

The Lord 541

Chapter 541 - Sovereign Bloodline

"Roarrrr!!" A massive dragon's cry sounded out in all directions, causing everyone, who had thought that the matter was over, to once again feel greatly shocked.

The dragon's cry was filled with domineeringness and might, and the aura that it gave off was one that they were familiar with.

"What's Great Qin doing now?" No one could guess what Great Qin was thinking, but with what they knew about Great Qin, they knew that it wouldn't be good.

However, that Fate Dragon from another world had attacked all Legatees, so Great Qin's Legatee had most likely been affected as well. Facing that terrifying power, they just wanted everything to settle down, but Great Qin had suddenly started something again.

This made countless people feel quite angry, and they all cursed at Great Qin, saying that it was too arrogant. Even ten Great Qins would be destroyed facing such might, and if it wanted to die, it better not drag in the rest of them.

The countless Legatees were scared stiff by the golden dragon, and if it wasn't for those unknown powers stopping it, all of them would have been killed. That sort of power struck fear deep within their bones.

What they didn't know was that the golden dragon now belonged to Great Qin.

Above Great Qin, the domineering and savage black dragon shot out of Zhao Fu's body and spiralled around in the sky, giving off a massive aura.

The black dragon looked at the golden dragon but did not seem hostile because they both belonged to Zhao Fu.

Facing the black dragon's gaze, the golden dragon did not seem to mind and continued to hover in the sky.

At that moment, Zhao Fu stretched out his hand and summoned the Great Qin Seal before lightly calling out, "We, as Great Qin's Legatee, order Great Qin's Fate to gather!"

After Zhao Fu spoke, countless traces of a black aura rose up from the ground in the Forest of Horrors and quickly gathered towards the sky.

Within the Great Qin City, the City Heart continuously trembled and gave off a large amount of Fate that also gathered in the sky. Traces of a black aura also rose up from Great Qin's residents and floated in the sky.

As Fate continuously gathered, Zhao Fu stretched out his hand and pushed it out towards the golden dragon.

Boom!!

A massive explosion sounded out as a massive amount of Great Qin's Fate flooded into the golden dragon's body. The golden dragon quickly devoured the countless traces of Fate, because it had truly become Great Qin's Fate Dragon.

"Roarrrr!!!!"

As the countless traces of Great Qin's Fate entered its body, the golden dragon felt an immense power entering it and gave off a cry that shook the heavens.

A black pillar of light rushed up into the sky, causing dark clouds to quickly gather, forming a massive vortex that gave off a shocking pressure.

"Damnit! Great Qin's doing something again!" Feeling the disturbances in their Fate Dragons, as well as the terrifying shockwaves from afar, the countless Legatees felt quite furious – Great Qin was a scourge.

Even though many Sect Masters had died, there were still countless espers and ability users. They were different from the Legatees, as they could already sense the changes in the golden dragon. They all looked incredibly dumbfounded and terrified, as that Fate Dragon from another world had turned into a Fate Dragon of Great Qin!

Within the massive black pillar of light, the golden dragon seemed to go through changes – its golden eyes now became pure black.

At that moment, Zhao Fu stretched out his other hand and pointed it at the black dragon. The rune in his soul gave off a mighty power as a golden light shot out of Zhao Fu's hand and flew at the black dragon. After being hit by the golden light, the black dragon also felt an immense power explode out from within it.

Boom!!

Another explosion sounded out as a pillar of golden light also rushed to the sky and caused even more dark clouds to gather, forming another gigantic vortex.

The two massive pillars of light stood between the heavens and the earth, and two vortexes of dark clouds spun in the sky, becoming larger and larger. The aura of suppression that they gave off also became more and more powerful, and a wild gale blew in all directions, lifting many rocks and trees into the sky.

The massive shockwaves gathered even more dark clouds, and soon, the dark clouds covered the entire Heaven Awaken World as bolts of lightning started to descend and rain started to pour.

At that moment, everyone realized that the incident with the golden dragon had been caused by Great Qin, as the golden dragon now belonged to Great Qin.

Now that Great Qin had fused such a powerful Fate Dragon to Great Qin, many people's legs gave way, and they crashed to the ground. The countless Fate Dragons did not even dare to roar and could only whimper.

The faces of countless espers and ability users became pale – it was now confirmed that the golden dragon was linked to Great Qin, and if that monstrous Fate Dragon joined Great Qin, Great Qin would go through incredible changes, and its supreme position would be unshakeable.

Seeing this, Xianru and the others realized that His Majesty had obtained a fortuitous encounter.

Within the golden pillar of light, the black dragon also started to go through changes as its black eyes became a pure golden color.

The two pillars of light slowly weakened, and the two vortexes also gradually became smaller. After a while, the abnormal signs all disappeared, and the heavens and the earth became peaceful again. By now, the golden dragon had completely fused with Great Qin – the golden dragon and black dragon did not change too much; it was just their eyes that had changed color. The golden dragon's eyes became black while the black dragon's eyes became golden.

This had consumed a lot of Great Qin's Fate, but Zhao Fu felt that it was worth it – now that the golden dragon had joined them, Great Qin's Fate had become much purer, and its foundation had become much more solid as well.

Zhao Fu waved his arms, and the golden dragon and black dragon turned into two rays of light and entered Zhao Fu's body.

Zhao Fu had never thought that the Heaven Murder Bloodline would be something that would become more powerful using the sacrifices of countless traces of Fate.

The golden dragon had given Zhao Fu the purest trace of the bloodline and then used a massive amount of Fate to cause the bloodline's power to continuously become stronger. Now, with the purity of Zhao Fu's Heaven Murder Bloodline, he could be considered a member of the Heaven Murder Empire's Imperial Family.

Even though Zhao Fu also had Great Qin's bloodline, neither of the bloodlines were affected and were both incredibly pure.

However, Zhao Fu's heart was still on Great Qin's side. Even though he had two bloodlines, he was born with Great Qin's bloodline, while he had gained the Heaven Murder Empire bloodline with a technique. Because of this, he did not identify with it as much.

It was also worth mentioning that Zhao Fu's bloodline level was now Level 16, which meant that he now had a Sovereign Bloodline.

Before, Zhao Fu's bloodline had only been a Level 12 Royal Bloodline, and now that he had obtained the Heaven Murder Bloodline, his bloodline had skipped the Imperial Bloodline and reached the terrifying Sovereign Bloodline level.

The Heaven Murder Bloodline was not something that could be easily obtained, and the golden dragon had expended a lot of its strength to forcibly steal Fate from countless creatures to create and develop the bloodline. This showed just how rare Sovereign Bloodlines were.

Chapter 542 - Destroy Great Qin

Chapter 542: Destroy Great Qin

Sovereign Bloodlines were normally something that could only be obtained after establishing an Empire, and they were something that ordinary Kings could not obtain. This showed just how difficult it was to obtain a Sovereign Bloodline.

Of course, ordinary Royal Bloodlines were far inferior to Sovereign Bloodlines, and now that Zhao Fu had a Sovereign Bloodline, many of his stats and attributes were greatly increased.

