

## The Lord 801

### Chapter 801: Righteousness and Evil

Many of the cities that Great Qin had helped and had good relations with started to cry out in outrage on behalf of Great Qin. They stood out to state that Great Qin had always treated them as friends and had never threatened them. Those who had joined Great Qin had all joined voluntarily.

The various City Lords stated that because of the natural disasters, they had burned through resources quickly, but Great Qin had supported them this entire time – Great Qin was righteous and kind, and those who said that Great Qin was violent, bloodthirsty, evil, and barbaric did not know what Great Qin was truly like.

Right now, compared to the various system main cities around it, Great Qin's territory was like a paradise. Outside, there were countless natural disasters and chaos, but Great Qin's territory was always filled with the songs of birds and the fragrance of flowers. All of their residents lived in comfort and harmony; this showed that Great Qin's Legatee was not just a tyrant; otherwise, how could Great Qin's residents live such good lives?

The City Lords could not watch such a good faction being disparaged like this; they questioned whether those who were defaming Great Qin were blind to be able to say such baseless things.

The system main cities that defended Great Qin the most had already secretly decided to join Great Qin and were simply saying these things to hope for better treatment when they joined.

Seeing this, many other City Lords also decided to join in; after all, they had received many benefits from Great Qin, and Great Qin had not harmed them.

Even though they had just spoken their minds, the effect they had was massive. They created an image of Great Qin that was kind and loving, in stark contrast to the bloodthirsty and evil Great Qin that the others claimed it to be.

Great Qin's unbridled conquering of regions made countless system main cities feel threatened, and they were thinking about joining together to destroy Great Qin, but the situation suddenly changed.

One side said that Great Qin was cruel and ruthless, while the other side said that Great Qin was kind and caring; these two sides contradicted each other, so no one was as convinced to destroy Great Qin anymore.

The City Lords of the regions that Great Qin had recently conquered also spoke out – originally, they had been harboring plans to harm Great Qin, but after seeing Great Qin for what it truly was, they were convinced to be fully loyal to it.

They stated that Great Qin did not have any intentions of harming them and instead treated them very well, almost as if they were family. These City Lords felt incredibly wronged on behalf of Great Qin and demanded justice.

Hearing this, all of the factions were greatly shocked. Now that the City Lords of the regions that had been conquered gave their own accounts that Great Qin was in actuality kind and innocent and that it was being slandered, this completely changed the situation.

All of a sudden, everyone seemed to be on Great Qin's side now, believing that it was good and benevolent. After all, Great Qin had been quiet all this time, and now that it had suddenly gone to attack, there must be some sort of reason.

Moreover, it did not even attack the cities near it, so why would it take the effort to attack regions far away from it without any good reason?

The eastern side's City Lords did not know exactly what was going on; they only knew that Great Qin had attacked, so they immediately allied together to resist Great Qin.

However, they had never thought that the situation would suddenly change like this. One side said that Great Qin was evil, while the other side said that Great Qin was good and kind. Now, there were evidently more people standing on Great Qin's side, as they had all sorts of evidence.

If those cities had really plotted to harm Great Qin, being destroyed served them right. As long as Great Qin did not continue to invade, they would not risk their lives to resist it. As such, the alliance to resist Great Qin quickly scattered, and the City Lords all went their own ways.

Because many of those City Lords had already submitted to Great Qin, they had followed Great Qin's orders to make up some lies to make Great Qin sound better.

Zhao Fu did not get involved in any of this; all of this was handled by Li Si. Even if their plan was discovered, Zhao Fu could push all of the responsibility onto Li Si, preserving Great Qin's reputation.

Seeing such a violent and ruthless fellow being praised like this, many of the City Lords who knew the truth were almost angered to death.

Some of the City Lords who had escaped earlier stood out to say that they had no plans to harm Great Qin and that they had been framed by Great Qin. It was obvious that Great Qin had invaded them, yet it had used such shameless tactics.

However, Great Qin vigorously rebutted this – they claimed that Great Qin had no plans of attacking; it was just that once Great Qin came, it was them who had been afraid and run away, causing countless residents to lose their support.

Both sides started to vigorously argue, but neither side sent out any soldiers. Zhao Fu had long since prepared for a battle, sending many soldiers to defend the Great Wall, but they did not have the courage to come.

The reason for this was because they simply did not have enough people – they only had 400 City Lords and 40 million or so soldiers; they understood that they were not a match for Great Qin, so they naturally did not come to attack.

Moreover, they did not even seem to be on the side of righteousness anymore, making it hard for them to gather more City Lords. Great Qin's actions angered them to death, turning black into white and day into night. They were simply shameless to the extreme, but the City Lords could do nothing about it.

Many player factions understood that this was merely one of Great Qin's schemes; they clearly understood just what Great Qin was – right from the beginning, the name of Great Qin was a synonym for evil.

However, despite knowing this, they did not dare to do anything. With Great Qin's current strength, it was already good enough for it to leave them alone. If they made trouble for it, they would be wiped out instantly.

Everyone was quite intelligent, so they could only pretend to be mute. That was how strong Great Qin was.

Great Qin's gains this time were quite shocking – they had obtained 240 system main cities, 22 million Stage 1 soldiers, and 110 million residents. It now lacked a tiny sliver of EXP to level up into a Level 5 Capital City.

After receiving another monstrous boost to its strength, Great Qin did not have any more battles to do, so it once again became low-profile and properly digested those regions. They could only delay attacking the other two directions for now.

Now that he had some free time, Zhao Fu once again returned to the real world and took care of some matters, and he heard about the Great Ming and Great Song Dynasties planning to ally together to destroy the White Lotus Sect.

However, because the White Lotus Sect was quite scattered and had firm roots, they could heavily wound it each time but could not pull it out by its roots.

Zhao Fu did not take the White Lotus Sect too seriously; even though they were working together, because Zhao Fu did not care too much about his relationships with those people, they were unable to gain a hold over him using relationships. As such, their connection had been growing more and more distant, but the White Lotus Sect now came to Great Qin for help and protection.

## Chapter 802: One Night

Zhao Fu thought about it and decided to agree to protect the White Lotus Sect. After all, they had a lot of value, and even though Zhao Fu also wanted to get rid of them by the roots, his sight was no longer set within the Legacy Land but outside of it.

He did not care much about the White Lotus Sect anymore; Great Qin could destroy it at any time, so it would not be bad to protect it for now and use it to annoy others.

Moreover, they had provided Great Qin with a lot of intelligence. However, after working with Flower Moon, Great Qin already had comprehensive intelligence, and it did not need the White Lotus Sect. However, Zhao Fu decided to protect it to keep it as a chess piece in the future.

As long as people did not betray him, he would not betray them, so it was only right to show some mercy to the White Lotus Sect.

He chatted with his previous class president in QQ for a while and found that his development had been quite fast. In just a short while, he had become the leader of around 20,000 people. Zhao Fu had not helped much, only providing a bit of resources; he had achieved all of this by himself.

As the real world became more and more chaotic, the ordinary people also sensed that something was off. Even though the various authorities gave all sorts of explanations, the situation was becoming worse and worse, and the real world would collapse sooner or later.

Zhao Fu could not help but think of a few people. Now that it was so chaotic outside, should he bring them to the Ying family and have the Ying family protect them?

Most of these people had helped Zhao Fu in the past, so he did not want anything bad to happen to them. As such, he made a list of names and handed it to his bodyguard, giving the order to have them brought to the Ying family's territory to be protected if they wished.

After returning to the Heaven Awaken World, Great Qin was still processing the digestion of the new regions. They were rapidly building more houses and handing out rations; this would take a while, so Zhao Fu could only wait.

A week later, Great Qin had settled in most of the new residents. The debate between Great Qin and the eastern side was still just as intense; the eastern side continuously argued that Great Qin was shameless and cunning, a wolf in sheep's clothing.

In response, Great Qin vigorously rebutted them, stating that the eastern side was filled with treacherous and vindictive people who were trying to defame Great Qin. It claimed that they were jealous of how powerful Great Qin and that they wanted to destroy Great Qin every day.

