Chapter 1201: Six Desires Puppet Technique

Swish, swish, swish...

The Golem Clones suddenly revealed themselves and gave off powerful sword auras as they looked at the Ancient Sword Sect's people, forcing the hidden Elders to reveal themselves.

The Elders prepared to apprehend these people and interrogate them about their aim. However, those people instantly turned into rays of light and shot into the ground and disappeared, and the Elders chased after them.

This sudden turn of events caused the Ancient Sword Sect disciples to look quite serious; it seemed that this had been a trap to attract them over.

However, they were fortunate that they had reported this up and had the protection of their Sect's experts, so they did not have to worry about much.

After the Elders left, Zhao Fu gave off an evil intent like he was a ghost coming out of darkness as he slowly appeared, causing the air to instantly become cold.

The countless people sensed Zhao Fu's evil intent and looked quite afraid, and their hairs stood on end.

"Hurry and leave!" The cold-looking woman drew the sword at her waist and looked at Zhao Fu gravely.

The people around her could sense Zhao Fu's aura, and they knew that if they remained here, they would just make things difficult. As such, most of them turned into rays of light and left. However, a few people had stayed behind, four men and one woman. Their cultivations were all at the Saint Realm and had the confidence to help.

"Who are you?" the cold-looking woman asked in a stern voice as she pointed at Zhao Fu.

Zhao Fu did not reply and revealed his terrifying eyes, causing their expressions to change.

At that moment, the cold-looking woman and the others turned into rays of light to fly away because they knew Zhao Fu's identity. He was that terrifying person from the Ancient Stem Banquet, and he had come to find them.

If it was just Zhao Fu's cultivation, the cold-looking woman could use her own Peak Heaven Realm Cultivation to at least block him, even if she could not defeat him.

However, Zhao Fu also had a Nation Armament, and its full power could fight even with a World Realm expert.

Looking at these people flying away, Zhao Fu did not hesitate and exploded out with his Nation Armament's power. Otherwise, he would not be able to stop them, nor would he be able to conclude the battle quickly. After all, news was already spreading, and soon the Ancient Sword Sect's experts would arrive.

Boom!

A terrifying power spread out, shaking all directions as Zhao Fu's golden pupil in his left eye started to quickly spin. Chains containing immense power shot out towards the escaping people.

The cold-looking woman raised her hand, and a massive amount of heaven and earth energy entered her body. Her sword sent out a sharp and cold sword light that flashed out, destroying the countless chains closest to her.

The others did not have this kind of power, and after slashing apart a few chains, they were bound by countless chains and dangled in the air.

The cold-looking woman was quite shocked and raised her hand, wanting to break apart the chains around the disciples when a figure suddenly appeared beside her and caused a chill to run through her body.

Bang!

Zhao Fu slashed his sword towards the cold-looking woman, who hurriedly blocked with her own sword. However, that massive power still sent her flying away.

Seeing that he had not injured her, Zhao Fu used even more of his Nation Armament's power and a black aura flame erupted around his body as a terrifying power burst forth. The space around him could not withstand that kind of power and started to distort.

Boom!

Zhao Fu once again slashed towards the cold-looking woman with his sword, blasting her into the ground and opening up a large crater. Within the crater, the cold-looking woman coughed up a mouthful of blood and her aura became quite weak. Her wounds seemed quite serious.

A trace of a smile appeared on Zhao Fu's face as he turned to look at the four men and one woman who were bound in chains. A blood-red crack appeared and sucked the people in. The chains binding them did not vanish and instead dragged them into the Killing Sword Lake.

The cold-looking woman got up with great difficulty. Seeing that she could not save the disciples, she escaped to the side.

Shing!

A massive sword light descended, sending her flying. She crashed against the ground, without a trace of strength to get up again.

Zhao Fu came before and coldly laughed as he squatted down and ripped open her clothes, revealing that white body and pair of large breasts.

The cold-looking woman covered her chest with her hands and cursed in anger, "You obscene bastard! What are you going to do to me?"

Zhao Fu did not answer her question. He grabbed her hands with one hand and the other hand pressed against her head.

The cold-looking woman struggled as she ferociously glared with her beautiful eyes, saying coldly, "If you dare to do anything to me, I'll definitely kill you!"

Zhao Fu was expressionless as six motes of light floated out of the Six Desires Demonic Crystals within his body. Zhao Fu stretched out his hand and six black motes of light floated out of his hand, accompanied by Six Desires Demonic Qi, which surrounded the six black motes of light and formed six black orbs of aura.

Bang!

A muffled explosion sounded out as Zhao Fu's hand pressed against the cold-looking woman's chest. The six black orbs of aura entered her body and a black diagram appeared; it was six demon gods in a circle.

The diagram gave off waves of black light and the cold-looking woman struggled with an expression of pain. Soon, her eyes lost their luster and became hollow.

Zhao Fu frowned and let go, causing the cold-looking woman's body to lie on the ground like a corpse. He said, "Stand up!"

The cold-looking woman's body slowly stood up. Her movements were quite stiff and her expression was wooden, her eyes empty.

Zhao Fu sighed; he had wanted to use one of the Six Desires Demonic Art's techniques, which was the Six Desires Puppet Technique to control this woman. Not only could it control one's body, but it could also control their soul.

As the Ancient Sword Sect's Sect Master's wife, if he could turn her into one of his pawns, she could obtain all sorts of intelligence for Great Qin and would be quite useful.

However, it seemed that he had failed – the woman's cultivation was too high and her comprehension of the way of the sword was also quite powerful. Zhao Fu could only exercise some basic control over her body, so he would not be able to carry out his plan.

He could not stay here for long; Zhao Fu picked up the cold-looking woman's body and turned into a ray of light and disappeared over the horizon.

Boom! Boom! Boom...

Soon, powerful auras descended, causing the air to seem to freeze. Countless experts from the Ancient Sword Sect had arrived, including the Sect Master.

He looked at the traces of battle and the blood on the group and immediately roared in anger, “Find that brat; This Sect Master is going to cut him into a thousand pieces! Make sure you keep my wife safe!”

“Yes!” The experts obeyed and turned into rays of light and shot over the horizon. They gave off ferocious auras and no one dared to stop them.

Zhao Fu quickly escaped because he knew exactly how dangerous it was. If he did not leave immediately, he would be discovered. Zhao Fu would not underestimate a Sect that was as powerful as a Royal Kingdom, so he naturally had to be careful.

Soon, this news spread – that mysterious Emperor had returned and kidnapped the Ancient Sword Sect’s Sect Master’s wife.

Chapter 1202: Ancient Sword

Zhao Fu was currently in another world as he looked out for information about the Ancient Sword Sect. He was not in a rush to return to Great Qin because he had not gathered the 900 sword geniuses yet. He had only captured five and still needed 885.

Zhao Fu still wanted to take revenge against the Ancient Sword Sect, or else he would not be able to satisfy his anger and hatred. Moreover, the Ancient Sword Sect’s disciples were very suitable to go into Sword Obsession.

He knew that the Ancient Sword Sect was looking everywhere for him furiously, and it was doing all it could to kill him. It had placed a very high bounty for his head and threatened that anyone who was connected to him would be destroyed.

The Ancient Sword Sect was the second-ranked faction in the Ancient Stem Domain, so now that it had spoken, no one wanted anything to do with Zhao Fu.

Moreover, with such a big bounty, there were many people searching for Zhao Fu's location.

Many other factions were also searching for Zhao Fu, as he was simply too dangerous. They wanted to know Zhao Fu's goal, and this was especially so for the Nether Yin Dynasty and the Bear Mountain Kingdom. They went all-out to find Zhao Fu so they could kill him.

This caused the inner regions of the Ancient Stem Domain to become quite chaotic, and all of this was because of Zhao Fu. However, with how big the inner region was, none of them had been able to find Zhao Fu.

Within a mountain cave, the cold-looking woman's hands had been bound by chains. Her clothes were torn, revealing her snowy-white chest.

Zhao Fu had stopped using the Six Desires Puppet Technique, and the cold-looking woman had regained her senses. She was looking at Zhao Fu hatefully.

Zhao Fu coldly looked at her and said, "Ancient Sword Sect Madam, tell me about the Ancient Sword Sect's secrets and I'll let you die a quick and easy death."