However, Zhao Fu did not feel too happy as the golden dragon had said that the lowest bloodline of the Heaven Murder Empire's Imperial Clan was a Sovereign Bloodline.

Zhao Fu could not even imagine just how powerful the Heaven Murder Empire was. Above Sovereign Bloodlines were Origin Bloodlines, and he had no idea what was above Origin Bloodlines.

After recalling the two Fate Dragons, Zhao Fu looked at Xianru and the others who had come over and flew towards them.

Xianru and the Generals smiled as they said, "Congratulations, Your Majesty, for encountering yet another fortuitous opportunity!"

Zhao Fu smiled; this was not a big matter, and he led everyone back to Great Qin. Great Qin's goal was still to clear the Forest of Horrors.

This news quickly spread to the real world. The Sect Masters who had died all looked incredibly weakened, and hearing the reports from their disciples, they all sighed. They had not seen how the situation had ended before they were killed. They were worried that their world's Fate would all be stolen; if that were the case, their world would be greatly weakened.

Even though Great Qin was ruthless and bloodthirsty, it was still a human faction. As long as the Fate was not lost to an external force, that would be fine.

After many people heard that Great Qin had obtained such a powerful Fate Dragon, they once again shamelessly ran to the Ying family and tried to negotiate. They had all witnessed the golden dragon's power for themselves, and it was powerful enough to annihilate everything. This made Great Qin simply invincible.

The Ying family chased away everyone who came and did not give them any face.

Last time when Great Qin had suffered a slight setback, all of them had deserted it, and now, they had shamelessly run back. If Great Qin suffered another setback, they would most likely turn away from it again.

On the other hand, those who had stayed behind last time felt incredibly joyful. They had bet everything on Great Qin, and now that Great Qin had accepted them, once they formally joined Great Qin and it became even more powerful, they would be in an even better position.

The families who had sent their women to the Ying family felt incredibly happy – they had believed in Great Qin's potential, and those who had opposed Great Qin all suddenly disappeared.

The other families who had women on the Ancient Beauty Rankings all started to consider whether they should send their women to the Ying family. They knew that the Ying family would not accept ordinary women, but if they were on the Ancient Beauty Rankings, perhaps the Ying family would accept them.

After all, apparently Great Qin's Legatee was very fond of beautiful women; his licentiousness was known all over the world.

If Zhao Fu knew that this was what everyone thought of him, he would definitely feel quite wronged.

Within a secretive room, Mei Xiaoyan stood in front of an extremely seductive-looking woman, who was, of course, the White Lotus Society's Saintess.

"Looks like choosing to work together with Great Qin was the right decision. We can use Great Qin's power to take revenge on the other Dynasties. You must hurry though and make Zhao Fu yours. He's Great Qin's Legatee's representative and wields great power, so if he falls into our hands, the benefits will be unimaginable!" the Saintess said to Mei Xiaoyan while smiling enchantingly.

Mei Xiaoyan also smiled and replied, "I understand, Saintess. I'll do my best!"

Of course, only a minority of people were happy about this; the majority of people's expressions were quite unsightly. It was Great Qin time and time again, making them gnash their teeth in anger.

Since Great Qin was their enemy, none of them wanted to see Great Qin continuously grow stronger. Great Qin was already immensely powerful, and now that it had obtained that golden dragon, how were they meant to keep living?

The Dynasties and factions felt that they could not continue to wait; if they kept waiting, who knew what Great Qin would do next? When that time came, they would be even more terrifying. As such, they made the decision to stop defending and instead start to continuously attack and cripple Great Qin.

This meant having the players in the four regions around the Forest of Horrors start to attack Great Qin and surround it from all sides.

However, even though that was the plan, they still had their worries. That golden dragon was simply too powerful, and it was able to obliterate everything before it. As such, they had to investigate this matter first.

They couldn't allow their army to arrive and suddenly be instantly killed – not only was that detrimental to their resources, it would be extremely shameful.

Right now, in the surrounding regions, they had roughly one million players each. Because of their fear of Great Qin, many of them had not participated before and survived.

Apart from those regions, most of the other regions had 500,000 or so players. Because of the disasters that Great Qin had caused, they had swept away many of their obstacles, especially the players who viewed money as important as their lives and madly attacked Great Qin.

Great Qin now increased the speed at which it cleared the Forest of Horrors in order to complete the first step of restoring the Empire. Afterward, they would attack other regions and take their second, then third, and even more steps to restoration.

The various Dynasty Legatees also started to secretly investigate the foreign factions. They felt that they could no longer just sit by, as Great Qin now greatly threatened them. If they continued to allow Great Qin to develop, they would have no path before them.

As such, all of the various factions all over the world started to contact China's Dynasty Legatees, wanting to work together with them to at least suppress, if not destroy, Great Qin. They had to slow it down so that it could not continue developing like this.

This time, the various factions decided that whether it was in terms of people or resources, they would support it with everything they had. This made China's Dynasty Legatees incredibly happy – with their help, they would be able to create a massive obstacle for Great Qin. Even though many of them were from different countries, they had the same enemy.

Now, it could be said that the Chinese Dynasty Legatees had all started to formally work with foreign factions to destroy Great Qin. With this kind of support, the Dynasty Legatees' factions became incredibly monstrous, and this was especially in terms of their fame and power. It was almost as if Great Qin was against the entire world.

However, some people suddenly asked – wasn't this Chinese people attacking Chinese people? They were not only having a civil war but also having other nations help them attack their own people. As Chinese people, shouldn't they be more united? Why did they have to ally with foreign factions to destroy a fellow Chinese faction?

Regarding this, the countless Chinese factions only scoffed at those people. They did not care about those things anymore and only wanted to destroy Great Qin. Even if they had to work together with foreign factions, that was fine.

Chapter 543: Evil Demon

As the elders of China, the Ancient Clans tried to convince the various Dynasty Legatees not to do this, as this would bring in foreign forces and harm China overall.

Originally, the fighting between the Dynasty Legatees and Great Qin had already weakened China, and now that they were allying with foreign factions to attack Great Qin, this was simply too dishonest. They were simply helping outsiders attack their own people.

Ordinarily, people would have called them traitors, as they were helping others to attack fellow Chinese people. However, they had long since stopped considering Great Qin one of them, as Great Qin had threatened them too greatly and was their greatest enemy. As such, they wanted to use any means to destroy it, whether or not it was a Chinese faction.

Moreover, in order to stand on the side of righteousness and attract even more people, they rallied people by saying, "Get rid of the evil demon and restore China's righteousness!"

The 'evil demon' was, of course, Great Qin. The various factions had twisted many of the stories about Great Qin to make it seem eviler and paint it as a vicious demon.

Now that they had portrayed Great Qin to be an evil demon, their actions in allying with foreign factions to attack it could be considered to be just.

The Ancient Clans continued to desperately try to persuade them otherwise. They wanted to maintain the status quo, and since the various Dynasty Legatees were so far away, it would be better for them to just keep developing their own factions. Why did they have to care about how Great Qin was doing?

However, the Dynasty Legatees ignored the Ancient Clans because Great Qin's threat was not something that could be ignored simply because they were far away. Because of how great this threat was, they had to get rid of Great Qin.