At the start, most people were interested in hearing the argument between the two sides, but as time went on, they started to care less and less and placed their attention on other matters. Just like that, no one cared much about this matter anymore.

It could be said that by resolving things like this, they had avoided countless deaths and injuries; right now, Great Qin did not have complete confidence to fight with so many factions.

In actuality, Zhao Fu did not favor such tactics; he more so preferred direct fighting where the winner was the king and the loser was the beggar.

However, there were simply too many enemies, and Zhao Fu did not have the confidence to face all of them. If he could use this sort of method to avoid the deaths of many of his soldiers, he was willing to do so. Zhao Fu's soldiers' lives took top priority, so he was willing to use various methods.

Even though they were simply arguing for now, Zhao Fu still planned to find an opportunity to destroy those factions. However, he could not do so now, as he would attract too much attention and Great Qin would not be able to explain this.

Now, it was time to carry out their second plan.

They first found regions to lay their hands on in the southern and western sides and set up A large number of teleportation channels there. This time, their goal was to be as stealthy as possible; they could not afford to reveal anything.

For this purpose, Zhao Fu bought many Intermediate Isolation Barriers and Advanced Isolation Barriers from the outside world, making all teleportation channels and things that could break through restrictions all useless. At the same time, Zhao Fu added another 400 City Lords to the operation to prevent against anything unexpected.

Of course, they could not take over too many regions, or they would attract too much attention. As such, Zhao Fu only planned to secretly take over one region per day.

At night, Great Qin's forces headed towards the region they had chosen. The City Lords wore cloaks and hid their auras, and one million Stage 2 soldiers prepared to clean up the scene after them.

None of the people in this region sensed the impending danger. This region was afflicted by snowstorms, and even though it was winter, the weather was incredibly cold and everywhere was filled with snow and ice. The four system main cities found it incredibly difficult to defend against natural disasters.

There were no players within the system main cities due to the conflicts between the indigenous residents and players. In order to fully defend against the natural disasters without having to also deal with chaos within the city, all of the players had been expelled, making some players quite dissatisfied.

Because it was so cold, once one lay within one's warm bed, it was easy for them to fall asleep. Now that it was quite late, all four City Lords lay in their beds and fell into a deep sleep.

Suddenly, a powerful aura exploded out, shocking countless people out of their sleep. They opened their eyes and felt as if their bodies were weighed down by a massive rock – this was the might from 100 City Lords joining together, instantly suppressing countless people.

Within a City Hall, a middle-aged man with beard stubble looked at the 100 or so black-cloaked figures in the air in despair. He did not have the strength to fight against 100 City Lords, and facing such massive strength, he immediately knew that he was finished.

At the same time, he wondered just who these people were and why they had suddenly attacked his city.

“Will you surrender?” the person leading the group asked.

The middle-aged man could only choose to submit. Following this, he could not help but feel curious and ask, “Just who are you all?”

The person in the lead did not answer his question, only saying, “When you reach that place, you'll understand.”

This team's operation went quite smoothly, but another team faced some problems: the City Lord chose to resist and was killed, while the soldiers and residents also resisted. Some people also tried to escape using teleportation channels but found that they were unusable.

Great Qin had activated a large number of Isolation Barriers, completely blocking off this region from other regions. All teleportation channels in this region became ineffective.

Finally, that city was suppressed by the 100 City Lords. 60,000 of the Stage 1 soldiers had died, and 100,000 or so of the residents had died. After suppressing this city, the 100 City Lords directly flew into the sky and spread out their senses to make sure there would not be anything unexpected.

Following this, Great Qin's soldiers arrived and started to transport the people to Great Qin and cleaned up the blood and corpses, getting rid of any evidence that people had been here.

After this one night, this entire region had become deathly silent. The four system main cities of this region had all disappeared without a sound.

Because there were not many players here and ordinary indigenous residents very rarely visited other regions, no one sensed that anything had happened.

Only after the City Lords and their residents reached Great Qin did they realize who was behind all of this. Thinking about how righteous Great Qin had made itself seem, all of them could not help but sigh and feel stupid for believing it.

### Chapter 803: Level 5 Capital City

The most important thing about this operation was to be careful. Zhao Fu was not in a rush and continued to only attack one region per day. He attacked the western side, then attacked the southern side, and alternated like this. Great Qin continued to publicly face off against the eastern side, making it seem like there was gunpowder in the air between the two sides.

Neither side showed any weakness and seemed incredibly confident in their righteousness, ferociously criticizing the other side.

After seven or eight days, people started to notice that entire regions seemed to just disappear overnight. This happened completely soundlessly, and millions of people seemed to have just vanished.

However, there were very few people who knew about this, and not much attention was drawn to this matter. A few days later, Great Qin successfully rose to a Level 5 Capital City.

This made Zhao Fu feel incredibly excited; now, Great Qin only lacked one level to rise to a Level 6 Capital City, after which it would become a Royal City, allowing Great Qin to establish a Kingdom.

Zhao Fu went to the City Hall and looked at Great Qin's new stats:

居民:0000 士兵 2000

Village Name: Great Qin City (Epic)

Level: Level 5 Capital City (81,000/800,000,000)

Village Area: 229,400 square kilometers

Village Territory: 12,421,800 square kilometers

Residents: 3,492,950/80,240,000

Military: 892,640/32,482,000

Popular Support: 86

Village Special Stats: Territory Crop Output +240%, Territory Crop Growing Time -240%, Population Limit +155%, Residents' stats can randomly +18, Soldiers' stats +19%, Population Attraction +180%, chance of attracting higher grade population +180%.

Subsidiary Village Limit: 296,930

Subordinate Villages: Logue Village, Jean Village, Dorun Village, Li Family Village, Wolf Village, Ferocious Tiger Village...

Leveling from a Level 5 Capital City to Level 6 Capital City required even more EXP – it was now at 800 million EXP. An ordinary person would never be able to obtain this amount of EXP in their lives; after all, 800 million EXP could cause countless Towns to instantly become Cities.

If it wasn't for the purpose of establishing a Kingdom, Zhao Fu would never put so much EXP into a single City. After all, this amount of EXP could create countless Cities, which had far more value.

However, Zhao Fu decided to level up the Great Qin City as creating a Kingdom in the Heaven Awaken World was completely different to not having a Kingdom – the various functions and powers that one unlocked after establishing a Kingdom was not something that a faction without a Kingdom could compare to.

Now, Great Qin only lacked one level until it could establish a Kingdom. The power and authority that Kingdoms had could shock and terrify countless people.

800 million EXP was not an amount that they could gain within a short amount of time. Right now, Great Qin was still silently devouring one region per day.

A month later, this matter finally caused mass-panic. In region after region, countless people had disappeared, leaving behind ghost cities without any blood or corpses. It was extremely strange, making people feel completely confused.

It was mainly western and southern regions and occasionally eastern regions. There was nothing related between those regions, as they were quite far away from each other.

News of this strange happening in the northern side of the Midland Continent soon spread through all of China, and it quickly became a hotly-debated topic.

No one could work out just what had happened – where had those residents and soldiers gone? There were no traces of battle within those cities; there were no corpses or blood. It was as if the people had simply evaporated.

By now, this had happened to 42 regions, which was no small matter. Many people made guesses, and some people wondered if it was Great Qin who had done this. After all, all abnormal happenings were blamed on Great Qin. However, no one had any evidence, so they could only guess.

Some people defended Great Qin, saying that they should not always push matters onto it. After all, Great Qin was currently at odds with the eastern factions, so how could it have the resources to do something like this? As such, some people guessed that another world's faction had entered China's territory.

Others agreed – now that Great Qin was facing off against the eastern factions, it would not be so stupid as to provoke another two directions. If it did that, the pressure it faced would be too great. Thus, others guessed that it was some sort of strange natural disaster that had done this.

After all, during the Disaster Festival, there had been a Death Disaster, which was quite similar to this. It was likely that such a thing had happened.

Everyone made guesses as to what had happened, and all of them had their own reasons for backing up their guesses.

As more and more people heard about this, it became more and more difficult for Great Qin to act. After all, all of the factions were extremely vigilant now, and if Great Qin continued like this, it could be discovered. As such, they could only give up on this tactic.