The cold-looking woman coldly harrumphed and turned her head away, saying, "Don't even think about it; I won't betray the Ancient Sword Sect. If you want to kill me, just do it; the Ancient Sword Sect definitely won't let you off. When the time comes, you'll also die pitifully."

Zhao Fu felt a trace of anger as he replied, "Is that so? Let's see if I'll die first or if your Ancient Sword Sect will be destroyed by me first. I'm going to offer the entire Ancient Sword Sect as an offering to the Emperor Killing Sword."

The cold-looking woman continued to look away and ignored Zhao Fu.

Zhao Fu coldly smiled and one of his hands grabbed onto the cold-looking woman's snowy chest before saying, "Are you not afraid of me doing these things to you? I just want to know the Ancient Sword Sect's secrets."

Feeling her chest grabbed by Zhao Fu, the cold-looking woman immediately started to struggle as she looked at him furiously, yelling, "You lewd bastard, kill me if you want; I won't betray the Ancient Sword Sect. If you dare to do anything to me, I'll kill you even if I become a ghost!"

Zhao Fu continued to coldly smile as he ignored her words and tore off her clothes, revealing her delicate figure.

This caused the cold-looking woman to continue to furiously curse at Zhao Fu.

However, Zhao Fu did not take the next step and instead left the mountain cave. With the Six Desires Celestial Art, he could indeed conquer the cold-looking woman.

However, that could only make her body need him and could not cause her soul to submit. She would still maintain her own thinking, so even if Zhao Fu did it with her, she still might not reveal the Ancient Sword Sect's secrets.

Zhao Fu had dealt with many women like this in the past, but most of them had still maintained their own thinking and had not been controlled by Zhao Fu.

Moreover, Zhao Fu did not want to continue using that method to conquer women.

However, since she was the Ancient Sword Sect's Sect Master's wife, he would not let her off easily. Before leaving, he had sent the Six Desires Demonic Qi into her, causing her to fall into desires.

After leaving the mountain cave, Zhao Fu started to consider how to go about capturing the Ancient Sword Sect's disciples.

The Ancient Sword Sect had given the order for all disciples to remain within the Sect and not go out in order to prevent Zhao Fu from taking revenge on them. The Ancient Sword Sect had never expected Zhao Fu's goal to be the disciples, as opposed to the Madam.

Zhao Fu naturally would not attack the Ancient Sword Sect, as that would be committing suicide. In that case, what should he do? How could he capture their disciples?

After thinking about it, Zhao Fu went to the Emperor Killing Sword World and looked at the five people in the Killing Sword Lake. They had stopped struggling, and they were currently going through Sword Obsession.

The five of them had been geniuses that countless people had looked up to, and they were the top-ranked disciples. Now, they were in such a situation; anyone would feel pity for them.

This was especially so for that woman – she looked extremely beautiful and refined, and she was a famous beauty in the Ancient Sword Sect. However, she had become a monster who only lived for killing.

Zhao Fu searched their bodies and found five tokens. These were the Ancient Sword Sect's tokens, and he should be able to use them to enter the Ancient Sword Sect.

Now that the disciples would no longer come out, Zhao Fu could only sneak into the Ancient Sword Sect. Most of the Ancient Sword Sect's experts had left to find Zhao Fu, so the inside of the Sect was quite empty, making it suitable for Zhao Fu to sneak in.

Zhao Fu took the tokens and cautiously went towards the Ancient Sword Sect. The Ancient Sword Sect controlled ten worlds, so the inside of the Sect was naturally massive and had countless disciples. With the tokens, he was able to easily enter.

The ease with which Zhao Fu entered made him quite surprised. He had put on a cloak and shown the token, which had allowed him to enter without any obstructions.

After entering the Sect, Zhao Fu started to carefully go about his plan. He still could not go about capturing one by one because there were simply too many of them. It would take too long to capture them individually, and people would notice that something was off.

Zhao Fu thought of a good method. He captured a disciple and took him to a remote corner and asked him, "Where is the Ancient Sword Sect's second-ranked Xiao Changfeng?"

The disciple told Zhao Fu in fear, and Zhao Fu casually killed that disciple and threw his corpse into the Emperor Killing Sword World. His aptitude was quite low and was not suitable for going into Sword Obsession, so Zhao Fu could only kill him.

The reason Zhao Fu sought out Xiao Changfeng was because he was inferior only to Gu Jian, and his status was quite extraordinary. He was the grandson of a Head Elder of the Ancient Sword Sect, and it would be possible for him to use his status to gather people together.

“Senior Apprentice Brother! Harder!” After sneaking into Xiao Changfeng’s courtyard, Zhao Fu heard a flirtatious woman’s voice cry out, accompanied by the sound of clapping.

Zhao Fu got closer and saw a slightly evil-looking young man pressing down on an extremely seductive and beautiful woman’s body.

The woman’s figure was quite seductive and she had skin like jade and a large pair of breasts. Zhao Fu had gone through the Ancient Sword Sect’s information and knew that this woman was the seventh-ranked person in the Ancient Sword Sect, and she was called Lin Yan’Er.

A trace of a cold smile appeared on Zhao Fu’s face. While the two of them were busy focusing on each other, Zhao Fu’s Emperor’s Domain silently spread out and cut off any sounds.

Following this, in order to quickly subdue them, Zhao Fu used the Six Paths Demon Images’ power.

Chapter 1203: Sword Light Communication

Clang, clang, clang...

The six gray dots in Zhao Fu’s right eye quickly spun and countless eerie chains giving off terrifying power suddenly flew out and shot towards the man and woman on the bed.

This caused the expressions of the man and woman who had been lost in their pleasure to fall. They immediately tried to block, but it was too late. The countless chains bound the two people up, dangling them in the air.

At that moment, Zhao Fu slowly walked out from the side.

“It’s you!” Seeing Zhao Fu’s terrifying eyes, Xiao Changfeng immediately realized who Zhao Fu was. His expression became grim as he started to struggle. He had never thought that such a terrifying person would have snuck into their Sect.

Lin Yan’Er’s expression was quite unsightly, but she seemed much calmer and did not try to resist.

Zhao Fu looked at the struggling Xiao Changfeng and said with a cold expression, “It’s useless even if you call out; this place is already covered by a barrier. You’re going to do as I tell you to, or I’ll kill you right now.”

Xiao Changfeng could only stop struggling and ask, “What do you want me to do?”

Zhao Fu directly told them his goal, which was to have him draw over the Ancient Sword Sect’s elite disciples in groups. That way, Zhao Fu could send them into the Emperor Killing Sword World in batches. Zhao Fu was worried that things would go out of control if he sent in too many people at once, so he decided to do it in batches.

Zhao Fu planned to capture 300 people each time, which would allow him to complete his goal in three batches. This would decrease the likelihood of being discovered.

Hearing that Zhao Fu wanted to capture those sword geniuses, Xiao Changfeng immediately refused. Those people were all people who the Ancient Sword Sect valued, and all of them would be extraordinary in the future. They were the future of the Ancient Sword Sect, so if he harmed these people, he would be doomed too.

Zhao Fu’s gaze became cold. It seemed that Xiao Changfeng would only submit after some discipline.

“Emperor, I have a method to make them come!” Lin Yan’Er said in a coy voice.

This caused a look of disbelief to appear on Xiao Changfeng’s face, and he called out angrily, “Little sister Yan!”

Lin Yan’Er ignored Xiao Changfeng’s words. She was only with him because of his status and power, or else she would not choose to be with him.

She twisted and turned with her enticing body and looked at Zhao Fu flirtatiously as she said, “Emperor, it’s so uncomfortable like this, can you let me down first? I’ll tell you the method immediately.”

Hearing this, Zhao Fu let her down.

This caused Xiao Changfeng to feel extremely furious because this was a sort of betrayal towards him. He immediately said in a loud voice, “Lin Yan’Er, you slut, you dare to betray the Ancient Sword Sect? You’ll definitely be punished.”

Lin Yan’Er was also a bit angry as she turned to look at Xiao Changfeng and said, “Senior Apprentice Brother, whether or not you’ll be able to live to see tomorrow isn’t even certain; you don’t have to worry about me.”

Following this, she fully revealed her enticing body to Zhao Fu because she was not wearing anything, and she coyly smiled as she said, “Emperor, our Ancient Sword Sect has a special communication method called Sword Light Communication, which I can use. I just need some of my Senior Apprentice Brother’s aura in order to have those people come. However, after the matter is done, can you spare me?”

