Chapter 41: 100,000 Enforcers

500 years of time passed in the blink of an eye!

Li Xiandao started cultivating and forgot all about time, but time didn't forget about him, leaving some marks on his body.

Li Xiandao didn't look as young and tender as he was and he was actually over 50 years of age, so naturally, he seemed more mature.

He trained the Big River Sword Energy to Perfection through Mastery before he walked out of the Time Hall.

The Bank of the Universe was the same as before!

Li Xiandao looked at this place; 500 years had passed but only five days passed on the outside.

He stepped out and came to the Trading Hall. He sat on the chair and rotated his cultivation technique. Sword Energy rang out. It was hidden in his body like a volcano that was about to explode.

Seven appeared beside Li Xiandao and asked in anticipation, "Master, what level have you reached after 500 years of cultivation?"

Li Xiandao thought about it and said truthfully, "I don't know!"

Seven was stunned, "You don't know?"

Li Xiandao nodded his head and said, "I don't know what realm I am at now."

Seven was confused, "Why wouldn't you know? Each time you break through, you should be able to sense it."

Li Xiandao was deep in thought. He thought about it but still didn't tell Seven.

He did sense something when he broke through but it was really shallow!

He broke through too often, such that he was too lazy to count. He only knew that he had become stronger!

As for how strong, Li Xiandao was unsure!

As he didn't fight yet, he didn't dare to come to a conclusion.

Seven analyzed, "Since that is the case, then Master's cultivation will definitely defeat that of White Emperor Tian Guangming and Battle Angel Michael. Will you be able to defeat Archangel Gabriel?"

Li Xiandao thought about it and said, "Yes!"

Archangel Gabriel had so little strength in his body that Li Xiandao would be able to solve with one streak of sword energy.

"Archangel Gabriel is a Saint, even if he is the lowest level among them, he is still really strong. Master is actually able to beat him, the Prophet talent is just so terrifying!" Seven exclaimed.

Li Xiandao looked on and said in his heart, "It is much more terrifying than you think!"

Li Xiandao said mysteriously, "You will know in the future. Now let's just expand the Bank of the Universe. Are there new guests?"

The topic was changed and Seven shook her head, "No, the other watches haven't found a suitable guest."

Li Xiandao suggested, "Let it expand the search range. We now have things we can trade and add them to the consideration."

Seven nodded her head, "I have already changed the settings, so it should be quick."

Li Xiandao was deep in thought, "Archangel Gabriel said that he saw many people who broke the contract and were living well. We can't let this happen."

Now, Li Xiandao wanted to develop the Bank of the Universe, and at the same time, clear all the bad debts.

Just one Dali Land had many bad debts. One could see that the Nine Skies and Ten Lands including the Celestial World had many more!

Seven's eyes lit up and said, "I will find their contracts."

Li Xiandao called Archangel Gabriel over.

In a short while, Gabriel walked over, knelt on one knee, and said, "Master, what are you finding me for?"

Li Xiandao wore the gold mask and asked, "Before this, you said that you saw many who entered and broke the contract, but they still lived a great life?"

Archangel Gabriel nodded and said, "There are such people, like me, who received benefits from the Bank of the Universe, but went against the contract. They are still in Nine Skies and Ten Lands leading their own forces!"

Li Xiandao laughed coldly, "They owe my Bank of the Universe things and still live so arrogantly, they really deserve to die!"

Archangel Gabriel said coldly, "Gabriel is willing to help you clear out your enemies and chase back these debts!"

Li Xiandao said in satisfaction, "I came to find you because of this. Since you know where they are, then everything is simple."

Seven walked over with the contracts and said, "These are the 13 in Dali Land who owe things."

"13? So many?" Li Xiandao was surprised.

He thought that there would only be 2-3 of them.

Seven said, "This is considered just a few. Dali Land is the weakest of them all and the most poor, which is why we only have so few debts. If you head to the other areas, what you see will be even more terrifying. The debts would be innumerable."

Li Xiandao felt like it made sense and looked towards Archangel.

"I will chase these debts, one by one!" Gabriel immediately took the contracts and said firmly.

"Eh, go. If you face trouble that you can't deal with, I will be with you, so don't be afraid. If they are willing to compensate and pay the price, then we can let them off. As for the others, kill them all." Li Xiandao said coldly, not hiding his rage at all.

"Yes, Master!" Archangel Gabriel knelt on one knee and said firmly.

Li Xiandao waved his sleeves and a huge force pushed Archangel out of the Bank of the Universe.

Li Xiandao continued to sit and think.

"If the Bank of the Universe's Disciplinary Squad is here, then these debts would be simply dealt with." Seven sighed.

“Disciplinary Squad?” Li Xiandao frowned. He was the Master for so long but he hadn’t heard of it.

Seven explained, “Disciplinary Squad is an invincible army that the Bank of the Universe developed. There are 100,000 of them who are all spirits, a special race in the world called Golems!”

Li Xiandao immediately thought about Emperor Qin’s soldier statues. Weren’t the golems like that!

“Then, where are they now?” Li Xiandao asked.

If the Disciplinary Squad was here, he wouldn’t need to develop his own power and raise them bit by bit.

Seven said regretfully, “The last Master harmed them.”

“What does that mean?” Li Xiandao frowned and asked solemnly.

What did that mean?

Did it refer to the one before him, the one who ran Bank of the Universe to the ground?

Seven said, “There are many mysterious races in the world and our Bank of the Universe is not the only one. We have our enemies too and the Disciplinary Squad of 100,000 is our insurance. We signed a contract and if they go against it, the 100,000 army will charge over and destroy everything.”

“But unfortunately, the last Master was too arrogant, harming the Disciplinary Squad. As for the exact location, I am not sure but afterward, the Bank of the Universe collapsed. Many people went against the contract and without the Disciplinary Squad, the last Master didn’t cultivate and his cultivation was too low and he couldn’t do anything.”

“From then on, the Bank of the Universe was punished by the Heavens and many things were used to pay debts. Many years passed before we met a new Master!” Seven told Li Xiandao.

Li Xiandao frowned when he heard this; he sensed that something was hidden deep in.

The 100,000 Disciplinary Squad was lost and many people started to go against their contracts. Seven said that they did so at the same time which meant that they planned it and were waiting for the previous Master to make a mistake.

“Who is targetting my Bank of the Universe?” Li Xiandao’s heart was covered in a dark shadow.

Bank of The Universe #Chapter 42: Person Who Abides By The Contract - Read Bank of The Universe Chapter 42: Person Who Abides By The Contract

Chapter 42: Person Who Abides By The Contract

Li Xiandao really wanted to ask Seven how the last owner messed up so badly.

But out of respect, Li Xiandao didn't ask that.

Seven could see what Li Xiandao was thinking and said helplessly, "Out of the nine owners, he was the most arrogant and loved to enjoy. The previous owners contributed a lot, like building the Time Hall, establishing the Ten Thousand Country Book Depository, the Hundred Thousand Disciplinary Squad, these were all done by the past Masters."

"Only him, he didn't listen to me and was really stubborn, signing contracts based on his likes and wants and lent all the Bank of the Universe's good stuff. In tens of thousands of years, he wasted all the funds that the last Masters accumulated and even ran their names into the ground!" Seven was furious; she really hated the last Master.

No wonder after Li Xiandao took over, as long as Li Xiandao was willing to listen to advice, Seven was really patient. She didn't look down on him because he had no cultivation at all.

After going through the last owner, she was thankful that she now had a normal Master.

"Since he was so useless, then how did he become the Bank of the Universe Master?" Li Xiandao didn't understand.

"Just like how you had no cultivation at first and had no talent at all, beaten to your last breath and nearly dead, how would I know how the Bank of the Universe chooses its Master?" Seven shook her head.

"Maybe because the Bank of the Universe is interested in people who are trash and mortals!" Seven guessed.

Li Xiandao was speechless!

If not for the fact that he had transmigrated, his previous self and the last owner were really similar!

