Chapter 106: The Number One Brainless Fan in the Star Chasing World

Su Cha slightly tilted her head to the side. Her small action gave off an unfathomable aura that made others involuntarily take a step back.

Su Cha lifted the sides of her lips as she rubbed her neck, “I’m too lazy to argue about this nonsense with you. If you suspect me, why not wait for the release of the college entrance examination. If you are so confident that I cheated, let’s make a bet?”

Hearing Su Cha’s words, Yu Chuai asked curiously, “What do we bet on?”

“If my college entrance results are the highest in this cohort, wouldn’t it resolve your suspicion? If I do not place first, I will kneel to you. But, if I place first in this cohort, you will kneel to me!”

As the last few words left her mouth, Su Cha’s voice was as cold as ice, with no traces of mercy.

Yu Chuai shuddered in fear.

To... to kneel?

It’s just a bet, why does it have to be this serious?

But, Yu Chuai did not believe her. If Su Cha wanted to attain a similar score, that was slightly more believable. But, to place first in the cohort?

How is that possible!

Is Min Chen, the first in school, dead?!

At that moment, Yu Chuai was filled with confidence, “Sure! Let’s make a bet! Su Cha, you better remember your own words! A falsified grade is ultimately just a falsified grade. I will watch you struggle!”

After she said that, Yu Chuai gleefully walked away. It was as if she had struck a great deal.

Initially, Le Anqi was confident about Su Cha winning the bet. After some consideration, she worriedly asked, “Su Cha, it would be fine if you had agreed to attain a similar score. But, to place first... isn’t that giving her the winning ticket?”

Yu Chuai had agreed to the bet as she did not believe that it would be possible for Su Cha to place first.

Su Chua slightly smiled as she turned her head, “Do you not believe that I can come first?”

Le Anqi: “...”

She looked at the speechless Cai Ziya. Honestly speaking, both of them did not believe it.

Min Chen was like a vast mountain that rested on the minds of all the students. Her place as first in the cohort had not been shaken. Every single test she took had a score of more than 700 marks. Be it a small quiz or a significant examination, she had always placed first in the cohort and was considered an absolute genius.

Despite being recommended for admissions in universities in the Imperial City, Min Chen insisted on taking the college entrance examinations to sharpen her academic skills.

From now on, it was challenging to make an improvement. No one had dared to say that they could surpass Min Chen but Su Cha...

Su Cha shook her head and smiled. She did not intend to boast or brag, nor was she determined to surpass Min Chen. To Su Cha, she did not make anyone her target, her only goal is to outdo herself.

As she knew that no one would believe her words, Su Cha decided not to speak up.

“Young master, Miss Su Cha attained a score of 606 in her mock examinations. She is ranked fifth in her cohort. As compared to her past examination score, she made an improvement of 200 marks.”

In the office, Bai Kun reported the news about Su Cha. He was a little suspicious of Su Cha...

The handsome man who had an indifferent and cold look slightly smiled when he heard the news, "Cha Cha is amazing."

Bai Kun: "..."

Young master, shouldn't you worry if her marks are real?!

Perhaps, Bo Muyi noticed Bai Kun's expression. He looked up with his hazy eyes, "Do you have any misunderstandings about my Cha Cha?"

Bai Kun instantly denied in fear, "No, no, no. Miss Su Cha had a huge improvement, she will come in first during the next examinations!"

Although Bai Kun's words were ironic, Bo Muyi unexpectedly nodded in agreement, "Yes, she will definitely be first!"

Bai Kun: "..."

Young master, are you the number one brainless fan in this star chasing world?

Chapter 107: Mocking and Gossiping

Soon Su Cha's bet with Yu Chuai was all over the campus.

Someone had intentionally spread it around. Since it could not be Su Cha, it must be the other side.

The students were shocked by the words at first, but soon they found it ridiculous.

If it were a competition between Su Cha and Yu Chuai, they thought that Su Cha could beat her in the national college entrance exam as she had done it before.

But to be number one in the whole school meant that Su Cha had to surpass Min Chen.

What a ridiculous idea!

Min Chen was like a goddess to the students. A person like her could only be seen in novels or TV shows. No one had ever thought to surpass her.

How dare Su Cha?

Su Cha did not plan on setting Min Chen as an enemy when she said her target was to become number one in the school.

But after Yu Chuai's embellishments, Su Cha appeared to be someone who objected to Min Chen.

The students were on her side when she fought Yang Nuanru, but now they disliked Su Cha for she was the one who picked up a fight for no reason.

They started gossiping like mad. Most of them disagreed with Su Cha, and some even mocked her.

Ha! Isn't she crazy wanting to surpass Min Chen? She can never, even if Einstein lent his brain to her!

