Chapter 241: My Master

Dalin Temple was wiped out!

Li Wuya started a massacre and unless one was a higher-up of Dalin Temple's, no one could avoid his blade.

It was Li Wuya's goal to take revenge for his family, so the others allowed Li Wuya to do what he wanted.

When he reached the final Legend Realm expert, Li Wuya heaved a sigh. Regret appeared on his face.

No matter how many people he killed, he wouldn't be able to save his parents.

Even if he wanted to revive them, it was impossible.

Their corpses had been totally destroyed, burned to ashes by that fire.

They were busy for their whole lives, worked hard their whole lives, and in the end, they were burned by that fire...

It was truly a clean exit!

Heaven Heart continued to ask. He asked each one of them to try to understand what Dalin Temple's secret was.

Every one of them talked about the dragontooth rice!

Heaven Heart was certain that it was indeed the case.

When the higher-ups were killed, the disciples were sent away and the treasury was collected. Everything here was emptied out.

This 10,000-year-old base was now totally empty. Li Wuya burned all the Dalin Temple secret techniques and Buddha techniques.

"These monks were too extreme because they read these scriptures. We have to burn them all." Li Wuya said coldly.

After doing that, Li Wuya walked to Tian Guangming and hugged his weak sister.

“Brother, have you taken revenge for our parents?” Li Qing’er asked with a weak voice.

“I did. Their spirits in the heavens will be happy. I have killed the enemy and destroyed Dalin Temple. Everything will become better.” Li Wuya consoled his sister.

Every invincible opponent would have a soft spot in their heart. Li Wuya’s was his sister.

“Brother, how did you grow and become so strong? I also want to grow so that I can help brother.” Li Qing’er was looking forwards to that.

“Qing’er needs to grow slowly. Brother met Master and he changed my life. Master allowed me to grow, so in the future, Qing’er will follow us and live. Eat more and you will grow really quickly.” Li Wuya said warmly.

“Eh, Qing’er will listen to you and grow up quickly.” Li Qing’er nodded and said firmly.

Tian Guangming looked towards Li Wuya in delight. He thought that he would have to spend a lot of effort on this disciple, but now it seemed like he didn’t do much and Li Wuya had grown.

He was even stronger than him. Tian Guangming suddenly felt like he had grown old.

“No, when I return I need Master to adjust the divinity. This is so unbearable.” Tian Guangming muttered.

Demon Frog and his seven brothers supported one another. After being suppressed for 8,000 years, they were finally allowed to recover. Their speed was extremely strong.

“Big Brother, where do these people come from?” The wild boar combed his fur and asked with his fangs sticking out of his mouth.

“Right brother, also that person with the mask is so amazing.” The god eagle stood up and spread his wings. His feathers were like pieces of iron, extremely sharp, and when they moved they gave off a metallic sound.

“Right, I also think that masked guy is so amazing.” The pangolin nodded.

“Big brother, who is that mysterious person?” The mule wagged his tail and asked.

Demon Frog opened his eyes wide and his body shrunk. He stood in front of them and said solemnly, “He is the Master that I found for all of you, so don’t say anything wrong.”

“New Master?” The Heaven Swallowing Dog bared his fangs, “I don’t want a human as my Master.”

"I also do not want that. I love freedom." The barbaric cow said confidently.

The flood dragon didn't say anything and just laid on the ground.

"Then, you go tell him." Demon Frog didn't care about their attitudes and said casually.

"Big Brother, you were the one who agreed to it." The Heaven Swallowing Dog was unhappy.

"I promised that once Master saved all of you, you would be loyal to him. Since you are not willing, then you can tell Master yourself." Demon Frog said calmly.

Heaven Swallowing Dog thought back to how Li Xiandao blocked an entire sky by himself and was speechless.

A short while later, the barbaric cow said, "Although I am strong, I am actually just a cow. Since I am a cow I need a Master. It is better if he gets me a nose ring. Then, I will feel at ease."

Heaven Swallowing Dog looked at his brother in disbelief.

Demon Frog praised, "That is right. For 8,000 years, I have been trying to find a chance to save all of you but I couldn't do much with half a body. Since Master was willing, naturally I made the promise on behalf of all of you."

The other monsters listened quietly.

"Apart from being loyal to him, what do you have to take out to get him to save all of you?" Demon Frog asked.

The wild boar shook his head and sighed, "The most valuable part of my body are my kidneys but they can't be chopped off. It seems like I am going to become a domestic boar now."

"I am also going to become an eagle. It really does not fit my identity as a god eagle." The god eagle muttered.

"I don't really care. Anyway, in the past, I have always been a domestic animal." The mule wagged without caring at all.

The pangolin's eyes spun about, "Actually, I really want to be raised, so there is no need for me to fight anymore."

Shua!

Everyone looked towards the Heaven Swallowing Dog and the flood dragon.

They were the only two that didn't say anything.

The flood dragon was really casual, "I don't really care. Anyway, being a subordinate is better than dying."

"What about you?" Demon Frog asked Heaven Swallowing Dog.

Heaven Swallowing Dog thought about it and revealed his sharp fangs, giving off a cold glow. He forced a big smile, "I will learn how to protect the yard."

Demon Frog nodded his head in satisfaction, "I am your big brother. As a big brother, would I ever con any of you?"

"Do you see those people? Most of them aren't weaker than you. I myself might not beat that monk and that lord. They are all subordinates of Master." Demon Frog explained.

"So, you mean that as subordinates we must still fight for love?" Heaven Swallowing Dog was shocked.

"Master is really mysterious and strong. He is really rich too. He has given celestial artifacts to a few of them. Do you see that girl in armor with that beautiful body?" Demon Frog pointed at Moon Angel.

"Perfect body!" The flood dragon praised.

"Beautiful woman!" Heaven Swallowing Dog added.

The other monsters all praised Moon Angel.

Pa!

Demon Frog was furious and slapped each one of them, "I am asking you to look at her weapon. That is a celestial artifact that Master gave her."

"My Master is so good to even give celestial artifact to his subordinates?" The barbaric cow shouted warmly.

"Your Master?" The Demon Frog was annoyed. Who knew that the dumbest looking cow was actually the smartest one?

Chapter 242: Mr Mule

After confirming that they all recognized Li Xiandao as their master, Demon Frog helped to inject True Qi into all of them to stabilize their souls.

The Barbaric Cow wagged its tail and its giant body stood up. It was three meters tall and had no hair on its body. Its muscles were green and there were many patterns on it which represented his talent.

The Barbaric Cow's had giant horns on his head for weapons. It was really firm and strong, and energy surged in his body. He recovered from his exhaustion and muttered, "Without any herbs I won't be able to heal in a short time."

Heaven Swallowing Dog stood up. He was only two meters tall and his limbs were huge and thick. His teeth were really sharp and they could easily rip past an enemy's defences.

"Let's go meet the new master." Demon Frog was only a meter tall now. He looked really thin and gentle. He wasn't as terrifying and threatening as before.

He jumped onto the Barbaric Cow's head and said from above.

"Great, I also want to meet my new master." Barbaric Cow said.

"Let's go. Dalin Temple has been destroyed. The grievances that have suppressed us for 8,000 are over just like that." The mule said regretfully. As he was weak, he couldn't even kill a single monk.

He didn't take revenge at all and his vengeance had been cleared which made him feel a little sad.

The mule spread out his hooves. He moved so fast as if he was flying. He was one of the weirdest monsters out of the few of them.

Demon Frog himself was a frog!

The mule was a mule!

They were the most basic animals with no bloodline and no special talent. They were able to become so strong due to their hardwork.

The mule had thick hair on his body. It was black and white like a zebra but he was more gentle and his color wasn't so eye-catching.

"When are we going to meet the master?" The mule ran beside Heaven Heart and asked.

"We shall go now. Eight of you follow me, I shall teleport through space with all of you." Heaven Heart said.

“Okay.” The mule nodded his head as he stood beside Heaven Heart.

In just a moment, the other seven monsters were here and they surrounded Heaven Heart.

“Let’s go, let’s leave this place to them. We shall return first.” Heaven Heart drew a giant seal in the air and teleported through space with them.

....

Within the Bank of the Universe, after Li Xiandao returned, he closed his eyes to rest.

My strength is able to crush everyone in the Ten Lands, but it is not enough to fight those in the Nine Skies. Li Xiandao thought to himself.

Dalin Temple in the Nine Skies was a giant sect. They were really strong, otherwise, they wouldn’t dare to come down to scheme for things.

Even if they had a tunnel, once the laws noticed it, they would be bathed in light.

Only by being strong enough could one be confident that the heavens wouldn’t notice. Maybe the benefits were great enough which made them take the risk.

Li Xiandao noticed that since Dalin Temple had been created, the two celestial artifacts were bounded too. Slaughter Tower was also kept in its original state.

This meant that they cared a lot about these two Celestial Artifacts up in the Nine Skies. Even if Li Xiandao chased them away, they had to bring the celestial artifacts back.

This also showed that they were strong but they weren’t the strongest, otherwise, they wouldn’t have come down to plan something.

This only meant that there were huge interests involved!

“Treasures from the Ten Lands that can help above in the Nine Skies have to be rare. Let’s just hope that Heaven Heart will find out about it.” Li Xiandao thought about it.

After this analysis, Li Xiandao had no anticipation towards Dalin Temple.

Seven walked over and saw Li Xiandao’s closed eyes. He asked, “Are you tired?”

Li Xiandao sighed, “I fought some people from the Nine Skies and chased them back.”

Seven’s expression changed and she said hurriedly, “You fought with someone from the Nine Skies? Are you okay?”

Li Xiandao shook his head, "I am okay. It's just that my body is a little sore."

"Sore?" Seven was stunned. She rolled her sleeves, "Come, let me massage you."

"Okay." Li Xiandao agreed right away without any hesitation. He laid down right away.

"Quickly, my body really feels tired." Li Xiandao was really eager.

Seven was stunned. She saw how Li Xiandao was behaving and squinted. "Are you faking it?"

Li Xiandao's heart shuddered. He said quickly, "I chased away the people from Dalin Temple and killed over 30 people from the Nine Skies."

Seven decided to believe him, "Okay, then I'll help massage you."

Li Xiandao was delighted and looked forward to it. He could feel Seven's gentle and soft hands once more.

But right away, another voice spread into his ear.

"Master, I have brought Demon Frog and his seven brothers back." It was Heaven Heart's voice. He had rushed back.

Seven quickly placed down her sleeves and smacked Li Xiandao, "Sit properly. Isn't it so inappropriate to be laying down?"

Li Xiandao sat up expressionlessly. He looked at Seven but he was really annoyed with Heaven Heart.

He hadn't come early or late. He just had to come at this moment.

Seven looked at Li Xiandao's expressionless face and laughed, "Okay, once they leave then I will help massage you for 10 minutes."

Li Xiandao looked at her and demanded, "30 minutes!"

"My hands will become sore!" Seven raised her snow white and tender hands.

"Don't you still have legs?" Li Xiandao looked at Seven's jade legs.

"Don't you know that girls can't randomly show others their feet?" Seven's face flushed red and she stared at Li Xiandao, "You even told me to use my legs to do that..."

"Then, 20 minutes!" Li Xiandao bargained.

“15 minutes and I will only use my hands. Don’t think about anything else.” Seven said seriously.

Li Xiandao nodded, “15 minutes then.”

He gained 15 minutes of massage time and he was filled with delight. However, he maintained a blank expression in case Seven noticed.

He wore his mask and waited for Heaven Heart to enter.

Da da da!

The first thing he heard was the sound of hooves.

A mule appeared in front of them.

“Master!” The Mule dashed towards Li Xiandao and then knelt down in front of him.

“Greetings, my beloved Master!” The mule was really sincere and kowtowed towards Li Xiandao.

Li Xiandao was stunned!

Seven and him looked at one another. What was going on?

The seven monsters who walked in all gritted their teeth.

They said that mules were gentle and responsible but how did he become a bootlicker?

Especially the Barbaric Cow who was filled with hate. This was his job!

But now, he couldn’t do that. He wagged his tail impulsively, “As expected, you are a plastic brother. Even if you wanted to do that, you should have called me along too.”

Chapter 243: Dragontooth Rice

Li Xiandao looked at the mule and asked, “You are the Demon Frog’s brother, one of the seven monsters?”

The mule nodded, “Master, I was one of the seven in the past but now I am your mount. You can just call me Mr Mule.”

Li Xiandao laughed, “I don’t need a mount.”

“Master, don’t underestimate me. Although I am not very strong, I am extremely quick. I’ve comprehended space techniques and if my cultivation increases, I will be able to teleport.” Mr. Mule introduced himself warmly and promoted himself to Li Xiandao.

The fact that he had turned into a monster king from a house mule meant that he was really smart. He knew who to be loyal to and who to be friends with.

It was obvious that Li Xiandao was his new Master and since Li Xiandao was so strong, if he didn’t bootlick him now, then when did he have to wait till?

While Mr. Mule was talking, Heaven Heart brought the other monster kings in.

“You can rise first.” Li Xiandao told him to rise and then looked towards Demon Frog and the other seven monsters.

All of them were beasts but had weak auras. It was obvious that 8,000 years of suppression had badly hurt their bodies.

“Demon Frog should have told you that he has signed a contract on behalf of all of you. What do all of you think?” Li Xiandao asked.

“I am definitely willing to recognize you as my master.” Mr. Mule said right away.

“Big Brother did so to save us. We are willing to recognize you as our Master.” Barbaric Cow said.

“I have no objection. It was a fortunate thing to be able to come out alive.” The pangolin said.

“Right, brother pangolin is right; it was good to come out alive. Master, accept my kowtow.” The god eagle lowered his proud head.

“Master, what are you planning to do to us?” Heaven Swallowing Dog asked.

The others looked towards Li Xiandao. They wanted to know how they would be treated now that they were on his side.

Li Xiandao looked at them and waved his hands, “All of you are still too weak. Since you have recognized me as your Master, then everything is good. Go out and find a house in the mountains to cultivate and recover.”

The monsters were all delighted. Who knew that the first thing Li Xiandao did was allow them to recover. It made them feel a bit closer to him.

Dalin Temple led them out. Li Xiandao looked towards Heaven Heart and asked, “Have you found out Dalin Temple’s secret?”

Heaven Heart nodded his head, "I have used soul control technique on the higher-ups and they have exposed everything."

"What reason or secret has caused Dalin Temple from the Nine Skies to set up a plan in the Ten Lands for 10,000 years?" Li Xiandao frowned and asked.

Now that he had wiped out Dalin Temple, since there was a treasure, he would take it himself.

Li Xiandao lacked treasures now.

He didn't have a suitable weapon on him either. He used sword energy against enemies and if he had a really strong weapon, his strength could increase in folds.

But unfortunately, the celestial artifacts he got weren't suitable for him.

The only sword was Gabriel's life weapon. How could Li Xiandao take his own subordinate's life weapon?

This was why Li Xiandao fought empty-handed.

Heaven Heart said solemnly, "The reason why Dalin Temple built a temple in the Ten Lands is for an ancient treasure!"

"Ancient treasure?" Li Xiandao's brow rose up.

"Right, Dragontooth Rice!" Heaven Heart said.

Li Xiandao's eyes lit up and he stared at Heaven Heart, "Are you sure?"

Seven couldn't help but look towards Heaven Heart in shock.

"Is it really Dragontooth Rice?" Seven couldn't help but ask.

