## Chapter 501: 2 Streaks Of Sword Energy Slashing!

Li Xiandao went all out. With the Nine Skies and Ten Lands buffing him, he was pretty much invincible. The moment the sword slashed out, everything in front of him was turned to dust.

The so-called Celestial in the human world, supreme expert, invincible genius, none of them even have a chance to speak in front of Li Xiandao's sword.

A violent wind swept the land, shocking everyone.

Everyone around who was watching opened their eyes wide and stood rooted to the spot like corpses.

*This... Is this real?*

Everyone was asking the same question in their heads.

Was what they saw real?

Were they just seeing an illusion?

Zhuge Weiwo, who the people called the Celestial in the human world, seemed as weak as a piece of paper in front of Li Xiandao.

Had they praised him too much?

Actually, if Li Xiandao were to judge him, he would admit that Zhuge Weiwo was strong. He was the strongest opponent that Li Xiandao had met to date.

He forced Li Xiandao to go all out.

After the Nine Skies and Ten Lands merged into his body, he had never gone all out before.

Zhuge Weiwo died for a reason.

After Li Xiandao killed Zhuge Weiwo, he looked around. His eyes were like a deep and bottomless well. Who knew how many terrifying ancient beasts were hidden within?

No one dared to look straight into Li Xiandao's eyes. Even a stage nine expert lowered his head under Li Xiandao's gaze.

*Peng!*

Li Xiandao didn't even say a word and opened one tomb. In an instant, the light from the celestial artifact charged into the air. There were a dozen in this tomb and many celestial crystals and treasures.

30,000 years ago, Nether Purple Mountain was really rich and had many purple crystals. Naturally, it didn't care about these, so it didn't take a single one and just buried them along with the body of the Celestial.

*Hong long long!*

The treasure light and energy scattered around and tempted everyone.

They felt really tempted and wished that they could replace Li Xiandao and take all the treasures.

But that was just a thought. One stage eight, stage nine and Honorable One had all died. There was even a genius that everyone called the Celestial in the human world.

All those bloody facts were warning them that Li Xiandao couldn't be offended.

They shouldn't have offended him. If Li Xiandao got angry, they would end up the same as the others.

So, the people around looked on in envy, jealousy and with their eyes red as they saw Li Xiandao take the treasures.

*Hong!*

Li Xiandao opened the second one. The treasure light shone and lit up half the sky. Li Xiandao took it all and they couldn't even get a single bit.

The key was that they couldn't reason with Li Xiandao because Li Xiandao would really kill them.

*Hong!*

Under their envious and jealous gazes, Li Xiandao opened all the 10 remaining tombs.

10 tombs opened all at once. The treasures within shone in the sky and were really eye-catching. One couldn't move their eyes away at all.

*Putong, putong, putong...*

Many of their heartbeats quickened. This was just too tempting.

When one was opened, they could take it.

Like a top beauty laying in bed waiting for you.

Someone with discipline could suppress it.

But now there were ten top beauties who were totally naked and laying in wait for you.

Someone couldn't take it anymore and attacked, not one but a bunch of people who worked together.

They were shadow assassins who hid in the air. There were nine of them, eight to shield and one to sneak attack.

Their target wasn't to kill Li Xiandao but to take away some treasures and to split them up.

So they attacked Li Xiandao just for show to shift his attention away.

When the nine of them attacked the other people couldn't take it anymore.

Why didn't we have a share of these 10 beauties?

20 to 30 people attacked. They were all Destiny Realm and they weren't weak at all.

Li Xiandao was surrounded. Everyone faked an attack and just wanted to take some treasures away.

Li Xiandao noticed this. He didn't say anything, just shouting while he looked at the people all around. "Big River Sword, descend from above!"

*Hong!*

A streak of sword energy pierced the sky, drawing the water away to slay the people below.

Under the Big River Waterfall attacks, it looked really majestic. It covered everything around Li Xiandao with sword energy.

The Big River Sword Energy drew from the water from above and turned them into sword energy. It was ferociously strong and extremely terrifying.

“Look at my instant kill technique.” An assassin’s expression changed as he used his technique.

“Yellow Flame Strike.” A fierce guy pressed down with his fists.

“Chaotic Wind Sword Technique!” A swordsman wanted to clash with Li Xiandao’s sword energy.

He couldn’t beat Li Xiandao but could he not even block a single streak of sword energy?

At that moment, numerous techniques exploded, forming a huge ripple that spread out.

Everyone attacked Li Xiandao together. This was also their final gamble.

If Li Xiandao took all the treasures away, then they wouldn’t be able to fight for anything.

So, at that moment, these Destiny Realm experts worked together with a good understanding.

The target was Li Xiandao. They didn’t want to kill him but to force him to give up some and not take them all.

Their plan was good but Li Xiandao didn’t agree.

One sword alone could destroy all techniques

Big River Sword Energy exploded. Li Xiandao said coldly and loudly, “Sword come!”

*Keng! Keng! Keng!*

At that moment, everyone’s swords were shaking and breaking free from their Master’s control. They flew towards the air above Li Xiandao’s head.

That scene was really shocking. Numerous swords flew into the sky and above Li Xiandao’s head.

Big River Sword Energy formed from tens of thousands of long swords. Li Xiandao shouted coldly, “Kill!”

Two Big River Swords, one from in front and one from behind all slashed forwards without giving these people a chance to retreat.

*Hong long long!*

The two swords crisscrossed and people were constantly killed. Some screamed, some wanted to flee, some were in despair...

They were all at Destiny Realm and many of them were at stage nine.

But now, with the two Big River Sword slashing, they were dead.

The blood rain scattered onto the mountain range and onto the faces of the people around. They also landed on their hands and bodies...

Destiny Realms were all killed. Li Xiandao used his terrifying strength to suppress the people around him beyond words.

When everything calmed down, Li Xiandao was gone. The 12 tombs were empty. Moreover, with Nether Purple Mountain's control, they sunk back underground to rest.

When one died, it was like a lamp being extinguished. There was no need to disturb their bones. Li Xiandao only took the treasures and didn't touch the corpses.

## **Chapter 502: Unlocking The 6th Mountain Peak!**

Li Xiandao was back in the Bank of the Universe.

Three days after entering Heaven Sky, the Bank of the Universe's spiritual energy change had completed.

With one ancestral dragon spirit meridian, after entering Heaven Sky, it was advancing too which was why the spiritual energy here was thicker than outside.

Such that Li Xiandao's subordinates were all breaking through now.

Most of them chose to enter Time Hall to increase their strength in the annals of time.

Some confident ones chose to break through on their own.

For example, Tian Guangming who entered Time Hall right away to improve himself.

Heaven Heart didn't enter and that gave Tian Guangming much motivation.

*I burned 3,000 years of lifespan. I don't believe that I can't beat you.*

Tian Guangming burned a tenth of his lifespan.

Burning 3,000 years meant paying 6,000 in total.

Time Hall was at peak Emperor and had around 60,000 years. It was fine and he could peacefully cultivate in the Time Hall.

10 minutes in the outer world was like 3,000 years in the Time Hall.

Tian Guangming walked out and successfully broke through to Destiny Realm. However, he didn't improve by much and he was only at stage three.

He walked out and he thought that he could be on the same level as Heaven Heart. Who knew that Heaven Heart actually used his Buddha and Demon Body to cross three stages?

Now, he was at stage six and could continue to break through.

Tian Guangming was speechless and spat out blood. He had internal injuries due to his anger.

"I cultivated for 3,000 years inside and only got to stage three. How did you improve so quickly?" Tian Guangming felt like if he didn't get an answer, he wouldn't be able to live anymore.

This was too infuriating.

Was he so lousy?

3,000 years and he couldn't beat Heaven Heart who spent 10 minutes?

