

The Lord 611

Chapter 611: Terrifying Power

Shama finally used his Nation Armament's power, and he had unleashed all of its power from the beginning. It seemed that Shama had made his decision to kill Great Qin's Legatee and trample on Great Qin's name. He was determined to have India replace China as the most powerful nation.

Zhao Fu felt quite surprised as he looked at the stone pillar descending. The Nation Armament was called Pillars of Ashoka, and it was more powerful than ordinary Nation Armaments. As expected from the Nation Armament of the Maurya Dynasty.

Because of this massive aura, Zhao Fu, who had been charging at Shama, was forced backward.

Shama coldly laughed and pointed at Zhao Fu as a silver light beam shot out of his finger and flashed out, knocking Zhao Fu away. The terrifying power blasted Zhao Fu's body into a mountain hundreds of meters away.

The face of the mountain cracked, and Zhao Fu seemed to be embedded in the face of the mountain. He lightly coughed up a mouthful of blood – this Nation Armament's power was quite terrifying.

Zhao Fu currently could not use his Nation Armament, as Great Qin's Fate had just started to recover, and they did not have much Fate right now, so using it would harm Great Qin's foundation.

Shama walked over in the air, the hundred meter tall stone pillar floating behind him as he looked at the wretched Zhao Fu. He gave a pleased smile – who had ever made Great Qin's Legatee seem so wretched before?

“Great Qin's Legatee! Prostrate yourself before my feet; you should know that it's impossible for you to defeat me. As long as you're willing to submit and pledge your loyalty, I'll give you a few regions after I destroy China and allow you to live out the rest of your life peacefully!” Shama said arrogantly and domineeringly.

Zhao Fu coldly laughed and said in a hoarse voice, “Your Nation Armament is only Level three; do you really think I can't beat you?”

Right after speaking, Zhao Fu stretched out a hand as a black ray of light shot into the sky, exploding out with shocking power. It then gave off massive amounts of black light, forming an enormous orb of black light – it was Zhao Fu’s City Lord Seal.

Great Qin’s City Lords all sensed something and exploded out with their City Lord Seals’ power, causing terrifying power to rush out to the sky.

Around Zhao Fu’s City Lord Seal, orbs of light of all sorts of colors appeared, surrounding the Great Qin Seal – this was the power of the various City Lord Seals.

As the main City Lord Seal, the Great Qin Seal could use the power of the subsidiary City Lord Seals.

The 24 orbs of light shined resplendently like stars in the sky, and Zhao Fu gave a large shout as the Great Qin Seal gave off an even more intense black light. Following this, the 23 orbs of light around it started to spin.

Boom!!

Another shocking explosion rang out as the entire sky seemed to descend, and countless people felt their bodies grow heavier. Many trees started to bend under this pressure.

The 23 orbs of light formed a colorful ring of light, causing the heavens and earth to lose color and for the sun and moon to go dim. A terrifying aura filled this entire region.

Zhao Fu’s body became covered with a rainbow light as his aura became terrifying to the extreme to the point that even the space around him became distorted.

Shama looked at Zhao Fu seriously and raised his hand. His Nation Armament shot out countless rays of silver light, and under Shama’s control, they formed silver spears that pointed towards Zhao Fu.

Whoosh, whoosh, whoosh...

When Shama lowered his hand, the countless silver spears shot out simultaneously, flashing by in an instant and drawing out silver lines in the sky. The aura they gave off seemed to be able to pierce through the world, and they were incredibly terrifying.

Clang, clang, clang...

Zhao Fu's body started to spin and continuously unleash sword lights. His surroundings were filled with sharp sword qi, forming a whirlwind of sword qi.

The countless silver spears smashed into the sword qi whirlwind, causing clanging sounds to continuously sound out. Silver light filled the surroundings as the whirlwind continued to spin. In the end, the countless silver spears were unable to break through the whirlwind, and they were instead all destroyed.

Shama's expression changed, and he raised his hand flat as his Nation Armament continuously shrank before turning into a two meter long stone staff.

Bang!

Shama kicked off in the air as he shot forwards like a ray of light, appearing above Zhao Fu. He grabbed the stone staff with both hands and raised it high as if he was going to split the world apart before striking down savagely at Zhao Fu.

Boom!!

A gigantic explosion sounded out. Even though Zhao Fu used his sword to block the stone staff, a mighty shockwave erupted from this clash and rippled out. Within 10,000 meters, everything collapsed, instantly creating a 10,000-meter wide crater.

The web between Zhao Fu's thumb and forefinger was torn, and a trace of blood leaked out of his lips. Zhao Fu had been worse for wear after blocking that strike, and he had suffered a moderate injury.

Shama's expression became savage as he gripped the stone staff and pressed down towards Zhao Fu, while Zhao Fu's gaze became cold as he chose to retreat.

Seeing this, Shama immediately chased after Zhao Fu and continuously swung the stone pillar at him. His attacks were incredibly fast and ferocious, forcing Zhao Fu to continuously block and retreat.

As they clashed, the staff wind and sword light shot everywhere, continuously destroying the ground beneath them. Every time an attack hit the ground, a large crater would appear, and trees and rocks would be destroyed. No one dared to come near them at all.

Zhao Fu was at a great disadvantage as he continuously retreated while Shama chased after him and attacked.

“Hahh!!” Shama roared as he exploded out with strength. His body shot out countless traces of silver light, which was extremely brilliant, and his aura rose to its peak.

Zhao Fu’s expression fell and he lightly yelled, “Godly Demonic Thrust!”

Massive amounts of energy entered the Sin Dragon Sword, causing it to vibrate and give off a hum as boundless sword qi rushed out like streams and the image of a sword appeared.

The aura that the sword gave off was incredibly terrifying, and not only was it abnormally sharp, but it also gave off an aura of annihilation. That sort of power was not something that this world should possess, and all around the sword image, small spatial cracks appeared.

Shama swung the stone staff with all his might, causing the air to explode as the staff battered towards Zhao Fu.

Zhao Fu also used his full strength to slash out with his sword, creating a massive wave of sword qi.

Boom!!

The sword and staff collided, resulting in a massive explosion. The air seemed to explode, and a massive gust of wind swept out. Zhao Fu flew backward, smashing into a small hill and causing it to collapse.

Shama grinned and coldly laughed – he was certain of his victory.

However, in the next moment, Shama found that something was off. Lying within the rocks, Zhao Fu suddenly stretched out a hand and pressed against the air.

Shama suddenly looked up and saw the circle of light formed from the powers of the various City Lord Seals was giving off a boundless power and was descending towards him. Shama hurriedly used his stone staff to defend.

Boom!!

The colorful circle of light immediately landed, making it seem as if the entire sky had fallen. Mountains trembled as a 10,000 meter wide, bottomless pit appeared in the ground.

After a brief silence, aloud shout sounded out as a five-colored divine light shot out of the pit and blasted into the clouds. The heavens and earth gradually darkened, not just in the surrounding regions but also the entirety of the Midland Continent's west, and everyone felt something incredibly terrifying descending.

Chapter 612 - God Emperor Body

Countless people in other regions could sense how terrifying and intense the battle at the main battle region was. Just the aura that they felt made them feel incredibly shocked. They all felt that they would not be able to deal with such terrifying power, and only Great Qin's Legatee would be able to face such a thing.

After sensing this incredibly terrifying power, Liu Ye's gaze became incredibly serious. He also felt a trace of worry as to whether Great Qin's Legatee would be able to resist it.

If he couldn't, they would lose this battle. Even though he used to be Great Qin's enemy, Great Qin was standing on China's side, so if he lost, things would be quite bad for China.

Back at the main battlefield, the world seemed to have gone dark, and all creatures seemed to have fallen silent. There was not even the sound of wind; there was only a five-colored pillar of light standing between the heavens and the earth, giving off an ocean-like aura.

“Skreeeeee!!” A massive bird’s cry sounded out from within the pit, seeming to tear apart the heavens. Following this, a peacock giving off a five-colored divine light flew out of the pit. The five-colored divine light covered the entire land, and the massive aura seemed to cover the entire region, shaking the heavens and the earth.

This peacock was thousands of metres big, and seemed to be made of glass. It was incredibly beautiful, and on top of the peacock, Shama was standing there covered with blood, looking at Zhao Fu with eerie killing intent.

Shama had never expected that he would be forced by Zhao Fu to use his Clan Armament, the Divine Peacock Statue. Shama was not thinking about much and was just filled with fury, wanting to kill off Zhao Fu as soon as possible.

Looking at Zhao Fu, Shama once again attacked. The five-colored peacock flapped its wings, and a five-colored aura swept towards Zhao Fu like an ocean.

The five-colored ocean filled the entire sky and looked both beautiful and terrifying, and it seemed like it would disintegrate anything it came into contact with. The space around it continuously crumbled, and whenever the aura touched things like trees, the parts of the trees that were touched would instantly disappear as if they were wiped from existence.

