

Chapter 12: Better than ever

Eryian's POV

Fear eased its way into my bones because they couldn't stop shaking. My best friend was in attack mode. Serenity began to stalk towards me with a predatory gaze.

This bitch is serious? did the only thing I could think of, which consisted of me throwing the only object I had at her. Did I mention that it was a stuffed animal? It hit her in the face with a 'squeak'. She paused her advances on me and looked at the bear and then back at me. She blinked a few times and said "is there any reason in particular that you hit me in the face with a teddy bear?" 🤔🤔🤔🤔

I gasped for air and collapsed on the floor. I had no clue of what to expect. Every bone in my body froze, I couldn't move. I must be dreaming. Is this real? Water sprang to my eye lids as I sit there confused. "What's wrong? Don't cry." She says. But I couldn't help it, I only cried harder.

Serenity's POV

I watch my best friend cry her eyes out and I couldn't help but cry with her. I wrapped my arms around her wishing I could somehow ease whatever is bothering her.

"It's gonna be okay sissy." I tell her. Just stopped and looked at me and said "you just woke out of a 3 year coma and your comforting me?" I nod my head at her vigorously and smile.

With a hiccup she smiles "I missed you so much, I'm so glad you're awake" she cried. "I missed you too girl, now stop being mushy pancake!" I said.

She shook her head "you're still the same" she told me. I beg to differ."No I'm not, I've changed. I feel a lot stronger and I feel very powerful for someone who was comatose for a few years." I stretched out my limbs popping a few bones and gave a sigh. That felt really good. "So when can I get out of this joint?"

"I'll go get the doctor for you" she said and ran out of my room. Smh this girl is something else but I'm happy to have finally awoken from the sunken place 😊.

I made a vow to myself while I was under to never let anyone make me 'feel' weak because I'm far from it. I'll never let anyone bully me and I'll fight my own battles from now on. As I was thinking to myself, my room door popped open and the pack doctor, my parents and my bestie come in.

My mommy bomb rushes me like she's a damn football player and smothers me with kisses all over my face. The tears in her eyes tells it all. She was worried for me! Serenity Marie Hampton if you ever scare or leave me like that I will skin you alive child" she cried. I nodded my head because I didn't trust my voice. I don't want to cry anymore.

"Move woman and let me hug my child" my dad said. My mom kisses her teeth and looked at him and said "who told you, you were running shit?" He lifted a brow and gave her a pointed look. She hopped on me quicker than the speed of light. Yeah you know better, daddy don't play that! wanted to laugh at her but she'll be mad so I kept it in. My dad gave me a kiss on the forehead and a hug. I notice that everything I need is standing right in front of me. All I will ever need is my family, who needs a mate.

Fuck him

"Doc when can I go home?" I asked. He told me that they want to run a few more tests then after I can go home. He looks so familiar...I was grateful no one brought up the mate thing because I didn't want to think or deal with that now. I'm just happy I can go home. I'm finally back and I'm better than ever....

It's time to show Ashton what I'm made of and you better believe he will feel every ounce of my wrath. This pack better watch it's pack because the time for retribution has fallen upon us 😏😏😏😏.....

Unknown POV

My beauty has awakened. I felt my heart thump hard in my chest. Just when I thought all was lost! I've been posing as her personal doctor for 3 fucking years! I've watched her and took care of her to ensure that my queen was treated with the best care.

Soon I will take her and make her mine. Her mate really is dense, even with all of my clues and warnings he's practically given me the most valuable thing on earth. I smile with my thoughts, an apocalypse is near. Me and my queen will be the start of a new era, everyone will bow before ME or die by the hands of my companion.

Oh yes I won't waste anymore time, she will be mine that dumb alpha won't even know what hit him. I almost feel sorry for him, for he missed out on a beautiful woman. My woman.

Ashton's POV

"Ahhh yeah suck it just like that" I said to some random girl in my pack. She was giving me some good head. Uuuuuuh this feels so good. I needed this stress reliever.

I was doing some work in my office when this fine young thing came in begging me to suck my dick. What kind of guy would say no to free head. A gay one probably. A good percentage of the girls in my pack were unmated and mine for the taking. I can never be with only one girl. I felt something stir in my stomach.

I was about to cum so I shoved my dick down this bitch's throat and watched her gag with every spurt of cum I let out. Woooooo! That was good. I let go of her head and kicked her out. I wiped the sweat from my brow and processed to my work for today. Damn today will be a good day.

I got down to work. We've been having a rouge problem for a long time now but every time we come close to finding their hideout they disappear without a trace! It's frustrating as hell. **Pack meeting in one hour.** I said through the pack link. I'm seriously sick of these rouges toying with me. It's time to get rid of them once and for all.

As I was continuing my work my Luna smashed through my office door like she has lost her rabbit ass mind. "Ashton! I hope your done playing with these hoes!! I'm Luna for a damn reason and you will treat me with respect!" She said slamming her fists on the side of my desk. She was trying to intimidate me. Key word TRYING.

She must've forgotten who she was dealing with. I gave her a pointed look and stood to my full height. I crossed my arms glared at her. Her defense immediately went down the drain because her knees started to shake. She looked hopeless like a scared puppy.

Why did I make her Luna again? kissed my teeth and took 3 long strides to her. As I was approaching her she began to speak. "Aa Ashton, I'm sor" before she could finish I had her by the neck applying enough pressure for her to turn blue. "Know your place bitch, remember your replaceable and I do what the fuck I want, if you ever barge into my office like that again I will not hesitate to kill you!" I said with enough venom to scare a snake. I let her go and she plopped to the floor gasping for air. "Get out!" She scrambled out of my office. She better put some respect on my name. Lol 🤔🤔🤔🤔
