

The Lord 1171

Chapter 1171: Eastern Flow Ancient Sword

The Ancient Sword Sect's Sect Master's expression once again fell; he had never thought that Zhao Fu could explode out with such immense power.

Swish, swish, swish...

The bronze swords left behind bronze trails as they shot towards the Ancient Sword Sect's Sect Master, and the massive aura of killing and conquering seemed to cause space to freeze.

The Ancient Sword Sect's Sect Master swung his sword, sending out brilliant white sword lights that slashed back the bronze swords. However, they continued flying towards the Ancient Sword Sect's Sect Master and attacked him from all directions.

Sparks continuously shot out and clanging sounds rang out as each clash resulted in massive gales that swept out, and it was as if a disaster was descending.

However, even though the bronze swords were quite powerful and incredibly fast, continuously attacking the Ancient Sword Sect's Sect Master, they could not injure him.

“Arghhhh!!” Seeing that he was unable to harm the Ancient Sword Sect's Sect Master, Zhao Fu once again roared and tried to gather all of his power. Countless black arcs of lightning flashed within the crater and a terrifying power expanded out, causing the crater to cave in more and more.

This power caused everyone to feel even more shocked; this person could release even greater power, surpassing anything they could imagine.

Boom! Boom! Boom...

Twelve massive figures giving off heaven-toppling pressure appeared in the sky. Space itself seemed to be suppressed, and countless people felt as if their bodies had fallen into icy water, causing them to uncontrollably tremble.

The 12 figures in the air were made of bronze and their hair was tied up. They wore armor and had resolute expressions, and they looked like Great Qin's soldiers; they were Great Qin's Nation Armament, the Twelve Metal Colossi.

After the Twelve Metal Colossi appeared, they grabbed at the air and the 12 bronze swords that had been attacking the Ancient Sword Sect's Sect Master flew into their hands.

Their gazes were cold as they held the bronze swords with both hands and lifted them up, pointing them towards the sky. They then spoke with voices that boomed like a powerful army, "Valiant Old Qin, facing difficulties in unity; Valiant Old Qin, returning our lakes and mountains. Our blood will not cease flowing, nor will we stop fighting till death! Great Qin in the north is like a sun rising and will never be stopped! With turmoil in the world, where can we find peace? Against Great Qin's elite soldiers, who can resist?"

Boom!

A massive explosion sounded out as a killing and conquering aura rushed up into the sky. Bronze flames erupted around the Twelve Metal Colossi, and even the surrounding worlds could sense their terrifying power.

The Twelve Metal Colossi's gazes fell onto the Ancient Sword Sect's Sect Master, causing his body to stiffen, and he felt a trace of fear. Before he could do anything, the Twelve Metal Colossi slashed down with their bronze swords.

Boom!

A shocking explosion once again sounded out, and the world seemed to be blasted apart. Twelve brilliant bronze sword lights, bringing with them world-destroying power, slashed towards the Ancient Sword Sect's Sect Master.

Even though the Ancient Sword Sect's Sect Master immediately blocked, he was unable to contend against that aura of killing and conquering, and as the bronze sword lights hit the ground, the ground violently trembled, causing dust and sand to fill the air. The terrifying rumbles caused everyone's souls to tremble.

After seeing this scene and witnessing the world-shaking power of those Twelve Metal Colossi, no one could say anything.

After the dust and sand settled, a massive crater that was hundreds of meters deep and tens of thousands of meters wide appeared in the ground. The Ancient Sword Sect's Sect Master wretchedly got up from the bottom and coughed up a mouthful of blood, looking furious.

Someone with his level of cultivation had been injured by someone like Zhao Fu; this was an immense humiliation to him.

The Twelve Metal Colossi in the sky looked down at the Ancient Sword Sect's Sect Master in the crater. They once again raised their swords and gave off boundless killing and conquering aura as they slashed towards him.

Facing this terrifying attack, the Ancient Sword Sect's Sect Master did not seem to mind at all and furiously grasped towards the sky.

Boom!

A shocking sword light shot into the sky as a sword qi storm blasted out. An enormous, ancient-looking sword slowly descended from the sky, giving off an enormous pressure, making it impossible for the people nearby to remain standing.

This was the Ancient Sword Sect's Sect Armament, the Eastern Flow Ancient Sword.

In order to deal with someone of the younger generation, the Ancient Sword Sect's Sect Master had even taken out the Sect Armament, which startled countless people. However, they could understand this because the Twelve Metal Colossi's power was simply too terrifying; if the Ancient Sword Sect's Sect Master did not use his Sect Armament, it was possible that he could lose.

Boom! Bom! Boom...

The Twelve Metal Colossi slashed out 12 enormous bronze sword lights, which gave off immensely destructive power as they blasted towards the Ancient Sword Sect's Sect Master.

Shing!

The Eastern Flow Ancient Sword floating in the air gave off a sword hum that seemed to be able to tear the world apart, causing the heavens and earth to continuously tremble. It then gave off an intense sword light that descended as a curtain of light, protecting the Ancient Sword Sect's Sect Master.

Bang! Bang! Bang...

The curtain of light was incredibly firm, and the bronze sword lights from the Twelve Metal Colossi were unable to break it open. The bronze sword lights exploded against the curtain of light, turning into corporeal shockwaves that caused the surrounding ground to continuously collapse.

Zhao Fu was unresigned, and he continued to use all of his strength, causing the Twelve Metal Colossi to explode with even greater power. They once again raised their bronze swords and slashed towards the Ancient Sword Sect's Sect Master.

However, their attacks were useless and were unable to break through the curtain of light, making it impossible for them to harm the Ancient Sword Sect's Sect Master at all.

The Ancient Sword Sect's Sect Master condescendingly laughed; he was using the Ancient Sword Sect's Sect Armament, which had the power of ten worlds. He could kill gods, slay buddhas, and sweep across anything in his way.

The Ancient Sword Sect's Sect Master grabbed at the air, causing the massive Eastern Flow Ancient Sword in the sky to turn into a ray of light and fall into the Ancient Sword Sect's Sect Master's hands, its size becoming much smaller in the process.

Looking at the Twelve Metal Colossi in the air, the Ancient Sword Sect's Sect Master coldly laughed and vigorously slashed out with the Eastern Flow Ancient Sword.

Boom!

A massive and unimaginably powerful sword arc slashed out, blasting the massive Twelve Metal Colossi backwards. The enormous sword light seemed to be able to slash the heavens and earth apart, and a destructive sword wind blew out.

The ground started to be ripped away as countless trees were uprooted and even large boulders rose into the sky. All creatures within 10,000 kilometers were filled with fear as they escaped from this disaster.

The Ancient Sword Sect's Sect Master once again stood in the sky, a coldness in his eyes as he looked at Zhao Fu at the bottom of the crater. He pointed at Zhao Fu with his sword as he said, "You should be proud to die under our Sect's sword."

Boom!

After speaking, the Ancient Sword Sect's Sect Master swung with the Eastern Flow Ancient Sword, sending out a terrifying white sword light towards Zhao Fu.

Facing this monstrous attack, Zhao Fu had no choice but to desperately defend. He blocked with the Twelve Metal Colossi in front of him, which gave off an intense bronze light as they went into full defensive-mode.

However, in front of that massive white sword light, it was all for nought. As the white sword light flashed past, the Twelve Metal Colossi were instantly sent flying, and Zhao Fu's body was devoured by the white sword light.

Chapter 1172: Ten Thousand Dragon President

After everything settled, a 10,000 meter long, 1,000 meter wide sword gash appeared on the stage. The stage was now in complete disorder, with massive cracks and fissures all over it; there was not a single part of it left intact.

Zhao Fu lay within the sword gash, covered with blood. His body twitched as he coughed up a large mouthful of blood, and he propped himself up with great difficulty as he glared hatefully at the Ancient Sword Sect's Sect Master, his heart filled with fury.

He would definitely kill this person in the future, and he would destroy the entire Ancient Sword Sect. The pain and humiliation he had suffered today would be repaid ten times over in the future.

The Ancient Sword Sect's Sect Master standing in the air felt quite surprised; this person had taken this blow and yet still was not dead. This could be counted to be a miracle.

Facing Zhao Fu's cold and hateful gaze, the Ancient Sword Sect's Sect Master laughed as he said, "What, are you angry? You want to kill This Sect Master? Do you think you can do it? If you kneel and beg This Sect Master, I'll give you a quick and easy death."

Zhao Fu glared at the Ancient Sword Sect's Sect Master and tightly gripped his fists. His nails stabbed into his palm, causing blood to leak out.

Pa!