Heaven Heart got up and a smile appeared on his handsome face, "If Destiny Realm is passed using time, then people who enter Destiny Realm with 60-70 thousand years would just need to cultivate for 50,000 years and they can reach stage nine?"

Tian Guangming was stunned by this question.

Thinking about it, it did make sense.

"I know that, but I also comprehended the dao." Tian Guangming argued.

"Sitting in the Time Hall for 3,000 years in the same environment alone, is that your comprehension?" Heaven Heart asked calmly.

"What is your so-called comprehension?" Tian Guangming's depression was gone and he asked Heaven Heart for help.

"I suddenly feel thirsty." Heaven Heart licked his lips and said.

Tian Guangming's face turned black. He didn't say anything and took a pot of water.

“Here.” Tian Guangming passed it over.

“Fill it up, you want me to drink with a pot?” Heaven Heart’s brow rose up.

Tian Guangming felt really frustrated but he did as he was told and passed it to Heaven Heart.

Only then was Heaven Heart satisfied and he stopped torturing Tian Guangming. He sipped and then said, “Destiny Realm is a battle with the heavens, to simplify the dao. You can’t cultivate like that. You have to fight with heaven and earth.”

“What do you mean?” Tian Guangming was confused.

“I am sure of my goal which is Buddha and Demon in one body. Lucifer is certain of his which is light and darkness space. Everyone has their own goal, so what is yours?” Heaven Heart asked.

He saw that Tian Guangming was working hard, so he wanted to teach him. With Tian Guangming chasing up, he too could feel some danger.

“Me?” Tian Guangming was stunned. Now, he noticed that he had fallen into a bottleneck.

“You didn’t want Goddess of Light’s memory. If you had it you wouldn’t have to ask me.” Heaven Heart said regretfully.

But who knew whether or not he was sad that Tian Guangming didn’t have the teachings or that he didn’t end up like Goddess of Light?

“Scram.” Tian Guangming was annoyed.

“You just want to see me make a fool of myself, so I am leaving.” Tian Guangming turned around and left. He wanted to find his own goal.

Heaven Heart looked at Tian Guangming’s back view and drank it all before muttering, “Seems like you can catch up soon. I too need to work hard.”

It wasn’t that Tian Guangming was weak or untalented. He was just too deep in. With Heaven Heart’s help, he would end up with a clear goal.

So after confirming his target, his cultivation would soar.

Of course, since Tian Guangming wasted 6,000 years in the Time Hall, that made his head hurt.

...

Li Xiandao returned to the Bank of the Universe and found Seven right away.

“Here are the treasures from the 12 Celestials. Will it be enough to unlock the sixth mountain?” Li Xiandao took it all out and passed it to Seven.

Just Celestial Artifacts alone, there were dozens of them. Why did they even collect so many?

There were many celestial crystals. Although they were low-quality ones, there were thousands of them.

This was quite a huge temptation for Li Xiandao. If not to unlock the mountain peak, he would use it to cultivate. Even if he couldn't reach stage nine, he would still improve a lot.

But he passed them all to Seven so that she could unlock the sixth mountain.

Li Xiandao definitely wanted to unlock it. This would be of great help to him.

As for his own cultivation, he could increase it at any time.

“Enough, all these things added together are more than enough. Some will be left over too.” Seven was happy.

“That is good.” Li Xiandao heaved a sigh of relief. If this wasn't enough, he would have to head out to find more.

“I unlock it now?” Seven looked at Li Xiandao.

“Unlock it.” Li Xiandao nodded his head.

Seven instantly burned many treasures to sacrifice to the dao. That included those items in the treasury.

*Hong long long!*

The giant mountain range in the distance moved. It was like a dragon that had been asleep for who knows how many years that was finally awakening.

*Hong!*

The sixth mountain peak was unlocked at that moment and it was called the Weapon Crafting Mountain Range.

Weapon Crafting Mountain Range which was unlocked frenziedly absorbed spiritual energy to activate its own core.

*Hong!*

At that moment, the entire mountain range started to burn. Flames charged into the sky and turned red like a cooked prawn.

“This is Weapon Crafting Mountain Range, the flames inside are natural and intelligent. As for the chaos flames, you aren’t able to unlock them yet.” Seven explained.

“That is enough. How strong is this giant Weapon Crafting Mountain Range?” Li Xiandao asked in excitement.

## **Chapter 503: Making It Big, Bring Glory Back Again!**

The Weapon Crafting Mountain Range was unlocked and the flames within were lit up. It was blazing so Li Xiandao wanted to know how strong it was.

Seven said, “If you want to know, then get the Nether Purple Mountain in and toss it into the Weapon Crafting Mountain Range and look at the effects.”

Li Xiandao nodded his head, “I also thought about it. I will get it in now.”

Li Xiandao didn’t exit the Bank of the Universe. He directly used the strength of the Bank of the Universe to suck the Nether Purple Mountain in.

*Hong long long!*

A pitch-black mountain body appeared in the Bank of the Universe.

Seven looked at the Nether Purple Mountain and was shocked, “It is really badly injured. Even if we melt it to turn it into a treasure, its strength will be significantly affected.”

Li Xiandao looked towards the Nether Purple Mountain and said, “You heard it, you must be mentally prepared.”

“It is best that I can’t die. Even if my strength isn’t like before, I can continue to cultivate. I have seen treasures becoming independent and having huge strength. I can walk that path.” Nether Purple Mountain said seriously.

It could calmly face every outcome now. Anyway, it was impossible for things to be any worse, so why did he have to be worried?

When Li Xiandao saw this, he immediately tossed it into the Weapon Crafting Mountain Range.

*Hong!*

The mountain was tossed out and smashed down right away. Now, Li Xiandao knew why it was the Weapon Crafting Mountain Range and not a Weapon Crafting Peak.

*Gulp gulp, gulp gulp.*

Nether Purple Mountain was thrown in and it started to burning its impurities out. The huge flame caused the temperature to rise to the extreme.

Even the decay of the angel was just a debuff on a Celestial. Facing the natural spiritual flame, it couldn't handle it and was forced out and burned.

The black mountain started to lose color. It started to turn purple and the purple gave off a devilish glow.

This was really difficult and really terrifying too. It made one feel the urge to tremble when one looked directly at it.

Li Xiandao looked on from the outside,

He was really shivering when he looked at it straight.

The spiritual flame was scorching the Nether Purple Mountain and the high temperature caused the air around to melt. When he looked at the Nether Purple Mountain, it would seem like it was shaking.

This was a really terrifying scene.

A huge mountain was being burned by a mountain range.

Seven and Li Xiandao looked on from far away and waited quietly.

Maybe because it had finally seen the light of day, Weapon Crafting Mountain Range used all its strength. It hadn't been used for 10,000 years and it used all its strength on Nether Purple Mountain.

*Hong long long!*

Apart from using the natural flame to burn, it used all its other skills.

Thousands of techniques were stacked together.

It looked like it was trying to stack the Nether Purple Mountain on itself a million times.

This was something that seemed impossible. Even a god blacksmith would think that it was unbelievable.

But in the Weapon Crafting Mountain Range, there was nothing that couldn't be completed.

*Bang!*

Numerous hammers smashed down and instantly shattered the Nether Purple Mountain. The pain made the Nether Purple Mountain's mountain spirit scream out in pain, showing its true body. It was a kid, a kid wearing underwear with its fists clenched.

It sounded as if Li Xiandao was torturing it.

But in truth, Li Xiandao too was looking on in shock.

"Nether Purple Mountain's mountain spirit is a baby?" Li Xiandao was confused. His conversation with it appeared in his mind.

Who was that guy with the powerful voice?

"A mountain spirit is probably one of the few races with the longest lifespan, even the Xuanwu can't beat them. Nether Purple Mountain is only 30,000 years old and based on the human age, it is just a one-year-old baby." Seven said.

