

The Lord 1191

Chapter 1191: Clear Sky Saint Dragon

Seeing Yue Muqing stop, Niu Hu rushed towards the orb of light. Just as he was about to reach the orb of light, Yue Muqing and Ye Kuang of course could not allow such a thing, so they joined together to attack Niu Hu.

The three people clashed together, and the shockwaves from their battle rippled out like wild gales, causing sand and pebbles to be blown into the air. Countless trees were destroyed and the scene was quite terrifying, making no one else dare to get close.

Boom!

The three people unleashed attacks that collided, resulting in an explosion. Mu Qingyue was sent back a few steps while the two others remained in place.

Mu Qingyue's expression was quite unsightly. He was ranked sixth and was slightly weaker than the two others; with his strength, he most likely would not be able to snatch the treasure, so he could only say, "Can you please give my Moon Spirit Kingdom some face and give this Clear Sky Saint Dragon Pearl to me? I will be eternally grateful."

Niu Hu coldly harrumphed, "Keep dreaming, this is a Clear Sky Saint Dragon Pearl, which contains the essence blood and essence power of a Clear Sky Saint Dragon. If you refine it, you might even be able to obtain a trace of the Clear Sky Saint Dragon bloodline. The Clear Sky Saint Dragon is the most prestigious type of dragon out of the countless types of dragons, and it is not inferior to a Sovereign bloodline.

"You want us to give up on this chance at a Sovereign bloodline? How's that possible? How about you give my Black Bull Kingdom some face and help me take the Clear Sky Saint Dragon Pearl? I, Niu Hu, will owe you in the future."

Hearing these two people's words, everyone felt quite shocked; this thing was incredibly precious. No wonder even geniuses were fighting over it.

Even without them saying it, some people could already tell that that orb of light in the sky was a Dragon Pearl.

Dragon Pearls were something that dragons created within their bodies, and they contained their very essence. This included their essence blood and essence power, and they contained immense energy. It was the most precious thing to a dragon.

After realizing how precious this Dragon Pearl was, some of the others started to feel quite interested. However, given the identities of the three people in the sky, if they offended these people, they would not be able to remain in the Green Province Domain anymore.

Moreover, it would not be easy to refine this Dragon Pearl. The higher grade of dragon, the more difficult the Dragon Pearl would be to refine. Without a King bloodline and Saint Realm cultivation, consuming the Dragon Pearl would be like consuming a bomb, and one would immediately explode and die.

This caused many people to give up on it. After all, they would have to risk their lives to get it, and they would not be able to use it. Saint Realm cultivation was not a big deal, as it just required effort.

However, a King bloodline was difficult; this required having a Royal Kingdom.

However, there were still some people who wanted to try. However, just as they came close, Ye Kuang slashed with his spear, causing a massive fiery crescent bringing with it searing heat, slashing those who wanted to come close into pieces. Their corpses were then immediately burned up by the heat.

“Scram! If you stay here, this Young Master will kill you all.”

Hearing this, everyone else quickly retreated. Ye Kuang was simply too domineering, and if they remained, they might really be killed by him.

Niu Hu slammed his axe towards the ground, resulting in a massive explosion. A small hill was split in half, and this caused everyone to run even faster. Niu Hu grinned in satisfaction; he did not want some bugs to steal something as precious as the Clear Sky Saint Dragon Pearl.

Bang! Bang! Bang...

The battle between the three people was incredibly intense, causing winds to blow and clouds to swirl. A terrifying aura spread out like a flood, and all of them were now slightly injured.

Boom!

A massive axe image appeared, slamming down from the sky like lightning. It slashed Yue Qingmu and Ye Kuang flying back; as the fourth-ranked person, Niu Hu was evidently stronger than the two others.

Yue Qingmu and Ye Kuang flew back 100 or so meters and coughed up mouthfuls of blood. Their expressions were quite grim, and Niu Hu felt quite pleased as he flew towards the Dragon Pearl.

Shing!

However, just as Niu Hu was about to reach the Dragon Pearl, a sword hum suddenly sounded out, causing Niu Hu to retreat in fear. A flying sword bringing with it massive sword qi had slashed over.

Niu Hu used his axe to block in front of him and defend, and the sword slammed against the axe. Niu Hu was sent flying back and coughed up a mouthful of blood.

A figure appeared; he was wearing white clothes and looked quite handsome. He grabbed at the air and the sword returned to his hand. Seeing this person's arrival, the three other people's expressions became unsightly.

This young man was called Ming Jian and was the Young Sect Master of the One Martial Sect. He was ranked third on the Green Province Rankings, and though he was only one rank above Niu Hu, he was far stronger.

"I'll be taking this!" Ming Jian spoke coldly and straightforwardly as he reached for the Dragon Pearl.

This caused the three others to feel furious, and they simultaneously attacked Ming Jian. Yue Muqing vigorously swept out with his fan, and countless wind blades flew out. Ye Kuang stabbed out with his spear, causing a fiery light to shoot out. Niu Hu raised his axe high and slashed out a crescent.

Three attacks containing terrifying auras rushed over, and Ming Jian's expression was cold as he swung his sword, causing a massive sword light to burst forth.

Bang!

A massive explosion sounded out as the massive sword light collided with the three attacks. A powerful shockwave spread out, causing Niu Hu and the two others to be sent flying back, while Ming Jian was also sent back a few steps.

"You three are seeking death!" Ming Jian coldly said as a trace of anger appeared on his face.

Boom!

A terrifying sword qi exploded out from his body, turning into massive winds that blew out. Clouds swirled as a terrifying aura spread out.

Ming Jian coldly looked at the three others as he raised his sword and pointed it at them.

Shing! Shing! Shing...

Sword hums sounded out as thousands of white swords of light instantly formed, giving off sharp sword auras and causing people's hairs to stand on end.

Ming Jian waved the sword in his hand, causing the thousands of white swords of light to shoot out. They were incredibly fast and arrived before the three people in just an instant.

This caused the three people's expressions to fall and they hurriedly defended. However, they were still struck and slammed to the ground, smashing out large craters. Their bodies were now covered with a few wounds.

They were not heavily injured, and Ming Jian evidently had not tried to kill them. After all, their factions could not be slightly offended.

They got up from the ground with grim expressions. After taking that attack, they had felt quite discouraged. Even attacking together, they were not a match for Ming Jian, so they would not be able to take the Clear Sky Saint Dragon Pearl. Could they just hand it over to Ming Jian?

“Young Master, that pearl looks like a treasure. Can you snatch it and give it to me?”

“Young Master, I want it too, give it to me!”

“Hmph, Young Master, don’t listen to them. That’s a Clear Sky Saint Dragon Pearl, and it is very important to Young Master. You should use it for yourself.”

A few seductive voices sounded out as a handsome monk with ten or so flirtatious-looking women appeared. His appearance caused everyone’s expressions to fall, including Ming Jian’s.

Chapter 1192: Poem Dynasty

This monk was called You Quan, and he was the Young Sect Master of the Desire Buddha Sect, which was the number one sect in the Green Province Domain. It was the second most powerful faction, and You Quan was terrifyingly strong. He was ranked second on the Green Province Domain and was much stronger than Ming Jian.

“Are you going to fight me for the Clear Sky Saint Dragon Pearl?” You Quan said with a trace of disdain and arrogance as he hugged two of the beautiful women.

With his strength, You Quan did not place anyone present in his eyes at all. Even the strongest person present, Ming Jian, was nothing to him; he could defeat him in ten or so bouts.

A cold light flashed in Ming Jian’s eyes, but he did not say anything. He directly attacked, slashing out with his sword. The massive sword light gave off monstrous power as it slashed towards You Quan, tearing apart the ground beneath it.

You Quan chuckled and stretched out a palm with his fingers together, and countless rays of golden light shined from his palm. A massive buddha’s palm appeared in front of You Quan’s body.

Boom!

The massive sword light slashed against the buddha's palm and exploded, turning into sword wind as it dissipated, but the massive buddha's palm was not damaged at all.

"Do you have any more ultimate attacks?" You Quan said as he laughed.

Fury flowed out of Ming Jian's heart as he raised the sword in his hand and exploded out with all of the power in his body. A white pillar of light shot into the sky, causing all of the Heaven and Earth Spirit Qi to gather towards him, forming an enormous vortex.