The five-colored ocean quickly descended and inundated the land. Many people were caught in it, and they were killed before they could even cry out.

At the same time, Zhao Fu was also covered by this five-colored ocean, and such a monstrous attack was not something that an ordinary person could withstand; it was enough to decimate an army.

On the Chinese side, seeing that Zhao Fu had been covered by the five-colored ocean without any resistance, the Chinese players’ hearts sank. Could it be that Great Qin’s Legatee had died and that China had lost?

“Roar! Roar! Roar! Roar...”

Nine massive dragon roars rocked the heavens and the earth, and a golden light shot everywhere, dyeing half of the sky golden. Zhao Fu stood in the air above the five-colored ocean with nine golden dragons surrounding him. The five-colored ocean could not touch him at all, and Zhao Fu looked like a supreme emperor.

Even though Zhao Fu was unable to use his Nation Armament, he could use the Clan Armament. After all, the Clan Armament represented all of China, and he could use all of China's Fate.

Of course, the prerequisite was that he had to have the majority of the support of China, and that power had to be used against foreigners instead of against other Chinese people.

“We, Great Qin Legatee, request for China's Fate to be added unto Us to expel the foreign invaders!”

As Zhao Fu spoke, the entirety of China spoke, and all Chinese people received a system announcement. They immediately all consented, and countless traces of Fate flowed out from China's territory, madly gathering towards Zhao Fu.

The traces of Fate soon formed an ocean that flowed into Zhao Fu's body, while Zhao Fu automatically rose into the sky and gave off a brilliant golden light. He looked like a golden sun shining down on the earth, and the aura he gave off seemed to be able to destroy the heavens and the earth.

Seeing this, Shama understood that Zhao Fu had come prepared. However, he was not afraid as he could utilise India's Fate, and following this, the Fate from the various regions in India also gathered into an ocean and entered Shama's body, causing the five-colored divine light that the peacock gave off to become even more intense.

The terrifying auras of the two people covered the entire Midland Continent, and all countries and races could feel this immense power, causing people's bodies to tremble.

Everyone held their breaths. They had all been paying attention to this battle, as it was not just a battle between two large nations but also between two great ethnic groups. Both sides had unleashed their full power and gathered all of their countries' Fate for a final clash!

Zhao Fu and Shama stood facing each other in the sky, and the world seemed to be divided in half: one side was filled with a five-colored light while the other was filled with golden light.

Clang, clang, clang...

Zhao Fu moved first. The Sword Mark on the back of his hand flashed as five swords appeared around him. They were the Sky Demon Sword, Slaughtering Ghost Sword, Royal Wood Sword, Sin Dragon Sword, and Seraph Sword.

Under Zhao Fu's control, the five swords gave off thousand meter long sword light, filling the world with boundless sword qi. Everything around Zhao Fu was annihilated by the sword qi, with the ground below him being covered with sword gashes.

Boom!!

Zhao Fu controlled the boundless sword qi as he rushed at Shama. The five swords stayed beside him and also flew towards Shama. The massive amount of sword qi caused the surrounding air to explode, rocking even the surrounding regions.

Shama stood on the massive five-colored peacock and showed no signs of weakness as he charged over. He brought the terrifying five-colored ocean with him, giving off a shocking aura.

Boom!!!

A gigantic sound erupted as the five-colored ocean and boundless sword qi collided, and it was as if two worlds had collided.

The sword qi was incredibly sharp, being able to cut anything, and the five-colored aura was powerful enough to disintegrate anything it touched. As they clashed, there was no definite winner as the sword qi continuously shattered the five-colored aura, while the five-colored aura also disintegrated the sword qi.

Zhao Fu waved his hand, and the five swords beside him shot out a large amount of different-colored sword lights as they flew towards Shama and started to attack.

The swords turned into rays of light and attacked the five-colored peacock from different positions at different times, drawing out sword gashes in the air.

Shama controlled the five-colored peacock to give out a five-coloured divine light to block those sharp swords. The peacock mainly used its claws and wings to continuously block the swords or send them flying back.

The resulting shockwaves were incredibly loud and caused the sky to continuously shake.

Seeing that only some light injuries had been dealt to the five-colored peacock, Zhao Fu narrowed his eyes and exuded a cold aura.

Roar! Roar! Roar...

Dragon roars sounded out as the nine golden dragons around Zhao Fu roared as they rushed towards the five-colored peacock. After leaving his side, they turned into 1,000 meter long golden dragons and madly attacked the five-colored peacock.

The golden dragons either used their bodies to slam into the peacock, sending it flying, or used their mouths to bite it, though such attacks were not too effective. Some other dragons wrapped around the peacock and constricted it.

Adding on the five swords that continued to attack, the five-colored peacock was now at a disadvantage and became covered with wounds.

Shama's expression became quite ugly, and he immediately yelled, "God Emperor Body!"

"Skreeeeee!!" the five colored peacock gave a loud cry and suddenly spread its wings, giving off an intense five-colored divine light and forcing the golden dragons and swords to retreat.

Following this, the gigantic five-colored peacock turned into a five-colored wave of light that entered Shama's body.

Boom!!

A world-destroying power exploded out, causing the surrounding 10,000 meters to collapse and disintegrate. The area around Shama became pitch-black as if he had turned into a black hole.

At that moment, a five-colored divine light burst out of the black hole, and a terrifying figure appeared at the center of the black hole. The figure gave off a majesti, holy aura, and it was wearing five-colored feather clothes. There was a five-colored eye on his forehead, and his body was

surrounded by a five-colored glow. There was a two meter long stone staff in his hand, and he looked just like a god.

Zhao Fu looked at Shama and felt quite shocked – Shama’s power was now many times more powerful than before, and he was using the Pillars of Ashoka as well.

Shama coldly looked at Zhao Fu and swung his stone staff. A five-colored light shot out, blasting the golden dragons and swords away.

Zhao Fu looked back at Shama and grabbed at the air, causing the five swords to fuse into one and the nine golden dragons to enter the sword, ultimately forming a golden dragon sword. It looked quite like the Sin Dragon Sword, but it was completely golden and was covered with dragon scales.

The sword also gave off a world-destroying aura, and it seemed as if a single trace of sword qi from it could split the world in half. It was now like a peerless god’s sword.

As Zhao Fu held the sword, his aura became more powerful until it was not inferior to Shama’s at all. The true battle had begun.

Shama took the initiative to attack, turning into a ray of light and rushing before Zhao Fu. He raised the stone staff and swung it at Zhao Fu, while Zhao Fu slashed with his sword in response.

Boom! Boom! Boom!

Explosions continuously sounded out in the sky, and the destructive aura made countless people feel incredibly shocked. This completely surpassed a battle between humans, and it was like a battle between gods.

Zhao Fu held an advantage, as China’s Clan Armament was stronger than India’s Clan Armament, and China also possessed an advantage in terms of Fate. Thus, as they fought, Shama became more and more at a disadvantage.

Shama understood this, so he decided not to continue on like this, instead gathering all of his strength within the five-colored eye on his forehead.

The eye continuously spun within its socket and shot out a five-colored light. Even though it was incredibly beautiful, an aura of destruction and annihilation accompanied it, filling the western side of the Midland Continent. Everyone felt a chill as if they had fallen into an icy cavern. This eye was a forbidden eye.

Zhao Fu could sense the immense danger, and his hairs stood on end as he also felt a chill within his heart.

At that moment, the golden dragon said seriously, “Zhao Fu, give your body to me and let me control it!”

Zhao Fu quickly thought about this before agreeing. Following this, the golden dragon’s consciousness entered Zhao Fu’s head, and Zhao Fu’s eyes had four pupils: a pair of blood-red pupils and a pair of black pupils. Even though there was no change to his power, his aura greatly changed.

Shama unleashed his attack and yelled, “Ashes to Ashes!”

The entire world trembled, as if in terror, and the five-coloured eye stared at Zhao Fu and gave off massive amounts of five-coloured light. Everything around Shama was obliterated, and anything that this eye hit would be completely erased. Even gods would stand no chance.

“Heaven and Earth Slash!” At that moment, Zhao Fu, or rather, the golden dragon, roared and slashed out.

The attack looked just like an ordinary person swinging the sword, and Zhao Fu felt quite surprised, not understanding what was going on.

However, the world soundlessly seemed to have been split in two. The sky and earth were split into two: there was a straight line cutting through the sky, while there was a bottomless gash on the ground that extended for as far as the eye could see.

Shama stared in shock – his body had been completely split in two.

Chapter 613: Maurya Dynasty

“What sort of attack was that?” Zhao Fu asked in shock.

The golden dragon calmly replied, “It was an Origin attack! Because you’re too weak, you’re unable to use it. If it wasn’t for you having all of China’s Fate, I would not have been able to use it either!”