Li Xiandao gave out a bitter laugh. He was cheated, he really thought that Nether Purple Mountain was an old man.

Who knew that it was just a kid who revealed his white and naked butt?

That was too unbelievable.

What Li Xiandao found shocking was that after the Nether Purple Mountain was hammered 1,000 times, an outline of a treasure started to appear.

"So quick?" Li Xiandao was shocked. He thought that it would take a long time. After all, this was the Nether Purple Mountain, a treasure mountain that came from Celestial World.

But now, in just 15 minutes a treasure outline appeared?

That was too quick?

"This is why the sixth mountain is strong? If not, why did you need so many resources to unlock it?" Seven made it sound really simple.

“Worth it!” Those two words were the only thing that Li Xiandao said.

He turned his eyes back to the mountain range. Because of the hammering, the Nether Purple Mountain started to be stacked.

One layer, two layers, three layers...

It was extremely quick such that Li Xiandao got dazzled. During this period, the Nether Purple Mountain's mountain spirit fainted. It laid at the side and curled up, appearing quite cute.

“The treasure can form in at most three days. Nether Purple Mountain is an entire mountain body and is being reshaped as a treasure, so what kind of treasure do you want?” Seven asked Li Xiandao.

Li Xiandao looked at Nether Purple Mountain. It was just a baby and wasn't carved or trained yet.

Li Xiandao thought about it and said, “I am a sword user, so let's make a sword.”

Li Xiandao Great Ancient Fallen Star was too huge. It was strong but it was bigger than Li Xiandao. When he faced enemies, Li Xiandao didn't even want to take it out. He felt like only those enemies that he had to treat seriously were then worth him taking it out.

So, Li Xiandao lacked a common-use sword. Since the Nether Purple Mountain could be shaped into a treasure, then he would use it as his own.

“This Nether Purple Mountain will definitely be a Celestial Artifact. Who knows what grade it will be?” Seven said.

“It doesn't matter, just make it more exquisite. Anyway, I have the Great Ancient Fallen Star as my trump card.” Li Xiandao said calmly.

Great Ancient Fallen Star along with Li Xiandao that went all out. In Heaven Sky, among the top experts, Li Xiandao was definitely a part of them.

That was enough. Li Xiandao wasn't here to beat anyone and expand his influence. He was here to do business.

Li Xiandao's evaluation of himself was a businessman.

A cunning businessman!

A businessman with a slight bottom line.

Seven said, "I have passed your request to Weapon Crafting Mountain Range, it will complete the celestial artifact sword that Master likes."

"That's good. Let it continue crafting, we should also handle other things." Li Xiandao turned around and left, entering the main hall.

Seven followed behind and entered the main hall too.

"Haven't we obtained 100 more watches?" Li Xiandao asked.

"Right, the reward for unlocking the sixth mountain is 100 watches." Seven nodded.

"Send it all out. We need to receive guests. The bank has very few things now and we need to work hard." Li Xiandao said solemnly.

Nothing was more important than the bank's development.

Li Xiandao looked at Seven and said firmly, "From now onwards, let's work together. I will use my sword and you will use the calculator, let's get stronger step by step and bring glory back!"

## **Chapter 504: Voice From The Bottom Of Your Heart!**

Li Xiandao told Seven to spread out all 100 watches as he needed new guests.

Seven followed the instructions and released the watches.

In the remaining time, Li Xiandao and Seven paid attention to how the Weapon Crafting Mountain Range was modifying the Nether Purple Mountain.

One could already see the rough outline of the long sword.

Li Xiandao was looking forward to the appearance of his second sword.

...

In Heaven Sky, North Qi Dynasty, many people found out about what happened in Eighteen Mile Region.

News was spread really quickly. Moreover, with so many people looking, Li Xiandao didn't start a massacre. So, news about him had been leaked and spread across the entire Heaven Sky.

The main reason was that Li Xiandao was too strong.

One gaze and he killed a stage eight expert. He easily killed a stage nine Honorable One and even destroyed a top genius, Zhuge Weiwo, who everyone called the Celestial in the human world.

Li Xiandao used another sword energy river to easily kill all enemies.

Such things were spread quickly and it caused an uproar.

Everyone was paying attention to Li Xiandao's strength and also how many treasures did he get?

Twelve Celestial Tombs were taken by Li Xiandao. He took all the treasures from within and disappeared, even the higherups of some top factions who paid attention to Li Xiandao couldn't find him.

But many of them continued to search for Li Xiandao as he was a mobile treasury.

He was really strong but could he overturn the heavens alone?

If a top sect sent out their terrifying trump cards, be it killing Li Xiandao to get the treasures or suppressing him and making him hand it out on his own accord...

They were confident in making Li Xiandao bow down.

But the problem now was that they could find Li Xiandao.

All of a sudden, the entire Heaven Sky was searching for Li Xiandao. His looks and unique points were spread out.

But in a faction in Heaven Sky.

A young teen didn't want to pay attention to Li Xiandao. Instead, he was really anxious.

"What should I do?" This person asked himself.

He came from Everlasting Life Dynasty and was chosen as the heir. He had limitless potential and once he broke through to Destiny Realm, he could take over.

Everlasting Life Dynasty, a top grade faction in Heaven Sky and had many civilians and large amounts of land. The key was that they had a rare Celestial Artifact, Everlasting Life Dynasty.

Everlasting Life Dynasty's name came from this Celestial Artifact and this artifact also grew into the place where the core members of the dynasty lived at.

Everlasting Life Dynasty's control was in the hands of the heir. The heir would ascend and become the emperor, that would be when he took control of the celestial artifact.

The emperor of this generation had 100 kids and they were all really smart and talented. 15 of them were seen as the most probable ones and everyone was waiting for the announcement.

The announcement was made yesterday when Li Xiandao was fighting. This teen was chosen as the new heir.

The teen was stunned.

The 15 who had high hopes were stunned.

The people in the dark were stunned too.

The teen was the Emperor's son but his mother was a servant that poured tea and her body was really weak too.

An accident meant that the mother slept with the emperor. She got pregnant and then gave birth to the child.

The child was called Changsen Men, the meaning was that he was the path to everlasting life.

The mother knew that she had a lowly status and had no family powers, so she couldn't help her son fight for the throne. She just hoped that her son was able to cultivate and be able to have a long life.

Changsen Men thought the same way too. He was not fated to be the emperor. Along with them giving him few resources, he often hung around the lowly people. People recommended him to enter a demon sect.

Chaos Demon Sect!

This was an extremely famous demon sect in Heaven Sky. They shocked the other factions with their strength.

Everlasting Life Dynasty's direct bloodline joined the biggest demon sect and turned into a demon.

At the start, Changsen Men didn't want to. He also knew that his situation was special and he rejected them.

But in the end...

He had no choice as they gave him too much.

This resulted in him being able to abandon the bloodline and choose to betray them.

Then, he became a Chaos Demon Sect disciple and even signed a contract. The contents were really simple.

Kill people from Everlasting Family.

Changsen Men became the intel collector.

When Changsen Men was prepared to fulfill his role as an intel collector, an order was sent for him.

He was chosen as the next heir!

*Kacha!*

Suddenly, it thundered on a summer day!

It crisped Changsen Men up. Not only was he not happy, but he was also filled with endless regret...

“Why didn’t you come over sooner?” Changsen Men was filled with fear because Chaos Demon Sect was Everlasting Life Dynasty’s biggest enemy.

A day ago, Changsen Men was charmed by Chaos Demon Sect disciples to sign a contract selling himself.

He just wanted to be an intel collector.

But now the situation changed and he became the heir with endless potential.

He wanted to be a traitor but who knew that he would become the heir.

He just wanted to be a weed and not a boss.

