### Chapter 361: Dragon Blood And Mixed Pure Dragon Shark

Jin Wudi flew through the air and with a loud explosion, he smashed into the ocean.

Behind him was the Emperor Realm old fire dragon.

“What do you want to do?” The old fire dragon looked at Jin Wudi in anger, and for some reason, he started to panic.

“You want to leave?” Jin Wudi stood straight up and started at the old fire dragon calmly.

“This world is so huge and I can go anywhere I want.” The old fire dragon was very tough but he didn’t dare to stare into Jin Wudi’s eyes. The moment he looked into them, his confidence would totally disappear.

“The world is huge and naturally no one can restrict your freedom. But now, you are not allowed to leave.” Jin Wudi stared at the old fire dragon and ordered.

The old fire dragon hollered in rage, “Who are you to give me orders? I want to leave.”

*Hong!*

Jin Wudi’s giant tail smacked down and caused the space to rip open. The ripples smashed into the old fire dragon’s face causing him to stumble. He rolled in the air like a ball.

“Now, you know why I can order you?” Jin Wudi stared at the old fire dragon coldly.

The old fire dragon was slapped dizzy. After stabilizing himself, he looked towards Jin Wudi in terror. He panicked and the tail woke him up as he knew that he had no way to fight back in front of Jin Wudi.

“I am sorry. I won’t be leaving.” The old fire dragon apologized.

“That’s right. If you dare to leave, I will kill you next time.” Jin Wudi was satisfied.

The old fire dragon looked at Jin Wudi in rage. That was a direct threat.

Barbaric, shameless scum!!!

The old fire dragon cursed in anger. He really wanted to charge up and die together.

But in the next second, under Jin Wudi's gaze, he retreated back to his original spot. He gave Zu Long and Dragon Crocodile a death stare.

"It is best if they just die inside, so I won't need to worry anymore." The old fire dragon cursed. The two mixed-bloods want to change the world?

But the two mixed-bloods seemed like they really could.

Under everyone's gazes, Dragon Crocodile walked forwards step by step to the edge of the eighth stage.

The ninth stage world was right ahead and he could touch it.

There was a world barrier which once broken would allow one to see the light of victory.

Dragon Crocodile suddenly stood up. His 100-foot body straightened like a human and he shouted, "I will break through my own bottleneck today!"

*Dong!*

Under everyone's gazes, Dragon Crocodile leaped through the ninth world.

His first step succeeded.

The second step also succeeded.

Everyone was looking closely.

Would a top genius who could cross all nine stages appear?

But Dragon Crocodile stopped. He didn't cross and instead turned his head.

Zu Long had crossed into the eighth stage.

"Brother, quickly, let's head in together." Dragon Crocodile laughed out loud. He didn't take another step and just waited for Zu Long.

When Zu Long saw this, he quickened his steps to come to the edge of stage eight.

People who saw these scenes were touched by their brotherhood. The reputation of the first person to reach stage nine would be huge. But Dragon Crocodile didn't care. He wanted to cross together with Zu Long.

Mr. Mule muttered, "They seem closer than most of us."

They had been together for 10,000 years and were used to one another, especially those 8,000 years when they were suppressed. They supported each other. This made Mr. Mule feel bitter and he cheered for Zu Long.

"Leap across and fly into the sky!" Mr. Mule shouted.

"He will definitely do it." Jin Wudi believed. He was also looking too.

Dragon Crocodile and Zu Long looked at one another.

"Let's charge." Zu Long said. His eyes were burning bright. The opportunity he had been waiting 10,000 years for had finally appeared.

"Charge!" Dragon Crocodile shouted and jumped.

*Hong long long!*

A wide world appeared in front of him

Zu Long didn't hold back either. His blood-red flood dragon body flew into the sky.

*Hong long long!*

At the moment, the surrounding atmosphere changed. A terrifying aura spread and a scary person flew out from behind the ninth gate. He was 3,000 feet tall and had a shocking body. His armor was like a Celestial Artifact's, pitch-black like ink. A chaotic aura wrapped around his body.

Dragon Crocodile transformed.

He had crossed the ninth gate, activating all his hidden veins, and turned into a Chaos Dragon Crocodile.

He was born from chaos and surrounded by 100 miles of chaos energy that could corrode anyone and turn the enemy into chaos.

The 3,000-foot body made one tremble. This was totally different from his body when he cultivated previously.

At the moment, the Chaos Dragon Crocodile was a king level terrifying being.

Even a true dragon could be ripped alive by it.

*Kong!!!*

At that moment, a blood-red light shot forth. A red bodied giant dragon appeared. It was hundreds of feet wide. It didn't look as terrifying as Dragon Crocodile but its aura was no weaker.

Blood Dragon!

It was a strong mutated being of the dragon race.

Jin Wudi saw the Blood Dragon being born and lost his cool, "Blood Dragon, it really is a Blood Dragon. That is unbelievable. My dragon race only had one in ancient times but now one more has actually appeared. Hahaha!"

Jin Wudi was really happy and he laughed out loud while he flew in the sky.

Two geniuses that could cross stage nine of the Dragon Gate. One was a terrifying Chaos Dragon crocodile. The other was a Blood Dragon which had only appeared once in the Dragon Race. The glow from the two of them suppressed everyone and no one else could even compare.

Jin Wudi laughed out loud while the old fire dragon's face was totally grey. He looked on in disbelief.

*How is that possible!!* The old fire dragon wanted to curse. He really felt angry.

"A Chaos Dragon crocodile and a Blood Dragon, why not just give them the bloodline of the ancestral dragon?" The old fire dragon scolded the dragon gate.

But he didn't know that what one transformed into would depend on one's hidden veins.

Moreover, both the Chaos Dragon Crocodile and Blood Dragon had targeted it.

"Kill it!" The Chaos Dragon Crocodile hollered. He was a petty person and that old fire dragon nearly killed him just now.

Now, the tables had turned and he awakened the Chaos Dragon Crocodile bloodline. His strength jumped to Emperor Realm. Now that he had strength, the first thing he wanted to do was kill the old fire dragon.

"Kill!" The Blood Dragon turned into a streak of light and charged.

The old fire dragon was stunned and wanted to beg for mercy.

How? He had been targetted by two monsters, so how could he survive?

He was asking for help. He was serious.

## Chapter 362: Dear Ninth Brother

On the ocean, the Chaos Dragon Crocodile's 3,000-foot body was huge. He charged aggressively and just looked incredibly terrifying.

The chaotic energy surrounding him caused the old fire dragon to tremble.

He wanted to flee as fast as he could but the Blood Dragon was already in front of him.

*Hong!*

Blood Dragon wasn't reasonable and his aura was no weaker than the old fire dragon. He was obviously at Emperor Realm too.

His cultivation was only at Legend Realm before but now that the hidden veins were opened and bloodline was raised and activated, both of them entered Emperor Realm.

How terrifying was the Emperor Realm Blood Dragon?

There was a large dragon roar as he bared his fangs. The huge shockwave caused the old fire dragon to tremble. His blood was unstable and exploded out.

The rumbling blood was absorbed, causing the old fire dragon to be a size smaller.

"No.." The old fire dragon wanted to beg. He didn't want to die.

But the Chaos Dragon Crocodile didn't give him the chance. He opened his mouth and bit down. With a shake of his head and a ripping sound, blood rain came pouring down on the ocean, dyeing everything red.

An Emperor Realm fire dragon was bitten to pieces by the Chaos Dragon Crocodile and ripped into many parts. His defense was like paper in front of the Chaos Dragon Crocodile.

Emperor Realm couldn't even take a single hit from the Chaos Dragon Crocodile.

The Blood Dragon didn't even attack and just looked on coldly, allowing the Chaos Dragon Crocodile to kill the old fire dragon.

"You nearly killed me just then, so now it is my turn to take revenge." The Chaos Dragon Crocodile spat out the dragon meat in its mouth in disdain. He tossed it into the ocean and spat viciously.

Blood Dragon looked on from the side, "Are you going to keep looking like that?"

The current Chaos Dragon crocodile was 3,000 feet large. Chaotic energy wrapped around him and he had boundless energy within his body. The more he cultivated, the more terrifying he would become.

But the 3,000-foot body was just huge.

“It won’t be a problem for me to shrink.” The Chaos Dragon Crocodile grinned and his body shrunk slowly. The chaos energy dissipated and he transformed into a three meter tall crocodile. He stood up like a human with his own armor and seemed really terrifying.

He had free control of its body. Now that he had improved so much, he still decided not to transform into a human and he kept his own body. But now, he could stand up straight.

He could instantly transform into his 3,000-foot body to activate the Chaos World within.

Just that alone meant that he was several times stronger than before.

“As for you, you called yourself Zu Long, but now you’ve become a Blood Dragon.” Chaos Dragon Crocodile laughed out loud.

Blood Dragon didn’t care, “Then, I shall change my name to Blood Dragon.”

“You are so casual?” Chaos Dragon Crocodile was stunned.

“A name is just a name. Now that I am a Blood Dragon and can’t evolve into an ancestral dragon, Zu Long is not suitable.” Blood Dragon didn’t care much.

Normal dragons would slowly improve after cultivating to transform into ancestral dragons.

But not Blood Dragons.

Blood Dragons were mutated bloodlines and their final form wasn’t the ancestral dragon.

“You do what you want. No matter whether you are Zu Long or Blood Dragon, you are my good brother.” Chaos Dragon Crocodile Ye Feng laughed out loud. He was genuinely happy.

Blood Dragon nodded. He wanted to say something but a terrifying aura spread across the endless oceans.

*Dong!*

“Who?” Chaos Dragon Crocodile in the direction from which the aura was coming from.

Blood Dragon looked too.

Not far from the Dragon Gate was a giant teleportation formation. It was wrapped in terrifying patterns and bright light shone out from within. It was a World Grade Teleportation Formation.

In it, dozens of giant true dragons appeared. They were huge and their auras surged, covering the entire area.

“These are the descendants who crossed the stage nine Dragon Gate?” A giant dragon wrapped up in flames said after flying out of the World Grade Teleportation Formation.

His voice was deep and loud and reverberated throughout the ocean.

Everyone turned their eyes to Blood Dragon and Chaos Dragon Crocodile.

The giant dragon wrapped in flames couldn’t help but look over. His eyes froze and he said in shock, “Blood Dragon!”

He saw the blood-red Blood Dragon and was shocked. Since ancient times, the dragon race only had one blood dragon and that was a very long time ago. So many true dragons were unsure if Blood Dragons even existed.

But now, a Blood Dragon had appeared. Those doubts disappeared and this giant dragon wrapped in flames couldn’t help but feel envious.

The next second, he saw the Chaos Dragon Crocodile and didn’t say anything. The Chaos Dragon Crocodile had retracted his chaotic aura and seemed really ordinary.

The giant dragon wrapped in flames didn’t care. He thought that only the Blood Dragon crossed the stage nine gate, so he said warmly, “You are a Blood Dragon. That’s unbelievable! Follow me to Dragon Island to join my Fire Dragon race. I can give you resources and also the dragon race’s legacy technique so that you can fly to the Celestial World.”

This giant dragon was really inviting and promised many benefits. A normal person would have accepted such a warm offer.

But the Blood Dragon just stared coldly without saying a word.

There was even thick killing intent within its heart!

Right, killing intent!

The Blood Dragon really wanted to kill. The killing intent was strong and terrifying, shocking the Chaos Dragon Crocodile beside him. He stared at the Blood Dragon. They had just met for the first time, so why was there such terrifying killing intent?

The giant dragon sensed this and frowned. He said coldly, "I am inviting you to join Dragon Island and you actually want to kill me?"

Blood Dragon flew over. His aura was no weaker and he said coldly, "I have my reasons for wanting to kill you. Ninth brother, long time no see."

The giant dragon was shocked and stared at the Blood Dragon. It said in disbelief, "What did you call me?"

"We haven't met in 10,000 years and you can't recognize your brother?" Blood Dragon laughed coldly and said.

"Impossible!" The giant dragon wrapped in flames muttered and said coldly, "My brother was mixed-blood trash. You can't be him."

"Stupid brother, before I leaped across the Dragon Gate, I was mixed-blood trash." Blood Dragon laughed coldly.

"It can't be you!" The giant dragon shook his head and wasn't willing to believe it.

"Long Yun Wei, my beloved ninth brother, do you still remember your pitiful weak brother?" Blood Dragon suddenly shouted. His words seemed close but he was filled with sadness and rage.

## **Chapter 363: Brother, Times Have Changed**

Long Yun Wei was Blood Dragon's ninth brother.

10,000 years ago, he was the first to beat up Blood Dragon till he was half dead.

Blood Dragon had been chased out of Dragon Island and was alone with no one to rely on. When he saw his own ninth brother, he was quite happy deep down.

But this brother smashed Blood Dragon with his tail, heavily injuring him.

This matter was something that Blood Dragon hadn't forgotten to this day.

His blood-red pupils shone with sharp killing intent. He was really terrifying and didn't bother to hide it at all.

Now, Blood Dragon wanted to kill his ninth brother.

Long Yun Wei looked at Blood Dragon in shock and sized him up. He still didn't realize that this was his brother.

But when Blood Dragon spoke his own name, Long Yun Wei had to believe that this rare Blood Dragon was actually his mixed-blood brother.

"You are still alive?" Long Yun Wei was shocked.

He couldn't help but be shocked to the bone.

10,000 years!

He had been chased out of Dragon Island and was struck down by his nine brothers to the Ten Lands. He shouldn't have been able to rise back up but now that mixed-blood flood dragon had transformed into a Blood Dragon. He had unlimited potential and was even at Emperor Realm now.

They were both on the same level.

How was that possible! ! !

He had the direct bloodline of the dragon race and his brother was just a mixed-blood.

The nine brothers attacked the Blood Dragon together. This was only because a mixed-blood would affect the fire dragon honor, so they had to wipe him out. But since they were from the same father, they didn't kill him and just sent him to the Ten Lands.

Now, the Blood Dragon had transformed. He had become the second Blood Dragon to date.

In terms of bloodline, he crushed the other nine brothers.

How could Long Yun Wei accept that?

He wanted to recruit Blood Dragon but now he extinguished those thoughts. Looking at Blood Dragon's killing intent, he wouldn't forgive them, so why ask for trouble?

Since that was the case, then he would attack and kill him right away.

"Since you are my tenth brother, then I shall invite you to die." Long Yun Wei hollered in rage. He spat and rumbling magma surged forth.

After Long Yun Wei realized that Blood Dragon was his brother and that he wouldn't be recruited, he knew that Blood Dragon would definitely take revenge for that matter.

Since that was the case, then it was better to attack first rather than waiting to be attacked. Why not kill him right away?

Long Yun Wei was decisive and showed no mercy. He spat out the dragon flames to burn Blood Dragon.

But he underestimated Blood Dragon's strength.

*Hong!*

When the magma landed, Blood Dragon's body scattered into numerous small blood beads. One drop after another flew towards Long Yun Wei.

The magma couldn't burn him but Long Yun Wei wasn't dejected either. He swung his claw like the sky was falling down in an attempt to destroy the numerous blood pearls.

*Hong long long!*

This strike was really terrifying, causing a huge pocket to rip open in the space.

Chaos Dragon Crocodile looked on with a serious expression. If Blood Dragon lost out, he would charge in right away.

Jin Wudi was also paying attention to the battle. He was really solemn but he was paying attention to the nine giant dragons behind Long Yun Wei.