Zhao Fu nodded; he understood that he was still quite weak at the moment.

Clang, clang, clang...

The golden dragon controlled Zhao Fu’s body to use the King’s Crown. Countless chains flew out and pierced Shama’s corpse, and three things were dragged out by the chains.

They were a glass peacock, a 30-centimeter long wooden staff, and an azure City Lord Seal.

These three things gave off different, terrifying powers, and they continuously struggled, wanting to break free from the chains. However, the golden dragon used China’s Fate to forcefully suppress them, and he put them away.

If a Legatee died before establishing a city, it would not be a big deal, and their death would just be like an ordinary person dying. They would lose their items and cultivation, but they would still be a Legatee. After all, because they would not die a true death, they would still be the Legatee and would just lose some Fate.

However, things would be different if they had already established a city. After all, they would have formed a City Lord Seal, and after dying, their City Lord Seal would remain within their bodies and could be obtained by others. That meant that their cities would be in grave danger and could be conquered at any moment.

That was why the other Dynasty Legatees had been worried and had not come to meet Zhao Fu.

However, even if one lost one's City Lord Seal, they would still have some powers, such as destroying the city and making it recede into a Town, before re-establishing the City and re-condensing a City Lord Seal. That way, the City Lord Seal in Zhao Fu's hand would become useless.

As for the Nation Armament and Clan Armament, the golden dragon had used a secret method that relied on killing the Legatee to forcefully steal them over.

Now that Shama had died, the Indian side's morale completely collapsed. After seeing Zhao Fu's world-destroying power, making him seem like a god, they felt completely terrified and continuously retreated, while the Chinese side gave chase and killed everyone in their way.

In the other battle regions, after Shama died, the Indian armies also lost their will to fight. Liu Ye stood in the air, his pupils constricted as he felt greatly shocked. The sword gash had extended to where he was, and that was two regions away from the main battle region.

Back then, it had all happened as soundlessly as a light breeze passing by. The entire sky and earth had been split in half, and countless people had turned into bloody vapor.

This sort of power was simply too monstrous; Great Qin's Legatee's methods were incredibly chilling. That mighty and terrifying power had disappeared, while the Chinese side felt an immense wave of Fate enter China. After all, this had been a battle between two nations and two ethnic groups, and they had used all of their Fate.

The losing side lost a lot of their Fate, which was absorbed by the winning side.

Through this, countless Chinese players knew that the Chinese side had won this world-shaking battle. Great Qin had won.

China's the mightiest! China's the strongest! Long live China!

Countless people excitedly yelled – this included both ordinary people and even the leaders of large factions. All of them felt extremely happy about the result of this battle.

After all, India had been the greatest threat to China and its biggest enemy. Now that they had defeated India, they all felt incredibly delighted. After suffering this loss, India had taken a big hit

and would not dare to invade China so daringly, and China would not have to worry about the threat of India.

On the other hand, the various countries around the world felt quite disappointed, as China's strength was simply too strong. They had hoped that India would win so that China would be suppressed, making it easier for them to deal with China in the future.

All of the countries supporting India fell silent and were not able to say anything at all.

However, what no one had expected was that an even more shocking piece of news exploded out right after: three million or so people in India had died in the real world.

Even hundreds of people dying in a country was something that could shake the whole world, and now that three million people had suddenly died, it was as if the world had exploded.

How could so many people have died? Just what had happened?

Countless people felt terror, and when they thought about so many people dying, their bodies trembled. After all, three million dying all of a sudden in the real world was incredibly terrifying.

It was not just the foreign countries that felt shocked and afraid but even the Chinese side. Nothing like this had ever happened before.

Countless people could not understand how such a thing could have happened. Soon, some people realized that Great Qin had participated in this battle and had stated that Great Qin would definitely win this battle.

Could it be that Great Qin had obtained something that could mass-kill players? Soon, it was confirmed that this was indeed done by Great Qin.

Immediately, the entire world gasped in horror; they had never thought that Great Qin would obtain such a terrifying method. Now, who would dare to oppose Great Qin? If they died, they would die a true death. Who wouldn't fear such a thing?

After this matter was reported, Great Qin became dozens of times more dangerous. Those who had opposed Great Qin before felt quite afraid; if Great Qin used this method against them, they would be done for.

In that moment, all insults and opposition directed at Great Qin instantly disappeared. No one dared to make even a bit of noise.

This was indeed done by Great Qin, and they had done it through the Reality Harming Talismans. Before, Zhao Fu had chosen one million elites from the army and given each of them a talisman paper, but he had not told them what the effects were.

Without the Reality Harming Talismans, the Indian army would not have withdrawn so quickly and decisively. It was only because they had heard that countless people were dying in the real world that they had felt terrified and unhesitatingly retreated.

The Chinese side flooded forwards, killing the escaping Indian players. Because they were still within China's territory and the Indian players were intruders, killing them would give four times the rewards.

Zhao Fu looked at the azure City Lord Seal in his hand and did not hesitate. He had previously obtained information as to where the Maurya Dynasty was, which was in a region near the border.

As the most powerful and famous Dynasty in India, everyone knew which region it was in. Zhao Fu disregarded everything else and turned into a ray of light and flew in that direction.

He naturally felt quite excited and nervous because he was about to take over a Dynasty. Of course, he had to be careful – even though people normally would not be able to log on for ten days after dying, perhaps Shama had some way to return to the Heaven Awaken World in advance.

If that happened, Shama could relocate the city, and even though it would cost him and his Legacy, there was nothing Zhao Fu would be able to do about it.

Chapter 614: End

Bringing with him those apprehensive feelings, Zhao Fu continuously increased his speed as he flew as fast as he could. His surroundings blurred as he passed them, and he then continuously used teleportation channels before he finally found the Maurya Dynasty.

The Maurya City was in a state of emergency, and soldiers gripped their weapons as they looked around, preparing to face any enemies. There were also soldiers patrolling everywhere to make sure that no one could sneak in.

They had already received news that Shama had died and that the City Lord Seal had fallen into someone else's hands. As such, they had to defend Maurya City until Shama once again entered the Heaven Awaken World.

In the Heaven Awaken World, after a Legatee died, they would not spawn anywhere else and would instead respawn within their own territory. After dying, Shama had returned to the real world, and he still did not know that his Nation Armament and Clan Armament had been taken by the golden dragon after he had died.

What he did know was that the City Lord Seal had fallen into someone else's hands, so he felt incredibly worried. However, he had a special item that reduced the death penalty to just ten hours.

There were still a few minutes before he could re-enter the Heaven Awaken World. If it was anyone else, Shama would not feel worried, because even if the City Lord Seal had fallen into their hands, the Nation Armament and Clan Armament would automatically protect the city.

However, facing Great Qin's Legatee, Shama felt quite worried and had a sinking feeling.

By now, Zhao Fu had already snuck into Maurya City. After all, not only did he have a high cultivation, but he was also an Assassin and had the Stealther. As such, he hid his presence and was able to easily sneak in without anyone discovering him.

Zhao Fu immediately headed for the City Hall, which was covered by an azure energy barrier. There were currently many people attacking it.

These were, of course, the Maurya Dynasty's soldiers. After all, if they could break the barrier, one of them would be able to conquer the city. In order to take precautions, the historical figures decided to break the energy barrier, as they had found that the Nation Armament and Clan Armament had disappeared.

It was a pity that this was a Dynasty-level barrier, and even though countless people had been attacking for ten hours, there were only small cracks on the barrier.

Zhao Fu silently continued onwards and entered the barrier. Because he had the City Lord Seal, the barrier was ineffective against Zhao Fu and could not stop him at all.

By now, Shama had re-entered the Heaven Awaken World. Seeing the state of the city, it seemed that no one had attacked or entered, so he was finally able to relax.

However, at that moment, Zhao Fu put his hand on the City Heart and chose to conquer and relocate the city.

Roar!!!!

An azure pillar of light rushed into the sky and dyed the entire sky azure. Following this, a mighty dragon's roar turned into a corporeal soundwave and spread throughout all of India, and it was filled with pain, reluctance, and bitterness.

India, who had lost the battle, was already feeling quite depressed, but hearing this dragon's roar, their expressions fell, as a Dynasty Legacy had been destroyed.

In the sky, a dragon that gave off an azure light that was hundreds of meters long struggled in the air before its massive body shattered and dissipated into motes of light.

Everyone in the Maurya City looked up in the sky in shock, unable to believe what was happening. Shama felt so angry that he felt as if his eyes were going to explode, and he rushed towards the City Hall.

“System announcement! The Maurya Dynasty has been destroyed, and all of its Fate has been devoured by Great Qin. Great Qin has obtained a large amount of Fate.”

“System announcement! Great Qin has destroyed the Maurya Dynasty and obtained all of its Legacies.”

