

The Lord 1541

Chapter 1541: Wind God

Given that the second Wind God Empire was waiting to catch anyone who escaped, they could either submit or carve out a path of blood. Right now, no faction would mercifully take them in apart from Great Qin.

The second Wind God Empire was incredibly cold and killed without thinking or any hesitation, and they did not place them in their eyes at all.

Many of the second Wind God Empire's soldiers came from the inner regions of the Ancient Stem Domain, so they naturally looked down on the people from the outer regions. The Wind Spirit World's soldiers were affected by this kind of attitude and were also a bit arrogant.

Now, the Fishmen people only had Great Qin to fall back on, so they all tried to escape to Great Qin.

“Wife, take our child and run. If you can make it close to Great Qin, you'll be safe. As the most powerful faction in the region, it can face even the Kingdoms from the inner regions. It will definitely save you.”

The strongest Fishman, the blue-haired big man, looked at a dignified woman with long, blue hair.

The woman looked quite reluctant and wanted to refuse so that they could live and die together, but looking at the five year old girl in her arms, who was continuously trembling in fear, she could only steel herself and nod.

The blue-haired big man breathed out and looked at the golden-haired woman and the gentle-looking woman and said, “I will try to tie down the second Wind God Empire; as for my wife and daughter, I leave them to you.”

All of the men decided to stay and hold back the second Wind God Empire to allow the women, children, and elderly to escape. Otherwise, they would not be able to run at all.

The golden-haired woman was now the most powerful of the women and had the highest status, and she was responsible for taking everyone away.

She nodded seriously and replied, "Don't worry, I will definitely protect your wife and daughter, and I won't neglect them in the future."

Of the three Princesses who had gone to Great Qin, one of them was the golden-haired woman's daughter, and one was the gentle-looking woman's daughter.

As for the final one, she was leaning in the embrace of a handsome-looking young man; she already had someone she loved.

"Darling, you have to take care; I'll be waiting for you in Great Qin," she said as she looked at the young man lovingly.

The young man said somewhat worriedly, "In actuality, I don't want you to go to Great Qin because I'm afraid that Great Qin's Emperor will want you. I'm afraid that even if I can make it to Great Qin, I'll lose you. However, if I die, I want you to have a good home."

The woman looked quite moved and hot tears streamed down her face as she tightly hugged the young man, "Darling, I'll definitely protect my body so you can enjoy it when you come back; I won't give it to Great Qin's Emperor."

The beautiful middle-aged woman who had gone to Great Qin smiled and said, "Don't worry, I've seen Great Qin's Emperor personally. He has extraordinary bearings and is incredibly domineering, and he is not someone ordinary Kings can compare to. Also, he did not seem very interested in us, and he did not seem as licentious as the rumors made him out to be."

This allowed everyone who was feeling worried to let out sighs of relief.

A chubby man happily said to a beautiful-looking woman, "Xiao Lan, you must wait for me in Great Qin; your body is mine, and you can't let anyone else touch you."

The beautiful-looking woman rolled her eyes as she said, "Do you think I'm that kind of person? If you say that kind of thing, I'm going to get angry."

The chubby man hurriedly apologized.

A beautiful and motherly-looking woman said seriously, "Lil bro, you have to be careful of your safety. We've relied on each other since we were young, and I don't want to be separated from you and see you fall into such great danger."

The refined-looking young man hurriedly replied, "Big sis, hurry up and leave with them; I don't want anything to happen to you. You're the most important person to me, and if you die, I don't want to live either. I'll only feel at ease if you're safe."

The woman looked quite worried and felt quite uncomfortable as she replied, "Alright, I'll do that. You have to stay alive though."

The refined-looking young man smiled and nodded seriously.

A fierce-looking young man held a bewitching woman as he said, "After you go to Great Qin, you have to serve Great Qin's Emperor well. He'll definitely like a little slut like you."

The bewitching woman pouted as she said, "Everyone else is telling their women not to let others touch them, and yet you're telling me to serve someone else; do you not love me? How come I chose a man like you?"

The fierce-looking young man laughed as he said, "Great Qin's Emperor is the most powerful ruler in this area, and he will definitely treat you well. I just want you to live well."

The bewitching woman thought about the luxurious and lavish lifestyle in the Great Qin palace and agreed.

An elegant young man smiled as he said to a cold-looking woman, "If I can make it to Great Qin, will you marry me and be my wife?"

The cold-looking woman slightly blushed and she lightly nodded. Both of them liked each other but no one had taken that step, and under such pressure, both sides took that final step.

"Be careful, I don't want to be a widow," the cold-looking woman said softly in concern.

The elegant young man said seriously with a resolute look, “No matter what happens, I’ll definitely go to Great Qin to marry you.”

The cold-looking woman felt a wave of warmth in her heart, and she lightly leaned against the man while the man lightly hugged her. There was an incredibly romantic atmosphere around them, making others watch on in admiration.

Whoosh!

A massive wind blew and countless trees started to sway as the blue-haired big man’s expression fell and he yelled, “All of the elderly, children, and women, hurry up and leave; the second Wind God Empire’s people have nearly arrived. Men, we have to stall them for as long as possible for our loved ones!”

The men all looked incredibly serious as they roared. For their loved ones, they had to stop the second Wind God Empire.

Countless people formed a defensive line while the women, children, and elderly quickly left. With the men stalling for them, they did not dare to stay back and make trouble for them.

Boom!

A massive aura flooded out as an enormous army dressed in green armor and giving off a Wind attribute aura appeared in front of everyone.

Chapter 1542: Great Qin Army

A tall and slender woman wearing green clothes with a beautiful appearance and heroic demeanor appeared in the sky. She gave off massive Wind attribute power; this was Feng Shensha.

“Attack!” Feng Shensha’s voice was quite calm, not placing these people in her eyes at all. She wanted to quickly suppress these people so that they could reap the greatest benefits.

The Wind God army charged forwards with unstoppable momentum towards the Fishmen's defensive formation, easily breaking through. The two sides started to clash, but most of the casualties were on the Fishmen side.

The Fishmen valiantly fought and killed their enemies because they were fighting for their loved ones.

The blue-haired big man held his saber and unleashed his Nation Armament as he slashed out, sending out an immense sword light that contained terrifying power and slashed apart over 10,000 Wind Spirit soldiers.

This caught Feng Shensha's attention, and she coldly laughed as she turned into a ray of light and shot out. She also used her Nation Armament and slashed out with her sword.

Boom!

A green sword light accompanied by a massive storm slashed towards the blue-haired big man, giving him a big fright. He hurriedly blocked with his saber, but the sword light was too powerful and he was unable to block it with his strength.

Bang!

A massive sound rang out as the blue-haired big man's saber shattered and he was struck by the sword light. His body split in the middle, and blood and organs splattered onto the ground.

Following this, the Fishmen were easily suppressed. Many of them died, while the survivors fled towards Great Qin. The Wind God army did not want to spare them and ferociously gave chase.

Seeing the Wind God army chasing after them, the golden-haired woman's expression became quite unsightly. She had never expected that they would catch up so quickly; this meant that the men who were responsible for stopping them were either dead or suppressed.

What should they do now? The golden-haired woman felt incredibly anxious, and seeing the Wind God army draw closer and closer, they would be caught up sooner or later. If that happened, they would either die or be captured by the Wind God Empire.

If the Devil Horn Empire or Wind God Empire were willing to treat them well, in the face of death, they would be willing to submit. However, they did not treat those who surrendered with mercy at all.