Since the young master came out, the bodyguards followed him. These were the ones that Jin Wudi was paying attention to.

The battle between Blood Dragon and Long Yun Wei was really intense.

The dragon claw swung but the blood pearls didn't fear anything. They all gathered together, turning into a Blood Dragon which swung its tail down.

*Hong!*

A giant explosion reverberated through the sky. A blood-red giant dragon and a dragon burning in flames were tangling with one another.

*Peng!*

Blood Dragon's tail caused Long Yun Wei to become dizzy.

One of the nine giant dragons behind Long Yun Wei frowned and wanted to step out.

But Long Yun Wei said coldly, "Don't interfere. I want to see how much my weak and cowardly brother has transformed?"

"You will find out now." Blood Dragon attacked viciously, smashing Long Yun Wei back dozens of meters. With a flash in the air, the dragon claw landed.

"I am totally different from before. I remember every one of you that bullied me. You are the first relative I am going to kill but you won't be my last." Blood Dragon hollered.

"Die!" Long Yun Wei shouted in rage. Two giant dragons tangled together and fought. They would roar, their armor smashing against one another and fresh blood dripped down.

"Fire Dragon Flame!"

Long Yun Wei was being suppressed by Blood Dragon and he had no way to fight back. Blood Dragon was too strong. Both of them were at Emperor Realm but Blood Dragon didn't care at all when he was hurt. He didn't fear anything and directly absorbed Long Yun Wei's blood to recover his injuries.

This infuriated Long Yun Wei, so he amassed his strength to push Blood Dragon to the ground. He spat out a ball of terrifying flames from his mouth which flowed into Blood Dragon's stomach.

*Hong long long!*

This was a really terrifying scene. A river of magma flowed from Long Yun Wei into Blood Dragon's body.

Blood Dragon tried to struggle but Long Yun Wei was determined to kill him. He even struck with the 10,000 pieces of source energy.

Slowly, Blood Dragon's fighting strength weakened.

"Die!" After Long Yun Wei spat out flames, he tossed the Blood Dragon aside. He roared towards the sky, Emperor's aura suppressed the area around.

When Chaos Dragon Crocodile saw this, he was furious and wanted to charge up to take revenge for his good brother.

But he stopped right away.

After swallowing the flames, Blood Dragon stood up and his body was glowing. Flames were burning beneath his blood-red skin.

Long Yun Wei was shocked, "You won't die from that?"

10,000 years of accumulation surged into Blood Dragon's body and he still didn't die?

"Do you know what Blood Dragon's talent is?" Blood Dragon said coldly.

Long Yun Wei looked at Blood Dragon, it didn't know.

The others didn't know either and they looked on nervously.

"I can absorb all sorts of energy to replenish myself. As long as you don't instantly kill me, I will continue to grow more powerful. You gave me the flames you amassed for 10,000 years. If you can't kill me, then you'll strengthen me instead." Blood Dragon smiled coldly.

His giant body was changing color and the flames were being absorbed by the blood. An enormous power filled the Blood Dragon's body, and he couldn't help but holler in rage, "Die!"

*Hong!*

This time, Blood Dragon was so terrifying that he made one tremble. He was so fast that Long Yun Wei couldn't see clearly. He was instantly struck by the giant body.

"How is that possible..." Long Yun Wei was shocked. Did he do something wrong?

10,000 years of flames he amassed hadn't killed Blood Dragon but strengthened him instead.

"Stupid brother, times have changed. Our positions have changed and you will definitely die this time." Blood Dragon walked over coldly. He really wanted to kill Long Yun Wei.

## **Chapter 364: You Are Looking For Me**

Blood Dragon's change was something no one expected.

They were looking at Long Yun Wei pressing Blood Dragon down and he spat out flames into Blood Dragon's body. Everyone thought that Blood Dragon was going to die.

But in the blink of an eye, everything changed.

Blood Dragon didn't die. Instead, after absorbing the power of Long Yun Wei's flames, his body was covered in a red mist. He coiled up in the air and caused the surrounding air to shake.

Blood Dragon looked at his ninth brother with a cold expression. In the past, he loved shouting for ninth brother. Although ninth brother often ignored him, Blood Dragon thought that he was just cold.

But then that slap woke him up. When he was sent down to the Ten Lands, Blood Dragon thought about how cold and cruel his ninth brother was.

The way Blood Dragon looked at Long Yun Wei was how he looked at him that year.

Long Yun Wei was filled with shock and worry. His giant body was panting and his loud voice was like a spinning windmill.

“Die.” Blood Dragon attacked. Blood mist exploded and surged forwards.

“Save me!!!”

Long Yun Wei hollered in rage. He knew that he was no match for Blood Dragon. He was too terrifying. After leaping through the Dragon Gate, he was totally different from the Flood Dragon from before.

The flames he amassed for 10,000 years were not enough to kill him which was why Long Yun Wei asked for help.

There were nine fire dragons who came with him. They had strong auras and the weakest was at the peak of Emperor Realm.

Although they didn’t interfere, they had been paying attention. Right before Long Yun Wei cried for help, they attacked.

*Hong!*

Flames exploded. A giant dragon used a dragon race technique, flame prison.

Flames surged, turning into a prison which locked the Blood Dragon in.

But unfortunately, the Blood Dragon roared. Numerous blood dragons split from his body. One drop of blood was one blood dragon which avoided the prison to continue killing Long Yun Wei.

“Ancient Destruction!” In the next second, a terrifying flame exploded. He used his dao attainments to lock up the entire space. The scenes of ancient destruction were really calm and quiet. Everything in the space was dissipating bit by bit.

The Blood Dragon hollered in rage and the dao attainments strengthened his body. He blocked the attacks of the Ancient Destruction.

But his steps forward were being blocked.

This was due to the dao attainments of someone above Emperor Realm and Blood Dragon couldn't break through.

The two fire dragons attacked in an attempt to save Long Yun Wei.

Long Yun Wei was originally terrified and wanted to flee. But now, he laughed out loud, "So what if you are strong? You are just alone. Do you think that you are an invincible celestial?"

Blood Dragon was pincered and he looked coldly at Long Yun Wei.

"Don't look at me like that. You are an abandoned kid and that's what you'll always be. How can you rise back up?" Long Yun Wei wasn't happy.

"Who said that I am alone?" Blood Dragon said coldly.

"What helpers do you have?" Long Yun Wei was filled with disdain.

"There is me! ! !" Chaos Dragon Crocodile flew over. Its three meter tall body changed, turning into a 3,000-foot Chaos Dragon Crocodile. A 100-mile chaotic energy wrapped around him and he stared right at an emperor peak fire dragon. It charged barbarically at it.

*Hong long long!*

This fire dragon didn't pay attention to Chaos Dragon Crocodile and he didn't even think that a small dragon crocodile would be so terrifying. This strike caused him to flip.

*Hong long long!*

Chaos Dragon Crocodile shattered the space that he was stepping on and dark, chaotic energy spread out. Not only was he not affected, but he was like a fish in water. He bit down onto the fire dragon's tail and swung his head, biting it off.

*Kacha!*

The Emperor Realm fire dragon cried out. Dragon blood scattered into the city, boiling the ocean water.

Everything happened too quickly and no one noticed Chaos Dragon Crocodile. Long Yun Wei had even neglected him before. But now, Chaos Dragon Crocodile suddenly exploded. He had trashed a peak emperor realm fire dragon. It was just so terrifying that no one dared to believe him.

Chaos Dragon Crocodile's mouth was like a Celestial Artifact, shattering the defenses of a peak Emperor Realm fire dragon like it was nothing.

With a crack, the armor shattered.

"Kill him!" Long Yun Wei shouted in rage. He ordered the remaining subordinates.

"I didn't expect the two of you to leap across the ninth stage." A terrifying fire dragon flew out, staring at Chaos Dragon Crocodile and saying coldly.

"There are many things you didn't expect. Old fire dragon, my brother has someone taking care of him. He is not wild. He has been raised. Are you not afraid that his master will find trouble with you?" The Chaos Dragon crocodile mocked.

"You have a master?" Long Yun Wei looked towards Blood Dragon with a mocking expression.

"Of course, I have a Master." Blood Dragon admitted.

"You are a dog being ordered by others. Only you can do that. You have tainted the honor of the dragon race." Long Yun Wei said in disdain.

"My Master is invincible. I am willing to be his subordinate and follow his orders." Blood Dragon said proudly. He didn't feel embarrassed that he was serving someone.

"Right, all of you won't know how strong Master is." Jin Wudi appeared. The golden light attacked the fire dragon that was above Emperor Realm.

Although Jin Wudi was peak Emperor Realm, he still dared to attack.

"Golden Dragon!!!" Long Yun Wei looked on in shock and didn't expect to see the golden dragon.

Moreover, like Blood Dragon, he recognized the same Master.

This tainted the honor of the dragon race.

Rage appeared in Long Yun Wei's eyes as he said, "I will kill all of you now."

"I would like to see how your Master will come and save you. Where is he now?" Long Yun Wei questioned in anger. He felt like Blood Dragon had tainted the honor of the dragon race by being willing to serve someone else.

"Are you looking for me?" A voice resounded like an ancient bell. The sound waves shocked everyone.

Everyone's soul shook. They looked around to find the source of the voice.

Long Yun Wei was the first.

A streak of sword energy flew out from Blood Dragon's brow. After it flew out, it turned into a person.

Li Xiandao!

Li Xiandao looked at Long Yun Wei. His eyes were like a sword ocean. There was a bright explosion before a streak of light shot out from his pupils.

The target was Long Yun Wei!

## **Chapter 365: Swallowing Long Yunwei**

The sword energy clone was formed by a streak of sword energy that Li Xiandao had left on the Blood Dragon.

Li Xiandao said that he would closely observe the Blood Dragon. As for Mr. Mule and the others, he didn't need to worry about them.

Li Xiandao had left this sword energy on Blood Dragon's body just in case.

Now that sword energy was of use, it spurted out and bright light was released from Li Xiandao's eyes. He was really eye catching and extremely fast. He sped through the air like a butterfly with its shining wings. It was both beautiful and dangerous.

Blood Dragon wasn't able to block Li Xiandao's sword energy at all. He had lost its 10,000 years of accumulated cultivation and was in a weakened state.

So, his first reaction was to flee.

But was there any use in fleeing from Li Xiandao's sword energy?

Li Xiandao's sword energy flashed in the sky like a meteor descending. He was also like a butterfly crossing worlds. He was extremely close to Long Yun Wei's body.

"Scram!!!" Long Yun Wei raged. He knew that the sword energy was terrifying, so he tried to flee but he wasn't able to. Long Yun Wei gritted his teeth and spat out a dragon pearl. This was his neidan and it was really scary. It was shot out all of a sudden.

"This is the neidan that I have refined for over 10,000 years. All my essence is in it and it can't be destroyed. Stop dreaming of killing me!" Long Yun Wei expanded it and one

could see a fire dragon projection inside that was baring its claws. It looked really terrifying.

The fire dragon chief was worried that his son would face danger, so he imprinted a piece of his soul on its neidan so that when needed, he could activate the power to protect its son.

Fire Dragon Chief cared for his children but only for those with thick bloodline. Like Blood Dragon with no bloodline, he treated him coldly.

*Kong!*

The neidan was taken out and the soul imprint awakened. It roared and it shook the area around. A storm swept and flames surged.

"I am the fire dragon chief of Dragon Island. Why do you want to kill my kid?" The chief asked coldly.

Li Xiandao looked at the soul imprint, and similar to his, the true body was not here.

"I will kill your child today and then I will head to Dragon Island to kill you!" Li Xiandao said without hesitation.

This fire dragon chief took his Great Ancient Fallen Star and didn't return it.

"You are too arrogant." Fire Dragon Chief was furious and he said coldly.

"My sword energy is larger!" Li Xiandao said coldly. That sword directly smashed onto the neidain.

*Hong!*

There was a loud explosion. The area was silent for a short moment but then there was a terrifying storm that covered 1,000 miles. The waves surged and wind swept. It was extremely scary and it sent chills down one's heart.

The sword energy was like that of a rainbow which stopped above the neidan. It was extremely terrifying and caused the space around to collapse.

But the neidain was still perfectly fine.

Long Yun Wei laughed out loud, "So what if your sword energy is strong? My neidan can block it. This is the so called Master? Blood Dragon, blood dragon, you really are blind."

Blood Dragon looked at Long Yun Wei coldly. He was really confident in Li Xiandao and wouldn't doubt him at all.

Li Xiandao smiled in disdain, "Look at your own neidain before saying anything."

Long Yun Wei was shocked and immediately stared at him.

The neidan was perfect.

Inside?

It was perfect!

Wait...

Long Yun Wei's body froze. His heart sank to the bottom of his stomach.

The neidain was perfect, but...

Within it, the fire dragon chief soul imprint was gone.

The soul imprint his father left him had disappeared.

The neidain was the same!

But the soul was gone.

Li Xiandao looked at Li Xiandao in terror and shivered, "You... My father... Where is the soul imprint?"

Li Xiandao said easily, "He felt that he talked too much, so I turned him to dust."

The moment he said this, everyone around was stunned.

That was the fire dragon chief, the chief of one of the eight races... He wasn't a small figure.

His soul imprint should have been extremely strong, but to Li Xiandao, it was like nothing. It was too noisy, so he just destroyed it.

It sounded really simple and it made one suspect that Li Xiandao was bragging.

But when they looked at the neidan, it was milky white. The fire dragon inside was gone.

"You really don't think that your neidan can block my sword?" Li Xiandao mocked.

Li Xiandao looked at Li Xiandao like he was looking at a monster and his body shivered.  
He realized something terrifying.

Li Xiandao's sword could wipe out the soul imprint which meant that his neidan hadn't been struck.

This didn't mean that his neidan was strong and could block it.

This just meant that Li Xiandao hadn't targetted it.

As expected, Li Xiandao's sword energy tapped lightly.

*Ding!*

The sword energy that touched the neidan had just been lightly knocked.

*Kacha!*

In the next second, the neidan replied and made its own sound too.

But after that sound, Long Yun Wei's heart shattered.

It wasn't a figurative description. It literally shattered.

The neidan was ripped apart. This concerned Long Yun Wei's life. With his neidan gone, his heart had also shattered. The pain made him spit out fresh blood. His body shook and his aura was like a candle in the air; it could extinguish at any moment.

"You.. Dare to kill me?" Li Xiandao stared at Li Xiandao with a venomous gaze.

"You want to tell me that Dragon Island will take revenge for you?" Li Xiandao laughed coldly.

"Right, Dragon Island will definitely kill you and all your subordinates." Long Yun Wei gritted his teeth and said. His eyes were filled with reluctance.

Li Xiandao was really calm, "You don't need to worry about that. I don't care about Dragon Island's threat. I even dared to wipe out your father's soul imprint, so it is just a small matter to kill you. "

Long Yun Wei wanted to say something but the Blood Dragon charged over.

10,000 Blood Source.

Blood Dragon turned into a pool of blood and entered Long Yun Wei's body.

He absorbed the essence to strengthen his own blood.

Blood Dragon swallowed Long Yun Wei and split from him. His aura was even stronger now.

“Master!” Blood Dragon said respectfully.

Li Xiandao was satisfied, “You have totally transformed now. Can you deal with the other dragons here?”

Blood Dragon said coldly, “No problem. I can even swallow a fire dragon that exceeds Emperor Realm now.”

Li Xiandao was happy, “Kill them and return to the bank.”

