing sword intent.

Sword intent was something that only high-grade cultivators could comprehend, and even Ge Nia had not comprehended it. And yet, Zhao Fu had obtained it first.

However, this sword intent was not something Zhao Fu had comprehended and gained himself; rather, it had been given by the Clear Sable Sword. Moreover, it was a sword intent within his soul, which was extremely powerful.

The Clear Sable Sword now felt like it was a clone of him. After all, Zhao Fu had fused his blood, flesh, and soul all into it, and he had also fused with the Clear Sable Sword’s heart eye. It could be said that there was now great affinity between them.

Out of all of Zhao Fu's swords, the Clear Sable Sword was definitely the one that was the closest with him. No other sword could compare.

After resting for a while, Zhao Fu cautiously proceeded to his final destination.

Within the dense bloody mist, sword hums continuously sounded out. Countless sword souls flooded over, giving off shocking sounds. The sword aura they gave off was incredibly ferocious as if nothing could withstand it. There were far more sword souls here, and they were much stronger than outside.

However, Zhao Fu held the Clear Sable Sword and did not fear those sword souls or that killing sword intent at all.

Facing the countless sword souls, Zhao Fu smirked as he sent his power into the Clear Sable Sword. Countless traces of blood-red qi gathered to form blood crystals, and Zhao Fu stabbed the sword into the ground.

Boom!

A massive explosion sounded out as enormous amounts of sword qi burst forth from below the ground. That terrifying power instantly spread out, annihilating everything in the surrounding ten kilometers.

After everything was settled, a ten kilometer wide crater appeared in the ground, with countless illusory swords floating above it. Zhao Fu smiled as he waved the Clear Sable Sword, causing the countless illusory swords to fly over and fuse into it.

Finally, Zhao Fu entered the depths of the Killing Sword World. This place was 100 kilometers wide, the ground was covered with blood crystals, and there were massive crystals floating in the surroundings. Sword light fell from the sky, creating a fantastical scene.

Zhao Fu carefully stepped in, but an enormous wave of killing intent flowed into his mind. Zhao Fu's eyes once again became blood-red colored, and drops of blood flowed out from his eyes.

Zhao Fu did not hesitate and immediately used the Clear Sable Sword. A blood-red colored sword qi barrier expanded out of the Clear Sable Sword, surrounding Zhao Fu's body. The killing intent gradually retreated, and Zhao Fu let out a breath before continuing onwards.

A blood crystal mountain appeared before him, and it was over 10,000 meters tall. It gave off a massive, cold aura, and what Zhao Fu noticed was that there was a black and blood-red shard at the top.

This shard was most likely the shard of a sword, and it was only two fingers wide. It was filled with cracks, most likely due to the passage of time, and it looked quite ancient. It did not give off a powerful aura and simply lay there on top of the mountain.

The golden dragon replied excitedly, “That’s a Killing Sword World Shard, which is the core of this space. However, its spirituality has been killed by those Celestials, and because a lot of time has passed, it has grown much weaker. Perhaps you will be able to use it.”

Hearing the golden dragon’s words, Zhao Fu felt quite happy because this was something that had been destroyed by Celestials. Even though it had become much weaker, if Great Qin could use it, it would benefit Great Qin greatly. Just thinking about it made Zhao Fu feel excited.

However, just as Zhao Fu wanted to go and retrieve it, he found that under the mountain, there were four blood crystals coffins that were each two meters long. There were four corpses within them. They were all male, had handsome appearances, and held blood-red swords.

Chapter 1049: Emperor Killing Sword World

As Zhao Fu came closer, the four crystal coffins started to show signs of opening. Seeing this, the golden dragon said, “Zhao Fu, give your body to me. We need to seal them. With your power, you won’t be able to kill them; they’re most likely at the Fourth Transformation of Sword Obsession.”

After thinking about it, Zhao Fu handed his body to the golden dragon.

The golden dragon took over Zhao Fu’s body, and a powerful aura instantly exploded out. A golden flame burned around Zhao Fu, and the five pupils in his left eye all became a pure golden color, giving off an Emperor’s might.

The Great Qin Seal continuously trembled as a massive amount of Great Qin’s Nation Power entered Zhao Fu’s body. The nine black dragons around Zhao Fu’s body became golden dragons.

