

The Lord 881

Chapter 881: Greater Tengu

Because this matter could affect the entirety of Flower Moon and was incredibly important, thinking about her sisters, Bai Yue could only refuse.

Su Zhe was not angry and continued to mildly say, “Yue Yue, it’s just some information about Great Qin that isn’t that important; Great Qin won’t know about this. Also, I’ll tell you about who’s coming.”

After hearing about this, Bai Yue’s expression fell and said, “Are they really coming to help destroy Great Qin? Are you crazy?”

Su Zhe lightly laughed and replied, “Now you know just how confident they are; I can promise you with 100% certainty that Great Qin will definitely be destroyed. Also, no one will know it was you who leaked this information. The Dynasty Legatees have also promised that if you provide this information, they won’t make a move on you all in the future.”

Bai Yue sank into her thoughts, and thinking about her sisters in Flower Moon, she lightly nodded and agreed.

Now, Great Qin was in great danger. After China’s various factions heard about this, they became incredibly serious, as the force that was gathered was incredibly monstrous. With Great Qin’s strength, it would be very difficult to defend, and if it was them, they would not even have the right to resist.

Many factions that had submitted to Great Qin now regretted it; with so many people rallying together, how could Great Qin defend? The various Dynasty Legatees had gathered 30,000 City Lords and 700 million soldiers; with such a force, they would be able to conquer an entire Continent. They had simply gone mad, and why were there so many factions that viewed Great Qin with enmity?

In order to isolate Great Qin, the Dynasty Legatees announced that any factions that were related to Great Qin would be completely destroyed and that all of their members would be killed.

This scared countless factions into cutting off all ties with Great Qin, as the force that the Dynasty Legatees gathered was simply too scary. Let alone destroying Great Qin, it could destroy an entire Continent.

The people who had been scared into silence by Great Qin once again started speaking. They hated Great Qin, but as Great Qin's threat became greater and greater, they naturally did not dare to say anything out of fear that Great Qin would take revenge.

Now that Great Qin was going to be destroyed, they were the happiest people. They were no longer afraid of Great Qin, so they started mocking Great Qin again.

“You trash Great Qin, let's see how arrogant you can be now. Now, even if I screw your mother, what are you going to do? You're just trash!”

“Your elder's going to screw over Great Qin. I've been fed up with that trash since ages ago, but have been holding it in till now. Great Qin's Legatee is just a dog.”

“The heavens are proclaiming justice; now, if anyone has any grievances, go and take revenge and follow the factions to kill everyone from Great Qin. Take their women and make them your slaves.”

“That's right, destroy Great Qin, that vile thing. Weren't you all bloodthirsty and inhumane? Now it's time for you to receive judgment. Let's all go and fight Great Qin, eat Great Qin's flesh, and take Great Qin's women.”

“There are finally people upholding justice. Go kill everyone in Great Qin; they're not even humans and are worse than animals.”

Great Qin, which had been greatly respected after establishing a Kingdom, was now treated like a rat by everyone. Those who once tried to curry favor now tried to avoid it like the plague out of fear of being dragged in.

Even many people from the Ying family were shaken, but this was suppressed by the family leaders.

After hearing about this, Flower Moon became quite hesitant as well. Some people advocated cutting off ties with Great Qin, as Flower Moon was the player faction that was the closest with Great Qin. If Great Qin perished, Flower Moon would also perish.

If even Great Qin could not defend against that force, how could Flower Moon defend against it? Only by cutting off Great Qin could they live; otherwise, they would be destroyed just like Great Qin.

There were many people in Flower Moon who had these thoughts. Seeing this, Bai Yue was able to relax. However, even though there were many people who had these thoughts, the leader, Xiao Yueyin, did not make a decision, and Su Yuyan also fell silent.

Within the Ancient Clans, an elder slammed down his palm on the table, saying, “Are these people crazy? They’re going all out to destroy Great Qin; are they not thinking about the consequences?”

“This time, it will be difficult for Great Qin to survive. With their strength, there’s nothing we can do. There are simply too many enemies, and even Great Qin’s Legatee will be powerless and might die,” another elder sighed.

The relationship between Great Qin and the Ancient Clans had become much better. After Nü Lü had married into Great Qin, Great Qin’s attitude had become better, and the Ancient Clans had changed its opinions of Great Qin. Now, they truly cared about the survival of Great Qin.

“Your Majesty, this is the information related to Great Qin. It’s said that there are people from here who are also participating.” A silver-armored knight half-knelt before Tina Pendragon and handed over some documents.

Tina Pendragon lightly nodded and read through the documents before slightly frowning.

Within a white, pure-looking church, a beautiful woman in white robes reported to Geoffrey.

Geoffrey looked up at a statue of Jesus and sighed as he said, “Many people will die this time. In actuality, I quite appreciate Great Qin’s Legatee; it’s possible that he really will die this time!”

The beautiful woman in white robes thought about it and said, “Should we do something about it? I heard that many people from our Continent are joining!”

Geoffrey shook his head. “This isn’t something we should get involved in!”

Akhenaten also received this information, and he coldly laughed, saying, “The world’s Fate is inclined towards China, resulting in the creation of a monster like Great Qin’s Legatee. It’ll be good if he dies; if he doesn’t, how will we have an opportunity?”

“However, internal fighting in China is extremely savage, and a battle of this scale can change the status quo in a Continent. Send out my orders; help Si Ji destroy Great Qin, but remember to not be discovered at any cost.”

When Masanori Hano heard about this, she looked extremely worried. She wanted to personally go over and see if she could help Great Qin’s Legatee.

However, a devil stopped her – it was Shuten-Douji. After fusing the Universal Den and the Shuten-Douji statue, she had obtained a Devil City, and many devils such as Shuten-Douji and Greater Tengu had appeared. They had come alive within the Heaven Awaken World because of the Devil City’s power, and they acknowledged Masanori Hano as their master. The reason why Masanori Hano was so powerful was because of these devils.

Even though Masanori Hano wanted to go and check on Zhao Fu, the devils persuaded her not to go. As such, she could only look worried as she stood on a building within the Devil City, gazing out toward Great Qin.

Chapter 882: Gongsun Zhu

Back at Great Qin, with so many Dynasty factions making so much noise, it was impossible for Zhao Fu to not know what was going on. Zhao Fu could understand why they had allied together, as the reason was quite simple.

Great Qin was too powerful, and because they could not defeat Great Qin by themselves, they would naturally find people to help. No one would attack when they knew that they could not win; that was just seeking death.

This sort of thing had often happened in the real world as well in terms of armed conflict.

The main reason that they had allied together was because Great Qin was simply too great. None of them were as dangerous as Great Qin, or else they would not be attacking Great Qin.

This posed a problem: Being too strong was equal to being a threat. They were not as strong as Great Qin, or they would not be allied against like this. Similarly, the Devil Horn Empire had been suppressed by other worlds because it was too much of a threat.

However, even if one was weak and was not much of a threat, others would not ally against them; rather, anyone stronger could just take them down.

Zhao Fu understood this, so while Great Qin had to be on its guard against these factions, it couldn't just stop developing.

Even if Great Qin did not develop, others would still be developing, and Zhao Fu did not want to become weak. As such, even if there were problems, Great Qin still had to develop because being weak meant being powerless and humiliated.

Facing the ferocious approach of the alliance, Zhao Fu discussed with his Ministers and Generals as to how to deal with this.

The ordinary players only dared to mockingly talk but did not dare to come and fight. Even if they came, they would hide at the back. As such, Great Qin would be mostly facing indigenous residents, against whom the Reality-Harming Talismans were not as effective.

