Bank of the Universe - Chapter 261 - : Strength Of One Sword

Chapter 261: Strength Of One Sword

Everyone stared at Tian Ya!

The moment Tian Ya said a name, Li Xiandao was really going to kill that person!

Everyone was staring at Tian Ya and she also knew the weight of her words.

So, she thought about it before she said, “Gu Ling!”

Gu Ling was shocked and stared at Tian Ya in disbelief. He didn't hurt her and instead wanted to protect Tian Ya.

Huntian Path's Little Demon heaved a sigh of relief.

The others heaved a sigh of relief!

This was because Li Xiandao looked at Gu Ling!

Gu Ling wanted to explain. Although he was three meters tall and strong, he felt that he couldn't beat Li Xiandao.

This was because Li Xiandao had killed the Big River Sword heir and Aojué too easily.

What did that mean?

Li Xiandao didn't show off his strength which was why Gu Ling wanted to explain and save himself.

But in the next second, Tian Ya said, “Gu Ling wanted to protect me. He didn't want to kill me and just wanted the Dragontooth Rice.”

Gu Ling placed his heart down and looked at her in annoyance, “The next time when you speak can you complete your sentences? You really scared me to death.”

Tian Ya giggled. She had done this on purpose.

Who told all of you to come snatch my Dragontooth Rice?

Li Xiandao didn't care about Gu Ling and asked, "Apart from Gu Ling, who else do I need to let off?"

At that moment, Huntian Path's Little Demon wanted Tian Ya to save him.

He contacted Liu Mingyue in secret.

"If we join hands, are you confident?" Huntian Path's Little Demon asked.

Heaven Slaying Sword Sect's Liu Mingyue looked at Li Xiandao's straightened posture and shook her head, "I am not confident. If Gu Ling joins us, then maybe we will have a chance."

Huntian Path's Little Demon communicated with Gu Ling.

"Brother Gu Ling, let's work together and kill this mysterious person before we split the Dragontooth Rice." Huntian Path's Little Demon asked sincerely.

"Scram!" Gu Ling replied to him with one single word.

"Can't you be more civilized?" Huntian Path's Little Demon was furious. He was being nice and called him brother and that was how he replied?

"Climb!" Gu Ling thought about it and used a more civilized word.

Little Demon was so furious that he wanted to spit out blood. He looked at Gu Ling in rage. You were safe now and you abandoned all those people you knew?

"Rascal, thief, shameless, hooligan!" Huntian Path's Little Demon cursed.

"Are you scolding Gu Ling?" Liu Mingyue frowned.

"That fellow is safe and isn't going to care about us." Huntian Path's Little Demon was annoyed.

Tian Ya said the second name.

"Sister Liu Mingyue saved me once." Tian Ya knew how to thank people for their help.

If not for Liu Mingyue's sword, she would have died. This was why she said her name next.

She was delighted and instantly stepped away from Little Demon.

"Our cooperation is over!" Liu Mingyue said coldly.

She walked towards Tian Ya and apologized, "I saved you but I didn't do so on purpose. I apologize for fighting for the Dragontooth Rice. I shall back out of this."

Little Demon's heart turned cold.

His words still resounded with Liu Mingyue's cold words.

"Cooperation is over!"

"You are safe now and you don't want to help me?" Huntian Path's Little Demon questioned.

"Climb!" Liu Mingyue replied with one word, causing Little Demon to be so furious that he wanted to spit out blood.

"Shameless, hooligan! You two dogs really are scum!!" Huntian Path's Little Demon cursed in rage.

Tian Ya pointed at Priest Zhang, "He is really amazing. He saved me and didn't say anything about the Dragontooth Rice."

Li Xiandao nodded towards him.

Priest Zhang got down from the cow and bowed towards Li Xiandao, "Greetings senior!"

"Once this ends, we will talk." Li Xiandao said calmly.

"Great." Priest Zhang immediately retreated and looked on silently.

Only two groups of people were left.

The pair of siblings from Emotion desire Sect and Huntian Path's Little Demon were cursing in silence.

Tian Ya pointed at the siblings and said, "They came but they didn't say anything."

The two of them didn't even do anything and just respectfully bowed towards Li Xiandao.

"Senior, although we wanted the Dragontooth Rice, we didn't join in. We have been watching from the sides." The sister said.

The brother just kept silent and didn't say a word.

Li Xiandao looked at them calmly. He didn't like people like them, but since Tian Ya said that, he didn't care about them.

Li Xiandao looked at Huntian Path's Little Demon.

"Only you are left." Li Xiandao said calmly.

"I didn't even attack or bully Lady Tian Ya." Huntian Path's Little Demon felt wronged.

Tian Ya reached out, "You saw through my plan and pointed it out."

This brat really remembered the details...

Huntian Path's Little Demon wanted to slap himself. Why did he bother to say so much?

"That shouldn't be punishable by death, right?" Huntian Path's Little Demon asked.

"One sword... receive one sword from me. If you don't die, then forget it." Li Xiandao said coldly.

"Okay!" Huntian Path's Little Demon said firmly.

He didn't believe that Li Xiandao was so strong to instantly kill him with one sword?

He was the top in the younger generation in Huntian Path. If he couldn't even handle one sword, then that was just too much of a setback.

Li Xiandao looked at his confidence and grinned. He raised his hands and formed a sword with his fingers before he pointed forwards.

Seal First Sword!

This was what Li Xiandao did over the three months. He comprehended numerous seals, stacking them over dozens of times to get that sword.

Even Li Xiandao didn't know about the strength of that sword.

The key was whether or not the strength of that sword would result in lightning?

The seals were strong but Li Xiandao controlled the sword energy itself at the limit.

Seals were born from the world and it meant that Li Xiandao's sword absorbed the power of heaven and earth along the way.

Since he was using the power of heaven and earth to battle, how would he incur lightning?

Huntian Path's Little Demon wouldn't understand that.

He was on the dragon horse, holding a halberd, and looked really majestic. All the power in his body exploded out.

As long as Li Xiandao's sword energy came, Huntian Path's Little Demon was confident in shattering it.

To kill him in one strike was just too naive!

Huntian Path's Little Demon was really delighted

But in the next second, all that ended.

Li Xiandao's sword wasn't so simple.

This sword turned the power of heaven and earth into sword energy which slashed down.

"No, I can block it!" Huntian Path's Little Demon hollered. He believed in himself. He condensed all his True Qi into one strike.

The halberd rose into the air and struck the sword energy.

Kacha!

Lightning appeared in the sky.

Huntian Path's Little Demon used strength that exceeded the limit and lightning struck him directly.

In that instant, Li Xiandao's sword slashed towards him.

Slice!

Man and horse were both split in the middle.

Li Xiandao had really killed Huntian Path's Little Demon with his sword.

Even if he used power that exceeded the world limit, he was no match for Li Xiandao.

When the others saw this, they were all silent.

This was just too strong?

Chapter 262: End Of The Storm

The moonlight scattered all around the quiet land. Spiritual energy bubbled and a silver glow surged all about.

Li Xiandao's sword energy sliced open an extremely deep valley in the ground.

There was half a corpse to the side of the valley.

Huntian Path Little Demon and his dragon horse were split into two by Li Xiandao with just one move!

It was just one streak of sword energy!

It was so unbelievable but everyone saw that it was real with their own eyes.

Gu Ling was shocked and he coughed to try to calm himself down.

Liu Mingyue blinked and asked, "Didn't you always say that your God Spirit Body was invincible?"

Gu Ling looked towards Liu Mingyue.

"Go and try. Let's see whether or not it is invincible?" Liu Mingyue teased.

Gu Ling's face turned black and he said, "Who knew that the high and mighty female sword celestial would actually tease me?"

"How am I even a sword celestial? In front of this person, my sword has totally lost its shine." Liu Mingyue mocked herself.

"Don't look down on yourself. This person is just overpowered. Why do we need to compare ourselves with such people?" Gu Ling shook his head and rejected the comparison with Li Xiandao.

They weren't even on the same level.

When the siblings saw this, they were so terrified that their legs went soft. The two of them exchanged glances and didn't have any thoughts of fighting with Li Xiandao.

If they were on the same level they might have been willing to try. But now it felt as if Li Xiandao was up above in the Nine Skies and they were in Dali Land. The gap was so huge, so what was the point in fighting?

Not even fighting, but they even gave up any thought of running.

They just stood there and waited for Li Xiandao to make his mind up about them.

Li Xiandao killed Huntian Path's Little Demon with one sword and just turned around to see Tian Ya, "Are you happy?"

His question tightened the hearts of Gu Ling and the others.

If Tian Ya wasn't happy would he continue to kill until she was?

Everyone stared at Tian Ya, afraid that the little brat would say that she wasn't satisfied.

The little brat was easily satisfied. She smiled and ran in front of Li Xiandao, hugging his leg, "I'm satisfied. Thank you Granddad Deity for saving me once more."

Li Xiandao smiled, "Good that you are satisfied. Stand properly. I shall talk to them about something."

Tian Ya followed behind Li Xiandao and reached out to tug at Li Xiandao's shirt.

Li Xiandao walked in front of Gu Ling and the others and was 100 meters away. This distance wasn't safe and if Li Xiandao wanted to kill them, none of them could escape. If he was furious and wanted to kill them, he could do so in an instant.

This was why Gu Ling and the others looked at Li Xiandao warily.

Li Xiandao didn't care about how wary they were.

If he really wanted to kill them, he only needed to use one sword. Whether or not they were wary didn't matter.

"All of you came from the Nine Skies for the Dragontooth Rice. Now, it is in my hands. I won't kill all of you because you didn't hurt Tian Ya. Once you return, bring all your other men and leave the Ten Lands. In three days, I will wipe out everyone who crossed over into the Ten Lands!" Li Xiandao announced something.

It was a unilateral announcement!

Whether or not they agreed, Li Xiandao was still going to do that. The Ten Lands belonged to the people from the Ten Lands.

It was better if those from the Nine Skies didn't come down and get involved in their problems.

Gu Ling and the others nodded. Without the Dragontooth Rice, they weren't interested in staying here either.

Li Xiandao nodded his head and asked, "Gu Ling, which sky did you come from?"

Li Xiandao wanted to know about the Nine Skies and how convenient that all of them were from there.

Li Xiandao didn't need to contact the Book of War from Hell Sky.

"I am from Cold Moon Sky!" Gu Ling said.

"Cold Moon Sky!" Li Xiandao knew that Moon Angel Usuna came from Cold Moon Sky.

The family who came from the moon at Cold Moon Sky!

"Right, we came from Cold Moon Sky and a lot of us know about Dragontooth Rice. For now, the other eight skies don't know about it." Gu Ling nodded.

"The other sects in the Nine Skies don't know?" Li Xiandao was confused. No one leaked it?

"This was because the higher-ups of the sects sent their core disciples right away, so the news hasn't spread to other worlds yet." Liu Mingyue added.

"You also came from Cold Moon Sky?" Li Xiandao asked.

"Right, I am from Heaven Slaying Sword Sect that came from the Cold Moon Sky." Liu Mingyue said truthfully.

"You two?" Li Xiandao looked towards the siblings from Emotion Desire Path.

"Yes." They nodded.

"I understand. All of you can leave now. Within three days, all of you shall leave the Ten Lands. Those who don't leave in three days will die!" Li Xiandao stopped asking and just informed all of them.

Although Gu Ling was surprised why Li Xiandao'e stopped asking, since Li Xiandao allowed them to leave, they were really happy.

The siblings were the first to leave. They felt really uncomfortable being in the same space as Li Xiandao which was why the moment Li Xiandao said that, they left right away.

They didn't even say goodbye!

So rude!

Gu Ling and Liu Mingyue respectfully said goodbye to Li Xiandao and Tian Ya which left a good impression.

Once they left, Li Xiandao looked at the cow rider.

Priest Zhang got off the cow and said gently, "Do I have the pleasure of talking with senior?"

Li Xiandao nodded, "Lead the way. This place isn't good, so let's go somewhere else."

Priest Zhang smiled as he rode on the cow and pointed forwards, "There is a temple nearby. Although it is a little old, at least it'll provide shelter."

"Okay." Li Xiandao nodded and didn't have high requests.

Tian Ya tugged at Li Xiandao's shirt and smiled, "Granddad Deity, I am hungry."

Li Xiandao hugged her and said, "Granddad Deity shall help barbeque a rabbit for you."

"Rabbits are so cute!" Tian Ya was shocked.

"So, will you eat it or not?" Li Xiandao asked.

"I will!" Tian Ya didn't hesitate. She buried her head in Li Xiandao's neck, feeling embarrassed.

Li Xiandao laughed out loud, hugging Tian Ya and following Priest Zhang.

Li Xiandao shot three rabbits and was prepared to barbeque them so there could be one for each person!

Li Xiandao was really curious about Priest Zhang. Since he managed to cultivate to such a level in the Ten Lands, he had suffered a lot and obtained many lucky breaks.

Li Xiandao's growth couldn't be replicated, so what about Priest Zhang?

What identity did he have? Why was his strength able to reach the peak over in the Ten Lands.

One must know that even people like Liu Qingfeng who broke past Legend Realm Stage 33 didn't reach the limit.

Priest Zhang had a story!

Li Xiandao brought the rabbits and was prepared to listen to the stories.

Chapter 263: Judges Of Ten Lands

The night was dark; the stars and moon were dim. The dark clouds covered the sky, preventing one from seeing the beauty of the moon.

The cold wind blew in through the holes of the broken and old temple.

But the cover of a few bricks satisfied Li Xiandao and Priest Zhang.

In the temple, there was a statue with a missing hand and head. If not for the sign at the door saying 'Mountain God about to corrode', Li Xiandao might have thought that this was an Earth God Temple!

"A big spider!" After Tian Ya entered, she saw a big spider in the corner and was frightened. She hugged Li Xiandao tightly.

Li Xiandao looked at the spider; it was around half Tian Ya's size. It was a spider that was about to ascend.

Priest Zhang looked at the spider with a calm expression.

The spider itself froze up; its half smart brain was filled with danger signs.

Danger!

In the next second, Li Xiandao turned his eyes away and said to Tian Ya, "It has been here for so long and this is its home. We are disturbing it, so we should apologize."

Tian Ya was stunned but since Granddad Deity told her to apologize, she waved her small hand and said softly, "Hi big spider, I am sorry for disturbing you. But we will be staying here for a short while. Don't come here. I don't want to hurt you."

Tian Ya was afraid of how ugly the spider was!

She wasn't afraid of the spider itself!

With her Dao Pursuing Realm strength, she could easily kill the spider.

But when Tian Ya saw the giant body of the black spider, its evil face and vicious body, she was terrified.

Priest Zhang smiled, "Spider, we are the one disturbing you. This is a marrow washing pill as payment for disturbing you. Please leave for a night."

A fragrant pill was tossed out by Priest Zhang.

The spider seemed to understand. It quickly swallowed the pill and left Mountain God Temple.

Priest Zhang and Li Xiandao started a fire. They washed the rabbit and then started to barbeque it. After seasoning it with herbs and spices, the fragrance wafted into the air.

“Priest, aren’t you afraid that once the spider eats that pill and becomes a demon, it will eat humans and cause bad karma for you?” Li Xiandao asked while grilling the rabbit.

“It won’t.” Priest Zhang smiled, “The spider has no killing energy at all. It just has a bit of consciousness due to the essence of the moon. If it kills people, then I should be able to see the demonic energy from its body.”

“Truly a master.” Li Xiandao raised a thumb.

Priest Zhang asked, “I have never heard of you in the Ten Lands?”

“With your high cultivation, you shouldn’t be so low profile.” Priest Zhang asked with a weird expression.

Li Xiandao explained, “I am low profile and don’t communicate with people. I am about to ascend. When one reaches the limit, even if you don’t want to go, the World Dao will rush you to leave.”