However, the Dynasty Legatees also gave Great Qin an option: as long as it handed over its Clan Armament, did not step out of the Forest of Horrors for three years, and allowed them to suppress its Nation Armament, they would trust Great Qin and no longer stand against it.

However, the Ancient Clans knew that it would be impossible for Great Qin to agree to such terms. If it agreed, it would not be Great Qin anymore.

If they really agreed, Great Qin would become weak while they would become much stronger. Who knew who would be destroying who when the time came?

Seeing that they could not persuade the Dynasty Legatees, the Ancient Clans could only turn their gazes to Great Qin. However, when they thought of how domineering Great Qin was, they gave up on trying to persuade it as well. As such, they could only sigh and see how the situation progressed.

The Dynasty Legatees and foreign factions fighting against Great Qin would only consume a large amount of resources. If they just used the ordinary people to attack, the actual factions would not suffer any losses, and with so many factions allied together, they had a massive amount of resources at their disposal.

Even if they used a lot of resources, if they split it across the many factions, each of them would not expend much, so they did not care as long as they achieved their objective.

With so many resources, they felt incredibly confident and started to plan.

They didn't know just what that golden dragon was, and it seemed to be that some kind of unknown existence had attacked the golden dragon, causing everything to quieten down, after which the unknown existence had disappeared.

They felt that the golden dragon most likely did not have much power left, or else the unknown existence would not have just stopped. Moreover, if they attacked and the golden dragon tried to stop them, would that unknown existence help them stop the golden dragon again?

Without the golden dragon, they became much more confident. Before, the players of a single region could force Great Qin into retreating, so what about four regions? The result would be obvious.

In the end, they finally made the decision to attack. Of course, they couldn't just enter the Forest of Horrors without any preparations because it was now the base of Great Qin. They didn't want things to go like last time, with them falling into Great Qin's countless traps and retreating pitifully.

As such, they had to make sufficient preparations this time to defend against Great Qin's tricks. This required a large amount of money, and this was provided by the Dynasty Legatees. Right now, money did not matter much to them; they just wanted to destroy or heavily wound Great Qin.

In the face of great benefits, the players in the four regions around the Forest of Horrors turned into ravenous wolves and had no fears. They were all incredibly excited and were eager to leap at Great Qin and bite it.

Zhao Fu quickly heard about this, and his expression became serious. He discussed with his Generals as to how to face this situation. Now, many players were gathering at the surrounding four regions, and there were roughly ten million of them. It would be quite difficult to deal with them, especially since they would not die true deaths and had no fears.

On the other hand, all of Zhao Fu's soldiers were real lives, and if they died, they would remain dead. They could not endlessly revive like the players.

If they fought directly, no matter who won or lost, Great Qin would suffer great losses.

If the golden dragon hadn't expended most of its power, it might have been able to instantly kill all of them. However, it was a pity that in order to give Zhao Fu the Heaven Murder Bloodline, it had forcibly stolen the Fate of countless creatures and used up most of its power.

Many other factions quickly joined this alliance against Great Qin. Countless neutral factions watched on, and very few factions supported Great Qin. However, they were not able to help much.

No one dared to jump to conclusions as to who would win this battle. Even though it seemed like the Dynasty Legatees held an overwhelming advantage, they were facing Great Qin. Even though they had many people and had made all sorts of preparations, Great Qin had unfathomable potential, so the conclusion was quite unpredictable.

The Hundred Schools of Thought and the various Sects felt quite complicated towards Great Qin. Sometimes, they were forced to act against Great Qin, but they wanted to remain neutral and not offend anyone.

It could be said that their Sect Masters had been killed by Zhao Fu, but after knowing that the golden dragon belonged to Great Qin, they would not attack.

Back then, they had thought that someone from another world was trying to steal their world's Fate, so they had all acted. However, they had been killed by that golden dragon and died quite pitifully.

However, even though all of the Sects' disciples were quite furious, their Sect Masters told them not to be too angry. On one hand, they had offended Great Qin many times, so this was part of their compensation to Great Qin. On the other hand, if Great Qin really could restore its nation, they hoped that their disciples could go serve Great Qin and achieve their aspirations.

After all, Great Qin was currently the faction with the most potential, and having tense relations with it would not be good.

Flower Moon also discussed this matter. In actuality, they had long since wanted to work together with Great Qin, but because Great Qin had captured one of their people and refused to release her, this had not happened, and they had remained neutral.

The atmosphere in the Forest of Horrors became quite oppressive, and the various Dynasty Legatees prepared to launch their attacks. However, by now, the temperature had fallen to under -10 degrees Celsius, and many streams and lakes had been frozen, as snowflakes fell from the sky.

By now, it was late winter, and even those who wore thick coats felt quite cold. Whenever it snowed, it would snow for at least three days, and the entire Heaven Awaken World seemed to turn into a world of whiteness.

The snow was usually at least 1.2 meters deep, and some places even had layers of snow that were three or four meters deep. This forced the Dynasty Legatees to put a pause on their operations, and it also forced Great Qin to stop clearing out the Forest of Horrors.

At the same time, a new festival arrived.

Chapter 545: New Year Dreamland

Zhao Fu was interested in both the General Medallions and General Fate. With General Medallions he would be able to summon different historical Generals, and of course, the more historical Generals the better. With General Fates, he would be able to give them to people who weren't historical Generals and help them awaken General Stars earlier.

However, even though Zhao Fu wanted both types, all of them were quite expensive. He would not be able to purchase everything that he wanted.

Time gradually passed, and even though there were not any system main cities that belonged to indigenous residents anymore so they couldn't see how such system main cities celebrated, they could see how Great Qin celebrated. After all, there were many people from system main cities in the Great Qin City, and they knew how to prepare for the festival.

Many red Spring Festival couplets were stuck on either side of doors, with joyful pictures drawn on them. The streets were filled with red lanterns – the main color of this festival was the color red.

It was no longer snowing, so the streets were filled of celebrating people. There were many stalls selling all sorts of celebratory gifts, and there were all sorts of snacks, such as candied fruits and glutinous rice balls. There were also all sorts of masks.

The streets were incredibly lively, and everyone seemed quite happy. Laughter could be heard everywhere. Zhao Fu stood on the top floor of a building and looked down with a trace of a smile on his face. The festivities were quite great in the Heaven Awaken World compared to in the real world.

"Your Majesty, it's still early. Do you want to go out and take a look? Everyone's celebrating right now!" Xianru said as she smiled.

Zhao Fu shook his head as he said, "I don't like these sorts of things, so it's best that I don't go."

"I'll make a few dishes for you then!" Xianru said in a soft voice.

Zhao Fu nodded. All preparations had been made by others, so he did not have to worry. He just waited for 12 AM.

Following this, Xianru made a few dishes and brought up a pot of wine. Xianru's cooking was something that no one could ever get sick of, and Zhao Fu ate the food while Xianru smiled and chatted with him.

Soon, it was 12 AM, and Zhao Fu stood on the balcony of the building and looked up at the sky.