Heaven Heart nodded his head, "I have charmed the Dalin Temple people and found out that within three months, Dragontooth Rice will appear in the Ten Lands. The only thing is that we don't know which world it will be in."

Li Xiandao muttered, "In ancient times, even if it appeared on normal people, they could reach 800 years old. People who cultivate would soar. The ancient witch race used it to rule the world. Their bodies were strong enough to pass through the milky way and rip open the stars."

"Right, that was an era when the three worlds were equal." Seven nodded, she knew about that era.

During that era, the Ten Lands belonged to the witch race. The witch race didn't cultivate and just trained their bodies. They used the strength of their bodies to run the Ten Lands.

As for the Nine Skies, the Nine Skies belonged to the human race and they had their own glorious moments with many rulers and emperors.

Ten Lands and Nine Skies could compete with the Celestial World and they definitely didn't see it as a goal.

Flying up to the Celestial World was something that people felt was dumb.

All of this was because of Dragontooth Rice.

Dragontooth Rice was a special item then.

When it was planted in the ground, it would absorb moonlight essence. Each grain of Dragontooth Rice would contain huge spiritual energy and one could see that it seemed like a dragon.

Once it matured, the Dragontooth Rice would be really big. Someone compared it to the teeth of a 10-year-old baby dragon. That was how it got its name.

So, if one planted Dragontooth Rice, one didn't need to worry about the lack of spiritual energy.

One grain of Dragontooth Rice could replenish all losses and even help your cultivation to increase.

Everyone in that era ate Dragontooth Rice, so how could their bodies not be good?

Even if they couldn't cultivate, normal people could live to 800 years old. That was truly amazing.

Unfortunately, those times ended due to the extinction of Dragontooth Rice.

As for how it was lost, no one knew.

That era was so long ago that no one could investigate anything about it.

But numerous books and records said that the Celestial World had caused it.

They destroyed Dragontooth Rice!

Nine Skies and Ten Lands fell such that the Nine Skies needed Celestial World to provide celestial energy and Ten Lands needed the Nine Skies to give them spiritual energy.

Their statuses changed just like that.

Celestial World, Nine Skies, Ten Lands!

The three places that were on the same level as one another were now obviously split.

If the witch race experts found out, they would probably charge up to the Celestial World to take revenge, right?

“How did the Dalin Temple know that the Dragontooth Rice is in the Ten Lands?” Li Xiandao asked.

“Corona!”

“One top monk from the Nine Skies gave up his life to see the birth of Dragontooth Rice and he confirmed that it was in the Ten Lands. That monk died and left a relic that was passed down to Ancient Buddha Land. Now, it is only three months away from the time that the monk said.” Heaven Heart said.

“It doesn’t seem fake. Sacrificing life to peak into destiny is the most amazing method, so it won’t be fake.” Li Xiandao nodded his head.

Chapter 244: New Guest

Dragontooth Rice would appear in three months. At this moment, Li Xiandao understood why Dalin Temple up above was so angry.

They had prepared for 10,000 years and they were just three months away.

Then, Li Xiandao appeared.

They had amassed many experts in 10,000 years, collecting the power of the entire Ancient Buddha Land to give them an advantage.

This was like tossing a woven ball. Dalin Temple had cleared out one whole region and as long as the ball landed in that region, it was theirs.

Even if it fell into another region, they could send someone to retrieve it.

They could even summon many more experts.

The Dragontooth Rice was basically theirs.

But!

Li Xiandao had appeared!

An evil being directly chased Dalin Temple away and occupied their area to steal their woven ball.

How could Dalin Temple not be angry?

They couldn't come down and they really wished that they could chop Li Xiandao up into eight pieces to vent their frustration.

....

Li Xiandao instructed Heaven Heart, "From now on, you shall stay in Ancient Buddha Land and pay attention to news about Dragontooth Rice. I am here in Eternal Land and I will send others to the other worlds."

Li Xiandao had to get the Dragontooth Rice!

This Dragontooth Rice resulted in the destruction of the ancient era. It was a really romantic time when normal people could live to 800 years old. They could enjoy all the nice scenery and enjoy life. Dragontooth Rice had a huge part to play in all of that.

This was why Li Xiandao needed to get the Dragontooth Rice!

He didn't dare to say that he could replicate the era but when he reached his peak, he would definitely take out the Dragontooth Rice and spread it across the world.

Li Xiandao felt that the three worlds should have been equal. Only then could he do business everywhere to strengthen the Bank of the Universe.

Unlike now where experts would enter the Nine Skies and then the Celestial World.

If that was the case, then it was extremely difficult for him to do any business.

Heaven Heart left and only Li Xiandao and Seven remained in the room.

Li Xiandao laid on the bed. What he wanted was obvious: he wanted Seven to massage him.

Seven could only roll up her sleeves and begin to massage Li Xiandao.

She just pushed and pulled softly and repetitively!

Seven's massage had no skills at all!

She hadn't massaged anyone much. This was the second time.

Both times it was Li Xiandao and compared to the rustiness the first time, she didn't improve by much.

But Li Xiandao liked her... massage.

He closed his eyes and felt the movement on his back. As she massaged him, Li Xiandao was in deep thought.

"Are you thinking about how to get the Dragontooth Rice?" Seven asked.

Li Xiandao nodded his head and closed his eyes. He had taken off the mask long ago and he had a calm expression on his face, "I have to get the Dragontooth Rice. Only then can my men improve quickly."

Seven consoled Li Xiandao, "You should be the strongest person in the 10 lands, right? What is there to be worried about?"

"You can't say that." Li Xiandao shook his head and didn't want to be arrogant.

"The Ten Lands is far and wide and there are many people. Although my cultivation is decent, there should be many who exceed Legend Realm but can't fly up." Li Xiandao said.

He was confident in his own ability but he wouldn't look down on others.

There were definitely people who exceeded Legend Realm Stage 33 in the Ten Lands.

This was something that Li Xiandao believed in.

Eternal Land and the other seven worlds were connected. There were billions of people in the eight worlds. There were definitely many geniuses.

Wasn't it easy for there to be many geniuses in each era?

They could choose not to rise up to the Nine Skies, right?

So, Li Xiandao didn't dare to say that he was invincible.

Seven helped massage Li Xiandao's shoulder, "Since that is the case, then let's clean the contracts and expand the bank. There are just too little people coming to the bank to trade."

Li Xiandao nodded and said, "There has been no news from those few hundred watches?"

Li Xiandao had released a few hundred watches into the Heaven and Earth Battlefield and then another 100 in Eternal Land.

Now that he had unlocked the fourth peak, he obtained another 100.

He hadn't released these 100 yet.

Seven shook her head, "I didn't get any news."

Seven suddenly stopped and her expression became weird.

Li Xiandao felt that something wasn't right, "There is a guest?"

Seven smiled sweetly, "Master is so smart!"

Li Xiandao was unhappy, "Tell him to wait. My body is still aching."

Only five minutes passed and Li Xiandao was interrupted once more which made him really unhappy.

Seven looked at the angry Li Xiandao and smiled, "You like me... to massage you so much!"

Her pause made Li Xiandao's heart jump.

Li Xiandao nodded. He took a deep breath and paused too, "I also like you... your massage."

"Go and trade. The guest is here and we can't let the person wait." Seven smacked his shoulder.

"Then, my time..." Li Xiandao looked at Seven speechlessly.

"We can talk about it in the future. Maybe one day I'll feel good and give you a 30-minute massage." Seven smiled and winked at Li Xiandao before leaving. She turned around right away and didn't give Li Xiandao any chance to react.

"Mummy, this girl winked at me!" Li Xiandao was in awe and muttered to himself.

....

In the Bank of the Universe, Trading Hall!

Li Xiandao changed and wore the mask.

The mask he wore was black and white. It wasn't dark gold anymore.

He had worn the same thing for a long time and wanted to change it.

Black and white was a good match with Li Xiandao's robe. He looked like he had just been inked.

The guest was amazed when he saw Li Xiandao. The guest sized up Li Xiandao.

It was an old man.

He wasn't that old. He had white hair, a white and tender face, and he seemed to be really energetic.

But the old man was dressed really simply. He wore thin long pants and a mantle with a white undershirt. It covered his skin, otherwise, he would have revealed a lot.

But now, his clothing seemed really simple. Compared to Li Xiandao, it felt like a rich young master and a beggar.

But Li Xiandao didn't think that he was a homeless beggar.

Who would treat an expert that reached Legend Realm Stage 33 as a beggar? That person was just stupid.

Li Xiandao also said that this world wasn't lacking in top experts. There were definitely people who broke through to Legend Realm Stage 33.

Who knew that Li Xiandao would see such a person right away and that he would become his guest?

"You are the Master here?" The old man asked curiously as he stared at Li Xiandao's mask.

A black and white ink mask... it was just too beautiful and it attracted his gaze.

Li Xiandao nodded, "I am the master of the Bank of the Universe. What do you want to trade?"

Li Xiandao was really curious. What would someone who had broken through to stage 33 want to trade?

Chapter 245: Strengthen Defence

Although an old man who was a stage 33 looked old, he was definitely still at his peak!

What couldn't a person like him solve by himself?

Why did he need help from the Bank of the Universe?

Li Xiandao didn't understand.

The old man didn't reply to Li Xiandao right away. He took in a deep breath and said, "I am Liu Qingfeng and I'm 8,000 years old. As for my cultivation, I've reached Legend Realm."

"I am not too sure as the next realm doesn't belong to the Ten Lands and I would have to enter the Nine Skies. I haven't entered, so I am not sure whether or not I have broken through." Liu Qingfeng said slowly.

"But I have easily defeated all those stage 33 people who I have met which is why there is a high chance that I am above them." Liu Qingfeng said seriously.

Li Xiandao listened on without saying a word.

Liu Qingfeng continued, "I don't have any regrets at the moment but I have a wish that I hope the Bank of the Universe can help me with."

"You knew about the Bank of the Universe from before?" Li Xiandao asked.

"I found it in a book left by a late expert. I thought that it was a joke and really didn't expect it to be true." Liu Qingfeng nodded, filled with disbelief.

Even with his current cultivation, he couldn't help but feel amazed by the Bank of the Universe.

Li Xiandao was helpless. Yet another expert wrote about the Bank of the Universe before he died. He had faced another such person over in Dali Land.

The Bank of the Universe was mysterious in the eyes of normal people but if one wanted to investigate it, there were tracks to be found.

"So, what is your wish?" Li Xiandao asked calmly.

"I want to find some help to strengthen my sect's defence!" Liu Qingfeng said.

"Strengthen your sect's defense?" Li Xiandao was confused.

Wouldn't it be simple for a stage 33 expert like himself to strengthen his own defense?

"Right, I have strengthened it several times but I am still unsatisfied with it." Liu Qingfeng sighed.

Li Xiandao looked at him and asked curiously, "With you there, you still need to strengthen the defense?"

With an expert who exceeded stage 33 there to defend, who would dare to offend them?

"I want to fly up to the skies." Liu Qingfeng sighed.

"I wanted to 1,000 years ago but the sect had tried their best to nurture me. They gave me all their resources and the other experts weren't able to grow. I couldn't abandon them, so I protected the sect for 1,000 years." Liu Qingfeng explained.

Li Xiandao nodded.

"During these 1,000 years, I worked hard to develop disciples and managed to produce two Legend Realm ones. I also arranged for a stage 30 monster to defend the mountain. I also strengthened the formations of the sect several times." Liu Qingfeng explained one by one.

"That is already quite decent." Li Xiandao said. As long as the sect didn't ask for trouble, they would definitely be able to last.

"But I tried. If someone wanted to attack the sect, all of these wouldn't hold up to a simple blow." Liu Qingfeng said solemnly.

Li Xiandao blinked. *Big Brother, you are someone exceeding stage 33, so wouldn't it be normal for those things to not be able to block you?*

Liu Qingfeng continued, "I tried 9 times and it couldn't stand a single strike. If I flew up and an enemy came, just someone at stage 33, my sect would be turned to dust."

"As long as they cultivate properly, they won't meet such a person." Li Xiandao knew his reason for coming to the Bank of the Universe.

Worry!

Liu Qingfeng was really worried. He felt like the moment he left, the sect would be destroyed right away.

This was why he tried so much to strengthen the sect defenses to gain some psychological security.

He even wanted to enter the Bank of the Universe.

Li Xiandao didn't know what to say. Anyway, he wouldn't reject a guest.

"So, you want me to help you strengthen the defense?" Li Xiandao tapped the table and asked calmly.

"Right, strengthen the defence." Liu Qingfeng nodded.

"How much do I need to strengthen it?" Li Xiandao asked.

"Til it can defend against me!" Liu Qingfeng said firmly.

Li Xiandao looked at him speechlessly. If it could defend against him, then it wasn't a defensive formation but a turtle shell.

"Sure." But Li Xiandao agreed right away.

"Can you really?" Liu Qingfeng looked at Li Xiandao in shock.

"Yes I can, but it'll depend on the price that you're able and willing to pay?" Li Xiandao asked calmly and he was really confident.

He might not have been so confident in the past but now that Li Xiandao unlocked the Seal Mountain Peak, there were numerous seals on the mountain and many of them were defence seals.

Li Xiandao could learn them to help strengthen Liu Qingfeng's sect.

If he spent a little effort, it wouldn't be a problem to fend off Liu Qingfeng.

But all this would depend on the price that Liu Qingfeng could pay.

"What do you think you need to pay for formations that can defend against you?" Li Xiandao asked.

Liu Qingfeng thought about it and said, "I can give you god spirit meridians."

Li Xiandao asked, "How many?"

Liu Qingfeng raised one finger.

"10,000?" Li Xiandao guessed.

"Right, 10,000 god spirit meridians, all of which are above average." Liu Qingfeng nodded his head.

These are what I accumulated over 8,000 years. I have swept many places to get them.” Liu Qingfeng nodded his head.

“Swept?” Li Xiandao expression changed.

“Did you offend many people so once you ascend, you are afraid your sect can’t survive at all?” Li Xiandao guessed.

Liu Qingfeng gave an awkward laugh and waved his hands, “I was young and dumb. It has passed a long time ago and those people are still angry about it. I am so speechless.”

At this point, Li Xiandao knew why he was so stubborn about the defences.

If he didn’t strengthen it, then his sect was definitely getting wiped.

“10,000 god spirit meridians, you have a deal.” Although Li Xiandao knew the reason, he didn’t care. He just needed to get the god spirit meridians and he would help strengthen the defense.

“Sign the contract.” Li Xiandao told Seven to pass him a contract. In the Bank of the Universe, Seven was in charge of everything.

Seven walked in and passed the contract to Li Xiandao before standing aside.

Liu Qingfeng looked at Seven, filled with awe. He retracted his gaze and stared at the contract.

The contract stated really clearly that Li Xiandao would help strengthen Liu Qingfeng’s sect defense and it would reach its extreme. Then, Liu Qingfeng would pay the Bank of the Universe 10,000 god spirit meridians.

After confirming both sides, Liu Qingfeng signed.

“In three days, I will go to your sect to strengthen the defence. After that, you shall check it and if it passes you will then give me the god spirit meridian.” Li Xiandao took the contract and passed it to Seven.

Liu Qingfeng nodded and said with gratitude, “I will await your arrival.”

Li Xiandao watched as he left and then he said to Seven, “I am heading to Seal Mountain Peak and I don’t think I will be coming down in the next few days.”