Li Xiandao’s words sounded really deep to Priest Zhang, “I also have such a feeling. The World Dao is pushing you to leave.”

“How old are you? Also, why haven’t you ascended?” Li Xiandao asked curiously.

“I am just 8,000 years old this year!” Priest Zhang pointed out to him.

“As for why I haven’t ascended, it’s because I haven’t nurtured the next judge of the Ten Lands.” Priest Zhang said.

“Judge?” Li Xiandao was shocked.

This was the first time he had heard of such an occupation!

“A long time ago, people from the Nine Skies would come down and develop backup powers in the Ten Lands. It caused the Ten Lands to lose its vitality. Thus, people from the Ten Lands started to fight back, launching many battles of intelligence and strength.” Priest Zhang added.

Li Xiandao listened as he barbecued the three rabbits. He gave one to Tian Ya first and then one to Priest Zhang. He then left one for himself.

Although Tian Ya was hungry, she was a young and beautiful girl.

She couldn't be too ugly when she ate.

Priest Zhang took out two jugs of wine from his magical treasure and passed them to Li Xiandao.

"This is wine that has been brewed for 1,000 years. Senior, let's drink together." Priest Zhang invited.

Li Xiandao nodded and reached for the jug. His mask shrunk a little, revealing his mouth so he could eat and drink.

With wine entering his stomach, Priest Zhang continued to talk about the judge of the Ten Lands.

"The people in the Ten Lands were smart but not as strong as those from the Nine Skies which was why they were defeated. At that moment, the heavens listened to the people and found a top genius in the Ten Lands. He was given resources and nurtured into a top expert. He then killed all those world crossers." Priest Zhang added.

Li Xiandao nodded and understood.

This role was born from the Dao to protect the Ten Lands.

To choose a talented teen to nurture and give the various resources, to push him up to the position of judge, he would defend the Ten Lands and discipline the world crossers.

This meant that this person was the momentary main character of the Ten Lands. The Ten Lands would nurture him and his responsibility would be to kill the world crossers.

Priest Zhang was the judge for this generation which was why he was about to reach the peak of the world in 8,000 years. Not only did he rely on himself, but he was also supported by the Dao.

Priest Zhang had his own duty and needed to develop the next judge. After he nurtured him, he could leave.

Li Xiandao was impressed, "Who knew that there was such a job? So, have you found the heir?"

"I have and I'm nurturing him. He is already ready. I was prepared to leave after solving this issue but who knew that senior would solve it so easily?" Priest Zhang was honest.

“They were too weak.” Li Xiandao said.

Priest Zhang’s face froze. Huntian Path’s Little Demon was weak?

He used power exceeding the limit, incurring a lightning tribulation but he was still slain by Li Xiandao’s single sword.

Were they too weak?

It was obvious that Li Xiandao was too strong!

Of course, Priest Zhang wouldn’t say that. He asked instead, “How did senior use strength exceeding the limit and not incur the lightning tribulation?”

Priest Zhang didn’t understand.

Li Xiandao opened his hand and many Dao Patterns appeared which turned into seals.

“See, this was what happened.” Li Xiandao said.

Priest Zhang looked at it and was confused, “Seals?”

“Right. The sword energy I used contained seals. These seals are the power of the world itself, so it won’t cause lightning.” Li Xiandao nodded his head.

Priest Zhang was enlightened and said gratefully, “Thank you senior for answering my doubts.”

“This isn’t much. We can discuss with one another and talk about the Dao.” Li Xiandao suggested.

Priest Zhang was the one to nurture the next judge for the Dao. He should have had strength far above others or different dao attainments from others.

This was why Li Xiandao was willing to talk about the Dao with him.

Li Xiandao definitely wouldn’t talk to others like Gu Ling and Liu Mingyue about the Dao.

Chapter 264: Grandma Seven

Li Xiandao and Priest Zhang discussed the Dao.

In the old and broken Mountain God Temple, Li Xiandao and Priest Zhang started the strongest Dao discussion in the Ten Lands.

Tian Ya was the only witness.

She knew that the chance was rare, chomping down on the rabbit in a few mouthfuls, and then she listened intently.

At the start, she could understand because Li Xiandao and Priest Zhang both started from the simple things.

Like eating, drinking, sleeping!

But after a few sentences, they started talking about cultivation, form Foundation, Ascension, Life Wheel, Dao Pursuing...

The two of them spoke one after another and quickly browsed through it.

Tian Ya started to get lost!

But she still tried to memorize it. It was okay if she couldn't understand; she just had to remember it.

But as she memorized, Priest Zhang and Li Xiandao's bodies started to glow and float. They sat cross-legged and layers of light appeared around their bodies. They were five-colored and gave off the aura of Dao attainments.

Li Xiandao and Priest Zhang started to discuss the realm after Dao Saint.

This made Tian Ya sneeze. Her eyes were heavy and she felt like she was about to faint. Everything surrounding Granddad Deity's body consisted of numerous Daos and each thread made her head hurt.

She decided not to look anymore.

She would just sleep!

Her sleep was great. There seemed to be two giants discussing the Dao in her dreams but Tian Ya didn't feel a headache.

In the Mountain God Temple, Li Xiandao and Priest Zhang's Dao discussion reached a climax.

Their auras were connected. They stopped speaking, using the soul, Dao attainments and comprehensions to speak.

Their Dao comprehensions turned into a ball.

The two balls started to merge, clash, and form their own flames.

At the same time, they were absorbing each other's pros and fixing themselves.

Of course, Li Xiandao absorbed less while Priest Zhang absorbed more.

But overall, both of them benefitted.

In the Mountain God Temple, Dao attainments spread and the Dao instantiated. The Dao that people found it hard to comprehend was being shown one by one.

....

On the morning of the second day, Li Xiandao and Priest Zhang parted. Priest Zhang rode his old cow and returned to the temple. He was going into seclusion.

He absorbed too much from Li Xiandao and he felt like he had to understand them all first.

As for Li Xiandao, he was much better. He improved in a few areas and just fixed and perfected areas of his cultivation that were incomplete.

In the next second, Li Xiandao woke up Tian Ya and then brought her to wash up.

While washing up, Li Xiandao asked Tian Ya how she got the Dragontooth Rice.

Tian Ya told him about how she left home.

Li Xiandao's voice became serious, "You left home and your parents must be worried. I will send you back."

Tian Ya said, "You can send me back but only to see them and say goodbye. In the future, I want to follow Granddad Deity."

Li Xiandao said, "You are still young and need your family members with you."

"I am not young. I am 10 and soon to be 11. I am at Dao Pursuing Realm and I even got the Dragontooth Rice. I signed a life and death contract with it." Tian Ya said.

"You really want to follow me?" Li Xiandao asked.

"Of course, I worship Granddad Deity and I must follow you." Tian Ya was firm.

"Then, I will bring you home and discuss it with your parents. When they agree, then I will bring you away." Li Xiandao said.

"Okay." Tian Ya smiled happily and agreed.

She wasn't dumb and knew that there were many benefits from following Li Xiandao.

Her parents wouldn't be dumb either and they would know the same thing.

Li Xiandao looked at Tian Ya's smile and touched her hair. This brat was just so lovable.

"If you follow me, then you must listen to me. You aren't allow to leave for the rest of your life." Li Xiandao said.

"I will listen and never leave Granddad Deity."

Tian Ya nodded her small head confidently.

Li Xiandao waited for her to wash up before hugging her.

Hong!

At her house door, the sky became bright. The family was really anxious, running in from outside to see whether or not Tian Ya had been found. If not, then they would continue searching and expanding the range.

Li Xiandao said to Tian Ya, "Go and talk to your parents. I won't be entering."

Tian Ya nodded her head and walked in.

Li Xiandao stood with his arms behind his back and faced the sun. He didn't care about seeing parents crying about their child.

He wasn't filled with disdain!

He was just envious!

Li Xiandao was an orphan, and in his heart, he also craved for such a family!

I hope that I can have a good wife and a pair of cute children. Li Xiandao thought about it.

In his mind, Seven's sweet smile appeared.

After 15 minutes, Tian Ya walked out and her family sent her off from behind. When they saw Li Xiandao, all of them knelt down.

"Thank you sir for taking Tian Ya. Our family is willing to send Tian Ya to learn from you and receive pointers." Tian Heng said respectfully.

Li Xiandao looked at them and said, "I will take care of her. In the future, if you want to contact her, use this watch."

Li Xiandao tossed a watch. He specifically gave it out for her so that she could communicate with her family members.

This watch didn't allow them to enter the Bank of the Universe.

"Thank you, sir!" Tian Heng kowtowed in thanks.

Li Xiandao nodded and held Tian Ya's hand, "Great that all of you aren't worrying. We shall leave now."

Tian Ya was well-behaved and said goodbye to her parents and grandfather.

Hong!

A complicated, six-star formation appeared under his feet and they disappeared.

All that remained was Tian Heng's family, both happy and sad.

They were happy that their daughter gained a good mentor; she would step towards the clouds and have more achievements than them.

They were sad that it would be hard for them to meet their daughter in the future.

....

At the Bank of the Universe, Li Xiandao brought Tian Ya back and called out for Seven.

"Wah, you went to kidnap a child?" After Seven saw Tian Ya, she was shocked.

Li Xiandao's face turned black and she looked helplessly at Seven.

After they got closer, Seven would often tease him.

"Tian Ya, follow your Grandma Seven and get familiar with this place." Li Xiandao said with a straight face.

Seven's smile instantly turned black like Li Xiandao's face.

She stared at him and felt really wronged in her heart.

In the past, he told others to call her Auntie Seven and now, he was even worse; he told her to call her Grandma.

Tian Ya was smart and didn't call her grandma. She shouted warmly, "Sister Seven!"

Only then did Seven's face brighten up. She didn't even look at Li Xiandao. She just pulled Tian Ya's hand, "Let's go and change into new clothing. Let's not talk to this Granddad Deity."

Chapter 265: Planting Dragontooth Rice

Li Xiandao looked on as Seven and Tian Ya left. He returned to his room and took out the Dragontooth Rice.

Li Xiandao placed the Dragontooth Rice that Tian Ya shrunk onto the table.

"You can transform back and then we can have a chat." Li Xiandao said calmly.

Dragontooth Rice returned to normal. It was half Tian Ya's size. Its body was red in color and had five features.

It wasn't strong but its body was filled with an ocean amount of energy.

This was the energy to reproduce.

"You are Tian Ya's Granddad Deity?" Dragontooth Rice asked.

Li Xiandao nodded and said, "I am the owner of the Bank of the Universe. From now onwards, you belong to me."

Dragontooth Rice didn't argue, "If you want to own me, you will face huge pressure."

"What pressure?" Li Xiandao asked.

"Pressure from the Nine Skies and Celestial World." Dragontooth Rice stood up and said.

"So, you are saying that people from both Nine Skies and Celestial World want you?" Li Xiandao asked.

"Obviously. Who doesn't want a godly item like me?" Dragontooth Rice said proudly.

"True, I have read many ancient records and you were all over the Ten Lands and Nine Skies." Li Xiandao said.

"That was so long ago. Let's not talk about it." Dragontooth Rice was a little sad.

“You were once in the hands of the barbarian race experts of the Ten Lands but then why did you disappear? And then how did you appear again?” Li Xiandao was curious.

“Because I was too strong and people were jealous, so they wanted to destroy me in the Ten Lands.” Dragontooth Rice said.

“Who wanted to kill you?” Li Xiandao asked.

“I can’t say. The moment I say his name, he will be able to sense it. When he crosses worlds, you won’t be able to block him and I won’t either. I don’t want to be captured the moment I appear and get locked up forever.” Dragontooth Rice said nervously.

“He is so strong?” Li Xiandao looked at it with a weird expression.

“He is just that strong. With one finger he can squash you.” Dragontooth Rice didn’t hold back.

Li Xiandao didn’t get angry and muttered, “Since he is so strong, then he must be from the Celestial World.”

Dragontooth Rice looked at Li Xiandao, “I didn’t say that. You were the one who guessed it.”

Li Xiandao looked at it and changed the topic, “In that era, Celestial World, Nine Skies and Ten Lands were all equal. People from the Celestial World felt that they couldn’t be equals so they destroyed you, starting that war. From then on, the Nine Skies and Ten Lands were below Celestial World?”

All of these were Li Xiandao’s own guesses based on historical records as well as what Dragontooth Rice said.

Dragontooth Rice sighed, “So what if you know everything?”

“I just want to understand who destroyed you, so I can prepare.” Li Xiandao said.

He didn’t go back to that period in history to take revenge for them or challenge the position of Celestial World.

Tens of thousands of years had passed already. Only a fool would think about taking revenge for them.

Li Xiandao definitely wouldn’t do anything without benefits.

“If you want to know who attacked me, then you should exceed Celestial Realm first. You are strong now but the Ten Lands are the weakest of the three worlds. When you

enter the Nine Skies you will have to start from scratch. Let's not talk about Celestial World yet." Dragontooth Rice didn't hold back.

"That's true!" Li Xiandao nodded as he looked at Dragontooth Rice, "Since you don't want to say it, then I won't force you. From now on, you will remain in my Bank of the Universe peacefully giving birth to Dragontooth Rice so that my men can eat it."

"No problem, that is what I am good at," Dragontooth Rice agreed.

"How many can you give birth to at once?" Li Xiandao asked.

"It depends on the thickness of spiritual energy; in the past when it was the Ten Lands and Celestial World were the same, I could produce billions of grains of Dragontooth Rice." Dragontooth rice said proudly.

"What about now?" Li Xiandao asked.

"The spiritual energy in the Ten Lands is too thin. The spiritual energy here is still decent. I think I can produce the Dragontooth Rice of a few hundred people." Dragontooth Rice guessed.

"Good, then how long will it take you to reproduce once?" Li Xiandao asked.

"A month!" Dragontooth Rice said.

"So fast?" Li Xiandao was shocked. He thought that he would take half a year to a year.

"I am a top being in the world and even celestial artifacts aren't even 1% of my worth. In the past, I was able to split into many clones and spread everywhere. No one would go hungry and no one would die from old age." Dragontooth Rice reminisced about the past.

It had been destroyed by the Celestial World expert then and been resting for many years, slowly recovering but it was still far from its peak state.

"Then, why did you sign the contract with Tian Ya?" Li Xiandao asked.

"She is the one destined for me. That year when that bastard destroyed me, he grabbed my source and used a formation to suppress me. This was why I was trapped on that island for tens of thousands of years. Even when half of my body was recovered, I still wasn't able to escape." Dragontooth Rice sighed.

"If she hadn't dug me out, I wouldn't even be out now and you wouldn't be able to find me. The island was surrounded by formations and only Tian Ya could enter." Dragontooth Rice exclaimed.

“I understand!” Li Xiandao nodded and looked at Dragontooth Rice.

“Do you need soil to produce new Dragontooth Rice?” Li Xiandao asked.

“I do. You need to provide me with farmland.” Dragontooth Rice nodded.

Li Xiandao stood up and walked outwards. “Follow me, I will bring you there!”

He couldn’t bring him to the Ten Thousand Country Book Depository as the entire mountain was a book depository. There were book spirits within and it wasn’t suitable as farmland.

He couldn’t head to Legacy Hall as many spirits and souls were buried there. If he farmed there, then wouldn’t he be planting rice on their coffins?

He couldn’t head to Seal Mountain Peak as it was covered in seals and if they were damaged, Li Xiandao would feel really heartpained.

Thinking about it, Time Hall was the only one left.

On the Time Hall mountain peak, only one Time Hall stood in the middle. The other areas were empty.

It was really suitable to open up farmland.

Li Xiandao brought the Dragontooth Rice over. He reached out and pointed at the ground.

Explosion!

The ground rolled. Like an earth dragon surging out of the ground, numerous pieces of farmland were opened up.