“Did I hear it wrongly, isn’t that just too random?” Changsen Men calmed down and asked unwillingly.

He didn’t dare to become this so-called ruler. If the contract he signed was revealed, he would be dead.

The grievances between the Everlasting Life Dynasty and Chaos Demon Sect was just too long. Changsen Men, who had heard it since young, acted like he was calm but inside, he was panicking.

Once Chaos Demon Sect found out, they would pressure him. But he didn't want to do it, he was about to become the master of the Everlasting Life Dynasty.

So, after getting the decree, the people outside waited for Changsen Men to pack up.

But why would Changsen Men be in the mood?

He was thinking about it. If he didn't follow Chaos Demon Sect's instructions, it meant that he offended them.

Chaos Demon Sect had his personal signature and the condition of him destroying Everlasting Life Dynasty.

If this thing was revealed, Changsen Men didn't even dare to imagine the scenes. He would definitely be hammered to death and drowned.

"Who can help me?" Changsen Men prayed anxiously. When he became the heir, then Chaos Demon Sect would definitely control him.

With the contract, Changsen Men didn't dare to show himself. People from Changsen Men would definitely reach out to grab him.

On the contrary, he had to smile.

Changsen Men felt like he had to destroy the contract, otherwise, he wouldn't have been able to live long.

But who would help him?

*Weng weng weng!*

A gap ripped apart in the space and a bright red light exploded.

## **Chapter 505: Eternal Life Sect Is Problematic!**

The red watch gave off a devilish light.

An ethereal voice announced how strong the Bank of the Universe was.

Changsen Men looked on in shock.

From the surface of the red watch, he saw a magical space with a giant palace. The entire palace was black in color and in front of the entrance stood a man and a woman. They looked really handsome and beautiful and gave off a strong aura.

“The Bank of the Universe? What is that?” Changsen Men’s heart was beating really fast.

He suddenly realized that he had met a lucky break.

He has a stroke of good luck all of a sudden.

*Kacha!*

Following the watch’s instructions, Changsen Men shattered it. His body dimmed and he disappeared from his room.

...

In the Bank of the Universe, on the square, Li Xiandao was looking at Weapon Crafting Mountain Range craft the Nether Purple Mountain.

The outline of the long sword formed.

With the continuous strikes, it became stronger and stronger. Li Xiandao looked forward to the moment that it was formed.

Seven looked on with Li Xiandao but suddenly her face sunk. She received the news and said, “There is a new guest.”

Li Xiandao was delighted, “So quickly?”

Less than half a day passed since the watch was released.

“It has been a long time since people from Heaven Sky met Bank of the Universe. Too many people want to trade, so the watch chose the suitable people to enter.” Seven said.

Li Xiandao nodded, “That is good, I love having good business.”

He looked at the sword which was forming up in the Weapon Crafting Mountain Range reluctantly before walking into the Trading Hall.

This time Li Xiandao didn’t wear a mask.

He was so strong now so he didn’t wear masks much. In the past when he was weak, he was afraid that people would remember what he looked like. In the future when he walked outside, he might be in danger.

Now, Li Xiandao had strength.

Wearing the mask was pointless now.

If people recognized him now, then so be it. Li Xiandao was not afraid of anyone.

In the Trading Hall, Li Xiandao saw the new guest.

There was a young man, a careful looking young man. He looked at Li Xiandao and Seven like a well-behaved kid.

Li Xiandao smiled, "Guest, welcome to the Bank of the Universe. You can trade anything here as long as you can pay the price."

Changsen Men sat down. He didn't need Li Xiandao to point him out and just asked carefully, "Anything?"

"Right, anything, as long as you can pay the equivalent price." Li Xiandao nodded.

"I want you to help me break free from my identity as a spy." Changsen Men sucked in a deep breath and said.

"Break free from your identity of a spy?" Li Xiandao looked at him in confusion.

"Right, I am in a bad situation. I am a spy for one day before turning into the heir of the royal family. I will become the emperor, so why should I be my own spy?" Changsen Men felt a little depressed.

He was filled with regret. Why did he listen to those people from Chaos Demon Sect?

Li Xiandao blinked and was totally confused. He asked, "Tell me exactly what happened."

Changsen Men started to speak about his amazing experience over these two days.

"A day ago, I was dragged in by people from Chaos Demon Sect and I entered their organization. Under the temptations of rewards, I agreed to be their spy and to provide them with intel."

"I am a son of the royal family but because of my mother's lowly status, I don't have any presence at all. I don't get many resources and have been working hard. But without the resources, I can't compare to those who are supported."

"So, I gave up on any thoughts of fighting for the throne. I worked with Chaos Demon Sect to provide them some intel in exchange for some rewards."

Changsen Men repeated what had happened to him a day ago.

After Li Xiandao heard that, he said, "That's good. A person at the outskirts providing some intel of not much value and still being able to earn some resources."

"That was what I thought. A person like me providing information of not much value." His face collapsed, "But who knew that just today, my identity would change?"

"I was designated as the heir, so I am the emperor of the new generation. As long as I reached Destiny Realm, I will take over and gain control of the Everlasting Life Dynasty celestial artifact." Changsen Men didn't know whether to laugh or cry.

"So I have become my own spy, selling my own intel to them. I am regretting everything." Changsen Men was helpless.

Li Xiandao blinked. This Changsen Men was a little too focused on interests.

He agreed to be a spy because of the resources that Chaos Demon SEct promised him.

Today because he became the heir, he didn't want to be an heir.

This person was a problem.

Of course, Li Xiandao didn't care. He was a merchant and if one brought him enough benefits, Li Xiandao would do it.

"So what are you worrying about?" Li Xiandao continued to ask. He wanted to gain more information to learn how to let himself benefit more.

"Everlasting Life Dynasty and Chaos Demon Sect are enemies and there is no room for reconciliation. I signed a form in the sect and once this is spread out, I won't need to live anymore much less be an heir. I might even have my body split into five parts." Changsen Men was afraid.

Li Xiandao understood.

"Because you are the heir and have limitless potential, you want to kick Chaos Demon Sect away and cover up your black history? You don't want them to threaten you so you came to find us?" Li Xiandao asked.

Right, that is the case. I am the heir to Everlasting Life Dynasty so how can I be their spy? It is wishful thinking for them." Changsen Men was annoyed.

Li Xiandao looked at him calmly. It seemed like when Chaos Demon Sect found him, he was a prince that no one cared about.

What a selfish person who goes against his word...

Li Xiandao made his judgment of him and then said, "I can help you solve that problem but what can you give me?"

Changsen Men thought about it, "What about 10,000 god source."

Li Xiandao looked at him and laughed. It was a laugh of disdain, "Do you think I am running a charity?"

Changsen Men saw that Li Xiandao was angry and he was terrified. He asked, "Then what do you want?"

"What I want depends on how big your trouble is. If you were that prince that no one cared about, 10,000 god source might suffice. But now that you are the heir and future emperor, this is not enough." Li Xiandao said calmly. He reminded Changsen Men that his identity was different.

## **Chapter 506: 2 Choices!**

Changsen Men looked at Li Xiandao and coughed, "Then, what do you need?"

Li Xiandao looked at him, how was this person chosen as the heir?

His cultivation wasn't enough and was only at stage ten Grotto-Heaven Realm. There was Boundless Realm, Legend Realm, Grandmaster Realm, Emperor Realm, and then Destiny Realm.

Could someone with such cultivation become the heir?

Of course, Li Xiandao was just venting his questions in his heart. He looked at Changsen Men and said, "In your heart, what is the price to become the heir of Everlasting Sect?"

"Invaluable!" Changsen Men said without hesitation.

"Right, but everything has a price. This price as compared to the position of emperor isn't something that you can take out." Li Xiandao said calmly.