This time, they had obtained 120 system main cities. Even though it had taken quite a long time and was quite troublesome, it had been quite worth it.

This matter could not be leaked at all costs, because once it was leaked, Great Qin's plan would be fully exposed. It would be attacked by countless factions and could cause half of the northern side of the Midland Continent to join together to destroy Great Qin. Zhao Fu did not dare to make any more noise.

After Great Qin stopped using this tactic, this sort of strange occurrence started to happen in other Continents as well. The ones under threat were not just Great Qin anymore.

It seemed that many people understood what had happened but had not exposed Great Qin and had instead also started to use this method to gain benefits.

Since the Chinese factions were all on high-alert, Zhao Fu could not continue using this tactic. However, the other Continents' City Lords did not know about this, so things went quite well for the copycats.

Now that this was happening all over the world, countless people became terrified. The more powerful people understood what was happening, while the ordinary people felt quite shocked and scared. Because of this, the suspicions on Great Qin were gradually wiped away.

This made Zhao Fu and his subordinates feel quite speechless. Zhao Fu did not plan to just let things go on like this, so he ordered his people to attack a region and yell, "Those who don't submit to Great Qin will die!"

Following this, they took down two cities and killed some people. The City Lords nearby responded quite quickly and rushed to chase them out of the region.

There were many players in this region, so news of this attack quickly spread. Some people were quite shocked that Great Qin would daringly do something like this at such a time.

However, many people quickly dismissed those thoughts – how could Great Qin go around doing such a thing while loudly announcing that it was Great Qin? How could Great Qin be so stupid? There were definitely people trying to act like Great Qin.

After this happened, Great Qin furiously stood out, seeming like an incredibly wronged good person. It sharply criticized the eastern side and claimed that it was the eastern side who were trying to frame Great Qin.

After all, the only one who had enmity with Great Qin and had that sort of power was the eastern side. Great Qin cursed at them for being malicious and vindictive, trying to frame Great Qin for this. If they did not give Great Qin an explanation, Great Qin would move out against them to restore their reputation with blood.

#### Chapter 804: Six Day Festival

It could be seen that Great Qin was truly angered this time – they were determined to attack the eastern side and restore its name using its blood; the name of Great Qin could not be insulted.

Great Qin's anger caused the surrounding regions to all fall silent. After seeing Great Qin's terrifying power, no one wanted to get on its bad side.

The eastern side, which had been bickering with Great Qin, felt even more furious. This definitely was not done by them and was most likely done by Great Qin to frame them, but most people believed Great Qin. They felt incredibly wronged as a result.

Now that Great Qin wanted to take this opportunity to attack, the eastern side felt even more furious and wronged, but they could only remain silent. They definitely were not a match for Great Qin, and if they fought, they would definitely be the losers.

However, as they became quieter, Great Qin became more and more arrogant, continuously pressuring the eastern side. It then repeatedly asked for the eastern side to respond; if they continued to stay silent and refused to apologize, Great Qin would attack.

All this time, Great Qin had been waiting for justice, so it did not make a move against the eastern side. It hoped that they would acknowledge that Great Qin was not such a bloodthirsty and ruthless faction and that they had acted shamefully and vindictively.

Great Qin could not let this slide again – it had already given the eastern factions a chance, so if they still did not admit their wrongdoing, Great Qin could only act against them.

Those vigorous words created an image of magnanimity, kindness, and dignity for Great Qin. Even if it attacked now, it would be because it was forced to by the eastern side.

Now, everyone was waiting to see how the eastern side would respond. If it did not respond, it would be attacked. Great Qin was also waiting for this opportunity – if the eastern side did not admit its wrongdoing and apologize, Great Qin could honorably attack.

Over at the eastern side, it was completely silent, and everyone looked furious. If there was even a trace of hope in winning, they would definitely fight to the death with Great Qin. Great Qin was incredibly despicable, and they continuously cursed at it inwardly.

However, they were not a match at all for Great Qin. Before, they had 400 City Lords, and after hearing that Great Qin was going to attack in righteousness, 100 of them did not want to get involved in the trouble, so they decided to withdraw.

Now, there were only 300 or so City Lords left; they were even less of a match for Great Qin now. Should they insist on their integrity and be destroyed, or should they compromise and avoid this crisis?

In the end, the eastern side could only choose to compromise. They simply could not defeat Great Qin, so they could only give in and publicly announce that it was them who had done this, humiliating themselves in the process.

In response, Great Qin magnanimously accepted their admission of wrongdoing and even stated that as long as they were willing to apologize, Great Qin was still willing to take them in. Countless people praised Great Qin for this, and very quickly, ten or so City Lord were moved by this and decided to join Great Qin.

Within Great Qin, Zhao Fu sighed disappointedly. If the eastern side had held out for a bit longer, Great Qin could have directly attacked them and devoured all of their power.

However, since they were willing to admit their wrongdoing and apologize, Great Qin could not act against them anymore. It could only act mercifully and wait for an opportunity to destroy them.

After this prolonged debate of good and evil, it was Great Qin who emerged victorious. Its friendly and kind image won the praise of countless people, while the eastern side City Lords were labeled to be evil and vindictive.

Using this momentum, Great Qin sent out a large number of ambassadors, who were welcomed by many more Cities.

Following this, Great Qin once again went into a time of peace. The soldiers went through more training as there were no more battles to be fought.

Zhao Fu wanted to clear out the 80 or so regions that Great Qin had taken by force, but they were quite far away from Great Qin. If Great Qin sent so many soldiers, if their path of retreat was cut off, they would be in great danger.

Even though China seemed to be in peace, Zhao Fu understood that there were many people who were secretly investigating Great Qin. Once Great Qin suffered any heavy losses, they would definitely take this opportunity to leap on it.

Zhao Fu did not dare to send so many soldiers out, so he could only have them go through training for now. He increased the number of ambassadors so as to have more cities join Great Qin. That way, they would have regions to clear out nearby.

A few days later, the human world's final festival arrived. This festival was called the Six Day Festival – it lasted for six days and contained six different festivals.

From when the human world had entered the Heaven Awaken World, they had gone through six festivals: the Ten Thousand Flower Festival, Ghost Festival, Divine Fish Festival, Disaster Festival, New Year Festival, and Trial Festival. The Six Day Festival was the second stage for each of those festivals, and there would be a different festival every day.

The first day would be the Ten Thousand Flower Festival's second stage, the Fresh Flower World; the second day would be the Ghost Festival's second stage, the Ghost and Monster World; the third day would be the Divine Fish Festival's second stage, the Fish Spirit World.

Thinking back to the six festivals, Zhao Fu couldn't help but smile. Many of the things important to Great Qin had come to them during those festivals, such as the Hundred Ghost Illusionists and Ghost Summoners.

This was especially so for the Ghost Summoners – they had been instrumental on countless battlefields, and whenever Great Qin used them, things became much easier to deal with. They had contributed a lot to Great Qin.

There were also pill recipes for Stage 3 and Stage 4 medicinal pills, as well as the Emperor Phoenix Statue and the Corpse Soul Blood Lake. There were also the five Generals, as well as Great Qin's Dragon Den, which had been upgraded to Legendary grade using an Upgrade Stone from the Divine Fish Festival.

Even the powerful World Beast was from the Trial Festival, and the Trans-Boundary Teleportation Channel was also created using items from the festivals.

Some people said that these festivals were useless, but if it was not for those items, how could Great Qin have developed so quickly? For example, the talismans from the New Year Festival helped Great Qin create Reality-Harming Talismans, which was Great Qin's greatest weapon against players. That was why Great Qin was not suppressed by player factions right now.

Zhao Fu still had most of the Reality-Harming Talismans; he did not use any against the Fish Scale people, as he still needed to defend against a large number of human players. If he used them against the Fish Scale people and lost this trump card, Great Qin would be attacked by countless human players, putting it in an unfavorable position.

After all, the human players could unlimitedly revive, and if it wasn't for the fact that Great Qin could harm them in real life, they would not fear Great Qin at all. Without the Reality-Harming Talismans, it would be impossible for Great Qin to scare away players just with its presence.