He directed water to wet the soil and after forming a standard plot of farmland, Dragontooth Rice flew down and scattered its seeds.

“Just wait. One month from now, the new Dragontooth Rice will be born.” Dragontooth Rice was looking forward to it.

Tens of thousands of years had passed and this was the first batch of seeds he planted since he returned.

Chapter 266: 1,008 Contracts

After Dragontooth Rice scattered its seeds, it stopped looking at the farmland. It was really experienced and it knew that there would be nothing wrong with it.

Li Xiandao saw that it wasn't too worried and allowed Dragontooth Rice to find Tian Ya.

Li Xiandao returned to his room and saw Seven.

Seven looked at Li Xiandao and was annoyed, "You are a little too much this time. You told Tian Ya to call me grandma. Are you saying that I am very old?"

Li Xiandao found it weird, "Tian Ya called me Granddad Deity, so if she doesn't call you grandma, then won't our generations be different?"

"Pui! Shameless." Seven's face became red as she scoffed at Li Xiandao. Her anger and depressed feelings were extinguished by Li Xiandao's words.

"My cultivation has already reached the peak of Eternal Land, and if I continue, I will need to ascend. Can you take out all the contracts in the Ten Lands?" Li Xiandao changed the topic and asked.

In terms of work matters, Seven was a really solemn person, "I have already placed them all aside. Apart from Dali Land and Ancient Desolate Land, there are 1008 contracts in the other eight worlds."

Li Xiandao was tongue-tied, "So many?"

"Right, all of these are from debtors that are still alive. As for those who died halfway, altogether there were a huge number of them." Seven said helplessly.

Li Xiandao frowned. That was indeed a lot and most of them came from other worlds.

"Send the notification. We are activating the Bank of the Universe's third meeting!" Li Xiandao said solemnly.

"They are still cultivating!" Seven said.

"Three months of cultivation is already enough. Ring the bell!" Li Xiandao insisted.

What was the point in taking in subordinates?

The reason was for them to help clear these debts.

Early on, Li Xiandao had to head over personally, but now, he just had to sit behind the scenes.

....

Dong!

Dong!

Dong!

Three bells resounded throughout the Bank of the Universe and everyone inside could hear it.

The bell was thick, long, and filled with majesty!

Everyone who heard the bell opened their eyes.

The seniors in the Bank of the Universe knew that this meant a meeting was about to start. They stopped cultivating and rushed towards Li Xiandao.

The newbies looked at one another. They were all stunned.

What was this?

Were they going to war?

They just followed behind the others towards Li Xiandao.

On the square outside the Trading Hall, Li Xiandao was wearing a white mask. He stood with his arms behind his back on the platform and looked at everyone who rushed back.

The meeting wasn't indoors because Li Xiandao gained a few monsters under him so it was better to hold it outside.

Once everyone was here, Li Xiandao looked out and realized that all of their auras had reached their peak.

Li Xiandao looked at Tian Guangming.

In just three months, he could finally raise his chest and say to everyone around him:

'I am finally not the last!'

Tian Guangming proudly puffed out his chest.

After Li Xiandao fixed his divinity, the speed of his cultivation surged.

The divinity didn't help him much in the past, so he relied on his own determination to reach Legend Realm Stage 20.

Now that it was opened up, the divinity returned everything to Tian Guangming at once.

This time, Tian Guangming pretty much jumped a stage every few days.

He broke past Legend Realm and was just beneath the limit of this world.

What Realm?

He was stronger than Liu Qingfeng and slightly weaker than Priest Zhang.

This was already quite unbelievable for Tian Guangming.

He finally enjoyed the loneliness of an expert!

At the moment, Tian Guangming could raise his chest and tell Heaven Heart, Lucifer, and Moon Angel!

From now onward, his name was different.

Please call him Tian-God of Light-Fierce Man- Ming!

Li Xiandao looked at Tian Guangming's proud expression and sighed. Can't you be more low profile? Can't you see how Heaven Heart, Lucifer, and Moon Angel are looking at you?

You want to fight one against three?

But just at that moment, Demon Frog and the others came.

Explosion!

Demon Frog and its seven brothers didn't hide their auras. Their demonic energies surged into the heavens and their bodies were extremely huge. When they flew over, they were like balls of black clouds.

Dong!

Demon Frog landed on the square with a loud thud. It shrunk and said excitedly and respectfully, "Master, I have recovered. I have totally recovered."

Demon Frog, who had recovered, was on the same level as Priest Zhang.

The limit of the world!

If not, he wouldn't have the courage to lead his brothers to attack Dalin Temple.

Li Xiandao looked at it calmly and nodded, "Not bad!"

"Master, I have also broke past Legend and am a step away from world limit." The mule ran to Li Xiandao. Its fur was really smooth and it was muscular. It just looked like a giant cow.

The Barbaric Cow was even more amazing; its mountain-like body couldn't even fit in the square if it didn't shrink.

There was also the wild boar. Its aura was more terrifying; its pair of fangs were sharper than any weapon.

There was the pangolin, God Eagle, Heaven Swallowing Dog, and flood dragon.

Their auras became more and more terrifying, especially the flood dragon whose scales became more terrifying and it seemed unstoppable.

"Master, why did you call us over?" Heaven Swallowing Dog retracted his aura. The black fur on his body was like silk as he got closer to Li Xiandao and asked.

The others all looked at Li Xiandao.

Even Tian Ya and Li Wuya's sister came and stood to the side.

As they were of similar ages, they stood together.

"The Bank of the Universe's third meeting begins!" Li Xiandao announced.

After he made the announcement, the old members lined up and stood quietly.

The newbies learned from them and lined up. They split into two sides and looked at Li Xiandao who was on the stage.

Li Xiandao was satisfied, "I gathered all of you because there are many contracts I need you to handle!"

"Master, hand it to me. I will bring my brothers and settle it well." Demon Frog was eager to perform.

Li Xiandao looked at the eight of them who were all fierce monsters. Demonic energy spread around them and charged into the clouds.

"Don't worry, there are 1,008 contracts spread around 8 worlds. Each one of you can get some apart from the two little girls. All of you must end all these contracts." Li Xiandao said calmly.

Seven moved a box over and placed it in the center before walking beside Li Xiandao.

“These contracts were all broken by them, so the moment they don’t agree to follow it and compensate us, you can attack.” Li Xiandao said coldly.

“If they see you and are willing to pay the compensation, you can let them live.” Li Xiandao gave them some chances.

Honest and magnanimous!

If they objected, then he would be strict on them!

If they paid the compensation, then everyone would be pleased.

If they objected and didn’t admit it, then he would be sorry.

Li Xiandao’s subordinates hadn’t cultivated for three months for nothing.

All would be killed!

Chapter 267: Evil Dragon Breath

On the square, after they heard Li Xiandao’s words, everyone was pumped up and they knew that they had to do this well, especially the eight monsters who were new to Li Xiandao’s squad. They hadn’t even done anything and were able to enjoy three months of thick spiritual energy to heal all their injuries. Some of them even improved which helped to further the desires in their hearts!

This was why they were all pumped up.

“Master, just instruct us. We want to split Master’s worries. Moreover, we are all new, so please give us a chance and hand those tougher ones to us and let us demonstrate our skills.” Demon Frog begged Heaven Heart and the others.

Heaven Heart and the others didn’t mind. Anyway, this wasn’t the first time they were heading to settle contracts.

“The eight of you can choose the contracts you want.” Li Xiandao said.

Demon Frog and its brothers were delighted, running to the case and selecting.

“This is the contract for a holy land. You can have it.”

“I know about this, an elder from Monster Race Holy Land, who knew that his god artifact had actually been borrowed from our Bank of the Universe. I shall get it back.”

“Then, I want this one, a top sword expert on the peak of a lone mountain. I love such proud people.” The God Eagle grabbed a contract and then continued selecting.

There were 1,000 contracts, and if each person just chose one, then how long would it take?

Just like that, they chose those with high cultivation or from strong factions.

The eight monsters each took 10 contracts before backing down and standing to the side.

Li Xiandao looked at the rest, “All of you can handle the rest. My only request is for you to clear them out in a month!”

“Understood!” Everyone said solemnly.

Li Xiandao turned around and left, leaving them to distribute the contracts.

The Bank of the Universe’s third meeting ended!

....

Explosion!

Heaven and earth shook and the clouds were split. A black and white giant body surged through the clouds.

The flood dragon!

It gained 10 contracts and after leaving the Bank of the Universe, it headed towards the nearest contract.

Kong!

In the clouds, a giant flood dragon was flying and roaring out excitedly.

“I am doing something for Master for the first time. I must do it well. Master is so amazing, I will definitely be able to grow quickly under him and I might even purify my bloodline, turning into a true dragon. Maybe I can even transform into the ancient dragon race.” The flood dragon was filled with hope.

It had an amazing background, but due to its impure bloodline, it wouldn't be able to turn into a dragon. It was sent to the Nine Skies and Ten Lands and over here it made friends with the Demon Frog and became brothers.

It thought that it would spend the rest of its life like this. No matter how hard it tried, it wouldn't be able to turn into a dragon and wouldn't be able to strengthen its bloodline.

But during these three months, the flood dragon sensed that after its injuries healed, the small bit of ancient dragon race blood in its body was awakening.

This was something that it hadn't experienced in over 10,000 years.

Its body was totally black before and looked really ugly like a poor quality serpent!

But now, its body started to change and deep red appeared all over its body. It mixed with the black and formed demonic patterns. It made the flood dragon seem more majestic and valiant. Moreover, its head started to change too.

Horns started to appear and the dragon mustache grew out too. All these changes showed that it was recovering towards the ancient bloodline.

"Dragon race, you chased me out and sent me to the Nine Skies and Ten Lands to fend for myself. You made my mother sad, so I will definitely take revenge for this." When the flood dragon thought about it, rage appeared in its heart.

"I will be loyal to Master and gain his love. I will definitely have a brighter future than those few dragons in the race." The flood dragon believed in its own Master.

This was its opportunity and it had to seize it. This was why the contracts it took were all for experts who exceeded stage 33.

"The first contract comes from Eternal Land Monster Race Holy Land's Elder Bai He!" The flood dragon's body flashed.

It flew forwards and right in front of it, a six star seal formation appeared. It covered it and then it disappeared.

Hong!

In the next second, the flood dragon appeared in the skies above a giant mountain.

North Manor Monster Race!

This was the Monster Race Holy Land in Eternal Land. It was different from Great Green Mountain; all the famous monsters lived here.

The flood dragon's arrival made everyone nervous.

There was no other reason!

Its aura was too terrifying, more terrifying than those above stage 33. It was like lightning striking down, stunning all the monsters here!

"Flood dragon, there are still flood dragons in Eternal Land?" A monster was shocked.

"Why did you come to my North Manor Monster Race?" A Legend Realm stage 33 monster flew out and asked.

The flood dragon flew in the air. Its head was like a small mountain staring at everyone present. "I want to see your Elder Bai He!"

The moment the flood dragon said this, a snow-white crane flew out from the mountain range. The aura that it gave off was similar to that of Liu Qingfeng.

"Why do you want to see me?" Bai He asked solemnly. It sensed the aura of the flood dragon and it knew that it was at the limit of the world.

"Bai He, do you remember this contract?" When the flood dragon saw Bai He, it spat out and a contract flew out, floating in mid air.

Bai He's body shook and it looked at the flood dragon in disbelief.

Flood dragon said coldly, "It seems like you still remember, so you should know that you've gone against it. Do you know the price you have to pay?"

Bai He stared at the flood dragon in rage, "Didn't all of you disappear?"

Why had he appeared at such a moment?

They disappeared, so why couldn't they just disappear forever!

Bai He cursed in its heart.

It had borrowed a magical treasure and had to return it in 10,000 years or it would have to pay 10 times the price.

Bai He couldn't afford it.

The flood dragon stared at Bai He, its aura turned cold and its giant head got closer and closer. Its moon-like eyes just stared at Bai He.

"Are you planning to not pay the compensation?"

“Pay what!” Bai He scoffed coldly. It attacked and a cold light turned into a sword that stabbed at the flood dragon’s eyes.

“Since you are not paying, then I shall invite you to die.” The flood dragon wasn’t afraid. It didn’t even dodge the sword. It just closed its eyes.

Clang!

The sword struck its eyelids and sparks flew but it was completely unharmed.

Bai He was shocked, “How is that possible? How is your defense so strong?”

“Go and die!” The flood dragon opened its mouth and spat out a flaming breath. Magma spurted out and drowned Bai He.

Those weren’t flames but magma. The flood dragon itself was made up of fire element and the magma was from the heart of the earth. It was extremely hot and instantly cooked Bai He.

Barbecued white crane!

Chapter 268: Strong Man Tian Guangming

The people from North Manor Monster Race were stunned!

What was that?

A flaming breath had just killed their old ancestor in an instant?

Their old ancestor’s sword didn’t even leave a mark on the flood dragon’s eyelids.

How terrifying!

The people from North Manor Monster Race were so terrified that they didn’t dare to move. They just quietly stared at the flood dragon.

At this moment, the flood dragon could do whatever it wanted.

The white crane was cooked, so the flood dragon just opened its mouth and swallowed it.

Crack, crack!

With a few chews, the flood dragon spat out a green pearl. It was the size of a human head but it was totally green. There was a mysterious energy flowing within it.

“Bloodline pearl!” The flood dragon looked at the green pearl greedily and really craved it.

The pearl wasn’t too strong but it could raise the purity of the monster race bloodline, wiping out excess blood and making one’s blood thicker.

The purification was slow but it could last for a long time.

The flood dragon needed such a pearl.

“I shall swallow it and use it for a few days, and when I return, I will pass it to Master.” The flood dragon swallowed it into its tummy and thought about it.

It would just improve as much as it could.

After killing the white crane, the flood dragon looked coldly at everyone else before flying away.

Since the debtor was dead, then the contract was over.

If he couldn’t take out the compensation amount, then he would die!

The flood dragon still had other contracts it had to settle and wasn’t in the mood to fight with the monsters in North Manor Monster Race.

Truthfully, the other monsters wanted it to leave. They didn’t have the courage to scold it. Elder Bai He was so strong and it was burned from just one of the flood dragon’s breaths?

....

The others found it as simple as the flood dragon did.

After three months of thick spiritual energy cultivation and with the overlord blade in hand, Li Wuya’s cultivation improved. He was at the world limit.

With the overlord blade, the blade techniques, and the darkness space, no one was his match.

Li Wuya went straight for the person who owed the debt and asked coldly, “Are you planning to pay the compensation fee?”

“Return your mom. 10,000 years have already passed. What should I even return?” This person was arrogant. He was Legend Realm Stage 33 and felt that he was invincible. He didn’t care about Li Wuya at all.

Li Wuya’s eyes flashed fiercely and he slashed with his overlord blade. A cold light flashed across and the space in front of him was split into two. Space cracks appeared and the arrogant person was killed right away, leaving a foul pool of blood on the ground.

Li Wuya retracted the treasure that the Bank of the Universe loaned him and then left.

As for Tian Guangming, he was strong now. To show off his strength, he learned from his disciple and only asked one sentence.

“You have gone against the contract that you signed with my Bank of the Universe, so are you prepared to pay up?” Tian Guangming asked coldly. His aura was huge and he didn’t try to hide it. Once the person rejected, he would attack right away.

“I am willing to pay it!” Who knew that this person would agree without any hesitation?

Tian Guangming was stunned and blinked, “Are you willing?”

His aura slowly disappeared and he felt quite speechless.

Tian Guangming was prepared to show off his strength, so why was this person willing to pay up?

“I have been preparing the compensation fee. I couldn’t bear to hand over the treasure, otherwise, I would have ended the contract long ago.” The person sighed.