Chapter 246: Come And Try

Seal Mountain Peak!

Li Xiandao arrived here and looked at the mountain that pierced into the clouds.

The mountain was huge and each step he took would cause numerous seals to appear at the bottom of his feet.

All the seals looked different. Some were simple, some were complicated, and there was a huge variety of them.

Li Xiandao looked at a seal. It could be easily formed with two strokes.

It was a wind element seal that could birth a breeze. It could bring cold air on a hot summer day.

These were the most basic seals. Li Xiandao continued to climb and he saw were more and more complex ones.

“In the era of legends, many people worshipped all sorts of things like strong spirits and gods, using them as totems. Then, the spirits and gods taught them some simple laws which end up being the seals.” Li Xiandao recalled the books that he read in the the Ten Thousand Country Book Depository.

No one made it explicitly clear regarding the origin of seals but everyone recognized that it came from that era.

Those gods and natural spirits gave humans the most primitive seals which they started to research, expand, and strengthen.

They were able to use that to peek into the Dao and reach the essence of cultivation.

After the humans got good at seals, they started to live independently without worshipping gods and spirits anymore.

This infuriated them and led to many wars.

During the legend era, seals had reached the peak. It was a war against the natural spirits and gods.

Now, everyone and everything from that era was gone. All the grievances had all disappeared. The only thing left was the seals to describe those times.

Li Xiandao walked on the mountain range and looked at the numerous seals. The complicated patterns and mysterious layouts were really eye-catching to him.

For example, Li Xiandao just needed to stare at a defense seal with 100,000 patterns for three seconds to remember it all.

The 100,000 pattern arrangement couldn't go wrong. Each pattern had to be at a specific place and angle to form a perfect restriction.

This was a really complicated matter.

But Li Xiandao took just a few looks and was able to digest it with his eyes closed.

Li Xiandao remembered these defense seals in his mind.

Who knew how many of such seals were carved into Seal Mountain Peak? Li Xiandao stepped forwards, stopping intermittently. He would close his eyes to think before moving on...

The seals were all really strong but Li Xiandao mainly focused on defensive ones.

Once he comprehended enough defense seals, Li Xiandao could complete the trade.

Three days later, Li Xiandao walked around the entire mountain and learned all the defense seals within.

There was one inside which was made up of 90 million patterns. Li Xiandao looked at it and felt his head hurt.

The key was that the 90 million were stacked together to form a flower that was extremely beautiful.

The further up he walked, the more patterns the seals had. They were more complicated but they were more beautiful.

Flowers, trees, lightning, wind, beasts, mountains...

These seals all returned to their quietest and most primitive states.

Primitive was the most beautiful state.

Li Xiandao looked at it and felt like his head was about to explode. Luckily, he had remembered all the complicated seals.

"Just one percent of the seals I remember is enough for Liu Qingfeng, not to mention how the seals could be pieced together." Li Xiandao was really confident and he could definitely complete Liu Qingfeng's request.

A seal was able to change. The basic small seal could transform into many complicated seals.

But they could also be pieced together. Lightning and wind together could form a formation that described the rage of the heavens.

Rain and sword energy seals combined could form the best assassination seals.

Seals were never about one versus one combat, just like how people in the world didn't fight alone and often connected with something else and the outside world.

Only by combining things and helping one another could the seals give off huge strength.

Li Xiandao just needed to take out one percent of the seals and line them all out to build a giant seal formation. He was certain he would be able to block Liu Qingfeng.

This was why he exited the Seal Mountain Peak and headed to Liu Qingfeng's sect.

Liu Qingfeng's sect was in Eternal Land. This surprised Li Xiandao as he thought that he would be someplace else.

At the same time, Li Xiandao also saw that Eternal Land was strong and had experts stronger than stage 33.

Feather Transformation God Dynasty was just an average power here and there were other giant sects.

Liu Qingfeng's sect was to the southwest of Eternal Land and was built on a mountain range. It was called Heaven and Earth Sect.

On the morning of the third day, Liu Qingfeng waited for Li Xiandao at the entrance.

When Li Xiandao used the space crossing seal to appear here, Liu Qingfeng was delighted. He walked forwards, "Master of the Bank of the Universe, can you help add to the defenses now?"

Li Xiandao nodded, "Open the defense formation."

Liu Qingfeng waved his hands to activate Heaven and Earth Sect's defensive formation.

Explosion!

A layer of white light shone down and turned into a light cover that wrapped up Heaven and Earth Sect.

Li Xiandao looked at the white glow and instantly saw many talismans, seals, restrictions, etc.

Liu Qingfeng didn't lie. He really did add many things in.

The current defensive formation would definitely block out people who were just in Legend Realm.

But for those above stage 20, if they went all out, they would definitely be able to shatter it.

Moreover, there were other top experts like Liu Qingfeng.

"So how, can you strengthen it?" Liu Qingfeng asked with worry.

If he didn't settle this, then he would be really uneasy and didn't dare to fly up.

The moment he left, Heaven and Earth Sect would be gone. This would be a huge problem and regret for Liu Qingfeng.

Li Xiandao nodded his head and said confidently, "Since I am here, of course, I am able to."

He stepped out and his body appeared above the formation at the entrance. True Qi turned into many Dao Patterns that started to gather to form many defensive seals.

If someone attacks, increase the defense in folds!

If someone attacks, reduce attack strength!

If someone attacks, deal recoil damage!

If damaged, self repair!

....

All sorts of seals. Li Xiandao pieced them together to form a formation, making an invincible defensive fortress.

Li Xiandao gave it a name.

"Turtle shell!"

If injured it could repair itself and deal recoil damage.

If it wasn't a turtle shell, then what was it?

Its defensive stats were high. Now that the other stats were increased, the overall stability of the formation increased too.

Li Xiandao landed and looked at Liu Qingfeng, "Come, test its strength."

"If you break it, then it is my fault!" Li Xiandao said confidently.

Chapter 247: Lingren's family

Liu Qingfeng was instantly delighted. Li Xiandao's words were really firm and when he heard it, he felt really confident.

Hong!

Liu Qingfeng flew outside of the formation. His hand formed a giant sword which he slashed down.

Explosion!

Sword energy pushed aside the clouds and smashed into the defensive formation.

Dong dong dong!

The defensive formation gave off a bright light. From the point of impact, it started to spread to the entire formation.

The damage reduction seal started to come into play and half of its strength was reduced.

The defense strengthening seal started to work and the defense of the formation increased.

The crack repairing seal started to work and the barrier that Liu Qingfeng shattered was being repaired.

Just like that, in less than three seconds, Liu Qingfeng's attacks were blocked by the defensive formation.

"Great, this is fantastic," Liu Qingfeng said emotionally.

"One strike of mine before would have collapsed the formation. I didn't expect that now after you modified it, the formation would have actually become so strong." Liu Qingfeng praised Li Xiandao's skills.

Li Xiandao stood with his arms behind his back. He wore a mask and the wind blew his clothes. He said, "Now, can you give me the 10,000 God Spirit Meridians?"

Liu Qingfeng nodded, "No worries, I will hand the God Spirit Meridian to you now."

Liu Qingfeng didn't hesitate and was even happy to hand it over. The 10,000 God Spirit Meridians were precious, and in Eternal Land, they were considered a huge sum.

But this sum in exchange for no more worries was something that satisfied Liu Qingfeng.

In the next second, he passed a storage treasure to Li Xiandao.

"Bank Master, here are 10,000 God Spirit Meridians. Thank you for your help." Liu Qingfeng was filled with gratitude.

Li Xiandao rejected his thanks and said, "It was a fair trade and we both got what we needed. I didn't help you, so you don't have to thank me. This was something that I needed to do."

"No matter what, I am at ease now, and in a short time, I will be flying up." Liu Qingfeng looked up into the sky and heaved a sigh of relief.

"Flying up to the Nine Skies, congratulations." Li Xiandao looked into the sky. Who knew how far away... the Nine Skies were up above.

"Thank you." Liu Qingfeng hesitated, "Bank Master, I am about to leave Eternal Land. Before we leave, let me tell you some news."

Li Xiandao looked towards him and asked curiously, "What news?"

Liu Qingfeng landed into Heaven and Earth Sect and didn't want to speak about it in the sky.

Li Xiandao landed and walked on the mountain path. Beside him was a bamboo forest.

Liu Qingfeng said solemnly, "Bank Master, I am telling you this information privately."

Li Xiandao nodded and listened.

"Within Eternal Land, the Dao has started to tremble. Have you noticed?" Liu Qingfeng asked.

Li Xiandao's face became solemn and he shook his head, "I didn't notice. When did it start?"

“Three days ago when I entered the Bank of the Universe.” Liu Qingfeng said.

Li Xiandao nodded his head, “I went to Ancient Buddha Land that day and wasn’t in Eternal Land. What happened?”

“Someone came down from the skies.” Liu Qingfeng pointed his hand forwards and said.

Li Xiandao’s expression turned solemn, “Someone came down from the Nine Skies?”

“That’s right, I got the watch that day and was worried whether or not I should go. So, I started to prophesize and peek into the secrets of the heavens.” Liu Qingfeng led Li Xiandao into a pavilion in the forest and invited him to sit down.

“What did you see?” Li Xiandao sat down and asked.

“I didn’t see anything. I saw many people heading down to Eternal Land. I didn’t dare to be careless.” Liu Qingfeng was afraid.

“How many?” Li Xiandao frowned. Why had so many people come down?

“At least a dozen.” Liu Qingfeng nodded his head and said solemnly.

“That’s a lot.” Li Xiandao asked, “Is it a family?”

“Yes, it is!” Liu Qingfeng nodded.

“Who?” Li Xiandao frowned. Which family had led so many people down?

Was it for the Dragontooth Rice?

“The Ling Family!” Liu Qingfeng said.

Li Xiandao frowned. The moment he mentioned the Ling Family, he thought about someone.

A person who wanted to kill him!

Ling Ren!

Ling Family’s Human Celestial!

To kill her, Li Xiandao came to Eternal Land from Ancient Desolate Land. The first thing he wanted was to kill her.

But because of the Northern Region Lord and Feather Transformation God Dynasty, Li Xiandao put the matter to the side.

What he didn't expect was that the Ling Family had such a strong background and could lead dozens of people down from the Nine Skies.

"You have a conflict with the Ling Family?" Liu Qingfeng saw that Li Xiandao was quiet and asked.

"It is just a small one." Li Xiandao waved.

At the moment, for him and the Bank of the Universe, Ling Ren's matter was small.

She was a Human Celestial that he could kill with a slap!

The reason why Li Xiandao didn't kill her was because he would delay other matters.

"Since it is a small conflict, then I think that you shouldn't clash with them now. After all, it isn't good to offend them." Liu Qingfeng suggested.

"Okay, I shall pay attention." Li Xiandao agreed but that was it.

Could dozens of people from above scare him?

He killed over 30 people who came down from the Nine Skies, so the dozen Ling Family members were nothing to him...

"Apart from the dozen of them, has anyone else come down?" Li Xiandao asked.

"I don't know. I was just fortunate and happened to see it by chance. The other people must have been sneaky and I can't continue staring at it every single second." Liu Qingfeng shook his head.

Li Xiandao understood. Those words were true.

Those who came down were careful and no one would try to announce it to the world.

If he did that, the heavens would kill him with lightning.

"Who knows what their purpose in coming down is? Anyway, I have been having a bad feeling, so I wanted to rush up into the Nine Skies to get stronger." Liu Qingfeng sighed.

Li Xiandao knew why they had come down but he didn't tell Liu Qingfeng.

After all, it was better for someone who wanted to fly up not to join in.

“They might be thinking about expanding in the Ten Lands.” Li Xiandao gave a reason and then stood up to say goodbye.

He knew the secret and didn’t want to stay here.

“Goodbye.” Liu Qingfeng sent Li Xiandao away.

Li Xiandao waved his hand and stepped out. A six-star formation appeared and brought him into the Bank of the Universe.

Within it, the moment Li Xiandao stepped in, he said, “Northern Region Lord, Qiu Bai, come over to see me.”

Chapter 248: Fate Is Hard To Describe

In the Bank of the Universe, Li Xiandao summoned the Northern Region Lord Gong Yu and Qiu Bai.

These two people were related to Ling Ren.

One was her clone and the other was her first love.

Now that the clone had given birth to its own consciousness and her first love was even chasing the clone, Ling Ren herself had nothing to do with it at all anymore.

Ling Ren was an old ancestor of the Ling Family and definitely knew about something. It was reasonable for Li Xiandao to send the two of them to investigate.

The current Li Xiandao was at the peak of the Ten Lands and he didn’t care much about handling Ling Ren.

What Li Xiandao cared more about was the number of people who had come down.

Was their goal for coming down the same?

Was it because of the Dragontooth Rice?

If it was, that meant that Dalin Temple was not the only one with news about the Dragontooth Rice. It had started to spread and those powers sent people down so as to get a portion of the spoils.

This was a little worrying!

In just a moment, the Northern Region Lord and Qiu Bai walked in front of Li Xiandao.

“Master!” The two people shouted.

Li Xiandao nodded his head, “I called you here because I have something for the two of you to handle.”

“Master, just instruct us. What is happening?” The Northern Region Lord Gong Yu said right away. When he heard this, he was going to head out with Qiu Bai he was pumped up.

Qiu Bai didn’t object to him so much anymore. If they went out a few times and deepened their feelings with one another, the Northern Region Lord Gong Yu would stand a higher chance.

This was why he was really happy.

Qiu Bai said, “It is my honor to be able to help Master. What does Master want Qiu Bai to do?”

Li Xiandao started to tell them about the Dragontooth Rice.

Throughout the process, Qiu Bai and the Northern Region Lord’s expressions became solemn. They also understood how important Dragontooth Rice was.

When Li Xiandao talked about Ling Ren and her family, Qiu Bai and the Northern Region Lord Gong Yu’s expression became ugly.

The two of them didn’t want to come into contact with Ling Ren.

“I know that the two of you don’t want to come into contact with her but everything has to end Qiu Bai!” Li Xiandao shouted.

Qiu Bai was shaken to her senses. She straightened her back and said, “Master, Qiu Bai is here.”

“Go find Ling Ren and ask what their goal is for coming down. Then, kill her. From now onwards, you are the one and only Qiu Bai. Let Ling Ren turn to dust.” Li Xiandao said coldly.

Letting the clone kill the main body would wipe out the main body’s influence on the clone. This was Li Xiandao’s way of dealing with Ling Ren.

Otherwise, with his current cultivation, he could just slap them and make both Ling Ren and her family suffer deeply.

Li Xiandao left her alive partly because of Qiu Bai.

As a clone, she would have to face the main body either way.

Qiu Bai looked at Li Xiandao. Her face was ashen white and she was slightly stunned.

Kill Ling Ren!

Since her consciousness was birthed, that had been her dream.

The reason why a dream was separate from reality was because it was hard to make it come true.

Qiu Bai had been killed by Ling Ren 10 times.

Each time, Qiu Bai used the Human Celestial Pill that she got from the Bank of the Universe to block it.

Ling Ren didn't show mercy. She failed 10 times, so she tried again.

This was why on the 11th time, Qiu Bai died!

Without the Human Celestial Pill, she had just died so easily.

She had been dead for 50 years before Li Xiandao saved her.

But just like that, Ling Ren tried to kill her for the 12th time.

Luckily, Li Xiandao helped to block for her, allowing her to escape death.