These festivals were incredibly important; the items they gave could not be found in the future, because after fusing into the Heaven Awaken World, there would no longer be such festivals to help people. Everyone would have to rely on themselves.

Chapter 805: Rankings List

There definitely would not be any big prizes just for participating in an event anymore. In the future, the Chaotic World Stone Stele's exchange system would also disappear, so if people wanted to find good pill recipes, equipment, or City Creation Stones, they would have to buy them themselves or take them from others by force.

That showed how important these festivals were; those who thought that they were useless were completely wrong. Without this sort of support, how could a faction grow? If it wasn't for the festivals, the highest grade of medicinal pills would most likely be around Stage 2, and the highest grade of equipment would be around Legendary grade. How could people develop so quickly?

It was a pity that this was the final festival and there would no longer be such festivals in the future. In fact, some of these things could not even be bought or taken by force in the future. In the future, everyone could only rely on themselves to slowly develop.

However, because this was the final festival, the rewards were all incredibly valuable. There were six types of items on the rankings and there were three of each type.

Number 1: Nine Dragon Spirit Spear, Grade: Level 1 Saint Armament, Description: Forged using Nine Dragon Remnant Soul and Spirit Earth Stone. It contains immense power.

Number 2: Flame Beast Fang Sabre, Grade: Level 1 Saint Armament, Description: Forged using an extremely powerful Flame Beast King Fang. It has immense fire attribute power.

Number 3: Chilling Moon Divine Bow, Grade: Level 1 Saint Armament, Description: A powerful godly bow forged using Chilling Moon Stones and Divine Iron.

Number 4: Human Ghost, Grade: SS grade military profession, Description: A powerful profession where a person fuses with a ghost. Limit: 1,000 soldiers.

Number 5: Ghostgod Soldiers, Grade: SS grade military profession, Description: Soldiers who can use powerful ghosts, having immense power. Limit: 1,000 soldiers.

Number 6: Ghost Eyes, Grade: SS grade military profession, Description: Soldiers who can summon Ghost Eyes that can be used for scouting and ghost eye techniques.

Number 7: Dao Comprehension Pill, Description: An incredibly rare Cultivation-type medicinal pill that has powerful effects. It can cause one to comprehend Dao and control the world's source energy. This pill should not be used by those with low cultivation or their mind and spirit may be destroyed.

Number 8: Heavenly Sage Pill, Description: An incredibly rare Grade-type medicinal pill that has heaven-defying effects. It can cause someone that is Human Grade to advance to Heaven Grade and can change one's constitution and strengthen one's stats.

Number 9: Revival Pill, Description: An incredibly heaven-defying Recovery-type medicinal pill. Anyone who has been heavily injured or even died can be revived as long as the pill is consumed within eight hours of death.

Number 10: Celestial City, Grade: Legendary, Description: A city rumored to have Celestials living in it; the city has a Spirit Gathering Formation that can speed up Cultivation speed and has the Legacy Art 'Yin Yang Art.'

Number 11: Sword Mountain, Grade: Legendary, Description: A city focused on the sword that gives off a powerful sword intent. It has the Legacy Sword Art 'Absolute Soul Slash' and the Legacy Art 'Sword Above.'

Number 12: Holy God City, Grade: Legendary, Description: A city with a godly spirit bloodline, and it is incredibly powerful. It will spawn people with weak godly bloodlines.

Number 13: General Fate – Khalid, Description: After use, one can obtain the historical General Khalid's Fate and can obtain many of his skills and innate attributes.

Number 14: General Fate – Hannibal, Description: After use, one can obtain the historical General Hannibal's Fate and can obtain many of his skills and innate attributes.

Number 15: General Fate – Suvorov, Description: After use, one can obtain the historical General Suvorov's Fate and can obtain many of his skills and innate attributes.

Number 16: Nine-tailed Devil Fox, Description: A legendary devil beast that has fur white as snow and nine tails. Not only does it have an innate charm, but it also has many illusory skills and terrifying Devil Power.

Number 17: Divine Dragon Horse, Description: A dragon horse from an eastern legend that has a pure divine dragon bloodline. It was said to be the mount of a saint and is extremely powerful, and it is as fast as lightning. It can fly in the air and ordinary beats cannot compare to it.

Number 18: Hell Cerberus, Description: An evil dog from western legends that has three heads and hellfire. It was said to guard the gates of Hades and is incredibly ferocious and powerful.

After looking through the rankings, Zhao Fu could not help but feel quite excited. The treasures on there were all extremely rare and valuable and were things that ordinary people could never obtain. At the start of the list were three Saint Armaments, which even ordinary Dynasties would not have.

After all, Saint Armaments were the strongest divine weapons in history. China, the places where there was the most Fate gathered, had only created two such weapons: one was the Regulus Sword and the other was the Chiyou Saber. Saint Armaments were extremely rare within the human world.

Others might want that greatly, but Zhao Fu did not lack equipment, as he already had many swords. Next were the medicinal pills. They were the same as the medicinal pills from last time, and even though they were quite valuable, Great Qin's pills were already quite sufficient.

Great Qin did not need the General Fate much either, nor did Zhao Fu care too much about the divine beast eggs. What made Zhao Fu the most excited were the three powerful professions and the three Legendary grade Cities.

The three professions still had to do with ghosts, and their limit was 1,000 soldiers. Zhao Fu felt that these professions would be incredibly useful in the future and would allow Great Qin to sweep through everything in front of it, allowing Great Qin to develop even faster.

Also, only Dynasties had Legendary grade Cities right now. Cities were the heart of a faction, and its stats could determine how powerful a faction was.

Zhao Fu had not been able to obtain a single one of the ten Legendary grade Cities last time, making him feel quite sad. This time, Zhao Fu had no plans of letting any of these three Legendary grade Cities go.

All Zhao Fu wanted were the three professions and three Cities; he did not even bother looking at anything else. If he could obtain those six things, that would be enough, as they could make Great Qin much stronger.

There was only a basic description of this event, and no one knew exactly how things would play out. However, because each day was a stage, they definitely had to do well in all six festivals. This event was very important to Great Qin, so Zhao Fu paused everything and started to make preparations.

It was not just Great Qin – all factions all over the world started to make preparations, as they wanted to obtain the items that they wanted. Because of this festival, the various natural disasters had temporarily stopped, allowing everyone to let out a sigh of relief. The massive pressure of natural disasters was incredibly uncomfortable.

#### Chapter 806: Ten Thousand Flower Second Stage

Now, Great Qin had 160 regions, 1,472 Great Cities, 30 Cities, 240 Towns, and 22,489 Villages.

Great Qin's population had risen to 690 million, and it had 100 million soldiers. Among them, there were 80 million Stage 1 soldiers, 2.8 million Stage 2 soldiers, 300,000 Stage 3 soldiers, and 14,000 Stage 4 soldiers.

Now, the entirety of Great Qin started to prepare for the Six Day Festival. The festival would begin at 12 am, and even though it was only the morning, there was not much time. One could never make enough preparations for this Six Day Festival.

There would only be one day for each of the festivals; after a day ended, the next festival would begin, so they had no time to spare. As such, all of Great Qin became quite busy, and Zhao Fu left the Legacy Land to go buy some things.

Time quickly passed, and soon, the sky had darkened. Resplendent stars appeared in the dark blue sky, forming a beautiful river.

Suddenly, the sky was filled with many multicolored glows; there were white glows, pink glows, green glows, and other colors. They were all organized in an orderly way, making them not seem chaotic, and they instead looked like a beautiful painting.

Flower petals started to fall from the sky as if it was a petal rain. The scene of countless flower petals flying in the air was incredibly majestic, seeming like something that could only be seen in a dream, and a fragrance spread out in the air.

As the flower petals landed on the ground, under the power of the festival, they became flowers, seeming to turn the entire world into a world of flowers.

“Zhao! We really like this festival!” The three Flower Spirits smiled as they happily flew around Zhao Fu.

They were spirits that were birthed from flowers, so they naturally were quite interested in and liked the Ten Thousand Flower Festival. Under Zhao Fu’s nurturing, their strength had reached Stage 5, and even though they were only as big as a hand, they could use very powerful plant magic.