“System announcement! The Great Qin’s City Heart has started to evolve, and it has completed 10/30 of the evolution.”

“System announcement! The Great Qin City has obtained one-fifth of the Maurya City’s stats.”

“System announcement! The Nation Armament Twelve Metal Colossi has obtained a massive amount of Fate and has leveled up into a Level 6 Nation Armament.”

“System announcement! The Clan Armament Imperial Ruler’s Seal has obtained a massive amount of Fate and has leveled up into a Level 5 Clan Armament.”

“System announcement! You have conquered a Legacy City and obtained 5,000 Achievement Points.”

“System announcement! You have relocated a city and obtained 620,000 EXP!”

After hearing those system announcements, Zhao Fu couldn’t help but loudly laugh before shooting into the sky. He ignored the furious, hateful, and pleading gazes below and turned into a black blur as he flew away.

Shama collapsed to the ground, his eyes empty as tears streamed out of them. Just like that, the Maurya Dynasty had been destroyed. He had lost the most important thing in his life.

Zhao Fu held the City Creation Stone as he quickly returned, grinning all of the way. He had actually destroyed a Dynasty, and the Fate that Great Qin had obtained caused it to recover to two-thirds of what it was before. It had also caused the Nation Armament and Clan Armament to level up again.

The Great Qin’s City Heart had also completed 10/30 of its evolution – it seemed that a Dynasty Legacy was worth five State or Nation Legacies.

“Hahahaha...”

His gains this time were simply too monstrous; not only had he taken the Maurya Dynasty’s Nation Armament and Clan Armament, but he had also destroyed the Dynasty itself.

This news quickly spread to the real world, and the Chinese side was incredibly happy. Not only had they destroyed a Dynasty, but Great Qin had also suppressed the Nation Armament and Clan Armament. However, there were some who sighed, as Great Qin's strength would once again grow.

However, they had never expected that Great Qin could refine other people's Nation Armaments and Clan Armaments; they thought that Great Qin had just suppressed them. After all, no one but the Legatees should be able to use their Nation Armaments or Clan Armaments.

On the Indian side, countless people felt incredibly furious. Not only had so many people died, but one of their Dynasties had also been destroyed, and even their Clan Armament had been suppressed and taken away. In the real world, India sent an army to its border with China and demanded an explanation.

However, the Chinese side did not give them an explanation, as they were unable to affect Great Qin at all. In actuality, Great Qin had killed many people from India's governmental faction, so in terms of military, China was now able to annihilate India. Because of this, China showed no fear. India did not have too much confidence, so they did not dare to attack and simply wanted an explanation.

India wanted to ally with America and some small countries to apply pressure to China, but none of them were willing to help.

None of the smaller countries dared to do anything against China now, and it was difficult for America to even survive. They did not have any Legacies within the Heaven Awaken World, so they could only steal indigenous Legacies and focus on developing. They paid no attention to this sort of thing.

Now, apart from India's large population, there was nothing to worry about it. China was now indisputably the most powerful nation in the Midland Continent, and no one could rival them anymore. China's position was now solid.

Zhao Fu returned to the boundary region, and none of the three other Dynasty Legatees dared to meet him. Even Liu Ye, who had been quite confident, had been convinced by others to leave first and return to his own region.

The other factions were also quite afraid of Zhao Fu. After all, Great Qin now had a method to kill a large number of players, so he could kill them too. As such, some of the leaders did not dare to stay and had their representatives stay.

Chapter 615: Refining a Nation Armament

Zhao Fu did not mind them, as he had completed his goal in coming here. Following this, Zhao Fu gave out a quest for Indian indigenous residents, and he offered a high price of one gold coin for each one brought.

This made many people feel tempted, as one gold coin was equivalent to 10,000 copper coins. If they took down a village, they would be able to obtain a few hundred people, which was equivalent to hundreds of gold coins. If they exchanged that into money in the real world, it would be like winning the lottery.

Many people excitedly rushed into India's territory and started to look for indigenous residents. India could not put up much of a resistance at the moment, as they were still terrified of dying a true death. As such, they continuously retreated, and in just a few days, China was able to take over ten or so Indian regions.

Zhao Fu stayed here for a few days, and players continuously delivered Indian indigenous residents. By now, Zhao Fu had announced that he would only be taking 1.1 million Indian indigenous residents.

The players passionately responded to Great Qin's lavish spending of money, and they continuously brought Indian indigenous residents to him.

The Chinese players did not have any favorability towards the Indian indigenous players, and they would normally kill them and take their things. Now, even though Zhao Fu was effectively buying and saving them, the players would be able to earn a large income.

The door to the outside world continuously transported people, and Zhao Fu only returned to Great Qin after a few days. Only after hearing that Great Qin's Legatee had left did the Indian people show some resistance.

By now, he had bought 100,000 Indian indigenous residents and brought them back to Great Qin. He continued to buy them, and they were continuously transported over.

Now that he could refine the Nation Armament, Zhao Fu felt quite excited and grinned. Zhao Fu had also re-established the Maurya City, and because it had been relocated, it went from an Advanced City into a Basic City, which was a bit of a pity.

Zhao Fu decided to give the City Lord Seal to Bai Xihan. The Maurya City was Legendary grade, so its stats were naturally extremely good. However, as an Indian Legacy's city, Zhao Fu felt that giving it to an Indian person would be better, but it was a pity that he had no Indian subordinates. As such, he gave the City Lord position to Bai Xihan for now, and if he had any suitable Indian subordinates in future, he would give it to them. After all, only an Indian person could fully wield the Maurya City's power.

Following this, Zhao Fu returned to the Meeting Hall, where there were nine Indian women waiting. They were all extremely beautiful, and they had a decent amount of Phoenix Qi.

This was the special task that Zhao Fu had given to the Assassin Legatees, which was to capture the women from the Maurya Dynasty. A lot of the information from Flower Moon was about them.

The first one was 40 or so years old who had decent looks and a voluptuous body. Even though she was an older woman, she had a unique elegance about her and gave off a mature aura. She was called Karima and was Shama's mother.

The second was extremely beautiful, and she had a sweet and dignified bearing and a noble aura. She was called Priya, and she was one of Shama's three aunts.

The third was a graceful woman with delicate features and a slim figure. She was called Rani and was another of Shama's aunts.

The fourth was a housewife with a good figure and a moving appearance. She was called Jaanvi and was the final of Shama's aunts.

The fifth was the wife of Shama's uncle, and she was a mature woman called Tamanna.

The sixth was the wife of another of Shama's uncles, and she had a relatively small face and a slim body. She also gave off gentle airs and was called Lasya.

The seventh was Shama's sister-in-law, and she had decent looks and a well-filled figure, which gave off a hint of sexiness. She was a widow, as Shama's brother had died a while ago.

The eighth woman had a slim figure but looked quite lively and extroverted, and she was Shama's little sister, Dipti.

The ninth was a very beautiful woman with a graceful figure but serious aura. She was Shama's fiancée and was from a large family. She was called Anjali.

Zhao Fu looked at these nine women and did not say much, and he directly made them imperial concubines. A large amount of Phoenix Qi flowed out of their bodies and entered the Emperor Phoenix Statute, causing it to once again grow stronger.

None of the women thought that Zhao Fu would make them concubines, and they all had complicated looks on their faces: some had disgusted looks and others had looks of worry.

They were all primers for refining the Maurya Dynasty's Nation Armament, and Zhao Fu smiled as he asked the golden dragon, "What are the steps to refining a Nation Armament?"

Following this, Zhao Fu followed the golden dragon's instructions and started to make preparations. He first prepared a large room that was 300 meters wide and had ten stone pillars that were three meters tall form a circle. There were countless chains on the stone pillars, on which there were bound two things.

Those two things were, of course, the Nation Armament and Clan Armament, and even though they had both been suppressed by the formation, they still floated in the air and continuously struggled.

At the center of the ten stone pillars, there was also a platform that was one meter tall, on which there was a magic formation. On one side there was a dragon, and on the other side a phoenix. There was also a layer of warm jade on the platform, and walking barefoot on it would feel a bit warm.

"What next?" Zhao Fu asked the golden dragon.

The golden dragon replied simply, "Consummate with them! Or do some other things."

Zhao Fu felt quite dumbfounded and asked what else he could do, before saying to the nine women, “You should all know the situation you’re in. The Maurya Dynasty has been destroyed, and the Nation Armament and Clan Armament has been suppressed by me. India has no chance of victory against me!

“As long as you become my concubines, you can live peacefully in Great Qin. Not only will I not destroy your family, but I will also give your family a Baronage and protect your family.”

Hearing this, the nine women could only sigh. They had no way of resisting, and they not only had to think of themselves but also their family. If they could obtain Great Qin’s protection, their family would be quite safe.

