

## The Lord 821

### Chapter 821: Second Stage – Divine Fish Festival

As the final festival of the human world, it was impossible for there to only be items on the rankings list. Apart from those items, there were still many other items, such as equipment, medicinal pills, materials, and skills.

Zhao Fu looked through the items in the Exchange Stone Stele. He had been completely focused on the festival itself and had not had any time to look through the various other items. Now that he started looking, he was able to find quite a few good items.

The first thing that Zhao Fu bought was a large amount of Spirit Liquid, raising Great Qin's 4,500 or so Trees of Life and 300 Ginseng Trees to 20 or 30 years old. These trees could now produce Fruits of Life and Ginseng Fruits.

Now, Great Qin's first Ginseng Tree had become a Level 2 Ginseng Tree. The World Tree near the Fountain of Life had also been greatly nurtured by Zhao Fu and had absorbed a lot of life essence, causing it to become quite lush. It was nearly 100 meters tall and had nearly leveled up.

The second item he exchanged for was an Evil-Crushing Spear blueprint. Zhao Fu quite enjoyed using Evil-Crushing Spears, as they were incredibly effective against Ghosts and Demons. It was a pity that they were single-use items, and Great Qin had used up all of the ones they had bought last time.

Now that Zhao Fu had bought its blueprint, Great Qin would be able to mass-produce them. This required Talisman Masters, so Great Qin also decided to nurture more Talisman Masters.

The Evil-Crushing blueprint was somewhat expensive, costing 100 million Ghost Points. However, this was not a big deal to Zhao Fu, and he even purchased the advanced blueprint as well.

[Spirit – Evil-Crushing Spear]: The advanced version of the Evil-Crushing Spear. Not only is it many times more powerful than an ordinary Evil-Crushing Spear, but it also contains Evil-Crushing Spirit, which is extremely damaging even against high-grade evil creatures. Only high-grade Talisman Masters can craft it.

This advanced blueprint cost 600 million Ghost Points. Since Great Qin had amassed a massive number of Ghost Points, which would be wasted the next day, Zhao Fu did not feel any pain in his heart at all when buying these things. Of course, he did not use his own Ghost Points.

The fourth item Zhao Fu bought was a formation tool for a Yin Qi formation. It could gather even purer Yin Qi, and now that Zhao Fu was planning on creating Ghost Soldiers, this would be quite important for increasing the Ghost Soldiers' strength. As such, Zhao Fu bought this formation tool to go with the Ghost King Gravestone. This item was not very expensive, being only 50 million Ghost Points.

On the other hand, the final item was the most expensive, costing three billion Ghost Points. The sheer number of Ghost Points it cost showed how extraordinary this item was – it was an army flag with a 12-meter pole made out of metal and a black flag. There was a monster with a snake's head and a bird's body on it, and it gave off an eerie, terrifying aura.

[Ghost Army Flag]: Originally an army flag of the living world that led hundreds of millions of soldiers. After being affected by boundless Yin Qi in the Ghost World, it became a treasure of the Ghost World.

The main effect of the Ghost Army Flag was to help change professions. This flag could gather a massive amount of Ghost Army Qi, and Ghost Soldiers created within the area of effect of this flag would automatically become Spirit Ghost Soldiers.

[Spirit Ghost Soldier]: C- grade Military, Description: An evolution of the Ghost Soldier from a massive amount of Ghost Army Qi, Effects: Receives [Spirit Ghost Power].

This was a C- grade profession, which was higher than even Great Qin's military professions. Right now, Great Qin Soldier was still a D+ grade profession, showing how powerful the Spirit Ghost Soldier profession was.

What's more, this was not the best thing about the Ghost Army Flag – the best thing about it was that there was no limit to how many Ghost Soldiers could obtain the Spirit Ghost Soldier profession. In other words, it could make every single Ghost Soldier a Spirit Ghost Soldier.

This was the item that Zhao Fu wanted the most – with this Ghost Army Flag, Zhao Fu could turn all of the Ghost Soldiers into Spirit Ghost Soldiers.

Now, with all of the Ghost Seals, Great Qin could command 25 million Ghost Soldiers – that was equivalent to a fifth of Great Qin’s current force. Apart from the sealing of the Six Paths Demon Images, this was Great Qin’s biggest gain so far.

However, because the festivals continued one after the other, there was no time to take care of this. Zhao Fu could only wait until the Six Day Festival was over to start setting everything up.

By now, it was 11 PM, and Zhao Fu bought a few more things. He had spent most of the Ghost Points that Great Qin had gathered, leaving only his own Ghost Points.

The Ghost Festival was about to pass, and the second stage of the Divine Fish Festival was about to begin. The special rewards for this event were the three special cities, which were things that Zhao Fu had long since set his eyes on. As such, he had to continue to work hard and could not relax just yet.

Because the Divine Fish Festival was an individual event, Great Qin’s forces, who had labored for two days – especially because of the Six Paths Demon Images – could finally have rest. Zhao Fu understood just how difficult it had been for them to help him deal with the Six Paths Demon Images.

In actuality, out of everyone, Zhao Fu was the one who had put in the most work. Even though he was quite tired, because the Divine Fish Festival was an individual event, even if everyone rested, he could not. Otherwise, how would he be able to earn enough Divine Fish Points to exchange for the special cities?

Time gradually passed, and soon, it was 12 AM. The boundless ghostly qi gradually faded, and the world returned to its normal state. The moon in the sky lost its grayness, and its gentle moonlight shined down on the earth.

Suddenly, rainbow-colored lights fell from the sky, looking incredibly beautiful. Fish danced about in the sky – there were carps, catfish, whales, and all sorts of fish – and happily swam about.

The entire sky became a rainbow-colored ocean with all sorts of fish swimming about, and countless people looked up, transfixed.

This lasted for five minutes before the fish in the sky turned into motes of light and descended like a rain of light. The second stage of the Divine Fish Festival had begun.

“System announcement! All of your Ghost Points have been automatically converted into Divine Fish Points.”

After receiving this system announcement, Zhao Fu looked at the Exchange Stone Stele and found that he had enough to purchase the number 1 ranked city.

However, Zhao Fu hesitated – out of the Celestial City, Sword Mountain, and Holy God City, which one should he buy first?

In terms of stats, Celestial City was the best one. However, Sword Mountain had the highest attack, and Holy God City was good in all respects. After some thinking, Zhao Fu decided to exchange for Sword Mountain first.

Zhao Fu liked things with high attack, and he had Ge Nia, Great Qin’s number one swordsman. With him as the City Lord, he would be able to produce a large group of powerful swordsmen for Great Qin.

Zhao Fu decided not to exchange for the best city, but the most suitable city, for now. Sword Mountain was still only a Basic Village, but this was not a big deal to Great Qin – in just a short while, it would become a Great City.

## Chapter 822: Rainbow Divine Fish

After dealing with these matters, Zhao Fu started to participate in the Divine Fish Festival. Back then, Zhao Fu had fed his blood to some small fish and used them as bait to catch many rare fish.

The Divine Fish Festival from before had placed the Dynasty Legatees at a disadvantage and had given some ordinary people a large amount of Fate and incredibly powerful abilities.

The reason why Masanori Hano had suddenly risen was because she had obtained one of the ten special cities and become a Legatee. She was now the most respected woman in Japan, and she was admired and sought after by countless men.

Before, Zhao Fu had lost to their incredibly cheat-like abilities, and even now, he was still quite worried. There were still two cities available, and there was intense competition.

However, things were completely different from before – Zhao Fu now had a Sovereign Bloodline and was not at such a big disadvantage anymore. Moreover, all of the regions were opened up, and Zhao Fu could choose to go to a larger body of water, such as an ocean. This time, Zhao Fu was determined not to lose to anyone else.

After making some preparations, Zhao Fu went to the Water God Temple because the Water God could give blessings.

The Water God Temple had risen to Level 7 and was three levels below the City God Temple. This was because the City God Temple gave blessings for all sorts of things: safety, marriages, and financial fortune, so more people tended to go there to offer sacrifices of incense.

On the other hand, the Water God only gave blessings related to water, and Great Qin did not have many water regions, so naturally, the Water God Temple did not receive as much incense.

In actuality, Level 7 was already quite powerful – the Water God's body was now corporeal and was like a normal person's body. The blessings it could give were many times more powerful; back then, the Water God's body had only been illusory.

