Chapter 1: Luna's Ascension

Raven looks tranquil like the moonlight, but she is not as calm as she appears to be. Raven felt nervous and restless as she thought of the life that awaits her. She stares outside her window, watching as the bright moon slowly appears out of the clouds, waiting for it to

She has been waiting for this night for a long time. She has been waiting for the full moon to come so she could finally ascend as the Luna of the Moonvalley Pack. Raven ran her fingers through her wavy hair, her eyes gleaming with hope as different

Once she becomes the Luna, the pack members would finally hate her no more. She would finally earn their respect and she would no longer have to put up with their insults.

As soon as she becomes the Luna, all the ugly and fake rumors about her would cease to exist. As their Luna who would be stupid to dare to defy her and go against her?

After she ascends to her Luna title, Raven will no longer have to be scared of anyone. She will no longer have to tolerate their insensitive remarks anymore.

She will become the most powerful woman to the pack, the person that is considered equal

Even Celia, the beta's daughter who is loved by the whole pack would be nothing against her. Raven could always use her power to command Celia's wolf to submit to her for a beta will always be second to their Alpha and Luna.

She will only have to speak one word and the whole Moonvalley Pack would bow down at her command. With her newfound power and new position, she would no longer be the Raven that she used to be before.

She would no longer be the weak and average werewolf who stole everything from her

bestfriend. She would be Luna Raven of the Moonvalley Pack, Alpha Lorcan's one and only

Celia will no longer have any claims on her mate anymore. It doesn't matter if Lorcan loves Celia and that Celia loves him back. In the end, it was Raven and Lorcan who turned out to be mates. Celia had no right to become the Luna and steal her mate from her even if the whole pack

Lorcan will forever be stuck by Raven's side. He can no longer have the chance to choose Celia as his mate and turn her into his Luna. Raven turns around in surprise when she heard someone gasps behind her. "You look so

After Lorcan marks Raven and accept her as his Luna, Lorcan will no longer be able to

Raven smiles shyly at the Luna upon seeing her reaction. Luna Savina looked like she was staring at her daughter when she was her mate's mother instead. Luna Savina walks towards Raven and tucks her hair behind her left ear. She smiles at her,

"You are indeed a Luna of this pack. It was said that only a Luna can look good in that

Raven lowers her head to admire the dress. The dress is surely pretty and it does look good on her. However, she couldn't help but wonder how it would look on Celia. Celia is way prettier than Raven. If this dress looks good on her, then how much more on

"This is a special dress, Raven. It was worn by all the previous Lunas of this pack before

It was said that this dress was made from a strand of the moon and a spider's silk. It has the blessing of the moon goddess's power herself which is why only real Lunas can look good on them.

There is no one else who can look good on this dress other than you, Raven." Raven looked

Luna Savina stares outside the window after making small arrangements on her dress.

"Look, the full moon is about to start. We should go out now so that the ceremony can start

and Lorcan can mark you right on time once the moon shows its light." Raven gulped in fear when she heard Luna Savina's words. Suddenly, her palms turned sweaty as she grows anxious about facing the whole crowd waiting for her outside.

Luna Savina notices this so she lifts up her chin to see her eye to eye. "Raven, everything is

going to be fine. Everyone is going to be there and Alpha Axel and I would be there to

nothing can go wrong to her as long as Luna Savina and Alpha Axel are there to support and protect her. "Thank you... Thank you for everything," Raven mumbled. If Luna Savina and Alpha Axel

As soon as he has finished, the moon acknowledges his words and everyone including me

All the loyalty and respect that we felt for Alpha Axel were now transferred to Lorcan.

That is how powerful the Alpha command is. I wonder how powerful the Luna's command will be.

Alpha Axel arrives and walks by his mate's side. He holds Luna Savina by her shoulders and gave Raven a small smile before pulling his mate away from her. Raven watched as Luna Savina leaves before mustering her courage and walking up the stage. Raven immediately felt all their eyes on her as she walks up the stage adding more to her anxiety. As soon as the crowd saw her, whispers grew among the crowd obviously talking about her. "Celia deserves to be the Luna." "Doesn't she have any shame? If I was her I wouldn't be so shameless to walk up that stage and accept the Luna title after everything that happened." "What a traitor. Celia used to look after her and she treated her like her own sister, but now she stole her boyfriend and the Luna title from her." Raven heightened her hearing sense catching some of their opinions about her. She immediately regretted doing that when she heard that they had nothing good to say to her Knowing the general perspective of the pack about her, Raven shouldn't bother listening to their comments anyway. Raven stops when someone reached out a hand to her. She followed where the hand came from and stopped when her eyes landed on Lorcan.

Lorcan is about to mark her tonight and accept her as his Luna, yet he still only had Celia in his heart. Raven fought back the tears that threatened to pour out of her eyes. It wasn't her fault that

All of the pack members lowered their heads to the ground to hail their new Alpha. "Long live Alpha Lorcan!" they all shouted in unison. I watched how Lorcan faced the crowd with their heads on the ground. "Stand up," he commanded with his Alpha voice and everyone stood up simultaneously at