This vortex was white and gave off a brilliant white light. A massive might spread out, and even people far away could sense how terrifying this power was.

Shing! Shing! Shing...

Massive sword lights shot out from the vortex and landed on the ground, easily tearing it apart. The ground was instantly cut like tofu, and Ming Jian controlled all of the sword light to slash towards You Quan. The countless sword lights gathered together, becoming even more powerful, and cracks started to appear in the space around them.

You Quan's expression became more serious as a buddha mark appeared on his forehead. A golden light shot out as a massive buddha's image appeared in front of him, giving off an aura of suppression.

Boom!

Countless sword lights slammed into the buddha's image, resulting in a massive explosion. The buddha's image had stopped the countless sharp sword lights.

Ming Jian roared as he invigorated all of the power in his body, causing the sword lights to become even sharper and more powerful. You Quan's expression was serious as the buddha mark on his forehead shined with an even brighter light.

In the end, You Quan was able to stop Ming Jian's attack. However, the buddha's image had almost been split open by the sword lights, but the losing side was evidently Ming Jian.

Seeing that even his strongest attack was unable to even reach You Quan, Ming Jian's expression became dim; he understood that he had lost.

Niu Hu and the two others gulped as they looked at You Quan in shock. They knew that they definitely would not have been able to stop Ming Jian's attack just then, yet You Quan had done so easily. The difference in strength between them was simply too vast.

The people watching in the distance were also shocked; this was a battle between the geniuses of the Green Province Domain; it made them feel terrified and completely exceeded anything they could imagine.

Even the geniuses of other Domains were inferior to You Quan; for the Green Province Domain to have such geniuses was their pride and joy.

Now, none of the geniuses present would dare to attack, so this Clear Sky Saint Dragon Pearl would belong to You Quan; no one else would dare to try to take it.

You Quan gently leapt up and flew towards the orb of light floating in the air.

"Wait!" a clear and pleasant voice sounded out as a beautiful woman dressed in scholarly robes appeared in the sky.

Seeing her, everyone gasped; the Green Province Domain's number one expert had actually come. This woman was called Shi Shuge, and she was the Princess Royal of the Poem Dynasty. The Poem Dynasty was the number one faction in the Green Province Domain.

Not only was the Poem Dynasty more powerful than the Desire Buddha Sect, but Shi Shuge was also stronger than You Quan; she was the only person You Quan was wary of.

As Shi Shuge's voice sounded out, You Quan's expression instantly became grave and he turned into a ray of light as he shot towards the Clear Sky Saint Dragon Pearl; he wanted to ignore Shi Shuge and run away with the Dragon Pearl. Otherwise, if Shi Shuge arrived, he might not have the opportunity to obtain the Dragon Pearl.

“Ai!” A light sigh sounded out as Shi Shuge stretched out a finger and pointed towards You Quan, saying, “Stop!”

Immediately, a formless energy bound You Quan. You Quan exploded out with his full power, causing a golden aura flame to appear around him, and a terrifying might descended. You Quan used this opportunity to break free from the formless energy.

However, by this time, Shi Shuge was already in front of him. This forced him to stop, and he looked at Shi Shuge as he said domineeringly, “This Dragon Pearl is already mine; Shi Shuge, what are you trying to do?”

Shi Shuge lightly laughed as she said, “Nonsense! This Clear Sky Saint Dragon Pearl is ownerless, so how is it yours? I also came for the Clear Sky Saint Dragon Pearl and want to give it to my weak little sister. Everyone, please give this Clear Sky Saint Dragon Pearl to me.”

You Quan coldly harrumphed, “If you want it, you’ll have to take it by force!”

Boom!

You Quan started to attack Shi Shuge. He raised his hand, causing countless rays of golden light to shine out as a massive buddha’s palm bringing with it the force of mountains pressed towards Shi Shuge. This was enough to crush a small mountain into pieces.

Shi Shuge’s expression did not change as she stretched out a finger and wrote a black ‘destroy’ character in the air. The ‘destroy’ character then turned into countless rays of black light and shot to meet that buddha’s palm.

Bang!

As the buddha’s palm was struck by the black light, it instantly collapsed and turned into divine light as it dissipated.

This caused You Quan’s expression to become quite unsightly. He released all of his power as a 1,000 meter tall image of buddha appeared behind him. It gave off boundless divine light as a might covered the heavens and earth, locking everything down. It was as if a true buddha had descended.

Shi Shuge's expression was quite serious as she said, "I just came for the Clear Sky Saint Dragon Pearl. You're not a match for me; what point is there to fighting to the death?"

Boom!

Shi Shuge also released her full strength, or else she would not be able to win against You Quan. A massive ancient scroll giving off enormous power appeared, and the sound of countless poets reciting poems could also be heard.

This was the Poem Dynasty's legacy Royal Clan Art, Heavenly Poem Scroll. It was one of the highest grade Arts in the Green Province Domain, and Shi Shuge had cultivated this Art to an extremely deep degree.

Seeing that the two were about to start a massive battle, everyone watched in expectation. Ming Jian and the others could only retreat to the side; they understood that they were not a match for these two people, and they did not want to be caught in the crossfire.

Suddenly, the orb of light started to move, and the countless dragons within it gave off excited roars. The light coming from the orb of light became even more intense because a certain person had arrived.

Everyone was shocked to see the orb of light turn into a ray of light and flew in front of that person as if it was rejoicing. It was as if the Clear Sky Saint Dragon Pearl was something that belonged to him.

Chapter 1193: Eight Scroll Seal

What was going on? Everyone watched on in confusion; the Clear Sky Saint Dragon Pearl had flown over to that person. No one had thought such a thing would happen.

Zhao Fu was now the center of attention, and countless people started to guess at Zhao Fu's identity. However, because Zhao Fu was wearing his cloak, no one could see his appearance.

Zhao Fu himself looked quite surprised, and the Ten Thousand Dragon Mark on his chest became boiling hot. It was most likely the Ten Thousand Dragon Mark that had attracted the Clear Sky Saint Dragon Pearl over, or else Zhao Fu would not have been able to do such a thing.

Looking at the orb of light in front of him, Zhao Fu stretched his hand into it and the light gradually disappeared as a fist-sized golden crystal pearl appeared in Zhao Fu's hand.

Immediately, Zhao Fu felt an unimaginably massive wave of dragon energy enter his body, and his body seemed to go through changes. If it wasn't for Zhao Fu's Sovereign bloodline, he could have started becoming a dragon due to this energy.

After sensing this energy, the golden dragon said in shock, "Zhao Fu, this is an incredible treasure. You have to take it."

Zhao Fu naturally would not give up on the Clear Sky Saint Dragon Pearl and he prepared to put it away.

Seeing that the Dragon Pearl was going to be stolen away, how could You Quan accept such a thing? He immediately turned and attacked Zhao Fu. He grabbed at the air and the buddha image behind him stretched out a massive hand, giving off boundless might as it grabbed towards Zhao Fu. It had enough power to crush a small mountain.

Shing!

A gray sword light flashed out, causing everyone's bodies to freeze as they felt the aura of death. The buddha image's outstretched hand was immediately slashed apart.

Everyone in the surroundings gasped as they looked at the scene before them. They knew how powerful You Quan's buddha image was, yet that person had slashed it apart in a single sword strike. This person was so strong.

You Quan's expression was quite unsightly, but he continued to attack. The buddha image raised its other hand and Heaven and Earth Spirit Qi madly gathered as countless blinding rays of light shot out. A golden sun was gradually condensed, and the buddha image raised it up.

This spectacle was incredibly shocking. The golden light dyed everything gold and the aura covered the surroundings. It was like a scene out of a myth.

Boom!

The buddha vigorously threw out the golden sun, which gave off an incredibly powerful might as it slammed towards Zhao Fu. Even the heavens and earth seemed to tremble.

In that moment, a flood of ghostly qi burst forth, covering 100 or so meters, and a cold and terrifying power rushed out.

Shing!

A sword hum sounded out as a massive gray crescent of sword light flew out, tearing through the sky.

Bang!

A massive sound rang out as the golden sun was split in two. The gray crescent of sword light continued on, giving off a sharp aura as it slashed against the buddha image, destroying it as well, causing it to turn into golden light and disappear.

You Quan's body flew backwards, and he coughed up a large mouthful of blood and looked quite seriously wounded.