Moreover, now that the Devil Horn Empire had killed so many of them, as had the Wind God Empire, they felt great enmity towards the both of them and would not surrender to either.

Seeing the second wind God Empire draw closer and closer, everyone fell into despair. At that moment, a massive aura dressed in black and giving off a Darkness aura appeared. The countless Fishmen felt incredibly delighted; it was Great Qin – they were saved.

After hearing about the Fishman World being attacked, Zhao Fu had quickly led Great Qin's soldiers here.

The Fishmen people ran towards Great Qin's army gratefully, while the Wind God army behind them stopped.

Feng Shensha gave a trace of a smile as she looked at Zhao Fu, who was also standing in the air, and said, "I've long since heard of your name; now that I've seen you, you're indeed quite extraordinary."

Zhao Fu calmly replied, "You're not too bad either; your development speed was many times faster than Great Qin's."

Feng Shensha lightly laughed as she said, "That's the power of an inner region Royal Kingdom; are you jealous? If you submit to me, I can make you my Imperial Consort and let go of all previous grievances. How does that sound?"

Zhao Fu replied somewhat arrogantly, "What's so great about an inner region Royal Kingdom? It still lost at my hands. If you're willing to submit to me, I'll give you lots of love and show you what true pleasure is."

Feng Shensha's gaze became cold as she said mockingly, "If it wasn't for the Wind God Empire being careless and the other Royal Kingdoms joining in, do you really think that a small outskirts Kingdom like yours would still exist?"

“Also, those who have spoken to me like that are either dead or have become my little male dogs. I’ll definitely conquer you and make you my cutest little male dog.”

Zhao Fu loudly laughed and said discourteously, “I also want to conquer you and watch you pant underneath me as my female slave.”

“You’re seeking death!” Feng Shensha coldly yelled as she exploded out with a powerful aura that sent out a green gale as she attacked Zhao Fu.

Zhao Fu did not show any weakness and exploded out with his own powerful aura as he went to meet Feng Shensha in battle.

Boom! Boom! Boom...

The two of them started to clash in the sky, unleashing wild gales, and their terrifying auras caused others to fall into terror.

After exchanging ten or so blows, they distanced themselves from each other.

Feng Shensha’s expression was quite grave; she had never thought that a mere Heaven Realm cultivator like Zhao Fu would have such terrifying power. She felt that he might be a bit too much for her to deal with, and she realized that she had underestimated Great Qin’s Emperor.

Zhao Fu gave a self-confident smile. Now that he had so many terrifying powers and his Nation Armament, he did not fear anyone.

This place was relatively close to Great Qin, and more and more reinforcements from Great Qin were arriving. Feng Shensha thought about it and decided that these people were not worth fighting over, as the second Wind God Empire’s losses would exceed their gains.

“Great Qin’s Emperor, you need to develop well or else when the Wind God Empire attacks or when the second Wind God Empire becomes powerful, that will be the day you die. I’m looking forward to you becoming a little male dog under my feet.”

After coldly laughing and leaving behind a few words, Feng Shensha retreated with the Wind God army and did not attack anymore; there was no need for them to have a large battle.

The Fishmen people were completely relieved and smiled, having a new lease on life.

“We greet Your Majesty!” The golden-haired woman’s hair and clothes were somewhat disorderly because of the escape, and she came before Zhao Fu and paid her respects.

Zhao Fu smiled and looked at the golden-haired woman and nodded. He then looked at the Fishmen people, who consisted mainly of women, children, and elderly. The majority of them were women, and there were about 200 to 300 million in total.

A world normally had 40 billion or so people, and only 200 or 300 million had escaped to Great Qin. The rest had either died or had been captured by the Devil Horn Empire and second Wind God Empire.

However, it seemed like the prettiest Fishmen women had escaped to Great Qin.

At that moment, a blue-haired and dignified woman bowed to Zhao Fu before pleading, saying, “Your Majesty, it’s possible that my husband was captured by them, and perhaps he escaped. Please send people to have a look; I want to know if he is safe or not.”

The other women also spoke as well because they had relied on their men stopping the Wind God Empire for them to escape here. Moreover, many of those men were their most important people.

Chapter 1543: Hatred

Zhao Fu smiled and nodded as he said, “You can rest at ease, I’ll send people to take care of this. You’ve been running for a while and should go to Great Qin to rest.”

The Fishmen people all happily nodded; they could only leave this to Great Qin.

Zhao Fu’s gaze fell on the golden-haired woman and he said, “Come with me!”

The golden-haired woman's face became a bit red, not understanding why Zhao Fu seemed to be interested in her. However, standing by his side and smelling his scent, her body, which had not been touched by a man for many years, started to react.

After returning to Great Qin, the soldiers Zhao Fu sent out brought back a large number of corpses; these all belonged to the Fishmen people who had been killed by the Wind God Empire.

The second Wind God Empire only took the valuables from these corpses and were not interested in the corpses themselves, and they threw them to the side. This allowed Great Qin's soldiers to bring them back.

The blue-haired big man, the fierce-looking man, and the chubby man were all within the corpses, and seeing their loved ones' corpses, the Fishmen people who had survived started to weep.

The bewitching-looking woman and the flirtatious-looking woman leapt into Zhao Fu's embrace and wept as she said, "Your Majesty, our men are all dead; in the future, we can only rely on you."

As they spoke, they used their mature and fiery bodies to rub against Zhao Fu's body. Their tears were simply part of their act, and their faces were red as they looked at Zhao Fu lustfully.

Before they had left for Great Qin, they wanted to leave their men, and now that their men had died, things were easier for them.

However, the other women were truly broken-hearted and wept in grief.

Zhao Fu did not bother them and brought those two women away, and he also looked at the golden-haired woman, the gentle-looking woman, the elegant-looking woman, and the two beautiful Princesses. Their faces became red, and they knew what Zhao Fu meant.

Following this, they came with Zhao Fu to a room, where intense sounds continuously sounded out.

Aa while later, Zhao Fu was doing it with the golden-haired woman when a voice sounded out from outside, "Your Majesty, are you done? We want to see you."

Zhao Fu frowned and felt quite displeased; he did not like being interrupted at times like this. However, the golden-haired woman said, “Your Majesty, they all just lost many loved ones; please be good to them. We’ll properly serve you more later.”

By now, the golden-haired woman had grown a golden fish tail again, and the other women’s legs had also turned back into fish tails. They were unable to maintain their human legs for long and could only continue doing it with Zhao Fu in their true forms.

Hearing this, Zhao Fu smiled and put on some clothes and let the people outside come in.

Seeing the erotic scene within, the faces of the women who had come in from outside became somewhat red. Zhao Fu was sitting on the bed while the women on the bed were all panting raggedly with reddened faces, and all of them were undressed. They naturally knew what had happened.

The elegant-looking woman had been saying how Great Qin’s Emperor was not as licentious as the rumors said, but right after they had escaped to Great Qin, Great Qin’s Emperor had started using their bodies.

Moreover, the elegant-looking woman was the first to be taken by him.

Zhao Fu looked at the puffy, red eyes of the women who had just entered and asked, “What is it? Why have you come to find Us?”

The blue-haired, dignified woman stepped out and said earnestly, “Your Majesty, please take revenge for our husbands!”

Zhao Fu looked at them and lightly smiled as he said, “Whether it’s the second Wind God Empire or the Devil Horn Empire, they are enemies of Great Qin. Don’t worry, I will definitely take revenge for you all.”

Hearing this, the women looked a bit happier and were no longer as sad.

Some of the women stepped forwards and asked, “Your Majesty, can you save our loved ones who were captured?”