Heaven and Earth Fate once again began to swirl and gather, forming colorful balls of light.

Bang, bang, bang...

Massive explosions sounded out as the colorful balls of light exploded into countless different-colored motes of light, floating in the sky like fireworks and looking incredibly beautiful.

It was not just Zhao Fu. Everyone in the Heaven Awaken World looked up at the sky, watching these beautiful fireworks.

Lovers held hands and leaned against each other, enjoying this magnificent scene.

The countless motes of light in the sky lightly floated down, as red pouches, which were as big as a palm and had a 'blessing' character embroidered on them, appeared in front of everyone.

This was a New Years gift, and everyone received one. This was why this festival was beneficial to everyone and enjoyed by all – even without doing anything, they would receive rewards, so who wouldn't like this festival?

A blessing pouch also appeared in front of Zhao Fu, and he did not hesitate to reach out and expectantly open it. A white ray of light shot out from the pouch as a few copper coins appeared in his hand.

"My luck's not that great; it's just a few copper coins." Zhao Fu couldn't help but smile and shake his head, but he still put the copper coins away.

There were all sorts of New Years presents – at the very least, people would obtain a few copper coins, but those with better luck would obtain equipment or skills. Those with very good luck could obtain Gold grade items, and there were even Legendary grade items.

This was only the prelude to the New Year Festival, and what came next was the true beginning of the New Year Festival.

The New Year Festival was split into day and night events, and each of them had different ways of obtaining New Year Points, which were used to exchange for rewards.

It was currently night time, so Zhao Fu decided to go to sleep. Indeed, he would not be doing anything except going to his bed to sleep.

Many people thought that sleeping at such a time was silly – why would people sleep instead of getting New Year Points? That was simply a waste of time.

However, in actuality, sleeping meant participating in the night event, as once people slept, their consciousnesses would be taken to a New Year Dreamland.

The New Year Dreamland was something that only appeared during the New Year Festival. It would begin at 8 PM each night, and anyone who slept could enter it. The dreamland closed at 8 AM in the morning, and everyone would be forced out.

During those 12 hours, not only would one be able to comfortably lay in their bed and sleep, but one's consciousness would also be able to participate in the event. This allowed one to both rest and participate.

That was the nighttime event of the New Year Festival, and it was incredibly suited to lazy people – they would be able to obtain rewards just by lying there.

Moreover, the New Year Dreamland was not a separate dreamland for everyone but a collective one. Everyone went to the same dreamland.

After entering the New Year Dreamland, people would not be able to use any skills or abilities, and Legatees would not even be able to use their Nation Armaments or Clan Armaments; they would only be able to rely on their own abilities.

Zhao Fu was not sure what would be inside the New Year Dreamland, but he felt quite excited about it. After returning to his room, Zhao Fu saw a few female attendants wearing thin clothing lying within his bed.

Seeing Zhao Fu arrive, the female attendants started to get up. Zhao Fu realized what was happening and decided to allow them to continue remaining within the bed. They were the Xianbei women that the Xianbei elders had given to him, and they looked quite pretty. They wanted them to serve Zhao Fu to get the Xianbei people better treatment.

They were here to warm Zhao Fu's bed, as it was quite cold and beds would normally feel quite icy whenever people got into them. If it was just a single person, it would take them a while to warm up his bed. As such, many rich people had people warm up their beds for them, and this was a common practice since a long time ago.

Zhao Fu very rarely slept lying down, as he usually slept cross-legged as he cultivated, so he didn't need them to warm his bed. However, because today was the beginning of a special event that required him to sleep, the female attendants decided to help Zhao Fu warm his bed so that he could fall asleep faster and more comfortably.

Seeing them, Zhao Fu felt a trace of warmth in his heart, and seeing their thin clothing, he did not ask them to get up so that they wouldn't feel cold. After all, the bed was quite big, and it was no problem for a few people to sleep in it.

Seeing that Zhao Fu had allowed them to remain within the bed, the female attendants blushed and looked on as Zhao Fu took off his outer clothes. Their hearts started to beat faster, and afterward, Zhao Fu lifted up the blanket and got in, causing their faces to become bright red and for their hearts to rapidly thump.

Zhao Fu did not mind them, and after entering the warm bed, he let out a comfortable sigh before closing his eyes and entering the New Year Dreamland.

Chapter 546 - Nian

After entering the New Year Dreamland, all Zhao Fu saw was a hazy whiteness, and he could not see anything properly.

Afterward, his vision started to become clearer, and he found that he was within a boundless white space. His body was hovering in the air, and what made him feel even more surprised was that he had become a little beast.

The little beast looked quite like a little cat and was about as big. However, it also looked a bit like a qilin, as it had a pair of big eyes and a furry body. It did not look scary at all. Instead, it looked a bit cute.

There were other little beasts around him, and they all looked about the same except for the fact that they all had a black mark on their heads. These black marks were one of the characters in their names, and it was quite difficult to tell what the characters were. However, they made it easier to distinguish between different little beasts.

The black mark on Zhao Fu's head was a twisted 'Fu' character.

Currently, Zhao Fu's body was being protected by a white light, and there were many little beasts that were floating in the air. Many of them were talking, making it sound quite raucous.

Some little beasts were chasing after orbs, and after catching up to them, they would bite down, resulting in their bodies becoming a bit bigger.

Some little beasts attacked other little beasts' bottoms, and those that were hit would release a white bubble that was absorbed by the little beast that had attacked, resulting in the attacker becoming a bit bigger.

Zhao Fu soon received a system announcement, and he realized that he had turned into a Nian beast. The white light protecting him was the protection for beginners and for the Nians that had died.

The white orbs were glutinous riceballs, which were split into different types, and they gave a different number of New Year Points. Level 1 glutinous riceballs gave off white lights and would give ten New Year Points, Level 2 glutinous riceballs gave off blue lights and were worth 50 New Year Points, Level 3 glutinous riceballs gave off silver lights and were worth 100 New Year Points.

The higher the level, the more New Year Points they gave. Of course, the higher the level, the rarer they were.

After eating a glutinous riceball, one would obtain New Year Points and become a bit bigger, and one's strength and speed would also be greatly increased.

However, any New Year Points obtained did not automatically belong to those who obtained them, because they could be attacked and the points could be stolen. This was what Zhao Fu was seeing again and again.

The little beasts that were attacked would lose New Year Points, and if they were successfully attacked three times while they had no New Year Points, they would die and respawn elsewhere.

Only after the New Year Dreamland was closed would everyone receive their New Year Points. However, even if one finished with 0 points, as long as they participated, they would receive 100 New Year Points at the end.

Zhao Fu was still under protection, and the other little beasts were not very interested in Zhao Fu. Some went to fight for glutinous riceballs, while others attacked other little beasts, resulting in a chaotic scene.

Zhao Fu first went to a remote place so that he would not be attacked after his protection disappeared. At the same time, he started observing for an opportunity and moved his limbs, trying to become accustomed to this body.

Zhao Fu was in a protected state and would not receive attacks, but he could not attack anyone either and could not eat any glutinous riceballs.

