

The Lord 931

Chapter 931 - God

After dealing with matters in the real world, Zhao Fu once again returned to the Heaven Awaken World. Great Qin was still clearing out regions while constructing another Great Wall.

However, the construction of the Great Wall was quite slow, because they were being constantly harassed by various factions, reducing the speed of construction. After all, these factions knew that once Great Qin finished constructing its Great Wall and solidified its foundation, it would make a move against them. As such, they had to stop Great Qin.

As such, Zhao Fu sent a large number of soldiers to guard the borders, allowing the civilians to build the Great Wall. Otherwise, with those factions constantly harassing them, it would be almost impossible to construct the Great Wall.

A week later, the peaceful sky in the Spirit Light race's world started to show abnormal signs. A wild gale started to blow as clouds gathered and the lighting dimmed, causing the atmosphere to become quite oppressive. All of the Spirit Light people sensed a terrifying threat descending.

All of the world's spirit qi gathered in one place, where there seemed to be a black hole devouring all of the spirit qi as the sense of danger became greater and greater.

By now, the sky was completely black, making it completely dark. The oppressive feeling became greater and greater, making everyone feel as if they were a massive rock weighing on their chests. At that moment, all of the Spirit Light people stopped what they were doing and looked in that direction.

Boom!!

A shocking explosion sounded out as a massive white pillar of light suddenly shot into the sky, seeming to rip apart the sky. The entire world seemed to be grabbed by a large, formless hand, and all of the spirit qi madly gathered.

The spirit qi around that pillar of light formed a dense fog that turned into liquid, then into crystals that floated in the sky. The sight of countless crystals floating in the air created a majestic scene, making everyone feel quite shocked.

At that moment, a massive golden circle floated out of the pillar of white light. At first, it was only two meters wide, but it suddenly expanded out to 10,000 meters. The energy from the pillar of light was absorbed by the golden circle, and the surrounding crystals also turned into dust and were absorbed into the golden circle.

Boom!

A terrifying aura rushed out like a tsunami, and all of the living creatures seemed to be covered by this aura. Everyone felt as if they had fallen into a bottomless abyss, and they all looked terrified as their bodies uncontrollably trembled.

Within the 10,000 meter wide golden circle, a gigantic figure slowly descended. First it was a pair of legs, followed by a waist, followed by a torso, and then followed by a head. Only then did everyone realize what that thing was.

It was a 10,000 meter tall man from the Spirit Light race. He had a powerful-looking body, and his body gave off light like those from jewels. His appearance was quite cold, and he was half-naked with nine golden circles on his chest.

This massive Spirit Light person seemed like a living person, but he was only a statue and did not have any signs of life.

In the Spirit Light world, there was an ancient legend that originally, the Spirit Light world was completely desolate, without any life at all. One day, the Spirit Light Primogenitor came here and used his power to change this place and created life, including the Spirit Light race.

As time passed, the Spirit Light Primogenitor passed away and turned into a statue. That statue possessed the mighty force of the Spirit Light Primogenitor and would lead the Spirit Light people to a new peak.

This statue was that Primogenitor's statue, and after he completely descended, all of the Spirit Light people's bloodlines boiled. They all felt incredibly excited and moved, and they all knelt down towards it.

They first respectfully kowtowed towards it before they all flew and ran towards it. Whoever obtained this Primogenitor Statue would obtain the entire Spirit Light world. Almost everyone in the entire world rushed towards it, wanting to take it for themselves.

Countless people charged at it, and this included not only ordinary people but even Dynasty Legatees. It seemed that a massive battle was about to unfold.

Boom!!

The Primogenitor Statue gave off a ferocious aura, sweeping countless people back, resulting in innumerable injuries and casualties.

This horrifying aura caused even the Legatees to stop, and they looked at the Primogenitor Statue seriously. This included the Spirit Light world's World Protector, a handsome, platinum-color haired young man.

After giving off that terrifying aura, the Primogenitor Statue released a golden energy barrier that was 10,000 meters tall and tens of thousands of kilometers wide, completely covering it.

One of the World Legatees, a big man, immediately rushed at the golden energy barrier. However, what surprised people was that the golden energy barrier did not stop him at all, allowing him to enter.

Everyone else realized something and also turned into rays of light as they shot at the energy barrier. For most of them, the energy barrier did not put up any resistance, but some of the weaker people found that the energy barrier was incredibly tough and could not be passed through.

Even though the big man had passed through the golden energy barrier first, there were still many people hot on his heels. Just as everyone was about to reach the statue, a person giving off a powerful aura blocked in front of him.

He was the Spirit Light world's World Protector, Kamen, and seeing all these people rush over, he coldly harrumphed as he said, "As the Spirit Light world's World Protector, this Primogenitor Statue should be mine."

Those words caused everyone to feel quite dissatisfied; after all, how could they just hand over a treasure like this to someone else? In front of benefits, no one cared even if they were from the same race.

“Kamen, you think we’re afraid of you? Everyone, let’s work together to take down Kamen. The Primogenitor Statue will belong to whoever can take it!” the big man at the front angrily shouted, choosing to attack Kamen.

Everyone else also understood that Kamen was their biggest obstacle and the most likely person to take the Primogenitor Statue. As such, they did not hesitate and unleashed their strongest attacks towards Kamen.

Facing these attacking people, Kamen coldly laughed and grabbed at the air, causing a silver spear to appear in his hands. He gave off massive power as he rushed at the incoming people, and a massive battle unfolded.

Even though this battle was quite intense, there were some people who did not attack. Seeing how fierce the battle was, they wanted to sneak over to take the Primogenitor Statue for themselves. However, how could anyone allow this? Soon, a massive battle royale unfolded.

The aura that the Primogenitor Statue gave off was incredibly powerful and could shake the entire world. The surrounding worlds sensed its ripples as well, such as the Dark Demon world. Feeling those ripples, many people in the Dark Demon world could tell that a shocking treasure had appeared in the Spirit Light world.

Many people wanted to get involved, because just from those ripples alone, they knew how powerful that thing was. It could cause the Spirit Light race to become much more powerful, becoming a great threat to their Dark Demon world.

Chapter 932: Primogenitor Statue

Before, the Spirit Light people had invaded the Dark Demon world, killing many of their people, and they still had not taken revenge for this yet. This would be a good opportunity.

However, this would require diving deep into another world, which was extremely dangerous, and they could even die there. It was quite possible for the entire world to gang up on them, so many people hesitated and considered whether they had the power or not.

The battle in the Spirit Light world was incredibly intense, and Kamen faced off against dozens of people with his spear, not at a disadvantage at all. His might was incredibly terrifying.

The battle had already gone on for five or six hours, and even though Kamen was not inferior to them at all, he was unable to defeat all of them. As time dragged on, the golden energy barrier gradually became weaker.

One reason was because the energy barrier was running out of power, and the other was because those outside were madly attacking it, wanting to go in and have a chance at the Primogenitor Statue.

'I can't let this drag on; I have to take the Primogenitor Statue as soon as possible,' Kamen thought to himself. He exploded out with a ferocious aura and pointed his silver spear at the sky, loudly shouting, "Ten Holy Dragons!"

Silver magic formations suddenly appeared in the sky, giving off intense silver lights. They gave off powerful auras as dragons roared. Western dragons made of light flew out of them, ferociously rushing at Kamen's attackers.

There were ten light dragons in total, and they were extremely big, around 1,000 meters in length. The attackers did not dare to be careless and also released powerful attacks to stop those light dragons.

However, by now, Kamen had taken this opportunity to reach the chest of the Primogenitor Statue, which was where those nine golden circles were. Zhao Fu pressed his hand against the center golden circle, and the golden energy barrier disappeared as the Primogenitor Statue became smaller.

Seeing this scene, everyone else's expressions fell, because Kamen was about to obtain the Primogenitor Statue. With the Primogenitor Statue's power, this Spirit Light world would become Kamen's, and they would be doomed.

"Nine God Destruction!" One person disregarded everything and unleashed all of his Nation Armament's power, unleashing a terrifying attack. Nine blinding orbs of light exploded out, destroying the light dragon in front of him and reducing it to motes of light.