This was quite difficult because of how many people were captured; it would be almost impossible unless they completely destroyed the second Wind God Empire.

Zhao Fu smiled and replied, “We will do Our best!”

Hearing this, the women’s hearts sank and their expressions became slightly unsightly. Zhao Fu was evidently just pacifying them, but they understood how difficult this matter was.

The women thought about it and took the initiative to take off their clothes. They did not have anything to attract Zhao Fu with, so they could only use their bodies.

The gentle-looking mother pleaded, “Your Majesty, we can’t expect you to save everyone, but please save our relatives and our bodies will be yours; we’ll serve you wholeheartedly from now on.”

Zhao Fu thought about it; it was just rescuing the relatives of four people, it should not be a big deal; sending a few members of Eternal Night should be enough. As such, Zhao Fu smiled and agreed as he walked towards those women.

The wife of the Fishman World’s strongest expert and the other women who had just wanted Zhao Fu to take revenge wanted to say goodbye and not interfere with Zhao Fu enjoying himself.

However, Zhao Fu smiled and brought them into his embrace and started to do it with them. More and more women were called over, and hearing the intense sounds from within the room, they knew what was going on.

However, they still went in, not only to ask Zhao Fu to take revenge for their deceased loved ones or to ask him to rescue their captured loved ones, but also to enjoy the pleasure of doing it with Zhao Fu because they heard how mad and lewd the women inside were.

Zhao Fu enjoyed the bodies of innumerable Fishmen women on that day, and he especially liked the mature women and the mothers.

“Arghhh...” Pained cries sounded out as four young men howled in pain on the ground as they continuously struggled. Their eyes opened wide and they foamed at the mouth, feeling as if their minds were going to collapse.

They were the cold-looking young man, the refined-looking young man, the elegant-looking young man, and the handsome-looking young man. They were within a hall and Feng Shensha sat with her legs crossed on the throne as she gave a calm smile and looked at the four men.

She was holding dog leashes in her hand, and next to her was a golden-haired young man squatting there like a dog. A certain part of his body had been cut off, without a trace of it remaining.

Seeing that it was about time, Feng Shensha gave a happy smile and stretched out her foot which wore a crystal shoe. The four young men hurriedly ran over and stretched out their tongues and madly licked that foot.

She had trained another four male dogs and Feng Shensha felt quite pleased. She put four collars attached to leashes around the four young men's necks, and she led the five male dogs out of the hall and had people cut off certain parts of the four young men's bodies.

Chapter 1544: Ocean Goddess

Within the room, Zhao Fu smiled as he hugged the golden-haired woman and the blue-haired woman. Their faces were red as they lay strengthlessly in Zhao Fu's embrace and panted.

The blue-haired woman said angrily, "Your Majesty, could you not have waited a few days to have my body? My man just died, and I feel quite guilty towards him."

Thinking about that, the blue-haired woman started to tear up and looked quite pitiful.

Zhao Fu smiled and hugged her as he said softly, "Alright, I'll take care of all of you in the future. Didn't you like what we were doing just then and asked me to do you more? You completely forgot all of those unhappy things."

The blue-haired woman's face became red. "That was because Your Majesty was too powerful!"

Following this, the blue-haired woman thought of something and took out two items from her spatial ring. She said, "These two things are for you. Your Majesty, you must take revenge for my husband."

One of the items was a deep-blue colored crystal that was as long as a finger. It gave off a faint blue light and was extremely beautiful. The second item was a statue made out of coral and was about 15 centimeters tall, and it was the likeness of a woman with a seductive figure.

Zhao Fu took these two items and had a look. The first was a Fishman Stone, which was a treasure with powerful water attributes that their world had created. Zhao Fu had been looking for such items because it could help him awaken an Emperor Star.

The statue was a statue of an Ocean Goddess, which was also quite useful to Great Qin. Great Qin lacked godly spirits, and it was always in need of more.

These things would both be of great help to the Great Qin, and Zhao Fu gratefully kissed the blue-haired woman. The blue-haired woman was somewhat shy and hugged Zhao Fu's body.

Following this, Zhao Fu got up and left, and he ordered people to build a temporary imperial residence in the Fish Scale World for the various women to live in. He also made them Concubines, providing more Phoenix Qi for the Emperor Phoenix Statue.

As Zhao Fu ordered people to build a temple for the Ocean Goddess, he started to fuse the Fishman Stone into his body.

Because Zhao Fu had a powerful Divine Bloodline as well as the Eight Forbidden Blood Art, fusing other things into his body became much easier.

The Fishman Stone gave off an intense light, and under Zhao Fu's control, it gradually fused into his body. Watery light spilled out as a powerful water attribute power gathered, and the image of a mermaid appeared in front of Zhao Fu.

After this mermaid image appeared, it flowed into Zhao Fu's body, causing Zhao Fu to erupt with an intense water attribute power, and the crystal completely fused into Zhao Fu's body.

After sensing the powerful water attribute power coming from his body, Zhao Fu lightly laughed and returned to Great Qin to manage administrative affairs.

Now that the Fishman World had been conquered, the Devil Horn Empire also had seven worlds. It was likely that the second Wind God Empire would act soon, and the situation was quite tense.

Great Qin's main task right now was to clear out the Glass World and start to attack the next world.

An imperial document was delivered to Zhao Fu, and it came from the Underworld. Zhao Fu had You Qin and the other women develop their faction well – they were the wives of the Nether Ghost City's old City Lord, and they had been saved and taken in by Zhao Fu.

Before, Zhao Fu had caused massive waves in the Underworld, and in order to keep a low profile, he did not develop too much there and left everything to You Qin and the other women, and he also sent Li Wen and some soldiers there to assist them.

Li Wen was the son of the Li Village's Village Chief, and he had now grown into a mighty General. He was Great Qin's first Undead General, and his attributes were quite suited to the Underworld.

This imperial document came from Li Wen, and Zhao Fu opened it and started to read. The Nether Ghost City, which was You Qin's faction, was developing very quickly, and it had unified the dozens of factions around it and could threaten the large faction in the area.

The large faction gave the Nether Ghost City two options: either submit or be killed.

This faction was one of the three biggest factions in the surroundings, and it had the strength of a Marquisate Kingdom. It had two billion Yin Soldiers and the two other factions also had this strength.

The three of them had stably ruled over this area, but the Nether Ghost City had been developing too quickly, making them feel quite displeased. As such, the nearest faction had started to threaten the Nether Ghost City.

Zhao Fu thought about it and decided that most of the danger had passed, so Great Qin could consider developing in the Underworld. No one knew that the Nether Ghost City belonged to Great Qin, and they would be able to secretly develop their forces there, which might be useful during key moments. Following this, Zhao Fu gathered his subordinates to discuss.

In the Underworld, a fat, ugly man led a group of people into the Nether Ghost City. The people in the surroundings made way and no one dared to stand in his way.

This man was the Gui Ye Kingdom's Fourth Prince, and that was the faction that was threatening the Nether Ghost City. They had sent their Fourth Prince to visit, hoping to have the Nether Ghost City surrender. Otherwise, the Gui Ye Kingdom would destroy the Nether Ghost City; they would not allow it to continue to develop.

By now, the Nether Ghost City had devoured countless factions, big and small, and its population was in the billions.

It was now a great threat, so the Gui Ye Kingdom decided to deal with it. If they could take in a faction like this, they would gain great benefits.

With the backing of the Gui Ye Kingdom, the Fourth Prince did not place anyone in his eyes. He came to the City Hall and said, "Where's your leader? Tell them to hurry up and see This Prince, or else the Gui Ye Kingdom will destroy you."