Then, the Bank of the Universe would definitely fall; two consecutive owners being so useless would definitely make Seven depressed.

“Master was trash before but you aren’t now. With the Prophet talent, you will become the strongest in the world.” Seven said firmly.

“The Bank of the Universe will rise once more in your hands!” Seven giggled.

Li Xiandao accepted the praise and sat in the chair, stabilizing his cultivation.

On the other side, the 10 watches that Li Xiandao tossed out started to look for guests.

Li Xiandao was probably going to be busy.

...

Dali Land, Cliff of Heaven!

The so-called Cliff of Heaven was a cliff near the ocean where the scenery was really nice and when one stood above, one would see everything. The earth and the sky, the ocean, and the clouds were all within one’s view.

This extremely beautiful view was deemed by people the Cliff of Heaven!

Now, one person sat above the Cliff of Heaven!

There was an old man and behind him was a beautiful girl.

She was really beautiful, like a blooming flower, the snow-white skin was like something sculpted out of sheep fat.

“Grandfather, you have the Ancient God’s bloodline, so why don’t you head to other worlds, and why are you staying in such a poor world like Dali Land?” The girl moved forwards with her long and beautiful legs.

Although the old man’s hair was half white, he was still really energetic and sat on the chair, “That’s because I need to complete an agreement and I can’t leave Dali Land.”

The girl didn’t understand. “Grandfather, you are the top person in Dali Land. What agreement do you need to complete?”

The old man waved his hands, “You can’t say that. There are definitely people stronger. How am I the top person, you are my granddaughter, when did you become so arrogant?”

The girl said unhappily, “I want to leave Dali Land, this place is so boring. The highest cultivation is only Heaven Essence Realm and there aren’t even many Saints. How can I improve myself?”

“You are only able to touch the cusp of Saints because you have inherited the bloodline of the Ancient Gods. That is the credit of the bloodline but you haven’t used your own talent at all.” The old man’s face was cold as he chided.

The girl wasn’t angry at all but she was unable to retort her grandfather.

“Grandfather, I want to leave Dali Land to other worlds to train. There are definitely many experts there and it would be much more exciting.” The girl gritted her teeth and spoke her own thoughts.

The old man sighed, “Since you insist, then I won’t keep you but before that, you need to follow me to a place!”

The girl said with a weird tone, “What place?”

“A mysterious bank, I need to return something.” The old man stood up and patted the dust off his body. He took out a red watch and his eyes were filled with many thoughts.

Time slowly turned back 10,000 years, to when he was still a young man, who was really poor and had yet to achieve anything.

After a chance encounter, he entered the Bank of the Universe, forming an agreement and signing a contract.

The deadline for the contract was today. For these 10,000 years, the old man had reached the Saint Realm, the dream of many in Dali Land. He even cultivated at that realm for a long time, reaching a really deep level of strength.

But he didn’t leave Dali Land and he didn’t head to the other worlds which had many experts.

He waited for the 10,000-year deadline to arrive!

He wanted to complete the contract that he had signed!

Long Haishou wasn’t someone who went against his own words!

This was why he remained in the Cliff of Heaven. His son had a granddaughter and after he passed, Long Haishou raised her alone until now.

His granddaughter reached the cusp of Saint Realm and she wanted to head to other worlds to improve herself.

Long Haishou still firmly wanted to abide by the contract!

In front of the girl's confused eyes, he smashed the red watch that he kept on him for 10,000 years.

Kacha!

The watch broke!

...

In the Bank of the Universe, Li Xiandao was nurturing the Sword Energy in his body.

Although his combat strength was strong, it came from the Big River Sword Energy. He didn't cultivate other techniques, just totally focusing on the Big River Sword Energy.

Now, the Sword Energy in his body was like a huge ocean, deep like an abyss.

"Master, there is a guest!" Seven said softly.

Li Xiandao opened his eyes and asked, "Who, what is he trading?"

Seven's expression was a little weird, "He is not here to trade."

Li Xiandao found it weird, "If he is not here to trade, then why is he here?"

"He is here to follow the contract!" Seven said with a weird expression.

Li Xiandao's expression turned to one of surprise.

After seeing the mountain-like bunch of bad debts and personally having to deal with a few, Li Xiandao had little hope for the untrustworthy people of the world!

None of them followed the contracts!

This was what Li Xiandao said before.

Who knew that it would come to slap him in the face?

There was actually someone who came personally to return what they owed!

That was unbelievable, right?

Even Seven didn't expect it!

Someone came over to do so?

Li Xiandao stood up and said excitedly, "Quick, welcome him. Let Tian Guangming and Michael come over too. I will change and give him my absolute respect."

It was really difficult!

Li Xiandao was so emotional that he wanted to cry.

To meet someone with such a spirit was just so rare, moreover, the contract length was 10,000 years!

Li Xiandao had to give this person his utmost respect!

Chapter 43: Rubbish Contract

Li Xiandao bathed, changed, and dressed up really well.

He wore a purple coat and tied up his short hair that reached his shoulder, leaving a little bun. He wore his gold mask and walked to the main hall.

Battle Angel Michael and White Emperor Tian Guangming were waiting quietly inside.

Seven also dressed up really nicely, stunning Li Xiandao.

Seven's beauty made one feel really comfortable; even after hanging with her for a long period of time, Li Xiandao was still amazed by her looks.

Her well-proportioned body was in a long skirt, and not only was she beautiful, but she was really sexy.

Li Xiandao quickly cast his gaze elsewhere and didn't dare to look at her any longer.

White Emperor Tian Guangming and Battle Angel Michael all knew their place and didn't dare to glance. They didn't have the desire to glance at all!

Li Xiandao sat on the chair and said, "Let them in!"

Seven clapped and instantly two people entered the Bank of the Universe.

One old and one young; one guy and one girl.

The old man seemed really energetic and was brimming with life. The aura he gave off was like that of a fierce tiger.

The girl was really beautiful and she followed the old man.

After they entered, they looked around in shock.

The girl was shocked but the old man was really calm.

He entered 10,000 years ago and this time he felt more emotional than shocked.

“The Bank of the Universe seems to have changed. 10,000 years ago, this place was filled with luxurious items, shining golden, and seemed really rich.” Long Haishou exclaimed.

Li Xiandao looked at Seven. Was the main hall so luxurious 10,000 years ago?

Seven said awkwardly, “The last Master was just like that, he loved gold and shining things.”

Li Xiandao looked at Long Haishou and said, “Times have changed, it is not bad to change the style too.”

Li Xiandao also knew that the old man was here to abide by the contract.

As for the old man bringing an extra person, if this was before, Li Xiandao definitely wouldn't agree.

The Bank of the Universe didn't allow random people to enter, apart from the guests themselves.

But seeing that the old man was here to follow the contract, Li Xiandao forgave him.

Li Xiandao was much more magnanimous towards someone who proactively followed the contract.

Long Haishou's granddaughter looked on from the side and said softly to her grandfather, “What is this place, why does it feel like we are still at the Cliff of Heaven!”

Long Haishou told his granddaughter to calm down, “Be silent, this time I am letting you see how there are always stronger people than you think. You will understand later.”

The girl could only look on silently.

She turned towards White Emperor Tian Guangming!

Too weak, she was uninterested!

White Emperor Tian Guangming looked at the gaze of disdain in her eyes; he was so furious his brow rose up.

He is Heaven Essence Realm, Holy Lord level of strength and you actually looked down on me?

If Master wasn't here, I would let you witness my fist.

White Emperor Tian Guangming was expressionless but he dissed in his heart.

The girl looked towards Battle Angel Michael and her eyes lit up. He was so handsome, he had such a unique aura, and the key was that he was really strong!

During these few days that Li Xiandao was in seclusion, Battle Angel Michael was doing things too.

He was merging with the God Race Battle Angel, to raise his strength. He was now much stronger than White Emperor Tian Guangming, entering the mid to late stages of God Essence Realm. He was not far away from Saint Realm. Nôv(el)B\jnn

She was not much different from the girl which was why she was shocked!