Seeing this, the Ancient Sword Sect's Sect Master condescendingly laughed and swept out with his hand, sending a slap onto Zhao Fu's face and sending him flying.

Zhao Fu crashed ten or so meters away and once again coughed up a mouthful of blood before getting up with great hardship.

Pa!

The Ancient Sword Sect's Sect Master laughed as he slapped out again, sending Zhao Fu flying once again.

Seeing this, everyone could not help but sigh; this was evidently humiliating Zhao Fu. Everyone felt quite uncomfortable seeing the Ancient Sword Sect's Sect Master do such a thing, but they would not do anything to stop him.

The black-clothed woman next to Bing Qixue thought about how Zhao Fu had domineeringly dealt with the Ancient Stem Ranking's geniuses, yet he was being treated like this now. She could not help but say, "Your Majesty, with how talented he is, will the Ice Origin Kingdom really not save him?"

Hearing this, Bing Qixue looked over at the higher-ups of the Ice Origin Kingdom and frustratedly nodded.

Yin Ruoshi could not help but speak to the noble and beautiful woman next to her, “Master, are you really not going to consider my proposal? It’s such a pity for a genius like him be humiliated here.”

The noble and beautiful woman lightly nodded and said, “It’s not worth it; that person has no chance of surviving. Even if I act, I won’t be able to change anything, and I’ll instead offend a few major factions.”

Yin Ruoshi felt quite startled, not understanding her master’s words; why would she be offending a few major factions? Wasn’t it just the Ancient Sword Sect’s Sect Master who wanted to kill Zhao Fu? At most, it would be offending the Ancient Sword Sect; since when did it become many factions?

Seeing Zhao Fu being slapped again and again, Bai Haoran could not watch on and said to the Dao Cultivation Sect’s Sect Master, “Master, as the most upstanding and virtuous person in the Ancient Stem Domain, and the person who is presiding over this Ancient Stem Banquet, surely you can’t allow this to continue.”

However, the Dao Cultivation Sect’s Sect Master continue to stare at Zhao Fu did not say anything.

“Arghhh!!” Feeling the fiery pain on his face and feeling that anger and humiliation within his heart, Zhao Fu went again became crazed and tired to release all of his power.

Boom! Boom! Boom...

Berserk black lightning exploded out of Zhao Fu’s body and spread out in his surroundings, smashing the ground and causing it to continuously cave in.

Twelve massive figures once again appeared in the sky, and suffocating pressure spread out. The Twelve Metal Colossi raised their bronze swords and gave off heaven-splitting auras as they slashed towards the Ancient Sword Sect’s Sect Master.

The Ancient Sword Sect’s Sect Master disdainfully laughed and slashed out with his own sword. The massive crescent of sword light gave off an incredibly destructive power as it once again sent the Twelve Metal Colossi flying.

Shing!

The Ancient Sword Sect's Sect Master had played around enough and he raised the Eastern Flow Ancient Sword and casually slashed at Zhao Fu. An enormous white crescent tore through the air, rending space as it flew towards Zhao Fu.

Zhao Fu's expression was quite unsightly, not knowing how to block this terrifying attack.

At that moment, an elder dressed in a gray dragon robe appeared in front of Zhao Fu. He stretched out his hands and pressed them against the air, causing countless traces of golden light to explode out as a terrifying power rushed forth.

“Roarr!!” A vigorous dragon's roar sounded out as a massive golden dragon rushed out of the elder's hands and gave off an enormous dragon's might as it shot towards the white sword light.

Bang!!

A shocking explosion sounded out as the two attacks collided, resulting in terrifying shockwaves that rippled out in all directions.

The Ancient Sword Sect's Sect Master had never thought this elder would appear, and his gaze became serious as he said with a trace of anger, “Does the Ten Thousand Dragon Financial Group plan to protect him, even at the cost of opposing my Ancient Sword Sect?”

This person was the President of the Ten Thousand Dragon Financial Group, and his strength was not weaker than the Ancient Sword Sect's Sect Master by much.

“He's an important person to the Ten Thousand Dragon Financial Group; I hope Sect Master can give us some face and spare him this time. The Ten Thousand Dragon Financial Group will be incredibly grateful,” the gray-robed elder looked up at the Ancient Sword Sect's Sect Master as he said loudly.

The Ancient Sword Sect's Sect Master coldly harrumphed; now that things had come to this, there was no way to bring back the situation. With how much potential Zhao Fu had, letting him off would be much too dangerous, so of course he could not do such a thing.

“Skreee!!”

Seeing that the Ten Thousand Dragon Financial Group's President was determined to protect Zhao Fu, the Ancient Sword Sect's Sect Master did not say anything else and directly attacked. He raised his sword, and countless traces of sword light became massive white birds that brought with them ferocious sword winds as they rushed towards Zhao Fu.

Even though the Ten Thousand Dragon Financial Group's President's Cultivation was not weaker than his, he was using the Ancient Sword Sect's Sect Armament, so he did not place the Ten Thousand Dragon Financial Group's President in his eyes either.

The Ten Thousand Dragon Financial Group President turned and said to Zhao Fu, "I'll stall him; quickly leave this place. In the future, you'll have an opportunity to take revenge. With your potential, surpassing that Ancient Sword Sect's Sect Master is guaranteed, so you must ensure your own safety for now."

Zhao Fu felt incredibly grateful; he had never thought that during this time when no one was willing to help, the Ten Thousand Dragon Financial Group's President would step in to save him.

Zhao Fu understood this, so he nodded and exploded out with his Nation Armament's power, causing a black aura flame to appear around him. He leapt up and turned into a ray of black light and disappeared over the horizon.

The Ten Thousand Dragon Financial Group's President faced the countless incoming birds and punched out with incredible strength. A formless wave of inner force blasted out, causing the birds to explode.

As the birds exploded, waves of sword wind blasted out, causing the ground to crack and cave in.

Seeing that Zhao Fu was running, how could the Ancient Sword Sect's Sect Master allow him to escape? He raised his hand and prepared to attack Zhao Fu, but the Ten Thousand Dragon Financial Group's President punched out, sending an enormous golden dragon towards the Ancient Sword Sect's Sect Master and tying him down.

Zhao Fu was now some distance away, but at that moment, something unexpected happened.

Chapter 1173: Ghost Claw

Bang!

A well-built figure suddenly appeared in front of Zhao Fu and punched him to the ground, opening up a large crater. This figure was the Bear Mountain Kingdom's King.

Everyone felt quite surprised that the Bear Mountain Kingdom's King would attack; there did not seem to be any reason for him to attack, as there did not seem to be any grievances between them. Their Third Prince had not been harmed by Zhao Fu.

They had no idea that there had long since been enmity between Zhao Fu and the Bear Mountain Kingdom; back when Zhao Fu's appearance had been revealed, the Third Prince had remembered everything.

It turned out that Zhao Fu was that mysterious Emperor from before; this matter was incredibly important, so he immediately told his father. He also told him about how a higher-being had wanted to take Zhao Fu as his disciple, and this made the Bear Mountain Kingdom's King decide to kill Zhao Fu.

Before, he had not wanted to act and had just wanted to use the Ancient Sword Sect's Sect Master to kill Zhao Fu in order to avoid trouble, but the situation had changed.

Since the Ten Thousand Dragon Financial Group's President was determined to protect Zhao Fu, who was about to escape, the Bear Mountain Kingdom's King had to act.

"Haha..." a soft, eerie laughter sound out as the Nether Yin Dynasty's King also came above the crater. He evidently was not here to save Zhao Fu but to kill him as well.

He wanted to obtain Zhao Fu's corpse, as it was very useful to him. This was especially so because of the Six Paths Demon Images and the Six Paths of Reincarnation bloodline; they were so attractive that he would do anything for them.

Before, he had wanted to wait for the Ancient Sword Sect's Sect Master to kill Zhao Fu, but the situation had changed. Not only was the Ten Thousand Dragon Financial Group's President protecting him, but the Bear Mountain Kingdom's King had also gotten involved. In order to prevent anything from going wrong, he decided to personally act.

Yin Ruoshi now understood what her master meant before; it turned out that her master had already sensed that many people wanted to make a move against Zhao Fu.

Now that people from three major factions wanted Zhao Fu's life, with their strength, Zhao Fu was as good as dead. The Ten Thousand Dragon Financial Group's President would not be enough to save him.

Everyone could not help but sigh – Zhao Fu was destined to die here; this was something that could not be changed. It was a pity with how talented he was.