That person charged at Kamen, and by now, the Primogenitor Statue had already become 30 centimeters tall. Kamen felt quite delighted, and seeing that person charge at him, he dissatisfiedly swept out with his spear, sending out a massive gale and blasting that person back.

The Primogenitor Statue was already palm-sized, and Kamen prepared to quickly leave. After all, there were countless people who wanted to steal it from him.

However, at that moment, another person slashed out an incredibly sharp saber light, and Kamen gripped his spear with one hand and stabbed out. The air in front of him seemed to explode as a formless but incredibly dangerous piercing energy shot at that person.

Suddenly, Kamen sensed something and his expression fell. He tried to act, but he was too slow, and the Primogenitor Statue in his hand was actually snatched away by someone.

“Arghhh!” Kamen roared and swept out with his spear, sending out a massive power. A silver crescent slashed out, trying to slash that person in half.

However, the person who had snatched the Primogenitor Statue was not weak at all and also exploded out with a powerful aura. He slashed out a sword light that clashed with the silver crescent, resulting in an almighty explosion that sent out massive shockwaves.

In order to defend against this attack, the person who had snatched the Primogenitor Statue was forced to stop flying. It was a cold-looking and handsome young man giving off a large amount of demonic qi. His aura was not weaker than Kamen’s, and he was also a World Protector.

“Mo Qi! You’re seeking your own death; put down my race’s Primogenitor Statue or else I’ll kill you!” Kamen furiously roared.

That person was the Dark Demon world’s World Protector, Mo Qi. Facing Kamen’s threats, Mo Qi coldly harrumphed and did not reply, instead turning into a ray of light as he shot away.

Mo Qi still had not fully recovered his strength, as his wounds from Zhao Fu still had not completely healed. Kamen had been his equal even before that, and they had once fought to a draw, so if he stayed, he would most likely lose.

Seeing Mo Qi speed away, Kamen of course could not give up. He also turned into a ray of light and chased after Mo Qi. Seeing this, all of the Spirit Light people were greatly shocked; they had never thought that their Primogenitor Statue would be snatched away by an outsider. The powerful Legatees also gave chase.

“Holy Exhortation Light!” Seeing that the distance between Mo Qi and himself was growing greater and greater, Kamen unleashed one of his most powerful skills, directly throwing out his silver spear.

The silver spear turned into a silver ray of light, covered with countless runes. It gave off a powerful energy as it flashed through the air incredibly quickly.

Mo Qi was given a big fright, as that silver light had already locked onto him. No matter what he did, it would be useless, so he could only face it head-on. Mo Qi turned and stretched out a hand, causing a large amount of demonic qi to flood out, and eight massive demons blocked behind him.

The silver light tore past in an instant with unstoppable momentum, piercing through the demons’ chests, turning them back into demonic qi.

Just as the silver light was about to hit Mo Qi, Mo Qi released a barrier covered with demonic inscriptions. Because it had to pass through several obstacles to finally arrive at Mo Qi, the silver light was greatly weakened, and it was blocked by that barrier.

However, Kamen held another spear and had already reached where Mo Qi was. His spear brought with it explosive power as he stabbed at Mo Qi’s chest.

Mo Qi narrowly dodged to the side, avoiding this terrifying attack. The other Legatees had also arrived, surrounding Mo Qi.

A big man coldly harrumphed, “Mo Qi, you really don’t fear death. You dare to steal our Primogenitor Statue? You think our Spirit Light race is weak?”

A long-haired mature woman said, “Mo Qi, as long as you hand over the Primogenitor Statue, we can promise to let you leave safely. You’re still injured, right? Don’t invite disaster to yourself.”

Kamen also stared at Mo Qi. The Primogenitor Statue was of utmost importance, and because he had fought with Mo Qi before, he knew about Mo Qi’s strength. Even though Mo Qi was injured,

he was not completely confident in being able to take down Mo Qi, so he said, "If you hand over the Primogenitor Statue, we'll let you leave."

Mo Qi remained expressionless. This Primogenitor Statue was indescribably important to the Spirit Light race and he had come all the way here to steal it, so how could he just give it up like that?

Suddenly, a massive amount of demonic qi exploded out from Mo Qi's body, completely covering him and forming a large ball of demonic qi. The demonic qi then split into multiple balls, shooting off in all directions incredibly quickly.

Chapter 933: World-Cleansing Light

This happened in just an instant, and no one had any time to react. Kamen stabbed out with his spear, the immense force destroying one ball of demonic qi, but there was nothing inside. However, Kamen did not give up, and his eyes danced with golden light as he chased after another ball of demonic qi.

Following this, Kamen once again gave off shocking power and swept out with his spear, sending out a massive gale. This forced Mo Qi to reveal himself, and Kamen glared at Mo Qi angrily as he yelled, "Mo Qi, you won't be able to escape!"

Mo Qi was still holding the Primogenitor Statue, which gave off a brilliant light. For some reason, he was unable to put it into his spatial ring, and that was how he had been found.

If he remained, he would definitely lose. However, the Primogenitor Statue was incredibly important to the Spirit Light race, and Mo Qi could clearly sense how terrifying it was. He could not allow it to fall into the Spirit Light race's hands, or else the Dark Demon race's outcome would be quite pitiful.

Mo Qi did not need to think and once again tried to turn into a ray of light and shoot off.

Kamen could tell what Mo Qi was thinking, so he suddenly threw out an orb of light that soundlessly exploded. White light covered the surrounding 1,000 kilometers, making it so bright that no one could open their eyes.

This white light was called World-Cleansing Light, and it was an incredibly powerful type of Holy Light energy. It could purify a world and was an incredibly rare treasure. It dealt terrifying amounts of damage to all dark-type creatures, and in order to stall Mo Qi, Kamen went all out.

Chi!

After the white light disappeared, Mo Qi coughed up a mouthful of blood, looking moderately injured. His gaze towards Kamen now contained a trace of killing intent, as he was now quite angry. A demonic flame burst forth around him as he prepared to stay and fight with Kamen.

However, because his attention was completely focused on Kamen, Mo Qi became somewhat careless. A white ray of light suddenly shot out from the side and snatched away the Primogenitor Statue.

Immediately, Mo Qi was infuriated, and a large amount of demonic qi gathered in his demon sword. Mo Qi's sword brought with it countless traces of sword qi as he seemed to tear space itself apart, turning the space around him completely dark, with many cracks stretching out.

“Hehehehe...” A strange laughter sounded out as a figure appeared. It was a person completely covered with bandages, revealing a pair of dark green eyes. That person seemed to be a woman, as she had an elegant figure and a large chest.

This woman gave off a large amount of corpse qi, and her aura was not weaker than Mo Qi's and Kamen's. This was because she was also a World Protector – she was from the world to the left of the Spirit Light world, while the right of the Spirit Light world was the Dark Demon world.

“Primogenitor Statue? I never thought that your Spirit Light race would have a treasure like this; I'll help you take care of it. I'm sure you have no objections, right?”

The woman laughed strangely and looked at the statue before looking at Mo Qi and Kamen.

“Shi Xiao! Don't act too excessively and hand over the Primogenitor Statue. Your Corpse Pall world and our Spirit Light world have an agreement; could it be that you want to fight with our Spirit Light race? We have the God Doors and can attack at any time,” Kamen said angrily as he looked at that woman.

“Hmph!” Shi Xiao coldly harrumphed before saying, “Letting your Spirit Light world obtain this Primogenitor Statue would be a disaster. Alright, I’m not going to say anything else; I’m going now.”

After speaking, Shi Xiao prepared to fly off. At that moment, the furious Mo Qi suddenly attacked. He stretched out a hand, causing countless traces of demonic qi to flood out, forming an enormous demon hand that grabbed at Shi Xiao. This person dared to snatch something from him, so he definitely would not let her off.

Kamen did not hesitate either and stabbed out with his spear towards Shi Xiao, looking like he was determined to kill her.

Facing these two attacks, Shi Xiao continued to laugh and did not move. When Mo Qi’s attack arrived and grasped at her body, her body suddenly turned into black substance and evaporated.

As Shi Xiao disappeared, Kamen’s attack also missed.

Suddenly, they saw a bright light flash in the distance; that was the light from the Primogenitor Statue, and Shi Xiao was greatly startled, knowing that she had been exposed. As such, she once again reappeared and turned into a ray of light and sped away.