Zhao Fu brought them to the platform and saw Shama’s mother flirtatiously gazing at him. Zhao Fu pulled her over to him, and Shama’s mother lightly hugged his waist and said, “Your Majesty, can you not kill Shama in the future?”

Hearing this, Zhao Fu lightly nodded, and Shama’s mother smiled even greater and took the initiative to kiss Zhao Fu. Her tongue snaked into Zhao Fu’s mouth, dancing with his with practiced ease.

The two of them tightly hugged, their temperatures rising as their hands roamed over each other.

The other women looked quite embarrassed, as they all knew each other and were quite familiar with each other. Looking at Shama’s mother passionately kissing another man, this scene was quite taboo.

Shama’s little sister had a worried expression on her face, while Shama’s fiancée was expressionless. However, the other women looked quite interested; after all, they were quite experienced as well.

As Zhao Fu kissed Shama’s mother, he gradually took her clothes off, revealing her body. He then continuously rubbed and groped all over her body, causing it to shudder, and a wetness filled Zhao Fu’s hand.

Shama’s mother’s body lost its strength, and Zhao Fu placed her on the ground. His body then started to give off black Dragon Qi while Shama’s mother’s body gave off golden Phoenix Qi.

The two of them combined, forming a black and gold aura that entered the Nation Armament, and the Nation Armament's resistance immediately became weaker.

Zhao Fu smiled before looking at the other women.

Chapter 616: Great World Refinement

Zhao Fu then brought one of Shama's aunties into his embrace and kissed her lips, then gradually took off her clothes. She passionately responded, and their bodies entangled together.

Following this, Zhao Fu stretched out his hands to the other women.

A lewd atmosphere spread out as seven naked women lay on the ground, feeling completely spent, their faces red.

The one who had reacted the most was one of Shama's aunties. Not only was her body sensitive, but she had also responded incredibly intensely and uncontrollably taken off Zhao Fu's clothes, seeming incredibly desperate. She also wanted Zhao Fu's fingers inside her, and she only collapsed to the ground after five or six times.

After dealing with her, Zhao Fu stretched out his hand to Shama's little sister and lightly kissed her. Her body was quite stiff, mainly out of nervousness, and the feeling of Zhao Fu's hands made her heart beat incredibly quickly.

As Zhao Fu continuously played with her body, Shama's little sister's frown gradually loosened up, and her body was not as tense. Soon, she was able to relax and responded to Zhao Fu's hands.

Shama's little sister whimpered, and more wetness filled Zhao Fu's hands.

Zhao Fu gently lowered her to the ground before looking at Shama's fiancée and brought her into his arms. This serious woman also gently cooperated with Zhao Fu.

She used to be the woman of the Indian Legatee with the most potential, but now, she was being kissed and touched by another man. However, she did not mind too much, as she had simply been a tool of her family for a marriage alliance. As such, she decided to cooperate with Zhao Fu and allow him to do what he wanted.

Shama's fiancée's body trembled, after which she pushed aside Zhao Fu and coldly said, "You've fulfilled your goal already!"

Zhao Fu felt quite surprised before laughing; this woman knew what he was doing.

Zhao Fu looked at the Pillars of Ashoka, which was floating in the air and was bound by countless chains. It was no longer struggling, and the plan had been completed successfully.

However, the glass peacock beside it was still struggling, but after absorbing some of the black and gold aura, its resistance was not as intense.

After all, a Clan Armament represented an entire clan, so it required many different women in order to be subdued. The women from Shama's family belonged to India, so they were able to affect both the Maurya Dynasty's Nation Armament and India's Clan Armament.

Seeing how fiercely the Clan Armament was still resisting, it seemed that they still needed to capture many Indian women, but for now, Zhao Fu's focus was on refining the Pillars of Ashoka.

Zhao Fu withdrew the chains and grabbed at the air, bringing the Pillars of Ashoka into his hand. Now, it did not resist at all within Zhao Fu's hand.

Zhao Fu looked at the nation Armament and gave a pleased smile. He took the Nation Armament as he left this room and had the female attendants at the door take care of the women inside.

Many people in the real world heard about Great Qin capturing many women from Shama's family. India was already extremely afraid after what had happened, and now, it felt quite furious that Shama's family's women were being captured. In the Indian people's hearts, Great Qin was like a demon.

In actuality, Zhao Fu had not captured all of the women from Shama's family. There were many women in such a large family, so his subordinates had only captured a few of the most important ones.

On the Chinese side, because Great Qin had helped beat back the Indian army and had suppressed India's Clan Armament, none of them dared to publicly curse at Zhao Fu for being licentious, and they instead only privately talked about it.

Now, even if people wanted to curse at him, no one would dare to. After all, with Great Qin's mysterious techniques, none of them wanted to die a true death.

Zhao Fu walked out with the Nation Armament, and a woman suddenly came before him and paid her respects as she smiled and said, "Your Majesty!"

Zhao Fu nodded and saw that it was Lu Lingxuan, one of the beauties from Northern Qi, and he asked, "What is it?"

Lu Lingxuan came up, lightly hugged Zhao Fu, and placed her head on his shoulder as she said shyly, "Your Majesty, your servant has missed you so much. Now that you've made your servant a concubine, why haven't you come to spend any time with me?"

Zhao Fu inwardly laughed, as he knew that he was not that charming. Back when he saw Lu Lingxuan in the Northern Qi City, he knew that this woman was quite ambitious and quite sly.

However, having ambition was not necessarily a bad thing, as it could motivate people to work harder. However, it meant that they were much more cunning and sinister.

At most, Lu Lingxuan would become part of Great Qin's decision-making center but would not be able to have too great of an effect.

Zhao Fu put his arms around Lu Lingxuan and smiled as he asked, "Is that so?"

Lu Lingxuan lightly nodded before blushing and kissing Zhao Fu's lips. Her tongue entered Zhao Fu's mouth and continuously played with his tongue, while Zhao Fu responded and started to passionately kiss her back.

After a while, Lu Lingxuan breathlessly leaned against Zhao Fu's shoulder and stated her aim, "Your Majesty, can you give some things for your servant to do? It's so boring in that courtyard!"

Zhao Fu had long since guessed her intent, so he agreed to give her an official position.

Only then did Lu Lingxuan give him a true smile, and she kissed Zhao Fu again before starting to take off her clothes. Zhao Fu hurriedly stopped her – after all, they were in broad daylight, where many people passed by.

“Your Majesty, you’re the ruler of Great Qin; what is there to worry about?” Lu Lingxuan said coyly as she hugged Zhao Fu.

Zhao Fu lightly laughed and patted her round bottom as he said, “Alright, you’ve already achieved your goal, so you can go now!”

Hearing this, Lu Lingxuan’s face slightly paled, but she quickly recovered. After all, she knew that as Great Qin’s Legatee, he definitely wasn’t an ordinary and slow-witted person.

“Your Majesty, I’ll properly serve you; everything I have is yours!” Lu Lingxuan said embarrassedly as she hugged Zhao Fu.

Zhao Fu nodded, after which Lu Lingxuan left.

Seeing her leave, Zhao Fu found that he was becoming less and less resistant to the opposite gender, especially those with Phoenix Qi. Zhao Fu was not too sure why this was happening.

By now, Zhao Fu had also prepared the Great World Refinement. It needed ten people with a large amount of Fate and great power.

Zhao Fu felt that Bai Qi and the others would be sufficient, and what they lacked in power could be made up for with the City Lord Seals. As such, he gathered them at the Heaven and Earth Refining Formation.

The people he gathered were Bai Qi, Wang Jian, Wei Liao, Meng Tian, Sima Cuo, Bai Xihan, Sun Hanxiang, Wei Qing, and Xu Liuyi – with Zhao Fu, there were ten of them.

Because Sun Hanxiang, Wei Qing, and Xu Liuyi were Great Generals but did not have City Lord Seals, Zhao Fu temporarily borrowed City Lord Seals from the other City Lords.

At the same time, he gathered the 100,000 Indian indigenous residents. They had all become Great Qin subjects, and they had given over their Fate to Zhao Fu, which would allow him to use the Nation Armament.

Following this, the Great World Refinement activated, and the ten people stood around the Heaven and Earth Refining Formation.

Chapter 617: Nation-Suppressing Pillar

An explosion sounded out as countless energy stones shattered, and Zhao Fu and the nine others unleashed their City Lord Seals. The City Lord Seals floated above their heads, giving off different lights and terrifying auras.

Those powers entered the Heaven and Earth Refining Formation, causing the formation to give off a colorful light. It started to spin, and a massive aura rippled out.

Zhao Fu sent the Pillars of Ashoka into the center of the formation, and it was covered by a wave of energy, causing it to hover in the air.

Following this, Zhao Fu looked at the others and signaled for them to simultaneously act.

The others nodded and exploded out with Fate. The massive amount of Fate rushed into the formation like a massive flood.

Boom!!