So, one could say that since Qiu Bai birthed consciousness, she had been tangling with Ling Ren.

During this period, Ling Ren killed her 12 times, leaving a psychological barrier in her heart.

This was also the reason why Qiu Bai was quite stunned.

Li Xiandao wanted her to kill Ling Ren!

It wasn't that she was worried that she couldn't complete it, but because Ling Ren was still at Human Celestial Realm while Qiu Bai was at Legend Realm Stage 21. She could smash her with one hand.

Qiu Bai realized that, and after following Li Xiandao, she improved really quickly.

Ling Ren and her weren't on the same level anymore.

“Master, Qiu Bai accepts your orders!” Qiu Bai nodded her head. She knelt down on one knee and said firmly.

The Northern Region Lord knelt down and said, “Master, Gong Yu accepts your orders too.”

“Eh, go. Be careful. The Ling Family are experts from the Nine Skies, so don’t be careless.” Li Xiandao nodded.

Qiu Bai and Gong Yu left.

Li Xiandao looked on as they left before taking off his mask.

“Did they come down for some other reason or was it because Dalin Temple couldn’t keep a secret?” Li Xiandao started to guess.

Although there was a high chance that they had come for the Dragontooth Rice, what if that wasn’t the case??

So, Li Xiandao sent Qiu Bai to ask Ling Ren. After she found out, she could just kill her to take revenge for her coming to Eternal Land in the first place.

“Apart from the Ling Family, how many others came down?” Li Xiandao frowned. He closed his eyes and communicated with the Dao.

At the moment, Li Xiandao had exceeded Legend Realm Stage 33 and reached a peak.

He was improving every moment and even when he breathed his cultivation was increasing.

This wasn’t an exaggeration. When Li Xiandao looked at the seals on the Seal Mountain Peak, the more he saw them, the more he comprehended.

His realm was galloping forwards without turning its head back.

Now, when Li Xiandao closed his eyes, his soul would be able to immerse with heaven and earth, connecting with the Dao.

In the ocean of the Dao, Li Xiandao could swim freely.

Li Xiandao was searching for whether or not there was anyone who had snuck down.

He couldn’t see with his naked eye, but when his soul merged into heaven and earth, Li Xiandao could sense it.

As long as someone tried to sneak down at this time, Li Xiandao could use the traces to find them.

Even if these people tried to hide, they would be focusing on the world laws and not on a specific person.

The world laws wouldn't focus on a certain place like Li Xiandao. Its scale was huge and really orderly. It would be in charge of the entire world which was why Li Xiandao could stare at them and find them but the world laws couldn't.

The Dao ocean was really calm and Li Xiandao's soul sat silently within in a vast Dao ocean.

Hong!

Suddenly, huge waves rose up in a certain part of the ocean.

But in an instant, the giant wave stopped.

It was as if nothing had happened at all.

The world laws wouldn't be wary because of a slight Dao ocean fluctuation.

But Li Xiandao would.

He sat up and looked in that direction.

Eternal Land!

It was still over at Eternal Land!

Li Xiandao couldn't understand what was going on, "Is the Dragontooth Rice going to appear in Eternal Land?"

Otherwise, why are all of them running towards Eternal Land?

Li Xiandao's soul was like lightning that shot towards the wave. As expected, someone was sneaking over.

Not one!

But a group!

Li Xiandao focused and saw that they were from the same sect!

Dalin Temple!

Li Xiandao was delighted. This was fate. He just decided to stare into the Dao ocean and saw Dalin Temple people sneaking over.

Fate was just so hard to describe!

Chapter 249: World Crosser Die

The Dao ocean was far away from the actual world but it was still tightly connected with it.

Dalin Temple was sneaking over.

Li Xiandao noticed them over in the Dao ocean but they didn't sense Li Xiandao.

At the peak of a giant mountain was a Buddhist temple. There were a few monks in the temple.

Around the temple were farmlands and vegetable gardens. Dozens of monks were living here and all of them lived simple lives.

The people around all knew about the hall and also about the monks here.

The monks were ordinary people and the civilians would often offer up incense.

Everyone thought that this was an ordinary temple.

No one knew that this place was actually the backup plan that Dalin Temple laid out 3,000 years ago.

After stabilizing themselves in Ancient Buddha Land, the higher-ups in Dalin Temple were worried that if Dragontooth Rice didn't appear in Ancient Buddha Land, then wouldn't they have lost out?

So, they started to lay out their plan, letting one of the disciples they recruited in the Ten Lands enter the various worlds to build temples. They just had to ensure that they could lead down the Dalin Temple monks from the Nine Skies.

Dalin Temple's hand was beautiful.

After Dalin Temple in Ancient Buddha Land was destroyed, although Dalin Temple in the Nine Skies was furious, they were planning in secret on how to descend to the other worlds.

What they didn't expect was that they would meet Li Xiandao once more.

....

Li Xiandao didn't attack right away and just watched on quietly.

These monks were chattering and talking about their own thoughts.

Li Xiandao heard many secret techniques.

"We have finally descended peacefully. The various masters said that there is a high chance that the Dragontooth Rice will descend in Eternal Land. Is that true?" A middle-aged monk asked.

His cultivation exceeded Legend Realm Stage 33. He was actually on the same level as Liu Qingfeng.

People who could come down shouldn't have been too weak, otherwise, why would they bother to come down?

"It is true. News of Dragontooth Rice has spread out. Not only us, but people from other worlds and powers have also sent people down. We have to be careful." A monk nodded.

"Why would it spread? We have planned for this for 10,000 years." An old monk sighed and said regretfully.

If nothing unexpected happened, Dragontooth Rice would definitely be theirs.

But if you didn't want accidents to happen, accidents would definitely happen.

First was the people who Li Xiandao led to destroy Dalin Temple in Ancient Buddha Land. That was their biggest base.

Then, news was spread out and numerous powers all wanted a part of the spoils.

All of this was bad news for Dalin Temple.

If not for the backup plan they laid out 3,000 years ago, they would have only been able to watch and not participate in all of this.

"The people who came down must be amazing. I also heard that Huntian Path's little demon has come too." A monk was worried.

"Not only that, but all the geniuses have come. Heaven Slaying Sword Sect's top sword master Liu Mingyue, Aotian Sect's Aoju, God Spirit Sect's Gu Ling, Emotion Desire Sect Bei Yu, and also Big River Sword's descendant is also here..." A monk counted.

"If we fight them, can we win?" Someone asked worryingly.

"We won't fight them. There will definitely be a lot of Dragontooth Rice. We don't need to get much, just a few grains and we can slowly plant them." An eagle-shaped nose, old monk with a dark gaze said.

"Right, our goal is to kill that arrogant fellow. He dared to spoil our Dalin Temple plans and stop us from coming down. He is just asking for death!" A muscular monk shouted.

The monks all around were pumped up.

"Although Dalin Temple isn't considered strong up in the Nine Skies, we aren't weak either. He actually dared to humiliate us like that."

"He is even a lowly world cultivator. He is just asking to die."

"This person has to die. Even if he is strong, with Master Bowen and Master Beili together, he will definitely die."

"Right, he will definitely die."

"How are we going to find him?"

"There is no need to worry. Since he is so strong he will definitely appear. When it happens, we will directly kill him." Master Bowen was the eagle-nose shaped monk and he spoke with a cold tone.

When Li Xiandao heard this, he had a rough understanding of the situation.

As expected, Dragontooth Rice was going to appear in Eternal Land.

News of it had also spread out and many powers wanted a part of it.

Of course, Dalin Temple's main goal was to kill Li Xiandao and then get a part of the prize.

"Since that is the case, then how can I disappoint all of you?" Li Xiandao muttered. His soul returned to his body. He opened his eyes and placed the mask on his face.

The soft mask stuck to Li Xiandao's skin. The black and white ink made Li Xiandao look much more elegant.

In the next second, he was about to step forwards.

Hong!

An extremely complicated six-colored, star seal appeared. It was made up of many Dao threads.

Space Crossing Seal.

Right as Li Xiandao was about to step forwards, Seven walked over and asked, "Where are you going?"

"To kill someone!" Li Xiandao said really simply and his body disappeared.

Seven muttered, "Which unlucky fellow offended him?"

....

In an unnamed Buddhist hall on an unknown mountain, a number of monks were gathered together and discussing the previous topic.

"When that person appears, I will twist and break his neck. I will rip his intestines out and tie a knot with his throat. I will let him know how amazing the Dalin Temple is." A muscular and giant Master Bei Li said ferociously.

If not for his bald head and monk clothing, he would have looked like a butcher.

"Now that I am here, how are you going to break my neck and rip my intestines out?" Li Xiandao appeared on the stone steps and heard these words. He laughed coldly.

"Who is there?" Master Bei Li opened his eyes wide. He stared at the stone stairs like a fierce bear.

The other monks were staring too and they didn't blink their eyes at all.

Hong!

They could sense that the person who spoke was like a giant ocean, and a terrifying aura surged towards them.

The first to get hit by the aura was Master Bei Li.

Explosion!

He only felt that the aura was really strong and it made him back out. At that moment, it felt like he had seen a giant star that struck him with a really scary power.

Master Bei Li shook and returned back to his senses. What he had seen just now were just illusions.

“Who are you?” Master Bei Li hollered in rage. Thick black hair stood up all over his body and he felt threatened.

A lethal threat!

Da da da!

Footsteps spread forth as Li Xiandao walked up the stairs, “Am I the reason why you came down?”

“But, all of you have forgotten that I said that all world crossers would die!” Li Xiandao spoke in a cold and sinister tone. His gaze was really sharp.

Chapter 250: Talisman Sword

Li Xiandao’s words were like a slap to these people’s faces. It caused Master Bei Li’s face to become red and he was filled with rage.

“A lowly world cultivator like you dares to say such things?” Master Bei Li stared at Li Xiandao in rage. He couldn’t hide the flames of anger within. He was infuriated by Li Xiandao’s statement about how people who came down would die.

The other monks who were angered all stared at Li Xiandao in an unfriendly manner.

Who were they?

They were monks from Dalin Temple from the Nine Skies. They were monks that Dalin Temple spent a lot of effort nurturing, so weren’t they much nobler than a lowly world cultivator?

The Ten Lands was just a place where trash was gathered.

If Dragontooth Rice hadn’t appeared in the Ten Lands, people from the Nine Skies wouldn’t even bother to look down.

“Your aura is strong but you are still a cultivator from the Ten Lands. What gives you the right to be so arrogant in front of us?” Master Bowen said coldly.

Although they were shocked at Li Xiandao’s aura, were they afraid?

No one believed that Li Xiandao alone could kill all of them!

Especially with Master Bei Li and Master Bowen here who was quite strong even in the Nine Skies.

It was hard for Li Xiandao to fight his way out of it!

“You seem to look down on the Ten Lands like all the cultivators in the Ten Lands are trash but you are all now in the Ten Lands and are restricted by the world Dao. Can you use all your strength?” Li Xiandao was filled with disdain. He was facing over 30 monks alone but he feared nothing.

Dalin Temple sent 20 people and along with the dozens from before, there were a total of 30 monks surrounding Li Xiandao.

White clouds surrounded the mountain peak and a cold wind blew. Sunlight shone down like a Buddhist light.

When Master Bei Li saw this, the fear and terror in his heart towards Li Xiandao lessened significantly.

“Even if we are unable to use all our strength, it is still really easy to kill you.” Master Bei Li said coldly as he clenched his fists.

“Is that so?” Li Xiandao laughed calmly and waved his hands.

“Come, you can have a try!”

“Let’s see if all of you can kill me so easily.” Li Xiandao always felt that rather than talking big, it was better if they just fought.

“Okay, I will come and kill you!” Master Bei Li’s muscular body stopped and then flames rose up. His True Qi was exploding.

Dong!

Master Bei Li stepped out and the ground caved in. His body shot forwards towards Li Xiandao.

When the giant and burly man ran forward, it just looked like a black wild boar charging.

Explosion!

Aggressive like lightning and explosive like flames!

In the next second, Master Bei Li was in front of Li Xiandao. His momentum and explosiveness turned into a fist.

Great Strength Panwu Fist.

Panwu was an ancient expert who comprehended heaven and earth, refining it into the four seasons and yin yang. He turned it into a technique that became really famous!

Great Strength Panwu!

This was his technique.

Great Strength Panwu Fist was a strong fist technique that Master Bei Li learned. He also used this technique to become famous in Dalin Temple and was given the title of Master.

Master Bei Li paid a lot of attention to Li Xiandao!

Or rather, he was scared off by Li Xiandao's aura and a terrifying thought appeared in his mind.

He had to quickly kill this mysterious, masked man.

If not, the outcome would be catastrophic!

Although he didn't know what gave him that feeling, Master Bei Li believed it. The moment he attacked, he used his purest and strongest technique.

Great Strength Panwu Fist.

Hong!

This fist was filled with Master Bei Li's terrifying momentum and along with his own strength, he was able to utilize the power of Great Strength Panwu Fist.

Three merged into one!

This fist was turned to a giant and terrifying thunder ring!

Explosive fist giving off thunder!

This was a really exquisite fist technique. It was unbelievable strong.

Explosion!

Behind Master Bei Li there was an aggressive aura that turned into a mysterious figure. It was 10 meters tall and really terrifying, opening up a new space.

This was Panwu himself!

Kong!

Master Bei Li's strike had reached the limit that the Ten Lands could accept.

Rip!

The space was ripped open and it looked really shocking.

"Die!" Master Bei Li hollered in rage.

He wanted to smash Li Xiandao's brains.

Explosion!

At that moment, Li Xiandao felt like he was facing an apocalyptic world.

The power of an entire world surged in front of him.

Li Xiandao focused and then raised his hand, "For all you world crossers, I prepared a sword. Please taste it!"

The sword energy all around Li Xiandao surged into his fingers.

Sizzle!

Sword energy provoked the surrounding space. Numerous threads of sword energy appeared and each one of them was like a true sword.

The key was the sword in Li Xiandao's hand.

Many Dao patterns from Li Xiandao's body surged into that sword.

Rip!

The space 10 feet around Li Xiandao was ripped open and the space currents ravaged the area.

Li Xiandao's clothing rustled and his hair danced. But he still stood tall like a spear.

Only by standing still could one's sword be stable!

Numerous Dao patterns surged into the sword and Li Xiandao learned them all on Seal Mountain Peak.

Could defensive seals turn into attacks?

Li Xiandao felt like they could!

The best defense in the world was to kill your enemy and wipe out danger from the very start.

So, defensive seals were sharp swords in Li Xiandao's eyes.

Talisman Sword, First Style!

Defensive Sword!

This was the sword technique that Li Xiandao spent three days in Seal Mountain Peak creating.

When he said that he was improving every second, he wasn't bragging.

Li Xiandao was really improving!

Clang!

A sword flew out from his fingers.

The sword was five feet long and it didn't have an actual handle. The handle of the sword was Li Xiandao's fingers.

Talisman Sword First Style!

This was the first time Li Xiandao had used it.

Hong!

He stepped forwards and pointed forward.

The Talisman Sword smashed into Master Bei Li's Great Strength Panwu Fist.

Explosion!

The two of them used strength far more than the limits of this world. This clash ripped a huge hole in the sky.

Like a storm, it swept the surrounding area and covered some of the ordinary monks.

At the center, Li Xiandao pointed right at Master Bei Li's fist.

Kacha!

The sound of broken bones rang out and reverberated in their ears.