Blood Dragon’s eyes were filled with a killing glow.

## **Chapter 366: Everyone Leaving**

Blood Dragons words made Li Xiandao relax. There were two fire dragons here that exceeded Emperor Realm but facing the Blood Dragon that was such a monster, Li Xiandao chose to trust the Blood Dragon.

Blood Dragon was actually getting stronger and stronger. He could absorb the flesh blood of others to heal his injuries. He could also swallow others to complete himself and even activate the energy within other people’s bodies.

After absorbing Long Yun Wei, Blood Dragon was already at peak Emperor Realm. If he couldn’t deal with two fire dragons who exceeded Emperor Realm, then his title of the second blood dragon in history was a waste.

Li Xiandao dissipated his sword energy clone and within the Bank of the Universe, he stopped paying attention to this battle too.

If they couldn’t take down Blood Dragon, that would be embarrassing.

The truth proved that the Blood Dragon was really strong.

After Li Xiandao dissipated his sword energy clone, the Blood Dragon charged into the crowd and started to fight one against five.

There were two fire dragons within that exceeded Emperor Realm.

In front of Blood Dragon, they were just movable blood banks. Each time he was beaten up half to death, he would absorb his energy to replenish himself and continue developing his undying body.

Chaos Dragon Crocodile and Jin Wudi were also fighting fire dragons. Chaos Dragon Crocodile was extremely violent and maniacal and could fight one against three. The chaotic energy around him could absorb and weaken the life force and energy of the enemy to replenish himself.

He was like an invincible war god. All sorts of attacks wouldn't be able to break through his defense. He bit down with his large mouth without showing any mercy at all.

When one was bitten by him, one would die right away with no way to fight back at all.

His giant and sharp teeth easily shattered the dragon's defense. With a crack, the scales and bones broke. He then twisted his head and one fire dragon was killed just like that.

Brutal and violent!

Blood Dragon absorbed blood to kill while Chaos Dragon Crocodile bit one to death. The visual impact was really intense.

Jin Wudi attacked a peak emperor fire dragon. The two of them were on the same level but overall, Jin Wudi had the advantage.

*Hong long long!*

The battle continued. The fire dragons wanted to recruit those who crossed the Dragon gate but now none of them could run at all.

Everyone was killed.

Just the Blood Dragon and Chaos Dragon crocodile terrified all of them. They couldn't flee at all and if they tried to block, they weren't their match at all.

A short while later, Blood Dragon's body was several rounds bigger. His aura was brimming with strength and it was obvious that he had absorbed the energy of these few fire dragons.

Chaos Dragon Crocodile ripped his opponents, tossing them into the ocean and dying it red.

He was still angry and went to shatter the head of Jin Wudi's opponent.

*Kacha!*

Like a watermelon, he bit down in a really cruel manner.

Only then did Chaos Dragon Crocodile's rage stopped.

"I am really strong now." Chaos Dragon Crocodile recognized his own power. He raised his head and looked at the endless space. He was filled with bone-deep hatred.

Once dusk settled and the Dragon Gate disappeared, this chance that only came once every 10,000 years was gone just like that.

On the unnamed island, Jin Wudi and his five golden dragon descendants all had huge gains. Chaos Dragon Crocodile gained a lot too. The one who gained the most was still Blood Dragon. He absorbed the energy of several fire dragons which made him much stronger.

Jin Wudi's few descendants looked at Chaos Dragon Crocodile gratefully especially the one who Chaos Dragon crocodile had brought up. Although he was only to stage one, he was filled with gratitude.

Jin Wudi was also grateful towards Chaos Dragon Crocodile, "Thank you for helping my weak descendant."

"It's okay. You saved me before too." Chaos Dragon crocodile shook his head and said.

"There is no need to thank me. I will be leaving Cold Moon Sky soon." Chaos Dragon Crocodile said to Blood Dragon.

Blood Dragon was shocked, "You are leaving so soon?"

"I came to Cold Moon Sky for a chance and now that I took the chance, after leaping through the Dragon Gate, I have transformed. I am going to settle my Great Sky matter." Chaos Dragon Crocodile said with a solemn expression.

He came to Cold Moon Sky for the Dragon Gate and to find a chance for survival. Now that he got that chance, he was especially anxious.

If his relationship with Blood Dragon wasn't good, Chaos Dragon Crocodile would have left long ago.

He had his own problems in Great Sky.

"Okay, you can leave. I won't stop you. Good luck." Blood Dragon said.

"Brother, if you have the chance, then come to Great Sky. I will welcome you." Chaos Dragon crocodile was around three meters after it turned small. Blood Dragon also turned into a human and the two of them hugged one another.

“Go, I will head to Great Sky someday.” Blood Dragon nodded his head.

Dragon Island was on Great Sky and Blood Dragon would definitely head there to take revenge. Be it that heartless father or those cold brothers, he would definitely head to Great Sky.

Chaos Dragon Crocodile left. He went to find the World Grade Teleportation Formation and to return back to Great Sky.

The people left on the island were all Li Xiandao’s men.

Mr. Mule looked at Blood Dragon curiously, “Brother, when did Master give you sword energy?”

Blood Dragon replied, “When we left the Bank of the Universe, Master planted a streak of sword energy in my body.”

Blood Dragon knew about the sword energy but he didn’t expect it to be so terrifying to actually wipe out the fire dragon chief’s soul imprint.

“Master is really amazing.” Mr. Mule exclaimed.

“If Master is not strong, then how could he be Master?” Tian Guangming dissed.

“Right, so now we are heading back?” Mr. Mule asked.

“It is time to go back.” Blood Dragon nodded.

“Then, let’s return. I haven’t seen Master in a month and am starting to miss him.” Tian Guangming said.

“When we go back, Master will give you a reward. You really know how to suck up to him.” Feng Jiuer was impressed.

“Right, I am Master’s most loyal subordinate.” Tian Guangming said proudly.

“Okay, climb onto my body, I will bring all of you back. Chief Jin Wudi will bring Feng Longque to the Gold Family to wait for marriage.” Blood Dragon transformed into his original body and said.

Everyone quietened down and climbed onto Blood Dragon’s huge body.

As for Feng Longque, she was going to return to Gold Family to wait for the day of marriage.

Mr. Mule was reluctant as he looked at her. He even looked at her emotionally a few more times.

But Blood Dragon didn't give him the chance and flew into the sky. He increased the distance between them and didn't even give them a chance to speak.

Mr. Mule smacked Blood Dragon.

Blood Dragon shook his tail and flew towards Heaven Mountain.

At the moment, Li Xiandao was studying the celestial gate key that Murong Longcheng gave him.

Li Xiandao always felt like Heaven Mountain's problems were small quarrels.

People from Celestial World wouldn't give up on their chase of this key.

## **Chapter 367: A Shooting Star**

Within the Bank of the Universe, Li Xiandao held the celestial gate key and was in deep thought.

Seven asked, "What are you thinking about?"

"I am just thinking, Celestial World is so huge and far exceeds the Nine Skies and Ten Lands, so why do they want to control it?" Li Xiandao didn't understand.

Seven smiled, "Then, the way you are thinking is wrong."

"What do you mean?" Li Xiandao didn't understand.

"Do you think that Celestial World is just a big world controlled by a celestial dynasty?" Seven asked.

Li Xiandao nodded. He hadn't been to Celestial World, so he didn't understand it.

The books within the Ten Thousand Country Book Depository were all rare techniques and there weren't any records of the current Celestial World.

After 10,000 years, time flowed and many of the records available were not relevant and became just a part of history.

Seven sat beside Li Xiandao and explained in detail. "Since ancient times, the Celestial World was ruled by the celestial dynasty. A supreme celestial god ruled the world.

During the other times, the Celestial World was in a mess and had never been unified by one faction.”

Li Xiandao listened quietly.

“The Celestial World is far bigger than the Nine Skies and Ten Lands. When the Ten Lands and Celestial World were equal, apart from them, there were other worlds. Like the Buddha World, Demon World, Hell, Beast World, Pill World etc...” Seven added.

Li Xiandao was enlightened.

“After Celestial World opened up the distance, it absorbed these worlds which was why it far exceeded the Nine Skies and Ten Lands. For some time, no one was able to change that.” Seven said.

Li Xiandao took in a deep breath and understood, “Since that is the case, then I understand why only two Celestials came to fight for the celestial gate key.”

One was Maqing and one was Young Master Bei Chen. One of them stole a body while another chose to reincarnate and then awaken his soul.

Without an exception, the two of them were a little weak.

Li Xiandao didn’t understand why they were sent when they were so weak.

Now he knew.

It wasn’t because they were weak but because the faction behind them wasn’t strong.

If not, how could Sword God kill so many people after rising up?

One reason was because Sword God was so strong, exceeding average cultivators.

Another reason was because the factions above weren’t too strong which allowed Sword God to succeed and even escape.

“Celestial World is a huge stage, a vast world with numerous exciting treasures. There are also many huge worlds there, so you must be prepared if you want to enter Celestial World.” Seven said.

Li Xiandao nodded. He would train himself further and then give the Celestial World a surprise. He definitely wouldn’t head over rashly.

“Don’t worry, I haven’t even completed my matters in the Nine Skies. Celestial World is too far for us now.” Li Xiandao said truthfully. They had to walk step by step and eat one meal at a time. Being humble was the most important thing.

Seven saw that Li Xiandao didn't let his victories get to his head and then nodded in satisfaction. This point was something good about Li Xiandao.

...

Blood Dragon and the others were back. A bunch of people returned to greet Li Xiandao.

"Master."

Li Xiandao stood on the square and smiled towards them, "Look at you, all of you have gained so much."

"Master, Blood Dragon is still the one who gained the most. He has gotten far stronger than all of us." Mr. Mule said with envy.

Blood Dragon turned into human form and happily stood beside Mr. Mule. He was really happy too.

"Then, I shall let Blood Dragon to treat all of you to a meal." Li Xiandao said casually.

"He definitely has to." Mr. Mule waved his hands and stared viciously at Blood Dragon, "If he dares not to, I will teach him a lesson."

"I will treat, I definitely will." Blood Dragon laughed out loud.

"I want to drink the wine that Seven brewed." Tian Guangming shouted suddenly.

"Seven brews mine?" Li Xiandao looked towards Seven.

Seven smiled sweetly, "Isn't Mr. Mule going to get married? That is the Bank of the Universe's first happy occasion. I also redeemed my flower gardens, so I used those 10,000-year-old flowers to brew some wine. Tian Guangming saw it coincidentally."

"Then, wine was so fragrant and tempting. Master, just let Seven give us some." Tian Guangming begged.

Li Xiandao looked at Seven, "Should you take out a jug?"

Seven nodded, "No problem, I will go get it later."

Tian Guangming and the others cheered, especially Tian Guangming who kept telling Mr. Mule how delicious the wine was such that Mr. Mule started drooling.

"Seven, one jug isn't enough. Can we get a few?" Mr Mule asked.

“No worries.” Seven agreed with a smile on her face.

“Really.” Mr Mule looked at Seven in surprise.

“Of course, anyway I brewed it for your wedding and there is a limited amount. Now that I’m giving it to all of you, there won’t be any for the wedding. I don’t really mind.” Seven smiled innocently.

Tian Guangming smiled, “I am okay with that. Seven why don’t you just take it all out now?”

Mr. Mule’s expression changed and he hollered in rage, “I don’t agree. Tian Guangming, I am going to fight you to the death.”

Seven smiled. She looked at Mr. Mule and Tian Guangming who were fighting one another and smiled.

When Li Xiandao saw this, he reached out to grab Seven’s waist.

He was a gentleman and was just worried that Seven would slip and fall.

...

At night, only one place in the Bank of the Universe was lit up. Blood Dragon treated everyone in the Bank of the Universe except for Li Xiandao.

Li Xiandao rejected it. He was the Master and if he went there, Blood Dragon would be lost. Li Xiandao chose to spend time sitting quietly with Seven to eat a bowl of fried egg. They enjoyed the moon and the two of them happily spent their time together.

To Li Xiandao, this was much more fun than drinking with a bunch of guys.

Seven and Li Xiandao didn’t say anything when they saw the moonlight, they just ate the fried rice.

The flowers bloomed all around and the fragrance entered their noses. The flowers actually dropped their petals which all danced around in the garden.

After eating Li Xiandao’s only good dish, they looked at one another and smiled. Li Xiandao’s smile was really bright while Seven’s one was very shy.

Everything around was perfect. The moon was like a drawing, petals dancing, fragrance spreading, along with a fairy beside him.

Li Xiandao suddenly said, “There is a meteor.”

Seven twisted his head and looked. There was nothing at all and then she turned her head.

*Muacks!*

Li Xiandao closed in just at the right time and the two of them kissed.

## **Chapter 368: Flame Sky**

The new day started off with Seven ignoring him.

Li Xiandao decided to settle the contracts and receive guests.

For the short term, Li Xiandao was not prepared to go to Great Sky.

He would at least wait until Mr. Mule got married and brought the Bank of the Universe some good news before he would head towards Great Sky.

This was why during this period of time the Bank of the Universe couldn't slack. After all, they still had two more months.

These two months couldn't be wasted. Li Xiandao started to think about what to do to become stronger and also to make the Bank of the Universe better.

The first thing was that he wanted to deal with the contracts.

Due to Li Xiandao's accidental actions last night, Seven didn't really care about him. This made Li Xiandao feel really helpless.

Seven didn't care about him but still sent a whole bunch of contracts over. When she saw him, she instantly recalled what happened last night. After Li Xiandao kissed her, he even did more things. If Seven hadn't been wary, she would have taken a loss.

This was why she ignored Li Xiandao. She thought about herself at that moment and how she was so willing. Her face turned red from embarrassment.

After seeing Li Xiandao, she forced a frown, "These are contracts which have been broken or are about to be broken. Send your men to deal with them."

Li Xiandao looked at a stack of close to 1,000 contracts and was stunned, "There are so many?"

"Right, these are the contracts in Cold Moon Sky. The people are all still alive." Seven nodded her head with a straight face.

Li Xiandao sighed, "Then, can you help me organize them?"

Seven pointed at two stacks and said, "There is no need to. I have already organized them. This stack consists of those that were broken and this stack is about to be broken."

After turning around she couldn't take it anymore. Her face turned red and she quickly left.

If Li Xiandao killed her again, Seven wouldn't know how to block him.

Would she not block him?

This was why she didn't dare to share the same space with him. If they spent too long together, her intentions might be exposed and Li Xiandao might become even worse.

"Now is not the time." Seven was really shy.

...

Li Xiandao looked at the contracts and sighed helplessly. He called all of his subordinates over and handed down those contracts that were already broken.

Li Xiandao had many experts now and they were all really strong. Even the weakest ones like La Mo, Tian Ya, and Li Qing'er were all at stage 33 of Transcendent Realm and were still improving.

The others like Blood Dragon, Jin Wudi, etc., reached Emperor Realm.

Murong Longcheng, Poison Python, Giant Titan, and Ling Wu all reached Emperor Realm after getting the techniques from Li Xiandao.

Li Xiandao now had six Emperor Realm experts and was basically invincible in Cold Moon Sky.

This was why Li Xiandao didn't worry about these contracts. Out of the 1,000 contracts, 800 were broken and over 100 were about to expire. Once these things were collected, the treasury would be filled up.

Everyone took dozens of contracts, first dealing with those which were already broken and then those which were about to expire.

Li Xiandao was at the Bank of the Universe controlling the situation. He trusted that his subordinates could deal with those contracts.