Mo Qi and Kamen immediately chased after her. Even though they would not work together, they were willing to indirectly work together to stop her in order to get their hands on the statue.

“Demon Tide!” Mo Qi did not waste any words and made a cut on his palm. Black blood flowed out from the wound onto his sword, and Mo Qi vigorously slashed out, causing tens of thousands of demons to appear, roaring as they rushed at Shi Xiao.

Shi Xiao’s demeanor became quite serious as she slashed out with a finger. Countless bandages shot out from her like arrows, piercing through the demons and reducing them to demonic qi.

Kamen also attacked, once again summoning the ten light dragons. The light dragons gave off intense Holy Light power as they roared and rushed at Shi Xiao, giving off shocking strength and seeming to want to rip her to shreds.

Shi Xiao’s gaze became cold as she grabbed with her hand. The bandages on her body gathered towards her arm, forming a bandage sword. Shi Xiao was incredibly lithe as she dodged and

weaved between the light dragons, continuously slashing out with her sword, sending out gray crescents and destroying the light dragons.

However, by now, Mo Qi was already close, and he vigorously slashed out with his sword, a terrifying demon light covering Shi Xiao's body.

Chi!

Shi Xiao coughed up a mouthful of blood as she flew backwards. It was not easy for her to face two World Protectors' attacks.

Kamen also took this chance to continue attacking Shi Xiao. His spear stabbed out a burning white ray of light that shot at Shi Xiao, forcing her to dodge to the side. However, Mo Qi followed, causing her expression to become grim. She did not have the strength to resist two World Protectors, and she could not even escape. If she stayed, she would definitely lose.

"Wait, I don't want this Primogenitor Statue anymore!" Shi Xiao suddenly said before throwing it at Mo Qi. Kamen immediately turned at Mo Qi, and just as Mo Qi went to catch it, Shi Xiao suddenly shot out a few bandages, taking hold of the Primogenitor Statue.

At that moment, a rune appeared on Shi Xiao's forehead. Just then, she had just been acting to make Kamen and Mo Qi lose focus in order to prepare her escape. This Primogenitor Statue was incredibly powerful, and she did not want to let it go, as it was an incredibly rare treasure.

Shi Xiao's bandages successfully wrapped up the Primogenitor Statue, but just as she was about to retract them, a few black sword lights cut the bandages as a person who gave off an incredibly terrifying aura, seeming to freeze space itself, stepped out, taking hold of the Primogenitor Statue.

This person wore a black cloak and caused the three World Protectors' expressions to become incredibly grave. This person seemed incredibly dangerous, and even with their strength, they felt a trace of fear.

Chapter 934: Five World Protectors

The Spirit Light people in the distance also stopped because of this terrifying aura. They looked ahead with serious gazes, because they knew that if they continued onwards, their lives would be in danger. Ahead of them were four World Protectors.

The World Protector who had just arrived gave off the supreme aura of an Emperor, and he even suppressed the three others slightly.

Mo Qi's expression was quite unsightly as he looked at that cloaked figure and said, "I never thought you'd come as well, and you've become even stronger."

Kamen and Shi Xiao looked at Mo Qi, feeling quite surprised that Mo Qi knew this terrifying person. However, since that person had dared to try to snatch the Primogenitor Statue, he was an enemy, so there was not much to say. This was especially so because Shi Xiao had almost been able to escape with it.

"Hmph! You'd better hand over the Primogenitor Statue, or I won't show any mercy," Shi Xiao said as she looked at that person with dense killing intent in her dark green eyes.

"Sir, that Primogenitor Statue belongs to the Spirit Light race; I advise you return it to me, or I'll have to act against you," Kamen said threateningly.

That person looked up, revealing his terrifying eyes, but did not say anything, only calmly putting the Primogenitor Statue within his cloak.

When the Primogenitor Statue had given off ripples, Zhao Fu had not sensed it at all in the human world. However, Ye Cang in the Dark Demon world had clearly sensed that terrifying power, so Zhao Fu hadn't hesitated to come.

After looking through the Primogenitor Statue's information, he felt quite delighted, as this was an incredibly rare treasure and was incredibly powerful. It was incredibly helpful to the Spirit Light race, but if it fell into anyone else's hands, it would become a deadly item that could suppress the Spirit Light race. As such, he could not give up on it.

After putting it away, Zhao Fu immediately turned and ran, planning to leave this place. After all, this was enemy territory, and there were three other World Protectors here.

Zhao Fu's actions caused Shi Xiao to feel furious. She slashed out with a finger, causing countless bandages to shoot out towards Zhao Fu.

Facing Shi Xiao's attack, a powerful wave of Six Paths of Reincarnation Power flowed out of Zhao Fu's body and instantly formed a gray ball that was as big as a walnut. It gave off an incredibly dangerous aura, seeming incredibly deadly.

By now, the countless bandages had arrived, bringing with them immense power, but Zhao Fu did not seem bothered at all. The gray ball in front of him shot at Shi Xiao incredibly quickly, reaching her in an instant.

Shi Xiao was given a big fright, and countless bandages wrapped towards the gray ball. However, the gray ball suddenly exploded, giving off terrifying shockwaves that blasted the bandages to pieces and sent Shi Xiao back a few steps.

Shi Xiao's expression became even more serious; she had never thought that Zhao Fu would actually possess the Death Race's power, nevertheless one that was even more powerful than hers. After all, she had the highest-grade power in the Corpse Pall world, yet that person's Death Race power was even higher than hers.

Just who was this person? He seemed like a human, yet he had such high-grade Death Race power.

The instant Zhao Fu sent Shi Xiao back, Mo Qi and Kamen simultaneously attacked. Mo Qi did not hesitate to use his full strength, which was several times more powerful than what he had used before. This made Kamen feel quite surprised, seeing Mo Qi go all-out like this.

Mo Qi had not acted like this when facing off against him before, yet this cloaked figure could force him to do this. It seemed that he had to be careful as well.

Boom!!

Mo Qi raised his demon sword with both hands, sending a large amount of demonic qi into it. His sword gave off a shocking demonic light as an incredibly powerful sword wind rippled out. The sword then slashed down at Zhao Fu, looking as if it could slash through anything.

Facing Mo Qi's full-powered strike, Zhao Fu did not dare to be careless and took out his Death Disaster Sword. He sent a large amount of power into it, causing it to give off a cold, gray light. Zhao Fu also forcefully slashed out, sending out a powerful sword light.

Bang!

A massive explosion resulted as the two massive sword lights collided, causing massive amounts of sword qi to fly everywhere. The enormous shockwave forced Mo Qi, Kamen, and Shi Xiao all back, and they had to defend.

Zhao Fu was still where he was originally, with nine black dragons around him, and he gave off an authentic Emperor's aura.

All of the sword qi and shockwaves had been blocked by the nine black dragons, and they had not harmed Zhao Fu at all.

This made Kamen and Shi Xiao quite startled; they had never thought that Zhao Fu would be so powerful. Just from his terrifying aura alone, he was not just the King of a Barony Kingdom.

This caused Kamen and Shi Xiao to become even more curious about the identity of this person.

Seeing that Zhao Fu was completely unharmed, Mo Qi's expression became even more unsightly as he yelled, "I don't want that Primogenitor Statue anymore, but we have to kill Great Qin's Legatee; otherwise, you'll all regret it in the future!"

"Great Qin's Legatee?" It was the first time Kamen and Shi Xiao had heard of this name, and they understood this other World Protector to be Great Qin's Legatee. Even though they did not know much about him, seeing that Mo Qi did not want the Primogenitor Statue anymore and was so desperate to kill him, they understood the threat of this person.

Kamen could not allow the Primogenitor Statue to fall into anyone else's hands, so Kamen roared and did not hesitate as his body unleashed a large amount of brilliant light, and he ferociously stabbed at Zhao Fu with his spear.

In order to take the Primogenitor Statue, Shi Xiao also released her full power. A massive gray-white aura flowed out from her body, and countless bandages formed two slim blades as she also rushed at Zhao Fu.

Facing these two people, Zhao Fu understood that if he did not defeat them, he would not be able to leave, so he also became serious.