He had obtained a treasure from Bank of the Universe that could raise his strength. Once he activated it, he could be five to ten times stronger. For a Legend Realm expert like him that was really precious, so he wasn’t willing to end the contract.

He relied on it to be totally invincible. He collected treasures for the compensation fee and he had been waiting for this day.

After Tian Guangming heard it, he pouted and was a little speechless.

The fact that his first contract was settled without any blood made Tian Guangming feel like his fists had punched cotton.

Couldn’t he have had a chance to show off his manliness?

He suppressed the rage and collected the money and the treasure. Also, Tian Guangming warned him not to speak about the Bank of the Universe to anyone.

He aggressively headed to the second contract.

He should have had a chance to show off this time, right?

....

“Respectable envoy, this is the compensation and the hammer that I borrowed. Now, I shall repay it all.” The second debtor seemed like he was waiting for Tian Guangming’s arrival. He didn’t even wait for Tian Guangming to ask and just handed the contract and compensation over.

Tian Guangming was stunned!

“How did you know I was coming?” Tian Guangming didn’t understand.

“I am brothers with the person before. After you left, he used the bloodline technique to inform me, so I prepared both the item and the compensation fee.” This person was a blacksmith, or rather a god blacksmith. He used the hammer to craft numerous treasures.

His compensation price was 10,000 god weapons.

He spent these few years collecting ingredients and he started to craft day and night.

He used the crafting hammer to improve his crafting skills. Now, even with the hammer, his crafting skills had already reached a really high level.

Tian Guangming pinched his nose and collected both the hammer and the 10,000 weapons.

“You don’t have a third brother, right?” Tian Guangming asked angrily before he left.

The blacksmith shook his head, “Just the two of us!”

“Good!” Tian Guangming said loudly. He flew into the sky and rushed to the third place.

The third person wasn’t prepared and didn’t know that Tian Guangming was going to come. They were even holding a feast and congratulating the old ancestor for his 11,000 birthday.

The old ancestor laughed out loud as he held a pretty girl in delight.

“You borrowed a quasi celestial artifact from the Bank of the Universe to be returned in 10,000 years. Now that you’ve broken the contract, will you pay the compensation?” Tian Guangming rushed over and then asked viciously.

“What are you saying? I don’t understand. Don’t talk nonsense here!” The old ancestor scoffed coldly.

“Die!” Tian Guangming was delighted. Finally there was someone who didn’t pay the compensation. He didn’t hesitate and attacked.

Explosion!

The fist contained the fury of Tian Guangming who was now above Legend Realm Stage 33.

Tian Guangming went to two areas for nothing and now he finally met someone who resisted. Why would he talk nonsense with him?

He would just kill him!

After he punched, an eye catching light blinded the people all around.

The old ancestor pulled out his quasi celestial artifact and hollered in rage, “You took 3,000 years of my lifespan and gave me this fake celestial weapon. Now you want it back, wishful thinking!”

Tian Guangming’s gaze turned cold and he went all out.

He didn’t stop after punching. Power surged out and melted the old ancestor.

In that instant, the old man was dead and the entire family was in chaos.

After Tian Guangming punched the old man, he exhaled, “Truth proves that I really am a strong man!”

He took the quasi Celestial Artifact and didn’t worry about the family. He just flew towards the 4th family.

Tian – God of Light – Ming!

He was here to collect debts!

Chapter 269: Clearing Out World Crossers

Within the Bank of the Universe, Li Xiandao was observing all of them.

He looked at them one after another and saw them smoothly collecting the items. Li Xiandao was really satisfied.

Most people weren't willing to stick to the contracts and weren't willing to pay the compensation so they died.

Only a small portion of them survived after paying the compensation.

Li Xiandao looked on and didn't feel much. He had relaxed the restrictions and allowed them to live. But since they didn't want it, then he couldn't be blamed.

He looked at it for a while before closing his eyes and laying in the chair.

Next, Li Xiandao had to clear out the world crossers!

It should have been the duty of the Ten Land judge which was Priest Zhang to do so, but Li Xiandao wanted to leave a mark in the Ten Lands before he ascended.

He wanted to help the Ten Lands clear out these world crossers.

Li Xiandao gave Gu Ling and the others three days and if they didn't leave, they shouldn't have blamed him for being impolite.

Three days passed really quickly.

On the third day, Li Xiandao closed his eyes and comprehended the Eternal Land Dao ocean. He sensed traces of a few scattered world crossers.

They didn't receive the news and didn't know that Li Xiandao had already taken the Dragontooth Rice. They also didn't know that many experts were killed and they just continued searching for the Dragontooth Rice.

Li Xiandao sensed their location and used his fingers as a sword, shooting sword energy out from the Bank of the Universe.

From thousands of miles away, sword energy swept forth!

The wind blew from tens of thousands of miles away, blowing all around!

This was Li Xiandao's sword path.

In Eternal Land, he didn't even need to head out as he was invincible.

Clang!

Sword energy shot out, crossing thousands of mountains and rivers and arriving at the scene.

Hong!

In the eyes of many world crossers, the sword energy flew over like a meteor. It suppressed all of them.

They were filled with panic. They wanted to flee and they wanted to block it!

But it was useless!

Explosion!

Sword energy shot into the ground, turning everything within 100 miles into dust.

Be it grass, dirt, stone, trees, and humans, all of them died!

A few 100-meter deep lakes appeared and were filled with water. In the future, fish would appear and the scenery would be beautiful.

The people didn't even know who had killed them.

Or rather, they didn't even expect there to be such a terrifying person like Li Xiandao in the Ten Lands.

....

Li Xiandao shot out five streaks of sword energy, killing five groups of people who all came from Cold Moon Sky.

Since the Dragontooth Rice incident, all the factions in Cold Moon Sky knew Li Xiandao now. One could say that he had totally offended all the factions in Cold Moon Sky.

But did Li Xiandao care?

After clearing out these people, Li Xiandao started to tour.

Apart from Dali Land, Ancient Desolate Land, and Eternal Land, Li Xiandao wanted to head to all seven worlds to ensure that no world crossers were left.

The moment he noticed one, he would kill them!

The Ten Lands were about to change and there was no need for people from the Nine Lands to interfere.

But when Li Xiandao was about to leave, Seven brought Tian Ya and Li Wuya's sister Li Qing'er over.

"Bring the two brats along." Seven said.

"I am going out to kill!" Li Xiandao insisted.

"That is okay. You should show them the dangers of the world." Seven didn't care.

"Are you annoyed by raising the children?" Li Xiandao suddenly laughed.

The people in the Bank of the Universe were all out to collect debts and only Tian Ya and Li Qing'er were left with Seven.

After a few days, Seven felt really bored raising the children and was even a little annoyed. This was because after you got close to kids, they wouldn't be afraid of you anymore.

Luckily, the two of them were girls, so they weren't as bold as guys. If not, Seven would have tossed them to Li Xiandao a long time ago.

"Okay, I shall bring them out. You can just wait peacefully for me to return." Li Xiandao understood Seven, so he agreed.

Seven smiled sweetly, "Then, take good care of them."

Li Qing'er nodded and stood with his hands behind his back. He brought Tian Ya and Li Qing'er out of the Bank of the Universe and started to tour the world.

Tian Ya and Li Qing'er followed Li Xiandao and didn't dare to be too careless. They did whatever Li Xiandao told them to do and were really well behaved.

"Granddad Deity, where are we going?" Tian Ya asked curiously.

"First, we are going to Ancient Buddha Land!" Li Xiandao said calmly.

"My home." Li Qing'er was stunned and muttered.

Her home was in Ancient Buddha Land.

"Right, to your homeland. Do you want to pray to your parents?" Li Xiandao suddenly asked.

"Can I?" Li Qing'er looked at Li Xiandao in surprise.

"Of course." Li Xiandao nodded. Anyway, they were just touring.

“Thank you, Master!” Li Qing’er was grateful toward Li Xiandao.

“Qing’er, in the future, you must learn from me and call him Granddad Deity.” Tian Ya pulled her hand. The two dolls were really beautiful and they looked like twins.

“Can I?” Li Qing’er was a little afraid.

Li Xiandao didn’t care, “Sure, you can call me Master or Granddad Deity.”

“Granddad Deity!” Li Qing’er shouted happily.

Li Xiandao nodded and suddenly realized that he had accepted when they called him Granddad Deity.

For no reason, he was only over 20 years old and had become a grandpa.

1

As expected, one just had to get used to it!

Li Xiandao was filled with emotions. If he stopped Tian Ya, then she would probably be calling him Brother Deity.

“But if she calls me Brother Deity, then Seven won’t allow me to bring Tian Ya and Li Qing’er out.” Li Qing’er thought about her personality and grinned. He felt happy deep down.

Hong!

A six-colored star formation appeared on his feet. Li Xiandao brought Tian Ya and Li Qing’er and stepped into Ancient Buddha Land.

At the moment, Li Xiandao was much stronger; he could freely cross worlds and didn’t need to stop.

In Ancient Buddha Land, Li Qing’er brought Li Qing’er back to pay respects to her family members. She stood in front of her once-prosperous home and looked at the ruins. Her face was cold and her expression was one of sadness. Tian Ya consoled her.

Li Xiandao didn’t get close and stood 100 meters away. He closed his eyes and sensed the Ancient Buddha Land Dao ocean. He realized that two people had snuck down and hadn’t left yet.

Li Xiandao formed a sword with his fingers and slashed out.

Hong!

Not long later, two more 100-mile lakes appeared in Ancient Buddha Land!

Li Xiandao stood in front of the Li Family ruins without even moving. He looked on calmly.

Li Qing'er kowtowed towards her home as a goodbye to her family members. She wiped away her tears and walked beside Li Xiandao, muttering, "Granddad Deity, I am done."

"Okay, let's go to the next world!" Li Xiandao nodded.

Chapter 270: One Month

After leaving the Ancient Buddha Land, Li Xiandao brought Tian Ya and Li Qing'er and started to tour the world.

After Ancient Buddha Land, the next world was Cloud Mist Land!

Cloud Mist Land was once a place where many people lived. In the ancient era, the witch race lived here and this place was really prosperous.

But now, Cloud Mist Land couldn't make it anymore!

Cloud Mist Land didn't have any experts who reached the world limit and they only had a few who were above Legend Realm Stage 33.

The cultivation atmosphere wasn't as thick as other worlds but the land here was fertile and there weren't any disasters here. The civilians all loved their jobs and lives, and as long as they were willing to endure hardship, they would be rewarded.

This was why the civilians had really good lives and every industry developed well. Commerce was prosperous and the cities were even bigger than those of Eternal Land. The commoners smiled more too.

Li Xiandao and the two girls spent a few days in this world.

As the cultivation atmosphere here wasn't as prevalent as the other worlds, this world had colleges, swordsman, dynasties, warriors, scholarly demons...

This was a relatively more romantic world!

Li Xiandao looked around for a few days and came to a conclusion!

There weren't any world crossers in the Cloud Mist Land but Li Xiandao still spent many days here.

He brought Tian Ya and Li Qing'er around the few countries in Cloud Mist Land. Each of them was special in their own way and without exception, the commoners were happy with their lives.

This was also the reason why Li Xiandao spent a few more days here.

It was pretty good!

After leaving Cloud Mist Land, Li Xiandao came to Great Demon Land!

Compared to Ancient Buddha Land, Great Demon Land was the land of the demon path.

The demon path here wasn't the place for those evil demons and weird factions but the true demon path.

Everyone could do whatever they wanted as long as they didn't fail themselves!

'If you call me a demon, then I am a demon but I will firmly insist on what I believe in. My belief is so firm that I will never be shaken.'

The path of the demon was in the heart. If one was upright, then one would be able to cultivate really quickly.

There were many experts here in Great Demon Land and there were also many who came down from the Nine Skies. They were noticed and as such the experts in the entire Great Demon Land surrounded them and hunted them down.

But these few people worked together and forced the many experts of Great Demon Land back.

After all, the power of the world limit was at a maximum here in Great Demon Land.

When Li Xiandao noticed this, his lips curled up.

On the plains of Great Demon Land, a few world crossers started to kill and wipe out a few Great Demon Land experts.

This made Great Demon Land's demon path elders furious and extremely solemn.

They couldn't beat him!

The people from Nine Skies were just amazing. Even after they sent so many people over, they couldn't win.

"If this goes on, we are all going to be wiped out!" A demon blade-wielding guy said helplessly.

"Then, what should we do? They came to Great Demon Land to enslave us, and if we surrender, in the future, we will all be slaves." A hot-tempered demon king raged.

"Right, what does the path of the demon say?" A demon head asked.

"Do what you want but don't fail one's heart!" An old demon head said coldly.

"Let's fight. My bones are tough and I won't ever kneel. I am also not used to calling other people master." A teen genius smiled and said.

"Then, let's kill them. Let's go all out to kill them!" The demon heads all hollered. They stared at the four world crossers and were prepared to give up their lives.

But in the next second, a streak of sword energy flew from the distance, smashing into the four world crossers like a roaring comet.

Hong!

The demon heads were all forced back and they looked on in shock at the scenes after the dust settled.

There was a 100-mile deep hole. Looking closely, the sword energy in the hole seemed really terrifying.

As for the four world crossers, they were shattered and turned to dust.

"This..."

"Which senior did it?"

"Terrifying... This is power that a cultivator in the Ten Lands can control?"

"Oh my god, I nearly peed myself."

"You have already peed."

"Nonsense. That is cold sweat."

"Cold sweat can wet your pants like that?"

“Do you want to fight?”

“Bring it on! Who is afraid of you?”

....

In an ancient city, Li Xiandao looked on as Tian Ya and Li Qing'er were eating. His face under the mask curled up.

“My name is...” Li Xiandao really wanted to tell them.

In the next moment, once Tian Ya and Li Qing'er finished, Li Qing'er brought the two of them away from Great Demon Land.

Then, Li Xiandao brought the two girls to Ten Thousand Beast Land and witnessed the world that was filled with beasts, monsters, and barbarians.

Ten Thousand Beast Land consisted of tribes; there were no countries, only chiefs and gods they worshipped, etc...

There were also some cultivators but compared to the other top worlds, they were much weaker. Li Xiandao didn't notice any world crossers here.

He brought Tian Ya and Li Qing'er around for a few days to open up their understanding of the world.

Li Xiandao even went to Kunlun Land where the ancient ancestors came from. They were really strong and were considered the top in the Ten Lands. Li Xiandao counted and there were around 30 people who reached the peak of the world.

But Kunlun Land was sealed off from the outside world and unless you had the ancient native bloodline, you wouldn't be able to cultivate here.

They were biased towards others which resulted in normal people just being able to cultivate weak techniques.

It was a weird world indeed...

There were no world crossers here, or rather, maybe they had been dealt with.

In the end, Li Xiandao headed to Red Soil Land. This was a flame world and the temperature here was summer all year round. People here were used to it and didn't bother much.

There were no world crossers here. After Li Qing'er, Li Xiandao, and Tian Ya spent a few days playing here, they headed to the last world.

Death Spirit Land!

This was the most evil and weird place in the Ten Lands. There were spirits and mountain ghosts...

Normal people wouldn't be able to survive in this world.

Death Spirit Land couldn't have any world crossers. Li Xiandao and the two girls spent a short time here before leaving.

Ten worlds: Dali Land, Ancient Buddha Land, Cloud Mist Land, Ancient Buddha Land, Great Demon Land, Ten Thousand Beast Land, Kurlun Land, Red Soil Land, Eternal Land, and Death Spirit Land.

Apart from Dali Land, Ancient Desolate Land and Eternal Land was where they developed.

Apart from these three worlds, they had visited the other seven worlds.

Each of them was special and interesting in their own way. What shocked Li Xiandao the most was the fact that Death Spirit Land and the others were alright.

After spending some time here, a month passed. Li Xiandao brought Tian Ya and Li Qing'er back to Eternal Land.