Looking at the gentle and beautiful woman in front of him, Zhao Fu decided to just bring her with him on his expedition and receive the maximum blessings. This time, Zhao Fu was determined to win against all of those normal people with cheat-like abilities.

Zhao Fu used a teleportation channel to go to a sea and went to the deep sea area. He took a small boat out of his spatial ring and started to fish under the bright moonlight. The bait he used was, of course, small fish that had been fed his blood.

Beside him, the Water God gave various blessings, causing different colored lights to fall on his fishing rod.

Zhao Fu silently sat on the prow of the boat and waited for fish to bite. The Water God silently waited behind Zhao Fu, worried that it might disturb Zhao Fu. Only Zhao Fu would bring a godly spirit with him to fish.

In just a short while, Zhao Fu's fishing rod was pulled by an immense force. This power could rival that of a Basic City's City Lord's strength.

However, it was facing Zhao Fu – Zhao Fu gripped the fishing rod with one hand and lifted up vigorously, dragging an eel-like fish out of the water.

The eel was ten or so meters long, had a mouth full of sharp teeth, and gave off a three-colored light. Right off the bat, Zhao Fu had fished up a Level 7 Divine Fish; this was only a single level lower than the rainbow-colored Divine Fish Zhao Fu had fished up during the last event.

Zhao Fu dragged the three-colored eel out of the water, and it turned into countless motes of light and entered Zhao Fu's body. A system announcement sounded out in Zhao Fu's mind.

What surprised Zhao Fu was that there was no Fish Jewel. Before, whenever Zhao Fu caught a fish, there was also a high chance of obtaining a Fish Jewel. However, Zhao Fu did not obtain a Fish Jewel this time not because his luck was bad but because he had obtained something else.

It was a 15-centimeter wide wheel with a pointer on it. Apart from there being countless fishes on it, it was divided into seven segments: Equipment Region, Skill Region, Blessing Region, Item Region, Material Region, Special Reward, and No Reward.

[Divine Fish Wheel]: A special rewards wheel created by the Divine Fish that can give all sorts of rewards, but it can only be used once.

Zhao Fu felt quite surprised when he saw this wheel. However, he felt a bit disappointed, as the Fish Jewels gave guaranteed rewards, while this Divine Fish Wheel had a chance of not giving anything.

Zhao Fu hated the feeling of working hard for something and not getting anything, but since there was a 'Special Reward' section, that meant that the potential for better rewards was much greater.

Zhao Fu decided to try the Divine Fish Wheel out later; after all, his focus right now was to obtain Divine Fish Points. As such, Zhao Fu put it away and continued to fish.

At that moment, the Water God suddenly said, "Your Majesty, I can sense that there's a trace of divine power in this wheel that's very useful to me. I can fuse with this trace of divine power and also gain slight control over the wheel, allowing you to avoid the 'No Rewards' segment."

Zhao Fu felt quite surprised and did not mind much, so he gave the wheel to the Water God behind him. The Water God took the wheel and sat down behind Zhao Fu, giving a gentle and beautiful smile before saying, “Thank you, Your Majesty!”

Zhao Fu lightly nodded before shifting his focus back to fishing. He cast the line again, and soon, he fished up another three-colored Divine Fish, making Zhao Fu feel quite happy. At the same time, he obtained another Divine Fish Wheel.

After setting up the bait again, Zhao Fu cast the line again. Soon, a massive force started to tug at the line – it was even more powerful than the three-colored Divine Fish, and there was only one possibility.

A look of delight appeared on Zhao Fu’s face, and he stood up and gripped the fishing rod with both hands, vigorously lifting upwards. The fish desperately struggled underwater, and a terrifying aura came from below the water.

At that moment, Zhao Fu used a trace of the Great Qin Seal’s power. He gripped the fishing rod firmly and lifted, finally dragging out the fish.

It was a rainbow-colored skate fish with a silver-colored tail. It was quite pretty, and after being lifted out of the water, it turned into countless motes of light and entered Zhao Fu’s body.

Another system announcement sounded out in Zhao Fu’s head, and this time, he obtained two items: one was the Divine Fish Wheel and the other was a rectangular crystal that was three fingers wide. It was a deep-blue color and gave off a powerful water-attribute aura.

[Water God Stone]: A stone that contains a trace of Water God Power. It can be used as the cornerstone of a Water God Temple. The more Water God Stones one collects, the more powerful the Water God Temple will be and the greater the blessings will be.

Zhao Fu felt quite delighted; this would be quite useful for when Great Qin started to develop a navy.

Behind Zhao Fu, the Water God suddenly said, “Your Majesty, I’ve fused with the trace of divine power; you can use this wheel now.”

Hearing this, Zhao Fu gave the newly-obtained Divine Fish Wheel to the Water God and smiled as he said, “You can fuse with this one as well. The more control you have, the better items we’ll be able to open.”

The Water God smiled and nodded its head before starting to fuse with the trace of divine power in the wheel.

Zhao Fu continued to fish, and soon, he dragged up another three-colored Divine Fish. Zhao Fu was also pleased to find out that his blood gave off a pressure that made it so that Divine Fish below the three-colored Divine Fish’s grade did not dare to come near, while it was incredibly attractive to three-colored Divine Fish and above. This gave Zhao Fu a massive advantage.

### Chapter 823: Eight-Colored Divine Fish

There was a wooden bucket behind Zhao Fu, within which there were hundreds of small fish that were as big as a thumb. The bucket was filled with water, and Zhao Fu had put in a few drops of his blood for them to consume.

After consuming Zhao Fu’s blood, all of the fish’s scales became black and looked like dragon scales, and they gave off a faint might. Even though the might was quite weak, it was an incredibly dignified might.

After all, Zhao Fu had a Sovereign Bloodline, which reigned above the bloodlines of Kings and Emperors, so it was naturally quite effective.

At that moment, the Water God spun one of the Divine Fish Wheels, causing it to rise to the air, and the pointer slowly spun. Soon, the pointer slowed down before stopping within the Special Reward segment.

Because it was the Water God who had activated the Divine Fish Wheel, Zhao Fu also received a system announcement that he had obtained an Experience Stone. After this system announcement sounded out, the Divine Fish Wheel turned into motes of light and disappeared as a milky-white stone the size of a walnut appeared.

[Experience Stone]: A City item that has immense soul power. After using it, it can give any City ten million EXP.

This item caused Zhao Fu to feel quite excited – such a small stone could give ten million EXP, which was no small figure. If he could obtain a few of these Experience Stones, Great Qin would be able to level up again soon.

It seemed that the special rewards were quite good. Zhao Fu had never thought that he would receive such a thing on his first spin.

Zhao Fu felt quite hopeful for the next one, so he had the Water God activate the next Divine Fish Wheel. The second wheel floated into the air, and the pointer spun before stopping within the Material region. Zhao Fu received a system announcement that he had obtained a low-quality Epic grade material.

The Divine Fish Wheel once again turned into motes of light and dissipated as a dark blue jade appeared in front of Zhao Fu.

Zhao Fu felt a bit disappointed; it seemed that he would not be able to hit the Special Reward region every time. If he wanted to obtain great gains, he still had to continue to fish.

Zhao Fu continued to attach bait to the hook, and soon, something tugged at the fishing line again. Zhao Fu pulled it up and found that it was a three-colored Divine Fish, which turned into countless motes of light and entered Zhao Fu's body. At the same time, another Divine Fish Wheel appeared.

It seemed that fishing up any fish gave Divine Fish Wheels and only gave Fish Jewels occasionally.

Zhao Fu once again handed the Divine Fish Wheel to the Water God before continuing to fish. The Water God continued to fuse with the traces of divine power in the Divine Fish Wheels before activating them.

Zhao Fu was responsible for catching fish while the Water God was responsible for activating the Divine Fish Wheels, causing system announcements to continuously sound out.

Half an hour later, the pointer of a Divine Fish Wheel once again landed in the Special Reward region, and a system announcement sounded out, "System announcement! You have obtained a Mermaid."

After hearing this system announcement, Zhao Fu felt quite surprised, and he imagined a mermaid in his head. He could not help but shake his head, and after the Divine Fish Wheel turned into motes of light and disappeared, a figure fell into the water.

The upper body of the figure was that of a human while the lower half was that of a fish. It had silver scales, beautiful golden hair, and blue eyes. Its body was quite long and slim, and it was a handsome-looking man rather than a woman.