You Qin and the other women led out a group of people from the City Hall with serious expressions.

The current Nether Ghost City definitely did not have the strength to fight the Gui Ye Kingdom; the difference in the numbers of its soldiers was almost 20 fold. Moreover, its foundation was not very solid, and they could only put their hope in Zhao Fu.

Seeing the beautiful women walk out, the Fourth Prince could not help but gulp. These beautiful women were all extremely exquisite, and after receiving love from Zhao Fu, they seemed even more alluring and intoxicating.

"Beauties, if you serve me for a night, I promise to go back and speak well on your behalf and have my Imperial Father treat you better. You can also make some requests," the Fourth Prince said as he lewdly looked at You Qin and the other women.

You Qin felt quite angry but did not dare to do anything because she had not received any news from Zhao Fu yet. If they opposed the Gui Ye Kingdom, the Gui Ye Kingdom could send soldiers and immediately destroy them.

You Qin could only say coldly, "Fourth Prince, we already have a man; please show some more respect. Even though our Nether Ghost City is weak, it is not something that can be easily bullied."

The Fourth Prince replied condescendingly, “Do you think you’re a match for the Gui Ye Kingdom? Don’t seek your own death. Also, I’ve never heard about you having a man before; also, even if you do, This Prince will screw you beauties in front of him.”

Chapter 1545: Gui Ye Kingdom

The fiery-figured Yan Yan felt furious and wanted to directly act and teach this Fourth Prince a lesson, but You Qin stretched out a hand and stopped her, telling her to calm herself down. With the current situation, they could not afford to have a direct confrontation with the Gui Ye Kingdom.

Yan Yan asked angrily, “Are we just going to let him continue bullying us?”

You Qin said gently, “No matter what it is, we need to wait for our husband’s orders. Don’t worry, with his personality, he won’t allow us to continue getting bullied.”

Hearing this, Yan Yan lightly harrumphed and was no longer as angry.

The Fourth Prince could tell that Yan Yan had just wanted to attack him and teach him a lesson, and he said loudly, “It’s best that you behave, as if the Gui Ye Kingdom attacks, you’ll all be dead.”

A middle-aged man next to him exploded out with a Heaven Realm aura, shaking everyone present.

The powerful aura caused the people in the surroundings to look at the Fourth Prince with fear, who raised his head and enjoyed these gazes.

Suddenly a light laugh sounded out as a cloaked figure walked over from the side. Seeing that person, You Qin immediately happily leapt into his embrace.

The Fourth Prince felt quite displeased as he had taken a fancy to these women. Moreover, they had treated him incredibly coldly, while they showed no regard for any dignity at all as they leapt into that person’s embrace. The Fourth Prince said coldly, “You have angered me, and it’s best to pacify me or else I’ll immediately return to the Gui Ye Kingdom and have you all die a horrible death.”

Yan Yan happily hugged Zhao Fu and said, “My good husband, this person was bullying us, and he wanted us to serve him.”

Hearing this, Zhao Fu lightly laughed as he hugged her and looked at the Fourth Prince.

Facing Zhao Fu’s terrifying gaze, the Fourth Prince felt a trace of coldness in his heart, as well as a sense of fear. The person next to him said, “Your Majesty, that person is incredibly powerful; we should leave for now.”

The Fourth Prince greatly feared Zhao Fu and he nodded as he said, “Let’s leave then!”

Zhao Fu laughed as he said, “You think you can just leave after bullying my women?”

The Fourth Prince knew that Zhao Fu was terrifying, but he still mustered up the courage to say threateningly, “I am the Fourth Prince of the Gui Ye Kingdom; if you dare to do anything to me, the Gui Ye Kingdom will not let you all off.”

Zhao Fu did not care and casually waved his hand, sending out a formless energy.

The Fourth Prince and his group were sent flying and everyone was sent flying back and coughed up a large mouthful of blood. Zhao Fu held back against the Fourth Prince – he was only injured after being sent flying back, and his expression became incredibly unsightly.

He understood how terrifying Zhao Fu’s power was; people with such power definitely came from the inner regions of the Ancient Stem Domain.

Zhao Fu gave some orders to the people with him and had the Fourth Prince taken down.

Yan Yan smiled and felt much better, and she said, “Husband, let’s quickly go to our room! I want to properly serve you.”

You Qin leaned against Zhao Fu. Now that Zhao Fu had come to the Underworld, she did not have to worry about anything. She lightly smiled as she said, “Husband, you haven’t come to the Underworld in a long time; you need to properly take care of us.”

Zhao Fu smiled as he hugged them and brought them to a room. The five women were incredibly lewd under him and continuously begged him for more.

Afterwards, Zhao Fu hugged You Qin as he asked about the situation in the Nether Ghost City and the three other factions.

You Qin lay in Zhao Fu's embrace and introduced the three large factions in detail. She could sense what Zhao Fu was thinking and asked in shock, "Husband, don't tell me that you want to destroy those three factions."

You Qin did not know Zhao Fu's true identity, and she only knew that he was not from the Underworld. It was very likely that he had a powerful faction.

Zhao Fu smiled as he admitted, "That's right, I want to destroy the three factions together and unify this region. This region is about equivalent to a world, and I want you to be the Queen!"

You Qin kissed Zhao Fu in delight. The position of Queen was something that she would not dream to have back when she was the City Lord's wife. Moreover, without Zhao Fu, she would not have such accomplishments.

Liu Yeye looked at Zhao Fu in infatuation as she said, "Dear, in actuality I'm not interested in being a Queen; I just want to be loved by you every day."

Yan Yan happily laughed as she said, "I want to be a Queen and also want to receive love from husband. Also, just think about it husband; wouldn't it feel great to have five Queens serve you and lay panting under you?"

Zhao Fu laughed and lightly nodded before saying, "Let's start acting then! I've brought many people this time."

The women smiled and got up and put on their clothes.

The Gui Ye Kingdom received news that their Fourth Prince had been captured and that his bodyguards had all been killed. The Gui Ye Kingdom was infuriated and directly sent out 1.5 billion Yin Soldiers and its most talented General, Gui Xun, to attack the Nether Ghost City.

The Nether Ghost City only had 100 million soldiers, while the Gui Ye Kingdom had sent out 1.5 billion soldiers, which was 15 times their numbers. Moreover, they had Gui Xun, so destroying the Nether Ghost City would not be a problem at all.

Zhao Fu long since heard about this and mobilized ten billion soldiers to lie in ambush. The Gui Ye Kingdom could not possibly know that their forces were not merely 100 million but ten billion.

Gui Xun led the army forward, giving off immense killing intent. As they headed towards a relatively flat area, his hairs stood on end and he immediately sensed immense danger. However, the surroundings seemed deathly silent and there was not a trace of movement.

By now, Gui Xun could sense that there was an ambush here, and he loudly ordered, “All soldiers, stay alert!”

However, by now, they had entered Great Qin’s trap. Seeing that they had been discovered, Zhao Fu did not bother hiding anymore and had the army reveal themselves.

Soldiers dressed in black armor with cold expressions appeared, and there were countless of them. An aura of killing and conquering that had been tempered through countless battles flooded out towards the Gui Ye Kingdom’s soldiers, causing them to fall into terror.

What was going on? The Gui Ye Kingdom’s soldiers clumped together and stared at Great Qin’s soldiers surrounding them in shock, unable to comprehend what was happening.

Weren’t they going to attack the Nether Ghost City? How were they suddenly surrounded by so many elite soldiers?