The Ten Thousand Dragon Financial Group's President's expression became quite unsightly. He was already at his limit tying down the Ancient Sword Sect's Sect Master, and now there were another two experts of the same level joining in. This put even him in danger, and he was unable to protect Zhao Fu at all.

Could it be that after waiting for so long, the prophesied person would die like this?

Within the crater, Zhao Fu no longer had any strength to even get up. That strike from the Bear Mountain Kingdom's King broke five or six of his bones, making him feel immense pain.

“We need this person's corpse, so we will be killing him. Apologies,” the Nether Yin Dynasty's King lightly laughed and said to the two others while looking at Zhao Fu. To him, Zhao Fu was a worm who could be easily crushed.

The Bear Mountain Kingdom's King laughed; he just wanted to kill Zhao Fu and was not interested in his corpse, so he said, “Hurry and do it then so that nothing goes wrong. If this person escapes, he'll cause us endless problems in the future.”

The Nether Yin Dynasty's King nodded and pointed at Zhao Fu. A powerful gray light shot towards Zhao Fu with shocking power.

The Ten Thousand Dragon Financial Group's President wanted to stop this, but he was suppressed by the Ancient Sword Sect's Sect Master.

The powerful gray light was about to pierce through Zhao Fu's body, resulting in him dying here. However, at that moment, something unexpected once again happened.

A black and blood-red sword flew out from within Zhao Fu's body to stop that gray light, and it gave off boundless blood-red light.

Boom!

A shocking explosion sounded out as if the heavens and earth had been instantly torn apart. A berserk and twisted killing intent suddenly descended, and the world was instantly dyed a blood-red color. Everyone present felt as if their bodies and souls had been frozen, and they felt an unending terror.

The black and blood-red sword gave off fathomless blood-red light, and the powerful ripples coming from it caused the heavens and earth to violently tremble. The ground could not withstand it and quickly disintegrated.

As the crazed killing intent swept through the scene, even the countless major figures were greatly dismayed; they had never thought that the person they had been searching for all this time was right in front of them.

“He's the Killing Sword Master! That person whose abnormal signs affected hundreds of worlds, and one of the most dangerous people in the world!”

The Dao Cultivation Sect's Sect Master's eyes gleamed. He had been waiting for this moment. He had guessed that Zhao Fu might be that terrifying Killing Sword Master, but he was not sure; he could only wait for Zhao Fu to fall into great danger to reveal this.

The Ancient Sword Sect's Sect Master looked quite startled; he had never thought that Zhao Fu was the Killing Sword Master. Now, he understood why that trace of sword qi was so terrifying; if he had to face against that kind of sword qi, he would feel fear as well.

The Bear Mountain Kingdom's King also looked quite shocked; he had never thought that Zhao Fu would have such power. He had been hiding this quite deep, and it was the power that the Bear Mountain Kingdom's King had feared this whole time.

The Nether Yin Dynasty's King also looked at Zhao Fu in shock; this completely exceeded anything he could imagine. He could not believe that Zhao Fu had been hiding such power.

The Heavenly Music Sect's Sect Master also looked quite serious. That terrifying Killing Sword Master was this person in front of her; this was quite unbelievable. However, it was now understandable why this person's aptitude was so heaven-defying.

Huo Yan, Bing Qixue, Yin Ruoshi, Bai Haoran...

Countless people had never expected such a thing to happen. In the end, Zhao Fu still had not used his full strength against them, and he had been hiding such a powerful killing power this entire time.

Now, they completely acknowledged that he existed above the Ancient Stem Rankings and that they could not compare to him. Zhao Fu was simply too shocking.

At that moment, the Nether Yin Dynasty's King, the Bear Mountain Kingdom's King, and the Ancient Sword Sect's Sect Master all exploded out with killing intent. Now, they would go to any lengths to kill Zhao Fu; now that they knew that he was the Killing Sword Master, his threat in the future was dozens of times greater.

Boom!

A shocking blood-red sword light slashed through the air, and the terrifying killing intent instantly caused space to collapse. The Nether Yin Dynasty's King and the Bear Mountain Kingdom's King were both blasted flying backwards; Zhao Fu had taken the initiative to attack.

Zhao Fu was forced to use the Emperor Killing Sword's power; because of the terrifying killing intent, Zhao Fu had a slight advantage.

The Nether Yin Dynasty's King and the Bear Mountain Kingdom's King stabilized their bodies in the air and looked furious. They no longer gave off that air of superiority and attacked Zhao Fu together, wanting to kill him at all costs.

Boom!!

The Nether Yin Dynasty's King stretched out his hand, causing countless traces of Yin Qi to wrap around his hand and form a giant ghost claw that gave off a shocking pressure as it grabbed towards Zhao Fu.

Chapter 1174: Three Emperor Stars

The Bear Mountain Kingdom's King took out a large saber and vigorously slashed out. A ferocious sword light giving off massive sword qi flew towards Zhao Fu.

“Arghhh!!” Facing the two people's attacks, Zhao Fu roared and a massive amount of the Nation Armament's power entered his body, as did the Emperor Killing Sword World's power. Zhao Fu instantly received so much power that he felt that he could kill a Celestial, and the space around him continuously collapsed.

Boom!

Zhao Fu gripped his sword and vigorously slashed out, sending out a massive blood-red crescent. It seemed to contain enough power to rend the heavens and earth, causing the two incoming attacks to explode and sending the two Kings flying back and even injuring them; a trace of blood leaked out from their lips.

This caused the two Kings to feel quite furious; they had been injured by a low-Stage cultivator like Zhao Fu, which had sullied their pride.

However, that killing intent's power was simply too powerful and exceeded anything they could handle. If they relied on their cultivation, they would most likely lose in the face of that berserk and murderous power.

No one would believe such a thing; after all, how could two powerful experts like them be defeated by a low-Stage cultivator? However, the two of them had personally faced this killing intent, so they clearly knew that they were at a disadvantage.

“Roarr!” A heaven-shaking roar sounded out as countless traces of an eerie aura flooded out, and a terrifying pressure descended. A massive skull appeared in the sky, giving off a bone-chilling coldness that caused countless people to feel afraid. It was also surrounded by countless spirits.

The Nether Yin Dynasty's King had used his Nation Armament: The Nether Emperor Skull!

Boom!

A massive power tore through the air, and a berserk and violent devil qi caused countless people to feel like they were flickering flames in front of a massive gale. A massive, pure-white fang gave off a terrifying aura as it descended.

The Bear Mountain Kingdom's King had also unleashed his Nation Armament: The Royal Bear God Fang!

After the two Nation Armaments of Royal Kingdoms were unleashed, the results caused all sorts of abnormal signs and the world seemed to sink under this terrifying pressure.

Boom! Boom!

The two Kings used their Nation Armaments' powers as they blasted towards Zhao Fu. That power seemed to be able to destroy everything, even time and space; even godly spirits would not be able to withstand it.

Zhao Fu desperately unleashed the power of his Nation Armament and Emperor Killing Sword, causing his long hair to become blood-red colored. A blood-red sword mark appeared on his forehead and two fangs grew out of his mouth, as his mind was filled with madness.

Bang!

Zhao Fu slashed out a heaven-toppling sword light that blasted towards the two powers like a sea of sword light. An incredibly destructive explosion resulted, and a shockwave instantly rippled out, annihilating everything within its range.

In the end, Zhao Fu still could not stand up to the two Kings; even though the Emperor Killing Sword World's power was quite strong, it was still in its initial phase and could not resist the power of the Nation Armaments of two Royal Kingdoms. Even with Great Qin's Nation Armament's power, it was not enough.

Zhao Fu was hit by the shockwave and was now lying within a large crater. There were two massive injuries on his chest, and his aura was incredibly weak.

Yin Ruoshi looked away in shock; the battle between the two sides was too terrifying, and she had never thought that Zhao Fu would have such power. Zhao Fu's terrifying killing intent had actually forced those two Kings to use their Nation Armaments.

“Master, are you really not going to save him? If our Heavenly Music Sect can use him, our prospects will be limitless in the future,” Yin Ruoshi said.

The noble and beautiful woman still shook her head, saying, “With the things he has revealed, the Heavenly Music Sect cannot contain him, nor does it have the ability to.

“What a pity! If he was in the Heaven Domain, there would be large factions protecting him, but he has no hope now. He'll definitely die here, because the Killing Sword Intent that he revealed has caused the entire Ancient Stem Domain to feel threatened.

“As for everyone else, not only will they not help, but they're also hoping that he will be quickly killed. Facing three powerful experts, there's no chance of him surviving.”