The Great Qin Seal within his body continuously trembled as a powerful aura burst forth from Zhao Fu's body. Zhao Fu stepped out, his sword containing immense power as he slashed Kamen flying, and he then slashed the other way to force Shi Xiao back.

Following this, Zhao Fu once again slashed out towards a place where there was seemingly no one. This attack forced out a white-haired, white-eyed young man. His aura was extremely powerful, and he was another World Protector.

Now, there were five World Protectors gathered here, making the Spirit Light people far away feel incredibly shocked. This had never happened before.

Not a single person dared to go any closer, because just those shockwaves alone could kill a City Lord of a Great City. The strength of five World Protectors was extraordinarily powerful, and it was enough to make them feel despair.

After being forced out by Zhao Fu, the white-haired young man lightly laughed and said, "Why did you do that? I just wanted to watch the battle from the side. Now, you've forced my hand; don't you think you're too arrogant to face four World Protectors?"

Chapter 935: World's Energy

After speaking, the young man burst out with a terrifying aura and took out a slim saber as he hacked at Zhao Fu, showing no mercy at all.

This person was also here for the Primogenitor Statue. He had been hiding for quite a while, and if Zhao Fu did not force him out early, it would be quite troublesome if he suddenly attacked out of nowhere.

Clang!

As the young man hacked down at Zhao Fu's head, Zhao Fu raised his own sword to parry, resulting in a massive colliding sound.

At that moment, Shi Xiao grasped this opportunity to attack. A large amount of gray-white corpse qi gathered in front of her, forming 100 corpse hounds that were dozens of meters long. Their gazes were incredibly ferocious, and their fangs gave off cold lights as they ran at Zhao Fu.

They were incredibly fast, and soon, they were only ten or so meters away from Zhao Fu. The corpse hounds leapt and sprang at Zhao Fu, giving off a stench and biting at him.

Just as the corpse hounds were about to bite Zhao Fu, he coldly harrumphed and the nine black dragons around him roared. Even though they were small, they were incredibly powerful and demolished the corpse hounds into traces of corpse qi before flying at Shi Xiao.

However, at that moment, Mo Qi stretched out his hand, causing demonic qi to flow out, forming a demonic hand that grabbed Zhao Fu's body.

This hand was dozens of meters wide, and let alone a person, it would be able to crush even a small mountain. Seeing that it had grabbed Zhao Fu, everyone slightly relaxed, thinking they had him under control.

"Ghost Devour!" A cold shout sounded out within the massive hand, and Mo Qi cried out as he brought the hand back. Countless Ghosts had appeared, ferociously biting that demonic hand.

The six gray dots in Zhao Fu's right eye were continuously spinning as a cold and gloomy aura rippled outwards like a flood. Ghosts appeared at Zhao Fu's side, giving savage roars as they opened their mouths and sprang at the people around them, giving off shocking sounds.

The four World Protectors faced the flood of Ghosts and swung their weapons, easily killing many of them. However, at that moment, Zhao Fu lightly cried out, "Ghostgod!"

Zhao Fu used the Ghostgod Soldiers' skill, causing the Ghosts leaping towards the World Protectors to instantly transform into all sorts of different weapons: swords, sabers, spears, hatchets, and the like. They were simply innumerable and seemed to cover the sky.

After these weapons appeared, they gave off sharp auras and ferociously flew at the four World Protectors.

The four World Protectors were greatly startled and quickly swung their weapons, destroying the incoming weapons and reducing them to tiny parts. However, their bodies were still cut by many weapons, revealing thin cuts.

The people watching from afar felt incredibly shocked and marvelled at how powerful that person was. Just by himself, he was able to push four World Protectors into a corner. The spectators all knew that if they went up, they would die in mere seconds.

Zhao Fu did not want to continue fighting with them; he had only come to steal the Primogenitor Statue. With a massive killing item like this, it would be incredibly simple to deal with the Spirit Light race in the future, so he wanted to take this opportunity to leave.

Suddenly, the weather changed as clouds swirled and a massive wind swept out. Countless trees swayed, and sand and pebbles were blown into the sky as all of the world's power gathered. An ancient and powerful will descended, causing the entire world to fall silent.

In front of this will, everyone seemed as small as ants, and they all looked at the sky in fear. Their bodies froze, unable to move even a bit.

“The Primogenitor Statue must remain!” A voice sounded out in all of the Spirit Light world Legatees' heads, making them feel quite shocked. This was actually the voice of the world's consciousness, and an unimaginably powerful wave of energy entered their bodies.

“Arghhh...” Cries sounded out, piercing the heavens as incredibly powerful auras burst forth. At that moment, it seemed as if the entire world had descended into chaos.

Everyone who was just spectating now only had a single goal, which was to get as far away as possible; if they remained, they would die without a doubt. Even the City Lords would be crushed like ants; the world's source energy was something that could destroy all life.

Boom!!

After receiving the world's energy, Kamen looked like a brilliant divine world, and he gave off an aura that seemed to be able to suppress the entire world. He seemed like a god as he swept out with his spear, causing a massive amount of power to fly at Zhao Fu.

The instant that the world's consciousness descended, Zhao Fu had sensed that things were taking a turn for the worse. As such, he exploded out with his true strength; the Great Qin Seal continuously trembled as nine dragon roars sounded out, and nine black dragons that were 100 meters long flew out of Zhao Fu's body.

The Ghost World Pearl also appeared on his chest, and the sealed Six Paths Demon Images' energy were drawn into Zhao Fu's body.

Immediately, an incredibly cold aura flooded outwards like a tsunami, seeming to cover all life. The entire world seemed to be filled with deathly qi, making it seem like a world of death.

As someone from the Death Race, Shi Xiao's face became incredibly pale after sensing this aura. Her heart was filled with terror as her body trembled; how could this person have such terrifying strength?

A black flame erupted around Zhao Fu's body, and his terrifying eyes gave off a shocking light. His aura became incredibly powerful, and facing Kamen's attack, Zhao Fu stretched out a hand, causing the nine black dragons to circle around him. They formed a massive protective barrier, blocking Kamen's attack.

However, five other Spirit Light Legatees also arrived, giving off brilliant divine light as they also had the world's energy.

The three other World Protectors felt quite hesitant. These people who had obtained the world's energy were now more powerful than them, so they were hesitant if they still wanted to continue.

However, before they could think too much, their own respective worlds gave them their own world's energy. What shocked them was that their worlds gave them only one task, which was to kill Great Qin's Legatee at all costs.

They could not feel any more shocked. Just what sort of person was Great Qin's Legatee that their worlds' consciousnesses were so determined to kill him? Such a thing had never happened before, and now, they all realized how serious this matter was.

This was especially so for Shi Xiao and that white-haired young man. Now, they understood Mo Qi's words; no wonder he gave up the Primogenitor Statue and was so bent on killing Great Qin's Legatee, saying that they would regret it if they did not kill him.

After all, this person was someone even their worlds wanted to kill; this meant that he had enough power to threaten their worlds. This person had to be killed, or else he might destroy their worlds in the future.

Chapter 936: Disrupting World's Consciousness

The three people looked at each other and made a decision. Their three worlds started to tremble as their worlds' energy started to flow into their bodies, and shocking auras exploded out from them.

Everyone in their worlds looked at the abnormal signs and looked incredibly serious. Even though they did not know what was happening, it was definitely something that was going to shake the world. After all, the world's energy gathering meant that there was a big problem.

Those who were the most terrifying were the ones from the Spirit Light world. The various Legatees had also obtained the world's energy, which was enough to shake the heavens. Now, the three other World Protectors also exploded out with their world's energy, which would be enough to make even godly spirits feel terrified.

Now, everyone in the Spirit Light world felt as if their minds and souls were being buffeted by a massive ocean. Their bodies continuously trembled, feeling only terror. All beasts in the Spirit Light world, no matter how ferocious, could only lay on the ground and whimper.

The group of people who had wanted to wait to snatch the Primogenitor Statue were now incredibly far away, looking back in fear.

This place was covered by dark clouds, which were quickly expanding out, that brought with them a terrifying aura of destruction. There were also bolts of lightning descending, with gales accompanying them. Trees were pulled out by their roots as massive rocks were lifted into the sky, looking like an apocalyptic disaster.