Zhao Fu did not directly agree because he was angry towards the whole Ancient Sword Sect, so he only said, “I will consider it.”

Lin Yan’Er felt quite startled but she still smiled and nodded. She sat at a table nearby and took out talisman papers with flying swords drawn on them from her spatial ring.

Following this, she grabbed at the air towards Xiao Changfeng, grabbing some of his aura. She then sent it into those talisman papers, which turned into rays of sword light and were about to shoot out.

However, Zhao Fu stopped her, because he did not trust this woman, and said, “I want to check these talisman papers.”

Lin Yan’Er’s expression did not change, and she flirtatious smiled as she handed the talisman papers to Zhao Fu. Zhao Fu checked them carefully, as he was afraid that they would summon the Ancient Sword Sect’s powerful experts.

This was the depths of the Ancient Sword Sect, and if Zhao Fu was found, it would be extremely difficult for him to escape. As such, he naturally had to be extremely careful.

Lin Yan’Er looked at Zhao Fu, who was carefully examining the talisman papers, and her hand silently moved towards Zhao Fu’s lower body and touched a certain place. She was quite surprised to find that it reacted towards her.

She did not hesitate and quickly squatted down and started to service him.

Xiao Changfeng's face went completely red and he felt as if he was going to explode. Seeing Lin Yan'Er, someone who he saw as his woman, serving another man in front of him, he cursed at her for being a slut and many other things.

Zhao Fu realized what was happening and frowned as he pushed her away.

Lin Yan'Er fell to the ground and had a lewd look as she said, "Emperor, let me serve you this once; look, you want me."

Zhao Fu felt somewhat angry and tossed some clothes at her and said, "Put on some clothes!"

Seeing that Zhao Fu was angry, Lin Yan'Er could only reluctantly put on the clothes. However, she rejoiced that she had preserved her life for now.

Swish, swish, swish...

Zhao Fu activated the talisman papers, which turned into rays of sword light and shot out into various places in the Sect.

Now that Xiao Changfeng was no longer useful to him, Zhao Fu waved his hand and a blood-red crack appeared. Countless chains dragged Xiao Changfeng into the Killing Sword Lake, and Xiao Changfeng continuously cursed at Zhao Fu before he was dragged in.

Lin Yan'Er was quite startled. Even though she did not know what Zhao Fu had done to Xiao Changfeng, it was evident that the outcome was not good.

Lin Yan'Er obediently sat at the table and did not dare to do anything. She could not help but lick her lips and think about Zhao Fu's taste.

By now, some of the Ancient Sword Sect disciples who were closer started to arrive. Even though they did not know why Xiao Changfeng had summoned them, with his status and power, they did not dare to not give him face.

As soon as those Ancient Sword Sect disciples arrived, countless eerie chains shot out and easily subdued them before dragging them into the Killing Sword Lake.

Lin Yan'Er watched on in shock from the side. She did not know why Zhao Fu wanted to capture so many Ancient Sword Sect disciples, and he was taking such a big risk. This was no ordinary revenge.

Soon, 300 or so people were dragged into the Killing Sword Lake. Zhao Fu had Lin Yan'Er send out another 300 talisman papers, drawing more people here.

These people were all sword geniuses, so after going through Sword Obsession they would become extremely powerful. The 100 original people who had gone into Sword Obsession were almost indestructible and virtually unkillable.

Even if their bodies became dust, they would slowly recover. In fact, even if they were completely obliterated, they would be revived within the Emperor Killing Sword World. That was how terrifying Sword Obsession was.

Chapter 1204: 600 Disciples

Soon, Zhao Fu had caught 600 or so people and had completed more than half of his goal. Zhao Fu wanted to capture more and even kill some, because in the end, 900 people was not a big deal to a Sect that controlled ten worlds.

Great Qin now had a population of more than 100 billion, so the Ancient Sword Sect, which had developed for much longer, would be much more shocking.

These disciples were the future of the Ancient Sword Sect. After the older generation passed away, the Ancient Sword Sect would be relying on them. Only by continuously having disciples with high aptitude could a Sect continuously grow stronger and not decline.

If Zhao Fu captured more and killed more, he would be able to weaken the Ancient Sword Sect's foundation to a certain extent. Perhaps this would be able to cause the Ancient Sword Sect to waste away.

Even though this was a good idea, it was not very realistic. Soon, Zhao Fu could sense a few powerful auras fly over. Fortunately, because of the Domain Pill, he had unlocked Perception, which greatly increased his senses towards danger.

Zhao Fu immediately grabbed Lin Yan'Er and left the Ancient Sword Sect.

Some time later, five or six Elders charged into this place. Sensing the remaining aura here, their expressions fell and immediately gave orders loudly to activate the Sect Formation and to search for anyone who had snuck in. Soon, they found that 600 or so disciples had vanished.

This infuriated the entire Ancient Sword Sect, and they were now able to confirm that this was done by Zhao Fu. Now, there were countless people in the Ancient Sword Sect trying to hunt him down. He had actually snuck into their Ancient Sword Sect and killed 600 of their elite disciples – how could they not be furious?

That person was simply too arrogant and daring, doing such a thing at a time like this. Countless people were incredibly shocked, and the Ancient Sword Sect became much more wary, no longer acting as relaxed.

The Ancient Sword Sect's Sect Master was angered to the point of roaring out loud, "We must destroy that brat in body and soul and use his head as an offering to the Ancient Sword Sect. From now on, the Ancient Sword Sect won't rest until that brat is dead!"

After hearing about this matter, countless people were incredibly shocked. That person had first captured the Ancient Sword Sect's Madam, and he had then snuck into the Ancient Sword Sect and killed 600 or so elite disciples. What gall!

It was the first time that someone had caused the Ancient Sword Sect to feel so humiliated and furious. Their hatred was now irreconcilable. This Emperor's reappearance had caused the entire inner region to go into chaos.

Most people had expected something like this to happen. After all, that person controlled the Killing Sword Intent and had three Emperor Stars; he was a shocking genius. Since he had been able to escape back then, he would definitely return for revenge, and now it was finally happening.

The Nether Yin Kingdom and Bear Mountain Kingdom could not help but become wary as well. They did not want to become a laughingstock like the Ancient Sword Sect.

At the same time, the three factions raised their bounties on Zhao Fu by more than ten times. They banned all connections to Zhao Fu, and they were determined to kill him. They could not allow him to continue living, or the danger would become even greater.

Countless people could not resist that massive temptation and started to look everywhere for Zhao Fu. They wanted to kill Zhao Fu and obtain that massive bounty.

Now, the inner regions of the Ancient Stem Domain became even more chaotic, all because of Zhao Fu.

By now, the sky had darkened and the world lapsed into a dark night with no stars or the moon. It was like a black cloth had covered the entire sky, causing everyone to feel a trace of fear.

Zhao Fu brought Lin Yan'Er back to that mountain cave. Zhao Fu did not dare to casually visit Cities, and he could only hide in the wilderness to avoid being discovered.

The cold-looking woman's face was quite red and she continuously twisted and turned her body as she moaned, and there was a pool of liquid beneath her.

Lin Yan'Er was somewhat shocked upon seeing the originally cold and arrogant Madam being treated like this. The scene was also quite alluring.

However, the current Ancient Sword Sect's Madam looked quite lewd and seemed like she needed a man to do her. She wondered if that Emperor had played with her yet; it seemed that she had already been ravaged by him.

Lin Yan'Er could not help but feel admiration. After tasting Zhao Fu, she wanted to do it with Zhao Fu, but the timing was bad. She had been doing it with Xiao Changfeng when Zhao Fu had arrived, so Zhao Fu would definitely mind that.

Of course, Lin Yan'Er did not lose hope because Zhao Fu's body had reacted towards her.

Zhao Fu had set restrictions in Lin Yan'Er's body, so he was not afraid of her running away. He then entered the Emperor Killing Sword World and looked at the people he had thrown into the Killing Sword Lake. There were 634 people in total, so he still needed 266 people.

Zhao Fu returned to the mountain cave and found that the two women were wrapped around each other and were giving off lewd moans. Zhao Fu was speechless as he separated them, and he suppressed the Six Desires Demonic Qi within the cold-looking woman.

The cold-looking woman gradually returned to her cold and distant self. Looking at Lin Yan'Er, who was holding on to her, she asked in shock, "Yan'Er, why are you here? Also, let go of me."