Li Xiandao's body didn't change and his fingers didn't even shake. One couldn't see any expressions from his covered face either.

From his eyes, one could detect a bit of mocking intent.

"You have lost!"

In the next second, a terrifying power exploded out from Li Xiandao's fingers.

Hong!

Master Bei Li was shot forward and he coughed up blood. His arm was sliced off by Li Xiandao and blood spurted all over the ground.

Chapter 251: Wipe Out

Translator: Exodus Tales Editor: Exodus Tales

One sword!

Just one sword!

Master Bei Li's arm was sliced and he was forced back. He spat out blood and smashed into the ground. With his giant body, he opened up a big hole in the ground.

Dust covered the sky!

Smoke bellowed!

Everyone present was stunned!

Out of the two people who clashed, one smashed into the ground and was moaning in pain.

The other calmly stood there. He was uninjured and really relaxed.

It was as if nothing had happened at all.

This comparison was too intense; it made it seem like an adult was bullying kids.

But in truth, Li Xiandao should have been that kid, and he was a kid who had grown up in the poor countryside.

Master Bei Li was an adult, an adult who grew up in the Nine Skies.

“My arm, my arm!!!!” Master Bei Li cried out in pain. In the giant hole, he pressed his broken arm and was filled with disbelief.

His arm was broken which meant that he had lost a large portion of his combat strength, especially since he used his fists to fight!

Unless he found a herb or he cultivated a rare cultivation technique to repair his injured body, he could only wait till the moment he turned into a celestial to recover his injuries.

This was why Master Bei Li was crying out in pain.

Two monks went to help Master Bei Li up. He stared at Li Xiandao with his ashen white face and he didn't dare believe that this was all true.

“Why?”

“How can a cultivator like you who's born in the Ten Lands be so terrifying?”

“How did I lose so badly?” Master Bei Li questioned Li Xiandao.

“Why?” Li Xiandao smiled calmly.

“That is because you are too arrogant!”

“Each world has different rules, and since you are in the Ten Lands, you have to follow the rules here. You are being restricted here and my strike only sliced off one arm. The next one will take your life.” Li Xiandao smiled coldly.

The rules of the Ten Lands stipulated that one's power couldn't exceed the limit of the world.

Once one used strength that exceeded the rules, lightning would descend. Those weaker ones would die right away!

Of course, if you could handle the lightning, then you were free to use power exceeding the laws.

But, Master Bei Li was not such a person.

He didn't have the ability to block lightning which was why his strength was suppressed at the upper limit of the Ten Lands.

This upper limit was the reason why he had lost.

The Great Strength Panwu Fist was amazing but it wasn't at its full strength.

Li Xiandao was filled with regret.

Master Bei Li smiled unwillingly, "I didn't expect that I would lose."

He was not happy. If he went all out, the person who lost would definitely be Li Xiandao.

Li Xiandao looked at him and smiled, "You mustn't be thinking that you can win me if you attacked me at full strength, right?"

"Isn't that the truth?" Master Bei Li stared at Li Xiandao with a vicious gaze.

"What a joke!"

"You didn't use your full strength and I did?" Li Xiandao mocked and looked at them in disdain.

"What, you didn't use your full strength?" Master Bei Li stared at Li Xiandao in disbelief.

Even Master Bowen's expression that was dark and sunken changed. Li Xiandao was actually hiding his strength?

Where did this mysterious masked man come from?

Why was he so strong?

"I came here to kill you. Without some strength, why would I dare to come alone to kill all of you?" Li Xiandao stepped out and said coldly.

Keng keng keng!

Many streaks of sword energy appeared around him.

Shinra Sword Domain!

At that moment, Li Xiandao's aura was on full flow!

He didn't want to delay anymore. He wanted to kill all of them and he had to speak so much nonsense. That was already enough.

Li Xiandao didn't want to speak so much to the dead!

Peng!

Another step. Li Xiandao's aura became even stronger and more terrifying.

"You... You want to kill all of us?" Master Bowen's face was green and he gritted his teeth.

"I have said this many times!" Li Xiandao sighed helplessly.

"But it seemed like each time you have ignored my words." Li Xiandao felt helpless.

"I shall emphasize once more!" Li Xiandao's gaze became cold.

"World crossers will die!" Li Xiandao lifted a hand.

Keng keng keng!

Keng keng keng!

Sounds of swords ringing reverberated throughout, making one look on in terror.

Behind Li Xiandao, tens of thousands of swords stood straight up in the air and pointed at all of them.

At that moment, Li Xiandao was a sword celestial.

Master Bei Li hollered, "Master Bowen, attack! If you don't, then we are all dead!"

Master Bowen nodded and said firmly, "Attack together. I will lead and all of you follow closely behind to kill this person. I don't believe that he dares to direct lightning down?"

Hong!

Master Bowen didn't hesitate and attacked right away. His fist was simple and direct, changing from dull to bright and eye-catching. It turned from dark to golden. This was a change of form.

Platinum Fist!

This was a Buddhist fist technique. The fist was shining gold and a dozen meter tall Buddha appeared in the sky. It did the exact same thing as Master Bowen and punched down.

Master Bowen was going all out.

He led the way and the 19 other monks who came down hollered in rage. They charged forwards and showed off their own techniques.

The weakest person here was nearly as strong as Liu Qingfeng and was definitely stronger than those at Legend Realm Stage 33.

All of them attacked instantly without hiding their own strength so as to kill Li Xiandao.

Explosion!

Each one of them gave off a terrifying aura which when accumulated together could shake mountains, shatter clouds and crush oceans...

"Not bad, not bad." Li Xiandao wasn't shocked. Instead, he was filled with joy. He nodded in satisfaction.

"It would be problematic if I had to kill all of you one by one. Now that all of you are here, it has reduced the effort I have to put in." Li Xiandao flew up slowly. Tens of thousands of swords floated around him.

"Die!" In the next instant, Li Xiandao waved his hand and all the swords flew out.

Explosion!

At that moment, a dozen meter wide lightning hacked down from the skies above Li Xiandao's head. It smashed into Li Xiandao's body, causing him to shake slightly.

The power exceeded the upper limit and Li Xiandao was punished.

But he used the strength of his physical body to block it.

This was the most shocking part.

Master Bowen was astonished and what he felt next was endless despair.

"No..."

He hollered in rage and was drowned under Li Xiandao's 100,000 swords.

Even the illusionary Buddha was turned into a porcupine.

Explosion!

The entire mountain peak was turned into a strong and beautiful sword energy ocean.

Li Xiandao himself instantly retracted the power after the lightning shot down, letting the lightning punishment retreat.

Chapter 252: Clone And Real Body

Corpses were laid strewn all over the mountain peak. The people from Dalin Temple who came down were once again wiped out by Li Xiandao!

“Why didn’t they take me seriously?” Li Xiandao sighed. He shook his head before leaving.

A complicated, six-colored star seal appeared in front of him.

Li Xiandao’s body disappeared and he returned to the Bank of the Universe.

“How is it on Qiu Bai’s side?” Li Xiandao sat on the chair and thought about it.

With a thought, a video appeared in front of Li Xiandao.

It was Qiu Bai and Northern Region Lord Gong Yu.

They found Ling Ren!

....

Ling Ren’s family was a huge family and they had their own faction above in the Nine Skies.

Big families respected guys more than girls and they paid attention to legacy. This was why Ling Ren didn’t have a good childhood and she left the family when she was around 10 years old. She left her home before she met the Northern Region Lord and then all those things happened.

Once Ling Ren returned, she had totally changed. She used her own advantages to gain resources and enter Human Celestial Realm. Even if she was a woman she obtained some power.

Ling Ren was a special person in Ling Ren. She had power but was unable to decide any Ling Family matter. Most of the time she was alone.

After all, she had a reputation.

Qiu Bai had Ling Ren’s memory and knew where Ling Ren would be in the Ling Family.

She led the Northern Region Lord Gong Yu straight to a manor.

This was the place she went into seclusion to cultivate. No one would disturb her and she could be free.

“Ling Ren loves this place. As long as she is free or feels annoyed, she will come here alone and clear her thoughts.” Qiu Bai said towards the Northern Region Lord Gong Yu.

The Northern Region Lord Gong Yu nodded and said, "You enter. I will help you guard the area."

Qiu Bai nodded. She knew that Northern Region Lord Gong Yu didn't want to see Ling Ren after all their history.

Although they hadn't contacted each other for 10,000 years, it felt weird for the Northern Region Lord to meet Ling Ren and even kill her.

Qiu Bai said firmly, "This is the grievance between her and I. She has killed me 12 times and I only need to kill her once."

The two of them were unobstructed while they roamed on Ling Ren's land.

Qiu Bai and Ling Ren looked the same. Even if their aura was different, no one dared to stop her.

There were even people who pointed and gossiped behind their backs.

"Who is that guy?"

"Who knows? He's probably Ling Ren's new man?"

"It has been a long time since I have seen her bring someone. I thought that she would have changed, but it seems like she is still the same."

"Those words were right. A leopard can't change its spots."

"If old ancestor finds out, you are finished."

"She can do it but I can't talk about it? She had ruined Ling Family's reputation. If she wasn't stronger, she would have been chased out."

They quietly discussed and they ensured that people from Human Celestial couldn't hear.

But since Qiu Bai and the Northern Region Lord were both Legend Realm, naturally they heard everything.

Northern Region Lord Gong Yu sighed and shook his head. He didn't want to say anything.

Gong Yu came to a dojo expressionlessly.

This was a bamboo ocean with all sorts of bamboo, some green, some purple, some black...

In the middle was an exquisitely designed hut. In front of it was a crescent lake and around it were wooden bridges. This was the place that Ling Ren loved.

One felt really peaceful living here!

Once Qiu Bai arrived here, she walked in.

The Northern Region Lord stood outside and didn't enter.

Although she had never came here before, Qiu Bai knew this place like the back of her hand. She was too familiar with this.

She walked to the bamboo hut and looked at the girl laying in the water.

This girl looked the same as Qiu Bai but just much more mature. She dressed really bold and she showed off a lot of her body.

Qiu Bai on the other hand was pure.

Ling Ren was mature.

"You?" After Ling Ren noticed Qiu Bai, she gritted her teeth.

"That's right, it is me!" Qiu Bai nodded her head.

"You dare to walk in front of me?" Ling Ren laughed coldly and stared at Qiu Bai with an unfriendly gaze.

"You personally created me, so why do you call me a fake?" Qiu Bai asked.

"I shaped you myself and I can kill you myself too. I just wanted you to learn some special techniques in Ancient Desolate Land for me to reference. I didn't let you give birth to your own consciousness." Ling Ren raged.

"You can't control that and neither can I. Moreover, maybe my birth was a good thing for you." Qiu Bai walked in front of Ling Ren. The two faces got close to one another, one pure, one seductive. One was a white lotus and one was a black fungus.

"Good?" Ling Ren laughed coldly and slapped.

"You know all my secrets. How is that a good thing?" Ling Ren shouted.

But Qiu Bai moved forwards. Her chest smashed into Ling Ren's chest right away.

Hong!

Ling Ren was smashed into the lake.

"The masses know everything that you did. Do you think you have been keeping things secret?" Qiu Bai was ice-cold.

Ling Ren stared at her in rage. She didn't expect for this to happen.

"Your cultivation?"

Qiu Bai laughed, "Our relationship is swapped now. My cultivation is higher than yours. You killed me 12 times and I don't need so many. I just need to kill you once."

"You want to kill me!" Ling Ren was shocked. She recalled that immense power and her heart felt cold.

"You can kill me because I am the clone. But if I killed you, you are the clone." Qiu Bai nodded as terrifying power appeared in her palm.

"B*tch, who gave you your body?" Ling Ren screamed.

"Die! From now onwards, I am me and I have nothing to do with you." Qiu Bai was furious. She grabbed Ling Ren and smashed her.

Hong!

Ling Ren's body instantly lost all defensive abilities after being struck by someone at Legend Realm Stage 21.

Her limbs felt soft and her body became old quickly.

A beautiful girl instantly became an old woman.

Ling Ren looked at Qiu Bai in despair.

"Tell me, why did the Ling Family come down?" Qiu Bai asked.

Ling Ren gave a tragic laugh, "I don't know but you won't get anything from me."

Qiu Bai's gaze turned cold and she said, "Do you believe that I can tell the entire Eternal Land about what you did?"

Ling Ren stared at Qiu Bai and said with a hoarse voice, "Life ends in the same way as a lamp when its flame is extinguished. The comments of people are nothing to me. I won't know about any of it."

Qiu Bai stared at Ling Ren in annoyance.

“Kill her. There is no need to find out anything.” Li Xiandao watched on and transmitted his voice.

Qiu Bai was stunned. A fierce glow appeared in her eyes. The energy in her palm exploded and she shattered Ling Ren’s heart.

Pui!

Ling Ren’s body shook and she trembled a few times before she died!

Chapter 253: Burning God Spirit Meridian

Ling Ren didn’t expect that she would die at the hands of her clone.

She killed Qiu Bai 12 times and succeeded once. But 50 years after her death, Li Xiandao saved her.

Qiu Bai only needed to kill her once and then she was dead.

No one would come to save her.

Maybe when she was young she would have a chance, but now Qiu Bai had shattered her aura and she had weakened and grown old. Even if she died here, no one would know about it.

Qiu Bai looked at Ling Ren’s corpse and had an indescribable feeling.

Simple!

In the end, she sighed. Qiu Bai felt much more relaxed and the chains weighing her body down were taken away.

From now on, Qiu Bai was alone and she wasn’t anyone else’s clone.

She walked out slowly from the bamboo ocean. Qiu Bai and the Northern Region Lord didn’t communicate with each other as she needed to calm herself down now.

The Northern Region Lord understood. He reached out and drew a six-colored star, bringing Qiu Bai away from Ling Family!

....

Within the Bank of the Universe, Li Xiandao sensed their return. He was in deep thought.

“There are still three months til Dragontooth Rice appears. Within these three months, all of them have to cultivate.”

Li Xiandao didn't have a single person who had reached the world limit.

Li Xiandao wanted to be a mastermind, the big boss. He just wanted to send people over to handle the situation while he just looked on quietly.

This was why Li Xiandao needed strong subordinates.

But now, he didn't have a single usable helper.

Although all of them were really talented, without exception, they cultivated for too short a time.

This was why Li Xiandao burned 10,000 years to allow them to improve themselves.

This time, Li Xiandao was planning on burning the other 10,000 god spirit meridians that he had.

Anyway, he was unable to unlock the 5th mountain.

Seven mentioned that in the Ten Lands, unlocking four mountains was the limit. The 5th mountain peak would require an ocean of god spirit meridians.

This was why there was no point in leaving the god spirit meridians, so why not just burn them?

“Listen up, I will burn 10,000 god spirit meridians to increase the energy here to raise your strength. All of you must take this chance to improve yourselves.” Li Xiandao's voice spread throughout the entire Bank of the Universe.

Each of them became really emotional. 10,000 god spirit meridians would provide so much energy.

Everyone quickly entered their cultivation modes and waited for Li Xiandao to burn the god spirit meridians.

Li Xiandao came to the Seal Mountain Peak and at the top, he released the 10,000 god spirit meridians.

Kong! Kong! Kong!

The 10,000 god spirit meridians were like dragons roaring in the Bank of the Universe. They surged into each and every corner to raise the density of the spiritual energy.

Explosion!