"I can take it out, just tell me." Changsen Men was anxious. He was an ambitious person but he had no choice in the past. He was forced to back out of the race for the throne. But now, this position fell from the sky and landed in front of him. It was inches away. Even if he died, he wouldn't give up on it.

Li Xiandao looked at him and said, "Everlasting Life Dynasty. Based on what you say, it is a top faction with many experts and resources. Once you become the emperor, you can use all of them."

"Right." Changsen Men nodded.

"So now I need 10 million tons of top quality god source to help you solve that problem. Can you do that?" Li Xiandao raised up one finger.

"10 million... tons?" Changsen Men was so terrified that he stood up and looked at Li Xiandao in disbelief.

Was he crazy?

"You don't have it?" Li Xiandao asked.

"No, I am just a poor prince. I just got the chance so how can I have so many god source?" Changsen Men panted. He was really unhappy and felt that Li Xiandao was playing with him.

Li Xiandao's brow rose up, "Then what can you give me?"

"I can give you a promise. If I become the emperor, I will give you 10 million tons." Changsen Men stated what he expected Li Xiandao to accept.

Li Xiandao stood up and said, "Send the guest off!"

Did he think he was a fool?

If the Bank of the Universe allowed them to hurt guests, Li Xiandao would have taught him a lesson.

Was he trying to cheat the Bank of the Universe?

Seven said coldly, "Please head out."

Changsen Men was stunned and said anxiously, "Don't do it. If you are unhappy you can tell me your conditions but I really can't handover 10 million tonnes."

Changsen Men's only hope was the Bank of the Universe. If the Bank of the Universe didn't help him, he could only be under Chaos Demon Sect's control as a puppet.

Changsen Men was an ambitious person and he didn't want to be a puppet.

"You must understand your current situation. Only the Bank of the Universe can help you now, do you know that?" Li Xiandao said calmly.

He didn't mind not doing this deal but Changsen Men had no choice.

Both sides weren't on equal footing. Changsen Men had no courage in front of Li Xiandao at all.

"I understand." Changsen Men lowered his head.

"What do you have to trade?" Li Xiandao asked.

"I... I can take a million tonnes out. 10 million is too much, even if I borrow I can only get 1 million." Changsen Men said. His heart was already bleeding.

"Not enough, Chaos Demon Sect is really strong and offending them because of you isn't a good choice." Li Xiandao shook his head and said.

"Then what do you want?" Changsen Men was shocked. If this wasn't enough, then how greedy did you have to be?

Li Xiandao looked at Changsen Men coldly and said, "I will give you two choices."

Changsen Men looked at Li Xiandao.

"First is to leave right away and once you head out you will forget everything about the Bank of the Universe. It would be like you have never entered." Li Xiandao said coldly.

Changsen Men bit his lips. He didn't want to leave and he wanted to hear the second choice.

"Second, I will help you to become the emperor. At the same time, you will hand all of Everlasting Life Dynasty's treasures to us and also hand over 10,000 top quality god source meridians." Li Xiandao said.

The moment he said this, Changsen Men wanted to smack the table in rage and scold Li Xiandao for being a thief.

But, he saw Li Xiandao's cold gaze and his rage extinguished.

"Ten thousand top quality god source meridians, that is roughly around how much Everlasting Life Dynasty have." Changsen Men suppressed his rage and said.

"Stop playing, as a top faction, Everlasting Life Dynasty definitely has such things. If you pay all these, you will get the throne. Think about it, three minutes, if you don't decide within three minutes, then just leave." Li Xiandao said coldly.

Changsen Men was the first person that Li Xiandao felt was greedy.

His greed was really selfish.

He wanted everything. He wanted Li Xiandao to help him get rid of Chaos Demon Sect but didn't want to give up too much.

Where was there such a good thing in the world?

Changsen Men suppressed his rage. He was anxious, should he agree or not?

If he did then he could break free from Chaos Demon Sect. With the mystery of the Bank of the Universe, he was certain they could solve the problem.

But all of Everlasting Life Dynasty's treasures and ten thousand god source meridians, that was just too much.

If those were given to him to cultivate, how much would his cultivation rise?

When Changsen Men thought about giving all these to Li Xiandao, his heart was bleeding.

But in the end, he was reluctant to leave.

"I agree with the second option." Changsen Men gritted his teeth and said firmly. But when he looked at Li Xiandao, his gaze was filled with hatred.

Even if he thought that he hid it well, Li Xiandao was able to see through his thoughts right away.

He helped him but he still hated him?

"Then, sign the contract." Li Xiandao didn't care. He didn't bother about a weakling hating him.

Seven prepared the contract and passed it to Li Xiandao.

Li Xiandao took a look. The contents were right. It would come into effect after Changsen Men broke free from Chaos Demon Sect's threats. Changsen Men would have to pay the compensation after he became emperor and if he went against it, he would pay with his life and 10 times more treasures.

Li Xiandao passed it to him and said coldly, "Sign it."

Changsen Men looked at it carefully. He was really helpless but he still signed it in the end.

Like what Li Xiandao said, he couldn't give up on the throne.

After signing it, Changsen Men was really silent.

Li Xiandao didn't worry about him. He kept the contract and shouted for Tian Guangming.

Since Tian Guangming reached stage three, he had been searching for his goal. Now that he found it, he was pumped up.

"Master, you are looking for me?" Tian Guangming asked emotionally.

"Follow this guest to Everlasting Life Dynasty and solve his problem." Li Xiandao passed the contract to Tian Guangming and explained the situation to him.

"No problem, all of these are small issues." Tian Guangming was really relaxed.

"People from Chaos Demon Sect are really strong." Changsen Men couldn't help but say.

"No worries, your grandfather Tian Guangming is even stronger." Tian Guangming was filled with confidence.

## **Chapter 507: Unhappy Changsen Men!**

Tian Guangming and Changsen Men left. Li Xiandao didn't send anyone else as Tian Guangming was enough.

After Changsen Men left, Li Xiandao frowned, "This person is just so greedy, why was he chosen as the heir?"

Li Xiandao had many demands but facing Changsen Men's identity, since he signed already, would he still dare to hate on Li Xiandao?

Was he looking down on Li Xiandao, that he couldn't find out what he was thinking?

Seven said, "I think that there is something wrong. He is only at stage 10 of Grotto-Heaven Realm so how can he become the heir?"

For one to have stage 10 cultivation at such a young age, in Cold Moon Sky, he was a true genius, a top genius.

In Great Sky, he could be considered a good talent.

But in Heaven Sky, he didn't meet the grade.

The spiritual energy in Heaven Sky was the thickest and the dao was best to comprehend here. All conditions were better than the other worlds, so for him to just be at stage 10, he failed.

Such a failure actually became the heir to Everlasting Life Dynasty?

It was tough for one not to suspect that there was something weird going on.

“But even if there is something wrong, it has nothing to do with us. Tian Guangming will help him deal with Chaos Demon Sect and then return. Once he becomes that so-called emperor, we will find him to complete the contract.” Li Xiandao said.

He didn't care about Everlasting Sect. He was just someone at stage 10 Grotto-Heaven and even if he inherited the throne, the gap between him and the Bank of the Universe was too huge.

Li Xiandao didn't worry about him not accepting the contract. He forgot about Everlasting Sect right away and headed out with Seven to take a look at the Nether Purple Mountain which was being hammered.

It wasn't a long time till Li Xiandao's second sword was completed.

...

Everlasting Life Dynasty, this was a strong country that ruled tens of millions of miles. This country was filled with cultivators and they focused on the rule of the jungle.

Fortunately, the spiritual energy here was really thick, and as long as you worked hard to farm, etc., you would be able to survive.

You just needed to worry about disaster coming your way. After all, this was a country full of cultivators.

Fighting in the air and innocent people being harmed was a common occurrence.