Currently, the Dao Cultivation Sect's Sect Master was feeling some hesitation, wondering if he should save Zhao Fu. After Zhao Fu released his Killing Sword Intent, his suspicions had been confirmed, and he could now act. With his power, he would be able to save Zhao Fu.

However, he now hesitated, because when Zhao Fu exploded out with that Killing Sword Intent, everyone present had wanted to kill him.

If he acted, he would offend three major factions; with the Dao Cultivation Sect's strength, it could bear such a burden. However, it would also have to go against the rest of the Ancient Stem Domain – the Dao Cultivation Sect could not do such a thing, and saving Zhao Fu would drag the Dao Cultivation Sect under.

For now, he could only watch and could not get involved; that was what everyone else was thinking as well.

Shing!

A sword hum tore through the sky as the Ancient Sword Sect's Sect Master blasted the Ten Thousand Dragon Financial Group's President to the ground, opening up a ten meter wide crater.

After taking care of the Ten Thousand Dragon Financial Group's President, the Ancient Sword Sect's Sect Master finally turned his attention to Zhao Fu.

The Bear Mountain Kingdom's King stood in the air, looking at the blood-covered Zhao Fu below. He gave off an immense killing intent as he raised the saber in his hand; this was the final blow. Zhao Fu no longer had any power to resist, and he would definitely die here. Now, everyone else waited for Zhao Fu's death as well.

However, just as the saber was about to descend, an explosion sounded out.

Boom!

The world instantly fell into darkness as all light seemed to be devoured. It was a boundless darkness, and the heavens and earth fell into silence. Countless living creatures did not dare to make a bit of noise.

Suddenly, blood-red light descended from the sky, causing the world to seem to be dyed blood-red; a blood-red star filled with an aura of chaos and disaster appeared.

This was followed by a noble golden light as a golden star that seemed to be able to cause all creatures to submit appeared. An eerie aura suddenly flooded down as a gray light burst forth, and a moon-like star appeared.

The auras that these three Emperor Stars gave off caused all creatures to feel incredibly small, and the auras even made them want to submit. It was as if all Emperors, godly spirits, and experts were nothing in front of them.

Boom!

Three pillars of starlight simultaneously descended onto Zhao Fu's body from the three Emperor Stars, and a massive explosion sounded out. The pillars of starlight gave off an incredibly destructive force as they spread out, and it seemed as if the world was coming to an end.

After everything settled, a 10,000 meter deep and hundreds of thousands of meters wide crater appeared on the stage; most of this massive stage had been destroyed.

Countless people stood frozen on the spot, looking incredibly shocked. None of them had yet come back to their senses; that person had three Emperor Stars!

There was not a single figure within that massive crater. These three factions may have offended someone they could not afford to offend!

Chapter 1175: Emperor Killer

With a single Emperor Star, one would be incomparable even within the Heaven Domain. That person had three Emperor Stars, which made him unbelievably terrifying. No one had heard of such a thing, and that person was the Killing Sword Master as well. That person's future made all of them feel fear.

If anyone said he had the potential to become an Emperor Celestial, no one would disbelieve them; after all, he was already like a resplendent star that was simply untouchable to them.

Bai Haoran, Bing Qixue, Yin Ruoshi, and the other geniuses of the Ancient Stem Domain stared at the massive crater in shock. Only now did they understand what a true genius was. In front of Zhao Fu, they were nothing.

Despite having such shocking talent and abilities that others could only look up to, compared to Zhao Fu, they were incredibly ordinary.

The expressions of the Ancient Sword Sect's Sect Master, the Bear Mountain Kingdom's King, and the Nether Yin Kingdom's King became quite unsightly; they now realized that they had offended someone who they could not afford to offend. In the future, their three factions might have to face an incredibly terrifying person.

The Dao Cultivation Sect's Sect Master shook his head and sighed; this matter was simply too unbelievable. First, Zhao Fu's identity as the Killing Sword Master had been revealed, which was already incredibly shocking. No one had expected Zhao Fu to have three Emperor Stars, and thinking about what had just happened, it seemed that the Ancient Stem Domain would be going through some troubled times.

Following this, news of what had happened here spread through the entire Ancient Stem Domain like a cyclone, shocking the entirety of the Ancient Stem Domain; such a terrifying figure had appeared here.

The three factions had bullied someone much weaker than themselves, and at the Ancient Stem Banquet too. They dared to do such a thing so brazenly, causing people to feel ashamed and as the ones presiding over the Ancient Stem Banquet, the Dao Cultivation Sect's reputation greatly plummeted.

Who dared to harm those geniuses? With those big factions behind them, if they were injured, those who injured them would be killed without a doubt.

The Ten Thousand Dragon Financial Group's President had been signaled by Zhao Fu to leave when Zhao Fu had released the three Emperor Stars.

However, the three factions did not back down at all, and the situation was unrecoverable. As such, afterwards, they started to attack the Ten Thousand Dragon Financial Group, wanting to destroy all those connected to Zhao Fu. The Ten Thousand Dragon Financial Group would greatly support Zhao Fu, so the three factions had to destroy it.

The Ten Thousand Dragon Financial Group was a faction that had relocated to the Ancient Stem Domain, and because it was not originally part of it, it only controlled a bit more than a world.

Now that it was facing the three factions, it did not have any way to resist, and no one was willing to help it. In fact, there were others who were in support of suppressing the Ten Thousand Dragon Financial Group.

After all, the Ten Thousand Dragon Financial Group was closely related to Zhao Fu, who was a threat to the Ancient Stem Domain. As such, no one would give the Ten Thousand Dragon Financial Group an easy time.

Moreover, if the Ten Thousand Dragon Financial Group had not protected Zhao Fu, Zhao Fu would have long since been killed by the Ancient Sword Sect's Sect Master, and all those things would not have happened. In fact, they should not have even invited Zhao Fu to the Ancient Stem Banquet.

In the end, the Ten Thousand Dragon Financial Group suffered heavy losses and many of their people died. The President ran with the remnants of the Financial Group and hid in another Domain.

Such a large Financial Group that controlled the power of a world had been destroyed so easily, making people feel great pity.

Elsewhere, Zhao Fu had escaped back to Great Qin covered with blood. He had first hidden within the Emperor Killing Sword World and used another exit in the Emperor Killing Sword World to leave.

The power of the three Emperor Stars had not been enough to stand up to the three factions; Zhao Fu was clear about this. After all, each of those factions controlled the power of ten worlds, which was 30 worlds in total. Moreover, the other factions had not even acted.

If he stayed there, even if he exploded out with his Emperor Stars' power, he would still die in the end. As such, Zhao Fu could only sullenly run away.

Now that he had kept his life, in the future, Zhao Fu would definitely pay back the Ancient Sword Sect, Nether Yin Dynasty, and Bear Mountain Kingdom.

After escaping back to Great Qin, because of his severe injuries, Zhao Fu immediately fell into a coma, and Great Qin's imperial physicians hurriedly came to treat his wounds.

In a distant place, a black-clothed young man giving off a powerful aura stood on a 10,000 meter tall, ancient-looking stage that seemed to connect to the heavens. He coldly harrumphed, "We still can't find that person? If This Sovereign can't have something, This Sovereign will destroy it!"

He went to the center of the stage, on which were stone pillars. There were people bound on the stone pillars, both men and women, young and old, but there was one thing they all had in common.

This was that they all gave off powerful King's auras, as they were all people with King's bloodlines. In fact, some of them were actual Kings, and there were 10,000 of these people.

This higher-being was the one who had tried to steal Zhao Fu's Origin Mark before, and after so long and trying so many times, he still could not find Zhao Fu. In the end, he decided to destroy Zhao Fu; he could not allow anyone else to have the Origin Mark.

He knew that Zhao Fu had Emperor Stars, but he did not know the details. The method he was using now specifically countered Emperor Stars, and it was called Emperor Killer!

This was an incredibly powerful curse that cursed Emperors, and it was greatly feared by Emperors in the Heaven Awaken World. As such, the Emperor Killer curse was quite famous.

This type of curse required King Stars, and the 10,000 people here all had King Stars. It had taken this higher-being a lot of effort to capture them all.

The price of casting this curse was not small; it caused one's strength to decline, and the person casting it could receive a Fate backlash. However, this higher-being was not afraid; with his cultivation, he was immune to a backlash from such a low-Stage cultivator.

Boom!

The higher-being activated the magic formation, and the people bound to the pillars howled. Their bodies quickly aged, and their hair became white as wrinkles appeared on their bodies and their lifeforce was drained.

In the end, they gave a few more pained cries before their heads sagged and they died.

The pillars on which they were bound gave off powerful auras before exploding out with a blood-red pillar of light that rushed into the sky.