But she didn't continue to stare at Michael and instead looked towards Li Xiandao.

At first glance, it was so mysterious!

On second glance, it seemed weird!

On third glance, she couldn't see through him.

On the fourth glance... there was no more as Li Xiandao realized she was staring at him. His eyes flashed and a sword domain appeared.

Clang!

A sword clanged in her consciousness and then she was pulled into a sword domain.

Sword!

There were swords everywhere!

The sword domain was filled with endless Sword Intent!

Endless small people holding swords were practicing!

Then, 100,000 swords came toward her like rain.

She was shocked and retreated.

Her body shuddered and she came to her senses. Her back was covered in a cold sweat and she panted and looked at Li Xiandao in terror.

“Little Girl, your foundations are too unstable.” Li Xiandao said calmly.

Through the sword domain, he could sense that although her cultivation was decent, her foundations were still weak.

Her cultivation wasn't gained from cultivating but by using outer strength.

But what did she rely on?

Li Xiandao didn't know.

She gulped and knew that Li Xiandao was really strong. She stood behind her grandfather and didn't say a word.

“This is my granddaughter. I brought her here to open her knowledge of the world. Owner, please don't worry, I know the rules and will instruct her not to mention this.” Long Haishou sighed. How wouldn't he know that his granddaughter's foundations were unstable, that if she tried to enter Saint Realm she would most probably die?

Li Xiandao nodded. He didn't care about her and looked at Long Haishou, saying solemnly, “10,000 years is up, you are here to complete the contract?”

Long Haishou nodded his head solemnly too. He took out a contract and said, “This was what I signed 10,000 years ago. I kept one and there is one with you. It is stated clearly on it, so Bank Owner please take a look.”

Long Haishou knew that the Owner changed and Li Xiandao wasn't the one he came into contact with. Their auras were totally different.

Li Xiandao's one was like a deep abyss while the one 10,000 years ago was like bright lightning!

The clearest sign was that the person 10,000 years ago didn't wear a mask but Li Xiandao did.

Li Xiandao didn't mind and said to Seven, “Where is the contract?”

Seven passed it to Li Xiandao.

Li Xiandao took a look at the 10 lines and numerous words entered his field of sight.

Woah!

Li Xiandao raised his head and said in shock, “You actually exchanged for the Ancient Bloodline 10,000 years ago!”

,000 years ago, Long Haishou was just a normal exiled person who was exiled by his family to Dali Land. He paid a huge price for the Bank of the Universe to improve his bloodline to the Ancient Bloodline.

The price he had to pay was to bring people from the Bank of the Universe into the Ancient Family's Holy Land to take away a treasure that the Ancient God Spirit left.

Li Xiandao looked at the contract and he was totally shocked.

That damn last master, how preposterous!!!

Helped others to improve his bloodline and gave him 10,000 years to develop. 10,000 years later, the price was only to take a treasure!

Preposterous!!!

That was just too preposterous!!!

Just from this contract, Li Xiandao could see what the last owner was like.

He was arrogant and didn't consider the outcome. He felt like just because he was the owner of the Bank of the Universe, he could do whatever he wanted; what trade, what contract, what interests, did it matter?

No!

As long as he was happy, so what if he gave away things for nothing?

Anyway, I didn't accumulate it, so I can just give it away!

The last owner was stupid, wasting all the accumulated assets and leaving Li Xiandao a huge mess.

Li Xiandao had to help clean up his mess to prove that the Bank of the Universe was trustworthy.

This contract was a pile of shit; Li Xiandao felt disgusted by it.

But he had to finish it.

No matter how disgusting it was!

Clang!

Li Xiandao's ocean-like sword energy couldn't be suppressed. If the last owner was here, he wouldn't hesitate to pull out a sword and slash him.

Chapter 44: To Take Or Not To Take

Seven looked over everything with Li Xiandao; she looked at the contract, her brow rose up, and her heart was filled with dissatisfaction.

“The former Master neglected me at the final period of time and signed some preposterous contracts. This is one of them!” Seven explained.

At that time, she didn’t know the contents of the contracts, otherwise, she definitely wouldn’t have agreed.

One contract didn’t have a suitable amount of interest, so the Bank of the Universe wasn’t willing for it to be signed.

The contracts that Li Xiandao signed all had huge benefits.

With the recent contract as an example, Li Xiandao earned 1,000 from Wu Tianyu’s 3,000 years of lifespan.

This was Li Xiandao being kind; if he was really merciless, he would have asked for 2,000 and Wu Tianyu would still agree.

Li Xiandao wouldn’t be so silly to sign such a dumb contract!

Right, he now had a name for this contract.

Dumb contract!

“Only someone whose brain was filled with sh*t could sign this contract.” Li Xiandao’s voice was filled with rage.

But on the surface, he was expressionless and placed the contract down.

Seven sighed helplessly and was very speechless towards the last owner.

Seven didn’t understand how the Bank of the Universe would choose such a person as its owner!

...

Li Xiandao calmed himself down and said, “10,000 years ago, the Bank of the Universe helped you repair your bloodline such that its thickness reached Ancient Bloodline.”

Long Haishou nodded, “During these 10,000 years, I have remembered how the Bank of the Universe helped. Ancient Bloodlines are just too rare, and you helping me also helped my granddaughter. It was inherited after skipping generations and she inherited my bloodline.”

Long Haishou's granddaughter looked at him in shock. Their bloodline wasn't from their ancestors?

How did this happen?

This mysterious Bank of the Universe Master was the one who helped to strengthen their bloodline!

Beneath Li Xiandao's mask was an expressionless face.

He was really expressionless!

His heart was totally speechless!

No wonder this person could follow the contract; this was because the last Master was really friendly towards him, using large amounts of resources to help him improve his bloodline.

Ancient Bloodline!

This was the bloodline of an expert during the Ancient Era.

To strengthen such a bloodline, how many resources did one have to spend?

What did they get in exchange?

One Ancient Treasure!

He even had to send people to take it and Long Haishou would only provide some clues!

It was the same as him wasting so many resources in exchange for some intel!

When Li Xiandao thought about this, he looked at his empty Bank of the Universe, and his heart was dripping blood!

Disregarding everything else, it was good that the last owner was dead!

"Master, then what about this contract?" Seven asked Li Xiandao.

Li Xiandao sighed. No matter what, the last owner had signed it; even if that person was stupid, he had to treat it seriously.

"Okay, I have seen the contract and there is nothing wrong with it. What are you planning now?" Li Xiandao asked Long Haishou.

He said right away, "Send someone to enter the Ancient Secret Lands to take away an Ancient Treasure. I have investigated and no one took that treasure out yet."

Li Xiandao asked, "Who is this Ancient Family? Where are they?"

“Ancient Dragon Tomb, they are from the Ancient Dragon Race, not the weak dragons flying about now. The invincible Ancient Dragon Race, one of them is in the Heaven and Earth Battlefield!” Long Haishou said solemnly.

Over these 10,000 years, to complete the contract, he investigated carefully and obtained accurate information.

Ancient Dragon Race!

This was a huge ancient family, even if it was a branch, it was not much weaker than the main family.

A treasure left by the Ancient Dragon Race was in the Heaven and Earth Battlefield.

What was the Heaven and Earth Battlefield?

Li Xiandao looked at Seven in confusion. He came to the world for such a short time and didn't understand many things. He needed Seven to introduce.

Seven transmitted her voice into his ear, “Heaven and Earth Battlefield is a wide battlefield built by the Nine Skies and Ten Lands. No matter who you are, if you buy tickets, you can go to train there. There are a range of people and there are many experts there. Moreover, the Ancient Continent that the Heaven and Earth Battlefield is in is an ancient old land; there are many treasures there and this has attracted many treasure hunters.”

Li Xiandao immediately thought to Archangel Gabriel!

Before this when he was still Bei Heng, he entered the Heaven and Earth Battlefield and obtained his Celestial Sword there.

This was why he was a suitable person to head to the Heaven and Earth Battlefield!

