

The Power 23

Chapter 23 Intentional

Is there such a thing?

Xie Zhiwei was surprised. In this way, did she think too much? In fact, Xiao Xun didn't know what he did to Xiao Changxuan. He simply thought that he should be as good at chess as his grandfather. Seeing that the weather is good today, let him accompany him ?

If this is the case, wouldn't he have offended Xiao Xun for no reason?

I heard that he is a man who will take revenge for every wrongdoing, and he will keep his grudges in mind for many years, and he will never let go of the opportunity.

If there is no opportunity, he will create an opportunity to reciprocate.

The emperor glanced at Xiao Changxuan who was kneeling in the room with distaste, and said angrily, "Show me the game between King Chen and Miss Xie in Linde Hall!"

After the emperor finished speaking, he strode away.

Xiao Changxuan heard the movement, turned his head and glanced outside the door, feeling ashamed.

If his father scolded him severely, he would feel better. The royal father left just like that, which proved that the royal father hated himself to the extreme at this time.

Who the hell?

Xiao Changxuan looked fiercely at the eldest prince, and Xiao Changyuan was pretending to bow his hands to Gao Shoutian, "Teacher, the student has disgraced the teacher today. The student should go back and study hard, and then go to apologize to the emperor!"

"His Royal Highness, it is time to study hard. Riding and archery is of course important. If His Highness wants to become a qualified commander, he must not be ignorant of others, nor self-aware."

Xiao Changxuan endured and endured, until the people at the door were almost gone, then he slowly got up, just as he went out, the little **** beside him hurriedly greeted him, "Your Highness!"

"Get out!" Xiao Changxuan was furious, but he didn't dare to lose his temper in the South Study Room. If he dared, his father would know it within a cup of tea.

Today, he has already annoyed his father, and he can't add fuel to the fire.

Xie Zhiwei glanced back. If Xiao Changxuan dared to take revenge on others at this time, she might look at him again, but Xiao Changxuan endured it. It's no wonder that in his previous life, he had the last laugh.

"looking at what?"

Xiao Xun turned around suddenly, Xie Zhiwei slammed into him, her nose hit his shoulder, just like hitting an iron plate, the pain made her burst into tears.

Xie Zhiwei covered his nose, and looked at Xiao Xun with tearful eyes.

Xiao Xun is very innocent, can he say that he didn't do it on purpose?

"Well, I can't rub it for you, right? Besides, I didn't mean it, I was just curious, what are you looking at? What's so good about Xiao Changxuan?"

"Your Majesty, if you can't afford to lose at chess, then you should stop playing chess with others." Xie Zhiwei held his nose aggrievedly, as if he didn't want to see Xiao Xun for a moment, turned around and walked quickly along a path leave.

She walked fast, it seemed that someone was chasing her behind her, and it fell into Xiao Xun's eyes, was she afraid that she would catch up?

"Yunhu, is this king the kind of person who can't afford to lose?"

Yunhu didn't know how to answer, so he simply bowed his head and remained silent.

"Tell me, what is it that makes a person who is originally delicious suddenly smell worse than shit?"

Yunhu didn't know even more, he secretly glanced at his prince, such a glorious person, like a green bamboo under the moon, is it really okay to say such a thing?

However, the prince is a person who has no taboos, and it seems that nothing should surprise people.

Xie Zhiwei ran for a while, held onto a pine tree, looked back, and was relieved when she saw no one was following. Xiao Changxuan suffered a bad loss today and received a small interest. It was supposed to be a day to celebrate, but getting involved with Xiao Xun is not worth the loss.

Although Xiao Xun was her partner in the previous life, because of this, the more she knew about him, the less she wanted to have too much to do with him. He is too dangerous, if you walk with him, if you are not careful, you will be squeezed into the abyss by him.

He is scheming against people's hearts, he is omnipotent, he is ruthless, and he has no taboos. He is simply a Shura walking in the world.

The real Xiao Xun is far from the beautiful image he gave to the world of "spring tour, apricot blossoms blowing all over his head; someone in Moshang is young and full of flair". It can only be said that the noble ladies in the capital are crazy and blind Terribly.

Xie Zhiwei walked forward slowly, Mu Xiang was also lost by her, but it didn't matter, she was very familiar with the palace, so she decided to go to Chengrui Pavilion first, if she couldn't find anyone, then she had to go to Fengzhi Palace .

Fortunately, as soon as I approached Chengrui Pavilion, I heard the voices of the eldest princess and the second younger sister. Xie Zhiwei hurriedly called out, and the two stood up to greet them together, "Sister Wei, we are going to the South Study Room to find you. There, I am afraid of delaying my father's exams and my brothers, so I plan to go there later."

Xie Zhiwei said, fortunately, she didn't go there, but she also considered that the eldest princess should not be in a hurry to go at this time, and she was also afraid that the emperor would test her!

"Sister Yuanjia, it's getting late. My second sister and I should leave the palace. Wait a few days before I come to play with you again?"

It is indeed getting late, and the eldest princess also wants to go back to see the queen earlier, but she is reluctant to bear Xie Zhiwei, "Next time you enter the palace, let's have a good time, this time I didn't let you play well."

The eldest princess refers to the fact that the queen had something to do with Xie Zhiwei, which delayed her play. And Xie Zhihui saw that Xie Zhiwei had changed her clothes, so she guessed that the eldest sister might have encountered something unhappy, and if that was the case, she also wanted to leave the palace early.

"Okay, next time I enter the palace, I will bring you my scented tea for sister Yuan Jia to try." Xie Zhiwei entered the palace in such a hurry that he came in empty-handed.

"Ok, I will wait for you!"

Nanny Xi rushed over and personally sent the two sisters Xie Zhiwei out of the palace, as well as a pot of orchids that the empress gave, "The empress said, the eldest princess is accompanied by Miss Xie, and her temper is much more relaxed. Go into the palace for a walk and accompany Her Highness the Princess."

"Thank you, Empress, for your kindness. The courtiers must go to the palace more often to accompany the princess."

Nurse Xi handed the flowers to Zi Mo, then turned and left very satisfied.

The two sisters got into the carriage, and the carriage rumbled forward. After leaving the palace, Xie Zhihui looked at the dress on Xie Zhiwei's body, and asked worriedly, "Big sister, did the second princess bully you?"

Xie Zhiwei was surprised and asked, "Why do you say that?"

Xie Zhihui pursed her lips. For her, it was a very embarrassing thing for her to know who the Taoist was behind her, but the other party was her eldest sister, so she still said, "When I played with the eldest princess and the third princess, the second princess Here she is, taking advantage of the third princess not paying attention, she pushed the third princess into the lake."

"Is the third princess all right?"

"The third princess can swim, she didn't suffer any crimes, the imperial doctor has seen it, she drank a bowl of **** tea, she should be fine." Xie Zhihui still looked at Xie Zhiwei worriedly, Xie Zhiwei understood that she thought she was also framed by the second princess, She couldn't help laughing, "I'm fine, I was stained with soup by a court lady."

"The palace is really complicated." Xie Zhihui muttered.

Xiao Xun: Mei Mei, tell me, am I the hero?

Xie Zhiwei: Whether it's the male lead or not, I don't care. If you can get a vote, it's the male lead.