Zhao Fu stood in the air and looked down at the Gui Ye Kingdom’s soldiers. His gaze fell on Gui Xun and he spoke with a mighty and overbearing voice, “You’re not bad. If you’re willing to submit to me, not only will I not kill you, but I will also put you in an important position.”

Chapter 1546: Underworld

Gui Xun coldly replied, “Apologies, I have no plans to submit to anyone else. Also, who are you? Why have you surrounded us with a large army; I don’t believe the Gui Ye Kingdom has any enmity with a faction like yours.”

Zhao Fu lightly laughed and said, “Think about why you’ve come!”

Gui Xun felt quite shocked; he had suspected that this army might be related to the Nether Ghost City, but he could not believe it. How could the Nether Ghost City suddenly gain ten billion or so soldiers?

Zhao Fu did not say anything else and gave the order to attack.

Swish, swish, swish...

Arrows made from Outer World materials gave off ferocious power as they shot towards the Gui Ye Kingdom’s army. They incredibly dense and filled the sky, and under this arrow rain, countless people’s hairs stood on end.

The Gui Ye soldiers roared and gathered in formation. Countless Gui Ye soldiers quickly reacted and got into position and exploded out with aura, forming a massive grey energy barrier that covered them.

Bang! Bang! Bang...

The arrows slamming into the barrier caused massive sounds, and countless arrows were deflected. However, the materials that the arrows were made from were from the Outer World and dealt a lot of damage to things from the Heaven Awaken World. Adding on their numbers, the energy barrier started to violently tremble.

All of the Gui Ye soldiers felt a chill in their hearts; they knew just how long they would be able to stop the arrows for. Seeing this, Gui Xun hurriedly gave the order to try to find a direction to break out of the encirclement from.

Swish, swish, swish...

Even more ferocious arrows tore through the air and descended towards the barrier like rain.

The barrier violently trembled and countless cracks started to spread out, and it seemed like it would break soon. By now, all of the Gui Ye soldiers felt quite terrified and started to charge out, wanting to charge out of the encirclement at all costs.

However, at that moment, more powerful auras spread out as 100 meter tall men giving off intense holy light and 1,000 meter long Wyverns appeared.

Boom! Boom! Boom...

They shot out beams of light that contained terrifying power, and they traveled incredibly quickly. They blasted through the air and slammed into the barrier.

Bang!

A massive sound rang out as the enormous barrier was blasted apart and turned into pieces as it fell apart.

Swish, swish, swish...

Countless arrows containing terrifying power once again arced through the air and gave off sharp auras as they shot towards the Gui Ye soldiers.

Chi, chi, chi...

This time, the Gui Ye soldiers were unable to resist anymore. As the massive arrow rain descended, countless people were hit and blood sprayed everywhere. Cries sounded out and many people died in just an instant.

However, the Gui Ye soldiers still madly ran out in one direction because if they did not break out from the encirclement, they would all die here.

However, enormous flower-like monsters gave off immense auras and blocked in front of them. There were not many of them, only 10,000 or so, which should be quite easy to break through.

However, things did not go as the Gui Ye soldiers thought. The massive flower-like monsters' flower buds gradually bloomed and pollen spread out, covering a large area.

Cavalrymen riding on black horses held spears as they sped forwards and charged into the Gui Ye army, stabbing out with their spears. Great Qin's soldiers holding sabers continuously slashed out, cutting down the Gui Ye soldiers. Great Qin's Archers continuously shot out arrows, hitting Gui Ye soldiers.

Seeing that they could not escape, the Gui Ye soldiers started to retaliate and started to clash with Great Qin's soldiers. The battle was incredibly intense, and General Gui Xun joined the battle as well.

The outcome was just as expected – the Gui Ye soldiers were completely annihilated and not a single one was able to escape. They were either killed or captured by Great Qin.

Of the 1.5 billion Gui Ye soldiers, 900 million had died and 600 million had been captured. Zhao Fu also kept Gui Xun alive and did not kill him for now.

Zhao Fu looked at Gui Xun and lightly laughed as he said, "I want you to watch how the Gui Ye Kingdom you're loyal to will be destroyed, and I'll let you see a new Kingdom rise up."

Gui Xun remained silent. He had brought two-thirds of the Gui Ye Kingdom's soldiers, but now they had been completely destroyed. The Gui Ye Kingdom only had 500 million soldiers left; how could they defend against ten billion soldiers?

This time, they had not destroyed their target and had instead been the ones to be destroyed. Thinking about the Gui Ye Kingdom's end, Gui Xun could not help but feel quite sorrowful.

After clearing out the battlefield, Zhao Fu led the army towards the Gui Ye Kingdom.

By now, the Gui Ye Kingdom still had not realized that it was in danger of being destroyed. The Gui Ye Kingdom's King and Ministers did not pay much mind to the matter, and they were confident that this expedition would definitely succeed. They were currently discussing matters concerning what to do after devouring the Nether Ghost City.

They were mainly worried about what the two other factions would do afterwards, and if they would make a move against the Gui Ye Kingdom.

The Gui Ye Kingdom's King was a cold and cruel-looking middle-aged man dressed in gray dragon robes. He was quite ambitious and had always wanted to destroy the two other factions and unify this region and have it become an even stronger Kingdom.

However, it was a pity that he did not have the strength to do so. After destroying Nether Ghost City, it still would not be enough, unless the two other factions engaged in a big battle and he took advantage of that and destroyed them both. He could not think of any other methods.

Suddenly, a soldier rushed into the meeting hall and hurriedly reported, "Your Majesty, there are a large number of unknown soldiers marching towards our Kingdom and have already broken through our defensive lines. Please give us orders, Your Majesty."

This sudden news caused the King and the Ministers' hearts to sink, and their expressions became quite unsightly. After all, the news was not that soldiers were simply on their way but that their defensive lines had already been broken and that they were heading for the capital.

"Hurry and retrieve the army heading to the Nether Ghost City!" the King did not hesitate and immediately gave the order.

The soldier obeyed and turned to leave.

The King then gave an order to investigate what faction was attacking the Gui Ye Kingdom. He knew the two other large factions nearby and did not understand where such a powerful faction had jumped out from.

Soon, another soldier rushed in and reported, "Your Majesty, the army of 1.5 billion soldiers that we sent out has been annihilated. Moreover, that army is completely unstoppable and will soon arrive at the capital. Please leave, Your Majesty."

Chapter 1547: King

Hearing this, the King and the Ministers felt as if they had taken a massive blow, and they felt that they could not stand steadily. To them, hearing this was like the sky was falling down; they did not even understand what was happening – how come their Kingdom was going to be destroyed just like this?

The Ministers all said, “Your Majesty, quickly take people and leave. The Gui Ye Kingdom is finished, but there is still a chance of restoration in the future.”

The King slightly hesitated but after thinking about it, he nodded and said, “Alright, then all Ministers leave with me. In the future, we will rebuild the Gui Ye Kingdom.”

The Ministers responded in unison, “Yes, Your Majesty!”

Boom!

Just as they spoke, a massive explosion sounded out as a powerful aura blasted out like a tsunami. Sensing this aura, countless people felt as if they had fallen into icy water, and their bodies uncontrollably trembled.

“Kill!” A massive roar sounded out as the sounds of battle could be heard, and everything fell into chaos.

The King and Ministers’ faces became pale. They had never thought that the enemy would be so fast and reach the palace already. If they did not run, they would definitely die.

“Do you think you can run?” A voice sounded out in the sky – it was Zhao Fu. He was the one who had released the massive aura from before.

The King and Ministers understood that it was this person who had led soldiers to attack them.