Time gradually passed, and the white light around Zhao Fu's body became weaker and weaker. Just as it was about to disappear, Zhao Fu started to act.

A relatively bigger Nian had just attacked a few other Nians and obtained many New Year Points. It was now being chased by a few other Nians.

Even though it was bigger and would not lose to any other Nian in a one on one fight, it could not face the combined attacks of multiple Nians, so it could only turn and run.

That was the situation that all of the bigger Nians found themselves in: unless they were powerful enough to make everyone fear them so that no one dared to face them, other Nians would group together and attack.

Those that only ate glutinous riceballs would also be attacked, so the most important thing was to protect one's bottom and not allow it to be attacked by others. It was also important to attack others and eat a lot of glutinous riceballs.

"Fudge! Stop running! I'm going to whoop your ass!" a vulgar youth shouted out at the Nian that was running away.

The Nian running away gave off a middle-aged uncle's voice and said disdainfully, "Fight me one on one, you brat. Your uncle will make your ass explode!"

"Enough trash talk. Het him together!" another Nian yelled out in a youth's voice.

The other Nians did not say anything and continued to chase after the uncle Nian.

Seeing that there were still a few Nians chasing after him, the uncle Nian could only continue to run away. The Nians chasing after him understood that he was faster and stronger, making it hard for them to catch up, so they planned to surround him.

The uncle Nian knew what they wanted to do, so he couldn't allow them to do as they wished. He suddenly turned and started to turn in a different direction.

The other Nians cursed and changed directions as they continued to chase after him.

The uncle Nian laughed, making the Nians chasing after him feel quite furious. However, suddenly, a Nian that still had a faint light around it rushed to the uncle Nian's side.

The uncle Nian felt quite surprised. He knew the rules, that Nians with the protective white light could not attack or be attacked. They could not dispel the white light by themselves and could only wait for the white light to disappear, so the uncle Nian felt quite surprised at this action.

However, in the next second, the white light around Zhao Fu's body disappeared, and the uncle Nian was greatly startled and quickly tried to dodge. However, it was too late.

Zhao Fu swiped out and clawed the uncle Nian's bottom, causing five bubbles to rise out of the uncle Nian's body and to be absorbed into Zhao Fu's body.

Immediately, Zhao Fu received a system announcement that he had obtained 50 New Year Points.

After obtaining the 50 New Year Points, Zhao Fu's body became a bit bigger while the uncle Nian's body became a bit smaller. However, it was still bigger than ordinary Nians', and he had at least 150 points in it still.

Zhao Fu ran towards the Nians that had originally been chasing after the uncle Nian, and seeing this, the uncle Nian could only curse. Once he was surrounded, he would not be able to do anything, so he could only turn and run.

Seeing that the uncle Nian had stopped chasing after him, he quickly ran to the side to prevent any of the other Nians from chasing after him.

The other Nians looked at Zhao Fu, who was slightly bigger, but decided to keep chasing after the uncle Nian, as he was clearly much bigger. Because of what Zhao Fu had done, they had slightly caught up to the uncle Nian, and they would soon be able to chase him down.

Chapter 547: New Year Points

Zhao Fu continued to run and disregarded what was happening behind him. He did not pay any attention as to whether the uncle Nian had been caught, as escaping was the most important thing. Zhao Fu had always been more powerful than ordinary people, and now that he had become the same level as them, he was not quite used to this.

However, he could not do anything about it – the New Year Dreamland blocked off all powers, so after entering this place, he had to abide by its rules.

Now that his beginner protection had disappeared, he had to be careful because he could be attacked at any moment. Zhao Fu decided to look for his next opportunity to act.

Suddenly, a white light flashed ten meters away from him as a white orb appeared – it was a Level 1 glutinous riceball. While there was no one else around, Zhao Fu immediately ran over and ate the glutinous riceball.

“System announcement! You have eaten a Level 1 glutinous riceball and obtained ten New Year Points.”

After eating the glutinous riceball, Zhao Fu's body became a tiny bit bigger, and because there was no one around this area, the next three Level 1 glutinous riceballs that spawned were devoured by Zhao Fu as well.

With Zhao Fu's current body, he was clearly bigger than most Nians, so he would quickly become a target for other people. Just as Zhao Fu was searching for more glutinous riceballs, a Nian stealthily walked towards Zhao Fu.

In actuality, Zhao Fu had long since noticed this Nian – even though he did not have his various powers, he was still incredibly wary and observant. This Nian was only the size of ordinary Nians and had not obtained any New Year Points yet.

Zhao Fu continued to pretend that he had not discovered it and went on to look for glutinous riceballs.

The other Nian slowly drew near until it was only about three meters away. The other Nian lowered its body and prepared to attack Zhao Fu.

However, at that moment, Zhao Fu suddenly backflipped and landed behind the other Nian, startling it and causing it to immediately start to run.

However, Zhao Fu quickly caught up to it, as he was stronger and faster.

Seeing this, the other Nian said in a young woman's voice that was quite pleasant to listen to, "Big brother, I was wrong; please spare me!"

It was a young woman, but Zhao Fu showed no mercy. After all, she had tried to sneakily attack him first. He stretched out his claw and swiped at her bottom three times.

"System announcement! You have obtained five New Year Points!"

"System announcement! You have obtained five New Year Points!"

"System announcement! You have obtained five New Year Points!"

It seemed that attacking newly-spawned Nian did not give many New Year Points – each hit was only worth five points for a total of 15 points, making Zhao Fu feel quite disappointed.

"Your granny has remembered you. Don't let me see you again, or I'll..." the young woman furiously cursed, her voice completely different to the voice when she had been begging for mercy.

However, before she could finish her sentence, her body slowly disappeared, as she had been hit three times by Zhao Fu.

Hearing her, Zhao Fu couldn't help but smile. Even though the young woman's words were quite vicious, it was unlikely that she could fulfill what she wanted.

Zhao Fu did not mind her words, as the New Year Dreamland was quite big and it would be almost impossible to see her again. After dying, she would revive at a different place.

Following this, Zhao Fu continued to search for glutinous riceballs. He also found his next target, which was a Nian that was twice as big as ordinary Nian. It was ferociously chasing after other Nians.

With its size, it was most likely a Level 2 Nian. Nians were all split into different levels: the bigger a Nian was, the higher its level. As Nians leveled up, they would also obtain some skills.

Zhao Fu was not in a hurry to act, because with his speed and strength, it would be difficult for him to hit that Nian, so he had to have a plan.

At that moment, another Nian that was about the same size as Zhao Fu came over and said quietly in a youth's voice, "Friend, do you want to work together to hit him?"

Hearing this, Zhao Fu nodded. With his own strength, it would be quite difficult to hit that Nian, so he decided to work together.

Following this, the two of them talked before starting to move.

The big Nian continued to chase after a few other Nians, and because it was much faster, it was able to easily catch up to them. It swiped out with a paw, hitting one of the Nians before turning to another Nian.

Just as it was about to attack again, a black blur sped towards it. Zhao Fu had quickly run over and swiped at the big Nian's bottom.

