

The Lord 1181

Chapter 1181: Corpse Soul Sword Spirit

Zhao Fu ordered the Devils to return to the Four Soul Devil World, increase the speed at which Devils were converted, and reinforce the Four Soul Devil World. Dealing with the Devil Horn Empire would greatly rely on them.

Following this, Zhao Fu talked to Bai Shan and gave the World Pearl he had obtained from the Ancient Stem Banquet to him.

The World Pearl was a metallic pearl that was as big as a rubber ball, and it was incredibly light, weighing the same as a few feathers. However, it had immense spatial powers and was a very powerful spatial treasure.

Now, Great Qin had a way for defending against the four worlds, but this method could only be used once. Its effects would be the greatest the first time, and the enemy would be prepared if they used it a second time. As such, they had to heavily wound the four worlds this time.

Moreover, Zhao Fu had to have his body quickly recover; Great Qin already had fewer top-tier experts than the enemy, and they needed someone to stop that Yao Ming.

If it wasn't for Zhao Fu, there would be no one within Great Qin who could stop Yao Ming, and Yao Ming would be able to deal heavy blows to Great Qin. As such, no matter what, Zhao Fu had to act.

However, how could he quickly cause his body to recover?

Consummating with many women could reduce the pain from Emperor Killer, and he had some recovery effects due to the Six Desires Celestial Art, but Zhao Fu felt that it was still too slow. It was possible that a battle could erupt the next day, so Zhao Fu had to think of faster ways.

A while later, Zhao Fu went to the Corpse Soul Blood Lake, where Corpse Soul Soldiers were converted. Zhao Fu planned to enter the Corpse Soul Blood Lake, as this place could provide a large amount of fleshy power and quickly help Zhao Fu's body recover.

However, there was a certain amount of danger because the Corpse Soul Blood Lake was an extremely evil place of conversion, and it could turn a living creature into a monster.

If Zhao Fu entered it, his body would be corroded by that power, but he was prepared. He took out a sword that gave off powerful corpse soul aura; this was the Corpse Soul Sword. Zhao Fu had used the Swordcorpse Talisman on a Corpse Soul Lord, turning her into the Corpse Soul Sword. Zhao Fu rarely used this sword.

The Corpse Soul Sword gave off a faint sword light as a beautiful woman dressed in gray armor with blood-red eyes and pale skin appeared; she was the Corpse Soul Sword Spirit.

Zhao Fu took off his clothes as he said, “Help Us get rid of the evil aura!”

The Corpse Soul Sword Spirit nodded and went into the Corpse Soul Blood Lake. The bloody water started to roil and spin, and after the Corpse Soul Sword Spirit reached the center, a large whirlpool had appeared in the blood lake.

This whirlpool was not very strong, and it spun slowly and calmly. Zhao Fu walked into the blood lake and felt a powerful fleshly energy and no abnormal energy entered his body; the Corpse Soul Sword Spirit had played a key role.

Zhao Fu went to the center of the Corpse Soul Blood Lake and closed his eyes as he started to work on healing his injuries.

The Corpse Soul Sword Spirit’s blood-red eyes looked at Zhao Fu. She did not say anything and instead peacefully looked at him.

Sensing her gaze, Zhao Fu opened her eyes and asked her in confusion, “What is it? Did something happen?”

The Corpse Soul Blood Sword said calmly, “Are you really going to die? What will happen to me if you die?”

Hearing this, Zhao Fu fell silent. A while later, he looked at her and said, “We will make good arrangements for you; alternatively, you can make your own choice.”

“I don’t want you to die!” the Corpse Soul Sword Spirit said earnestly.

Zhao Fu bitterly laughed; he did not want to die either. However, he did not have any way of dealing with this, so he could only start to make arrangements for how things would be handled after his death.

“Mm, We understand,” Zhao Fu lightly replied. A sad look appeared on the Corpse Soul Sword Spirit’s face; after being by Zhao Fu’s side for so long, she was reluctant to part with him.

Zhao Fu once again closed his eyes and focused on healing himself.

The Corpse Soul Sword Spirit’s armor turned into countless traces of aura and disappeared, revealing her alluring body. She suddenly moved towards Zhao Fu and lightly hugged him as she pressed her pale lips against his.

“I want to experience what it’s like to do it with you like those other women,” the Corpse Soul Sword Spirit said as she calmly looked at Zhao Fu without a trace of desire or emotion.

Zhao Fu opened his eyes, feeling quite shocked at the Corpse Soul Sword Spirit’s words.

Before he could say anything, a green light flashed on the back of his hand. The Sin Dragon Sword was incredibly dissatisfied because the Corpse Soul Sword Spirit was trying to snatch something that she thought belonged to her, and she had not received it a single time.

“Owner, since you’re going to die, how about you use your body to make me happy just once. Otherwise, it’ll be such a pity if you die.”

The Sin Dragon Sword came out of the Sword Mark. She was not wearing anything and directly leapt at Zhao Fu.

Zhao Fu was quite annoyed by her words and rapped her on the head. He refused both her and the Corpse Soul Sword Spirit; he had come here to treat his injuries, not do other things.

Four days later, Zhao Fu had mostly recovered. Even though he could not use his full strength, he could still use about 80% of it.

By now, the allied army of the four worlds were ready and were heading towards the human world. Great Qin had also completed its preparations.

The surrounding worlds paid great attention to this battle because the human world could be destroyed as a result. Each of the four worlds would split the human world, and the Great Qin Empire would disappear into history.

It seemed impossible for the Great Qin Empire to defend; the power of the four worlds was simply too great. It was mainly the Devil Horn Empire; if it wasn't for its involvement, perhaps Great Qin would have some hope.

Rumble...

The armies of the four worlds gathered together and flowed towards the human world like an apocalyptic flood. The terrifying sounds caused all creatures to sink into terror.

Their allied army had nine billion soldiers in total, and they were mostly made up of Grassi people, Half-Beast people and Elves. The Devil Horn Empire provided its devil beast army, as ordinary soldiers would most likely be injured or killed; the Devil Horn Empire evidently did not want to help the three worlds too much.

Great Qin only had seven billion or so soldiers, and they were not as scattered anymore. Most of them gathered together and defended the Great Wall; of course, some of them were guarding the Southern Continent of the Dark Demon world.

After a few days, the two armies once again faced off against each other.

Zhao Fu stood in the air, followed by countless experts, giving off an extraordinary aura. Now that Zhao Fu had mostly recovered from his injuries, he felt much more confidence.

On the other side, Yao Ming's expression was quite serious because he could sense that Zhao Fu's current self was not simple at all; he was far more powerful than last time and gave him some pressure.

At that moment, a Grassi King came out with a Contract and tried to resolve this battle.

The three worlds had already lost much of their forces and they knew that Great Qin would not be easy to deal with. They did not want to suffer more losses, so they had written a Contract and wanted Great Qin to surrender.

Chapter 1182: Ludicrous

The contents of the Contract were like the ones that Zhao Fu had signed with them before, but their positions had switched; they instead wanted Great Qin to cede three Continents to them and make all sorts of reparations. At the same time, Great Qin had to become a vassal and provide tributes of treasures and women every year.

“Hahaha...” After recovering from most of his injuries, Zhao Fu’s aura naturally was not as weak as before. He coldly looked at them and said loudly, “Absolutely ludicrous! Great Qin will always fight and will never surrender.”

Since there was no possibility of mediation, the two sides went into a state of having swords drawn and bows bent.

Boom!

Zhao Fu exploded out with a powerful aura and shot towards Yao Ming. Yao Ming coldly harrumphed and drew his saber to meet Zhao Fu, following which the battle between the two of them unfolded.

The battle between these two people once again signaled the start of the battle for the others.

“Roar! Roar! Roar...” Countless devil beasts roared as they flooded forwards with ferocious auras, shaking their surroundings. They seemed to be able to sweep across anything, and that aura sent half the battlefield into terror.

Facing this terrifying devil beast army, Great Qin’s beasts did not directly charge up this time, and instead formed a firm defensive line.

It was mainly the 100 meter tall Corpse Soul Soldiers that raised their shields that were dozens of meters long, forming a large shield wall. The Wyverns in the air spat out flames and icy blasts, reducing the momentum of the incoming devil beast army.

Boom!