Min Chen has never been under 700 before. The girl got a 600 with unspeakable methods and now she has become too proud!

I'll wait for Su Cha to kneel before Yu Chuai!

Why should she kneel before Yu Chuai? She has to kneel before Min Chen, which is the only thing she should do!

Min Chen is our goddess. Who the hell is Su Cha? She has just joined a lousy show and now she forgets to be humble! She has already picked her path. Why the hell compete with our Min Chen? Can she ever surpass Min Chen?

I somehow find her inspiring, to get a 600. But it is a daydream for her to surpass Min Chen...

...

Cai Ziya knew most of the gossip.

She felt sorry for Su Cha and wanted to defend her, but she was at a loss.

Su Cha is not what they think she is. She just made a bet with Yu Chuai.

She never wanted to fight against Min Chen.

Min Chen has always been the perfect goddess and respected by everyone. Su Cha's challenge to her becomes an insult in their eyes.

And now everyone dislikes Su Cha.

Besides, what will Min Chen think after she hears about it?

She is always high and cold, but seems to be a nice person. Maybe she will leave Su Cha alone?

Cai Ziya thought anxiously. Le Anqi also got wind of the gossip and could not concentrate in class. The teacher warned her several times.

Le Anqi dare not tell Su Cha. Those words were too harsh for her. She feared that Su Cha might be enraged and start to beat them.

Su Cha also noticed it. Even if she did not know the messages, she could tell from the strange looks of her classmates. Most of them ridiculed her. In the third class, she asked in a low voice, "Did the word spread out?"

Chapter 108: All I Want Is To Be Number One

Le Anqi sat up and glanced at the teacher, then she whispered, "How do you know?"

Su Cha was calm, "I guessed. And the words are terrible."

Su Cha did not know Min Chen, but she knew enough that Min Chen was popular among students.

Su Cha claimed to become number one in school, which could irritate Min Chen's followers. Even if she did not set Min Chen as her enemy, nobody would believe her.

Le Anqi's eyes popped with wonder, "How can you know?"

Su Cha did not check her phone, so she probably did not know the gossip in chat groups. Le Anqi respected Su Cha for her guess.

But she also asked out of care, "Min Chen's followers might not feel comfortable with your goal to become number one. They think you are daydreaming and picking fights with Min Chen. Are you?"

She was uncertain if Su Cha was aiming at Min Chen.

"Of course not. Don't overthink."

Su Cha's calm answer relieved Le Anqi. But she was startled by her next words.

"I'm aiming at all of you if I have to 'aim at' someone. To become number one is to win over all of you. I don't care who used to be number one. It doesn't matter if it was Min Chen or someone else. All I want is to be number one. Do you get it?"

She whispered and chuckled at last, which showed her ease and pride.

Le Anqi got it.

In other words, she meant: I'm not aiming at you, I'm aiming at everyone present. You are all good-for-nothings!

How arrogant she is!!

Even Le Anqi wanted to roar. Has she ever thought about the students' feelings?

Is it easy to become number one?

But Su Cha's peaceful look showed more than determination and confidence. She was sure of it.

She was certain that she was going to be number one.

Le Anqi was speechless. She dare not tell Su Cha that it was impossible, or to tell Su Cha's words to others.

She is too aggressive.

Le Anqi suddenly got the feeling that Su Cha had never been one of them.

She didn't behave like this before. Why did she change?

Cling cling.

The bell chimed and woke Le Anqi up from a trance.

Su Cha had packed her textbooks and was prepared to go back home.

Le Anqi could not help complaining that Su Cha had claimed to become number one, but she always left early and took breaks every time, and never studied for a long time. How could she get a 600 in this way?

Now that she has set another goal to become number one in the whole school. Le Anqi felt more anxious.

If Su Cha failed, she would be mocked by everyone in the school. After she entered the entertainment circle, it would certainly become her dirt.

But she did not know how to persuade Su Cha as Su Cha never listened to her.

After Su Cha left the classroom, Cai Ziya walked to Le Anqi and asked anxiously, “What did Su Cha say to you? I could see you were in a trance at the end of the class.”

Le Anqi looked at Cai Ziya and thought for a while. She then told her the main idea, “We are all good-for-nothings!”

Cai Ziya fell silent.

Su Cha has become too conceited and arrogant!

Chapter 109: I Won't Fight Unprepared

On her way back home, Su Cha experienced the change brought by the campus gossip.

Many looked at Su Cha with mockery instead of admiration.

But Su Cha did not mind it at all. She walked straight from the classroom to the gate. The students might be talking about her, but they still cleared out a path for her when she came close.

The scene made Su Cha extraordinary among all the students.

Many students did not speak until she was gone. “Fxxk. How pretentious she is!”