Now, the entire scene was incredibly silent; the Green Province Rankings' second-ranked genius had actually lost. Who was that person? How could they have such power? Could it be an old monster coming to bully the younger generation?

Seeing this, Zhao Fu put the Dragon Pearl into his spatial ring and prepared to leave.

"Wait!" Shi Shuge called out.

Zhao Fu turned to her and asked coldly, "What is it? Do you also want this Dragon Pearl?"

Shi Shuge nodded and said, "This Dragon Pearl is very important to me, I hope this Brother can give it to me; the Poem Dynasty will owe you a favor."

“Apologies, I’m not interested,” Zhao Fu said as he turned to leave. Zhao Fu did not need a simple favor; moreover, he could not ask the Poem Dynasty to attack those three factions.

Hearing this, Shi Shuge could only say in frustration, “In that case, apologies in advance!”

She stretched out her hand and pointed, black characters flowing out from the ancient scroll behind her. They turned into black spears that gave off terrifying power as they shot towards Zhao Fu like a rain of spears.

Red energy barriers appeared around Zhao Fu’s body, 72 in total. They instantly formed 72 blood-red spears that shot out under Zhao Fu’s control.

Bang! Bang! Bang...

The spears of the two sides quickly clashed together; Shi Shuge’s black spears numbered in the thousands but Zhao Fu only had 72. The blood-red spears were completely outnumbered, but the instant both sides clashed, the 72 blood-red spears gave off massive explosions.

The waves of terrifying explosions blew up the black spears or sent them flying, and not a single one reached Zhao Fu.

However, a figure suddenly appeared before Zhao Fu, and a sword gave off cold light as it stabbed towards Zhao Fu.

Zhao Fu’s expression fell and he quickly retreated.

Shi Shuge had quickly advanced, and the countless black characters had formed a sword. It suddenly dissipated back into black characters, some that were only as big as fingernails, and they turned into rays of black light as they gave off sharp auras and flew towards Zhao Fu.

Zhao Fu’s gaze was cold as a black dragon inscription barrier giving off powerful energy expanded out around him.

Bang! Bang! Bang...

The flood of black characters was incredibly powerful, and they pierced through Zhao Fu's Emperor Domain in just an instant and continued on towards Zhao Fu.

Facing these countless rays of black light, Zhao Fu gripped the Death Race Sword and vigorously slashed out. A powerful sword light slashed apart the countless black rays of light.

Shi Shuge grabbed at the air, and countless black characters appeared, forming a sword again as she rushed at Zhao Fu.

This was Shi Shuge's power, and Zhao Fu felt that she was a bit stronger than even Bai Haoran. The golden pupil in Zhao Fu's left eye dilated as a formless energy spread out.

Clang, clang, clang...

The sounds of countless chains could be heard as black chains containing immense power shot out from all directions. This caused Shi Shuge to feel startled, and she immediately spun.

Chi, chi, chi...

In that moment, countless chains pierced through her body, but she had turned into an inky darkness and disappeared.

Zhao Fu's pupils quickly spun as he looked around for where she was.

Boom! Boom! Boom...

Explosions sounded out as the ancient scroll in the sky split into eight rays of light and shot towards Zhao Fu. They did not attack Zhao Fu and instead floated around him.

The scroll slowly opened and the black characters within it gave off rays of black light. In that instant, the eight scrolls seemed to call out to each other, forming a formless magic formation. Zhao Fu's body was suddenly restricted, and he tried struggling but found that he could not break free.

Shi Shuge reappeared and looked at Zhao Fu with her beautiful eyes. She softly laughed as she said, “You’ve been caught in my Eight Scroll Seal; you won’t be able to escape. Hand over the Clear Sky Saint Dragon Pearl, I don’t want to make things difficult for you.”

The Eight Scroll Seal was the most powerful attack of the Heavenly Poem Scroll, and she had used this attack to bind countless experts before. She was extremely confident that she could bind Zhao Fu, so she tried to force him to hand over the Clear Sky Saint Dragon Pearl.

Zhao Fu coldly looked at her and said, “You’re a bit too overconfident!”

Chapter 1194: Dragon Blood

Boom!

This time, Zhao Fu exploded out with his full strength. A black and gray aura flame started to burn as countless wild gales spread out. A sovereign might descended as the ground continuously collapsed.

Zhao Fu exploded out with his Sovereign bloodline’s power and the Six Paths Demon Images’ power. The prestigious, domineering, eerie, and supreme power caused everyone’s expressions to change.

“So terrifying! Is this the power of an Emperor?” someone cried out. This sort of power could make people want to kneel and surrender, and it was many times more powerful than a King’s power.

Everyone looked at Zhao Fu in shock; they were now certain that Zhao Fu’s identity was not simple at all.

Shi Shuge’s expression slightly changed; she had never thought that Zhao Fu would explode out with such a powerful Emperor’s aura. She only had a Royal Bloodline and immediately felt a sense of pressure from Zhao Fu.

Bang!

At that moment, Zhao Fu released his full strength. The black and gray flame ferociously spread out and broke out of the Eight Scroll Seal.

Zhao Fu looked at Shi Shuge, and the six gray dots in his right eye started to spin.

“Roar! Roar! Roar...”

Four hundred meter tall ghosts appeared around Shi Shuge, giving off powerful auras. At the same time, they raised their sharp claws and swatted at Shi Shuge. Their attacks were powerful enough to cause the air to explode.

In that moment of crisis, Shi Shuge actually closed her eyes as finger-sized black characters appeared around her. A formless energy spread out as Shi Shuge’s clothes fluttered and a transcendental aura spread out.

Chi, chi, chi...

As the four ghosts’ claws descended, the characters around Shi Shuge’s body connected together and formed 12 chains that shot out. They pierced through the four ghosts’ arms before piercing through the rest of their bodies.

The four ghosts gave off pitiful howls before collapsing into countless traces of ghostly qi and disappearing.

Suddenly, Zhao Fu’s body flashed and he appeared in front of Shi Shuge. His sword gave off sharp sword light as it slashed towards Shi Shuge. In response, Shi Shuge’s 12 black chains blocked in front of her.

“Godly Demonic Thrust!” Zhao Fu lightly shouted and suddenly exploded with strength. He used a godly spirit skill and stabbed out with his sword as a massive sword image shot towards Shi Shuge.

Bang!

The chains blocking in front of Shi Shuge were slashed apart by the sword, and Shi Shuge’s body was blasted back by the massive sword. She crashed against a large boulder, causing it to shatter, and a trace of blood leaked out of her lips.

Seeing this, Zhao Fu did not plan to continue attacking because he was worried about the faction standing behind her.

“Hah!!” However, just as Zhao Fu was about to turn to leave, Shi Shuge cried out and an inky black aura appeared around her, causing her power to continuously rise. Countless black characters flowed out of her body and flew into the sky, forming an enormous sword.

After this sword was formed, it did not give off a very powerful sword qi. Instead, it had a powerful martial conception. The world seemed to be locked down, and everything became as dark as night. Under this massive sword, countless people’s souls lamented, feeling boundless darkness.

“Demon Sun!” Zhao Fu raised the Death Race Sword and used the Demon Sun skill. Massive amounts of deathly qi rushed into the sky, dyeing the sun gray, and a terrifying deathly intent spread out.

Shi Shuge controlled the massive sword in the sky, bringing with it a terrifying martial conception power, to slash towards Zhao Fu, while Zhao Fu slashed down with his Death Race Sword.

Boom!

A shocking explosion sounded out as an enormous gray sword light seemed to split the heavens and earth as it flew out. The enormous sword made of black characters exploded out with powerful light, and the two collided, resulting in an astounding explosion.

In the end, the black sword was destroyed by the gray sword light, and Shi Shuge was once again blasted backwards. She coughed up a large mouthful of blood and collapsed to the ground, powerless to get back up. She was injured quite heavily.

Zhao Fu was affected by the shockwave and took a few steps back. He did not remain, and he immediately turned into a ray of light and disappeared over the horizon because he could sense many powerful experts heading over.

The battle had concluded, but everyone in the surroundings continued to stare in shock. The Green Province Domain’s number one expert in the younger generation had been defeated by a mysterious stranger who had suddenly appeared. If this news was spread, it would definitely cause a large commotion.