A shocking explosion sounded out as the devil beast tide gave off an aura that seemed to be able to annihilate everything smashed against the shield wall. The Corpse Soul Soldiers were barely able to stop the charge from the devil beast army.

The two sides started to fight, but Great Qin's beasts mainly defended and did not take the initiative to attack.

On the other side, the allied main army surged towards the Great Wall, and the terrifying sounds were just as shocking.

Swish, swish, swish...

The Great Qin side continuously shot out countless arrows as they defended, and they tore through the air before stabbing into their enemies' bodies.

However, this could not stop the advance of the allied army. Most of the arrows from Great Qin were blocked and did not cause too many injuries or casualties. It was a pity that Great Qin did not have any more Talisman Arrows, or else just a single wave would have resulted in countless injuries and casualties.

Boom! Boom! Boom...

Countless allied soldiers' bodies exploded out with different auras, which condensed in the air and formed massive creatures that gave off terrifying auras.

"Roarr!!" A roar sounded out as countless traces of aura formed an enormous crocodile that was hundreds of meters long and had a mouth full of sharp teeth. It gave off a savage aura as it charged towards the Great Wall.

Boom! Countless traces of green aura gathered and an explosion sounded out, sending out countless traces of sabre qi. A large saber that was hundreds of metres long appeared, rushing towards the Great Wall with power that seemed to be able to slash through anything.

“Roar!” Countless traces of fiery aura gathered in the sky and a dragon’s roar sounded out as a fiery dragon that was hundreds of meters long appeared, giving off immense dragon’s might as it flew towards the Great Wall.

The allied army used their Corps to create all sorts of different Corps Formations. There were 170 or so of them, and the sounds they gave off shook their surroundings; countless people could only tremble under this aura.

Great Qin’s side also exploded out with an aura, forming massive Corps Formations.

There was a massive sword that gave off boundless sword qi, a Demon King that was hundreds of meters tall, a fiery woman, a statue giving off the aura of a godly spirit, a flood dragon giving off a King’s aura, and a massive eagle.

The Corps Formations of both sides ferociously clashed together, creating terrifying winds. Even though Great Qin had fewer Corps Formations, they had a great advantage in quality, and a single one of Great Qin’s Corps Formation could take on multiple Corps Formations of the allied army.

However, the allied army had used the cover of the Corps Formations to reach the Great Wall and started to scale it.

The battle between experts in the air was also incredibly intense. The eight Aquatic Beast Kings were struggling, as they had not fully recovered from their injuries from before, and they had to face off against even more Kings.

Under the combined attacks of the various Kings, they had been forced into a very passive state and had no opportunity to attack. They had many gashes on their bodies now.

“Demon Sun!” A ray of demonic qi shot into the sky, making it seem as if a demonic sun had appeared in the sky, giving off boundless demonic intent that shook the surroundings.

Shing!

A massive sword hum sounded out as a black sword light gave off power that could rend the heavens, and it flashed through the sky, seeming as if it could destroy anything in its path.

Cough, cough... within a large crater, Yao Ming lay on the ground and coughed up a few mouthfuls of blood. There were a few wounds on his body, making him look quite wretched, but his injuries were not too severe.

Zhao Fu stood in the air and pointed the Sky Demon Sword at Yao Ming as he coldly harrumphed, "Trash! I thought you were strong, but you've really let me down."

It was Yao Ming who had originally spoken these words because Yao Ming was quite strong and had forced Zhao Fu to use all of his strength.

Hearing these words, Yao Ming almost exploded with anger. After all, he had used these words to humiliate Zhao Fu before, and now they had been used word for word by Zhao Fu to humiliate him.

Boom!

A ten meter tall monster covered with fur and with a single horn appeared behind Yao Ming. Yao Ming directly exploded out with the power of his Nation Armament, sending out a shocking aura.

Boom!

Zhao Fu also exploded out with the Imperial Ruler Seal's power, and he held the Sky Demon Sword as he attacked Yao Ming, once again opening the battle between them.

Bang!

A muffled explosion sounded out as Yao Ming was once again blasted back by Zhao Fu with an unsightly expression on his face. Zhao Fu's strength was completely different than before, and he somewhat felt that he was not a match for him. Could it really have been that he had not recovered from his injuries?

Yao Ming could not accept this; he had been the most powerful person in this region for decades; how could he lose to a new King like Zhao Fu?

“Arghhh!” Yao Ming roared as massive amount of devil qi flowed out of him, and a devil horn appeared on his head. His aura rose to its peak, and the space around him started to collapse.

“Roar!!” Yao Ming slashed out with his saber, causing countless tracs of devil qi to sweep, forming a thousand meter long purple tiger that roared before charging at Zhao Fu with a powerful aura.

A look of shock appeared in Zhao Fu’s eyes as he immediately unleashed his defensive abilities, causing his Emperor’s Domain and Saint Realm Domains to appear and surround his body.

Bang!

The enormous purple tiger gave off boundless power as it sent Zhao Fu flying, and all of his defensive barriers were instantly shattered.

Below, Bai Qi surveyed the battlefield. The devil beast army had rushed to the area in front of Great Qin’s beasts, and the allied army was at the Great Wall. The time was right, and Bai Qi’s expression was cold as he gave out commands.

Boom!

Within the Four Souls Devil World, a magic formation activated, and a silver pearl the size of a rubber ball gave off brilliant silver light as the space around it seemed to freeze.

Chapter 1183: Teleportation Trap

At the back of where Great Qin’s beasts and the devil beast army were fighting, Great Qin’s soldiers got up on the Great Wall with serious expressions. They held spears that shimmered with colorful lines and looked at the terrifying devil beasts before lifting the spears.

Swish, swish, swish...

The spears turned into rays of light as they shot out. The spears did not hit the devil beast army and instead stabbed into the ground. This caused the people directing the devil beasts to disdainfully laugh.

However, in the next moment, the light from the spears entered the ground, and massive magic formations spread out.

These magic formations were all quite complex, and there seemed to be black holes at their centers. As these magic formations spread out, they exploded out with an intense attractive force, and the devil beasts within them instantly disappeared.

Some devil beasts near the magic formations were also dragged in by the powerful attractive forces, and their bodies also disappeared.

In the next moment, they reappeared within a blood-red world. Looking at this blood-red world, they started to panic, as they felt an inauspicious aura.

The devil beasts with wings tried to fly out, and those without wings tried to run out. However, the ones that flew quickly reached the top of the barrier, and they madly attacked the barrier but found that it did not budge at all.

This Four Soul Barrier had been reinforced with the four Soul Jades of the four Guardian Beasts, causing its firmness to exceed anything ordinary people could imagine. No matter how desperately the devil beasts rammed at the barrier, they were unable to affect it at all.

The devil beasts did not have much time either. Countless traces of blood-red devil qi started to invade their bodies, and in just an instant, the devil beasts' eyes became blood-red and they gave off pained howls as their bodies started to go through changes.

A tiger started to lose all of its fur and its skin became pale-white. Its head gradually became a humanoid shape, and its eyes became pure black. This tiger had become a Soul-Devouring Devil.

A massive white crane's feathers became blood-red and a massive mouth suddenly appeared where its stomach was. It looked incredibly ugly and disgusting; this white crane had turned into a terrifying Devil.

A massive python that gave off a terrifying aura struggled on the ground in pain as its body gradually shrank. It soon became a humanoid shape as a naked and enchantingly beautiful woman appeared. Her eyes were filled with savagery, without a trace of human emotions.

When the Devil leaders had said that the devil beasts could be turned into Devils incredibly easily, Zhao Fu had thought of this method to deal with them. Once they became Devils, they would obey Zhao Fu and oppose the Devil Horn Empire.

These devil beasts were all quite powerful, so after becoming Devils, they became even more powerful. With them joining Great Qin's forces, they provided a massive amount of high-tier battle power.

The magic formations from before were the teleportation traps that he had ordered the Scholars to research before. Anyone within them or close to them would be automatically teleported; under the powerful spatial effects of the World Pearl, such a thing was now possible.

Swish, swish, swish...

Spears once again flew out and more devil beasts disappeared. This caused the remaining devil beasts to feel quite startled. The Devil Horn Empire had brought 1.2 million devil beasts this time, and more than half of them had disappeared.

This caused Yao Ming to feel quite furious. He slashed at Zhao Fu, forcing him back as he said angrily, "What kind of shameless methods are you using?"

Zhao Fu coldly laughed and did not reply.