After the mermaid fell into the water, he brilliantly smiled and respectfully swam to the side and looked at the Water God. This was because the Water God had activated the Divine Fish Wheel, so it was naturally the owner of this mermaid.

Zhao Fu felt quite surprised that he had actually obtained a mermaid. Even though it was not a woman but a man, this was the first time Zhao Fu had seen a real mermaid; he had only heard of mermaids in stories before.

“Your Majesty, what should we do now?” the Water God asked as it did not know what to do with this handsome mermaid.

Zhao Fu thought about it and had the mermaid stay in the water. His lower half was that of a fish anyways, so he could not come onto the boat. His body was quite big as well – adding on the tail, he was at least two meters long, and the little boat already had Zhao Fu and the Water God.

Following this, Zhao Fu continued to fish. Ten minutes later, Zhao Fu unlocked a blessing from a Divine Fish Wheel – this was a Water God Blessing that was much more powerful than the blessings that the Water God could give. It increased his affinity with water and increased his damage and resistance towards the water element.

Zhao Fu did not care too much about this blessing and continued to focus on fishing. At that moment, a gigantic force pulled on the fishing rod, and Zhao Fu was almost pulled underwater along with the fishing rod.

This strength was even greater than that of a rainbow-colored Divine Fish. With Zhao Fu gripping the fishing rod, the boat was violently rocked back and forth.

Zhao Fu felt quite delighted – a Divine Fish that was a higher grade than the rainbow-colored Divine Fish had appeared. Just as he thought this, an incredibly terrifying shockwave came at the boat from below.

In that instant, Zhao Fu expanded out his Emperor's Domain and covered the boat. The mermaid beside the boat also sensed this danger and dodged to the side.

Bang!!

A massive pillar of water blasted the boat seven or eight meters high into the air. Luckily, Zhao Fu had unleashed his Emperor's Domain, or else the boat would have been obliterated by the pillar of water.

This Divine Fish would not be easy to deal with. Before the boat landed on the surface of the water again, Zhao Fu dived into the water and found a 100 meter long eight-colored Divine Fish.

The eight-colored Divine Fish looked like an octopus, but there was a jade-like sheen on its body. It had four eyes and gave off a very powerful aura, and it was more powerful than a few boss monsters combined.

Zhao Fu looked at the eight-colored Divine Fish, and the eight-colored Divine Fish looked back at Zhao Fu with a look of greediness and savageness. It immediately swam over and started to attack Zhao Fu, whipping its tentacles at him.

The range of its attacks was quite big, and it had many tentacles, making it impossible for Zhao Fu to avoid all of them. He could only take out the Sin Dragon Sword and hold it with his right hand as he held his fishing rod with his left hand. He slashed out, sending out three water dragons. Within the water, the Sin Dragon Sword was much more powerful, and the three water dragons were much more ferocious than on land.

Boom!!

The countless tentacles and three water dragons collided, resulting in a muffled explosion. A massive shockwave blasted out, feeling like a corporeal attack.

Zhao Fu was forced back ten or so steps while the eight-colored Divine Fish was blasted back dozens of meters. Right after steadying its body, it turned and vehemently glared at Zhao Fu. It sucked in a large amount of water with its mouth before shooting out a gigantic water pillar towards Zhao Fu.

Zhao Fu did not care about this attack that much and released his City Lord Seal's terrifying power. Within the water, the Sin Dragon Sword quickly condensed a 1,000-meter long water sword.

Zhao Fu vigorously slashed out, causing the water sword to slash apart the water pillar, and a watery crescent slashed towards the eight-colored Divine Fish.

#### Chapter 824: Fish God Magic Staff

Bang!!

The eight-colored Divine Fish was sent flying by this slash, smashing into an underwater mountain hundreds of meters away. A few of its tentacles had been slashed off by Zhao Fu, and it looked quite wretched. The severed tentacles turned into motes of light and dissipated.

"Roarr!!" the extreme pain caused the eight-colored divine fish to give off a monstrous roar. Water quickly gathered towards it, forming a gigantic whip, and it ferociously thrashed it at Zhao Fu.

Zhao Fu was quite startled and used his Sin Dragon Sword to block, but he was still whipped away. The eight-colored Divine Fish grabbed this opportunity to once again rush at Zhao Fu, its countless tentacles shooting towards Zhao Fu, trying to pierce him.

At that moment, Zhao Fu unleashed all of the Great Qin Seal's power, and a terrifying shockwave exploded out from Zhao Fu's body. Zhao Fu continuously swung the Sin Dragon Sword, causing sharp sword lights to cover the area in front of him.

As the countless tentacles shot over with immense force, they were all slashed apart by Zhao Fu's sword lights, causing the eight-colored Divine Fish to once again howl in pain. Zhao Fu took this opportunity to grip his fishing rod and shoot to the surface of the water.

Seeing this, the eight-colored Divine Fish was greatly shocked and tried to dive down, but it was heavily injured and could not resist Zhao Fu's power. After some struggling, it was pulled out of the water by Zhao Fu and turned into motes of light that entered Zhao Fu's body.

Three items appeared in front of Zhao Fu: one was an eight-colored wheel, another one was a square-shaped dark blue crystal that was about ten centimeters long, and the third one was a staff.

The first was naturally a Divine Fish Wheel, and the second was a High-grade Water God Stone that could rival 15 ordinary Water God Stones.

The third was a magic staff that was silver-colored and two meters long. It was quite thin and had some fish inscriptions on it. At the top, there were engraved two fish that seemed to be playing about, and the staff gave off a faint silver light and a very powerful aura, similar to what godly spirits gave off.

[Fish God Magic Staff]: Grade: Level 1 Saint Armament, Description: A magic staff with powerful divine power. It has many powerful abilities: it can allow one to control water, give one blessings in catching fish, give buffs when casting water-attribute skills, and contains the skill [Great Fish Tide].

This magic staff was a Level 1 Saint Armament, which was quite exquisite. Zhao Fu looked at the magic staff's various abilities and found that it was quite powerful.

Zhao Fu handed over the magic staff to the Water God, who received it in surprise. She quickly thanked Zhao Fu, as this sort of magic staff greatly suited her.

After dealing with the eight-colored Divine Fish, Zhao Fu continued to fish. The Water God continued to fuse with the traces of divine power within the Divine Fish Wheels and activate them. Soon, another Divine Fish Wheel rose into the air, giving off an eight-colored light as the pointer spun before stopping within the Special Rewards region.

An orange light spread out, and a 15-centimeter long wooden boat with five levels appeared in the air.

[Sailing Spirit Boat]: A sailing treasure that can transform into a 10,000-meter long boat. It can contain tens of thousands of people. The boat is incredibly sturdy and contains powerful defensive barriers. It is extremely suited for sailing on seas and oceans.

Zhao Fu felt that this item would be quite useful. It would have great effects when exploring or fighting on seas and oceans.

Zhao Fu felt quite satisfied and smiled as he continued to fish, continuously pulling up fish and obtaining Divine Fish Points and items.

Behind him, the Water God continuously spun the Divine Fish Wheels, obtaining item after item.

A while later, Zhao Fu fished up another eight-colored Divine Fish that looked like a squid. It took Zhao Fu some time to kill it underwater, giving Zhao Fu another three items.

This time, the eight-colored Divine Fish Wheel did not give anything good, so Zhao Fu could only just continue to fish. His fishing speed was quite fast, being able to catch a fish every two or three minutes, and their grades were all quite high.

An hour later, the Water God activated a three-colored Divine Fish Wheel, and the pointer landed in the Special Rewards region, causing a system announcement to sound out.

The Divine Fish Wheel turned into countless motes of light and disappeared, while a fish egg that was as big as a cherry, giving off a faint green light, appeared in the air.

[Deep Sea Tree Fish Egg]: A fish egg that can spawn Deep Sea Tree Fish, which are precious culinary ingredients because of their alluring taste.

Seeing this, Zhao Fu felt quite surprised. Even though Deep Sea Tree Fish did not have any special effects, they were one of the best delicacies in the world. They were incredibly rare, and even ordinary Kingdoms would not be able to taste them.

As such, they were incredibly valuable, and a single Deep Sea Tree Fish was worth 10,000 violet gold coins. A single violet gold coin was worth 100 gold coins; this showed just how precious Deep Sea Tree Fish were.

After the various paths had been opened up, Great Qin's businesses had taken a heavy blow. They no longer had the advantages that they had before, and even though Ba Qing was doing her best to maintain business, their profits were only a tenth of what they had been before.