All the cultivators in the country worked towards entering Everlasting Life Dynasty.

Everlasting Life Dynasty was a giant city that floated in the air. Spiritual energy dragons wrapped around it, making it look flawless. People couldn't shift their eyes away from it at all.

Even Tian Guangming who came here for the first time couldn't help but look up.

“Are you shocked? This is Everlasting Life Dynasty.” Changsen Men couldn't help but brag.

"I am in awe, is this entire city a Celestial Artifact?" Tian Guangming asked.

"Of course, it is a celestial artifact. Not long from now, this place will be under my control." Changsen Men was really excited and he couldn't help but brag about it.

"That's good, when the time comes remember to settle your contract with the Bank of the Universe." Tian Guangming said calmly, he wasn't envious at all.

Celestial Artifact, I also have one. When the Heaven Emperor Brush is at full strength, you will be the one in awe.

Tian Guangming definitely wouldn't be envious that Changsen Men could control the Everlasting Life Dynasty.

Changsen Men's expression dimmed and he didn't say anything. When he thought about the price that he had to pay, his heart was dripping blood.

"Go, go settle your problems and then I will go back to cultivate." Tian Guangming said.

"Now?" Changsen Men was shocked.

"Of course, news of you becoming the heir hasn't been announced, right?" Tian Guangming asked.

"No, the news hasn't been spread out yet." Changsen Men shook his head.

"That's good, if it isn't announced, then others won't know about it. Chaos Demon Sect definitely won't know. Moreover, how high up will the people be to be able to contact you in Everlasting Life Dynasty?" Tian Guangming used his brain and analyzed the situation.

Changsen Men was enlightened. It made sense.

But shortly after he felt his heart ache. Didn't that mean that Chaos Demon Sect would be easy to solve, so why did he head to the Bank of the Universe and pay such a high price?

Bank of the Universe, vampires!

Changsen Men cursed in his heart.

Tian Guangming looked at him in confusion. Why did his face go from happy to depressed in just a short moment?

"Let's go, lead the way." Tian Guangming rushed. He wanted this matter to be solved, after which he wanted to head back to cultivate and chase up to Heaven Heart.

Changsen Men was helpless. He suppresses his unhappiness and grievances and brought Tian Guangming to find people from Chaos Demon Sect.

As expected, just as Tian Guangming had said, Chaos Demon Sect didn't know that Changsen Men had become the heir. The person in charge of Changsen Men was just a basic level person and he was in charge of intel transmission.

The document that Changsen Men signed was found and it was burned on the spot.

With Tian Guangming suppressing them, everything was done easily without any problems.

But the simpler it was, the more Changsen Men gritted his teeth. He was filled with hate and he was about to go mad.

It was so simple!

It was so simple!

It was so simple!

The Bank of the Universe's Master wanted so many treasures from him and also god source...

What a bastard!

Moreover, Tian Guangming didn't do anything; he just stood there and things were settled just like that.

It was a huge loss for him!

Changsen Men wanted to charge into the Bank of the Universe and question Li Xiandao, why did he con him of his treasures and god source?

*Why did you want so many things from me for such a simple matter?*

Fortunately, he was still rational and didn't blow up.

But his expression soured like someone who had lost their own mother. He looked at Tian Guangming who had the same expression and who wasn't trying to hide it at all.

Tian Guangming didn't care. Since the matter was solved, there was nothing for him to worry about, "Your problem is solved and the evidence is destroyed. people who knew about it have been killed so you are safe now. I have completed the Bank of the Universe's promise towards you. Work hard, try to become the emperor and return what you owe us."

Changsen Men didn't say a word. He was totally silent. Under Tian Guangming's unhappy gaze he forced his words out, "I know."

"That's good, let me warn you, don't provoke the Bank of the Universe. You can't handle the consequences." Tian Guangming looked at Changsen Men strictly, his aura was suppressed right away.

*Hong!*

Changsen Men sat on the ground. How could he handle a Destiny Realm expert's aura? He looked at Tian Guangming in terror and all his hatred and grievances were gone.

"Remember, don't try anything. I can kill you easily." Tian Guangming sensed that Changsen Men was unhappy so he warned him.

"I know." Changsen Men answered right away.

Tian Guangming nodded in satisfaction before leaving to return to the Bank of the Universe.

After Tian Guangming left, Changsen Men gritted his teeth, "Wait and see, once I become the emperor, I will capture all of you."

The ignorant Changsen Men didn't know what kind of faction he was trading with.

He didn't know what Li Xiandao's punishment towards those who broke the contract was.

He just felt like once he took over Everlasting Life Dynasty, then he would definitely be able to fight against the Bank of the Universe and suppress them.

In his world view, Everlasting Life Dynasty was the strongest, especially the celestial artifact Everlasting Life Dynasty.

## **Chapter 508: Hand Over Your Body!**

Tian Guangming left. He dealt with the boundless realm executive from Chaos Demon Sect and completed his promise towards the Bank of the Universe.

But Changsen Men was still filled with hatred.

He returned to his own room and what welcomed him was the guards of Everlasting Life Dynasty.

“Your Highness, the emperor wants to see you.” The general said coldly.

“Okay, is he going to announce that I am the heir?” Changsen Men was delighted and asked.

“That I do not know. You can ask him yourself.” The general said coldly. He told his subordinates to bring Changsen Men over to the emperor’s palace.

Each emperor lived in the palace and dealt with the country’s matters.

Changsen Men followed them emotionally and came to the palace.

The entire palace gave off a cold and strict feeling. When one stood in front of it, it looked ice-cold. Changsen Men suppressed his excitement and he felt really nervous.

The emperor of this generation was his father but since young, he hadn’t seen him much. Each time he saw him he could feel that ice-cold feeling pressing over him. This made it hard for him to breathe.

So in his heart, his father was a scary person.

Now, he stood in front of the palace and was about to meet his father.

Changsen Men was so nervous that his hands started to sweat.

The general had left long ago so only Changsen Men was waiting.

“Enter!” In just a moment, a calm and powerful voice spread out.

Changsen Men collected himself and stepped in.

In the cold and huge hall, the light was dim. There were two people up ahead having a conversation.

Changsen Men was too far away and he couldn’t tell what they were saying. He just saw that one of them was his father, the emperor.

The other person didn’t have an actual body and was like a wandering soul.

The key was that this soul was speaking.

He got closer so he could hear it carefully.

“Can you help me find the body that I want?”

“I have, he is a match for you. You can merge with it perfectly.” Emperor Changsen said coldly.

Changsen Men hesitated.

“That’s good, I need a new body and large amounts of resources to reach my peak. This time I will definitely get the Celestial Gate key.” The shadow said confidently.

“You come from the Celestial World, so naturally, I will help you. Come, take a look at his body.” The emperor turned around and looked at Changsen Men coldly. He pointed and said.

The shadow turned. This was a young person. He seemed cold and he gave off a strong aura.

He looked towards Changsen Men and was really unhappy, “His cultivation is too low.”

Changsen Men’s legs went soft, he was so stunned that he didn’t know what was going on.

Didn’t he come to inherit the position of emperor?

He should have been announced as the next heir and then raised and nurtured to break through and improve?

What was happening?

It shouldn’t have been like this!

Changsen Men looked at his own father in terror, “Father, didn’t you call me over to be the heir?”

The emperor said coldly, “Your cultivation is so low and you are so extreme so why should I choose you as an heir?”

“But they said…” Changsen Men was shocked and filled with disbelief.

“Don’t worry, you have no right to be my heir but you are lucky to be the body of a Celestial.” The emperor announced coldly.

“He is stealing my body?” Like he was being struck by lightning. Those words were like lightning on a summer day and crisped him up.

What joy?

What delight?

Taking over the dynasty?

All of it was fake!