However, that Nian had long since noticed Zhao Fu, and it suddenly turned and swiped at him. The immense power from its swing sent Zhao Fu flying, but luckily, he had not been hit on his bottom. Else, he would have lost some of his New Year Points.

Seeing Zhao Fu fly away, the big Nian coldly laughed and ran towards Zhao Fu, wanting to finish him off. With Zhao Fu's size, he probably had a lot of New Year Points as well.

However, at that moment, a claw swiped at his bottom – the youth working together with Zhao Fu had appeared, and he had been waiting for a while.

After being hit, the big Nian's body continuously gave off bubbles, and his body became smaller. After absorbing the bubbles, the youth's body became a bit bigger, but the big Nian's body was still much bigger. Facing the Nian that had just sneak-attacked it, the big Nian furiously roared and started to chase after that Nian.

However, at that moment, another claw swiped at its bottom – Zhao Fu had come back and attacked. Because they had discussed their plan beforehand, Zhao Fu and the youth were able to work together well.

After being hit by another sneak attack, the big Nian furiously turned and wanted to attack Zhao Fu. However, because it had lost so many New Year Points and Zhao Fu had absorbed so many, he was now bigger than it. Facing its attack, Zhao Fu dodged and swiped towards it.

After being hit on the bottom again, the other Nian's body started to glow with a white light. It had been hit three times, so it would have to revive. The Nian cursed before its body disappeared.

Zhao Fu had obtained two-thirds of that Nian's New Year Points, and he had become much bigger than ordinary Nians. He was now only a bit smaller than the bigger Nian had been.

The Nian that he had worked with ran over and laughed as he said, "Congratulations! You've become a Level 2 Nian now, right?"

Zhao Fu smiled and nodded because he had received a system announcement telling him that he had become a Level 2 Nian and received a boost to his speed.

“Would you like to continue working together?” the youth said. Now that Zhao Fu was a Level 2 Nian, with their teamwork last time, the youth trusted Zhao Fu, and if he continued to work together with Zhao Fu, he would be able to obtain even more benefits.

Zhao Fu didn't hesitate to agree, as he would be able to benefit as well.

Following this, the two of them attacked smaller Nians and ate glutinous riceballs. Soon, the other Nian had also become a Level 2 Nian.

By now, Zhao Fu could not be bothered with attacking smaller Nians, so he discussed with the youth about attacking another Level 2 Nian.

Chapter 548 - Golden Glutinous Riceball

The youth felt that this was a good idea. Since time was limited, neither of them wanted to waste their time attacking smaller Nians, as they would not obtain many New Year Points. They had to find other big Nians to obtain even more New Year Points.

Soon, they found a target. It was a Level 2 Nian chasing after smaller Nians, and while it was distracted, they snuck over.

Because the Level 2 Nian was too focused on chasing the smaller Nians, it did not notice them. By the time it finally saw them, it had already been surrounded by them.

The Level 2 Nian warily looked at Zhao Fu and the youth and said in a hoarse voice, “Is it possible for the two of you let me off this time?”

They had finally cornered their prey, so how could they let it off? The youth, who was standing behind the Level 2 Nian, attacked first and leaped forwards.

The Level 2 Nian immediately hopped to the side, and Zhao Fu grasped this opportunity to charge and tackle the Level 2 Nian, sending it flying. By the time it landed, the youth had arrived by its side and swiped at its bottom, causing it to release bubbles and making it decrease in size.

Zhao Fu also quickly ran over and hit its bottom, obtaining 150 New Year Points. After being hit twice, the Level 2 Nian became quite small and was no match for Zhao Fu and the youth.

Zhao Fu decided to give the last hit to the youth, as Zhao Fu had hit the previous Level 2 Nian twice, so he decided to let the youth have two hits this time.

However, at that moment, a smaller Nian suddenly rushed at Zhao Fu. It was one of the Nians that had been chased by the Level 2 Nian, and it wanted to launch an ambush while Zhao Fu was distracted.

Luckily, Zhao Fu was able to react in time; if it had been the youth, he most likely would have been hit, as his focus was completely on the Level 2 Nian.

Zhao Fu immediately turned and sprang at the smaller Nian. Because Zhao Fu's body was more than twice its size, his body completely covered it.

“Ahhh... I failed again!!” the Nian angrily yelled as it tried to reach around Zhao Fu to swipe at his bottom.

Zhao Fu felt quite speechless – it was her again. No wonder she had tried to sneak attack him. Indeed, this Nian was the young woman Zhao Fu had not spared. Even though Zhao Fu did not remember her appearance, he remembered her voice.

By now, the youth had finished killing the Level 2 Nian, and ran over and asked curiously, “What’s going on?”

Zhao Fu laughed as he swiped at the bottom of the Nian under him three times and said, “It’s nothing; I just caught an idiot who was trying to launch a sneak attack.”

The youth did not feel too surprised and nodded.

Because she had been hit by Zhao Fu three times again, the young woman’s body gave off a white light. She felt incredibly humiliated that she had been killed by this person twice in a row so easily and yelled angrily, “Your granny’s remembered you! Make sure...”

Before she could finish her sentence, her body disappeared. Zhao Fu smirked and completely disregarded her.

Afterward, Zhao Fu and the youth killed a few more Level 2 Nians and ate a few glutinous riceballs, becoming a bit closer.

“I forgot to ask – friend, what’s your name?” the youth suddenly awkwardly laughed and asked.

Zhao Fu thought about it and told the youth that he was called Zhao Xin. He could not reveal his identity, as there were no benefit to this and only detriments. Afterward, the youth told Zhao Fu that his name was Liu Xinze, and they casually chatted.

Following this, they continuously killed Level 2 Nians and devoured glutinous riceballs, and they quickly both reached Level 3.

However, after rising to Level 3, the two of them split up. This was because Level 3 Nians were essentially at the peak right now, as most people were still only Level 1 Nians and only a small portion were Level 2 Nians. If two Level 3 Nians hunted together, they would not be able to obtain significant gains, and it would be more inefficient to be alone.

It would be better for them to split up and take over an area by themselves. With their Level strength, they were essentially unrivalled, and they would be able to obtain more New Year Points by themselves.

Level 3 Nians were as big as hunting dogs, and Zhao Fu also received two bonus attributes: one was a strength enhancement, and the other was a protective barrier.

The strength enhancement was quite simple and just made him stronger, while the protective barrier was a defensive barrier that could withstand the attacks of seven or eight little Nians and be used once every ten minutes.

After splitting up with Liu Xinze, Zhao Fu chose an area and started to hunt down Level 2 Nians, and almost all of the ordinary Nians ran at the sight of Zhao Fu. None of them dared to attack him. After seeing Zhao Fu, even the Level 2 Nians decided to turn and leave.

This was because Level 3 Nians were simply too powerful, and Zhao Fu could easily kill Level 2 Nians. Zhao Fu's skill at swiping and hitting bottoms had greatly improved, and even though it seemed a bit vulgar, those were the rules.

Very soon, Zhao Fu turned his gaze to a Level 2 Nian, and he turned into a black blur as he sped towards it.

The Level 2 Nian was given a big fright, and seeing how big Zhao Fu was, it immediately chose to run.