Boom! Boom! Boom...

King Stars giving off terrifying might slowly descended from the sky as a massive aura swept out. The sight of 10,000 stars descending was incredibly grand and could shock anyone.

The higher-being standing at the center of the stage gave a trace of a smile as he spread out his hands towards the sky. Under his control, the King Stars continuously moved, forming a massive magic formation.

“Emperor Killer!” the higher-being roared and sent his massive power into the magic formation, causing it to activate. Heaven and earth source energy was instantly absorbed into it, and as the magic formation activated, heaven-shaking ripples spread out.

Within the Heaven's Secrets Pavilion, the person who was responsible for monitoring Zhao Fu's Emperor Stars suddenly sensed a terrifying coldness. This caused his body to freeze, and a wave of fear flowed out of his heart as he hurriedly looked at the surroundings of the Emperor Stars.

Chapter 1176: Death Stars

Stars filled with a deathly aura, bringing with them massive deathly intent, formed a massive formation that surrounded the three Emperor Stars. The terrifying coldness was from those death stars.

After seeing this scene, that person felt incredibly startled; the power of each of those death stars was something that surpassed the power of a world; this sort of power was something that only a higher-being could have. As such, that person immediately understood that there was a higher-being making a move against Zhao Fu.

After realizing this, that person immediately reported this to the higher-ups.

The young woman in white, the Fate Sovereign, quickly arrived, and seeing that scene, her expression became quite serious, "This is Emperor Killer, a curse especially for cursing Emperors to death. How did that person offend a higher-being so much for that higher-being to use such a risky curse to kill him?"

Hearing the Fate Sovereign's words, everyone else's faces fell; they had all heard of how terrifying Emperor Killer was.

Someone could not help but say, "Isn't that person doomed, then? Emperor Killer can curse even true Emperors to death, and that person is not even an Emperor; he merely only has Emperor Stars, and his own strength is not very great either."

The Fate Sovereign shook her head; she was not sure. If it was an ordinary person, they would definitely die, but this person had three Emperor Stars; he most likely would not die so easily.

It was a pity that that person was not from a large faction. If he was from a large faction, with the ocean-like amount of Fate that a large faction had, the higher-being would not dare to use Emperor Killer against him, or else he could die from the backlash.

The death stars formed a massive formation in the void and gave off an intense gray light. They gave off a heaven-toppling deathly intent as they surged towards the three Emperor Stars, which gave off powerful emperor lights to defend against the deathly intent.

Within the Great Qin Palace, the imperial physicians were quickly treating Zhao Fu's injuries. However, at that moment, traces of gray light started to fall from above the Great Qin Palace, and a deathly aura started to spread.

At that moment, countless people's expressions fell, and this included the various ability users and espers because they could sense a boundless deathly intent cover Great Qin.

"Raorrr!!" The Great Qin's Fate Dragon gave off a heaven-shaking roar, causing all of Great Qin's Fate to gather towards the Great Qin Palace. It formed an enormous and savage black dragon, but the gray light descending from the sky kept coming.

Under the effects of the gray light, the vigorous and domineering black dragon started to weaken, looking quite sickly.

"Skreeee!!" A phoenix cry sounded out as a golden pillar of light shot into the sky. A massive golden phoenix giving off countless traces of golden light appeared in the sky. At that moment, the Emperor Phoenix Statue had reacted as well.

The countless traces of golden light spread out and blocked the gray light and deathly aura. The golden light that the Emperor Phoenix gave off was not suppressed by the gray light, and it instead was the one suppressing the gray light.

However, more and more gray light descended, and soon, the deathly aura covered the sky. The chilling deathly aura could not be stopped as it spread out, causing everyone's hands and feet to feel cold, and it was as if they felt that death was about to descend.

"Roar! Roar! Roar..." Dragon's roars sounded out as deathly dragons started to fly about within the deathly aura in the sky, and they flew towards Zhao Fu.

"Skreeee!!" The Emperor Phoenix gave off a piercing cry, and a blinding golden light exploded out as the Emperor Phoenix started to resist with all its might. However, it did not have much of an effect because there were simply too many deathly dragons, 10,000 in total.

The Emperor Phoenix could only retreat to the chambers that Zhao Fu was in, flying around as it created a golden defensive barrier to stop the deathly dragons in the sky. The deathly dragons circled around the chambers, their deathly aura gradually corroding the Emperor Phoenix.

The situation was quite dire, and Xianru and the various Schools and Sects also acted. It was evident that these deathly dragons wanted to drag Zhao Fu into death.

Ordinary measures were ineffective, so the various Schools and Sects used their unique formations. Massive chains giving off powerful auras shot out, binding the deathly dragons, which vigorously struggled in response.

The Generals who had been fighting outside hurriedly returned. Bai Qi did not hesitate and drew the Seven Murders Sword at his waist and pointed it to the sky. The other Generals also drew their General Armaments and pointed them at the sky.

“Seven Murders Star!”

“Army Destroyer Star!”

“Voracious Wolf Star!”

Loud shouts sounded out as a massive pressure descended. General Stars giving off terrifying auras descended, and starlight filled the sky. The 20 General Stars gave off an immense power as they pressed towards the deathly dragons.

Under the cooperation of the various parties, the deathly dragons were temporarily suppressed, allowing everyone to let out a sigh of relief.

However, they did not know that this was only the beginning; the true battle was in the vast void.

Boom!

A shocking explosion sounded out as the three Emperor Stars gave off brilliant starlight, looking like three suns in the vast void.

The death star formation around them seemed unhurried as waves of deathly aura continuously swept towards the three Emperor Stars, gradually corroding them.

The higher-being on the stage took out a corpse. It was a middle-aged man who wore a dragon robe, and he gave off an incredibly noble Emperor's aura. This corpse was the corpse of an Emperor, and the higher-being had paid a great price to obtain it.

A formless energy carried this corpse into the magic formation, where it turned into countless traces of bloody qi and fused into the formation. The formation in the sky immediately gave off a sovereign Emperor's aura.

Within the vast void, the death stars gave off a large amount of gray light and exploded out with an even stronger aura. The magic formation's power increased by many times, and it started to suppress the three Emperor Stars.

The three Emperor Stars continuously resisted, but the Celestial Emperor Star and the Chaos Imperial Star continuously grew dimmer; only the Nether Emperor Star could put up some resistance.

The situation of the three Emperor Stars directly affected the situation in Great Qin. The deathly dragons gave off roars and became much stronger, breaking free from their chains. They resisted the General Stars' pressure and slammed towards the barrier set down by the Emperor Phoenix.

Bang! Bang! Bang...

Massive sounds rang out as the golden barrier continuously trembled and started to crack. In the end, the countless deathly dragons broke through the golden barrier and flooded into the unconscious Zhao Fu's body.

"Arghhh..." Zhao Fu was awakened by the immense pain and howled, continuously struggling on the bed. He felt as if there were countless ghost biting at his flesh and blood.

The higher-being on the stage laughed in satisfaction; Emperor Killer had succeeded, and that person was dead beyond a doubt.

Within the vast void, the three Emperor Stars were corroded by the massive amount of deathly qi. The Celestial Emperor Star and the Chaos Imperial Star had already gone dim, and only the Nether Emperor Star was still giving off a faint light. Perhaps it was because it was an Emperor Star of the Death Race, so it had some resistance to the deathly aura.

Chapter 1177: Emperor Killer

Hearing Zhao Fu's cries from within his chambers, many of his subordinates hurried over. Seeing Zhao Fu struggling in pain, everyone started to panic. Xianru and the imperial physicians quickly came to check on Zhao Fu's body.

On the surface of Zhao Fu's body, there were gray dragons swimming about, continuously devouring Zhao Fu's lifeforce.

Xianru had people hold down, took out high-grade Water of Life, and fed it to Zhao Fu. However, it was completely ineffective against the gray dragons, and Zhao Fu's pain was not lessened.

The imperial physicians took out medicinal pills containing a large amount of lifeforce and fed them to Zhao Fu, but they too were ineffective.

"What should we do? Those gray dragons are continuously devouring His Majesty's lifeforce; if this goes on, His Majesty will die," Wang Ergou shouted worriedly.

Hearing Wang Ergou's words, everyone felt quite panicked, but they did not know what to do.

Suddenly, a genderless voice said with a sigh, "Place Zhao Fu's body in the Fountain of Life and call over the Black and White Impermanences."

This caused everyone to feel quite startled because this voice came from within Zhao Fu's body. It was the golden dragon who had spoken, and it seemed quite desolate and melancholic.

