

The Power 25

Chapter 25 Fame

Xie Zhiwei took Xie Mingxi's hand, and felt his pulse with his fingers. He couldn't help but sigh, the little guy recovered really fast. After the fever subsided, within a night and a day, he recovered a lot.

"Sister, my mother said that I can only go out to play if my sister agrees. Sister, I'm so good today, I've been waiting on the bed for you to come back, promised me to go out to play, and I will go out to play."

Looking at his younger brother who was alive and kicking around with a normal look, Xie Zhiwei was full of gratitude to God. She held him in her arms and stroked his soft body, "Then tell my sister, what do you want to go out to play?"

Xie Mingxi couldn't think of what to play at the moment, so many fun games, swinging, catching ants, fighting crickets... These sisters don't play, right? But he wants to play with his sister, what should he do?

Xie Zhiwei knew what the little guy was thinking when she saw it. She let go of her younger brother, and tapped the tip of his upturned nose, "You are sick, you have to stay in bed and rest, and you can't go outside to blow the air. My sister will play with you in the house. OK?"

Although he couldn't go out, Xie Mingxi glanced out the window at the dark sky, his little face was not disappointed, but very happy, "Sister, it's not fun outside, if my sister plays with me, I'll just stay on the bed."

Xie Zhiwei ordered Zi Mo, "Go and bring me the third "Three Character Classic" from the cabinet in my small study, on the first grid on the third floor."

"Sister, is she going to teach me how to read?" Xie Mingxi was not stupid, his face collapsed when he heard "San Zi Jing", he didn't want to read!

Playing, isn't it delicious?

Yuan was so angry that she wanted to go up and twist Xie Mingxi's ears. Children are debts. If she was still gloating over Xiao's misfortune just now, the retribution will be on her head now.

Xie Mingxi is the eldest grandson of the Xie family. If she doesn't study well and doesn't know how to read, will her father-in-law and husband-in-law blame her for her poor blood in the Yuan family?

Will you regret marrying the Yuan family?

Yuan was furious, "Your elder sister is so busy, she is willing to enlighten you, but you are not willing, you child, what can mother say about you?"

Xie Zhi smiled and glanced at Yuan Shi, she didn't say anything, Yuan Shi felt ashamed of herself, so she quickly shut up and didn't speak.

That's all, the son will leave the headache to the daughter, and she doesn't bother to take care of it anyway.

"Brother Xi doesn't want to study with my sister?" Xie Zhiwei looked very hurt, she pursed her lips, "My sister thought that Brother Xi really wanted to study with her sister, and my sister wanted to teach Brother Xi to read. She is smarter than other people's younger brothers, making others envy her sister."

Can you still do this?

Xie Mingxi was a little depressed at first, but now he was like a fighting cock, high-spirited, "Sister, I want to read and read, sister, teach me!"

He really wants everyone in the capital to envy his sister for having a very powerful brother!

Xie Zhiwei felt warm in her heart. She rubbed her younger brother's head lovingly, "When Brother Xi recovers from his illness, my sister will give you a small bow, and then my sister will teach you how to ride and shoot."

"Really?" Xie Mingxi's eyes lit up, and he couldn't wait to get out of bed. If he jumped a few times, would my sister think that his illness was cured?

Seeing the affectionate appearance of the two siblings, Yuan Shi couldn't help feeling emotional. She never dreamed that this day would come, so she couldn't help but wipe the corners of her eyes with a handkerchief, and carefully exited the room, not wanting to disturb the two of them.

"Ma'am, it's three o'clock in the united states, time to set the meal? Is the eldest girl's meal served at the wife's side?" Tian Nanny asked.

This question, if it was before, Mother Tian would not even ask, but she would only ask this when she sees that the eldest girl is getting close to this place recently.

Yuan Shi was very hesitant. She always felt that she should be nice to the eldest girl. After all, when the Cui family made this kind of marriage before, the condition was that she would marry and treat the eldest girl as if she was her own; No kiss, that's the right thing to do, after all, she's just the eldest girl's stepmother.

Now she doesn't know how the big girl is doing it.

Xie Zhiwei came out after a cup of tea, it was getting late, and Zi Mo also came to ask about the arrangement of the meal, she simply said, "Put the meal here with the wife, mother, I'm hungry, I'm waiting for my mother Eat here before going back."

Naturally, Mrs. Yuan couldn't wait to ask for it, so she hurriedly said, "What dishes are prepared in the kitchen today? Is there anything the big girl likes to eat? If not, let the small kitchen make it."

Yuan's small kitchen was left by Cui back then, and it has been useless all these years. If the eldest girl is willing to eat at her side, she can use it in the future.

Fuyun Courtyard is full of joy and harmony, but Chunhui Hall is full of gloomy clouds and mist. After the mother-in-law who went to Xue's family came back, she was telling Feng about Xue Wanqing's situation.

"The second wife sent the girl back last night when Mrs. Xue told the premise that the girl should be restrained. The girl will kneel in the ancestral hall for three days and copy "The Analects of Women" a

hundred times. She said that the old lady is for the girl's good. Mrs. Xue didn't take it too seriously, she just sent the girl to the ancestral hall."

The mother-in-law who sent Xue Wanqing back was originally Feng's dowry to her daughter, surnamed Meng, and now serves Xue Wanqing, wiping away tears, "Who would have thought that after noon today, the palace would suddenly send someone to inquire about this matter, I also went to the Xue family ancestral hall and said that the Xue family was too tolerant of the girl, so it's no wonder the girl did such things."

Seeing that Feng was so angry that she almost fainted, Mother Meng didn't dare to say what the mother in the palace said, but the mother actually said that the girl did such vicious things as framing her sisters and repaying her kindness with revenge.

A girl's family is crowned with the word "vicious", what good reputation can it have?

Seeing that Feng Shi was very angry, Mammy Yu was afraid that she would do something wrong, so she winked at Nanny Meng, told her to stop talking, and persuaded Feng Shi, "Young lady has also been in the palace, for a while. I won't be summoned again for a moment, and as time goes by, the palace won't remember the eldest girl. In the future, the eldest girl will not be in the hands of the old lady, and we are not in a hurry for this moment."

So what if the big girl gets a pot of orchids? It can only mean that the queen was quite satisfied with the eldest girl before, but who can say clearly what will happen in the future?

"It's lucky that Mrs. Cui raised them, that's all!" The old lady was furious, and she put on her eighteen clothes again, and Mrs. Feng twisted them one by one. water comes.

Her sister Qing had a hard life, and she lost her mother when she was six years old. She grew up holding it in her hands, and Feng's heart would bleed just thinking of sister Qing being tortured in the Xue family. .

"When you came over, sister Qing was ready for dinner? What did you eat? Did you use much?"

Xue Wanqing is gone, and Feng's energy has been drained.

Nanny Meng didn't dare to say anything, she knelt on the ground, lowered her head, trembling all over.