If they could nurture these fish eggs, with how expensive these fish were, they could become one of Great Qin's special products, bringing in massive profits.

When he thought of this, a smile appeared on Zhao Fu's face, and he carefully put the fish egg away, thinking to deal with it after the event was over.

Time gradually passed, and soon, it became brighter and brighter as the sun rose up over the horizon, giving off a bright light that shined in all directions.

Seeing this, Zhao Fu put away his fishing rod and took the Water God back to Great Qin. He had made great gains overnight, and even though he had not obtained anything too rare, the number of items he had obtained was quite shocking, and they would be quite useful to Great Qin.

Overall, Zhao Fu was very pleased with his gains. The Water God was much more powerful than before, and it seemed that the effects of her fusing with the traces of divine power in the Divine Fish Wheels had been quite beneficial.

Zhao Fu went to the Exchange Stone Stele to exchange for cities. After his gains from the night, he definitely had enough Divine Fish Points.

However, when he opened up the Exchange Stone Stele, he found that the third-ranked City, Holy God City, had been claimed already, making him feel quite shocked. However, seeing that the Celestial City was still there, Zhao Fu let out a sigh of relief and immediately claimed it.

Now that he had obtained Sword Mountain and Celestial City, Zhao Fu could not help but lightly laugh. Now that the top three items were all gone, Zhao Fu was able to finally relax.

The next day was the second stage of the Disaster Festival, which gave medicinal pills that were only useful to individuals. Zhao Fu did not care about this too much; after all, he still had not used the two types of medicinal pills he had obtained last time.

## Chapter 825: Nine-Colored Divine Fish

However, since the medicinal pills were quite rare and valuable, it would not be bad for Great Qin to obtain some. Zhao Fu would do his best to obtain as many as possible, but he would not feel too disappointed.

Zhao Fu made some more preparations and ordered people to look after the mermaid. The mermaid had a slight blessing ability and could give others blessings.

Zhao Fu decided to see if they could spawn more mermaids, so he had the mermaid taken to a water region and gave him a City Creation Stone. If they could spawn many mermaids, they would be able to give many blessings, which would be quite good.

After returning to the sea again, Zhao Fu no longer felt as anxious and rushed. Instead, he leisurely lay on the Water God's lap as he held the fishing rod.

Zhao Fu did not have any thoughts towards the Water God – it was the Water God who had suggested this to make it more comfortable for Zhao Fu. No one else in the human world would be able to enjoy such treatment.

Because he had been continuously working for three days and three nights, Zhao Fu felt quite exhausted. He closed his eyes as he fished, and the Water God's face was slightly red as she smiled and looked at Zhao Fu lying on her lap.

After resting for a while, Zhao Fu became serious again, starting to quickly fish up Divine Fish and obtaining item after item, while the Water God activated the Divine Fish Wheels.

Time quickly passed, and Zhao Fu ended up fishing from the morning until the afternoon. The sun began to descend over the horizon, and the golden glow of the sunset dyed the horizon gold, creating a beautiful scene.

Suddenly, a gigantic force pulled at the fishing line, instantly dragging Zhao Fu underwater. Zhao Fu was quite startled, as this level of power surpassed that of an eight-colored Divine Fish.

Zhao Fu felt quite excited and released the Great Qin Seal's full power, stopping his body from continuing to be dragged down by that massive force. He gripped the fishing rod and started to pull.

Both sides were immensely powerful, resulting in a temporary stalemate. However, Zhao Fu saw that the fishing line was on the verge of snapping, so he could not continue to pull like this and instead turned into a ray of light as he sped towards the direction of the massive force.

A nine-colored Divine Fish appeared before Zhao Fu. It looked like a whale, and its body was mostly black. However, its massive eyes were blood-red. Its gaze was ferocious and bloodthirsty, and it gave off a monstrous aura that greatly surpassed that of an eight-colored Divine Fish.

“Roarr!!” After discovering Zhao Fu, the nine-colored Divine Fish turned and rushed at him. Its massive mouth bit at Zhao Fu, wanting to devour him whole.

The nine-colored Divine Fish was 1,000 meters long, and its mouth was hundreds of meters wide, looking incredibly terrifying. Zhao Fu was startled and quickly retreated.

At the same time, Zhao Fu took out a Spirit Evil-Crushing Spear – an upgraded version of the ordinary Evil-Crushing Spear – that he had bought during the second stage of the Ghost Festival. The nine-colored Divine Fish was a type of demon fish, so the Spirit Evil-Crushing Spear would most likely be able to counter it.

The Spirit Evil-Crushing Spear was violet-colored and was made of countless talisman papers. Zhao Fu sent his strength into it and activated it, causing a massive evil-crushing aura to spread out. A few violet arcs of lightning appeared around it, covering the surrounding ten or so meters.

Boom!!

As Zhao Fu retreated, he threw out the Spirit Evil-Crushing Spear, which turned into a violet ray of light and shot towards the nine-colored Divine Fish.

“Roarr!” The violet ray of light smashed into the nine-colored Divine Fish’s jaw, and countless violet arcs of lightning exploded out. The violet light only disappeared after stabbing a few meters into the nine-colored Divine Fish’s body, causing it to howl in pain.

Zhao Fu took this opportunity to take out the Sin Dragon Sword, and he ferociously slashed out, sending out a sword light that cut into the nine-colored Divine Fish’s body, opening up a terrifying gash.

Boom!!

The nine-colored Divine Fish was infuriated, and it swung its tail, slamming it towards Zhao Fu. Before the tail arrived, a massive shockwave blasted at Zhao Fu, forcing him to quickly unleash his Emperor’s Domain while dodging. Even though he dodged the Divine Fish’s tail, he was still sent flying backward by the shockwave.

Just as Zhao Fu steadied his body, the nine-colored Divine Fish spat out a ball of water that was hundreds of meters wide towards him.

Zhao Fu did not have time to dodge, so he instantly condensed a 1,000-meter long water sword and slashed out, cutting the ball of water in half and causing a massive shockwave to ripple out.

“Roarr!” the nine-colored Divine Fish once again charged up, but it did not use its mouth this time, and it instead used its body to slam into Zhao Fu. If Zhao Fu was hit by its 1,000-meter long body, even if he did not die, he would be gravely injured.

Zhao Fu could only quickly dodge, barely avoiding this attack. He took this opportunity to send immense power into the Sin Dragon Sword, slashing out another terrifying sword light. As the sword light hit the nine-colored Divine Fish, it blasted it to the bottom of the sea, sending up mud and making the water incredibly murky.

Whoosh! Whoosh! Whoosh!

Suddenly, countless ten-meter long water spears were condensed and flew at Zhao Fu with incredible force.

Zhao Fu’s expression became grim, and he threw out 15 City Lord Seals. They formed a circle in front of him, and as Zhao Fu unleashed his Emperor’s Domain, they fused with the Emperor Domain and formed a powerful defensive barrier.

The water spears continuously shot at Zhao Fu, forcing him to continuously dodge. He soon found an opportunity to slash out five 100 meter long water dragons, which roared as they slammed into the nine-colored Divine Fish, injuring it moderately.

“Roarr!!” the nine-coloured Divine Fish shot at Zhao Fu with its massive body as fast as an arrow, and it once again opened its mouth, wanting to devour Zhao Fu.

At that moment, Zhao Fu coldly smiled and stood his ground, allowing the nine-colored Divine Fish to swallow him. This made the nine-colored Divine Fish feel quite surprised – it had never thought that it would be able to eat Zhao Fu so easily.

However, before it could rejoice, it felt that something was wrong within its mouth. It wanted to use its mouth to crush that abnormality into paste, but suddenly, a massive feeling of pain spread within its mouth. At that moment, the nine-colored Divine Fish felt a sharp blade cutting apart its mouth.

The nine-colored Divine Fish hurriedly spat Zhao Fu out. Because of his special defensive barrier, he was able to defend against the nine-colored Divine Fish's power, which was why he allowed it to swallow him, and he took that opportunity to heavily wound it.

Even though the nine-colored Divine Fish had reacted quite quickly, there were many large cuts within its massive mouth, making it feel incredible anguish.

“Roarrrr!!” the nine-colored Divine Fish continuously howled in pain and anger, and it started to ferociously attack Zhao Fu, wanting to return that pain to Zhao Fu. On the other hand, Zhao Fu was not rushed at all, carefully avoiding the nine-colored Divine Fish's attacks while seeking an opportunity to counterattack.