Lin Yan'Er smiled and let go of the cold-looking woman and said, "I saw that big sis Feixue looked like she was suffering, so I decided to help her out."

The cold-looking woman's face was flushed red, but looking at Zhao Fu standing by the side, she angrily cursed at him, "You lewd demon, I'll definitely kill you!"

Zhao Fu disdainfully harrumphed and said, "Do you want to go back to what you were like just then?"

The cold-looking woman, Ling Feixue, thought about that embarrassing scene from before and immediately gritted her teeth and held herself back from cursing at Zhao Fu more.

Zhao Fu took out some wood, set it alight, and started to roast a few wild rabbits. He had been busy in the past few days and had not had a good meal in a while, and he wanted to fill his stomach. He had not completed his goal yet and needed to think of other methods.

However, things would be more difficult from now on. The Ancient Sword Sect was extremely wary now, and trying anything would bring massive dangers. This caused Zhao Fu to sigh.

Ling Feixue once again asked why Lin Yan'Er was here and what had happened, and Lin Yan'Er briefly described what had just happened.

After hearing Lin Yan'Er's words and thinking about how many of the Ancient Sword Sect's elite disciples had fallen into Zhao Fu's hands, Ling Feixue asked angrily, "What did you do to the Ancient Sword Sect's disciples? And what happened to those five disciples from before?"

Zhao Fu looked at Ling Feixue and said coldly, "Of course I had them comprehend the peerless way of the sword. Do you want to see?"

Following this, Zhao Fu waved his hand and a figure appeared.

She had a graceful figure and beautiful face. She had refined bearings, but her eyes were both blood-red and there were fangs in her mouth. She held a blood-red sword and gave off an intense Killing Sword Intent, causing the entire mountain cave to become colder. She was one of the five people Zhao Fu had caught before.

After seeing this person, Ling Feixue and Lin Yan'Er could not help but cry out. That was the fifth-ranked woman in the Ancient Sword Sect, who most people would call Fifth Senior Apprentice Sister. However, she was like a different person, a puppet who only knew how to kill. She was filled with killing intent and gave off a chilling sword intent.

“Your goal is to turn all of those Ancient Sword Sects into monsters like this?” Ling Feixue was so angry that she teared up. Her relationship with this woman had been quite good, yet she had become like this.

Chapter 1205: Devil Domain

Zhao Fu coldly laughed as he replied, “That’s right! In the future, everyone from your Ancient Sword Sect will become like that and go into Sword Obsession, allowing the Emperor Killing Sword World to regain its former power. The Emperor Killing Sword World has the power to kill Celestials, and when that time comes, I will leave corpses throughout the entire Ancient Stem Domain without a blade of grass remaining.”

Lin Yan'Er and Ling Feixue were extremely shocked. They knew that Zhao Fu was the Killing Sword Master, and before, that Killing Sword Intent’s ripples had affected the surrounding hundreds of worlds, and they clearly knew how terrifying that power was.

However, they had never thought that it was a power that could kill Celestials, which were the peak existences in the world. Those high and mighty higher-beings were like trash in front of Celestials; this showed just how monstrous Celestials were.

And now, this person in front of them had grasped such terrifying power; it was only natural that they were dumbfounded. It would indeed be possible for him to make it so that corpses filled the Ancient Stem Domain.

Ling Feixue's face became pale; why did the Ancient Sword Sect offend such a terrifying person? It was possible that the Ancient Sword Sect would be destroyed at his hands.

Offending such a person for Gu Jian simply was not worth it.

“What do we have to do for you to let off the Ancient Sword Sect? We'll agree to anything. If you want my body, I can give it to you now,” Ling Feixue said in a low voice, thinking about the future of the Ancient Sword Sect.

Zhao Fu replied with a trace of a mocking tone, “Do you really think the enmity between the Ancient Sword Sect and myself is reconcilable? Also, do you think your body is enough to quell my anger and wash away the humiliation from that day?”

Ling Feixue looked at Zhao Fu and understood that this matter was irreconcilable. She lowered her head and did not say anything, a trace of sadness on her face.

Lin Yan'Er coyly smiled as she sat next to Zhao Fu, acting as if she was one of his people already. After all, a peerless genius like Zhao Fu would be able to give her amazing benefits that no one could imagine.

“Emperor, I want to eat some too!” Hearing this enchanting voice, Zhao Fu's expression was calm as he handed a cooked rabbit to her.

However, Lin Yan'Er flirtatiously laughed and reached her hand downwards, “Emperor, I want to eat this.”

Zhao Fu frowned and swatted away her hand.

Lin Yan'Er pouted, feeling slightly dissatisfied as she took the rabbit and started to nibble at it.

Zhao Fu also took a rabbit and finished it quickly, before looking over at Ling Feixue who was still dangling in the air.

As the Madam of the Ancient Sword Sect, she was quite important. Zhao Fu took a cooked rabbit and walked over to her, saying, "Here!"

Ling Feixue remained silent and turned her head away.

Zhao Fu felt slightly angry and said menacingly, "Do you want to experience that sensation again?"

Ling Feixue angrily glared at Zhao Fu as if she wanted to rip him apart.

Zhao Fu held out the rabbit in front of her, and Ling Feixue took a savage bite as if she was biting Zhao Fu's flesh.

Zhao Fu stood in front of her, unconsciously looking at her snowy white chest. Right now, she was not wearing anything.

Sensing Zhao Fu's gaze, Ling Feixue cursed in a low voice, "Lewd bandit!"

Zhao Fu did not mind and waved his hand, undoing the chains that bound Ling Feixue and he threw her a set of clothes before placing the cooked rabbit next to her.

Ling Feixue hurriedly put on the clothes and covered her body before sitting on the ground. She looked at Zhao Fu as she took ferocious bites out of the rabbit as if she was eating Zhao Fu.

Zhao Fu ignored Ling Feixue's gaze and thought about his plan. He still needed around 300 or so people, and he had not caused much loss to the Ancient Sword Sect. However, he had humiliated the Ancient Sword Sect and caused them to become furious, which alleviated some of his anger.

Now, there were countless people madly searching for him, and the Ancient Sword Sect had entered a defensive state. Zhao Fu did not have any good ideas and considered returning to Great Qin and ending this operation for now.

He would look for the remaining 300 people elsewhere, and after thinking about it, Zhao Fu decided to return to Great Qin. It was not suitable for him to remain in the inner regions of the Ancient Stem Domain, and if he was discovered, the consequences would be severe.

The next day, Zhao Fu took Ling Feixue and Lin Yan'Er and planned to return to Great Qin. Because the Emperor Killing Sword World contained Killing Sword Intent, anything that was put in there would be affected, so he would not casually throw people in.

Zhao Fu had set down restrictions in both of their bodies, so they were unable to escape and did not have their former power.

However, at that moment, a dragon-shaped medallion flashed with light, causing Zhao Fu to feel quite startled. He took out the medallion, and a curtain of light containing a few words appeared: "Emperor, where are you?"

This was a medallion that the Ten Thousand Dragon Financial Group had given Zhao Fu to contact him, and it had limited range. It was not possible to communicate across hundreds of worlds.

Seeing the message from the Ten Thousand Dragon Financial Group, Zhao Fu felt quite surprised. The Ten Thousand Dragon Financial Group had been heavily wounded and had moved to another Domain, so how were they able to contact him?

It was possible that this was a trap and it was someone else who had found a way to contact Zhao Fu and was pretending to be someone from the Ten Thousand Dragon Financial Group to trick him into revealing himself.

In the end, Zhao Fu decided to take a risk. The Ten Thousand Dragon Financial Group was in its current position because of him, and he felt quite guilty. Back when the Ten Thousand Dragon Financial Group had left, they had not contacted each other, and he wanted to know how they were.

Zhao Fu set a meeting place and allowed the other side to arrive first before he cautiously went over. That way, he could remain safe.

When Zhao Fu arrived and saw the person there, he did not feel worried. It was an elder with long black hair, the Vice-President of the Ten Thousand Dragon Financial Group. Zhao Fu knew this person quite well.

"Apologies, I've made great trouble for the Ten Thousand Dragon Financial Group," Zhao Fu said as he cupped his hands.

The Ten Thousand Dragon Financial Group's Vice-President gave a kind smile and said, "It's fate! Everything was within our expectations, and there's no need for you to blame yourself. Also, this is the reason I wanted to meet with you."