Terrifying shockwaves continuously erupted, and feeling those shockwaves, everyone looked at each other – this was a world-destroying battle!

“God Existence!” As the Spirit Light world’s World Protector, Kamen was undoubtedly the strongest among them. Moreover, this was his domain, so the amount of world’s energy he could use was incredibly great.

He now stood in the air, giving off fathomless divine light, looking like a true godly spirit. He loudly roared, causing a massive amount of spirit qi to madly gather, instantly forming an enormous vortex that gave off an immense pressure.

Zhao Fu was being completely suppressed by the other eight people. After finally struggling out of Shi Xiao’s bandages, Kamen attacked – countless rays of golden light shot out of the vortex in the sky as a golden pillar engraved with runes descended.

Zhao Fu was unable to dodge at all and was hit by the pillar. Even though he released his protective barrier in time, the pillar smashed him towards the ground.

Boom!!

A shocking explosion sounded out as the pillar slammed against the ground like a falling meteor. A shockwave rippled out, causing the ground in the surrounding 1,000 kilometers to cave in, and dust filled the sky.

The pillar of light turned into countless motes of light and disappeared, while Zhao Fu lay bloodied at the center of the massive crater. Even though he had used the Six Paths of Reincarnation Power and all of the Great Qin Seal’s power, he was unable to fight against those nine people.

Because Great Qin was in a tense situation, Zhao Fu did not bring the eight Aquatic Beast Kings with him. However, in front of the world’s energy, they would not be of much help. What was key was that Zhao Fu could not use his own world’s energy right now.

It was not that he did not want to use it but that he could not use it. After all, the world’s consciousness had to give one the world’s energy first, and if the world’s consciousness did not give it to Zhao Fu, he could not use it.

Back at the human world, because Zhao Fu was the World Protector and the person the world’s consciousness valued the most, it immediately started to channel the world’s energy to send to Zhao Fu in order to prevent him from being killed.

However, when the world's energy was channelled, even ordinary people could sense it, and this was even more so for Legatees like Si Ji.

At that moment, he could sense that the world's consciousness was feeling quite panicked and was trying to send the world's energy into Zhao Fu's body. Si Ji immediately understood that Great Qin's Legatee was in life-threatening danger, or else the world's consciousness would not be so worried.

Si Ji felt quite delighted and told Su Yan and the other strategists, causing them to grin. They immediately suggested Si Ji to ally with the other Legatees, as well as the various Nation Legatees and Dynasty Legatees, to use their Fate to disturb the world's consciousness.

Even though they were not sure what sort of danger Great Qin's Legatee was in, if they could interfere with the world's consciousness, even if Great Qin's Legatee did not die, he would be heavily injured. It was best to use someone else to kill him.

This news quickly spread, and the various Legatees all agreed to help. After all, Great Qin was the biggest threat in the human world, so who didn't want Great Qin's Legatee to die? Only if Great Qin's Legatee died would they have an opportunity, and this would not require them to expend a single soldier, only a bit of their Fate.

Apart from Tina Pendragon, Geoffrey, and Masanori Hano, all of the world Legatees joined in.

As world Legatees, the five others had also been favoured by the world's consciousness and could also use the world's source energy. With them causing disturbances, with the Nation Legatees and Dynasty Legatees, they could cause the world's consciousness to become quite chaotic.

Si Ji and the other Legatees released their Fates, causing Fate Dragons to fly into the sky and give off powerful auras. The scene was quite grand and did not look very scary, but it could cause life-threatening damage to Zhao Fu.

This was because the world's consciousness was a collective consciousness, and as people with a large amount of Fate, with five world Legatees, they could cause it to become quite chaotic.

If the world's consciousness fell into chaos, the world's energy would be unable to enter Zhao Fu's body, preventing him from using it.

Back at the Spirit Light world, Zhao Fu was covered in blood as he slashed out with his sword, sending out a large amount of deathly qi that swept towards the nine others like a flood. Even if he handed over the Primogenitor Statue, they still would not let him off. Right now, they had a bigger goal, which was to kill Zhao Fu.

Swish!

An arrow gave off an incredibly sharp aura as it whistled towards Zhao Fu. The ground beneath it was torn as well, and Zhao Fu flicked upwards with his sword, knocking it away, but his body was also sent back a few steps.

With Zhao Fu's strength, it was already quite difficult to last against nine people who had world's energy. He was only relying on his Six Paths of Reincarnation Power and his Marquisate Kingdom Seal.

“Sky Tiger!” Right as Zhao Fu blocked the arrow, the white-haired young man came near and slashed out with immense force, causing a ferocious azure tiger to appear. It gave off a shocking aura as it charged at Zhao Fu.

Bang! Bang! Bang...

Zhao Fu's body was blasted flying thousands of meters by the azure tiger, crashing through many large boulders before finally stopping. He landed on the ground and coughed up a large mouthful of blood.

Everyone looked quite delighted, because Zhao Fu's aura was now quite weak, and his strength was decreasing. Even without his world's energy, he had been able to defend against them for so long; this proved his strength, but he would still die at their hands.

Chapter 937: Terror

All of them felt quite perplexed – this person was most likely a World Legatee, so why did he not have any world's energy? Could he have been abandoned by his world? However, this was good for them; it was only because he did not have any world's energy that they were able to easily suppress him. Otherwise, it would be difficult for them to win.

Seeing how weak Zhao Fu was, everyone did not hesitate, because now was the best time to kill him.

Shi Xiao was the first to act. She had been thinking about that Primogenitor Statue this whole time because it was an incredibly powerful weapon against the Spirit Light race. Their Corpse Pall world was right next to the Spirit Light world, so she had to obtain that Primogenitor Statue. Even if she couldn't obtain it, she had to destroy it, as it was incredibly important to the Spirit Light race.

Bandages shot out from the air, gathering together to form sharp drills. Shi Xiao pushed her hand forward, causing the drills to fly forwards incredibly quickly, reaching Zhao Fu in an instant. If he was pierced by the drills, he would instantly become like a hornet's nest and would be dead without a doubt.

Zhao Fu had gotten to his feet with greatly difficulty, and facing these bandages, he mustered up the last of his strength to slash out, sending out a gray crescent that destroyed all of the bandages.

Kamen coldly laughed as he sent his terrifying power into his spear. His spear gave off a large amount of spear light, almost turning into a spear of light. It no longer seemed corporeal, and its aura became incredibly monstrous, causing people's hairs to stand on end.

Boom!!

As Zhao Fu used the last of his strength to defend against Shi Xiao's attack, Kamen threw out his spear with all of his strength. The sky seemed to explode as a massive explosion rang out.

The spear gave off shocking power as it descended like lightning with unstoppable momentum, instantly piercing through Zhao Fu's chest and nailing him against a mountain in the distance.

Zhao Fu's head and arms powerlessly fell as the side of the mountain was dyed red with blood. His Death Disaster Sword fell, and he no longer gave off any aura. He was most likely dead.

Now that Zhao Fu was dead, everyone let out a sigh of relief. Since he was dead, there would not be anything unexpected. After all, what could a dead person do?

Shi Xiao was the first to race towards Zhao Fu's corpse, because she had been waiting for an opportunity to take the Primogenitor Statue this whole time. That item was incredibly important to the Spirit Light race, so she had to obtain it.

However, the Spirit Light people sensed Shi Xiao's goal and them immediately acted as well. The white-haired young man also shot towards Zhao Fu's corpse; it was evident that he wanted the Primogenitor Statue as well. Mo Qi had promised that he would give up on the Primogenitor Statue as long as he could kill Zhao Fu, and he stood by his word, not going to snatch it.

However, he did not want the Spirit Light people to obtain it either; after all, the Dark Demon world was right next to the Spirit Light world, and if the Spirit Light people obtained the Primogenitor Statue, the Dark Demon world would be in great danger.

Now, the Spirit Light side definitely had an advantage, as they had a World Protector and five Legatees. Originally, these five Legatees did not have the strength to participate in this battle, but because of the world's energy, they wanted to try their luck.

Mo Qi immediately engaged three Spirit Light Legatees by himself, causing them to feel enraged. They immediately started attacking without any hesitation.