“Who are you? The Gui Ye Kingdom doesn’t seem to have offended you before,” the King said with a furious expression. He felt extremely hateful towards the person who had destroyed his Kingdom.

Zhao Fu lightly laughed and did not bother explaining. By now, Meng Tian had led the army and charged into the palace, and they surrounded the King and Ministers.

“Hurry and run, Your Majesty!” the Ministers exploded out with powerful auras as they shouted and charged at Great Qin’s soldiers.

Zhao Fu disdainfully laughed and stretched out a hand, forming a massive formless hand. It swept out, hitting the Ministers and knocking them away. A trace of blood leaked out of the King's mouth, and he roared as he unleashed his Nation Armament's power.

He did not try to fight Zhao Fu and instead tried to run away; he knew that he was not a match for Zhao Fu.

Shing!

Zhao Fu slashed out and an extremely sharp sword light flew out, splitting the King in half, causing the two halves of his corpse and blood to fall to the ground.

"Your Majesty!" some of the Ministers who had not fallen unconscious cried out, and some even cried.

Following this, they were taken down by Great Qin's soldiers and gathered with everyone else to wait for how Zhao Fu would deal with them.

Zhao Fu gave a slight smile as he sat on the throne and looked down at the Minister and Generals below.

Right now, they all looked furious or afraid as they gazed at Zhao Fu sitting on the throne. It was this person who had destroyed their Gui Ye Kingdom so easily. Only now did they find out that it was ten billion soldiers who had attacked them.

This made them feel shocked; there was not such a large faction around them, and those soldiers were from all kinds of races: the Human Race, Devil Race, Outlanders, etc.

The only thing they were sure of was that this faction was not from the Underworld and came from elsewhere.

"Your Kingdom has perished, and I will establish a new Kingdom. If you are willing to submit to me, your statuses will not change. However, if you decide to stubbornly resist, I will wipe out your entire clan."

Hearing this, many of the Ministers angrily cursed at Zhao Fu. Zhao Fu did not bother replying and had these Ministers and their families dragged out, and all of them were beheaded regardless of if they were male or female, old or young.

The families of some particularly stubborn people who had cursed at Zhao Fu the most had their skin peeled off before being hung on the City Walls, and they gave terrifying howls.

After all of this was done, Zhao Fu's gaze once again fell on the Ministers and Generals' bodies. The Ministers and Generals immediately chose to surrender and kneeled on the ground as they kowtowed. Even if they did not care about themselves, they had to think about their families.

Seeing this, Zhao Fu gave a pleased smile before looking at Gui Xun and said, "You're someone who I see great potential in. I'll give you one last chance: submit or die."

Gui Xun looked at his family and sighed as he said, "I'm willing to submit!"

Zhao Fu nodded and had soldiers take these people away. He then asked Meng Tian, "How is the situation with the Gui Ye Kingdom's commoners?"

Meng Tian replied seriously, "Your Majesty, all those who have resisted have been killed without exception. The commoners of the various Cities have all been suppressed, and no one dares to resist. We have taken control of all of the Gui Ye Kingdom's territory."

Zhao Fu smiled, nodded, and had him go reward the army and allow them to rest so that they could carry out orders later.

Zhao Fu came to the Gui Ye Kingdom's Concubines' chambers and saw dozens of women. They all looked at Zhao Fu hatefully or fearfully; some were Princesses and some were the Gui Ye King's Concubines.

They all had graceful figures and were quite beautiful, and they were all famed beauties within the Gui Ye Kingdom.

Zhao Fu particularly liked one of the cold-looking middle-aged women; she was the Gui Ye King's Queen, and there was also a mature-figured and proud-looking woman; she was one of the Concubines and was the Fourth Prince's mother.

There was also a voluptuous woman giving off an alluring aura; she was a Prince's Concubine, and there was also a pair of slim and pure-looking twins. Finally, there was also the Gui Ye Kingdom's most beautiful Princess. She was extremely beautiful and had a bewitching figure and white skin.

Zhao Fu went up and directly hugged the Queen, as well as the proud-looking woman, the Fourth Prince's mother. Both women vigorously struggled, but Zhao Fu told them that as long as they served him well, he would take care of them and their relatives.

The two women thought about it and took the initiative to start serving Zhao Fu. Zhao Fu started to go at it with them, and he had a good taste.

Intense sounds continuously sounded out in the room, and under Zhao Fu's body, the women no longer seemed as hateful, furious, and fearful as before.

Afterwards, the Gui Ye Kingdom's Queen lay on Zhao Fu's chest with a reddened face, and she said somewhat flirtatiously, "You bad man, you'd better keep your word and not harm us or our families; in the future, we will properly serve you."

Zhao Fu smiled and nodded. Now that he had tasted the Gui Ye Kingdom's women, it was time to get back to the matter at hand and attack the remaining two factions.

Chapter 1548: Yellow Springs Kingdom

The two other factions quickly heard about the Gui Ye Kingdom being destroyed and were greatly shocked. They quickly gathered soldiers to defend, but against Great Qin's ferocious soldiers, they did not have any power to retaliate.

"Roar! Roar! Roar..." The beasts attacked first, followed by Corpse Soul Soldiers wearing heavy armor and holding heavy shields. They completely ignored the arrows and charged towards the City Walls and raised their terrifying weapons to vigorously smash at the City Walls, smashing countless people into meat paste.

Void Beasts darted out of the air and attacked the defending soldiers. Their sharp claws tore soldiers' bodies apart, and broken limbs and blood splattered onto the ground. The other side was unable to react at all.

Countless Giant Wolves leapt onto the City Walls and ferociously tossed people about. They opened their mouths and bit at the soldiers, biting countless soldiers to death as they howled in pain and making people feel terror.

Great Qin's soldiers turned into a massive flood that gave off unstoppable momentum as they charged towards the City Walls and started to fight with the defending soldiers.

The sounds of weapons clashing and people crying out continuously sounded out. The battle was incredibly intense, but it was evident that Great Qin's side was suppressing the other side, forcing them back.

Great Qin's soldiers entered the Kingdom and started a massacre. All people who resisted, regardless of if they were male or female, elderly or young, were killed. Some people who resisted intensely had their skin peeled and their hearts dug out before being hung onto the City Walls.

Because Great Qin had attacked so quickly, the two Kingdoms' royal families were unable to escape.

Seeing a King and his Ministers explode out with terrifying auras before rushing at him, Zhao Fu gave a disdainful cold smile as he sent out a few sword strikes, killing all of them. None of them were able to resist at all.

Great Qin quickly took over those two Kingdoms. The two Kingdoms' Ministers and Generals were suppressed using bloody methods; as long as they surrendered, Zhao Fu would not kill them. However, anyone who did not surrender was killed without mercy.

In order to govern a Kingdom that was the equivalent of a world, Zhao Fu needed many people. Great Qin's people and soldiers would leave the Underworld later on, so the Kingdom's Ministers, Generals, and soldiers were all made up of Underworld people.

Zhao Fu would move Great Qin's three billion Yin Soldiers to the Underworld. Zhao Fu wanted to properly develop in the Underworld; if he could develop that faction into one that was as strong as Great Qin, the overall power he controlled would be terrifying.

Zhao Fu also wanted to start up a faction in the Godly Spirit World. That way, Great Qin would have factions in the Godly Spirit World, Human World, and Underworld. The power of the three combined would be greater than a Royal Kingdom.

As for the two factions' Concubines, Zhao Fu ordered people to bring them back. There were 100 or so of them, and there were also some Princesses and the like.