The Vice-President took out many spatial rings and gave them to Zhao Fu. Zhao Fu looked in them and saw that they were filled with Talisman Stones and high-Stage corpses. There were a multitude of them and they would last Great Qin a long time.

He had never thought that despite the Ten Thousand Dragon Financial Group falling into such a position, they would still prepare so many things for him. It was the first time he had felt so grateful towards a faction, and he felt quite moved.

After being offered so many things, Zhao Fu did not feel it was right to accept all of them, so he tried to refuse at first.

The Vice-President lightly laughed and said, "If you want to repay us, head to the Devil Domain in the Heaven Domain as soon as possible. Our Ten Thousand Dragon Financial Group's hopes rest on you, so please don't disappoint us."

Hearing this, Zhao Fu could not help but ask, "What's with the Ten Thousand Dragon Mark? Why must I head to the Devil Domain?"

The Vice-President laughed as he shook his head and did not answer. He then said his goodbyes before turning into a ray of light and disappearing over the horizon.

Chapter 1206: Sword Obsession

After returning to Great Qin, Zhao Fu handed the large number of Talisman Stones and corpses to his subordinates and had them mass-produce Talisman Arrows, Talisman Bolts, and Blood God Pills. At the same time, he ordered the eight Aquatic Beast Kings to herd all of the Fish Scale world's aquatic beasts together in preparation to conquer the Fish Scale world.

The massive number of Talisman Stones was an enormous support to Great Qin, and Zhao Fu felt that they now had the ability to conquer the Fish Scale world. This support was something that Great Qin had greatly needed.

However, whether it was producing Talisman Arrows and Bolts or the eight Aquatic Beast Kings herding aquatic beasts, this would all take time. As such, Zhao Fu turned his attention to the people in Sword Obsession; he still lacked around 300 people.

Zhao Fu ordered people to collect information on sword geniuses in the surrounding worlds, then had people from Eternal Night go and capture them. This was left to Ge Nia to take care of.

News of sword geniuses being captured quickly spread; something like this had happened in the past. However, the range had greatly increased, and some Sects now felt threatened, especially Sects that had sword geniuses.

Even though they did not know what faction had such abilities to daringly kidnap sword geniuses like this, they could only try to avoid them.

This undoubtedly made things more difficult for Great Qin. Great Qin could not just go and attack Sects, and thus, they could only increase the scope of their search.

At the same time, this naturally caused wide-spread panic. Sword geniuses did not dare to leave their Sects, and a terrifying, abnormal, and dangerous aura covered the surrounding ten or so worlds.

Some powerful factions wanted to find out just what kind of faction was behind this, but it was for nought. The kidnapers wore black cloaks and acted secretively, and they did not leave behind any clues.

The only thing that they were clear about was that the leader was extremely powerful in the way of the sword. The sword geniuses could only take a few moves from him.

This caused the various factions to feel even more curious. With someone so powerful in the way of the sword leading this faction, why were they kidnapping so many sword geniuses?

Ten or so days later, Great Qin finally caught enough people. Looking at the 900 people in the Killing Sword Lake, Zhao Fu grinned.

After these 900 people had gone into Sword Obsession, he would be able to put them to use and have them grow through slaughter. They would help the Emperor Killing Sword World grow and become more powerful, which would become Zhao Fu's greatest support.

During these ten or so days, Great Qin had continuously produced Talisman Arrows and Bolts in order to provide even more firepower.

The eight Aquatic Beast Kings had also started out from the edges of the Fish Scale world and herded together all of the aquatic beasts to unleash another aquatic beast tide. They would break through the Fish Scale world's final defenses and conquer the Fish Scale world.

The remaining people in the Fish Scale world could sense these changes, causing the atmosphere in the Fish Scale world to become quite oppressive. There was an aura of death and countless people started to despair.

The people in the remaining three Continents gathered together to discuss, and their expressions were all quite grim.

Yu Xuan was present at the meeting, and his expression was extremely unsightly. Before, he had the ability to fight with Great Qin's Legatee, but now he felt incredibly powerless. Had he become weaker? Even Tina Pendragon could stop him now.

If Great Qin's Legatee personally acted, he would not be a match for him at all; he clearly knew this. Right now, he and Great Qin's Legatee were on completely different levels.

Everyone now started to discuss the matter at hand.

"What should we do? At this rate, Great Qin is going to completely destroy the Fish Scale world. If we had known things would turn out like this, we wouldn't have signed that peace treaty with Great Qin and allowed them to unify the human world."

"That's right! Who would have thought that Great Qin would unify the human world so quickly and obtain such powerful strength. We should have risked everything to destroy Great Qin back then; if that were the case, we wouldn't be in this situation."

"The Fish Scale world might be doomed; the eight Aquatic Beast Kings is herding together all of the aquatic beasts for a final charge, and we only have three billion soldiers left; how can we stop them?"

“We can only increase our armies; even though not all soldiers will have Stage 1 strength, it’s better than nothing.”

“Now I really regret drawing those eight Aquatic Beast Kings into the human world. Not only did we not conquer the human world, but the eight Aquatic Beast Kings were also subdued by Great Qin and became its weapons to attack our Fish Scale world. If we had subdued the eight Aquatic Beast Kings, that would have been the best.”

“Ai! Now that things have come to this, there’s no use in regretting it. Hurry and tell the outside worlds to madly attack Great Qin and stall their forces; only then will we have a trace of hope. We can’t just sit here and wait to die.”

The meeting only concluded after half a day, and the countless faction leaders immediately went back to increasing their forces. They told everyone else about the dire circumstances; only by desperately defending would they avoid being destroyed.

Now that all of the factions were saying this, the ordinary Fish Scale people felt utter despair and did not feel any hope at all.

The three Continents went into full defensive mode and continuously reinforced their defenses while increasing their forces. Most of the people’s militia that they recruited had about Stage 0-7 to 0-8 Cultivation, and there were about 1.2 billion of them, which somewhat increased the three Continents’ defenses.

The news from the Fish Scale world caused the outside worlds to feel quite startled; if Great Qin conquered the Fish Scale world, Great Qin would control two worlds. Great Qin’s strength would greatly rise, and their situation would become even more dire.

They did not hesitate to come to an agreement. They could not allow Great Qin to conquer the Fish Scale world, and they had to stop them.

The three worlds continued to gather their forces and prepared to tie down Great Qin’s army, making it impossible for Great Qin to attack the Fish Scale world.

The Devil Horn Empire’s Yao Ming now felt a massive threat from Great Qin. His premonition had been correct – Great Qin was the Devil Horn Empire’s greatest enemy, and now he regretted not attacking Great Qin earlier.

The Dark Demon world also received this news, and they gathered their forces and prepared to attack Great Qin. They could not allow Great Qin to conquer the Fish Scale world, or else all of the surrounding worlds would be doomed.

The movements of the surrounding worlds caused a massive austere aura to gather. The air became much heavier, and the surrounding worlds felt that another large battle was coming, and they paid great attention to this.

At the same time, Zhao Fu heard about this and his expression became quite serious, as this could not be taken lightly. Zhao Fu also felt a large amount of pressure.

However, Great Qin had to attack the Fish Scale world; after conquering the Fish Scale world, Great Qin would occupy two worlds. After some development, Great Qin would no longer fear the outside worlds and would be able to conquer them one by one.

Chapter 1207: Golden Dragon Tail

Zhao Fu ordered everyone in Great Qin to prepare fully to avoid anything unexpected. This time, they had to conquer the Fish Scale world.

Within the Fish Scale world's largest Continent, a few people giving off powerful auras were currently discussing in a hidden location.

“The Fish Scale world's about to be conquered by Great Qin; what should we do? There's nowhere to run.”

“We should submit to Great Qin together! They give special treatment to those who surrender, and we won't be made Criminals.”

“I also think that surrendering would be best for now. Resisting is pointless, and I don't want to die.”

“Should we just surrender like this? I feel that if we just submit, we’ll keep our lives, but we won’t be valued by Great Qin. If we bring some gifts, we might be rewarded by Great Qin and be valued, allowing us to live good lives.”

Hearing this, the others smiled and nodded in agreement; that was the kind of life they wanted.

Another person asked, “What sort of gift should we send? I feel that there isn’t anything worth sending. Our factions don’t have many people and Great Qin won’t value anything that we give.”