A massive explosion burst forth as a multi-colored pillar of light rushed up into the clouds, causing the weather to change. Countless traces of Heaven and Earth Fate madly gathered, creating a massive gale that blew rocks and sand everywhere.

Countless traces of aura continuously gathered and condensed, and an extremely monstrous aura spread out from the sky. Everyone at the northern region of the Midland Continent sensed this aura, and they felt a chill within their hearts. Their hairs stood on end, but they had no idea what was happening.

In the end, after the countless traces of Fate continuously condensed, it formed a 100-meter tall cauldron that gave off a multi-colored light. It gave off an immense might and seemed like it could subdue countless creatures.

The ten people continued to pour their power and Fate into the Heaven and Earth Refining Formation, and the multi-colored cauldron trembled, causing an incredibly strong power to explode out from it, dissipating all the clouds within 1,000 kilometers. Within the cauldron, the Pillars of Ashoka were covered by a formless flame and went through continuous changes.

On the surface, the surrendered Indian indigenous residents obeyed Li Si's command and knelt on the ground, exclaiming that they were subjects of Great Qin.

Traces of Fate rose up from their bodies and continuously entered the multi-colored cauldron before entering the Pillars of Ashoka. The Pillars of Ashoka struggled for a moment before trembling, and the engravings on its surface disappeared.

Traces of Great Qin Fate rose up from the ground, rushing towards the multi-colored cauldron. The formless flame absorbed the Great Qin Fate and became black flames, and under the black flames' effects, the Pillars of Ashoka once again went through changes.

After coming out again, the stone staff looked a bit different. The images engraved were not of Indian people anymore but of Great Qin's subjects.

The multi-colored cauldron turned back into countless traces of Fate, and a stone staff giving off a monstrous aura slowly descended from the sky, floating above the Heaven and Earth Refining Formation.

By now, the Pillars of Ashoka no longer gave off India's aura, and it instead gave off Great Qin's aura of killing and conquering. It now completely belonged to Great Qin and had turned into Great Qin's Nation Armament, making it so that Zhao Fu could use its power.

Everyone withdrew their strength, and Zhao Fu smiled as he looked at the Pillars of Ashoka. He soon found that he could change its name. Zhao Fu thought about it and decided to change its name, as Ashoka was an Indian emperor, and now that the Nation Armament belonged to Great Qin, the name should be changed.

Zhao Fu decided to rename it 'Nation-Suppressing Pillar!'

The meaning of this name was to suppress the Fate of other nations, and Zhao Fu took a closer look at the Nation Armament before placing it beside Great Qin's City Heart. Just like the Twelve Metal Colossi and Imperial Ruler's Seal, it would be strengthened by the Fate that Great Qin provided.

After successfully concluding this, Zhao Fu turned his attention to India's Clan Armament. A Clan Armament was more powerful than even five ordinary Nation Armaments, and there were only four such Clan Armaments in the world.

Clan Armaments were much more difficult to form than Nation Armaments, and only the four Great Civilizations had been able to create Clan Armaments. These were Ancient Mesopotamia, Ancient India, Ancient Egypt, and Ancient China.

Now that they had taken India's Clan Armament, if they took the remaining two, Great Qin's power would be incredibly terrifying.

However, Zhao Fu had to first refine India's Clan Armament. This required them to capture many women and use their Fate to reduce the Clan Armament's resistance. Zhao Fu heard that India also had a Beauties Ranking, and Shama's fiancée had been ranked sixth on that.

If he captured all of the women on the Beauties Ranking, that should be enough, so Zhao Fu handed this matter to the Great Qin Assassins while he turned his attention to other things.

By now, they had also fully cleared East Green, and Zhao Fu moved to a system main city to fuse with the Region Heart, successfully unifying East Green.

Xianyang fused with another region, and all sorts of stats were once again boosted. Zhao Fu renamed East Green to Green Province, and it was Great Qin's second Province.

Great Qin now had 12.6 million people, 2.2 million soldiers, 19 Great Cities, 5 Cities, 26 Towns, and 2,279 Villages.

Great Qin's strength once again increased: out of the 2.2 million soldiers, 1.6 million were Stage 1 and 50,000 or so of them were Stage 2. Next, they were to clear out Little Valley.

Little Valley was filled with valleys, so it would be difficult for an army to move through. Hundred Bamboo was filled with bamboo seas, making it difficult to see. As such, Zhao Fu picked one at random, and now that they had 2.2 million soldiers, their clearing speed would be much faster.

Great Qin was now in a time of peaceful and steady development, and Zhao Fu did not have much to do. China also fell into a time of peace, and there weren't any major battles. Now that everyone was once again focused on developing, China welcomed in another period of peace.

Days passed, and soon, China soon recovered from the massive invasion.

At that moment, some people suggested invading Japan and South Korea. What those two countries had done during the invasion had infuriated many people, and now that China had recovered, they wanted to take revenge.

Many women from South Korea were incredibly beautiful and alluring, and many women from Japan were gentle and cute. After what had been done to them last time, some people from the Chinese side suggested capturing their women and making them slaves. This was supported by many men, who were all extremely excited.

However, the women did not agree. Even though they were of different countries, they could empathize, so they refused to do such a thing.

However, the men argued that since those countries wanted to do such a thing, they should do it too. As such, they gathered many people, most of whom were men, and started to invade those two countries.

In order to increase their forces, they attracted women by suggesting to take male slaves, especially those who were handsome and good-looking.

This attracted some people join, but those who joined were mostly ordinary players and smaller factions. The larger factions and families did not participate, as they wanted to focus on developing. There were not enough benefits for them to do such a thing.

None of the Hundred Schools of Thought joined either, as this was not in line with their ideology. They did not bother with such a thing.

In the end, they gathered a few million people and invaded the two countries. However, they were unable to create much of an effect, as most of them were just ordinary people. As such, they did not have any powerful measures and mostly just looked out for themselves, and there was also no unified command.

At first, they had some success, capturing some women and men, but they were also met with intense retaliation from the two countries. Nevertheless, the Chinese side did not suffer many losses.

However, both countries were afraid of the battles getting too intense, as this would result in more Chinese players joining, and Great Qin's Legatee might even step in again. They had seen what had happened to India, so they only tried to chase the Chinese players away and set up firm defenses.

Following this, the invading Chinese players became powerless to do anything. There were even people saying on the internet for Great Qin's Legatee to act and destroy the two countries.

Zhao Fu did not know about any of this – he was sitting beside a creek and leisurely fishing. With the One World Rod's ability to speed up his cultivating speed, as well as his Sovereign Bloodline and Heaven Grade, his Cultivation rapidly grew. He had now progressed from Stage 4-4 to Stage 4-8.

By now, they had finished clearing out Little Valley, and Zhao Fu renamed it Valley Province, making it Great Qin's third Province. Great Qin's strength once again increased, and they started to clear out the last neighboring region, Hundred Bamboo.

The Wyvern Den also became an Intermediate Den, and it would now spawn a Wyvern every three days. Great Qin now had 63 Wyverns and seven Wyvern eggs.

Zhao Fu was quite happy about this, as Great Qin had originally wanted to breed Wyverns by hatching eggs. Great Qin had Dragon-Incubating Celestial Grass and Water of Life, both of which could greatly speed up the incubation period of the Wyvern eggs.

They did not need to wait two or three years. Instead, they only needed to wait a few months for the Wyvern eggs to hatch. With the Wyverns' strength, they were worth Great Qin using a large amount of resources to nurture them.

After taking care of these things, Zhao Fu returned to the real world and decided to fill his stomach.

It was now winter in the real world, and Zhao Fu put on some thick clothes and called his bodyguard over. He wanted to ask his bodyguard to bring some food, but after hearing what his bodyguard had to say, his gaze became cold and said, “Bring him in!”

The bodyguard nodded and turned and left before a few people brought in a cold-looking young man.

“Proxy family leader, this is an assassin who has been hiding in the Ying family. Many of our people died trying to capture him,” the bodyguard said in a low voice.

Zhao Fu expressionlessly read through the information that he had been handed. Now that Great Qin was working with Flower Moon, their intelligence system became many times more powerful, and they had also found this assassin hiding in the Ying family.

This person was someone that the Li family had sent long ago, and he had been hiding in the Ying family’s residence for many months. It was a pity that Zhao Fu had countless people protecting him and rarely went outside, so this assassin had not been able to lay his hands on Zhao Fu all this time.

Zhao Fu looked at the cold-looking young man forced to kneel in front of him and asked, “You’re from Night King?”

The cold-looking young man coldly harrumphed and ignored Zhao Fu’s question.

Zhao Fu’s expression did not change, and he started to read through some more of the documents. Those documents were about the young man’s identity – he was called Leng Fei, and he was 23 years old. He had been trained as an assassin since he was young, and it was said that he was from Night King, as his big brother was one of the seven heads of Night King.