But... Archangel Gabriel was sent by Li Xiandao to clear the bad debts.

“Master, Michael is willing to head to the Heaven and Earth Battlefield to help Master bring back the Ancient Treasure!” Battle Angel Michael, who was listening silently, knelt down and said firmly.

White Emperor Tian Guangming knelt down too, “Master, Tian Guangming is willing to head over!”

Li Xiandao looked at them and nodded before waving his hands.

Keng!

Keng!

A sword energy proceeded forwards. It was Li Xiandao's Big River Sword Energy and he gave each of them one.

"After all, the Heaven and Earth Battlefield is really dangerous. Be careful, especially in this Ancient Dragon Tomb, which is even more dangerous. This is my Sword Energy, each one of you take one. At a crucial moment, I can help you crush an enemy!" Li Xiandao said.

This was a sword technique he had comprehended.

Soul Sword!

Within the two sword energies, each contained a bit of Li Xiandao's soul. Once activated, they could summon Li Xiandao to cross space and kill the enemy.

Li Xiandao was doing so just in case. The Bank of the Universe was still really strong and couldn't sustain heavy losses.

He didn't want to come into contact with people from the other worlds too soon. He wanted to carefully develop in Dali Land first.

He wanted to cunningly develop!

Once he accumulated enough, he would head to other worlds to collect debts!

But this contract made it necessary for Li Xiandao to send men to the Heaven and Earth Battlefield.

If he didn't send anyone, he would be going against the contract!

Li Xiandao was the one following contracts and now it was the other way around. Li Xiandao was going to go against the contract while he represented the Bank of the Universe?

He couldn't do so.

So he had to go, he gave them sword energy, so that they would have a bit of confidence.

When Tian Guangming heard this, he happily collected it. This was the mysterious Master's sword energy, so wouldn't it be a huge killing artifact?

Battle Angel Michael's expression was a little off!

He knew who Li Xiandao was!

Li Xiandao left five days ago to save that pregnant lady and then he had to use him as a mount to fly over!

Li Xiandao, five days ago, was a mortal!

A mortal with no cultivation at all!!!

Five days later, he took out a sword energy for them and said that this was going to give them confidence!

“Take it and when you fight others, if you can’t win, then activate it!”

“I will help you!”

Battle Angel Michael panicked for that reason!

He was loyal to Li Xiandao but it didn’t mean that he could treat Li Xiandao, who had no cultivation at all, as a strong expert?

Should he have taken it?

That was a problem!

Michael was in deep thought!

Chapter 45: Dali Dynasty’s Contract

After thinking about it, Michael still took the Sword Energy and merged it into his body!

He just treated it as him making the Master happy!

Anyway, whether or not he used it would depend on himself!

Michael consoled himself and then stood up.

Li Xiandao looked at Long Haishou and said, “We will follow you to get that Ancient Treasure!”

Long Haishou nodded his head, “Although you two are not Saints, if we are careful, it should be okay!”

The girl muttered, “Michael’s cultivation is not bad, but Tian Guangming is too weak!”

When they introduced themselves, the girl heard their names.

Tian Guangming’s face turned black. What was that supposed to mean?

She looked down on him?

Right, he was weak, he was the weakest here!

But it didn’t mean he couldn’t help!

Tian Guangming explained himself and said proudly, “I have Sword Energy that Master gave me!”

That was enough!

He didn't need anything else. Tian Guangming looked at her proudly and then at Long Haishou!

This was Master's Sword Energy!

Long Haishou nodded, "The Bank's Master's Sword Energy is a really strong card, but don't use it until you have no choice."

The girl didn't say anything. She could look down on Tian Guangming but not Li Xiandao.

Tian Guangming felt really proud at that moment!

Although my cultivation is low, I had a Master!

My Master is the most secretive, the strongest, and most invincible person!

Battle Angel Michael looked at his expression and was speechless!

He was thinking about whether or not to tell him not to look forward to the sword energy!

This was because Li Xiandao was a mortal!

But thinking about it, it was best that only he knew about that secret. He shouldn't have spread it out or it would be bad for Li Xiandao's reputation!

"Remind him at a suitable moment not to treat it as a trump card, otherwise, it will be a huge problem!" Battle Angel Michael sighed in his heart.

Li Xiandao waved his hands and said, "All of you leave. Discuss how to get there and how to enter the Ancient Dragon Tomb and get the treasure back!"

"Yes, Master!" Battle Angel Michael and Tian Guangming cupped their fists and followed the old man, disappearing from the Bank of the Universe Main Hall.

...

When they left, Li Xiandao took off his mask right away. His face was ice cold and his brows furrowed.

"Investigate, check the contracts, all of them. See whether or not there are other dumb ones." Li Xiandao said furiously.

Was this a win or a loss?

Of course, it was a loss!

No matter whether or not they brought back an Ancient Treasure!

In truth, the Bank of the Universe had lost so badly in this deal!

That was because the investment that the Bank of the Universe gave to Long Haishou was real!

He was able to complete the bloodline transformation all because of the resources that the Bank of the Universe gave them!

This resource was something that Li Xiandao craved!

However, it was given to an outsider!

In exchange, he only received some news and a promise to head to the Heaven and Earth Battlefield!

But this was 10,000 years later!

Thinking about it, Li Xiandao was so furious that his organs started to hurt!

He took over a broken Bank of the Universe because of the last master!

Seven knew that Li Xiandao was really angry. She kept silent and went to check out the contracts.

After Li Xiandao calmed down, he closed his eyes and activated his talent!

He was checking the contracts too! Nôv(e)B\\jnn

He checked with Seven and finally cleared out all of them.

In the ocean of contracts, he had found the few worst ones!

Seven took them all and there were five of them.

Out of all of them, without an exception, they were all huge losses!

The losses were so big that Li Xiandao felt his head hurt!

Li Xiandao sighed, "Are the people who signed these still alive?"

Seven used her own ability to investigate those few people!

"Master, in these five contracts, three of them are dead." Seven replied quickly.

Don't be too happy!

Since the contract was signed, if the person was still alive and they followed the contract, then Li Xiandao would take a huge loss. Even if he went against it, Li Xiandao would still lose.

This was because it was written in the contract!

This was why Seven said it so lightly!

Li Xiandao wasn't happy at all and said, "Three of them are dead, but what about the other two?"

Seven bit her lips, "One is in Dali Land. Investigated that he is still alive and the contract will expire in three months."

"Another is not in the Nine Skies and Ten Lands; he entered the Celestial World. The Bank of the Universe doesn't have the facilities now, so I can't check into Celestial World and I don't know if he is still dead or alive!" Seven said regretfully.

"Tear up the contracts of the three dead people. As for that one still alive in Dali Land, I will let him die. I won't let him live to take advantage of the Bank of the Universe." Li Xiandao said coldly.

He already took one loss, so how would he want to take another?

Moreover, Long Haishou's one was acceptable but this one that was still alive, his contract was a bloodsucker, sucking the blood from the Bank of the Universe!

Li Xiandao needed him to die!

But he couldn't do it himself!

As the Master of the Bank, no matter how unhappy he was, he couldn't attack directly!

"I need to find a strong person to trade." Li Xiandao muttered.

Seven said, "This person is the Elder of Dali Dynasty, his contract states that he borrowed a God Meridian and the price is that he will build a temple for the former Master!"

Li Xiandao asked curiously, "Why did that person want a temple?"

Seven shook her head, "I am not sure but he has a weird personality and loved others praising him. Maybe building the temple was something he really liked!"

Li Xiandao was speechless!

"Master, it is also written that 10,000 years later, if the temples reached 10,000 that you have to give him another God Spirit Meridian to end the contract!" Seven was speechless as she looked at the contract!

Li Xiandao spat out a mouthful, and the killing intent in his eyes grew!

“This Dali Dynasty Elder has to die!”

Li Xiandao definitely wouldn't give him a chance to enter the Bank of the Universe and ask for this God Spirit Meridian!

One God Spirit Meridian would give one 5 million God Source!