Yao Ming hurriedly ordered the devil beast army to retreat. The devil beast army had been developed painstakingly by the Devil Horn Empire, and each devil beast was quite powerful. They were part of the reason why the Devil Horn Empire was so powerful.

Seeing more than half of these devil beasts disappear, Yao Ming felt an ache in his heart, and he could not allow them to continue rashly attacking.

Boom! Boom! Boom...

Massive auras spread out as enormous humanoid plants appeared on the Great Wall, giving off shocking auras.

Before anyone could react, the flower buds on their heads blossomed into beautiful flowers. Rainbow-colored pollen floated out like a colourful drizzle. It was an incredibly beautiful but dangerous scene.

Countless allied soldiers breathed in this pollen and were instantly dragged into an illusion. One suddenly raised his face to the sky and started to weep; another stood there in terror as if he was looking at something horrifying. Some people even started attacking those close to them.

This caused the expressions of the countless Kings to fall, and they quickly gave the order for the army to retreat in order to prevent more soldiers from being caught in these illusions.

The intense battle instantly stopped as the people from the four worlds retreated far away, looking at Great Qin ahead with unsightly expressions. They felt that they had completely fallen into Great Qin's plans.

There were still two billion soldiers who had not made it out. They were powerless as they were hunted down and killed by Great Qin, causing the Kings to feel immense pain. Their eyes were filled with fury and hatred.

They had also made preparations, but they had evidently lost. The two cards that Great Qin had played were enough to heavily wound them, and if they continued to fight, they would definitely lose because Great Qin most likely had more cards up its sleeves.

Zhao Fu spoke with a trace of condescension, "What, are you not going to attack anymore?"

Yao Ming said with a cold expression, "Where did you take my devil beast army? Hand them over immediately and I'll withdraw from this battle. If you don't hand them over, the Devil Horn Empire will officially declare war against you."

"Hahaha..." Zhao Fu loudly laughed as he said, "It was your Devil Horn Empire that chose to get involved; do you regret it now? If you want to fight, we'll fight; my Great Qin Empire does not fear anyone and will destroy your Devil Horn Empire sooner or later."

Yao Ming felt furious and was about to attack, but he held himself back. After all, if he did that, they would suffer even greater losses.

“Mark my words, I’ll definitely have you pay back this debt in blood,” Yao Ming spat as he left the battlefield with his devil beast army, preparing to return to the Devil Horn Empire before launching an official attack against Great Qin.

The remaining Kings of the three worlds looked at each other and could also only angrily order a retreat. Since the most powerful of them, the Devil Horn Empire, was retreating, they could only do the same.

Even if they remained here, they had no way to deal with that colorful pollen. The losses they would suffer from advancing again would be immense, so they had no choice but to retreat.

Seeing them retreat, Zhao Fu did not give the order to chase after them because it was possible that they could be turned on. Their retreat evidently signaled a victory for Great Qin, causing countless people in Great Qin to cheer. Great Qin had been able to withstand this massive pressure.

News of the four worlds’ defeat spread like a wild gale, shocking countless people. They had never thought that the four worlds would lose; after all, one of them was the Devil Horn Empire.

Following this, they found out that Great Qin still had many powerful tricks up its sleeves, making them feel quite shocked.

Chapter 1184: Number One Kingdom

Now, the identity of the number one Kingdom in this region was up for contention. Some said it was Great Qin, as it had defended against four worlds, while others said it was the Devil Horn Empire, as it had not gone all-out this time.

It was rumored that the Devil Horn Empire was going to officially attack the Great Qin Empire, and thinking about the battle between these two worlds, it was quite shocking. When the time came, everyone would know who the number one Kingdom was.

After the battle concluded, Zhao Fu ordered his people to clear up the battlefield. They had obtained 1.5 billion captives; the Illusion Flower Devils had been the greatest contributors to this victory.

A single Illusion Flower Devil's pollen could cover ten or so kilometers, and 50,000 Illusion Flower Devils could cover 70,000 to 80,000 kilometers. They had been especially effective because of how closely the allied soldiers had been grouped.

Moreover, the pollen did not have to be breathed in to take effect; just landing on one's skin could result in it permeating through, so it was very difficult to defend against.

Zhao Fu did not plan on retaking the three Continents in the three worlds for now. If they attacked now, Great Qin would be able to reclaim them quite easily.

However, because Great Qin's foundation was not sufficient, even if they took back those three Continents, it was likely that the three worlds would be able to re-conquer them at some point. In order to reduce unnecessary injuries and casualties, Zhao Fu planned to raise Great Qin's strength before invading again.

With the threat of Great Qin present, the three worlds could only send soldiers to defend the three Continents at most and did not dare to move any Cities over. After all, Great Qin had the strength to take back the Continents whenever it wanted to.

Great Qin had suffered massive losses from this battle; 700 million or so soldiers had died, and 30,000 of the beasts had perished.

The deaths of Great Qin's beasts was mostly due to the Devil Horn Empire's devil beast army. The three worlds had not been able to deal much damage to the beasts.

However, Great Qin had also performed quite well, killing 1.7 billion enemies and taking 1.5 billion captive, reducing the other side's strength by 3.2 billion. This once again weakened the three worlds' foundations, and they could no longer increase their armies by a large number.

If they suffered another blow like this, they would have almost no soldiers left and would eventually perish.

Great Qin had also killed 300,000 or so devil beasts and had sent 500,000 into the Four Soul Devil World, which was a big blow to the Devil Horn Empire.

After clearing out the battlefield, Zhao Fu returned to Great Qin to hold a celebratory banquet. However, Zhao Fu did not participate; after giving out some rewards, he left the Palace.

It would be New Years again soon, and when that time came, Great Qin would welcome its seventh year in the Heaven Awaken World. Time was running out, and Zhao Fu started to feel better about death. In his remaining time, he wanted to do more things.

After leaving the Palace, the first thing he needed to do was create new City Lord Seals. After losing 30,000 beasts, they had lost 30,000 City Lord Seals.

However, because Cities could create new City Lord Seals, he could make up for the 30,000 City Lord Seals that had been lost. However, this came at a price, which was an ocean of EXP. Fortunately, Great Qin did not lack EXP at all now.

After creating 30,000 new City Lord Seals, Zhao Fu fused them into the new beasts' bodies, increasing their total to 170,000. This was Great Qin's strongest force, and if he had enough of them, Great Qin would not have to fear even a Royal Kingdom.

Following this, Zhao Fu headed to the Four Soul Devil World to take a look at the devil beasts. He felt quite interested in this.

After all, the devil beasts had already been quite powerful and would become even more powerful after becoming Devils. If they could be used by Great Qin, their effects would be incredibly shocking. After all, if he could obtain 50,000 of them, perhaps they would be incredibly effective against the Devil Horn Empire.

As such, Zhao Fu immediately wanted to come and check on the Four Soul Devil World.

"Your Majesty, you've come!" Tamamo-no-Mae said flirtatiously as she paid her respects before going over to Zhao Fu and pressing her breasts against him.

Zhao Fu lightly laughed and asked, "Where are the devil beasts that became Devils? We want to take a look."

Momijigari gave a confident smile as she replied, “Your Majesty, we’ve gathered them together for you to look over; their strength definitely won’t disappoint Your Majesty.”

Hearing this, Zhao Fu’s smile brightened and he nodded. Just as he was about to have Momijigari lead the way, gray dragons suddenly appeared on the surface of his body. A look of pain appeared on Zhao Fu’s face as Emperor Killer once again flared up. Zhao Fu could only endure the pain and say, “We will be returning to the Palace for now; We will take a look some other day.”

Tamamo-no-Mae knew what was happening, so she said happily yet worriedly, “There’s no need for Your Majesty to return to the Palace, that’s so troublesome; just stay here.”

Before Zhao Fu could reply, Tamamo-no-Mae pressed her lips against Zhao Fu’s.

Momijigari squatted down and disregarded whether Zhao Fu approved or not, and she started to serve him. Following this, the sound of bodies ramming together could be heard.

Following this, more Devils heard about this and excitedly joined in, causing the room to be filled with moans.

The room was filled with Devils breathing raggedly, and Zhao Fu lay on the green carpet as he bitterly laughed. Tamamo-no-Mae had a look of satisfaction as she lay on Zhao Fu’s left shoulder.

