

Chapter 20: mutal agreements

Serenity's POV:

Today is the day that I make a deal with the devil. Eryian better know I love her ass. **How are you going to pull this o?** My wolf asked. I don't know, I just going to ask nicely.... **I think you should seduce him** 😏. Eeeeh NO! locked her within the confinements of my mind. She's been aggravating more as of lately and I can stand it.

I don't know why she doesn't like kealan. He's super sweet. I think I maybe falling for him but I don't want to catch feelings too soon and get my heart broken. Ugh.

Anyway back to the subject at hand. I need to get my bestie boo back into the pack like now. I'm going to the pack house to talk to Ashton, hopefully I don't have to kick his ass. One way or another my friend will have a home again!

I walked to my closet to pick out an outfit.

I picked out a simple fuzzy white sweatshirt and black leggings. I topped o my outfit with black boots.

I looked at myself in the mirror. Damn I look good! Hopefully looks will be enough to convince him to do what I want. Ugh I can't believe I have to do this... 😏😏😏😏

30 minuets later.....

I arrived at the pack house and to be completely honest I'm nervous. I have to ask Ashton who is my alpha for a favor a er I've disrespected him on multiple occasions... I may hate his fucking guts but respect is do to all people.

I let out a sigh. Let's just get this over with.....

I walked into the house and I immediately wanted to run out.

Everyone stopped what they were doing and looked at me. Some of them looked at me with love and acceptance, some of them looked at me r with disgust, and some of them looked at me as if they could care less...

Well then! I put on my poker face and walked into the living room and asked a fellow pack mate. "Excuse me do you know where I might find the Alpha?"

She gave me a warming smile and said "he's in his o ice on the second floor."

I thanked her and went on my way.

When I'd reached his o ice I was stuck. **Just knock on the door stupid** My wolf growled. I took a deep breath and knocked. "Come in" a baritone voice called out. At that moment is when I lost my shits!! I can't do this, I can't do this, bitch abort mission abort mission!!! I was about to hightail it out of there when the door swung open and revealed his sexiness known as Ashton Mutha fucking Knight!!!

Oh my damn! I know right? Does he ever wear a shirt?!! He looked a little shocked but nonetheless he opened the door for me to come in. I walked by him taking a deep breath, which turned out to be a mistake because his scent filled my lungs and made my eyes roll.

I shook my head. Focus!!! We took our seats across from each other. And he began. "To what do I owe this visit doll?" He asked with a smirk. I wanted to smack it o of his face! "I'm here to ask for a favor Alpha" I said evenly. His brow li ed "oh?" He said. "Yes" I said trying to keep my cool. Hopefully I can get through this without attacking him and being locked away for treason.

Ashton's POV;

To say I'm surprised would be an understatement. My very beautiful mate is sitting across from me in my o ice looking like a whole snack. And I'm hungry as fuck for her. Her smooth chocolate skin is begging for me to kiss it. I stopped eye raping her for a second to listen to her.

"What can I do for you doll?" I asked. I watched as her face scrunched up with distaste for her nickname. She's so cute! Don't call me that!..... please" she almost snarled at me. I nodded my head for her to continue. She cleared her voice "uh ... mmm okay, would you please take back your banishment from Eryian?" She asked nervously.

Hmmm what happened to all of the confidence she's had for the past few days? "I'm sorry, what did you ask me?" I gave her a confused look. This time when she asked she was more confident. "Take back your banishment from my friend" she said. Damn she's sexy when she's annoyed

"Why should I do that doll?" I asked testing the waters with her. I can see the rage building behind her eyes. She took a deep to calm herself. "You should do this because it's your fault! Everything is your fault! Why should she be punished for caring for me? She did nothing wrong by loving me and being my rock when I desperately needed one." She said. I watch every emotion cross her face.

Damn I did that.... I put her through this su ering. I'm so sorry baby

She was right though. Had I been a man and accepted her when I'd had the chance everyone would be happy. I'd get to wake up every morning with the person I love. Now I'm su ering from my poor decisions. **Maybe you can use this opportunity to get mate back** Hmmm.

"Okay I'll take back the banishment of your friend" I said. She looked surprised but I smile that she gave me made my heart stop. That smile was the most beautiful thing I've ever seen, from now on that smile is mine and will forever imprinted in my mind. "I will take back the banishment of your friend under one condition" I finished.

Her smile dropped. Awwwww "What is the condition." She asked with pouty lips. Great now I'm nervous. "The condition is you have to go on a date with me and let me explain to you how sorry I am. I know you hate me but I just want the opportunity to make things right between us. Even if you still hate me a er, at least I know I'm trying and I won't give up. So do we have a deal?" I asked sticking my hand out for her to shake.

She thought about it for a while. Freedom She thought in her head. That hurt I thought to myself. She shook my hand and said "we have a deal." I so happy right now I could do a backflip!

She stood up to leave but I stopped her. "Umm since you agreed to this date, I... I um was wondering if I could have your number?" I asked. She gave me a confused look. "So that I can text you the details of our date" I said.

"Uh yeah, sure but keep your end of the deal or I'll kick your ass." She stated. feisty She just doesn't know what she does to me. I'm sitting behind my desk hard as a rock. When she's mine I'm going to keep that smart mouth in check.

"Okay baby" I said to mess with her. She rolled her eyes and walked out. I couldn't help but notice how her hips swayed. Damn I'll make it up to her. I promise she'll be mine and love me back one day....

Kealan's POV

I snarled while punching a tree, making in split down the middle. How dare he! How dare this fucker con my baby girl into going on a date with him. Everyone knows serenity will do anything for Eryian and this asswipe used it for his advantage!!! I'm going to destroy his pack and make him watch. A er I'll rip him to shreds and make love to serenity on top of his carcass!!!

I was fuming and there was only one person who could calm me down right about now. I sent her a text:

To her

Babygirl 😍: hey beautiful, I miss you.

To him

FutureBabyDaddy 😏: I miss you too. What are you up to?

To her

Babygirl 😍: nothing much, got you on my mind. Can we meet up?