The spiritual energy in the Bank of the Universe doubled instantly, tripling in a minute and increasing ten times in five minutes.

It continued...

It lasted for a long time and everyone in the Bank of the Universe could sense the spiritual energy changing.

This meant that each breath would have dozens, even 100 times more spiritual energy than before.

Cultivating in such an environment for a long time would make it so easy for one to improve.

At this moment, the Bank of the Universe was in total silence.

Everyone was cultivating and improving themselves.

The people that benefited the most were the seven monsters.

They had been suppressed for 8,000 years and their bodies were damaged. It was really difficult to recover.

But with the thick spiritual energy, they were delighted and danced in joy.

The flood dragon roared and coiled around a giant stone. It raised its head and absorbed the thick spiritual energy around to replenish its core.

The mule spread its legs out and ran to an empty hill. Like a human, it sat cross-legged with its front hooves facing the sky. Spiritual energy seeped into each part of its skin.

Demon Frog was also absorbing spiritual energy and cultivating to try to reach the limit of the world.

Barbaric Cow was delighted, "I knew that our Master was amazing. He is just so generous, burning 10,000 god spirit meridians just like that."

"That is right. How can my master not be generous?" Heaven Swallowing Dog danced in the spiritual energy ocean and was really delighted.

"I have followed the right person." God Eagle opened its wings and absorbed spiritual energy into its body.

“Big brother was the decisive one.” Pangolin was really emotional. It dug holes and led spiritual energy into its body.

They were recovering at a visible rate, and in just a short while, they would be able to reach their peak. With their 8,000 years of comprehension, they would be able to break through right away.

Li Xiandao would have many more experts under him.

Each one of them cultivated crazily and only Tian Guangming came to find Li Xiandao.

“Master, please help me fix my god divinity.” Tian Guangming was in a bad state. He felt really bitter and couldn’t say anything.

He found a divinity with much difficulty but it was female.

After wiping the soul away, the divinity provided him with power, and like a puppy peeing, it was extremely slow.

This made Tian Guangming feel really emotional about the tough life that he was facing.

On Seal Mountain Peak, Li Xiandao was preparing to comprehend the seals but Tian Guangming was here. He seemed so pitiful, so Li Xiandao had to worry about him.

Hong!

He slapped Tian Guangming’s body and shot his soul out of his body.

Li Xiandao started to make a move on his divinity.

“Bear with it, don’t move. If the soul is injured you will become even more abnormal.” Li Xiandao said calmly.

Tian Guangming was shocked. He didn’t move and even though it hurt, he had to bear with it.

Li Xiandao studied the divinity and ripped it open bit by bit. He realized that due to the difference between the way men and women thought, many places here were being blocked up.

Li Xiandao opened up all the blocked areas, and each area opened would cause Tian Guangming to feel so much pain that his arm shivered. He bore with it such that his soul didn’t shake at all.

Luckily, Li Xiandao was quick and quickly helped smooth everything out. It went from a small stream into a flooding dam.

Explosion!

Energy surged and terrified Tian Guangming. He had never experienced such quick treatment.

“Thank you, Master! Thank you, Master!” Tian Guangming thanked him and left in satisfaction. He was going to head back to cultivate and chase up to Heaven Heart and the others.

Li Xiandao watches as Tian Guangming left before muttering, “Will his cultivation suddenly go insane?”

Li Xiandao pierced open the divinity that had been suppressed for so long. Whether or not Tian Guangming would rise up to the top and improve quickly was a problem.

Li Xiandao looked forward to it.

He placed his target on Seal Mountain Peak in front of him.

Li Xiandao started to look at each one of them.

They were of various forms and types. From the most simple to the most complicated, Li Xiandao stood with his arms behind his back and looked on silently.

He memorized them all.

Chapter 254: 3 Months

On Seal Mountain Peak, Li Xiandao was immersed in learning.

Spiritual energy in the entire Bank of the Universe had become really thick and everyone was absorbing it crazily.

Only Li Xiandao and Seven didn't.

Li Xiandao had reached the world limit and if he continued to cultivate, he would be the first to ascend.

But without the Dragontooth Rice, Li Xiandao didn't want to.

Seven couldn't cultivate and couldn't leave the Bank of the Universe, so she just looked at Li Xiandao silently.

Li Xiandao was looking at the dazzling seals. It included everything in the world and could be pieced and combined together.

For a full 10 days, Li Xiandao memorized all the seals here.

They were kept deep in his mind.

Li Xiandao thought that this was enough and he would be able to merge them into his sword techniques.

But after seeing them all, Li Xiandao felt that he was too young and innocent.

The seals were the most basic thing and comprehending them was the same as understanding how to read. You would know what the word meant and how it was read, but the moment it was combined with something else, you wouldn't understand anything anymore.

Not to mention joining dozens of words to form a sentence, even hundreds to form an essay!

It was the same thing for seals!

Li Xiandao realized that he was too innocent.

The Seal Mountain Peak recorded the basics and even if he learned it all, Li Xiandao wouldn't become strong.

He needed to continue researching and studying it.

This would take a long time.

Li Xiandao was able to put his heart to it. The time for Dragontooth Rice to appear wasn't far away and he spent his days here comprehending the seals.

One seal was paired with another.

Three seals combined

Five seals!

Their strengths were all different. The more laws, the better they were matched, meaning that the strength would increase.

But one had to look at the element, the compatibility, and many other things.

Li Xiandao's all-knowing talent fully exploded at this moment and he started to analyze things from the source.

Bit by bit, sliver by sliver, line by line...

Seals were being broken down. Since Li Xiandao knew the theory, it was much easier to merge them.

Li Xiandao sat on the Seal Mountain Peak open to the elements. He was like a rock that didn't move. Many seals would appear around him which would swiftly turn to dust.

Occasionally, some would merge together and pair up to form sword energy. But those would also dissipate...

Li Xiandao was experimenting. There would be tens of thousands, hundreds of thousands of combinations being born and destroyed every second.

Li Xiandao silently took all of it in.

He was dashing towards a terrifying realm without anyone noticing.

Only Seven noticed.

Li Xiandao sat there for three months while Seven accompanied him for that time.

Three months ago since Li Xiandao started, he hadn't taken a break till now.

Seven witnessed all of this and felt really happy. Li Xiandao was working hard and such comprehension would definitely give one a headache. Even if he had the all-knowing talent, he needed to rest.

But Li Xiandao didn't rest at all; he just continued to experiment and comprehend.

Now, even the all-knowing talent was smoking and sizzling.

Li Xiandao still continued!

This determination was one that normal people didn't have and that impressed Seven.

....

Three months after all of them started to cultivate, a huge change occurred in Eternal Land.

Many experts came down. Eternal Land had been peaceful in the past, but now, every two to three days, there would be a huge battle.

Ling Family realized that Ling Ren was dead, but they couldn't find the killer. After dealing with it hastily, they stopped bothering.

The important thing was the Dragontooth Rice!

Three months had passed and the Dragontooth Rice was about to appear.

It might happen tomorrow or the day after or in the next second.

The various sides started to split land to rule.

No one knew where the rice would appear, so they could only try their luck.

Many wars occurred during this period and one after another, experts rose up.

Among them was Huntian Path's little demon, Heaven Slaying Sword Sect's Liu Mingyue, Aotian Sect's Aojue, God Spirit Sect's Gu Ling, Emotion Desire Sect's Bei Yu, and Big River Sword's inheritor...

These people stood out from those who came down.

Of course, the native experts here in Eternal Land occupied one of those positions.

Liu Qingfeng was one of them!

He didn't fly up.

Or rather, before he was able to, he was terrified by these people.

Liu Qingfeng's cultivation could be considered the top out of those in Eternal Land but against those who came down, he was weak.

But he used the mountain protecting formation to defend against many of them.

Of course, there were other people who were famous but compared to those from the Nine Skies, there was still a gap.

The entire Eternal Land was drowned in fights and squabbles. Feather Transformation God Dynasty was too weak and didn't join in, turning a blind eye to save themselves.

During these three months, all the factions in Eternal Land were washed out and they welcomed new masters.

But those were the faction; the normal civilians lived the same way, experiencing the different flavours of life.

Tian Heng's family wasn't affected by all this.

Since the Feather Transformation God Dynasty battle, Tian Heng brought his wife Wen Xinyun, father Tian Yun, and daughter Tian Ya to move to a small town near the ocean.

They lived happily here. Tian Heng built a large boat to bring the family out to play out at sea.

For these three months, the family was really happy and peaceful.

Three months later, Wen Xinyun became pregnant.

Tian Heng was about to welcome his second child and Tian Ya was going to have a brother.

Tian Ya was happy for a period of time and another thought appeared in her mind.

"Father and mother are about to have a son and I am old enough. I should be independent and not continue acting like a baby." Tian Ya's rebellious phase was here.

She didn't want to be a baby and wanted to find her Granddad Deity.

"Granddad Deity said that we wouldn't meet again. How is that possible?" Tian Ya pouted.

Apart from her parents and grandfather, Granddad Deity treated her the best.

This was why she had to see him.

"I need a watch to meet him. Without it, I won't be able to find him." Tian Ya was smart.

She knew that to search for Li Xiandao without a purpose would be like finding a needle in a haystack.

Only with a watch could she meet Li Xiandao.

Coincidentally, when Tian Ya was talking to her new friends, she heard that there was a mysterious thing on the nearby island that gave off a red light.

"Wasn't that the watch?" Tian Ya was delighted. She quickly made up a plan.

She confirmed the path and tool to head over and then left a letter in her room.

After she decided on her plan, she made use of the gap in the day when she was out to play to hire a fisherman to bring her to that small island.

Tian Ya felt that she was about to see her Granddad Deity soon.

Chapter 255: Tianya And Dragontooth Rice

The boatman actually didn't want to bring Tian Ya there.

This was because there were terrifying rumors about that island in the town.

Many people who went there would face extreme danger. The lucky ones would get lost and the unlucky ones would become unconscious.

Some people said that they fell unconscious for three days when they were on the outskirts of the island. When they woke up, they appeared deep in the ocean. Fortunately, that person woke up quickly before he was in a storm.

All sorts of rumors made the boatman really worried.

But...

Tian Ya was rich!

The boatman was not willing to go but Tian Ya gave him too much.

She gave him 30 times the normal price which exceeded half his yearly income. He gritted his teeth and agreed.

Of course, the boatman had thought about hitting on Tian Ya.

But she was a Dao Pursuing Realm expert. With the mysterious lady body, she increased the speed of her cultivation substantially.

This was why after Tian Ya hacked open a piece of stone with a palm, the boatman's thoughts were extinguished and he just rowed the boat.

They set off in the morning and the boat arrived near the island in the evening.

Explosion!

Waves aggressively crashed into the boat which caused the decent-sized boat to shake.

The boatman muttered, "Lady, that black patch is the island. I think you shouldn't go. That place is really dangerous."

Tian Ya looked at it and saw a red glow flash. It disappeared after just three seconds but that was enough to surprise her.

Tian Ya was delighted, "Boatman, did you see that red glow?"

The boatman nodded and said helplessly, "All the more you shouldn't go. That red glow should be from a beast. If we go, we won't even be enough food for it."

Tian Ya obviously wouldn't believe his words. She firmly believed that the red glow was granddad deity's watch.

"Go, we have to go." Tian Ya's small face was filled with confidence. She pointed forwards.

The boatman had no choice but he really didn't want to go.

"If you don't want, then return the god source to me." Tian Ya took out a trump card.

His face froze and he sighed helplessly. He had no choice as Tian Ya really gave him too much.

This was why he had to go!

Hua lala!

The decent-sized boat sailed towards the island.

The red light became thicker and thicker and it lasted longer and longer.

Tian Ya looked on emotionally as she was about to meet Granddad Deity.

But suddenly, the boat stopped there, a distance away from the island.

Tian Ya frowned and realized that he had fainted.

When did he faint? Tian Ya frowned and realized that things weren't right.

That wasn't Granddad Deity's watch!

But...

Since she was here, she wasn't willing to leave just like that.

This was why she used her movement technique to walk on water towards the island.

People at Dao Pursuing Realm could fly in the air for short periods.

Tian Ya gritted her teeth and covered the last part of the journey.

Peng!

Tian Ya landed on the ground and patted her chest. The distance seemed far and there was the danger of her falling into the water.

She wouldn't drown but her beautiful clothing would get wet and she hadn't brought any extra clothing either.

This was why she didn't want to fall into the water.

"I want to see what you are?" Tian Ya walked towards the red glow.

She had a bit of hope. What if it was the watch?

If she didn't take a look, her first time leaving home and executing her own plan would go to waste.

The island wasn't large. In fact, there was no animal on it. Tian Ya spread out her stride and got close really quickly.

"Yi, such big rice grains!" Tian Ya exclaimed and found it unbelievable.

She had eaten a lot of rice in her life but she had never seen such big rice grains.

Just one single grain of rice was bigger than her entire head.

A meter-long rice grain, fat and round, and red. It was stuck to the bottom and this was the one that gave off a red light.

"Are you a monster?" Tian Ya retreated and asked.

The grain of red rice didn't reply.

"Are you an elf?" Tian Ya asked.

The red rice grain didn't reply again.

"You don't know how to speak?" Tian Ya was curious.

"I do!" An old voice rang out calmly.

"Oh, it is an old grandpa. It isn't easy for you to grow so old. What is your name?" Tian Ya asked.

"I am... Dragontooth Rice!" The red rice grain said.

Tian Ya was stunned and didn't know what Dragontooth Rice was.

"How did you come here?" Dragontooth Rice asked Tian Ya.

"I took a boat and then flew over." Tian Ya said truthfully.

"I sealed the area around and anyone that got close would faint. It is a miracle that a brat like you can come here." The Dragontooth Rice was shocked.

"I didn't feel anything." Tian Ya found it weird.

"I think this is fate." Dragontooth Rice muttered.

"What is fate?" Tian Ya asked.

"Come brat, let me give you a treasure." Dragontooth Rice didn't reply.

"Don't hurt me if I walk over. My granddad deity is very strong." Tian Ya warned.

"I won't hurt you." Dragontooth rice agreed.

Tian Ya walked over slowly.

When he was 100 meters away, many red glows appeared beneath her feet and formed a formation.

"What is this?" Tian Ya was shocked.

"Life and death contract!" Dragontooth Rice said calmly.

"What do you mean?" Tian Ya was stunned.

"If I don't die, you won't die. If you don't die, then I won't go extinct. We are bound together." Dragontooth Rice said.

"What? I didn't agree to this." Tian Ya exclaimed and then retreated out of the formation.

"It has already come into effect. We are now one." Dragontooth Rice said calmly.

"You... How can you..." Tian Ya frowned.

"Do you want to know about me?" Dragontooth Rice suddenly asked.

"What's your background?" She frowned and asked.

“A long time ago, people ate my children and grandchildren as food. If they ate them they would grow to 800 and their bodies would be strong.” Dragontooth Rice was proud and spoke of his past glory.

This red Dragontooth Rice was the ancestor of all Dragontooth Rice.

Then, it disappeared and the Dragontooth Rice slowly went extinct. It appeared now but was restricted to the island.

“Since you are so amazing, then why did you sign the contract?” Tian Ya didn’t understand.

“Help me break free and leave this place.” Dragontooth Rice said.

“I will just dig you out then.” Tian Ya walked over and dug the dirt, pushing aside the soil around the Dragontooth Rice.