Momijigari lay on Zhao Fu’s right shoulder as she smiled and said, “Your Majesty, now that things have come to this, there’s no need to think too much. Those women have been serving Your Majesty every day but still haven’t carried your imperial seed; they’re evidently not good enough. Your Majesty, I would like to bear your imperial seed.”

Most of the higher-ups in Great Qin knew that Zhao Fu only had about a year to live, but he still did not have any heirs. This meant that the line of succession for Great Qin could be broken, so they would have to find the next ruler from the Ying family.

If they wanted to avoid this, they had to have Zhao Fu have heirs within that time in order to continue his line.

Zhao Fu was the core of the Great Qin Empire, so once he died, Great Qin would go through massive changes. No one knew what would happen.

Momijigari could not afford to miss this opportunity, so she wanted to do it with Zhao Fu. Only then would her future be secure; if she could bear Zhao Fu's imperial seed, she would become one of the most prestigious people in Great Qin.

Hearing her words, Zhao Fu sighed as he said, "If it was before We awakened Our King bloodline, perhaps it would be possible; but now We have a Sovereign bloodline, which makes conception incredibly difficult. Alright, take Us to see those devil beasts!"

Hearing Zhao Fu's words, Momijigari felt slightly disappointed. However, she then lightly laughed as she said, "Your Majesty, didn't you just see them? You were doing it with them just then! These three also used to be devil beasts."

This gave Zhao Fu a big fright; he had never thought that he would end up doing it with devil beasts. He looked at the three Devils currently serving him: one of them was incredibly enchanting and had a soft body, and it seemed to be a Snake Devil; one had black cat ears and was most likely a Cat Devil; and one had a pair of green wings and was most likely a Bird Devil. The three of them were all incredibly beautiful.

Now that things had come to this, Zhao Fu could not say much. Now that he was someone who was going to die soon, he did not mind it much.

Chapter 1185: Ruler of Great Qin

"Can all of these devil beasts turn into human form?" Zhao Fu enjoyed the service of the three Devils as he asked Momijigari curiously.

After all, it was quite difficult for devil beasts to take human form; it required extremely high cultivation and great power, or else they would need other methods such as medicinal pills.

Momijigari replied, "Not all of them; this requires great strength as well as a high-grade bloodline. Moreover, once they become human form, their strength will be many times greater."

Hearing this, Zhao Fu sensed the strength of the three Devils currently servicing him; they all had Stage 9 strength, which made him feel quite shocked. After all, this could rival the power of a City Lord with an old City Lord Seal.

If 500,000 devil beasts had this kind of strength, they would be equivalent to 500,000 City Lords with the old City Lord Seals. If Zhao Fu had this kind of power, he would be able to sweep through the surrounding ten or so worlds and Great Qin would become a Royal Kingdom and take revenge on the three factions.

Thinking about that, Zhao Fu felt quite excited, but he soon heard that only 5,000 to 6,000 of them had become humanoid Devils, causing him to feel disappointed.

However, now that they had obtained 5,000 to 6,000 Devils that rivalled Stage 9 experts, Great Qin was not in such a dire need of experts anymore, making up for one of its shortcomings.

What a pity that the Devil Horn Empire had not thrown more devil beasts at them! If Great Qin could find out how the Devil Horn Empire nurtured devil beasts, they could develop their own, allowing them to have a sufficient foundation.

A moan cut off Zhao Fu's thoughts; one of the enchanting women was now riding on him.

After all of this was over, Zhao Fu went to take a look at the Devils that had not turned into human form. These Devils were all stronger and bigger than they were before and looked more ferocious and savage. There were 500,000 of them and they could rival Great Qin's 100,000 beasts.

The Devil Horn Empire's devil beast army could allow Great Qin to become much stronger, so he started to somewhat look forward to the battle with the Devil Horn Empire.

A few days later, Great Qin started to be covered with lanterns as they started to celebrate New Years. The streets were filled with people, and there were all sorts of stands on the streets, creating a lively scene.

Just like last year, Zhao Fu stood on a tall building and looked at the splendor and liveliness of Great Qin. Little Nine ran up holding Little Rose's hand, asking Zhao Fu to play with them. Zhao Fu smiled as he picked them up and went down.

The short period of happiness allowed Zhao Fu to temporarily forget about his troubles. However, a few days later, Zhao Fu would have to deal with a big matter, which was the next ruler of Great Qin.

Zhao Fu looked at Li Si and said, “Have you collected information on all of the bloodlines of the Ying family? Are there any particularly exceptional people?”

Because Zhao Fu did not have any descendants, he could only pick from the Ying family. The Ying family was the imperial family of Great Qin; thus, they had the qualifications to be the next ruler of Great Qin.

Li Si heavily sighed. Even though the Ying family had a few outstanding people, how could they compare to Zhao Fu? It was like comparing the sun to a speck of sand; no one in Great Qin had the qualifications to replace Zhao Fu.

“Your Majesty, if it was possible, this Minister would be willing to die for you. You’re currently in your prime and should not die so early like this. You must bring Great Qin to glory.”

Zhao Fu smiled in gratitude and said, “This is how things are; there’s nothing we can do.”

Bai Qi looked quite pained and uncomfortable as he stood there, unable to say anything.

Zhao Fu smiled as he looked at these two subordinates next to him. Li Si and Bai Qi had been with him since the very beginning, and Zhao Fu had complete faith in them, so he said, “We will be leaving Great Qin to you two. We hope that you won’t let Us down.”

Li Si and Bai Qi immediately knelt and said in grief, “We are willing to defend Great Qin to the death!”

Zhao Fu lightly nodded as he replied, “Bring the suitable to Us! And remember to keep this matter a secret, or it will cause much panic.”

Zhao Fu was not only the ruler of Great Qin but also the core of Great Qin and its spiritual leader. News of Zhao Fu’s impending death would have massive effects on the people.

Li Si nodded and went out.

Following this, a few members of the Ying family received summons to go to the Great Qin Palace, and they excitedly came over. They had heard that Great Qin’s Emperor would be dying soon and that the new Emperor would be picked among them.

Thinking about how they would stand at the peak of Great Qin and receive gazes of worship from billions of subjects, as well as have those grand Ministers and Generals prostrate themselves at their feet, they could not help but feel incredibly excited.

Even though this matter was simply too exciting for them, they quelled their emotions because Great Qin's Emperor had not yet died and he would be picking his successor. If they acted too shallowly, they would not be picked.

“We greet Your Majesty! Long live His Majesty! Long live His Majesty!”

Six white-clothed young men with extraordinary bearings respectfully knelt on the ground, lowering their heads as they greeted Zhao Fu on his throne.

Zhao Fu sighed. Was he really going to pick the next ruler of Great Qin from these six people kneeling in front of him?

Zhao Fu was not very satisfied with these six people; perhaps it was because they were so willing to kneel. Moreover, even though their aptitude was quite good, they could not compare to the geniuses outside; they were simply too ordinary.

However, Zhao Fu had no other choice; he did not have any descendants, so he could only choose from among the Ying family. These six young men were the most outstanding people from the Ying family, so they were Zhao Fu's only options. One of them would become the next ruler of Great Qin.

“I'll test them first, maybe they'll surprise me,” Zhao Fu thought to himself.

Li Si also looked quite worried; he was not satisfied with these six people either, so Zhao Fu definitely would not be happy with them. However, they were already the most outstanding people, and Great Qin had no other options.

Bai Qi was silent but he looked slightly worried; if one of these people became the next ruler of Great Qin, Great Qin's strength would definitely decline, and it would be difficult for Great Qin to grow.

Zhao Fu did not have any confidence in any of these six people to expand Great Qin and guard Great Qin's foundation.

"You may leave!" Zhao Fu said, feeling a headache coming on.

Hearing this, the six of them looked somewhat disappointed because they could tell that Zhao Fu was not very pleased with them. However, they were not too downcast because Great Qin could only pick from among them, so they still had a chance of becoming the next Emperor.

"Your Majesty, Concubine Wu is trying to force her way in to see you," a soldier quickly reported.

Zhao Fu felt quite surprised and allowed Wu Qingniang in. Wu Qingniang's eyes were red and tears could be seen within them. Seeing this, Zhao Fu had everyone else leave.

Chapter 1186: Promise Me You Won't Die

"Did you find out?" After everyone had left, Zhao Fu looked at Wu Qingniang and felt some heartache and guilt as he walked over to her. Out of all of the women, the one he was attached to the most was Wu Qingniang.