Once they left the Bank of the Universe and split up to various parts of Cold Moon Sky to deal with the contracts, Li Xiandao received news from the old priest who was at Hell Sky.

“Master, I am prepared to break through and enter Cold Moon Sky.” The old priest informed Li Xiandao.

Li Xiandao asked, “What realm are you at now?”

“I am about to breakthrough from Legend Realm and I’ll be able to cross worlds.” The old priest said truthfully.

“So quick!” Li Xiandao was shocked.

One must know that most of his subordinates were around there but they were in Cold Moon Sky. The Bank of the Universe had thick spiritual energy as well as dragontooth rice and the Ten Thousand Country Book Depository...

Old priest headed to Hell Sky alone which was the weakest world in the Nine Skies. The spiritual energy definitely couldn’t compare to that of Cold Moon Sky.

Naturally, the resources were lacking too.

Under such situations, the old priest even broke past Legend Realm. This shocked Li Xiandao. His talent was just too terrifying.

Of course, the technique that the old priest cultivated was invincible.

The rate of cultivation would continue to increase and it was hard for him to die too.

This was just so amazing.

“Constant Youth Celestial Technique, it was a technique that was really suitable for the old priest.

“You can ascend but what about the Burning Legion?” Li Xiandao asked.

He still hadn’t used the Burning Legion because there was no enemy that could allow Li Xiandao to use this seemingly invincible army.

Of course, the reason why Li Xiandao didn’t bring the Burning Legion to his side was because of their growth.

“There is nothing wrong. They are all really strong. When 10 of them join hands they’re even stronger than me. Master, you don’t have to worry.” The old priest said seriously.

“Then, just let them continue in Hell Sky. You can fly up and enter Cold Moon Sky. The Bank of the Universe is at the peak of Heaven Mountain.” Li Xiandao said to the old priest before ending the conversation. Then, Li Xiandao was in deep thought.

“Book of Warm, how is the Burning Legion now?” Li Xiandao quickly contacted the Book of War and asked.

“Not bad, they are improving really quickly and all of them are at Grotto-Heaven Realm.” The Book of War was satisfied.

“But...” The Book of War hesitated.

“What?” Li Xiandao asked.

“Hell Sky is not helping them that much anymore.” The Book of War said honestly.

Li Xiandao frowned, “So, you are saying that we need to change a place for them?”

“Right, that is my goal.” Book of War said seriously.

“In the Nine Skies, Hell Sky is much weaker. Cold Moon Sky is not suitable either, so where do you want to put them?” Li Xiandao asked. He wanted to hear some suggestions.

Li Xiandao had always paid close attention to his Burning Legion. This was the first army that he had built.

They were just amassing strength. Li Xiandao was looking forwards to them being invincible once they appeared in the world.

This was why he was happy to provide them with resources.

The Book of War thought about it, “Master, I suggest you send them to Flame Sky.”

“Flame Sky!” Li Xiandao muttered.

He knew this world; similar to Great Sky, it was much stronger than Cold Moon Sky and Hell Sky.

Out of the Nine Skies, the strongest one was without a doubt Heaven Sky!

There was no debate. It was also termed the world closest to Celestial World.

Then there was Great Sky, Falling Sky, Xuan Sky, Hidden Sky, Bright Sky, and Flame Sky.

These six worlds were the neutral powers.

Cold Moon Sky and Hell Sky were the weakest.

Now that Book of War wanted Li Xiandao to send Burning Legion to Flame Sky, Li Xiandao had to consider the environment there.

It did seem suitable for Burning Legion.

## **Chapter 369: Go To Hell Sky**

As Flame Sky was close to the sun, it was extremely hot. The entire world was filled with a hot aura. It was the best place to cultivate flame element techniques.

The heat in Flame Sky was like the strengthened version of Hell Sky and it was really terrifying. This was why the Book of War wanted to send Burning Legion there.

After considering it carefully, Li Xiandao nodded his head and agreed, "I will bring someone with a World Grade Teleportation Formation and the World Breaking Blade to Hell Sky to send all of you up to Flame Sky."

The Book of War said, "Then, we will wait."

Li Xiandao ended the conversation. He thought about it and shouted for La Mo.

Li Xiandao returned the World Breaking Blade to him after reaching Cold Moon Sky. Now that La Mo was at Stage 33 of Transcendent Realm, he was nearly able to reach Grotto-Heaven Realm, so it was okay for him to head to Hell Sky.

"Master, why did you call me?" In just a moment, La Mo walked over and greeted respectfully.

"This is the World Grade Teleportation Formation. Set it up in Hell Sky and send the Burning Legion to Flame Sky." Li Xiandao passed the full World Grade Teleportation Formation to him.

This world was built together by Moon Angel and that God King Body kid.

"No problem." La Mo nodded and agreed without any hesitation. Instead, he seemed really happy about it.

The others were able to help Li Xiandao but only he was here taking care of the kids. This made La Mo feel bad. He knew that he was weak, so he tried his best to cultivate.

But unfortunately, Li Xiandao's other subordinates were a bunch of monsters and he wasn't no match at all.

So, after getting Li Xiandao's notice, he became really emotional. He even took in several deep breaths to suppress his emotions.

He seemed calm now but actually he was really emotional.

"I will send you to Hell Sky and in the future follow behind the Book of War to cultivate. He will teach you many things and how much you can learn will depend on your ability to comprehend." Li Xiandao thought about it and gave La Mo a path.

The Book of War was one of the 10 books and had terrifying ability. People who comprehended it would have really strong abilities.

It was La Mo's good fortune that he was able to accompany the Book of War.

"Thank you, Master!" La Mo couldn't suppress his excitement, kneeling down and shouting emotionally.

"Rise, I will send you to Hell Sky now. Also, you need to settle the Hell Sky contracts and also bring the old priest back in case he flies to the wrong world and I have to fetch him." Li Xiandao stood up and decided to personally head to Hell Sky. Then, the old priest wouldn't need to fly up himself.

La Mo retreated to the side and waited quietly without saying a word.

"Seven, prepare the Hell Sky contract. We are heading to Hell Sky now." Li Xiandao shouted.

Seven wasn't shy anymore. She quickly organized the Hell Sky contracts.

"Are you going to Hell Sky?" Seven walked over and asked curiously.

Li Xiandao nodded his head, "Hell Sky contracts need to be dealt with. I am prepared to hand these contracts to the Burning Legion for them to get all of them back. Then, I won't have to worry about Hell Sky matters."

Seven understood. She carried 500 contracts over and said, "These are all the contracts in Hell Sky."

Li Xiandao walked out of his room and came to the square. His voice spread throughout the mountain and he said, "Seven, inject in 1,000 spirit meridians and activate the Teleportation Peak to enter Hell Sky."

Li Xiandao obtained Heaven Mountain and had 100,000 spiritual energy dragon veins. He also had those that Feng Jiuer and Qing Ling had collected. He wouldn't feel bad about using these 1,000 spiritual energy dragon veins.

*Hong long long!*

The Bank of the Universe was originally hidden in the clouds above Heaven Mountain, but at this moment, the space around tore apart. A huge black hole appeared. It was really terrifying and included all matter.

The Bank of the Universe entered and crossed a world.

*Dong!*

The destructive matter in the black hole couldn't hurt Li Xiandao's Bank of the Universe at all. The Bank of the Universe easily crossed the black hole that seemed terrifying to outsiders.

*Hong long long!*

In the next second, the Bank of the Universe landed in Hell Sky where the 10,000 Burning Legion troops were.

The Book of War and the old priest flew over in shock and looked at the Bank of the Universe. They didn't expect that Li Xiandao would arrive right after the conversation ended.

"Master!" The old priest bowed and shouted.

The Book of War also bowed slightly and shouted for Master.

"Master!"

"Master!"

"Master!"

The 10,000 Flame Kings all shouted from the bottom of their hearts as they looked emotionally at the Bank of the Universe.

When Li Xiandao heard this, he stepped out along with La Mo and exited the Bank of the Universe.

This was a mountain range near a magma ocean. Looking forwards, the 10,000 Flame Kings were all bathing in magma. They cultivated, improving themselves with no fear at all.

Behind it was a naked mountain that was searing with heatwaves. The old priest and the Book of War were on the mountain.

This was the first time La Mo had seen something like this, especially since the 10,000 Flame Kings were all huge and holding giant swords. They bathed in the magma and gave off a strong aura. The weakest was at Grotto-Heaven Realm and the strongest one was at Legend Realm.

Once they formed up together using the Book of War's formation technique, even people at Grandmaster Realm fled.

Li Xiandao looked at them and waved. He said in satisfaction, "Continue to cultivate. Once the Hell Sky matter is over, I will send all of you to Flame Sky to continue cultivating."

"Thank you, Master!" Burning Legion shouted in unison, their voices shaking the sky. It sounded like only one person was shouting and there were no other voices at all. One could see how perfect their understanding and connection between each other was.

They were born from the same entity and after training, they were connected by heart. They were the best choice for war formations.

Li Xiandao looked at them with an expression of love. One could say that he saw them grow up.

They were brought by their unreliable father into the Bank of the Universe and were just so small at the time. Li Xiandao found it hard to raise them, so he told the Bank of the Universe to send them to Hell Sky. With the enormous power of Hell Sky, he raised them.

Now, they were all 10 meters tall. Li Xiandao looked at them like he was witnessing his own children growing up.

*I watched as all of you grew!*

Li Xiandao took several more looks and then told them to do their own things. He brought La Mo to meet the old priest and the Book of War.

"Master, why did you come?" The Book of War asked.

"I brought you a mission." Li Xiandao smiled. Although he was wearing a mask, the Book of War could hear his laughter.

"It is my honor to be able to complete Master's mission." The Book of War smiled.

“There are over 500 contracts here which were all broken in Hell Sky. You lead my Burning Legion to deal with these contracts.” Li Xiandao handed the contract over to the Book of War.

The Book of War flipped its own first page and there was instantly a large space in which many things could be stored. He allowed Li Xiandao to put the 500 contracts in.

“Don’t worry, Master. Leave this to the Burning Legion. None of these people will be able to escape.” The Book of War said firmly.

Li Xiandao turned his head and looked at the fellows wielding swords in the magma. He totally believed in those words.

## **Chapter 370: Open The Door, Delivery!**

He passed the contract to the Book of War before introducing La Mo.

“This is my subordinate. In the future, he will follow you and learn your skills. How much he learns will depend on his intellect.” Li Xiandao pointed at La Mo.

The Book of War looked at La Mo.

It was a book that had five features on its cover. It sized up La Mo.

“Disciple greets the teaching.” La Mo decisively knelt down and said respectfully.

The Book of War said calmly, “You shouldn’t call me teacher yet. Master was the one who brought you here, so naturally, I will teach you. But if you don’t understand, then there is nothing I can do. So, you need to comprehend things for yourself.”

The Book of War was not someone who easily accepted disciples. If Li Xiandao hadn’t brought La Mo over, it wouldn’t have agreed.

Because Li Xiandao brought La Mo over the Book of War couldn’t reject him. But it was still too early to take him as a disciple.

If he wasn’t good enough he would still take him as a disciple?

Li Xiandao noticed this and didn’t say anything. He didn’t want to interfere. He already gave La Mo a chance by bringing him here.

If La Mo had the ability and learned well, the Book of War would definitely teach him properly and even take him as a disciple.

If he couldn't, then they would solve the problem themselves. Li Xiandao was the Master and not their parents.

Li Xiandao looked towards the old priest. The old priest was really strong now and was at Legend Realm. Numerous cells contained Legendary Songs. Li Xiandao didn't expect him to reach such a stage in Hell Sky.

"Did you have any fortitious encounters?" Li Xiandao asked.

"No, I didn't. I cultivated myself." The old priest shook his head and said.

Li Xiandao was impressed, "You might be one of the strongest people under me in the future."

Li Xiandao had high hopes in the old priest's potential. He was limitless, similar to Heaven Heart. He relied on his determination and strong comprehension ability to reach this stage.

This was why Li Xiandao had high hopes for the two of them to be the leaders of the Buddhist faction under him.

"You shall leave with me after this." Li Xiandao said towards him.

"Yes, Master!"

It saved him time flying around himself.

Li Xiandao looked towards the Book of War and said, "Once you settle these 500 contracts, bring the Burning Legion to Flame Sky. The World Grade Teleportation Formation is in La Mo's body.

"No worries, Master!" The Book of War agreed right away. What even were the 500 contracts?

With the Burning Legion here, they could handle 10 times that.

"I will leave first. All of you work hard." Li Xiandao consoled.

"Goodbye, Master!" The Book of War and La Mo said.

Li Xiandao brought the old priest into the Bank of the Universe before burning another 1,000 spiritual energy dragon veins to return to Cold Moon Sky.

...

In Hell Sky, after Li Xiandao left, the Book of War looked at La Mo and sized him up without saying a word.

La Mo felt a little uncomfortable from everyone looking at him. The Book of War's gaze made him feel like he was naked.

"Your talent is barely acceptable. Can you take hardship?" After the Book of War finished, he retracted his gaze and asked.

"Yes!" La Mo said firmly. Hardship was nothing to people who were able to reach their level.

"Not bad, but this is all talk. I have to see your actions." The Book of War said.

"No problem. I will show you." La Mo said firmly.

"Let's go. In the future, follow me. Watch and learn and if you don't understand, then just ask. Don't be afraid. But I'll only allow you to ask 10 questions a day, so ask after thinking about it." The Book of War said towards La Mo.

"I understand." La Mo was delighted. This meant that he was accepted. Although 10 questions were quite few, he was able to ask every day, so that was not bad.

"Let's go. Master gave us 500 contracts to settle. Once we finish, we will head to Flame Sky." The Book of War brought La Mo to find the Burning Legion.

After training for so long, it was time for them to have some practical action.

"Hell Sky, feel the fear." The Book of War teased. When it thought about how its invincible army was about to sweep Hell Sky, it felt really happy.

...

Meanwhile in Hell Sky, although numerous regions were covered in flames, magma or volcanoes...

But there were some sects and some cities that were here to ensure that their people could leave peacefully.

Of course, these cities were far away from the magma and dangerous monsters.

Great Sun City was a city with 30,000 people. It was really secluded and the city head was called the Great Sun City Lord. This was an expert whose body chanted the Legendary Song.

This city lord was really strict to his people and taxed them heavily but they didn't dare to leave. There were monsters everywhere and rivers of magma with little food. Although they were being ripped off in the city, at least they could survive.

Although they couldn't eat their fill, the little they ate allowed them to survive.

Great Sun Lord ate well every day and had 100 concubines. They were all dressed up well in the hopes that the lord would like them.

Everyone tried to suck up to the lord.

The Great Sun City Lord was immersed in this environment and drunk off it.

Everyone was guessing that this city lord could ascend but he didn't think about doing that. He didn't cultivate and his cultivation was still so strong.

Why?

This was his biggest secret that no-one knew. It was because he signed a contract with the Bank of the Universe to get a Legend Realm cultivation. He paid his family's treasure and this cultivation would be returned after 10,000 years.

10,000 years had passed and the city lord hid here and hadn't gone anywhere. He enjoyed the life of an emperor.

As for the contract, he had long forget about it.

Anyway, he was a small person and the Bank of the Universe was so strong. They shouldn't have noticed him at all.

This was why he enjoyed life and wasn't willing to hand over his cultivation.

Once he lost this cultivation, wouldn't the people he suppressed instantly swallow him?