Half an hour later, Zhao Fu finally found an opportunity – his Sin Dragon Sword exploded out with a terrifying sword light that pierced through the nine-colored Divine Fish's body, dealing the final blow and causing four items to drop.

## Chapter 826: Heaven-Sealing Sword

The first item was a nine-colored wheel; the second item was an even bigger Water God Stone that could rival 50 ordinary Water God Stones; the third was a Fish God Magic Staff that had three fish engraved on it, and it was slightly more powerful; the fourth item was a pendant that was in the shape of a small, golden fish. It was connected to a silver chain at its tail, and it gave off a faint light as well as a slight fishy smell.

[Fish God Pendant]: Anyone who wears this pendant will be liked by fish-type creatures. One's charm towards fish-type creatures will increase by 1000%. This is a rare treasure of the Fish God.

After looking through the pendant's information, Zhao Fu could not immediately think of any uses for it, so he handed it to the Water God before continuing to fish.

Soon, the Water God activated the nine-colored Divine Fish Wheel, causing it to rise to the air and give off a bright nine-colored light and a powerful might. As expected from an item dropped by a nine-colored Divine Fish – just its aura alone was incredibly powerful.

The pointer spun before gradually slowing down and stopping in the Special Rewards region.

Countless rainbow motes of light fell from the sky and a crystal sword appeared in the air, giving off a blinding white light and a mighty aura.

Zhao Fu felt quite surprised and took this crystal sword into his hands as he looked at its description.

[Heaven-Sealing Sword]: Forged from a Heaven-Sealing Crystal, which is a crystal that legends say can even seal the sky. It has extremely powerful sealing powers and can seal countless things. It is an extremely dangerous item.

This sword could only be used for sealing, making Zhao Fu feel slightly disappointed. After obtaining his King's Pupil, which was the new form of the King's Crown, Zhao Fu did not lack any sealing measures. Moreover, the chains were easy to use, so it was not likely that Zhao Fu would use this Heaven-Sealing Sword.

Zhao Fu continued to fish, and time quickly passed. Soon, it was late at night, and Zhao Fu had caught another eight-colored Divine Fish. It gave an Experience Stone that could give 100 million EXP, making him feel quite happy.

Now that the Divine Fish festival was about to end, Zhao Fu prepared to return to Great Qin. However, he felt quite sad, as the Divine Fish Festival had given many rewards, and Zhao Fu wished that it would go on for a bit longer.

After returning to Great Qin, Zhao Fu calculated his gains. He had obtained roughly 400 or so Water God Stones, which would be enough to build a top-tier Water God Temple. Zhao Fu would move the Water God to the new Water God Temple, as it would be quite beneficial for the Water God.

The Water God felt quite grateful and profusely thanked Zhao Fu, and it embarrassedly expressed her desire to serve Zhao Fu.

Zhao Fu's mind was on other things, so he did not pay it too much mind.

Next, Great Qin obtained 36 Fish God Magic Staffs and had also obtained a forbidden skill called the Great Fish Tide. This required 36 powerful Mages with 36 Fish God Magic Staffs to activate, which was powerful enough to topple mountains and overturn seas.

Zhao Fu also obtained eight Experience Stones. One of them was worth 100 million EXP, while the other seven were worth ten million EXP each. Zhao Fu had used all of them already, and there were also three Deep Sea Tree Fish eggs, four Sailing Spirit Boats, and another male mermaid.

There were also many high-grade materials, equipment, and items.

It was now 11:40 PM, and the next event was the Disaster Festival. This was another individual event, the main goal of which was to stop natural disasters and obtain Virtue Points. The main rewards of this event were medicinal pills.

Zhao Fu thought about it, and since there was not much to exchange for in the Divine Fish Festival, he decided to keep his Divine Fish Points for the next event.

From his experiences in the previous events, Zhao Fu could tell that the second stage of the Disaster Festival would be incredibly intense as well. Great Qin had incredibly high natural disaster resistance, so it would be fine, but this was not the case for other Cities.

If Zhao Fu went to help other Cities, there would be great benefits – he could earn Virtue Points while also making Great Qin seem incredibly kind. Countless people would thank Great Qin, causing another wave of City Lords to join.

As such, Zhao Fu discussed with his Generals and made a simple plan.

Once 12 AM arrived, the clear night sky gradually darkened as if all light was being devoured. It was so dark that one could not see one's outstretched hand, which was quite terrifying. The surroundings became incredibly silent, and not even bugs or birds could be heard.

Suddenly, a powerful might covered the entire human world, causing the spirit qi in the world to start to become chaotic, and a disastrous aura spread out.

Boom! Boom! Boom...

Massive explosions sounded out as powerful Disaster Beasts descended to the world, starting up terrifying natural disasters. Some places had cyclones, other places had snow storms, and other places had devastating lightning strikes. The entire world became a world of disasters.

Zhao Fu stood in front of the Exchange Stone Stele, and as soon as his Divine Fish Points were converted into Virtue Points, he exchanged for the third-ranked pill, the Revival Pill. This pill could save one's life during a time of crisis, and it was the pill that Zhao Fu wanted the most, so he immediately exchanged for it.

Following this, Zhao Fu left Great Qin's territory and started to kill Disaster Beasts. At the same time, he ordered his subordinates to find out which regions had the worst natural disasters as the Disaster Beasts there would be more powerful. Zhao Fu's senses could not cover all of China's territory, so he could only rely on information from his subordinates.

The first Level 8 Disaster Beast that Zhao Fu encountered was a massive fiery bird with a wingspan of 300 or so meters, giving off intense flames that burned the ground. All plants quickly withered, and water evaporated quickly.

It was only a Level 8 Disaster Beast and was not very strong. Zhao Fu took out the Sin Dragon Sword and dealt with it in a few blows. After all, the Sin Dragon Sword used to be a Level 10 Disaster Beast.

After killing the Level 8 Disaster Beast, Zhao Fu obtained a Fire Disaster Crystal. Zhao Fu decided to collect many Disaster Crystals to see if he could obtain even higher-grade Disaster Crystals.

The Disaster Crystals could be socketed into equipment, making them stronger and giving them the Disaster attribute. After Zhao Fu strengthened the King's Ring, the ring spirits became Disaster Cavalry and obtained the terrifying skill Undead Disaster.

Even though the ten Disaster Cavalrymen had Stage 5 strength, they were still ordinary Lord class creatures. If Zhao Fu could obtain more high-grade Disaster Crystals, he could make them even stronger and strengthen their Disaster abilities.

Zhao Fu continuously flew about in the sky, killing Disaster Beast after Disaster Beast. He was not sure if it was because he was still close to Great Qin's territory, but the highest level he had seen was Level 8 Disaster Beasts.

After killing Disaster Beasts for a while, Zhao Fu returned to Great Qin, by which time a lot of information had been gathered about stronger Disaster Beasts.

## Chapter 827: Natural Disaster Creations

After returning to Great Qin, Great Qin's Intelligence Department did not disappoint Zhao Fu at all. They had hundreds of reports of Level 9 Disaster Beasts; because all of the regions were connected now, it was quite easy to collect information.

The reports in Zhao Fu's hands covered almost all of the Disaster Beasts in China's territory and even some Disaster Beasts in other countries' territories.

With these reports, Zhao Fu did not have to mindlessly look for Disaster Beasts, and he instead could go to regions directly. The first place that Zhao Fu went was the place closest to Great Qin.

When Zhao Fu arrived, the entire region was covered with a thick layer of snow, and the temperature was incredibly low.

Zhao Fu quickly found the Level 9 Disaster Beast, which looked like a pufferfish. However, it was snow-white, gave off an intense chilling aura, and was 400 meters wide.

"Roar! Roar! Roar!" Zhao Fu swung his sword, causing three water dragons to roar as they flew out and slammed towards the Snow Disaster Beast with immense force.

Bang!

A massive sound rang out as the Snow Disaster Beast was slammed to the ground by the three water dragons, creating a massive crater. The Snow Disaster Beast roared in pain before sucking in a massive amount of air, inflating its body, and it shot out a freezing wave of air towards Zhao Fu.

This freezing wave of air could instantly freeze trees and grass, and Zhao Fu released his Emperor's Domain as he dodged. He appeared behind the Snow Disaster Beast and ferociously attacked it, dealing with it in a few strikes.