Back when he was still weak, she had done all she could to protect him, even though she had been quite domineering and called him hers.

However, Zhao Fu truly liked Wu Qingniang and felt that he truly did love her. Now that he had been afflicted by Emperor Killer, he did not know when he would die, and he felt a lot of guilt towards Wu Qingniang.

At first, he had tried to hide it from her, but now that most of the higher-ups knew, it was impossible to continue keeping it a secret.

Pa!

A clear slap sounded out as Wu Qingniang slapped Zhao Fu's face, her eyes dancing with tears as she looked at him.

Zhao Fu fell silent and did not know what to say.

“Promise me you won’t die,” Wu Qingniang sobbed as she looked at Zhao Fu with her beautiful eyes.

“I...” Zhao Fu did not know what to say. Even higher-beings could not get rid of Emperor Killer, so what could Zhao Fu do? He was essentially doomed to die, so he could not make such a promise to Wu Qingniang.

“Are you willing to just die like this? And hand over the Empire you created to someone else? Do you want me to serve another man? Do you want all of your women to belong to someone else?” Wu Qingniang angrily said in a loud voice as tears flowed out of her eyes, gliding across her white face and continuously falling to the ground. As she spoke, she began to sob more.

Zhao Fu felt a piercing pain in his heart; he did not want to die like this and did not want to hand over his Empire to someone else, much less have his beloved women become someone else’s.

However, since things were like this, he was powerless to change anything. He stepped forwards, lightly hugged Wu Qingniang, and sighed as he said, “Qingniang, I don’t want this either, but there’s nothing I can do.”

Wu Qingniang angrily pushed Zhao Fu away and shouted, “Are you just going to give up like this? Aren’t you Great Qin’s terrifying Legatee? You swept across the world with no fears, and look at you now! You’re already preparing to die!”

This startled Zhao Fu and he realized that he had become too melancholic and pessimistic. With how big the Heaven Awaken World was, perhaps there would be a way to deal with this. If he only made preparations for his death instead of seeking a way to avoid it, he would definitely die.

Indeed, as his status had risen, Zhao Fu found that he had changed. There were more things that he was afraid of, and he was no longer as driven. He no longer had the domineeringness that made it so that he feared nothing, something that he had started off with.

Thinking about that, Zhao Fu lightly laughed and seemed to become a different person; his mental state was dozens of times better now.

“Qingniang, I promise you, I won’t die!” Zhao Fu said earnestly as he gave a warm smile.

Wu Qingniang looked at Zhao Fu and her heart trembled as she leapt into his embrace. She did not cry anymore, and she instead happily hugged him tightly.

After coming out from the palace, Zhao Fu was no longer as low-spirited and disheartened; Li Si and Bai Qi both noticed this, causing them to feel quite happy. Their old Majesty was back.

As Zhao Fu recovered, the Great Qin that seemed to have been covered with gloomy clouds also recovered and became full of life again. Each of the Departments operated efficiently, and Great Qin returned to its domineering and vigorous manner.

The members of the intelligence networks spread out, collecting information from the surrounding worlds.

The Grassi World, Half-Beast World, and Elf World had all gone into a defensive state. Even though the Devil Horn Empire said that it would be officially attacking Great Qin, it did not immediately attack. It did not yet have anything it could use to deal with Great Qin, so it would be some time before they attacked.

Zhao Fu also received news of the Ten Thousand Dragon Financial Group being destroyed by the three factions, causing him to feel incredibly guilty. He now hated those three factions even more; one day, he would definitely destroy them.

Whether they were Royal Kingdoms or Empires, Great Qin would surpass them sooner or later. Zhao Fu had this confidence, and he would take revenge for the Ten Thousand Dragon Financial Group.

Following this, Zhao Fu started to go through the rewards from the Ancient Stem Banquet. Zhao Fu had taken all of the top ten prizes, and he was already using the World Pearl.

It was the core formation of all of the teleportation channels, giving them all powerful spatial energy. It had been of great use in that previous battle.

There were still nine more major prizes. The first was the Desolation Divinity. Zhao Fu ordered people to build a temple to nurture this godly spirit; Zhao Fu wanted to have thousands of godly spirits in the future and create a godly spirit army.

Not only that, Zhao Fu planned to have an army with all eight major races to conquer everything under the heavens for Great Qin. Facing the countless worlds, Zhao Fu felt a domineeringness and ambition to conquer them all. That was Zhao Fu's ambition from the start.

Even if he was going to die, he would live out the rest of his life in glory and have history forever remember his name.

The second item was the Death Race Sword. It was a top-tier weapon in the outer regions, and what made Zhao Fu feel surprised was that it contained a large amount of deathly qi but had no sword spirit.

Zhao Fu could not help but think of transferring the Death Disaster Sword's sword spirit into it. The Death Disaster Sword was made from Zhao Fu using the Heaven-Sealing Sword to seal the Death Disaster Beast.

The Death Race Sword's attributes were much more suited to the Death Disaster Beast, so Zhao Fu transferred the sword spirit into the Death Race Sword. A deathly wind instantly spread out, causing the sky to be covered with dark clouds. Countless ghosts appeared, giving off excited roars.

After obtaining a sword spirit, the Death Race Sword caused abnormal signs, but it was a pity that the Death Race Sword was only a Level 12 Saint Armament. However, it was at the very peak of Level 12, and it was just a trace away from breaking through to an Earth Armament.

Earth Armaments were weapons that godly spirits used, and their power was enough to make people to feel terror.

The third item was the Saint Pill, which could allow someone to break through to Saint grade. However, there was only a chance, and the prerequisite was that one needed to be Heaven grade first.

Zhao Fu had been planning on leaving this Saint Pill to the next ruler of Great Qin, but he changed his mind and decided to use it for himself.

The fourth item was the Golden Roc Egg, which Zhao Fu gave to his subordinates to incubate. The Golden Roc was a type of divine beast and was quite powerful, but because there was only one egg, it was not suited to be used in battle.

The fifth item was the Earth grade Art, the Heavenly Cicada Art. Zhao Fu decided to give this as a reward to his subordinates and have them cultivate it.

The sixth item was the World Pearl, which Zhao Fu had already used.

The seventh item was the Level 9 Saint Armament, the Moon Void Saber. Zhao Fu also decided to award this to his subordinates.

The eighth item was an Ownerless Blood Jade, which could raise the purity of one's bloodline. Zhao Fu thought about it and decided to use it for himself; after all, high-grade bloodlines had some resistance to Emperor Killer, and perhaps raising his bloodline would have some effect.

Chapter 1187: Devil Qi Pill

The ninth item was a Dukedom City, which could be immediately established. Zhao Fu decided to take care of this later.

The tenth item was a Level 7 Saint Armament, the Shield of Falsehood. He also decided to award this to his subordinates.

Apart from these rewards, there were also medicinal pills, Spirit Crystals, and Cosmos Comprehension. Zhao Fu had obtained the medicinal pi Little Sha and the Spirit Crystals, but the Cosmos Comprehension required him to go to the Cosmos Historical Remnant. However, that place was controlled by the Dao Cultivation Sect, so he could only give up on that.

After going through these things, Zhao Fu planned to use the saint Pill and the Ownerless Blood Jade together; perhaps there would be some surprising effects. After all, one raised the purity of his bloodline while the other raised his Grade. There was some connection between these things.

After Zhao Fu consumed the Ownerless Blood Jade, he felt a fiery heat spread throughout his body, and he felt that his blood was burning, causing the rest of his body to burn.

In the next moment, Zhao Fu consumed the Saint Pill. The Saint Pill turned into an orb of golden light that gave off an intense golden light that permeated Zhao Fu's body, causing it to shine resplendently.

Suddenly, the wind blew and clouds swirled as countless traces of golden light descended from the sky.

Zhao Fu's body trembled as a ray of golden light flew out and shot into the sky.

Boom!

An explosion sounded out in all directions as a figure giving off golden light appeared in the sky. That figure was Zhao Fu, but it was a golden image that was hundreds of meters tall.

Everyone looked towards the sky in shock, and sensing that boundless aura, it was like a buddha, causing some people to want to kneel.

At that moment, countless traces of Heaven and Earth Spirit Qi madly gathered towards that golden image, and Zhao Fu's own body started to go through changes too.