Swallowing him alive might not have been enough for them to vent their anger.

The people were busy as per normal in exchange for some food.

They were numb to life.

The city gates were tightly shut as they were afraid people would run out, but they would open it to chuck out corpses and trash.

No one visited the city, so no one would look at the gate.

*Dong dong dong!*

But today, the gate was being knocked so loud that it sounded like thunder reverberating throughout the city.

The 30,000-man city wasn't big, so the sound spread out quickly.

"Who is that?" The guard asked loudly.

"Open the gate. I am here to deliver something!" A low voice rang out and a smokey aura surged in.

## **Chapter 371: Beaten To Death With A Stick!**

"Delivery?" The guard was confused. He walked up the wall to take a look but his legs turned soft and he screamed.

"A monster! ! !"

Outside the Great Sun City walls stood 10 giants that were wrapped in flames like they had just climbed out of magma. They were around 10 meters tall, just shorter than the walls, and they were all holding giant swords. So, the soldier saw their heads straight away and screamed in fear.

"This isn't working?" The Flame Giant asked in confusion.

"Say something else. I heard Master say it before." Another Flame King said.

"What?" The others asked.

The Flame King cleared his throat and shouted confidently, "Open up, I am checking the water meter!"

The voice caused the guard to shudder and he shouted loudly, "Report to the City Lord."

*Hong!*

There was no need to report as he had already sensed the Flame King aura. He flew over aggressively.

Great Sun City Lord obtained his Legend Realm cultivation over at the Bank of the Universe. Although he wouldn't be able to raise it, he was considered a top rate expert in Hell Sky.

Apart from the Bank of the Universe, he wasn't afraid of anyone else and he just focused on his life.

“A few monsters dare to behave arrogantly in my Great Sun City?” Great Sun City Lord hollered in rage. He used the rumbling thunder clouds to smash down on them with his aura.

*Hong long long!*

Outside the city, Great Sun City Lord stopped in mid-air. His face was ashen white and his body was really thin. After all, to take care of 100 concubines, he was quite busy.

But his cultivation was still maintained at Legend Realm and wouldn't drop.

Even if he lost all his energy, his cultivation wouldn't fall because of the change.

On the contrary, his cultivation would continue to strengthen his body. So, he looked like he was about to die, but actually, he was brimming with life.

“You are the City Lord?” The flame King stared coldly at him.

“Yes. Why are all of you here?” Great Sun City Lord asked.

“If you are the lord, then that makes everything easier. Today, my brothers and I came to ask whether you are ready to pay the price for breaking the contract?” The Flame King asked.

*Price...*

These words infuriated him and he started to panic. He subconsciously stared at the Flame King in anger and shouted, “What price? Stop spouting nonsense. What are you even talking about?”

All the Flame Kings laughed.

“I told you so.”

“It was pointless to even ask that. Just kill him.”

“This is the rule that Master set. How can you say that it is pointless?”

“I mean that the problem is too humane. Master is too kind.”

The Flame giants spoke one after another to one another, totally disregarding the city lord.

As for his Legend Realm cultivation, they didn't care.

After being taught by the Book of War, when the 10 of them formed up, even if they were at stage 10 Grotto-Heaven Realm, if they joined hands, they would easily be able to destroy a Legend Realm expert.

This was their ability.

“You are totally disrespecting me?” His face sunk down.

The 10 flame giants were only at stage 10 Grotto-Heaven and he did have Legend Realm cultivation after all.

“Brothers, form up!” The flame giant hollered and the 10 of them formed up. They exploded and they had immense power.

*Hong long long!*

10 flame giants were all connected by their aura and their cultivations were linked to each other. They were stacked with one another and formed a strong formation.

At that moment, the 10 flame giants waved their swords. The sword landed and a huge power exploded.

Great Sun City Lord’s expression changed and he hollered, “Blazing Sun Suppression!”

Several bright lights surged out from Great Sun City Lord’s body and turned into a giant sun. It was extremely terrifying and he wanted to use it to suppress the 10 Flame Giants.

The 10 giants didn’t fear anything. The giant sword exploded and 10 of them merged into one and a giant sharp glow shot forth.

A sharp blade sliced across the sky and sliced the sun that the city lord formed. It was really terrifying and it exploded in the sky. Shockwaves rippled and a head was sliced off.

The Great Sun City people were stunned. What was going on?

Their city lord was killed?

*Peng!*

Only when the ashen white head fell into the city did the people believe their eyes.

The city lord was really killed!

At that moment, all the people cheered like it was a new year.

When the 10 Flame giants saw this, they retreated slowly.

As for the cultivation, they took it back.

...

The entire Hell Sky was changing. 10,000 Flame Giants were clearing old debts. Those who didn't take the chance they were given were killed.

No matter who it was, they weren't able to block their attacks. 500 contracts were cleared in just seven days.

At the same time, in Cold Moon Sky, close to 1,000 contracts were being cleared. Those of higher cultivation were all left to the emperors under Li Xiandao.

In Cold Moon Sky, by an ancient city wall, the city lord was holding a powerful Celestial Artifact. He was at stage nine Grotto Heaven Realm. He felt like he could defend this Celestial Artifact with his cultivation.

But he was welcomed with a giant, iron rod that smashed into the city.

*Hong long long!*

The ancient city shook like it was undergoing a stage 10 earthquake. Many people screamed and ran out.

*Dong!*

A purple titan landed with the Juntian Rod. He said coldly, "Giant Titan Da Li is here to clear a contract."

"You are an emperor..." The city lord was stunned. He was no match for him. Although he had a Celestial Artifact, the Juntian Rod in Giant Titan's hands wasn't weak either.

"Right, do you want to pay the compensation fee?" The Giant Titan asked.

"I can't afford it..." The city lord said bitterly.

He borrowed the Celestial Artifact, so he had to repay with not one but three of them.

He had spent his years defending this city and hadn't found others which was why he couldn't afford to pay it.

"Then, die." The Giant Titan stopped speaking nonsense to him and just coldly smashed down with the rod.

When the Juntian Rod landed, the ground collapsed and this city lord was turned into meat paste.

The Celestial Artifact was collected by the Giant Titan. He flew away without even looking.

“People who owe debts and don’t repay all have to die.” The Giant Titan thought about it coldly.

## **Chapter 372: Demon Head Requests To Meet**

Within the Bank of the Universe, Li Xiandao looked as his subordinates were running around everywhere. They obtained victories everywhere they went and contract after another was being cleared. The massive amount of bad debts was being solved and this made him really happy, especially in Hell Sky. Along with the flame giants clearing the 500 contracts, they started to use the teleportation formation to enter Flame Sky.

Li Xiandao was satisfied with their progress. They climbed to the top and weren’t happy with their current states.

As for himself, he was also trying hard to improve himself.

Emperor Realm was far from the end. In the eyes of the weak, emperors were terrifying. But to Li Xiandao, emperors were just so-so.

Li Xiandao was moving towards the realms after Emperor Realm.

Of course, Li Xiandao couldn’t break through now. His body contained the 10 lands and 10 worlds with shocking powers that far exceeded that of everyone else.

Over these days, dragontooth rice planted more and more rice. As they entered Cold Moon Sky, with the thick spiritual energy, the amount of dragontooth rice that could be planted increased substantially. Each month, large amounts of rice were being produced.

90% of them landed in Li Xiandao’s hands. He absorbed most of them and left 10% in storage just in case there were future needs.

But even such huge energy couldn’t allow Li Xiandao to break through.

He was stuck at the peak of Emperor Realm.

Even if his combat strength was far above this realm, he still couldn’t break through.

"I am lacking some accumulated cultivation but I have absorbed enough dragontooth rice and enough spiritual energy dragon veins and it is still not enough." Li Xiandao frowned.

If he continued, even if he could use dragontooth rice and spiritual energy dragon veins to break through, it was tough to improve further.

Breaking through to Emperor Realm would basically finish all his accumulated learnings. If he wanted to break through, he could only snatch other people's learnings.

Or rather, he had to wait for dragontooth rice to recover and plant dragontooth rice which was at its peak energy level.

But that was too far away.

Li Xiandao had to think of a way.

His act of using the Ten Lands to form his grotto-heavens was too bold as that required too much energy.

It was an ocean amount. Each time he broke through it would increase in folds. One could say that if not for the Bank of the Universe, he would spend his life searching for resources and information for resources.

Moreover, Li Xiandao had an even bolder idea.

He wanted to include the Nine Skies in his body too so he could display the Nine Skies and Ten Lands in his own dantian. At that time, even a Celestial would find it hard to block Li Xiandao's strength.

But now, Ten Lands needed so many resources, so wouldn't Nine Skies need even more?

Li Xiandao was hesitating.

At that point, Seven walked in.

After seven days, Seven finally started to worry about Li Xiandao. The two of them didn't mention what had happened before.

The main reason was because Li Xiandao was worried that Seven would ignore him again.

Seven was worried that she would be shy and also that she wouldn't be able to stop Li Xiandao from doing such things.

The two of them were deep in thought, so they decided not to mention the past.

“Master, someone is looking for you.” Seven walked over and said.

Li Xiandao was stunned and asked, “A new guest?”

But Seven should have reminded him if it was a new guest and she shouldn't have been speaking with this tone.

Seven shook her head, “It's not a new guest. It belongs to the Bank of the Universe.”

“The Bank of the Universe's item? What do you mean?” Li Xiandao didn't understand.

“Didn't you receive a guest who was disturbed by a demon?” Seven reminded Li Xiandao.

Li Xiandao nodded, “That demon who tried to steal Zhong Zi Qi's body, right?”

“Right. Even though Zhong Zi Qi left, the demon is still here. The demon fainted then and you didn't interrogate him. Now, he has woken up and wants to meet you.” Seven said truthfully.

“The demon wants to meet me!” Li Xiandao was interested. The demon that he captured actually wanted to meet him.

“Did the demon say why?” Li Xiandao asked.

“He just said that there is something important. He wants to negotiate with you.” Seven shook her head.

“Reject him.” Li Xiandao said without hesitation.

“Tell him that he is my prisoner and has no right to negotiate with me. Ask him whether he understands what position he is in.” Li Xiandao said coldly.

Although Li Xiandao didn't know why he wanted to negotiate with him, he didn't want to be on the same level as a demon.

He didn't come in with a watch and Li Xiandao took down the demon and locked him up. As such, he didn't have the right to do so.

Seven nodded and left.

Li Xiandao continued to think about how to get a huge amount of resources to allow him to break through.

In a short moment, Seven returned, "The demon has learned and says that he wants to meet Master and has something to report to you."

Li Xiandao was satisfied, "Now, that is right. He should be clear about his position. Now, bring him in."

Seven smiled sweetly and took out a jade box. She placed it in front of Li Xiandao, "I brought it."

Li Xiandao was satisfied, "You are more and more like the bug in my stomach."

Her face turned red and she rolled her eyes at Li Xiandao, "You are the Master and I am the butler. Of course, I have to understand your thoughts."

"I have never treated you as a butler. We are equal here." Li Xiandao smiled and said. He reached out to open the box.

Seven's beautiful eyes sparkled as she looked at Li Xiandao with a sweet expression.

Li Xiandao didn't notice as he focused on the box.

*Da da!*

Li Xiandao tapped and it gave out a crisp voice.

"What do you have to say?" Li Xiandao asked.

"Release me. I will tell you face to face." The demon was happy and said eagerly

"You should say it first. If there is a need to listen more, then I will release you." Li Xiandao said calmly. He wasn't sure about whether or not he would be interested in what the demon would say.

"There is definitely a need. It is related to hell." The demon said.

Li Xiandao's brow rose up. *Regarding hell?*

"What does hell have to do with you?" Li Xiandao asked.

"I am the demon from hell. Long ago, the Celestial World and the Nine Skies and Ten Lands were on the same level. Hell is where the dead go, so there were 10 yamas, black and white rulers, millions of yin soldiers, and many bodhisattvas..." The demon said.

"I know about all that." Li Xiandao said calmly.

18 levels of hell, 10 yamas, black and white, millions of yin soldiers... Li Xiandao had read all about that in the Ten Thousand Country Book Depository.

"I am the demon in hell and I know some secrets. I also know about a treasure." The demon said anxiously.

"If you want to talk about that, then I am interested." When Li Xiandao heard about a treasure, he became very excited.

## **Chapter 373: 108 Demon God Pillars**

**Translator:** Exodus Tales **Editor:** Exodus Tales

Li Xiandao looked at the jade box and the ball of demonic energy within. The demonic energy had a soul and that was its foundation.

If one smashed the demon's soul, the demon would definitely die.

The demon panicked too. It was locked in a small box and it was pitch black. It smashed all about but it couldn't shatter the jade box.

In the jade box, it heard Li Xiandao's voice. The demon head couldn't help but think back to when it listened to orders from the Yama King.

He was high above and extremely strong such that he had no way to fight back at all.

Now that he was in front of Li Xiandao, he had the same feeling. How would the demon dare to hide anything?

"I have precious intel and I want to use it in exchange for my freedom?" The demon said loudly.

Li Xiandao thought about it for a moment and said, "You want to use news of this treasure to redeem yourself?"

"Redeem?" The demon was confused. He needed to redeem himself?

"Of course, you are now mine. If you don't agree, I will seal you for tens of thousands of years. I can do that very easily." Li Xiandao said it really simply.

"I am now yours?" The demon was shocked. He didn't expect that he would have such a tragic ending.

"Why? Have you thought about it?" Li Xiandao asked.

"I have. I am willing to redeem myself." The demon shouted unwillingly.

He used intel to redeem himself. Why did he sound so weird?

But if he didn't, he would end up in endless darkness.

The demon had already been locked up for 100,000 years and wasn't willing for such a thing to happen again.

In the darkness, the demon found even a second unbearable. This was also the reason why he wanted to meet Li Xiandao.

"If your intel is not of value, then I will continue to lock you up." Li Xiandao warned in advance for him not to use some small news to cheat him.

"It is definitely huge, but can you be trusted?" The demon was worried.

"Don't worry, I am a businessman. Business men are always trustworthy.

After all, honesty is everything." Li Xiandao sprouted a whole bunch of nonsense.

The demon was still uneasy but it was he a bad state now. He had a small area where he could move about and it was even worse than when he was in prison. If he didn't come out and spent another few hundred years like this he would definitely die.

He had been sealed for 100,000 years and the demon barely survived. Now, he didn't have much time left.

"Speak! If you continue delaying, I will lose interest." Li Xiandao said calmly and he didn't want the demon to waste time.

"Once Hell and Celestial World merged, they became the servants of the Celestial World. Celestial World exceeded the Nine Skies and Ten Lands and became supreme." The demon said with a solemn expression.

Li Xiandao nodded, "Right, but I know about all of that."

Demon continued, "Many people were unhappy and felt like it shouldn't have been the case. So, they opposed the Celestial World and started a war."

Li Xiandao felt interested. This was something he didn't know.

"After the war started, Hell and Celestial World were very intense, but for some reason, the higher-ups of both sides came to an agreement; they would manage their own things and not interfere with each other. But Hell had to be run by Celestial World and they would be below them in name." The demon said seriously.

Li Xiandao held his head in his hands and said slowly, "So, all of you were unhappy?"

"Right, the demons in hell won't accept anyone, so how can we accept being below others?" The demon was pumped up with rage.

"It's just in name." Li Xiandao added.

"Even then it can't be accepted." Demon scolded. He didn't even care about the difference in position with Li Xiandao.