After the Snow Disaster Beast died, it turned into countless snowflakes, and a snow-white crystal remained on the ground.

Seeing this, Zhao Fu felt a bit disappointed as this Disaster Crystal was the only reward.

After killing a few more Disaster Beasts, Zhao Fu still only obtained Disaster Crystals and no other items.

Zhao Fu then went to look for his next target, which was a Level 10 Sand Disaster Beast. When he arrived, that region had already been inundated by sand. All the trees and grass had disappeared, forming a massive desert.

Zhao Fu could see a few City Lords flying about, and he guessed that they were searching for the Disaster Beast. Sand Disaster Beasts were quite annoying, as they could hide underground and not come out, and they would cause a large amount of earth to become sand.

Zhao Fu's appearance was noticed by the City Lords, and a scholarly-looking young man flew over and said respectfully, "Sir, are you here for the Sand Disaster Beast? Let's all join together to kill this sly Sand Disaster Beast."

Hearing this, Zhao Fu lightly laughed and replied, "No need, I'll be enough to get rid of it myself!"

After speaking, Zhao Fu flew above the desert and spread out his senses, looking for the Sand Disaster Beast. He then stretched out his hand, and the sound of chains could be heard as he clenched his fist and pulled back.

The ground rose up as a 500-meter long bug was dragged out by countless chains.

The Sand Disaster Beast had very weak attack but was very good at escaping and hiding. Not only could it hide underground, but it would also immediately run once it encountered danger. It was incredibly fast, but Zhao Fu's chains could stretch out from underground, completely countering it.

The City Lords were quite shocked – they had never expected this cloaked figure to be able to deal with this Sand Disaster Beast so easily, and one of the middle-aged men could not help but ask, “Sir, who are you?”

“I am Great Qin’s Legatee!” Zhao Fu calmly responded.

Hearing this, the City Lords’ expressions became dumbfounded. They had never thought that this person would be Great Qin’s renowned Legatee. They became even more respectful – after all, they could not afford to offend such a grand figure.

At that moment, Zhao Fu took out his Sin Dragon Sword and sent his Emperor’s Power into it, causing it to give off a terrifying sword light. The sharp sword qi caused the other City Lords’ bodies to feel a chill, and they could not help but retreat.

Shing!

Zhao Fu slashed at the Sand Disaster Beast, and the terrifying sword light brought with it a terrifying power as it sliced the Sand Disaster Beast in half.

The Sand Disaster Beast immediately died and turned into bits of grit, while two items were left floating in the air. One was a sand-colored crystal while the other was a round ball that seemed to be made out of sand and gave off the aura of sand.

Zhao Fu felt quite interested as a second item had finally dropped, and he looked at its description.

[Sand Disaster Pearl]: A Natural Disaster Creation that has powerful sand energy. It can cause the ground to become sand.

“That’s it?” Zhao Fu felt that this item was completely useless; Zhao Fu was not so bored as to turn perfectly good soil into sand. Turning soil into sand had no advantages, only disadvantages.

After sensing Zhao Fu’s thoughts, the golden dragon reminded him, “This is a Natural Disaster Creation, so it has a trace of Natural Disaster Power. It can be used to make forbidden items that can be even more powerful than your Destruction Crystals. After all, Natural Disaster Power can often be enough to kill even people with high Cultivation.”

After hearing this, Zhao Fu realized that this item was actually quite useful. He slightly smiled and put the Disaster Crystal and Sand Disaster Pearl away.

Seeing Zhao Fu killed the Sand Disaster Beast so easily, the other City Lords were incredibly shocked. If it was them, they would have had to put their lives on the line to even fight against it, while Zhao Fu had easily killed it in just one blow.

If Zhao Fu wanted to kill them, it would be a trifling matter to him, making these City Lords feel incredibly terrified. However, sensing that Zhao Fu seemed to have no thoughts of killing them, they felt quite relieved and thought about the positive rumors surrounding Great Qin.

“Great Qin’s Legatee, I would like to join Great Qin!” After seeing how terrifyingly powerful the Great Qin Legatee was and thinking about how paradise-like it was said that Great Qin was, one of the City Lords could not take it anymore and stepped out.

Zhao Fu smiled and nodded, saying, “Great Qin welcomes you!”

Seeing how gentle and polite Zhao Fu was, the others started to hesitate and considered whether or not to join Great Qin.

Zhao Fu was naturally happy that there was someone who wanted to join Great Qin, so he acted as kindly as possible. He then spoke cordially with them and expressed his willingness to help them.

Following this, the rest of the City Lords decided to join Great Qin as well. This entire region had been turned into a desert, and they had no idea when it would recover. They could not continue to live in this region, and now that they had spoken with Great Qin’s Legatee, all of their fears were allayed; joining Great Qin was their best choice.

Many earlier rumors had said that Great Qin’s Legatee was bloodthirsty, violent, and licentious, but it seemed that this was not the case; all of those things were incredibly slanderous.

They had now seen Great Qin’s Legatee for themselves, and they had seen how kind, gentle, and virtuous he was. He was an incredibly good lord.

Under their gazes of admiration, Zhao Fu flew towards another region. However, sensing their gazes, Zhao Fu felt that he had gone too far with his acting. Regardless, since Great Qin had such a good reputation now, it would be good to continue using that reputation to reap benefits.

## Chapter 828: Death Disaster

After leaving that region, Zhao Fu killed a Level 10 Disaster Beast. This Disaster Beast was an Ice Disaster Beast, and after killing it, Zhao Fu obtained a Disaster Crystal and an Ice Disaster Pearl.

By now, Zhao Fu could confirm that killing Level 10 Disaster Beasts would give a Disaster Pearl. Now that he knew how powerful these Disaster Pearls were, Zhao Fu gave orders for Great Qin's City Lords to form groups and hunt down Level 10 Disaster Beasts to obtain Disaster Pearls.

Given how powerful Destruction Crystals were, if Destruction Pearls contained many times their power, they would simply be monstrous.

Zhao Fu started to exclusively hunt Level 10 Disaster Beasts and did not even rest as he fought through the night to the next afternoon. Of course, because of this, he had made great gains.

In total, he was able to obtain 72 Disaster Pearls. Because he had been so focused on the Disaster Pearls, he had forgotten about the medicinal pills on the rankings.

However, Zhao Fu did not care too much about those medicinal pills. After returning, he found that the other medicinal pills had been claimed, but he did not feel too disappointed, as he had already decided where to spend his Virtue Points.

Zhao Fu continued to kill Disaster Beasts, and at 10 PM, Zhao Fu received a big piece of news: within a region called the Nether Region, there was a Level 12 Disaster Beast.

This Nether Region was filled with the aura of Undead creatures. Last time, there had been a Death Disaster there, and all the animals' and plants' lifeforce had been sucked away, resulting in the region being filled with an aura of death.

Zhao Fu took this seriously because the disaster there was a Death Disaster, which was the worst out of the natural disasters.

This Disaster Beast was classed as a Level 12 Disaster Beast because the surrounding seven or eight regions had been affected, and tens of millions of people had perished. No plants or animals

survived, and everyone in the surrounding regions had been sent into a great panic and quickly escaped.

The Death Disaster was at the center of China's territory, and after thinking about it, Zhao Fu quickly hurried over. Zhao Fu had not killed a Level 11 Disaster Beast yet, but the Disaster Festival was about to end, so Zhao Fu quickly went because there might be astonishing gains.

At the center of China's territory, a black-gray fog covered seven or eight regions. The fog was incredibly dense and showed no signs of dissipating, and it was difficult to see what was within the fog. Everything was silent, and there was not a single trace of life.

The black-gray qi was an extremely domineering type of deathly qi, and it could destroy all living creatures' lifeforce, causing them to die. Even coming into contact with it slightly could cause the deathly qi to spread through one's entire body.

No one dared to step into the fog-filled area, and the fog quickly spread. Because all regions had been connected, many people from China had gathered around these regions.

It was the first time that China had encountered a Level 12 Disaster Beast, and even though it was the terrifying Death Disaster, there were great gains to be made.

It was not just the Dynasty Legatees; various State Legatees came as well. There were even some other factions and sects who came to try out their luck. It was like a gathering of heroes and legends.

Even though there were many people gathered around here, no one could do anything about the fog. The fog was simply too destructive, and even defensive barriers could not last very long, so no one dared to step in.

Just as everyone was wondering what to do, Si Ji unleashed his King's Domain and entered the fog, causing many people to watch on in awe and respect. Only those who were truly powerful dared to enter.