Night King was a top-tier assassin organisation, and it was ranked second in even the whole world. Its reputation was incredibly terrifying, and even large families did not dare to offend it. After all, assassins were quite difficult to defend against, and no one knew when one might be assassinated.

Moreover, everyone in Night King was an elite assassin, and they could get past incredibly tight security to perform assassinations. Their methods were quite strange and very difficult to defend against.

Night King had seven heads, and each of these heads controlled countless assassins. The organisation was quite big, and it had some branches in the Heaven Awaken World as well. Its name struck terror into many, and no one dared to offend it.

Zhao Fu felt that Leng Fei was quite skilled; otherwise, he would not have been able to stay in the Ying family's residence for so long without being discovered.

The intelligence reports did not confirm that he was from Night King, but since his big brother was one of the heads of Night King, killing him would result in irreconcilable hatred between Great Qin and Night King. The Li family would have spent a large amount of money to hire him.

Back then, Zhao Fu had not been the Ying family's proxy leader and was only a small figure who had been protected by Ying Xi. Leng Fei thought that Zhao Fu was a minor figure who would be very easy to kill without much effort.

It was a pity that Zhao Fu did not normally go out, and he resided in the depths of the Ying family's residence, where the security was quite tight. Only after half a month had he been able to successfully enter that region, but before he could make a move on Zhao Fu, the situation had suddenly changed.

Zhao Fu had suddenly become the proxy family leader of the Ying family, as well as Great Qin's Legatee's representative. His status went through a massive change, and the security around him became even tighter.

However, Leng Fei never gave up, and he instead became more motivated. By now, he was not doing this for the money but for the fame. Thinking about him killing Great Qin's Legatee's representative, that would be enough to shake the entire world and cause the world to remember his name.

He wanted to surpass his big brother and everyone else and become the top assassin in the world. With Great Qin's Legatee's renown, killing his representative would boost Leng Fei straight to the top.

Just thinking about this made Leng Fei feel quite excited. An assassin's fame was not determined by their strength but by the importance of the people they assassinated. As such, he decided to continue hiding and wait for an opportunity.

Zhao Fu guessed that the Li family wanted to take advantage of Leng Fei's unique identity so that whether he succeeded or failed, Zhao Fu would die without a doubt.

If Leng Fei's assassination succeeded, that would be for the best. Since Leng Fei was related to Night King, Ying Xi would not be able to do much about this. After all, she was not a family leader of the Ying family and was just a big miss of one of the branches.

If the assassination failed, perhaps Night King would be offended. Ying Xi would not mind too much, as Zhao Fu was only a minor figure back then, and she most likely would have given him over to avoid any trouble.

After looking through that information, Zhao Fu felt a coldness within his heart. Ever since entering the Ying family, Zhao Fu had never thought about letting off the Li family, and the hatred he felt towards them had never decreased.

"Do you have anything to say?" Zhao Fu expressionlessly said as he looked at Leng Fei.

Leng Fei coldly harrumphed as he proudly raised his head and said, "You're just a dog in front of Great Qin's Legatee; do you really dare to kill me? My big brother is one of the heads of Night King."

After hearing about what had happened, the Ying family's family leaders also came in. Looking at Leng Fei kneeling on the ground, they looked quite hesitant. Even though they were not afraid of Night King, dealing with them was quite troublesome, so they tried to persuade Zhao Fu, saying, "Zhao Fu, just cut off maybe one of his hands and send him back to Night King!"

Zhao Fu coldly looked at the family leader who spoke, making him feel quite awkward. Zhao Fu placed the documents on the table before calmly saying, "Kill him. Chop off his head, send it to the Li family, and send the rest of his corpse to Night King!"

Chapter 619 - Leng Feng

Hearing Zhao Fu's words, the bodyguards looked at the family leaders standing by the side. Seeing this, Zhao Fu coldly said, "Who's in charge of the Ying family right now?"

The family leaders' expressions fell. Zhao Fu was representing Great Qin's Legatee, so he wielded the greatest power in the Ying family; this was something that had long since been established. Disobeying Zhao Fu would be like slapping Great Qin's Legatee's face, and who dared to offend Great Qin's Legatee?

The family leaders glared at the bodyguards and chided them, "Hurry up and do what the proxy family leader just ordered! Everything is to be decided by the proxy family leader in the future!"

The bodyguards quickly obeyed and dragged Leng Fei out.

Leng Fei couldn't believe what was happening, and he struggled as he yelled, "My big brother is one of the heads of Night King!"

However, no one paid any attention to him, and in the end, Leng Fei was executed. His head and corpse were respectively sent to the Li family and Night King.

"Make preparations to suppress Night King. If they dare to do anything, Great Qin will destroy them. Other people might be afraid of them, but Great Qin is not!"

The family leaders humbly nodded. These family leaders, who had immense power and status, were a bit afraid of Zhao Fu now.

After the bloodied head was sent to the Li family, the Li family's old patriarch felt quite enraged and cursed at Zhao Fu. However, he then started to coldly laugh – now that they had offended Night King, there was a greater chance of that bastard dying. They could not allow him to continue to develop.

Night King was also shaken by this. Leng Fei's big brother, Leng Feng, looked at his little brother's corpse with a gaze filled with coldness and killing intent, and he immediately turned to leave.

However, he was stopped by the other six heads of Night King. A bald-headed elder said seriously, "This matter concerns Great Qin's Legatee, and if we act rashly, Night King could be destroyed. Your little brother did this to himself; I sent many people to try to convince him to come back, but he was determined to stay."

Leng Feng coldly harrumphed. Leng Fei was his little brother, so he had to take revenge.

However, he also understood that this matter pertained to Great Qin's Legatee, and every person right now feared Great Qin's Legatee. They had all witnessed just how terrifying he was themselves.

Back at the Ying family's residence, everyone else had left Zhao Fu's residence, and Zhao Fu's bodyguard brought him some food. Zhao Fu's mood had been affected by what had happened, and he did not feel too great.

At that moment, Zheng Jiao walked in, and seeing that Zhao Fu looked somewhat unhappy, she sat beside Zhao Fu and asked lightly, "What happened?"

Zhao Fu shook his head, indicating it was nothing.

Seeing this, Zheng Jiao did not pry, and she instead lightly smiled as she took the chopsticks and bowl from Zhao Fu's hands and said, "I'll feed you!"

Zhao Fu wanted to refuse, but she had already taken the chopsticks and bowl. Following this, Zheng Jiao sat on Zhao Fu's lap and smiled as she fed him. Zhao Fu could only lightly put his arm around her waist to stop her from sliding off.

"I broke up with your cousin!" Zheng Jiao suddenly said.

"...Mm," Zhao Fu replied after falling silent for a while.

Seeing that Zhao Fu did not look angry, Zheng Jiao leaned her head against Zhao Fu's shoulder and said with a hint of sadness, "Seeing how pained he looked, I felt very bad, so can you give me some time to forget about him? In the future, not only will my body be yours, but my heart will be yours as well."

Zhao Fu looked down at Zheng Jiao and did not know what to say.

Facing Zhao Fu's gaze, Zheng Jiao suddenly laughed and lightly kissed Zhao Fu's cheek. "You don't need to say anything. All of this was decided by myself, and you have no responsibility!"

Zhao Fu could only sigh. Even though this woman had almost been his cousin-in-law, since she had broken up with his cousin, he did not overly complicate this issue.

Seeing that Zhao Fu was not as resistant as before, Zheng Jiao smiled, tightly hugged Zhao Fu, and listened to his heartbeat.

"Zhao Fu, I want to come in!" Feng Shiyu's voice suddenly sounded out from outside.

Hearing this, Zhao Fu couldn't help but smile and told his bodyguard to let her in. Zheng Jiao did not leave; now, she did not need to care about what anyone else thought.

After coming in, Feng Shiyu saw Zhao Fu hugging a beautiful woman on his lap, and she lightly frowned as she said, "Zhao Fu, you're so irresponsible! Great Qin's Legatee's woman is here, yet you're not attending to her. Instead, you're instead playing around with another woman. If I made a complaint to Great Qin's Legatee about you, you'd be done for!"

Zhao Fu rolled his eyes, and seeing the other women who had come in as well, he asked, "Do you all have business with me?"

Seeing that Zhao Fu had ignored her, Feng Shiyu harrumphed and turned her head away, also ignoring Zhao Fu.

Li Muqing smiled and said, "Their families have obtained Top-Tier Boundary Medallions, and they want to send them to Great Qin's Legatee's side, becoming imperial concubines like Nü Lü."

There was no reason for Zhao Fu not to accept free Phoenix Qi, so he smiled and nodded. He then looked at Li Muqing and asked, "What about you? What are you here for?"