,000 God Source could help to activate the Heaven Emperor Brush and open the Celestial Seal to use explosive ability!

Moreover, would the God Spirit Meridian that the Bank of the Universe give him be low-quality?

He was feeling troubled thinking about how to redeem the Ten Thousand Country Book Depository, and the old Master directly gave someone a God Spirit Meridian for his own glory. And 10,000 years later, he had to give another one!

Li Xiandao's heart was ice-cold like there was snow all around!

He wanted to kill someone!

Li Xiandao really wanted to kill someone today!

Bank of The Universe #Chapter 46: Striking At Four Locations - Read Bank of The Universe Chapter 46: Striking At Four Locations

Chapter 46: Striking At Four Locations

No matter what, Li Xiandao wouldn't give the Dali Dynasty Elder that God Spirit Meridian!

He couldn't!

Li Xiandao looked towards Seven and said, “Let's not worry about the person in the Celestial World first. But as for the Dali Dynasty Elder, we have to deal with him.”

Seven nodded. The Bank of the Universe had just started developing and they had little to nothing, so they definitely weren't able to take out a God Spirit Meridian.

Even if they had, Li Xiandao couldn't bear to give it to an outsider!

“But we can't attack directly.” Seven said softly.

Li Xiandao nodded, "I know that. It is written in the rules that we can't attack, but if someone wants to take revenge on the elder and wants to kill him, then it has nothing to do with us."

Seven thought about it, "How should we go about this?"

Seven thought about it and said, "Let the watch find a strong person but a short lifespan. Don't we have 500 years with us, let's exchange it for the death of the Dali Dynasty Elder!"

Seven immediately gave the order while Li Xiandao waited quietly!

...

Dali Land, a small island in the ocean!

The ocean was borderless and there were many islands all around. The islands were all different sizes and had different numbers of people on it. Some had large populations and were like island empires!

Some islands only had a few hundred people while some only had a few families!

On the islands, the resources were all different, which resulted in a spread of power. Although there were many experts, it was tough for them to grow up and cause problems with those on land.

Archangel Gabriel came to such a small island!

The wings on his back flapped as he flew forwards and landed on an island.

Gabriel didn't hide his aura. He was really strong and steely and immediately threatened the whole island.

Hong!

The island wasn't large but there were many people, around 10,000 of them.

This was a family, a family that was secluded in the ocean!

This family's Elder signed a contract through the Bank of the Universe but he went against it!

Archangel Gabriel's Saint aura spread 3,000 miles around. This island was smaller than 1,000, so the hidden Elder sensed it right away.

“Senior, why did you come to my Fallen Water Island?” A person appeared in front of Archangel Gabriel, cupping his fists and asking respectfully. His face was filled with nervousness.

He was just at Heaven Essence Realm and although he was at the later stages of it, he was still far from becoming a Saint.

Facing Archangel Gabriel, he had no confidence at all.

Gabriel took out a red watch and said coldly, “Ji Tianqian, do you recognize this?”

Ji Tianqian looked at the red watch and was stunned. His thoughts were instantly pulled to 10,000 years ago.

That weak teen!

That mysterious bank!

The contract that was filled with words!

That compensation condition that he wouldn't forget for the rest of his life.

His body shuddered and his first thought was to run!

That was because he went against the contract!

Based on the agreement, he had to pay 10 times the amount. But he couldn't!

But how could he run from a Saint?

The moment he thought about that, everything in front of him turned black.

Peng!

Archangel Gabriel flicked his fingers and a moon-like True Qi struck him.

Pui!

Ji Tianqian spat out blood and felt like his organs had shattered. He looked on in astonishment.

“Didn't you all disappear?”

“10,000 years, I went against the contract so long ago. All of you didn't come then, so why now?”

Ji Tianqian trembled as he spoke.

Archangel Gabriel said coldly, "You think that just because we disappeared you have the right to go against the contract? Do you think you can take the benefits from us and enjoy such a leisurely life? What wishful thinking!"

Ji Tianqian's face turned white.

"You borrowed so many resources and the compensation price is 10 times. You had 10,000 years to accumulate, so now the price is 100 times!" Archangel Gabriel read the contract.

Ji Tianqian said bitterly, "I don't have that much."

"It is okay, we know you don't. You are so timid; you took so many resources and didn't dare to expose yourself, so you hid on an unknown island. You actually even started a family. But after these 10,000 years, you consumed all of the resources and your cultivation stopped improving. You started to not care about cultivation at all, what a waste!" Archangel Gabriel said with disdain; what he looked down on the most was this kind of person.

Ji Tianqian didn't think about paying back from the start!

He took the resources, hid, and went about his own way!

Such a person wasn't worthy of trading with the Bank of the Universe!

Thinking about it, Gabriel didn't hesitate to press down with the Primitive Staff.

Hong!

Half the island collapsed and sunk to the bottom of the ocean. At the bottom, there was also a corpse.

Archangel Gabriel flapped his wings and flew high above in another direction.

"There are also many people, waiting for me to clear them, one by one. I will kill those who can't pay!" Gabriel thought to himself.

...

On the other side, Long Haishou brought Battle Angel Michael and White Emperor Tian Guangming, as well as his granddaughter, Long Xun, to head towards the Heaven and Earth Battlefield.

“I’ve heard of this place before but have never entered. Heaven and Earth Battlefield is a dangerous place and I heard that you need to buy tickets to enter.” White Emperor Tian Guangming asked.

Battle Angel Michael hadn’t entered before and didn’t know.

Long Xun also didn’t know. She wanted to enter but her grandfather didn’t let her.

Long Haishou said, “One needs to buy tickets but the price isn’t normal money!”

“God Source?” Tian Guangming said.

Long Haishou shook his head, “Lifespan!”

“What?” Tian Guangming looked at Long Haishou in shock.

Even Long Xun looked at her grandfather in shock!

She had never heard of this; one had to pay lifespan to enter the Heaven and Earth Battlefield?

“Anyone can enter if they want to, even if they have no cultivation at all. A mortal just needs to pay 20 years and they can enter.” Long Haishou explained.

“Then, who will the lifespan be given to?” Battle Angel Michael asked the question on everyone’s mind.

How many people paid to enter each year?

Innumerable!

Just one Dali Land had millions!

This was also a conservative figure. Dali Land had a small population and although it was the weakest in the Nine Skies and Ten Lands, in truth, it was able to be a part of the Nine Skies and Ten Lands for a reason.

The other worlds would probably send 10 times that of Dali Land!

Each person had to pay 20 years of lifespan; how huge was this amount of resource?

Who would get it?

Long Haishou laughed bitterly, “I don’t have the ability to know that. I have remained in Dali Land and apart from heading in to investigate news I don’t know about anything else!”

Battle Angel Michael also knew what Long Haishou said was correct.

Heaven and Earth Battlefield's huge profits meant that the person behind it had to be immense and it wasn't something they could investigate.

Chapter 47: Heaven and Earth Battlefield

The entrance to the Heaven and Earth Battlefield was located in the extreme icy lands of the North Ocean. There were little to no people here and the yearly temperatures were terrifyingly low. Unless one was a cultivator, one wouldn't be able to survive.

Long Haishou was really familiar as he came here over 10 times and had memorized the route.

To complete the contract, he spent a total of 200 years of lifespan on entrance fees.

With him leading the way, everyone followed as they entered the cold from the north.

The cold air blew onto them. Luckily, their cultivations were high and their body protecting energies blocked the cold.

Looking out, the land was covered in snow. The ground was white and looked extremely beautiful.

Along the way, they pretty much didn't meet anyone. Long Haishou rushed and headed to the entrance.

Battle Angel Michael and White Emperor followed suit; they weren't in the mood to enjoy the scenery.

Long Xun was emotional when she saw the beautiful scenes, she was more and more firm in leaving her grandfather to tour the world.

"After this, I will leave and head to the Nine Skies and Ten Lands!" Long Xun was determined.

They flew for three full days in the north and didn't rest at all. Braving the snow, they arrived at the entrance.