Zhao Fu had mentioned the golden dragon before, so most of his subordinates knew about it. As such, everyone quickly complied with its orders and placed Zhao Fu in the Fountain of Life, and they called over the Black and White Impermanences.

Within the Fountain of Life, the massive life energy continuously flowed into Zhao Fu's body, lessening his pain.

Under the golden dragon's instructions, the Black and White Impermanences set up a Yin Qi magic formation that set countless traces of Yin Qi into Zhao Fu's body, and they also sent their own Yin Qi into Zhao Fu's body, which also helped relieve some of Zhao Fu's pain.

Right now, the only things that were effective were the Nether Emperor Star and Zhao Fu's Six Paths of Reincarnation bloodline; they greatly reduced the Emperor Killer's effects.

Time gradually passed and everyone waited worriedly. On the third day, Zhao Fu woke up, but his aura was incredibly weak. His hair had become gray-white colored and his body gave off a deathly aura.

"What's going on?" Zhao Fu opened his eyes within the Fountain of Life and asked the golden dragon.

The golden dragon sighed as it said, "It's Emperor Killer; someone wanted to use Emperor Killer to kill you. It was most likely that higher-being who wanted to steal your Origin Mark, as it's not something just anyone can use."

"Emperor Killer?" Zhao Fu did not understand, so the golden dragon briefly explained.

After hearing this explanation, Zhao Fu felt furious and almost coughed up a mouthful of blood; this higher-being was simply going too far. Not only did he want to steal his Origin Mark, but he had tried to kill him with a curse. He had not even taken revenge against the three factions, and now there was another thing to take revenge for.

"Is there any way to deal with it?" Zhao Fu calmed himself down as he asked the golden dragon.

The golden dragon replied seriously, "No, there isn't. the Fountain of Life and Yin Qi are already ineffective, and if this goes on, you'll only have a bit more than one year left to live. You need to find a method to deal with Emperor Killer within that time, or you will die."

Zhao Fu's expression was quite unsightly; this news was like thunder from a clear sky; before he had accomplished his grand aspirations and taken revenge against those three factions, he was going to die.

“Is there really no way to deal with it?” Zhao Fu asked.

The golden dragon replied, “Indeed, I don’t know of any method. The Emperor Killer is a Fate curse, and it is also a Fate Star curse. There’s practically no way to stop it.”

After hearing this, Zhao Fu felt quite helpless, and a bitter smile appeared on his face.

The golden dragon comforted him, saying, “There’s still a bit more than a year; perhaps you’ll be able to find a method. There’s no need to give up as there’s still a trace of hope.

“However, I need to remind you that this is just an estimation; if the curse within you explodes out, you could die right now. You need to start making preparations, as if you suddenly die, all of Great Qin will collapse.

“Moreover, you don’t have any heirs; the next ruler of Great Qin is an important matter, so you need to think about this.”

Zhao Fu’s heart sank and he heavily replied, “I understand.”

Suddenly, Zhao Fu felt a massive wave of pain as gray dragons appeared on the surface of his body, and the feeling of being bitten by countless sharp mouths once again assaulted Zhao Fu.

“Is there any way to lessen the pain?” Zhao Fu endured the pain as he asked.

The golden dragon replied, “Right now, Phoenix Qi is of great help to you. If your Emperor Phoenix Statue had enough Phoenix Qi, it would have been able to stop the Emperor Killer for you. If you consummate with women with Phoenix Qi, causing your Dragon Qi and their Phoenix Qi to fuse, your pain will lessen, but this cannot get rid of Emperor Killer.”

Zhao Fu nodded and looked at the Black and White Impermanences by the side; they had also heard the golden dragon’s words.

The Black Impermanence flirtatiously smiled and took off her black clothes, revealing her proud figure. She walked into the fountain, and the White Impermanence shyly took off her white clothes and followed her in.

A while later, the two women lay by the side of the fountain as they raggedly breathed. Zhao Fu had somewhat recovered, and he called people over to look after the two women.

Zhao Fu's expression was quite dark as he went to the Heaven Spirit Stele. There was still a trace of hope, and that was the higher-being he knew. Perhaps he would have some kind of method, so Zhao Fu felt much hope towards him.

"I don't know! It's almost impossible to survive Emperor Killer, and This Sovereign does not have any methods."

After seeing this response, Zhao Fu's body trembled and his legs weakened; his final hope was gone as well if even a higher-being said such a thing, he was doomed.

"Ai! If I had known this was going to happen, This Sovereign should have given you a recommendation so you could enter the Emperor Path College ahead of time. With the Emperor Path College's protection, you wouldn't have been affected by Emperor Killer. What a pity."

After seeing this, Zhao Fu did not blame the higher-being. Even though if the higher-being had done this he would not have been afflicted by Emperor Killer, he was not that close with the higher-being, and he had no duty to help him.

Moreover, he had already helped him by giving him the Projection Tool, which was already quite good.

Zhao Fu thanked the higher-being before leaving the Heaven Spirit Stele. He felt incredibly melancholic, and, with great difficulty, he went to the creek where he used to fish. He sat on the grass and stared in front of him, his mind completely blank.

Death weighed heavily on Zhao Fu, and everything seemed to have lost meaning. Zhao Fu gripped his fists and his eyes became wet; he did not want to just die like this.

However, the heavens did not give Zhao Fu much time to wallow in grief; a report was quickly delivered to him: The Continent that Great Qin occupied in the Half-Beast world had been breached.

Chapter 1178: Yao Ming

After receiving the report, Zhao Fu hurried to the frontlines while asking the reporting soldiers, “With the forces we have at the Half-Beast world, we should have been able to hold out against the Half-Beast world; how did they suddenly break through?”

The soldier replied, “Today, the three worlds simultaneously attacked Great Qin; we had the ability to defend, but the Half-Beast people released an army of devil beasts that broke through our defenses. According to the information we’ve obtained, it seems that the Devil Horn Empire is working with the three worlds, wanting to destroy Great Qin.”

Hearing this, Zhao Fu’s expression became quite serious; the Devil Horn Empire had also gotten involved. It was the most powerful Kingdom in Great Qin’s surroundings, and it was simply too strong.

Its involvement gave Great Qin massive pressure; that devil army was one of the Devil Horn Empire’s strongest methods.

As for why the Devil Horn Empire would ally with the three worlds, that was quite evident – Great Qin had already threatened the Devil Horn Empire. If there was no Great Qin, this place would be where the Devil Horn Empire could rise up.

“What’s the condition of the battle? Have the residents been evacuated?” Zhao Fu asked the soldier.

The soldier replied, “Great Qin has already retreated to the human world and is defending with its previous defenses. Because there weren’t many residents at the Half-Beast Continent, all of them returned safely. Please rest assured, Your Majesty.

“However, the situation in the Grassi world is also quite dire; the devil beast army have started to help the Grassi people attack Great Qin, and Commander Bai Qi has led soldiers to defend.”

Zhao Fu nodded and sped up.

Soon, Zhao Fu reached the battlefield. Currently, both sides were facing off against each other. The defending Great Qin side stood on defensive walls, and the countless soldiers gave off austere auras. The Wyverns spiraled in the sky, and the powerful Corpse Soul Commanders and Soldiers, Giant Wolves, and Spiders prepared for battle.

The other side was like a massive ocean with innumerable people. They were made up of Grassi people, Half-Beast people, and the devil beast army.

This devil beast army was made up of all kinds of devil beasts: There were eagles that were dozens of meters long, tusked elephants that were as big as mountains, enormous pythons with two heads, and lions that seemed to be made out of gold. They gave off auras that shook their surroundings.

Of course, their beasts were not as big as Great Qin's beasts, but there were ten or so times more of them.

Great Qin only had 150,000 or so beasts, but because they had many fronts to deal with, they only had 90,000 here, while the other side had millions of devil beasts.

Also, the other side had many more experts than Great Qin. However, luckily they had killed a large number of them when they had invaded the three worlds, or else Great Qin would have been under even greater pressure.

This battle was incredibly disadvantageous to Great Qin, and Zhao Fu did not feel much confidence as to whether or not they could hold on.

Boom!

A massive aura spread out as countless traces of devil qi caused wild gales to spread out. A purple-haired, devilish-looking young man appeared in the sky.

His appearance caused the Half-Beast people and Grassi people to warily step aside, and the countless devil beasts excitedly roared. They were excitedly paying respects to their King; this purple-haired young man was the ruler of the Devil Horn Empire, Yao Ming.