Luckily, Li Xiandao didn't get mad. He just said calmly, "Why not?"

"Only someone stupid will agree. In a few hundred years they might know that it is just in name but what about 1,000 years from now?"

"For the newer demons, hell evil spirits, ghosts, etc, they were fed information by the Celestial world from a young age. But this was just within hell. What about outside?" The demon became more and more angry.

"After 1,000 years, they really think that Hell was under Celestial World and Hell is not as good as Celestial World." Li Xiandao added. This was what the people of Nine Skies and Ten Lands thought.

Hell was not as good as Celestial World and Hell was just one small place there.

Celestial World was high above and Hell was an endless abyss. Its reputation was totally soiled.

To turn it around, they had to defeat Celestial World and mould the next generation within a few thousand years.

"This is why I was angry. Those short-sighted people didn't notice Celestial World's plot." Demon was furious.

"This is an obvious plot." Li Xiandao corrected him.

"Also, not everyone is stupid. Someone raised the problem but Celestial World bought them over and made the higher-ups of Hell agree with this." Li Xiandao guessed.

"How do you know?" The demon didn't understand.

"Is my guess correct?" Li Xiandao asked.

"Yes." The demon was helpless.

“So, until now you have been talking about the conflict between Hell and Celestial World. What does that have to do with your treasure?” Li Xiandao asked.

“That is just the beginning.” The demon was unhappy.

“I hope that you can simplify things and just tell me about the treasure.” Li Xiandao reminded the demon.

As for the conflict between the Celestial World and Hell, Li Xiandao didn't really care and he didn't have the strength to care either.

“Hell isn't united. Some agreed and some objected. I was one of those who objected.” The demon said.

Li Xiandao listened quietly.

“We split so the resources were also split. My cultivation was good, so I was a captain in charge of 10,000 demons.” The demon couldn't help but feel proud.

Li Xiandao coughed unhappily, “What is the main point?”

Li Xiandao saw that this demon was speaking a lot. He had been locked up for so many years and no one spoke to him. Just thinking about it, one knew how terrifying it was.

So that was why he spoke so much to Zhong Zi Qi when he was stealing his body such that Zhong Zi Qi was able to counter him and arrive at the Bank of the Universe.

Now, his bad habit was activated again. The more he talked, the more he went off-topic.

Li Xiandao had to remind him.

“Cough, cough. Anyway, the demons swept hell and numerous treasures and resources were taken out to craft 108 Demon God Pillars.” The demon finally mentioned the main point after Li Xiandao reminded him.

Li Xiandao focused and asked, “108 Demon God Pillars?”

“Right. All of Hell's resources are gathered there and the Yamas contributed a lot.” The demon said solemnly.

## **Chapter 374: Honest And Reliable Master**

“They gathered all the resources of hell together to craft 108 Demon God Pillars?” Li Xiandao frowned and asked.

What was the point in gathering resources to craft the demon god pillars? Why not let people cultivate with it.

“Not all, just a large portion.” The demon explained.

“Can’t you just use them to cultivate?” Li Xiandao didn’t understand.

“We needed to lay out a large formation to split Hell and Celestial World to develop independently and so that they couldn’t disturb us.” The demon explained.

Li Xiandao finally understood everything.

“So, did you succeed?” Li Xiandao asked

“We did but at the final moment, a few people revealed it and experts from Celestial World came to destroy the 108 Demon God Pillars.” The demon said.

“Were the pillars destroyed?” Li Xiandao asked. No one in the Nine Skies and Ten Lands knew about this period of history. This was something that occurred between just Celestial World and Hell.

The Ten Thousand Country Book Depository didn’t have any records of it and this was also the first time Li Xiandao heard of this. He didn’t expect the Celestial World to be so chaotic.

Hell wasn’t happy with Celestial World, so what about Buddha World, Spirit World, Monster World, and Demon World?

Li Xiandao suddenly felt like Celestial World wasn’t an ordinary place.

“A part of it was destroyed. This is also the secret I was talking about.” The demon said seriously.

Li Xiandao was interested. Had the 108 Demon God Pillars really been destroyed?

“The people from Celestial World destroyed a corner of the formation and caused 12 pillars to fly away.” The demon said.

Li Xiandao’s eyes lit up, “You know where the 12 are?”

The demon nodded, “I do because I was flung away along with the pillars. But I was unlucky and became sealed. I was separated from the Demon God Pillars.”

Li Xiandao was disappointed, “So, you don’t know where they are?”

Li Xiandao felt really tempted after he heard that the 12 pillars had been smacked away.

A large amount of Hell's resources were used to craft 108 Demon God Pillars, and 12 of them had fallen off.

He didn't have to get all 12; just one would definitely help improve Li Xiandao's cultivation.

This was Hell's resources.

It was on the same level as Celestial but was totally different from places like Nine Skies and Ten Lands.

Celestial World couldn't handle Hell Sky and could only plot to make them their in-name subordinates.

So, the energy of the 12 Demon God Pillars was definitely very significant to Li Xiandao now.

But it was a shame that the demon and the Demon God Pillars were separated.

The demon could tell that Li Xiandao was disappointed and he panicked, "I know where they fell. They're in Great Sky and Heaven Sky. As for how many there are, I'm not sure."

Li Xiandao sighed in disappointment, "Do you know how big Great Sky and Heaven Sky are? It is hard for me to release you with just this bit of news."

"Also, I also have..." The demon shouted nervously. Although he gritted his teeth, he didn't dare to vent his anger.

"Continue." Li Xiandao said calmly. Of course, he knew that the demon had ways. A demon of Hell... how could he not notice the Demon God Pillars?

He could live for 100,000 years and still be so lively. He was definitely very strong.

"I can sense the aura. Release me and I'll help you find it. Once I do it's all yours." The demon said.

"But... If I release you and you don't come back, then what should I do?" Li Xiandao asked.

"No, I am an honest person. When I was in Hell, my nickname was reliable gentleman." The demon said firmly.

“What a coincidence, I am also a reliable and honest handsome boss. So, we are of the same kind, so do you think I will let you go?” Li Xiandao smiled.

The demon sighed helplessly and knew that Li Xiandao couldn't be tricked. He asked after keeping silent for a moment, “What do you want before you will release me?”

“Hand over your soul source.” Li Xiandao said calmly.

“Impossible!!!” The demon roared in rage. Handing the soul source over to him was equivalent to sacrificing his own life.

If Li Xiandao wasn't happy and smashed his soul source, then he would die. How could he agree to this?

“Since that is the case, then is there no more room for discussion?” Li Xiandao asked.

“Definitely not the soul source. ” The demon was firm.

“Seven, take this demon to the treasury and put him in the lowest layer. Take him out after 30,000 years.” Li Xiandao said simply.

Seven walked forwards.

*Da da da!*

Seven's footsteps announced the countdown to the end of the demon's freedom.

The demon was so scared that his soul source was trembling.

“Is this fun?” The demon asked Li Xiandao in anger.

“Is there a point in threatening me?” When the demon heard 30,000 years, he was stunned. He started to tear up to show his reluctance.

“Isn't it just the soul source? I am in soul form with no ears and I must have heard incorrectly.” The demon changed his attitude.

Li Xiandao smiled at Seven. He knew that the demon couldn't handle 30,000 years of being locked up.

“So, you misheard.” Li Xiandao was shocked.

“Right, I misheard.” The demon laughed. He had to agree with Li Xiandao and could only swallow his tears.

“Now let me ask you, are you willing to hand over your soul source?” Li Xiandao asked simply.

The demon sighed helplessly, “Yes, I am willing.”

“Okay, then I can release you. I hope that you don’t play with me. I have a bad temper... Do you understand?” Li Xiandao tapped the box and said.

“I wouldn’t dare.” The demon was afraid. He was just meat and if Li Xiandao took a blade to cut him, he would give as much as he wanted.

After Li Xiandao put on his mask, he opened the jade box.

*Hong!*

The demon headed out in excitement and turned into a giant ball of demonic energy. He then transformed into a white-haired demon but wasn’t in a soul state.

The demon saw Li Xiandao right away.

He didn’t dare to do anything. He had tried before and Li Xiandao was just too strong.

“Where is your soul source?” Li Xiandao reached out.

The demon gritted his teeth and picked a part of his source to pass to Li Xiandao.

After he left the source, the demon’s body dimmed. This was a core part of his soul and once he was destroyed, it would be fatal.

“Don’t worry, let’s make a deal.” Li Xiandao looked at the soul source and didn’t take it. He looked at the demon and said.

“What deal?” The demon looked at Li Xiandao with a curious expression.

“You help me find the 12 Demon God Pillars and once I get them, I will return this piece to you and you will also get freedom.” Li Xiandao threw him a bit.

“Can I trust you?” The demon was suspicious.

“I am an honest and reliable boss. Don’t worry.” Li Xiandao nodded firmly.

Why did his words sound so fake to the demon?

## **Chapter 375: Demon’s Rage**

In the end, the demon finally agreed to what Li Xiandao said in the end.

He would help Li Xiandao get the 12 Demon God Pillars and Li Xiandao would return his soul to him.

“Do you want to sign a contract?” Li Xiandao asked. This was to give the demon hope.

The moment the contract was signed, Li Xiandao had to follow it.

If he didn’t, then Li Xiandao could just back out of it whenever he wanted.

But the demon didn’t know and just waved his hands, “What is the point at all? It is totally useless. I won’t worry about it.”

Li Xiandao didn’t force him to. Since the demon wasn’t willing, then whatever happened next was on him.

“That is fine. You can leave now to help me find news of the Demon God Pillars. Then, you must inform me.” Li Xiandao said calmly.

“I will go just like that?” The demon looked at Li Xiandao suspiciously.

“Why? Do you want me to treat you to a meal?” Li Xiandao asked.

“There is no need to.” The demon rejected

“Remember, the earlier you help me find the 12 Demon God Pillars, the earlier you’ll be safe, so work hard.” Li Xiandao said calmly.

Demon head nodded, “Don’t worry, I want to live. I just hope that you will stick to our agreement.”

Li Xiandao didn’t give a definite reply, “I stick to my contracts. Don’t worry.”

Only then did the demon leave with Seven. Under Seven’s directions, he left the Bank of the Universe.

Li Xiandao touched the demon’s soul source in his room and muttered, “I must acquire the 12 Demon God Pillars. Anyone who dares to stop me will be asking for death.”

...

The demon exited the Bank of the Universe. He was currently in his soul form and had to find a body.

“Damn, bastard, thief, hooligan, shameless. I knew that he would rob me. Don’t give me a chance. If I find a chance, I will kill you.” When the demon was searching for a body, he cursed. He was extremely furious.

He felt like Li Xiandao was robbing him. Now, his life and death were in Li Xiandao’s hands. This made the demon feel really bad.

There was also nothing he could do to Li Xiandao. He wanted to live and simply put, he was afraid of dying.

It was extremely simple for Li Xiandao to kill him; he just had to press lightly and the soul source would shatter. Then, the demon would die.

So, although the demon was scolding in rage, he still needed to help Li Xiandao do things and find those 12 Demon God Pillars.

“Damn those Demon God Pillars!” The moment the demon thought about those pillars, he cursed in anger.

How would he know where they went?

He had been locked up for 100,000 years.

In the Bank of the Universe, he said that he could find the Demon God Pillars. That was just a simple lie to get Li Xiandao to release him.

Now that Li Xiandao had released him and he was bragging, he definitely couldn’t let it come true.

“I saw the Demon God Pillars fall into Great Sky and Heaven Sky but how long has passed?” When the demon thought about it, he became really annoyed and restless.

100,000 years... 100,000 years had passed since that matter.

100,000 years... Who knew whether people from Heaven Sky and Great Sky took away those Demon God Pillars?

100,000 years... Who knew whether people from Hell had come to find those pillars?

100,000 years... Who knew whether anyone from Celestial World had come to take those pillars?

There were too many uncertainties that gave the demon a headache. His soul was also shaking and he really wanted to slap himself several times.

Why did he have to say 12?

Couldn't he have just said two or three?

It would also be much simpler to find just a few.

The demon sighed helplessly. He needed to find a body urgently.

"If I stole Zhong Zi Qi's body, then I wouldn't be so frustrated now." The demon regretted it.

Zhong Zi Qi was someone who roamed the Nine Skies and Ten Lands.

"Wait..." The demon suddenly thought about something.

"Zhong Zi Qi roamed the Nine Skies and Ten Lands, so he definitely knows many things. He definitely understands Heaven Sky and Great Sky. I need to find him and steal his body and use his knowledge.

Then, I can find the Demon God Pillars." The demon said firmly.

The demon understood the Nine Skies and Ten Lands from 100,000 years ago. He found the Nine Skies and Ten Lands 100,000 years later very foreign.

So, he needed Zhong Zi Qi.

He just walked around Heaven Mountain to find a suitable body to use for now.

"Is there anyone here?" The demon moved along Heaven Mountain but didn't find anyone at all.

What was going on?

There was not even a single lumberjack in this giant mountain range?

What the demon didn't know was that not long ago, the various factions and sects had attacked Heaven Mountain. It caused a huge uproar and the commoners didn't dare to get close at all.

So, there was no one here.

He searched for half a day and he gave up. He gave up on finding a living person and saw a relatively fresh corpse in a tomb.

"Forget it, I shall just use it. Once I find Zhong Zi Qi, I will definitely swallow him." The demon said viciously.

He was living a sad life now and it was all because of Zhong Zi Qi. He definitely wouldn't let him off.

Zhong Zi Qi didn't know that the demon actually had his eyes on him.

A short moment later, an ashen white-faced corpse stood up. It was a young man whose heart had been pierced through.

"This body is so weak. It doesn't even have a heart. In fact, it smells like it's decomposing. Ew..." The demon didn't like the body.

But when he saw the decomposing bodies all around, he just had to bear with it.

He just had to use it for a while.

He picked up a set of clothes and put them on to cover his wounds. He also used demonic energy to cover the smell and moved the corpse in a slow and rigid matter.

At the start, he wasn't used to it but that slowly changed. The joints of the corpse also started to loosen up.

*Hong!*

A corpse actually flew into the sky, instantly searching for a World Grade Teleportation Formation.

"No, I shouldn't go to the World Grade Teleportation Formation." The demon suddenly thought about it.

"Zhong Zi Qi said that he came to Cold Moon Sky to find ancient ruins and bumped into me. But since he's no longer in danger, he might as well go to the place where I was sealed." The demon thought about a possibility and became excited.

"Zhong Zi Qi, our grievances aren't over yet." The demon hollered in rage and headed towards where he had been sealed before.

Zhong Zi Qi still didn't know that he was in danger.

Within the Bank of the Universe, Li Xiandao saw this and didn't know whether to laugh or cry, "Zhong Zi Qi gave his life for two Celestial Artifacts and a map. Is he in danger again?"

The demon seemed unhappy with Zhong Zi Qi, and right after he gained freedom, he went to find him.

Li Xiandao said, "If you have no watch this time, you will definitely die."

If he entered the Bank of the Universe, even with the watch, he would still have to pay two Celestial Artifacts.

Could Zhong Zi Qi afford that?

If Li Xiandao knew that Zhong Zi Qi had given him the two worst Celestial Artifacts, he would tell the demon to swallow Zhong Zi Qi up.

## **Chapter 376: All Meetings Are Just People Reuniting**

In an unnamed mountain range, at the same old temple, there were gigantic trees and vines all around that shot up into the sky and reached toward the moons. Darkness covered the area and made it seem dull and cold.