Chapter 271: 10,000 God Weapons

After touring the world, Li Xiandao brought Tian Ya and Li Qing'er back.

A month passed and the two brats had learned and seen a lot. After all, they were people who had seen eight different worlds.

Within the Bank of the Universe, Seven was waiting for Li Xiandao to return. She hadn't seen him for a month and was the first to wait for him in the hall.

She even did her make up especially for him.

Seven's excuse that she gave was that she was happy and felt good, so she did her makeup.

As for why was she happy, she didn't announce it, so no one knew.

Li Xiandao brought the two of them into the Bank of the Universe and from afar he could see the dazzling Seven. He stopped and then turned back towards the two of them, "Both of you must be tired after this month. Now, you can head back to rest."

Tian Ya and Li Qing'er nodded, saying goodbye to Li Xiandao and leaving.

Li Xiandao looked around and after seeing that there was no one, he took off his mask and then adjusted his clothes.

Eh, good enough!

He looked at his own hair and felt that he looked quite neat.

Li Xiandao had an idea. He reached out and messed up his own hair to look like he had been busy.

After messing up his hair, Li Xiandao walked into the main hall.

Seven looked at Li Xiandao and her eyes lit up. This was the first time they had been separated since Li Xiandao took over the Bank of the Universe.

The 500 years in the Time Hall was just an instant to the outside world.

When Li Xiandao was locked up in the Seal Mountain Peak, Seal Mountain Peak saw him every day.

Only during this month when Li Xiandao went to tour the world did Seven not see him at all.

There were some things that couldn't be felt then and there, but as time went on, one's heart would feel empty.

Seven looked at Li Xiandao and smiled. It wasn't a wide smile but it was a gentle one.

Li Xiandao entered the main hall and watched as Seven's body bathed in the sunlight. She was more beautiful than a fairy. That slight smile also made Li Xiandao smile too.

"What? Did you miss me?" Li Xiandao took a few steps, smiling.

Seven frowned and was a little annoyed, "Who would even miss you? Do I look like such a person who easily misses others?"

Li Xiandao looked at Seven being tough and he smiled at her with a dotting expression, "Then, I do miss you. Is that okay?"

Seven was stunned and felt her heart tighten up. She felt nervous and shy, and her cheeks instantly turned red.

She didn't expect Li Xiandao to say that.

"You aren't a person who misses people so easily but I am." Li Xiandao continued. He looked at the Seven's pink cheeks and smiled sweetly.

"Such an oily tongue... Who knows how many girls you have cheated. Scoff!" Seven suppressed the joy in her heart. When she looked at his messy hair, she said, "Look at yourself... You left for only a month and your hair had already become so messy. Don't you know how to tie it up?"

Li Xiandao was shocked, "Is it? I think it looked quite good."

Seven rolled her eyes at Li Xiandao and said, "Lower your head. Let me help you tie it."

Li Xiandao listened and lowered his head. How perfect, his eyes were right on her chest.

I don't mean it!

Li Xiandao muttered to himself and just stared without blinking.

Seven helped Li Xiandao tie it up and said, "You didn't tie it properly when you went out?"

"I think it is still okay." Li Xiandao said without much care.

"What are you saying? It is a total mess." Seven said in disdain.

"That is because you aren't by my side." Li Xiandao said.

Seven was stunned, "But I can't always be there to help you tie your hair."

"Can't we just not separate for the rest of our lives?" Li Xiandao probed.

Seven's lips curled up and she was in a very good mood. But she said, "If you want, then run the bank properly and don't be like the other people."

"Okay, you should go rest. I won't disturb you anymore." Li Xiandao wanted to continue to tease Seven but she just tied up her hair and left.

She didn't give Li Xiandao the chance.

Li Xiandao touched his hair and said, "I will work hard for you to be by my side forever."

....

Li Xiandao rested for a full day.

Who knew if Seven was actually touched or affected by Li Xiandao's words? After she left that day, he didn't see her at all.

Since Li Xiandao couldn't see Seven, he felt bored and decided to check up on Tian Guangming and the others.

He realized that they were all back and they had also brought back many things.

Li Xiandao thought about it and personally knocked the copper bell!

Gather!

The same square!

Li Xiandao stood on the same steps!

This time, everyone gathered at a much quicker speed and was much more orderly. They just stood in two separate roles.

On the square, Seven appeared too.

He looked at his subordinates before saying, "Have the contracts all been cleared?"

Tian Guangming stood out proudly, "Master, this time I was the first to clear all of mine."

Tian Guangming beat Heaven Heart and the others and was really happy about it.

The others all nodded their heads to express that they cleared all their contracts.

Li Xiandao nodded his head in satisfaction, "It has been tough on all of you. Take out all the compensation money and treasures and pass it to Seven."

Seven walked down and started to collect the treasures.

Most of them were treasures that had been borrowed and a few were the compensation fees. This was because most of the people didn't follow the contracts.

Only Tian Guangming took out a bunch of things as he had collected two sets of compensation fees.

Just the 10,000 weapons from that god blacksmith were all valuable items.

Li Xiandao took a look at the 10,000 strong magical artifacts. Although they weren't as good as Celestial Artifact, they were amazing too.

"We can give these to the Flame Kings." Li Xiandao remembered that his Burning Legion didn't have weapons. Although they were strong, with weapons, wouldn't they become even stronger?

Moreover, these 10,000 weapons were all the same.

All of them were giant swords.

These swords were as big as doors.

10,000 Flame Kings holding door-like swords... This was quite fitting for their giant bodies.

When the time came, they didn't have to kill the enemy; just the pressure alone would crush everyone.

Li Xiandao walked down and picked up one of them. It was extremely heavy and meteor cinnabar was added in. Once True Qi was injected in, its weight would increase.

This was the perfect weapon for the Flame Kings.

Li Xiandao was happy, "It was tough for all of you to collect the contracts. Apart from the weapons, choose any item and I will give it to all of you."

The moment he said this, the happiest person was the flood dragon.

It nearly jumped up and roared to vent its emotions.

Chapter 272: Dragontooth Rice Matures

The flood dragon felt heartpained when it had handed over the blood meridian pearl. This pearl helped it improve a lot, and over the month, its bloodline was 10% purer.

Its strength was not only one fold stronger than a month ago, but this was the benefit that the pearl had given him.

Bai He wasn't a simple monster, so how could it exceed Legend Realm Stage 33?

It was all because of the pearl that purified his bloodline.

The flood dragon was thinking about serving Master well, earning some credit, and then asking Master for the pearl.

Who knew that Li Xiandao was so generous?

Each person chose one item. It didn't hesitate and took the pearl right away.

A green pearl was swallowed by the flood dragon. Only then was it at ease.

This time, it was confident to take revenge on its past enemies.

Apart from the flood dragon, the others chose the items that they wanted. This included the quasi-celestial artifact which the old priest took.

The old priest had been low profile but he was one of the strongest under Li Xiandao.

The key was that his lifespan was extremely terrifying. He broke through and his lifespan increased. He burned lifespan to enter the Time Hall to continue breaking through.

This was a cycle!

This was why he was strong. But because he was low profile and peaceful and just acted like his cultivation was really weak, the celestial artifact he took was the first strong treasure he had chosen.

Li Xiandao was looking forward to his future growth.

It was okay if he was low profile in the Ten Lands as Li Xiandao could solve everything. But entering the Nine Skies, Li Xiandao needed him to step up.

The Nine Skies was the true challenge. Li Xiandao looked as they split the treasures. He thought about it silently.

"Granddad Deity, Dragontooth Rice said that the rice it planted has grown." Tian Ya ran to Li Xiandao's side and said.

Li Xiandao was stunned and nodded, "I know."

The people had all selected the items they wanted. Li Xiandao instructed, "The Dragontooth Rice I planted a while ago has matured. It is beside the Time Hall. Head over and collect them and then cook for yourselves and see what the effects are like."

Heaven Heart said, "I shall head over now."

The others all flew to the Time Hall and saw a wide farmland.

The soil was dry and rice had grown out of it. Many pure white rice grains, the size of arms and much redder than Dragontooth Rice, were there.

In one area of farmland, there was a lot of rice growing. Even the railings on the edge had rice growing out of them.

Tian Guangming and the others started to collect the Dragontooth Rice and they placed them in their magical artifacts.

A few hundred mu of farmland had been collected. Li Xiandao watered the land which allowed the Dragontooth Rice to plant more.

As for the dragontooth rice that was collected, one could just eat it directly.

The red dragontooth rice ran out from Tian Ya's body, "This Dragontooth Rice can be eaten directly. As it has condensed the essence of heaven and earth, you just need to wash it and there is no need to cook it."

Li Xiandao took one, using spiritual energy to clean it before he bit into it.

The texture was good, sweet, fragrant, delectable, and it melted right in his mouth.

After it entered his stomach, a large amount of spiritual energy seeped into Li Xiandao's dantian and replenish the energy within.

This month was comparable to half a day of Li Xiandao's cultivation which was a few dozen days for the others.

Li Xiandao was really satisfied. One Dragontooth Rice was the size of an adult arm, and one needed 10-20 mouthfuls to finish it. Just one rice grain was the same as a month of cultivation.

Li Xiandao finally understood how people of that era didn't cultivate but were still able to live until 800.

With such a godly item, it was tough even if you wanted to die.

The others learned from Li Xiandao, picking up the Dragontooth Rice and biting into it.

Instantly, all their expressions changed.

Awe!

"So amazing?" Heaven Swallowing Dog muttered. It didn't believe that the Dragontooth Rice was so amazing.

“You are just sucking up to Master. How can a grain of rice be so amazing?” The pangolin muttered in disdain.

“The two of you can try it!” Demon Frog said calmly. The Demon Frog loved to follow the crowd. Since everyone said it was good, then it would try it.

“I am a carnivore and you are asking me to eat vegetables. You are asking me to eat such a huge mutated rice grain?” Heaven Swallowing Dog was filled with disdain and wasn’t willing to try it.

The Barbaric Cow had started long ago and was in total awe. Seeing that the Heaven Swallowing Dog didn’t believe them, it shoved a rice grain into its mouth.

“I told you that I am not eating. I am a god dog that eats meat. I am not a domesticated dog...” Heaven Swallowing Dog struggled.

Pa!

Flood Dragon’s claw smashed down, forcing his mouth shut.

“You...” Heaven Swallowing Dog stared at the flood dragon in rage and was about to go mad.

In the next second, it was stunned. It felt a surging amount of power in its body. Its expression changed and it grinned, “I suddenly remember that I am now a house dog.”

“A house dog should eat vegetables. I will eat what Master gives me.” Heaven Swallowing Dog jumped and was about to snatch rice from the Barbaric Cow.

“Scram! You ate one already, so there is no more for you.” The flood dragon slapped it and smacked Heaven Swallowing Dog away.

“I ate too quickly and didn’t taste anything!” Heaven Swallowing Dog felt wronged.

“That is your own problem!” Pangolin walked over and mocked Heaven Swallowing Dog.

Li Xiandao looked at these scenes and smiled. He looked at the few hundred mu of farmland and the tens of thousands of rice grains they had collected. He thought about it and said, “From now on, each one of you will get three a day. Collect them from Seven.”

“Long live Master!” Heaven Swallowing Dog jumped up and shouted loudly. Now, it could taste Dragontooth Rice, right?

Li Xiandao passed half of the Dragontooth Rice to Seven and he took half before going back to his room.

The Dragontooth Rice helped him too and it could increase Li Xiandao's cultivation.

Eating more Dragontooth Rice could dramatically increase Li Xiandao's cultivation.

Anyway, he would have tens of thousands of Dragontooth Rice a month. As the grandmaster level Dragontooth Rice recovered, that number would only increase.

Li Xiandao wasn't worried about consumption at all.

"Ten Lands' matters are basically finished. It is time to think about the Nine Skies." Li Xiandao thought about it.

It was time for the Bank of the Universe to head to the Nine Skies. There was no room for improvement here in Ten Lands anymore.

Chapter 273: How To Get To Nine Skies

He definitely had to go to the Nine Skies. But how to get there was a problem worthy of discussion.

Li Xiandao could fly up himself to enter the Nine Skies.

But if that happened, then wouldn't the Bank of the Universe be in the Ten Lands?

Seven would have to stay in the Ten Lands.

This was something that Li Xiandao wouldn't accept.

Just like how Li Xiandao used Tian Ya to enter Eternal Land from Ancient Desolate Land.

And before when he needed a World Grade Teleportation Formation to enter Ancient Desolate Land from Dali Land.

After returning to his room, Li Xiandao shouted for Seven to discuss this matter.

After Seven heard Li Xiandao's words, she said regretfully, "Things would be so much better if you unlocked the fifth mountain peak in the Ten Lands."

Li Xiandao was tempted, "Can the fifth peak allow the Bank of the Universe to have world crossing powers?"

Seven nodded, "The previous Bank of the Universe could head all around Nine Skies and Ten Lands and even the Celestial World. But after that mountain peak was sealed, the bank lost this ability."

Li Xiandao was filled with regret too. He was missing just this mountain peak!

"After I head to the Nine Lands, I have to unlock that mountain." Li Xiandao said firmly.

"After I unlock it, you'll be freer and can tour everywhere along with the Bank of the Universe." Seven nodded.

"But then how should we head to the Nine Skies?" Li Xiandao closed his eyes and asked. He had a few ideas in his heart but he didn't know which to use.

Seven said, "Wouldn't it be the same as how we entered Ancient Desolate Land? We just find a local to build a World Grade Teleportation Formation and then let the Bank of the Universe cross the worlds over."

Li Xiandao frowned, "But crossing from Dali Land to Ancient Desolate Land and heading from Ten Lands to Nine Skies is totally different."

In the Ten Lands, Li Xiandao could give his men some help. But if he went to the Nine Skies, he wouldn't be able to help at all.

"Why don't we let the Burning Legion build a World Grade Teleportation Formation?" Seven suggested.

The Burning Legion was cultivating well under the leadership of the Book of War. Til now, they still weren't ready.

Li Xiandao thought about it and contacted the Book of War.

"Master, are you looking for me?" The Book of War's voice spread forth along with pictures.

In a giant magma pond, 10,000 Flame Kings were fighting, forcing enemies back.

Li Xiandao looked at them in satisfaction.

"Right, I want to bring the Bank of the Universe to the Nine Skies. What do you think about Hell Sky?" Li Xiandao asked.

"I don't recommend Master coming to Hell Sky." The Book of War said solemnly.

"Why?" Li Xiandao asked curiously.

“Hell Sky is just a bigger Dali Land. There are no resources here and the environment is quite bad too. There aren’t many humans. There’s only magma and flame creatures. It is suitable for Burning Legion but not Master.” The Book of War explained.

Li Xiandao kept silent.

“The key is that Hell Sky is not connected to the other eight. If Master enters Hell Sky, you need to build World Grade Teleportation Formations to head to the other places. It is better to head right to Cold Moon Sky. That place is suitable for Master.” The Book of War said.

Hell Sky’s position in the Nine Skies was the same as Dali Land in the Ten Lands.

They were all useless!

Think about the strongest person in Dali Land.

Saint Realm!

Hell Sky was the same. It had a low upper limit that wasn’t suitable for Li Xiandao and the Bank of the Universe.

Li Xiandao nodded, “Okay, understood. Continue training my Burning Legion!”

The Book of War nodded, “Goodbye, master!”

“I will send people to Hell Sky soon to bring you 10,000 weapons to equip the Burning Legion.” Li Xiandao reminded.

“Okay, understood.” The Book of War nodded.

Li Xiandao ended the conversation, waving his hands and the pictures disappeared.

Seven looked on at the side, “Then, let’s not head to Hell Sky. We have to go to Cold Moon Sky.”

Li Xiandao nodded his head, “Let’s use the old method. Pay attention to people and make the watches trade with someone from Cold Moon Sky.”