However, all of it was for naught – Level 3 Nians were extraordinarily fast, so Zhao Fu was about to quickly catch up to it. Just as Zhao Fu raised his paw as he had always done, the Nian cried out.

“Umm... please don't kill me!” the escaping Nian turned and said in a soft woman's voice, making Zhao Fu pause, as this voice was quite familiar.

Zhao Fu thought about it but couldn't work out who this voice belonged to. It was possible that she had gone to the same university as him or was someone who he had worked with before.

However, because Zhao Fu had always been quite introverted, whether it was university or work, he did not have many friends, so he could not remember who it was.

Seeing as it was someone he knew, Zhao Fu decided to let her off and turned to chase down other Level 2 Nians.

Seeing Zhao Fu leave, the Level 2 Nian felt quite surprised; she had never expected that asking to be spared would actually work. However, she still let out a breath of relief and wondered if the Level 3 Nian was someone she knew.

“Screw you! Stop chasing me!” a boorish-sounding Nian cursed at Zhao Fu.

However, Zhao Fu had no intentions of letting him off and ferociously leapt over, kicking the Nian's bottom three times. Since he had cursed at him, Zhao Fu would not let him off.

The boorish-sounding Nian howled in pain and continued to unleash insults on Zhao Fu as it faded.

Suddenly, a golden light shined in the distance and was quite obvious in this region, attracting many people's gazes. All of them felt incredibly excited, as this was a golden glutinous riceball and would be worth 500 New Year Points. Immediately, countless Nians started to rush over.

Chapter 549: Level 4 Nian

Of course, Zhao Fu also saw the golden glutinous riceball and immediately rushed over. However, someone beat him to the chase – it was a Level 2 Nian who had happened to be close by.

Seeing the golden light nearby, the Level 2 Nian was quite startled before feeling incredibly excited, running over to devour the golden glutinous riceball. Its body continuously grew as it became a Level 3 Nian.

Seeing the other Nians swarming over, the Level 3 Nian roared, scaring the ordinary Level 1 Nians and making it so that they did not dare to approach.

However, there were ten or so Level 2 Nians and two Level 3 Nians that did not leave, and they instead looked at the Level 3 Nian that had just devoured the golden glutinous riceball.

Zhao Fu did not join them because looking at the Level 3 Nian at the center and the other Nians surrounding it, if he dumbly rushed in, he would not be able to obtain anything. Instead, he might be attacked by others.

Seeing so many Nians ferociously staring it down, the Nian that had eaten the golden glutinous riceball immediately turned and ran, and the other Nians chased after it.

A slight smile appeared on Zhao Fu's face as he followed behind them. However, his target was not the escaping Nian but the ones chasing after it.

This was because they were focused on their target ahead, making it easy for Zhao Fu to attack from behind. Moreover, with so many of them grouped together, he did not have to hunt them down individually.

Pa! Pa! Pa!

Zhao Fu rushed up behind a Level 2 Nian and hit its bottom three times. In just an instant, he had done this to six of them, and the other Level 2 Nians did not dare to give chase anymore, scattering in all directions.

The two Level 3 Nians were also afraid of being attacked from behind by Zhao Fu, so they also stopped. One of the Level 3 Nians said in a loud voice, "Let's kill this meddling sneak first!"

Seeing that it was two Level 3 Nians against one, the escaping Level 2 Nians all hesitated before returning and running towards Zhao Fu. On one hand, they felt quite angry about Zhao Fu sneak-attacking them. On the other hand, they might be able to obtain some benefits.

After all, they had two Level 3 Nians on their side, so it was unlikely that they would lose.

The Level 3 Nian that had eaten the golden glutinous riceball also stopped and waited to see if there were any opportunities for it to obtain more benefits.

Even though Zhao Fu had just helped him, he did not feel any gratitude, as he knew that Zhao Fu just wanted his New Year Points.

Seeing the Nians coming over to surround him, Zhao Fu did not feel any fear and instead started to laugh. His body gave off a large amount of white light as his body became as big as a lion – he was now a Level 4 Nian.

Seeing that Zhao Fu had become a Level 4 Nian, the others became incredibly startled, and those that were about to rush at him immediately turned and ran.

However, Zhao Fu definitely wouldn't spare them. In less than a minute, he had caught up with the two Level 3 Nians and whacked their bottoms, gaining him 1,200 New Year Points.

After this, Zhao Fu turned to look at the Nian who had eaten the golden glutinous riceball, causing its expression to fall. However, it was already quite far away, and because Zhao Fu could not catch up to it, he turned his gaze at the Level 2 Nians that were closer.

In just a few leaps, Zhao Fu caught up with a few Level 2 Nians. Just as he was about to attack them, he sensed a little Nian coming at him from behind. Zhao Fu quickly spun and used one paw to press it against the ground.

"Ah... let go of me, you bastard!" the little Nian said in a familiar female voice.

Zhao Fu started to feel quite frustrated – it was this young woman yet again, the one who had tried to sneak attack him.

Now, his body was as big as a lion while she was still only as big as a cat. Zhao Fu pressed her against the ground with a single paw, and no matter how she struggled, she could not break free.

"You bastard! That hurts!" the young woman Nian yelled as she glared at Zhao Fu.

Zhao Fu smirked – weren't people supposed to respawn at different places? How could he have encountered her yet again? However, after killing her twice, as a Level 4 Nian, he had no interest in her anymore.

Zhao Fu took his paw off her and said disdainfully, "Off you go, off you go... I won't kill you this time, but if you still come after me, I won't show mercy anymore!"

The young woman Nian looked at Zhao Fu tearily, looking incredibly wronged.

Seeing her like this, Zhao Fu thought about it and said sympathetically, "Alright, I'll let you hit me once. Happy?"

After saying this, Zhao Fu turned and pointed his bottom at the young woman Nian.

The young woman Nian looked at the bottom that she had wanted to attack this entire time, and her face lit up as she rushed up. However, thinking about this person's words, she started to hesitate, as he did not seem like a bad person and was instead quite nice.

After all, she had tried to sneak-attack him first, so there was nothing wrong about him killing her. Should she not attack him then? However, thinking about how he had killed her and humiliated her, she felt a bit wronged.

After thinking for a moment, the young woman Nian decided to hit him just once to relieve some of her anger.

The young woman Nian jumped up from the ground, swinging her little paw towards Zhao Fu. While she was in the air, she considered maybe becoming friends with Zhao Fu.

However, the scene before her suddenly changed – just as she was about to hit Zhao Fu, he suddenly turned around and swatted her away and laughed. What an idiot – she fell for something like this!

“Ahhh!! I’ll kill you!!” Now that she had been humiliated and tricked by him, the young woman Nian went mad and rushed towards Zhao Fu, wanting to bite off a chunk of his flesh.

Seeing her rush over, Zhao Fu killed her in an instant. He had wanted to let her off, but she had actually tried to hit him.

By now, she probably hated him to her bones. However, Zhao Fu did not mind too much, and he didn’t think that he would see her again. Even if he did, he would just kill her again.

After this, Zhao Fu continued to hunt down Level 2 Nians and continuously obtain more New Year Points.