There were five women who Zhao Fu particularly liked. One was extremely beautiful and had a strong and sharp aura; she was called Han Shangling and was the Queen of one of the Kingdoms. One looked quite flirtatious and had a mature figure, and she was the Queen of the other Kingdom. She was called Ying Yuye.

One had a seductive figure and had a bright personality, and was called You Yueque, and was one of many Concubines. One had a slim figure and a gentle and affectionate personality, and was called Long Shanli; she was one of the Princesses. The final one was called Huang Quanling and was a woman with a bewitching figure and a gloomy personality.

Huang Quanling was quite special. She, a few female attendants, and 20 or so guards had come here based on a map left behind by an ancestor.

Huang Quanling's identity was quite special. She was the legatee of the Yellow Springs Kingdom, and the Yellow Springs was a river that stretched through more than half of the Underworld. It contained countless wrathful spirits and rotten corpses everywhere. The river water was yellow and gave off a rotten smell of decay.

Some creatures that lived near the Yellow Springs were affected by the Yellow Springs' power and became the Yellow Springs Race, and they gained Yellow Springs Power.

Those people had established Kingdoms called the Yellow Springs Kingdoms, and there were many of them. They were mainly distinguished by the strength of their factions and their bloodlines.

The Yellow Springs Kingdom that Huang Quanling came from was a relatively strong Kingdom that could rival an Empire. His bloodline was also incredibly pure, as they were creatures that had been birthed from the Yellow Springs. They also had pure Yellow Springs Power, which was not something that those who had been contaminated by the Yellow Springs could compare with.

Huang Quanling's Yellow Springs definitely would have been one of the most powerful Yellow Springs Kingdoms in the past, and he had an incredibly high position.

However, that was in the past, and that Yellow Springs Kingdom had already been destroyed for many years.

Its Legacy Stone, which had once reached Rainbow grade, had fallen to Silver grade, and the Legacy and Fate it contained had disappeared. If this went on, Huang Quanling's race would perish sooner or later and their Yellow Springs Kingdom would completely disappear.

However, Huang Quanling discovered a Yellow Springs treasure trove that one of her ancestors had left behind. Compared to the strength that the Yellow Springs Kingdom once had, it was not much, but perhaps it would now be able to save their Yellow Springs race and restore their Kingdom. As such, Huang Quanling had brought a group of people and followed the map to here to find that Yellow Springs treasure trove.

However, they never would have expected that something so big would happen not long after arriving. An unknown, terrifying faction first destroyed the Gui Ye Kingdom before splitting into two armies to attack the Gui Shang Kingdom and the Gui Yi Kingdom.

Everyone's expressions had become quite grim and started to prepare things so that they could escape at any moment. This was because everyone had heard that that faction was incredibly terrifying, and their soldiers were all dressed in black armor and had icy expressions. They were incredibly merciless and gave off a dense Darkness aura, making them seem like demons.

The Gui Ye Kingdom had not been able to resist at all before being destroyed. Countless people had died pitifully, and after hearing about this, everyone started to worry if their Kingdoms would be able to survive.

At the suggestion of her female attendants, Huang Quanling decided to leave this region and come back to find the Yellow Springs after things had settled down.

However, that faction had split its soldiers into two armies and easily broke through the defenses of two Kingdoms and swarmed into countless Cities, not giving them any time to escape.

In the end, Great Qin's soldiers surrounded Huang Quanling and her people, and they were not a match for them at all. They were captured and if it was not for the fact that Huang Quanling was incredibly beautiful, she and her people would have been cut down in the chaos.

Chapter 1549: Inferior God Clan

After being captured by Great Qin's soldiers, Huang Quanling's expression became quite grim because she did not know what would happen. She had come here with her Yellow Springs Kingdom's final hope. If anything happened to her, her Yellow Springs race would truly perish.

Seeing the cold-looking and emotionless Great Qin soldiers give a trace of smile when looking at her beauty, Huang Quanling had a bad feeling. She suspected that she would be sullied by the soldiers, and thinking about that, she decided that it was better to just die. However, to the heavy responsibility that she carried, she hesitated.

However, she noticed that even though a few soldiers had given a trace of a smile when they noticed her beauty, they did not seem to be interested in her body; what was going on?

"Why did you capture us? Also, we're not from here and were just passing by. I hope you can let us off," Huang Quanling said coldly to a few of Great Qin's soldiers.

A soldier replied, "All people here are captives of Great Qin. If it wasn't for your beauty, we would have cut you down because of your resistance and tossed you onto the streets."

Huang Quanling felt a chill in her heart; it seemed that these soldiers were not kind people. At the same time, she found out that the faction was called Great Qin and that she had been spared because of her beauty.

"What's your goal? Is it to give me to your superior?" Huang Quanling coldly asked.

The soldier icily replied, "No, you are to be offered to our grand Majesty. Only His Majesty deserves to have beauties like you. To be able to serve His Majesty is your glory."

Another soldier said in a friendly manner, "It's best to be a bit more courteous; this person might become a loved Concubine of His Majesty."

Following this, that soldier said to Huang Quanling, "Don't worry, we won't harm your friends. Moreover, even if you refuse, you will still become His Majesty's Concubine. When that time comes, you will enjoy a luxurious lifestyle and enjoy the love from His Majesty."

Huang Quanling felt quite startled; she had never thought that they would be directly offering her to the ruler of the faction. Given how terrifying this faction was, that person definitely was not ordinary.

However, she felt quite displeased about how certain they were about her submitting to their Majesty. After all, she was the legatee of the Yellow Springs Kingdom and had some pride. She did not believe that any man could easily conquer her.

“Husband, I want more!” Back in the present, Huang Quanling had a lewd look on her face as she begged Zhao Fu for more, her pride completely gone.

The other women were as such, looking like prostitutes under Zhao Fu.

A few hours later, after everything had calmed down, Huang Quanling lay strengthlessly within Zhao Fu’s arms. She understood that what Great Qin’s soldiers had said was completely true. She and the other women had felt immense pleasure as opposed to being ravaged.

Now that the situation was like this, Huang Quanling had to think about the future. She felt that she could not escape from Zhao Fu now, so that it would be better to rely on Zhao Fu to restore the Yellow Springs Kingdom. With his terrifying power, it would definitely be possible.

“Husband, let me tell you about something,” Huang Quanling gave a trace of a smile as she looked at Zhao Fu with her beautiful eyes.

Zhao Fu felt quite surprised and smiled as he asked, “What is it?”

Huang Quanling told Zhao Fu about everything, and he felt a trace of interest and agreed to help her.

The Nether Ghost City was just a City and did not have any legacies or powers. At the same time, those three other factions only had ordinary legacies and there was not anything special about them.

Zhao Fu decided to fuse the three factions and the Nether Ghost City together, with the Nether Ghost City as the core.

Now that Huang Quanling had appeared, this was an opportunity for the ordinary Nether Ghost City, so Zhao Fu agreed to help her.

Huang Quanling had never thought that the almost-impossible task that had been given to her, which gave her immense pressure, would be resolved so easily. She nearly started crying from joy; this was something that her family had not been able to do for generations.

“Husband, I’m yours forever. You can do whatever you want with my body in the future,” Huang Quanling said gratefully.

Zhao Fu smiled as he nodded.

One of the Queens, Han Shanling, said with an alluring tone, “My good husband, don’t forget about what you agreed to us; our bodies are yours now too.”

Their request was for Zhao Fu not to harm them or their relatives, and for them to keep their prestigious identities. Han Shanling had much ambition, and she used to wield a lot of power in her previous Kingdom.