The searing blood and sun-like orb caused Zhao Fu's body to seem to disappear and become an incorporeal entity.

Boom!

An explosion sounded out as Zhao Fu went back to his original state and the abnormal signs in the sky disappeared. They turned into countless motes of light and entered Zhao Fu's body.

Zhao Fu had successfully refined the Saint Pill and Ownerless Blood Jade. Even though his bloodline had not been increased by much, his grade was now Saint grade.

At the same time, Zhao Fu was pleased to find that the power of Emperor Killer had been slightly reduced. Even though it was only by a bit, Zhao Fu could now see some hope. Perhaps there really was a way to get rid of Emperor Killer; he had been too pessimistic before.

Zhao Fu smiled and examined his body. He found that after he rose to Saint grade, his body would automatically absorb Spirit Qi, and his sense of his surroundings had also increased by a lot.

Luckily, Zhao Fu had the Ownerless Blood Jade as well, or else the Saint Pill may not have been able to push him up to Saint grade.

After dealing with these things, Zhao Fu turned his mind back to Great Qin's administration. There were now four big questions.

The first was how to continue to grow Great Qin's foundation.

The second was how to deal with the four worlds that might attack at any time.

The third was to find a merchant group to work with and buy a large number of Talisman Stones and high-Stage corpses.

The fourth was that the Contract between the human world and Fish Scale world would be expiring soon. When that time came, battle would be inevitable, so Great Qin had to make preparations.

Regarding the first problem of foundation, Great Qin's strength was quickly increasing. They now had 10.5 billion soldiers: 8.7 billion were Stage 1 soldiers, 300 million were Stage 2 soldiers, 1.5 million were Stage 3 soldiers, and one million were Stage 4 soldiers.

With this kind of strength, they were very strong in the outer regions. However, it was far from enough to attack a Royal Kingdom because those in the inner regions had Stage 2 soldiers minimum.

Now, Great Qin was relying on its beast army and Devil army. They needed to greatly expand these two forces. The beast army required Cities, while Great Qin did not know how to quickly nurture more Devils.

Nurturing devil beasts would definitely be quite difficult, and it would take a large amount of resources and time. Great Qin could not obtain them in a short period of time, but there were others who had them.

Zhao Fu now placed his gaze on the Devil Horn Empire. Because they were now enemies, there was no need for Zhao Fu to hold back. From the information he had received, the Devil Horn Empire still had 1.5 million devil beasts, and if Great Qin could obtain them, Great Qin's strength would massively increase.

Zhao Fu thought about it and decided to bring a few thousand Assassins with him to the Devil Horn Empire and snatch some devil beasts, which would further weaken the Devil Horn Empire's power.

Zhao Fu also brought with him a few Devils, who used to be devil beasts. They would most likely be quite familiar with the Devil Horn Empire, especially where the devil beast army was.

The Devil Horn Empire was the world above the Half-Beast World, and because the Half-Beast World's Kingdoms had all made their own defenses, there were many gaps, making it easy for Zhao Fu to bring his people, cross through the Half-Beast World, and reach the boundary of the Devil Horn Empire.

The defenses here were much tighter than in the Half-Beast World. With Zhao Fu's cultivation, he would be able to easily pass through, but he had a few thousand Assassins with him; it would be very difficult to pass through the Devil Horn Empire's defenses without being detected.

Zhao Fu thought about it and decided to only bring 100 or so people to head into the Devil Horn Empire. These people were all elites among elites within the Assassins.

Zhao Fu led the 100 Assassins and carefully snuck into the Devil Horn Empire, and nothing unexpected happened.

This was the first time Zhao Fu had entered the Devil Horn Empire, and the devil qi here was incredibly dense. Nurturing devil beasts was much faster here than outside, and there were all sorts of wild beasts everywhere.

Zhao Fu avoided the wild beasts and headed to the location that the Devils had told him about. They were here to steal devil beasts.

A few days later, Zhao Fu went to a place where the devil qi was extremely dense to the point that it was almost condensing. Countless mutated plants were also growing there and were extremely big, and they looked as if they had a life of their own.

There was also a powerful barrier that was incredibly firm, and it seemed that it had immense killing potential. Anyone who recklessly rushed in could lose their life easily.

The devil beast army was incredibly important to the Devil Horn Empire, so it protected them strictly. However, ordinary people did not dare to get close to this place because of how many devil beasts there were. With how powerful they were, if they attacked, no one could survive.

Because of the converted Devils, Zhao Fu knew a lot of information about this place, so he had made proper preparations.

Zhao Fu and the 100 Assassins each consumed a Devil Qi Pill to change their auras. They now gave off devil qi, making them seem like they were part of the Devil Race.

Following this, Zhao Fu took out purple Talismans and gave them to the 100 Assassins. These Talismans were called Restriction Merging Talismans that could allow one's body to merge into a restrictive barrier without being detected.

Chapter 1188: Little Green Dragon

Zhao Fu and the others carefully merged into the restrictive barrier and tried to hide their auras to prevent the devil beasts from discovering them. After entering the barrier, Zhao Fu saw a massive red bird flying in the sky.

Seeing this, Zhao Fu had everyone hide, because once a devil beast discovered them, they would be attacked by all of the devil beasts. Facing so many devil beasts, even Zhao Fu would have to run, and the others would definitely die.

“Where do the devil beasts gather?” Zhao Fu asked the Snake Devil clinging onto him.

This place was very big, and it covered at least a few hundred regions. The devil beasts were all scattered throughout this place, and most had their own territories. Only when the Devil Horn Empire went to war would they all be gathered together.

However, there were also some other occasions when the devil beasts would be gathered together, which was when the Devil Horn Empire gave out medicinal pills; countless devil beasts would gather together to receive their medicinal pills.

The Snake Devil flirtatious leaned against Zhao Fu and said, “Your Majesty, there are four main gathering places, where there are many structures; those places are responsible for managing everything related to the devil beasts. The closest one should be in the south-eastern direction.

Hearing this, Zhao Fu nodded and led the others in that direction.

Two days later, they reached a place where there were devil beasts everywhere. Zhao Fu and his Assassins advanced incredibly cautiously and slowly, and over the course of the two days, they had finally reached the gathering place.

Now they just had to set things up. Once the devil beasts were all gathered together, they would use the teleportation spears and easily send these devil beasts into the Four Soul Devil World.

With the World Pearl’s energy sustaining these teleportation spears, they had the ability to teleport across worlds. This was the key part in Zhao Fu’s plans, or else they would not be able to steal devil beasts.

They silently buried teleportation spears underground, and when the time was right, they would all be activated.

This was done by the 100 Assassins Zhao Fu had brought, while he kept watch in the surroundings to prevent them from being discovered.

“You all deserve to die! You let my little green dragon get hurt!” A 12 or 13 year old boy with purple hair held a whip as he vigorously whipped a few servants. There was much force behind the whip, and as it landed on the servants’ bodies, it caused their flesh to be split open. They cried out in pain as they knelt and pleaded for mercy.

They said that it was the little green dragon who wanted to challenge the Qilou Beast, and they were powerless to stop it; that was why the little green dragon had been injured. They would definitely stop it next time and not let it get injured, so they pleaded with the Young Master to spare them.

However, the boy was completely furious and did not listen at all, continuously whipping the servants until they died.

Only then did the boy become less angry, and he called over a few soldiers to drag away the corpses and feed them to the devil beasts.

Zhao Fu hid by the side as he watched this boy kill those servants, and he did not stop him; Zhao Fu was not stupid enough to reveal himself for such a thing.

However, Zhao Fu planned to capture that boy because those people had called him Second Prince. Moreover, this boy looked somewhat like Yao Ming, and he was most likely his little brother.

It was said that Yao Ming loved his little brother dearly, so Zhao Fu naturally had to capture him. When no one was around, Zhao Fu appeared behind the boy, and before he could respond, he was knocked unconscious by Zhao Fu.

“Roar! Roar! Roar...” A while later, devil beasts started to roar as waves of powerful devil qi spread out, and countless devil beasts started to head over because it was time to give out medicinal pills.

Zhao Fu held the boy’s body but was not in a hurry to act because the devil beasts had not fully gathered yet. Zhao Fu wanted to wait for more devil beasts to gather so they could capture more of them.