That person's strength was simply too monstrous, and he could rival some old monsters. In fact, it was possible that that person was an old monster, but his voice had sounded quite young.

Niu Hu and the two others were completely dumbfounded. That was a battle that they could not enter at all; they could only look up at such experts. Shi Shuge had unexpectedly been defeated; it seemed that there really were heavens beyond heavens and people beyond people. No one would be the strongest forever.

You Quan's expression became slightly better. Even though he had been defeated by Zhao Fu in a few attacks, Shi Shuge had lost as well, so his loss was not too humiliating. Of course, he remembered this matter and would repay this enmity in the future. No one had humiliated him like this before.

Shi Shuge's expression was quite dim, and she took out a medicinal pill and consumed it, causing her injuries to quickly recover. As the most powerful genius in the Green Province Domain, she felt a heavy blow to her self-esteem.

She had lost and lost completely despite using her full strength. However, she was quite convinced of this loss and did not feel spiteful.

At the same time, she started to feel curious about Zhao Fu's identity; how come such a terrifying person had appeared? Moreover, he gave off a supreme Emperor's aura, causing others to feel immense pressure.

At that moment, she could not help but think about that Emperor who had shaken things up in the Ancient Stem Domain; could that person have been the same Emperor? She was not too sure.

News of what had happened here quickly spread, and countless people were greatly shocked – the Green Province Domain's number one genius had actually lost to someone else. This news drew the attention of the large factions, and they became quite curious about Zhao Fu's identity.

After Zhao Fu obtained the Clear Sky Saint Dragon Pearl, he used his teleportation channels to quickly return to Great Qin.

The Ten Thousand Dragon Mark on Zhao Fu's body was still burning hot as if it was desperate to have the Clear Sky Saint Dragon Pearl.

The golden dragon had given a method to refine the Clear Sky Dragon Pearl, which was to gather a large amount of divine dragon blood. After all, the Clear Sky Saint Dragon was a type of eastern divine dragon.

If it was before, it would have been incredibly difficult for Zhao Fu to obtain divine dragon blood, as they were Stage 8 or 9 creatures at the minimum. However, to the current Great Qin, it was quite simple; they could even obtain the blood of Saint Realm creatures.

They did not necessarily need large quantities of dragon blood, but there had to be many different types. Because of the Ten Thousand Dragon Mark, they needed many different varieties.

Zhao Fu quickly collected 16 types of divine dragon blood, which included Ice Dragons, Fire Dragons, Wood Dragons, Evil Dragons, and various other dragons.

He put all of this blood into a lake and he submerged his body into it. He then took out that golden Clear Sky Saint Dragon Pearl and pressed it into the Ten Thousand Dragon Mark, which was giving off an intense silver light, starting to refine it.

Chapter 1195: Dragon Pearl

“Roar! Roar! Roar...” Countless dragon’s roars sounded out as the Ten Thousand Dragon Mark seemed to obtain a life of its own after it fused with the Clear Sky Saint Dragon Pearl. Silver dragon images flowed out from Zhao Fu’s body and started to swim in the lake of dragon blood.

The golden crystal pearl was now within Zhao Fu’s body and gave off an extremely intense light, and a massive wave of dragon energy flowed out.

“Arghhh!” This caused Zhao Fu’s body to tremble and he could not help but roar. Countless traces of golden light shot out of his body as golden dragon scales appeared on his skin.

Boom!

The Dragon Pearl within Zhao Fu’s body continuously trembled and exploded out with a golden light that shot into the sky. Instantly, wind blew and clouds swirled as the golden light dyed the sky

gold, and a boundless dragon's might descended, causing countless people to collapse to the ground.

An enormous golden dragon appeared in the sky. It had three eyes and four horns, and it was covered with crystal-like dragon scales. This was most likely a Clear Sky Saint Dragon, one of the most prestigious types of dragon.

At that moment, the countless dragon images in the lake surrounded Zhao Fu and quickly swam around him. A formless refining power entered Zhao Fu's body, covering the golden Dragon Pearl within him.

The golden Dragon Pearl gradually melted and turned into golden liquid before gradually fusing into Zhao Fu's body. This caused Zhao Fu's dragonification to become even more intense.

It was not just his face, chest, arms, and legs; there were now golden dragon scales all over his body. His hands and feet had almost become dragon claws, and there were four small dragon horns on his head. His aura was no longer like that of a human's but like a dragon's.

The golden Dragon Pearl turned into an orb of liquid and continued to gradually fuse into Zhao Fu's body. Zhao Fu's body was now filled with a powerful dragon energy that threatened to cause his body to explode.

However, Zhao Fu's body did not continue to dragonify because Zhao Fu's Sovereign bloodline madly devoured this dragon energy and incorporate it.

The Clear Sky Saint Dragon Pearl's power was continuously absorbed by Zhao Fu's Sovereign bloodline, and the golden liquid continuously decreased. In the end, it completely disappeared, completely fusing into his bloodline.

“Roar!!” The massive Clear Sky Saint Dragon in the sky gave a heaven-shaking roar before diving into Zhao Fu's body, surrounded by golden light.

Boom!

The instant that the Clear Sky Saint Dragon entered Zhao Fu's body, his body trembled and countless rays of golden light shot out as a formless aura burst forth and shook his surroundings.

Within the boundless void, three dim stars surrounded by a deathly aura suddenly brightened. Even though they were not very bright, the three Emperor Stars seemed to have come to life again.

The countless gray dragon images on Zhao Fu's body became slightly dimmer, and they did not continue to devour his life force in such an unbridled manner; it seemed that they had become somewhat weaker.

The countless silver dragon images in the blood lake devoured the dragon's blood before entering Zhao Fu's body again. They turned back into the Ten Thousand Dragon Mark, but there was now a golden pearl at the center of it.

Zhao Fu opened his eyes and felt his body brimming with power; just with this power alone, he felt that he could blast apart a small mountain. His constitution was also much stronger than before.

His body's toughness could now rival a high-grade devil beast, and ordinary swords and sabres could not harm him at all. This was not only because of the Clear Sky Saint Dragon Pearl but also his Sovereign bloodline.

Zhao Fu's body also gave off a faint dragon's might, and his aura contained a faint dragon's aura. If it was said that Zhao Fu was from the Dragon Race, some people would believe this.

Furthermore, Zhao Fu's lower body had also gone through changes, and it had most likely become much more powerful as well.

However, it was a pity that Zhao Fu's bloodline remained as a Level 18 Sovereign Bloodline, and it was just a trace away from breaking through to a Divine Bloodline.

However, this tiny step was like an uncrossable canyon; Zhao Fu had reached this point since a long time ago, but even the Ownerless Blood Jade and Clear Sky Saint Dragon Pearl were not enough to help him break through.

However, Zhao Fu could understand this, as a Divine Bloodline was something that reigned above even Sovereign Bloodlines. Only Holy Empires would normally have them. How could they be obtained so easily?

What made Zhao Fu happiest was what the golden dragon had said – after fusing with the Clear Sky Saint Dragon Pearl, the effects of Emperor Killer had been greatly reduced, and now it was possible for him to live another two years.

This greatly bolstered Zhao Fu's mental state, and he felt a lot of hope towards the future. There was definitely a way to get rid of Emperor Killer; this moment was the best evidence.

Zhao Fu stood up; there was no longer any blood remaining. All of it had been absorbed by the silver dragon images.

Zhao Fu found that the energy within the Ten Thousand Dragon Mark had become much stronger. Perhaps bathing in dragon's blood would greatly help the Ten Thousand Dragon Mark.

Zhao Fu took a bath and got rid of the dragon's blood on his body, and he once again summoned his subordinates to talk about the final matter, which was the Fish Scale world.

There were only ten or so days until the Contract expired, and Zhao Fu was now collecting information about the Fish Scale world's other Continents.

As the ending date of the Contract approached, the Fish Scale world became quite panicked. They knew about Great Qin's tricks, so as long as they stayed in the water, they would be fine.

However, the current Great Qin was different to the Great Qin of the past. It had unified an entire world and could resist four worlds.

They were not a match for Great Qin at all, and they had to think of methods to deal with it. Some gathered their soldiers to defend to the death, while others tried to cooperate with other worlds. Some wanted to sign new peace contracts with Great Qin, ones that were permanent.