"I, of course, want to go as well and see for myself what Great Qin's Legatee is like. However, my terms are that I can serve your Legatee, but if Great Qin does not suit my fancy, I can go whenever I want. Your Legatee cannot force me to leave, nor can he do anything that violates my rights," Li Muqing said.

Zhao Fu nodded. He did not have any intentions towards Li Muqing, and with this sort of scholarly woman joining him, Great Qin's education would develop even faster.

Zheng Jiao understood that Zhao Fu would be entering the Heaven Awaken World again soon, so she could only kiss him on the cheek and said reluctantly, "I'll be going now!"

Zhao Fu nodded, after which Zheng Jiao got up and left.

Seeing Zheng Jiao leave, the angry Feng Shiyu gave a light snort and said, "Who would have thought someone like you would be able to get a beautiful woman. How strange!"

Hearing this, Zhao Fu felt slightly offended – what was there wrong with him?

However, Zhao Fu continued to ignore her, making her angry to the point of stamping her foot. After they left, Zhao Fu entered the Heaven Awaken World and found the four of them at a boundary region.

Currently, Zhao Fu was not wearing his cloak, and his handsome face, jet-black hair, and evil-looking blood-red eyes were all revealed. Combined with his elegant and domineering aura, he indeed seemed quite attractive.

At first, the four women did not recognize Zhao Fu because Zhao Fu in the Heaven Awaken World and Zhao Fu in the real world were quite different.

After looking at him, Li Muqing stared for a while before coming back to her senses, a faint blush on her face.

"Hmph! Aren't you just a bit handsome? The man I want must be powerful!" Feng Shiyu harrumphed, belittling Zhao Fu out of habit.

Zhao Fu did not reply; he wanted to see what her expression would be like after returning to Great Qin. It would definitely be quite interesting.

"Alright, eat this and I'll take you back to Great Qin!" Zhao Fu said after handing over four Reality Fruits.

The four women looked at the Reality Fruits and did not hesitate to eat them. Following this, their bodies entered the Heaven Awaken World.

Zhao Fu took them with him and teleported ten or so times before returning to Great Qin.

Chapter 620: Alliances on All Sides

Everyone they passed in Great Qin treated Zhao Fu with immense respect, and Li Muqing and the two other women started to feel that Zhao Fu's identity was quite extraordinary. Only Feng Shiyu's mind was quite empty, as she was about to meet the man who she had been dreaming of for so long, making her feel quite nervous and excited.

After arriving at the Meeting Hall, Zhao Fu went and sat on the main seat, essentially declaring his identity.

"Zhao Fu, you dare to sit there? You're done for!" Feng Shiyu pointed at Zhao Fu and loudly said after seeing this.

Zhao Fu stared in surprise for a moment before laughing, and everyone else in the Meeting Hall also burst into laughter.

Hearing the laughter all around her, Feng Shiyu was at a loss, but Li Muqing pulled her over and whispered, "Zhao Fu is Great Qin's Legatee!"

"Ah!!" Feng Shiyu cried out. She stared at Zhao Fu in disbelief before looking at everyone else, and she finally realised that Zhao Fu really was Great Qin's Legatee.

Thinking about everything she had said to Zhao Fu, Feng Shiyu suddenly started to cry.

Zhao Fu was quite surprised, and he had never thought that someone like her would suddenly start crying. Seeing this, Zhao Fu said, "Alright, I won't blame you for the past!"

"Really?" Feng Shiyu asked as she stopped crying and wiped her tears.

Seeing Feng Shiyu stop crying so quickly, Zhao Fu wondered if he had been tricked by her, but he still nodded.

Feng Shiyu immediately became much better and pouted as she looked at Zhao Fu.

Zhao Fu lightly laughed and made her and the two others imperial concubines, causing the Emperor Phoenix Statue to obtain some more Phoenix Qi. He then ordered people to take care of Feng Shiyu and the two others.

Zhao Fu then took Li Muqing to the Rising Qin Academy. Looking at the massive academy, Li Muqing felt quite shocked; it seemed that Great Qin had been focusing on its culture and education for a long time.

After following Zhao Fu around for a while, Li Muqing smiled in satisfaction.

“Are you willing to stay in Great Qin?” Great Qin smiled as he asked.

Li Muqing nodded as she replied, “I never thought that Great Qin would focus on education so much. I’m willing to stay!”

Zhao Fu felt quite happy and said, “You can stay here then! If you have any requests, I’ll do my best to fulfill them.”

“Thank you, Your Majesty!” Li Muqing said as she bowed.

Zhao Fu nodded before leaving the Rising Qin Academy and returning to the Meeting Hall to see if there was anything to report from his subordinates.

Soon, the sun set and it was night time. Nü Lü brought in some food, and seeing this, Xianru said goodnight and left.

After eating, Nü Lü sat on Zhao Fu’s lap and passionately kissed them. Only after a while did the two of them separate, breathing heavily. Nü Lü said with a blushing face, “Lord husband, you’ve brought many women back this time!”

Zhao Fu nodded and smiled as he asked, “What, are you jealous?”

Nü Lü raised a pink fist, lightly beat Zhao Fu’s chest with it, and said, “No way. I’ll accept as many women as you take. After all, you’re someone who’s going to be Emperor in the future. It’s just that I feel a bit bad for those women – they might spend their entire lives there in loneliness and not experience any happiness. That sort of life seems quite pitiable.”

After hearing her words, Zhao Fu fell silent.

Nü Lü looked up at Zhao Fu and said in a soft voice, “Lord husband, can’t you treat them a bit better?”

Zhao Fu sighed and replied helplessly, “Most of them were caught and brought here, and some even feel enmity towards me. Even though they hide it, those people still hate me, so what can I do but to have them stay within the courtyard?”

Hearing this, Nü Lü said softly, “Lord husband, can’t you try to treat them better? As long as you treat them as well as you can, there are very few women who won’t accept this. They’re all quite frail, and they just need a bit of care in order to treat you well. Look, aren’t I yours now?”

“Even though I used to like someone else and thought lowly of Great Qin, after marrying you, my heart is yours.”

Zhao Fu lightly laughed in disbelief as he asked, “Do I really have such charm?”

Nü Lü smiled and kissed Zhao Fu before saying confidently, “Of course!”

“Then I’ll consider how to treat them,” Zhao Fu said after thinking for a moment.

Nü Lü happily replied, “Thank you, lord husband!”

Seeing Nü Lü’s happy smile, Zhao Fu also slightly smiled and raised her chin before kissing her again.

A few days later, they had cleared out one-third of the final neighbouring region, Hundred Bamboo. During that time, Zhao Fu had found another two Silver Lake Immortal Legatees.

One was a Tauren called Kuka, who obtained the Silver Lake Immortal Axe, while the other was a Dwarf called Dalime, who obtained the Silver Lake Immortal Hammer.

Now, only the Silver Lake Immortal Shield did not yet have an owner.

This was quite good, as there was only one piece of equipment that did not have an owner. However, at that moment, Great Qin received some bad news.

It was that many regions had allied together, and these regions were quite close to Great Qin. The target of this alliance was, of course, Great Qin.

As Great Qin cleared out the surrounding four regions, many people had escaped to other regions. With such a big thing happening, it was impossible for the surrounding regions to not know about what was going on. They all felt how terrifying Great Qin was and knew they were not a match for Great Qin. As such, they decided to ally with the neighboring regions to resist Great Qin together.

Moreover, apart from the 100,000 soldiers that each system main city already had, each of them boosted their military by 50,000 soldiers, so each system main city now had 150,000 soldiers.

They did not take the initiative to attack, and they instead chose to defend. After all, there was a trace of hope that Great Qin would not attack their regions.

Zhao Fu did not express any ill-will and simply continued to clear out Hundred Bamboo.

As Great Qin was about to finish clearing out the Hundred Bamboo, those regions started to feel more unsettled, and they started to try to make a move against Great Qin.

The most powerful side was the eastern side, which had six regions allied together. There were 21 system main cities, and their army numbered 3.1 million.

In the western and southern sides, five regions had allied together. Each side had 18 system main cities, and each side had a force of 2.6 million soldiers.

The northern side was the weakest, with four regions allying together. They had 14 system main cities and 2.1 million soldiers.

There were 20 or so regions participating in total, with 71 system main cities and 10.4 million soldiers. Right now, Great Qin did not dare to make a move against those regions.

However, if the Great Qin destroyed them, they would be able to obtain 20 or so regions. Great Qin's plan involved conquering the surrounding 31 regions, and conquering these 20 or so regions would allow Great Qin to make great progress.

Chapter 620: Alliances on All Sides

Everyone they passed in Great Qin treated Zhao Fu with immense respect, and Li Muqing and the two other women started to feel that Zhao Fu's identity was quite extraordinary. Only Feng Shiyu's mind was quite empty, as she was about to meet the man who she had been dreaming of for so long, making her feel quite nervous and excited.