The entrance was a giant teleportation formation built on a snow peak. It was extremely huge and looking closely, the entire peak was a formation.

After everyone stood on the peak and looked at the giant formation, they were all shocked.

That's right, Tian Guangming and Long Xun were shocked.

Battle Angel Michael wouldn't be shocked as after merging with the memories and personality, both of them became one, so naturally, he had witnessed things in the past.

This teleportation formation was nothing compared to those of the past.

Michael said, "This place will take us to Heaven and Earth Battlefield?"

Long Haishou nodded, "Let's go. Once we teleport over, they will automatically deduct 20 years."

Tian Guangming muttered, "So magical!"

Long Xun said eagerly, "What are we waiting for? Let's enter!"

Everyone stood on it and looked as Long Haishou activated the formation. They saw the calm formation starting to shake and a strong energy broke the space, bringing them away.

...

Within the Bank of the Universe, Li Xiandao opened his eyes and said, "Michael and Tian Guangming have entered the Heaven and Earth Battlefield!"

Seven said, "The Heaven and Earth Battlefield is a mysterious presence. Actually, not only does Nine Skies and Ten Lands have one, but Celestial World has one too!"

Li Xiandao was shocked, "Celestial World has one?"

"Of course, Celestial World is not a peaceful place; compared to the Nine Skies and Ten Lands it is even more like a battlefield." Seven said.

Li Xiandao nodded, "There would be fighting in places where people exist, grievances, killing, treasures, and beauties will definitely be around!"

"Master is right. The so-called Celestials are just stronger people. They too will die, they will be angry and embarrassed, and they too will kill to acquire treasures. Their moves would be much more vicious than mortals because they have greater power." Seven explained his thoughts.

Li Xiandao nodded and agreed with her, "Who knows what would happen in Heaven and Earth Battlefield. I only have three helpers and losing any would make me heartpained."

If the 100,000 Disciplinary Squad was here, Li Xiandao would feel much better and would do whatever he wanted.

Why would he need to be so careful and nervous?

Seven said, "I believe in their ability. Along with your Sword Energy, they would be fine."

Li Xiandao sighed, "Let's hope so."

"Right, can we develop in the Heaven and Earth Battlefield?" Li Xiandao asked.

"Master, I don't recommend that because we have too few things. We should just run in Dali Land for a while and accumulate before expanding." Seven reminded Li Xiandao.

Li Xiandao accepted the suggestion.

They stopped talking about this topic and he started to cultivate and waited for guests to arrive.

...

When Battle Angel Michael entered the Heaven and Earth Battlefield, he saw a giant city.

They were in the teleportation formation.

Long Haishou was the first to walk out and he said, "This is the only safe place in the Heaven and Earth Battlefield, the ancient city."

Michael and the others followed Long Haishou to walk out of the hall and they saw the people of the ancient city.

There were many people with strong cultivations. Some hid it, some didn't. Some entered with heavy injuries while some were really ambitious...

In this place, not only were there humans, but there were also people from the Monster Race too, demons, hell-beings, and numerous other races!

Nine Skies and Ten Lands had many different races which was why Heaven and Earth Battlefield was pretty much a battle of 10,000 races.

Humans were just one of them!

Tian Guangming saw a giant that was five meters tall and really muscular. He held a door-like giant sword and walked over.

"Good fellow, this person is suitable to guard the door!" Tian Guangming muttered.

Shua!

The five-meter tall giant had good hearing and he heard this. He swept over coldly and looked really fierce.

Tian Guangming was terrified.

Long Haishou said right away, "This brother just came, so don't blame him for his words!"

Tian Guangming knew he had offended someone, so he kept silent.

The giant scoffed coldly, "Luckily, we are in the city, or else I would chop you up!"

After saying this, the giant turned around and wanted to leave. He didn't want to stay at all.

Long Haishou said to Tian Guangming, "People here, unless they have just come, their tempers are flaring. One can't fight in the ancient city but outside. If they are unhappy with your words or gaze, they might start killing."

Tian Guangming said meekly, "I am wrong, I won't do it again."

Battle Angel Michael said coldly, "If you fail Master because of your mouth, I will definitely kill you!"

Tian Guangming was really depressed but he knew he was wrong.

Long Haishou said, "I know where the Ancient Dragon Tomb is. It is far from here, I will bring you out of the city and over toward there."

Michael, Tian Guangming, and Long Xun left the ancient city and then headed north.

Four of them flew quickly but in the huge area of Heaven and Earth Battlefield, they flew for 10 days and still hadn't arrived.

10 days of continuous flying was really exhausting.

They faced problems but Long Haishou spread out his Saint aura and told them that he just wanted to pass.

That night, they were prepared to rest. They stopped in the wilderness and lit a fire. Everyone sat together and chatted.

Within the Bank of the Universe, Li Xiandao felt really bored. He sighed, "10 days have passed and they haven't arrived yet?"

Bank of The Universe #Chapter 48: New Guest - Read Bank of The Universe Chapter 48: New Guest

Chapter 48: New Guest

Li Xiandao looked quietly at Michael and the others; he wanted to see what the battlefield was like through their eyes.

Over these 10 days, apart from cultivating, he was looking at them.

But their process was just too boring!

Rush and rush!

They rushed continuously!

One time, they faced an enemy and Li Xiandao even wanted them to start fighting.

But Long Haishou solved the situation and they continued to rush.

After looking for a few days, Li Xiandao gave up. He would occasionally glance but he wouldn't pay much attention. He would wait until they arrived in the Ancient Dragon Tomb.

"Master, a guest is here!" Seven reminded Li Xiandao.

Li Xiandao's expression was one of joy as he wore the mask and entered the hall, waiting silently.

...

Dali Land, Xuankong Temple, an old monk was in seclusion!

"Ancestor, I have followed you for my life, so why don't you let me stay by your side?"
The old monk was really old, his skin was loose, and his body was dried up with no life at all.

He was chanting!

He was praying!

He feared death!

He followed the path for a life, chanting for his entire life and he felt like he had comprehended Buddhism!

But in the end, he couldn't accept death!

He craved to remain in this beautiful world and not die!

But, the Buddhist Ancestors didn't pity him.

“Since the Buddha doesn’t let me, then let the Demons help me.” In his despair, he opened his palm and a blood-colored watch appeared.

Dozens of days ago, he picked up this watch!

The monk was really strong in the Buddhist techniques and when he was rational he was a high monk!

He was a Buddhist Master, famous in Xuankong Temple, and he thought that he comprehended Buddhism.

But today, the Monk felt like his limit was reached.

Suddenly!

He couldn’t prevent it at all!

The old monk thought that he could spend another 3-5 years, but who knew that today would be the end?

He prayed, he chanted, he burned incense, he kowtowed...

He prayed to all the Buddhist statues in Xuankong Temple!

No one helped him.

“I stupidly entered the sect, spending half my life for Buddhism, but in the end, I’ve realized the Buddha and the demon is the same!” The old monk muttered. An expression that was a mixture of crying and laughter appeared on his face and then he shattered the watch in his hand.

Kacha!

In the end, he loved himself more, he wasn’t willing to leave the world, and chose the demon.

Just as he said.

Buddhist Ancestor and demon were the same!

...

Li Xiandao looked at the old monk, who didn’t even look human, and he was a little shocked.

He didn’t expect it to be a monk!

It was even such an old monk!

In his eyes, the old monk only had two hours left. Then, he would leave the world.

But the monk was at a really deep and high realm.

Li Xiandao was shocked; his cultivation was the highest that Li Xiandao had seen so far.

“What is your title?” Li Xiandao asked.

“Heaven Heart!” The old monk said weakly.

Li Xiandao nodded, “You only have two hours left, after which you will die!”

The monk didn’t panic and he said, “I know, otherwise, I wouldn’t have had the courage to smash the watch, to break my false self, to see how dirty and terrifying my own heart is.”

Li Xiandao laughed, “There is no one in this world that isn’t ugly or terrifying.”