Their attack was quite a crisis, and Zhao Fu's expression became quite serious; they had to deal with this matter properly.

In actuality, Great Qin had long since made plans – they would first devour Vietnam, allowing Great Qin to become a Level 7 Barony before dealing with the nearby system factions. That way, they would have 1,000 regions, allowing them to level up into a Marquisate.

When that time came, Great Qin would truly have the strength to deal with all attackers and would not fear them allying together.

Some people suggested launching sneak attacks to deal with them, but they were not Vietnam, who only had one Nation Armament. They had at least 11 Nation Armaments.

Great Qin could not launch a sneak attack on everyone, and if they launched a sneak attack, the situation would become much worse. If Great Qin really drove them to it, they would fight Great Qin at all costs.

Even though Great Qin looked like it was completely fearless, Zhao Fu was still quite worried that they would go all out against Great Qin with their Nation Armaments. What was key was that even more people were being gathered, and there were now 20 or so Nation Armaments and countless soldiers and City Lords. It could be seen how fearful and hateful the various factions were towards Great Qin.

For now, Zhao Fu needed to take things step by step. Only strength gave one the right to speak in this world, not justice.

Now that things had turned out like this and the factions wanted to go all out against Great Qin, Great Qin was in a tough spot. How should Great Qin deal with this massive army? Zhao Fu was not a god who could dispel any threat.

If they did not take care of things properly, it was possible that they could be broken through. Even though they had the protection of the Sky Desolation Azure Dragon, it had only promised to preserve the foundation of Great Qin. Even if everyone in Great Qin died, as long as the Great Qin City was not destroyed, the Sky Desolation Azure Dragon would not act. If that was the case, with only the Great Qin City remaining, Great Qin would essentially be finished.

Facing this crisis, Zhao Fu and his subordinates conducted intense discussions. First, they considered the sealed eight Aquatic Beast Kings. With their power, they would be of great help. Regardless of whether they submitted or not, Zhao Fu had to use them.

Otherwise, it would be very difficult for Great Qin to defend. If they submitted, it would be for the best; otherwise, Zhao Fu would have to use the method suggested by the golden dragon to wipe away their consciousnesses and turn them into puppets. However, they would lose their future potential for growth.

However, by now, Zhao Fu had no other choice and could only use special methods. After concluding the meeting, Zhao Fu prepared to quickly leave.

However, when he passed a courtyard, a 20 or so year old woman dressed in green, with two sword-like eyebrows and giving off a valiant aura, suddenly shouted, "Wait!"

Hearing this, Zhao Fu stopped and looked at this woman and the women beside her. When he had passed earlier, he had heard some faint laughing, but he had not paid much attention to it.

“How dare you speak to His Majesty like that?” one of the Ministers next to Zhao Fu chided her.

The woman quickly came to her senses and bowed before saying, “Concubine Gongsun Zhu greets His Majesty!”

The women beside her also became nervous and bowed to Zhao Fu.

Hearing this, Zhao Fu understood that she was one of his concubines. Because of how many women there were, he had forgotten about most of them.

“What is it?” Zhao Fu looked at this slightly familiar woman and asked.

Gongsun Zhu looked at Zhao Fu’s chest and gently smiled as she said, “Your Majesty, you’ve obtained the Clear Sable Sword, right? Because the Clear Sable Sword’s eye is one of kindness, does Your Majesty’s heart ache when you slaughter people?”

Hearing this, Zhao Fu felt quite surprised and asked, “How do you know this? How could you tell?”

Gongsun Zhu replied in a clear voice, “I am from the sword making Gongsun family, and because that sword has been in the Gongsun family’s possession for many years, I naturally know a lot about that sword.”

Hearing this, Zhao Fu suddenly thought of a young woman, which was Gongsun Lin. He had met her a long time ago, and she had forged two Gold grade equipment for Great Qin. However, Great Qin had not been able to keep her, and she had left.

Looking at this woman in front of him, no wonder she seemed quite familiar – she looked quite similar to Gongsun Lin, and she was also from the Gongsun family. As such, Zhao Fu could not help but ask, “Who is Gongsun Lin to you?”

Gongsun Zhu was quite surprised and replied, “She’s my little sister!”

Hearing this, Zhao Fu could not help but laugh. He had not been able to keep Gongsun Lin, but her big sister had become a Concubine. This was not something Zhao Fu had intended, and it was amusing how life worked.

"The Clear Sable Sword is in my possession; do you have any way to deal with this?" Zhao Fu asked. Ever since he had killed civilians last time, he had been using his strength to suppress the eye; otherwise, it would cause him great pain in his heart. Now that he had met someone who knew about this, Zhao Fu naturally had to ask if there was a solution.

However, Gongsun Zhu shook her head, saying, "There's nothing I can do about this. However, I have a sword making forbidden technique that can re-forged this sword. The Clear Sable Sword is a world-famous sword and is a sword of kindness, which is not suitable for Your Majesty. What I can do is use this forbidden technique to re-forged it into a sword of killing.

"By changing its attributes from kindness to killing, the eye will not harm Your Majesty anymore, and it will instead help Your Majesty."

Hearing this, Zhao Fu felt quite delighted and asked Gongsun Zhu about the forbidden technique.

After hearing about it, he found that this forbidden technique was quite special. They would not be forging a physical sword but a type of formless sword that could not be seen or touched. It was like a thing of his mind that was formless and ethereal.

Zhao Fu stopped suppressing the eye, and within the immense pain, Zhao Fu forged the eye into the shape of a formless sword. Right after it was forged, it became immensely powerful.

Zhao Fu now held it in his hand. To other people, it would look like there was nothing within Zhao Fu's hand, and this was because the sword was still in its most basic form. It could not hurt anything corporeal and could only injure spirits and minds. Because it had only just been forged, it did not have any special attributes, but as Zhao Fu killed more people, that sword would become more powerful.

Of course, the pain within Zhao Fu's heart was still there, but that was because the eye's attribute of kindness was still there; it required killing people to convert it into a sword of killing.

With this formless sword, Zhao Fu could kill one's spirit, which meant that if he used this sword to kill players, they would die a true death.

At the same time, Zhao Fu realized that the mysterious faction that had sent him this sword was extremely likely to be the Gongsun family. After all, it had been in the Gongsun family's possession for a long time.

Thinking about this, Zhao Fu felt a bit complicated. If it was any other faction, he would have felt somewhat angry, but Gongsun Lin had helped him in the past, and her big sister Gongsun Zhu had also helped him.

Zhao Fu thought about it and said to a Minister next to him, "Promote Gongsun Zhu's status to a higher rank!"

Right now, Zhao Fu's concubines had different ranks. The lowest rank was those who were not cooperative, and they did not have any rights; they were only there to provide Great Qin with Phoenix Qi and were essentially kept in captivity.

Now, the Emperor Phoenix Statue's strength was on par with a Level 1 Nation Armament. Zhao Fu wanted to make it stronger, as it had the potential to surpass Clan Armaments, so why settle with how it was now?

The lowest grade Concubines had only been given the title and were not true Concubines. Ordinary Concubines only had a tiny bit of power, and the higher rank they were, the greater rights and power they had. Not everyone who was made a Concubine had immense power.

"Your Majesty, can you allow me to leave Great Qin? I'm willing to accept my status as your Concubine, but I don't want to be restricted to Great Qin. I hope Your Majesty can understand!" Gongsun Zhu looked at Zhao Fu as she spoke her aim.

Zhao Fu fell silent; he could not accept his Concubine wandering around outside, so he rejected this request.

Hearing this, Gongsun Zhu felt a bit disappointed, but she said, "Your Majesty, can you at least tell the Gongsun family that I'm fine here?"

