

The Power 63

Chapter 63 Good Show

The old lady wanted to go with all her heart. From her point of view, the Xue family cannot do without the Xie family, even if the troubles were turned upside down because of Tao Niang's incident, if the Xue family's down-and-out character can curry favor with the Xie family, then their ancestors will be smoked.

Although I don't know what kind of **** luck the Xue family had this time to inherit the title for another generation, but a noble with no real power still has the word "poor" written on his head and face.

"Did your grandmother ask you to post me?" asked the old lady.

Xue Wanqing smiled and said, "The old lady is kind to Qing'er in raising her. With such a happy event in the family, grandparents, grandparents and father all hope that the old lady can take the wife and sisters to the house to have fun for a day, as long as you don't dislike it. "

If you don't go, you will be disgusted.

The old lady raised her eyebrows and glanced at Yuan Shi, "Boss daughter-in-law, when that day comes, I will take your sisters-in-law and sisters to Ningyuan uncle's mansion for a drink. The family matters depend on you, and you have to be careful in everything." Come on, don't let people see the joke."

Xie Zhihui was stunned. Is the old lady confused? It is such an honor for the elder sister to be canonized as the head of the county. There is a banquet at home to entertain relatives and friends, and the old lady went to Xue's house on that day. What is the rule?

Xie Zhihui was about to speak, but Xiao grabbed her and forbade her to say more.

Qian Shi was also surprised, but seeing Xiao Shi slightly pursed his lips, looking happy, she knew that Xiao Shi was just watching the fun. As a concubine daughter-in-law, what right to speak? Thinking of her daughter still kneeling in the ancestral hall, Qian raised her hand to support her temples, but did not speak.

Ms. Yuan is in a dilemma. If the old lady, Mrs. Xiao and others are not at home in the future, what will people outside say?

Xie Zhiwei was not afraid, and said with a smile, "Congratulations to my eldest cousin. I really didn't expect that at the end of the day, Mr. Xue would still receive such a mighty grace from the emperor. I think the family must be very happy. If the aunt is still alive, this son will be so happy." The title of madam can't be assigned to someone else, the old lady really should go to congratulate her, so that Mrs. Xue can be filial to the old lady, and my aunt will be gratified when she sees it in the sky."

These words are really high-sounding, but unfortunately, none of the people here are fools, and they can all hear the sarcasm in it.

Even Xiao felt ashamed.

How did my aunt die that year? To the outside world, although it was said that the maid in the aunt's room accidentally lit the veil, and a fire burned the aunt who was already terminally ill to death. But in fact, everyone knows that Mr. Xue is a flirtatious temperament. My aunt is said to be the eldest daughter of the Xie family, but that temperament, where there is no demeanor of a famous lady, is jealous with several concubines all day long. Shengsheng was so angry that he had no way out.

This is a great feud, and the old lady actually wants to go to Xue's house to congratulate her.

Because of the housekeeper, Xiao complained quite a lot to the old lady, and couldn't get used to her words and deeds, so she felt that the old lady had really done a thankless thing by raising Xue Wanqing in Xie's house. thing.

The old lady snorted coldly, and was very displeased with Xie Zhiwei, which is well known.

But now, Xie Zhiwei is the magistrate of the county personally appointed by the emperor, and he is the second rank. In terms of this rank, it is much higher than the old lady, the third rank wife.

The old lady ignored Xie Zhiwei and patted her granddaughter on the back, "Don't worry, when that day comes, grandma will take your aunt and sisters to bother your grandparents."

The old lady made up her mind to make the long house lose face, and Xie Zhiwei knew this, so she didn't mind.

"Grandmother, there is still a mess at home, and I'm still waiting for me to go back to take care of it, so I won't stay and eat with the old lady." Xue Wanqing wanted to get up.

The old lady was going to stay, but when she heard this, she was surprised and said, "Why are you taking care of it? Could it be that you are taking care of the middle school in Ningyuanbo's mansion?"

"Yes!" Xue Wanqing raised her chin proudly, and glanced at Xie Zhiwei proudly, "I am the eldest daughter of the family, just like the eldest cousin. The eldest wife has made many mistakes in cooking over the years. When I grow up, I say it's time to take care of the family's business."

"This is a good thing!" The old lady insisted on taking Xue Wanqing over to raise her by herself, because Xue Wanqing was the eldest daughter of a widow and had no one to raise her. When she married into her husband's family in the future, she would not be able to afford middle-income children, nor would she know how to raise her children. However, some fastidious people talk about relatives, and don't consider bereavement at all.

The old lady was very happy, and she didn't keep her granddaughter anymore, so she just told her that everything in the house should follow the old rules, don't worry about everything, and ask the women in charge how to control them if they are disobedient, saying for a while.

At the beginning, Xue Wanqing listened patiently, but then she became impatient, and looked at Xie Zhiwei, "Big cousin, I'm going back, please see me off!"

Without waiting for Xie Zhiwei to speak, the old lady said, "Miss Wei, help me see off your cousin!"

Xue Wanqing stood up, curled her lips, and smiled provocatively at Xie Zhiwei.

Xie Zhihui stood up abruptly, "Let me see off my cousin!"

"No need!" Xue Wanqing smiled, "I'd better let my eldest cousin deliver it, cousin please sit down."

Xie Zhi smiled, sat upright in his seat, and didn't get up, "Cousin, you are rude when you see me, and I don't care about this sin of rudeness with you for the sake of the old lady, you actually let me I'll see you off, cousin, if word of this spreads, I really don't know whether it's the Xie family's reputation or the Xue family's reputation that is bad."

"Big cousin, that's what's wrong with you. You like to go online in everything. You and I grew up together as sisters. Now I'm here as a guest. When I leave, you, as the host, shouldn't you see me off?" ?"

"Zi Mo, help me see Miss Xue off!"

My girl is the head of the second-rank county, and the cousin girl really dares to ask someone to give it away. This face is really bigger than a millstone.

Zi Mo responded, and stretched out her hand to ask Xue Wanqing, "Biao girl, please!"

The old lady's face was livid with anger, and the eighteen sticks in her hand were almost crushed by her, "Miss Wei, are you going to listen to me?"

"If the old lady is fair and selfless, of course I want to listen." Xie Zhiwei raised his hand to support the red hairpin on his head, "Old lady, you should be familiar with the red hairpin on my head, right? Thirteen years ago, I When my mother was doing the ceremony, half of the noble ladies in the capital had seen it, but not long ago, this red hairpin appeared on Miss Xue's head, and she said it was given by Miss Xue."

The old lady's complexion changed drastically. She didn't expect that the little hoof dared to tear her face and questioned her, and immediately became angry, "Is this your attitude when talking to elders?"

Xie Zhiwei ignored her words, and sneered, "Since Miss Xue is here today, let me tell you, how did this Zhu Chai get on the head of Second Miss Xue?"

This is really a good show!