At that moment, Zhao Fu's aura completely changed as if he had become a different person. It was no longer as domineering, steady, and mysterious. Instead, it became noble and cold, and it seemed quite magnificent.

Boom!

The golden dragon controlled Zhao Fu's body and stretched out a hand, causing a two meter wide gold magic formation to appear in front of Zhao Fu's hand. Zhao Fu's five golden pupils in his left eye started to quickly spin, and millions of golden chains flowed out of the gold magic formation, ferociously shooting towards the four blood crystal coffins.

At that moment, the four blood crystal coffins continuously shook, and a large amount of bloody qi rushed out of the coffins, which were about to open.

The golden dragon controlled Zhao Fu's body and gave a trace of an arrogant smile. The six gray dots in Zhao Fu's right eye were also dyed a golden color and started to spin as a massive ghostly power flowed out.

Roar! Roar! Roar! Roar!

Four demons that were hundreds of meters tall and giving off golden light roared as they appeared next to the four blood-red coffins. They slammed their hands down, pressing down on the lids of the coffins.

The blood-red coffins gave off a few traces of blood-red sword qi, which were incredibly sharp. In just an instant, they had cut the demons into pieces, but by then, the countless golden chains had arrived. They wrapped around the blood-red coffins and started to drag them underground.

The four people in the coffins suddenly opened their blood-red eyes, and even more bloody qi flowed out.

Zhao Fu, controlled by the golden dragon, lightly laughed and pulled with his hand. The golden chains were pulled, and the four blood-red coffins were dragged into a sealed region.

Boom!

The four blood-red coffins were dragged into the sealed area, but it was not enough to seal the four people. The four people exploded out with terrifying power, causing the sealed region to crumble.

However, Zhao Fu's expression did not change. He waved his hand, causing dozens of thousands Gold grade swords and hundreds of Legendary grade swords to fly out.

The swords hung in the air, and under the golden dragon's control, they started to move in an orderly way. They formed a sword qi formation, from which a massive storm of sword qi exploded out, and a sharp aura filled the entire space.

“Ten Thousand Sword Sealing!” the golden dragon loudly shouted and pointed at the ground. The ten thousand swords simultaneously landed, causing space and time to fall into chaos.

Swish, swish, swish...

The swords stabbed into the ground, and sword qi shot into the sealed region. The countless swords formed a sword qi formation and fused with the sealed region, causing the collapsing sealed region to stabilize.

The four people within the blood-red coffins howled, and a massive amount of blood qi bashed at the sealed region. However, the bloody qi was reduced to mere wisps by the sealed region, and it entered the swords stuck in the ground.

“Alright, the sealing is complete. Not only can the Ten Thousand Sword Sealing suppress them, but it can also absorb their sword intent. When the time comes, you'll have over 10,000 swords of killing!” the golden dragon said as it returned Zhao Fu's body to him.

Zhao Fu smiled as he saw that this matter was resolved. He then asked curiously, “How can the Killing Sword World Shard be used?”

The golden dragon excitedly replied, “You can fuse the Clear Sable Sword with the Killing Sword World Shard. This will make you the 138th Sword Master, and you will become the first Sword Master of the ‘Emperor Killing Sword World.’”

“After all, the Killing Sword World has long since been destroyed, and what remains is just a small piece of it. Its power and spirituality are both quite weak, so the core from now on will be the Clear Sable Sword as opposed to the Killing Sword World Shard. As such, it can be called a new world.

“The Clear Sable Sword has fused with your blood, flesh and spirit, so it has become an Emperor’s Sword. Thus, this space can now be called the Emperor Killing Sword World!

“Of course, because the Killing Sword World Shard is the cornerstone, all of the power in this space will belong to the Killing Sword World. As such, it can still be called the Killing Sword World, and you will be the 138th Sword Master.”

After hearing this, Zhao Fu dryly laughed. After hearing how terrifying the 137th Sword Master was, to the point that true Celestials had to descend, if he were to become the 138th Sword Master, wouldn’t he be much too weak? The position of Sword Master seemed to have come too easily.

In actuality, Zhao Fu had never thought that something like this would happen; he had actually formed a connection like this with the Killing Sword World, and he had become the 138th Sword Master.

However, if Great Qin could use the Killing Sword World, it would be an extremely good thing.