There was no problem with this, so Zhao Fu quickly agreed and said, "I'm not sure if you have any interest in forging equipment; if you do, you may freely go to the weaponry workshop in the future."

Gongsun Zhu felt pleasantly surprised; even though she could not leave, she could at least do what she liked, so she thanked Zhao Fu.

After dealing with this, Zhao Fu went to the Southern Continent. Of course, Zhao Fu went secretly, and he went to the place where the eight Aquatic Beast Kings were sealed. Zhao Fu's body slowly sank into the sealed area.

He had not seen them in a long time, and they seem quite withered and powerless, as they had been tormented every day.

"Owner, you've finally come. I've long since been willing to submit and have been waiting for you to finally come back so that I don't have to suffer anymore," the Earthwater Dragon Tortoise said in its ancient voice with a tone of currying favor and being wronged.

Zhao Fu had never thought that one of them would be willing to submit so easily. Zhao Fu had the Earthwater Dragon Tortoise hand out its Spirit Origin, which it did obediently. A white orb of light floated out of its head and entered Zhao Fu's hand.

Zhao Fu was quite satisfied and put away the Spirit Origin. With this Spirit Origin, he could control the Earthwater Dragon Tortoise's life with his will. Following this, Zhao Fu waived his hand, and the chains binding the Earthwater Dragon Tortoise retracted.

"Um, owner, I'm also willing to surrender!" Seeing that the Earthwater Dragon Tortoise had been released and no longer tormented, the Sift Metal Stingray spoke up with his child-like voice, expressing that it was willing to submit.

Following this, the Ghostscale Flame Bird spoke with a woman's voice and also submitted.

Even before, these three Aquatic Beast Kings were not as resistant and wanted to negotiate with Zhao Fu. After being tormented for such a long time, they were naturally willing to submit.

Zhao Fu's gaze turned to the five other Aquatic Beast Kings, who did not show any intention of submitting. Zhao Fu once again said, "I'll ask you one last time: Will you submit to me? I don't have any patience to wait for you; if you're not willing, I can only refine you into puppets."

The remaining five Aquatic Beast Kings did not reply to Zhao Fu. The Three Soul Great Snake looked at Zhao Fu disdainfully, and Zhao Fu did not say anything as he grabbed at the end, causing a formless power to enter their heads, slowly stripping them of their spirits.

"Roarrrr!!" This process was incredibly painful, and seeing that Zhao Fu really was going to refine them into puppets, another two of the Aquatic Beast Kings decided to surrender.

Now, it was just the Three Soul Great Snake, Reef Lizard, and Sin Flood Dragon. These three Aquatic Beast Kings were not willing to submit, so Zhao Fu used his full strength to stab into their spirits.

"Roarrrr!!" the massive amount of pain caused the three Aquatic Beast Kings to madly struggle and give off pained roars. This caused the five Aquatic Beast Kings who had surrendered to feel quite shocked.

Chapter 884: Gold Talisman Bolts

In the end, the remaining three Aquatic Beast Kings could not endure the intense pain anymore and submitted to Zhao Fu. Seeing this, Zhao Fu coldly harrumphed. These fellows would not give up until they saw death! Luckily, I had some special measures.

Now that he had taken in the Eight Aquatic Beast Kings, Zhao Fu felt quite confident because their strength would have a massive impact.

Zhao Fu was not stingy and took out a large number of Spirit Pills to help them recover their strength. They had already been injured, and after being sealed and tortured for so long, they were in extremely weak states.

Zhao Fu watched the Aquatic Beast Kings ravenously devour the medicinal pills, and he then remembered that back during the invasion, they had devoured many City Creation Stones.

"I want all of the City Creation Stones that you devoured before," Zhao Fu said as he stretched out a hand.

The Aquatic Beast Kings looked incredibly awkward, and the Earthwater Dragon Tortoise replied, “Um... Owner, we couldn’t store them well in our stomachs, and they were digested by us!”

“What?” Zhao Fu felt quite displeased, as the Aquatic Beast Kings had devoured many City Creation Stones. Now, they were all gone, and they could have been a great help to Great Qin.

Hearing the displeasure in Zhao Fu’s voice, the Heaven Cloud Jellyfish said in fear, “Even though we accidentally digested them, we became much stronger as a result.”

Only then did Zhao Fu feel happier about this. Now, he also knew that City Creation Stones could be devoured and digested, which required immense power. He then thought about fusing the useless City Lord Seals into the ferocious beasts’ bodies.

After the Aquatic Beast Kings had finished eating, they still needed some time to recover their strength. Zhao Fu took out eight Spirit Pet Rings that had been specially prepared for them and put them away, or else they would be too eye-catching when they returned to Great Qin.

The various armies were gathering towards Great Qin, and Great Qin was also making preparations to deal with this crisis.

On September 13, the sky was filled with an austere aura that penetrated into people’s hearts. The whole world’s eyes were on Great Qin, as a massive battle was going to erupt today.

The allied 800 million army gave off an enormous aura, shaking the entirety of the northern side of the Midland Continent. All living creatures were completely terrified under this aura, their bodies instinctively shaking. Facing this sort of power, even godly spirits would look quite worried.

The wind blew chaotically, and the clouds were dispersed. The massive tide charged towards Great Qin. Everyone was filled with immense confidence and lifted their heads high; in their eyes, Great Qin was as good as dead.

There were not only Chinese people gathered here but also people from various other countries. There were even people from other Continents, and with so many people and so many Nation Armaments, they would definitely be able to kill Great Qin’s Legatee and slaughter Great Qin.

Zhao Fu brought his various Ministers and Generals and stood on the Great Wall, looking at the incoming army. His expression was incredibly serious, as the army was even larger than before.

The Dynasty Legatees stood in the air, and Si Ji felt incredibly high-spirited. With such a powerful force, he had enough confidence to face Great Qin's Legatee.

“Great Qin's Legatee, today is the day that Great Qin perishes. Even if you beg for mercy or retaliate, it will all be for nought, and Great Qin will still be destroyed. If you want to blame someone, blame yourselves for being too powerful. Now, offer to us your head and we'll let you die a quick death!”

Si Ji gave off a enormous aura and spoke with a clear and loud voice, filled with overbearingness and arrogance.

Hearing this words, morale of the army below him swelled, and they yelled, “Kill Great Qin's dog and steal their women and riches!”

The allied army's aura now completely eclipsed Great Qin's aura, making them even more dauntless and arrogant.

“Are you bunch of clowns done?” Zhao Fu said calmly as his Emperor's might weighed down on the entire battlefield.

This caused the allied army to feel incredibly furious, and they directly rushed at Great Qin.

Boom!!

A shocking explosion rang out as the massive tide gave off an aura that seemed to be able to destroy anything, and it started to flood towards Great Qin. Their footsteps shook the heavens, and they seemed completely unstoppable.

Boom! Boom! Boom! Boom! Boom! Boom...

Suddenly, a chain of massive explosions sounded out as the ground beneath the allied army started to erupt continuously. The explosions were incredibly terrifying, and a white light instantly devoured everything. Everything that was caught in the explosions was reduced to dust.

The ground violently trembled as the terrifying destructive power rippled out. The ground was obliterated, and the shockwaves spread out like wild gales, bringing a lot of sand and dust into the air as mushroom clouds also formed.

Everything seemed to fall silent as everyone was temporarily deafened. This terrifying destructive power shocked countless people. There were blood and broken corpses strewn everywhere, and the stench of blood was enough to make some people vomit. It was like a hell on earth.

Seeing this, Zhao Fu grinned. After using up all of the Destruction Crystals on the Vile Dynasty, Zhao Fu had Binoche and Kerache focus on creating even more. He had used ten or so when destroying Vietnam, and this time, they had used up the remainder of Great Qin's stock.