Everyone sank into their thoughts, wondering what gifts they could give Great Qin. It would be best to give something that would give Great Qin a pleasant surprise.

One of the people gave a mysterious smile and whispered something to the people next to him, causing them to feel quite impressed.

Within a hidden but elegant courtyard, a young boy with a golden toy was playing with a rubber ball.

There was a beautiful middle-aged woman with a voluptuous figure and a kind and motherly aura sitting by the side watching him happily play. She could not help but smile, looking quite enchanting.

Suddenly, the sound of fighting could be heard, startling the woman and the boy. Following this, some people covered in blood rushed in and cried out, “Madam, Second Young Master, hurry and leave! Some people have discovered this place and want to capture you!”

Hearing this, the woman’s expression fell, and she immediately grabbed the boy’s hand and prepared to escape. However, at that moment, a few powerful auras descended.

“Madam, Second Young Master, hurry and leave!” bloodied people blocked in front of them and shouted.

The woman looked at those people in gratitude and picked up the boy and ran. Seeing this scene, the boy looked quite afraid.

The people giving off powerful auras coldly laughed and sent out powerful attacks, instantly killing the bloodied people before shooting towards the woman and boy.

The woman and boy had descent strength, but they were not a match for those people. They were quickly injured and taken away.

Within the Great Qin Palace, Zhao Fu was reading through imperial documents when a guard came to report something, causing Zhao Fu to feel pleasantly surprised. He nodded and granted an audience to those outside.

A few Fish Scale experts anxiously came in and respectfully called out, “We greet Great Qin’s Majesty!”

Zhao Fu smiled and nodded, saying, “Rise! You’ve performed well; Great Qin will reward you handsomely.”

Hearing this, those people felt at ease and quickly thanked Zhao Fu.

Zhao Fu gave out some rewards and had them leave for now, before a woman and boy were brought in.

“Mum, he’s a bad person! Last time he tried to kill me!” Seeing Zhao Fu, the boy hurriedly hid behind the woman.

After being brought here, the woman understood who this handsome young man was. Her voice was slightly cold as she said, “Great Qin’s Majesty, don’t you think this is too underhanded of you? I hope you can let us go back.”

Zhao Fu could not help but lightly laugh as he said, “Do you really think that’s possible? You two are the most useful things to threaten Yu Xuan with. With you, perhaps Great Qin will be able to easily obtain a Continent.”

The woman was Yu Xuan’s mother and the boy was Yu Xuan’s little brother. Zhao Fu had never thought that the Fish Scale people who had come to surrender would bring such good gifts; this gave Great Qin even more confidence in conquering the Fish Scale world.

The woman coldly replied, "I won't let you threaten Xuan'Er. If you want to kill me, just kill me, but please let Ling'Er go. He's just a child."

The Ling'Er she referred to was most likely the boy behind her. Zhao Fu had been quite interested in this boy's special ability, and he looked at the boy.

This caused the boy to feel even more afraid, and he hid behind the woman, not daring to reveal himself. He grabbed his mother's hand and trembled; to him, Zhao Fu was the most wicked and terrifying person in the world.

The golden dragon looked at this boy and said, "This boy most likely has a Thousand World Constitution and can easily travel to various worlds. He also has a powerful barrier-breaking ability, which is quite rare even in the Heaven Awaken World."

Hearing this, Zhao Fu ordered people to take the boy away for now.

The woman immediately hugged the boy and said in a sharp voice, "What are you going to do to my Ling'Er?"

Zhao Fu lightly laughed as he said, "Don't worry, We won't hurt him, but We don't like those who resist. There are things that We want to talk with you individually."

The woman's expression was quite unsightly, but after thinking about it, she comforted the boy and had him go with the people taking him away.

The boy looked at his mother anxiously but still left.

Zhao Fu said courteously, "The Fish Scale world has no hope, and Yu Xuan's strength is not bad. If you can convince him to submit to Great Qin, Great Qin definitely will not mistreat him. You and that boy Yu Ling will also be greatly nurtured by Great Qin. I hope you can consider this."

The woman's name was Yu Qingshui shook her head and said, "I won't have Xuan'Er submit to you. He is the Fish Scale world's World Protector, and he should be protecting the Fish Scale world, not betraying it."

Hearing this, a trace of a cold look appeared in Zhao Fu's eyes as he said menacingly, "Are you sure? Our patience is limited."

Yu Qingshui resolutely nodded. To have such an outstanding son like Yu Xuan was her biggest pride, and it would be worth it even if she died.

Seeing her resolute gaze, Zhao Fu coldly harrumphed and said, "Looks like you won't know what's good for you until you receive some discipline!"

Clang! Clang!

The sounds of chains could be heard as two chains shot out from the air and wrapped around Yu Qingshui's hands, pulling her into the air.

Yu Qingshui's expression fell as she coldly called out, "What are you going to do?"

Zhao Fu did not reply and six black orbs of demonic qi appeared in his hand. Zhao Fu pressed his hand against Yu Qingshui, causing the Six Desires Demonic Qi to flow into her body.

Yu Qingshui immediately felt her body heat up, and her breathing started to become heavy. She desperately wanted to do it with a man and found that Zhao Fu had done something to her. She cursed at Zhao Fu, "You scoundrel!"

Zhao Fu ignored her and returned to his throne and continued to read through the imperial documents. Soon, Yu Qingshui had caved in and continuously twisted her body as she moaned.

Chapter 1208: Great Qin's Aura

Zhao Fu did not mind. After Yu Qingshui suffered enough, she would willingly submit. After a while, Zhao Fu looked at Yu Qingshui and saw that her traditional dress was already soaked through because of her sweat.

However, the most soaked part was the lower part of her dress. The liquid was dripping off her and a large part of the ground was now wet.

Zhao Fu could not help but feel shocked; was this a feature of women from the Water Race?

Seeing that Yu Qingshui did not seem to be able to take it anymore, Zhao Fu walked over and suppressed the Six Desires Demonic Qi within her body, causing her to regain her sanity.

“Have you thought about it carefully?”

Hearing Zhao Fu’s words, Yu Qingshui cursed loudly in anger and humiliation, “Right now I just want to kill you, you bastard. Die!!”

Zhao Fu coldly laughed and tore open Yu Qingshui’s drenched clothing, revealing her voluptuous body. Zhao Fu stretched out a hand and hugged her, while Yu Qingshui vigorously resisted.

Zhao Fu’s hands started to move about, and after kissing her, he said evilly, “I’ll give you one last chance. As long as you convince Yu Xuan to submit, We definitely will not harm you all. However, if you don’t agree, We will taste your body in front of your son and have him see how lewd his mother is.

“After I conquer the Fish Scale world, We will also do the same in front of Yu Xuan and continuously torment him. We will also have everyone you know watch you do this.”

Yu Qingshui gnashed her teeth as tears appeared in her eyes. She furiously glared at Zhao Fu, wanting to rip him to shreds.

“Don’t! I... I agree.” Seeing that Zhao Fu was serious, Yu Qingshui could only sob and agree.

Zhao Fu coldly harrumphed and had guards bring Yu Ling in. He undid the chains, and because of the torment from earlier, Yu Qingshui powerlessly collapsed to the ground and continuously sobbed.

Zhao Fu looked at her pitiful state and calmly took out some clothes and gave them to her.

Yu Qingshui received the clothes and stopped crying as she put them on and coldly stood up.

Looking at her, Zhao Fu frowned and said in an imposing manner, “We don’t like to see you like this; smile for Us.”

Yu Qingshui was furious but quelled her anger and forced out a trace of a smile.

Zhao Fu lightly laughed and said in satisfaction, “Don’t worry, as long as you convince Yu Xuan to submit, We will treat you all well and won’t harm any of you. You should be clear that the Fish Scale world cannot stop Great Qin.”

Yu Qingshui was currently thinking about this and understood that what Zhao Fu said was true. For her two sons, she decided to give in. She did not care too much for herself.

“Mum, are you alright?”

A while later, the doors opened and Yu Ling ran in and slipped on a puddle of water, almost falling over. Yu Qingshui’s face was red as she hugged Yu Ling and left the palace.

Following this, Zhao Fu gathered his subordinates together and told them about this matter, making them feel quite joyful. With Yu Qingshui’s help, they naturally had more confidence to conquer the Fish Scale world. However, this method was somewhat underhanded.