Great Qin had fused into the Heaven Awaken World for one year now, and the Fish Scale world also had grasped ways to leave the Legacy Land. They had heard about Great Qin's mysterious and powerful methods, making them terrified.

They definitely could not stop Great Qin, so they could only hope that they could ally with the three worlds outside to hold back Great Qin. Only then would the Fish Scale world have a trace of hope, or else they would definitely perish at Great Qin's hands.

After hearing about this, the three worlds outside were quite welcoming because another world was joining them and greatly increased their strength. Because of this, the three worlds gifted many things to the Fish Scale world.

This undoubtedly made things quite troublesome for Great Qin. The various worlds were already tying up a lot of Great Qin's forces, and now the Fish Scale world had joined them, causing the pressure that Great Qin endured to become greater.

Now, Zhao Fu was discussing with his subordinates whether to take the risk to attack the Fish Scale world or continue to sign a peace contract with them. If they did not start planning now, a battle would definitely erupt when the Contract expired.

Chapter 1196: Human-Headed Python

Time gradually passed, and in the end, the Fish Scale world agreed to ally with the outside worlds to resist Great Qin.

In actuality, the Fish Scale people had benefited from Great Qin. If it wasn't for Great Qin, the Fish Scale world would have been invaded by the three worlds. Even though they could use water as a natural barrier, in the end they would have been destroyed.

Now, because of the massive threat that was Great Qin, the three worlds did not have the heart to invade the Fish Scale world. They just wanted to obtain power to resist Great Qin, so they naturally would not do anything to the Fish Scale world.

Since the Fish Scale world had decided to oppose Great Qin, Great Qin decided to attack the Fish Scale world.

The Fish Scale world had thought that because Great Qin was tied up by the outside worlds, it would not dare to do much to them. If Great Qin launched a sudden attack now, they would be able to obtain good results.

As such, Great Qin used the remaining time to start preparing.

Ten or so days later, it was a calm day with moderate wind and beautiful sunlight. The deep blue ocean was incredibly still, and today was the day that the Contract expired. With the three worlds outside tying up Great Qin, the Fish Scale world did not have much to fear.

The Darkwater Continent was the closest to Great Qin's Netherwater Continent, so that was the first line of defense. The City Lords there were the ones yelling to oppose Great Qin the loudest, and all of the Continents knew that if Great Qin attacked, it would be the Darkwater Continent suffering first.

There were 5,000 Cities in the Darkwater Continent and 2.9 billion people. They were relatively weaker than the other Continents, having less than one-third of the strength of the other Continents.

As such, the Darkwater Continent requested reinforcements from the other Continents, but the other Continents were quite cold. After all, the majority of factions were player factions, while the Darkwater Continent was a system faction.

However, that was the frontline to resist Great Qin; if the Darkwater Continent fell, there would be no benefit to them, so the leaders of the other Continents started to meet together to discuss this.

“Should we help the Darkwater Continent? I don't want to suffer heavy losses.”

“We can't just watch; if Great Qin takes down the Darkwater Continent, the next to suffer will be us.”

“It's still too early to say. With so many worlds tying down Great Qin, their forces have been scattered. They're probably too scared to do anything to our Fish Scale world. If we stab them at this moment, perhaps we'll be able to achieve something.”

“It's probably not the best to attack; Great Qin has too many tricks up its sleeves. Four worlds tried to invade last time, but they still failed. With our strength, it'll be impossible.”

“Mm! I agree, we should be focusing on defense.”

“In that case, I think we should help the Darkwater Continent. However, we need to let them panic for a bit. After all, we'll be taking a great risk to help them. If we don't get some benefits out of it, it won't be worth it.”

Hearing this, everyone looked at each other and grinned as they came to a decision. They would ignore the Darkwater Continent's requests for assistance for now. After all, if they waited, they could force the Darkwater Continent to pay them to help.

Great Qin started to make preparations as well. Great Qin was indeed under immense pressure, as most of its forces were tied up. Defending against the various worlds and invading the Fish Scale world was indeed quite difficult.

However, Great Qin still decided to attack the Fish Scale world because it was the easiest world to take down. Great Qin needed a large amounts of territory and people to increase its foundation.

Moreover, if they conquered the Fish Scale world, no one would be able to take it from them, as there was still the Heaven Domain Boundary. Once they took it, it would be theirs.

As for the method, Zhao Fu met with his various subordinates to come up with a detailed plan.

By now, the Darkwater Continent's forces had already finished preparing. All of the other Continents thought that they were preparing to resist Great Qin, so they did not pay them much mind. They did not know that the Darkwater Continent already belonged to Great Qin.

Soon, it was night, and a cold moonlight pierced through the water, illuminating the world within it.

The Darkwater Continent started to attack the nearest Continent. Zhao Fu had wanted to draw some of the forces from the other Continents over and destroy them and reduce the strength of the other Continents.

However, the other Continents did not fall for it, so they could only forcefully attack.

After receiving these orders, all of the Fish Scale people in the Darkwater Continent felt quite confused; they were not defending and were instead attacking other Continents. Even though they did not understand, they still carried out their orders and headed towards the closest continent, the Bluewater Continent.

The movements of the Darkwater Continent were noticed by the other Continents, but it was normal to make preparations to defend, so they did not take it to mind.

During the night, the sounds of battle started to sound out.

The Darkwater Continent sent out 300 million soldiers and quickly entered the Bluewater Continent. Because the Bluewater Continent had never expected for the Darkwater Continent to attack them, they were caught completely unprepared.

News quickly spread, shocking countless people from their sleep. They all thought that the Darkwater Continent had gone mad, or else why would they do such a stupid thing?

However, the Bluewater Continent would be able to deal with 300 million or so soldiers. The Bluewater Continent had 6,000 or so regions and 18,000 Cities. There were nine billion people and 1.4 billion soldiers; with this kind of strength, they did not fear the Darkwater Continent.

Even though they did not know why the Darkwater Continent had suddenly attacked them, since the Darkwater Continent had dared to make a move, they would not hold back.

At first, the Darkwater Continent's forces were able to conquer a few hundred regions because the Bluewater Continent was unprepared. However, the Bluewater Continent's people quickly gathered together and stopped the Darkwater Continent's forces and surrounded them.

The Bluewater Continent's morale was quite high, and they were quite domineering because their forces far surpassed the enemy forces. They were completely confident in their victory, while the aura of the Darkwater Continent's forces was much weaker.

Someone from the Bluewater Continent shouted mockingly, "Are you people stupid? You're attacking us with forces like this? What a joke! Now, none of you can escape. Put down your weapons and surrender, and we'll spare you."

The Darkwater Continent soldiers' expressions were quite grim. Now that they had been surrounded by a force many times theirs, they indeed could not escape. It was quite possible that they would die here, so they felt quite afraid.

At the same time, they could not understand why they had to suddenly attack the Bluewater Continent; it simply made no sense.

However, the Darkwater Continent City Lords were rather calm and coldly laughed inwardly. They were just bait sent over by Great Qin, and they were just here to draw everyone over instead of truly attacking.

“Roar! Roar! Roar...” Massive roars sounded out as a massive wave of devil qi spread out like a cyclone, causing everyone to feel terror.

Everyone looked into the distance, seeing massive Devils flood towards them. They gave off evil and ruthless auras and seemed as if they could destroy everything.

There were human-headed pythons, bats with human faces on their stomachs, rats with two heads, half human-half tiger beasts, and centipedes with countless human hands...

Chapter 1197: Traitor

These were all Devils, and some could breathe underwater while others couldn't. However, Zhao Fu had prepared breathing apparatuses for all of them, allowing them to move underwater.

Looking at the Devil army charging at them, the Bluewater Continent's people fell into terror. This Devil army was simply too big and there were far too many of them.

They still did not understand what was happening and how such a massive Devil army had appeared. Some people suddenly realized something and understood why the Darkwater Continent had attacked them.

If they pushed all of this to Great Qin, it all made sense.

“The Darkwater Continent has long since submitted to Great Qin and has betrayed us. That Devil army is from Great Qin; everyone, be careful!”

As soon as these words were shouted out, they caused massive waves. The expressions of people on both sides became quite shocked; the Bluewater Continent's people were extremely angry that the Darkwater Continent's people had betrayed the Fish Scale world and become Great Qin's dog.