There were 324 Destruction Crystals in total, and the shocking explosions instantly wiped out 200 million soldiers. This dealt a heavy blow to the allied army, forcing them to stop, and many people looked utterly terrified.

The various factions' leaders' expressions were extremely unsightly, as they had lost a quarter of their army in just an instant. The City Lords could not afford to be careless or complacent, and they exploded out with power and rushed towards Great Qin. With 30,000 City Lords, they would be enough to destroy Great Qin.

While they did this, the soldiers below regrouped and continued to yell as they rushed at Great Qin.

Facing this charge, Great Qin stood there like an enormous mountain. In order to deal with the City Lords, Great Qin soldiers wheeled out 100 large ballistae. These were all Dragon-Slaying Ballistae; originally they had 30, and they had obtained another 70 from events.

These 100 Dragon-Slaying Ballistae gave off savage auras, and each one of them had a ten or so meter long gold talisman bolt on it.

Boom! Boom! Boom...

Rays of golden light, bringing with them immense power, shot through the air. They were extremely fast, travelling like a bolt of lightning towards the incoming City Lords.

This caused the City Lords to feel greatly startled. They quickly put up their defensive barriers, but the massive golden lights easily pierced through the barriers before stabbing through their bodies, piercing through even more City Lords behind them.

Ten or so kilometers away, muffled explosions sounded out as 100 golden bolts with two to three City Lords' corpses strung on them landed into the ground, creating a horrifying scene.

Because there were so many City Lords charging together, the 100 Dragon-Slaying Ballistae had been able to kill 200 to 300 City Lords in a single volley.

Chapter 885: Battle Begins

This caused the countless City Lords to quickly disperse, and they became extremely wary. These bolts were too terrifying and could easily kill City Lords. Luckily, there were only 100 sets, or else it was possible that all of them could have been killed.

Losing 200 to 300 City Lords was not a big deal to the 30,000 City Lords, and the remaining City Lords continued to give off killing intent as they charged.

“Roar! Roar! Roar...” Dragon roars sounded out as Wyverns bringing about massive flames or jets of icy air appeared. There were 2,500 of them, and they were at least 150 meters long. They gave off powerful dragon might and shot out flames or icy air from their mouths.

The City Lords at the front had never expected so many Wyverns to appear. The 1,000 or so City Lords at the front were hit by the attacks of the 2,500 Wyverns, resulting in 600 or 700 of them being instantly burned or frozen to death, while the others were also severely injured.

How could Great Qin have so many Wyverns? They all had such powerful auras as well. Seeing so many Wyverns suddenly appear, everyone was quite shocked.

“Roar! Roar! Roar...” 1,000 giants clad in heavy armor and holding heavy weapons appeared, giving off bloodthirsty, violent auras. They leapt into the sky and swung their massive weapons, bludgeoning the injured City Lords into meat paste.

What sort of monsters were these? Sensing these giants' auras, the City Lords felt as if they had plummeted into icy water. These 1,000 giants were naturally the Corpse Soul Commanders, and they and the 2,500 Wyverns had all fused with City Lords Seals, resulting in them becoming incredibly powerful. The 3,500 useless City Lord Seals that Zhao Fu had obtained had been fused with them.

It was the first time that Great Qin had revealed the Wyverns and Corpse Soul Commanders to the world, and they were extremely powerful.

They had killed 1,400 City Lords in a few moments, and this caused the attacking City Lords to feel a chill in their hearts. 1,400 City Lords were enough to rule a large territory, and they had died just like that.

However, they still had 28,000 or so City Lords, and still held a great advantage, so they continued to rush onwards towards Great Qin.

Boom! Boom! Boom...

Eight colossal figures, giving off a heaven-toppling aura appeared in the sky. Their might was almost corporeal, and all of the City Lords felt their bodies sink. The air seemed to freeze, and countless people were struck with terror in their hearts.

Si Ji's expression became quite ugly, as the eight Aquatic Beast Kings had actually been subdued by Zhao Fu. They seemed even more powerful than before.

Thousands of City Lords were blasted back by the explosion of the eight Aquatic Beast Kings' power. If they individually faced these Aquatic Beast Kings, they would be instantly killed. As such, the City Lords could only work together to defend against these Aquatic Beast Kings' power. However, Si Ji did not feel too worried, as they had countless City Lords, and 8,000 or so City Lords were enough to suppress the eight Aquatic Beast Kings.

He then split some City Lords to deal with the Wyverns and giants, and they still held a great advantage. However, the situation suddenly changed as a massive gray fog floated towards the City Lords, causing their expressions to fall.

They had a lot of information on Great Qin, and they understood that Great Qin was using the Dark Ghost World, which was a powerful illusion. As such, they immediately retreated. However, the gray fog came from all directions, surrounding them, and thousands of City Lords fell silent.

There were 200 Hundred Ghost Illusionists on all sides, creating the Dark Ghost World, while 100 Ghost Summoners, who had become City Lords, summoned massive ghosts that were 10 or so meters tall that rushed into the ghost-qi filled region.

These ghosts all had power rivaling City Lords, and because the effect of the Dark Ghost World was quite weak against ghosts, the gray fog was Great Qin's domain.

Pained howls sounded out from within the gray fog, and there were some sounds of fighting; it seemed that some City Lords were still able to fight within the gray fog.

However, half of the 28,000 City Lords had been caught up in the fog, and they were either tied up or being slaughtered. The 100 Dragon-Slaying Ballistae had also been continuously firing at the remaining City Lords as well.

Great Qin's various methods caused the countless factions to feel incredibly shocked. However, even if they had half of their City Lords, they still had a massive advantage. The Dynasty Legatees no longer stood by and watched; they exploded out with power and shot towards Great Qin, while the remaining City Lords also continued their charge.

Great Qin's 8,000 City Lords, who had Officials seals, also exploded out with power and met the allied City Lords in the air.

Zhao Fu was surrounded by 22 Dynasty Legatees, and both sides' powers caused massive clashes in the air. Explosions continuously rang out, creating enormous shockwaves and causing the heavens and earth to dim and for trees to sway.

The soldiers below also charged at Great Qin. Terrifying auras once again burst forth from beneath the ground; fiery lights flashed in some places, causing the ground to be covered with lava, and the countless soldiers there did not even have the opportunity to cry out before being reduced to ashes.

At other places, the ground suddenly turned into sand, and the bodies of the soldiers there turned into sand as well, dying in terror.

In other places, intense chilling qi instantly froze everything, and the soldiers were frozen into ice statues, causing their lifeforce to gradually fade.

At other places, there were mines that exploded, causing soldiers' bodies to be burned to ashes.

This was the power of the Disaster Pearls. Even though there were not many of them, they were extremely powerful and could cover dozens of kilometres. These traps caused the allied side to lose another 100 million or so soldiers.

Boom! Boom! Boom...

At that moment, ten pillars of black light shot into the sky, and deathly qi rapidly condensed, forming an enormous vortex in the sky. A black magic formation filled with deadly intent appeared – the ten Disaster Cavalry had used the Undead Disaster.

“Roar...” terrifying roars sounded out in all directions as a massive amount of Undead aura burst forth. The temperature quickly dropped, and five million or so powerful Undead creatures, leading dozens of millions of Skeletons, attacked the army from another side.

These five million powerful Undead creatures were the corpses of the aquatic beasts that Zhao Fu had collected from before, and they now came into use.

Even though there were only five million Undead aquatic beasts, they were essentially unstoppable. Countless people were sent flying or crushed into meat paste.

“The Great Qin Imperial Corps is ready for orders!”