Zhao Fu also smiled as he looked at the world of flowers. This was the second stage of the Ten Thousand Flower Festival, and it was somewhat different from how the first stage had begun.

After petals stopped descending from the sky, crystalline beads appeared on the flowers – these were Flower Tears.

“System announcement! You have previously obtained the Level 3 Flower Fairy’s Blessing, and you will receive a buff of three times Flower Tear Points.”

This system announcement made Zhao Fu feel quite delighted – he had never thought that the Flower Fairy’s Blessing from the Ten Thousand Flower Festival would still be effective now. Back then, when he had obtained the Flower Fairy’s Blessing, it resulted in flowers blooming all over Great Qin and for there to always be a fragrant smell in the air. However, it only lasted for three years, and this happened to be the third year.

Zhao Fu remembered that he had also obtained the Flower’s Embrace buff, which increased his charm towards females and spirits. That was why the three Flower Spirits had been willing to join Great Qin.

Now that Flower Tears had appeared, time became quite tight. There were too many things that Great Qin wanted to obtain this time, so Zhao Fu did not waste any time and immediately ordered his people to start collecting Flower Tears.

However, something unexpected happened – the ground trembled as a Flower Devil climbed up from underground. This Flower Devil was humanoid, but its body was made out of plants. Its hands and feet were made out of roots, and there was a flower on its head, on which there seemed to be a blue Flower Tear.

This Flower Devil's strength was around Stage 0-7, and they were not things that ordinary residents would be able to deal with. This was the second stage of the Ten Thousand Flower Festival, and even though it was much more beautiful than the first stage, it was also much more dangerous.

After the Flower Devils appeared, they started to charge at the people around them. A Stage 1 soldier gripped his spear and stabbed out, piercing through its heart. The Flower Devil fell to the ground, dead, and turned into motes of light. It was not a real creature and was instead something that was created by the event.

Zhao Fu had never thought that there would be something like this – luckily, he had enough soldiers, and the vast majority of them had at least Stage 1 strength, so dealing with some Flower Devils was no problem at all. He could also have soldiers and residents form teams, which would be quite safe.

The Stage 2 and Stage 3 soldiers were responsible for dealing with the higher-grade Flower Devils. The higher-grade Flower Devils all had higher-grade Flower Tears as well.

Now that Great Qin had 160 regions, they had a massive amount of territory within which they could search for Flower Tears. Now that they had almost 700 million people, as well as a buff that gave three times Flower Tear Points, they would be able to quickly amass points. However, even with these resources, Zhao Fu did not feel at ease.

Unlike before, all of the paths between regions had been opened up, so people could travel freely. If a faction was able to gather 1,000 regions' worth of Flower Tears, they would definitely be able to defeat Great Qin.

Right now, Zhao Fu did not feel any confidence, and he ordered people to start buying Flower Tears using money, equipment, and medicinal pills. He wanted Flower Tears at all costs, as he was determined to obtain the six things that he wanted.

“Zhao, I can sense that there's a very big Flower Devil in the distance,” the most lively of the three Flower Spirits, Roserose, said as she drew a very big circle with her hands.

“We can also feel it!” the other two Flower Spirits said.

Zhao Fu felt quite surprised; he had never thought that the Flower Spirits would have the ability to sense Flower Devils. Since they had said that this Flower Devil was very big, that meant that the Flower Tear it had would be worth a lot. Zhao Fu smiled and took one of the Flower Spirits with him and had the other two go with other people.

Higher-grade Flower Tears could unlock blessings and Festival Points. A violet Flower Tear was worth 10,000 ordinary Flower Tears, an orange Flower Tear was worth 100,000 ordinary Flower Tears, and a platinum Flower Tear was worth one million ordinary Flower Tears.

Zhao Fu quickly called over Bai Qi and Ge Nia, who were the two strongest City Lords apart from Zhao Fu. After fusing with the Seven Kill City’s power, Bai Qi had become much stronger. Ge Nia was Zhao Fu’s strongest swordsman, and they would definitely be able to kill powerful Flower Devils quickly.

However, he found that one of them gave off immense killing intent while the other gave off a sword intent that could cut one’s skin, making the two Flower Spirits shiver in fear and almost cry.

As such, Zhao Fu could only summon Daisy and Asani and have them search for powerful Flower Devils with the Flower Spirits, while Bai Qi and Ge Nia were responsible for killing the Flower Devils.

Seeing Daisy and Asani, who they were familiar and comfortable with, the Flower Spirits became much happier and led them to find Flower Devils.

“Roserose, let’s go! You’ll be able to see them again when we get back.” Roserose seemed to be the most lively Fairy Spirit, but she was also the weakest emotionally. After the other two Flower Spirits left, she started to feel quite uncomfortable and unhappy, so Zhao Fu tried to comfort her.

“Okay!” Roserose quickly recovered and sweetly smiled as she replied.

Zhao Fu started to move out as well, and with Roserose guiding him, he quickly found a Flower Devil. This Flower Devil was indeed quite big; it was 15 meters tall and it had a Flower Tear giving off a faint orange light on its head.

From the very beginning, Zhao Fu found an orange Flower Tear that was worth 100,000 ordinary Flower Tears, making him feel quite delighted. This Flower Devil's strength was at around Stage 4, but it could not take a single blow from Zhao Fu.

“Roarr!!” the massive Flower Devil discovered Zhao Fu and gave a low roar that could be heard from a few kilometers away. It then strode towards Zhao Fu and swung its hands with massive power towards Zhao Fu.

Roserose did not feel very afraid, as her strength was at Stage 5. Moreover, she trusted that Zhao Fu would be able to take care of this, so she sat on Zhao Fu's shoulder and watched as the massive Flower Devil approached.

Zhao Fu drew the Sin Dragon Sword and swept out casually, causing an extremely sharp and cold light to slash out. It easily slashed the Flower Devil in two, causing it to fall to the ground and disperse into tiny motes of light.

The orange pearl giving off faint light floated in the air, and Zhao Fu grabbed at the air, causing the pearl to fly into his hand.

[Dawn Flower Tear]: A Flower Tear that can be exchanged for 100,000 Flower Tear Points. Collecting ten Dawn Flower Tears will unlock the Level 4 Flower Fairy's Blessing.

After looking at its description, Zhao Fu felt quite satisfied and put it away. The Flower Fairy's Blessing was very good for making the environment quite beautiful, and he wondered how many years the Level 4 Flower Fairy's Blessing would last for.

“Roserose, are there more big Flower Devils around here?” Zhao Fu smiled and asked Roserose sitting on his shoulder after putting away the Flower Tear

Hearing this, Roserose closed her eyes and spread her senses out before opening her eyes and pointing, saying happily, “Zhao! There's a big one over there!”

Zhao Fu flew towards the direction that Roserose was pointing in, and soon, they found another big Flower Devil. Just like the previous one, it also had a Dawn Flower Tear. After killing it, Zhao Fu obtained another Dawn Flower Tear.

“Zhao, there’s very, very big Flower Devil over there,” Roserose said as she drew out a gigantic circle with her hands.

Zhao Fu smiled – this meant that there would be an even higher-grade Flower Tear. In the past few hours, Zhao Fu had killed 59 Flower Devils and obtained 59 Dawn Flower Tears.

This time, when he flew in the direction Roserose pointed in, an enormous 30 meter tall Flower Devil appeared before Zhao Fu.

This Flower Devil was much bigger than the Dawn Flower Devils and was even more well-built. It also looked more like a human, and its aura was much more ferocious. Its strength was at around Stage 5, and there was a platinum-colored Flower Tear on a large flower on its head.

However, even Stage 5 Flower Devils were no match for Zhao Fu. Zhao Fu once again slashed out with his Sin Dragon Sword, but unexpectedly, this Flower Devil had some skills.

The Flower Devil crossed its arms, causing countless branches to stretch out. Flowers started to bloom on the branches, forming a flower shield that looked incredibly beautiful. As Zhao Fu’s sword light hit the flower shield, countless flower petals flew everywhere and rained down.

“Roarr!!” The flower shield was slashed apart, and a long, deep cut appeared on the Flower Devil’s arms, causing it to howl in pain. It retreated a few steps, but at least it was still alive.