“The Second Prince has disappeared!” a panicked cry sounded out, causing countless people’s expressions to fall. They immediately started searching for him, causing a lot of panic.

Seeing this, Zhao Fu felt that the plan could be exposed, so he immediately ordered his people to activate the teleportation spears.

Boom! Boom! Boom...

Rays of light flew out as massive magic formations appeared. Countless devil beasts vanished and the remainder ran back in terror.

Boom! Boom! Boom...

More explosions sounded out as rays of light flew towards the escaping devil beasts. More magic formations appeared, dragging devil beasts into them. The other devil beasts became completely terrified and ran in all directions.

Seeing this, people from the Devil Horn Empire cried out, “There are enemies!”

Soon, Zhao Fu and his people were discovered, but Zhao Fu was not worried at all, and he had the 100 Assassins leave through a magic formation.

They had Devil Repelling Pearls, so they would not be corroded by the Devil Qi in the Four Soul Devil World. Without the Devil Repelling Pearls, they might become Devils too.

Zhao Fu stood in the air with one hand behind his back and the other hand holding onto the boy. He gave off a powerful aura, shaking the entire scene; he did not seem like he was in an enemy’s territory at all.

Yao Ming quickly arrived, and seeing that it was Zhao Fu, he wanted to slaughter Zhao Fu immediately. However, seeing that his little brother was in Zhao Fu’s hands, he could only hold back.

Looking at the countless magic formations and countless missing devil beasts, Yao Ming gnashed his teeth; Great Qin’s Emperor had run to the Devil Horn Empire to steal devil beasts and was simply too shameless. He did not place the Devil Horn Empire in his eyes at all.

After the last battle, Yao Ming had ordered his people to research how to get rid of these magic formations. He understood that these were just special teleportation channels, so he immediately gave the order to lock down the surrounding space, causing these magic formations to become useless.

However, Zhao Fu was not afraid at all. He gave off a powerful aura as he stood there. Seeing that Yao Ming did not attack him as soon as he appeared, he understood how important this boy was to Yao Ming. If Yao Ming had immediately attacked, Zhao Fu would have quickly run away.

“Release my little brother, or I’ll have you die a horrible death!” Yao Ming said in a loud voice, looking incredibly furious.

Zhao Fu lightly laughed and did not beat around the bush, saying, "I want 500,000 devil beasts, as well as the Devil Horn Empire's method for raising devil beasts."

This was why Zhao Fu had stayed behind; they had teleported around 100,000 devil beasts just then, which wasn't much. Zhao Fu was not satisfied, so he decided to blackmail Yao Ming to obtain the method for raising devil beasts.

"Absolutely not, keep dreaming." Hearing how greedy Zhao Fu was, Yao Ming immediately refused. Even though this was his beloved little brother, he definitely would not trade the Devil Horn Empire's most important things. That would affect the safety of the Devil Horn Empire.

Seeing how resolute Yao Ming was, Zhao Fu knew that things would not go as smoothly as he had hoped. As such, he asked, "What price are you willing to pay for your little brother? You have limited time, I'll be leaving soon."

Yao Ming looked at Zhao Fu angrily; he had never thought that the ruler of a world would be so shameless as to use a hostage to threaten him.

Chapter 1189: Ten Thousand Dragon Mark

Zhao Fu decided to become more powerful at any cost; only that way would his life and Great Qin be secure. He did not care about shamelessness at all.

After much negotiations, Yao Ming deeply breathed in and suppressed the fury in his heart as he said, "I can give you 50,000 devil beasts and the method for raising devil beasts; that's it. Otherwise, just kill my little brother! However, don't even think about escaping. Even if I die, I'll slay you here."

Zhao Fu mulled this over. This was the Devil Horn Empire's territory, and with Yao Ming's strength, as well as their countless experts and Corps, Zhao Fu might very well die here.

Moreover, Zhao Fu's greatest trump cards, the three Emperor Stars, were in an incredibly feeble state, and Zhao Fu could not use their power right now.

However, to be able to obtain the method for raising devil beasts and 50,000 devil beasts was already quite good in exchange for a person who did not matter to him at all.

“Very well, I agree. Undo the spatial restrictions!” Zhao Fu smiled as he agreed.

Yao Ming angrily gave the order to undo the spatial restrictions, and Great Qin’s magic formations were once again activated.

In actuality, Yao Ming had been somewhat hoping for Zhao Fu not to agree, so he could disregard everything and kill Zhao Fu here.

However, since Zhao Fu had agreed, Yao Ming could only let 50,000 devil beasts into the magic formations with great heartache. He then threw a scroll over to Zhao Fu. Zhao Fu scanned through it and was quite satisfied as he put it away. He went before a magic formation and tossed the boy away before stepping into the magic formation and disappearing.

At the same time, the countless magic formations simultaneously closed and self-destructed. In that moment, Yao Ming yelled, “I’ll definitely destroy the Great Qin Empire and make you die a horrible death; I’ll remember everything that happened today.”

Hearing these words, Zhao Fu’s expression did not change at all. They were already at odds with each other, so there was no need to hold back against each other.

Zhao Fu appeared in the Four Soul Devil World and looked at the devil beasts changing into Devils in agony. There were about 150,000 of them, and Zhao Fu was quite pleased with his gains.

Following this, Zhao Fu took out that scroll and started to look through it in detail. This was the method to raise devil beasts, and with it, Great Qin could nurture a large number of devil beasts and turn them into Devils.

That way, Great Qin’s strength would quickly rise, and Great Qin would have a sufficient foundation to meet all crises.

However, after going through the scroll, Zhao Fu felt quite angry as he had been tricked by Yao Ming. No wonder he had agreed to this trade so easily.

This method of raising devil beasts required a core item, which was a Ten Thousand Devil City. Great Qin did not have one, and it was likely that only the Devil Horn Empire had one.

Soon, news about Zhao Fu going to the Devil Horn Empire had spread, causing everyone to feel quite shocked. It was the first time someone had screwed over the Devil Horn Empire like this, to go into the Devil Horn Empire and get out with no losses.

Everyone could only imagine that the Devil Horn Empire's people were angered to death. By now, the situation between the two Empires was most likely that neither side would rest until the other was destroyed.

Zhao Fu understood this, so he immediately gathered a large number of soldiers to defend in case the Devil Horn Empire attacked like a mad dog.

Zhao Fu could only leave the matter about Great Qin's foundation here for now. He could not go and steal more devil beasts, as the Devil Horn Empire would be prepared after this time. If he tried again, he would most likely fail and suffer unnecessary injuries and casualties.

The second problem was how to defend against the invasions of the four worlds. If they found a way to deal with Great Qin's Illusion Flower Devils and teleportation spears, Great Qin would be at a great disadvantage.

Zhao Fu would be forced to come up with new methods to defend against the four worlds.

Zhao Fu thought about it and realized that Great Qin had nothing left; they had used all of their methods already and no longer had any hidden tricks.

This was incredibly dangerous, as a powerful empire could not lack trump cards. If the other side came prepared, Great Qin would fall into a very disadvantageous position.

Zhao Fu thought about it and realized that Great Qin had two trump cards: One was the Devil army, which now numbered 650,000; if they suddenly released this force, it would be incredibly terrifying and could turn the tides of a battle.

No one would imagine that Great Qin could turn devil beasts into Devils; Great Qin had kept this a secret.

The second trump card was the Primogenitor Statue that they had been working on since a long time ago. Even though there was only one, its world-destroying power could not be doubted. However, it still required some time before it could be refined and used.

Zhao Fu felt that this was not enough; Great Qin did not have enough tricks up its sleeves.

Suddenly, Zhao Fu thought of one of Great Qin's powerful weapons, which was the Dragon-Slaying Ballistae. It was an incredibly destructive weapon, but there were not many of them, and manufacturing them was quite difficult.

What they could do was revise the Dragon-Slaying Ballistae to make them simpler and require lower quality materials, such as Gold grade materials. Even though they would be weaker, they could be mass-produced, which was worth it.

Thinking about having thousands of Dragon-Slaying Ballistae on the Great Wall, shooting out ballistae bolts that were ten meters long, even massive dragons would not dare to come near. They would be incredibly effective against the devil beast army.

They could also make the Dragon-Slaying Ballistae more complex and use higher-grade materials, such as Saint grade materials. This would allow them to kill experts or even Kings.