“The Sword Mountain Corps is ready for orders!”

“The Fire Corps is ready for orders!”

Shouts continuously sounded out as the Corps quickly gathered before roaring out, “Corps Aura Formation!”

“Roarr!” A dragon's roar sounded out as countless black aura formed a 500 meter long black dragon, giving off a terrifying aura as it raised its head towards the sky.

Chapter 886: Corps Aura Formation

Shing!

A clear sword hum sounded out as countless white auras gathered to form a 200 meter long sword of light that gave off an ocean-like wave of sword qi.

Bang!

Countless fiery aura gathered to form a 300 meter tall flaming woman, who gave off an incredibly searing energy and caused the temperature around her to drastically increase.

The 13 Corps all created different things, but it was as if 13 godly items had descended, each of them giving off a powerful aura that shook the heavens and the earth. Even in the distance, one could feel how terrifying this power was.

Following this, they started to slaughter. The black dragon brought with it black streams of air as it rushed at the massive army. It rampaged about, sending tens of thousands of soldiers flying; the black streams of air were extremely powerful and were not something that ordinary soldiers could defend against.

The massive sword of light gave off boundless sword qi and flew into the army like a laser, slashing through the army many times in just an instant, causing tens of thousands of soldiers' bodies to be dismembered silently.

The flaming woman brought with her countless flames as she flew at the army, creating seas of flame and burning innumerable soldiers to death.

After the 13 Corps Aura Formation were created, they started to madly attack. It was quite shocking to see 13 Corps killing 200 million to 300 million soldiers with barely any resistance.

At that moment, Great Qin's other soldiers wheeled out more ballistae before shooting at the soldiers near the Great Wall. Ordinary talisman bolts shot out, and even though they were not as powerful as the gold talisman bolts, it was still possible for them to instantly kill dozens of soldiers.

Great Qin had many methods of dealing with both City Lords and soldiers, and it held nothing back. If it did not use everything that it had, it would not be able to stop these attackers.

This was Great Qin's true strength, and it shocked countless factions. They were unable to comprehend how they were unable to gain an advantage against Great Qin despite having so many City Lords, and they were even being suppressed.

Boom!!

A massive explosion sounded out as Zhao Fu slashed out, creating a tornado of deathly qi and forcing the 20 or so people attacking him back.

Everyone was quite shocked to see Great Qin's Legatee's strength; with just a King's Seal, he was able to suppress the 20 or so of them.

Seeing that they were losing more and more people, Si Ji understood that if this went on, they would lose sooner or later.

"Everyone, quickly use your Nation Armaments' power, or else we won't be able to kill Great Qin's Legatee!" Si Ji shouted.

Boom!!

Si Ji was the first to explode out with a powerful aura as he unleashed his Fate and released his Nation Armament's true power. A boundless might spread out as nine massive cauldrons appeared in the sky, giving off a power that seemed to be able to suppress thousands of worlds.

Boom!

Another explosion sounded out as a tall and luxurious ancient-style building slowly appeared in the sky, surrounded by starlight and giving off a mysterious aura.

Boom!

Another explosion rang out as a shocking power burst forth, and a stone stele with no words on it appeared in the sky, giving off the aura of a godly spirit and causing countless creatures to tremble.

Boom!

An explosion sounded out as a terrifying power descended, and a crimson sword gradually appeared in the sky, dyeing the sky crimson, and it gave off a dragon-slaying sword aura.

11 Nation Armaments' power exploded out, creating a heaven-toppling aura that caused the clouds to scatter and for the sun to dim. The entire human world sensed those terrifying ripples, and everyone felt a wave of fear, their bodies trembling.

Almost everyone in the world knew about this great battle, and sensing these shockwaves, they could imagine just how intense and terrifying the battle was.

The various factions felt that it was quite likely that Great Qin would be defeated; no one had the power to withstand 11 Nation Armaments. Moreover, there were still ten or so Nation Armaments that had not been used, so how could Great Qin's Legatee possibly deal with this?

In actuality, only China's 11 Dynasty Legatees had released the full power of their Nation Armaments; everyone else had only used a bit of their Nation Armaments' power and did not plan to use their full strength.

After all, this consumed a large amount of their Fate, and they had just come to help the Chinese Dynasties attack Great Qin. If they could destroy Great Qin, it would be for the best, but if they could not, they would simply leave. Why would they make such great sacrifices for China? They were not Chinese.

If it wasn't for the fact that Great Qin's Legatee was too dangerous, they would not have even cared if all Chinese people died. Apart from them, many City Lords also felt this way. In fact, seeing how powerful Great Qin was, some of them wanted to retreat.

However, after the 11 Dynasty Legatees unleashed their Nation Armaments' power and the others also used a bit of their Nation Armaments' power, the power that Zhao Fu faced was not something that he could deal with with just his King's Seal.

“Die, Great Qin’s Legatee!” Si Ji roared as he gripped his violet sword with both hands. With his Nation Armament supporting him, he seemed to have enough power to destroy the world. His sword gave off boundless violet light as he slashed out, seeming to be able to tear through anything.

It was not just Si Ji; Di Wutian attacked at the same time. He gripped his halberd with both hands and sent his Nation Armament’s power into it, causing it to give off an immense destructive power. The space around it started to crack, and he howled as he stabbed out with the halberd, seeming as if he wanted to destroy the entire world.

Liu Ye directly held his Nation Armament, and the crimson light covered the entire heavens and earth. A sword qi that seemed to be able to rip apart the world started to gather as Liu Ye slashed out, causing a crimson dragon with incredibly savage strength to rush at Zhao Fu.

The other Chinese Legatees also attacked Zhao Fu with their full strength, and the other countries’ Dynasty Legatees also started to use some of their Nation Armaments’ power as they also attacked Zhao Fu.

Boom!!

A shocking explosion sounded out as the area 10,000 meters around where Zhao Fu had been was instantly reduced to rubble. There was nothing left, as nothing could endure that enormous power.

Did we kill him? Everyone wondered – that destructive power had simply been too immense.

However, they were disappointed, as Zhao Fu walked out from the chaos completely unscathed, a few Nation Armaments floating around him. A wave of power descended, causing all of the Legatees to feel a sense of fear.

However, things were not that simple – at the same time, two terrifying auras exploded out – at one place, there was an eerie demonic light that seemed to give off the sounds of tens of thousands of demons roaring and an extremely evil demon’s intent, and a young man wearing black clothes slowly walked out.

Elsewhere, in a place filled with blinding golden light, which seemed to have countless fish swimming about, the sky seemed to ripple like water, and a young man covered with golden scales, giving off an aura of destruction, appeared.

Chapter 887: Unexpected Guests

These two people were the World Protectors of the two other worlds. One was the Dark Demon world's Mo Qi, and the other was the Fish Scale world's Yu Xuan. As World Protectors, both of them controlled immense power.

Mo Qi coldly looked at Zhao Fu and said seriously, "Your power is extremely monstrous, and I admit that I am inferior to you. Before, I did not want to join with others to kill you, but your threat is simply too great. If I don't get rid of you, my Dark Demon world will be in great danger in the future. You should feel proud about this!"

Yu Xuan also looked at Zhao Fu seriously, and he looked at the eight Aquatic Beast Kings before saying, "You have my respect for being able to make those eight submit. Before, I did not want to get involved in human affairs, but after you awakened those two terrifying stars, I can only apologize; you have to die in order for the Fish Scale world to remain safe!"

Boom! Boom!

Two massive explosions sounded out as Mo Qi directly exploded out with his full power and used his Clan Armament, while Yu Xuan did the same and also brought out his Clan Armament. Their power seemed to be able to cause the sky to fall, and it was unimaginably powerful.