*Sizzle!*

A bonfire was burning in the old temple and the dry twigs and bamboo would occasionally explode.

The bonfire lit up the darkness. There was no light around and if one hadn't lit up anything, it would have seemed really terrifying.

But even the bonfire only lit up a small region and the other areas weren't lit up at all.

Zhong Zi Qi wasn't afraid. He was a cultivator, a strong one at Legend Realm. He was about to reach Grandmaster Realm and he had a bunch of Celestial Artifacts protecting him, so he wasn't afraid of those evil spirits.

The bonfire burned. He closed his eyes and used his cultivation technique to improve himself.

His leg had healed and this was just some simple cultivation.

One comprehended one's body three times a day and only by persisting would one improve. So, Zhong Zi Qi would cross his legs every day to calm himself down.

*Hu!*

He spat out a mouthful of air. Zhong Zi Qi closed his eyes and looked at the bonfire in melancholy.

"This doesn't make sense." Zhong Zi Qi muttered.

The map that he acquired indicated that there was a huge treasure here that was left by a glorious sect.

Apart from meeting the demon and being fortunate to get escape with the red watch, after returning, he searched 900 miles all around and didn't even find anything.

This made Zhong Zi Qi really confused.

He had searched for treasure for 3,000 years and had a firm belief in his skills. Moreover, the map was real and had been drawn by people from that era. In Zhong Zi Qi's eyes, it couldn't be faked.

Moreover, this was indeed a majestic Taoist shrine. The only thing was that it was covered in the forest now.

But everything added together meant that Zhong Zi Qi couldn't find it.

"Am I going to return empty handed?" Zhong Zi Qi wasn't willing to accept it.

He lost two Celestial Artifacts this time. Although they weren't important to him, one was a broken iron rod and the other was a supportive coral ocean map.

But no matter what, they were Celestial Artifacts.

"Haiz, I will search for two more days. If there are no more clues, then I'll go back." Zhong Zi Qi looked at the bonfire.

He thought about his home and his family. He thought about his beautiful wife and his two children.

Thinking about it, a huge fire appeared in his eyes. All his beautiful memories were turned to flames.

"No..." Zhong Zi Qi cried out in pain. He retreated in fear and stood far from the bonfire with a stunned expression.

His beautiful wife, his cute children, merciful parents, scenic homeland... all of it was burned by the flames that landed from the sky.

When Zhong Zi Qi returned, everything was turned to dust.

At that moment, Zhong Zi Qi collapsed.

He searched for the culprit but no one knew who it was.

There was only the furnace that brought the fire down on his home!

The furnace wasn't an ordinary item. Zhong Zi Qi carried it on him and he remembered every single detail; be it patterns, shape, or the formations inside, Zhong Zi Qi memorized it all.

Why did Zhong Zi Qi roam the Nine Skies?

Why did he search the ruins?

Why did he gather Celestial Artifacts?

He just wanted to find the person behind the fire furnace.

Zhong Zi Qi didn't tell anyone this. He wanted to use his own strength to find the killer and take revenge for people he cared about.

But as time went on, Zhong Zi Qi knew that he wouldn't be able to take revenge by himself.

He had visited all the secret ruins in the Nine Skies but he didn't find anything related to the furnace.

"Am I really not going to take revenge?" Zhong Zi Qi was stunned.

But no one could reply to him.

He was not that top talent. He reached peak Legend Realm 3,000 years ago and was nine stages of Grandmaster Realm away from Emperor Realm, much less Celestial Realm.

He would be able to get to Celestial Realm relying solely on himself.

Zhong Zi Qi looked at the bonfire in despair. He thought about all the Celestial Artifacts he collected, but in the end, there were only a few that he could use.

"If I can use the Celestial Artifacts in exchange for a chance for revenge, I will do so without hesitation." Zhong Zi Qi had an idea.

"Right, trade the Bank of the Universe!" Zhong Zi Qi's eyes lit up. He could find the Bank of the Universe and use all his Celestial Artifacts to allow the Bank of the Universe to take revenge for his wife, children, parents, and homeland.

"But I don't have the watch." Zhong Zi Qi was immediately disappointed.

Without it, he wouldn't be able to enter the Bank of the Universe.

If he couldn't get in, how could he take revenge?

*Hong!*

At that moment, a red light shone in the darkness.

His body shook and he looked on in disbelief. Another red watch appeared.

*Tick, tick, tick!*

The watch gave out a crisp sound that resounded in his ears that made him immersed.

He saw hope in despair. He reached out his trembling hand and picked up the red watch.

“The heavens are helping me. The heavens are really helping me.” Zhong Zi Qi said emotionally.

*Peng!*

At that moment, a person appeared at the door. There was no light outside and one couldn't see his face. But one could see the thin body.

Zhong Zi Qi frowned. He stared at the person. He had never seen him before.

But looking at the aura, he seemed really aggressive; just one look and one knew that he wasn't kind.

Zhong Zi Qi focused on him. He put away the red watch. He definitely couldn't lose it.

“Who are you?” Zhong Zi Qi frowned and asked. He sized him up and realized that his skin was cold. The limbs were stiff and more importantly, there was no True Qi flowing within.

He was like a corpse!

But how could a corpse move?

The person didn't answer Zhong Zi Qi's question. He just stepped into the temple with a rigid step.

As he flew for too long, it was understandable that the body turned stiff.

The bonfire burned. After the corpse entered the temple, Zhong Zi Qi saw the body.

It was spotted, the skin was white, and the eyes were grey and emotionless.

All the signs showed that this was a corpse.

Zhong Zi Qi frowned. He raised his True Qi and prepared to strike, but in the next second, the corpse actually opened its mouth.

“All meetings in this world are just people reuniting. Mr. Zhong, long time no see.”

His voice was gentle like an old friend saying hi. Zhong Zi Qi didn't notice at first but when he heard that voice, he shuddered and was utterly terrified.

Demon!!!

## **Chapter 377: Hurting One Another!**

Zhong Zi Qi was panicking. He didn't expect that the demon would appear again.

Moreover, it appeared in such a terrifying way.

“Weren't you already taken down by the Bank of the Universe's Master?” Zhong Zi Qi was shocked.

“You can let him take me down and I can also make him release me.” The demon said coldly.

“You just have to blame yourself for being too careless to actually dare to come back to this place. I was just trying my luck and didn't expect that I would really meet you.” The demon smiled in delight.

“You think that you are definitely going to consume me?” Zhong Zi Qi was firm and a piece of jade appeared in his hands. It was like water and icy energy wrapped around it. The energy could spill out right away and seal everything.

That was a Celestial Artifact. It was really strong and it was also what Zhong Zi Qi relied on.

“A Celestial Artifact... You do have many treasures.” The demon recognized it right away but he had nothing to worry about. As a demon from Hell, he had seen many of such things in the past.

“I am not afraid of you!” Zhong Zi Qi said solemnly. Those words boosted his own confidence.

The demon was stunned and said, “You are not afraid of me?”

“Right, I am not afraid of you.” Zhong Zi Qi nodded his head firmly.

“If you aren’t afraid of me now, then what about now?” Demon’s soul left the corpse and with a loud explosion, the entire temple became filled with demonic energy which was exceptionally violent.

*Hong long long!*

The demonic energy was thick and it directly extinguished the campfire. The entire temple was pitch black and only Zhong Zi Qi’s jade was still giving out light.

But this light was suppressed by the demonic energy and all of it was squeezed together. Zhong Zi Qi felt like he was in trouble. The area was filled with thick demonic energy and his jade could only protect itself.

“Now, are you afraid?” The demon’s soul walked out of the demonic energy. It was a white-haired man who seemed really polite but he was the one who ruled the demonic energy all around.

Zhong Zi Qi gritted his teeth, injecting in True Qi to activate the jade.

*Hong!*

An extreme ice domain exploded out from the jade and spread around to resist the demonic energy.

“This is no use. It is just one Celestial Artifact. You can’t activate all nine stages of the seal. Based on your current cultivation, you can just activate two. I can easily block such strength. I told you that I wanted your body.” The demon smiled coldly.

If all nine seals of the Celestial Artifact were activated, naturally the demon couldn’t block it. He was now in soul form and quite unstable. Even if he paid a price, he still wouldn’t be able to block it.

In truth, the demon couldn’t block five stages.

But... Zhong Zi Qi couldn’t open the seals, so what did the demon have to be afraid about?

“Why did the Bank of the Universe’s Master release you?” Zhong Zi Qi asked reluctantly.

“I took out many things to redeem myself. All of this is because of you. You made me pay such a high price.” The moment the demon said this, his stomach was filled with rage as he stared at Zhong Zi Qi.

If not for Zhong Zi Qi bringing him into the Bank of the Universe, he wouldn’t have been locked up and he wouldn’t have had to hand out his soul source.

Zhong Zi Qi laughed coldly, "It seemed like you paid a heavy price."

"The price I paid can't be described in words. A demon agreed to such a humiliating price. You will pay for that." The demon stared at Zhong Zi Qi coldly.

"Do you think that I have no way to deal with you this time?" Zhong Zi Qi laughed coldly. He had a red watch in his hands but he would only use it at the crucial moment.

This watch was one that he was prepared to use so that the Bank of the Universe could find out where his enemies were. He didn't want to use it on the demon.

If he could force the demon away without using the watch, that would be the best thing for Zhong Zi Qi.

"I am here to take your body. You are the best choice. I can use your body to cultivate the Demon Summoning Scripture, the strongest ancient prohibited technique of Hell. I didn't have the chance to cultivate it in the past, but after 100,000 years of being sealed up, I have comprehended it. You are the best vessel for it." The demon's soul got close, ignoring the jade. Rumbling demonic energy pinned Zhong Zi Qi and made it impossible for him to move.

"Celestial Artifact, it is not worth mentioning at all in my eyes." The demon hollered. He wanted to destroy Zhong Zi Qi's defenses and enter his body.

But it didn't work and Zhong Zi Qi laughed coldly instead, "The Celestial Artifact can't block you but what about this?"

A red watch appeared in his hands.

Demonic energy and the jade intersected. The light from the red watch seemed so apparent and eye-catching now.

The demon took a look and was petrified.

He had seen this red watch once and only because of it was Zhong Zi Qi able to enter the Bank of the Universe. Only then was he able to bring him in and he lost his soul source.

Now, Zhong Zi Qi took out one more.

The demon collapsed.

"No..." The demon screamed. He had already started and entered Zhong Zi Qi's body. When Zhong Zi Qi picked up the red watch, the demon didn't know whether to proceed or stop.

Continue?

Then, he might enter Bank of the Universe and see Li Xiandao again.

If he didn't, his soul would quickly weaken.

That was something that couldn't be solved, so the demon could only choose to continue.

"Leave my body and I won't use this." Zhong Zi Qi said loudly. He was making a haphazard choice.

To use this watch on the demon was such a waste.

But he had to use it to save himself.

"I will take your body today." The demon shouted in rage and continued to get deeper in.

Zhong Zi Qi's body was being occupied and the demonic energy was about to swallow him. Zhong Zi Qi had no choice, "Then, let's go again."

*Kacha!*

The red watch was shattered.

At that moment, the demon and Zhong Zi Qi were silent. They stopped torturing each other.

They looked at one another and didn't know what to say.

He really shattered the watch. Now that they had to meet Li Xiandao again, things were a little awkward.

"I don't believe that you have an unlimited number of watches. I will still target you." The demon gritted his teeth.

"You spoiled my huge plans." Zhong Zi Qi gritted his teeth too.

"Stop talking nonsense. Once you meet the Master of the Bank, you will be disappointed." The demon said viciously.

"I should be the one saying that. I definitely want you to die this time." Zhong Zi Qi said with determination.

...

In the Bank of the Universe, Seven told Li Xiandao, "There is a guest and it is a familiar one too."

"An old guest? Who?" Li Xiandao asked curiously.

## **Chapter 378: Three Side Negotiation**

Bank of the Universe, Trading Hall!

Li Xiandao walked out and saw someone he was familiar with right away.

The last guest, Zhong Zi Qi was here once again.

"No wonder Seven said it was someone I knew. Are you here because your body is being stolen again?" Li Xiandao joked.

Zhong Zi Qi said helplessly, "Right, my body was stolen again."

Li Xiandao was stunned. He checked Zhong Zi Qi's body and surprisingly saw a ball of demonic energy in Zhong Zi Qi's mind.

Li Xiandao was very familiar with the demonic energy.

Wasn't this the demon that he had just released?

How did he find Zhong Zi Qi and begin to steal his body again?

What was worse was the fact that Zhong Zi Qi had a red watch to enter the Bank of the Universe.

Li Xiandao stopped paying attention once the demon left. He didn't expect such a thing to happen.

"Master of the Bank of the Universe, why did you release the demon?" Zhong Zi Qi said unhappily.

Li Xiandao said calmly, "In our contract, I said that I would help you solve the problem of him stealing your body but you didn't say that I couldn't release the demon."

Zhong Zi Qi was speechless.

"This time, I want this demon dead. He wanted to steal my body twice. I can take out two Celestial Artifacts for you to kill him." Zhong Zi Qi suggested decisively.

Li Xiandao was stunned and asked, "Didn't you say that you only had two Celestial Artifacts?"

Zhong Zi Qi had an awkward expression. This...

"These are really the two celestial artifacts left. I am willing to take them out in exchange for the demon's death." Zhong Zi Qi said firmly.

He wouldn't let the demon off this time.

But Li Xiandao shook his head, "If you want me to kill the demon, a few Celestial Artifacts won't be enough."

"What do you mean?" Zhong Zi Qi was stunned.

"A person's value is in how much he knows and how much he can provide. The value that the demon can bring me is far more precious than the so-called two Celestial Artifacts. So, I won't kill him," Li Xiandao said honestly.

If he could find the 12 Demon God Pillars, even if one exchanged 10 Celestial Artifacts for the demon's life, Li Xiandao wouldn't agree.

This was because the demon's current value represented the 12 Demon God Pillars.

Zhong Zi Qi gritted his teeth and thought that Li Xiandao felt like he was offering too few Celestial Artifacts, "I'll give you five Celestial Artifacts if you kill him."

Li Xiandao asked, "Didn't you just say that those were the two last ones that you have?"

Zhong Zi Qi smiled, "Each person has their trump card... five Celestial Artifacts to kill the demon."

Zhong Zi Qi thought that five Celestial Artifacts could tempt Li Xiandao but he still shook his head and rejected, "The demon is more useful than you think."

"Bank Master, are you trying to rip me off?" Zhong Zi Qi was furious. He took out five Celestial Artifacts to kill one demon but it still wasn't enough?

Li Xiandao was helpless, "I will let the demon come out to talk to you about his value."

Li Xiandao reached out and the demon that was suppressed by the Bank of the Universe's power woke up. He left Zhong Zi Qi and his soul was formed. When he saw Li Xiandao, he said respectfully, "Greetings, Bank Master."

Li Xiandao nodded, "Tell him what you can bring me incase he always thinks that I am conning him."

Zhong Zi Qi looked at the demon. He wanted to see what the demon could take out that could be compared to five Celestial Artifacts?

The demon was delighted, "I told you that even if you came to the Bank of the Universe it would still be useless. The value that I can bring to the Bank of the Universe's Master is far above you, so there is nothing you can do to me."

Zhong Zi Qi looked at the demon unhappily and mocked, "Don't brag, tell me what value you can offer and maybe I can offer more?"

The demon said in disdain, "How can a lower world person debate with a demon from Hell about what value you offer to the Bank Master?"