Seven nodded, “I will make arrangements now.”

Li Xiandao looked on as Seven left. He swore to himself that he would unlock the fifth mountain peak soon.

Otherwise, this would just be so unbearable and he was totally restricted.

“Moon Angel Usuna, come and see me!”

“Old priest, come and see me!”

Li Xiandao contacted the two of them at once and started to plan his next step.

Moon Angel Usuna and the old priest rushed over.

“Master, why did you call us here?” The old priest asked curiously.

“I want you to fly up to the Nine Skies and then bring the 10,000 weapons to Burning Legion.” Li Xiandao instructed.

The first stop in the Nine Skies was Hell Sky!

Even if Li Xiandao ascended, he would also enter Hell Sky. He would then slowly improve before heading to other worlds.

This was why the Book of War said that there weren't many humans there. Most of them cultivated quickly and then entered Cold Moon Sky. Otherwise, they hid to cultivate before moving on.

Of course, most of them were killed by the native spirits and magma creatures from Hell Sky.

This was why even if Li Xiandao ascended, he wouldn't be able to enter Cold Moon Sky.

The old priest heard this and after a short silence he said, “Of course, I am willing to follow Master's orders!”

“I trust in your ability. You will be able to fly from Hell Sky to Cold Moon Sky quickly. We will meet up again in the Cold Moon Sky.” Li Xiandao said.

Old priest nodded his head. He had been hiding his strength. In truth, he was extremely strong and reached the limit of the world. He suppressed himself and along with his ability to recover even broken limbs, he was the most suitable to head to Hell Sky.

“Get the 10,000 weapons from Seven and then fly up. Hand it to Burning Legion and under their protection, you will be fine.” Li Xiandao told the old priest to get prepared.

The old priest bowed and left, leaving Moon Angel alone.

“What is Master's mission for me?” Moon Angel Usuna asked calmly.

Li Xiandao looked at Usuna's face and beautiful figure, "You come from Cold Moon Sky, right?"

"I am from the Moon Palace Qin Family, the daughter of the moon!" Moon Angel was slightly shocked when she answered that.

She was called Qin Yue!

She was the daughter of the moon!

She should have had a limitless future!

But she was chosen to be a martyr!

A martyr that the Qin Family sacrificed!

When Moon Angel heard the name and thought about Qin Family, she felt disgusted.

"Qin Yue and the moon's daughter is dead. From now onwards, there is only Moon Angel Usuna!" Moon Angel knelt down on one knee and said respectfully. She fully submitted to Li Xiandao.

"I know that you are loyal, so I came to find you. I need you to enter Cold Moon Sky and work with the host. We've chosen to build a World Grade Teleportation Formation and allow the Bank of the Universe to enter Cold Moon Sky to continue gaining strength." Li Xiandao told her his plan.

Chapter 274: New Guests

Moon Angel Usuna was different from Li Xiandao and the Old priest.

She herself came from the Cold Moon Sky!

She could use the Heaven and Earth Battlefield teleportation formation to return to Cold Moon Sky. She didn't need to fly up and that saved a huge step.

Li Xiandao wanted to hand the World Grade Teleportation Formation mission over to Moon Angel.

But thinking about it, when Moon Angel was in Cold Moon Sky, she was still a kid. She was an imprisoned Qin Family kid.

She was really talented and the daughter of the moon. If she was developed, her future would be limitless.

But she was too beautiful!

She succeeded and failed because of that.

When news of her becoming the daughter of the moon spread out, the evil demon head of Moon Palace targeted her.

Then, she became a martyr!

The Qin Family didn't allow her to cultivate and forced Moon Angel to flee the Qin Family after her mother died. She hid in the Heaven and Earth Battlefield and cultivated. Only then did she manage to slowly grow.

This was why Moon Angel was not familiar with Cold Moon Sky!

Apart from entering Cold Moon Sky, she knew nothing else.

This was why he couldn't make her build the World Grade Teleportation Formation alone!

He needed someone familiar with Cold Moon Sky and who was familiar with the various industries to be able to build the formation.

Moon Angel understood, "I will listen to Master's instructions and try my best."

"Eh, now Seven is searching for a suitable person, so you can go back to prepare. Here are 5,000 grains of Dragontooth Rice, take them. Whether for cultivation or healing injuries, they are really useful." Li Xiandao passed some of his half of the Dragontooth Rice portion to Moon Angel.

Moon Angel didn't reject and accepted all of it, "With this, after I enter Cold Moon Sky, I will be able to break through quickly."

Li Xiandao nodded his head and waved his hand, "Go and rest. Once Seven finds someone suitable, both of you can head out together."

Moon Angel left.

Li Xiandao hadn't completed his job. There was still an important thing needed for the World Grade Teleportation Formation that was in the Ancient Desolate Land.

Normal people couldn't use the World Breaking Blade for the World Grade Teleportation Formation. They would create a knock-off copy to slice open space.

But since Li Xiandao had the real thing, then why create a knock-off one?

He contacted La Mo, the race leader of the High Mountain Race, who was still in Ancient Desolate Land.

After La Mo received Li Xiandao's message, he was shocked and said respectfully, "Master!"

"Is everything still okay in Ancient Desolate Land?" Li Xiandao asked

"Everything is good. The empress is doing really well and the entire dynasty is strong." La Mo replied.

Li Xiandao recalled the ambitious Long Mixu and nodded. He asked, "How is your cultivation?"

"I can ascend and enter Eternal Land." La Mo said.

"Good, I will wait for you to ascend with the World Breaking Blade. I need the Celestial Artifact!" Li Xiandao instructed.

"Yes, Master!" La Mo nodded, agreeing right away.

Li Xiandao cut off the communication in satisfaction.

"I have to unlock the fifth peak!" Li Xiandao gritted his teeth. If Li Xiandao wanted to bring the Bank of the Universe to the Nine Skies, he needed to prepare many things.

Seven walked over and said, "I have found a new guest. He is really suitable. Are you going to receive him?"

Li Xiandao nodded, "Yes!"

Li Xiandao didn't even change and just headed out right away.

....

Within the Heaven and Earth Battlefield, a young man was safe in the ancient city.

He didn't dare to head out as he knew that he would be hunted down immediately.

Wasn't he just a person with a strong body? Why did they want to dig it out of him?

The young man was strolling around the city and returned to his home. He saw that there were still people staring at him from the outside. He cursed, "Damn, isn't it because I am more talented and strong? Is your young master so jealous? He chased

me from Cold Moon Sky to Heaven and Earth Battlefield and even sent people to surround me. He is just insane!”

“I am to blame for people so talented. The heavens gave me such terrifying talent and physique, causing me to attract hatred.” The young man sighed and started to cultivate.

Peng peng peng!

There were knocks on his door.

“Who is it?” The young man shouted in annoyance.

“Sir, your room is due tomorrow. If you want to continue staying here, you need to pay God Source.” The servant shouted.

The young man’s face sunk and he shouted, “Understood.”

“Damn, it must be because of that damn Young Master Qingfeng. He knows I don’t have enough god source and he wants to force me out.” The young man cursed and started to panic.

He was only at Human Celestial Realm and there were many people at Legend Realm Stage 33 waiting for him. Once he went out, even with his talent and physique, he couldn’t win.

“What should I do? I just awakened the God King Body and God King Pure Land talent. Give me time and I will become an expert like the God King.” The young man said bitterly.

But time waited for no one!

“Who can save me?” The young man started to become anxious.

Weng!

At that moment, a red watch appeared in front of him.

“The Bank of the Universe can satisfy all your demands.”

The watch sent the young man a message.

“The Bank of the Universe? What is that?” The young man looked at it in confusion and reached out for the watch.

“Shatter me!” The watch sent another message.

Kacha!

The young man hesitated but still decided to shatter it.

His eyes became black and the world changed. His body fell into the endless darkness and was just sinking deeper and deeper.

Dong!

Who knew how long passed, but it didn't seem like much. He stabilized, looking left and right, and he observed everything around.

"Welcome guest!" Li Xiandao sat in the main hall and spoke in the direction of the young man outside.

"Who are you?" The young man looked at Li Xiandao in shock and also at Seven who was so beautiful that he couldn't shift his eyes away.

"Who are all of you?" The young man walked into the Trading Hall and asked.

"This is the Bank of the Universe. Here we can satisfy all your wishes." Li Xiandao said calmly.

"All my wishes?" The young man looked at Li Xiandao suspiciously.

"Yes, everything Mr Qiu Lin!" Li Xiandao called him by his name.

Only now did he know that he wasn't dreaming. He calmed himself down and asked, "You know so much about me?"

"Since you entered my Bank of the Universe, I know the information that I should know, like the God King Body and the God King Pure Land talent." Li Xiandao said calmly.

"You can really help me fulfill my wishes?" Qiu Lin asked.

"Everything comes with a price. The bigger your wish, the higher the price you have to pay." Li Xiandao explained.

"If you pay the price, then your wish will definitely be fulfilled. However, if you break the contract, we will make you pay a heavy price." Li Xiandao added.

Chapter 275: Sign Contract

Qiu Lin looked at Li Xiandao and sized him up, "I want you to help me get out of my situation!"

Li Xiandao asked, "What situation are you in?"

Qiu Lin said, "I awakened the God King Body and God King Pure Land talent over in Cold Moon Sky but I caused a huge commotion, and the young master Qingfeng noticed it. He sent people from his family to chase me down and forced me into the Heaven and Earth Battlefield."

"Then, they forced me into the city and I can't head out. I also used up all the god source on my body and without it, the inn will chase me out. The streets of the ancient city don't allow people to stroll the streets, so I will definitely be chased out."

"Once I am chased out, they will dig out my body and snatch my talent." Qiu Lin described his situation.

He had no ability now. Even if he had only a year to strengthen with the God King Body, Qiu Lin was confident in killing all of them.

But unfortunately, he was at his weakest and hadn't even broke past Human Celestial Realm. How was he going to fight people from Legend Realm?

Li Xiandao said calmly, "Your situation is just a small issue to me. I can solve it for you but what can you give me?"

Qiu Lin face became bitter and he said, "I don't have anything now. I don't have any god source or treasures. I have nothing."

"It's you that I'm after!" Li Xiandao nodded his head.

Qiu Lin looked at Li Xiandao with a weird expression.

"I want you to help me with something as a form of payment for my help." Li Xiandao's tone didn't change and he said calmly.

"What thing?" Qiu Lin was wary.

He definitely wouldn't sell his body.

After all, he was someone with hopes to go big in the future, the God King of the Nine Skies. How could he leave such a black history for himself?

"Help me go to Cold Moon Sky and build a World Grade Teleporation Formation there!" Li Xiandao said.

“World Grade Teleporation Formation?” Qiu Lin looked at Li Xiandao in shock.

“Yes.” Li Xiandao nodded.

“The materials needed for the World Grade Teleporation Formation are huge. To build one in the Nine Skies is really complicated unlike building one in the Ten Lands.” Qiu Lin said solemnly.

The teleportation formation that Li Xiandao built to get from Ancient Desolate Land to Eternal Land was fast and simple because the world barrier of the Ten Lands was weak.

But the Nine Skies was different!

The world barrier in the Nine Skies was really thick and that formation that they had built in Ancient Desolate Land definitely wouldn't work.

If not, Li Xiandao would just make La Mo pull that World Grade Teleporation Formation over and then tell Moon Angel Usuna to bring that into Cold Moon Sky.

“I know so I prepared the blueprints for you and will also send a subordinate to enter Cold Moon Sky with you. She has god source to buy ingredients. What I need is your familiarity with Cold Moon Sky.” Li Xiandao said truthfully.

La Mo would bring the World Grade Teleporation Formation blueprints and World Breaking Blade over to Eternal Land. Li Xiandao would hand those two things to Moon Angel.

Qiu Lin relaxed, “Since you said that, then I am fine. I have been an orphan since I was young and have toured Cold Moon Sky. I know the sellers everywhere.”

This was his advantage and also the reason why Li Xiandao had high hopes for him.

“Since you say that it is okay, then sign the contract.” Li Xiandao told Seven to prepare a contract to pass to him.

Qiu Lin looked at it carefully. He read it repeatedly to ensure that there wasn't anything bad for him.

After Qiu Lin confirmed that things were fine, he signed the contract.

The moment Li Xiandao signed it, he relaxed. At the same time, La Mo also flew over.

Li Xiandao said to Qiu Lin, “Someone will head to Cold Moon Sky with you soon!”

“I hope that it is a beauty.” Qiu Lin relaxed his guard and smiled sheepishly.

Li Xiandao didn't reply and just told him to wait.

Privately, Li Xiandao informed Moon Angel to receive La Mo.

In just a moment, Moon Angel and La Mo were here.

"Master!" Moon Angel's mature voice rang out. Qiu Lin turned his head and was stunned.

"She is too beautiful!" Qiu Lin rubbed his eyes. This was a top quality mature lady.

Moon Angel looked at him and just stood respectfully in front of Li Xiandao.

Li Xiandao looked at La Mo.

He hadn't seen La Mo in a while. His cultivation had grown and he was at Countless Sands Realm stage 18.

He relied on the World Breaking Blade to cultivate.

But now, Li Xiandao didn't care about people from Countless Sands Realm anymore.

"Did you bring the things?" Li Xiandao asked.

La Mo respectfully passed the World Grade Teleporation Formation blueprints and World Breaking Blade over to Li Xiandao.

La Mo kept both of them after Li Xiandao left Ancient Desolate Land and took good care of them.

Li Xiandao pointed at Moon Angel and said, "Give it to her. Also, reenact your relationship with the World Breaking Blade. After this matter is over, I will return the World Breaking Blade to you."

La Mo didn't hesitate, reenacting his relationship with the blade and passing it to Moon Angel.

Moon Angel reached out, and in the blink of an eye, it disappeared.

Li Xiandao looked at Moon Angel and Qiu Lin and said solemnly, "I hope that the two of you can work together. Especially you, Qiu Lin, remember the agreement. If you break it, Moon Angel can kill you!"

Qiu Lin patted his chest, "Don't worry sir, I am an honest person and I will never lie."

Li Xiandao didn't believe him and asked Moon Angel, "What else do you need?"

Moon Angel shook her head, "You have given me what you should give. I will complete the mission."

Li Xiandao nodded his head in satisfaction, "Now, head to the Heaven and Earth Battlefield and solve Qiu Lin's problem before entering Cold Moon Sky."

"Goodbye Master!" Moon Angel said respectfully.

Qiu Lin waved his hand and said, "Goodbye sir."

"I hope that you can give me good news soon." Li Xiandao stood up in anticipation.

Moon Angel turned around and left with Qiu Lin. Only Li Xiandao, Seven, and La Mo were left in the hall.

"Go and cultivate. Also, you can enter the Ten Thousand Country Book Depository five times. That is your reward." Li Xiandao rewarded La Mo.

"Thank you, Master!" La Mo was filled with gratitude before he left.

Seven looked at Li Xiandao and smiled sweetly, "Are you looking forward to unlocking the fifth mountain peak?"

Li Xiandao sighed and took off his mask, "Without it being unlocked, I really have no plans for crossing worlds."

It was so problematic each time. He had to unlock the fifth mountain peak so that the Bank of the Universe could casually move about.

Chapter 276: That Is Too Strong

Moon Angel Usuna and Qiu Lin appeared in Heaven and Earth Battlefield together.

In the Heaven and Earth Battlefield, there were a total of 19 ancient cities.

In the cities, no one was allowed to fight. If they were found to have fought, they would be executed right away.

The 19 cities were correlated to the Nine Skies and Ten Lands.

One world, one city.

Apart from the 19 cities, one could fight at any other location.

This was why Qiu Lin hid here and couldn't go out. He didn't dare to return to Cold Moon Sky either as there would definitely be someone waiting at the teleportation formation.