Zhao Fu flew up to the top of the blood crystal mountain and did what the golden dragon told him. He first released the Sword Soul Domain that the Clear Sable Sword had just created.

The Clear Sable Sword became even more excited. It continuously gave off waves of blood-red light, and a 10,000 meter wide blood-red barrier, giving off thunderous power and a powerful aura of suppression, expanded out.

At the same time, illusory sword souls holding blood-red swords appeared within the barrier. Their blood-red eyes contained cold killing intent, making people feel despair.

Zhao Fu first controlled the Clear Sable Sword to move closer to the Killing Sword World Shard before cutting his hand and releasing some blood. The blood fused into the shard, increasing their affinity.

Only then did he started to control the sword and shard to fuse together. Because the Killing Sword World had already been heavily damaged and corroded by time, it was incredibly weak.

The shard started to shatter before fusing into the Clear Sable Sword. If it wasn't for the fact that the Killing Sword World Shard did not have much power left, Zhao Fu would not have been able to fuse it into the Clear Sable Sword. This level of power was not something that Zhao Fu could affect.

Not only would the Clear Sable Sword not have been able to withstand that shard, but Zhao Fu would also not have been able to withstand the killing intent, resulting in him exploding and dying.

Following this, the last bit of the Killing Sword World Shard fused into the Clear Sable Sword, and the countless sword souls in the domain were also absorbed into the Clear Sable Sword. The Sword Soul Domain that the Clear Sable Sword released was once again absorbed back into it.

Boom!

A shocking explosion sounded out, and it was as if the heavens and earth were being destroyed. Outside the space, countless people heard this explosion and felt a suffocating wave of terror.

The sky seemed to be torn apart by sword qi, and countless rays of blood-red light covered the ground. Waves of cold killing intent flowed into the world, and at that moment, the entire world seemed to fall deathly silent as all living creatures trembled.

This abnormal sign covered hundreds of worlds, shaking the entire Ancient Stem Domain.

Chapter 1050: Dao Cultivation Sect

There were 1240 or so worlds in the Ancient Stem Domain, and they were split into four directions. Great Qin was in the western boundary of the Ancient Stem Domain.

In the worlds covered by the blood-red light, from the aristocracy to the commoners, all of them crumpled to the ground under the effect from the terrifying killing intent. They looked at the sky in terror, not knowing what had happened and why such terrifying abnormal signs had appeared.

This killing intent was the sort that could destroy all creatures and annihilate the heavens and earth. Its power completely exceeded anything people could imagine.

This was just the remnant power from the Killing Sword World, and it was enough to affect hundreds of worlds. If it was at its peak, it would have sent tens of thousands of worlds into chaos; no less than expected from the power that had been destroyed by Celestials. It was simply too powerful.

The ones that had it the worst were the Elf world. They were right under that terrifying killing intent and bore the direct power of that killing intent. They all stood there frozen, with dull expressions. Their eyes became blood-red, and blood continuously flowed out of their mouths.

This was just the effect of being influenced by the killing intent; they had not even fallen into Sword Obsession. This was mainly because the Killing Sword World Shard did not have much power left.

Otherwise, with that killing intent, it would have been enough for everyone in the Elf world to fall into Sword Obsession, resulting in another horrifying tragedy.

If an entire world of people had charged at other worlds to kill while being under Sword Obsession, entire worlds could have been exterminated.

Countless Elves in the Elf world bore the killing intent, which corroded their bodies. This had advantages and disadvantages: The advantages were that the Elves could walk the path of killing, but the prerequisite was that they could withstand the killing intent corroding their bodies. If they could not control it, the killing intent would corrode their bodies and make them weaker and weaker.

Even the Kings in the Elf world were affected by the killing intent. They stood transfixed with blood-red eyes. However, because of their Nation Fate and Fate Dragons, they were not harmed as much.

At the same time, they tried to control this killing intent.

The surrounding worlds were not affected as much as the Elf world. Countless people ordinary people lay on the ground, while the Kings exploded out with their full power to defend against the killing intent with unsightly expressions, facing these abnormal signs.

The hundreds of worlds had no idea why this was happening. Was it something natural? Or something caused by someone?

Most people thought that this was something caused by natural forces. After all, this sort of terrifying might was not something a person could cause; it was something that could shake all beings under the heavens.