After rising to Level 4, Zhao Fu had obtained a new attribute, which was enhanced senses. They allowed him to sense everything around him. With this attribute, it made it very hard for him to be sneak-attacked.

Now that Zhao Fu was a Level 4 Nian, he was essentially the most powerful being. However, he felt that the rate at which he obtained New Year Points was quite slow and wondered if there was any way for him to obtain a large amount of New Year Points.

Outside the New Year Dreamland, Zhao Fu’s body lay on the bed as the female attendants also slept soundly. After sensing Zhao Fu’s thoughts, the golden dragon opened its eyes and said to the four swords beside the bed, “Do you want to help your owner?”

The four swords lightly trembled and gave off different-colored lights, and the Slaughtering Ghost Sword said, “What method do you have to help owner?”

The golden dragon spoke and told them its method.

Chapter 550: Nian King Domain

As Zhao Fu thought about ways to obtain a large amount of New Year Points, he suddenly felt an immense pain within his head. It was a sharp, stabbing pain, and it was as if something was stabbing into his brain.

This immense pain caused Zhao Fu to powerlessly fall to the ground and roar in pain.

After hearing this large Nian fall to the ground and roar in pain, many other Nians ran over, and there were many Level 2 Nians and Level 3 Nians among them.

It was evident that this Nian was unable to fight, and with how big it was, killing it would result in a massive amount of New Year Points. Everyone was greedy for New Year Points, so countless Nians rushed over.

However, no one dared to make a move – after all, a thin camel was still larger than a horse, and it was still a Level 4 Nian, which was an apex predator in the New Year Dreamland. Many of them were afraid that Zhao Fu was pretending, as all of them were fine.

However, could they just keep watching on like this? The Nian horde felt quite hesitant, but suddenly, they all saw a little Nian rush out and hit Zhao Fu's bottom before quickly retreating.

Massive amounts of bubbles flowed out of Zhao Fu's body and entered that little Nian's body, making it immediately double in size and become a Level 2 Nian.

Seeing this, the countless Nians' eyes went red, and they were able to confirm that Zhao Fu was indeed unable to fight. Right now, Zhao Fu's head hurt so much that he was unable to pay attention to anything else.

As such, the Nian horde swarmed towards Zhao Fu and was just about to reach him when his head suddenly stopped hurting. Instead, there were now four sword lights within his head, which all gave off different lights and different auras. Zhao Fu could tell that these were his four swords.

Zhao Fu opened his eyes and looked at the approaching Nian horde as his eyes became cold, and he sent out the four sword lights.

The four sword lights shot out in different directions, sending out massive rays of sword light that quickly annihilated all of the approaching Nians.

Seeing this, the Nians at the outer ring were given a big fright and immediately ran away, resulting in there being a big, empty area around Zhao Fu.

At that moment, Zhao Fu's body gave off a large amount of white light. Even though Zhao Fu had just lost some New Year Points, the four sword lights had killed countless Nians, including Level 2 and Level 3 Nians, causing Zhao Fu to become a Level 5 Nian.

As a Level 5 Nian, Zhao Fu was now as big as an ox and even more powerful. Moreover, the light that Zhao Fu's body gave off was not white anymore but rainbow-colored. Now, Zhao Fu looked like a divine beast.

Zhao Fu felt a bit surprised, and after looking at the system announcement, he realized what was going on – Level 5 Nians were given a bloodline attribute.

In other words, his own body's bloodline was able to affect his Nian body within the New Year Dreamland. With his Sovereign Bloodline, it was not too surprising that he would give off rainbow-colored light.

With this bloodline attribute, all of his abilities became even more powerful.

After becoming a Level 5 Nian, Zhao Fu was essentially invincible, and he could also control his sword lights. He no longer had to chase after other Nians or hit their bottoms; he could directly use his sword lights to kill them and obtain New Year Points.

Zhao Fu did not know what was happening; it was as if there was a bug. However, he didn't mind and killed everyone who came his way, causing his New Year Points to continuously increase.

Suddenly, a violet glutinous riceball appeared, and its violet light shot in all directions, dying the area it was in with a violet light. Seeing this, countless Nians rushed over because violet glutinous riceballs were worth 1,200 New Year Points.

Because of how fast he was, Zhao Fu quickly arrived but laid an ambush. Seeing the massive number of Nians rushing over, Zhao Fu grinned as he sent out his sword lights towards them.

After seeing Zhao Fu, countless Nians turned and ran as they cried out, "The big Nian's over there! Don't go over!"

The 'big Nian' was naturally Zhao Fu. With his massive body, terrifying attacks, and unique rainbow light, he had become countless Nians' nightmare. Because Nians could continuously revive, people continuously told other people, resulting in most people knowing about Zhao Fu.

As such, as soon as they heard about the 'big Nian,' countless Nians desperately ran away and did not dare to go for the violet glutinous riceball. It was clear just how terrifying Zhao Fu was.

However, they were unable to escape; Zhao Fu caught up and pierced them with his sword lights, killing many of them, and the rest of them scattered in terror.

Finally, looking at the empty region, Zhao Fu put away his sword lights and ate the violet glutinous riceball.

"System announcement! You have eaten a Violet Glutinous Riceball and obtained 1,200 New Year Points!"

"System announcement! You have become a Level 6 Nian!"

Just as Zhao Fu ate this violet glutinous riceball, he received two system announcements. His body once again became bigger, and he was now as big as an elephant. The aura he gave off was also even more powerful.

At the same time, Zhao Fu received a new attribute, which was Beast King Domain!

Within his Beast King Domain, all of Zhao Fu's attributes were enhanced, while those that stepped within his Beast King Domain would have their attributes weakened.

After rising to Level 6, Zhao Fu became even more overpowered, and he continued to massacre everyone he came across, leaving behind no survivors.

Seven hours later, Zhao Fu's body had become 20 meters tall, looking like a small mountain, and he gave off a horrifying aura. Any Nians that saw Zhao Fu in the distance would immediately turn and run.

By now, Zhao Fu was a Level 9 Nian, a peak-level existence, and he was simply incomparable.

After reaching this state, Zhao Fu realized how lonely it was being this powerful and that the number of prey was decreasing. Zhao Fu did not even bother killing hundreds of smaller Nian, so he could only walk around looking for more powerful Nian or massive groups of Nians.

Suddenly, Zhao Fu saw a familiar figure, and he lightly laughed as he jumped and landed in front of a little Nian.

That little Nian had been quite happy as she ate a glutinous riceball, but the sudden appearance of the figure in front of her caused her to immediately turn and run. The aura of the figure in front of her was simply too powerful, simply a monster.

Seeing that she wanted to run, Zhao Fu stretched out a claw and pressed her against the ground, and the little Nian looked at the massive figure in terror.

Because Zhao Fu's body had become so much bigger than before, it took the little Nian a while to realize who he was before she waved her little paws, angrily shouting, "It's you again! I'll kill you!!"

She was that young woman Nian, and Zhao Fu had never expected to see her again. Funnily enough, she still wanted to kill him, and Zhao Fu grinned as he flicked her away, not even bothering killing her.