The old monk was stunned as he looked at Li Xiandao.

“Like the Buddhist Ancestor high above, he didn’t abandon all emotions or all negative feelings; it was just that he was really strong and knew how to control them. He only showed his bright side.” Li Xiandao said.

The old monk nodded, “That is right, be it the emperors, or the top talents, or the Buddhist Gods, all have another side to them. There is no one in the world who is perfect!”

The old monk studied the Buddhist techniques deeply. This time, he was really afraid to die.

He came here and faced his deepest desires.

But this didn’t represent that he would give up everything about the Buddhist Faction.

He just wanted to be his real self, to not suppress the desires in his heart.

“Master Heaven Heart, what do you want to trade?” Li Xiandao asked solemnly.

“Life... I want to live.” Heaven Heart said firmly.

“I can give you life. You only have two hours but I can give you 500 years. What price can you pay?” Li Xiandao asked.

Heaven Heart was stunned. He had hope and he prayed that this place could save him.

But when Li Xiandao said 500 years, the first thought in his mind was what he could pay.

A person was about to die!

500 years of lifespan was invaluable to him.

The thing he traded wouldn't be of the same value.

If Li Xiandao took out 500 years of lifespan and gave it to someone with 10,000 years, he could only exchange for something small.

But to Heaven Heart, who had 2 hours left, this was the most precious gift in the world.

Heaven Heart had nothing to trade.

"Sign this contract!" Li Xiandao saw that Heaven Heart wasn't speaking, but he wasn't angry. He took the contract and passed it to him.

Heaven Heart trembled as he took it. Looking closely, he took in a deep cold breath.

500 years of life in exchange for 500 years of freedom!

"You will give me 500 years of lifespan, which means that for the next 500 years, I will serve you?" Heaven Heart said softly.

He didn't reject right away but didn't agree either!

He was considering and weighing the pros and cons!

Li Xiandao wasn't in a rush and said, "You have served the Buddhist Ancestor for the rest of your life and till death. You need someone like me who sells souls and time to save you. Isn't that funny?"

Heaven Heart closed his eyes.

"500 years following someone who the Buddhist Sect views as a demon, what will you become?" Li Xiandao said softly, his reply reverberating through in Heaven Heart's ears.

The words of a demon!

Li Xiandao wanted Heaven Heart to serve him as he was too strong.

If he wasn't the strongest in Dali Land, then he was in the top three!

Li Xiandao dared to say that!

The reason was that his accumulated cultivation was unbelievable. If he was able to use it and activate it, it would be amazing.

Heaven Heart was a treasure!

"I have a wish." Heaven Heart closed his eyes and said.

"Please speak!" Li Xiandao said confidently.

"Don't force me to do things that I don't want to do!" Heaven Heart agreed.

Since he was already here, he asked himself.

What am I hesitating for?

He already said that he would throw aside his fake side and see into his heart. What was his heart's answer?

Heaven Heart's answer was definitely to sign it!

This was why he signed the contract and under Li Xiandao's gaze, he wrote his own name!

Bank of The Universe #Chapter 49: Clear Off With One Slap - Read Bank of The Universe Chapter 49: Clear Off With One Slap

Chapter 49: Clear Off With One Slap

Witnessing Heaven Heart sign the contract, Li Xiandao smiled with satisfaction.

He knew that Heaven Heart would definitely sign it!

If he could face death, he wouldn't have shattered the watch and entered the Bank of the Universe.

After Heaven Heart signed his name, Li Xiandao stood up and walked behind him.

Seven held a jade box and in it was 500 years of lifespan.

500 years of lifespan in exchange for a strong expert was a huge win.

“Monk Heaven Heart, close your eyes, and enjoy. What age do you want the 500 years of lifespan to recover you to?” Li Xiandao asked.

Heaven Heart was too old now, so he definitely couldn't accept that.

After injecting 500 years, he could become young once again and regain his youth.

Which age would Heaven Heart choose?

Heaven Heart didn't reply; he just silently felt the lifespan that Li Xiandao injected in.

It was like land that had been dried up for hundreds of years enjoying a few months of endless rain!

Like separated lovers meeting after 50 years, they had no words, only tears!

Heaven Heart's emotions were really complicated!

When Li Xiandao gave the lifespan to him, he took a few steps back and saw that Heaven Heart's body had changed.

A young man walked out and the old body transformed.

The strong Heaven Heart gave up his own skin, using the Demon Sect's Transformation Technique to become young once more.

Energetic like jade, white and clean face, distinct lines, handsome face filled with determination!

This was a young monk who could charm all girls!

He wore a white robe, placed his palms together, and said, “Greetings Master!”

Li Xiandao said calmly, “Call me Sir!”

Heaven Heart was a monk, so Li Xiandao naturally wouldn't force him to call him Master, and he also couldn't allow him to call him directly by name. ‘Sir’ was a good choice.

Now Li Xiandao was upright and a little thin, he looked really outstanding and he gave off an exceptional aura.

Li Xiandao liked that he called him Sir.

Heaven Heart nodded his head, “Sir!”

“Heaven Heart, from now on you have obtained new life. You can walk about the Bank of the Universe and I won’t stop you. I also won’t ask you to do things you don’t want to do.” Li Xiandao stared at Heaven Heart.

Since he was his man, Li Xiandao stopped addressing him so formally.

Heaven Heart nodded his head, his eyes were so bright that it could see through one’s heart. He knew that Li Xiandao had something to say to him.

Li Xiandao’s face turned cold and killing intent flashed across, “Let me tell you a story!”

“Wash your ears and listen up!” Heaven Heart knew that Li Xiandao had something for him to do.

“A long time ago, you were a small monk and you had a beautiful girl you grew up with. You liked one another and you wanted to return to laity and marry her.” Li Xiandao said slowly.

This was a story, one that Li Xiandao made up.

Heaven Heart knew but he didn’t say anything, just continuing to listen.

“But as you were returning, the girl was seen by the Dali Dynasty Emperor, and he forcefully took her as a concubine. She was unwilling and killed herself!” When Li Xiandao said these words, his eyes were cold.

Heaven Heart frowned and felt uncomfortable. This story was fake but fake stories could kill real people!

Li Xiandao said this story for no reason at all, but his reason was apparent!

He wanted him to take revenge for this non-existent girl.

The person he was taking revenge on was the person who founded Dali Dynasty, the Dali Dynasty Elder.

“Heaven Heart, finish your grievances, and then come serve me. I can’t stop you from taking revenge, but you must come back in a month.” After Li Xiandao said this, he waved his sleeves and chased Heaven Heart out of the Bank of the Universe.

Seven looked on quietly and dissed, “Master, the story you made up is so old-fashioned.”

Li Xiandao stared and her, “So what if it is old-fashioned? If it spreads, many people will still believe it and many will feel for him. The monk loved her and held it in for so many

years before taking revenge. If this was done years later, it might have become a story every family knew.”

What was the point of new ideas?

Letting him kill that guy was enough!

If he killed him, then Li Xiandao could accept all old-fashioned stories!

Seven thought about it and clapped, “As expected from the new Master, your vision is very far and wide.”

Li Xiandao smiled gleefully and said, “This has nothing to do with us. Heaven Heart wanted to take revenge, I just gave him a month before he has to come back. If the Dali Dynasty Elder can survive for this month, then I respect him.”

...

Could the Dali Dynasty Elder survive for this month?

Of course not!

It depended on when Heaven Heart wanted to attack.

After being teleported out, Heaven Heart looked at the cave he was in and exhaled a deep breath.

It felt like a dream!

It didn't seem real at all.

But looking at his white hands and touching his frownless face, he felt like his whole body was filled with energy and he could use his strength to its fullest.

This was real!

This was not a dream!

He had traded with the devil!

Heaven Heart laughed, “Sir is not a devil, the devil is my own heart, my own desires. As long as there are living beings, there is intelligence, there is joy and rage. If there is something people want, then the demon exists!”

Demons existed in everyone's hearts!

Heaven Heart walked out firmly. No one guarded the caves in the back mountain of Xuankong Temple.