The Darkwater Continent's soldiers suddenly realized that they had suddenly become part of Great Qin. Some were quite happy while others had grim expressions, and some said that they wanted to resist Great Qin.

The system City Lords immediately pacified their soldiers, yelling, "Great Qin's army is sweeping away everything before them, and the Fish Scale world will belong to Great Qin sooner or later. Those of us who submit first will receive the best treatment!"

"Also, look at that Devil army rushing over, do you think you can stop them? That's Great Qin's power; if you don't submit, you'll die!"

This caused the morale of the Darkwater Continent's forces to stabilize. Sensing the colossal wave of devil qi, looks of fear appeared on countless people's faces.

The Devil army was incredibly fast and would soon clash with the Bluewater Continent's army. The Bluewater Continent army did not want to wait to die, so they started to attack.

Swish, swish, swish...

Arrows containing terrifying power shot out, and left behind trails in the water, but they were not able to deal much damage to the Devil army. Some Devils released devil qi that sent the arrows flying away, and the Devils that were hit merely cried out in pain.

The Bluewater Continent's forces had been surrounding the Darkwater Continent's forces, but now the leaders hurriedly gave the order to get into a defensive formation to block the Devil army.

However, how could the Darkwater Continent's forces allow them to do as they wished? They immediately started attacking the Bluewater Continent's forces, causing their army to fall into chaos. They had to defend against the incoming Devil army while also protecting themselves from the Darkwater Continent's forces.

In the end, the Bluewater Continent's forces were only make some simple defenses and some of their soldiers were able to create a few shield walls.

Boom! Boom! Boom...

There were a few Kingdoms within the Bluewater Continent, and they released their Corps Formations. Ten or so massive creatures gave off powerful auras as they rushed out.

However, compared to the Devil army, they were like a few pebbles because there were simply too many Devils. Zhao Fu had gone all-out this time and had mobilized 650,000 Devils.

Bang! Bang! Bang...

Muffled explosions sounded out as countless massive Devils slammed against the shield walls. Despite the countless soldiers desperately blocking, they were still sent flying back, and the defensive line instantly collapsed without a trace of resistance.

The ten or so Corps Formations were also instantly crushed as they clashed with the Devil army.

Countless Fish Scale people raised their weapons and roared as they charged at the Devil army, desperately retaliating. However, it was all futile.

In front of those massive Devils, countless people were sent flying. They could not attack those Devils at all, and even if they did, they were barely able to deal much damage.

Against such large creatures, one had to use things that countered large creatures or high-Stage soldiers.

If there were a few million Stage 8 soldiers, they would be able to forcefully stop this Devil army. However, the Fish Scale world was still a new world, so how could they have such forces?

The Devils powerfully charged through the Bluewater Continent's defenses before starting a massacre.

A massive python with a mouth filled with fangs opened its mouth and devoured hundreds of people. Its powerful digestive abilities instantly digested them, and the python once again opened its mouth and launched itself at other soldiers.

A 30 meter tall rhinoceros with an ugly and deformed head gave a massive roar and vigorously charged forwards, slamming people into meat paste. It also opened its mouth and madly devoured Fish Scale people.

A savage-looking black crocodile with blood-red eyes ferociously looked at the Fish Scale people in front of it. It was quite nimble in the water and quickly swam over. It bit down with its mouth, biting hundreds of people in half.

It then devoured their corpses and continued to bite towards other soldiers. Because there was so much food available, it did not eat them cleanly, leaving broken corpses everywhere. Blood dyed the surrounding water, painting a terrifying scene.

Countless Devils were madly enjoying their food; to them, the Fish Scale people were just a pile of food, and they relied on such food to grow.

The one billion Fish Scale soldiers were unable to stop the Devil army at all. The soldiers at the front continuously died while those at the back continuously retreated in fear. It was like a massive tide being pushed backwards.

The Darkwater Continent's forces looked at how savage and ruthless the Devils were and looked terrified. They now celebrated that they were part of Great Qin and did not have to fight against these monsters. Otherwise, they would have been like the Bluewater Continent's forces.

Great Qin's methods were simply too terrifying and cruel; now, they did not dare to think of rebelling at all, and their morale was greatly boosted.

They now used their full strength to attack their brethren; arrows continuously shot out and Fish Scale Cavalrymen charged forwards, killing the Bluewater Continent's forces.

The instant that the Devil army had arrived, the Bluewater Continent's forces were doomed to lose. The Devil army and the Darkwater Continent's forces ferociously killed, while the Bluewater Continent's soldiers started to run away.

News of the Bluewater Continent's forces losing quickly spread, and countless people ran for their lives in terror. The Darkwater Continent's forces were able to easily conquer region after region.

In the end, the Darkwater Continent's forces completely took over the Bluewater Continent, obtaining a large number of people and Cities. Many people also escaped to the other Continents.

This news instantly rocked the entire Fish Scale world; no one had expected that despite facing so many enemies, Great Qin still dared to make a move against them. What's more, they had taken an entire Continent just like that.

At the same time, they heard about the Darkwater Continent's betrayal.

The other Continents immediately mobilized their troops and tried to stop Great Qin's momentum, and the Fish Scale world's World Protector Yu Xuan also personally led people to attack. This news also traveled to the three worlds outside.

Chapter 1198: Softwater

This caused the people of the other worlds to feel a trace of anger; Great Qin did not take them seriously at all. Despite facing so many of them, they had the gall to attack someone else. As such, they all started to attack Great Qin.

By now, they had found means to resist Great Qin's Illusion Flower Devils and teleportation spears, so they were not as afraid of Great Qin.

The Grassi World, Half-Beast World, Elf World, and Dark Demon World simultaneously attacked Great Qin. However, the Devil Horn Empire did not make a move; they were waiting for an opportunity to take down Great Qin in one swoop, so they would not easily act.

After receiving news of this, Zhao Fu sent soldiers to the boundaries to defend.

Zhao Fu was not afraid of them attacking because Great Qin's main force had not moved out. It was only the Devil army and Darkwater Continent attacking the Fish Scale world.

The various factions wanted to send soldiers to the Bluewater Continent to stop Great Qin, but 400 million of Great Qin's soldiers at the Netherwater Continent started to attack the Continent closest to them, the Softwater Continent.

Of these 400 million soldiers, 300 million or so were Fish Scale people and only about 100 million were humans. Because they had lived underwater for quite a while, they had a lot of experience fighting underwater.

Of course, just with 400 million of Great Qin's soldiers, it would be impossible to take down the Softwater Continent.

The Softwater Continent had 5,000 or so regions and 15,000 Cities. It had seven billion people and nearly one billion soldiers. If Great Qin's 400 million soldiers did not use any tricks, it would naturally be quite difficult to take down the Softwater Continent.

However, Great Qin did indeed have some tricks, one of which was something the Fish Scale world had used against the human world before: triggering an aquatic beast tide.

After returning to the Fish Scale world after a few years, the eight Aquatic Beast Kings could not help but feel excited; this was their true home.

Now that they had returned, the other aquatic beasts were doomed. Before, they had lived in terror of the eight Aquatic Beast Kings, and after they had been sealed, the other aquatic beasts had lived happily. However, today, those eight Aquatic Beast Kings had returned.

"Roar! Roar! Roar..." Eight massive roars sounded throughout the Fish Scale world, and countless creatures felt a sense of fear. Even the small fish and prawn started to panic; this heralded the arrival of the eight Aquatic Beast Kings.

The eight Aquatic Beast Kings drove countless aquatic beasts towards the Softwater Continent, and there were around one million of them. Because time was short, they did not have enough time to gather too many aquatic beasts.

These aquatic beasts were about as big as the Devils, but their strength was far inferior. They were quite big, but their bodies were not very powerful.

If the Fish Scale world could control the eight Aquatic Beast Kings and use them to gather aquatic beasts, they would be able to resist Great Qin's Devil army. This had been their advantage before, but now it was Great Qin controlling the eight Aquatic Beast Kings.

Many of the Softwater Continent's forces had been sent to the Bluewater Continent to resist Great Qin, and they had never thought that Great Qin would have another force this strong.

Their soldiers were quickly returning, but the aquatic beast tide gave off a terrifying aura and broke through the Softwater Continent's defenses before invading the inner regions of the Softwater Continent.