Following this, Great Shang's Legatee, Great Zhou's Legatee, and Great Han's Legatee stepped into the fog-filled area, as did some more Legatees.

Apart from these Dynasty Legatees, a celestial-looking elderly man from the School of Taoism, a scholarly and righteous-looking man from the School of Confucianism, a kind and benevolent-looking old monk from the Buddhist Sect, and a person giving off a powerful aura from the School of Mohists also entered.

After those people stepped into a fog, a while later, there suddenly started to be great changes. The fog started to roil and spread dozens of times faster, scaring everyone outside into retreat.

Suddenly, a terrifying aura spread out from the depths of the fog, and even those incredibly far away felt terror and an icy feeling come over their bodies. This was the aura of death.

Everyone outside did not dare to hesitate and quickly retreated, worried that the fog would cover them.

Bang!

A muffled explosion sounded out as three figures flew out and heavily crashed to the ground, coughing up mouthfuls of blood. They were the experts from the Buddhist Sect, School of Taoism, and School of Confucianism. They had all been admired by others just then but were now heavily injured.

Bang!

Before everyone could react, another explosion sounded out as a few State Legatees were also sent flying out, looking quite wretched.

Everyone felt quite shocked; just what sort of monstrous existence was within the fog to heavily wound these experts and blast them out?

Bang! Bang! Bang!

Another few explosions sounded out as more people were blasted out, and following this, the Dynasty Legatees also hurried out, looking quite injured.

This caused everyone to feel a chill, and their bodies uncontrollably trembled because that terrifying existence stepped out of the fog.

She was extremely beautiful and wore a white palace dress. She had snow-white hair and black-gray eyes. Her face was extremely stiff as if she was a corpse, and she gave off an intense deathly aura. It was this woman who caused countless people to feel horror.

Everyone understood that she was that terrifying Death Disaster Beast, and countless people immediately turned and ran without any hesitation. Her strength was not something that ordinary people could resist.

Boom!!

The Death Disaster Beast stretched out a pale-white hand, causing the deathly qi behind her to quickly gather and flood forwards. The aura it gave off seemed to cover the heavens and the earth, and it was enough to exterminate all living creatures in front of it, causing everyone to tremble.

Not a single person hesitated – if this Death Disaster Beast attacked, no one would be able to escape, so they all unleashed attacks towards the Death Disaster Beast.

Si Ji, Ji Shenming, Liu Ye, Di Wutian, the various State Legatees, and the experts of factions gave off powerful auras as they also attacked the Death Disaster Beast.

Facing the countless attacks, the Death Disaster Beast merely waved her hand, causing the fog behind her to rush up and block in front of her, and all of the attacks seemed to be ineffective.

The fog slowly dispersed, revealing her figure. She still looked just like a corpse, and she now prepared to unleash a terrifying attack. The ocean-like deathly qi started to rush out, about to kill everyone present, causing an aura of despair to spread.

However, at that moment, the Death Disaster Beast suddenly stopped, making everyone feel quite surprised. She raised her head, and her expression changed for the first time, becoming quite serious. At that moment, an enormous might descended from the sky.

Chapter 829: Death Disaster Beast

Boom!!

A muffled explosion echoed out as that terrifying might weighed down on everyone's bodies. Facing this power, countless people felt incredibly helpless and looked up in terror, where there was a black-cloaked figure, whose cloak fluttered in the wind.

“It's Great Qin's Legatee!”

Everyone did not know whether to feel delighted or afraid – delight because Great Qin could stop the Disaster Beast or fear because Great Qin's Legatee's power was so frightening that he could easily kill them, causing their bodies to tremble.

Zhao Fu had just arrived and did not know what was going on. However, seeing that the Death Disaster Beast had not been killed, he let out a slight sigh of relief.

Sensing Zhao Fu's powerful and dignified aura, the Death Disaster Beast chose to directly attack, as she felt quite threatened.

She clenched her outstretched hand, causing countless traces of deathly qi to gather towards her hand. In just an instant, she condensed a massive spear of deathly qi, which stabbed towards Zhao Fu with the power to destroy everything.

Boom!!

The instant that the spear of deathly qi arrived, Zhao Fu released his Emperor's Domain. The massive spear slammed into the Emperor's Domain, causing a massive explosion, and both the spear and the domain shattered and dissipated.

Even though Zhao Fu's Emperor's Domain had been shattered, he was perfectly fine.

By now, everyone understood how terrifying this Death Disaster Beast was; even Great Qin's Legatee could not deal with it easily. By now, they had lost all hope, and while Great Qin's Legatee was keeping it distracted, they decided to run.

The Dynasty Legatees hesitated and chose to retreat far away. They were not only afraid of the Death Disaster Beast but also afraid of Zhao Fu laying hands on them as well.

Shing!

A clear sword hum sounded out as Zhao Fu rushed towards the Death Disaster Beast, his sword bringing immense power as it slashed at it. At that moment, the Death Disaster Beast condensed a sword of deathly qi and blocked Zhao Fu's attack.

Both swords brought with them immense power as they clashed together, resulting in an enormous shockwave rippling out and turning into a wild gale. The surrounding deathly qi instantly dissipated but quickly re-gathered.

Zhao Fu did not need to release his Emperor's Domain again because his Sovereign Bloodline was enough to defend against the deathly qi, and this allowed him to fully focus on fighting against the Death Disaster Beast.

The Sin Dragon Sword gave off a large amount of sword light as Zhao Fu gripped the sword tightly, pressing down towards the Death Disaster Beast.

The Death Disaster Beast's sword was forced downwards when suddenly the surrounding deathly qi condensed into hundreds of spears and shot towards Zhao Fu.

Zhao Fu could only quickly retreat, dodging the spears, and the Death Disaster Beast took this opportunity to slash out, sending out a massive black-gray sword light towards Zhao Fu.

At that moment, Zhao Fu took out the Royal Wood Sword and swept out with it, causing a powerful green sword light to flash out. It did not seem scary at all and gave off an aura of life.

Bang!!

As the two sword lights collided, a massive explosion sounded out as sword light was blasted everywhere, and the shockwave sent both people back ten or so meters.

Looking at the sword in Zhao Fu's hand that was giving off a green light and a powerful aura of life, the Death Disaster Beast felt an instinctive disgust.

Zhao Fu wanted to use the Royal Wood Sword, which was of the opposite attribute, to counter the Death Disaster Beast. The Death Disaster Beast had immense deathly qi, so the only thing that

could suppress it was the aura of life. Even though his Seraph Sword's Holy Light energy could also counter it, the Royal Wood Sword with its powerful aura of life would be better.

After sliding back ten or so meters, Zhao Fu suddenly stabbed the Royal Wood Sword into the ground, causing a powerful green light to shoot into the ground. Seeing this, the Death Disaster Beast was given a big fright and immediately retreated.

The place where the Death Disaster Beast had been standing suddenly grew hundreds of green vines, which shot towards the Death Disaster Beast. The deathly qi was not very effective against these vines, because once the deathly qi went close, it would be absorbed by the vines and converted into life energy.

The hundreds of vines twisted and turned like snakes in the air and quickly shot at the Death Disaster Beast. The Death Disaster Beast continuously retreated as its expression became furious, and the deathly qi behind it continuously flowed into its sword, causing the illusory deathly qi sword to become more and more corporeal.

Swish! Swish! Swish...

The green vines brought with them immense force as they flew at the Death Disaster Beast, while the Death Disaster Beast continuously swung her sword, causing deathly qi sword lights to slash apart the vines.

Suddenly, a figure appeared behind her, and a powerful green light exploded out, startling the Death Disaster Beast. Just as she tried to turn, she was blasted flying by an immense power.

The Death Disaster Beast crashed 100 or so meters away and coughed up a mouthful of black blood, and there was now a 15-centimeter long gash on her back.

Seeing this, all of the spectators felt quite shocked. The Death Disaster Beast, which they were powerless against, was at a disadvantage against Great Qin's Legatee.

"Arghhh!!" the Death Disaster Beast's black-gray eyes gave off a chilling killing intent, and it screamed, causing the surrounding deathly qi to flood towards her and continuously increase her power.

Seeing this, Zhao Fu could not allow her to continue to become stronger, so he once again stabbed his Royal Wood Sword into the ground. A powerful green light shot into the ground, and the place where the Death Disaster Beast stood violently trembled.