“As expected, when I try to dig, each grain of dirt is so heavy while it is so simple for you. You are really the fated person.” Dragontooth Rice exclaimed.

Chapter 256: Start Of Chaos

Very quickly, Tian Ya dug the Dragontooth Rice out.

Explosion!

When the Dragontooth Rice broke out, the entire heaven and earth started to shake. It was night but the sky suddenly turned red. It was sunny and there were huge strikes of lightning.

Kacha!

A storm was brewing over the ocean and the waves were huge.

The entire world was momentarily silent due to this abnormality.

Everyone raised their heads to look at the sky.

Lightning struck down like there was something amazing and the heavens had to destroy it.

It was unable to find its target and could only vent its frustration towards the sky.

Numerous experts looked on in Eternal Land.

At the entrance of the Taoist temple, a priest saw such scenes and sighed, "Everything is about to change!"

He then rode his cow down the mountain.

In the cold, northwest land, a muscular man in a black shirt stared at the sky and grinned, "Dragontooth Rice has finally appeared. Let's see where you can run. You will definitely belong to my Huntian Path!"

This person was Huntian Path's Little Demon. He hollered and a dragon-horse flew towards him. It roared and gave off a high class aura.

Huntian Path's Little Demon stepped out and pointed towards the distance, "Let's go, we shall get the Dragontooth Rice!"

The dragon-horse started to gallop forwards. It actually jumped up and shot ahead at extreme speeds.

In the southwest, a proud man carried a spear and strolled forwards, "The spiritual energy in the Ten Lands is too impure and I can't calm myself down. I need to get the Dragontooth Rice and then return to the Nine Skies. This world is like a garbage dump with various kinds of trash that aren't worth a single blow."

The 'Ao' in Aojué's name meant pride. The spiritual energy in the Ten Lands obviously couldn't compare to the Celestial World but it wasn't so bad. But in Aojué's eyes, this was just a rubbish dump.

The environment here was trash!

The people were trash too!

Anyway, everything here was trash and he felt uncomfortable staying here.

This was why he wanted to take the Dragontooth Rice and leave this place.

....

On a cold mountain peak, under the shadow of the lone peak, a person held a sword and looked at the changes in the sky, "Who obtained the Dragontooth Rice?"

"But it is okay. Even if that person got the Dragontooth Rice, he won't be able to get take it away. Not many people in the world can survive from my attacks." the girl was Heaven Slaying Sword Sect's swordmaster Liu Mingyue. Her body was like a fluttering banner that swiftly flew away.

Apart from that, there was God Spirit Sect's Gu Ling who occupied the plains. With his strong physical body, he ran like an ancient beast terrorizing the land.

Dong dong dong!

The ground shook.

Disciples of the Emotion Desire Sect were a mix of seduction and tenderness. They were really open and like the name of their sect suggested, they were really good at speaking and tempting people.

There was also the heir of Big River Sword who was comprehending the sword beside the yellow river. He too rushed towards Tian Ya.

At this moment, Tian Ya still didn't know what was going on.

....

On the island, Tian Ya was talking to the Dragontooth Rice.

The two of them understood one another.

The Dragontooth Rice's body was red, but it could shrink and get picked up by Tian Ya.

"So, what you are saying is that you want to find your granddad deity?" Dragontooth Rice asked.

"Right, find my granddad deity. He is really strong and will definitely be able to protect me." Tian Ya nodded her head.

"But where?" Dragontooth Rice asked.

"I don't know but we first need to find a red watch. With it, we can go see my granddad deity." Tian Ya shook her head. This wasn't the watch, so her hopes were gone. Was she going to fail at the first step in her plan to leave home?

Tian Ya was a little sad.

"We have to leave this place." Dragontooth Rice suddenly said.

"Why?" Tian Ya was really confused.

"My birth has caused a huge commotion in the world. Many people have sensed it and they will definitely rush over." Dragontooth rice said solemnly.

“Are they coming over to capture you?” Tian Ya understood the seriousness of this issue.

“Right, many people want to get me, but if they realize that a brat like you got me, then the safety of you and your family will be threatened.” Dragontooth Rice was really solemn.

“Then, let’s go. But the boatman is unconscious and I don’t know how to sail.” Tian Ya was troubled.

She couldn’t fly back to shore. She would only be able to fly for 10 minutes before falling into the ocean.

“I will bring you to shore. We have to leave quickly.” Dragontooth Rice used his strength to fly with Tian Ya.

“Then, what should we do?” Tian Ya stood on the shore and looked around. She didn’t know where to go.

She couldn’t return home!

The moment she went back with the Dragontooth Rice, she would lead the enemy back home.

Her parents and her grandfather as well as that little fellow would be threatened.

Tian Ya thought about it and shook her head.

“Let’s go to the mid plains to find granddad deity.” Tian Ya was certain.

Naturally, Dragontooth Rice followed Tian Ya. After all, they were connected and they were one now.

“What if we face dangers?” Dragontooth Rice asked

“Don’t worry, I believe that granddad deity will save me. He promised to protect me for my whole life.” Tian Ya was firm. She turned around and led Dragontooth Rice away from her parents and grandfather.

In the end, her little body was the one that took up all the pressure.

....

Within the Bank of the Universe, Li Xiandao comprehended the seals for three months.

He gained a lot!

From being rusty at the start to finally picking things up now, Li Xiandao was totally immersed in it.

If not for the World Dao Ocean bubbling and awakening Li Xiandao, he would have still been immersed.

He opened his eyes and his expression was one of exhaustion. His head hurt as he had comprehended many seals. He nearly burned his all-knowing talent.

“The Dragontooth Rice has appeared.” Li Xiandao looked at the storm outside and the red sky. With that lightning shooting down, he was sure.

To cause such a huge commotion, it definitely had to be the Dragontooth Rice.

“Master, when are you planning to interfere?” Seven smiled and asked.

Li Xiandao held his head, “I don’t know where it is. I shall rest for half a day before heading out.”

Seven nodded, “Rest well, I shall leave first.”

Li Xiandao looked at Seal Mountain Peak and was ready to leave. He didn’t plan on coming back in the short term.

The gains from this time would be enough for him to study for a long time.

Chapter 257: Tianya Danger

Tian Ya and Dragontooth Rice left the town and flew quickly through the night. When she got tired, she stopped to rest.

Dragontooth Rice continued to sense and said anxiously, “They are still chasing me. They are getting closer and closer.”

“They don’t even know where you are. How are they chasing you?” Tian Ya didn’t understand.

“I was hit by the World Dao Lightning and now I am like a firefly at night; I am extremely bright and they are going to surround us from all directions.” Dragontooth Rice said solemnly.

Tian Ya was anxious and asked, “Do you have any abilities that can help me escape?”

"I am just a big rice grain. I can reproduce many descendants but I don't have abilities." Dragontooth Rice's head hurt.

"What can we do? My legs hurt and I can't run for long." Tian Ya rubbed her legs.

"Moreover, my legs are short and the other people are flying. I definitely won't be able to outrun them." Tian Ya hugged the rice.

"The key is that you can't too. You fly as fast as I run. Logically speaking, you are so amazing. Your descendants allow people to live to 800, but why is your cultivation so weak?" Tian Ya didn't understand.

"My ability to reproduce is too great, so my cultivation is weak." Dragontooth Rice felt maligned.

"If both my cultivation and reproduction skills were invincible, then wouldn't I be overpowered?" Dragontooth Rice asked.

Tian Ya thought about it. It made sense.

"Everything in the world is about balance. Beings like us is good in some ways and bad in others." Dragontooth Rice sighed.

"So, what now?" Tian Ya frowned and asked.

"Continue to run. Head south." Dragontooth Rice pointed.

Tian Ya sighed. She felt like she shouldn't have signed a contract with the Dragontooth Rice. She had become its comrade just like that and had no choice but to flee.

It was the first time she had left home and she had to pay such a huge price.

Tian Ya regretted things!

But when she thought about the strong abilities of the Dragontooth Rice, Tian Ya wanted to protect it and pass it to Granddad Deity.

"Granddad Deity saved my family so many times and I want to repay him and give Dragontooth Rice to him. Dragontooth Rice will be well protected there." Tian Ya ran and thought about it.

Dragontooth Rice didn't think that it would be sold by Tian Ya.

It continued to sense the people around.

So many!

There were really many of them!

So many that Dragontooth Rice felt despair.

Hong!

Suddenly, it sensed a red flame surging over.

His aura was huge!

The flames were rumbling and pointing right at Tian Ya!

Dragontooth Rice shouted, "Tian Ya, quickly stop!"

Tian Ya stopped and looked at Dragontooth Rice with a confused expression.

In the next second, a giant fireball landed dozens of meters in front of her.

Explosion!

The flames shot Tian Ya into the air and she fell to the ground.

A layer of energy protection shot out from Dragontooth Rice and protected Tian Ya within.

Peng!

Tian Ya was uninjured from the impact which made Dragontooth Rice heave a sigh of relief.

The giant flames scattered and the weapon was revealed.

A spear!

A flame spear that was totally red. Its aura was blistering hot like it could ignite the area around.

The person holding the spear was an arrogant looking fellow.

He held a spear and his expression was one of disdain as he walked out. He looked at Tian Ya and reached out, "Hand the Dragontooth Rice over. It is not something a country bumpkin like you can take. Hand it over and I will let you live. I will only cut off your arm and leg."

Arrogant!

Preposterous!

Disdain!

This person's tone was really proud, and along with that expression of his, it really made one speechless.

He also gave one a look as if he was showing mercy.

Slice off an arm and a leg!

That was showing mercy?

Tian Ya frowned, "Who are you?"

"Me?" The teen smiled proudly and sighed, "A girl like you shouldn't know my name but I am kind, so I shall give you a chance and tell you. After you hear it, just kneel down and thank me."

Tian Ya shook her head, "You are too vain. You just said your name and you want me to kneel down and thank you. How can you be so shameless? You aren't even handsome?"

Hong!

"I gave you a chance to worship me and you don't cherish it. You are asking to die!" The teen's expression became cold. He was infuriated and stabbed forwards at Tian Ya.

Dragontooth Rice exclaimed, using its energy to try to protect Tian Ya.

But at that moment, a cold light slashed across from the distance.

A sword glow!

With the frost of the cold moon, it smashed into the spear.

Clang!

A crisp sound resounded and terrifying sword energy breezed past, shooting the flaming spear away.

"I think the little girl is right." A cold voice rang out. She held a sword and pointed at him.

She was a beauty; her hair was in a ponytail and her expression was cold.

“Liu Mingyue, how dare you interrupt me?” The spear-wielding teen said with a dark and sunken expression.

“I am stopping you, so what can you do?” She said coldly.

“You are asking to die! Do you think that Heaven Slaying Sword Technique can compete with my spear?” The teen was furious. He stabbed his spear forwards and flames shone in the darkness.

“You are still playing with flames late at night. Aren’t you worried you will wet the bed Aojue!” A loud shout spread from afar along with mocking laughter.

“Who?” Aojue’s face sunk and he stared at the person who had come.

The sound of dragon-horse hooves could suddenly be heard.

“Huntian Path’s Little Demon!” Aojue gritted his teeth.

“Not bad, I am your grandfather. I heard in the Nine Skies that you are arrogant, but you don’t seem arrogant. You are just dumb.” Huntian Path’s Little Demon laughed out loud.

“Go and die!” Aojue was pissed off and thrust his spear forwards.

Hong!

The spear stabbed the space and ripped it open. It instantly appeared in front of the Little Demon.

“Scram!”

Huntian Path’s Little Demon was surrounded in demonic energy. He pulled out his own weapon, a halberd, and swung down.

Dang!

There was a loud thud and the both of them retreated. The dragon-horse snorted.

“Scoff!” Both of them knew that they wouldn’t be able to do much with one another and scoffed coldly.

Tian Ya was terrified as she looked at the three of them. They seemed amazing and she couldn’t flee.

“You can hand me over and you can live.” Dragontooth Rice suggested.

“No, you belong to my Granddad Deity. I won’t hand you over unless it is to Granddad Deity.” Tian Ya rejected firmly.

Since those experts came to snatch it, Tian Ya knew that it was precious.

It was best if she gave it to Granddad Deity as it would make him really happy.

Chapter 258: So Bold

Tian Ya was surrounded by three people in the center and there was no way that she could escape.

After Aojue and Huntian Path’s Little Demon scoffed coldly, they turned to Tian Ya.

Aojue’s gaze was sharp. He still hated Tian Ya for what she said just now.

Petty, proud, would take revenge, high above... these were Aojue’s weaknesses.

The Aotian Sect members knew this which was why very few people liked him.

But Aojue was talented and his cultivation speed was quick. That was enough.

With that strength, even if he had other huge flaws, people could bear with him.

After all, a talented disciple was rare.

This was why Aotian Sect had high hopes for him and sent him down to fight for Dragontooth Rice.

He said coldly, “You country bumpkin. Hand the Dragontooth Rice over and I will let you live.”

Tian Ya said, “Will you cut an arm and a leg off and say that you will let me live?”

Aojue looked at Tian Ya coldly. The rage in his heart surged to his head.

“Are you mocking me?” Aojue looked towards Tian Ya in disdain. She was only at Dao Pursuing Realm, and if he exposed a bit of his aura, he could kill her.

A trash girl in a dustbin... What right did she have to mock him?

Tian Ya shook her head. Actually, she was really nervous, but facing such a situation, she started to calm down and think about how to escape.

"I didn't mock you. I was just thinking what would happen to Dragontooth Rice if I hand it to you?" Tian Ya looked at Huntian Path's Little Demon and Liu Mingyue with worry.

"You are sowing discord!" Huntian Path's Little Demon's gaze became cold and he pointed his halberd forwards. He sat on the dragon-horse and saw through what Tian Ya was planning.

She looked at him innocently and blinked her eyes, "I didn't sow discord. I am just speaking the truth."

"You just need to hand over the Dragontooth Rice and we will decide among ourselves." Liu Mingyue opened her mouth and she didn't help Tian Ya.

She was a sword genius from Heaven Slaying Sword Sect and was immersed in the sword. She saved Tian Ya aimlessly, her real goal was the Dragontooth Rice.

"Right, you are too young to try to sow discord. Hand over the Dragontooth Rice, otherwise, I will kill you now. Don't think that I don't dare. I hate children the most." Aoju said coldly. The killing intent in his eyes was really thick.

Tian Ya gulped and pointed into the distance, "If I give it to you, then what if they come and are left with nothing?"

"Who?" Huntian Path's Little Demon didn't sense anything.

Tian Ya only knew about it because of the Dragontooth Rice.

"Your grandfather!" Someone hollered. With a huge earthquake, someone flew over.

Explosion!

This was a giant whose upper body was naked. He punched the air with his naked fists and gave off an unparalleled aura.

"Gu Ling!" Huntian Path's Little Demon exclaimed.

"Weren't you in the grasslands?" The Little Demon frowned and asked. His mood instantly soured.

Gu Ling's arrival changed the entire situation.

Gu Ling was over three meters tall and facing Tian Ya, who was only 10 and around a meter tall, he squatted down and said nicely, "Brat, hand the Dragontooth Rice to me and I will let you go peacefully. No one will injure you, I swear on God Spirit Sect's name."

Tian Ya's eyes lit up, "Is that true?"

"Of course, the few of them are so weak." Gu Ling glanced at Aojue, Liu Mingyue, and Little Demon and said in disdain.

"Damn!" Aojue gritted his teeth. He wanted to stab the spear in his hands forwards.