Heaven Heart didn't inform them. In the last life, he dedicated it to the Buddha, but now he wanted to serve the demon.

"If one day I can walk a path that merges both, that is my own path!" Heaven Heart had his own goal.

He wanted both Buddha and the demon to exist in him.

This was why he silently headed out of Xuankong Temple and headed to Dali Dynasty!

He was going to take revenge for his nonexistent lover!

Although he had never had such a lover, he loved her so much; whoever killed her had to pay a price.

That person was the Dali Dynasty's Elder!

Heaven Heart didn't know why Li Xiandao didn't attack on his own, but since Li Xiandao told him to do so, he had to agree.

"It seems like I have to kill him within a month." Heaven Heart thought silently to himself.

He was very fast, jumping through space and disappearing right away!

Xuankong Temple would take many years to get to Dali Dynasty's Capital.

Heaven Heart only took a day!

He came to the peak that Li Xiandao fought on previously!

Within the capital, the dynasty had many hired helpers. The palace was cold and quiet and everyone was on guard.

Dali Dynasty's Emperor was here.

Their Elder was here too!

Heaven Heart raised his hands, he looked at his jade-like hands and smiled.

The first time he killed someone in his life was actually under such circumstances.

"My strength is invincible on Dali Land!" Heaven Heart said confidently.

His invincibility didn't count in Li Xiandao as the Bank of the Universe wasn't in Dali Land.

Hong!

The moment he said this, he slapped forwards.

A portion of the people felt the sky turn black. They looked up and their legs turned to jelly.

A huge palm smacked down onto the palace!

Explosion!

The giant palace instantly vanished and everyone inside died!

Li Xiandao gave Heaven Heart a month but he only took a day!

This was the strength of Dali Land's top expert.

One slap wiped out a dynasty!

Chapter 50: Hellfire Dragon

Heaven Heart definitely wouldn't talk nonsense with others!

Wanting him to find the Dali Dynasty Elder and then act out what Li Xiandao said, to take revenge for his lover, that would be even more unbearing than killing him!

So!

He just slapped down and wiped out Dali Dynasty right away.

Old Ancestor, Emperor, Empress, Crow Prince, etc...

All of them were killed!

None of them survived at all.

It was cleanly done!

None of them were able to survive Heaven Heart's attack!

After killing them, Heaven Heart thought about it and didn't return to the Bank of the Universe!

He still remembered Li Xiandao's instructions.

This story couldn't end with one slap; he had to spread the story that Li Xiandao crafted so that people would believe that Dali Dynasty was wiped out because of revenge. All of this was because of a beautiful woman!

Heaven Heart sighed. To let a monk do such a thing was quite tough for him.

He also knew that Dali Dynasty's Elder offended Li Xiandao, but Li Xiandao couldn't butt in, so he asked him to help.

"This is so tough for me!" Heaven Heart sighed and slowly walked over.

In the next month, Heaven Heart went around. He found writers, storytellers, scholars, and book depositories.

He added excitement to Li Xiandao's words, adding a lot of sadness, revenge, and love elements to it.

Heaven Heart firmly believed that when the story formed, Li Xiandao definitely wouldn't link it to the story that he had told.

It was just too exciting!

Such that once it was broadcasted, it spread across Dali Dynasty, enlightening many of the people who didn't understand why the Imperial Family was wiped out.

So someone was here to take revenge!

Even if some people didn't believe it, it didn't matter as most people did.

After 20 years, all kids would believe in it!

After hundreds of years, it would become an interesting story that people would bring up!

Heaven Heart completed Li Xiandao's task and nodded his head in satisfaction, heading toward the Bank of the Universe!

...

Li Xiandao and Seven were admiring Heaven Heart's experience from the Bank of the Universe throughout.

Especially when they saw Heaven Heart wipe out Dali Dynasty and the Elder in one slap, Li Xiandao slapped himself.

"Didn't I tell him a story?"

"Say the story out, if you kill him like that, wouldn't it be no different from if I did it myself?" Nôv(el)B\jnn

“I want everyone to think that Dali Dynasty’s Elder died from a deep grievance!”

Li Xiandao looked on speechlessly and grumbled, “I knew that monks were not reliable.”

Seven consoled, “Heaven Heart is smart; he wouldn’t end things like this!”

As expected, Heaven Heart started to spread the story. Li Xiandao was shocked, “This Heaven Heart is not bad, he knew how to expand the storyline and write books. He even asked scholars to spread it, not bad, not bad!”

Li Xiandao smiled, “I knew that monks were the most reliable!”

Seven rolled his eyes, which were filled with helplessness; he said everything good or bad.

In the end, when Heaven Heart completed this matter, Li Xiandao and Seven both heaved a sigh of relief.

“The problem has been cleared. This damn ex-Master left such a preposterous contract and wanted me to clear up the loose ends.” When Li Xiandao thought about this he was extremely furious.

“Fetch Heaven Heart back. Also, is Gabriel about to return?” Li Xiandao asked.

During this period of time, he was concerned about Michael and Heaven Heart and didn’t bother much with Archangel Gabriel.

This was also because he was at ease.

Gabriel was at the Saint Realm; it was simple for him to clear some bad debts. It was just a more arduous journey.

Seven nodded, “That’s right, Gabriel is about to return. He cleared the nine debts and completed the mission!”

Li Xiandao said in satisfaction, “Not bad, let him rest when he is back. Although we didn’t have many gains, these people did go against the contract of the Bank of the Universe.

What a dream for them to want to live so arrogantly in this world!”

Seven exclaimed, “Not long ago, I was worried that the Bank of the Universe would totally disappear. Now, everything has gotten much better.”

Li Xiandao looked towards Seven’s beautiful face and asked, “The Bank of the Universe will disappear?”

“Of course, if it doesn’t have a Master for long. The Bank of the Universe can go bankrupt and sell its own property, so why can’t it disappear?” Seven explained it like it made real sense.

The Bank of the Universe disappeared, Seven would also disappear along with it, which worried her.

Li Xiandao touched Seven’s forehead and said, “Don’t worry, I won’t let you disappear!”

Seven looked at Li Xiandao and said, “Master, don’t you know that you shouldn’t touch girls?”

“I am your Master, is there a problem that I am touching you?” Li Xiandao said firmly.

Seven rolled her eyes at Li Xiandao and didn’t say anything.

...

In the Heaven and Earth Battlefield, Battle Angel Michael, White Emperor Tian Guangming, Long Haishou, and Long Xun all rushed for a month and finally got close to their destination.

During this month, all they did was rush.

Although they faced many dangers, they solved most of these problems.

They bore with it, didn’t cause trouble, and didn’t attack if their bottom line wasn’t touched.

Such a method saved them loads of time, but when one thought about it, one felt really wronged and frustrated.

In a month, only Michael attacked once. He activated the World Destroying Halberd and directly killed a pillaging squad.

He was too arrogant and kept chasing them. They killed people and robbed them like it was something really common.

Battle Angel Michael was the battle maniac in the God Race, he bore with it but in the end, he was still forced to attack.

In just a moment, the strength of the World Destroying Halberd wiped them all out.

Then, they didn’t face any more problems!

It wasn’t that others feared them but the closer they got to the tomb, there weren’t any normal people around.

The mountains snaked and split, the ground was covered in cracks, some were so deep that one couldn't see the bottom. It was like a valley with Heaven and Earth flames burning about.

Once one touched it, one would be burned right away.

Even strong cultivators found it hard to block!

The four of them entered the place and looked on at the border.

"The Ancient Dragon Tomb is here?" Tian Guangming was shocked.

The world around was like hell, if one got close, one would definitely die.

This place was too dangerous and one didn't see any tomb?

Long Haishou said, "The Ancient Dragon Tomb is below these burning flames. This place buries one of the Hellfire Dragon Race, the Race Leader who was at Ancient God Realm, which is the current Celestial Realm. His treasure is buried here!"

Battle Angel Michael frowned, "We won't be going!"