Suddenly, a massive tree broke out of the ground, and the Death Disaster Beast quickly retreated. Her body continued to absorb deathly qi, healing her injury in just a moment, and she started to attack Zhao Fu again.

The Death Disaster Beast stretched out her hand, causing the surrounding deathly qi to form dozens of Death Beasts that roared and rushed at Zhao Fu. In response, Zhao Fu rushed up and slashed out sharp sword lights, killing all of the Death Beasts, turning them into deathly qi again.

By now, Zhao Fu had reached the Death Disaster Beast, and he sent his Emperor's Power into his Royal Wood Sword, causing it to give off an intense green light. A powerful aura of life spread out as Zhao Fu slashed towards the Death Disaster Beast.

At that moment, the Death Disaster Beast also gathered countless traces of deathly qi and slashed out.

Boom!!

A massive sound rang out, and a terrifying shockwave blasted out. Both figures were once again sent flying – Zhao Fu was blasted back ten or so meters, and a trace of blood leaked out of his lips, while the Death Disaster Beast was sent flying 20 or so meters and coughed up a mouthful of blood.

The Death Disaster Beast's wounds looked much worse than Zhao Fu's, but in the next moment, the surrounding deathly qi once again went into her body and quickly healed her injuries and made her a bit stronger.

Zhao Fu could not help but frown – looking at the ocean of deathly qi around them, as long as this deathly qi remained, he would not be able to kill the Death Disaster Beast, as it would be able to continuously recover. At that moment, Zhao Fu thought of an item.

The Death Disaster Beast continued to absorb deathly qi and created two clones that looked exactly the same as her. Their auras were also quite powerful, and one held a spear while the other held a long saber.

Chapter 830: Disaster Seed

Facing the three Death Disaster Beasts rushing at him with terrifying auras, Zhao Fu stood his ground. When the three Death Disaster Beasts came within 100 meters of him, he suddenly slashed out, causing a green light to ripple out.

Swish! Swish! Swish...

Branches that were as sharp as steel stabbed out of the ground, trying to pierce through the three Death Disaster Beasts. However, the three Death Disaster Beasts reacted quickly, leaping into the air as they continued onwards towards Zhao Fu.

However, Zhao Fu predicted their actions – when they leapt up, Zhao Fu had already arrived in front of a Death Disaster Beast, and he slashed out a green crescent towards her.

The Death Disaster Beast's expression fell and quickly used her sword to block, but she was sent flying and crashed a few hundred meters away.

At that moment, the two other Death Disaster Beasts had arrived in front of Zhao Fu, and they both started to attack him.

Facing these two Death Disaster Beasts, Zhao Fu flipped backward and avoided their attack. However, the instant that their attacks missed, the two Death Disaster Beasts immediately changed direction and continued to attack Zhao Fu.

Seeing these two Death Disaster Beasts chase after him, Zhao Fu coldly smiled. He gripped his sword with both hands and raised it high, sending his Emperor's Power into it. The Royal Wood Sword gave off a vibrant green light, and an enormous aura of life spread out.

Boom!!

Zhao Fu slashed downwards, sending out a massive green light and creating a massive explosion. The two Death Disaster Beasts were also sent flying and smashed out two large craters. The deathly qi around them quickly disappeared, and what terrified them was that there were now green plants growing on their bodies.

“Roarr!!” The original body of the Death Disaster Beast roared as a massive amount of deathly qi gathered towards her, and she slashed out. Nine flood dragons made of deathly qi were created, and they rushed at Zhao Fu.

In that moment, Zhao Fu stretched out his left hand, sending out ten City Lord Seals that formed a circle in front of his left hand. They gave off various lights as a black dragon inscription barrier expanded out, and they combined to form a new defensive barrier.

There was a multi-colored shield of light in the front with a black dragon inscription barrier behind it, and they seemed to be stuck together.

Boom!!

It was as if the nine flood dragons had crashed into a solid mountain, causing them to instantly dissipate into deathly qi. A figure suddenly appeared in front of Zhao Fu, gripping its deathly qi sword with both hands as it vigorously slashed down towards him.

At that moment, Zhao Fu sent all of his strength into the Royal Wood Sword, causing it to give off a blinding sword light, and tender sprouts appeared on the blade.

Boom!!

Another massive explosion sounded out as a terrifying shockwave blasted out. The ground was slowly destroyed, and sand and dust were swept up in a wild gale. Those nearby were also affected, and they were forced up to put up defensive barriers to defend against this terrifying gale.

A 1,000-meter wide crater appeared in the ground. Zhao Fu was sent back ten or so meters, a trace of blood at his lips, while the Death Disaster Beast had collapsed to the ground, its body covered with black blood.

Those who were watching all gulped. The death Disaster Beast was being suppressed by Great Qin’s Legatee, while just then, the Death Disaster Beast had taken down so many of them. When Great Qin’s Legatee had joined in, the situation had completely turned around.

“Arghhh!!” the bloodied Death Disaster Beast gave an incredibly piercing howl, making those who heard it feel immense pain, and a black-gray pillar of light shot out from her body into the sky.

Boom!!

An explosion once again sounded out as countless traces of deathly qi madly gathered. The deathly qi that covered the surrounding seven or eight regions started to roil before quickly gathering here.

The countless traces of deathly qi flowed into the Death Disaster Beast's body, causing its aura to become more and more powerful. The terrifying might it gave off became more and more powerful, causing all who were nearby to feel horror – this was most likely the Death Disaster Beast's true power.

Once she absorbed all of this deathly qi into her body, her strength would be unimaginable.

Clang, clang, clang...

At that moment, the Death Disaster Beast's expression became panicked. It started to quickly dodge, but it was still bound by countless chains. However, by now, the Death Disaster Beast's power was incredibly monstrous, and it was strong enough to break all of the chains.

Chi!

A crystal sword stabbed through the Death Disaster Beast's chest as a figure suddenly appeared behind her. The Death Disaster Beast tried to turn around, but in the next instant, its body was sucked into the sword, as was the surrounding deathly qi.

Gradually, the crystal sword became a black-gray color and gave off a dense deathly aura.

Following this, three items dropped: one was a Disaster Crystal, one was a Death Disaster Pearl, while the third item was about the size of a watermelon seed and shaped like a rhombus. It seemed to be made out of metal and gave off a dense aura of disaster.

[Disaster Seed]: A seed that contains a boundless aura of disaster. It can be fused into a City, creating a Disaster City.

Feeling this power, Zhao Fu could not help but feel delighted. If he fused this Disaster Seed into a Gold grade City, that City would instantly become a Legendary grade City.

At the same time, the Heaven-Sealing Sword greatly changed as well.

[Sealed – Death Disaster Sword]: This sword has sealed the terrifying spirit of Death Disaster and contains enormous deathly power. It is a Level 7 Saint Armament and has the power to destroy countless living creatures.

After looking through this information, Zhao Fu could not help but feel even more delighted. Zhao Fu had never expected that this sword would become a Level 7 Saint Armament – after all, Zhao Fu’s highest-grade sword was the Sin Dragon Sword, which was a Level 2 Saint Armament. This Death Disaster Sword was five levels higher and had monstrous deathly power.

Zhao Fu held the Death Disaster Sword, but it continuously trembled. The sword spirit was the Death Disaster Beast and was still trying to resist, unwilling to submit to Zhao Fu.

However, Zhao Fu did not mind and domineeringly sent his Emperor’s Power into the sword, causing the Death Disaster Beast to settle down somewhat. The sword stopped trembling, and Zhao Fu, satisfied, put the Death Disaster Sword away.

Now that the deathly qi was gone, Zhao Fu turned to look at the Dynasty Legatees in the distance. Feeling Zhao Fu’s terrifying gaze, the various Dynasty Legatees felt incredibly wary. They could tell that Great Qin’s Legatee’s aura had become much more powerful and dangerous than before.

This was especially so for those eyes under the cloak – the two eyes looked different and were incredibly terrifying. They gave off an incredible might, and his right eye looked like a ghostly eye. Anyone who was looked at by Great Qin’s Legatee would instinctively tremble.

They did not know when his right eye had become like that, but they could guess that it had to do with all those terrifying abnormal signs at Great Qin.

Zhao Fu looked away; there was nothing special in his gaze. Zhao Fu would naturally not kill them, as it was not yet time. Zhao Fu did not want all of China to attack him; he had to wait until he was strong enough.