Following this, they continued to prepare to attack the Fish Scale world.

Three days later, before Great Qin was able to attack, the other worlds took the initiative to ferociously attack Great Qin.

Great Qin immediately went to meet them in battle. Zhao Fu led people and headed to the Eastern Archipelagos. Because of Yao Ming, Zhao Fu had to go to face him. As for the attack of the Fish Scale world, Zhao Fu left that to Tina Pendragon and Wang Jian. Zhao Fu felt quite confident in the two of them.

There was not much to be said between the two sides. They immediately started fighting, and the massive allied army swept towards the Great Wall like an incredible flood.

Countless devil beasts roared, shaking the heavens as they also charged. Apart from this, the three worlds’ large-scale creatures also exploded out with powerful auras, which swept out like a gale.

Zhao Fu looked at the allied army and gave a cold smile as he shouted, “Fire!”

Swish, swish, swish...

White rays of light gave off extremely sharp auras as they tore through the sky, drawing out traces in the air. The massive rain of arrows caused countless people to feel terror.

Chi, chi, chi...

Countless arrows descended and countless soldiers' bodies were torn into pieces, causing blood to fly everywhere. In just an instant, the allied army suffered a heavy loss.

It was not just the soldiers; countless devil beasts' bodies were torn apart by the rays of light. Ten or so rays of light could rip apart a 100 meter long devil beast's body. Blood sprayed out and fell like rain, creating a horrific scene.

This caused the allied army to be greatly dismayed. They had seen this attack from Great Qin before, but in the past, they had only been able to use it once or twice.

However, the number of arrows this time was three or four times more than before. Moreover, the bolts shot at the devil beasts were shot out by massive ballistae and were many times more powerful than ordinary arrows. Even the devil beasts with powerful bodies could not withstand them.

Those ballistae were the modified Dragon-Slaying Ballistae. Most of them were made from Gold grade materials, and even though they were weaker than true Dragon-Slaying Ballistae, their numbers made up for their reduced power.

Swish, swish, swish...

As the allied army revelled in shock, Great Qin once again shot out countless Talisman Arrows and Bolts. They tore through the sky, and their sharp auras caused countless people to sense the aura of death.

“They still have more? What’s going on?” The Commanders of the allied army immediately gave the order to stop advancing. Yao Ming’s expression was quite unsightly as he also ordered the devil beast army to stop because they had lost many devil beasts just then.

The battlefield was immediately suppressed by Great Qin. This was the might of the Talisman Arrows and bolts; however, to create an effect like this, they had expended countless Talisman Arrows and Bolts.

Just like that, they had used a bit more than half of the Talisman Stones that the Vice-President had given them. Even though Zhao Fu felt an ache in his heart, he felt that it was worth it to achieve his goal.

Over at the Dark Demon world, the Dark Demon people were also suppressed by Great Qin’s Talisman Arrows and Bolts and were forced to stop attacking.

Over at the most important Fish Scale world, the eight Aquatic Beast Kings had herded together four million aquatic beasts, which split into two armies to attack two Continents.

Each army had one billion soldiers supporting as well. These soldiers were drawn from the main forces, and the purpose was to forcefully conquer the Fish Scale world without anything going wrong, making it so that the Fish Scale world could not resist at all.

Tina Pendragon was responsible for attacking the largest Continent at the center of the Fish Scale world. She had 1.5 billion soldiers as well as 500,000 Devils.

An extremely bloodthirsty and austere aura filled the heavens and earth, and a catastrophic atmosphere descended. This was Great Qin’s aura.

Chapter 1209: Live and Die with the Fish Scale World

The eight Aquatic Beast Kings herded countless aquatic beasts, giving off an aura that seemed to be able to sweep away the heavens as they rushed at the two Continents. Great Qin’s soldiers loudly roared as they followed behind the aquatic beasts, charging towards the Fish Scale Continents.

Swish, swish, swish...

Countless spears containing terrifying power shot out, piercing through aquatic beasts' bodies and resulting in many injuries and casualties.

Bang! Bang! Bang...

Explosions sounded out as the Fish Scale people blew up unknown things that created shockwaves, blowing up aquatic beasts or blasting them back.

The Fish Scale people desperately retaliated, using all of their strength and all of their methods. They knew clearly that if they did not go all-out, the entire Fish Scale world would be doomed.

Boom!

Even though their attacks caused many injuries and casualties to the aquatic beasts, there was a shocking number of aquatic beasts. They had unstoppable momentum as they slammed against the defensive walls, causing the defensive walls to immediately fall apart, and the countless aquatic beasts charged in.

The countless Fish Scale people blocking ahead were slammed to death by the countless aquatic beasts or trampled to death. Blood filled the water around them, and corpses could be seen everywhere.

“Kill!” Great Qin’s soldiers following behind the aquatic beast army and roared as they swung their weapons, directly clashing with the Fish Scale people. An intense battle soon unfolded.

A Great Qin soldier slashed with his saber, sending out a sharp saber light that chopped two Fish Scale people in half.

A Great Qin soldier vigorously stabbed with his spear, piercing into the chest of a Fish Scale person. He then sent more power into the spear, causing the spearhead to pierce the rough the back of that Fish Scale person, ending his life.

A Great Qin soldier swung his sword, chopping off a Fish Scale person’s arm. That Fish Scale person retreated in pain, but he was soon killed by the Great Qin soldier.

It was very evident that Great Qin had a great advantage, and they continuously killed the Fish Scale people. It was mainly because of the aquatic beasts' onslaught, or else Great Qin's soldiers would not have been able to kill these Fish Scale people so easily.

The situation in the two Continents quickly deteriorated, and Great Qin entered and started to conquer the regions.

Wang Jian led an army and blocked off the final resisting army within a valley. There were about one million soldiers.

Seeing that they were doomed to die, the Fish Scale people yelled, "Live and die with the Fish Scale world!" before charging at Great Qin's army.

"Kill! Kill! Kill..." The scene of one million Fish Scale people doing a death charge was a shocking scene, and their aura shook their surroundings, causing the heavens and earth to seem to dim.

Wang Jian's gaze was cold as he raised his hand and sharply lowered it.

Chi, chi, chi...

Countless Archers who had been waiting shot out arrows, which pierced into the charging Fish Scale people's bodies. Blood shot everywhere, causing the Fish Scale people to fall, but more Fish Scale people rushed up.

The roars of the Fish Scale people and the sounds of arrows was like a solemn elegy. This was the day that the Fish Scale people perished.

There were corpses all over the ground, and in the end, 700,000 or so of the Fish Scale people were shot to death, and the remaining 200,000 or so decided to surrender.

At the same time, Great Qin prepared to attack the central Continent.

"Xuan'Er! Just surrender! It's over for the Fish Scale world," Yu Qingshui brought Yu Ling as she sighed and said to Yu Xuan.

Yu Xuan felt quite troubled. He had heard that his mother and little brother had been captured by Great Qin, and he had felt quite worried and angry. However, he had never thought that his mother would come to try to convince him to surrender. He had wanted to protect the Fish Scale world to the death.

All of the leaders of the various factions looked to Yu Xuan. He was the World Protector of the Fish Scale world, and his decision would affect the entire Fish Scale world.

If he chose to surrender, none of the others would have any hope and could only surrender with him. If he chose to fight, they would have a trace of hope and courage and would fight against Great Qin till the end.

By now, news of the two other Continents being conquered had reached both sides. Great Qin's people all had big smiles, while the Fish Scale world's people's faces were all pale, and they felt weak. They understood that the Fish Scale world was beyond hope.

Now, the Fish Scale world only had a single world remaining. The result was already confirmed, and they were powerless to change it.

Some Fish Scale people had already surrendered, as it was over for the Fish Scale world. They did not want to meaninglessly resist and be killed in the end.

With some people starting to surrender, more and more people started to surrender.

Yu Qingshui started to worry. Now that many people were surrendering, Yu Xuan was not as important. When that time came, it was possible that Great Qin's vicious Legatee would give the order to kill Yu Xuan and Yu Ling.

"Xuan'Er, the Fish Scale world has already lost. Mum's begging you, just surrender!" Yu Qingshui said with a pleading tone; she did not want her sons to die.

Yu Xuan felt an ache within his heart, but he still hesitated. After all, there was enmity between him and Zhao Fu; would Great Qin's Legatee really let him and his family off?