The two other Legatees looked at the white-haired young man in front of them and suddenly attacked, wanting to catch him by surprise. If they could force this white-haired young man away, they would have a better chance at obtaining the Primogenitor Statue. After all, this white-haired young man was also a World Protector, and he was much more powerful than them.

Ahead, Shi Xiao and Kamen had started fighting. Shi Xiao had wanted to grab the Primogenitor Statue and run, but Kamen had punched out a formless but terrifying punch towards her, forcing her to stop and slash out with her bandage sword.

This allowed Kamen to get closer, and he raised his hand as a massive amount of golden light gathered towards him, forming thousands of golden spears. They gave off sharp spear auras as they aimed at Shi Xiao. In response, Shi Xiao seriously slashed out with a finger, causing gray-white bandages to shoot out from the air.

Bang! Bang! Bang...

Kamen continuously shot spears towards Shi Xiao, while Shi Xiao continuously unleashed bandages. The two of them clashed intensely, resulting in explosion after explosion, and the shockwaves turned into wild gales that buffeted their surroundings.

After fighting for a while, it was evident that Kamen held a greater advantage. After all, the Spirit Light world was his domain, so he could use more of the world's energy.

Before, all of them had been united in killing Zhao Fu, but now that Zhao Fu had died, they started fighting among themselves for their own benefits.

"I know what you're worried about; I can promise that we will never invade the Corpse Pall world. Now, you don't need to fight with me over the Primogenitor Statue, right?" Kamen said to Shi Xiao after sensing that the battle would not conclude for a long time.

Shi Xiao coldly harrumphed; only the powerful had the right to speak. If the Spirit Light race became incredibly powerful in the future, they would be able to casually destroy the Corpse Pall world.

Such promises were not binding at all. If Kamen did not abide by his promise, Shi Xiao would not be able to do anything about it. As such, she did not trust him at all.

"I promise that I'll only hold onto the Primogenitor Statue and won't use it. That's fine, right, you should allow me to take the Primogenitor Statue!" Shi Xiao said as she coldly laughed.

Kamen did not reply and directly attacked. After all, the Primogenitor Statue could suppress their race's power, and if it fell into an outsider's hands, their Spirit Light race would be finished. As such, even the world's consciousness was determined to have it remain in the Spirit Light world.

Bang! Bang! Bang...

Kamen raised his hand, forming countless orbs of light that gave off intense light, shining down on the surrounding thousands of kilometers. They brought with them an immense Holy Light power, which would be able to instantly kill ordinary Undead. Kamen waved his hand, causing the countless orbs of light to shoot towards Shi Xiao, wanting to use this to suppress her.

This attack was indeed quite harmful to Shi Xiao, as the Corpse Pall race was part of the Death Race and therefore suppressed by Holy Light power.

Swish! Swish! Swish...

Countless bandages flew out, forming circles around Shi Xiao's body, creating a massive ball as Shi Xiao went completely on the defensive.

The orbs of light crashed against the ball of bandages, causing the bandages to gradually be destroyed. In the end, the bandages were unable to stop all of the orbs of light, and Shi Xiao was sent flying and coughed up a mouthful of gray blood. Kamen did not attack again, because taking the Primogenitor Statue was of utmost importance.

However, at that moment, the white-haired young man slashed out with his sword and sent the two Legatees blocking in front of him flying. He then rushed towards Zhao Fu, reaching Zhao Fu's corpse a step before Kamen. The white-haired young man grinned as he stretched his hand towards Zhao Fu.

Immediately, the white-haired young man's smile froze as he felt a chill pass through his body, and he felt as if he could not move. He suddenly shivered as an extremely dangerous feeling welled up within him. He possessed world's energy and yet he felt such terror.

Chapter 938: Completely Different Level

Suddenly, the heavens and earth dimmed as an extremely terrifying aura spread out in the sky, instantly covering the entire world. The entire Spirit Light world fell silent, without any sound at all.

Everyone looked up at the sky in fear, their bodies frozen and completely cold. They felt as if their hearts were being gripped by a pair of large hands, and it was as if they were going to die.

The sky had completely darkened without a trace of light at all. It was a boundless darkness, and it was not just the sky – the ground seemed to have been devoured by a demonic mouth, looking completely black. It was impossible to even see what was right in front because of how dark it was.

Boom!!

A shocking explosion seemed to tear the sky apart as red light started to stream through cracks in the sky. The terrifying aura reached its peak as a gigantic blood-red star, giving off an incredible might, slowly descended.

An aura of killing, evilness, and disaster swept down, causing everyone to feel terror.

Kamen and the others also looked incredibly startled. They looked up at the sky, not knowing what was going on. However, they also felt a sense of terror towards this star.

Boom!!

At that moment, another almighty explosion rang out as the sky seemed to be torn once again. Fathomless golden light shined down, giving off an aura that made even the heavens and earth seem to want to submit.

Boom!!

Another enormous explosion sounded out as an extremely cold aura, making people's spirits shiver, swept out followed by a deathly intent.

A golden star and a gray star, giving off immense pressure and a boundless Emperor's aura, simultaneously appeared and slowly descended.

The three stars each gave off an intense light, and their formless aura suppressed the entire Spirit Light world, making it difficult for everyone to even breathe. A feeling of despair and terror welled up in everyone's hearts.

In the distance, countless people looked at the three stars that had appeared in the sky, looking like apocalyptic stars. They had no idea what had happened for this to happen, and it seemed like a world was going to be destroyed.

Kamen and the others suddenly realized why their worlds' consciousnesses had wanted to kill Zhao Fu. Looking at the golden and gray stars, they understood – those stars were the two terrifying stars they had sensed in the past.

What they had never expected was that Zhao Fu had three Fate Stars. That blood-red star was also incredibly terrifying, and it was only now that they knew the truth of the situation.

“Wait!”

“Isn’t Great Qin’s Legatee dead? What’s going on? Could it be...”

When they thought this, Kamen and the others felt greatly startled and looked towards Zhao Fu. Zhao Fu, who seemed to have died, was once again moving.

He slowly raised his head, his two terrifying eyes seeming even more horrifying. The whites of his eyes had become completely black, and both pupils had become blood-red colored, giving off blood-red light and looking like two blood-red jewels.

Those eyes looked empty and lifeless, completely emotionless and filled with only destruction.

The white-haired young man, who was the closest to Zhao Fu, felt as if his body had fallen into icy water when his eyes met Zhao Fu’s eyes. A bone-chilling coldness assaulted his heart, and he was incredibly shocked.

Bang!

Before he could do anything, a muffled explosion sounded out as the white-haired young man was hit by a formless energy, causing him to fly back thousands of meters, crashing through a mountain and destroying it. Within the rubble, the white-haired young man coughed up a large mouthful of blood, his face extremely pale. If it wasn’t for his world’s energy protecting him, he would have died.

This shocking turn of events caused everyone to feel a chill in their hearts. Zhao Fu once again moved, gripping the silver spear lodged in his chest. He vigorously pulled it out, and his terrifying eyes turned to Kamen. Immediately, Kamen’s hairs stood on end as if he was being gazed at by an incredibly terrifying beast. A sense of extreme danger welled up in his heart, and he immediately unleashed a golden barrier to defend himself.

However, at that moment, Zhao Fu threw out the silver spear, which seemed to turn into a bolt of silver lightning and instantly pierced through Kamen’s body, nailing him onto the ground 1,000 meters away. His barrier, which was reinforced with his world’s energy, had been completely useless.

Kamen’s chest had been pierced. There was a large crater beneath him, but he was not dead. His aura was incredibly weak, and blood continuously leaked out of his lips, forming a wretched sight.

The blood-red eyes emotionlessly turned to look at Shi Xiao. Shi Xiao felt a chill in her heart and did not hesitate to turn and run. However, in the next moment, she felt an incredibly shocking aura appear next to her.

Shi Xiao's expression fell, and bandages shot out, forming a protective barrier around her. However, in the next second, a sharp claw giving off a world-destroying power instantly tore through the bandages, causing them to scatter.

A sharp claw grabbed towards Shi Xiao with terrifying power, causing her pupils to constrict. A rune appeared on her forehead, and as the claw was about to pierce through her chest, Shi Xiao's body turned into countless traces of black substance and disappeared.