If it was caused by a person, that would be too terrifying and would cause a catastrophe; the situation in the Ancient Stem Domain would completely change.

However, facing that killing intent that seemed to be able to destroy the heavens and the earth, most people did not dare to believe that it had been caused by a person because the consequences would be unimaginable.

The Ancient Stem Domain had 1,200 worlds, and it had slightly above-average strength. This sort of terrifying abnormal signs could affect hundreds of worlds, so naturally most of the worlds within the Ancient Stem Domain could feel it.

There were five great Kingdoms and one great Sect within the west of the Ancient Stem Domain, and the Bear Mountain Kingdom was one of them. At that moment, a middle-aged man with thick hair stood on a tall platform, looking at the devilish bloody qi and terrifying killing intent in the horizon, causing his hands and feet to feel slightly cold.

This was the King of the Bear Mountain Kingdom, Xiong Batian.

Facing such a terrifying abnormal sign, Xiong Batian's expression was quite serious. These abnormal signs were simply too shocking, causing even him to feel a trace of fear. Just what had caused this? What had happened?

If this situation went out of control, it would cause a terrifying disaster within the Ancient Stem Domain. They could not allow the situation to continue developing and had to find out what was happening.

“Proclaim Our orders, the Bear Mountain Kingdom's experts are to head towards the abnormal signs as quickly as possible and investigate the reason for the abnormal signs, and the army is to be on standby.”

As orders were given out, the Bear Mountain Kingdom's experts moved out towards the boundary of the Ancient Stem Domain, and soldiers wearing armor and holding sharp weapons made preparations for battle.

It could be seen how seriously the Bear Mountain Kingdom took this, because if a catastrophe happened and they were caught unprepared, the Bear Mountain Kingdom could be heavily wounded. Xiong Batian felt a clear sense of danger.

It was not just the Bear Mountain Kingdom; the other Kingdoms and Sects also acted this way, sending out experts to investigate and readying their armies for any battles.

Since the large Kingdoms and Sects acted like this, the other Kingdoms did not dare to be careless either. They acted in kind and prepared their armies. Because they were in the west, they could sense how terrifying that killing intent was; once the situation went out of control, there could really be a catastrophe.

This caused the atmosphere in the west of the Ancient Stem Domain to become quite austere. Everyone prepared for the worst, ready for any dangers.

The large factions in the east of the Ancient Stem Domain also sensed the terrifying ripples from the west. Even though they were quite far away, they could still sense how terrifying the abnormal signs were, causing their hairs to stand on end and for them to feel a sense of crisis.

Just what had happened in the western side? Why had such terrifying abnormal signs appeared? What had caused them?

Everyone sent out experts to the west to find the reason.

The northern factions in the Ancient Stem Region also took this matter quite seriously. They felt that it could be a catastrophe, as that pure killing intent had almost pulled them into the demonic path.

A few people slightly sighed – it was likely that something big was going to happen in the Ancient Stem Domain.

On top of a majestic mountain in the south of the Ancient Stem Domain, an elderly man with plain looks and wearing gray robes looked to the west.

He was the Sect Master of the Dao Cultivation Sect, which was the most powerful out of the Ancient Stem Field's five great Sects, having power that was either the greatest or second in the Ancient Stem Domain.

"Sect Master, the various factions have all sent experts to investigate the reason behind the abnormal signs; how should we respond?" a beautiful woman respectfully bowed as she spoke.

The gray-robed elder looked quite serious as he shook his head, saying, "No need to go. Even if we go, we won't be able to find anything. The Heaven's Secrets there are in chaos, and the area is filled with bloodlust. The Ancient Stem Domain's Fate, and even the Fate of the surrounding Domains, are gathering there.

"I'm afraid that a peerless evil creature has appeared and that the situation in the Ancient Stem Domain is about to change. Everyone might be dragged in unless they leave the Ancient Stem Domain; otherwise, they won't be able to escape this massive vortex.

"In recent years, the western boundary of the Ancient Stem Domain seems to have gone through many things. There was that big matter that attracted over ten or so higher-beings. The Ancient Stem Domain will be going through an eventful period. No, this Sovereign must go and personally take a look."

After saying this, the gray-robed elder turned into a ray of light and disappeared over the horizon.