"Keke, one must know that in the past Nine Skies was no weaker than the Celestial World. You don't know how big my trump card is. Now tell me, what value can you bring the Bank's Master?" Zhong Zi Qi was confident.

"Demon God Pillars, a large portion of Hell's resources stacked together to craft 108 pillars. I can find the bank 12 of them, how can you compare with me?" Demon said proudly.

Zhong Zi Qi frowned. He didn't expect that to be the case. No wonder the Bank's Master said that five wouldn't be enough.

"Now, you know why the Bank's Master wouldn't kill me, right?" The demon smiled in delight.

"I know, but I still want to try." Zhong Zi Qi said firmly.

"I can find the 12 Demon God Pillars, so what can you take out that can compare with them?" Demon frowned and stared at Zhong Zi Qi.

"Your pitiful five Celestial Artifacts?" Demon said in disdain.

"50 Celestial Artifacts!" Zhong Zi Qi said right away. His words were firm and he took out everything that he had.

Li Xiandao was stunned as he looked at Zhong Zi Qi. Had he heard something incorrectly?

50 Celestial Artifacts?

That wasn't a joke.

"You are lying, nonsense. Even a Celestial won't have 50 Celestial Artifacts." The demon didn't believe it and accused Zhong Zi Qi for bragging.

*Peng!*

Zhong Zi Qi wasn't a coward, taking out his Mountain River Map out and shaking it.

*Hua la la!*

Many Celestial Artifacts fell out. There were swords, spears, halberds and all sorts of Celestial Artifacts

A dazzling array was placed all around the ground. There were a total of 50 that were giving off thick spiritual energy.

Li Xiandao was stunned.

The demon opened his mouth and couldn't close it for a long time.

Zhong Zi Qi looked at the demon and smiled coldly, "Now, you know that the things I can take out aren't weak either."

"Are you a distributor? How do you have so many Celestial Artifacts? That doesn't make sense." The demon was stunned and didn't believe his eyes.

Zhong Zi Qi was delighted, "I have been searching the Nine Skies for 3,000 years for secret realms and treasure and I haven't gained anything?"

"Let me tell you, all of this is what I've acquired over these years, a total of 52 Celestial Artifacts. I took two to trade before and there are 50 more here. Is it enough to buy a life?" Zhong Zi Qi said coldly and asked Li Xiandao.

Demon looked at Li Xiandao nervously. When he saw the 50 Celestial Artifacts being poured out, he knew that things were bad. If Li Xiandao was touched, then he was unlucky.

Li Xiandao looked at the 50 Celestial Artifacts on the ground. Truthfully, this was a huge sum.

Li Xiandao had to admit that he had never seen such a fortune before.

He really wanted it.

But at the same time, Li Xiandao was greedy. He wanted the 12 Demon God Pillars that the demon mentioned.

So, Li Xiandao thought about it and laughed, "We can discuss this matter. Let's have a three person negotiation to discuss an outcome that everyone can agree to."

Something that everyone could agree to would be an outcome in which Li Xiandao would get everything.

## **Chapter 379: Huo De Starlord!**

Within Bank of the Universe, Trading Hall, a round table.

Li Xiandao sat on one side, the demon sat on one side, and Zhong Zi Qi sat on one side. They formed a triangle.

“Now, both of you can bring me huge gains, so I don’t want to abandon either of you.” Li Xiandao spoke his true thoughts.

He said it without any hesitation!

Of course, this was because Li Xiandao had nothing to fear. He was the safest out of all of them and was just the fisherman.

Zhong Zi Qi and the demon kept silent and listened.

The demon’s trump card were those 12 Demon God Pillars but he was faking it as he didn’t know where they were.

So, the demon needed Zhong Zi Qi’s body badly.

Zhong Zi Qi was also scared. Although he could take 50 Celestial Artifacts out, in truth, he was the weakest of three sides.

If Li Xiandao didn’t care about him, the demon would steal his body.

Although he entered with the watch, if he couldn’t convince Li Xiandao, then everything would be for nothing.

So, the two of them kept silent.

“I hope that the both of you can voice your troubles. Then, I will help all of you solve them and come up with a suitable outcome for everyone.” Li Xiandao looked at the two of them and said.

The demon and Zhong Zi Qi’s minds were filled with thoughts.

“Let’s start from you.” Li Xiandao saw that neither wanted to speak, so he pointed at the demon.

Zhong Zi Qi looked at the demon with a solemn expression.

Li Xiandao looked on quietly.

"I have to steal a body. I can't remain in this soul state for long. My body was shattered 100,000 years ago and I was suppressed for 100,000 years. After the seal was weakened, I was able to come out. Zhong Zi Qi's body is the vessel that is most suitable for me." Demon said his troubles.

Li Xiandao nodded, "Are there any more?"

"I can give you a chance. I will occupy his body and let his soul come out. Then, Master you can help him find a body." The demon suggested.

Zhong Zi Qi shook his head.

"Are there any more?" Li Xiandao asked.

"Not for now." The demon shook his head.

Li Xiandao looked at Zhong Zi Qi and said, "What about you?"

"I can't give this body to the demon. He had no rights and wanted to steal my body. That is just so rude and I didn't agree." Zhong Zi Qi was unhappy.

"I am a demon." The demon said coldly. As a demon from hell, he didn't care about morals.

Li Xiandao glanced and said coldly, "He is speaking, you shut up."

The demon was terrified. He immediately kept quiet and didn't interfere.

Li Xiandao said calmly, "Continue."

"I have to take revenge with this body. I can't use other bodies to take revenge." Zhong Zi Qi looked at Li Xiandao with a hopeful gaze.

Li Xiandao had an idea, Zhong Zi Qi's hatred might have been the key to all this.

"Why have you got so much pent up hatred?" Li Xiandao asked.

Zhong Zi Qi was solemn, "My family, my homeland, and the people who I grew up with were burned by flames from the sky. I want to take revenge."

"As long as you help me take revenge, I don't mind giving this body to the demon. But before this, I need to use the body to take revenge." Zhong Zi Qi said firmly.

Li Xiandao was delighted. As expected, the key to this was in Zhong Zi Qi's body.

"So, can you tell me who your enemy is?" Li Xiandao asked.

"I don't know." Zhong Zi Qi was despondent and lowered his head.

Li Xiandao blinked and asked, "You don't know or you can't find him?"

"That fire descended from the sky. I was out hunting and when I returned, it was too late. My wife, my granddaughter, my parents, and my best friend were all turned to dust. On the island my home was on, there was only a furnace that spat out flames." Zhong Zi Qi took in a deep breath and gritted his teeth.

Li Xiandao looked at him and said, "So, this furnace is the key evidence."

"Right, but unfortunately, I have roamed through the Nine Skies and searched many lands but I didn't find any news about the furnace." Zhong Zi Qi was disappointed.

"Take out that furnace. Let us take a look." Li Xiandao thought about it and said.

Zhong Zi Qi immediately took out a 10-meter tall furnace from his Mountain River Map.

*Dong!*

It stood on three legs. The furnace had two ears and many mysterious words carved on it. There were animals, flying birds, monsters, phoenixes, qilins, Xuanwu, God Dragon, etc...

The words on the furnace were hard to read. It wasn't any language that Li Xiandao recognized.

Zhong Zi Qi said regretfully, "I searched the Nine Skies for books all because of these words. I found all the scholars, the literate people and anyone who studied history but none of them recognized it."

"That is cuneiform." The demon suddenly said.

*Shua!*

Li Xiandao and Zhong Zi Qi stared at him right away.

Zhong Zi Qi's eyes lit up and he shook, "You recognize these words?"

Demon smiled confidently, "I am a demon from Hell. Such cuneiform words are rare and precious. Normal people don't know about it but I do."

“Tell me, what is written on it?” Zhong Zi Qi asked eagerly.

The demon remained silent and looked at Li Xiandao.

Li Xiandao said calmly, “If I help you find the owner of the furnace, what will you do?”

Zhong Zi Qi thought about it, “Once I take revenge, I will give you this body and I will find another one myself.”

Demon blinked, “You can’t take revenge alone.”

Zhong Zi Qi frowned. He looked at the demon and didn’t understand, “What do you mean?”

Li Xiandao looked quietly.

“The words say that this furnace belongs to Huode Starlord. He is an elder that controls flames in the Celestial World Imperial Dynasty. He is a famous Celestial from the Celestial World. You cultivated for 3,000 years and are only about to enter Grandmaster Realm. You alone won’t reach Celestial Realm, so you can’t take revenge.” The demon added.

When Zhong Zi Qi heard this, he sat there in a daze. He didn’t expect that this furnace would belong to Huoda Starlord from the Celestial World Celestial Dynasty.

As the demon said, Zhong Zi Qi himself wouldn’t be able to take revenge.

This felt really unbearable.

He knew the enemy but realized the gap between the enemy and himself was too huge. It was like the difference between heaven and earth and it made Zhong Zi Qi want to cry.

He had no ability. He couldn’t take revenge for his children and parents...

Zhong Zi Qi started to hate himself.

“So, let’s merge together and share this body. We will cultivate the supreme Demon Summoning Technique and I promise that you will be able to personally kill him.” Demon tempted him.

## **Chapter 380: Sign**

The demon’s suggestion tempted Zhong Zi Qi. The only thought in his mind now was to take revenge.

After learning that his enemy was Celestial World's Huode Starlord, Zhong Zi Qi was in total despair. Now that the demon gave him hope, Zhong Zi Qi's breathing became quicker and quicker.

The demon smiled in delight. He knew that Zhong Zi Qi wouldn't be able to reject this suggestion.

Once Zhong Zi Qi agreed, he could obtain the body and occupy it to cultivate the Demon Summoning Technique. When the time came, he would refine Zhong Zi Qi's soul.

As for revenge?

The demon was just talking about it. He was a demon from Hell; cunning, trickery, and vicious methods were his signature.

In all these signature skills, there was no honesty at all.

Zhong Zi Qi looked really emotional. He stared at the demon and asked, "You can really help me take revenge?"

The demon nodded his head, "Right."

"Is Demon Summoning Technique really that strong?" Zhong Zi Qi continued to ask.

"Demon Summoning Technique is the most suitable for your body. Once you cultivate it, there is a 100% chance that you will beat all the experts in the world." The demon said decisively.

Zhong Zi Qi was tempted and he replied, "I agree, I will let you into my body to cultivate Demon Summoning Technique."

The demon was excited and immediately wanted to enter Zhong Zi Qi's body.

"Slow down!" Zhong Zi Qi calmed down and stared at the demon.

"What?" The demon blinked and wanted him to enter quickly. The moment he entered, Zhong Zi Qi wouldn't be able to do anything.

The demon would directly turn on him and kill Zhong Zi Qi's soul.

Revenge?

*That's your hatred, not mine.*

The demon planned it all out.

But Zhong Zi Qi was not stupid and wouldn't listen to his words.

He looked at Li Xiandao and asked respectfully, "Bank Master, is the Demon Summoning Technique that the demon mentioned really that strong?"

Li Xiandao looked towards Seven.

Seven should have known about this.

"Demon Summoning Technique is a terrifying technique that was created by an ancient demon. People who cultivate this technique would have strength to shock the heavens." Seven said.

The demon was delighted, "See I didn't lie to you, this technique is really strong."

"Moreover, let me tell you that there is a natural closeness between technique and your bloodline. This natural closeness is of great help to cultivating Demon Summoning Technique. Along with my demonic energy, it will be able to help you strengthen quickly." The demon jumped excitedly and said.

When he thought that he could take control of Zhong Zi Qi's body to cultivate the Demon Summoning Technique, the demon felt great.

After Zhong Zi Qi got the reply, he relaxed and then knelt down towards Li Xiandao.

*Peng!*

He kowtowed.

The demon was stunned. What was he doing?

Seven looked towards Zhong Zi Qi with a weird expression. What is this?

Li Xiandao sat on the chair, "Why are you kowtowing towards me?"

"Bank Master, I want to use 50 Celestial Artifacts for you to take me in as a slave. I am willing to be your cow or dog." Zhong Zi Qi said.

"Are you sick in the head?" The demon scolded and his expression was a little ugly.

He guessed something and his breathing became rushed.

*Shua!*

Li Xiandao had a cold look at the demon and scared him into swallowing all his words.

Li Xiandao looked at Zhong Zi Qi and smiled, "You want to find a backing, right?"

"Right, I am uneasy in trading with the demon but I am happy to trade with you. So, I want to be your subordinate and then merge with the demon to cultivate the Demon Summoning Technique. Moreover with you witnessing, when I sign the contract, all the pros and cons will be written on it. I think the demon won't dare to harm me either." Zhong Zi Qi's voice was clear and his thought process was distinct. Seven couldn't help but feel impressed.

But this infuriated the demon.

*Damn your contract!!!*

The demon didn't want to sign any dogshit contract as he didn't plan on following any agreements.

Zhong Zi Qi knew that the demon couldn't be trusted, so he'd rather believe Li Xiandao. He would sell himself to Li Xiandao to have insurance.

So, Li Xiandao smiled and praised, "You are very smart."

"Thank you Master for your praises." Zhong Zi Qi said respectfully. He knelt down and wasn't willing to stand up.

Li Xiandao pointed and said, "Seven, prepare a contract, a lifetime contract."

Seven took out one right away. It was a custom made master and servant contract.

"Sign it. After you sign it, you'll be mine." Li Xiandao passed the pen across.

Zhong Zi Qi picked it up. He didn't sign it right away but instead looked towards the demon.

The demon forced an ugly smile and wanted to tell him not to sign it.

It wasn't good to be a slave at all.

But Zhong Zi Qi smiled, "Since you don't want me to sign it, then I will sign it."

The demon's expression turned black and he panted. The rage in his heart surged and he was about to be angered to death by Zhong Zi Qi.

*Shua!*

But the coldness from Li Xiandao's eyes froze the demon's rage such that he didn't dare to release it and could only pent it up.

Zhong Zi Qi was really decisive and signed his name.

Li Xiandao looked at the contract in delight, "Seven, keep the Celestial Artifacts."

Seven walked over and kept the 50 Celestial Artifacts.

"Right, pass the Mountain River Map to Zhong Zi Qi." Li Xiandao reminded.

The Mountain River Map was Zhong Zi Qi's life treasure and it wasn't good to take it away.

"Thank you, Master!" Zhong Zi Qi was grateful.

Li Xiandao said calmly, "You are mine now, so naturally, I will take care of you."

Zhong Zi Qi felt great. As expected, it was correct to sell himself. Li Xiandao treated his men differently.

"Master, please be my witness to observe as we sign this contract." Zhong Zi Qi said to Li Xiandao.

Li Xiandao nodded and looked at the demon. He asked, "You are going to sign this contract?"

The demon looked at Li Xiandao and at Zhong Zi Qi with a frustrated expression. He was so depressed that he wanted to spit out blood.

It was a three-sided conversation but now he was the weakest side.

His soul source was even under Li Xiandao's control and couldn't fight back at all.

"Sign what? I don't want to be enemies with Huode Starlord." The demon cursed.

"Zhong Zi Qi, you idiot. You sold yourself out and you're still laughing. You really conned me."

"You sold yourself and also dragged me down, @U\*(Q@#&"

The demon cursed a bunch of unspeakable curse words.

But on the surface, he still forced a smile and nodded, "Let's sign it. How can I not sign such a good contract?"

If he didn't grit his teeth, it would have been much easier to believe him.
