The Rejected Luna

The girl without a wolf

Chapter 53.

Alpha King's Stance.

I woke up this morning feeling very happy and satisfied. Jane was still sleeping next to me and her naked body made my dick hard this early morning.

Last night was the best night of my life. My dick got a good taste of her pussy, and she didn't fight me off because she fears I'll kill her swindler mate if she fights me. I enjoyed myself, fucking her pussy and sucking her boobs until she was very tired and dozing off in the middle of our fuck session. After the sixth round with her, I licked up her pussy and finally went to bed.

This morning, I want to go attend to my duties as the Alpha King but seeing her naked body makes it hard for me to leave the room. I can't help myself around her, I'm like a man who has lost all his sense of reasoning. Jane's body makes me go crazy and will do anything to always get to fuck her pussy.

I check the time and it's 7:00, maybe I should fuck her for a few more minutes before I go freshen up.

She was still snoring softly and the duvet that was supposed to cover her sexy, naked body had rolled to her waist. Her legs were spread apart, revealing her rosy, wet pussy. The small hairs around her pussy were tantalizing and calling out to me.

I bit my lower lips in hunger for her pussy. My dick was hard and wanted nothing to thrust inside her pussy. Her boobs had traces of my love bites on them. I bent to her and bit her right nipple. Hmm, delicious, just like her pussy. I held the nipple in my mouth, rolling my tongue on it. She shook her body, slowly waking up. I didn't stop and continued sucking at her nipple like I was getting any milk from it.

I trail her leg with a finger and finally found my way into her pussy. I rubbed her pussy lips, getting it wet for an early morning quickie. I'm such a lucky man, knowing from now on, I'll have her to myself, and I get to fuck her pussy this early in the morning if I choose.

She opened her eyes and tried to sit up but I quickly pinned her down.

"Get off me!" She yelled, hitting my chest with her fist. I got angry at the way she was trying to fight me off so I thrust my finger deeper into her slit. She moans out loud, grabbing the sheets and jerking up her hips.

"You like that?" I smirked and inserted another finger. I began thrusting both of them inside of her and she squirmed at the pleasure and heat from my finger-fucking.

"Oh... uhh... ahh.... stop... fucking... me.... ahhhhh!" She screamed out so loud, thrashing her head to both sides.

I took out my fingers and licked up her juice which had gotten my fingers wet.

I was in a hurry to finish this so I quickly aimed my dick at her slit.

"Don't!" She screamed again, struggling to push me off her. If I had known, I would have tied her up before climbing on top of her. And I can't stop now to start tying her up, it'll reduce the heat and passion that I needed to fuck her pussy with.

"Scream all you want but I'm still going to fuck your pussy. No one can come in here and rescue you from me," I said to her and spat on my hand, rubbing it on her slit, and slid my dick into it.

I have only made two thrusts when my door opened and someone walked in. It was Ray, my Beta. How dare he? I am having a precious moment with my mate and he dares barge in like this?

"Please... help... me!" Jane started begging him and I quickly clamped her mouth with my hands. But it was too late. Ray was already in the room and was watching us with surprise like he had seen a ghost.

I was naked too and so was my mate. And I was jealous that he was staring at my naked mate like he was doing. But he wasn't doing it intentionally tho. He was startled.

"Can't you see I'm busy right now?!" I barked at him.

That was when he snapped out of it and turned his gaze at me.

"I'm sorry, but you have to come with me. There are some documents you have to sign and its deadline is this morning,"

"Can't it wait? I need to get done with this," How can I just leave when my dick had just slid into her pussy and I haven't given her good thrusts?

"You are going to lose billions if you don't sign it, are you okay with that?" He reminded me.

I looked down at Jane and her eyes twitched happily. Of course, she's happy someone saved her from my hands this morning. But that won't always be the case. When I return, I'll fuck her harder and make her yell her head out.

I got down from the bed and headed into the bathroom. But before that, I asked Ray to leave because he kept staring at Jane. I know he feels bad for her and wants to ask her why she was here but I won't allow that.

He left and I went into the bathroom to have a warm bath. My dick was still hard because I didn't have any release. It'll be irritating to go through all my duties today with a hard dick. But I'll try. After all, Jane isn't running away. When I return, I'll continue with her.

I finished bathing and came to wear my clothes. Jane was sitting now, staring at me. She has already wrapped her body with the duvet. When I finished wearing my clothes, I took out a rope and tied her legs up, I also tied her hands together.

"Why are you tying me up?!" She shouted, struggling to free herself from my hold but won't be possible because I just tied her up.

"Because you will escape if I don't. I see it in your eyes, you are looking for the slightest means to escape. I can't take any chances, I need to see you here when I get back," I grinned at her and grabbed her hair which I used to pull her face closer to mine, crushing my lips on hers.

She still fought to break free from the kiss but I didn't let her go. She bit my lower lips so I was forced to release her.

"You bitch! Why did you bite me?!" I shouted in anger.

She smiled, "Try kissing me again without my permission. I'll make sure to bite out those lips of yours."

Oh, so she wants to play dirty, alright? I can do that too.

I forced her to lie on the bed and spread her legs, forcing my head in her middle. I reached for her pussy and bit her pussy lips so hard that she screamed in pain.

I laughed at her cries and got down from the bed. "Hope you liked that?" I winked at her and left the room.

Oh, this is so much fun! I can't wait to return and continue to have hot fucks with my mate. Oh, but before that, I need to have that swindler mate killed. That Vishal guy or whatever his name was. I need to order my men to end his miserable life.