Facing Great Qin's two armies, everyone's expressions became quite grave. They were stuck between a rock and a hard place; which side should they support?

The Bluewater Continent was in the worst condition. Great Qin was about to gain complete control there, and once it did, it would attack other Continents. The Devil army was a massive threat.

In the end, the other Continents decided to send 30% of their forces to support the Softwater Continent and 70% of their forces to support the Bluewater Continent.

The two sides quickly clashed in the Bluewater Continent. There were three billion Fish Scale soldiers, and they had also quickly prepared some items to deal with large-size creatures.

This forced Great Qin's Devils to slow down their attack. The remainder of the Darkwater Continent's forces also moved out, 500 million soldiers in total.

Yu Xuan's expression was cold as he exploded out with a powerful aura. He led the way as he charged towards Great Qin's forces. In front of him was a beautiful woman with golden hair and golden eyes, wearing a silver knight's dress and holding a golden sword.

She was Tina Pendragon and she was someone Great Qin had invested in greatly. Not only did they think of ways to increase her various powers, but they had also raised her Royal Bloodline. With her exceptional talent, she now had the strength to fight with Yu Xuan.

Boom!

A massive explosion sounded out as the two people started to clash. Terrifying ripples blasted out as a terrifying aura instantly spread out.

As the two of them started to fight, the two armies started to ferociously charge as well. The countless Devils roared as they charged towards the Fish Scale army. The Fish Scale army also roared as they shot towards the Devil army; the battle between the two sides was incredibly intense.

Countless Devils tore apart or devoured the Fish Scale people's bodies, causing blood to quickly dye the water. There were broken corpses everywhere, creating a horrific scene.

The Fish Scale world's forces used all sorts of items to summon all kinds of monsters to attack the incoming Devils.

Some people threw spears that created massive vortexes that dragged the Devils into them. The massive vortexes contained immense power and could tear apart the Devils' bodies, resulting in many injuries and casualties.

The Darkwater Continent's forces were currently fighting with the other Fish Scale people.

At the Softwater Continent, the battle was also quite ferocious. Even though there were more aquatic beasts than Devils, they were unable to create as great of an effect.

Moreover, the Fish Scale people were quite familiar with these aquatic beasts, so they clearly knew their weaknesses. They implemented many measures to deal with these aquatic beasts, making it quite difficult for Great Qin to attack.

The other battlefields had started to fight as well. Zhao Fu led countless experts to defend the Eastern Archipelagos to defend against the three outside worlds and the Devil Horn Empire, which could attack at any moment.

Bai Qi defended the Southern Continent of the Dark Demon world and resisted the attacks of the Dark Demon world. The Dark Demon world's attacks were quite ferocious and incredibly powerful. Great Qin mainly defended and could not retaliate.

This battle lasted for six days and both sides suffered great losses. In the end, Zhao Fu was able to conquer the Bluewater Continent and Softwater Continent with great difficulty.

They had already taken over the Bluewater Continent before, and they were just stopping the Fish Scale people from reclaiming it. With the eight Aquatic Beast Kings continuously driving over aquatic beasts, they were able to conquer the Softwater Continent in the end.

Zhao Fu had wanted to resist the pressure from the other worlds and conquer the Fish Scale world in one go, but the Devil Horn Empire had suddenly acted. After hearing that Great Qin had turned countless devil beasts into Devils, it had been furious and ferociously attacked Great Qin.

The Devil Horn Empire had brought 1.5 million devil beasts as well as Devil Horn soldiers to attack Great Qin. This forced Zhao Fu to stop attacking the Fish Scale world and focus on defending.

Chapter 1199: New Devils

Even though they had suffered great losses in terms of soldiers, beasts, and Devils, they had also obtained massive gains. They had conquered two Continents and obtained 11 billion people and 20,000 or so Cities.

This caused Zhao Fu's overall population to rise to 115 billion people and they now had 190,000 Cities. After obtaining two more Continents they had obtained a lot of Fate as well, making up for the Fate they had lost from losing the three Continents previously.

Now, the Fish Scale world only had three Continents remaining; the four others had fallen into Great Qin's hands. After this battle, the Fish Scale world's strength had been greatly reduced.

Now, they only had around three billion soldiers, which was nothing to be afraid of. Great Qin just needed a chance to gather some more forces, and it would be able to completely conquer the Fish Scale world.

Because the battles outside were quite intense, Zhao Fu had to focus most of his forces outside to maintain the status quo.

Zhao Fu also sent out ambassadors, wanting to ally with the surrounding worlds to suppress the Devil Horn Empire. With some allies, Great Qin's situation would be much better.

Even if there was a single world to help them tie up the Devil Horn Empire, that would be quite good. Great Qin would be able to focus the freed-up forces to deal with one enemy and quickly increase Great Qin's strength. However, there was no one who wanted to ally with Great Qin.

After all, they had all seen Great Qin's threat and how much the other worlds had been suppressed. As Great Qin fought with the other worlds, its strength had been gradually whittled away. This was something that they wanted, so they naturally would not get involved.

Great Qin used the Illusion Flower Devils and teleportation spears, but the other side had already found ways to deal with them. The pollen from the Illusion Flower Devils was blocked by powerful barriers, and the teleportation abilities of the teleportation spears were locked down by spatial restrictions.

Zhao Fu suddenly thought about the fact that the devil beasts could become Devils quite easily; if that was the case, what about aquatic beasts?

Aquatic beasts' bodies were quite big, but they were quite weak. If they could become Devils, they would become another source of strength for Great Qin.

This was especially so since Great Qin had the eight Aquatic Beast Kings, which could herd the aquatic beasts into the Devil World. Great Qin would not have to send soldiers to drive them or capture them, which would drain less of Great Qin's resources.

However, the number of aquatic beasts in the Fish Scale world had been drastically reduced.

When the Fish Scale world had attacked the human world, they had attracted over countless aquatic beasts. During Great Qin's attack, the eight Aquatic Beast Kings had drove countless aquatic beasts to attack, resulting in the loss of many aquatic beasts.

Zhao Fu was not sure how many aquatic beasts they would be able to round up, but he still ordered the eight Aquatic Beast Kings to see how many they could herd together.

Of course, Zhao Fu first brought with him the Hundred Devils and had them see if the aquatic beasts could be quickly turned into Devils. They themselves were Devils, so they would most likely have a good idea.

By now, more than half of the Fish Scale world belonged to Great Qin. The remaining three Continents were forced to fully focus on defending, so Zhao Fu could do as he pleased within the Fish Scale world. He caught a six meter tall crab and had the Devils see if it could be turned into a Devil.

Momijigari walked up and stretched out a hand, causing countless traces of devil qi to gather at her hand, forming an orb of devil qi. She then sent the orb of devil qi flying into the massive crab's body.

The crab's eyes became blood-red and its aura became chaotic as it continuously struggled, trying to break free of Zhao Fu's restrictions. However, apart from this, it did not go through any changes.

Momijigari frowned and turned to Zhao Fu and said, "Your Majesty, these aquatic beasts' spirituality and intelligence are too low. Even though their bodies are quite big, their aptitude is quite low. They can be turned into Devils, but it will take a long time.

"Moreover, these aquatic beasts can only be turned into the lowest grade of Devils and it will be difficult for them to become high grade Devils. It will be incredibly rare for any of them to be able to take human form."

Hearing this, Zhao Fu felt slightly disappointed. However, for them to be able to be turned into Devils was still quite good and would provide some more strength for Great Qin. As such, Zhao Fu immediately had the eight Aquatic Beast Kings herd the aquatic beasts into the Four Soul Devil World. In total, 400,000 aquatic beasts were herded in.

After dealing with these matters, the Emperor Killing Sword in the Sword Mark suddenly started to tremble and give off waves of sword light. This caused Zhao Fu to feel quite startled; he sensed the massive changes in the Emperor Killing Sword World and he entered it.

The Emperor Killing Sword World was one of Zhao Fu's biggest trump cards, but it had not developed yet. After it had developed, he would not have to fear those three factions anymore.

This Emperor Killing Sword World was worthy of development because in later stages, it would provide unimaginable help to Zhao Fu. After all, this was Killing Sword Intent that could kill Celestials, and it would be extremely useful against higher-beings.

After entering the Emperor Killing Sword World, Zhao Fu saw a massive blood-red vortex in the sky, giving off a heaven-toppling Killing Sword Intent. The air was incredibly cold, making it almost impossible to breathe, and each breath was quite difficult and painful.