“She is...I almost believed that she is gonna be number one in our school.”

...

A young and pretty girl was watching her in front of Class Two in a building afar. She was a little distant.

She frowned slightly, "Is that Su Cha?"

Her voice was light like that of a southern sweet girl. But she did not sound coquettish at all. She just spoke leisurely.

"Yes."

Yu Chuai ingratiated herself to Min Chen. The pretty girl seemed to be a little unhappy about her approach and avoided her silently.

Yu Chuai was a little embarrassed. She knew that Min Chen disliked people approaching her, so she just smiled carelessly, "That is Su Cha, who doesn't know better and is attempting to surpass you in the exam. She got a 600 through cheating, maybe she wants to cheat in the national college entrance exam too."

Min Chen did not speak.

She still frowned and watched Su Cha quietly as the latter left. After a long while, she said gently, "She won't. Nobody can surpass me. They can't."

She seemed to be talking to herself. But Yu Chuai did not get it and just nodded like a henchman, "Yes, Min Chen. Of course, she can't. Who does she think she is!"

Min Chen did not speak again. Yu Chuai said nothing and just stood there with her.

After having supper outside, Su Cha returned home.

She did not care about the things that happened in school. But to become number one meant that she had to work hard. She had a clear mind and could grasp the knowledge quickly, so she expected to improve greatly again this week. But without a test result, Su Cha could not be sure.

Then she began to download exam papers from the website. She answered them online and had the system notify her.

She could not improve her grades by simply answering exam questions. She had to understand and have a good command of the knowledge.

Even if the outline was changed, she could still cope with the exam since knowledge and equations would not change.

According to Su Cha's current grades, it was not difficult for her to be admitted by Imperial Capital University.

To surpass Min Chen and become number one in the school, Su Cha had to get a grade higher than 710 in the national college entrance exam.

To get 710 in three weeks.

It was already demanding for a person who was at 400 to reach 600. No one would believe that Su Cha could rise to 700. They would only consider her a lunatic.

Su Cha exhaled gently. She was capable now. Why shouldn't she give it a try?

She just had to devote more effort and time to study. Luckily she could still be energetic with fewer hours of sleep. It was very advantageous to her.

If she did not use it, she would waste her second chance of living.

With that thought, Su Cha went on exercising Heaven and Earth Origin Qi and then dived into the vast sea of knowledge.

Chapter 110: Notification Of Semi-Final

It was late May.

It became hotter these days, which could easily drive people crazy.

The air-conditioning inside the classrooms could only calm the students for a short time until they went out.

Su Cha started her second embroidery. It was a more complicated pattern of a rose and would take longer to finish.

Bo Muyi gave her an around-ten-minute call every day.

He and Su Cha both had their errands to run. They could not afford more time. Bo Muyi was satisfied with hearing Su Cha gently tell him about the interesting things she had done.

But he realized that his satisfaction would not last for long. He would become more and more greedy. Learning about what Su Cha had done was not enough.

He wanted to know everything that Su Cha had done at every second.

Moreover, he needed Su Cha to be at his side.

If he was not satisfied, he would become very violent and disturbed.

Their phone-time showed it most clearly. It started with eight minutes and added ten seconds each day. Up till now, it had become over nine minutes.

Were it not for Su Cha asking him to behave and restricting him, he would probably have surrounded her with informants.

Although he could not monitor Su Cha, Bo Muyi never stopped sending people to secretly protect her.

In modern society, even Bo Muyi would fear that accidents might happen.

Although he unconsciously felt that Su Cha might not be afraid of accidents.

Cicadas kept singing in summer. Su Cha bit her pen and looked out of the window. The scenery might be boring for many people as they were used to it.

But Su Cha cherished the moment and enjoyed the boring scenery.

Ping ping...

Le Anqi tapped on the desk softly to give Su Cha an alert, “You said you wanted to become number one in the school, but you don’t work hard. What are you looking at? Are there any handsome guys?”

Maybe only Le Anqi and Cai Ziya would believe in Su Cha among all the students. They did not believe that Su Cha could make it, but they just trusted her.

Su Cha tilted her head and smiled vigorously, which was rare. The sunlight came in through the window. Le Anqi saw that Su Cha’s eyes were also glittering.

Le Anqi instantly remembered an old expression, picturesque features.

She looked like a fairy from the drawings.

“I am reviewing.”

Her words were less vivid than her smile. Le Anqi became sober and urged her, “I don’t see you reviewing. You are in a trance. Come on, let’s review. Beauty is not going to work for me.”

Su Cha nodded but did not tell her that she already knew this chapter well.

Her phone vibrated. Su Cha got a message.

It was sent by the production crew of Dreams In Progress.