Zhao Fu felt quite surprised; he had never thought that such a thing would happen. However, that was just a casual attack from him that did not use much strength. This time, Zhao Fu was more serious and killed the Flower Devil in one blow.

The Flower Devil’s massive body turned into motes of light and dispersed, and a platinum pearl was left floating in the air. At the same time, a green seed also dropped.

Zhao Fu went over and looked at the two items.

[Moon Flower Tear]: A Flower Tear worth 1,000,000 Flower Tear Points. Collecting ten Moon Flower Tears will unlock the Level 5 Flower Fairy’s Blessing.

[Flower Devil Seed]: Flower Devils innately possess various support stats for flowers. Because it is a plant-type creature, a single seed can create a group of Flower Devils. This is an ordinary seed that can create ordinary Flower Devils.

Zhao Fu was not too surprised after looking at the Moon Flower Tear, but it was the first time he had seen a Flower Devil Seed. A single seed could create a group of Flower Devils, which was quite useful, so Great Qin could consider creating a large number of them in the future.

However, would the Flower Devils they created be the same as these ones? These Flower Devils looked a bit horrifying and would definitely scare children to tears.

Since they were not too weak, Zhao Fu decided to try nurturing a group; perhaps they would have unexpected effects.

Zhao Fu smiled and took out a spirit fruit and gave it to Roserose sitting on his shoulder. Roserose did not hesitate and took the fist-sized spirit fruit and put it away. There was a very small spatial ring on her hand; Zhao Fu had specially made three spatial rings for the three Flower Spirits.

Roserose decided to put it away so that she could eat it together with Lilylily and Peachy. This spirit fruit was a Stage 4 spirit fruit and was quite rare.

“Zhao, there’s another very, very, very big Flower Devil over there!” After putting away the spirit fruit, Roserose happily smiled and pointed in another direction.

Hearing this, Zhao Fu felt quite delighted – this meant that there was a Flower Devil that was at least a Moon Flower Devil in that direction.

In this second stage of the Ten Thousand Flower Festival, the three Flower Spirits had made a massive contribution. Without their detection abilities, they would not be able to find Flower Devils so quickly, and Great Qin would not have been able to make such great gains.

Zhao Fu once again followed Roserose’s directions and found a massive Flower Devil.

This Flower Devil was 60 meters tall and had Stage 6 strength, making it slightly difficult to deal with. The Flower Tear on the flower on its head gave off a black light; Zhao Fu had no idea what it was, but it was definitely more valuable than the Moon Flower Tear.

After a short battle, Zhao Fu killed this gigantic Flower Devil and obtained two items: a black Flower Tear and a silver Flower Devil Seed.

[Night Flower Tear]: A Flower Tear worth ten million Flower Tear Points. Collecting ten Night Flower Tears will unlock the Level 6 Flower Fairy's Blessing.

[Flower Devil Seed]: A fine-quality Flower Devil Seed that can create fine-quality Flower Devils.

This made Zhao Fu feel pleasantly surprised – a Night Flower Tear was worth ten million Flower Tear Points. Having obtained this single Flower Tear, Zhao Fu's gains had surpassed what millions of people could gather.

In fact, for ordinary people, collecting a single Flower Tear could be quite difficult; in that case, this Night Flower Tear that Zhao Fu had just obtained was comparable to the gains of ten million people. This made Zhao Fu feel incredibly ecstatic.

The fine-quality Flower Devil Seed was also quite good, but it seemed to only be a bit better than ordinary Flower Devil Seeds.

“Zhao! There's a very, very, very, very, very big Flower Devil over there,” Rose rose's tender voice once again sounded out, making Zhao Fu want to laugh out loud in joy.

## Chapter 808: Fantasy Flower Devil

According to how Roserose described it, this Flower Devil definitely surpassed Night Flower Devils. That meant there would be a higher-grade Flower Tear and Flower Devil Seed.

A Night Flower Devil's Flower Tear was already worth ten million Flower Tear Points, so just how much would an even higher grade Flower Tear be worth?

Zhao Fu did not waste any time and quickly flew in the direction that Roserose had pointed in. After a few minutes, a gigantic figure appeared before Zhao Fu.

This Flower Devil was 500 meters tall and gave off a terrifying aura. In fact, it was comparable to the boss monster of a region, and the Flower Tear on the flower on its head gave off a three-colored light – it was definitely more valuable than a Night Flower Tear.

Zhao Fu grinned and immediately drew the Sind Dragon Sword and rushed up.

The enormous Flower Devil did not hold back either, and it understood how powerful Zhao Fu was, so it used its full strength from the start. It waved its hand, causing all sorts of flowers to grow on its arm. Once these flowers bloomed, their petals fell and flew towards Zhao Fu, giving off a sharp aura.

Facing this massive AOE attack, Zhao Fu could only stop and unleash his Emperor's Domain. The black dragon barrier covered Zhao Fu's body as the hurricane of petals flew over, smashing against it. However, they were unable to leave even a mark on the barrier.

Zhao Fu maintained his King's Domain as he rushed at the massive Flower Devil. The Flower Devil's root-like hands intertwined and formed a spear. Countless flowers grew on it, creating a spear of flowers that looked both beautiful and deadly.

The Flower Devil lifted its flower spear and gave off massive power as it stabbed towards Zhao Fu, causing a fragrant smell to fill the air.

Zhao Fu felt a berserk gale shoot at him as the flower spear suddenly extended to 50 meters long and gave off a powerful aura of suppression. In just an instant, this flower spear was about to hit Zhao Fu.

In that instant, Zhao Fu gripped his sword with both hands and sent his Emperor's Power into it. The Sin Dragon Sword gave off a terrifying sword light as Zhao Fu slashed down with immense force.

Bang!

As the beautiful flower spear collided with the terrifying sword light, a massive explosion sounded out, causing petals and sword light to fly everywhere and for a wild gale to blast out.

Boom! Boom! Boom!

Zhao Fu did not move at all in the air, but the enormous Flower Devil was forced back three steps. Each step it took backward caused massive sounds and for the ground to tremble, causing leaves to fall down from trees.

“Roar!!” the Flower Devil furiously roared as the massive flower on its head gave off an intense three-colored light. The flowers in the surrounding few kilometers seemed to be summoned by something and all flew towards the Flower Devil.

The massive wave of petals danced around the Flower Devil. There were all sorts of colors of, and the petals spun around the Flower Devil, giving off an incredibly fragrant scent.

At the same time, an extremely powerful aura burst forth like a wild wind. All Flower Devils in the surrounding ten kilometers felt a sense of fear and instinctively tried to distance themselves away from this region.

This Flower Devil looked quite frightening, and it started to unleash beautiful attacks. Seeing this, Zhao Fu could not help but sigh.

“Roar!!” the Flower Devil roared as the flower petals around it flooded towards Zhao Fu.

Feeling this immense might, Zhao Fu could not help but become serious. The Great Qin Seal within his body gave off countless traces of black aura, providing Zhao Fu with even more power.

Zhao Fu raised the Sin Dragon Sword with one hand, causing a terrifying sword aura to rush to the sky. A sword wind blew like a cyclone, and the Sin Dragon Sword gave off a terrifying sword light that covered the dozens of meters around it. As the flood of flower petals arrived, Zhao Fu vigorously swung downwards.

Boom!!

A gigantic explosion sounded out as the massive flood of petals was slashed apart by the massive sword light. The flood of petals was instantly destroyed, and countless flower petals filled the sky.

The immense sword qi that the sword light contained blasted the Flower Devil back four or five steps, and a long gash ran down its body.

Zhao Fu did not waste this opportunity and turned into a ray of light as he rushed to the Flower Devil, stabbing at its heart with immense force. The Flower Devil was given a big shock, but it was already too late.

The massive sword light instantly pierced through its heart, tearing it apart. There was now a 10 or so meter wide hole where its heart had been.

Boom!!

A gigantic sound rang out as the Flower Devil's enormous body crashed to the ground before turning into countless motes of light and scattering. It left behind three items: a three-colored Flower Tear, a gold Flower Devil Seed, and a two-meter wide flower that looked like a peony.