The 100 people in Sword Obsession who had been fighting outside had all been recalled to the Emperor Killing Sword World and were sitting cross-legged under that blood-red vortex. Traces of blood-red aura floated out from their bodies and flew into the massive blood-red vortex.

That vortex's power already covered the entire Emperor Killing Sword World, and the Emperor Killing Sword World started to tremble. Clouds swirled as everything started to become chaotic.

Zhao Fu felt quite delighted because he understood that the Emperor Killing Sword World was leveling up. Its power would increase greatly, and more people would be able to go into Sword Obsession.

Boom!

The blood-red vortex suddenly exploded and gave off a massive explosion as countless traces of blood-red aura shot out. The Emperor Killing Sword World's sky and ground continuously expanded out until it became as big as a hundred regions.

An even greater power entered the Emperor Killing Sword, which gave off a blood-red light as well as a joyful sword hum.

Not only did the Emperor Killing Sword's power increase by a lot, but its Grade had also increased. It seemed that it could grow alongside the Emperor Killing Sword World.

This was a very pleasant surprise to Zhao Fu; when the time came, Zhao Fu would have a supreme weapon of murder, which would cause all gods and demons to retreat in fear.

The world once again calmed down and the Killing Sword Lake at the center became ten times larger. Now, even more experts in the way of the sword could be thrown in and would go into Sword Obsession, providing more killing aura for the Emperor Killing Sword World.

The number of people who could go into Sword Obsession rose from 100 to 1,000, which meant that they needed another 900 geniuses.

This number was quite big, and geniuses in the way of the sword were not easy to find. The sword geniuses from the surrounding worlds had already been taken by Great Qin, so if they wanted more of them, they could only go to places further away.

Chapter 1200: Golem Clone

Zhao Fu immediately thought about the Ancient Sword Sect; that was the Ancient Stem Domain's most powerful Sword Sect, and it was the holy land for those who cultivated in the way of the

sword. There would naturally be countless sword geniuses there, and the Ancient Sword Sect would all nurture them greatly, so they would all have decent strength.

They were naturally quite suitable for going into Sword Obsession; Zhao Fu would not have to look all over the place and instead could just use them.

Thinking about what had happened before, Zhao Fu felt a wave of anger from within his heart. They were still looking for him with all they could so that they could kill him, and today Zhao Fu was going to take some interest from them.

Zhao Fu made some preparations and headed to the inner regions of the Ancient Stem Domain. At the same time, he had collected information about the Ancient Stem Domain and had made a list of names.

This list of names was filled with the Ancient Sword Sect's sword geniuses, and all of them had immense talent and powerful strength.

Even though he could not defeat their Sect Master, they were in the open while Zhao Fu was hidden. It would be quite easy to bully the Ancient Sword Sect's countless disciples.

Of course, he would not be able to capture 900 of them one by one, or people would definitely notice that something was wrong. Before he could capture all 900, he would be discovered, and the situation would become dangerous.

Zhao Fu looked at the information on the list and considered having them gather together and capture them all in one go.

They all had something in common, which was something that all sword geniuses had in common: They were extremely interested in all things to do with the way of the sword. Perhaps Zhao Fu could prepare some things to attract them over.

Ordinary things would not be able to attract these sword geniuses, so Zhao Fu planned to use the Killing Sword Intent.

Of course, Zhao Fu had to make preparations or his identity would be exposed. After all, he had used the Killing Sword Intent at the Ancient Stem Banquet before.

He first had people write 1,500 letters; he would not write all of them himself. After writing them, Zhao Fu sent bits of his Killing Sword Intent into each of the letters.

The contents of the letters only had a single sentence: “If you want to comprehend this peerless way of the sword, come to this place!”

The Killing Sword Intent within the letters would definitely attract countless people. After all, to those who walked the way of the sword, this sword intent was incredibly unfathomable and no one could refuse it; anyone who cultivated in the way of the sword would want to obtain it.

In case not enough people came, Zhao Fu prepared an extra few hundred letters so that at least 900 would come.

These letters were quickly delivered by others into the Ancient Sword Sect disciples’ hands.

A white-clothed young man stood on a mountain peak, sensing the vastness of the power of the heavens and earth, when a servant interrupted him, making him feel quite displeased.

However, after that servant handed him a letter, the young man’s expression became one of shock. In the next second, he turned into a ray of sword light and disappeared over the horizon.

A woman wearing a green dress, giving off a powerful sword qi, held a white silk scarf and lightly wiped a sword. After receiving this letter, her expression became quite serious as she turned into a ray of sword light and disappeared.

A muscular young man was swinging his large sword, sending out ferocious sword wind, and after receiving this letter, he laughed loudly before leaving.

Most people did not pay much mind to these letters, but after opening them, their expressions immediately changed as they felt a sea-like sword intent cover them.

Their bodies froze, and they felt as if they had fallen into icy water. Their bodies continuously trembled; they had never seen such terrifying sword intent before, and even though they were afraid, they could not help but feel excited.

The more powerful the sword intent, the more precious it was to them. This sword intent was from Zhao Fu's Killing Sword Intent, which was one of the most top-tier sword intents in the world. As such, they all hurried towards the designated place.

Zhao Fu had been waiting at the place from the beginning, and he had hidden himself. Seeing the sword geniuses arrive, he knew that his plan was successful.

Seeing so many other people around, everyone who arrived felt that something was off. However, they wanted to see that sword intent, so they still decided to stay.

More and more people arrived, and soon, there were more than 1,000 of them. Just as Zhao Fu was about to make a move, he suddenly sensed some danger.

This was because some extremely powerful sword experts had stealthily arrived. These people's power greatly surpassed the Harmony Realm and were most likely Elders of the Ancient Sword Sect.

Zhao Fu's expression was quite serious and he immediately decided to leave; the plan had failed.

Zhao Fu had expected that something like this might happen because he had sent out so many letters. Some of the disciples would most likely report this matter up; with how terrifying that sword intent was, even the higher-ups of the Ancient Sword Sect would take notice of it.

As such, Zhao Fu could only give up. With his strength, he could not fight against the Ancient Sword Sect.

It was a pity that Zhao Fu's teleportation spears could only teleport across a few worlds and could not cross over 100 worlds. Otherwise, Zhao Fu could immediately activate them and instantly send them all to Great Qin, completing his goal.

Just as Zhao Fu was about to leave, a cold-looking middle-aged woman arrived. Seeing this cold-looking woman, everyone called out respectfully, "Madam!"

Zhao Fu thought about the Ancient Sword Sect's information and understood that this was the wife of the Ancient Sword Sect's Sect Master. He instantly felt a wave of fury as he thought about how the Ancient Sword Sect's Sect Master had humiliated him.

The cold-looking woman was also a sword expert and gave off powerful sword qi, making others not dare to get close. She was very beautiful and was quite slim and tall, and she had white, tender skin. It was said that back in the day she was the number one beauty in the Ancient Sword Sect.

She was younger than the Ancient Sword Sect's Sect Master and looked around 30 years old. She was not the same generation as him, being one generation younger.

Back then, the Ancient Sword Sect's Sect Master had thickened his skin and disregarded the gap in generations to woo the Ancient Sword Sect's number one beauty.

Since she was one generation younger than the Ancient Sword Sect's Sect Master, her cultivation was naturally much lower than his, and she was only at the Heaven Realm. However, she was almost at the Harmony Realm.

Zhao Fu had never thought that he would draw her here too. However, in front of such a sovereign sword intent, no person who walked the way of the sword would be able to resist it. As such, it was only natural that she wanted to come and see this sword intent herself.

Seeing her, Zhao Fu had an idea. He took out a few small figures made of mud, which were called Golem Clones.

They could turn into the likeness of the user, and even their aura would be the same. They did not have any power, but they were extremely fast at running away and were adept at running away underground. They were useful for escaping.

Zhao Fu had made many preparations for this operation and had many escape measures. He would not leave himself stranded like at the Ancient Stem Banquet.

Zhao Fu cut a finger and had his blood drip onto the Golem Clones, which gave off light and quickly became bigger. They became the same size as Zhao Fu and also wore black cloaks. In order to increase their aura, Zhao Fu also fused some sword intent into them.