"Gu Ling, don't think that I can't pierce through your God Spirit Body!" Liu Mingyue said coldly.

"I really want to slice your head off." Huntian Path's Little Demon gritted his teeth and said.

"I also want to chop his head off." A 4th voice rang out. It was really seductive like a top beauty whispering into your ears.

"Sister, there is no need to worry. Gu Ling is too arrogant and will be punished this time." A gentle voice followed suit.

A guy and a girl walked out from the shadows. The guy was very gentle and the girl was seductive.

But after they appeared, Gu Ling said right away in disdain, "The people who sell and buy bodies are here."

The two of them were furious, they stared at Gu Ling in annoyance.

Especially the brother who wanted to fight Gu Ling immediately.

"I hate Gu Ling but he is right." Aojue looked at the pair in disdain and said calmly.

Huntian Path's Little Demon and Liu Mingyue didn't say a word but they didn't support the two of them either.

Emotion Desire Sect's reputation in the Nine Skies was in a mess. Everyone felt that they were too open.

Damn!

The siblings looked at one another and knew that they had to swallow this loss. They scoffed coldly and walked to the side.

Their attitude was obvious that they wanted to share the Dragontooth Rice.

Gu Ling didn't even look at them and instead stared at the priest who had come on the cow.

“Who are you?” Gu Ling frowned.

He didn’t know this person.

Huntian Path’s Little Demon frowned and asked, “Do any of you know this brother?”

“I don’t.” Aojué grinned.

Liu Mingyue shook her head and looked at him solemnly. She could sense huge pressure from this priest.

The sibling also frowned. How had another expert appeared?

“I am Zhang Tianshi, a small priest in Eternal Land. Greetings fellow upper world people.” Zhang Tianshi waved his hands and said gently.

“You are an Eternal Land native?” Gu Ling’s eyes opened wide and he looked at him in disbelief.

“There are such strong Eternal Land natives?” Huntian Path’s Little Demon was shocked.

“Your strength has already reached the peak of this world. Why didn’t you head to the Nine Skies and instead stayed in their rubbish world?” Aojué didn’t understand.

“That is because he is the judge in the Ten Lands, right?” A sword energy surged over like that of a dragon.

“Heir of the Big River Sword, I know you.” Priest Zhang nodded.

Big River Sword’s heir was a middle-aged man who had white hair. He looked at Priest Zhang and then at Tian Ya. He reached out, “Give the Dragontooth Rice to me and I will let you leave. Otherwise, I will kill you now, and Gu Ling won’t be able to stop me.”

Gu Ling stared at the Big River Sword heir in rage but he was unable to say a word.

That was because he was right.

Gu Ling couldn’t block his Big River Sword or protect Tian Ya either.

Tian Ya was locked onto by the sword energy, and an invisible energy pointed at her.

Her face turned ashen white.

“Hand it over!” The heir said coldly.

“Otherwise, you will die!”

Tian Ya felt really bad but she still gritted her teeth, “I am giving it to Granddad Deity!”

....

Within the Bank of the Universe, Li Xiandao was asleep but he was awakened. He opened his eyes wide and hollered, “You are actually trying to kill the person I am protecting. How bold!”

Hong!

Li Xiandao’s body instantly disappeared.

Chapter 259: Granddad Deity Will Take Revenge For You

Tian Ya gritted her teeth but she still didn’t agree to the Big River Sword heir’s threat.

The Dragontooth Rice had already shrunk and was hidden in her clothing. Although she was unable to hide it from everyone present, to get it, they had to either kill Tian Ya or have Tian Ya willingly hand it over.

“Since you aren’t handing it over, then die.” The Big River Sword heir didn’t say any nonsense. She didn’t continue to persuade her and just sent the sword energy forwards.

“Stop!”

Priest Zhang sat on the back of the cow and pointed forwards. A sharp light shot out and smashed into the Big River Sword Energy.

Kacha!

The Big River Sword’s sword energy was shattered and Tian Ya lived. But a piece of shrapnel scrapped her face.

A small wound appeared on her youthful cheeks and she started bleeding.

These scenes infuriated priest Zhang as he was furious at the Big River Sword heir.

But someone was even more furious than Priest Zhang.

Hong!!!!

In the next second, it felt as if the heavens were collapsing. Apart from Tian Ya and Priest Zhang, all of them stumbled and looked on in shock.

A person appeared beside Tian Ya!

There was a mysterious man wearing an ink-colored mask!

His gaze was cold and had a huge aura. He was as stable as a mountain!

Li Xiandao!

He was here!

Li Xiandao, who had just crossed half of Eternal Land, saw that Tian Ya's cheeks had been slashed. Rage burst out from his heart. It was like a volcano, one that had been building up for 1,000 years.

Li Xiandao's aura nearly caused all of them to fall. The first to be hit was the Big River Sword's heir.

Li Xiandao's sudden appearance exceeded all their expectations. Especially with Li Xiandao's terrifying aura, no one dared to be careless.

"Who are you?" The Big River Sword's heir asked furiously.

The others stared at Li Xiandao and guessed. Was this yet another Eternal Land native?

Li Xiandao looked at him coldly like he was looking at a corpse. He turned around and squatted in front of Tian Ya.

"Are you okay?" Li Xiandao asked.

"Granddad Deity." Tian Ya looked at Li Xiandao and her lips twitched like she was about to cry. She suppressed her fear. To be able to play such tricks in front of top experts was quite commendable.

After seeing Li Xiandao arrive, Tian Ya's fear erupted. She charged into Li Xiandao's arms and cried.

But she tried to wipe it and her hand was covered in blood. Only then did she cry out loud, "Granddad Deity, I've been disfigured."

Li Xiandao touched Tian Ya's small face, "You are okay. Trust me, this will end soon."

Li Xiandao injected True Qi in to heal her wound.

It was just a small wound and it wasn't like she had part of her face torn off. Li Xiandao healed her up really carefully to ensure that she wouldn't have any scars.

To a girl, facial scars would be a major source of insecurity.

Li Xiandao wouldn't allow that to happen to Tian Ya.

Under the gaze of all the top experts, Li Xiandao actually healed Tian Ya's injuries. He totally ignored all of them.

The Big River Sword Energy's heir said coldly, "You are so arrogant and you have your back toward me. Don't blame me now."

Clang!

Big River Sword's heir pulled out his blade and slashed down. He was really quick and strong.

Explosion!

The sword slashed with a heavy aura. It was as if the milky way was falling down.

Dazzling but also dangerous.

Li Xiandao's back was not protected at all.

Priest Zhang was shocked and wanted to help Li Xiandao block it. But he recalled Li Xiandao's strong aura and that he wouldn't make such an error. Those thoughts were extinguished and he looked on calmly.

"Die!" Big River Sword Heir scoffed coldly.

The sword was about to land on Li Xiandao's neck.

Li Xiandao frowned under his mask. *Clowns that can't even take a single hit!*

His right hand continued to heal the last bit of Tian Ya's wound.

His left hand was used as a sword to strike back, heading right towards the Big River Sword.

Explosion!

The two of them both used Big River Sword but it seemed like Li Xiandao had slashed a hole in the sky and pulled down the milky way...

Whereas the Big River Sword heir's one was like a small drain being opened; they weren't on the same level at all.

Pui!

Big River Sword heir's sword energy smashed into Li Xiandao's. But in just a moment, his sword energy was slowed by Li Xiandao's one.

Hong!

This sword smashed into the body of the Big River Sword's heir and made him scream. He was sent flying hundreds of meters.

The Big River Sword's heir coughed and looked at Li Xiandao in disbelief.

Not only was he filled with disbelief but the others didn't dare to believe it either. All of them opened their eyes wide like they had seen a ghost.

Li Xiandao was repairing Tian Ya's injuries and forced into attacking.

Just like that, a simple sword energy crushed the Big River Sword's heir.

At that moment, everyone stared at Li Xiandao in terror.

Was that strike not exceeding the limit of this world?

At that point, Li Xiandao healed Tian Ya's face. He summoned a mirror and passed it to her.

"Take a look. Is the wound still there?" Li Xiandao smiled and touched her head.

Tian Ya looked closely as this concerned her face.

Nothing could happen to her future pretty face.

After taking a few looks, Tian Ya jumped onto Li Xiandao's body. As Li Xiandao wore a mask, she grabbed his hand and kissed it.

"I knew that Granddad Deity would save me." Tian Ya was delighted.

"Of course, I told you that I would protect you." Li Xiandao said firmly.

"Granddad Deity, I have a gift for you." Tian Ya suddenly thought about something. He took out the Dragontooth Rice and passed it to Li Xiandao.

At this point, everyone was staring at the Dragontooth Rice!

Their goal for coming to the Ten Lands...

If Li Xiandao's sword wasn't so terrifying, they would have dashed forwards.

Li Xiandao looked at it and asked, "Why are you giving it to me?"

"I just want to. Granddad Deity treats me so well. I also want to repay you." Tian Ya said sincerely.

Li Xiandao was touched, "Okay, I will take it."

"Your cultivation is strong and you can bring this brat away but not the Dragontooth Rice. You have to leave that here." Huntian Path's Little Demon said.

Li Xiandao didn't worry about him and said to Tian Ya, "Watch as I take revenge for you. I will kill all those who've bullied you."

Chapter 260: Threatening Everyone Around

The first person who Li Xiandao saw was the Big River Sword heir!

This person had already been wiped out by Li Xiandao's sword and was laying in the giant hole. His body was covered in many wounds. Many meridians and veins in his body were slashed by Li Xiandao.

"You wanted to kill Tian Ya?" Li Xiandao looked at him coldly and asked.

"Cough, cough. Why do you know the Big River Sword?" That was the only problem that the Big River Sword Heir was talking about.

If he didn't get the answer, he wouldn't be able to die in peace!

From the start, he lived as the sole heir to the Big River Sword. He thought that he was the only one in the world who knew it.

But now in the Ten Lands, he saw that a casual attack by Li Xiandao was actually more terrifying than his. This shocked him and made him feel dejected...

Li Xiandao burst out laughing and said, "You are the only one who knows Big River Sword?"

"Of course, I found it in some ruins. It is not possible that anyone else knows about it." Big River Sword's heir said firmly.

Even if he died, he wanted to protect his identity as the heir to Big River Sword.

Li Xiandao shook his head in disdain, “The Big River Sword in my hand is the real version and the others are fake. I myself didn’t say that I was the heir but you did.”

“Impossible...” Big River Sword’s heir didn’t believe Li Xiandao’s words.

He was the heir!

The only heir!

Li Xiandao laughed coldly and said, “Since you don’t want to give up, then I will fulfill your wish. The Big River Sword is also called Big River Sword Energy and there is a move called Big River Sword from the Heavens. The fake version does not have this move. Now, open your eyes and look carefully.”

The moment he said this, Li Xiandao pointed his fingers forwards!

Explosion!

A rainbow-like sword energy surged out. In that instant, it resonated with the heavens and turned into a river of rushing water.

The phenomenons from the sword stunned everyone.

This was too terrifying.

A river hung upside down in the sky and flowed forwards.

The key was that the water in the river was sword energy!

The Big River Sword’s heir opened his eyes like he had seen a ghost.

He obviously recognized that sword.

Big River Sword’s Big River Sword from the Heavens!

But the one he knew definitely didn’t have such terrifying strength.

Each drop of water in the river was sword energy. It instantly drowned him.

“No...” The Big River Sword’s heir screamed. He was really filled with despair. So, he wasn’t the only heir of Big River Sword. He wasn’t even orthodox.

Explosion!

After the Big River Sword finished, the ground was really messy. As for the so-called heir, no bones were left.

“To compete with me in the sword, you are just asking to die!” Li Xiandao said calmly and looked towards Tian Ya.

“Tell Granddad Deity, who else wanted to kill you?” Li Xiandao asked calmly.

The moment he said this, everyone was shocked.

He was about to attack them?

Tian Ya pointed and shouted, “Granddad Deity, he is the one. He also said that he wanted to slice off one of my arms or legs.”

Li Xiandao looked calmly at him.

Aojue’s expression was really ugly and he cursed deep down. He was really nervous. The spear in his hand trembled and he started to sweat.

Nervous!

Could he not be nervous?

The Big River Sword heir had been killed just like that. It was so terrifying.

“I was just joking about that. You know me, I love to joke. I apologize, I apologize.” Aojue lowered his proud head.

Because he was alone, if they fought, Aojue was certain that no one would help him.

So, he was terrified.

Li Xiandao looked at him and said with a cold gaze, “You wanted to slice her hand and leg. I need to thank you for your kindness. Thus, I shall cut off your arm and leg to let you live.”

Aojue’s face was really ugly. It looked like he had just eaten sh*t. He stared at Li Xiandao and flames were shooting out from his eyes.

“Remember, you must thank me for letting you live!” Li Xiandao said coldly.

“You are a bully!” Aojue couldn’t take it anymore. Who was he?

In the past, he was an arrogant person. When did other people have the right to talk to him like that?

“Don’t think that I am afraid of you. I just don’t want trouble. Since you are a bully, then I will kill you. Even if lightning strikes me, I am going to kill you.” Aojue gritted his teeth. He had made his mind up to exceed the strength of the Ten Lands.

Even if he was struck by lightning, he had to kill Li Xiandao.

He didn’t agree to let someone be so arrogant in front of him!

Li Xiandao raised his hand and said, “Good, I like your courage. I wanted to let you live, but now it seems like I will send you to hell!”

“Stop the nonsense. You lowly world trash, take my spear!” Aojue hollered in rage. The spear suddenly thrust forwards.

The sky was ripped open like a fire dragon that spat out spiritual flames.

Si la, si la~

The space around started to rip apart which showed that the power that Aojue used had reached a limit.

The power was too great and lightning was about to strike.

But Li Xiandao didn’t care at all.

“Scram!” Energy condensed behind Li Xiandao, turning into many swords that slashed him.

Explosion!

The move was nameless. It was just Li Xiandao using True Qi as a sword to kill Aojue.

The sword tore open the space around before it hit Aojue’s flame spear.

Kacha!

Aojue’s spear shook and so did his body. He hollered, “Hold on!”

Li Xiandao scoffed, “Shatter!”

Sword energy smashed down, and with a loud explosion, the spear was split into two.

Aojue himself was sent a few hundred meters away and he spat out mouthfuls of blood. His fresh blood turned into a rainbow in the air.

At that point, Li Xiandao stepped forwards. Sword energy was like a rainbow that slashed forwards from beside him.

Slice!

A head fell to the ground and the blood rainbow was gone. Aojué didn't even manage to use strength exceeding this world before he died.

Li Xiandao was too fast and he killed too quickly such that Aojué couldn't use his own strength.

Li Xiandao stood in the sky alone and looked around. Whoever he stared at would be terrified.

He was just so terrifying.

This was really terrifying!

Huntian Path's Little Demon gulped. He really wanted to take back what he said.

A single look from Li Xiandao now would make him shiver.

How vicious...

He had killed two experts in a row. Li Xiandao was perfectly unharmed and they didn't even know about Li Xiandao's full strength.

How were they going to fight?

At that moment, no one was thinking about the Dragontooth Rice.

Li Xiandao looked at Tian Ya and asked, "Did anyone else say that they wanted to kill you?"

Everyone's hearts tightened, especially Huntian Path Little Demon. His face turned white and he wanted to flee.

If Tian Ya said anything, then he would be finished!