[Fantasy Flower Tear]: A Flower Tear worth 100 million Flower Tear Points. Collecting ten Fantasy Flower Tears will unlock the Level 7 Flower Fairy's Blessing.

[Flower Devil Seed]: A rare Flower Devil Seed that can create a group of rare Flower Devils.

[Flower Domain]: This item contains a Flower Domain. Flowers within the Flower Domain will never wilt, and the 10,000 kilometers around the Flower Domain will be beneficial for the growth of Flower Devils.

A Fantasy Flower Tear was worth 100 million Flower Tear Points – Zhao Fu could not help but grin. The rare Flower Devil Seed was also quite good, and Zhao Fu was quite satisfied already.

Finally, there was also the Flower Domain. If its range was a bit bigger, Great Qin would no longer need the Flower Fairy's Blessing.

However, it would be quite good as a place to nurture Flower Devils. With the Flower Domain, the Flower Devils would be able to grow quite quickly.

After putting these three items away, Zhao Fu looked at Roserose and asked, "Are there any more Flower Devils nearby?"

Roserose closed her eyes and sent her senses out before pointing and saying, “There’s a little Flower Devil over there!”

Hearing this, Zhao Fu felt a bit disappointed. He went over and saw that it was only a violet Flower Devil, obtaining a violet Flower Tear.

Time gradually passed, and soon, dawn broke. Over the night, Zhao Fu killed 19 violet Flower Devils, 90 Dawn Flower Devils, eight Night Flower Devils, and two Fantasy Flower Devils.

Now, it was time to collate Great Qin’s gains from the night. The second stage of the Ten Thousand Flower Festival would be finishing at 12 AM the next day.

After returning to Great Qin, Bai Qi and Ge Nia also returned, and they calculated Great Qin’s gains. In total, they had killed 129 violet Flower Devils, 40 Dawn Flower Devils, five Night Flower Devils, and 1 Fantasy Flower Devil.

With all of Great Qin’s soldiers and residents working together, they collected 3.2 billion Flower Tear Points during the night, which was quite shocking. The main reason was because they had so many people and the three times Flower Tear Points blessing.

Apart from this, Great Qin also bought 50 million Flower Tears. This was not a large figure, as Flower Tears could be exchanged for cheaper items as well, so people were not very willing to sell them. However, Zhao Fu was not too disappointed – if even Great Qin found it difficult to buy this many, it would be even harder for others.

## Chapter 809: Rainbow Flower Devil

With so many Flower Tear Points, Zhao Fu would be able to exchange for many things. Zhao Fu decided to first buy some professions, as the special professions were simply too important to Great Qin, while the special cities would still have to be slowly developed.

Zhao Fu went to the Exchange Stone Stele and redeemed the ocean of Flower Tears for Flower Tear Points and prepared to buy the Human Ghost profession.

“System announcement! The second stage of the Ghost Festival has not yet been released; you are unable to exchange for this reward.”

“System announcement! Your Flower Tear Points can only be used to exchange for rewards for the Ten Thousand Flower Festival. After the Ghost Festival is released, your Flower Tear Points will automatically be converted to Ghost Points at a 10:1 ratio.”

Zhao Fu immediately felt that he had been screwed over; he had to wait till the next day to exchange for the special professions, and his Flower Tear Points would be converted at the rate of 10:1. Zhao Fu felt as if he had worked this entire night for nothing because there was nothing that he wanted from the Ten Thousand Flower Festival.

This made Zhao Fu feel greatly disappointed, and he sighed, deciding not to use the Flower Tear Points for now. At the very least, they would give him a big advantage for the Ghost Festival tomorrow.

Even though the 10:1 ratio was quite annoying, if Great Qin could obtain a massive amount of Flower Tear Points today, they might be able to instantly buy the special professions when the Ghost Festival was released. As such, it was still worth it to work hard right now.

Zhao Fu felt much better, and he had the soldiers and residents, who had been working the whole night, to take a rest before continuing to collect Flower Tears.

Time gradually passed, and Roserose continued to guide Zhao Fu to find powerful Flower Devils, collecting high-grade Flower Tears. They killed another two Fantasy Flower Devils, obtaining more Fantasy Flower Tears, rare Flower Devil Seeds, and Flower Domains.

By now, it was late afternoon, and the sun was starting to set, dyeing half the sky gold; the ground seemed as if it had put on a golden coat.

Zhao Fu once again returned to Great Qin to calculate their gains so far. By now, one of the three weapons on the rankings had disappeared – it was the third-ranked Chilling Moon Divine Bow; it seemed that the others were working hard too.

Zhao Fu did not care too much about this and continued to kill Flower Devils. Flower Devils continuously died at Zhao Fu’s hands, and he continuously collected Flower Tears.

Around 9 PM, the moon gave off a gentle, silver moonlight that covered the world. At that moment, Roserose suddenly pointed in a direction and said, “Zhao! There’s a very, very, very, very, very, very big Flower Devil over there; it’s very scary. Do you want to go?”

Hearing this, Zhao Fu felt incredibly delighted, because this Flower Devil most likely surpassed Fantasy Flower Devils, which meant immense gains. Of course Zhao Fu had to go.

After flying for a while, Zhao Fu reached his destination. This was a valley, and Zhao Fu did not see a Flower Devil, only a gigantic flower on the ground. The flower looked like a white Japanese rose and gave off a faint white light, giving off an elegant aura under the moonlight.

What shocked Zhao Fu was that there was a rainbow-colored Flower Tear at the center of the flower; this was definitely a Flower Devil that surpassed the Fantasy Flower Devil.

As Zhao Fu walked over, the ground suddenly shook as a Flower Devil climbed out. It was 1,000 meters tall and gave off a mountain-toppling aura; its power surpassed that of the boss monster of a region and was as powerful as an Aquatic Beast King.

Facing this power, Zhao Fu could not help but become serious, because this sort of monster would not be easy to deal with.

After the rainbow Flower Devil stood up, it roared at the moon before swinging its hand, bringing with it a massive wind as it attacked Zhao Fu.

Zhao Fu had Roserose climb into his clothes before he quickly dodged the attack and rushed forwards. He slashed out with his sword, causing a sharp and cold sword light to hit the Flower Devil’s body and open up a small cut.

However, countless flowers immediately grew around the small cut, immediately healing it as if nothing had happened. The rainbow Flower Devil’s monstrous power was at least ten times greater than that of a Fantasy Flower Devil’s, making it incredibly hard to deal with.

Zhao Fu did not hesitate and unleashed all of the Great Qin Seal’s power, causing a terrifying demonic flame to rise from his body.

At that moment, the rainbow Flower Devil once again attacked. Countless flowers grew on its body and started to spin, leaving the branches as they flew towards Zhao Fu like incredibly sharp discs. The scene of tens of thousands of these flowers flying together created a terrifying aura.

Zhao Fu activated his Emperor's Domain but was still forced back dozens of meters by this ferocious attack, and there were now cracks on the Emperor's Domain.

Zhao Fu's Emperor's Domain was cast using his Sovereign Bloodline and had been reinforced by the Domain Pill. It was incredibly tough, but it was now cracked – an ordinary King's Domain would not have been able to withstand this attack at all.

“Hahh!!” The Great Qin Seal within Zhao Fu's body continuously trembled as Zhao Fu started to gather the other City Lord Seals' power. An extremely powerful aura burst forth from Zhao Fu's body, and he gripped the Sin Dragon Sword with both hands, giving off a blinding sword light as he slashed out, causing five water dragons to roar as they flew towards the rainbow Flower Devil.

Facing Zhao Fu's terrifying attack, the rainbow Flower Devil also roared and swung out its arms, causing a formless energy to ripple out. The flowers in the surrounding dozens of kilometers quickly gathered, forming a sea of petals above the rainbow Flower Devil's head, which then flooded towards the five water dragons.

Boom!!

The collision of the flood of petals and the five water dragons gave off a massive explosion, and a shockwave blasted outwards. Petals and water flew everywhere, creating a rain of petals and water.