Zhao Fu did not refuse because she was indeed quite capable. At that moment, a soldier came to the door and reported, “Your Majesty, there have been some military reports from Great Qin. Please read them.”

Hearing this, Zhao Fu got up, put on his clothes, and picked up the imperial documents.

The reports were not that something had happened in Great Qin but that the second Wind God Empire had attacked the new world to the right.

Even the powerful Gold God World had been destroyed by the second Wind God Empire, let alone this new world. It could not resist at all and was easily conquered by the second Wind God Empire.

This new world belonged to a God Race called the Inferior God Race. Even though they were part of the God Race, they liked to attach themselves to powerful factions.

However, they also had decent talent. They had God Marks on the back of their hands which gave them a lot of power. They could even sign Contracts with ordinary soldiers, allowing both of them to share that power.

When the second Wind God Empire had attacked them, they had only symbolically resisted but had essentially surrendered to the second Wind God Empire. Not many people escaped, and the second Wind God Empire obtained the population and resources of an entire world.

Feng Shensha brought the Inferior God World's World Protector into her harem and made her one of her Concubines. It was said that that World Protector was also an extremely beautiful woman.

Zhao Fu had expected this to happen – Great Qin and the Devil Horn Empire had each conquered one world, so how could the second Wind God Empire fall behind?

Great Qin had not done much in response to the second Wind God Empire's operation, as they would not be able to achieve much and did not want to expend any resources.

Zhao Fu ignited a flame and destroyed the imperial memorial. He decided to put the matter aside for now; right now, he was mostly concerned with the Yellow Springs treasure trove.

Chapter 1550: Yellow Springs Daughters

“Miss, are you alright?” a few female attendants ran to Huang Quanling's side and asked caringly.

They had only been separated for a few hours, but they could tell that their miss' aura had greatly changed. She seemed a bit more mature and alluring.

Huang Quanling lightly smiled and nodded. “Yes, let's go and look for the Yellow Springs treasure trove. With husband helping us, we'll be able to find it quickly and restore our Yellow Springs Kingdom.”

Hearing this, the female attendants felt both quite delighted and confused as they looked at the handsome young man. They were delighted because they had such a powerful person helping them, but they were confused how their miss had submitted to this young man so quickly and seemed to love him a lot.

Zhao Fu looked at the map and found that the Yellow Springs treasure trove was in this region. However, this region was as big as a world, and with Huang Quanling and her groups' abilities, it would be quite difficult to find it.

The map only indicated this region and did not give a specific location, which made things much more difficult. Without a way to sense the treasure trove, it would be quite difficult to find it.

Following this, Zhao Fu brought Huan Quanling and the female attendants to look for the treasure trove in the region.

Two days later, they finally found something. In front of a mountain cave, the pendant in Huang Quanling's hands gave an intense reaction, which meant that the treasure trove was inside the mountain cave.

The mountain cave was not very big, only three or four meters wide. It was pitch black inside and was slightly cold. It seemed that it went quite deep within.

Zhao Fu led the women in and took out an Illumination Pearl so that they could see around them. As they advanced, apart from a few bats, they did not encounter anything dangerous.

The cave continuously stretched downwards, and after walking for who knows how long, they arrived at an even bigger cave.

This cave was hundreds of meters tall and hundreds of meters wide. There was an alligator-like monster carved on the walls, and it looked incredibly lifelike and there were also many runes.

Within the opened mouth of the monster was a yellow vortex, which seemed to be the entrance of the treasure trove.

However, the monster on the wall did not seem simple; if they just walked into its mouth, perhaps something unexpected would happen.

However, with the Yellow Springs Kingdom's legatee next to him, this treasure trove was hers, so he did not have to worry about anything.

Huang Quanling went up and raised the pendant in her hand before sending her bloodline power into it. The pendant gave off boundless yellow light, which shined on the monster's body. The runes on the monster's body were instantly enlivened.

The yellow vortex in the monster's mouth started to spin the opposite way; perhaps if they entered the vortex just then they would have been sent to another place.

"Husband, we can go in now," Huang Quanling said as she turned and lightly smiled.

Zhao Fu smiled, went up, and hugged her, and they walked into the monster's mouth with a few female attendants. The monster did not launch any attacks in the meantime.

The group passed through the vortex and came to a large open area. The sky was yellow and there were rotting corpses all over the ground. There was a massive stage at the center which was covered with treasures and gave off alluring glows.

Apart from this, there were 12 statues on the stage. All of them were statues of women and they were all beautiful and had voluptuous figures, and they gave off mature auras.

There was a circular spring at the center, and it was 100 meters wide. There were many pictures of monsters carved around it, and it flowed with yellow spring water. What was surprising was that the spring water did not have a pungent rotting smell but a sweet scent.

Zhao Fu was not very interested in the treasures and directly went up to have a look at the 12 statues and the spring.

These 12 statues seemed to be able to give 12 women legacies. This legacy was called the Yellow Springs Daughters, and it was a legacy that contained powerful Yellow Springs Power and could also give the Yellow Springs Bloodline. Both the power and bloodline were of the highest grade.

Moreover, if those 12 Yellow Springs Daughters raised the legacy's power to the maximum, they would be able to control the Yellow Springs itself and wield a lot of Yellow Springs Power, and they would be able to compare to Ghost Celestials.

Seeing this, Zhao Fu felt quite delighted; the Yellow Springs Daughters legacy was a very powerful legacy and could become quite terrifying.

This also made up for Great Qin's weakness of not having many legacies in the Underworld. This would allow Great Qin's Underworld faction to grow faster in the future. With the Yellow Springs Kingdom's legacy, Great Qin's future in the Underworld would become quite bright.

It was a pity that only women could inherit this legacy, or else even Zhao Fu would have wanted it.

The yellow spring looked like a normal spring, but it flowed with pure Yellow Springs water. Anyone who drank even a bit would be able to gain Yellow Springs Power. If one went into the yellow spring, it would allow one to gain Advanced Yellow Springs Power and raise one's constitution, as well as remove impurities from one's body.

If the 12 women who had obtained the Yellow Springs Daughters legacy entered the water, the effects would be even greater.

Firstly, their bloodlines would be greatly improved, and they would become pure Yellow Springs Spirits, which were creatures created from the Yellow Springs. Their constitutions would also become Yellow Springs Constitutions, and they would gain more affinity with Yellow Springs Power.

It could be said that this spring was prepared for the 12 Yellow Springs Daughters. Of course, it could be used by ordinary people as well and allow them to gain Yellow Springs Power.

The spring also had another effect. If it was near the Yellow Springs, it could create large amounts of Yellow Springs spring water. Even though the effects would not be as powerful as the original water, it could be used by many people and allow countless people to gain Yellow Springs Power.

Zhao Fu was not too interested in the Yellow Springs Power as he controlled the Underworld's supreme power, which was the Six Paths of Reincarnation Power, so he did not plan to enter the spring water.

"Husband, with this thing, our Yellow Springs Kingdom will definitely become powerful again," Huang Quanling said happily as she hugged Zhao Fu. Her eyes danced with light and there was a trace of confidence in her voice. She was determined to bring the Yellow Springs Kingdom to its former glory.

Zhao Fu smiled and nodded. Right now, he was considering the development of the Yellow Springs Kingdom and who to make the 12 Yellow Springs Daughters. As a Yellow Springs Kingdom, it was best to be near the Yellow Springs so that it could absorb a large amount of Yellow Springs Power.

Moreover, this spring should also be placed near the Yellow Springs so it could create large amounts of spring water. It seemed that there was still much to do.