Qiu Lin had used up all his god source and there was nothing much that he could do.

In the inn, Moon Angel sensed the area around, "Someone is spying on you!"

"Right, it is that young master Qingfeng. If fighting was allowed here, I would beat him up." Qiu Lin was annoyed.

The person staring did so openly but as no fighting was allowed here, he appeared in front of Qiu Lin and told him that he was monitoring him.

Infuriating!

"You want to take revenge?" Moon Angel asked.

"Of course." Qiu Lin said emotionally.

"Head out and draw them all over." Moon Angel said calmly.

"I will die!" Qiu Lin was shocked.

Going out now would be asking for death!

Moon Angel looked at him and said calmly, "With me here, you can't die."

Qiu Lin was hesitant and asked, "How strong are you?"

Moon Angel thought about it and said, "Very strong!"

Qiu Lin frowned. How strong was 'very strong'?

He felt like things were bad and he was being conned.

"Okay then, I will draw them out. I will trust you once." Qiu Lin compromised and chose to believe in Moon Angel.

After all, he had signed the contract and he had no more god source on him, so he could only trust her.

Moon Angel said calmly, "Go now. Solve it soon and let's return to Cold Moon Sky soon!"

Qiu Lin looked outside the window. The moon was high above and looked really beautiful like a silver veil.

“Can we solve it quickly?” Doubt rose up in Qiu Lin’s heart.

....

Under the moonlight, outside the ancient city!

Qiu Lin headed out alone.

A bunch of people followed behind him.

They didn’t hide themselves.

They were really arrogant!

They followed three to five meters behind, totally disregarding Qiu Lin.

Qiu Lin was furious.

The moment he headed out, the people behind grinned, “Isn’t this our little genius? You hid in the city for so long and didn’t dare to come out. Why do you dare now?”

Qiu Lin clenched his fists and said coldly, “Can’t you actually try to follow me?”

They were sticking so close. Were they asking to die?

“I will just follow you like that. What can you do to me?” The people following mocked Qiu Lin.

Qiu Lin took in a deep breath and continued walking outwards.

“What genius God King Body? Aren’t you just a coward? I provoked you so much and you don’t dare to attack. You really are disappointing.” The people following muttered in disdain.

If Qiu Lin attacked just now, he would have broken the ancient city’s rules as he was still within the safety area of the city.

In the next second, he stepped out of the area and knew for certain that Qiu Lin didn’t dare to attack him.

Hong!

Who knew that Qiu Lin would suddenly move like lightning, crossing a three to five meter distance right away.

“God King Pure Land!”

Qiu Lin hollered in rage. A layer of blue light appeared and formed a phenomenon which covered him.

On the ancient battlefield, the area was covered in broken ruins and corpses. The white cherry blossoms floated down. Under the cherry blossom tree was a lone peak that gave off an old, ancient, and majestic aura.

Dong!

The people who followed were all fixed to the spot and were unable to move. They were totally suppressed by the God King Pure Land.

Pa!

In the next second, Qiu Lin punched and his head was shattered like a watermelon that was sliced apart.

It was extremely gory!

It happened only a second after he had stepped out of the safe zone.

Qiu Lin said coldly, “I didn’t kill you not because you are strong and not because I have a good temper. The reason is because all of you didn’t exit the city.”

“Now that you are out of the city, I will kill you right away.” Qiu Lin said coldly, wiping away the fresh blood on his hands.

Pa pa pa!

He started clapping. Dozens of people walked over from all around, surrounding Qiu Lin in the middle.

“As expected from the God King Body. You hadn’t broken past Human Celestial and could kill someone at middle Human Celestial in one punch. As expected from the talent that young master is interested in.” A middle-aged man praised. He was the one who clapped just now.

As for his own men being killed by Qiu Lin, he didn’t feel heartpained and didn’t care at all.

In Cold Moon Sky, Human Celestial peak people could be casually abandoned. As long as Qiu Lin exited the city, everything would be fine.

Qiu Lin focused on the middle-aged butler coldly and mocked, "What a good dog. Did your young master give you enough bones?"

The middle-aged butler's face was cold, "There is no use in bickering. No matter what you say, you are just someone with a mouth. In terms of combat, you are just a punching bag. I can kill you easily."

Qiu Lin looked at the people around who were Legend Realm, while this butler was at Legend Realm Stage 33.

There was no way he could flee.

"Capture him and trash his limbs. Bring him back to the young master. Take out his God King Body and take away his God King Pure Land talent!" The middle-aged man waved his hand and said coldly.

The dozens of Legend Realm experts walked over slowly with teasing expressions.

They wanted to see Qiu Lin's furious expression. They wanted him to beg and panic...

But unfortunately, Qiu Lin just stood there coldly.

"I didn't expect you to be such a calm person even in the face of death." The middle-aged man laughed coldly and mocked.

"Actually, my legs are shaking." Qiu Lin suddenly laughed and said truthfully.

"Oh, then why don't you beg? If you beg, then I won't break four limbs. I will only break three." The middle-aged butler laughed viciously and said.

"That is because I believe that a beauty will save me." Qiu Lin said firmly.

"Beauty?" The middle-aged butler was stunned as he looked around warily.

But there was no one around!

"Stop looking. She is above you." Qiu Lin shouted.

Shua!

The middle-aged man raised his head and saw the moon. He also saw a fairy.

Like a woman who walked out of Moon Palace, her body was perfect. Her legs were long and she wore tight armor with a veil on her face.

Creak!

A crescent blade like a silver moon slowly pulled open above her head.

The silver moon blade was called Full Moon!

Moon Angel held onto the two sides of the moon and her body instantly flew down.

Keng!

With a slash of the blade light, the darkness was slit and a few dozen heads flew up.

Qiu Lin was stunned.

He looked at the middle-aged butler and realized that he had panicked. Blood was trickling down his neck and it was slowly expanding. Suddenly, his entire neck fell off.

“That is too strong!” Qiu Lin muttered and looked at the perfect beauty, Moon Angel, who held Full Moon with shock and surprise.

Chapter 277: Being Strong Once More

Qiu Lin looked at Moon Angel's gaze like he was looking at a female dinosaur!

He actually had some thoughts, but now that he saw the ground full of corpses, he had no ideas at all.

Moon Angel kept Full Moon, walking elegantly, “Isn't it very simple?”

Qiu Lin was numb as he nodded his head. This matter just looked so simple.

But he couldn't do it!

“How amazing are you?” Qiu Lin asked.

Moon Angel thought about it, “I don't know, but anyway, I am stronger than you.”

Qiu Lin rolled his eyes, “You are definitely stronger than me now, but that doesn't mean you will be stronger than me in the future. I am someone with the God King Body.”

Moon Angel didn't care, "Now that we've killed them, we can head to Cold Moon Sky and complete Master's mission."

Qiu Lin took in a deep breath, "Someone is camping for me at the World Grade Teleportation Formation over in Cold Moon Sky."

Moon Angel didn't care, "Then, I shall beat them up again!"

Qiu Lin raised a thumb and said respectfully, "Amazing!"

He didn't curse as he didn't want to be rude in front of a girl.

Moon Angel walked into the city and headed to the teleporation formation.

Qiu Lin also followed suit.

Hong!

Together they stepped into Cold Moon Sky!

Outside Cold Moon Sky's World Grade Teleportation Formation, a bunch of people were standing outside. The leader was a cold looking teen.

This person was Cold Moon Sky's young master Qingfeng. His strength had exceeded Legend Realm Stage 33 and at 20. This cultivation was quite good.

But he was not satisfied.

Competition in an emperor aristocratic family was really intense and for him to have such cultivation at this age, he would have been eliminated long ago.

Without an explosion in his cultivation, he would have just disappeared into the masses.

This was why he craved for God King Body and God King Pure Land talent.

This was something that could help him change his destiny.

"I have to get the God King Body and God King Pure Land, otherwise, I won't be able to compete with those sick monsters. Kids from an emperor aristocratic family won't be average!" Young master Qingfeng thought about it firmly.

He guarded here and waited for his men to capture Qiu Lin.

This was because he couldn't head to Heaven and Earth Battlefield!

The competition in the family was intense and age was one of the conditions.

If he entered Heaven and Earth Battlefield, 20 years of his lifespan would be deducted. He was only 20 and the next 20 years would be very important.

Normal people might not care. After all, if one broke through, then their 20 years of lifespan would be replenished.

But to the emperor aristocratic family kids, losing 20 years was the same as being automatically eliminated.

The emperor family reputation, resources, fame, techniques, treasures...

You wouldn't be fated for them anymore just because you entered Heaven and Earth Battlefield and gave up on the most important 20 years of your life.

This was why no matter what, young master Qingfeng would not enter Heaven and Earth Battlefield!

He was waiting here.

"Qiu Lin, you won't be able to run!" Young master Qingfeng said coldly.

Hong!

In the next second, the teleportation formation lit up and someone walked out.

Qiu Lin!

What a coincidence. Young master Qingfeng opened his eyes wide and looked on in surprise.

The person he had hoped would return day and night was finally here.

In the next second, he didn't want to hug this person but he wanted to tie him up and dig out everything.

Since he was someone he eyed, he wanted to merge with him.

"You are finally willing to come out." Qingfeng said emotionally, waving his arms and his 20 helpers surrounded Qiu Lin.

Qiu Lin walked out of the teleportation formation. Facing such a group, he didn't show any fear at all.

If this was in the past, he might have shivered in fear as he was only at the peak of Transcendent Realm.

But now, he raised his chest high and strolled out. He looked at Young Master Qingfeng and said loudly, "I have a backer now. You want my god King Body, so talk to by elder sister first."

After the thoughts of chasing the Moon Angel were extinguished, Qiu Lin treated Moon Angel as her elder sister.

It didn't matter whether or not Moon Angel agreed. Only he had to agree.

Young Master Qingfeng laughed coldly, "Where is your elder sister?"

Qiu Lin reached out and behind him. Another person walked out of the teleportation formation.

It was a woman who wore a veil and walked out elegantly.

The armor on her gave out a metallic sound when she walked and the atmosphere caused his face to become solemn.

Moon Angel was really beautiful and all the guys would be filled with desires for her!

But compared to the God King Body, Moon Angel was nothing!

Young Master Qingfeng said coldly, "This woman, I am from the emperor aristocratic family Young Master Qingfeng. I have to kill this person, so please don't interfere."

As he was terrified of Moon Angel's aura, Young Master Qingfeng decided to give Moon Angel some face.

"I am protecting him, so all of you can't kill him." Moon Angel said coldly.

"So, you are definitely going to interfere?" Young Master Qingfeng asked fiercely.

"Why talk so much? Your family name can't scare me. If you want his God King Body, you have to defeat me first." Moon Angel said coldly.

"Okay, since you are asking to die, then don't blame me. Today, I shall shatter a flower." Young Master Qingfeng waved his hand coldly and all his men charged forwards.

Hong!

20 Legend Realm experts exploded forwards to try to kill the Moon Angel.

This strength was huge!

In Qiu Lin's eyes, the aura they gave off was enormous!

But in Moon Angel's eyes, it was only so-so. She had reached peak power over in the Ten Lands and she looked at these people like she was looking at kids.

"It seems like you aren't respected in the emperor family. They actually only gave you such helpers, how pitiful." Moon Angel sighed and pitied Young Master Qingfeng.

Young Master Qingfeng was furious, Moon Angel's words totally provoked him.

In truth, only real words would provoke someone.

Young Master Qingfeng wasn't doted at all.

He was nearly forgotten by the family.

This was also the reason why he was so eager to get the body and the talent.

"Kill her!" Young Master Qingfeng's heart was stabbed and he couldn't help but holler in rage. He waved his men on to kill Moon Angel.

Explosion!

His subordinates charged over. Rumbling energy surged and drowned Moon Angel.

Under the moonlight, Moon Angel was covered by the light. Rays of light drowned her and were filled with killing intent.

Once the energy exploded and struck her body, they might have been able to injure her.

Clang!

But she wasn't worried. Her body was as fast lightning, flying into the sky before the energy hit her. Under the moonlight, a cold streak of light exploded.

"Hidden Moon Blade Technique!"

Moon Angel's body suddenly disappeared. Her fingertips shook and each slash claimed one life.

In less than a second, Moon Angel was in front of Young Master Qingfeng. She was 100 meters away and she elegantly walked over. Her jade white hand was covered in fresh blood.

Behind her, body after body fell. Young Master Qingfeng's helpers were all dead.

She showed her strength once more. It was the same outcome as before!

Chapter 278: Killing Young Master Qingfeng

Young Master Qingfeng's eyes were wide open and he looked at Moon Angel like he had seen a ghost.

So beautiful but so cruel... It had refreshed his understanding.

"Who are you?" Young Master Qingfeng's facial muscles twitched and he asked in terror.

One second!

She killed 20 of his helpers in one second. Wasn't that just too terrifying?

Young Master Qingfeng broke through to Legend Realm Stage 33 but he knew that he couldn't do that.

This was why he couldn't beat Moon Angel.

"I told you that she is my elder sister. Why don't you ask her if she agrees to you digging away my God King Body?" Qiu Lin walked over gleefully.

"Aren't you an orphan?" Young Master Qingfeng scolded. When he was dealing with Qiu Lin, he investigated his background before he attacked.

But now, how could Qiu Lin have such an amazing elder sister?

"I am an orphan but does that mean I can't find an organization?" Qiu Lin mocked.

"You just think that because I am an orphan I am easy to bully which is why you're surrounding me. But now, you have nowhere to go!" Qiu Lin laughed coldly.

"Why? Do you still want to kill me?" Young Master Qingfeng's face was filled with shock.

"How fresh, you want to dig my God King Body away and I can't kill you?" Qiu Lin laughed coldly.

"I am a member of an emperor aristocratic family and you are from Cold Moon Sky, so you should know how terrifying those three words are." Young Master Qingfeng emphasized.

“Emperor aristocratic family is amazing but haven’t you been abandoned?” Moon Angel said calmly.

“Even if I am abandoned, I am their child and of the same blood. If you kill me, you will be insulting the emperor aristocratic family and they will hunt you down.” Young Master Qingfeng hollered fiercely.

He didn’t want to die!

No one wanted to die and Young Master Qingfeng felt like he could fight for his life.

He used the name of the emperor aristocratic family.

He really terrified Qiu Lin.

Qiu Lin, who was rolling around at rock bottom in Cold Moon Sky, naturally knew about the emperor aristocratic family’s name. They could even compare to top sects.

In the entire Nine Skies, emperor aristocratic families were all extremely famous.

No one would easily offend someone from an emperor aristocratic family.

Qiu Lin couldn’t help but look towards Moon Angel.

What could they do now?

Moon Angel’s face was calm and expressionless as she asked, “Are emperor aristocratic families so amazing?”

Her home, Moon Palace Qin Family was also an emperor aristocratic family. Moon Angel didn’t bother and also escaped and even changed her name to Usuna.

Now that a small emperor aristocratic family abandoned kid was threatening her, would she care?

“My Qing Family has been passed down for 80,000 years and two emperors have come from our family. The faction behind you wouldn’t dare to easily offend us, right?” Young Master Qingfeng started to panic. It seemed like the term emperor aristocratic family couldn’t threaten this woman.

“The faction behind me...” Moon Angel suddenly laughed but even with the veil, Young Master Qingfeng’s eyes lit up. It was as if a moon had popped out from the clouds, lighting up the night sky.

But in the next second, Moon Angel’s words caused his heart to sink.

“If my master is here he would definitely say that emperor aristocratic families aren’t a worry and he will just kill you without hesitation.” Moon Angel smiled and felt really proud.

Her strength and confidence came from Li Xiandao.

Even if Li Xiandao was still trapped in the Ten Lands, Moon Angel believed that once Master arrived here, he would sweep everyone.