Suddenly, Zhao Fu appeared behind the rainbow Flower Devil and slashed out ferociously. A 100-meter wide sword light, giving off a sharp sword qi, landed heavily on the rainbow Flower Devil's back, causing it to stumble. It crashed on the ground, a deep gash on its back.

“Roarr!!” the rainbow Flower Devil howled in pain, and the white Japanese rose on its head gave off terrifying ripples as it started to spin and thousands of white rays of light shot out from it.

Zhao Fu was greatly startled, and he quickly sent all of his strength into his Emperor's Domain as he continuously dodged about.

Those terrifying white rays of light cut apart the entire valley. No rocks or trees were able to stop them and were all cut into pieces.

Zhao Fu climbed out from a pile of rocks, a trace of blood on his lips. His right shoulder was dyed red with blood – just then, the Emperor's Domain had only lasted for a few seconds before it had shattered, and Zhao Fu was hit on his shoulder by a white ray of light.

After being heavily wounded by Zhao Fu and unleashing such a big AOE attack, the rainbow Flower Devil was in an extremely weakened state.

Zhao Fu could not waste this opportunity, and he did not even have time to consume any healing medicines as he rushed up and wildly attacked the Flower Devil. After a few more attacks, Zhao Fu finally killed this rainbow Flower Devil and obtained four items.

#### Chapter 810: Seven Wondrous Flowers

The first three of these four items were ones Zhao Fu had seen before: one was a rainbow-colored Flower Tear, one was a violet Flower Devil Seed, and the massive Japanese rose was a Flower Domain. The fourth item was a gray plant ball, and Zhao Fu had no idea what it was.

[Mythic Flower Tear]: A Flower Tear worth one billion flower tears. Collecting ten Mythic Flower Tears can unlock the Level 8 Flower Fairy's Blessing.

[Flower Devil Seed]: A Lord class Flower Devil Seed that can create a group of Lord class Flower Devils.

[Flower Domain]: This item contains a Flower Domain. Flowers within the Flower Domain will never wilt, and the 100,000 kilometers around the Flower Domain will be beneficial for the growth of Flower Devils.

[World Flower Seed]: A World Flower Seed that contains a trace of the world's source energy and can grow the world's most beautiful flower. The fragrance it gives off is the most intoxicating fragrance in the world.

After looking through these four items' information, Zhao Fu once again felt incredibly delighted. This rainbow Flower Tear was a Mythic Flower Tear, and it was worth one billion Flower Tear

Points. By obtaining this Flower Tear, his gains had surpassed what one billion people would be able to collect.

Even with so many people, Great Qin had only collected three billion Flower Tears overnight, and by just killing one Flower Devil, Zhao Fu had earned one-third of that.

The Lord class Flower Devil Seed also made Zhao Fu feel quite interested. After all, Lord class monsters were quite powerful, so this Flower Devil Seed was worth dozens of times more than the rare Flower Devil Seeds. He wondered what the Flower Devils they created would be like.

For the Flower Domain, apart from the range being 100,000 kilometres, there was nothing else special about it. After glancing at it, Zhao Fu looked at the fourth item.

The World Flower Seed's information made Zhao Fu feel incredibly delighted. After all, World Flowers were incredibly rare and were things that could not be bought with money. They were indescribably beautiful and gave off an enchanting fragrance, and they were the top-ranked out of the world's Seven Wondrous Flowers.

Apart from being beautiful and fragrant, the World Flower had two uses: one was producing Flower Tears, of which they could produce seven in a week. These Flower Tears were not items but Epic grade materials that could be used to forge Epic grade equipment.

The other use was producing World Pollen, which had heaven-defying effects. It could allow one to maintain one's looks forever without growing old.

This was quite similar to a divine pill, the Eternal Countenance Pill, which could allow one's looks to not age. It was something extremely rare and could not be bought with money, making nearly all women in the Heaven Awaken World go crazy for it.

Zhao Fu saw many quests in the Heaven Spirit Stele for such things: ten Saint Armaments for an Eternal Countenance Pill, 100 Cities for an Eternal Countenance Pill, an extremely powerful Art or Skill for an Eternal Countenance Pill, and some experts were even willing to serve people for ten years for an Eternal Countenance Pill.

From this, it could be seen how valuable Eternal Countenance Pills were, and similarly, how valuable World Pollen was.

The World Flower was the biggest source of Zhao Fu's delight. With this World Flower, he would be able to obtain unimaginable benefits, helping Great Qin immensely.

However, Zhao Fu had only obtained a World Flower Seed, which required some time to nurture into a beautiful World Flower.

Zhao Fu smiled happily as he put these things away. It was now 11 PM, and there was only one more hour until the Ghost Festival was released. Zhao Fu quickly returned to Great Qin and calculated their gains over the day.

Great Qin's gains in one day were incredibly shocking – they had amassed 13.5 billion Flower Tear Points, so even after the 10:1 conversion, Great Qin would still have 1.35 billion Ghost Points. What's more, this was not even including Zhao Fu's Flower Tears, which were worth around 1.5 billion Flower Tear Points.

Because Zhao Fu only had a single Mythic Flower Tear, he exchanged it for Flower Tear Points, but because Great Qin had gathered ten Fantasy Flower Tears, they could unlock the Level 7 Flower Fairy's Blessing.

[Level 7 Flower Fairy's Blessing]: Effectiveness: Permanent, Description: The Flower Fairy's wonderful blessing that increases the speed at which flowers within your territory grow by 1000% and increases the time it takes for flowers to wilt by 1000%. Contains the effect 'Flower Fragrance World,' which can help with everyone's Cultivation and clearing one's obsessions and distractions.

A Fantasy Flower Tear was worth 100 million Flower Tear Points, and Zhao Fu had spent ten of them, but it was not just to beautify Great Qin. If that was the purpose, he could just use the Night Flower Tears, which gave the Level 6 Flower Fairy's Blessing, which was also permanent.

Rather, the Level 7 Flower Fairy's Blessing had the 'Flower Fragrance World,' which was what Zhao Fu was interested in. There was no limit to the number of people who could benefit from this; anyone who was within Great Qin's territory could benefit from this buff, whether they were a soldier or a common resident. The buff could help everyone increase their Cultivation speed and avoid obsessions and distractions that would hinder their Cultivation.

This sort of buff that had no requirements at all was not something that could be bought, which was why Zhao Fu was willing to waste one billion Flower Tear Points.

However, it was a pity that they could only obtain one Mythic Flower Tear. From the description, it seemed that the Level 8 Flower Fairy's Blessing was the ultimate blessing, and it would definitely be much more powerful than the Level 7 Flower Fairy's Blessing.

Zhao Fu went to the center of the Great Qin City. The ten Fantasy Flower Tears in his hands gave off three-colored lights and floated into the sky before fusing together.

Immediately, a rainbow wave of light rippled out, and countless petals descended from the sky, accompanied by countless motes of light. The scene was incredibly beautiful as if it was something from a fantasy wonderland, and a figure gradually appeared, surrounded by light.

She had an extremely delicate face, jet-black hair, and snow-white skin. She wore clothes made out of flower petals, and there was a pure smile on her face. She was the Flower Fairy, and Zhao Fu had seen her before when unlocking the Level 3 Flower Fairy's Blessing.

The Flower Fairy stretched out a hand, and a pink pearl appeared. The pearl automatically rose into the sky and exploded, causing a pink light wave to spread out across all of Great Qin's territory.

The Flower Fairy looked at Zhao Fu and smiled, her gaze incredibly pure, making her look like a holy, pure lotus. Since a long time ago, Zhao Fu was certain that the Flower Fairy was a real creature that had its own life and thoughts.

The Flower Fairy lightly descended from the air, and Zhao Fu understood there were other blessings, just like how Zhao Fu had obtained the Flower Fairy's Embrace before.

The young woman descended and stretched out her snow-white hands to lightly hug Zhao Fu before gently kissing him on the forehead. Zhao Fu could clearly feel how soft her lips were, and a pink lips-mark appeared on Zhao Fu's forehead before fading.

“System announcement! You have obtained the Flower Fairy's Kiss, making it easier for spirits to like you, and your charm has greatly increased.”

“System announcement! You have obtained Flower's Power.”