"Hurry! Work together with them and kill Great Qin's Legatee!" Si Ji shouted to the others. It was evidently him who had contacted these two World Protectors, and he had most likely even given them Zhao Fu's information, resulting in them working together.

The other Chinese Dynasty Legatees understood that this was the best opportunity to kill Great Qin's Legatee, and they could not let it go. They were not following Si Ji's orders; they were simply doing what they felt was best. They did anything that would benefit them.

After all, the various Midland Continent factions had been willing to join this attack because Great Qin threatened them, and they wanted to destroy Great Qin to get rid of this threat.

It was not that China had the power to rally many supporters but that they all had a common target. Moreover, it was only because they held a great advantage that they were willing to attack Great Qin; without such a big advantage, how could they be willing to step into these muddy waters?

They had all acted according to their own interests, so they were not very united. Seeing how powerful Great Qin was, how difficult it would be to destroy the Great Qin, and how many losses they had suffered already, many of them already started to think about running.

China's various Dynasty Legatees raised their Nation Armaments and attacked Great Qin's Legatee together, while the other countries' Dynasty Legatees' expressions were quite unsightly and did not act.

They were unwilling to unleash their full Nation Armaments' power, and if they rushed up, they would die. They were not able to participate in this battle.

The two other worlds' World Protectors felt that the Chinese people had all gone mad; they had actually conspired with the World Protectors of other worlds to kill their own World Protector.

Even though the humans hated Great Qin, distrusted Great Qin, and thought that it was too great of a threat, it was still part of their human world. In actuality, the two World Protectors were an even greater threat to them.

Perhaps even if the humans were conquered by Great Qin, they could become its subjects, but if they were conquered by other worlds, they would either die or become slaves. Last time, the Fish Scale world had drowned countless humans; this was the best evidence.

The Dynasty Legatees of the other countries looked at each other and decided not to get involved. On one hand, they would use up too much Fate, and they were also worried that after Great Qin's Legatee was killed, the two World Protectors would turn on them. At that time, who would be able to stop them? As such, these Dynasty Legatees from other countries turned into rays of light and flew away, not planning on helping out.

Mo Qi, Yu Xuan, and the Chinese Dynasty Legatees didn't have time to pay attention to them; they were completely focused on attacking Great Qin's Legatee. Facing his attacks, if they were not careful, it would be easy for them to die.

On September 17, the great battle concluded. It had lasted for four days, and it had been extremely terrifying. It was the most shocking battle in the human world, and no battle could even compare to it.

The frightening power unleashed had caused the earth to crack, for the weather to change, and the sun to grow dim.

Ten or so regions seemed to have been obliterated, turning into a desolate wasteland devoid of any life. It was like an apocalyptic scene, shocking anyone who saw it.

After the conclusion of the battle, the two World Protectors escaped back to their own worlds with heavy injuries on the brink of death, shaking the Dark Demon world and Fish Scale world.

Out of the 11 Chinese Dynasty Legatees, the Legatees of the Shang Dynasty, Jin Dynasty, Sui Dynasty, Song Dynasty, and Qing Dynasty died true deaths. After the battle, Bai Qi split Great Qin's terrifying army into five teams to simultaneously attack the five Dynasties, conquering them and destroying them.

The remaining six Chinese Dynasty Legatees escaped with heavy injuries, and they seemed to disappear and could not be found. They had most likely mass-relocated.

The results of this battle were that 400 million soldiers from the allied army had died while another 400 million soldiers had run away. 7,000 City Lords from the allied army had died, and 23,000 had run away.

These City Lords and soldiers all came from different factions, different countries, and different Continents, so they were not completely united. They had only been willing to attack Great Qin because of the apparent advantage they had, but seeing that things had gone sour, they immediately ran for their lives; no one wanted to die for something like this.

On Great Qin's side, they lost six million soldiers, and after conquering five Dynasties, they had lost another five million soldiers. 300 City Lords had lost their lives, and the most important person to Great Qin, the person at the core of this shocking battle, Great Qin's Legatee, may have died as well.

This battle was enough to shake three worlds. No one in China would have thought that Great Qin would be able to defend against this attack. They had never thought that the other two worlds' World Protectors would suddenly descend and work with China's Dynasty Legatees to try to kill Great Qin's Legatee.

Apart from in world wars in the real world, there had never been such great casualties before.

It could be said that all of China had taken a great blow, and the result of the battle was that five Dynasties had perished. The conclusion was incredibly severe.

This time, Great Qin's true strength had been displayed to the whole world, whether it was the eight Aquatic Beast Kings, the countless Wyverns, the terrifying Corpse Soul Commanders, the Dragon-Slaying Ballistae that instantly killed City Lords, or the Destruction Crystals and Disaster Pearls.

At the same time, there were the terrifying talisman arrows and bolts, the Undead army, and 13 Corps. Great Qin had unreservedly used all of its power, causing countless people to feel a chill in their hearts. If they hadn't attacked with such a massive army, they would not have known that Great Qin's full strength was so monstrous.

Chapter 888: Aftermath of the Great Battle

The results of this battle made some incredibly happy and others incredibly worried. The Hundreds Schools of Thought let out a sigh of relief, as they had remained neutral and not supported either side. The mocking voices once again disappeared and fell completely silent.

Now, the situation in China had settled. After this massive battle, China was still unable to stop Great Qin's meteoric rise. 400 million soldiers and 7,000 City Lords had died, and five Dynasties had perished. This was the harsh reality.

Within the real world, the Ying family also let out a sigh of relief. Great Qin had been able to withstand this massive pressure, and those in the Ying family who had been pessimistic and cowardly were all punished.

Otherwise, if Great Qin's Legatee found out that there were people in the Ying family who had given up on, the entire Ying family would be sanctioned by Great Qin's Legatee, and he might not even acknowledge the Ying family anymore.

Those who were punished were punished voluntarily. As long as they could remain within the Ying family and not be chased out, anything was fine.

Even though these people had been punished, they were still part of the Ying family, which was Great Qin's imperial clan. After joining Great Qin in the future, they would have great benefits.

At the same time, the family leaders hurried over to Zhao Fu's villa, wanting to know how Great Qin's Legatee was. At the same time, they wanted to express how he was the pride of their Ying family and someone everyone worshipped, and they also wanted to congratulate him and express their loyalty.

However, the bodyguard stopped them, telling them that Zhao Fu had not yet woken up. The family leaders understood that after the battle, there were still many things to take care of, so they did not mind too much.

However, they did not know that within the room, Zhao Fu's aura was extremely weak, and his chest was dyed red with blood. Of course, they had no idea that Zhao Fu was Great Qin's Legatee.

Right now, the space outside of the Ying family was crowded with all sorts of factions trying to curry favor with the Ying family, congratulating them and expressing their willingness to submit and do anything for Great Qin.

In response, the Ying family's family leaders disdainfully refused to see any of them. Before, they had avoided Great Qin like the plague, and yet, they were now trying to stick onto Great Qin like tape. Did they really think Great Qin was something that they could join as they pleased?

Facing the Ying family's disdain, the countless factions could only feel regretful. If they had known this would have happened, they would have chosen to continue trusting in Great Qin. Now, the situation in China had become fixed, and no one could change it. Great Qin was destined to unify China and become an eternal Empire. When that time came, there would no longer be Chinese people, only Qin people.

As such, these factions could only think of various ways to try to join Great Qin. Otherwise, if they waited until Great Qin unified China, they would not have any opportunities.

The largest faction in China was the governmental faction, and even they had to lower their heads to Great Qin. This time, even though they did not have any Dynasty Legatees, they had sent a large number of City Lords and soldiers to attack Great Qin.