Her body suddenly appeared a few hundred meters away. Right now, she only had a single thought, which was to run away. She did not even want the Primogenitor Statue anymore, because she would definitely die if she stayed. Even with world's energy, she was completely powerless.

Suddenly, a figure appeared beside Shi Xiao, causing her to look extremely shocked. Zhao Fu, who had been a few hundred meters away, had suddenly teleported and grabbed her head. Shi Xiao felt as if her head had been grabbed by iron claws, and before she could move at all, she was smashed into the ground.

Boom!!

Shi Xiao heavily crashed into the ground, opening up a 1,000 meter wide crater. Dust billowed into the air, and it was difficult to tell if Shi Xiao was dead or alive.

"Arghh!" "Arghhh!" the two Legatees who had been blocking the white-haired young man were instantly torn apart by Zhao Fu, causing blood and parts of their bodies to fall to the ground.

After seeing this scene, Mo Qi and the three other Legatees stared in shock. The three Legatees immediately chose to run, while Mo Qi stood his ground. He was unable to escape, as those terrifying eyes had already locked onto him.

Mo Qi gripped his sword with both hands, staring at Zhao Fu. His heart tensed as sweat ran down his forehead. He had never thought that Zhao Fu's power would become so terrifying after losing control. Even with his world's energy, it was far from enough.

Compared to last time, Zhao Fu was at a completely different level; right now, he seemed to have enough powerful to destroy an entire world.

Chapter 939: Spirit Light Guardian Beasts

Zhao Fu's body suddenly vanished, instantly appearing in front of Mo Qi. Mo Qi also gave off a terrifying aura as he sent his Demon Power into his sword, causing it to give off a shocking sword light. He slashed towards Zhao Fu, seeming to be able to split the sky.

Bang!!

Facing such a terrifying attack, Zhao Fu merely waved a hand, creating a massive force to knock Mo Qi's sword away. This caused Mo Qi to stare in shock, but before he could react, Zhao Fu spun and lashed out with his foot, sending Mo Qi flying. He crashed onto the ground, his ribs broken.

Now, only Zhao Fu stood in the air, giving off an incredibly monstrous aura. Everyone else was either dead or lying on the ground with weak auras, seeming heavily injured. However, Zhao Fu did not seem to plan on letting them off.

Shing! Shing! Shing...

Sword hums sounded out as countless blood-red motes of light gathered in front of Zhao Fu, forming countless blood-red swords of light. They gave off a massive sword aura, seeming as if they could slay gods. It seemed like Kamen and the others were doomed to die, and nothing could change this situation.

Boom!

A massive aura exploded out from the east, shaking the heavens and the earth. A massive golden lion appeared, giving off an intense golden light and looking like a golden sun.

Boom!

An unimaginably powerful aura also exploded out from the west as bolts of black lightning flashed, creating a terrifying scene. A thunder beast that looked similar to a Qilin appeared within the lightning.

Boom!

A massive might suddenly descended from the south, causing all creatures to feel a sense of terror. Time and space seemed to be frozen as a massive blue eyeball appeared. Its gaze was extremely terrifying and seemed to be able to cause the heavens and earth to collapse.

Boom!

Finally, an explosion sounded out from the north. The sky was covered with a violet light as a monster with a human's head and a bird's body appeared. It had a woman's head, and the body was like that of a crane. It had violet feathers and gave off an incredibly powerful aura.

The Spirit Light world's four Guardian Beasts had received commands from the world's consciousness, and they gave off terrifying auras as they descended here. Just their auras alone could cause godly spirits to tremble.

The four Guardian Beasts simultaneously descended, causing the weather to become chaotic. The Spirit Light people looked up in shock, feeling like ants. It was as if they were about to die.

The four Guardian Beasts gave off world-shaking auras as they stood in the sky in their respective directions, looking down on Zhao Fu from above. It seemed like they had the ability to easily determine Zhao Fu's life or death, and they indeed had such power; after all, they were Guardian Beasts of this world.

"As an Otherworlder, you were able to awaken three terrifying stars and have unlimited potential; you should not have come here or tried to steal the Spirit Light world's Primogenitor Statue. Now, you will die here," the golden lion looked at Zhao Fu with its golden eyes and said with a booming voice, a trace of pity and coldness in its voice.

"A lower-grade world could actually produce a person like this; this is something that can only be seen once every 10,000 years. It's a pity that he does not belong to our Spirit Light world, or he would be able to usher in a new era for our Spirit Light world, bringing us to a new peak. Now, this person must die; he cannot be allowed to leave," the Qilin-like thunder beast looked at Zhao Fu with its black eyes and said with the coarse voice of a young man, filled with killing intent.

“That’s right, this person is from the second world to the side, and if he is allowed to live, our Spirit Light world will be destroyed by him sooner or later, and our powerful Spirit Light race will be enslaved by him. As such, this person must die, and we must destroy his spirit as well.”

The enormous eyeball from the south looked at Zhao Fu eerily. Even though it had no mouth, it spoke with a sharp voice.

“No need to waste so many words; this person also has an incredibly pure Sovereign Bloodline. Quickly kill him and destroy his spirit so as to prevent any future troubles. Once this sort of person loses control, he will become incredibly evil. However, we need to preserve his corpse, as it is a top-tier treasure. If we eat his corpse, our strength will be able to rise to a new level.”

The monster with the woman’s head and crane’s body spoke as it licked its lips. It seemed incredibly eager to eat Zhao Fu’s body, and its voice was filled with cruelty. After speaking, it gave off an ear-piercing laughter and disregarded the three other Guardian Beasts as it flapped its wings and gave off a massive gale as it flew towards Zhao Fu. It was incredibly fast and seemed completely unstoppable.

Zhao Fu’s eyes were completely empty, and his power was completely out of control. Facing the four Guardian Beasts, he did not show any fear at all and instead gave a crazed and twisted smile.

Zhao Fu directly rushed towards the half-bird monster, and the Chaos Imperial Star gave off a bright, blood-red glow. Instantly, countless blood-red swords of light appeared in the sky, giving off a sword aura that seemed to be able to tear the sky apart as they followed Zhao Fu and shot towards the half-bird monster.

Boom!!

A shocking explosion sounded out as the two massive powers collided. Wild gales and sword light shot everywhere, and the shockwaves instantly flattened the ground within 10,000 kilometers. There was not a single blade of grass remaining in the surroundings or any other life.

“Arghhh!” A cry sounded out from the half-bird monster as its enormous body was sent flying back. There were wounds all over its body from the swords, from which violet blood flowed out, making it look quite wretched.

The three other Guardian Beasts had never expected the half-bird monster to lose in a direct confrontation, and none of them hesitated anymore.

The golden lion was the first to act. It gave off a roar that seemed to shake the heavens as it opened its mouth and spat out an enormous golden ray of light. It had the power to destroy countless creatures, and the space around the ray of light trembled.

“Hahaha...” Zhao Fu gave a savage laugh as a demonic intent flowed out from within his soul. It was the demon god Divinity, and an enormous amount of demonic qi rushed out of Zhao Fu’s body, making his aura even more terrifying, causing the space around him to start to distort.

Zhao Fu grabbed at the air, and countless traces of demonic qi gathered to form a demonic sword. He turned into a black ray of light and shot towards the golden ray of light.

Boom!!

A black flash of light blitzed through the massive golden ray of light, slashing it in half, and the golden lion was dismayed to see Zhao Fu appear before it.

Chapter 940: World Formation

“Demon Sun!” Zhao Fu roared as he raised the demon sword, his eyes giving off an intense blood-red light as he looked at the enormous golden lion, his grin incredibly wicked.

A ray of demonic qi rushed into the sky as all of the demonic qi in the heavens and earth madly gathered, forming a sun that gave off demonic light. It gave off a demonic might that could shake the heavens, and at the same time, Zhao Fu’s sword descended.

The golden lion’s expression fell, and it tried to quickly dodge. However, a black sword light immediately flashed out, sending it flying tens of thousands of meters away. It then crashed onto the ground, opening up a massive crater. The ground continuously trembled, causing all of the leaves on the surrounding trees to fall.

A long gash appeared on the golden lion’s chest, from which a large amount of golden blood flowed out. A look of pain appeared on the golden lion’s face; this injury was not light at all.