In the end, Yu Xuan said to Tina Pendragon, "I know about you and trust your character. If I surrender, I hope you can guarantee the safety of my mother and little brother."

Tina Pendragon felt quite startled, and after thinking about it, she prepared to speak.

However, Yu Qingshui spoke first, “Xuan’Er, don’t worry, the Emperor already promised me that as long as you submit to Great Qin, he will forget everything in the past and that Great Qin will greatly nurture you and Ling’Er.”

As she said those words, Yu Qingshui could not help but think about the scene of Zhao Fu toying with her and kissing her. She felt both angry and embarrassed, and she could not help but blush.

Yu Xuan did not notice this, and after thinking about it, he sighed and said, “I surrender! I’m willing to serve Great Qin.”

Seeing that the World Protector was surrendering, no one else dared to hesitate and also followed in suit. In the end, Great Qin did not expend a single soldier to obtain the final Continent.

Following this, Great Qin took over the final three Continents and fully conquered each of the regions. System announcements sounded out in all of the Fish Scale people’s heads, causing them to look somewhat sad and melancholic.

The Fish Scale world had fallen on this day. There would no longer be a Fish Scale world, only the Great Qin Empire. They were now all subjects of Great Qin.

However, Zhao Fu did not completely conquer the Fish Scale world, leaving 100 or so regions.

After all, if he fully conquered the Fish Scale world, the Fish Scale world would be unified, and the Heaven Domain Boundary would soon disappear. The Fish Scale world would then be exposed to the rest of the Heaven Awaken World.

Zhao Fu wanted to use the Heaven Domain Boundary as a protection for as long as possible, turning the Fish Scale world into Great Qin’s backyard and personal property. No one would be able to enter, and they would not have to worry about being attacked. That was why Zhao Fu did not fully conquer the Fish Scale world.

Chapter 1210: Fish Eye

News of Great Qin conquering the Fish Scale world quickly spread and the battle concluded. The other worlds had wanted to tie Great Qin down and prevent it from conquering the Fish Scale world, but Great Qin had still done it in the end.

Everyone else's expressions were quite unsightly and they could only retreat. There was no longer any reason to fight and make unnecessary sacrifices.

The other worlds that had been just spectating felt quite shocked; Great Qin had been able to withstand such immense pressure and conquer a world. In the surrounding 100 or so worlds, Great Qin was the first faction to control two worlds.

Now, everyone was unanimous in listing Great Qin as the greatest threat, and they became much more wary towards Great Qin.

After hearing about this, Zhao Fu felt quite happy. Seeing the other worlds retreat, Great Qin also withdrew its troops.

After returning to Great Qin, Zhao Fu sat on his throne and looked at the countless Fish Scale people kneeling below. The person at the lead was naturally Yu Xuan.

Zhao Fu gave a trace of a smile as he said, "You may all rise!"

Yu Xuan and the other Fish Scale people inwardly let out a sigh of relief; it looked like Zhao Fu would not punish them, or else he would not allow them to rise so easily. They all cried out, "We thank His Majesty for his grace!"

Zhao Fu's gaze fell onto Yu Xuan and the Fish Scale Legatees. Back then, they had some enmity with Great Qin, but as long as they were willing to submit and serve Great Qin, Zhao Fu was willing to forgive them.

Thinking about how brazen and arrogant the Fish Scale world had been in invading the human world and how they were now prostrated at his feet, Zhao Fu could not help but feel quite grand. The world was waiting for him to conquer it, and everything under the heavens would one day belong to Great Qin.

“Li Si!” Zhao Fu called out and had him read out imperial edicts, conferring rewards and titles on the Fish Scale people. Right now, the most important thing was to calm the common people in the Fish Scale people to avoid any chaos.

The Fish Scale people were pleasantly surprised and went up to receive their rewards. They had never thought that Great Qin would treat them so well; not only did Great Qin not punish them, but it had also given them great benefits. They no longer felt worried anymore.

“Your Majesty, this is the Fish Scale race’s Clan Armament, please receive it!” Yu Xuan lowered his head and lifted up a fish eye with both hands as he spoke respectfully.

That fish eye was blue and was as big as a fist, and its pupil looked like a gemstone. It was extremely beautiful and gave off a faint blue light as well as a powerful aura of water.

The Fish Scale world had already been taken over by Great Qin, and because the Fish Scale race was now part of Great Qin, they could not keep their Clan Armament and had to hand it over to Great Qin.

Zhao Fu smiled as he grabbed at the air, pulling the Clan Armament to him. Because he had so many Nation Armaments, he did not care much for them, but Clan Armaments were extremely rare. Clan Armaments could increase the strength of Great Qin’s various bloodlines, which was something that Nation Armaments could not do.

Moreover, the Fish Scale world only had a single Clan Armament, unlike the human world, which had four, so the boost to bloodlines was much greater.

After accepting this fish eye, Zhao Fu rewarded those who had made great contributions from Great Qin and concluded this matter.

Next was an internal meeting, and only those in important positions could attend. Li Si started to report Great Qin’s gains this time.

They had obtained 50,000 Cities in total and 35 billion people. This included 1.2 billion Stage 1 soldiers as well as six Kingdoms. There were countless other resources like gold coins and the remaining 600,000 aquatic beasts had been sent into the Four Soul Devil World.

Zhao Fu gave a satisfied smile. Great Qin now had a total population of 150 billion people and had 240,000 Cities.

The main thing was that they had obtained 50,000 Cities, which could provide another 50,000 beasts for Great Qin. Adding on the aquatic beasts that became Devils, Great Qin now had the strength to defend against an invasion from a few worlds and did not have to worry anymore.

Following this, 600,000 or so Fish Scale women were brought over. They all had high-grade bloodlines and had a large amount of Phoenix Qi. They were able to provide the Emperor Phoenix Statue with a large amount of Phoenix Qi and cause it to continue to grow.

The final matter was governance in the Fish Scale world from now on. It was a Water Race world, and Zhao Fu planned to use it as the foundation for a powerful navy. In the future, when they faced other Water Races, they would not be at such a disadvantage.

After dealing with these matters, Zhao Fu started to refine the Fish Scale world's Clan Armament.

Boom!

A massive explosion sounded out, causing the heavens and earth to dim and clouds to swirl. A massive blue fish appeared in the sky, giving off an enormous might, and countless Fish Scale people's bloodlines started to roil.

The blue fish in the sky was extremely beautiful and had small, delicate scales. It had a pair of sapphire-like eyes and elegantly swam in the sky.

Countless black traces of Great Qin's Fate started to enter the blue fish, causing it to go through great changes.

The blue fish gradually became black, but its blue eyes remained the same. Its aura was much more powerful than before, and it now had a trace of nobility and domineeringness.

Blue light fell from the sky, covering the two worlds. Everyone felt their bloodlines roil as a formless energy entered them.

Countless Fish Scale people felt a powerful energy of killing and conquering enter their bloodlines. Now, they truly belonged to Great Qin, and this was a historical moment. Great Qin's other subjects also received benefits as well.

Boom!

Another explosion sounded out as golden Phoenix Qi flooded into the Emperor Phoenix Statue, causing it to transform into a massive golden phoenix that danced in the sky, causing countless golden motes of light to fall down.

The ripples that the Emperor Phoenix Statue now gave off were massive, and its power surpassed that of an ordinary Clan Armament. It now had the Phoenix Qi of two worlds, causing its ripples to naturally be quite terrifying.

At the same time, countless women received many benefits. They became younger, their constitutions became better, and they also became slightly stronger.

The Dragon Phoenix within Zhao Fu's body also quickly absorbed the Emperor Phoenix Statue's power. Zhao Fu was pleasantly surprised to find that the power of Emperor Killer had become slightly weaker; it seemed that a large amount of Phoenix Qi could reduce the power of Emperor Killer.

Zhao Fu also found that Great Qin's Fate had become much stronger. However, because the Fish Scale world still had 100 or so regions, Great Qin did not completely obtain the Fate of the Fish Scale world.

However, with such a massive amount of Fate entering Great Qin, Zhao Fu's three Emperor Stars became slightly more alive and did not seem as deathly. They started to gradually recover, but they still needed a long time.

This also affected Emperor Killer to some degree. Its power had been greatly reduced, and the weaker it became, the longer Zhao Fu would be able to live. Now, Zhao Fu had full confidence to get rid of Emperor Killer.