They had suffered great losses, and as a country in the real world, they expressed their goodwill to try to salvage their relationship, and they had no intentions of submitting to Great Qin.

Within the Ancient Clans, a few elders smiled as one of them said, “It was your family’s Nü Lü who was farsighted and married Great Qin’s Legatee early, becoming one of his most beloved concubines. That’s why Great Qin and the Ancient Clans’ relationship has been relatively friendly.

“In the future, we should strengthen our friendship with Great Qin; after all, the world is destined to be Great Qin’s. Quickly send gifts to Great Qin; our old bones should go out and meet Great Qin’s world famous Legatee. I wonder what sort of heroic figure he is.”

After hearing about this, Tina Pendragon slightly smiled. However, thinking about how Si Ji had actually tried to work with the World Protectors of two other worlds to kill Great Qin’s Legatee, her expression became quite serious.

When Masanori Hano heard about the results of the battle, she could not help but laugh. Beside her, Shuten-Douji slightly sighed and said, “In the future, he might come to destroy Japan!”

Hearing this, Masanori Hano’s smile faded, and after thinking about it, she started to feel slightly worried.

After looking at the report in his hand, Geoffrey’s expression became extremely serious; what he was concerned about was whether Great Qin’s Legatee was still alive.

Over at Flower Moon, there were a group of women sitting within a hall. Many women wanted Xiao Yueyin to change her mind and give up on the partnership with Great Qin in order to avoid being destroyed.

Su Yuyan could only look at Xiao Yueyin because her opinion could not change anything; saying anything would be useless.

Xiao Yueyin continued to think and did not give any response.

“Big sis, you’ve been thinking for so long, so how come you haven’t made a decision yet? Flower Moon has always maintained neutrality; in actuality, working together with Great Qin has already departed from this. We should once again stay neutral; it’s not a big deal!” a woman in red said, and many other women agreed, hoping that Xiao Yueyin would cut off their relationship with Great Qin.

“Big sis, Great Qin really is doomed this time. I heard that there are even two World Protectors helping to kill Great Qin’s Legatee; how can Great Qin win?” another woman said.

However, Xiao Yueyin continued to think and did not reply to them. Seeing that she still did not make a decision, everyone else felt quite worried.

At that moment, the news of the result of the battle suddenly came in; Great Qin had been able to withstand the attack, making countless women speechless. They all looked incredibly shocked, and even though Great Qin's Legatee might have died, Great Qin had indeed survived.

If they had abandoned Great Qin, the relationship between Flower Moon and Great Qin would never have been the same again. They all felt quite relieved that Xiao Yueyin had not made a decision in time.

Now, it was inevitable that Great Qin would unify China. As a partner of Great Qin, they would receive great benefits.

Su Yuyan smiled as she looked at Xiao Yueyin, who inwardly let out a sigh of relief. She had been bearing immense pressure to trust in Great Qin. She had even been considering what Flower Moon should do after Great Qin was destroyed.

However, in the end, Great Qin had not let her down and had withstood the attack, and it had set a new status quo. Xiao Yueyin felt that she had now truly seen Great Qin's Legatee.

However, at that moment, Bai Yue and two or three other women's faces became extremely pale. They looked at Xiao Yueyin and did not know what to say.

Things were completely different than what they had expected, and now, they almost started crying. However, they still had a trace of hope, and that was only if the information that they had provided had not been leaked.

Xiao Yueyin looked at those women and could tell that they seemed to be hiding something, so she wanted to ask them about it.

Chapter 889: Those Who Betrayed Great Qin

“Things are bad! Someone’s attacking our city! It seems to be people from Great Qin!” Panicked cries sounded out from outside the hall, as powerful auras descended above Flower Moon’s city.

The women who had betrayed Great Qin immediately lost all hope as soon as they heard this. Tears streamed out of their eyes, and seeing this, Xiao Yueyin immediately understood why Great Qin would attack them.

“Hurry up and leave! Don’t enter the Heaven Awaken World in the future; you can only stay in the real world,” Xiao Yueyin’s face became pale as she shouted.

The other women did not know what was going on, but they still chose to follow her orders. They prepared to exit the Heaven Awaken World, but it was already too late – their status was already in combat, preventing them from leaving the Heaven Awaken World.

Boom!!

An explosion sounded out as dozens of people giving off powerful auras appeared before the women, looking at them coldly.

In actuality, Zhao Fu was not only on his guard against the Flower Moon but had also secretly collected information on them, which was why they were able to find Flower Moon’s headquarters so quickly.

Su Yuyan did not know what was happening, but seeing that Great Qin had suddenly attacked, she said angrily, “Could it be that Great Qin really is so rude and unreasonable? Why have you suddenly attacked Flower Moon; we’re in a partnership!”

The man in the lead, who had the strongest aura, coldly harrumphed as he said, “We’re here on orders of Prime Minister Li to capture those who betrayed Great Qin!”

Su Yuyan was unable to understand this; how had they betrayed Great Qin? The man did not give them an opportunity to explain before capturing everyone in Flower Moon.

In less than a day, the important members of Flower Moon’s widely spread organization had been captured, and those who were related to Flower Moon had been hunted down by Great Qin. Flower Moon had been eliminated incredibly quickly.

Great Qin also shook the nearby two worlds. For the first time, the people in the other two worlds heard of Great Qin and Great Qin's Legatee, and they sounded like thunder in their ears, shaking their bodies and souls.

The two most powerful people in their worlds, as well as ten or so people with Nation Armaments, had actually lost. Even their World Protectors had been heavily injured and nearly died as they escaped back to their own worlds.

They all understood just how monstrous their World Protectors were; ordinary people could only look up at them, and if they had lost even after working together, then just how powerful was Great Qin's Legatee? How could he be so powerful?

Even though they had not witnessed the battle, they could imagine that it was on an apocalyptic level.

After hearing about this news, the Dark Demon world, which had disregarded the human world this whole time, fell completely silent. They had never thought that the human world would be so terrifying; Great Qin's Legatee was truly a peerless expert.

Now, no one dared to look down on the human world anymore. They all silently raised the human world into the 'dangerous' category, as this was the reality.

The Fish Scale world's Legatees all looked incredibly dumbfounded. All of them quite feared Yu Xuan, as he was powerful to the extent that he could deal with them with a single hand. Apart from his superb talent, he had spent a lot of time in closed-door training.

As such, his power naturally surpassed the other Legatees', and hearing that he was going to act, the Fish Scale Legatees had all been quite excited. They believed that with Yu Xuan's power, he would be able to sweep across the entire human world.

That way, they would be able to take revenge for the humans poisoning so many Fish Scale people. However, what they had never expected was that Yu Xuan would be defeated and almost die in the human world. Just what sort of being was Great Qin's Legatee?

It was not just the factions in those two worlds who greatly feared the human world's World Protector; the countless ordinary people once again witnessed the might of Great Qin's Legatee. They could only look up at him and sigh.

Now, countless people wondered whether or not Great Qin's Legatee had died in battle. After all, he had unleashed terrifying attacks against the two other World Protectors, forcing the Chinese Dynasty Legatees away. The power that the three World Protectors released contained a trace of the world's source energy, which was the power that the world's consciousness gave them. It could be seen just how intense the battle had been.

All of their attacks had been incredibly destructive, but the two other World Protectors had not been a match for Great Qin's Legatee, and they had escaped on their dying breaths, while Great Qin's Legatee had fallen from the sky with six fist-sized holes in his chest. With that kind of injury, it was very difficult to survive.

However, with Great Qin's Legatee's terrifying power, perhaps that sort of injury could not kill him. As such, there were only rumours that he had died, and no one could confirm them.