“Roarr!” The thunder beast, which had the most violent personality, furiously roared after seeing that these two Guardian Beasts could not deal with Zhao Fu. Its body gave off immense black lightning, making it seem as if the sky had exploded. It gave off a world-destroying aura as it rushed towards Zhao Fu.

Zhao Fu did not even bother looking behind him; he stretched out a hand behind him towards the thunder beast, and the Celestial Emperor Star gave off a mighty Emperor’s aura as the five pupils in Zhao Fu’s left eye quickly spun.

Clang, clang, clang...

The sound of chains filled the heavens and earth as golden chains descended from the sky, rose up from the ground, and shot out from all directions. They were simply innumerable, and there were at least millions, if not tens of millions.

The thunder beast was greatly startled and tried to avoid the countless golden chains, but there were simply too many of them and its body was too big. It was unable to evade them at all, and it was soon bound by countless golden chains.

Zhao Fu grabbed at the air, causing the golden chains to tighten around the thunder beast.

“Roarr!” The thunder beast felt as if its bones were going to break, and it roared in agony and fury. Even more black lightning appeared around it as it madly struggled.

The massive blue eye coldly stared at Zhao Fu from the side. Its pupils constricted as a massive blue flame appeared around it. The flames continuously changed, eventually forming an enormous cyclops.

“Roarr!” The cyclops gave off a terrifying aura as it tilted its head back and roared, shaking the heavens. The cyclops leapt high into the sky, gripping both hands together as it smashed them towards Zhao Fu as it fell.

At that moment, Zhao Fu looked up, his terrifying eyes locked onto the falling cyclops. A cruel smile appeared on his face as the gray star in the sky gave off boundless ghostly qi. The six gray dots in Zhao Fu’s right eye started to spin.

Suddenly, six massive gray balls appeared around the falling cyclops. These balls were all made of countless traces of ghostly qi, and they gave off incredibly cold auras, seeming very dangerous.

The cyclops was startled to see these six gray balls around it, but after sensing the danger, it immediately tried to dodge. Those six gray balls suddenly exploded, causing a massive shockwave filled with an aura of destruction to blast out.

From the distance, one would see a massive gray orb of light appear in the sky, before an almighty shockwave rippled out. Countless peaks were obliterated, and innumerable trees were ripped up by their roots as many boulders were shattered.

After the explosion subsided, the cyclops had disappeared, and the blue flames had dissipated, leaving behind the blue eyeball covered with wounds.

“How can this person be so powerful? The four of us aren’t a match for him at all. What should we do?” the half-bird monster asked loudly with a grim expression.

They were the four Guardian Beasts of the Spirit Light world, yet they were at such a disadvantage; this was quite terrifying. No wonder the world’s consciousness was determined to kill him; leaving such a person alive would result in tragedy in the future.

“The Spirit Light world is our domain; everything here is linked to us, and we can even use most of the world’s energy. It seems like we’ll have to use that technique. We’ll use the entire Spirit Light world as a formation with us as the heart of the formation to suppress this person,” the golden lion roared. After receiving that sword strike from Zhao Fu, it realized just how powerful Zhao Fu was. If they did not do this, they would not be a match for this person, and if things turned out badly, the entire Spirit Light world could be destroyed by him.

The three other Guardian Beasts did not hesitate and followed the golden lion’s instructions, because they had all just been injured by Zhao Fu as well.

“I, the Guardian Beast Divine Golden Lion, ask all creatures of the Spirit Light world to heed my call.”

“I, the Guardian Beast Dark Thunder Beast, ask all creatures of the Spirit Light world to heed my call.”

“I, the Guardian Beast Holy Eye, ask all creatures of the Spirit Light world to heed my call.”

“I, the Guardian Beast Violet Demon Bird, ask all creatures of the Spirit Light world to heed my call.”

The Dark Thunder Beast struggled free from the countless chains, and the four Guardian Beasts rushed into the sky, giving off terrifying aura flames as they surrounded Zhao Fu.

Zhao Fu could instinctively sense the danger, but just as he was about to do something, a massive colorful ring of light appeared around the four Guardian Beasts, and Zhao Fu was instantly sealed by a powerful energy.

This energy was not very powerful, and Zhao Fu started to struggle. If he had some time, he would be able to break free from it.

However, the four Guardian Beasts evidently would not give him such an opportunity. After the ring of light appeared, a massive formless energy instantly covered the entire world.

Whether they were mountains or lakes, or every single tree and every single blade of grass, they all gave off an aura that gathered together. An incredibly massive magic formation slowly appeared; it was a shocking formation formed using the entire Spirit Light world.

The aura of all creatures madly gathered towards the center of the magic formation, and Zhao Fu instantly felt an even greater force sealing him. This energy was hundreds of times more powerful than the energy from before, making it so that he could not move even a bit.

Seeing that Zhao Fu had been sealed and could not move even a bit, smiles appeared on the faces of the four Guardian Beasts, and they were able to relax.

“Now, should we seal him into the depths of the Spirit Light world or use the formation to kill him?” the golden lion asked the three other Guardian Beasts.

“Of course we kill him; do you really dare to keep him alive? We’ve suppressed him for now, but what if he breaks through the seal? He’s simply too great of a threat,” the Dark Thunder Beast said murderously.

The other two Guardian Beasts nodded; they could not allow Zhao Fu to live.

Boom!!

The four Guardian Beasts made up their minds and decided to kill Zhao Fu. They continued to use the magic formation, causing a massive energy to blast towards Zhao Fu.

Chi!

Zhao Fu coughed up a mouthful of gray-black blood, the clothes on his upper body disintegrating, revealing his upper body and his face.

Seeing Zhao Fu's appearance, the four Guardian Beasts felt quite surprised; they had never thought that he would be so young and handsome. His domineering Emperor's aura was quite enchanting, but this did not change their decision to kill him.

They continued to use the magic formation, and it gave off an immense might as it started to slowly spin. Within the formation, Zhao Fu felt as if he was being grinded against a giant millstone, feeling immense pain. Gray-black blood started to flow out of his upper body.

"Arghhhhh..." Zhao Fu howled in pain, with more and more blood flowing out of his body. Under the pressure of the formation, Zhao Fu's bones started to shift out of position, making him look quite wretched.

However, the four Guardian Beasts showed no mercy and were instead delighted. The Dark Thunder Beast called out, "We're a single step away from killing him; send all of your strength into the formation!"

Boom!

The four Guardian Beasts exploded out with strength, causing the magic formation to spin even faster. Even more power was gathered from all creatures all over the world, before blasting towards Zhao Fu.

“Arghhhhh!!” A scream pierced through the sky as Zhao Fu’s body hung suspended in the air. He felt as if his body and soul were being slowly grinded to dust, and that pain was like a knife stabbing into his soul.

At that moment, something seemed to be broken as the three massive stars in the sky exploded out with sky-toppling auras. Countless rays of light shot out as the weather became chaotic and countless creatures trembled in fear.

Boom!

Three pillars of starlight simultaneously fell onto Zhao Fu’s body. The four Guardian Beasts had never thought that this attack would not be able to kill Zhao Fu. They once again exploded out with terrifying power, desperately trying to use the formation to kill Zhao Fu.

The massive formation spun incredibly quickly to the point that the eye almost could not keep up. An even more ferocious energy gathered like an ocean, blasting towards Zhao Fu.

“Arghhh!” Within the pillars of light, Zhao Fu howled even more painfully, with gray-black blood leaking out of his eyes. At that moment, Zhao Fu’s eyes seemed to split down the middle.

The heavens and earth suddenly fell silent, and all creatures felt as if they had been sealed by something. The four Guardian Beasts were terrified to find that they could no longer use the magic formation. What made them feel even more scared was that a sense of impending death descended.

Boom!!

A sound akin to the world exploding rang out as an incredibly terrifying energy blasted out from Zhao Fu. In just an instant, the space around him collapsed and became incredibly chaotic. The natural laws fell into chaos, and countless creatures were annihilated.

The four Guardian Beasts were caught up in this energy and were twisted, ripped, and suppressed by this energy. Everyone in the Spirit Light world fell into despair, because they felt that the world really was going to be destroyed.