Zhao Fu flew into the air. Because his appearance had been exposed at the Ancient Stem Banquet, he could not afford to reveal his appearance here. However, Zhao Fu did not wear a cloak, and he instead had a mask on; it was a fox mask that Zhao Fu had found, and it could even change his aura.

Yao Ming looked at Zhao Fu in the air and felt that his aura was quite weak. He condescendingly laughed, saying, “You’re Great Qin’s Legatee? I heard that you’re quite strong, but it seems you’re only so-so. It seems that others have really puffed you up.”

Zhao Fu frowned, feeling quite displeased at Yao Ming’s tone. However, Zhao Fu took consideration of the grand scheme of things and did not get too angry as he said, “This is a matter between Great Qin and the three worlds; there’s no need for your Devil Horn Empire to get involved!

“After all, even if you defeat Great Qin, the Devil Horn Empire will not receive any benefits. This battle is unnecessary, and Great Qin does not wish to have a powerful enemy like you.”

The Devil Horn Empire gave Great Qin too much pressure; if it wasn’t for the Devil Horn Empire, Great Qin would have been able to hold off the three worlds. As such, Zhao Fu wanted the Devil Horn Empire to leave this battle.

Yao Ming loudly laughed as he replied, “Attacking Great Qin indeed has no benefits for my Devil Horn Empire, but who told Great Qin to draw so much attention to yourself? If you’re willing to submit, I’ll treat Great Qin well. I heard that you’ve collected many beauties; how about gifting me some.”

Zhao Fu did not say anything else and coldly looked at Yao Ming, a wave of fury in his heart. He raised his hand and a massive sword light slashed towards Yao Ming.

Yao Ming laughed, drew his saber, and swung it, causing a saber light to fly out. The two attacks collided with a bang, resulting in a massive explosion, and Yao Ming shot towards Zhao Fu.

As the battle between the two began, this also signaled the beginning of the battle between the two armies.

The Grassi and Half-Beast Kings grinned; now that the Devil Horn Empire’s King was tying down Zhao Fu, they did not have to fear him, and they could go and kill others.

Boom! Boom! Boom...

The battle in the air started first. The experts of both sides turned into rays of light that smashed into each other, resulting in massive winds blowing out. Because the other side had too many Kings, Great Qin was unable to tie them all down.

The Kings wanted to use this opportunity to use their Nation Armaments to blast at the defensive walls and heavily suppress Great Qin, so Great Qin could only send out the eight Aquatic Beast Kings to deal with them.

Bang! Bang! Bang...

Massive sounds rang out as Great Qin's beasts and the devil beast army collided. Massive shockwaves rippled out, causing people to feel fear.

The Wyverns in the air spat out flames and icy blasts, burning or freezing the devil beasts to death. However, the countless flying devil beasts attacked the Wyverns, using their sharp beaks to pierce and take bites out of the Wyverns' bodies.

The Giant Wolves savagely charged and sent the devil beasts flying, and some ferociously bit onto them. In response, the devil beasts also leapt onto the Giant Wolves and tore at their flesh.

The countless Spiders used their blade-like feet to tear apart devil beasts, but they were also sent flying by some larger devil beasts as they charged.

The Corpse Soul Commanders and Soldiers were dressed in heavy armor and held massive swords, standing in orderly ranks. Their massive swords swung about chaotically, chopping the devil beasts charging up to death. Blood descended like rain; the Corpse Soul Commanders and Soldiers gave off very powerful auras.

However, because there were simply too many devil beasts, they were soon pounced on and pressed to the ground, their bodies being continuously bitten and torn apart.

Chapter 1179: Devil Horn King

The armies of both sides started to fight. The countless allied soldiers gave off terrifying auras as they swept like a tsunami towards the defensive walls.

Swish, swish, swish...

Great Qin shot out arrows that drew arcs in the air, containing power might as they shot into the enemies' bodies.

The allied soldiers fell, but even more rushed up. Great Qin once again let out a wave of arrows.

These arrows were like rays of light that flashed past in an instant, tearing the allied soldiers' bodies apart. Blood splattered everywhere, creating a gory scene, and a nauseating smell spread out.

The Talisman Arrows stopped the momentum of the attack for a while, but Great Qin did not have many Talisman Arrows stocked up. After the Talisman Arrows were used up, the allied army continued to charge up while roaring, giving off ferocious auras.

Swish, swish, swish...

After charging up, the allied army started to shoot arrows towards the defensive walls. The arrows gave off sharp auras as they descended like rain, killing Great Qin's soldiers and causing them to howl in pain.

By now, some people from the allied army had already charged to the bottom of the defensive walls and propped up ladders or used grappling hooks to scale the walls. Great Qin's side used heavy objects to attack them, smashing those people down.

The allied army used magical techniques to heap boulders together, wanting to use them to create stairs to scale the walls. In response, the Great Qin side poured fiery oil that erupted into searing flames, but they were quickly put out by the allied army, who continued attacking.

Shing!

A massive and sharp saber light appeared in the sky as Zhao Fu was hacked to the ground, smashing out a large crater and coughing up a big mouthful of blood.

Yao Ming chuckled as he said, "Trash! I thought you were strong, but you've really let me down."

Zhao Fu looked at Yao Ming furiously; if it wasn't for the fact that his wounds from earlier had not healed and that he was afflicted by Emperor Killer, he definitely would not be at a disadvantage like this.

Facing Zhao Fu's furious gaze, Yao Ming coldly harrumphed and raised his saber. A massive wave of devil qi flowed out, forming a devil beast's head that looked like a bat. Yao Ming then slashed out, causing the devil beast head to shoot towards Zhao Fu terrifying power.

Boom!

A massive wave of power spread out as a black sword arc flashed out, slicing through the devil beast head and causing it to explode. Zhao Fu stood up, a black aura flame burning around his body as large winds blew around him.

Zhao Fu had unleashed his Nation Armament's power, and the massive power flowed into his body. The feeling of weakness within his body instantly disappeared.

Yao Ming's gaze became serious because he could sense how terrifying that power coming from Zhao Fu was.

Boom!

Zhao Fu also used his Nation Armament's power. A purple flame erupted around him, and strong gales blew out from him.

A black aura and a purple aura collided, and the terrifying auras caused people to feel suffocated; no one else dared to get close at all.

Boom!

Zhao Fu tapped off the ground, causing the ground to crack. His body shot into the air, and his sword gave off a ferocious aura as it slashed towards Yao Ming. Yao Ming's saber gave off a large amount of violet light as he chopped with his saber, and as the two collided, a massive shockwave emanated out. Following this, the two continued to battle.

On the battle between beasts, the ground was stained red by a large amount of blood. Countless massive corpses lay on the ground; most of them were those of devil beasts, but there were also many corpses of Great Qin's beasts. They had all died in horrible ways, with most having been torn to shreds by a large number of devil beasts.

The two sides were still fighting intensely. A Wyvern roared as it bit down onto a parrot-like devil beast. As its sharp dragon fangs pierced into it, the Wyvern's massive grip crushed the devil beast's body, causing blood to splatter everywhere.

Countless devil beast rushed up, using their mouths, claws, and beaks to leave behind injuries on the Wyvern's body.

A row of 100 meter tall Corpse Soul Soldiers were covered with blood, but they continued to vigorously hack with their massive swords, giving off terrifying power as they killed the devil beasts springing towards them.

The devil beasts continued ferociously leaping at the Corpse Soul Soldiers, using their sharp teeth to bite the Corpse Soul Soldiers to death; the scene was incredibly savage.

The eight Aquatic Beast Kings exploded out with terrifying auras as they charged towards the Kings. The Kings were already forced to use their Nation Armaments' power, leaving terrifying injuries on the eight Aquatic Beast Kings' bodies. However, the eight Aquatic Beast Kings were still able to kill some Kings.

Boom! Boom! Boom...

The battle between experts in the sky was also incredibly intense. Waves of mighty power exploded out and collided together, resulting in a bitter battle.

The number of casualties continuously increased as experts' corpses continuously fell to the ground; it was as if there was a rain of corpses.

The greatest scale of fighting was between the two main armies. By now, the allied army had scaled the defensive walls and were directly fighting with Great Qin's soldiers.

A Great Qin soldier roared as he stabbed through the body of an allied army soldier. However, another allied army soldier savagely chopped into that Great Qin soldier's body with his saber. Another Great Qin soldier shot down an enemy climbing up the defensive wall with his bow, the arrow piercing through his throat.

A Great Qin soldier savagely swung his saber, chopping the head off an enemy soldier, causing blood to spurt out. An allied soldier roared as he stabbed his sword through a Great Qin soldier's chest, while that Great Qin soldier attacked with the remainder of his strength and took down that allied soldier with him.