That way, Great Qin would have one more method up its sleeve, and Zhao Fu would feel more confident facing the four worlds. As such, he immediately ordered people to start researching this.

Next was Great Qin's third problem: Buying Talisman Stones and high-Stage corpses.

Now that Great Qin was fighting with four worlds, it was quite difficult for it to buy things. Zhao Fu did not dare to head to the inner regions of the Ancient Stem Domain, and it was possible for his identity to be exposed.

Zhao Fu thought about the Ten Thousand Dragon Financial Group and felt that it was quite a pity. He regretted going to the Ancient Stem Banquet; if he had known this was going to happen, he would have just stayed put and focused on developing.

Zhao Fu couldn't help but think about the Ten Thousand Dragon Mark on his chest. Back when he had been afflicted by Emperor Killer, it was not just the Nether Emperor Star, Six Paths of Reincarnation Bloodline, and the Dragon Phoenix that had helped; the Ten Thousand Dragon Mark had somewhat helped as well.

Perhaps without all of these things fighting against Emperor Killer, Zhao Fu could have died on the spot.

Zhao Fu had always been somewhat curious about the Ten Thousand Dragon Mark. He had asked the people from the Ten Thousand Dragon Financial Group about it, but they only told him that he would understand once he went to the Heaven Domain.

Zhao Fu felt that he had been dragged into something, but he did not regret it. If the Ten Thousand Dragon Financial Group needed anything, he would do his best to help them.

Chapter 1190: Green Province Domain

Since Zhao Fu could not go to the inner regions of the Ancient Stem Domain, he could only head to other Domains and buy Talisman Stones and corpses from there. Zhao Fu asked for some information, and he found that the closest Domain to Great Qin was called the Green Province Domain.

Great Qin was at the boundary of the Ancient Stem Domain, as it was a new world, and it was near the right side. The Green Province Domain was actually closer to Great Qin than the inner regions of the Ancient Stem Domain.

A week later, Zhao Fu took Momijigari, Tamamo-no-Mae, Mo Yao'Er, Ye Ningshuang, Shui Ruoliang, and Pu He to the Green Province Domain.

Because the journey was quite long, in order to avoid Emperor Killer from flaring up, Zhao Fu could not go out by himself and took a few women with him.

The three strongest were Ye Ningshuang, Shui Ruoliang, and Pu He; they were all Ancestor-level figures in the Dark Demon world. Ye Ningshuang was an Ancestor of the Night Dynasty while Shui Ruoliang and Pu He were Ancestors of the Demon Path Sect. When they had entered the Heaven Awaken World, they were already Stage 8 experts.

Now, they were already Saint Realm experts, and he might even need their help in this initial visit to the Green Province Domain.

Even though it was his first time coming to the Green Province Domain, he felt that it was quite similar to the Ancient Stem Domain. It was filled with all sorts of races, but the traditions and culture were filled with a type of poetic quality. Everyone spoke in a scholarly and cultured way.

There were academies everywhere, and they were simply innumerable. They had also passed by many poets on the streets, who were greatly admired by the commoners.

“Young master, have some of this food!”

“Young master, try some of this wine!”

Mo Yao’Er and Tamamo-no-Mae each hugged one of Zhao Fu’s arms, and one fed him food while the other fed him wine.

Zhao Fu felt quite helpless and could only allow them to serve him. The other women sat around them; everyone wore cloaks to hide their appearances.

However, their bodies gave off alluring auras, as they were peerlessly beautiful women. Hearing Tamamo-no-Mae and Mo Yao’Er’s flirtatious voices, some people nearby gulped and glanced over.

This caused Mo Yao’Er to angrily slam her palm on the table, scaring everyone into looking away.

“Bro, keep going. What happened after the three Emperor Stars simultaneously descended?”

“Afterwards, a massive explosion rocked the heavens and earth as the Ancient Stem Banquet’s stage was almost destroyed, and that mysterious Emperor disappeared.”

“Really? I thought they would have continued that massive battle. Who would have thought such a genius would have appeared in the Ancient Stem Domain; this is too shocking. The strongest people from three factions used their Armaments, yet they weren’t able to kill him.”

“That’s right! Now, the entire Ancient Stem Domain knows about this. I heard from someone else that the three factions are trying to find that person at all costs; they’re determined to kill that mysterious Emperor. That person will be far too shocking in the future.”

“Bro, do you know where that Emperor is? I want to see that kind of genius for myself.”

“How would I know? And even if I did, why would I tell you? If I sold that kind of information, I would have more money than I could spend in this lifetime.”

After overhearing the conversation between these two people, Zhao Fu’s expression became quite serious. He had never thought that news would have spread this far to the point that even other Domains knew about it. It seemed that he would have to be more careful in the Green Province Domain.

These three factions were going all out to find information about him, so he had to be cautious. If he accidentally revealed his appearance in the Ancient Stem Domain, they could discover Great Qin. When that time came, Great Qin would have to face three Royal Kingdom-level factions.

Great Qin did not have much time, and it had to quickly become stronger. Strength was the greatest protection.

“Young master, your servant wants it again!” Mo Yao’Er whispered into Zhao Fu’s ear as she stretched her hand towards the lower half of Zhao Fu’s body.

Tamamo-no-Mae flirtatious smiled as she did the same.

Zhao Fu now regretted bringing them; they were simply too seductive. However, they had many times more stamina than other women, so bringing them meant that he could bring fewer people.

Within their room, a wave of shameless sounds could be heard. Ye Ningshuang and Shui Ruoliang, two sworn enemies, had never thought that they would be simultaneously servicing the same man someday. Pu He embarrassedly lay by the side as she raggedly breathed, and Momijigari squatted under Zhao Fu as she serviced him; she quite enjoyed this.

Following this, Zhao Fu brought the six red-faced women and continued on their way.

Because of the teleportation channels reinforced by the World Pearl, they could teleport across great distances, and they soon arrived at the inner regions of the Green Province Domain.

There were a few large financial groups here, and Zhao Fu found one and quickly came to an agreement. Because Zhao Fu had a lot of money, things were easily settled.

He did not enjoy the same benefits he had when he was part of the Ten Thousand Dragon Financial Group, and he had to buy Talisman Stones and corpses at the regular price. In the future, most of Great Qin's money would be spent on this.

After taking care of this matter, Zhao Fu prepared to take the six women back to Great Qin. However, an explosion suddenly sounded out from ahead as a terrifying aura swept towards them.

The people around them hurriedly headed over; it was said that a few of the Green Province Domain's geniuses were fighting over a treasure.

Zhao Fu was not planning to go, but the Ten Thousand Dragon Mark on his chest suddenly appeared and gave off waves of silver light as well as boiling heat, causing him to feel pain in his chest.

Zhao Fu immediately realized that the treasure was most likely incredibly important to the Ten Thousand Dragon Mark, so he had the six women return first while he took a look himself.

"Scram!" A red-clothed, cold-looking young man swept out with his spear, causing fiery light to shoot towards two other people with searing heat.

A fair-skinned young man coldly harrumphed and waved the fan in his hand, causing a powerful wind to ferociously slam into that fiery light. An explosion sounded out as the fiery light exploded and turned into fiery motes of light.

The other person was a dark-skinned and chubby person. He held a large axe, which created massive black arcs of light and destroyed the incoming fiery light. He said angrily in a loud voice, "Ye Kuang, you're only ranked fifth in the Green Province Rankings and yet you're talking so arrogantly, telling me to scam."

The red-clothed young man referred to as Ye Kuang coldly harrumphed and savagely stabbed his spear towards the dark-skinned young man. This caused the dark-skinned young man to feel even angrier, and he raised his axe as the two of them clashed.

Seeing the intense battle between these two people, the fair-skinned young men flew away from them.

There was a massive orb of light which had dragons swimming around within it in the air, and it gave off an incredibly powerful aura. This was most likely the thing that the three people were fighting over.

The dark-skinned and chubby young man was called Niu Hu, and he was ranked fourth in the Green Province Rankings, while the fair-skinned young man was called Yue Qingmu, who was ranked sixth.

With their identities, for them to fight over this thing, it was evident that it was not simple at all. The people in the surroundings were afraid of their identities and power, so they did not dare to get close and only watched from a distance.

Seeing that Yue Qingmu wanted to steal the treasure from under their noses, Niu Hu and Ye Kuang immediately turned and attacked him together, forcing Yue Qingmu to stop.