It was unknown whether the two other World Protectors had been able to harm Great Qin's Legatee's body in the real world. After all, if his real body was fine, even if his body in the Heaven Awaken World died, it would not be a big deal for him.

At most, he would lose his Cultivation; everything else would be bound to his soul.

Right now, no one knew just who Great Qin's Legatee was except for those in Great Qin. As such, everyone else could only make guesses.

Over at Great Qin, countless Ministers anxiously waited outside, because their Majesty's life was in grave danger. Right now, Zhang Baishu and many other physicians were treating him, but the situation was not good.

Everyone was helpless to do anything, so they could only nervously wait outside. Li Si ordered people to collect healing medicines to help save their Majesty.

This situation had gone on for over a day, and there was still no result. All of the internal affairs were managed by Li Si; he had been made the Prime Minister of Great Qin by Zhao Fu, while Bai Qi controlled the military. Everyone else had to follow the orders of these two people.

No matter if it was attacking the five Dynasties or capturing Flower Moon's people, these were not ordered directly by Zhao Fu. Rather, because the situation was quite urgent, these decisions had been made by Li Si, Bai Qi, and Great Qin's other Ministers and Generals.

After anxiously waiting for more than a day, the people waiting outside finally saw Zhang Baishu open the door. Seeing him, they asked, "Imperial Physician Zhang, how is His Majesty?"

Zhang Baishu's taut face slightly relaxed, and he gave a trace of a smile as he told them that Zhao Fu's condition had stabilized and that he was not in any danger. However, he was still incredibly weak, so they had to take care of him carefully and could not allow anything to happen to him.

Hearing this, everyone let out a sigh of relief. It was the first time His Majesty had been injured so severely, making them all desperately worried.

Chapter 890: 1470 Regions

"Right now, His Majesty is still unconscious, but his life is no longer in danger. We need to quickly take care of the remaining matters to avoid anything going wrong!" Li Si looked at the other important subordinates and said.

The three system factions around Great Qin had all participated in this battle, and they had moved their entire armies. However, they had lost and suffered the greatest losses.

Right now, Great Qin needed to clear out these system factions. Originally, the plan was to take down Vietnam and then destroy the three massive system factions.

They had already taken down Vietnam, and because of the massive battle, they had not yet had time to clear out the 230 regions. However, the northern side of Great Qin was more or less settled.

In total, the three system factions had roughly 2,200 cities. Most of their City Lords and soldiers had died, and even if they did not die, they immediately relocated their cities and did not dare to remain.

After the conclusion of the battle, Bai Qi split the army into five groups to attack the five Dynasties that had lost their Legatees. Those Dynasty Legacies had lost many people, but their residents

fought back valiant. In the end, Great Qin's armies were able to forcefully take them down for a small cost and killed many people.

Bai Qi had been responsible for attacking the five Dynasties, while Wang Jian, Wei Liao, and Bai Xihan had been responsible for attacking the three system factions. This was quite easy for them because the City Lords and soldiers had died, so there were no problems while taking them down.

There were many regions: 300 in the western side, 230 in the eastern side, and 190 in the southern side. Apart from the system factions, there were also some player factions, so it would take some time to clear them out. After taking down the five Dynasties, because Bai Qi was worried about Zhao Fu's safety, he quickly brought the armies and returned, while Wang Jian, Wei Liao, and Bai Xihan continued to take down system main cities.

What Li Si meant was that because Zhao Fu was still unconscious and could not make any decisions, as his subordinates, they had to take care of the remaining matters for him. Great Qin's soldiers had to take down these cities and regions as soon as possible.

Hearing this, Bai Qi nodded and left with some Generals, while Li Si took many Ministers to prepare to assimilate a large number of people by building new buildings and living regions.

In actuality, Great Qin still had a Revival Pill, which allowed one to come back to life no matter how bad their injuries were as long as it was consumed within eight hours. However, Li Si could not use this, as it was in Zhao Fu's Disaster King Ring, and no one else could take it out. Otherwise, they would have already used it.

Great Qin's Generals and countless soldiers gave off massive auras as they flooded in three directions. They were simply unstoppable as they conquered city after city, taking down 720 regions with immense momentum.

With the 230 regions from Vietnam, Great Qin had taken 950 regions in total. Great Qin originally already had 520 regions, and with these 950 regions, it would have 1,470 regions, which would be enough to raise it to a Level 1 Marquisate.

Their first task was to clear the 950 regions before constructing the third Great Wall to protect all 1,470 regions. Only then would they truly become Great Qin's territory.

At the same time, leveling up to a Level 1 Marquisate required three Barony Cities and six Capital Cities.

In order to obtain the three Barony Cities, Great Qin would have to level up three Capital Cities to Level 3 and use the Region's Power to upgrade them into Barony Cities, which would save a lot of EXP. However, they still needed six Capital Cities, which would be quite difficult.

After all, leveling up six Cities into Capital Cities would take an ocean of EXP, and fighting battles was the fastest way. Out of the five Dynasties that Great Qin had taken down, Great Shang had already leveled up into a Level 1 Capital City.

This fulfilled one requirement for Great Qin, and it now needed another five Capital Cities.

Before, Great Qin had killed 7,000 City Lords and obtained 3,000 useable City Lord Seals, while 4,000 of the City Lord Seals had become useless.

Because these cities were quite spread out, it was quite difficult for Great Qin to find them. Some people understood that keeping the cities would increase Great Qin's power, so they decided to destroy them. As such, Great Qin had obtained another 4,000 useless City Lord Seals. Fortunately, they could be fused into the Wyverns or Corpse Soul Commanders.

The 3,000 useable City Lord Seals provided Great Qin with nearly 800 million people, and this brought many benefits, such as replenishing a large amount of Fate.

Before, in order to face the two World Protectors and 11 Dynasty Legatees, Zhao Fu used up almost all of Great Qin's Fate. Right now, Great Qin had never lacked Fate more.

After taking down these regions and cities, Great Qin once again stabilized and went into another development phase. Even though there were not any orders from Zhao Fu, things progressed smoothly because of the various Generals and Ministers, and Great Qin once again enjoyed peace.

It was now October 1, and a turn of events once again shook Great Qin. Great Qin's Majesty's injuries had once again worsened, and his condition became quite critical.

Facing those terrifying injuries, even the Intermediate Water of Life did not have much of an effect. This was because the injuries were not caused by any ordinary power, and this caused all of Great Qin to fall into panic.

Li Si once again thought of that Revival Pill. The situation was becoming quite dire, so Li Si planned to take Zhao Fu's Disaster King Ring, wipe away the seal he had made, and open it to take out the Revival Pill.

However, this Disaster King Ring was reinforced with Zhao Fu's Emperor's Seal, and even Bai Qi could not wipe away the seal. Everyone felt incredibly worried and planned to gather all of the City Lords to join together to wipe away the same.

However, at that moment, the Flower Fairy suddenly walked out and said in a clear voice, "Can I try? Perhaps I will be able to save His Majesty!"

This made everyone feel quite delighted. They all trusted this mysterious Flower Fairy, and they had no other option except breaking open the Disaster King Ring. However, that would have negative impacts on the Disaster King Ring and could even break it.

The people led the Flower Fairy to the young man lying on the bed. His face was incredibly pale and his aura was incredibly weak. His chest was bound by white bandages, through which blood continuously seeped out.

Seeing this, the Flower Fairy did not hesitate and sat down next to the bed as she stretched out a hand. A rainbow-colored light came out from her hand, which she lightly pressed against Zhao Fu's chest, causing the rainbow-colored light to enter Zhao Fu's body.