Changsen Men really felt betrayed. He looked at his father in disbelief. He couldn't suppress his rage and hollered, "I am your son, a father never feeds on his own children and now you want to let others steal my body?"

"A trash of a sun compared to a Celestial, don't you think that this is your great fortune?" The emperor looked at Changsen Men who had gone mad and said coldly.

"I don't think so!" Changsen Men shouted in rage. He had experienced extreme happiness and now extreme sadness. During this period he also had his hatred towards Li Xiandao and the Bank of the Universe mixed in. He was about to collapse.

He really felt like life wasn't worth living. What kind of pain was all this?

"Can't you pick others, why me?" Changsen Men questioned.

"That is because your body is special and is befitting of the Celestial so it has to be you. This is your honor." The emperor said calmly.

"Don't worry, after he takes your body, I will announce that you are the next heir. Even if the soul isn't you, the body is. You can rest in peace." The emperor's voice was ice-cold and it stabbed Changsen Men's heart.

"Stop talking nonsense, I shall take his body and swallow him whole." The celestial's shadow flew over and charged into Changsen Men's body.

"No...." Changsen Men hollered in rage and he tried his best to block.

But in front of the Celestial's soul, his attempts were totally useless. He was really weak and was just shattered by a touch.

In just a moment, Changsen Men stood right back up. His expression and aura were different and his cultivation broke through to Boundless Realm right away.

"From now onwards, on the surface, you are the heir and the hope of Everlasting Life Dynasty." The emperor said.

"Good, I will need resources and time to break through. When the time comes we can go search for the key." The new Changsen Men stretched himself and said.

"You came down alone?" The emperor asked.

"I don't know, it might just be me temporarily. I came down in advance. Maybe people came earlier than me." Changsen Men said calmly.

"Okay, then go and break through. I have enough resources." The emperor looked on as Changsen Men left.

...

Within the Bank of the Universe, Li Xiandao was looking forward to the Nether Purple Mountain's final form.

Nether Purple Mountain that was being worked on for days had reached its final step.

Li Xiandao and Seven looked on.

But suddenly, she frowned, "Changsen Men is dead."

Li Xiandao was stunned, "What did you say?"

"Changsen Men is dead!" Seven added.

"He left just a day ago and died?" Li Xiandao's turned solemn.

Even if he didn't like Changsen Men, but he was a guest and he was someone that could bring them riches.

Li Xiandao was really polite towards those who did so.

"More accurately speaking, he died for a few minutes and then revived." Seven's exquisite brows rose up and she found it really weird.

That was the information that the contract spread to her.

Changsen Men died but that was just for a moment. All signs of life were gone and the contract was about to turn black.

But suddenly he came back to life and he was perfectly fine.

This was really unexpected.

Both Seven and Li Xiandao frowned.

## **Chapter 509: Eavesdropping!**

"Did the information on the contract suggest that Changsen Men died?" Li Xiandao asked Seven.

“A moment. Right when the contract was about to turn black, Changsen Men revived.”  
Seven was confused.

Li Xiandao frowned and called Tian Guangming over.

He didn't care much about Changsen Men but because Changsen Men still owed the Bank of the Universe many treasures.

Another thing was that since Li Xiandao started to trade until now, there were no deaths and no contracts that were trashed.

Once the contract was signed, if he died during the period of the contract, it would automatically get trashed and the Bank of the Universe would accept the loss.

Since Li Xiandao took over the Bank of the Universe, he had dealt with many contract losses and saw many where the contract ended automatically.

Each time he saw them end by themselves, Li Xiandao's heart was dripping blood. Behind the contracts were resources that the Bank of the Universe injected and invested.

It wasn't without reason that the last owner of the bank had wasted all of the Bank of the Universe's riches.

So to prevent a repeat of the past, Li Xiandao paid a lot of attention to the completion of the contract.

Even if he didn't invest a lot in the contract, just sending Tian Guangming out, that wasn't an excuse.

Li Xiandao didn't want the first case of a contract automatically ending.

Tian Guangming rushed over and asked curiously, “Master, is there something you need me to do?”

Li Xiandao shook his head and said, “You went to Everlasting Life Dynasty with Changsen Men, so was there anything off with him?”

Tian Guangming thought about it and said, “There wasn't anything huge but maybe because I handled Chaos Demon Sect too easily which made him unhappy and he felt like the price he paid wasn't worth it.”

Li Xiandao asked curiously, “Apart from being unhappy, was he under any danger?”

“Definitely not, he is currently the heir to Everlasting Life Dynasty, so why would his life be in any danger?” Tian Guangming said with certainty.

“Everlasting Life Dynasty is a celestial artifact, a giant floating city. There are many people staying there. So it is really difficult for one to be able to kill Changsen Men inside.” Tian Guangming continued.

Li Xiandao looked towards Seven.

Seven pinched her chin with a troubled expression.

She said, “But the contract can’t be wrong.”

“Tian Guangming!” Li Xiandao said solemnly.

“Here, Master please instruct me.” Tian Guangming stood straight seriously.

“Go find this Changsen Men and see what is going on. Let’s talk about this after you are certain.” Li Xiandao said solemnly.

“Understood.” Tian Guangming agreed right away. Even if he didn’t want to go, this was Li Xiandao’s order.

Tian Guangming wasn’t able to reject Li Xiandao’s orders.

Li Xiandao looked on as Tian Guangming left and said towards Seven, “Don’t worry, I will get to the bottom of this. This also creates a problem with our first contract.”

The contracts in the past were perfectly fine. Only this contract was a little problematic. Li Xiandao had to get to the bottom of it.

...

Tian Guangming headed out of the Bank of the Universe previously and dealt with a Boundless Realm executive of Chaos Demon Sect. He then returned to the Bank of the Universe to cultivate. Who knew that Li Xiandao would call him out again?

He came and went, came and went, making him feel really helpless.

Luckily, he had already remembered the path and easily came to the Everlasting Life Dynasty.

The tightly guarded, majestic Everlasting Life Dynasty floated in mid air. Tian Guangming paid some fees and entered the Everlasting Life Dynasty.

Apart from some specified regions that one couldn't enter, one could walk around Everlasting Life Dynasty freely. There were many people here and they were all cultivators. None of them were normal people.

After Tian Guangming entered, he headed to Changsen Men's residence right away.

Even if Changsen Men wasn't respected, he was still a son of the emperor. After he matured he had his own residence although it was old, dilapidated, and quite far.

Now, that residence was his clue.

He came to the residence. There was no one guarding. Although it was tightly shut, Tian Guangming still entered.

But Changsen Men wasn't inside.

There was an auntie who was in charge of cleaning. For a prince to only have one auntie, that was quite tragic.

"Where is Changsen Men?" Tian Guangming didn't want to say any nonsense. He hypnotized the auntie and asked.

"He was summoned by the emperor's guard general into the palace." The auntie was in a daze as she answered.

Tian Guangming immediately went to find the guard.

This guard was at Grandmaster Realm, just one step away from Emperor Realm.

But the gap to Tian Guangming was still huge.

This gap allowed Tian Guangming to hypnotize him to ask, "Where is Changsen Men?"

"The emperor summoned Changsen Men. When he came out, he entered a guest area and hasn't come out since." The guard general said what he knew.

He was in charge of guarding the gates and naturally saw Changsen Men exit but not leave. He just remained in the guest area to rest and cultivate.

So he told that to Tian Guangming but he didn't know that Changsen Men already had a new soul.

Tian Guangming was about to tear up. Tough. Since he came from the Bank of the Universe, he had hypnotized people one by one. As he was afraid that people would notice him, he had been really careful.

Fortunately, he was at stage three, otherwise, the others would have definitely noticed him.

Now that he had found Changsen Men with much difficulty, Tian Guangming swore that he would definitely beat him up.