Emperor aristocratic families weren’t a problem at all!

“Who is your Master?” Young Master Qingfeng asked in terror. He retreated and was prepared to rub oil on his feet.

Moon Angel didn’t seem afraid of his threats.

“My Master...” Moon Angel thought about it and Li Xiandao’s tall body appeared before her beautiful eyes. It was as if he wouldn’t bend even if the sky collapsed. She smiled.

“My Master is the best master in the world. You are about to be a dead man and aren’t worthy of knowing his name.” The moment Moon Angel said this, she stepped forwards.

Hong!

A fierce aura surged forwards like flames and terrified Young Master Qingfeng. He swiftly retreated and used his movement techniques to flee.

Crazy woman, fierce woman, damn woman...

Young Master Qingfeng fled and cursed deep down. Emperor aristocratic family couldn’t scare her at all and she wanted to kill him just like that. She was such a lunatic.

Moon Angel looked on coldly, “You won’t be able to run!”

Her legs touched the ground and left no marks at all.

Moon Angel’s body flashed in the sky and disappeared. In the next second, she was right behind Young Master Qingfeng.

She used her fingers as a sword along with blade techniques.

Moon Angel used the same move.

Hidden Moon Blade Technique.

This strike silently appeared behind Young Master Qingfeng’s back.

Young Master Qingfeng just felt a terrifying feeling cover him. He opened his eyes in terror and he knew that he couldn't flee anymore.

As an emperor aristocratic family member, his cultivation wasn't that high, but he had a good ability to judge situations.

"Void Heaven Strike!"

Young Master Qingfeng stopped fleeing since he would die either way. He turned around, using True Qi to form a grotto-heaven to strike her.

This was Young Master Qingfeng's life grotto-heaven. It was extremely strong. He had just condensed it and once he used it, its strength couldn't be underestimated.

The realm after Legend Realm Stage 33 was the Nine Grotto-Heaven Realm!

To condense nine grotto-heavens inside or outside the body to use power several folds more terrifying.

This was Grotto-Heaven Realm.

Explosion!

Young Master Qingfeng's first grotto-heaven was used to try to catch her off guard, to kill her in an instant.

But he forgot that Moon Angel also exceeded Legend Realm Stage 33.

She had even reached the limit of the Ten Lands.

With a streak of cold moonlight, she thrust her fingers forward like light that stabbed through the sky.

The grotto-heaven was no match at all.

Hong!

The hugely powerful grotto-heaven was shattered by Moon Angel. The large portions of energy struck the area around, smacking Young Master Qingfeng into the air and spitting out mouthfuls of blood. His body was trembling. His veins and bones were all broken.

Moon Angel felt the grotto-heaven and said, "Is this the realm after Legend Realm?"

"It doesn't seem like much. I can also condense one." Moon Angel muttered. With the huge power of hers now, she could jump and condense many grotto-heavens.

But before this, she should have just killed this noisy Young Master Qingfeng.

Moon Angel casually waved her hand and a wave of enormous energy exploded forth.

“Lunatic, if you dare to kill me, the emperor aristocratic family won’t let you off.” Young Master Qingfeng shouted in despair.

Hong!

Energy struck his body and Young Master Qingfeng was killed instantly.

“So much nonsense, just die.” Moon Angel said in disdain.

Chapter 279: Buying Ingredients

Moon Angel didn’t care that Young Master Qingfeng was being killed. How could the abandoned child of an emperor aristocratic family make Moon Angel not kill him?

A threat to the emperor aristocratic family?

Moon Angel didn’t care at all and was filled in disdain.

She had offended Moon Angel Qin Family already, so how would she be afraid of one emperor aristocratic family?

“Amazing, elder sister is so amazing!” Qiu Lin walked over and gave her the thumbs up. Young Master Qingfeng was really and had reached Grotto-Heaven Realm, but she was still slain by Moon Angel with one sword.

That meant that Moon Angel was even more amazing!

“I have solved your problems, so you should help Master build the World Grade Teleportation Formation next.” Moon Angel said.

Qiu Lin patted his chest and ensured, “I will do my best. Now that Young Master Qingfeng has been killed, his emperor aristocratic family will react. After all, he is a direct family member, so should we hide?”

Moon Angel shook her head and asked, “Why should we?”

“Although killing Young Master Qingfeng feels good, we still need to be wary of them. After all, they do have so many experts.” Qiu Lin said.

“As long as we build the teleportation formation and let Master cross worlds, the emperor aristocratic family is not a problem at all.” Moon Angel said firmly.

She believed Li Xiandao unconditionally.

“Sure, since sister says that, then we shall purchase materials. We have the blueprints but crafting a teleportation formation in the Nine Skies is much more complicated than crafting it in the Ten Lands. Let’s head to the sellers now.” Qiu Lin said. He tossed the emperor aristocratic family to the back of his head and was only thinking about building the World Grade Teleportation Formation.

Moon Angel nodded, “Bring me there quickly.”

Qiu Lin looked around and confirmed a direction, “5,000 miles away, there is a market. People within 100,000 miles will buy and sell goods. Let’s head over. The sky just got bright and the new goods should be just on display.”

“Okay, let’s go then!” Moon Angel nodded her head. She rushed into the distance along with Qiu Lin.

15 minutes after they left, a person silently landed from the sky. He looked at the dead Young Master Qingfeng with an ugly expression.

“Trash is just trash. It was right that the family abandoned you. It would have been better if you just lived your life peacefully and got some children to extend the bloodline. Now that you’ve died like this, you are wasting pure blood.” That person said in disdain.

He looked around and looked at those helpers who died the same way as Young Master Qingfeng. He muttered, “It was done by a woman. Her techniques are sharp and she is using a blade. It seems like someone who uses a long blade. Damn.”

“There have only ever been a few of us in the emperor family bloodline. Each orthodox bloodline has always been precious. Even if he is trash, he can help to reproduce. Being killed like this means that he is of no value at all.” That person said coldly.

“It seemed like Qiu Lin found a helper and this woman killed Young Master Qingfeng. We need an explanation. Killing Qiu Lin, digging away his God King Body and killing this woman should be a decent explanation to the family.” This person sighed. He was the bloodline protector of the family!

As long as one was of the orthodox bloodline, one would have a bloodline protector for 100 years.

100 years later he would see whether or not there were descendants with proper bloodlines. If there were, then he would continue protecting.

If not, then there was no need to protect as there wouldn't be any more orthodox bloodline members in the future.

This was also the reason why the emperor aristocratic family bloodline was rare and why they cherished each person.

Now that Young Master Qingfeng was killed before having a single child, it meant that one orthodox bloodline had been wasted just like that. This was something they found hard to accept.

Even if he was trash, the emperor aristocratic family was willing to raise him for his whole life for the superiority of his bloodline.

His birth gave him nobility.

This was why this bloodline protector looked around and instantly sent out a message.

Searching for Qiu Lin and a strong blade using woman.

He believed that with the strong powers of their emperor aristocratic family, they would get news soon.

....

The sky turned bright slowly, Moon Angel and Qiu Lin came to this huge market.

The market was filled with human noises, filled with horses and carriages.

This huge market was a convenient spot and people entered and left selling all sorts of things.

Medicinal ingredients, metal, pills, magical artifacts, talismans, formations...

Moon Angel and Qiu Lin came to look for formation materials.

Moon Angel entered the market and attracted a lot of attention. Everyone stared at this cold, mature beauty.

Moon Angel was such a beauty and would naturally attract attention. She was used to it and just focused on selecting the materials she wanted.

Qiu Lin memorized the requirements of the World Grade Teleportation Formation. The basic things could all be bought here. He ran here and there and bargained for the suitable materials. After he got it at a decent price, he informed Moon to pay the god source.

Moon Angel didn't say a word, paying the god source, and keeping the items.

Many basic things could be bought here. Moon Angel was satisfied with Qiu Lin's speed and bought many things in just a short moment.

Moreover, his speed continued to increase.

Moon Angel followed to monitor the quality and bought it if it was good enough.

One bought and one paid. Everyone could tell that Moon Angel was the person who was in charge.

Moreover, when Moon Angel paid the God Source, she didn't hesitate, which showed that she was a rich woman.

Rich Woman!

Young!

Beautiful!

A mature lady!

All these things added together tempted people to want to charge over and beg Moon Angel to be their sugar mummy.

Because of her cold expression, she made it tough for people to get close to her. Many of them wanted to but didn't have the courage.

But some aristocratic family children or sect disciples started to flirt.

"Hi, what would you like to buy? I am familiar with this market." An aristocratic family child smiled and came over to flirt.

"There is no need. I am enough for elder sister." Qiu Lin stopped him and rejected right away.

"Brother, this is not right. I just want to make friends." The aristocratic family child's expression was one of unhappiness.

"Climb!" Qiu Lin didn't show courtesy at all.

"Do you think I don't know what you are thinking?" Qiu Lin said in disdain, "We are all guys, stop acting so polite. My sister is not someone who you can get. Stop asking to be insulted."

“You...” The guy stared at Qiu Lin in rage and felt a little humiliated. When he saw that Qiu Lin was not even past Human Celestial, he was furious.

“Brother, if you want to protect her, it will depend on whether or not you have the skill!”
The guy smiled.

“Scram!” Moon Angel realized that more and more people were crowding around. She shouted coldly.

Hong!

One word was like a strong fist that smacked into the guy. The guy flew a few 100 meters back and smashed into the floor before fainting.

“You just flirted with me, so I won’t injure you too badly. Go spend some time recovering for a few weeks.” Moon Angel laughed coldly.

The area around was totally silent.

Those people who wanted to be sugar babies suddenly felt that there was no need to.

Chapter 280: World Coordinates

After the guy was struck away by Moon Angel, fewer people surrounded her.

Everyone was familiar with this aristocratic family child. This Human Celestial Realm disciple was famous in this region. Now that he fainted just like this, everyone knew that Moon Angel was not good to offend.

Since she was not good to offend, then they wouldn’t offend her.

Everyone decided not to look at her. The market returned to normal.

Moon Angel said to Qiu Lin, “Continue to buy the items!”

Qiu Lin continued to select materials. He could purchase the basic materials here for a cheap price.

Of course, the sellers also saw how strong she was and didn’t dare to ask for too much. Qiu Lin saw through this and started to bargain more, getting better prices.

After a day, Qiu Lin chose a few hundred sets of materials, completing all the basic materials that he needed.

This really satisfied Moon Angel. If she was the one who did it, it would take several days for her to do so. It would also be much more expensive.

At night, in the nearby inn, Moon Angel and Qiu Lin were looking at the World Grade Teleportation Formation and they ensured that the basic ingredients were ready.

They were lacking two things.

Star Map!

World Coordinates!

Just like the ones they had gotten in the Ten Lands.

In Cold Moon Sky, they had to get these two things too.

The only difference was that Moon Angel brought the World Breaking Blade herself.

“The World Coordinates are easy to settle. It is rare but many people have it.” Qiu Lin said.

“Do you know where can we find it?” Moon Angel looked at the World Grade Teleportation Formation and asked.

“I know someone who has it but he won’t give it to us.” Qiu Lin nodded.

“Why not?” Moon Angel asked. She would be willing to buy it with large amounts of god source.

“Because you killed Young Master Qingfeng, do you think people from Qing Family will hand the world coordinates to you?” Qiu Lin was a little helpless.

“In the hands of Qing Family?” Moon Angel frowned.

“More accurately, it is in the hands of Young Master Qingfeng’s brother. He is not as weak as Young Master Qingfeng and is one of the 10 tigers of Qing Family. Although he is at the tail end, he is not easy to offend.” Qiu Lin understood such information like the back of his palm. When Young Master Qingfeng was hunting him down, he investigated Qing Family and obtained a lot of information.

“Where is this person?” Moon Angel asked.

“You are going to find him?” Qiu Lin was shocked.

“I have to get the world coordinates to draw Master over. I promised Master that I would build the teleporation formation.” Moon Angel said firmly.

“We don’t have to come into contact with emperor aristocratic family people. This person is one of the 10 tigers and isn’t as weak as Young Master Qingfeng.” Qiu Lin was worried and gave a suggestion.

“What thoughts do you have?” Moon Angel looked at Qiu Lin and asked.

“An auction with the various sellers in the markets.” Qiu Lin said.

“How much time do we need?” Moon Angel asked the crucial problem.

Qiu Lin was silent. He couldn’t give an accurate time. In truth, he himself didn’t know how long it would take.

They could get the world coordinates like that but as for the time?

Time was a problem!

They might get it within a year.

Within 10.

Within 100.

But Moon Angel couldn’t wait and neither could Li Xiandao.

So, Moon Angel decided to find one of Qing Family’s 10 tigers to get the world coordinates.

“Then, you go get the world coordinates. Pass me some god source and I shall buy the Star Guidance Map for you!” Qiu Lin thought about it and chose to split up.

Moon Angel would deal with one of the Qing Family tigers and Qiu Lin was a burden. He would drag down Moon Angel and make it hard for her to focus.

Why not head to purchase the Star Guidance Map?

“You can buy that?” Moon Angel asked in surprise.

This was good news.

Any problem that could be solved with god source wasn’t a problem at all.

When she left the Bank of the Universe, Seven gave Moon Angel huge amounts of god source. One could say that half of the amount that the Bank of the Universe earned was given to Moon Angel.

Not to mention a few dozen god spirit meridians...

All of them were given to Moon Angel. Now, Moon Angel was really rich and this sum was a decent fortune in Cold Moon Sky.

"Of course, you can buy it. I know a place called Heaven Workshop. It focuses on selling these treasures. They could draw Star Guidance Maps long ago, and now, they can even mass produce it." Qiu Lin said.

If he found this Heaven Workshop, then he could purchase the Star Guidance Map.

Moon Angel nodded her head in satisfaction, "Good, I will give you a million god source to buy it. Then, come and find me right away. I will return here after acquiring the world coordinates and we shall meet here."

Qiu Lin nodded his head, "No problem."

"Right, let me teach you a space crossing seal. Try your best to grasp it and when you face danger, use it to flee. Protect yourself and wait for me to return." Moon Angel said.

"Okay." Qiu Lin's eyes lit up, this was a good way to protect himself.

Moon Angel immediately taught Qiu Lin about the complicated six star seal, "Grasp it, the spiritual energy here is a few dozen times that of Ten Lands, maybe even 100 times. Cultivating here is just too quick."

Qiu Lin grinned, "Then, we shall split up right now. I will search for Heaven Workshop and you shall find the 10th tiger. I will give you the map and his location."

Moon Angel nodded. She took the map that Qiu Lin had bought. She looked at the place that he marked and nodded.

It was 100,000 miles away, not far from her. Moon Angel could rush over very soon.

After all, she knew how to use the space crossing seal.

Qiu Lin was also really decisive. After trying the space crossing seal many times, he left right away. With his God King Body and God King Pure Land talent, it was much easier to control.

After Moon Angel left the inn, she hid deep into the mountains and started to condense her grotto-heavens.

In the Ten Lands, she broke through to Legend Realm Stage 33 but didn't condense grotto-heaven. Now, she used the enormous power of Cold Moon Sky to condense it.

There was limited power below, but in this world, she condensed a total of 5 grotto-heavens.

The limit of the Ten Lands was equal to Grotto-Heaven Realm Stage 5 in the Nine Skies.

Then, she took out the Dragontooth Rice and swallowed it.

One Dragontooth Rice had considerable power in the Ten Lands, but in the Nine Skies, it was just a pill that couldn't even fill one grotto-heaven. One needed 10 of them to fill one.

Moon Angel swallowed 100 to fill herself to the brim. Then, she relied on this enormous spiritual energy to take another step to reach stage six.

Six grotto-heavens, each was similar to a long river.

Moon Angel stood up and looked into the distance. She had a firm look in her eyes, "I have to get the World Coordinates."