Corpses were heaped up on the ground, and blood covered the ground as far as the eye could see. The sounds of killing continuously could be heard and the aura of death reached the sky, causing the heavens and earth to be filled with an eeriness.

Boom!

An explosion sounded out as a ten meter tall humanoid monster with long fur and a purple horn appeared behind Yao Ming. This monster was the Devil Horn Empire's Nation Armament, the Devil Horn King. With the power of the Nation Armament materializing, Yao Ming blasted Zhao Fu flying back with his saber.

Zhao Fu flew back dozens of meters and coughed up a mouthful of blood. Nine golden dragons appeared around his body; Zhao Fu had manifested the power of the Imperial Ruler's Seal.

Zhao Fu had used the Twelve Metal Colossi at the Ancient Stem Banquet, so to avoid exposing his identity, Zhao Fu could only use other Armaments.

Bang!

A shocking battle exploded out between the two people, and Zhao Fu was once again blasted back, crashing against the defensive wall. Countless cracks appeared on the defensive wall, and Zhao Fu's chest was bloodied as he seemed to be socketed into the wall.

“Roar! Roar! Roar...” Dragon’s roars sounded out as golden light erupted around Zhao Fu’s body, and the nine golden dragons gave off massive power as they charged towards Yao Ming. The immense dragon’s might they gave off caused space itself to tremble.

Yao Ming’s pupils constricted, and he stretched out a hand, causing the Devil Horn King behind him to also stretch out a hand. A massive and firm purple energy barrier covered with devil inscriptions expanded out.

Chapter 1180: Lord Class Devils

Boom!

The nine golden dragons slammed into the purple energy barrier with terrifying force, causing Yao Ming’s expression to fall. In the next second, the purple energy barrier shattered, and Yao Ming was sent flying by the nine golden dragons, causing him to cough up a large mouthful of blood.

Zhao Fu’s aura was now quite weak, and there were many injuries all over his body. On the other hand, Yao Ming had only suffered some minor injuries, and with Zhao Fu’s current power, he could not defeat Yao Ming.

The main reason was because he had not recovered from his injuries and his body was still quite weak. Moreover, he was afflicted by Emperor Killer; otherwise, with Zhao Fu’s true strength, he would not be in such a sorry state.

As the commander of this battle, Bai Qi swept his gaze across the battlefield and sighed before giving the order to retreat and give up this Continent in the Grassi Continent.

Following this, Great Qin made a full retreat; Great Qin’s residents in this Continent had long since been evacuated back to the human world.

Yao Ming’s expression was cold as he wiped away the blood at his lips and looked at the escaping Zhao Fu. He had wanted to keep Zhao Fu here, but he had not been able to and had been hit by an attack by Zhao Fu.

In the end, he decided to let off Zhao Fu for now, and he continued on with his plan as he brought his devil beast army towards the Elf World. Now, after they took back the Continent in the Elf

World, the three worlds could ally together to attack the human world. That was where Great Qin's foundation was, and at this moment in time, Great Qin was in a position of great difficulty.

Over at the Elf World, the forces of both sides were about the same, so the Elf World did not launch a full-scale attack. After all, they knew that if they could not break through Great Qin, it would result in a large number of injuries and casualties for them.

Their main goal was to stall the army stationed here so that they could not support Great Qin in the Grassi World.

As the devil beast army, Half-Beast army, and Grassi army arrived, the Elf World was able to obtain victory. Facing the four worlds, Great Qin could only wretchedly retreat.

After these battles concluded, the three Continents that had been conquered by Great Qin were now reclaimed by the three worlds with the help of the Devil Horn Empire. Great Qin was now turtled up in the human world and engaged in full defense.

The three worlds and the Devil Horn Empire were not in a hurry to attack because the human world was where Great Qin's roots were. If they wanted to attack, they could not be unprepared.

The four worlds gathered even more forces and made proper preparations, wanting to destroy Great Qin in one fell swoop.

From the beginning of this battle, the surrounding worlds had been paying much attention. Thinking back to how Great Qin had aggressively and domineeringly conquered three Continents when they had just fused into the Heaven Awaken World and contrasting that with them pitifully retreating to the human world, there was a great difference. Many people lamented and felt that the Great Qin Empire was doomed.

However, there was nothing that Great Qin could do about this; they could deal with the three worlds, but now that the strongest world nearby had also gotten involved, it was quite difficult for Great Qin to defend as a new world.

This was especially because the Devil Horn Empire was simply too powerful. Back then, a few worlds allying together had not been able to suppress it, and they could only mediate with it in the end.

Some people had said that the Great Qin Empire would surpass the Devil Horn Empire and that Great Qin's Emperor was more powerful than the Devil Horn Emperor. Now, those people had taken a slap to the face because the result of the battle between the two parties was there.

It was not just that the Great Qin Empire was inferior to the Devil Horn Empire, Great Qin's Emperor had fought the Devil Horn Emperor, and this had resulted in Great Qin's Emperor running in defeat.

Some people said that it was because Great Qin's Emperor had already suffered heavy injuries beforehand, which was why he seemed so weak; otherwise, he would not have lost so easily.

However, no one knew if this was true or not because they were not at the battlefield. As such, those rumors might be lies spread by those who supported Great Qin's Emperor. The reality was that Great Qin's Emperor had lost to the Devil Horn Emperor.

Everyone could not help but sigh – the Devil Horn Emperor was indeed the most powerful person and no one here could surpass him. Even though Great Qin's Emperor was quite powerful, compared to the Devil Horn Emperor, he was still a bit too tender. Of course, they did not know about what had transpired at the Ancient Stem Banquet.

At the same time, the various worlds raised their wariness towards the Devil Horn Empire in order to be on guard if the Devil Horn Empire suddenly did anything.

Everyone's attention was drawn away from Great Qin and onto the Devil Horn Empire. After all, they could only be wary of the most powerful person; Great Qin was evidently not as worthwhile to keep an eye on.

In response to the four worlds allying to destroy the Great Qin Empire, some people directly said, "The Great Qin Empire might be doomed this time; it's impossible for it to defend against the invasion of four worlds."

It was a pity that such a faction that should have had limitless potential had been too arrogant and too eye-catching, resulting in it being placed in such a situation.

Within the Great Qin Palace, Zhao Fu lay on his bed, his face incredibly pale. The imperial physicians tended to his injuries as Li Si reported about Great Qin's injuries and casualties, as well as the situation outside. There was also news of the four worlds preparing to invade the human world.

The four worlds were on the verge of attacking, and this was a great crisis for Great Qin, as it was possible that they would not be able to successfully defend this time.

If Great Qin could not withstand this attack, it would ultimately be destroyed. Zhao Fu's body was still weak, and he had both old wounds and new injuries. Now that such a frustrating matter had come up, he felt incredibly tortured.

"How will we defend against this attack?" Zhao Fu summoned his subordinates to his chambers and listened to their suggestions before sinking into his thoughts. He also talked to the Devils and received some information from them.

In the end, Zhao Fu decided to have the Night Dynasty officially join Great Qin and make the Southern Continent of the Dark Demon world part of Great Qin's territory. The connection between Great Qin and the Night Dynasty had already been exposed, and there was no longer any way of hiding it. This way, they could make the Night Dynasty's 20,000 Cities governmental cities and their City Lord Seals could be fused into beasts.

The targets for the fusion would be the Illusion Flower Devils. During the previous battle, Zhao Fu had not sent out the Illusion Flower Devils.

After all, he was not willing to completely reveal Great Qin's strength and had to leave some tricks up its sleeves. Only then would they have a great effect in the future. The Illusion Flower Devils had average fighting strength, but their power lay in their ability to create illusions, which was something that Zhao Fu valued greatly.

Before, Zhao Fu had 30,000 Illusion Flower Devils as Great Qin's trump card, and he could use them in this upcoming battle. Adding on 20,000 Illusion Flower Devils, they would have 50,000 in total.

Great Qin controlled a system faction that occupied an entire Continent in the Fish Scale world, but they would not use it now; it would have great effects in the future.

The Devils had participated in the previous battle and found out some important information about the Devil Horn Empire's devil beasts, which was that the devil beasts could become Devils quite easily. Their bodies had already accumulated a large amount of devil qi, and they had their own consciousness. If they were permeated by even a bit of the devil qi from the Devil World, they would immediately become Devils.

Moreover, these Devils would be more powerful than ordinary Devils; once they became Devils, they would at least be Elite class, and most would be Chief class. Some would even be Lord class.

After hearing this, Zhao Fu felt a trace of hope in defeating the Devil Horn Empire.