He caused trouble for no reason and made Seven worried.

The moment Seven was worried, Master would be worried too.

Once Master was worried, he would be the one who would be hurt. He came from so far away to ask each person.

He came to where Changsen Men was and realized that the spiritual energy here was really thick and there was a heavy smell of resources.

Changsen Men had actually broken past Boundless Realm and entered Legend Realm.

What was going on?

Even if he took drugs it couldn't be so quick, right?

*We separated for just 12 hours and you went from Grotto-Heaven Realm to Legend Realm?*

That was worse than someone on drugs.

Tian Guangming noticed some problems. There was definitely something wrong with Changsen Men.

He snuck over to the door and listened in to try to find out some useful intel.

"Master, I have come down and occupied a body. Now, do I increase my own strength and find the Celestial Gate key and then open it?" A confused voice asked.

An ethereal voice rang out, "You need to speed up. The two I sent before couldn't cause anything and all of them died. I was so disappointed."

"Master, I will be different from them." Changsen Men said firmly.

"I know that you won't be like that. You are my best disciple who reached Celestial Realm at such a young age. Once you finish cultivating, head to Cold Moon Sky and find Heaven Mountain. Based on the news I received, that's where the key is." The master's old voice rang out.

## **Chapter 510: Conned!**

The conversation in the room continued. The Celestial that occupied Changsen Men's body was communicating with his Master through the Celestial and mortal divide.

Outside the room, Tian Guangming hid and listened in shock.

The new Changsen Men just entered Legend Realm and didn't notice Tian Guangming.

"Someone actually took his body, it was even a Celestial." Tian Guangming felt like this trip was worth it and he had gained a lot.

Within the room, the Celestial continued to ask, "Teacher, after getting the key, do I immediately open the Celestial Gate?"

"Don't open it right away. You can find emperor Gouchen's reincarnated body." The teacher instructed.

"I understand, but did he really reincarnate here?" The Celestial asked.

"Right, search for him carefully but don't move carelessly. Inform me right away and allow me to lay out a formation to kill him." The teacher said solemnly.

"Okay, I understand." The Celestial ended the conversation in satisfaction and continued to cultivate.

What he had to do was continue stacking his cultivation and try to reach Destiny Realm soon. He would then get the key and find Emperor Gouchen.

Outside the room, Tian Guangming retreated silently and left the range of the room. He didn't alert them and shock the Celestial. He chose to inform Li Xiandao first.

After all, this was a Celestial from the Celestial World and Master had to be the one to decide.

Within the Bank of the Universe, Li Xiandao received Tian Guangming's information.

After hearing this, his expression turned solemn. He stood with his hands behind his back and thought about it.

Since the last time when he met the Celestial that came down in Cold Moon Sky, Li Xiandao hadn't faced one yet.

He thought that Celestials wouldn't appear so soon but who knew that he would meet one right away in Heaven Sky?

This person could actually communicate with his teacher in Celestial World.

Of course, the key was that he killed Changsen Men.

The real Changsen Men was dead, so Li Xiandao's contract ended in a failure.

Ever since he received a guest, he had never failed and all his contracts were perfectly completed.

But this time, the contract failed.

Even if Li Xiandao didn't put much effort in, just sending Tian Guangming out on a trip, he still felt really annoyed.

Li Xiandao told Seven about it.

After Seven heard it, she said regretfully, "This contract is finished. How are you going to deal with this Celestial?"

A cold light flashed in Li Xiandao's eyes and said, "No matter what, this Celestial caused my contract to fail and he wants to steal my key. He is my enemy."

Seven looked at Li Xiandao and didn't say a word.

"Tian Guangming, capture this Celestial. He should be at his weakest. Don't let Everlasting Life Dynasty find out." Li Xiandao gave a cold order.

"Understood Master!" Tian Guangming nodded his head solemnly.

Li Xiandao ended the conversation. His face was ice cold and he wasn't in a good mood.

"Can't Celestials just stay up there nicely? Why do they keep thinking about coming down?" Li Xiandao muttered.

"This Celestial didn't come down for the key but also Emperor Gouchen's reincarnation." Seven said.

"I know about that emperor, a top talent in Celestial World. He has four rulers and is in charge of a huge bunch of experts. Why would he choose to reincarnate?" Li Xiandao found it weird.

The Head of the Celestial Dynasty had four rulers, Gouchen Emperor, Ziwei Emperor, Qinghua Emperor, and Houtu Emperor.

The four of them were supreme experts in Celestial Dynasty and the Ruler wasn't even able to give them orders. Li Xiandao saw many books in the Ten Thousand Country Book Depository. Without exception, they all recorded very similar things.

"I am not sure. Wait for Tian Guangming to capture him first before asking." Seven shook her head.

Li Xiandao could only wait.

...

After Tian Guangming received Li Xiandao's orders, he headed back to the room.

This was within Everlasting Life Dynasty's palace. Tian Guangming didn't dare to cause a huge commotion. As a top faction in Heaven Sky, Everlasting Life Dynasty had many top experts. If he caused too big of a problem, he would need Master to save him.

Luckily, this Celestial just took Changsen Men's body and Changsen Men was only stage ten of Grotto-Heaven Realm. He was really weak. Even if the Celestial's soul was adjusting and improving him, he didn't reach a high realm.

He was only at Legend Realm, very far away away from Grandmaster Realm, much less Emperor Realm and Destiny Realm.

So, Tian Guangming just had to be careful and not cause too much commotion and he would be fine.

Of course, he had to be extremely careful. He spread his aura to wrap up the Celestial's courtyard to prevent any noise from escaping.

Ensuring that everything was fine, Tian Guangming smiled and knocked on the door.

*Dong dong dong!*

Tian Guangming knocked softly, using his fingernails to scratch at it.

He was really polite.

The Celestial in the room was shocked and looked at it in disbelief, "Someone actually came?"

He didn't notice anything. Didn't that mean that he couldn't block this person?

"Didn't the emperor say that no one could disturb me?" His face was dark and sunken. He had a bad feeling deep down.

“Who are you?” He asked seriously.

“I am here to check the water meter!” Tian Guangming said.

The Celestial frowned and didn’t understand.

“If you don’t open the door, I will break in. I have already given you face.” Tian Guangming said coldly.

“You are from Everlasting Life Dynasty?” The Celestial asked coldly.

“Peng!”

Tian Guangming didn’t want to say any nonsense. With a slap, he shattered the entrance and strolled in.

*Hong!*

His stage three aura suppressed the entire room, causing the Celestial who wanted to escape to kneel on the ground.

“You still want to run?” Tian Guangming smiled coldly.

“Who are you? I am the emperor’s guest, you are too bold.” The Celestial was furious.

“You don’t need to know who I am, I am also not afraid of what emperor. I am here to take you away.” Tian Guangming said calmly.

“You are too arrogant. Everlasting Life Dynasty is tightly guarded, how did you get in?” The Celestial panicked. He was at his weakest state and wasn’t Tian Guangming’s match at all. The Destiny Realm aura made him unable to move at all.

“Everlasting Life Dynasty is strong but any faction that ruled in peace for long would be overconfident. It is simple for a Destiny Realm expert to sneak in.” Tian Guangming was delighted.

“Save me!” The Celestial shouted in rage. He tried to make the Everlasting Life Dynasty find out to save him.

“Stop shouting, even if your voice breaks no one will save you. Be well behaved or I will show you the true meaning of pain and suffering.” Tian Guangming laughed coldly.

The Celestial kept quiet and said, “Can you tell me which faction you are from?”

“You will find out when you follow me.” Tian Guangming grabbed him and tossed him on his shoulder. He walked out and sealed the Celestial’s strength along the way.

He couldn't speak and his energy was locked in his dantian. His body was carried away and he couldn't move at all.
