

## The Power 76

### Chapter 76 Divorce Wife

The queen only thought that the little girl was extremely cute, and she was so bullied by her daughter that she dared not even speak.

She has a round face, a little baby fat, a pair of black glass-like eyes, the tails of the peach-blossom eyes are slightly upturned, the eyelashes like butterfly wings are flickering, the lips are like vermilion, and the facial features are as delicate as brush strokes. At a young age, she has already shown the beauty of a disaster, she looks like a beauty at first glance, and she doesn't know how to have an outstanding appearance in the future.

It really makes people like it more and more.

"Empress Mother, I want to go to Sister Wei's house to congratulate Sister Wei."

The queen thought it was funny, "Your little sister's family may not have many guests today. She is already busy with entertainment. If you go, she will spend a lot of time to entertain you. Aren't you going to make trouble?"

"That's not necessarily the case. Erchen called the third sister up. Let's go together. The third sister and I are playing on our own. Besides, there will definitely be girls from other families going today. Erchen will not be short of playmates. He wants Weimei." Accompany?"

Xie Zhiwei Fushen said from the side, "If sister Yuanjia goes, it will add honor to my daughter-in-law's face, and my daughter-in-law will be grateful!"

This is the truth.

The queen didn't have to let Yuan Jia go, and waved her hand, "You go with Linghua, be careful in everything, don't make trouble for your younger sister. Take the reward from the palace along with you, and the little girl doesn't have to worry about it alone." It's time to enter the palace and thank you."

Xie Zhiwei had no choice but to kneel down and kowtow again. After she finished saluting, Yuan Jia pulled her up, "Sister Wei, you go out of the palace and go home first. Linghua and I will wash up and go over."

"Okay, Sister Yuanjia, I'll wait for you at home!"

This time, Yuan Jia didn't bid farewell to Xie Zhiwei. After saying goodbye to Xie Zhiwei, she first arranged for someone to notify Linghua and ask her if she was going or not. She went back to the hall to freshen up.

Early in the morning, Xie Zhiwei got up early and went to the palace to thank her.

Mrs. Yuan went to Chunhui Hall to salute the old lady. Hearing that the old lady was sick and unable to get out of bed, she was left hanging in the yard. She was a little puzzled, and asked, "Didn't the old lady say that she was going to Uncle Ningyuan's mansion today?" ? I'm sick, and I don't invite a doctor, so I don't plan to go to Uncle Ningyuan's mansion?"

Yuan's voice was not lowered. Inside, the old lady was drinking a bowl of milk. He heard it so clearly that he overturned the bowl in anger and said angrily, "Are you mocking my old lady? Who in the world The daughter-in-law of the Cui family has no eyesight? How about the Cui family? Why doesn't she marry such a daughter-in-law herself?"

Yuan Shi could hear the words inside clearly even standing in the yard, she was not angry or annoyed, she blessed herself in the yard and said in a loud voice, "Daughter-in-law pays respects to the old lady, since the old lady is not in good health, please feel at ease to recuperate, the daughter-in-law is done with today, and then come to take care of the old lady."

The old lady is not really sick, she is mad at the old man.

Since that day, after the old man let go of his cruel words, he never came to the backyard again. There are already a lot of children and grandchildren, and the old lady doesn't care if the old man doesn't come to her yard. But today, she really planned to go to Uncle Ningyuan's mansion to shame Xie Zhiwei. Even though she knew that it was inappropriate, the old lady was holding her breath.

The old lady asked Jin Momo to go to the front yard to invite the old man to come. When she came, the old lady was shocked. The old man just stared at her coldly for half a night. The expression in his eyes changed, and the old lady could still see Yes, the old man was so disappointed in her that he almost pointed at her face and said, how could he marry her like this.

In the end, the old man said, "If you want to go, I won't stop you. Don't go in the name of my Xie family. If you want to go, go in the name of Uncle Yongchang's mansion!"

Feng Shi was anxious when he heard this, and asked, "What does the old man mean by this? Is the old man going to divorce his concubine?"

"Even though my Xie family's fortune is not good, and the lintel is not as good as before, it is not so poor that I want to put gold on the face of my female enemy. You don't care about my Xie family's face in everything, and I never like to force others. That's it."

"Master, Sister Qing is still in the Xue family, she is a bit of blood left by our daughter."

Xie Tiao glanced at Feng Shi with the eyes of an idiot, then turned his face away, and never looked at her again, "Tao Niang is buried in the ancestral grave of the Xue family, and her tablet is also enshrined in the ancestral hall of the Xue family. Do you love her? I have no objection, but don't forget, her surname is Xue, not Xie. In the future, when she leaves the cabinet, it will be Uncle Ningyuan's residence, not my Xie family, who will return in three days."

Xie Tiao said so much, how dare Feng Shi go to Xue's house? She also didn't want to make Xie Zhiwei look bad by attending today's banquet, so naturally she had no choice but to pretend to be sick.

Mr. Feng asked Nanny Jin to bring a message back to Uncle Yongchang's mansion, saying that if the children's family had a little happy event, the house itself was lively and lively. Uncle Yongchang's mansion didn't need to arrange special people to celebrate, so as not to damage the children's blessings.

She simply went to bed by herself. She was sick and had a message. The doctor said she wanted to rest.

Xiao Shi was also sick. When Yuan Shi found out, she just snorted coldly, and ordered a few capable wives and mothers-in-law to let Haosheng receive the guests, and went about her business, as if the two were dead.

As for the banquet, everything has been properly arranged. With the play in Siyi Pavilion, she has protected the Dahua Hall from being flooded, and thinking that her daughter is capable, she is not worried that she will not be able to handle it.

Xie Zhihui got up early and dressed up, wearing a pink satin embroidered chrysanthemum pattern double-breasted skirt, with an embroidered makeup flower skirt, her black hair like a crow feather was combed into a double bun, decorated with red coral beads, peach cheek cherry Lips, the whole face is clear and boned, bright and moving.

"Hurry up, today is a good day for big sister, I have to go to the front quickly, and help big sister treat guests." Xie Zhihui helped the bead flower on her head and asked, "Where is the wife? Have you already gone to help the big sister?" Auntie is busy?"

The big maid, Mingyue, was stunned for a moment, and said somewhat uncomfortably, "Cai's wife's mother came over and said that the wife's health is not good today, so the girl doesn't have to go to pay her respects."

Xie Zhihui didn't know that Xiao Shi was afraid that she would go, and when she saw the clues, she talked to Xiao Shi a lot of reasoning, righteous and stern words, just like the master's training students, Xiao Shi's brain hurts after hearing it, and she can't wait to Put this debt collector back in your stomach.

When Xie Zhihui heard that her mother was ill, she hurriedly said, "I'll go to visit my mother first. If it's not possible, you can tell my elder sister that I will wait in mother's room. I will go to help after my mother falls asleep. That's right. , you ask, have you invited a doctor? What did the doctor say?"

After Xie Zhihui finished speaking, without waiting for an answer, she lifted her skirt and walked out, met Madam Tang who was rushing over, and stopped Xie Zhihui with a salute, "Second girl, there are many guests here, and the eldest girl hasn't come back yet. Why hasn't the girl gone to the front to entertain guests?"

"Mother is sick? I want to visit mother first, and let the third sister go to work first."
